PREFACE.

In presenting to the public the Fourth Edition of the St. John City Directory, the Publishers hope that their patrons will find it fully equal, if not superior, to any former Edition, no expense or trouble having been spared to make it so.

In their efforts to make a perfect directory, the publishers have many difficulties to encounter; such as the unwillingness of householders to give the proper information, the refusal or inability of hotel and boarding house proprietors to give the names of their boarders, and the fear of the Public generally that the information asked for is in some way connected with taxation, leading many workmen and others to give fictitious names and addresses.

The most serious difficulty the Publishers have had to contend with this year, is the want of numbers on the houses; it is to be hoped, however, that, before another Directory is issued the Corporation will have the houses numbered, and names of streets placed on the corners, in a style which will do credit to the City.

By the use of the Street Directory, which has been carefully prepared, and which gives the names of all householders in the City, the position of a given number on a street can be easily ascertained, by which much of the difficulty connected with the houses not being numbered may be obviated; a few minutes study of this portion of the work will demonstrate its value.

Included in this work are separate Directories of the town of Portland and village of Fairville.

Beginning at page 25 will be found an Index to Advertisements and a Business Directory of Advertisers. Persons who wish to make purchases, or have work done in any line of business, will there find the names and addresses of the principal firms in the City and Portland.

By reference to the Table of Contents, at page 21, it will be found that, as usual, the Appendix is complete with valuable information.

A synopsis of the Census returns for the city and county of Saint John and town of Portland, (as far as published), is given at page 29; it is hoped that this information will be found both useful and interesting.

To the Advertisers and Subscribers and to all who in any way assisted them in getting information for the work, the Publishers hereby tender their sincere thanks.

Waters' Philharmonic Organs,

In Unique French Cases, are among the best made, and Combine Purity of Voicing with great Volume of tone. Suitable for Parlor, Church, or Music Hall.

TESTIMONIALS OF

Waters' Pianos and Organs.

An Orchestra in the Parlor.—The Orchestral Organ is the name of a new Reed Organ recently announced by Horace Waters & Son. The instrument takes its name from its recently-invented orchestral stop. The voicing of this is peculiar, producing the effect of a full sweet, contralto voice. Its finest effect is produced when the stops are drawn. Then the full chords are toned down, so that an orchestral effect is given. The case is unique, and makes a handsome article of furniture.—*N. Y. Sun.*

Messrs. WATERS & SON have devoted their whole capital and attention to the manufacture and sale of pianos and organs, and their instruments have recently been awarded the first premium at several fairs. We happen to know that their instruments earned them a good reputation long before Expositions and the "honors" connected therewith were even thought of; indeed, we have one of the Waters pianos now in our residence (where it has stood for years) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the said piano, and all pronounce it a superior and first-class instrument. Stronger indorsements we could not give.—*Home Journal.*

MARGESON'S CALCULIFUGE CURES

Gravel, Stone in the Bladder, Dropsy, and all Diseases of the Kidneys.

DIRECTIONS—One wine-glassful in as much water, each morning, noon and night.

In all ordinary cases one bottle is sufficient, except for a beast when two or three may be required.

The Proprietors can highly recommend this medicine, as it has been the means of curing over 200 persons before placing it on sale, where it now can be had for \$1.50 per bottle. Address,

R. C. MARGESON & CO.,
HALIFAX, N.S.

CERTIFICATES.

CHEZZBROOK, March 3, 1873.

MESSES. R. C. MARGESON & Co.—DEAR SIR: Please accept this testimony from one who has been suffering for upwards of five years from Gravel and Stone in the Bladder; and was advised by my friends to try your Calculifuge. I did so, and am happy to say that, after using the two bottles you sent me last summer, it entirely cured me. I passed five stones the size of small peas, and upwards of a wine-glassful of smaller ones and gravel, and will send them to you by the first chance. I would advise all that are suffering with the same complaint, to secure your valuable medicine at once, as it has been the sole means of curing me. I will take pleasure in giving all the information I can to any that will call to see me at my house.

I remain yours,

ANDREW CRAWFORD.

HALIFAX, July 28th, 1873.

MESSES. R. C. MARGESON & Co.—DEAR SIR: It is a pleasure to add my testimony to the virtues of your Medicine. My little daughter, three years old, was a great sufferer with Urinary Retention, some times four days at a time. Her sufferings were intense; all medicine failed to give her much if any relief. I procured a half-bottle Margeson's Calculifuge. After taking three doses, she got relieved and is now as well as ever. This you can make known in the papers if you choose, as others may be afflicted in like manner.

ROBT. EVENS.

Whiteside's Patent Spring Bed.

FOR SALE BY DEALERS GENERALLY.

This Bed; for durability, elasticity, cleanliness, luxury and cheapness, surpasses all others.

Read the following Testimonials.

Convinced that Whiteside's Patent Spring Bed is the most perfect yet invented, and meets the requirements of a Spring Bed in a remarkable manner, I have resolved to keep a stock of this, and no other patent constantly on hand.

O. McGARVEY,

MESSRS. H. WHITESIDE & CO.,

GENTLEMEN,—After selling your valuable "Patent Spring Bed" for four years, I have to state that I find it far superior to anything ever introduced into the market. Its *durability*, perfect *noiselessness*, *cheapness*, and its *neat and cleanly* appearance, have commended it to all customers, from whom I have heard only assurances of utmost satisfaction.

Testimonials of Waters' Celebrated Pianos, Concerto and Orchestral Organs.

REV. BARNAS SEARS, D.D., Ex-President of Brown University, Providence, R. I., and agent for distribution of the Peabody Educational Fund in the South, in answer to inquiries of Jacob Echols, of Lynchburg, Va., about the Waters Pianos, writes the following:

STAUNTON, Va., March 12, 1872.
—Mr. Jacob Echols, Dear Sir: My daughter, who is a good judge, says her piano (the Waters) is a fine one, and has been pronounced so by the German teacher of music; and by the Baltimore Tuner, much superior to the Baltimore pianos. Mr. Waters is a wealthy Christian gentleman. I put entire confidence in him as a business man.

Yours truly,

B. SEARS.

PREPARERS OF

MASTERS & MATES

FOR THE

LOCAL MARINE BOARD EXAMINATION.

All parts of Navigation, Nautical and Mathematical Astronomy thoroughly instructed under the constant attention of careful Teachers, having a thorough knowledge of the requirements at the examinations, and thereby can confidently offer every facility, success and satisfaction to those desirous of obtaining Certificates of either Competency or Service.

We have adopted the system of teaching out of all the different works and series on Navigation, such as Norrie's, Bowditch's, Baper's, Rosser's, Griffin's and Riddle's,—and have passed many through with each of these works,—so whatever works the pupils are accustomed to they can follow the same without taking before them new and strange works. Our chief aim is to prepare the pupil in the shortest time possible, and everything provided for a thorough instruction and a speedy preparation.

We have provided a large number of Examination Forms, which are in every shape similar to those at the Examination, which the pupils work through daily and go through similar performances as if in the course of their examination; so that nothing remains to surprise them when presenting themselves at the examination, but what they have already seen and gone through before.

Seamanship as well as Navigation in all its practical departments all carefully attended to. Masters wishing to acquire a knowledge in the higher branches of Nautical Astronomy, such as Lunars, Great Circle Sailing, Double Altitudes, Sumner's Methods, Marine Surveying, Laws of Storms, Hurricanes, Cyclones, &c., &c., will be promptly attended to. Masters can have Great Circle Tracks laid on their Charts by presenting them at the School Room, free of charge.

Waters' New Scale Pianos,

HORACE WATERS & SON,
No. 481 Broadway, New York. P. O. Box 3567.

TESTIMONIALS OF

Waters' Celebrated Pianos, Concerto and Orchestral Organs.

THE WATERS CONCERTO PARLOR ORGAN.—We are glad to chronicle any new thing, or any improvement upon an old one, that tends to popularize music by rendering its study either easier or more attractive. Lately our attention has been called to a new patented stop added to the Waters Reed Organ, called the concerto stop. It is so voiced as to have a tone like a full, rich alto voice; it is especially "human" in its tone. It is powerful as well as sweet, and when we heard it, we were in doubt whether we liked it best in solo, or with full organ. We regard this as a valuable addition to the reed organ.—*Rural New Yorker.*

AN ORCHESTRA IN THE PARLOR.—The Orchestral Organ is the name of a new reed organ recently announced by Horace Waters & Son. The instrument takes its name from its recently invented orchestral stop. The voicing of this is peculiar, producing the effect of a full, sweet contralto voice. Its finest effect is produced when the stops are drawn. Then the full chords are toned down, so that an orchestral effect is given. The case is unique, and makes a handsome article of furniture.—*N. Y. Sun.*

We have been very much interested in the examination of a New Organ made by Messrs. Horace Waters & Son, of this city. It is called the Orchestral Organ, and certainly merits the name, for it is powerful enough for a full orchestra, while capable of an entire change to the softest and sweetest tones. The orchestral stop, from which it takes its name, has a marvellous power of expression, and very closely resembles the tones of a human voice.—*Illustrated Christian Weekly.*

Horace Waters & Son, 481 Broadway, have been long in the business of dispensing musical instruments. Their pianos are strictly first-class, and their Orchestral Organs, of which they may be said to make a specialty, are of world-wide reputation.—*N. Y. Evening Express.*

No. 481 BROADWAY, NEW YORK. - - P. O. Box 3567.

### TESTIMONIALS OF

#### WATERS' CELEBRATED PIANOS, CONCERTO AND ORCHESTRAL ORGANS.

THE WATERS' CONCERTO PARLOR ORGANS.—Mr. Horace Waters, of No. 481 Broadway, has a patented improvement in parlor organs which renders his popular instruments preferable to any that we have seen. The new feature consists of what is called a concerto stop, produced by an extra set of reeds, peculiarly voiced. Its tone is remarkably full, sweet and brilliant, and its power very fine. With this stop and the swell, the most charming varieties of expression can be produced. The largest of the several sizes embraces ten stops, namely: a rich sub-bass, a very delicate piccolo, a flute, melodia, dulciana, forte, viola, coupler, the concerto, and a vox humana, or tremolo. They have three full sets of reeds, with a clear, delicate tone.—*N. Y. Tribune.*

AT THE KINGS COUNTY INDUSTRIAL FAIR.—Held in Brooklyn, October, 1873, Horace Waters & Son were awarded Diploma No. 1 for Orchestral Organ. The Committee of Awards say: "The Orchestral stop in this instrument is a great improvement in regard to effect, good tone, and first-class workmanship."—*Brooklyn Union.*

### TESTIMONIALS OF

#### Waters' Celebrated Pianos, Concerto and Orchestral Organs.

**THE WATERS CONCERTO PARLOR ORGAN.**—We are glad to chronicle any new thing, or any improvement upon an old one, that tends to popularize music by rendering its study either easier or more attractive. Lately our attention has been called to a new patented stop added to the Waters Reed Organ, called the concerto stop. It is so voiced as to have a tone like a full, rich alto voice; it is especially "human" in its tone. It is powerful as well as sweet, and when we hear it, we were in doubt whether we liked it best in solo, or with full organ. We regard this as a valuable addition to the reed organ.—*Rural New Yorker*.

**AN ORCHESTRA IN THE PARLOR.**—The Orchestral Organ is the name of a new reed organ recently announced by Horace Waters & Son. The instrument takes its name from its recently invented orchestral stop. The voicing of this is peculiar, producing the effect of a full, sweet contralto voice. Its finest effect is produced when the stops are drawn. Then the full chords are toned down, so that an orchestral effect is given. The case is unique, and makes a handsome article of furniture.—*N. Y. Sun*.

We have been very much interested in the examination of a New Organ made by Messrs. Horace Waters & Son, of this city. It is called the Orchestral Organ, and certainly merits the name, for it is powerful enough for a full orchestra, while capable of an entire change to the softest and sweetest tones. The orchestral stop, from which it takes its name, has a marvellous power of expression, and very closely resembles the tones of a human voice.—*Illustrated Christian Weekly*.

Horace Waters & Son, 481 Broadway, have been long in the business of dispensing musical instruments. Their pianos are strictly first-class, and their Orchestral Organs, of which they may be said to make a specialty, are of world-wide reputation.—*N. Y. Evening Express*.

## Ayer's Cherry Pectoral

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender Lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

## Ayer's Sarsaparilla,

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofula and all Scrofulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility and Leucorrhoea, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor, of the season. Even where no disorder appears, people feel better and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

Newspapers printed and published in Canada may be sent by post to subscribers from the office of publication to any place in Canada, at the following rates, if paid quarterly in advance, either by the publisher, at the post office where the papers are posted, or by the subscriber at the post office where the papers are delivered:

For a paper published once a week, 5 cents per quarter of a year.

|     |             |    |     |     |

| Do. | three times | 15 | do. | do. |
| Do. | six times   | 30 | do. | do. |

If the above rates are prepaid by the publisher, the Postmaster receiving payment must be careful to have the papers so prepaid separately put up, and marked distinctly as prepaid.

When the above rates are not paid in advance, by either the publisher at the office of posting, or by the subscriber at the office of delivery, the papers are to be charged one cent each on delivery.

Canadian newspapers addressed from the office of publication to subscribers in the United Kingdom, the United States, British Columbia, Bermuda or Newfoundland, may be forwarded on prepayment at the office in Canada where posted, at the above commuted rates, applicable to such papers within the Dominion.

Publishers of newspapers in Canada may post such numbers of their papers addressed to parties *within* the Dominion who are not *subscribers* at a rate of one-half cent prepaid by stamp.

Exchange papers passing between publishers in Canada, and between publishers in Canada and publishers in the United States, Bermuda, and Newfoundland, are to pass free—one copy of each paper to each publisher.

If from the United Kingdom, by mail packet to Quebec, Halifax, or Portland, free on delivery.

By mails *via* the United States (New York), two cents each.

If from Bermuda or Newfoundland, when received by regular subscribers in Canada from the office of publication, the ordinary commuted rates applicable to Canada newspapers.

Canada news agents may post to regular subscribers in Canada, British newspapers *free*, and the United States newspapers *unpaid*; such papers in the latter case, must be duly rated one cent each for collection on delivery.

## REGISTRATION.

Letters for registry must be posted fifteen minutes previous to the closing of the mail by which they are to be sent. The postage, as well as the registration fee, must be prepaid. The registration of a letter addressed to any place in New Brunswick or the Dominion is 2 cents, to the United States 5 cents, to the United Kingdom 8 cents, to Australia and all other places, when passing through the United Kingdom, a fee equal to one rate.

Registration is applicable to all descriptions of letters and parcels, whether they contain articles of value or not. Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a registered letter can be traced when one unregistered cannot, and the posting and delivery or non-delivery can be proven. A registered letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an unregistered letter. "Moreover the safety of an unregistered letter is dependent on the integrity of a post-office clerk during the whole time it remains in his custody, frequently for hours, and even days; whilst a registered letter will almost invariably have to be acknowledged at the moment of its passing into an officer's hands, and cannot therefore be suppressed without leaving him individually accountable for its disposal." "If the consequences were limited to the mere risk of the loss of the money so sent, the senders of money in unregistered letters might reasonably urge, that if they choose to encounter the risk, they should be free to do so; but higher considerations are involved in the question, and the chance of loss to the careless remitter is really but the smallest part of the evil associated with the practice." The attentive perusal of the above remarks by those who are in the habit of sending money by mail in unregistered letters is strongly recommended, and it is further suggested that letters containing money should invariably be secured with wax, and not by the usual method, by mucilage, or self-sealing envelope.

## Postage Stamps.

To enable the public to prepay conveniently by postage stamps the foregoing rates, the following denominations of postage stamps for use throughout the Dominion have been prepared, and will be supplied to postmasters for sale:—
