PETROGRAD, June 16.—(via London, 4.40 p.m.).—The capture of an additional 100 officers and 14,000 men was announced to-day by the war office. The Russian successes in the offensive along the southern front are continuing, the statement declares.

ARRESTED SOME HOSTAGES

Details of the reported evacuation of Czernowitz by the Austrians are given in a despatch from Bukowina by way of Bucharest, received by the semi-official Petrograd news agency.

The despatch says that before abandoning the city the Austrian authorities arrested a number of persons, who were forced to accompany the retreating troops. The railway rolling stock was sent to Ilskani and the tracks about the city were destroyed. Trainloads of wounded were despatched to Dornavatra, 77 miles southwest of Czernowitz.

BULGARIANS GETTING ANXIOUS

ATHENS, June 16 .- (via London).- It was reported in Athens to-day that the Bulgarians were withdrawing the majority of their forces from Saloniki to the Roumanian frontier.

After Austro-German and Bulgarian troops in December last had clearnd Serbia of Serbian and Entente allied soldiers, Bulgaria concentrated a great part of her army along the Greek frontier. Here the Bulgarians were faced by the large force composed of the French, British and Serbian troops which had been landed and organized at Saloniki.

The Dimins legalor. The Times declares that the Athens authorities are openly hostile to the Entente, and are doing everything in their power to interfere with and annoy the representatives of the En-tente. In presenting the budget to the chamber of deputies to-day, D. G. Rhallis, minister of finance, reported a deficit in 1915 of 188,755,776 drach-mas, and predicted a deficit in 1916 of 255,003,686 drachmas. An internal loan project was also presented. BELATED GALA DAT To-day was a gala day in Czerno-witz, being the occasion named for the unveiling of the new double-headed eagle on the city hall to replace the one removed by the Russians last year. The unveiling took place amid great festivity, but the commanding general, Pflanzer and his staff failed to attend owing to the danger from to attend owing to the danger from Russian aeroplanes, which circled over the town throughout the festivi-ties. The roar of the distant bombard ment constantly interrupted proceed-ings. At the height of the ceremonies, a Russian aeroplane dropped a bomb a few hundred yards from the city

hall, causing a panic. TRYING TO HIDE IT. According to reports received in London the German and Austrian governments are making desperate efforts to conceal the truth about the Russian drive from their people. The belief prevails here that weeks must clapse before the Austrians are able to withdraw forces from the Italian front for the defence of Lemberg, and that it may then be too late. DRIVING ON THE FLANKS. According to special despatches from Petrograd the Russians are with-holding their strength on the centre and are driving hard westward on both flanks. It is believed in Petrograd according to these despatches that the further development of General Brussiloff's victory will depend largely on the progress of Russia's vestern allies' general strategic plans. The Entente allies are now all in ouch by wireless and their co-ordin ation in strategy has reached a point never before achieved in the course

While the Germans appear to be making further progress on the Vermaking further progress on the Ver-dun front, an interesting review came from British headquarters in France last night. It is to the effect that the recent fighting in which the Can-adians distinguished themselves is no longer considered as the opening of the third battle of Ypres. It adds that it is now clear that there is no great German concentration on the front of Ypres and that presumably front of Ypres and that presumably (Continued on Page Eight) -

Allowing Affronts to Members of Entente By Special Wire to the Courier. New York, June 16—A Paris dispatch to the New York Times says: The news received here from Greece is not at all satisfactory. No attempt is made by the government of Premier Skouloudis to preserve a puddent and becoming attitude toward the Encents. Demonstrations or prudent and becoming attitude toward the Entente. Demonstrations organized by pro-German agents with the assent of the police have taken place before the allied legations in Athens,

It would seem that the object is not merely to give general annoyance but to obtain an excuse for imposing martial law, under cover of which Venizelos and the leading friends of the allies would be persecuted. For-Venizelos and the leading friends of the allies would be persecuted. For-eigners belonging to the allied nations have been insulted in the streets in the United States that conspire to and offensive films have been shown in the cinematos which are the product of the German propaganda. Members of the Government do not take the trouble to deny their complicity with the enemy agents.

In the chamber yesterday, M. Gounaris, Minister of the Interior, made a reference to the action of the allies, the impertinence of which was scarcely veiled.

It was the first day of this trip of inspection, made under most favorable auspices, designed to show the cabinet officer the exact condition of affairs on the fighting line-the of-fensive and defensive organization, the morale of the men, the condition of supplies and equipment, the trench warfare and the actual fighting on the front. M. Painleve, besides being a member of the cabinet, had taken here, sorting photographs, developing them and fitting them together into leading part in the debates of the Chamber of Deputies on questions relating to the military campaign, and this was to let him see at first hand just how that campaign was being conducted

Outside the barracks, on the sloping terrace, the pollus had planted artistic flower beds, with huge letters in flowers spelling Jof-fre, Castelnau, Antoine and the other commanders. A huge stock of shells rose among these flowers, and the output the stock of shells rose among these flowers, and the other tal part of army organization. There were kitchen gardens for fresh vegetables, forges for mending trench tools, armories for cleaning guns, a candle factory, and innumer-able other activities, all run by sol-diers who had lost a finger or the edge of an ear, or had some other slight wound temporariy incapaci-tating them. CONTENTMENT IN THE RANKS At night the party became Gener I Antoine's guests at the extensive rivate residence, requisitioned for army purposes, alongside headquarters. It was evidently the home of a well-conditioned family, with spacious corridors lined with sculp-ture and paintings. The dinner was cooked and served by soldiers, and

WILL BE TREATED **Shock and Mental Cases Will** be Looked After at Cobourg. Toronto, June 16.—By an arrange-ment concluded yesterday between the Dominion Hospitals Commission and the Ontario Government, the Pro-vincial Secretary's Department will establish at Cobourg a hospital for the treatment of mental and shock cases among returned soldiers. The negotiations which reached a conclusion yesterday are the outcome of discussions which have been going on for some time between represen-tatives of the Dominion Hospital Commission and the Provincial Secre-tary's Department. In effect it means that the present institution at Co-bourg will be immediaely converted into a military hospital by the trans-Toronto, June 16 .- By an arrange- est Manufacturers have already taken

Armstrong, Assistant Pro-vincial Secretary, last night, "we are following the best practice as it exists to-day in England, where they have one or two such institutions. Cobourg is being made available by the trans-

fer of 180 female patients to Whitby. This transfer will commence in the course of ten days. In two months' time one section of the Whitby hos-pital will be entirely completed which will permit the handling of any number of cases as is contemplated by the new arrangement up to 500. The need for special facilities for

the treatment of mental and shock cases arising out of the war, has imposed an unforseen burden on the medical branch of the military organization of Canada, and it is con-sidered fortunate that the public in-stitutions of Ontario are to-day adequately equipped to render this ser-vice. The Dominion Government will pay to the province a maintenance charge of so much per day per pa-tient, and the entire resources of the department will be made available for ******************** the purpose of securing for those who
