CALENDAR
OF THE
FACULTY OF MEDICINE,

McGILL UNIVERSITY.

SIXTY-SECOND SESSION
1894-1895.

MONTREAL:
PRINTED FOR THE UNIVERSITY BY THE GAZETTE PRINTING CO.

1894

Proprietors :—KENNETH CAMPBELL & CO.,
WHOLESALE DRUGGISTS, MONTREAL.

THIS SEASON'S
"Skrei" Cod Liver Oil

Is particularly fine in being exceptionally pale, brilliant and almost tasteless, and no other Oil or Emulsion can compare with it in Therapeutic value.

CAMPBELL'S
FLD. EXT. ERGOT
HYSPAN.

Made from prime Spanish Ergot only.
Two hundred Testimonials in its favor
from leading Physicians.

CAMPBELL'S SYRUP
OF THE
HYPOPHOSPHITES OF IRON AND QUININE.
AN INVALUABLE TONIC.

Campbell's Unalterable Syr. Iodide of Iron.

Insensible to the effects of light and air, and has
no unpleasant taste.

Well adapted to children and invalids.

The Milk Supply Open to Suspicion

Tuberculosis in cows is very prevalent. The preparation of infant foods with infected milk is dangerous.

NESTLÉ'S FOOD

meets this emergency, being prepared for use with **water only**. It furnishes the safest and most nourishing diet for infants obtainable. Also the most valuable Food during the

HOT WEATHER

as it has proved itself after over a quarter of a century's use the best **Preventative of Cholera Infantum**.

Sample and Pamphlet on application to **Thos. Leeming & Co., Montreal.**

The most Convenient and Economical Method of Producing Local Anæsthesia.

ETHYL CHLORIDE BENGUE is an anæsthetic, which is at once rapid in action, convenient to use, always reliable, harmless and inexpensive.

Put up in Glass Bulbs containing 37 to 40cc., and terminating in a short tube with a capillary orifice, upon which is fixed a copper screw-thread. On the screw is a cap, also of copper, which, being lined with India-rubber, closes it so tightly that the Chloride is prevented from evaporating, and can be used in the exact quantity required by the case in hand. It is thus extremely economical, as each bulb of **ETHYL CHLORIDE BENGUE** contains sufficient for 10 to 15 local anæsthesias. Supplied with Straight Stem or Curved Stem (as illustration).

The use of **ETHYL CHLORIDE** is without danger of any kind, and it can be applied equally to skin and mucous membrane.

Remember to Specify ETHYL CHLORIDE BENGUE.

Pamphlet and full particulars on application to **THOS. LEEMING & CO.**
25 St. Peter St., Montreal.

E. M. RENOUF,

BOOKSELLER & STATIONER,

Successor to DAWSON BROTHERS' BRANCH.

2238 St. Catherine St., - MONTREAL.

III.—CAMERON OBSTETRICAL ENDOWMENT.

Dr. J. C. Cameron..... \$10,000

IV.—THE DRAKE ENDOWMENT.

An annual donation given, first in 1891, towards the expenses of the chair of Physiology.

Walter Drake..... \$500 per annum.

V.—AN ANONYMOUS DONOR.

in 1892 contributed, \$500 towards the chair of Pathology.

Anonymous..... \$500

VI.—THE DOW BEQUEST.

A bequest from the late Mrs. Mary Dow in 1892, the interest from which is devoted to the general expenses of the Faculty.

The late Mrs. Mary Dow..... \$10,000

VII.—THE MRS. JOHN MCDUGALL'S DONATION.

A donation from Mrs. John McDougall in 1892 to bear Dr. Craik's name, the interest on which is applied to the general expenses of the Medical Faculty.

Mrs. John MacDougall..... \$1000

VIII.—THE MOLSON FUND.

A donation from Mr. John H. R. Molson in 1893 to enable the Faculty to purchase land and erect an additional wing to their present buildings.

John H. R. Molson..... \$60,000

IX.—THE SIR DONALD SMITH ENDOWMENT.

An endowment in 1893 of the chairs of Pathology and Sanitary Science.

Sir Donald A. Smith..... \$100,000

X.—THE LEARMONT BEQUEST.

A bequest, in 1894, from Miss Jane Learmont, to bear Dr. Craik's name, the interest on which is applied to the general expenses of the Faculty.

The late Miss Jane Learmont..... \$3,000

Library.

The Librarian of the Faculty of Medicine has pleasure in acknowledging the following donations to the Library during the year ending 30th April, 1894:—

Presented by Dr. Osler :

Collected Reprints, 2nd series. (Osler.)

Presented by Prof. Adami :

De Pulmonum Substantia et Motu. (Bartholin.)

De Pulmonibus Observationes Anatomicae. (Malpighi.) Copenhagen. 1663.

Epistolarum Medicinalium Libri Quinque. (Mathiolus.) Lyons. 1564.

De Morbis Acutis et Chronicis. (Cælius Aurelianus.) 1722.

The English Physician. (Culpepper.) 1765.

Physiologists' Note-book. (Hill.)

Centralblatt für Bakteriologie und Parasitenkunde. Bd. 9, 10, 11, 12 and 13.

Centralblatt für Allgemeine Pathologie und Pathologische Anatomie. Bd. iv.

Annales de l'Institut Pasteur. 1892.

Presented by Lady Bowman :

The Collected Papers of Sir W. Bowman, Bart., F.R.S. (In two volumes.)

Presented by Dr. Girdwood :

Unbound Journals—Canada Lancet, Canada Medical Record, etc., Dominion Medical Journal, etc.

Presented by Dr. Blackader :

United States Dispensatory. (Wood, Bache & Sadtler.)

Presented by Dr. Kirkpatrick :

Unbound Journals—Annals of Surgery (1893), etc.

Presented by Estate late R. Campbell, Jr. :

Chemical Catechism.

Chemistry of Inorganic Bodies. (Thomson.)

Handbook of Chemistry. (Gmelin.) Nineteen volumes.

Handbook of Chemistry. (Abel & Bloxam.)

- Annual of Scientific Discovery. Twenty-two volumes.
 Ure's Dictionary, with Supplement. (Booth & Fabre.) Two volumes.
 Miller's Elements of Chemistry. Vols. 1 and 2.
 Miller's Elements of Chemistry. Part I.
 Encyclopædia of Chemistry. (Booth.)
 Faraday's Chemical Manipulation.
 Treatise on Chemistry. (Roscoe & Schorlemmer.) Seven volumes.
 Units and Physical Constants. (Everett.)
 Chemistry as Applied to Arts and Manufactures. (Muspratt.)
 Seventeen volumes.
 Principles of Chemistry. (Pattison Muir.)
 The Chemical Atlas. (Normandy.)
 Recent Improvements in the Chemical Arts. (Booth & Morfit.)
 Bromide of Potassium. (Clarke & Amory.)
 Modern Chemistry. (Hofmann.)
 Pharmacology, Therapeutics and Materia Medica. (Brunton.)

Presented by S. Weir Mitchell :

Scientific and Literary works.

Presented by Dr. Wyatt Johnston :

Estate late J. B. Johnston, M.D. Ninety volumes.

Presented by the Graduates :

Pyogenic Diseases of the Brain and Spinal Cord. (MacEwen)
 Atlas of Head Sections. (MacEwen.)

Presented by the Undergraduates :

Foster's Encyclopædic Medical Dictionary. Four volumes.

Museum.

The Director of the Museum acknowledges with pleasure the following donations and additions to the Museum during the year ending 30th April, 1894.

1. Anencephalic foetus,—Dr. Lang.
2. Heart showing stenosis of tricuspid valves,—Dr. Finley.
3. Heart showing mitral stenosis and dilatation of auricles,—Dr. Finley.
4. Atheromatous vegetations of aortic arch.
5. Aneurism of the aorta, with erosion of the sternum and ribs,—Dr. G. F. Shaw, St. Andrews, Que.
6. Epithelioma of the larynx, extirpation, with photograph.—Dr. Birkett.
7. Scarlatinal ulceration of the larynx.
8. Tuberculosis of lung, injected,—Dr. Adami.
9. Strangles of lung—horse,—J. A. McCrank, D.V.S., Plattsburg.
10. Polyp of tonsil,—Dr. Birkett.
11. Loops of mucous membrane in the duodenum,—Dr. W. G. Johnston.
12. Meckel's diverticulum,—Dr. A. A. Browne.
13. Inguinal hernia,—Dissecting Room.
14. Appendix vermiformis,—Dr. Shepherd.
15. Sections of whole right lobe of liver, from case of Amœbic abscess,—Dr. Adami.
16. Perisplenitis.
17. Abnormal renal arteries,—Dissecting Room.
18. Kidneys of dog—chronic interstitial nephritis,—Dr. Mills.
19. Kidney showing large retention cyst, and multiple, spinous oxalic calculi.
20. Two specimens of rupture of the kidney,—Dr. Johnston.
21. Double hydronephrosis and dilated ureters.
22. Double ureter.
23. Calculi,—Drs. Shepherd and Bell.
24. Subserous fibroid of uterus undergoing calcification,—Dr. E. A. McGannon, Brockville, Ont.
25. Parovarian cyst,—Dr. Alloway.

26. Dermoid and double parovarian cysts,—Dr. Gardner.
27. Large bone and hair from ovarian dermoid,—Dr. Gardner.
29. Carcinoma testis,—Dr. Roddick.
30. Multiple sarcoma,—Dr. Johnston.
31. Pedunculated dermoid from conjunctiva,—Dr. Buller.
32. Osteochondroma of mammary gland,—Dr. Marsil.
33. Abscess of brain,—Dr. Johnston.
34. Skull of an idiot,—Dissecting Room.
35. Pig's feet with supernumerary digits (pollex),—Dr. Shepherd.
36. Overgrowth of incisors of white rat,—Mr. Cook.
37. Impacted intracapsular fracture of the neck of the femur.
38. Intracapsular fracture of the neck of the femur.
39. United fracture of the clavicle,—Dissecting Room.
40. United fracture of the femur,—Dissecting Room.
41. Fracture at the elbow-joint,—Dissecting Room.
42. Fracture of the sacrum,—Dissecting Room.
43. Greenstick fracture of the humerus,—Dissecting Room.
44. Multiple fracture of the pelvis and femur,—Dr. Kirkpatrick.
45. Skull, exploratory removal of a portion of the cranium for epilepsy,—Drs. Bell and Springle.
46. Bones of tarsus removed for deformity and caries,—Dr. Bell.
47. United fracture of the humerus of an infant,—Dr. Williams.
48. Portions of head and legs showing progress of skin-grafting,—
Drs. Bell and Springle.
49. Skin of negro case of leucoderma,—Dissecting Room.
50. Shark's head,—M. Baillie.

Where not otherwise indicated the specimens have been obtained from the Post-mortem Rooms of the Montreal General and Royal Victoria Hospitals.

Officers and Members of the Faculty.

SINCE ITS ORIGIN.

DEANS.

Dr. W. ROBERTSON official head of the Montreal Medical Institution 1823, succeeded by Dr. JOHN STEPHENSON in 1829 as Registrar and Official head of the Faculty up to 1842, when he was succeeded by Dr. A. F. HOLMES with title of secretary. Dr. A. F. HOLMES was the first Dean, 1854.

Governing Body of the University.

VISITOR:

HIS EXCELLENCY THE RIGHT HON. THE EARL OF ABERDEEN,
VISCOUNT GORDON, P.C., M.A. (Oxon.),
GOVERNOR-GENERAL OF CANADA, ETC.

GOVERNORS:

[Being the Members of the Royal Institution for the Advancement of Learning.]

THE HON. SIR DONALD A. SMITH, K.C.M.G., LL.D. (Hon. Cantab.),
President and Chancellor of the University.
JOHN H. R. MOLSON, Esq.
JOHN MOLSON, Esq.
SIR JOSEPH HICKSON, KNT.
WILLIAM C. McDONALD, Esq.
HUGH McLENNAN, Esq.
GEORGE HAGUE, Esq.
EDWARD B. GREENSHIELDS, Esq., B.A.
SAMUEL FINLEY, Esq.
ANDREW FREDERICK GAULT, Esq.
HON. JOHN SPROTT ARCHIBALD, M.A., D.C.L.
CHARLES J. FLEET, Esq., B.A., B.C.L.

(The Board of Governors has, under the Royal Charter, the power to frame Statutes, to make Appointments, and to administer the Finances of the University.)

PRINCIPAL:

(The Vice-Principal will act during vacancy of the office.)

(The Principal has, under the Statutes, the general superintendence of all affairs of the College and University, under such regulations as may be in force.)

FELLOWS:

SIR WILLIAM DAWSON, M.A., LL.D., F.R.S., C.M.G., [Governors' Fellow.
ALEXANDER JOHNSON, M.A., LL.D., D.C.L., F.R.S.C., Vice-Principal and Dean of the Faculty of Arts.

- HENRY ASPINWALL HOWE, LL.D., Governors' Fellow.
 REV. GEORGE CORNISH, M.A., LL.D., Elective Fellow, Faculty of Arts.
- REV. D. H. MACVICAR, D.D., LL.D., Principal of the Presbyterian College, Montreal.
- JOHN REDPATH DOUGALL, M.A., Representative Fellow in Arts.
 REV. J. CLARK MURRAY, LL.D., F.R.S.C., Elective Fellow, Faculty of Arts.
- HENRY T. BOVEY, M.A., D.C.L., LL.D., F.R.S.C., M.Inst.C.E., Dean of the Faculty of Applied Science.
- BERNARD J. HARRINGTON, B.A., Ph.D., F.G.S., F.R.S.C., Elective Fellow Fac. App. Science.
- REV. E. I. REXFORD, B.A., Governors' Fellow.
 REV. CANON HENDERSON, M.A., D.D. (Dublin), Principal of the Montreal Diocesan Theological College.
- VERY REV. R. W. NORMAN, M.A., D.C.L., Governors' Fellow.
 S. P. ROBINS, M.A., LL.D., Principal of McGill Normal School.
 FREDERICK W. KELLEY, B.A., Ph.D. (Cornell), Representative Fellow in Arts.
- REV. JAMES BARCLAY, M.A., D.D. (Glasgow), Governors' Fellow.
 ROBERT CRAIK, M.D., Dean of Faculty of Medicine.
- REV. WILLIAM M. BARBOUR, D.D. (Yale, U. S.), Principal of the Congregational College of British North America.
- N. W. TRENHOLME, M.A., D.C.L., Dean of the Faculty of Law.
 WESLEY MILLS, M.A., M.D., F.R.S.C., Representative Fellow in Medicine.
- DUNCAN McEACHRAN, D.V.S., Dean of the Faculty of Comparative Medicine and Veterinary Science.
- MALCOLM C. BAKER, D.V.S., Elective and Representative Fellow in Comparative Medicine and Veterinary Science.
- REV. A. T. LOVE, B.A., B.D., Principal Morrin College, Quebec, Q.
 ALEX. FALCONER, B.A., B.C.L., Representative Fellow in Law.
 REV. CHAS. A. TANNER, Principal St. Francis College, Richmond, Q.
 CHAS. E. MOYSE, B.A. (London), Elective Fellow Faculty of Arts.
 JOHN COX, M.A. (Cantab.), Elective Fellow Faculty of Arts.
 R. F. RUTTAN, B.A., M.D., Elective Fellow Faculty of Medicine.
 WM. McLENNAN, B.C.L., Representative Fellow in Law.
 C. H. McLEOD, M.A., F.R.S.C., Representative Fellow in Applied Science.
 REV. C. R. FLANDERS, B.A., Principal Stanstead Wesleyan College, Stanstead, Q.
- C. H. GOULD, B.A., Governors' Fellow.
 REV. W. J. SHAW, M.A., LL.D., Principal of the Montreal Wesleyan Theological College.
- F. G. FINLEY, M.D., M.B. (London), Representative Fellow in Medicine.
 FRANK D. ADAMS, M.A.Sc., Ph.D. (Heidelberg), Representative Fellow in Applied Science.

(The Governors, Principal and Fellows constitute, under the Charter, the Corporation of the University, which has the power, under the Statutes, to frame regulations touching Courses of Study, Matriculation, Graduation and other Educational matters; and to grant Degrees.)

OFFICE OF SECRETARY, REGISTRAR AND BURSAR.

(And Secretary of the Royal Institution.

West Wing McGill College. Office hours, 9 to 5.

JAMES W. BRAKENRIDGE, B.C.L., Acting Secretary. Address, Secretary's Office, McGill College. Residence, 117 Shuter Street.

SAMUEL R. BURRELL, Clerk. Address, Secretary's Office, McGill College. Residence, 588 Cadieux Street.

McGill University General Announcement.

SESSION OF 1894-95.

The sixty-second Session of the University, being the fortieth under the amended Charter, will commence in the autumn of 1894.

By virtue of the Royal Charter, granted in 1821, and amended in 1852, the Governors, Principal and Fellows of McGill College constitute the Corporation of the University; and, under the Statutes framed by the Board of Governors, with the approval of the Visitor, have the power of granting Degrees in all the Arts and Faculties, in McGill College and Colleges affiliated thereto.

The Statutes and Regulations of the University have been framed on the most liberal principles, with the view of affording to all classes of persons the greatest possible facilities for the attainment of mental culture and professional training. In its religious character the University is Protestant, but not denominational; and while all possible attention will be given to the character and conduct of students, no interference with their peculiar religious views will be sanctioned.

The educational work of the University is carried on in McGill College, Montreal, and in the affiliated Colleges and Schools.

I.—MCGILL COLLEGE.

THE FACULTY OF ARTS.—The complete course of study extends over four Sessions, of eight months each; and includes Classics and Mathematics, Experimental Physics, English Literature, Logic, Mental and Moral Science, Natural Science, and one Modern Language, or Hebrew. The course of study is, with few exceptions, the same for all students in the first two years; but in the third and fourth years extensive options are allowed, more especially in favour of the Honour Courses in Classics, Mathematics, Mental and Moral Science, Natural Science, English Literature and Modern Languages. Certain exemptions are allowed to professional students. The course of study leads to the Degrees of B.A., M.A., and LL.D.

THE DONALDA SPECIAL COURSE IN ARTS provides for the education of women, in separate classes, with course of study, exemptions and honours similar to those for men.

THE FACULTY OF APPLIED SCIENCE provides a thorough professional training, extending over three or four years, in Civil Engineering

Mechanical Engineering, Mining Engineering and Assaying, and Practical Chemistry, leading to the Degrees of Bachelor of Applied Science, Master of Engineering, and Master of Applied Science.

THE FACULTY OF MEDICINE.—The complete course of study in Medicine extends over four Sessions of nine months each, and leads to the Degrees of M.D., C.M.

THE FACULTY OF LAW.—The complete course in Law extends over three Sessions of six months each, and leads to the Degrees of B.C.L. and D.C.L.

THE FACULTY OF COMPARATIVE MEDICINE AND VETERINARY SCIENCE.—The complete course of study extends over three Sessions of six months each, and leads to the Degree of D.V.S.*

II.—AFFILIATED COLLEGES.

Students of Affiliated Colleges are matriculated in the University, and may pursue their course of study wholly in the Affiliated College, or in part in McGill College, and may come up to the University Examinations on the same terms with the students of McGill College.

MORRIN COLLEGE, *Quebec*.—Is affiliated in so far as regards Degrees in Arts and Law. (Detailed information may be obtained from Rev. A. T. LOVE, B.A., B.D., Principal.)

ST. FRANCIS COLLEGE, *Richmond*.—Is affiliated in so far as regards the Intermediate Examinations in Arts. (Detailed information may be obtained from Rev. CHAS. A. TANNER, Richmond, P.Q.)

III.—AFFILIATED THEOLOGICAL COLLEGES.

Affiliated Theological Colleges have the right of obtaining for their students the advantage, in whole or in part, of the course of study in Arts, with such facilities in regard to exemptions as may be agreed on, and a number of Free Tuitions are granted by the Board of Governors to the students of these Colleges when matriculated in Arts.

THE CONGREGATIONAL COLLEGE OF BRITISH NORTH AMERICA, *Montreal*.—Rev. WILLIAM M. BARBOUR, D.D., 58 McTavish Street.

THE PRESBYTERIAN COLLEGE, *Montreal*, in connection with the Presbyterian Church in Canada.—Principal, Rev. H. MACVICAR, D.D., LL.D., 69 McTavish Street.

THE DIOCESAN COLLEGE OF MONTREAL.—Principal, Rev. Canon HENDERSON, M.A., M.D., 896 Dorchester Street.

THE WESLEYAN COLLEGE OF MONTREAL.—Principal, Rev. W. T. SHAW, M.A., LL.D., 228 University Street.

[Calendars of the above Colleges and all necessary information may be obtained on application to their Principals.]

* The complete Calendar, with information respecting all the Faculties, &c., may be obtained of J. W. Brakenridge, Esq., McGill College.

IV.—MCGILL NORMAL SCHOOL.

THE MCGILL NORMAL SCHOOL provides the training requisite for Teachers of Elementary and Model Schools and Academies. Teachers trained in this School are entitled to Provincial Diplomas, and may, on conditions stated in the announcement of the School, enter the classes in the Faculty of Arts for Academy Diplomas and for the Degree of B.A. Principal, S. P. ROBINS, LL.D., 39 Belmont Street, Montreal.

V.—AFFILIATED HIGH SCHOOLS, ETC.

The Trafalgar Institute for the Higher Education of Women, Simpson Street, Montreal; Principal, Miss Grace Fairley. The High School of Montreal, Metcalfe Street; Principal, Rev. E. I. Rexford, B.A. The Girls' High School of Montreal, Metcalfe Street; Lady Principal, Miss M. F. Findlay, B.A. Prince of Wales' College, Charlottetown, P.E.I.; Bishop's College School, Lennoxville; St. Francis College School; Miss Symmers and Miss Smith's School, Montreal; Eliock School, Montreal; Girls' High School, St. John, N.B.; Clarenceville Academy; Coaticook Academy; Cowansville Academy; Dunham Academy; Gould Model School; Huntingdon Academy; Inverness Academy; Knowlton Academy; Lachute Academy; Quebec High School; Quebec Girls' High School; Shawville Academy; Sherbrooke Boys' Academy; Sherbrooke Girls' Academy; Stanstead Wesleyan College; St. John's High School; Sutton Academy; Three Rivers Academy; Waterloo Academy; Waterville Academy.

Faculty of Medicine.

SIR WILLIAM DAWSON, C.M.G., LL.D., F.R.S., Emeritus Principal and Professor of Natural History.

ALEXANDER JOHNSON, M.A., LL.D., Vice-Principal.

ROBERT CRAIK, M.D., Dean of the Faculty and Professor of Hygiene and Public Health, 887 Sherbrooke St.

EMERITUS PROFESSORS.

WILLIAM WRIGHT, M.D., Materia Medica, 84 St. Famile Street.

DUNCAN B. MACCALLUM, M.D., Midwifery, 45 Union Avenue.

PROFESSORS.

ROBERT CRAIK, M.D., Prof. Hygiene and Public Health, 887 Sherbrooke St.

G. P. GIRDWOOD, M.D., Professor of Chemistry, 82 University Street.

THOMAS G. RODDICK, M.D., Professor of Surgery, 80 Union Avenue.

WILLIAM GARDNER, M.D., Professor of Gynæcology, 109 Union Avenue.

FRANCIS J. SHEPHERD, M.D., Professor of Anatomy and Librarian of the Faculty, 152 Mansfield Street.

FRANK BULLER, M.D., Professor of Ophthalmology and Otology, 123 Stanley Street.

JAMES STEWART, M.D., Professor of Medicine and Clinical Medicine, 285 Mountain Street.

GEORGE WILKINS, M.D., Professor of Medical Jurisprudence, and Lecturer on Histology, 898 Dorchester Street.

D. P. PENHALLOW, B.Sc., Professor of Botany, McGill College.

WESLEY MILLS, M.A., M.D., Professor of Physiology, McGill College.

JAMES CHALMERS CAMERON, M.D., Professor of Midwifery and Diseases of Infancy, 941 Dorchester Street.

ALEX. D. BLACKADER, B.A., M.D., Professor of Pharmacology and Therapeutics, and Lecturer on Diseases of Children, 236 Mountain Street.

R. F. RUTTAN, B.A., M.D., Professor of Practical Chemistry and Registrar of the Faculty, McGill College.

JAMES BELL, M.D., Professor of Clinical Surgery, 873 Dorchester Street.

J. G. ADAMI, M.A., M.D., Cantab, Professor of Pathology and Director of the Museum, Durocher Street.

G. W. MAJOR, B.A., M.D., Professor of Laryngology.

T. JOHNSTON ALLOWAY, M.D., Assistant Professor of Gynæcology, 23 Mackay Street.

- F. G. FINLEY, M.B. (Lon.), M.D. (McGill), Assistant Professor of Medicine and Clinical Medicine, 803 Dorchester Street.
- HENRY A. LAFLEUR, B.A., M.D., Assistant Professor of Medicine and Lecturer in Clinical Medicine, 58 University Street.
- GEORGE ARMSTRONG, M.D., Assistant Professor of Clinical Surgery, 1127 Dorchester Street.

LECTURERS.

- H. S. BIRKETT, M.D., Lecturer in Laryngology and Senior Demonstrator of Anatomy, 123 Stanley St.
- T. J. W. BURGESS, M.D., Lecturer in Mental Diseases, Protestant Hospital for the Insane, Verdun.
- WYATT JOHNSTON, M.D., Lecturer in Bacteriology, 1018 Sherbrooke St.

DEMONSTRATORS AND ASSISTANT DEMONSTRATORS.

- JOHN M. ELDER, B.A., M.D., Demonstrator of Anatomy, 3016 St. Catherine St.
- J. G. McCARTHY, B.A., M.D., Demonstrator of Anatomy, 47 Union Ave.
- D. J. EVANS, M.D., Demonstrator of Obstetrics, 939 Dorchester St.
- N. D. GUNN, M.D., Demonstrator of Histology, 727 Sherbrooke St.
- W. S. MORROW, M.D., Demonstrator of Physiology, 109 Prince Arthur St.
- R. C. KIRKPATRICK, B.A., M.D., Demonstrator of Surgery, 163 Mansfield St.
- C. F. MARTIN, B.A., M.D., Demonstrator of Pathology, 33 Durocher St.
- J. J. GARDNER, M.D., Demonstrator of Ophthalmology, 12 Phillips Place.
- T. P. SHAW, M.D., Assistant Demonstrator of Clinical Chemistry, 51 Coursol St.
- G. GORDON CAMPBELL, B. Sc., M.D., Assistant Demonstrator of Medicine, 2475 Notre Dame St.
- W. F. HAMILTON, M.D., Assistant Demonstrator in Medicine, Metcalfe St.
- E. P. WILLIAMS, M.D., Assistant Curator, 151 Metcalfe St.
- R. TAIT MacKENZIE, M.A., M.D., Assistant Demonstrator of Anatomy, 2446 St. Catherine Street.

Montreal.

Announcement of the Faculty of Medicine.

SESSION 1894-95.

The Sixty-Second Session of this Faculty will be opened on Tuesday, October 2nd, 1894, by an introductory lecture at 3 p. m. Lectures for students beginning the study of medicine this year will begin September 20th. The regular lectures will begin on October 3rd, at the hours specified in the time-table, and will be continued for six months.

The Medical School of McGill University was founded in 1822 as the "Montreal Medical Institution" by Drs. W. Robertson, W. Caldwell, A. F. Holmes, J. Stephenson and H. P. Loedel—all of them at the time members of the staff of the Montreal General Hospital.

Although founded in 1822, yet no session of the "Medical Institution" was held until 1824, when it opened with 25 students.

In 1828, the "Medical Institution" was recognized by the Board of Royal Institution as the Medical Faculty of McGill University. At this time the lectures were given in a building on the site of the present Bank of Montreal. Later the school was removed to a brick building still standing near the corner of Craig and St. George streets.

In 1846, the lectures of the Faculty were given in the present central building of the University now occupied by the Faculty of Arts. On account of the inconvenience arising from the distance of the University buildings from the centre of the city, it was decided in 1850, to erect a Medical school building in Cotte Street, provided with ample accommodation for Library and Museum, and furnished with a large dissecting-room and two lecture-rooms; this building was occupied for the first time during the session 1851-2,

and sufficed for the wants of the Faculty until 1872-73, when the present main building was provided by the Governors of the University.

In 1824, the number of students in the Faculty was 25; in 1844 50; in 1851, 64, with 15 graduates; in 1872-3, 154, with 35 graduates; in 1892-3, 315, with 46 graduates; in 1893-94, 350, with 55 graduates.

There were no sessions held during the political troubles from 1836 to 1839, and it is owing to this fact that the present is the 62nd session of the Faculty. This is in reality the 65th session of the school, which is the direct continuation of the "Montreal Medical Institution."

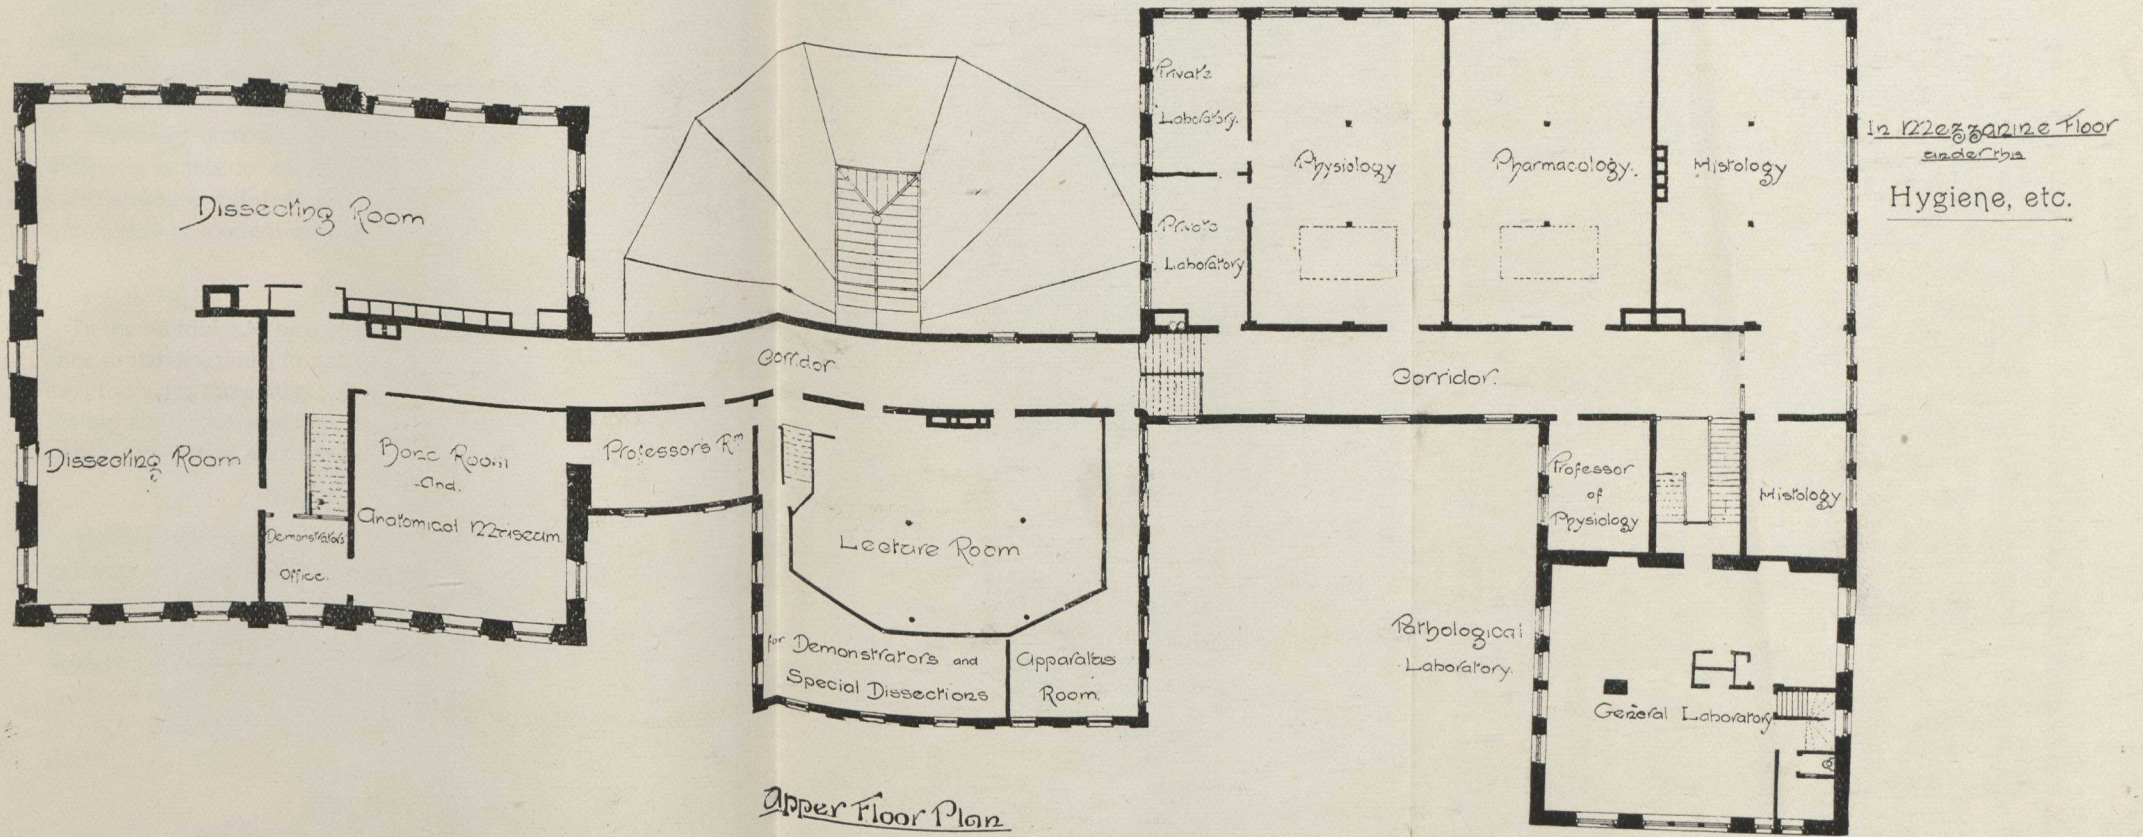

In 1885, the building in the University grounds, erected by the Governors for the use of this Faculty, was found inadequate. A new building was then added, which, at the time, afforded ample facilities for carrying out the great aim of the Faculty,—that of making the teaching of the primary branches thoroughly practical.

The laboratories and lecture rooms, then added, have now become filled, and so great have been the advances in medicine and in methods of laboratory teaching, that it has been necessary again to increase the number and size of the laboratories. Owing to the timely generosity of Mr. John H. R. Molson, who has already done so much for the University, the Faculty is able to announce that its present facilities for teaching will, this year, be almost doubled.

As will be seen on reference to the architect's plans on pages 36-38 the new buildings have been erected as an extension of the old ones, towards the northwest, partially facing Carlton road, and convenient to the Royal Victoria Hospital. They connect the Pathological building acquired in 1893, with the older buildings and comprise a large modern lecture room, capable of accommodating 450 students, with adjoining preparation-rooms and new suites of laboratories for Physiology, Histology, Pharmacology and Sanitary Science. The laboratories, etc., in the older buildings, have been greatly enlarged and improved; the whole of the second floor has been devoted to the anatomical department, and will be divided into a dissecting-room, anatomical museum, bone-room, preparation rooms, Professors' and Demonstrators' rooms, etc.

On the ground floor the Library and Museum has been greatly enlarged: a room forming part of the Library has been set apart as a reading room for the use of students, where the extensive reference

 Taylor + Gordon Arch^{ts}
 Montreal

library of the Faculty may be consulted. The old chemical laboratories have been increased by including the laboratories formerly used by the department of Physiology.

Through the great liberality of the Honorable Sir Donald A. Smith in founding the "Leancoil Endowment," and of the citizens of Montreal and Medical Graduates in subscribing to the "Campbell Memorial Fund," the Faculty has been enabled to conduct and maintain the teaching of the different branches in a high state of efficiency.

The Faculty is glad to be able to announce that, by the liberality of the Honorable Sir Donald A. Smith in endowing the chairs of Pathology and Sanitary Science with one hundred thousand dollars, it is able to establish these departments on a footing fully commensurate with their importance and with the advances and requirements of modern medical science.

Lecture Rooms.

In the buildings to be occupied this session, as will be seen by reference to the diagrams, in addition to the laboratories dissecting room, etc., there are three large lecture rooms, two capable of comfortably seating about 300 students, and one for lectures, examinations etc., capable of seating 450 students.

Rooms for Students Use.

Three cloak rooms are provided in convenient portions of the building and in addition commodious lockers can be procured provided with special locks at a nominal rental. A large well lighted reading-room containing newspapers, magazines and the current medical journals, is provided in the new block. The original library has been refitted as a comfortable reading-room for students desiring to avail themselves of the reference works in the library of the Faculty.

Dissecting Room.

The Dissecting Room, which is situated on the second floor, is L shaped, one arm of which is 76 feet in length and 31 feet in breadth, and the other arm 45 by 32 feet. It is furnished with thirty tables, and is well lighted for work during the day and night. In procuring appliances for the comfort and convenience of the students, no reasonable expense has been spared.

In connection with the dissecting room, there is a "Bone room," and anatomical museum where students have an excellent opportunity of studying osteology. There are also rooms for the demonstrators of anatomy.

Physiological Laboratories.

The new Physiological Laboratories, which are situated on the upper floor of the new building, are supplied with the most modern apparatus for the practical teaching of this most important branch of the medical curriculum. They consist of one large room forty-five by thirty-five feet for undergraduate work and two smaller ones for more advanced work and private research. In addition there is a room set apart for a consulting library and for the special use of the Professor of this department. The Students' laboratory is arranged in such a way as to permit of students assisting at, and taking part in demonstrations. During the coming session important additions will be made to the apparatus of the physiological laboratory.

Histological Laboratories.

The Histological Laboratory proper, is a large, well lighted room on the second floor of the new building. It is so arranged that over eighty students can be present at the microscopical demonstrations; for this purpose it is supplied with 50 microscopes. From the large number of microscopes employed, students will have special facilities in studying and making themselves thoroughly acquainted with the specimens that are the subjects of demonstration. In addition to this there is a smaller laboratory for the use of the professor and demonstrators.

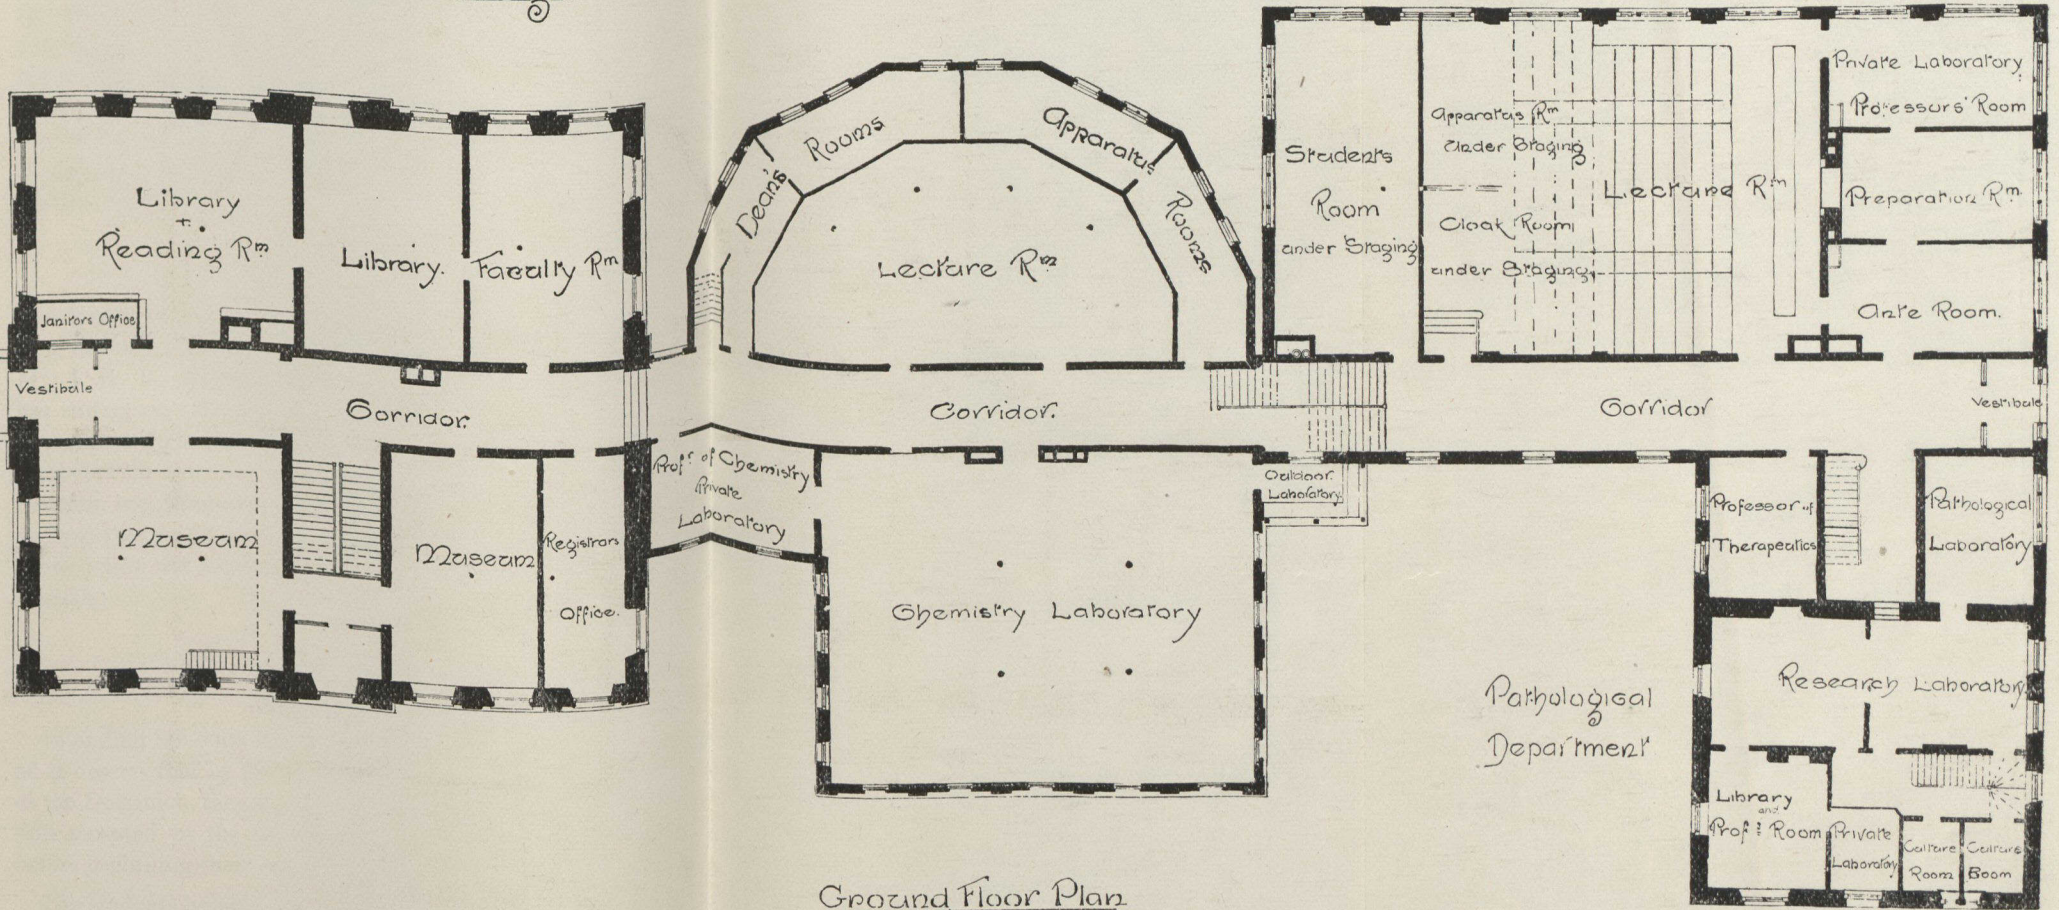

Pharmacological Laboratory.

The Pharmacological Laboratory is a large room 45 by 35 feet, situated on the second floor of the new building and is now being furnished with the necessary appliances for the practical teaching of pharmacology.

Chemical Laboratory.

The Chemical Laboratory is large, lofty, and well lighted, and can accommodate comfortably 106 men at one time but only a much smaller number are allowed to work at one time. Each student, when entering on this course, has a numbered table in the laboratory

assigned to him for his use during the session. Each table has its own gas and water fixtures, and is provided with shelves for its corresponding set of reagent-bottles, as well as a drawer and locker containing a modern set of chemical apparatus especially adapted for the work. This apparatus is provided by the Faculty, and supplied to each student without extra charge. The student is only required to pay for apparatus broken or destroyed.

The laboratory is ventilated by an electric fan and fully equipped for the various courses of study, thus giving to the student unsurpassed advantages for acquiring a sound and practical knowledge of medical chemistry.

Pathological Laboratory.

A large building of three stories, 47 by 40 feet, adjoining the College, recently acquired by the Faculty, thanks to the generosity of Mr. J. H. R. Molson, constitutes the Pathological Laboratory; it has undergone extensive alterations to fit it for the purpose. The uppermost floor has been converted into one large laboratory for classwork in Practical Pathology and Bacteriology; upon the floor beneath, are laboratories for research, a preparation room, professor's private room and library, and culture rooms; while upon the ground floor are rooms for the attendant, for storage and for keeping animals.

MATRICULATION.

Intending Students who purpose practicing in Canada, are requested to observe that by the regulations in force in the various Provinces of the Dominion, they are required to pass the Matriculation Examination accepted by the several Registering Boards of these provinces before beginning their course of study.

The students holding the degree of Bachelor of Arts are exempted by all the Examining Boards from examination for matriculation, but must present their diplomas and be registered in the Province in which they purpose practicing before beginning their studies.

The Preliminary Examination in General Education of the following Bodies is accepted by this University in lieu of its own Matriculation Examination for Medical students:—

1. The College of Physicians and Surgeons, Ontario.
2. The College of Physicians and Surgeons, Quebec.
3. The New Brunswick Medical Board.
4. The Nova Scotia Medical Board.
5. The Manitoba Medical College.

Students who have passed the matriculation examination of a recognized university, or who have passed a state or provincial examination on equivalent work, will be exempted from examination on production of their certificates.

Students not having any of the above qualifications for entrance are required to pass one of the following examinations :

1. The June matriculations in Arts and Medicine of this university, commencing June 1, 1894.

Papers for the June examinations will be sent to local centres on application to the Secretary of the University. The September examinations are held in Montreal only.

The subjects for examination are Classics, Mathematics and English, and one of the optional subjects as below.

COMPULSORY SUBJECTS.

Latin.—Cæsar, Bell. Gall. Book I.; and Virgil, Æneid, Book I.

Latin Grammar (on and after June, 1895, two books of Cæsar will be required.)

Mathematics.—Arithmetic (including metric system); Algebra, to quadratic equations inclusive; Euclid's Elements, Books I., II., III.

English.—Writing from Dictation. A paper on English Grammar, including *Analysis*. A paper on the leading events of English history. Essay on a subject to be given at the time of the examination.

OPTIONAL SUBJECTS.

(*One only of these subjects is required.*)

1. *Greek*.—Xenophon, Anabasis, Book I.; Greek Grammar.
2. *French*.—One author and French grammar.
3. *German*.—One author and German grammar.
4. *Chemistry*—(As in Remsen's Elements of Chemistry, pages 1.160) and *Physics* (Gage and Fessenden's High School Physics, parts I., II., III.)

2. The September examinations in Arts and Medicine of this university, held in McGill College only, on September 17th, 1894,

and following days, and including the same subjects above stated, except that alternative books in the classical subjects will be accepted.

(B).—**MATRICULATION EXAMINATION**

OF THE

COLLEGE OF PHYSICIANS AND SURGEONS OF QUEBEC.

Graduates in Arts of any British or Canadian University are exempted from this Examination on presentation of their Diplomas.

LATIN.—Cæsar's Commentaries, Bks. I., II., III., IV.—Virgil's *Æneid*, Bks. I. and II.—The Odes of Horace, Bk. III., with a sound knowledge of the Grammar of the Language.

ENGLISH.—For *English-speaking* candidates.—A critical knowledge of one of Shakespeare's plays, viz., Henry IV., Part 1 for 1891, Henry IV., Part 2 for 1892, with English Grammar, as in Dr. Smith or Mason.

For *French-speaking* candidates.—Translation into French of passages from the first eight Books of Washington Irving's *Life of Columbus*, with questions of Grammar. Translation into English of extracts from Fénelon's *Télémaque*.

FRENCH.—For *French-speaking* candidates.—A critical knowledge of Molière's *Le Bourgeois Gentilhomme*, Fénelon's *Aventures de Télémaque* and La Fontaine's *Fables*, Books I., II., III., with questions of Grammar and Analysis.

For *English-speaking* candidates.—Translation into English of passages from Fénelon's *Télémaque*, with questions of Grammar. Translations into French of easy English extracts.

BELLES LETTRES AND RHETORIC.—Principles of the subject as in Haven's *Rhetoric*, or Boyd's *Rhetoric and Literary Criticism*. History of the Literature of the age of Pericles in Greece, of Augustus in Rome, and of the 17th and 18th centuries of England and France.

HISTORY.—Outlines of the History of Greece and Rome, with particular knowledge of the History of Britain, France and Canada.

GEOGRAPHY.—A general view, with particular knowledge of Britain, France and North America.

ARITHMETIC.—Must include Vulgar and Decimal Fractions, Simple and Compound Proportion, Interest and Percentages, and Square Root.

ALGEBRA.—Must include Fractions and Simultaneous Equations of the First Degree.

GEOMETRY.—Euclid, Books I., II., III., IV. and VI., or the portion of plane Geometry covered by those Books. Also the measurement of the lines, surfaces and volumes, of regular geometrical figures.

OPTIONAL SUBJECTS.

(The Candidate must take one of the three following.)

GREEK.—Xenophon's Anabasis, Book I. Homer's Iliad, Book I., with Greek Grammar.

PHYSICS.—Outlines of the subject, as in Ganot's Physics, translated by Atkinson.

PHILOSOPHY.—Elements of Logic as in Jevon's Logic, and Elements of Moral Philosophy, as in Calderwood's Hand-book.

Candidates must produce certificate of good moral character. Any candidate detected in copying or in conniving at another's copying from him, or in using books or notes, will be immediately dismissed from the room.

The Examinations will be held in September, 1894, at Quebec, and in July, 1895, at Montreal. (See Almanac at front of this Calendar for exact date of examinations.) Applications to be made to Dr. Brosseau, Montreal, or Dr. Belleau, Quebec, either of whom will furnish schedule giving text books and percentage of marks to be obtained.

Examination Fee, 20 dollars. Should the candidate be unsuccessful, one half of the fee will be returned.

Of the four years' study *after* having passed the Matriculation Examination, three six months' sessions, at least, must be attended at a University, College, or Incorporated School of Medicine, recognized by the "Provincial Medical Board." The first session must be attended during the year immediately succeeding the Matriculation. Examination, and the final session must be in the fourth year.

(c).—**MATRICULATION EXAMINATION**

OF THE

COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO.

Every one desirous of being registered as a Matriculated Medical Student in the Register of this College, except as hereinafter provid-

ed, must present to the Registrar, Dr. Pyne, Toronto, the official certificate of having passed the University Departmental Matriculation Examination with science added ; whereupon he shall be entitled to be so registered upon the payment of twenty dollars and giving proof of his identity.

Graduates in Arts, in any University in Her Majesty's Dominions, are not required to pass the Matriculation Examination, but may register their names with the Registrar of the College, upon giving satisfactory evidence of their qualifications and upon paying the fee of twenty dollars. The examination is held in the various high schools and collegiate institutes of the province, on the first Tuesday in July of each year.

II.

ENREGISTRATION.

The following are the University Regulations :—

All Students desirous of attending the Medical Lectures shall, at the commencement of each Session, enrol their names and residences in the Register of the Medical Faculty.

The said Register shall be closed on the last day of October for 2nd, 3rd and 4th year students, and on the twentieth of October for 1st year students. Fees are payable to the Registrar, and must be paid in advance at the time of enregistration.

The class tickets for the various courses are accepted as qualifying candidates for examination before the various Colleges and Licensing bodies of Great Britain and Ireland, and the College of Physicians and Surgeons of Ontario. The degree in Medicine of this University carries with it at the Licensing Boards of Great Britain the same exemptions in certain subjects as are granted to all colonial degrees.

To meet the circumstances of the General Practitioners in British North America, where there is no division of the profession into Physicians and Surgeons exclusively, the degree awarded upon graduation is that of "Doctor of Medicine and Master of Surgery," in accordance with the general nature and character of the curriculum, as fully specified hereafter. The degree is received by the

College of Physicians and Surgeons of the Province of Quebec, provided the graduate from this university matriculated before the College of Physicians and Surgeons of Quebec, when entering on the study of medicine.

Any graduate therefore in medicine of the University, may obtain a license to practise in the Province of Quebec without further examination, if he has complied with the above regulations.

McGill University.—Faculty of Medicine.

TIME TABLE OF PAST SESSION.—First and Second Years, 1893-94—This Time Table will be entirely changed for the coming Session.
TIME TABLES FOR THE COMING SESSION WILL BE ISSUED ON THE OPENING OF THE SESSION.

† For fourth year students.

COURSES OF LECTURES.

The Corporation of the University, on the recommendation of the Faculty of Medicine, have consented to extend the present course of lectures over a period of nine months.

By this means, (1) The students of the primary years will have a more ample opportunity of becoming acquainted, by laboratory work, with those branches of study which form the scientific basis of their profession, and (2) the final students will be able to derive the greatest benefit from the abundance of clinical material provided in the two great Hospitals.

By this arrangement the actual number of didactic lectures per session will be decreased, but there will be a corresponding increase in the amount of tutorial work and individual teaching in the laboratories for Chemistry, Physiology, Anatomy, Pathology and Hygiene as well as giving more time, during the last two years of the course, for the thorough study of disease in the wards of the Royal Victoria and Montreal General Hospitals.

The Faculty expects, by thus increasing the time that the different professors, lecturers and demonstrators devote to each student, to accomplish two very important ends: First, to do away with the injurious effects which result from attempting to condense the teaching of medicine and surgery into four or even five sessions of six months; Second, to give each student a sounder and more thoroughly practical knowledge of his profession than could be obtained by attending during five sessions of six months each.

ANATOMY.

(DESCRIPTIVE AND PRACTICAL).

PROFESSOR, FRANCIS J. SHEPHERD.

H. S. BIRKETT, Senior, Demonstrator. J. M. ELDER, and
J. G. MCCARTHY, Demonstrators. R. TAIT MAC-
KENZIE, Assistant Demonstrator.

Anatomy is taught in the most practical manner possible, and its relation to Medicine and Surgery fully considered. The lectures are

illustrated by the fresh subject, moist and dry preparations, sections, models and plates, and drawings on the blackboard.

The department of *Practical Anatomy* is under the direct control and personal supervision of the Professor of Anatomy, assisted by his staff of Demonstrators.

The methods of teaching are similar to those of the best European schools, and Students are thoroughly grounded in this branch.

Every Student must be examined *at least* three times in each part dissected, and no certificate is given unless the examinations are satisfactory.

Special Demonstrations on the Brain, Thorax, Abdomen, Bones, etc., are frequently given. Prizes are awarded at the end of the Session for the best examination on the fresh subject.

The Dissecting Room is open from 8 a.m. to 10 p.m. Abundance of material provided.

CHEMISTRY.

PROFESSOR, GILBERT P. GIRDWOOD.

The course in this subject is carefully graded. Students of the first year receive lectures on Chemical and Physiological Physics and the general principles and theories of the science. In the second year the course on chemistry is extended to embrace its application to physiology and medicine, and includes a course in Organic Chemistry. The lectures are fully illustrated by experiments, for which the department is equipped with all modern Lecture-room apparatus.

PRACTICAL CHEMISTRY.

PROFESSOR, R. F. RUTTAN.

ASSISTANT DEMONSTRATOR, T. P. SHAW.

Laboratory instruction in practical chemistry is given during each of the first three years of study throughout one term.

The first year's course illustrates the general principles of chemical action and the properties of typical elements. During the second year the course will include methods of qualitative analysis and the detection of poisons. In the third year a course of clinical and sanitary chemistry will be given, in which the student will be made familiar with the application of chemistry to the diagnosis and pre-

vention of disease. Special attention is directed to instructing the student in making accurate notes of his experiments and his conclusions. These notes are examined daily and criticised.

PHYSIOLOGY.

PROFESSOR, WESLEY MILLS.

DEMONSTRATOR, W. S. MORROW.

The purpose of this Course is to make Students thoroughly acquainted, as far as time permits, with modern Physiology: its methods, its deductions, and the basis on which the latter rest. Accordingly a full course of lectures is given, in which the physical, the chemical and other aspects of the subject receive attention.

In addition to the use of diagrams, plates, models, etc., every department of the subject is experimentally illustrated. The experiments are mostly free from elaborate *technique*, and many of them are of a kind susceptible of ready imitation by the Student.

Laboratory work for Senior Students :—

(1.) During a part of the Session there will be a course on Physiological Chemistry, in which the Student will, under direction, investigate food stuffs, digestive action, blood, and the more important secretions and excretions, including urine. All the apparatus and material for this course will be provided.

(2.) The remainder of the Session will be devoted to the performance of such experiments as are unsuitable for demonstration to a large class in the lecture room, and such as require the use of more elaborate methods, apparatus, etc., together with such as each individual of the class can conduct himself.

Laboratory work for Junior Students :—

This will be somewhat similar to the course for senior students, except that it will be simpler and anatomico-physiological rather than chemical; but like the work for second year students will have as its main object the illustration of important physiological principles.

HISTOLOGY.

PROFESSOR, GEO. WILKINS.

DEMONSTRATOR, N. D. GUNN.

This will consist of a course of lectures and demonstrations with the Microscope, besides a short course in the preparation and

mounting of specimens. As the demonstrations will be chiefly relied upon for teaching the Microscopic Anatomy of the various structures, the specimens under observation will then be minutely described. Plates and diagrams specially prepared for these lectures will be freely made use of.

PHARMACOLOGY AND THERAPEUTICS.

PROFESSOR, A. D. BLACKADER.

The course on this subject comprises:

I. A description of the Pharmacology and Therapeutics of the more important medicinal agents.

II. The delivery of a weekly lecture ("Clinical Therapeutics") in the theatre of the General Hospital on some case or groups of cases well adapted for illustrating important points in both general and special Therapeutics. The material for these lectures is abundant, being obtained from both the wards and the out door clinics.

III. The attendance during the summer session of a course on Practical Materia Medica.

MEDICINE.

PROFESSOR, JAMES STEWART.

*ASSISTANT PROFESSORS, { F. G. FINLEY,
H. A. LAFLEUR.*

*ASSISTANT DEMONSTRATORS, { G. GORDON CAMPBELL.
W. F. HAMILTON.*

While the lectures on this subject are mainly devoted to Special Pathology and Therapeutics, no opportunity is lost of illustrating and explaining the general laws of disease. With the exception of certain affections seldom or never observed in this country, all the important internal diseases of the body, except those peculiar to women and children, are discussed, and their Pathological Anatomy illustrated by the large collection of morbid preparations in the University Museum, and by fresh specimens contributed by the Professor of Pathology.

The College possesses an extensive series of Anatomical plates and models illustrative of the Histological and Anatomical appearances of disease, and the wards of the General and Royal Victoria Hospitals afford the lecturer ample opportunities to refer to living examples of very many of the maladies he describes, and to demonstrate the results of treatment.

CLINICAL MEDICINE.*PROFESSOR, JAMES STEWART.**ASSISTANT " F. G. FINLEY,**LECTURER: H. A. LAFLEUR.*

The instruction in Clinical Medicine is conducted in the theatres, wards, out-patient rooms and laboratories of the Royal Victoria and Montreal General Hospitals.

The courses include :—

- I. The reporting of cases by every member of the Graduating Class. A certain number of beds being assigned to each student.
- II. Bedside instruction for members of the Graduating Class.
- III. Two Clinics weekly in each hospital.
- IV. Tutorial instruction for the Junior Classes, in the wards and outpatient rooms of both hospitals.
- V. Instruction in Clinical Chemistry and Bacteriology.

SURGERY.*PROFESSOR, THOMAS G. RODDICK.**DEMONSTRATOR, R. C. KIRKPATRICK.*

This course consists of the Principles and Practice of Surgery and Surgical Pathology, illustrated by a large collection of preparations from the Museum, as well as by specimens obtained from cases under observation at the Hospitals. The greater part of the course however is devoted to the Practice of Surgery, in which attention is constantly drawn to cases which have been observed by the class during the session. The various surgical appliances are exhibited, and their uses and application explained. Surgical Anatomy and Operative Surgery form special departments of this course.

CLINICAL SURGERY.*PROFESSOR, JAMES BELL.**ASSISTANT " GEORGE ARMSTRONG.*

This course is entirely practical. Two Clinics are given weekly to full classes in the amphitheatres of each of the large general Hospitals (the Montreal General and the Royal Victoria), at which all operations are performed, the most important surgical dressings

are done and the diagnosis and treatment of fractures and dislocations are illustrated by cases from the wards. Ward classes, limited to ten or twelve students, are also held weekly in each of the hospitals for bedside instruction, and every student is required to act as clinical clerk for at least six months in the surgical wards of one or the other hospital, during which period he is personally taught case taking, physical examination, &c., and is required to take part in dressing and the administration of anæsthetics.

MIDWIFERY.

PROFESSOR, J. CHALMERS CAMERON.

DEMONSTRATOR, D. J. EVANS.

This course will embrace : 1. Lectures on the principles and practice of the obstetric art, illustrated by diagrams, fresh and preserved specimens, the artificial pelvis, complete sets of models illustrating deformities of the pelvis, wax preparations, bronze mechanical pelvis, &c. 2. Bedside instruction in the Montreal Maternity, including external palpation, pelvimetry, the management and after-treatment of cases. 3. A complete course on obstetric operations with the phantom and preserved fœtuses. 4. The diseases of Infancy.

5. A course of individual clinical instruction at the Montreal Maternity.

Arrangements have now been made for a graded course in Obstetrics, instruction being given separately to third year and final students.

Particular attention is given to Clinical instruction, and a Clinical examination in Midwifery similar to that held in Medicine and Surgery now forms part of the final examination.

GYNÆCOLOGY.

PROFESSOR, WM. GARDNER.

ASSISTANT PROFESSOR, T. JOHNSTON ALLOWAY.

The didactic course is graded and consists of from forty to forty-five lectures given at intervals alternating with the lectures on Obstetrics and extending throughout the session. The anatomy and physiology of the organs and parts concerned is first discussed. Then the various methods of examination are fully described, the necessary instruments exhibited, and their uses explained.

The diseases peculiar to women are considered as fully as time permits, somewhat in the following order :- Disorders of Menstruation ; Leucorrhœa ; Diseases of the External Genital Organs ; Inflammations, Lacerations and Displacements of the Uterus ; Pelvic Cellulitis and Peritonitis and Inflammations of the Ovaries and Fallopian Tubes ; Benign and Malignant growths of the Uterus ; Tumours of the Ovary ; Diseases of the Bladder and Urethra. The lectures are illustrated as fully as possible by drawings and morbid specimens.

The Gynæcological department of the Royal Victoria Hospital is under the direction of the Professor, while that of the Montreal General Hospital is under the direction of the Assistant Professor. A large amount of clinical material is thus available for practical instruction in this department of medicine. Numerous operations are done before the class, and made the subject of remarks. In addition to the ward-patients each hospital conducts a large out-patient Gynæcological Clinic to which advanced students are admitted in rotation and instructed in digital and bimanual examination and in the use of diagnostic instruments.

Particular attention is thus given to Clinical instruction, and a Clinical examination in Gynæcology similar to that held in Medicine and Surgery now forms part of the final examination.

MEDICAL JURISPRUDENCE.

PROFESSOR, GEO. WILKINS.

This course includes Insanity, the subject being treated of in its Medical as well as Medico-Legal aspects. Special attention is devoted to the subject of blood stains, the Clinical, Microscopic and Spectroscopic tests for which are fully described and shown to the class. The various spectra of blood in its different conditions are shown by the Microspectroscope, so well adapted for showing the reactions with exceedingly minute quantities of suspected material. Recent researches in the diagnosis of human from animal blood are alluded to. In addition to the other subjects usually included in a course of this kind, Toxicology is taken up. The modes of action of poisons, general evidence of poisoning and classification of poisons are first treated of, after which the more common poisons are described, with reference to symptoms, post-mortem appearances, and chemical tests. The post-mortem appearances are illustrated by plates, and the tests are shown to the class.

OPHTHALMOLOGY AND OTOTOLOGY.*PROFESSOR, FRANK BULLER,**DEMONSTRATOR, J. J. GARDNER.*

This will include a course of twenty-five lectures on diseases of the Eye and Ear, both didactic and clinical. In the former, the general principles of diagnosis and treatment will be dealt with; including three lectures on the errors of refraction and faults of accommodation. At the clinical lectures given in the Hospital cases illustrative of the typical forms of ordinary diseases of the Eye and Ear will be exhibited and explained to the class. In the out-patients' department of the Hospital students have excellent opportunities of gaining clinical experience.

HYGIENE AND PUBLIC HEALTH.*PROFESSOR, ROBERT CRAIK.*

This course comprises lectures on Drinking Water and Public Water Supplies; conditions of Soil and Water as affecting health, including Drainage and the various methods for the removal of Excreta; the Atmosphere, including Heating and Ventilation; Individual Hygiene, comprising the subjects of Food and Drink; Physical Exercise and Bathing; discussion of the respective merits of the various forms of each, precautions, contra-indications, &c. Village Sanitary Associations; Mutual Protective Sanitary Associations for cities.*

BOTANY.*PROFESSOR D. P. PENHALLOW.*

The purpose of this course is to give students a good grounding in the principles of General Morphology, to advance their knowledge of the Comparative Physiology of animals and plants, and enable them to determine readily, such species of plants as may come under their observation. It comprises,—

1. A course of lectures on General Morphology and Classification, Histology and Physiology. The lectures are illustrated by means of the microscope, and by the models and large collections in the Peter Redpath Museum.

* Students may attend the Lectures on Sanitation in the Faculty of Applied Science. Fee \$6.00.

2. Practical work in the determination and Classification of Species, for which the Botanic Garden of the University offer special facilities.

3. Studies in Canadian Botany. This work is prosecuted by means of field-excursions which are held as often as opportunity is afforded during the autumn months.

4. A special collection of medicinal plants, now being formed at the Gardens, offers a valuable preparation in the course of Pharmacology.

ZOOLOGY.

W. E. DEEKS, LECTURER.

This course includes a systematic study of the Morphology and classification of animals, illustrated by Canadian examples and by the collections in the Peter Redpath Museum. It forms a suitable introduction to Comparative Physiology.

Students may take either Zoology or Botany, but their choice should be regulated by the requirements of the law in the provinces in which they intend to practice.

Students electing either subject, must continue therein for the session, except by permission from the Faculty.

Students desiring to take both Zoology and Botany during one session must apply for permission from the Faculty.

Students in Botany or Zoology will receive tickets to the Peter Redpath Museum, and to the Museum of the Natural History Society of Montreal.

PATHOLOGY.

PROFESSOR, J. G. ADAMI.

LECTURER IN BACTERIOLOGY, WYATT JOHNSTON.

DEMONSTRATOR, C. F. MARTIN.

The following courses constitute the teaching on this subject:—

A. Obligatory.

1. A course of General Pathology for Students of the Third Year (optional for those of the Fourth). This course extends from October to March, lectures being delivered thrice weekly.

2. A course of Demonstrations upon the autopsies of the week, with instruction in the performance of autopsies. These demonstrations are held once a week, from October until July, for Students of the Third Year (optional for those of the Fourth).

3. The performance of autopsies. Each student is required to take an active part in at least six autopsies. The autopsies are conducted at the General and Royal Victoria Hospitals by the Pathologist* to these Hospitals and his assistants. In addition to the actual performance of the *sectio cadaveris*, students are expected to attend the practical instruction given in connection with each autopsy, in the method of preparation and microscopic examination of the removed tissues, so as to become proficient in methods of preparation, staining and mounting.

B. *Optional.*

4. A practical course in Morbid Histology for Students of the Third Year. This class is held once a week during the winter months. Six sections are as a rule distributed at each meeting of the class so that each student obtains a large and representative series of morbid tissues, and upon an average twenty minutes are devoted to the description and examination of each specimen. Fee \$4.

5. A course of demonstrations upon Morbid Anatomy (Museum specimens) once weekly during the winter months, for students of the Fourth Year. Free.

6. A course of Bacteriology, with demonstrations, held thrice weekly during the Summer Term. For Students of the final year.

7. A practical course of clinical microscopy, held thrice weekly during the summer session. For Students of the final year.

This course, in addition to instruction in the microscopical study of the fluids of the body, excreta, etc., in diseased conditions, includes instruction in the staining and detection of the commoner pathogenic bacteria. Fee \$2.50.

8. A practical course of Bacteriology for advanced students. Fee \$10.

In addition to the above, lectures upon Special Pathology are given by the Professor of Pathology in connection with the courses in Medicine and Surgery.

* The Professor of Pathology at the present time occupies this post at both Hospitals.

LARYNGOLOGY AND RHINOLOGY.*PROFESSOR, GEO. W. MAJOR.**LECTURER, H. S. BIRKETT.*

This course will consist of practical lessons in the use of the Laryngoscope and Rhinoscope. The instruction will be carried on with small classes so that individual attention may be insured. A limited number of clinical lectures bearing upon interesting cases attending the clinic will be delivered during the session. These lectures will be, however, of an eminently practical nature.

MENTAL DISEASES.*LECTURER, T. J. W. BURGESS.*

This course will comprise a series of lectures at the University on Insanity in its various forms, from a medical as well as from a medico-legal standpoint. The various types of mental diseases will be illustrated by cases in the Verdun Asylum, where clinical instruction will be given to groups of senior students at intervals throughout the session.

PRACTICAL MICROSCOPY.

This is an entirely optional course, in charge of Prof. Wilkins. It is intended especially for teaching the technique of Microscopy. Students will be shown how to examine blood, &c., also to cut, stain, and mount specimens. For this purpose they will have furnished them normal structures, with which they will be able to secure a cabinet of at least 100 specimens, which will be of great benefit when in practice. Reagents and everything, except cover-glasses and cabinet cases, provided. Fee \$8.

IV.**QUALIFICATIONS FOR THE DEGREE.***

1st. No one entering after September, 1894, will be admitted to the Degree of Doctor of Medicine and Master of Surgery, who shall not have attended Lectures for a period of four nine months' sessions in this University, or some other University, College or School of Medicine, approved of by this University.

* The changes in the requirements for the degree do not apply to students who are now enregistered in Medicine.

2nd. Students of other Universities so approved and admitted, on production of certificates to a like standing in this University, shall be required to pass all primary and final examinations in the same manner as students of the Faculty of this University.

3rd. Candidates for Final Examination shall furnish Testimonials of attendance on the following branches of Medical Education, viz. :—

ANATOMY.	}	Of which Two full Courses will be required
PRACTICAL ANATOMY.		
PHYSIOLOGY.		
CHEMISTRY.		
MATERIA MEDICA AND THERAPEUTICS.		
PRINCIPLES AND PRACTICE OF SURGERY.		
OBSTETRICS AND DISEASES OF INFANTS.		
GYNÆCOLOGY.		
THEORY AND PRACTICE OF MEDICINE.		
CLINICAL MEDICINE.		
CLINICAL SURGERY.	}	Of which One Full Course will be required.*
MEDICAL JURISPRUDENCE.		
GENERAL PATHOLOGY.		
HYGIENE AND PUBLIC HEALTH.		
PRACTICAL CHEMISTRY.		
BOTANY OR ZOOLOGY.	}	Of which One Course will be required.
HISTOLOGY.		
PATHOLOGICAL ANATOMY.		
BACTERIOLOGY.		
MENTAL DISEASES.		

* Provided, however, that Testimonials equivalent to, though not precisely the same as those above stated, may be presented and accepted.

4th. Courses of less length than the above will only be received for the time over which they have extended.

5th. The Candidates must give proof by ticket of having attended during eighteen months the practice of the Montreal General Hospital or of the Royal Victoria Hospital, or of some other Hospital approved of by this University.

6th. He must give proof of having acted as clinical clerk for six months in Medicine and six months in Surgery in the wards of a general hospital recognized by the faculty.

7th. He must also give proof of having assisted at six autopsies.

8th. He will be required to show by certificate that he has dispensed medicines for six months or has taken a full course in Practical Pharmacy.

9th. He must also give proof by ticket of having attended for at least nine months the practice of the Montreal Maternity or other Lying-in-Hospital approved of by the University, and having attended at least ten cases of labor.

10th. No one will be permitted to become a Candidate for the degree who shall not have attended at least one full Session at this University.

11th. Candidates who fail to pass in not more than two subjects of either the first or second years may be granted a supplemental examination at the beginning of the following session.

* A course in medical, surgical and topographical anatomy will be given for students qualifying for the Ontario Medical Council.

12th. Supplemental examinations will not be granted, except by special permission of the Medical Faculty, and on written application stating reasons, and accompanied with a fee of \$5.00 for each subject.

13th. No candidate will be permitted, without special permission of the Faculty, to proceed with the work of the final year until he has passed the subjects comprised in the Primary examination.

14th. No student will be allowed to present himself for his final examinations who has not certificates of having passed all his Primary examinations in this University.

15th. Candidates who fail to pass in a subject of which two courses are required, may, at the discretion of the Faculty, be required to attend a third course, and furnish a certificate of attendance thereon. A course in Practical Anatomy will be accepted as equivalent to a third course of lectures in General and Descriptive Anatomy.

16th. Every Candidate for the Degree must, *on or before the 15th day of May*, present to the Registrar of the Medical Faculty testimonials of his qualifications, entitling him to an examination, and must at the same time deliver to the Registrar of the Faculty an affirmation or affidavit that he has attained the age of twenty-one years.

17th. The trials to be undergone by the Candidate shall be such as are referred to under Section V.

18th. The following Oath or affirmation will be exacted from the Candidate before receiving his degree :

SCONSIO ACADEMICA.

In Facultate Medicinæ Universitatis.

Ego, A—— B——, Doctoratus in Arte Medica, titulo jam donandus, sancto coram Deo cordium scrutatore, spondeo :- me in omnibus grati animi officiis erga hanc Universitatem, ad extremum vitæ halitum, perseveraturum ; tum porro artem medicam caute, caste, et probe exercitaturum ; et quoad in me est, omnia ad ægrotorum corporum salutem conducentia, cum fide procuraturum ; quæ denique, inter medendum, visa vel audita silere conveniat, non sine gravi causa vulgaturum. Ita præsens mihi spondenti adsit Numen.

19th. The fee for the Degree of Doctor of Medicine and Master of Surgery shall be thirty dollars, to be paid by the successful candidate immediately after examination.

V.

EXAMINATIONS.

Frequent oral examinations are held to test the progress of the Student; and occasional written examinations are given throughout the Session.

The *pass* examinations at the close of each Session are arranged as follows :—

First Year.

Examinations in BOTANY* or ZOOLOGY, HISTOLOGY, PHYSIOLOGY, ANATOMY and CHEMISTRY.*

d in those subjects not completed in the first year will count for both pass and Honours in the Primary examinations.

Second Year.

Examinations in ANATOMY, CHEMISTRY, PRACTICAL CHEMISTRY, PHYSIOLOGY, HISTOLOGY, PHARMACOLOGY and THERAPEUTICS.

Third Year.

Examinations in PHARMACOLOGY and THERAPEUTICS, MEDICAL JURISPRUDENCE, HYGIENE, GENERAL PATHOLOGY, MENTAL DISEASES, MEDICINE and SURGERY.

Fourth Year.

Examinations in MEDICINE, SURGERY, OBSTETRICS, GYNAECOLOGY, CLINICAL MEDICINE, CLINICAL SURGERY, CLINICAL OBSTETRICS, CLINICAL GYNAECOLOGY, CLINICAL OPHTHALMOLOGY, PRACTICAL PATHOLOGY and BACTERIOLOGY.

By means of the above arrangement a certain definite amount of work must be accomplished by the student in each year, and an equitable division is made between the Primary and Final branches.

In order to pass in any subjects it is necessary to make 50 per cent., and to obtain Honours it is necessary to make 75 per cent.

 VI.
MEDALS AND PRIZES.

The "HOLMES GOLD MEDAL," founded by the Medical Faculty in the year 1865, as a memorial of the late Andrew Holmes, Esq., M.D., LL.D., late Dean of the Faculty of Medicine. It is awarded to the student of the graduating class who receives the highest aggregate number of marks in the different branches comprised in the Medical Curriculum.

* Students who have taken one or more university courses in Botany or Chemistry before entering, may be exempted from attendance and examination. Students exempted in their first year subjects are allowed only a pass standing, but may present themselves for examination if they desire to attain an honor standing.

The Student who gains the Holmes' Medal has the option of exchanging it for a Bronze Medal, and the money equivalent of the Gold Medal.

2nd. THE FINAL PRIZE.—A Prize in Books (or a Microscope of equivalent value) awarded for the best examination, written and oral, in the Final branches. The Holmes medallist is not permitted to compete for this prize.

3rd. THE PRIMARY PRIZE.—A Prize in Books awarded for the best examination, written and oral, in the Primary branches.

The "SUTHERLAND GOLD MEDAL," founded in 1878 by the late Mrs. Sutherland in memory of her late husband, Professor William Sutherland, M.D. It is awarded for the best examination in Theoretical and Practical Chemistry, together with creditable examination in the primary branches.

5th. A Prize in Books for the best examination in Practical Anatomy.

6th. A Prize in Books for the best examination in Botany.

7th. The "Clemesha Prize in Clinical Therapeutics," founded in 1889 by John W. Clemesha, M. D., of Port Hope, Ont. It is awarded to the student making the highest marks in a special clinical examination.

VII.

FEES.

The total Faculty fees for the whole medical course of four full sessions including clinics, laboratory work, dissecting material and reagents, will be four hundred dollars, payable in four annual instalments of \$100 each.

Partial students will be admitted to one or more courses on payment of special fees. An annual University fee of two dollars is charged students of all the faculties for the maintenance of college athletics.

For Graduation Fees, see p. 59.

For Hospital Fees, see pages 67 and 68.

All fees are payable in advance, to the Registrar, and except by permission of the Faculty will not be received later than 1st November.

It is suggested to parents or guardians of students that the fees be transmitted direct by cheque or P. O. Order, to the Registrar, who will furnish official receipts.

VIII.

TEXT BOOKS.

- ANATOMY.—Gray, Morris, Quain (Eng. Ed.).
- PRACTICAL ANATOMY.—Cunningham's Practical Anatomy, Ellis' Demonstrations, Holden's Dissector and Landmark's.
- PHYSICS.—Balfour Stewart.
- INORGANIC CHEMISTRY.—Remsen, Wurtz's Elementary Chemistry.
- ORGANIC CHEMISTRY.—Remsen.
- PRACTICAL CHEMISTRY.—Odling.
- PHARMACOLOGY and THERAPEUTICS.—Wood, H. C., Hare, Edes, and Bruce.
- PHYSIOLOGY.—Huxley's *Elementary Lessons*, Foster, Mills' Text-book of Animal Physiology, Mills' Class Laboratory Exercises.
- PATHOLOGY.—Delafield & Prudden, Payne, Boyce.
Frankel's Bacteriology or Woodhead.
- HISTOLOGY.—Klein's Elements, Schäfer's Essentials of Histology.
- SURGERY.—Holmes' Surgery (Eng. Ed.), Erichsen, Druitt, Bryant, Treves. American Text-book of Surgery.
- PRACTICE OF MEDICINE.—Osler, Strümpell, Fagge and Flint.
- CLINICAL MEDICINE.—Musser's Medical Diagnosis; Jaksch on Clinical Diagnosis.
- MEDICAL JURISPRUDENCE.—Husband, Guy and Ferrier, Reese.
- MIDWIFERY.—Parvin, Lusk, Playfair and Barnes.
- DISEASES OF CHILDREN.—Smith, Goodhart and Starr.
- GYNÆCOLOGY.—Thomas and Mundé, Skene, Garrigues.
- HYGIENE.—Parks, Wilson.
- BOTANY.—Gray's Text Book of Histology and Physiology.

ZOOLOGY.—Sir William Dawson's Handbook of Canadian Zoology.

OPHTHALMOLOGY.—Nettleship, Higgins, De Schwinitz.

OTOLOGY.—Pritchard, Dulby.

LARYNGOLOGY.—Haveland Hall.

MEDICAL DICTIONARY.—Gould, Dunglison, Hoblyn.

IX.

MUSEUM.

PROF. J. G. ADAMI, DIRECTOR.

E. P. WILLIAMS, M.D., ASSISTANT CURATOR.

M. BAILLY, OSTEOLOGIST AND ARTICULATOR.

For the past fifty years, the rich Pathological Material furnished by the Montreal General Hospital has been collected here. The Faculty is also greatly indebted to many medical men throughout Canada and different parts of the world for important contributions to the Museum.

During the past few years, numerous and extremely important additions have been made to the Medical Museum.

It is particularly rich in specimens of Aneurisms. In addition to containing a large number of the more common varieties of these formations, there are specimens of such rare conditions as Aneurism of the Hepatic and Superior Mesenteric Arteries, Traumatic Aneurism of the Vertebral, together with several of the cerebral and pulmonary arteries. The most important collection probably in existence of hearts affected with "Malignant Endocarditis" is also found. The Faculty are indebted to Prof. Osler, late of this University, for this collection.

The Museum contains also a very large collection of different forms of calculi. The Faculty are mainly indebted to Prof. Fenwick for this collection.

During the past four years, M. Bailly, osteologist and articulator (lately with Tramond of Paris), has been engaged in arranging and mounting the very large number of specimens of disease and injuries of bones which have been accumulating for years. In this collection are to be found examples of fractures and dislocations of the spine, osteoporosis, congenital dislocation of the hip, fracture of the astragalus, multiple exostoses, &c., &c.

Obstetrical Department of the Museum.

Besides the ordinary pathological preparations, dry and moist, usually found in Museums, this department contains a complete set of models of deformed pelves, a series of preparations in wax, illustrating the normal relations of the pelvic organs, the development of the Uterus and its contents during pregnancy, various abnormalities, twin pregnancy, foetal circulation &c., a series of colored casts of frozen sections, Tarnier's artificial pelvis, Budin's bronze mechanical pelvis, models of obstetrical instruments, &c.

Additions are being constantly made, and ere long the department will possess a complete collection of models, casts, preparations and apparatus for the practical teaching and illustration of Obstetrics.

Anatomical Museum.

In addition to the already large collection of normal and abnormal osteology, comparative and human, skeletons of various classes of animals, moist preparations and frozen sections, the following preparations have been recently added to the Museum:—

(1) A series of articulated skeletons of fore and hind limbs of the various domestic animals prepared by the articulator Mr. Bailly.

(2) Numerous moist preparations presented by the Professor of Anatomy.

(3) A complete set of Steger's beautiful colored casts taken from the celebrated frozen sections of Professors His and Braune of Leipzig. These preparations have been placed in the Museum so that they can be constantly consulted by the Students.

(4) (a) A complete set of Steger's brain sections.

(b) Set of hardened brains with the various lobes, convolutions, ganglia, &c., in different colors.

(c) Models of the cerebro-spinal and sympathetic nervous systems.

(d) A set of Prof. D. J. Cunningham's beautiful casts of the Brain in situ, showing the relations of convolutions to the skull.

(5) (a) A set of preparations showing the anomaly of vessels entering the kidneys.

(b) A number of rare anomalies of the aorta and its branches.

(c) A series of preparations showing the shoulder girdle in various animals.

For additions to the museum during the past year see page 22.

X.

LIBRARY.*LIBRARIAN, PROF. F. J. SHEPHERD.**ASSISTANT " MISS C. G. FORESTER.*

The Library of the Medical Faculty now comprises upwards of fourteen thousand volumes, the largest special library connected with any medical school on this continent.

The valuable libraries of the late Professor Robert Palmer Howard, George Ross and Richard L. MacDonnell have been donated to the Medical Faculty. They consists of several thousand volumes including a very complete collection of works on Diseases of the Chest.

The standard text-books and works of reference, together with complete files of the leading periodicals, are on the shelves. Students may consult any work of reference in the library between 10 a.m. and 5 p.m. A library reading room for the use of students is provided.

 XI.
MCGILL MEDICAL SOCIETY.

This Society, composed of enregistered Students of the Faculty, meets once a week during the Spring Term, and fortnightly during the Winter, for the reading of papers and the discussion of medical subjects.

The Students' reading room has been placed under the control of this Society, in which the leading English and American Medical Journals are on file as well as the leading daily and weekly newspapers of the Dominion.

An extensive library of books of reference has also been established in connection with this society.

 XII.
COST OF LIVING, &c.

This will, of course, vary with the tastes and habits of the Student, but the necessary expenses need not exceed those in smaller towns.

Good board may be obtained from \$15 to \$20 per month. A list of boarding-houses, which are inspected annually by a sanitary committee, is prepared by the Secretary of the University, and may be procured from the Janitor at the Medical College.

XIII.

LICENSED BOARDING-HOUSES.

1. All Students under 21 years of age, not residing with parents or guardians, shall reside in licensed boarding-houses, unless they produce written authority from parents or guardians to reside elsewhere.

2. Persons applying for a license to keep boarding-houses shall produce evidence satisfactory to the Principal as to their character and fitness, and the suitability of the house for the health and comfort of the Students. They shall also supply him with a statement of charges.

3. The keeper of every lodging-house shall deposit with the Secretary of the University, on or before September 10th, in every year, a certificate as to the sanitary condition of the house from some competent officer or sanitary engineer recognized by the Principal.

4. A list of boarding-houses licensed under the above regulations shall be kept in the office of the Secretary, and shall be accessible to all members of the University and intending students.

XIV.

HOSPITALS.

The City of Montreal is celebrated for the number and importance of its public charities. Among these its public hospitals are the most prominent and widely known. Those in which medical students of McGill University will receive clinical instruction are: (1.) The Montreal General Hospital. (2.) The Royal Victoria Hospital. (3.) Montreal Maternity Hospital.

The Montreal General Hospital has for many years been the most extensive clinical field in Canada. The old buildings, having proved inadequate to meet the increased demand for hospital accommodation, have recently been increased by the addition of two

surgical pavillions; the Campbell Memorial, and the Greenshields Memorial, and of a new surgical theatre. The interior of the older buildings is now being entirely reconstructed on the most approved modern plans.

The Royal Victoria Hospital at the head of University Street, was opened for the reception of patients the first of January, 1894, and affords exceptional opportunities for clinical instruction and practical training.

Montreal General Hospital.

This hospital consists of the main building, including the administration building and out patient departments, the Reid and Richardson wings for the reception of Medical, Gynæcological and Ophthalmological cases and the two new surgical wings.

Attached to the new surgical pavillions, which contain over 100 beds, is a larger building containing a surgical amphitheatre furnished with all the modern appliances for the carrying out of aseptic methods.

Besides the theatre, which has a seating capacity of 300 and its adjoining rooms for etherizing, for instruments, and for the preparation of surgical dressings, there are on the same flat smaller operating rooms and isolation wards.

Commodious laboratories for clinical chemistry, bacteriology and general pathological work are provided in the basement of the Campbell Memorial wing.

A much larger number of patients receive treatment in the Montreal General Hospital than in any other Canadian Hospital. Last year's report shows that between two and three thousand Medical and Surgical cases were treated in the wards, and the great proportion of these were acute cases, as may be gathered from the fact that the average duration of residence was only 24.02 days. Upwards of thirty-two thousand patients are annually treated in the out-door department of this Hospital.

Annual tickets entitling students to admission to the Hospital must be taken out at the commencement of the session, price \$5.00. These are obtained at the Hospital. Perpetual tickets will be given on payment of the third annual fee.

The Royal Victoria Hospital.*

This Hospital is situated a short distance above the University Grounds on the side of the Mountain, and overlooks the city. It was founded in July, 1887, by the munificence of Lord Mount Stephen and Sir Donald Smith, who gave half a million dollars each for this purpose.

The buildings, which were opened for the reception of patients on the first of January, 1894, were designed by Mr. Saxon Snell of London, England, to accommodate between 250 and 300 patients.

The Hospital is composed of three main buildings connected together by stone bridges; an Administration Block in the centre, and a wing on the east side for medical patients, in immediate connection with which is the new Pathological wing and mortuary, and a wing on the west side for surgical patients.

The Administration block contains ample accommodation for the resident medical staff, the nursing staff and domestics. The patients' entrance, the dispensary and admission rooms are also situated in this building.

The Medical wing contains three large wards, each 123 feet long by 26 feet 6 inches wide, one ward 40 feet by 26 feet 6 inches, and fifteen private and isolation wards averaging 16 feet by 12 feet, also a medical theatre with a seating capacity for 250, and three rooms adjacent to it for clinical chemistry and other purposes. North of this wing and in direct connection with it are the Pathological laboratories and mortuary.

In this wing are situated the mortuary proper with the most modern arrangements for the preservation of cadavers, the chapel, a post mortem room capable of accommodating 200 students, and laboratories for the Microscopic and bacteriological study of morbid tissues soon designed for the use of students and others for post graduation courses and special research. Laboratories for Pathological chemistry and Photography are also provided.

The Surgical wing contains three large wards, each 123 feet long by 26 feet 6 inches wide, four wards each 40 feet by 32 feet, and seven private and isolation wards, averaging 16 feet by 12 feet; also a surgical theatre with a seating capacity for 250, with six rooms adjacent for preparation and after recovery purposes.

In this wing are also the wards for Gynæcology and Ophthalmology.

* Fees for this hospital are the same as those for the Montreal General Hospital (pp. 67).

ROYAL VICTORIA HOSPITAL.

CLINICAL INSTRUCTION.

During the Session of 1894-95, two Medical, two Surgical, two Gynæcological and two Ophthalmological clinics will be held weekly in both the Montreal General and Royal Victoria Hospitals.

In addition, tutorial instruction will be given in these different departments in the wards, out-patient rooms and laboratories. Special weekly clinics will be given in the Montreal General Hospital on Dermatology and Laryngology and in the Royal Victoria Hospital on diseases of the Genito-Urinary system.

CLINICAL CLERKS in the medical and surgical wards of both Hospital are appointed every three months, and each one during his term of service conducts, under the immediate directions of the Clinical Professors, the reporting of all cases in the ward allotted him. Students entering on and after October 1893 will be required to show a certificate of having acted for six months as clinical clerk in medicine and six months in surgery. The instruction obtained as clinical clerk is found to be of the greatest possible advantage to Students, as affording a true *practical* training for his future professional life.

DRESSERS are also appointed to the Out-door Departments. For these appointments, application is to be made to the Assistant Surgeons, or to the resident surgeon in charge of the out-patient department.

The large number of patients affected with diseases of the eye and ear, now attending the special clinics at both hospitals, will afford Students ample opportunity to become familiar with all the ordinary affections of those organs, and to make themselves proficient in the use of the ophthalmoscope, and it is hoped that every student will thus seek to gain a practical knowledge of this important branch of Medicine and Surgery. Operations are performed on the eye by the Ophthalmic Surgeon after the outdoor patients have been seen, and Students are invited to attend the same, and as far as practicable, to keep such cases under observation so long as they remain in the Hospital.

There are now special departments in both Hospitals for Gynæcology, presided over by Specialists in the branches. Students are thus enabled to acquire special technical knowledge under skilled direction. The plan of teaching practical gynæcology for the past five years with marked success has been the limitation of the number

of Students to two or three, who, in rotation, assist at the examinations, and receive instruction in the diagnosis and treatment of uterine diseases and the use of gynecological instruments.

The Clinics at the Montreal General Hospital in Dermatology and Laryngology are very large and afford a practical training in affections of the skin and throat rarely obtained by medical students.

A special clinic for diseases of the Genito Urinary Organs has been established at the Royal Victoria Hospital,

Infectious diseases and Insanity will also be taught clinically, the former in the special wards for infectious diseases and the latter at the Verdun Hospital for the Insane.

The Montreal Maternity.

The Faculty have great pleasure in announcing that the Corporation of the Montreal Maternity have recently made very important additions to their building, and have still further improvements in contemplation. Students will therefore have greatly increased facilities for obtaining a practical knowledge of obstetrics. An improved Tarnier-Budin phantom is provided for the use of the students, and every facility afforded for acquiring a practical knowledge of the various obstetric manipulations. The institution is under the direct supervision of the Professor of Midwifery, who devotes much time and attention to individual instruction. Students who have attended the course on obstetrics during the autumn and winter terms of the third year will be furnished with cases in rotation, which they will be required to report and attend till convalescence. Clinical midwifery has been placed upon the same basis as Clinical Medicine and Surgery, and a final Clinical examination instituted. Regular courses of clinical lectures are given throughout the session. During the autumn and winter terms the Demonstrator of Obstetrics gives Clinical Demonstrations in the wards and instruction in operative work on the phantom. Students will find it very much to their advantage to pay special attention to their Clinical work during the spring term of the third year and the following summer. Two resident accoucheurs are appointed yearly from the graduating class to hold office for a period of six months each.

Fee for twelve months, \$12.00, payable at the Maternity Hospital.

XVII.

Class and Honor Lists.

SESSION 1893-94.

The total number of students enregistered in the Medical Faculty during the past session was 350, of whom there were from :—

Quebec.....	135	Prince Edward Island.....	13
Ontario.....	108	North-West Territories....	2
New Brunswick.....	32	Manitoba.....	6
Nova Scotia.....	28	West Indies.....	3
United States.....	19	British Columbia.....	4

PASS LISTS.

The following gentlemen, 55 in number, have fulfilled all the requirements to entitle them to the degree of M.D., C.M., from the University. In addition to the primary subjects mentioned, they have passed a satisfactory examination, both written and oral, on the following subjects: Principles and Practice of Surgery, Theory and Practice of Medicine, Obstetrics and Diseases of Women and Children, Pharmacology and Therapeutics, Medical Jurisprudence, Pathology and Hygiene,—and also Clinical Examinations in Medicine, Surgery, Obstetrics, Gynæcology and Ophthalmology, conducted at the bedside in the hospitals :

Bazin, A. T.....	Montreal,
Byers, W. G. M.....	Gananoque, Ont.
Colvin, A. R.....	Lethbridge, N.W.
Davidson, A.....	Burns, Ont.
Davis, R. E.....	Fallowfield, Ont.
Drysdale, W. F.....	Perth, Ont.
Estey, A. S.....	Keswick Ridge, N.B.
Evans, J. W.....	Hull, Que.
Ferguson, W.....	Pictou, N.S.
Fowler, E. S.....	Hudson, Wis.
Fry, F. M., B.A.....	Montreal.
Fulton, J. A.....	Franklin Centre, Que.

Gorrell, C. W. F.	Brockville, Ont.
Hamilton, G.	Bright, Ont.
Hanington, J. P.	Montreal
Hart, E. C.	Baddeck, N.S.
Henderson, W.	Vars, Ont.
Hepworth, W. G.	Manitoba.
Holohan, P. A., B.A.	Newcastle, N.B.
Jacques, H. M.	Upper Dyke, N.S.
Kearns, J. F.	Metcalfe, Ont.
Kinghorn, H. McL., B.A.	Montreal.
Lambly, W. O.	Montreal.
Lewis, J. F.	Hillsboro', N.B.
MacCarthy, G. S.	Ottawa.
McCrea, J.	Detroit, Mich.
McLaren, J. T.	Bell Creek, P.E.I.
McLaughlin, J. A.	Avonmore, Ont.
McLean, C. M.	Kingston, N.B.
McIntosh, L. Y.	Strathmore, Ont.
McKenzie, L. F.	Montreal.
Manchester, G. H.	Ottawa.
Mathewson, G. H., B.A.	Montreal.
Mitchell, W.	Lachute, Que.
Nicholls, A. G., M.A.	Montreal.
O'Connor, E. J.	Ottawa, Ont.
Ogden, C. L., B.A.	Warrensburg, N. Y.
Pritchard, J., B.A.	North Wakefield, Que.
Reeves, J.	Eganville, Ont.
Richardson, A.	South March, Ont.
Richardson, H. J.	Spencerville, Ont.
Rimer, F. E.	Bryson, Que.
Robertson, A. A., B.A.	Montreal.
Ross, D. W.	Peel, N.B.
Ross, H.	Thorburn, N.S.
Ross, J. J., B.A.	Dewittville, Que.
Scammell, J. H.	St. John, N.B.
Scott, W. H.	Owen Sound, Ont.
Sharpe, E. M.	Havelock, N. B.
Shaw, H. S.	Montreal.
Shillington, A. T.	Kemptville, Ont.
Stenning, W. A.	Coaticook, Que.
Wilson, R. D.	Derby, N.B.
Wolf, C. G. L., B.A.	Winnipeg, Man.
York, H. E.	Metcalfe, Ont.

The following gentlemen, 87 in number, have completed their PRIMARY EXAMINATIONS, which comprise the following subjects : Anatomy, Practical Anatomy, Chemistry, Practical Chemistry, Physiology, Practical Physiology, Histology and Botany :

Allen, J. H., B.A. West Osgoode, Ont.

Archibald, E. W., B.A	Montreal.
Ault, C. R.	Tilsonburg, Ont.
Braithwaite, J. M. Mc	Barbadoes, W.I.
Brunelle, P.	Lowell, Mass.
Church, H. M.	Montreal.
Churchill, J. L.	Lockport, N.S.
Colquhoun, P., B.A.	Colquhoun, Ont.
Corbett, F. A., B.A.	Parrsboro' N.S.
Craig, R. H.	Montreal.
Deacon, G. R.	Stratford, Ont.
Dewar, J. E.	Glensandfield, Ont.
Ellis, G. H.	Dundela, Ont.
Elliot, F. B.	Mayfair, Ont.
Estey, A. S.	Keswick Ridge, N.B.
Evans, J. W.	Hull, Que.
Ewan, R. B.	Montreal,
Ferguson, J. A.	Easton Corners, Ont.
Findlay, C.	Hamilton, Ont.
Fish, E. C., B.A.	Newcastle, N.B.
Fisk, W. M.	Abbotsford, Que.
Foss, A. F.	Sherbrooke, Que.
Gallant, St. C. G.	Charlottetown, P.E.I.
Goltman, A.	Montreal.
Grant, A. J.	Pembroke, Ont.
Grant, D.	Pictou, N. S.
Hartin, G.	Bells Corners, Ont.
Harwood, R. DeL	Vaudreuil, Que.
Hepworth, W. G.	Winnipeg, Man.
Hogan, E. V.	Weymouth, N. S.
Hogle, J. H.	Montreal.
Howell, W. B.	Montreal.
Irvine, A. D.	Montreal.
Keith, H. W.	Havelock, N.B.
Kelly, J. K.	Almonte, Ont.
Kendrick, W. N.	Spring Valley, Minn.
Lambly, W. O.	Inverness, Que.
Launder, S. E.	Durham, Que.
Lauterman, M.	Montreal.
Lee, F. J.	Port Hope, Ont.
Lewis, J. T.	Hillsboro', N.B.
Lynch, D. P.	Chapleau, Que.
McArthur, A. W.	Williamstown, Ont.
McEwen, D.	St. Elmo, Ont.
McGannon, A. V.	Brockville, Ont.
McNally, G. J.	Kingsclear, N. B.
McTaggart, D. D.	Montreal.
Macartney, F. W.	Montreal.
Martin, R. H.	Chatham, Ont.
Mitchell, R. J. W., B. A.	Montreal.
Moffatt, W. A.	Ormstown, Que.

Moles, E. B.	Arnprior, Ont.
Morse, L. R., B. A.	Lawrencetown, N. S.
Mowatt, W. B.	Montreal.
Neil, R. W.	Aylmer, Que.
Ogden, C. L., B. A.	Warrensburg, N. Y.
Palmer, A. J.	Buckingham, Que.
Quay, D. D.	Port Hope, Ont.
Quirk, E. Mc. G.	Montreal.
Robertson, J. E.	Morrisburg, Ont.
Robins, G. D., B. A.	Montreal.
Ross, R. O., B. A.	Margaree, N. S.
Ryan, J. P.	Portage la Prairie, Man.
Scammell, J. H.	St. John, N. B.
Secord, J. H.	Summerside, P. E. I.
Shaw, R. B.	Cove Head, P. E. I.
Shaw, H. M.	Berwick, N. S.
Smillie, W.	Huntingdon, Que.
Smith, R. E. G., B. A.	Woodstock, N. B.
Smith, S. R. B.	Brighton, Ont.
Smyth, W. H., B. A.	Montreal.
Staples, C. A., B. A.	Stillwater, Minn.
Steeves, C. P., B. A.	Lower Coverdale, N. B.
Sutherland, J. A.	River John, N. S.
Sterling, A.	Fredericton, N. B.
Tetreau, T.	Lawrence, Mass.
Thomson, F. L.	Mitchell, Ont.
Tupper, T. S.	Fredericton, N. B.
Vipond, C. W.	Montreal.
Walker, D. F.	Huntingdon, Que.
Warren, J. F.	Harper, Ont.
Watson, J. A., B. A.	Barbadoes, W. I.
Wheeler, F. H., B. A.	Florenceville, N. B.
White, R. B.	Pembroke, Ont.
Williams, J. A.	Carleton Place, Ont.
Wood, D. M.	Kenmore, Ont.
Wood, N. S.	Faribault, Que.
Wright, H. K.	Montreal.

The following gentlemen, in addition to those mentioned above who have completed their Primaries, have passed in ANATOMY, both written and practical :

Argue, J. F.	Jack, A. C.	Patrick, D.
Curran, T. J.	Kemp, H. G.	Scott, W. T.
Draper, A. L.	Macauley, J. J. F.	Smith, S. R. B.
Dunbar, W. R.	McAlister, D. H.	Smith, R. A.
Ferguson, J. B.	McDonald, H. K.	Stackhouse, O. C. S.
Fraser, H. B., B.A.	Milburn, J. A.	Sutherland, J. A.
Hogan, E. V., B.A.	Oppenheimer, S. S.	

The following gentlemen have passed the written examination in
ANATOMY :

Bonnell, S.	Duckett, F. C.	Hughson, R. E.
Brown, W. K.	Edwards, A. F.	Hume, G. W.
Donahue, M.	Ellis, W. L.	

The following gentlemen, in addition to those mentioned above
who have completed their Primaries, have passed in CHEMISTRY :

Akerley, A. W. K.	Dyer, A.	McElroy, A. S.
Argue, J. F.	Edwards, A. F.	McPherson, D.
Bonnell, S.	Foster, A. L.	Morris, C. H.
Burrell, R. H., B.A.	Hayden, A. W.	Patrick, D.
Donahoe, M.	Healy, D. J.	Peppers, H. W., B.A.
Douglas, A. J.	Hogan, E. V., B.A.	Sutherland, J. A.
Drum, L., B.A.	Hughson, R. E.	Wyman, D. C.
Duckett, F. C.	Kirby, H. S.	

The following gentlemen in addition to those mentioned above
who have completed their Primaries, have passed in PHYSI-
OLOGY :

Argue, J. F.	Fraser, H. B., B.A.	Oppenheimer, S. S.
Bonnell, S.	Ferguson, J. B.	Patrick, D.
Bessey, M. W.	Howell, W. B.	Prescott, A. H.
Church, C. H.	Healy, D. J.	Paussette, W. C.
Curran, T. J.	Hogan, E. V., B.A.	Ryan, E. J.
Dyer, A.	Hughson, R. E.	Stackhouse, O. C. S.
Donahoe, M.	Kemp, H. G.	Scott, W. T.
Duckett, F. C.	Meikle, R. H.	Sutherland, J. A.
Draper, A. L.	McLeay, K. L.	St. Pierre, A. D.
Dunbar, W. R.	Macauley, J. J. F.	Trudeau, M. A.
Drum, L., B.A.	McPherson, D.	
Edwards, A. F.	MacDonald, H. K.	

The following gentlemen, in addition to those mentioned above
who have completed their Primaries, have passed in HISTOLOGY :

Argue, J. F.	Edwards, A. F.	McPherson, D.
Bessey, M. W.	Ferguson, J. B.	McDonald, H. K.
Bonnell, S.	Fraser, H. B., B.A.	Milburn, J. A.
Church, C. H.	Healey, D. J.	Oppenheimer, S. S.
Clendinnin, S. L.	Hogan, E. V., B.A.	Patrick, D.
Curran, T. J.	Howell, W. B.	Paussette, W. C.
Draper, A. L.	Hughson, R. E.	Prescott, A. H.
Drum, L., B.A.	Kemp, H. G.	Scott, W. T.
Duckett, F. C.	McAlister, D. H.	Sutherland, J. A.
Donahoe, M.	Macauley, J. J. F.	Trudeau, M. A.
Dunbar, W. R.		

The following gentlemen, in addition to those mentioned above who have completed their Primaries, have passed in PRACTICAL CHEMISTRY :

Bessey, M. W.	Dyer, A.	McAlister, D. H.
Bonnell, S.	Fairie, J. A.	McElroy, A. S.
Burrell, R. H.	Ferguson, J. B.	McPherson, D.
Brown, W. K.	Foster, A. L.	Milburn, J. A.
Bullard, N. C.	Fraser, H. B., B.A.	Morris, C. H.
Church, J. M.	Gilday, F. W.	Paussette, W. C.
Church, C. H.	Healy, D. J.	Prescott, A. H.
Clendinnin, S. L.	Jack, A. C.	Rajotte, F.
Dean, W. E.	Hayden, E. W., B.A.	Scott, W. T.
Draper, A. L.	Hughson, R. E.	Stanfield, H. M.
Donahoe, M.	Kemp, H. G.	Stackhouse, O. C. S.
Drum, L., B. A.	Kirby, H. S.	Wyman, D. C.
Duckett, F. C.	Macauley, J. J. F.	

The following gentlemen have passed in BOTANY :

Allan, W. G.	Laidley, J. H.	Merkley, E. A.
Bearman, G. P.	Laing, A. L.	Pennoyer, A. R.
Brears, C. F.	Lang, A. A. J.	Prodrick, W. S.
Campbell, H. C.	Lake, H. W.	Ritchie, A. A.
Casselman, V. E. D.	Lennon, H., B.A.	Robert, G. C.
Dearden, D. C. A.	Lockary, J. L.	Robertson, A.
Dewer, J. E.	Long, C. B.	Robertson, D. M.
Doyle, J. J.	Lynch, T. J.	Robertson, H. M.
Dunbar, W. R.	Lyster, H. F.	Rogers, F. E.
Eberts, E. M.	McCabe, J. A. P.	Smith, H.
Enright, W. J.	McCallum, E. C. D.	Stansby, F. C.
Foster, G. M.	McDonald, D. J.	Thomas, H. W.
Gadbois, F. A.	McDougall, G. P.	Thomas, J. E.
Galbraith, H. H.	McDougall, J. G.	Thompson, J. A.
Gourley, T. A.	McKinnon, F. W.	Tierney, J. A.
Howden, G. F.	McLaren, R. W.	Tozer, F. W.
Hudson, H. P.	McLennan, A. A.	Trainor, J. B.
Hurdman, H. H.	McNally, W. P.	Wainwright, F. R.
Johnston, J. A.	McRae, J. D.	Wainwright, S. F. A.
Johnston, W.	MacLeod, E. E.	Walker, D. F.
Keenan, C. B.	Maloney, M. J.	Wyman, D. C.
Kerr, A. R.		

Passed in ZOOLOGY :

Bessey, W. M.

The following gentlemen have passed in PHARMACOLOGY and THERAPEUTICS :

Alexander, C. C.	Hamilton, R.	Phelps, S. E.
Anthony, X. L.	Hargrave, I. L., B.A.	Price, B. S.
Anderson, D. P., B.A.	Hogg, L., B.A.	Quay, D. D.
Basken, J. T.	Johnston, F. E. L.	Rielly, W. G.
Bishop, C. W.	Keith, H. W.	Robertson, A. T.
Blow, T. H.	Kerry, R. A.	Robertson, J. E.
Bonck, C. W.	King, J. H.	Ryan, E. J.
Chapman, H.	Knapp, H. T., B.A.	Saunders, E.
Commins, E., B.A.	Lambly, W. D.	Shaw, H. M.
Cowie, W., B.A.	LeRossignol, W. J., B.A.	Spearman, F. S.
Cruikshank, A.	McGannon, A. V.	Tees, J., B.A.
Day, J. L., B.A.	McKinnon, N.	Vipond, C. W.
Feader, W. A.	McLeay, A. A., B.A.	Watson, J. H., B.A.
Fox, C. H.	McNally, G. J.	Wickham, W. W.
Gallant, St. C. G.	May, G. F.	Wood, D. M.
Gleason, J. H.	Merrick, J. H.	Wright, H. K.
Gun, A.	Oliver, W., B.A.	

The following gentlemen have passed in MEDICAL JURIS-PRUDENCE :

Alexander, C. C.	Gun, A.	Oliver, W., B.A.
Allan, J. H.	Hamilton, R.	Phelps, S. E.
Anderson, D. P., B.A.	Hargrave, I. L., B.A.	Price, B. S.
Anthony, X. L.	Harwood, R. deL.	Quay, D. D.
Basken, J. T.	Hogg, L., B.A.	Rielly, W. G.
Beatty, E. D.	Hoyle, J. H.	Robertson, J. E.
Bishop, C. W.	Johnston, F. E. L.	Robertson, A. T.
Blow, T. H.	Keith, A. W.	Ryan, E. J.
Boucher, R. B.	Kerry, R. A.	Saunders, E. H.
Biuck, C. W.	King, J. H.	Shaw, H. M.
Chapman, H.	Knapp, H. T., B.A.	Spearman, F. S.
Commins, E., B.A.	Lambly, W. D.	Smith, R. A.
Cowie, W., B.A.	LeRossignol, W. J., B.A.	Tees, J., B.A.
Cruikshank, A.	Link, D. A.	Vipond, C. W.
Day, J. L., B.A.	McGannon, A. V.	Walker, D. F.
Feader, W. A.	McKinnon, N.	Watson, J. H., B.A.
Fox, C. H.	McLeay, A. A., B.A.	Wickham, W. W.
Fraser, A. D.	McNally, G. J.	Williams, J. H.
Gallant, St. C. G.	May, G. F.	Wood, D. M.
Gleason, J. H.	Merrick, J. H.	Wright, H. K.
Grant, J. P.	Neil, R. W.	

The following gentlemen have passed in PATHOLOGY.

Alexander, C. C.	Hamilton, R.	Oliver, W., B.A.
Anderson, D. P., B.A.	Hargrave, I. L., B.A.	Phelps, S. E.
Anthony, X. L.	Harwood, R. DeL.	Price, B. S.
Beatty, E. D.	Hogg, L., B.A.	Quay, D. D.
Bishop, C. W.	Hogle, J. H.	Rielly, W. G.
Blow, T. H.	Johnston, F. E. L.	Robertson, A. T.
Boucher, R. B.	Kearns, J. F.	Robertson, J. E.
Bouck, C. W.	Kerry, R. A.	Ryan, E. J.
Chapman, H.	King, J. H.	Saunders, E.
Commins, E. B.A.	Lambly, W. D.	Seale, J. H.
Cowie, W., B.A.	Le Rossignol, W. J., B.A.	Spearman, F. S.
Cruikshank, A.	Link, D. A.	Tees, J., B.A.
Day, J. L., B.A.	McGannon, A. V.	Vipond, C. W.
Feader, W. A.	McKinnon N.	Walker, D. F.
Fox, C. H.	McLeay, A. A., B.A.	Watson, J. H., B.A.
Fraser, A. D.	McNally, G. J.	Wickham, W. W.
Gallant, St. C. G.	May, G. F.	Williams, J. A.
Gleason, J. H.	Merrick, J. H.	Wood, D. M.
Grant, J. P.	Neill, R. W.	Wright, H. K.
Gun, A.		

HONOURS, MEDALS AND PRIZES.

THE HOLMES MEDAL is awarded to ANDREW ARMOUR ROBERTSON, B. A., of Montreal, Que.

THE FINAL PRIZE is awarded to ALBERT GEORGE NICHOLLS, M.A., of Montreal, Que.

THE PRIMARY PRIZE is awarded to WILLIAM NASSAU KENDRICK, of Spring Valley, Minn.

THE SUTHERLAND MEDAL is awarded to GEORGE DOUGALL ROBINS, B.A., of Montreal, Que.

THE CLEMESHA PRIZE is awarded to ALLAN DAVIDSON, of Burns, Ont.

PROFESSORS' AND DEMONSTRATORS' PRIZES.

THE BOTANY PRIZE is awarded to J. G. McDougall, of New Glasgow, N.S.

THE CLINICAL CHEMISTRY PRIZE is awarded to A. A. ROBERTSON, B.A., of Montreal.

THE OBSTETRICS PRIZE is awarded to L. Y. McIntosh, of Strathmore, Ont.

THE SENIOR ANATOMY PRIZE is awarded to R. O. ROSS, B.A., of Margaree, Ont.

THE JUNIOR ANATOMY PRIZE is awarded to C. B. KEENAN, of Ottawa, Ont.

FINAL YEAR.

The following gentlemen have obtained First Class Honours in the FINAL SUBJECTS :

- | | |
|---------------------------|---------------------------|
| 1. Nicholls, A. G., M.A. | 8. Pritchard, J. B.A. |
| 2. Robertson, A. A., B.A. | 9. Colvin, A. R. |
| 3. McIntosh, L. Y. | 10. Hart, E. C. |
| 4. Fry, F. M., B.A. | 11. Shaw, H. S. |
| 5. Davidson, A. | 12. Mathewson, G.H., B.A. |
| 6. Byers, W. G. M. | 13. Ross, D. W. |
| 7. Bazin, A. T. | 14. Gorrell, C. W. F. |

The following gentlemen have obtained First Class Honours in MEDICINE AND CLINICAL MEDICINE :

- | | |
|---------------------------|---------------------|
| 1. Robertson, A. A., B.A. | 7. Ross, H. |
| 2. Nicholls, A. G., M.A. | 8. Shaw, H. S. |
| 3. Pritchard, J., B.A. | 9. Davidson, A. |
| 4. Byers, W. G. M. | 10. Rimer, F. E. |
| 5. McIntosh, L. Y. | 11. Hart, E. C. |
| 6. Gorrell, C. W. F. | 12. Drysdale, W. F. |

The following gentlemen have obtained First Class Honours in SURGERY AND CLINICAL SURGERY :

- | | |
|--------------------------|----------------------------|
| 1. Nichols, A. G., M.A. | 9. Shaw, H. S. |
| 2. McIntosh, L. Y. | 10. Ross, D. W. |
| 3. Bazin, A. T. | 11. Mathewson, G. H., B.A. |
| 4. { Colvin, A. R. | 12. Hepworth, W. G. |
| { Fry, F. M., B.A. | 13. Byers, W. G. M. |
| { Robertson, A. A., B.A. | 14. McLaren, J. T. |
| 7. Davidson, A. | 15. McCrea, J. J. |
| 8. Hart, E. C. | 16. Fowler, E. S. |

The following gentlemen have obtained First Class Honours in OBSTETRICS :

- | | |
|----------------------------|-----------------------|
| 1. Robertson, A. A., B.A. | 11. Byers, W. G. M. |
| 2. Gorrell, C. W. | 12. Ferguson, W. |
| 3. { McIntosh, L. Y. | 13. { Colvin, A. R. |
| { Nicholls, A. G., M.A. | { Reeves, Jas. |
| 5. Davidson, A. | { Ross, H. |
| 6. Bazin, A. T. | { McCarthy, G. S. |
| 7. Richardson, H. J. | { Hart, E. C. |
| 8. Kinghorn, H. McL., B.A. | 17. { Henderson, W. |
| 9. { Jacques, H. M. | { Pritchard, J., B.A. |
| { Shaw, H. S. | 20. Fry, F. M., B.A. |

The following gentlemen have obtained First Class Honours in
GYNÆCOLOGY.

- | | |
|-----------------------------|---------------------------|
| 1. Bazin, A. T. | |
| 2. McIntosh, L. Y. | |
| 3. { Nicholls, A. G., M. A. | 13. { Hart, E. C. |
| { Robertson, A. A., B. A. | { Manchester, G. H. |
| | { Shaw, H. S. |
| 5. { Byers, W. G. M. | 16. { Ross, D. W. |
| { Gorrell, C. W. F. | { Evans, J. W. |
| 7. { Jacques, H. M. | 18. { Hepworth, W. G. |
| { Try, F. M. | { Kinghorn, H. McL., B.A. |
| { O'Connor, E. J. | 20. Richardson, A. |
| 10. { Davidson, A. | |
| { Henderson, W. | |
| { Ross, H. | |

The following gentlemen have obtained First Class Honours in
OPHTHALMOLOGY and OTOTOLOGY.

- | | |
|----------------------------|--------------------|
| 1. McIntosh, L. Y. | 6. Hendesson, W. |
| 2. { Nicholls, A. G., M.A. | 7. { Fowler, E. S. |
| { Robertson, A. A., B.A. | { Shaw, H. S. |
| 4. { Bazin, A. T. | |
| { Colvin, A. R. | |

The following gentlemen have obtained First Class Honours in
PRACTICAL PATHOLOGY.

- | | |
|----------------------------|--------------------------|
| 1. McIntosh, L. Y. | 9. Wolf, C. G., B.A. |
| 2. { Nicholls, A. G., M.A. | 10. { Bazin, A. T. |
| { Pritchard, J., B.A. | { Mathewson, G. H., B.A. |
| { Robertson, A. A., B.A. | 12. Henderson, W. |
| 5. { Fry, F. M., B.A. | 13. Hart, E. C. |
| { Byers, W. G. M. | 14. Evans, J. W. |
| 7. Davidson, A. | 15. Manchester, G. H. |
| 8. Fowler, E. S. | 16. Colvin, A. R. |

THIRD YEAR.

The following gentlemen have obtained First Class Honours in
PATHOLOGY :

- | | |
|--------------------------|--------------------|
| 1. { Feader, W. A. | 7. { Price, B. S. |
| { Le Rossignol, W., B.A. | { Robertson, A. T. |
| { Oliver, W., B.A. | 9. Cruikshank, H. |
| 4. Reilly, W. G. | 10. Commins, E. |
| 5. { Bouck, C. W. | 11. Wickham, W. W. |
| { Kerry, R. A. | |

The following gentlemen have obtained first class Honours in ANATOMY.

- | | | | |
|----|-------------------------|-----|-----------------------|
| 1. | Ross, R. O., B.A. | 12. | Moffatt, W. A. |
| 2. | Kendrick, W. N. | 13. | { Kelly, J. K. |
| 3. | Archibald, E. W., B.A. | | { Thomson, F. L. |
| 4. | Robins, G. D., B.A. | 15. | Corbett, F. A., B.A. |
| 5. | Howell, W. B. | 16. | Deacon, G. R. |
| 6. | { Ferguson, J. B. | 17. | Ellis, G. H. |
| | { Smillie, W. | 18. | Argue, J. F. |
| | { Wheeler, F. H. | 19. | Braithwaite J. M. Mc. |
| | { Macartney, F. W. | | |
| 9. | { Smith, R. E. G., B.A. | | |
| | { Stevens, C. P., B.A. | | |

The following gentlemen have obtained First Class Honours in HISTOLOGY :

- | | | | |
|----|------------------------|-----|----------------------|
| 1. | Archibald, E. W., B.A. | 10. | Staples, C. A., B.A. |
| 2. | Kendrick, W. N. | 11. | Fisk, W. M. |
| 3. | Robins, G. D., B.A. | 12. | Fisk, E. C., B.A. |
| 4. | Howell, W. B. | 13. | Bessey, M. W. |
| 5. | McTaggart, D. D. | 14. | Churchill, J. L. |
| 6. | Ellis, G. H. | 15. | Deacon, G. R. |
| 7. | Brunnelle, P. | 16. | Steeves, C. P., B.A. |
| 8. | Braithwaite, J. M. | 17. | Shaw, R. B. |
| 9. | Ross, R. O., B.A. | | |

The following gentlemen have obtained First Class Honours in PRACTICAL CHEMISTRY :

- | | | | |
|-----|----------------------|-----|--------------------------|
| 1. | { Ellis, G. H. | 9. | Robins, G. D., B.A. |
| | { Secord, J. H. | 10. | { Ferguson, J. B. |
| 3. | Kendrick, W. N. | | { Kemp, H. G. |
| 4. | Fisk, W. M. | | { Tetreau, T. |
| 5. | Seale, J. H. | 13. | { Deacon, G. R. |
| 6. | McTaggart, D. D. | | { McArthur, A. W. |
| 7. | { McEwen, D. | 15. | Shaw, R. B. |
| | { Smyth, W. H., B.A. | | |
| | { Bessey, M. W. | 28. | { Archibald, E. W., B.A. |
| | { Braithwaite, J. A. | | { MacAuley, J. F. |
| | { Healy, D. J. | | { Ogilvy, C. |
| 16. | { Macartney, F. W. | | { Ross, R. O., B.A. |
| | { McLeay, K. L. | | { Kirby, H. I. |
| | { Morris, C. H. | | { Church, J. M. |
| | { Smillie, W. | | { Stanfield, H. M., B.A. |
| | { Lee, J. F. | 35. | { Flynn, J. W. |
| 24. | { Brunelle, P. | | { Wood, W. S. |
| | { Jack, A. C. | | { McPherson, D. |
| | { Thomson, F. L. | | { Tupper, T. S. |

The following gentlemen have obtained First Class Honours in
PHARMACOLOGY and THERAPEUTICS :

- | | |
|--------------------------------|---------------------|
| 1. Feader, W. A. | 8. { Anthony, X. L. |
| 2. { Le Rossignol, W. J., B.A. | { Day, J. L., B.A. |
| { Wright, H. K. | 10. Rielly, W. G. |
| 4. Wickham, W. W. | 11. Saunders, E. H. |
| 5. Bouck, C. W. | 12. Cruikshank, A. |
| 6. Kerry, R. A. | 13. King, J. H. |
| 7. Blow, T. H. | |

The following gentlemen have obtained First Class Honours in
MEDICAL JURISPRUDENCE :

- | | |
|------------------------------|---------------------------|
| 1. Wickham, W. W. | 8. Oliver, W., B.A. |
| 2. Hargrave, J. L., B.A. | 9. Hamilton, R. |
| 3. Anthony, X. L. | 10. Anderson, D. P., B.A. |
| 4. Feader, W. A. | 11. Neil, P. W. |
| 5. Le Rossignol, W. J., B.A. | 12. Hogg, L., B.A. |
| 6. Saunders, E. H. | 13. Rielly, W. G. |
| 7. Johnston, F. E. L. | |

SECOND YEAR.

The following gentlemen have obtained First Class Honours in
the PRIMARY SUBJECTS ;

- | | |
|---------------------------|-------------------------|
| 1. Kendrick, W. N. | 7. Corbett, F. A., B.A. |
| 2. Robins, G. D., B.A. | 8. Deacon, G. R., |
| 3. Archibald, E. W., B.A. | 9. Ellis, G. H. |
| 4. { Ross, R. O., B.A. | 10. Secord, J. H. |
| { Smith, R. E. G., B.A. | 11. Morse, L. R., B.A. |
| 6. Steeves, C. P., B.A. | 12. Moffatt, W. A. |

The following gentlemen have obtained First Class Honours in
PHYSIOLOGY :

- | | |
|-----------------------------|-------------------------|
| 1. Smith, R. E. G., B.A. | 6. Ross, R. O., B.A. |
| 2. { Archibald, E. W., B.A. | 7. Kelly, J. K. |
| { Robins, G. D., B.A. | 8. Corbett, F. A., B.A. |
| 3. Kendrick, W. N. | 9. Morse, L. R., B.A. |
| 4. Staples, C. A., B.A. | 10. Secord, J. H. |
| 5. Warren, J. F. | 11. Deacon, G. R. |

The following gentlemen have obtained First Class Honours in
CHEMISTRY :

- | | |
|---------------------------|-----------------------|
| 1. Smith, R. E. G., B.A. | 6. { Deacon, G. R. |
| 2. Kendrick, W. N. | { Morse, L. R., B.A. |
| 3. { Corbett, F. A., B.A. | 8. Ellis, G. H. |
| { Robins, G. D., B.A. | 9. Ross, R. O., B.A. |
| 5. Archibald, E. W., B.A. | 10. Sutherland, J. A. |

26. Warren, J. F.
39. Morse, L. R., B.A.
40. { Mitchell, R. J. W., B.A.
Keith, H. W.
Lauder, S. E.
42. { Dewar, J. E.
Prescott, A. H.
Trudeau, M. A.

FIRST YEAR.

The following gentlemen have obtained First Class Honours in
BOTANY :

- | | | |
|-------------------------|----------------------|-----------------------|
| 1. McDougall, J. G. | | Eberts, E. M. |
| 2. Allan, W.G. | | 10. { McKinnon, F. W. |
| 3. Pennoyer, A. R. | | Wainwright, S. F. A. |
| 4. { Lennon, H., B.A. | 11. Rogers, F. E. | |
| Gourley, T. A. | Doyle, J. J. | |
| 5. Keenan, C. B. | 12. { Hudson, H. P. | |
| | Lockary, J. L. | |
| 6. { Tozer, F. W. | 13. Johnston, W. | |
| Wyman, D. C. | 14. { Foster, G. M. | |
| 7. Gladman, E. A. | Trainor, J. B. | |
| 8. { McCallum, E. C. D. | 15. Laing, A. A. J. | |
| McRae, J. D. | 16. Robertson, D. M. | |
| 9. Laidley, J. H. | 17. Hurdman, H. H. | |

SUMMER SESSION.

During the 19th Summer Session held in 1894, the following courses of instruction were given:—

I.—CLINICAL INSTRUCTION,

Which comprised:—

A.—Daily Bedside Instruction—

In the Wards of the General Hospital—

SURGERY.....	{ Drs. Armstrong and Kirkpatrick.
MEDICINE.....	{ Drs. Wilkins and Lafleur.

In the Wards of the Royal Victoria Hospital—

SURGERY.....	Drs. Roddick and Bell.
MEDICINE.....	Dr. Stewart.

B.—Weekly Clinics—

In the Theatres of the General and Royal Victoria Hospitals.

1. GYNÆCOLOGY.....	Drs. Gardner & Alloway
2. DISEASES OF THE EYE AND EAR.....	{ Drs. Buller and J. J. Gardner.
3. DISEASES OF THE NOSE AND THROAT.....	Dr. Birkett.
4. DISEASES OF THE NERVOUS SYSTEM.....	Dr. Stewart.
5. DISEASES OF THE SKIN.....	Dr. Shepherd.
6. INFECTIOUS DISEASES (Fever Wards).....	Dr. Lafleur.
7. DISEASES OF THE HEART AND LUNGS.....	Dr. Wilkins.
8. DISEASES OF THE GENITO-URINARY ORGANS.....	{ Dr. Bell.

C.—Out-Patient Clinics—

1. *At the General Hospital—*

a. GENERAL MEDICINE AND SURGERY.....	{ Medical and Surgical Staff.
b. GYNÆCOLOGY.....	Dr. Alloway.
c. DISEASES OF EYE AND EAR.....	{ Drs. Buller and J. J. Gardner.
d. DISEASES OF THROAT AND NOSE.....	Dr. Birkett.

D.—Clinical Instruction in Obstetrics—

At the Montreal Maternity—

- | | | |
|---|---|-------------------------------|
| 1. THE MANAGEMENT OF CASES OF
LABOR..... | } | Drs. Cameron and Evans |
| 2. THE AFTER CARE OF CASES..... | | |
| 3. WEEKLY CLINIC..... | | |

II.—LECTURES.

- | | | |
|---|---|--------------------|
| 1. Clinical Chemistry. —A course of twelve demonstrations..... | } | Dr. Ruttan. |
| 2. Lectures on Hygiene | | |
| 3. Heredity in Health and Disease. — A short course..... | } | Dr. Mills. |
| 4. A Course on Bacteriology | | |
| 5. Medical, Surgical and Topographical Anatomy | } | Dr. Elder. |
| 6. Mental Diseases | | |

III.—PRACTICAL CLASSES.

- | | | |
|--|---|-----------------------------------|
| †1. Practical Chemistry. —Same as the Winter Course..... | } | Drs. Girdwood & Ruttan |
| 2. A Practical Course in Clinical Chemistry. | | |
| 3. Practical Physics | } | Dr. Girdwood. |
| †4. Operative Surgery. —A complete course of operations on the cadaver, including Amputations, Excisions, Ligations, &c. Students perform the operations in rotation..... | | |
| 5. Operative Ophthalmology. — This consisted in a series of demonstrations on the methods of performing the usual eye operations. Fee, \$2.00..... | } | Dr. Buller. |
| 6. Practical Ophthalmoscopy. — Consisting of a series of demonstrations and practical exercises in the use of the Ophthalmoscope..... | | |
| 7. Laryngoscopy and Rhinoscopy. — A course of demonstrations and exercises in the use of the Laryngoscope and Rhinoscope..... | } | Dr. Birkett |
| 8. Minor Surgery. — Including Surgical Dressings, Bandaging, Application of Splints, Hemostatics, Catheterism, Artificial Respiration, &c..... | | |

9. **Morbid Anatomy.**—Consisting of systematic demonstrations upon post-mortem methods and pathological anatomy in the section-room of the General Hospital. Students will make the post-mortems in rotation, and receive instruction in the method of performing them, and keeping record of their observations.....
10. **Clinical and Bacteriological Microscopy**.....

Dr. Adami.

Drs. Adami and Johnston.

SESSION 1893-94.

STUDENTS IN MEDICINE.

FIRST YEAR.

Adams, E. J., Montreal, Q
 Allan, J. B., Covehead, P.E.I
 Allan, W. G., Montreal, Q
 Bacon, F. J. A., Montreal, Q
 Bearman, G. P., Ottawa, O

XX.

LIST OF PRIZEMEN AND MEDALLISTS IN THE
MEDICAL FACULTY.

In 1855 the examinations were divided into Primary and Final, and prizes were established for the best Thesis and for the best Examination in the Primary and Final branches.

In 1865 the Holmes' Gold Medal was established in honour of Dr. Holmes, and is given for the best examination in both Primary and Final branches.

The following is the List with the present addresses of the recipients :—

1854. FOR GENERAL PROFICIENCY.—*1st Prize*—Robert Craik, Montreal.
2nd Prize—Thomas Simpson, Montreal.
1855. THESIS.—James McG. Stevenson, Bryanston, Ont.
Final Examination.—James McG. Stevenson, Lake Port, Mich.
Primary Examination.—Walter J. Henry.*
1856. THESIS.—Walter James Henry,* and W. J. Jones, Prescott, O.
Final Examination.—E. Laberge.*
Primary Examination.—*Hon. Levi R. Church, Montreal, Q.
1857. THESIS.—*Hon. Levi R. Church, Montreal, and D. T. Robertson
Lennoxville, Q.
Final Examination.—*Hon. Levi R. Church, Montreal, Q.
Primary Examination.—James Kerr.*
1858. THESIS.—Timothy F. English,* and W. F. Taylor, Peterboro', O.
Final Examination.—Wm. Harkin.*
Primary Examination.—Wm. Harkin.*
1859. THESIS.—Edward W. Smith.*
Final Examination.—James J. O'Dea, Stapleton, Staten Island,
New York.
Primary Examination.—Henry Warren.*
1860. THESIS.—J. W. Pickup.*
Final Examination.—Henry Warren.*
Primary Examination.—Joseph M. Drake,* and Fred. Sutherland.*
1861. THESIS.—Joseph M. Drake,* F. J. Austin, Sherbrooke, Q., and
D. L. Philip, Brantford, O.
Final Examination.—Joseph M. Drake.*
Primary Examination.—Thos. C. Walton, Inspector U.S. Navy,
Annapolis, Md.

1862. THESIS.—R. M. Bucke, London, O.
Final Examination.—John A. Stewart.*
Primary Examination.—John J. Marston, Cheyenne, Wyoming.
1863. THESIS.—Wm. C. Gustin.*
Final Examination.—J. J. Marston, Cheyenne, Wyoming.
Primary Examination.—R. A. Kennedy,* and Peter A. McDougall, Ottawa, and C. F. Bullen.*
1864. THESIS.—W. W. Squire.*
Final Examination.—D. Howard Harrison, Winnipeg.
Primary Examination.—Kenneth Reid, New York.
1865. HOLMES' GOLD MEDAL.—E. P. Hurd, Newburyport, Mass.
Final Examination.—H. L. Vercoe.*
Primary Examination.—George Ross,* and W. Gardner, Montreal.
1866. HOLMES' MEDALLIST.—George Ross, M.A.*
Final Examination.—William Gardner, Montreal, Q.
Primary Examination.—Clinton W. Kelly, Louisville, Ky.
1867. HOLMES' MEDALLIST.—Clinton W. Kelly, Louisville, Ky.
Final Examination.—C. W. Kelly, Louisville, Ky.
Primary Examination.—Wm. Henry Patterson.
1868. HOLMES' MEDALLIST.—T. G. Roddick, Montreal, Q.
Final Examination.—T. G. Roddick, Montreal, Q.
Primary Examination.—Andrew Harkness, Lancaster, O.
1869. HOLMES' MEDALLIST.—T. D. Lucas.*
Final Examination.—Andrew Harkness, Lancaster, O.
Primary Examination.—Alexander A. Henderson, Ottawa, O.
1870. HOLMES' MEDALLIST.—A. A. Henderson, Ottawa, O.
Final Examination.—O. H. E. Clarke, Chicago.
Primary Examination.—J. H. Mathieson, St. Mary's, O.
1871. HOLMES' MEDALLIST.—J. H. Mathieson, St. Mary's, O.
Final Examination.—H. P. Wright, Ottawa, O.
Primary Examination.—Thomas Kelly, Omaha.
1872. HOLMES' MEDALLIST.—Hamilton Allan, Tacoma, W. T.
Final Examination.—G. A. Starke, Milwaukee.
Primary Examination.—F. J. Shepherd, Montreal.
 SPECIAL PRIZE FOR THESIS.—W. Osler, Baltimore, Md.
1873. HOLMES' MEDALLIST.—Thomas Kelly, Omaha.
Final Examination.—D. A. Alguire, Cornwall, Ont.
Primary Examination.—J. D. Cline, B.A.*
1874. HOLMES' MEDALLIST.—J. D. Cline, B.A.*
Final Examination.—J. C. Cameron, Montreal.
Primary Examination.—S. J. Tunstall, B.A., Kamloops, B.C.
1875. HOLMES' MEDALLIST.—S. J. Tunstall, B.A., Kamloops, B.C.
Final Examination.—J. B. Benson, Chatham, N.B.
Primary Examination.—C. H. Murray, B.A.* ; R. H. W. Powell, Ottawa, Ont.

1876. HOLMES' MEDALLIST.—Robert H. W. Powell, Ottawa, O.
Final Examination.—Chas. H. Murray, B.A.*
Primary Examination.—Alex. C. Fraser, Manitowoc, Wis.
 SPECIAL PRIZE FOR THESIS.—R. L. MacDonnell, B.A., Montreal.*
1877. HOLMES' MEDALLIST.—James Bell, Montreal, Q.
Final Examination.—W. D. Oakley, Streetsville, O.
Final Examination.—H. N. Vineberg, New York.
1878. HOLMES' MEDALLIST.—H. N. Vineberg, New York.
Final Examination.—T. W. Mills, M.A., Montreal.
Primary Examination.—W. R. Sutherland, Montreal.
 SUTHERLAND GOLD MEDAL.—J. M. Lefebvre, Vancouver, B. C.
1879. HOLMES' MEDALLIST.—J. B. Lawford, London, Eng.
Final Examination.—A. W. Imrie, Detroit.
Primary Examination.—J. A. McDonald Montreal.
 SUTHERLAND GOLD MEDAL.—W. L. Grey, Pembroke, O.
1880. HOLMES' MEDALLIST.—J. A. McDonald Montreal.
Final Examination.—H. B. Small, Ottawa.
Primary Examination.—James Ross, B.A., Dundas, O.
 SUTHERLAND GOLD MEDAL.—H. W. Thornton, B.A., New Richmond, Q.
1881. HOLMES' MEDALLIST.—James Ross, B.A., Dundas, O.
Final Examination.—John W. Ross, Cohoes, N.Y.
Primary Examination.—R. J. B. Howard, B.A., London, Eng.
 SUTHERLAND GOLD MEDAL.—C. E. Cameron, Montreal.
1882. HOLMES' MEDALLIST.—R. J. B. Howard, B.A., London, Eng.
Final Examination.—Henry V. Ogden, B.A. Milwaukee Wis.
Primary Examination.—George A. Graham, Hamilton, O.
 SUTHERLAND GOLD MEDAL.—Wyatt G. Johnston, Montreal, Q.
 MORRICE SCHOLAR.—Wyatt G. Johnston, Montreal, Q.
1883. HOLMES' MEDALLIST.—C. E. Cameron, Montreal.
Final Examination.—L. B. Loring, Chicago, Ill.
Primary Examination.—Ed. G. Wood, Mitchell, O.
 SUTHERLAND GOLD MEDAL.—R. F. Ruttan, B.A., Montreal, Q.
 MORRICE SCHOLAR.—R. F. Ruttan, B.A., Montreal Q.
1884. HOLMES' MEDALLIST.—Wm. A. Ferguson, Bathurst N.B.
Final Examination.—James P. McInerney, Kingston, N.B.
Primary Examination.—Smith Gustin Bay City, Mich.
 SUTHERLAND GOLD MEDAL.—John Elder, B.A., Montreal, Q.
1885. HOLMES' MEDALLIST.—Edwin G. Wood, Mitchell, O.
Final Examination.—Smith Gustin, Bay City, Mich.
Primary Examination.—Ed. J. Evans, La Crosse, Wisc.
 SUTHERLAND GOLD MEDAL.—H. A. Lafleur, Montreal, Q.
1886. HOLMES' MEDALLIST.—Herbert S. Birkett, Montreal, Q.
Final Examination.—Walter W. White M.A., St. John, N.B.
Primary Examination.—William I. Bradley, Sault St. Marie.
 SUTHERLAND GOLD MEDAL.—William I. Bradley, Sault St. Marie.

1887. HOLMES' MEDALLIST.—Ed. Evans, La Crosse, Wisc.
Final Examination.—Henri A. Lafleur, B.A., Montreal, Q.
Primary Examination.—A. E. Garrow, Ottawa.
 SUTHERLAND GOLD MEDAL.—John Creasor, Toronto, O.
1888. HOLMES' MEDALLIST.—N. D. Gunne, St. Marys, O.
Final Examination.—W. G. Stewart, Montreal, Q.
Primary Examination.—R. E. McKechnie, Montreal, Q.
 SUTHERLAND GOLD MEDAL.—C. W. Bissett, St. Peters, N.S.
1889. HOLMES' MEDALLIST.—Alex. E. Garrow, Ottawa, O.
Final Examination.—*Hugh McKercher.
Primary Examination.—Wm. Alfred Brown, Chesterville, O.
 SUTHERLAND GOLD MEDAL.—John C. Clemesha, Port Hope, O.
1890. HOLMES' MEDALIST.—R. E. McKechnie, Nanaimo, B.C.
Final Examination.—E. J. Bowes, Soudan, Minn.; M. W. Murray, New Decatur, Alabama.
Primary Examination.—James Henderson, Warkworth, Ont.; Thomas Jameson, Rochester, N.Y.
 SUTHERLAND GOLD MEDAL.—Thomas Jameson, Rochester, N.Y.
 CLEMESHA PRIZE—A. H. Coleman, Tacoma, Wash.
1891. HOLMES' MEDALIST.—W. A. Brown, Chesterville, Ont.
Final Examination.—W. F. Hamilton, Sackville, N.B.
Primary Examination.—W. E. Deeks, Williamsburg, Ont.
 SUTHERLAND GOLD MEDAL.—J. A. Henderson, Orangeville, Ont.
 CLEMESHA PRIZE.—W. S. Morrow, Halifax, N.S.
1892. HOLMES' MEDALIST.—Thomas Jameson, Rochester, N.Y.
Final Examination.—James Henderson, Warkworth, Ont.
Primary Examination.—A. Davidson, Burns, Ont.
 SUTHERLAND GOLD MEDAL.—A. Davidson, Burns, Ont.
 CLEMESHA PRIZE.—W. B. H. Massiah, Barbadoes, W.I.
1893. HOLMES' MEDALIST.—W. E. Deeks, B.A.; N. Williamsburgh, Ont.
Final Examination.—John Alexander Henderson, Orangeville, Ont.
Primary Examination.—W. J. LeRossignol, B.A., Montreal, Q.
 SUTHERLAND GOLD MEDAL.—Walter J. LeRossignol, B.B.
 CLEMESHA PRIZE.—R. B. McKay, B.A., Toronto, Ont.
1894. HOLMES' MEDALIST.—Andrew A. Robertson, B.A., Montreal, Q.
Final Examination.—Albert G. Nichols, M.A., Montreal, Q.
Primary Examination.—W. N. Kendrick.
 SUTHERLAND MEDAL.—G. D. Robins, B.A., Montreal, Q.
 CLEMESHA PRIZE—Allan Davidson, Burns, Ont.

EXAMINATION PAPERS, SESSION 1893-1894.

MATRICULATION EXAMINATION.

LATIN.

Examiner.....A. JUDSON EATON, Ph. D.

(A) LATIN GRAMMAR.

1. Decline *rex, corpus; vir liber; unus quisquam; ipse*.
2. Write down the genitive plural of *deus, nox, canis, vis, domus*; the ablative singular of *animal, turris, Anchises*; the vocative of *Roma, Philippi, rus, domus, Carthago*.
3. Compare the adjectives *felix, prudens, malevolus, idoneus*; the adverbs *misere, male, parum*.
4. (a) Inflect in the Present Subjunctive and Future Indicative of both voices: *laudo, tego, fero*. (b) Write down the Imperfect and Pluperfect Subjunctive (first person only) of *orior, potior, sentio, veho*.
5. State the chief rules of Latin Quantity.
6. Illustrate any three of the uses of the genitive case.
7. Translate into Latin *any five* of the following sentences:
(a) You are favored. (b) He was most dear to the whole nation. (c) Fortune favors the brave. (d) In Cæsar's language the Celtae were called Galli. (e) And hence he made a league of the noble and rich. (f) Then the Helvetii spoke to each other thus: "We will try whether, by joining boats and making rafts, we can force a passage."

(B) CÆSAR AND VIRGIL.

[Candidates are requested to translate *two* of the following extracts, and answer the questions.]

I. Postero *die* castra ex eo loco movent: idem facit Cæsar; equitatumque omnem ad numerum quatuor milium, quem ex omni Provincia et Aeduis atque eorum sociis *coactum* habebat, præmittit, qui *videant*, quas in partes hostes iter *faciant*. Qui, cupidius novissimum agmen insecut, alieno loco cum equitatu Helvetiorum proelium committunt; et pauci de nostris cadunt. Quo proelio sublatis Helvetii, quod quingentis equitibus tantam multitudinem equitum propulerant, audacius subsistere, nonnuncquam ex novissimo agmine proelio nostros lacessere, coeperunt.

Multa ab Cæsare in eam sententiam dicta sunt, quare negotio desistere non posset, et "neque suam, neque Populi Romani consuetudinem

patiuti optime meritos socios desereret; neque se indicare Galliam potius esse *Ariovisti*, quam Populi Romani. Bello superato esse Arvernos et Rutenos ab Q. Fabio Maximo, quibus Populus Romanus ignovisset, neque in provinciâ redegisset, neque stipendium imposuisset. Quod si antiquissimum quodque tempus spectari oporteret, Populi Romani justissimum esse in Gallia imperium: si iudicium senatus observari oporteret, liberam debere esse Galliam, quam bello victam suis legibus uti voluisset."—CÆSAR, B. G. I.

(a) State clearly the principles of syntax that determine the italicized forms.

II. Eodem fere tempore Cæsar, etsi prope exacta iam aestas erat, tamen quod omni Gallia pacata Morini Menapiique supererant qui in armis essent neque ad eum umquam legatos de pace misissent, arbitratus id bellum celeriter confici posse eo exercitum adduxit; qui longe alia ratione ac reliqui Galli bellum gerere coeperunt. Nam quod intelligebant maximas nationes quæ proelio contendissent pulsas superatasque esse, continentisque silvas ac paludes habebant, eo se suaque omnia contulerunt. Ad quarum initium silvarum cum Cæsar pervenisset castraque munire instituisset, neque hostis interim visus esset, dispersis in opere nostris subito ex omnibus partibus silvæ evolaverunt et in nostros impetum fecerunt. Nostri celeriter arma ceperunt eosque in silvas reppulerunt, et compluribus interfectis longius impeditioribus locis secuti paucos ex suis deperdiderunt.—CÆSAR, Bk. III.

(a) Account for the case of *Gallia, id bellum, ratione*; the mood of *erat, misissent, pervenisset*.

III. Eadem nocte accidit ut esset luna plena, qui dies maritimos æstus maximos in Oceano efficere consuevit, nostrisque id erat incognitum. Ita uno tempore et longas naves, quibus Cæsar exercitum transportandum curaverat quasque in aridum subduxerat, æstus complebat, et onerarias quæ ad ancoras erant deligatæ tempestas afflictabat, neque ulla nostris facultas aut administrandi aut auxiliandi dabatur. Compluribus navibus fractis, reliquæ cum essent funibus, ancoris reliquisque armamentis amissis ad navigandum inutiles, magna, id quod necesse erat accidere, totius exercitus perturbatio facta est. Neque enim naves erant aliæ quibus reportari possent, et omnia deerant quæ ad reficiendas naves erant usui; et quod omnibus constabat hiemari in Gallia oportere, frumentum his in locis in hiemem provisum non erat.—CÆSAR, Bk. IV.

(a) Give the principal parts of *accidit, consuevit, fractis*. (b) Fill in the ellipses after *aridum* and *onerarius*. (c) Explain the construction of *ad navigandum inutiles*, and *ad reficiendas naves*.

- IV. Tum breviter Dido, voltum demissa, profatur:
 "Selvite corde metum, Teuceri, secludite curas.
 Res dura et regni novitas me talia cogunt
 Moliri, et late finis custode tueri.
 Quis genus Æneadum, quis Troiæ nesciat urbem,
 Virtutesque virosque, aut tanti incendia belli?
 Non obtusa adeo gestamus pectora Pœni;
 Nec tam aversus equos Tyria Sol iungit ab urbe.
 Seu vos Hesperiam magnam Saturniaque arva,

Sive Erycis finis regemque optatis Acesten,
 Auxilio tutos dimittam, opibusque iuvabo.
 Voltis et his mecum pariter considerare regnis;
 Urbem quam statuo, vestra est: subducite navis;
 Tros Tyriusque mihi nullo discrimine agetur.
 Atque utinam rex ipse, Noto compulsus eodem,
 Adforet Æneas!

VIRGIL, ÆN. I.

(a) Explain the construction of *voltum*, *corde*, *Æneadum*, *mihi*. (b) Why was Italy called *Hesperia*? (c) Account for the epithet *Saturnia*.

V. Hinc *via*, Tartarei quæ fert Acherontis ad undas:
 Turbidus hic cæno vastaque voragine gurges
 Æstuat, atque omnem *Cocyto* eructat arenam.
 Portitor has horrendus aquas et flumina servat
 Terribili *squalore* Charon: cui plurima mento
 Canities inculta iacet; stant lumina flamma;
 Sordidus ex umeris nodo dependet amictus.
 Ipse ratem conto subigit *velisque* ministrat,
 Et ferruginea subvectat corpora cymba
 Iam senior; sed cruda *deo* viridisque senectus.
 Huc omnis turba ad ripas effusa ruebat,
 Matres atque viri, defunctaque corpora vita
 Magnanimum heroum, pueri innuptæque puellæ,
 Impositique rogis iuvenes ante ora parentum:
 Quam multa in silvis auctumni frigore primo
 Lapsa cadunt folia; aut ad terram gurgite ab alto
 Quam multæ glomerantur aves, ubi frigidus annus
 Trans pontum fugat et terris immittet apricis.

VIRGIL, ÆN. VI.

(a) Explain the grammatical construction of italicized words. (b) Scan the first and third lines.

MATHEMATICS.

Examiner ALEXANDER JOHNSON, LL.D.

1. On a given straight line construct a segment of a circle containing an angle equal to a given acute angle.
2. The straight line drawn perpendicular to a tangent to a circle from the point of contact passes through the centre.
3. Divide a straight line into two parts, so that the rectangle under the whole line and one part shall be equal to the square on the other.
4. If a straight line be divided into any two parts, the square on the whole line is equal to the sum of the rectangles contained by the whole line and each of the parts.
5. Describe a parallelogram that shall be equal to a given triangle, and have one of its angles equal to a given one.
6. The three angles of any triangle are equal to two right angles.

7. Solve the equations :

(a) $x^2 - 14x = 120$

(b) $\sqrt{5}(x+2) = \sqrt{5}x + 2$

(c) $2x + 3y - 8 = 0, 7x - y - 5 = 0$

(d) $\frac{8x+5}{14} + \frac{7x-3}{6x+3} = \frac{4x+6}{7}$

(e) $(2+x)(a-3) = -4 - 2ax.$

8. Find by inspection the highest common factor (G. C. M.) of $6(x^2 - 1)$ and $8(x^2 - 3x + 2)$.

9. Reduce to a common denominator the fractions

$$\frac{x^2}{2ab}, \frac{y^2}{3ac}, \frac{z^2}{4bc}.$$

10. Divide $6x^3 - 17x^2y + 16y^2$ by $3x - 4y$.

11. Add $1\frac{1}{3} + \frac{2}{5} - \frac{1}{6}$ and divide the sum by $\frac{3}{4}$ of $\frac{5}{6}$.

12. Reduce $\frac{151}{236}$ to a decimal.

13. Find the square root of 3.14159.

14. Find the interest on \$3456.53 for 4 months at $5\frac{1}{2}$ per cent.

15. State the length of a metre in feet and inches, and find the number of millimetres in 30 inches.

ENGLISH HISTORY AND ESSAY.

Examiners { CHAS. E. MOYSE, B.A.
P. T. LAFLEUR, M.A.

1. Give some account of a rebellion in the reign of each of the following kings: (a) Richard II.; (b) Henry VI.; (c) James II.

2. Show the connection between the Tudor line and James I., and trace the descent of Victoria from James I.

3. Make notes on the following matters of importance in the course of English history: Monopolies; the officering of the militia; the billeting of soldiers on private subjects; indefinite imprisonment without trial; universal suffrage; the exclusion of foreigners from any civil or military office; the trial of ecclesiastical offenders in civil courts.

4. Notice the chief events in the intercourse between England and Scotland in the time of the Tudors.

5. State the *cause* of the Gunpowder Plot. Give an outline of the chief events of the reign in which that plot occurred.

6. State in whose reigns the following persons are conspicuous, and note the political policy of each: Thomas Cromwell, Robert Walpole, Earl Grey, Sir Thomas More, Sir Thomas Wyatt, Wellington, Pitt the Elder,

Explain the following terms and titles: The Covenant, Peter's Pence, Villeinage, Folkland, the Mise of Lewes.

Write an essay of not less than two pages on any *one* of the following subjects:

(a) Ambition.

(b) Town Life or Country Life.

(c) Honesty is the Best Policy.

ENGLISH GRAMMAR.

Examiners..... (CHAS. E. MOYSE, B.A.
W. J. MESSENGER, B.A.)

1. Describe fully the different classes of Nouns, giving examples of each.
2. Illustrate the meaning of inflection by reference to the Personal Pronoun.
3. Show by examples how a verb may be modified by a word, by a phrase, and by a subordinate sentence.
4. Give the principal parts of the following verbs: Kneel, read, sit, gird, rive, lade, bid, tear, flow, mow.
5. Analyse and parse :

“ Saint Augustine ! thou hast well said
That of our vices we can frame
A ladder, if we will but tread
Beneath our feet each deed of shame.”
6. Mention all the uses of a noun in the nominative case, and give examples.
7. What is meant by mood, conjugation, voice, gerund, participle defective verb, preposition, case ?

 DICTATION.

Wait a little longer, and you shall see those scattered mists rallying in the ravines, and floating up toward you, along the winding valleys, till they couch in quiet masses, iridescent with the morning light upon the broad breasts of the higher hills, whose leaves of massive undulation will melt back and back into that robe of material light, until they fade away, lost in its lustre, to appear again above, in the serene heaven, like a wild, bright, impossible dream, foundationless and inaccessible, the very bases vanishing in the unsubstantial and mocking blue of the deep lake below. Wait yet a little longer, and you shall see those mists gather themselves into white towers, and stand like fortresses along the promontories, massy and motionless, only piled every instant higher and higher into the sky, and casting longer shadows athwart the rocks, and out of the pale blue of the horizon you will see forming and advancing a troop of narrow, dark, pointed vapors, which will cover the sky, inch by inch, with their gray net-work, and take the light off the landscape with an eclipse which will stop the singing of the birds and the motion of the leaves, together : and then you will see horizontal bars of black shadow forming under them, and lurid wreaths create themselves, you know not how, along the shoulders of the hills ; you never see them form, but when you look back to a place which was clear an instant ago, there is a cloud on it, hanging by the precipices, as a hawk pauses over his prey.

OPTIONAL SUBJECTS.

FRENCH.

Examiners..... { P. J. DAREY, M.A., B.C.L., LL.D., Officier d'Académie.
REV. J. L. MORIN, M.A.

N.B.—Let the candidates write the Dictation, the first part, and the second part on *three* different papers.

I.

Les Religieux de Mont St. Bernard.

1. Translate into English :

Au sommet des Alpes, une soirée nébuleuse amollit le courage ; je me décidai à passer la nuit avec les religieux hospitaliers qui partageaient mes pressentiments. Ils ne nous trompèrent point. A six heures ce plateau glacé fut presque enseveli dans les ténèbres, les nuées poussées par un vent du nord-ouest, avec la rapidité d'une flèche, tourbillonnaient autour de l'enceinte des rochers ; déjà retentis sait (a) le bruit lointain des avalanches ; et des atômes des neige serrée, divisée comme de la poussière, soit en se détachant des montagnes, soit en tombant du ciel, en interceptaient (b) la faible lumière et voilaient tous les objets d'alentour.—*Maillet du Pan.* (a) (b) What are the subjects of these two verbs ?

2. Why cannot *de les* be contracted into *des* in : *je serai charmé de les voir.*

3. Explain the rules to write proper names in the plural ? Give examples.

4. Write the French for *seventy, ninety-five, eighty-seven, three hundred and fifteen.*

5. Give the French for *his brother, his sister, his brothers and mine* and give the rules to write correctly those possessive adjectives into French and that possessive pronoun.

6. Write the feminine of *fou, vertueux, jumeau, témoin, gouverneur, instituteur.*

7. What are the two words you use to translate *better* into French ? When do you use the one and when the other ? Give examples.

8. Translate in two ways : *I must have books.*

9. Write one person of all the simple tenses of *offrir, acquérir, s'en aller, être.*

10. Write correctly the past particles in : *Ils se sont vu* et *ils se sont parlé.* Explain the rule.

II.

1. Translate into French :

At the end of April, one thousand seven hundred and fifty-five, I was going to Piedmont by the way of the great St. Bernard. At about four o'clock in the afternoon, the small caravan with which I had crossed this dangerous pass reached the summit of the mountain, and after having restored its strength in the hospital established in that desert, it resumed its way in order to put up the same evening at the valley of Aost. Already

3. Describe the construction of the barometer.
4. Compare the heights of the water and mercury barometers.
5. In the case of a falling body, find the spaces described in the four quarters of the first second of its fall.
6. In the case of a body thrown up vertically with a velocity of 320 feet per second, find for how many seconds it will ascend, and how many feet it will ascend; and if the body weighs one pound, find the work done in the ascent.
7. Show how to graduate a thermometer, and give the comparison of the three scales used. For what temperature will the numbers registered in Fahrenheit and Centigrade be the same?
8. Two bodies of mass $16\frac{1}{2}$ and $15\frac{1}{2}$ respectively are suspended at the two ends of a string which hangs over a smooth pulley, find the acceleration.
If the string is cut after two seconds, find at what rate the bodies will separate.
9. Give examples of adhesion, cohesion, attraction.

SESSIONAL EXAMINATIONS, 1893-94.

FIRST YEAR.

BOTANY.

Examiner..... D. P. PENHALLOW, B.Sc.

1. Give a concise account of the growth rings of Exogens as to (a) their cause or origin, and (b) their exact relation to age.
2. (a). A mercurial manometer applied to a growing plant (as a tree) shows a negative pressure.
(b). A manometer applied to a tree in a condition of rest shows strong positive pressure during the day and a negative pressure during the night. Give an explanation of these facts.
3. Give a concise account of the function of transpiration as to (a) the conditions under which it is performed and (b) the influence of anesthetics.
4. Describe the process of carbon assimilation in plants as to (a) the essential conditions, (b) the products formed, (c) the relations thus established between plants and the higher forms of animal life.
5. Describe the structure of the ovule in Gymnosperms, and trace its development from the period of impregnation.
6. Give a concise account of the agencies concerned in the transfer of pollen and show what general structural conditions and relations are associated with their operation.
7. Give proof that the various parts of the flower are modified leaves.
8. In the process of transfer, pollen from several different sources is brought upon the same stigmatic surface. What must be the relationship of the pistillote plant and that producing the pollen having the greatest potency in the production of seed?
State the biological principle involved.

ZOOLOGY.

Examiner..... W. E. DEEKS, B.A., M.D.

1. Give the general relationship of the principal structures in a simple arthropod or annulate, and compare it with a vertebrate type.
2. Distinguish morphologically between the *Gymnomyxa* and *Corticata*, and explain how the different functions characteristic of animal life are carried on in each group.
3. Describe the structure and life history of any *Hydromedusa*, and show how the hydriform and medusiform types are related structurally.

4. Describe the structure and life history of the *Distoma* or Liver-fluke.
5. Compare circulation and respiration in *Polyzoa*, *Chaetopoda*, *Decapoda*, *Insecta*, *Araneida* and *Pisces*.
6. Classify *Insecta*. Give examples. Describe the life history of a member from each order.
7. Give the principal characters of the Echinodermata, and give a detailed account of the structure of a star-fish.
8. What are *Gregarinidae*, *Cladocera*, Sea-fans, Squids, *Lampyridae*, *Radiolaria*, Chitons, Lampreys, Trilobites and Mites?
9. Tabulate and classify the principal forms of invertebrates, found parasitic, either through the whole or a part of their existence in the bodies of the higher vertebrates, mentioning any marked lesions they may cause.

SECOND YEAR.

HISTOLOGY.

Examiners { PROF. GEO. WILKINS, M.D., M.R.C.S., Eng.
N. D. GUNN, M.D.

1. Describe *Lymphatic vessels*, (from their origin), *Lymph cavities*, and *Lymph glands*. Give examples of where each may be found.
2. Name all the nervous structures required for a *motor* reflex. Describe each minutely, giving any modifications they may present in their course.
3. Describe the epithelium in the different parts of the male urinary apparatus from its commencement in the tubules of the kidney to its termination in the penis.
4. Describe the structure of the *Parotid* gland in man. How would you distinguish between mucous and serous glands? What is the simplest mucous secreting structure?

ANATOMY.

Examiners { PROF. FRANCIS J. SHEPHERD, M.D.
H. S. BIRKETT, M.D.
JOHN ELDER, B.A., M.D.

1. Give the dissection necessary to completely expose the right kidney from behind.
2. Name in proper order the parts it is necessary to remove to expose the ascending portion of the arch of the aorta.
3. Diaphragm—Give a short description of this structure, mentioning in proper order the various parts in relation with it.
4. Course and distribution of the middle cerebral artery and its branches.
5. Origin, insertion, and nerve supply of the muscles forming the floor of the posterior triangle of the neck.

6. Describe shortly the *Wolffian bodies* and *Muller's ducts*. What parts in the male and female, respectively, do these organs develop into?

Candidates are required to answer four questions only, two of which must be the first and second.

PHYSIOLOGY.

Examiners..... { WESLEY MILLS, M.D.
F. G. FINLEY, M.D.

1. Make applications of embryology to the following subjects : Vascular system, including blood; digestive system; reproductive system; nervous centres and the sensory organs.

2. Discuss the relations of (a) the blood vascular and lymphatic systems; (b) blood in general, portal blood, chyle and lymph.

3. Describe the cardiac and vaso-motor nervous mechanisms, illustrating by reference to special experiments.

4. Describe the effects of respiration on the blood flow.

5. *Describe the stomach and its work in the horse and in the ox.

6. Spinal Cord: (a) illustrate diagrammatically the relative proportion of grey and white matter and point out its significance. (b) Map out paths of degeneration and connect these with the brain, drawing inferences as to function of parts.

7. Indicate the general relations of input and output in the animal body.

8. *Discuss the subject of locomotion with special reference to the horse and the dog.

CHEMISTRY.

Examiners..... { PROF. G. P. GIRDWOOD.
PROF. R. F. RUTTAN.

1. A gallon of gas at 32° F. and normal pressure is confined in an iron cylinder and the temperature raised to 523.4° F. What will be the pressure?

2. By what experiments would you ascertain the equivalent weight of zinc?

3. A salt contains 17.39% Magnesium, 10.14% Nitrogen, 2.90% Hydrogen, 23.19% P., 46.38% Oxygen. Find its formula.

4. What are nodal points in a vibrating body? How shown? Give the laws for reflection of sound?

5. Give two methods for preparing (a) Carbon dioxide, (b) Hydrogen arsenide, (c) Nitrogen dioxide, (d) Sulphur dioxide.

6. Classify organic acids and organic bases. Give examples and formulæ.

* For students of Comparative Medicine only.

7. Give the chemical characteristics of (a) Alkaloids, (b) Glucosides, (c) Aldehydes, (d) Amido acids, (e) Nitro compounds.

8. By what reactions can traces of each of the following poisons be detected, (a) Prussic acid, (b) Tartar emetic, (c) Corrosive sublimate, (d) Carbolic acid, (e) Oxalic acid.

9. Give the chemistry of Acetic acid.

10. What is Phenyl glucosazom? How prepared? Why important?

THIRD YEAR.

PATHOLOGY.

Examiners..... { PROF. J. G. ADAMI, M.A., M.D.
 { WYATT G. JOHNSTON, M.D.

(The first and five other questions to be attempted.)

1. What conditions would you be likely to discover at the autopsy of a patient who for a year had exhibited progressive emaciation, associated with all the indications of tuberculosis of the apex of the right lung; who during the last fortnight of life had suffered from high fever of an irregular type, accompanied by dyspnoea and excessive expectoration together with diarrhoea; and who eight hours before death had become suddenly collapsed, the temperature rapidly falling below normal? During the last hours of life there was no hæmoptysis, hæmatemesis or further passage of faeces.

2. What is pus, and under what conditions is an abscess developed? What are the results of chronic inflammation?

3. Under what conditions does calcareous degeneration occur in the tissues? Give a list of concrements containing calcium salts.

4. What is cloudy degeneration, and what are its causes? What organs and what special portions of those organs does it affect?

5. What do you understand by the terms: white thrombus, coagulation-necrosis, arterio-sclerosis, chemotaxis, inflammatory lymph?

6. When and how does the biliary coloring matter appear in the circulation? What changes would you expect to find in the liver and in the body generally associated with (a) the icteroid condition accompanying excessive destruction of red blood corpuscles, and (b) that caused by obstructive disease of the biliary channels?

7. State what you know of the relationship of uric acid and its salts (a) to gout, (b) to the formation of uratic calculi.

8. How does extensive narrowing of the left auriculo-ventricular orifice affect (a) the heart, (b) the lungs, (c) the system in general?

9. Draw a distinction between the infective granulomata and the blastomata, or tumors proper. Mention any of the infective granulomata, and state briefly what you know concerning the micro-organism associated with each form mentioned.

MEDICAL JURISPRUDENCE.

Examiner.....PROF. WILKINS.

1. Describe the symptoms of *General paresis*. Compare them with those of *Ordinary insanity*.
2. How would an incised wound inflicted shortly before death, differ in appearance from one made six or seven hours after death?
3. What are some of the natural causes that may account for the death of newly-born children?
4. Name several causes of death from suffocation. What are its *post-mortem* appearances? Wherein do these appearances differ in the aged adult and very young child?
5. Mention some of the more frequent forms of poisoning in which it would be dangerous to use the stomach pump. In what cases would you use it? In the absence of a pump, how would you improvise a substitute, and in what manner would you use it?

PHARMACOLOGY AND THERAPEUTICS.

Examiners.....{ PROF. A. D. BLACKADER, M.D.
PROF. JAMES STEWART, M.D.

1. Describe the physiological action of amyl nitrite, and mention its therapeutic applications.
2. State the exact action on the genito-urinary system of acetate of potasium, benzoic acid, buchu, copiaba and digitalis.
3. Write a prescription illustrating the exhibition of
 - (a) calomel,
 - (b) tartarated antimony,
 and state the exact therapeutic action expected, and the conditions under which each should be prescribed.
4. Compare the action on the intestinal canal of aloes, rhubarb, jalap, and sulphate of magnesia. Write a prescription for the administration of each of the above.
5. Mention the principal official preparations of iodine. State their comparative strength. What is iodism?
6. Describe the symptoms of plumbism. Name four official preparations of lead, stating method of employment and physiological action. Write prescriptions ordering the employment of two of them.

OBSTETRICS AND DISEASES OF INFANTS.

Examiner.....PROF. J. CHALMERS CAMERON, M.D.

1. What are the causes of delay in
 - (a) the first stage of labor?
 - (b) the second stage of labor?

What would be your treatment?

2. Retained Placenta; give symptoms and treatment.

3. A patient aet. 16, I-para, delicate and slight, comes under observation about the beginning of the 7th month. She complains of moderate oedema of the lower extremities, constipation, frequent headaches, occasional vomiting. From careful measurement of the pelvis the conj. vera is estimated at 9 to 9½ cm. The foetus is well developed, with an average heart-beat of 130. How would you manage the case?

4. How would you treat

(a) Ophthalmia Neonatorum?

(b) Umbilical Hernia?

GYNÆCOLOGY.

Examiner..... PROF. WILLIAM GARDNER, M.D.

1. Neuralgic dysmenorrhœa; its causation and treatment.
2. Cancer of the cervix uteri, symptoms and diagnosis.
3. Ovarian tumours; symptoms, complications and accidents; diagnosis from ascites.
4. Cystitis; causation and treatment.

THEORY AND PRACTICE OF MEDICINE.

Examiners..... { PROF. JAS. STEWART, M.D.
F. G. FINLEY, M.D.
H. A. LAFLEUR, M.D.

1. Discuss the chief causes of pain over the region of the heart.
2. Mention the complications and sequelæ of Acute Lobar Pneumonia.
3. Discuss fully the climatic treatment of Phthisis.
4. Give the important clinical features of the following diseases occurring in early life:—(a) Disseminated Sclerosis; (b) Cerebral Diplegia; (c) Pseudo-hypertrophic Muscular Paralysis; (d) Friedreich's Ataxia.
5. Give an account of the chief post-epileptic states or symptoms.
6. Discuss the dietetic treatment of the following diseases:—(a) Acute and Chronic Gout; (b) General Arterio-Sclerosis; (c) Neurasthenia, where the symptoms are chiefly gastric.
7. Compare the lesions of the fauces and respiratory passages in Scarlatina and Diphtheria.
8. Describe the physical signs of dilatation of the stomach, and the various ways in which this condition may be produced.
9. Trace the clinical history of a case of Atrophic Cirrhosis of the Liver.
10. A laboring man, aged 45, of intemperate habits, who contracted syphilis at the age of 20, but has otherwise enjoyed good health until two years ago, presents the following symptoms: 1st, Pain; in the following situations—about the angle of the left scapula, of a dull aching character—

along the course of the 8th and 9th ribs on the left side—and, occasionally, about the epigastrium and praecordial area, where it is paroxysmal and very severe, and sometimes followed by vomiting. 2ndly. Shortness of breath on exertion, but not specially in connection with epigastric pain. 3rdly. Some difficulty in swallowing solids, but not liquids. The physical examination reveals the following conditions :—Slight anæmia and emaciation, good muscular development. Radials thickened, tension about normal. Strong, diffuse praecordial impulse in the 4th and 5th spaces. Area of cardiac dullness increased slightly in all directions. Heart sounds clear and loud. Expansion a little deficient at the base of the left lung, with dullness, absence of tactile fremitus, and enfeebled breath and voice sounds. The heart sounds are heard in this situation, accompanied by a faint systolic murmur. Aspiration at the extreme left base gives a slightly blood-stained fluid. Expectoration scanty, mucoid and frothy. Abdomen negative. Urine normal. Discuss the diagnosis and suggest the treatment of this condition.

SURGERY.

Examiner.....PROF. T. G. RODDICK.

1. Describe the appearance of a characteristic Primary Syphilitic sore. Mention the different forms of Secondary Syphilitic Eruption, and state how these may be diagnosed from ordinary Skin Lesions.

2. Enumerate the various dislocations of the Head of the Thigh-Bone, and describe the position of the limb in each kind. How would you effect reduction in the so-called Dorsal Dislocation?

3. Describe the causes, symptoms and treatment of Lateral Curvature of the Spine.

4. Describe the treatment which your observation would lead you to adopt for the relief and cure of Severe Organic Stricture of the Urethra.

5. What treatment would you first adopt in a wound of the Deep Palmar Arch? In the event of repeated Recurrent Hemorrhage, describe the operation you would perform, and give the anatomical reasons for adopting this procedure.

6. Describe Furneau Jordan's amputation at the Hip Joint, and state the advantages claimed by this method over all other amputations in this region.

7. Describe the local symptoms of Acute Periostitis (say of the upper end of the Tibia). State the possible results and mention the treatment.

8. Describe the principal varieties of Appendicitis. Give the symptoms of Acute Appendicitis. State what medical treatment you would adopt and under what circumstances you would advise operation.

9. Describe the symptoms, prognosis and treatment of Floating Kidney.

10. In what form of Ulceration would you feel justified in recommending Skin Transplantation? Describe the operation.

OPHTHALMOLOGY AND OTOLOGY.

Examiner.....PROF. F. BULLER.

1. Describe a case of simple Catarrhal Conjunctivitis.
2. Give the differential diagnosis between Acute Glaucoma and Acute Plastic Iritis.
3. State what you know of Acute Dacryocystitis.
4. Inflammation of the Mastoid. How does this generally originate and what may be done to prevent its occurrence.
5. Give the differential diagnosis between Otitis Externa Circumscripta and Acute Catharrhal Otitis Media.

STUDENTS' APPOINTMENTS.

Montreal General Hospital—Five Resident Medical Officers.

Royal Victoria Hospital—Six Resident Medical Officers.

Clinical Clerk, Gynæcology.

“ “ Laryngology.

“ “ Diseases of Children.

“ “ Dermatology.

“ “ Diseases of Nervous System.

University Maternity—Two Resident Medical Officers.

Out-door Dressers.

Dressers in Eye and Ear Department.

Medical Clinical Clerks.

Post-mortem Clerks.

Student Demonstrators of Anatomy, 4 third-year Students.

Prosectors to Chair of Anatomy, 4.

Assistants in Practical Histology Course, 2.

Assistants in Practical Physiology Course, 4.

Assistants in Practical Chemistry, 4.

RULES FOR STUDENTS.

1. In the case of disorderly conduct, any Student may, at the discretion of the Professor, be required to leave the class-room. Persistence in any offence against discipline after admonition by the Professor shall be reported to the Dean of the Faculty. The Dean may, at his discretion, reprimand the Student, or refer the matter to the Faculty at its next meeting, and may in the interval suspend from classes.

2. Absence from any number of lectures can only be excused by necessity or duty, of which proof must be given, when called for, to the Faculty. The number of times of absence, from necessity or duty, that shall disqualify for the keeping of a Session, shall in each case be determined by the Faculty.

3. While in the College, Students are expected to conduct themselves in the same orderly manner as in the Class-room.

4. When Students are brought before the Faculty under the above rules, the Faculty may reprimand, impose fines, disqualify from competing for prizes and honors, suspend from Classes, or report to the Corporation for expulsion.

FACULTY OF

Comparative Medicine and Veterinary Science

(LATE MONTREAL VETERINARY COLLEGE).

The Fifth Session of the Faculty, being the Twenty-ninth of the Montreal Veterinary College, will commence on TUESDAY, OCTOBER 2nd, 1894, by an Introductory Lecture, at 8 p.m., in the Faculty Lecture Room, 6 Union Avenue.

Intending students can receive full particulars as to examinations, length of course, fees, etc., free, on application to

C. McEACHRAN, D. V. S.

REGISTRAR OF THE FACULTY.

6 UNION AVENUE, MONTREAL.

THE ADMINISTRATION OF QUININE. MEAGHER'S ORANGE QUININE WINE

Prepared according to the British Pharmacopœia.

QUININE in this *agreeable form* is *quicker in action* and *more reliable*, than when administered in capsules, powders, or pills.

Usual Dose.—Adults: Half a wineglassful half an hour before meals. Children: A tea to a tablespoonful, according to age.

Dose to be increased or diminished at the discretion of the physician. Each wineglassful contains two grains of Quinine.

As it is now generally conceded by the profession that the action of Quinine in capsules, powders, and pills is *very uncertain*, the desirability of a faithful preparation in this form is most obvious.

Small samples free per post to physicians upon receipt of professional card.

MEAGHER BROS. & CO., Montreal, Canada.

ESTABLISHED 1859.

McGill University.

~~~~~  
The Popularity of THE MONTREAL MEDICAL JOURNAL is greater than ever.

IT IS THE ACKNOWLEDGED MEDICAL AUTHORITY OF THE DOMINION.  
HAVING AN EXTENDED CIRCULATION THROUGHOUT  
CANADA AND THE UNITED STATES.

~~~~~  
The Editors, recognising the importance and success of the Quarterly Reports issued in the past, have decided to extend them, so as to include regular reports on all the important branches of Practical Medicine. The readers of the Journal will in this way be made early conversant with the latest advances in all branches of their profession.

Contributions and communications, address P.O. Box 386, Montreal.
Subscribers should begin with new volume (July).

Sample copies on application.
