## MOBS LOOT STORES OF JEWS AND FIGHT WITH THE POLICE

Hospitals Are Filled With Wounded Following Clash Between Soldiers and Rioters in Monmouthshire.

[Canadian Press.]  
London, Aug. 22.—Thirty persons are in the hospitals this morning as the result of the fights between mobs and police at Ebbwale, Rhymney and Trefdar in Monmouthshire. The clashes took place at an early hour this morning, when the rioters looted the stores of Jews and defied the police. The mob fought the police gleefully, but the sight of the military forces everywhere had a sobering effect.  
The position of men who make the trips on the short sea trading vessels is again causing trouble at the London docks. The transport federation, with a view of not dislocating the work in the port, has offered to submit to arbitration the terms of the award rendered by Director Albert Kaye Rolit. The offer of the transport federation, however, has been refused. Sir Albert Rolit was appointed to settle the trouble with the transport workers, but his award in some cases did not satisfy the men.  
New Agitations.  
The federation, following the refusal, has invited the short sea trip men to decline to work on vessels, the owners of which refuse the men 16 cents an hour for working in the day time and 25 cents an hour overtime.  
The coal handlers are now agitating for working of gangs of five instead of four, as now is the case.  
At Swansea the railroad men have again gone on strike. They allege that only 60 out of the 600 men at the Midland Railway who struck, have been reinstated in their old positions.

## THOUSANDS OF PORT HURONITES COMING ON THE BIG EXCURSION

It Is Expected That Between 3,000 and 3,500 Will Be Here Tomorrow—Mayor John Bell Will Be Amongst the Visitors.

It is expected that from 3,000 to 3,500 residents of Port Huron will take advantage of the excursion to this city tomorrow.  
The Retail Grocers' Association have received word that two special trains will convey the visitors to London.  
Mayor John Bell and some of the city commissioners are coming with the excursionists. The city council will entertain his worship at luncheon and a drive around the city.  
"There will be a big crowd here," one of the local grocers informed The Advertiser. "We have arranged a fine programme, and there should be plenty of fun for all. In addition to Port Huron visitors, there will be many from Galt, Guelph, Woodstock and other cities. We have received many letters to the effect that a large number from towns and cities close to London would be here to spend the day."

## 50 Cents a Barrel More For Apples.

In reply to an inquiry from East Lambton, James E. Johnston, secretary of the Norfolk Fruit Growers' Association, and a prominent Conservative, sent the following views of the effect of reciprocity upon the apple market of Canada.  
"Will say that I have shipped apples to the U. S. markets nearly every year since 1896, and I consider the U. S. market, which is so near at hand, is the best market for Ontario apples. We would, I consider, be benefited to the extent of about 50 cents per barrel by having reciprocity."

## GIRL FOUND DYING IN HAMILTON PARK

Empty Poison Bottle and Note to Her Mother by Her Side.

[Canadian Press.]  
Hamilton, Aug. 22.—Mildred Hamilton, a young woman who resides at 110 Market street, was found dying in Dundurn Park by one of the keepers early this morning with an empty carbolic acid bottle by her side. A note addressed to her mother was found pinned on her clothing. An ambulance rushed the girl to the hospital but the doctors have little hopes of saving her life. The police say they do not know the contents of the note.

Syracuse, N. Y., Aug. 22.—On the ninth day of his aeroplane flight from St. Louis to New York, Harry N. Atwood, the aviator, today planned to fly along the 115-mile stretch from Belle Isle, five miles west of here, to Albany. ## C. P. R. BUYS LAND IN THE SOUTH END

Big Company Preparing To Go After Important Business.

Several People Have Been Approached and Already Sales Have Been Made.

The C. P. R. is stated to be bonding a great deal of property in the south-eastern section of the city, in close proximity to the London and Port Stanley tracks, and south of Hill street.  
For some time there have been rumors of an extension of the company's tracks to this section of the city, in order to secure the business of the manufacturers there. The Grand Trunk has a big advantage over the C. P. R. in these sections, and it is tenuous that the C. P. R. is endeavoring to secure an extension of their lines.  
Several property-owners in the south end have been approached, and have given prices for their lands.  
Some have given verbal options, while others have given written options. In some cases part of the price has been paid in cash.  
Real estate men have been looking over the ground lately, and it is apparently no secret that the C. P. R. is purchasing land for extension purposes.  
"The company have land outside the city limits for their right-of-way into London," said a railway man to The Advertiser. "All that is needed is the property near the London and Port Stanley tracks. These are obtainable now, and in a short time a definite announcement will be made in reference to this matter."

## BILL FOR \$30 IS PRESENTED BY GERRY FLATS VALUATORS

At the City Hall There Appears To Be No Undue Haste in the Payment of Messrs. Lawrence, Parsons and Hayman.

A bill for \$30 was handed to the water commissioners yesterday afternoon, and the members of the board are waiting to see what the board has to say about it. It is the claim of Messrs. Joseph Lawrence, John M. Parsons and William Hayman for \$10 each in connection with the Gerry flats arbitration matter.  
None of the officials at the hall knew anything about this bill, and it was claimed that the men never did any work to entitle them to the money. The claims have not yet been paid, and it may be some time before they are.  
However, Mr. Joseph Lawrence explains that he and the other gentlemen attended five sittings of the court of arbitration.  
"We went there five times, and are entitled to the money for that work," he stated. "Of course, we were not called on to give our opinion, as the matter was called off. That was not our fault, and we are now asking for the money. We were ready to give our evidence. There is no question but that we were properly appointed. I received a letter naming me as one of the valuers. That is what we want pay for."  
On the other hand, the commissioners claim that they know nothing of the transaction. In the meantime, Joseph has not been paid.

## PAYMENT WAS HELD UP BECAUSE A NEW DEAL WAS TO BE SOUGHT

This Is Why Ex-Alderman Gerry Did Not Get the Money As Was Promised for the Wells on the Flats.

The water commissioners have made no effort as yet to settle the difficulty over the acquisition of the Gerry Flats.  
Yesterday, Mr. Gerry notified the board that the deal would have to be closed within 48 hours, or he would cut the wells off.  
Chairman Pocock, in discussing the matter, declared that as far as the commissioners were concerned, they were ready to abide by the agreement made some time ago—\$300 for each well. Their solicitor, Mr. T. G. Meredith, was out of the city, and it would be impossible to dispose of the question until he came back.  
It is understood that the delay was largely caused by the fact that Hon. Adam Beck wanted to settle by buying the land outright.  
The deal, on the basis of \$200 for each well, was made while Mr. Beck was in England. He was quite satisfied with the terms, but was of the opinion that it would be better if the city had the whole property.  
It was expected that Mr. Beck would see Mr. Gerry and endeavor to arrive at some agreement.  
Mr. Gerry declares that he has not been approached, nor has any other been made to him.  
"I am bound to stand by my decision," said Mr. Gerry. "I am tired of all this delay."

## A WHO'S WHO BOOK FOR INDIAN LISTERS

Society Growing So Rapidly a Special Directory May Be Necessary.

It is likely that before long London will have a distinct novelty in the shape of a special directory for Indian listers. Owing to efforts of Magistrate Judd, the list is increasing at such a rapid rate that the circular that used to be sent around is rapidly getting too small, and Inspector Galpin is thinking of getting out a book.  
So far this month Magistrate Judd has added 16 names to the Indian list brigade. Last month he added 25.  
They're Coming Fast  
"We never had them coming so fast," said Inspector Galpin to The Advertiser

The estate is valued at \$48,000, and is divided among the author's widow and his four children. Mr. Crawford owned little property in this country outside of the copyrights on his numerous books.

The London Playgrounds Association is in receipt of a check for \$10 from the London Council of Women to be appropriated for use in the purchase of prizes for the girls' competitions at the public baths to be held on Sept. 1.

## WRONG STEEL IN THIS BRIDGE

Peculiar Mistake Made in Construction in London Township.

## SHIPMENTS WERE MIXED POST MORTEM ORDERED

One For Township, and One For Montreal, Thrown Off at Pottersburg in the One Pile.

A rather peculiar situation has developed in the construction of a reinforced concrete bridge a short distance east of the city on the second concession of London Township.  
Mr. Freeman Fairbank, the contractor, ordered the steel rods for the bridge from the Walkerville Bridge Company, and unloaded a shipment at a siding at Pottersburg.  
It was remarked at the time that the Walkerville people had altered their system in the construction of such bridges, as there was so much steel that the arch would hardly contain it. Some days after the whole shipment had been safely embedded in a couple of feet of concrete, from which it could not possibly be removed, the Grand Trunk Railway Company, gave notice that a large quantity of material intended for Montreal, which had been shipped to London with the local order, had been lost. It was located in the London Township bridge.  
Just what can be done under the circumstances is being decided. Any rate London Township has one cement bridge that will last for many a day.

## SMALL SUMS STOLEN FROM NORTH END HOUSES

Several Homes Entered During the Past Few Days.

During the last few days several North End residences have been entered. Various sums of money, between \$10 and \$25, were stolen. It is believed that the thieves who gained entrance to the home while the family were out.  
At another place nearby a smaller sum of money was taken, and at a home several dozen saws 75 cents each were stolen. It is believed that the thieves were the work of boys. The police have been notified regarding the matter, and are investigating.

Wheeler missed his footing while standing on the edge of the hill and fell a considerable distance.  
It was stated at Victoria Hospital this afternoon that Wheeler was not very seriously hurt, but sustained a rather severe shaking up. He will be laid up a few days.

## INQUEST INTO WOMAN'S DEATH

Mrs. Allen Karn Succumbed to Hurts Received in Fall From Car.

## POST MORTEM ORDERED

Was Going Home With Her Husband When She Noticed He Had Left the Car, and She Tried to Get Off.

Coroner Dr. Ferguson will conduct an inquest into the death of Mrs. Allen Karn, of Baling, who died in Victoria Hospital shortly after midnight from injuries she received last Wednesday evening by falling from a street car on Horton street.  
A post-mortem examination will be made at once. Mrs. Karn was on her way home with her husband when he left the car, and she did not notice that he was gone. It is said, until the car was half way down the block.  
When she rushed to the rear step she jumped off without waiting for the car to stop, and fell in the roadway, sustaining terrible injuries to the back part of her head.  
She died without ever regaining consciousness.  
Coroner Ferguson stated to The Advertiser that under the new act all deaths occurring in connection with steam or electric railways must be investigated officially.

## YOUNG COUPLE CANNOT AGREE

There Appeared To Be Two Sides to a Story Heard in Court.

## NO TRUCE PATCHED UP

P. M. Judd Tried Sunny Efforts, But Scored a Failure on One Matrimonial Difficulty.

The story of a 15-year-old girl, who ran away and got married without her mother's consent, was unfolded in the police court this morning, when Mrs. Amy Ross, of York street, charged her husband, William Ross, with non-support and desertion. While giving her evidence, Mrs. Ross lost her temper, made statements which only left the court one course to take, that of trying to arrange a settlement. He took Mrs. Ross, her mother, her 3-year-old boy, over to his home, where he had his office, and after trying to get them to come to some understanding, adjourned the whole thing for a week to try and let the interested parties arrange the details.  
Pleaded Not Guilty.  
When the case was called, Ross, who is a very boyish-looking young fellow, pleaded not guilty to the charges against him. His wife thereupon went into the box, and on being questioned by her solicitor, Mr. Jared Vining, said that she was married on June 6, 1907, in St. Andrew's Church, when she was only 15 years old. She and her husband went home to her mother's house immediately afterwards. Her husband had boarded there for some time. Nothing was said about the marriage for a couple of weeks after they lived together. Her husband drove a fruit wagon, and made \$10 a week, and used to give her money quite often to buy a good many articles of clothing. Things went along fairly well until April 26, 1910, when he left the house very suddenly, not telling her where he was going away. He did not offer to take her with him.  
Since that time, until yesterday, she had only spoken to her once, and had contributed not a single cent toward either the support of herself or her mother. Vining said she had been supporting herself ever since by working in various stores, and made \$5 a week. She stated that although her husband was living only three doors away, at his father's house, and passed very often, he never looked at her or spoke to her.  
Cross Examination.  
Cross-examined by Mr. E. W. Scott, who represented Mr. Ross, witness said they had been married without the consent either of his father or her mother. Her husband frequently gave her money, and used to put some money in the bank. She knew he had some money in the bank, and one time when she wanted some articles badly he would not give her any, but went and paid \$10 for a peanut roaster, which was placed in front of his father's store. He suggested several times that they leave her mother's house and live by themselves, but the witness did not want to go because she knew he didn't have money enough. One evening about two weeks

RAMSAY McDONALD TAKES CRACK AT CHURCHILL

Denounces Home Secretary for Activity in Strike Trouble—

British House Adjourns.

[Canadian Press.]

London, Aug. 22.—James Ramsay

McDonald, chairman of the Labor

party, took a prominent part in

the negotiations for a settlement, was

optimistic today and told the House

that if the spirit shown on both sides

during the course of the negotiations,

as revealed in future relations, the

country had heard the last of railway

strikes in this day and generation.

However, he was not so

optimistic as to the future of the

employment of soldiers during the

strike, and he declared that the

Government had no intention of

allowing the men to continue the

fight against a settlement.

I hope that we have heard the last

of these railway strikes, and that

the country will be able to get on

without any further interruption

of the railways.

Parliament adjourned to Oct. 24.

### ATTRACTIONS AT THE FAIR

Programme Each Afternoon at 2, and  
Night at 7:30.

A meeting was held last night at  
the Western Fair office in connection  
with the attraction programme. Those  
present were Col. G. G. Gresham, Band  
master Slater, who will have charge  
of the military tattoo; Chief Atken,  
Col. Abbott, of the First Hussars; Mr.  
G. N. Weekes, of the Boy Scouts; Mr.  
A. D. Holman and the secretary, A. M.  
Hunt. After going over the programme  
carefully it was decided to start the  
afternoon performance at 2 o'clock  
sharp, and the evening at 7:30 sharp.  
There will be plenty of music previous  
to the opening of the programme, so  
that there will be no tedious waits.  
Everything will be carried through  
with a snap and vim from first to last.  
The exhibition of the firemen alone  
will be well worth seeing, and some-  
thing that very few of the citizens of  
London have ever witnessed. All the  
other features, as advertised, will be  
given each afternoon and evening with  
the military tattoo and fireworks each  
night. There will be plenty of music,  
not only at night, but throughout the  
day as well, and it is fully expected  
that the programme offered will be  
the best ever presented. Programmes  
and all information will be given by  
the secretary.

Whitney opened his campaign against

Sir James came out for "reason-

drawers of water for the Americans  
should the trade agreement go  
through.

### ANTI-RECIPROCITY

Continued From Page One.

his country to a great accomplishment  
and, by the same token, a manufac-  
turer, he cannot sight the shadow of  
an intrusion upon his trade interests.  
Rather he thinks of an appeal made  
to his father, the giant of all farmers  
in Lambton County, who has been  
firm for lay by the carload at ad-  
vanced prices, with the hope ex-  
pressed that with the coming of reciprocity  
he can produce deductions from the  
market of Lambton and Ontario might be ma-  
terially extended. Those are the sort  
of arguments that Dr. Fairbank is  
carrying to the men of the soil.  
Perhaps it is that the candidate's  
delving into science research for many  
years gives him his ready grasp of  
statistics. He can produce deductions  
in verification of everything upon  
which he presents an argument, and  
yet his contact with practical business  
has made him anything but a theorist.

**American Benefits Familiar.**  
Lambton has an advantage over  
many of the other ridings in that it  
practically has given the United  
States market a splendid trial. The  
returns from the port of Spain will  
prove this. Thousands of tons of hay,  
thousands of gallons of cream, and  
sugar beets to the value of more than  
\$300,000 have gone through the tun-  
nel in the fiscal year ending March,  
1911, and, thanks to Mr. Armstrong's  
enterprise, the present year is said to  
have brought an increase.

Dr. Fairbank largely submerges  
himself to the issue in this campaign.  
He dwells little on the service of  
himself and his father to riding,  
nor does he recall Mr. Armstrong's  
bitter fight with his own party on en-  
tering the field. He sends home cream  
and sugar and hay, and the farmers  
respond. He is not drawing attention  
to the work of the Lambton Publicity  
Association, because that body is  
strictly non-political, and numbers  
with Dr. Fairbank, among its officers  
Mr. J. E. Armstrong, M. P., Hon. W.  
J. Hanna and R. J. McCormick, M. P.  
The Lambton County Association, on  
the other hand, is making plain the association's un-  
compromising attitude on the question  
of the day.

The Lambton Publicity Association,  
"a voluntary organization of lead-  
ing citizens and members of the mu-  
nicipal bodies of the county of Lamb-  
ton, and has in view the development  
of the latent resources and opportuni-  
ties of this splendid territory. This  
booklet has been compiled and pri-  
nted at public expense, and not with any  
view to private gain."  
The handsome folder, proclaiming  
the county's claims upon settlers, was  
issued some few months ago, and sent  
to all corners of the continent. It is  
admittedly Lambton County's well-  
justified opinion of itself. It is Lamb-  
ton County's official trade attitude to  
the world.

Much of its well-edited and care-  
fully-written matter is the work of  
Conservative Lambton County news-  
paperman, who is also, by the way,  
a relative of one of the Conservative  
members mentioned in the above list  
of officers.

**Significant Quotations.**  
The quotations which are herewith  
presented need no further comment.  
First—The county is traversed  
east and west by three lines of rail-  
ways, while branches run north and  
south as well as an independent  
trunk line. The charters have been  
taken out for two electric lines,  
which will still further improve the  
transportation facilities.  
**Advantages of American Market.**  
In addition to these, there are two  
features of increasing importance to  
be noted. The proximity of the  
United States is a factor of increas-

### CHANGE OF AIR

### WOULD HELP POPE

But This Would Mean Moving Out of  
the Vatican.

Rome, Aug. 21.—The Pope is out of  
danger, and convalescent, but will he  
ever become as strong again? Will he  
before he throw away his return  
ticket to Venice and shut himself up  
in the Vatican?  
That is the question of absorbing in-  
terest here. Professor Machiavelli  
and Dr. Petacci, the two celebrated  
physicians who for months have un-  
ceasingly and assiduously attended the  
Pontiff and studied profoundly his  
condition, answer that notwithstanding  
his 77 years, his rundown state,  
and his overworked, strenuous life, he  
could recover entirely on certain es-  
sential conditions, chief among which  
would be a change of air.

This would mean moving out of the  
Vatican, thus renouncing one of those  
forms of protest which the Holy See  
adopted at the fall of the temporal  
power in order to maintain its claims  
for the civil possession of Rome.  
There is a strong party which de-  
clares that so precious a life as that  
of Pius X. must not be risked as a  
sacrifice to what is really a simple  
form, as the essence of the protest is  
not represented by voluntary and, to a  
certain extent, useless imprisonment  
in the Vatican, but has been  
solely contained in every word, in  
every document, in all official docu-  
ments which for the last 41 years have  
emanated from the three men who have  
sat in the chair of St. Peter since  
Sept. 20, 1870.
