THE GRAVESTONE LAWSUIT.

DEAR MR. EDITOR,-This celebrated

case has been frequently referred to in your columns, and as it is now settled. the readers will be pleased to learn what is the conclusion of the whole matter. The victory is decided and most satisfactory. The verdict is in favour of the erection of the tombstone with the identical inscription to which the Rector has been so bitterly opposed, and bout which the whole contention has arisen. After unfavorable applications to the Rector of the Parish, to the Bishop of Lincoln, to the Chancellor of the Diocese of Lincoln in his Court. and to the Court of Arches, in which causes and cases Ecclesiastical have to be heard; an appeal was made to the Judicial Committee of the Privy Council. In this, the highest Court of the realm, and the one of final appeal, the Church pretensions and arrogancy of the entire lot, constituting the inferior courts, has received a tremendous rebuke, and they are signally defeated. Wider issues than the erection of a solitary monument in an out of the way parish graveyard have been decided. The high exclusive claims of Episcopalians to the title of Reverend, have been shewn to be utterly baseless, and the term is defined as merely an epithet-a designation of respect to which all are entitled who minister in the Churches, and one which the law confers on none, and regards as proper to all whose vocation is in harmony with the word itself. As an indication of the feeling with which the decision is regarded, a few clergymen have written to the papers requesting to be no longer addressed by the "now desecrated title," and wishing to be known as "P. P.," "Paris le Priest"-which is one to which they are perfectly welcome, if it is not disputed on the other hand by the clergy of the Church of

by the arms of the law is a slow and costly process. Mr. Disraeli's Public Worship Regulation Act has been a of extreme Ritualists in the Church of England can be checked and punished. the Ritual of the Church in many ways, but chiefly in that he had administered the Communion in his church to one person, that he had erected a crucifix in a most conspicuous place with a sculptured figure upon it, and that certain pictures, seven in number, representing the so-called "stations of the cross; had been set up in the Church. These pictures are highly colored, and are such as are commonly used in Roman Catholic chapels. The decision of Lord Penzance is against the defendant on all these points, the obnoxious sculptures and paintings are to be removed, a sharp reprimand has been adn inistered to the offending clergyman, and he is condemned to pay the whole of the costs. The result of this first trial has been received by the general public with much satisfaction, but we do not expect much abiding good from it. The process is very burdensome, the risk of defeat on the part of prosecutors is very great, the spirit of Bitualism is defiant, and the law will not terrify into submission the men whose hearts are set upon forms, sacraments, and priestly prerogatives, rather than the preaching of the Gospel of Christ.

Delegation occupied some time, and the Report will soon be in the hands of the ministers, preparatory to the decision which will be expected from every District meeting. After which the whole question in its advanced form comes before a large mixed Committee, which will make recommendations to the Conference. The Home Mission work of Methodism was another subject upon which a decision was arrived at. Some important modifications will be made, and three distinguished ministers are nominated, one of whom will be selected by Conference to fill the place of the late General Secretary, the Rev. C. Prest. The death of the senior Editor will probably hasten some changes in our Connexional literature, and may probably call another man from the tinerant ranks to swell the number of the localised and official Brethren. The proposal to elect a clerical Treasurer to the Home Mission Fund, separated from Circuit work, is likely to be met by strong persistent opposition.

THE REV. JABEZ BURNS, D.D. The busy indefatigable, preacher, author, and traveller has ceased to work and live. Full of honors well earned. highly beloved and esteemed far and wide; he has finished his course and rests in death. The record of his life work is a remarkable one. His early struggles, his brave endurance, his upward path, and undoubted success, form an inspiriting story. A stout opponent of slavery, a strong adherent of the Total Abstinence cause, an ardent Baptist, yet one of the foremost defenders of free and open Communion. As a Pastor, he had a long and successful career; his numerous works are known and read everywhere, By the death of Dr. Burns, London has lost an earnest preacher, the cause of Temperance a very earnest advocate, and the Church universal a lovable, brotherly, genial, large hearted man. ENGLISH METHODISM-OFFICIAL DE-CISIONS, &c.-Table Talk in the London Methodist has a word upon two or three rather important subjects:-

The special Home Missionary Committee last week considered several important questions. It resolved to continue the present condition of affairs with the War. Office, and not to ask for payment by the Government to ministers appointed for the benefit of Wesleyan soldiers, and not long time on the Statute Books, and the to encourage any local application for first case was decided but two or three | such grants. This Committee was largely days ago. Yet it is satisfactory to find attended, and some members were present that a provision exists by which the who are not often seen there. They doubtdisgraceful and glaring irregularities less felt interest in the nomination of a successor to Mr. Prest. It was resolved to send to the Conference the three following names : Rev. Gervase Smith, Rev. A. The suit which has just been decided, M'Aulay, Rev. M. C. Osborn. I hear was instituted by three parishioners of some people think that, after nine years' Felkstone against the clergyman, and drudgery over schedules and other work, the charges were that he had violated the unpaid Secretary, Rev. John Bond, should at least have had a nomination. He has been very diligent at his post and, as faithfulness and sincerity are the highest things, it would be ungracious for him who has them to repine. The Committee has also recommended the Conference to set apart from Circuit work Rev. John W. Greeves, as Treasurer of the Home Mission and Contingent Fund. This is the "third time of asking." Twice before the Conference has refused a similar request.

> 'There is said to be no decision about the vacant editorship. Some say it will not be filled up at all; others that it ought to be; indeed, names have been freely talked about during the week for nomination as Mr. Frankland's successor, and chiefly those of Dr. Williams, Mr. Toyne, and Mr. R. N. Young.

The speech delivered by the President of the Conference, at a missionary meeting at Bolton, on the intolerant bigotry exercised in social life and rural districts against Methodists, has attracted considerable notice. Extracts from it have appeared in several London and many ty charity, common-sense, and taste, so provincial papers. From the Leeds Mercury. It may be that in some rural districts of England, Wesleyans and other Nonconformists, with their preachers, have been somewhat puffed up by the decision of the judicial committee, authorising a Wesleyan minister to call himself "Rev." on his daughter's tombstone. If so, their glorying will be turned into confusion by the heroic action of the Vicar of Little Petherick, St. Issey, Cornwall. That clergyman has not wasted time by waiting to see what others of his outraged clerical brethren would do, but has at once repudiated for himself the adjective by which schismatics have new legal sanction to describe themselves. In an advertisement in a Plymouth newspaper, the Vicar of Little Petherick requests correspondents to address him in future as G. W. MANning. He adds, "Correspondents who prefix to my name the now desecrated epithet of 'reverend' will please not to be offended if I reject their letters." By this brilliant move the Nonconformist victory, at any rate so far as Little Petherick is concerned, is turned into ignominious defeat; and 'Reverend,' instead of being the "laudatory epithet" applied to members of a sacred profess on, becomes the badge of the propagators of neresy and schism. BISHOP TEMPLE is unworthy to bear rule over G. W. MAN-NING. Manning to be rector of a Cornish parish, having a population of 216 souls and a living of £220, with a residence. The suggestion that it implies some connection with Pope Pius IX. is, for the same reason, inadmissable. The correspondents who suggest 'Paul Pry' and Proud Pharisee' are manifestly themselves irreverend; much nearer the mark is the idea that Mr. Manning must have some undefined connection with Peculiar People.' The suggestion of Pitiful Puseyite' may be at once dismissed. 'Presumptous Person' is not likely to be correct, and 'Primitve Peculiarity' is a very far-fetched idea. The first prize at this Guessing Bee must be awarded to the correspondent who suggests 'Parochial Parson.' That certainly must be correct. Another class of correspondents make sober attempts to convince G. W. Manning that he errs in laying exclusive claim to a title which Shakespeare makes Othello apply to 'Dukes, senators, and officers,' and which a greater than Shakespeare would condemn, being applied to any set of men on the ground of episcopal ordination. But these and other correspondents waste their time. They won't convince Mr. needs convincing."

It may be that the letters "P.P." are insidiously intended to be taken for Parish Priest," so making out the namesake of Cardinal Manning a Ritualist, aping the style of his Emminence's Priesthood. Suppose a Popish Priest were to publish a request that nobody should sub-join to his name the letters "P. P." now desecrated in their permitted assumption by a Protestant heretic? Would you not consider him as great an ass as a Church of England clergyman renouncing the title of "Reverend" because it has been decided by the Court of Appeal that it may legally be carved on the gravestone of a Wesleyan preacher?—.

The purpose of David, formed soon after bringing up the ark to his tabernacle, of erecting a temple for the glory of Jehovah, was certainly a laudable one. Nathan, the prophet, at once warmly commended it. But God had other plans for both him and his temple. God's Word. VER. 25. THE WORD. David next reverts to the promise just made himself, and asks for its fulfilment. I WILL BUILD THEE A HOUSE, are the foundation words. The "house of David" is the family, the posterity of David. The exposition of the promise we have in vers. 12-16: "I will set up thy seed after thee; I will establish the throne of his kingdom forever; thine house and thy kingdom shall be established forever; thy throne shall be established forever." The primary reference was to the earthly throne and kingdom; and so David understood it. A part of what was said could only thus apply, while another part points to the spiritual In this lesson we see God's Covenant kingdom, of which the earthly was a type, and to Jesus, David's son, who now sits upon its throne. Thenceforth in the psalms and prophecies, the son of David rises into prominence, and the kingdom is expected to find its permanence and glory in him as the Messiah. When he came he was the true and legal heir to the throne of Israel, and in him as the exalted king, the promise has its proper fulfilment. See Psa. 89, 3, 4, 20, 29, 36, 37; 131, 11; Isa. 9, 6, 7; Jer. 23. 5, 6; 33. 21; Luke 1. 32, 33; John 19 34; Acts 13, 23; Heb. 1, 8. MINISTERIAL BENEVOLENCE-AN EX AMPLE TO THE LAITY.

(Continued from last week.)

But it may also be objected, that one of "our people," in Halifax, gave, last year, more than double the whole amount given by the ministers. Granted again. All honor to the whole-hearted man who had a soul large enough to subscribe \$750 to the mission cause. Would that we had a thousand like him in the Province. But this only makes the matter worse, as far as the average subscriptions of the rank and file of "our people" are concerned. It would take very little "cyphering," on the part of the lad already referred to. to show that if the sum subscribed in Halifax were deducted from the gross amount, it would make the average subscriptions deplorably small, indeed.

But, let us investigate a little further On page 15 of the Minutes, the number of ministers in the active work is put down at 81, and the supernumeraries at 16, making a total of 97. Of this number, as I have already shown, 59 subscribed \$300 to the mission fund. This would make each one of the 97 a subscriber to the amount of \$3.71, which, as you will see, is still in advance of the average of "our people." But there is more to come. On the same page of the Minutes, the number of church members (those on trial included) is put down at 8592

Divide the total amount subscribed by the laity by these figures, and we find the "enthusiasm" of "our people" for the " mission cause," manifesting itself in the magnificent sum of 92 cents per head, per annum. Comparisons I know are odious. and those following is no exception to the to the rule. Our ministers subscribe per man four times as much to the mission couse as do our church members per man. Look at it again. Out of the 97 minis. ters. 59 are subscribers; out of the 8592 church members there are 2588 subscribers, or about one third of the entire number. Thus we have, in this enlight. ened Province of Nova Scotia, 6,000 Methodists, who profess to have the love of God shed about in their hearts-who profess to have experienced that peace which passeth understanding-who profess to have the cause of their Master weighing heavily upon their souls, yet who in the year of our Lord, 1875, subscribed not one solitary cent to the extension of that kingdom, about which they, no doubt, talk enough in class and prayer meetings when it costs them nothing. This is " enthusi asm" with a vengeance!

Now. Mr. Editor, I stated at the outset that I was not going to touch upon the subject of deficiencies-nor am I. But this much you will permit me to say: had " our people" twelve months ago manifested an enthusiasm for the mission cause, equal to that exemplified by our ministers during the same period, the rather undignified clamor anent deficiencies would, in all probability, never have been heard. I have taken the liberty therefore, in this hastily written letter, to set before "our people" an example of well for them to try and copy in the future. It may never have entered into their heads that God has claims upon their substance, as well as upon their souls. Perish that form of religion which vents itself at prayer meetings, and clutches the purse strings only to draw them the tighter at the mere sight of a subscriptionpaper. May the time soon arrive, when every member of our church may have his soul so expanded by the divine influences of the gospel of of the New York Baptist Conference, peace, that he may see himself called up- saying that he had probably heard of on to contribute (as God has given him the ability) to the support of a cause, which of all causes is dearest to the heart of the Christian—the cause of missions. ONE OF THE "YOUNG MEN."

A CLOSE COMMUNION SECEDER AND WHAT HE THINKS.

A correspondent of the St. Louis Advocate, writing from New York, has this graphic description :-

We went to hear Hyatt Smith, last Sunday evening, preach on open communion, with especial reference to the New York Baptist Conference, of which we have written you of late. His church holds about one thousand persons, and was crowded long before the hour of service. This, however, is not uncommon, but the subject announced undoubtedly served as an additional attraction, and we noticed a great many of the notabilities of the district among the audience. Our readers will have a better idea of the discourse if we can give them a right understanding of the man. Hyatt Smith is in no sense of the word an orator, but it would not be fair to deny to him a certain character and force, which have been made prominent by the manly and Christian stand he has taken among his brethren on the subject of open communion. His appearance is similarly unprepose sing, but he revels in a quick wittedness, and keenness of retort, that will always assure him hearers. On this occasion it cropped out in the notices he read, one of which was of the Greene St. Prayer meeting in this city, which is held from 12 to 1 o'clock. "Some," said he, "go there for a spiritual lunch, and from what I hear they not unfrequently get a good square meal;" and no opportunity for a witty remark passes him unheeded. His text was Acts 11: 1-18, and his treatment of the subject was broad enough to suit any one. The discourse abounded in humor at every turn, and we give a few specimens. A country brother, in years gone by, in Brooklyn was examining a candidate for ordination, thus: "Do you think a man who violates a known law of God, and does not repent of it, will be saved?" " No;" said the candidate. " If he did not know, and the cause of his ignorance was wilful neglect, would he?' The young brother was discreet, and said, "It is not for me to limit the grace of God." "That," said the preacher. " was an answer his Presbybyterian and Methodist brethren might rejoice at, as indicating a possibility of their salvation." He told very effectively the story of the old lady who was earnestly praying the Lord to hasten the time when Christians should be one. "What would you have them be, mother!" asked her son who was listening to her. "Baptists, of course," was the answer, and he added that had she been a Presbyterian, doubtless that sect would have had the preference.

We are not surprised the Baptist regulars have little affection for him, as he strikes without mercy. He said that the only reason more ministers of that denomination did not take the stand he did was that the question of bread stood in the way. They had told him so and while it was humiliating yet we should not judge too harshly, since the very presence of the wife and children whispered caution. - He himself, when he had modestly stated his views some years ago, heard the pulpit doors slam against him from New York to Chicago: that to-day not one Baptist minister in a hundred dare invite him to preach, to pray in his church, or even the poor opportunity of giving the benediction. He said that he was once invited to address a collection of Baptist Sunday. schools in New York, when one of the ministers warned his school against listening to him. Yet within a few weeks this same minister asked him to lecture for the benefit of his Churchthe price of Hyatt Smith's lectures we are told is seventy-five dollars. He re-Christian benevolence, which it would be plied he would do so providing the brother would exchange pulpits with him the Sunday before, which put a barrier in the way. it! How some of the scenes would have disgraced a fourth-rate primary in the fourth ward (this ward in New York bears a bad reputation the country over,) but he added, apologetically, that he meant no disrespect to the fourth ward! Commencing on the text, he said that when the Jewish Christians remenstrated with Peter because of his consorting with the Gentiles, he did not tell them they lied, seeing "he was not a member of the New York Baptist Conference." But he reached the climax, when he spoke of the pastor of a neighboring Baptist church who told the Conference that "when the Long Island Baptist Association expelled the Lee Avenue Church, it had peace, as the young man had peace when Christ cast the devil out of him." " My church," said the preacher, "likened unto a devil! My church, which went up to that Association clad in the white robes of the Holy Ghost, bearing in her bosom more than two hundred souls converted to God! I wonder God did not strike Dr. Read dead upon the spot after such an utterance. Ananias and Sapphira were smitten lifeless at the feet of Paul for a crime not half so base!" It was a bold sermon, and for the first time in our life we heard in God's house the applause which belongs to the Lyceum. It may be necessary, but the necessity is to be deplored. We laughed at the quips and humor of the speaker, and fairly shivered at the denunciations he so savagely hurled. But although we went purposely for this letter, we could not feel we had been worshipping, nor help missing the quiet service in our own religious home. Is it not wonderful that the great Baptist denomination should give opportunity and occasion for such an address?

#### OBITUARY.

DEATHS AT GRANVILLE FERRY.

We have much cause to thank God that yet "our people die well." Within the last months several of our loved ones have passed on before.

MISS MARY A. AMBERMAN, yielded to the claims of God and gave Him her heart in 1866. Naturally diffident, gentle and unobtrusive, religion gave a new grace and charm to her character. She was a consistent christian worker, a faithful loving friend, an earnest sitter at the threshold of the house of God. Her last sickness was of but short duration. A slight cold, a few weeks of great physical prostration and then she was not for God took her. A few days before her death the enemy came in like a flood to trouble her and she was in heaviness through manifold temptations. Soon the sun of righteousness appeared to her, and triumphantly she passed away, joining spirits of just men made perfect, Oct. 9th 1875, having lived 24 years.

MISS MARY E. DELAP, died Dec. 21st, 1875, aged 30 years. 6 months. In 1865 during a series of meetings held by Rev. J. Hart and W. H. Heartz she passed from death unto life. Though she never united with any church organization, partly because she lived at such a distance from the places of social religious gatherings of the people of her choice, she availed herself of every opportunity that offered for religious intercourse with those who loved the Lord, and living near to God. she grew in grace and in the knowledge of the truth.

# REV. W. C. BEALS.

DEAR MR. EDITOR -I noticed in the last WESLEYAN the death of the REV. W. C. Brais, and a hope expressed that some one acquainted with his ministerial life would write an Obituary of him. Altho' I have known our departed Brother for over forty-five years. I can only give a mere sketch of his life.

In the summer of 1830 I first became acquainted with him and his connections. From them he decended in a good old Methodist line. The elder members of the family on the fathers side, were decidedly attached to Wesleyanism, many of them truly pious, united to the Church, sustained its interests, and always welcomed our ministers to their hospitable homes. His grandfather Mr. Simeon Delong, of Hanley Mountain, N.S., was converted to God through the instrumentality of the early Methodist Ministers and as a member of society he faithfully served God and his church, during the remainder of his life. Not anything seemed to give him and his pious partner greater pleasure, than to lodge and render the servants of Christ comfortable when they visited that part of the Circuit. His mother was also pious.

Brother Beals was brought up in the fear of GoD, and early in life experienced the Gospel to be the power of God in the salvation of his soul. I regret that I am unable to state the particulars of his con-

My personal acquaintance with him commenced in 1830, at the close of a class meeting held in the Lawrencetown Weslevan Church. What he then said, relative to his religious experience produced an impression upon my mind. I was satisfied of his conversion to God, decided piety, sincerity of purpose, and determination to live to the glory of God. Altho' intimately acquainted with him for nearly half a century since and having witnesed his life and conduct in prosperity and adversity I have never changed my views of our now sainted

Soon after he attained a sense of Divine favor and united with the Methodist Church, he began to call sinners to repentance, and God honored his young servant by rendering him a blessing to the people. Beliving that he was called of God to preach the Gospel, he offered himself to the British Wesleyan Conference and was

accepted. in 1835, as a probationer. From the above date to the Conference of 1862. (held in Charlottetown P.E.I.,) for the space of twenty-seven years, he was actively engaged in the regular work | ment. of the ministry. He labored faithfully and efficiently, in season and out of season through evil and good report, always having one great object in view the salvation of souls. On many of the Circuits where he labored, God in an especial manner crowned his ministry with success. While stationed on the Wallace Circuit he witnessed a powerful and extensive revival of religion. I have been informed that during this Divine visitation, over five hundred persons professed to be born of God. name there is still as ointment poured forth. In many other places he was truly useful in leading numbers from nature's darkness into the marvellous light of the Gospel. He stated to the writer, a few years before his iternancy ceased, that he had kept a regular account of over twelve or thirteen hundred persons who had through his instrumentality been brought to a knowledge of the truth. There are also ministers in our own church, occupying useful and honorable positions, (it not in other churches.) who acknowledge him as the instrument in the hands of God of their conversion. We therefore believe that our departed Brother has many stars in his crown of rejoiding.

But his ministerial life was not all sunshine. He not unfrequently had to pass through clouds and thick darkness. He was called to suffer great trials from various quarters, and from different causes. Too minutely entering into these, at the present period, would perhaps be both unwise and useless. Suffice it to say, that some of them arose from his determination not to compromise religion. We cannot now give the exact date of her conversion, but know that at the age of 14 years, she much enjoyed the company of the pious. And the rich conversation of her age, wherein was expressed happy remembrance of those youthful days, showed. that for pious intentions she then sought the company of the Godly. In 1821 Rev. Authur McNutt took charge of the mission and remained there two years. Under his ministry we learn of her being very happy in the reassurance that she was born again of the spirit of God." At which time she would be between 15 and 17 years of age. After she was 23, and when the Rev. W. Smith had charge of the mission she connected herself fully with the church; and with her husband ever afterwards strove to be a faithful and useful member. Every minister who has travelled this wide field of missionary toil, will remember sister Bruce; her cheerful disposition ;-her kind hospitality and desire for the extension of the kingdom of Christ. She passed like many others, through afflictions and sorrows; but the Lord was her helper; and in her deepest

During her weakest and most depressed periods she could still say "her soul was at peace with God," but when for a little she regained her strength, then with fuller expressions, she rejoiced in God her Saviour.

At last the end came. Her limbs lost their strength. There was a quiet waiting for death, and without suffering she passed away, aged 69 years, leaving her life companion, to feel deeply his sad bereave-

THE wit of the early Methodist preach ers has not entirely departed from their successors; it is quite as sharp but not as current as it once was. BETTING A PASTOR OUT.

In a rural Presbyterian congregation in the western section of Canada, the people, for various reasons, were desirous of a change in the pasterate. A meeting was called to consider how the desired change could be effected. All were agreed that though the pastor was a learned, laborious, amiable, and excellent man, he was exceedingly prosy and uninteresting as a preacher, It was resolved therefore, that a deputation should be sent respectfully to ask him to demit his charge. No one was ready to undertake the difficult and delicate task. At last two elders were induced to go and talk with the minister about the matter. They went on their mission with no little trepidation, but were greatly relieved by the cordial manner in which the good minister received them. He listened quietly to their hesitatingly told story, and at once acquiesced in their desire that he would hastened to report the results to the people. All were greatly gratified at the prospect of such an amicable arrangement; and feeling some sense of gratitude to the minister for his many years of service, and especially for his ready complance with their wishes, they determined to present him with an address and a purse A public meeting of the congregation was held, at which the pastor was invited to be present, an address was read to him containing strong expressions of appreciation and gratitude for his manifold labors and of strong personal affection for himself, and the purse was handed to him as a token of their continued esteem.

On rising to reply, the pastor was deeply moved, and spoke with a faltering voice. He stated, that influenced by the statements of the elders who had called upon him he had resolved, with much expense of feeling to himself minute, as if to overcome his emotion diameter. -not a few of the tender-hearted betraying their sympathy with him-he went on to say that in view of the affectionate and touching address he ous a gift, he felt constrained to thought, if only worth ten cents, they abandon his purpose, and would thereabandon his purpose, and would therefore remain with them, and devote his future life to the best interests of a people who were so warmly attached to

# A WEDDING ANECDOTE.

A clergyman was one evening summoned to his parlor, and found there a couple who wished to get married. The groom was a typical "Bowery boy," and the bride a woman apparently some years his senior, who looked as though her temper might have been soured by long superintendance of millin rs' apprentices. No objections appearing on the questioning of the minister, the couple stood up together and service was begun. The first part of it went off smoothly, but when it came time for the bride to reply to the question, "Wilt thou take this man," etc she replied, " No I won't." There was a sudden pause, some hurried questioning and expostulating by the astonished groom, which effected nothing more than a reiteration of the bride's refusal, and the outraged clergyman in dignified and severe words, delivered a scathing rebuke and showed the party to the door. A half-hour elapsed, when the bell rang again, and the same couple appeared. The. groom, no way abashed, explained to the clergyman that he had made up the quarrel between binself and the lady, after c insiderable coaxing, and had prevailed on her to return and be married. The clergyman hesitated, but at length consented. the groom was asked, "Wilt thou take this woman," etc., he replied most emphatically, "No I won't. It's my turn now." The bride burst into tears at this unexpected sign of pluck in the man she had fondly hoped to rule, and the clergyman fairly incensed, turned them out of the house with scant ceremony. An hour later they returned, and the groom again explained that he had made up with the lady, and they had finally determined to be married and have no more nonsense about it. The clergyman consented, this time with alacrity, and the groom responded to the questions asked with satisfactory promptness, and the lady performed her part with dignity and ease. When he came to the last part of the ceremony, however, the clergyman said, "It's my turn now. I will not pronounce you man and wife. You may go somewhere else to

### HOUSE AND FARM

CARE OF STOCK -Stock should go into winter quarters. Nothing is gained and much is lost by allowing them to roam the wet, sodden fields, and obliging them to eat frozen, coarse stuff that has no more nutriment than wood chips. Exercise during a portion of the day in a yard or small lot will be beneficial. To feed all farm stock so as to keep them thrifty is the right method; over feeding is as injurious as under-feeding, and irregular feeding as bad as, or worse than either. Feed regularly, and provide pure water liberally and frequently. It To prevent sickness is much easier and vastly better than to cure various troubles by medicine.

RYE AND INDIAN MUSH .- Use two parts rather coarse corn meal and one part rye meal, stirring in the corn meal first, and cooking awhile, if desired, then adding the rye meal, stirring very careone hour or more.

In cooking oatmeal, hominy, wheaten grits, cracked wheat, or any of those nice breakfast dishes, cook it in a covered tin dish set in a kettle of boiling water; in this manner there is no danger of scorching! One of these tablets can be dissolved at any time in hot or cold water, making at once the very perfection of coffee; and it is claimed that a pound of the berry will go much further by this than by any other preparation of the beverage.

> Herbs intended for drying should be picked just before the plant blessoms. Wash then until they are entirely free from dust, and place them on a sieve to drain. Then put them in the oven and let them remain until they are perfectly dry. Afterwards rab from the stalks, put in glass jars and clover closely.

RYE BREAD.—Pour boiling water on rye meal and mix into a stiff dough, make into squares or rolls, and bake in a hot oven. When the beginner can manipulate the dough readily he may succeed in to resign his charge. Pausing for a making it light in loaves three inches in

Rows marked off fourteen inches apart seed drilled and cov red. say one-fourth of an inch, kept clean, and land stirred, until the tops cover the earth, then chop out to six inches. I have tried about all known to the trade, and find Red Top Strap-Leaf and the White Strap Leaf about as good as any for the early; Early Dutch and Red Top will do. The best late turnip is the Ruta Baga (Swede), and is de-cidedly the sweetest and keeps better. These should be drilled at about twenty eight inches, and will pay well. In Hinds County I have them in the earth all winter; sometimes the winter is too severe. A brother-in-law has kept all his turnips by turning a furrow over them before a freeze. There is no question in my mind but that turnip culture, with rye, wheat, and oat straw, will do much to build up the South as it did to save England. I hope grass has gained friends, and I can now hope to know turnips will have atten-

> THE CREAM OF MILK -Few persons are aware, probably, of the extent to which the percentage of cream is influenced by the condition of the cow. At a Barre meeting of the Massachusetts State Board, Mr. Lewis an old experienced dairyman said: "I have taken a great deal of pains to test the value of milk that I have worked into cheese. I have grad nated glasses for the purpose, and I have found a cow whose uniform percentage of | yearly, may be taken at any time. cream was eighteen per cent., reduced to six in twelve hours-not from any change of, food but from a little excitement.

You gentlemen who make butter, be careful to adopt my advice and always treat your cow kindly and gently; never get her excited, because every ounce of and the service was again begun. When excitement will take from the milk one per cent. of cream. I have known a cow to be abused by a furious brutal milker, and the percen age of her cream went down one-half. It is astonishing what an effect excitement has on the percentage of cream in the milk a cow produces. You will be astonished if you will make the test and make it carefully. I have known a cow excited from natural causes to grop from fourteen to six per cent. in twelve hours. So I would again repeat, who ever abuses his cow knocks out of his milk a large percentage of cream."

HOPE FOR THE TEMPERANCE REFORM.

They are taking the right way to reach public sympathy and secure abiding results in connection with the Temperance movement, at Sackville, N.B. Public meetings are held in central places, which are addressed by the strongest men in the community. Speakers who have all the qualifications of culture, good address, and great Temperance enthusiasm, are likely to win in this crusade. It is a happy day for the friends of a noble cause when they can call out men like Professors Inch, Burwash, Dr. Stewart and Dr. Allison, to meet a foe so deadly and seductive as Intemperance has become in our day. For years we have mourned in silence over the calamity which seemed to have driven so many of the intelligent in our towns and villages out of the Temperance ranks altogether. A class of workers-to their credit be it said-who saw clearly that elements had entered the Temperance body which rendered it next to impossible for persons having strict regard to their own reputation to attend their meetings with regularity, sacrificed their feelings for the purpose of keeping converts under restraint. Yet they could not avoid-indeed could but sanction-the gradual withdrawal of some of the best members from the societies. Once outside, these, who may be counted by scores everywhere, appeared to have no common aim in regard to reclaiming the victims of intemperance. Something else besides Temperance fraternities was necessary. Men having gifts-having a desire for the salvation of human beings lost and degraded - could but present themselves before the public, authorized by God and their consciences, to argue, persuade, exhort and declaim in respect to a very general and mischevious wice. This they have begun to do: and to this agency we shall look with great hopefulness of substantial results.

It has come to this, that no man need wait for an opportunity to speak out on the subject of intemperance; that, instead of being degrading, according to the fancy of the select few, it is employment worthy of christians and philosophers; that, indeed, if society is to be preserved at all, every proper means must be employed to stay the traffic in intoxicating drinks and save the children of this generation from a fate worse than death. Prohibition comes to us with slow strides: meanwhile every true man may be a Prohibitionist.

OUR MOUNT ALLISON COMMERCIAL COLLEGE seems to be doing admirably -far in advance indeed of the expectations with which it was founded. For the two-fold advantage of a thorough training and faithful guardianship for young men, there is nothing to excel a course at Sackville. By the waycould not young ministerial students be allowed to take a few months in the Commercial department? It is well. known that Methodist Ministers are as a result of their church economy. more generally in the way of business transactions than clergymen of other churches. As to their Annual meetings -Districts, Conferences, &c., - they are extensively Commercial. Our Minisare compelled to deal with financial questions, and would do wisely to learn the most thorough and direct methods of business. There is a great deal of popular prejudice-feolish and unfounded to a considerable degree—in regard to the prevailing ignorance of elergy. men on business affairs; but we confess there might be some improvement without much loss of time or cost of money. Now that the commercial is a part of our educational work, we would quite favor a Conferential law which would bind Prebationers to a course of business training. Instead offinterfer-

THE FARRELL RIDER.-Mr. Woodworth has introduced a Bill into the Nova Scotia Legislature to repeal an Act of last Session, disqualifying clergymen from serving on the School Board of Halifax. The Chronicle, referring to it says :-

In our opinion, as we have often said, the Farrell rider to the Halifax School Board was unwise, because the purpose it had in view might have been accomplished without the aid of a legislative enactment which, from its nature, was likely to give offence to a class of gentlemen who ardeserving of the highest respect. In pure pose, however, the rider was a good one The only reasonable objection to it was the offence it was calculated to give to clergymen, and as that harm has been done and cannot be remedied, we do not see any reason for repealing the rider.

Exactly! the "Rider," as every one knew, was a little piece of spiteful legislation against men who were supposed to have secured an adjustment on the Halifax School Board. It was, therefore, impolitic and undignified, as wel as transparent. But the evil has been done, and the gentlemen who dared to ask for reform have been well punished. Let the censure abide on the records of Legislation! Then, though there is no expectation that clergymen will be appointed to the Board, and certainly no desire for it on their part—what matter? Let this insult remain on the Statute Book! Outside of Halifax a clergyman shall be respected in this regard; in the city he must continue branded by Act of Legislation, as not eligible to a position on the School Board. That is what the whole thing means, and the Legislature, if it chooses, may continue to accept the peculiar logic of the Chronicle.

#### COLLEGE GRANTS. A FEW POINTS.

The Memorials from Acadia, King's, and Mount Allison Colleges for additional grants, now before the Nova Scotia Legislature, deserve, and only require, very brief explanation.

The denominational colleges made no request respecting their own grants, though continually protesting against State aid to Dalhousie, until this year. Their movement, simultaneous and sufficiently significant, is based on these

- Dalhousie received a large, special grant. last year, mainly on a denominational plea, which raised it into invidious distinction.
- The Presbyterian body, almost exclusively, avail themselves of the advantages of Dalhousie. They have now that College, with all its endowments, and a Provincial Grant of \$2,800 a year.
- The amount which Presbyterians have invested in Dalhousie, is but a fraction of what Baptists own in Acadia, and Methodists in Mount Allison. The toil and self-sacrifice of both those latter bodies in behalf of education during the last half century, are concentrated in Wolfville and Sackville. All the educational property of the Presbyterian Church is represented in Dalhousie.
- Acadia and Mount Allison are receiving \$400 each per annum. Dalhousie receives \$2,800. A grant is made to the Academies at both Acadia and Mount Allison; but only for academic work. They earn it all, as is seen by the fact that they have been preparing students, not only for their own colleges, but for others-Dalhousie
- It has never been shown that Dalhousie is doing work superior to that performed at the other Colleges. In all instances of competition, students from Kings, Acadia, and Mount Allison have sustained themselves, while in the professions they are nobly represented.
- While the denominations now memoralizing the Government have always favoured the principle of a central University, they have never yet seen sufficient inducement to lead them to sacrifice property valued at hundreds of thousands of dollars, with the hope that such a University could be established. Especially are they not willing to accept Dalhousie as an approach to what they mean by a central Uni-
- The experiment of a Provincial University has already been tried in our neighbourhood; and the results are not such as to justify the adoption of a petty scheme in lieu of systems now doing so much to bless these Provinces.
- Till unanimity in respect to a better system can be reached, the wisest policy would seem to be that of efficient as possible.

We therefore very firmly maintain that the memorials are based upon principles of instice, and have every con- of England, they might well pauce; but fidence that the House of Assembly, history shows that Churches prosper ing with their spiritual work, it ought intelligently and impartially, will grant more without than with national monto render it more successful.

Rev. Bro. McLEOD, Editor of the John Intelligencer (Free Baptist) has been chosen Chaplain of the New Brunswick Legislature, in place of Dr. Spurden, deceased. We do congratulate the man and the denomination thus honored. When a public writer, who necessarilly comes into frequent and sometimes sharp conflict with popular prejudices, can rise above all carping criticism, and take a prominent place, which he may not covet, through the suffrages of those who know his worth, it speaks loudly in his favor. There is no better sphere of usefulness open to good man than among politicians; and there is no one more suited to wield a quiet though effective/influence than Brother McLeod.

WE are pained to learn that Rev. J. McC. Fulton who recently left our Provincial for the United States work, has been seriously afflicted. A child of the family died on the 13th inst., from congestion of the lungs; Mrs. Fulton's health for a year has not been good, and our Brother is himself almost an invalid. It is but natural thus that he should ask for, and receive largely, the sympathy of his friends.

WE recently stated that the best man who could be called to the platform as a Lecturer failed any longer to obtain an audience. The same cannot be said, however, as regards the best woman. Mrs. Kent Mason has been attracting immense congregations. The only opportunity we had of going to hear her was frustrated by the crowd which packed Temperance Hall, so we are unable to report as to her qualifications.

So the Queen-in the representative sense—has again spoken upon the New Brunswick School Act. She says that Provinces must be left to legislate upon their own matters of Education-that the Dominion Parliament cannot interfere. Sensible Queen! God bless the Queen! She may yet be called upon to say the same thing in respect to the Act upon the Northwest Schools, which the petition published last week by us alluded to.

The Chairman of the Truro District seems to have terrified some young men who proposed to present themselves as candidates to the Nova Scotia Conference. We need but say that its wants are the criterion for Conferential judgement. Even if it be conceded that caution ought to be used in enlarging our ministerial staff-and that was all the article alluded to contended forit is more than probable that candidates will always be required to keep the ministry up to its proper strength. But in any case even a Chairman's can only be accepted as an individual decision upon matters affect-ing Methodistic economy.

WE are in receipt of the Report of the Y. M. C. Association Convention held last Fall in Pictou. The Association has been doing admirable work. The extent of talent brought out at the Convention shows clearly how vast is the influence for good which the Y. M. he future. C. Association is exerting.

FOR the credit of human nature, it is to be hoped that the strong plea of insanity set up in behalf of Betts, the Wallace murderer, can be successfully sustained. A more cruel and disgraceful affair, we have never seen recorded. But in any case, is it not time Betts was arrested? If he is insane, it is no comforting prospect that he may commit other murders still while he is at liberty: and if the man committed a delibate crime, judgement should be meeted out to him. The proper officials in Cumberland County ought to feel some degree of shame that he has not been been captured long ago.

They are holding mass meetings in England for expression in favor of Dis-establishment. The ablest men in non-conformist ranks are called to the front on such occasions. Against the arguments employed it is difficult to placing all the colleges on equality, see how the present system of subsidiwith a view to rendering them as zing one Church at the expense of many can long be permitted by the British Government. If the end were to be ruin, or even injury, to the Church

ANOTHER SUBPRISE! The correspondent who wrote last week gave figures to show, that, while the Ministers of our Church, though doing liberally in respect to Missions, were not above the true standard of benevolence, the Laity, taking them as a whole, fall very far below it, brings out another phase of the subject in our present issue. A large proportion of the members of our Church give nothing to Missions. The proportion, too, is startling. It may be objected that, as several persons of the same family are estimated in the mem bership, and as one gives for all, the principle of computation is not just. Unfortunately it can be shown that several names of the same family are also in our Lists of Missionary contributions, which meets the objection. But what is the true cause of this anomaly in the Christian Church? Why are so many Methodists never reported in our Mission records? Do they plead poverty? Let us see.

This very week one of our Agents, who sells hundreds of Bibles in this Province, assures of two facts:-

1.—He does occasionally find a family without a copy of the Bible. He even counts them by dozens. We had occasion recently to apply for such a consideration on the part of the Bible Society as would enable us to send out Bibles at a cheap rate, and were met by the statement that no families in Nova Scotia were without the Word of God. So much for that. But at present we are dealing with this :-

2.—Our Agent assures us that he finds an enormous consumption of tobacco everywhere among the common and even the poorer classes. In one house he found the patriarch and his wife, the eldest son and his wife, and one or two others of the household smoking in one family blast. We hope they were not Methodists, for Methodism and five pipes in one family, are direct contradictions. But the inference is this :-No one can consistently plead poverty toward God's cause who can waste God's money in ways which injure the health, poison the breath and bring no solitary recompense of good. How can they meet their Judge in the great day, no have hoarded their talents, or what is worse if possible, squandered them while professing at the same time to follow the self-denying, pure and benevolent Christ?

# LETTER FROM MONTREAL.

DEAR MR. EDITOR,-The third week in January, is called the

ANNIVERSARY WEEK

in Montreal, because the great religious societies here then hold their annual meetings. They are held in the St. James street Methodist church, being the largest and most central.

The first in order was that of the Y. M. Christian Association, with the president Mr. Claxton in the chair. The popularity of this organizatiou continues unabated. Its usefulness to young men, and, by their pious activity in mission work to others, is apparent and great. The report was quite satisfactory. This association cannot but be grateful for the past and hopeful for

The meeting of the Canada Sunday School Union was next held. It aims to establish undenominational Sunday schools in sparsely settled districts, and to aid schools whose local resources are too limited for their adequate support. Its agency covers a large area of this and the adjoining province of the West. It is doubtless highly beneficial to poor families, to churches and to the country at large.

On the 26th ult., the anniversary of the Montreal Auxiliary Bible Society took place. The president, the Hon. J. Ferrier, being ill, the Rev. Dr. Wilkes, one of the vice-presidents, occupied the chair. This auxiliary sends one hundred pounds to the parent society in London, and employs an agent in Canada. The work done was less last year than for some preceding years. The state of business explains the slightly diminished issues and receipts. Were the whole people of the Province of Quebec Bible readers the deep shadows which darken so many of their households, and the burdens of their social state, would soon begin to disoppear. They must still be entreated to come and join all those who by daily searching the Scriptures "walk in the light of the Lord.'

The annual meeting of the French Canadian Missionary Society was the next held, and proved the most deeply interesting of the series. This arose partly from the presence of the scholars of the mission schools who sang sweetly some French hymns, and partly from the many conversions now happily in progress. These are so numerous that future years.

not fewer than three hundred child. ren of French Canadians had to be refused admission as pupils for want of room. The good work is advancing marvellously. Priestly opposition to it is of little more avail than pieces of lumber detached from a raft in the St. Lawrence avail to arrest the onward course of its mighty current.

The chief actor in this great movement is still the Rev. Mr. Chiniquy whose sacred zeal is increasingly hon. ored by the the divine lover and Saviour of souls. Some adversary has lately designed to discredit him by giving out that he had spoken slanderous words of the blessed mother of our Lord. This Mr. Chiniquy publicly denied. avowed his cordial assent to the biblical testimony concerning Mary, and promised soon to preach on the subject. Then he will clearly and strongly set forth the true doctrine of the blessed virgin mother of Christ, and not spare the crime of the idolatrous worship of the virgin, which is so big and so black a feature in the Romanism of this age. It is thus, as of old, that the "things" divised by the opponents of the pure Gospel, are made to "fall out rather" for its advancement.

The anniversaries closed with that of the Religious Book and Tract Society, at which was presented the fortieth report. This institution is not so efficiently sustained as the others. It however has its own sphere of evangelical endeavor. and its labor is not in vain. Last year it was able to reduce its debt to the parent seciety, to employ temporarily an agent, to issue 162,550 tracts, of which 6,425 were in the French language, and 314 bound volumes.

These organizations for extending the kingdom of God enlist the best feel ings of Protestant Christians, and evoke their liberality. They find that in seeking the true welfare of others, by these means, their own comfort and edification are promoted. This is only a welcome fulfilment of a beautiful engage. ment of the "bon Dieu," the good God-"that he that watereth others, shall be watered himself also. Friends from a distance less numeronsv attended than in former years, of these the two chief speakers were the Rev. Mr. Marling, of Kingston, Ontario, and the Rev. Dr. Ellingwood, of New York. But then there are several ministers who have lately become pastors of churches in Montreal who appeared to great advantage on the platform. Of these our own Rev. Leonard Gaetz delivered an excellent speech at the meeting of the Bible Society. The weather was favorable to a large attendance which the people well improved. Those who were anniversaries missed from their accustomed seats, worthy men who had been there each returning year for more than a generation. These "old disciples" bave nearly approached the going down of their sun. Impressively they cry to their younger friends, even by their absence. "Work while it is day, for the night cometh."

HIS EXCELLENCY THE GOVERNOR GEN-

with Lady Dufferin and suite, paid his usual winter visit to Montreal early in this month. The Governor's visit in winter to this city produces lively times in a large circle. His Excellency occupied rooms in St. Lawrence Hall. Here ne appears to disengage himself from public business and seems to enjoy the brief holiday he takes. His movements are sociable and popular. His party played the "roaring game" with some citizens; he attended a fancy dress ball at the rink; himself and his countess skating admirably; and patronised & tournament on the ice, some of the prizes being the gift of his Excellency. All this was pronounced brilliantly successful. Is it not well for all parties when those who are charged with the gfavest responsibilities can gracefully unbend, and by lighter, mirthful occupations qualify themselves the better to carry their official burdens?

THE MOUNTAIN PARK of which you have heard, had a semiofficial opening on the 5th inst. The chairman of the corporation Park committee was joined by a large number of citizens in a long train of sleighs for a ride by the newly made road over the very top of Mcunt Royal. The eastern extremity of the road is at the upper end of Blewry street, whence by a circuituous and serpentine course of more than three miles it leads over the mountain to the Cote de Neige road on the west. The air was very sharp, but the sun shone, and there was but little wind. The views of the city, Victoria bridge, river, hamlet, churches, hospitals, colleges, champagne, and mountains, comprising the highlands in Vermont form a magnificent landscape of such great variety of objects as is rarely equalled. Hundreds of laborers, who, but for this work, would have nothing to do are employed in perfecting the park road. By the approach of sum mer the work will be almost finished, and the drive over the Montreal Mountain Park, will be one of the best of the sort on the whole continent. It will doubtless attract to the city, and detain here no small number of tourists in the travelling season of the present and of beautiful, tho Methodists, o west, was dedic in this month. Dr. Ives has preached the first sermons in hundreds of Methodist churches. He possesses unrivalled ability to obtain liberal subscriptions, a useful gift in these days, but in the power of few ministers to acquire. A far higher gift was that of Barnabas, and by the earnest preacher it shall not be sought in vain, "For he," "Barnabas, "was a good man and full of the Holy Ghost and of faith, and much people was added to the Lord" by his exhortation.

began on Sunday last. Sermons were preached in both the new and the older church. In the former the preachers were the Rev. B. Longley, B.A., and the Rev. Louis Beaudry, of New York. In the latter the Rev. Dr. Ives and the Rev. Dr. Stevenson. The discourses in St. James-street church, were equally appropriate and excellent. The theme was Christ as Saviour of the world. His adorable person; His merit and mercy: and the universal design and diffusion of the Gospel were clearly and impressively proclaimed. The sermons in Douglas church were doubtless good

At the meeting on Monday W. Glendenning, Esq., was chairman. A report was read by J. A. Matthewson, Esq. The first speaker was the Rev. L. Beau. dry, whose parents were French Canadians, and of course Roman Catholics. He is now an efficient minister of the M. E. Church. Mr. Beaudry described the course by which he was brought out of the Romish communion in which he was a stranger to experimental pietv. and was led for himself by faith to beof God who taketh away the sin of the world." He greatly rejoiced in the divine consciousness of being "accepted in the Beloved." He hoped to be useful in leading others to the knowledge of salvation.

The Rev. James Roy, M. A., spoke thoughtfully and strongly on "French evangelisation." He adduced official statistics concerning education in this Province, and compared it with that of Ontario on the west, and of New Brunswick on the east. It is saddening to be compelled to admit that the comparison is greatly to the disadvantage of the Province of Quebec. This demonstrated lack of intelligence among the habitans made them easily subservient to the hierarchical party in retarding the progress of social elvation, and of civil and religious liberty, Mr. Roy concluded with an earnest appeal to the Methodist Missionary Society to expend a larger share of its funds in the evangelisation of the French Canadians, and in schools for the education of their

Dr. Ives made several good points in his stirring speech. He was happy in showing the adaptation of Methodist doctrine and polity to missionary objects. He said that in the boly labour for evangelising the world, the Methodist Church would have to take a large share. His illustrations were apt, tender and telling, whilst his strenuous style of speech greatly aided in iufusing his own convictions into the minds of his deeply interested auditory.

The weather was most unfavourable for the attendance. Rain fell in the morning, which was followed by hail for many hours, and this in the evening barned to snow. Hence the assembly was not so large as in former years, but all who were present were edified and delighted to the last. . The list of contributions will not be completed until this evening at the social meeting. After tea, brief addresses will be made, blank cards distributed, subscriptions on them sent up to the chairman, and by him announced. This becomes very exciting as the amount rises to hundreds and even thousands of dollars. But this letter must be posted to-day in order to save a week in the time of giving it to your readers. The financial results of this anniversary cannot therefore be here stated. But anticipating its successful close, and carnestly wishing presperity to this good cause in every part of the Dominion, the writer concludes with the assurance that he still remains, truly yours, E. B. Behmary 15, 1876.

#### CIRCUIT INTELLIGENCE

MATTERS IN MARYSVILLE AND GIBS ON The largest congregation seen in Marysville since the dedication, four years ago, writes our correspondent, assembled in the Methodist Church here last Sabbath evening. After preaching from the words "Go for ward," Rev. Mr. Wilson received four persons-three of them by baptism-into the Church. This makes wenty-two-ten by baptism and twelve by receiving the right hand of fellowship who have up to date joined the ranks of the faithful.

On Monday evening Mr. Wilson preached at Gibson from the words, "Come into the ark," after which he baptized one candidate, received several others in the usual way and organized a church of over twenty members. True to their antecedents the Methodists are the first to establish themselves in this rising town, and have laid the foundation of what promises to be a thriving society. The new organization will start with about 30 members. and is placed under the pastoral care of Rev. Mr. Jenkins, whose earnest and devoted labors have largely contributed to the above blessed results. To the above named minister the winter has been one of incessant toil, but they have been abundantly rewarded in the success with which they have been favoured.—Mor. News.

CARMARTHAN ST., St. JOHN, N. B .-MR. EDITOR.—Dear Sir,—On the evening of the 14th inst., St. Valentine'sthe Carmarthan Street Church was the scene of a small social gathering. Rev. Mr. Lawson, its esteemed pastor, having invited the members of its Bible class, of which he is the teacher, and a few friends to celebrate the twenty-fifth anniversary of his birth-day. At seven o'clock, the company, numbering about forty, sat down hold not the crucifix, but "the Lamb | to tea, and after partaking of which, it soon became evident from the whisperings, and the little groups gathered here and there, that something of an interesting character was occupying the attention of the majority of those present. The arrangements having been completed and order restored, the Rev. gentleman was presented with an elegant papier machie inkstand inlaid with pearl, accompanied with a gold pen and case, when the following appropriate address was read by one of the members of the class:-

"Rev. and Dear Sir,-We the members of your Bible Class, fully appreciating your work of faith and labour of love. among us, not only as our teacher, but as our pastor and friend, take this opportunity, when you have so kindly brought us together, to offer you our heartfelt thanks, for the interest you have always taken in our class. We beg you will accept this slight token of our love and esteem, and hoping our Heavenly Father will permit us yet to spend many happy and profitable hours together. We are dear sir, your affectionate scholars." (Here follow the names of 13 young ladies.)

Our beloved minister was evidently touched with this unexpected mark of love and esteem, and while accepting it, made a very charming little speech.

This interesting ceremony being concluded, the rest of the evening was devoted to singing, music, recitations, etc., etc. At half past ten the Doxology was sung, prayer was offered, and the benediction pronounced, bringing to a close, a very enjoyable evening, and one long to be remembered by all those present.

A Busy WEEK.-Rev. Dr. Burns preached in in Fort Massey Church as usual on Sunday before last. On Monday he proceeded to Mahone Bay, where he addressed a large congregation in the Presbyterian Church. On Tuesday evening he addressed a meeting at Bridgewater: on Wednesday evening at Liverpool,-on Thursday evening another large meeting at Bridgewater, and on Friday evening a crowded meeting in the Lunenburg Presbyterian Church. Dr. Burns's themes were Temperance, and such subjects as are usually treated before Y. M. C. Associations. He returned to Halifax on Saturday, and was apparently none the worse for his week's work.—Halifar Witness. Commenting on the above the Port

THE WINDSOR REVIVAL .- The revival still progressing in Windsor. Ninetyeight persons have been baptized in the Baptist Church during the past three Sundays. The Wesleyans and Presbyterians do not admit persons upon profession of their faith to Church membership so soon as the Baptists do, so we cannot give any definite numbers with regard to them; however, we understand that one hundred and forty-six persons have either stood up to be prayed for in the meetings, or spoken privately to the Rev. Mr. Huestis of the Methodist Church, concerning their desire to unite with that Church, and we learn that about one hundred persons have expressed a desire to unite with the Presbyterian Church. Several persons will be baptized in the Baptist Church on Sunday next. It is probable that this re vival will result in an addition to the membership of the Wesleyan, Baptist and Presbyterian Churches of nearly if not quite 400 persons.—Mail.

YARMOUTH.—A very gracious influence said to be resting upon the different congregations.

THE METHODIST CHURCH, CARLETON. -For the last four our five weeks special services have been held every evening, in the Methodist Church, Guilford street, Carleton, by the pastor, the Rev. S. K. Ackman. A general religious awakening has taken place, and over sixty persons of both sexes have professed religion. The work has been of a quiet character, totally devoid of any excitement, and has been shared in largely by both sexes, from the ages of 60 to 16. No such movement has occurred within the last 14 years. On Sunday evening a sermon was preached in the Church by the pastor to the newly-made converts, the text being from Matthew, 6 chap. 16 verse: "Let your light so shine before men that they may see your good works, and glorify your Father who is in heaven." The serthe majority of the converts were received into Church membership by baptism, and the extending of the right hand of fellowship.

The Sunday School is also in a very flourishing condition with over 200 scholars. Every six weeks the ordinary exercises of the school are dispensed with in the afternoon, and the time is occupied by addresses, recitations, reading and singing. The greatest harmony prevails in the Church, and much good promises to result from the religious awakening which has taken place.—Tel.

SPECIAL SERVICES .- This week the special services will be continued in the Methodist Churches of the city. The services were begun four weeks ago, and much good, it is evident, has been the result.—St. John Telegraph.

REV. H. PICKARD, D. D., occupied the pulpit of the Methodist Church on Sunday evening last. At the same place, on the following evening, Dr. Pickard addressed a public meeting on behalf of the Conference Educational Fund. PORTLAND, St. JOHN.-From private sources we have accounts of a most blessed and extensive revival in the Church at this place. The Pastor, Rev. R. Duncan, who has but partially recovered from an attack of severe illness, was laid aside at the beginning of the services. Our informant says, in relation to several weeks ago :-

"On Wednesday evening the congregation was large, and at the Prayer meeting on Friday larger still. Fncouraged by the prospects, the leaders requested permission to hold a few special services during the next week themselves. Of course the Pastor acceeded to the request. The numbers and interest increased, and now, for the third week, they are carrying them on with manifest tokens of the presence and favor of God. Providentially, Bro. Fred Pickles, of East Main Conference, who is on a visit to his friends in the city, came over last Tuesday, and with his venerable father, Rev. M. Pickles, who you will be glad to learn, is able to take part in public services again, has generously and self sacrificingly thrown himself into the work. Last night was one of great power. The capacious school room of our Church was so crowded at the prayer meeting after the sermon, that penitents could not be invited forward for prayer, but the number and class of persons who stood up to indicate their determination to come to Christ, showed how deep and general was the work of conviction. A large number of the children of our Sabbath School are the subjects of this work of grace. Several of whom, with a number of adults, are rejoicing in the new found joy of God's children.'

Lay Representation like other weigh ty things, gains force as it moves onward. "Table Talk" says of it :-

"There certainly was no mystery about the proceedings of the Ministrial Committee on Lay Representation last week. Its members were not afraid of speaking indoors or out, though it was understood no details of proceedings were to be pub lished. The result of its deliberation was soon known in many circuits through the the land. I understand there was a good deal of speechifying, though it was evidently the feeling of the great majority that finality should be given to the decisions of the mixed Conference, whatever shape the mixed Conference may take: still, the attitude, utterences, and reticence of some strong opponents of Lay Reprevice was a very interesting one, and the sentation leave it doubtful if they do not Church was well filled. On this occasion reserve themselves for a strong struggle when the subject comes before the Conthise with such gentlemen are very sanguine about securing a considerable number of the votes of young ministers— men who fear that by admitting laymen to the Conference and granting the principle of ministerial representation they themselves would be excluded from Conference. It is proposed that eighteen departmental ministers shall be allowed to attend ex officio. Of course the district meetings hove yet to pronounce their judgment on this most important subject, and so has the large mixed committee that is to meet in Whit week. It is very pleasant to hear it is suggested that no layman shall be entitled to sit in Conference who has not a qualification to sit in a quarterly meeting or the district committee. Some good brother is said to have proposed that none should be lay representives who did not regularly go to class."

A letter appeared in one of the London papers last week on the "Statistics of Methodism." It makes out a claim to between two millions and three millions of Methodists in the United Kingdom, and states that, as the total number of members throughout the world is 3.692,768, the hearers or attendants of Methodist services are about eighteen millions, or more, taking the whole world, than the Church of England can show.

A story is told of a Methodist preacher -and the story is true to the lette -who lived about forty years ago He was a bachelor, and we could write his real name, but we prefer to call him Synth. He resisted many persuasions to marry, which his friends were constantly making, until he had reached a tolerably advanced age, and be himself began to feel the need of, or at least to have new ideas of the comfort of being nursed with woman's gentle care. Shortly after entering one of his circuits a maiden lady, also of ripe years, was reccomeneded to him, and his friends again. urged that he had better get married, re. presenting that the lady named would probably not refuse to accept him, notwithstanding his reputed eccentricities. ### KEEPING THE TONGUE.

Keep it from unkindness. Words are sometimes wounds. Not very deep wounds always, and yet they irritate. Speech is unkind sometimes ween there is no unkindness in the heart. So much the worse pain is caused.

Keep it from falsehood. It is so easy to give a false colouring-to so make a statement that it may convey a meaning different from the truth, while yet there is appearance of truth-that we need to be on our guard. There are many who would shrink from telling a lie, yet who suffer themselves in such inaccurate, or exaggerate, or one-sided statements, that they really come under the condemnation of those whose "lying lips are an abomination to the Lord.',

Keep it from slander. The good repuation of others should be dear to us. Sin hould not be suffered to go unrebuked; but it should be in accordance with the Scripture method, "Go and tell him of his faults twixt thee and him alone." And it should be borne in mind that what is too often considered as merely harmless gossip runs dangerously near, if it does not pass, the confines of slander. #### REMARKABLE LOCOMOTIVE AC CIDENT.

The Rochester Democrat and Chronicle, of January 20, states that on January 17, while a train, bound for Atica, on the Buffalo division, was nearing the river bridge about a mile west of the village of Avon, an accident occurred which was most singular in itself and serious in its results. The iron net-work over the top of the smokestack on the locomotive became clogged up with ciaders, etc., in such a living monument of his devotion, pamanner that the gas generated could not tience, hope, waiting, watching, and escape from it; consequently it was pent up within the furnace, and as soon as the fireman loosened the fastening of the door to open it an explosion occurred, the fire being blown with great force out into the cab, enveloping the persons in it in a sheet of flame. The fireman William Russell, who was nearest the door, was flung backward with great force. His leg was broken and his body was badly burned. William Farnum, the engineer was not so badly hurt. His left hand was burned in a painful manner, and the whiskers of the left side of his face were burnt off. Mr. Breen, a brakeman, who happened at the time to be in the cab, was, very seriously injured. His face and shoulders were terribly burned, and his eyes are so injured that it is thought he will be blind for life.

THE CASE OF LAURA BRIDGE. MAN.

In a village in the mountains of New Hampshire the late Dr. Samuel G. Howe found the subject of this sketch, then six years old, blind, deaf, dumb, and nearly destitute of the sense of taste, scarlet fever having deprived her of tnese gifts. She was thus excluded from all the beauties of God in nature. and seemed little better than a piece of marble chiselled in human form, and, that soul containing a flickering spark of an immortal soul. Her father was a well to-do farmer, and her mother a woman of much intelligence, who gladly consented to place her little daughter in care of Dr. Howe. Accordingly, she was brought to Boston and a process of instruction immediately commenced. She was first taught to use her hands, and to acquire a command of her muscles and limbs, and afterwards, by means of a pen and pin, to distinguish two articles by arbitrary signs. Then from monosyllables she learned all the letters of the alphabet and how to arrange them to represent objects. She soon acquired a knowledge of numerals, punctuation, &c., and then she gained the power of expressing thought, the names of things, etc. The next process taught her was to recognize the same signs in embossed types.

She worked with great eagerness, thus rewarding the watchful care of her devoted teacher. Miss Bridgeman is now in her forty sixth year, and between her home and the Peakin's Institution she has passed her time thus far. She is tall, slight, graceful in form and motion, wears green bands across her eyes, is very demonstrative, and her face at time radiates with emotion. She dresses with great care-more to please her friends than herself-and takes great pride in showing her gold watch and other feminine ornamentations. She is quite expert in crocheting and plain needlework, and takes great delight in assisting one of the teachers in the sewing department. A few days ag) she was at work with perhaps a dozen of the pupils, turning the hems of napkins and threading needles with her fingers and teeth. She exhibited some of her hemming with as much pride as a soldier bearing a trophy from that needless wounds are inflicted; so a battle-field. A lady on the occasion much the worse that, unintentionally pain referred to made a purchase from her of a crochet mat, and with clear articulation, Miss Bridgeman repeated the word "money" twice. She can utter intelligibly the name of a teacher and such words as baby, &c. She forms words with a lead pencil by the aid of French writing-board. This latter article has grooved lines about an eighth of an inch deep, an inch or so apart. running transversely across the pasteboard. She takes her paper and presses

it into the grooves, thus making depres-

sions which can be felt by the pencil

point, and when slightly pressed leaves

THE PRINCE OF WALES has, it seems, been added to the thousand and one divinities of the Hindoo pantheon. Times were hard, and there was a good deal of suffering, and I found myself wishing, by-and-bye, that I could afford to give away more bread. At length an idea struck me. I'd stop drink, and give that amount away in bread, adding one or two loaves on my own account. I did it, and its been a blessing to me. My heart has grown bigger, and I've grown better every way. ### THE ABIDING PRESENCE.

BY E. F. Abide with me, my Saviour! I cannot trust my heart; 'Tis erring, weak and sinful, Come . for I now would start Forth on my heavenly journey; My feet would tread the road That leads to life and glory, To happiness and God.

Be ever near, my Saviour, In dark temptation's hour: Thou who on earth was't tempted. Thou know'st the tempter's power. But here I'll claim thy promise (Which all may freely share) Which says, "With the temptation I will give grace to bear.'

Then lead me, pitying Saviour; I cannot go alone; With trials and with danger The path seems thickly strewn. But, trusting to thy guidance, Led by thy loving hand, The way still growing brighter,

I'll reach the heavenly land.

DANCING PARTIES.

[We often hear it stated that our regulation as a church which discountenances dancing is illiberal, and is an unreasonable interference with uncent reaction. To such we commised the following from the pen of the late Mr. Thackerary

The system of evening parties is a false and absurd one. Ladies may frequent them professionally with an eye to a hus-'Truffles,' said I, 'how is it? You band, but a man is a fool who takes a wife out of such assemblies, having no other means of juding the object of his choice You are are not the same person in your white crape and satin slippers as you are in your morning dress. A man is not the tattered shawl, and barefooted, to whom same in his tight coat and feverished glared pumps and stiff waistcoat as he in in his green double-breasted frock, his black ditto, or his woollen tacket. And a man is doubly a feel who is in the habit of frequenting evening parties, unless he is She blesses you; indeed she forced thither in search of the lady to whom he is attached, or unless he is compelled to go for his wife. A man who loves dancing is a fool; and the fashion is greatly going out with the increasing good sense of the age. Do not say that he who lives at home, or frequents clubs in lieu of balls, is a brute, and has not a proper respect for the female sex! on the contrary, he may respect it most sincerely. He feels that a woman appears to most advantage, not among those whom she cannot care about, but among those whom she loves. He thinks her beautiful when she is at home making tea for her old father. He believes her to be charming when she is singing a simple song at at an evening party. He thinks by far the most valuable part of her is her heart: and a kind, simple heart, my dear, shines in conversation better than the best of wit. He admires her best in her intercourse with her family and friends and detests the miserable, twaddling slipslep that he is obliged to hear from and utter to her in the course of a ball, and avoids and despises such meetings.

# INDIVISIBLE.

Lauchie didn't receive much of a welcome when he came into this world, for he had created expectations which his presence at once dissipated. To be sure he had a winsome little face, which the days rounded and made fair; a prettyfaced, pretty eyed boy; but Lauchie came into the world a cripple; and when the mother and the father found the kind of legs Lauchie had brought with him, they looked at him reproachfully, and were indignant that, with all their wealth, Lauchie should be inferior to the little tedling, rosy-cheeked child of Bridget and Mike that every day passed their houses. Their hearts rebelled against the little criple, and be brought them a burden so heavy that they were obliged to unite all their love and strength and prayers to endure it; thus they comforted one another.

Lauchie grew: he had plenty of care nurse was very kind to the unfortunate. She was nurse, mother, father, and playmate to him-teacher, too, when he grew to ask questions. Lauchie wasn't forgotten by his father and mother, but they took no pride in him, as most parents do in their offspring. They were often in the nursery to inquire for him to sit with him at times by the upholstered window-seat, where he used to delight to rest, with the street and its pictures ever before him; but their eyes didn't light up with gladness when they rested upon him. They always had an expression of dissappointment in them -an expression which was invariably accompanied with a sigh of discontent. The neighbors pitied these parents these people of wealth-that they should have had this trial thrust upon them, and ventured to each other such remarks, as; "No doubt it would be a great relief to Mr. and Mrs. if the child were removed ; I'm sure I should not want him to grow up if he were mine! But Lauchie's mind was bright, even though his body were dwarfed; and by degrees his blue eyes opened to the fact that there existed for him no father's, no mother's love; that he was a grief instead of a joy-a burden rather than a

Years and years for some people, but only days and aays for a cripple, proved true in Lauchie's case, and so one day he was put into a dainty carket and brought to the parlor, where they strewed the white roses around the fairest flower of them all. they never should have emerged to cheat invalids with false hopes of cure.

Though no infalliable virtues are claimed for this medicine, it is but just to say that it possesses the following excellencies:—

Druggists.
This remedy has held its way and attained to be its own merit, with little present reputation by its own merit, with little from advertising. It has an established sale, those who know it will always use it when

those who know it will always use it when any need such aid.
But while our climate remains what it is, the army of sufferers from throat and lung complaints will always be a large one, and continually reinforced by new recruits. That all such may be acquainted with this reliable medicine is the aim of this advantage.

# ULMONARY BALSAM

1. On many cases of cough it exerts an almost specific remedial influence, and the cases are very few which it quite fails to benefit. Long standing cases and those of aged persons are almost always greatly relieved.

2. Its action is speedy and pleasant; its taste is not disagreeable; and its dose is small. The last point is sure to be appreciated by the invalid.

3. It has received medical sanction, and has been frequently prescribed by some of our leading physicians.

physicians.

Add to the above that, when the smallness of its dose is considered, it is even cheaper than the common 25 cent Cough Drops and Syrups, of the
