THE MODEL SCHOOL

The Athens Model School will open on Tuesday next with an excellent staff of teachers, including two with 1st Class certificates and one with the degree of B.A. The staff will be composed as follows:—

Principal—S. A. Hitsman
Assistant—Miss Annie Currie, Arnprior.

Form III.—Miss Dorothy Robertson, B.A., of Battford, Sask.

Form II.—Miss Jennie Doolan.

Form I.—Mrs Ada Fisher

It is impossible to state the number of modelites that will attend, as enquiries for this information sent to the Department of Education have elicited no reply. To ignore official letters may be part of the policy of this progressive Department of Ontario's government.

ATHENS' BIG CELEBRATION

The programme issued last week indicates that Athens will be the centre of attraction for a great throng on Labor Day, Sept. 4.

The committee offers liberal prizes for a wide variety of sporting events. In the morning there will be the 10-mile Marathon race for two cups donated by A. E. Donovan, M.P.P. and 3rd and 4th prizes by the committee. A baseball match will take place during progress of the Marathon.

In the afternoon there will be a 2.40 race (purse \$60) and a farmers race (purse \$20.) Then follows a long list of foot races and other athletic events, with several amusing contests, the whole ensuring a busy afternoon for the committee of management and an interesting and exciting programme for the spectators. A new feature will be an exhibition of speed by automobiles.

Music will be furnished by the Toledo Brass Band.
Admission, 15c; carriages 25c—gate checks issued at noon.

A SUCCESSFUL TEACHER

Vankleek Hill Review: Mr S. A. Hitsman, who has been principal of Vankleek Hill Model and Public school since 1904, leaves about the middle of this month for his future home in Athens, Ont.

Mr Hitsman has been a popular and successful teacher here and his removal is regretted by this community. He has done excellent work in the school here and we have no doubt the Athens Model School will rank among the best under his able management.

Mr Hitsman holds a first class Public School Teacher's Certificate, a High School Assistant's Certificate, and this year passed his examination as commercial specialist.

He is a graduate of the Kemptville and Morrisburg High Schools.

His salary in Athens will be \$1200. The "Review" expresses its best wishes to Mr and Mrs Hitsman in their new home.

SUCCESSFUL AND UNSUCCESSFUL STUDENTS

No matter whether of Entrance standing or of the different High School forms, we, the managers of the old reliable BROCKVILLE BUSINESS COLLEGE, wish to announce that we are now ready to send out to all interested, complete information regarding our courses of study and also a report of the unparalleled success of our last term's graduates. These have all been placed in good positions with firms in Brockville, Toronto, Montreal, Ogdensburg, and New York City. The Fall session open Sept. 5th, and enrollment can be made any school day after that date.—W. T. Rogers, Principal.

How to Cook a Loon

Bill Crozier, a guide for 52 years at Charleston Lake, in Ontario, Canada, has a novel recipe for cooking a loon. He was rowing a couple of Somerville N. J. councilmen a few weeks ago and when a loon came in sight the strangers asked Bill if they were good to eat.

Bill replied in a rather evasive way, and one of the fisherman then asked Bill how they were cooked. This was what was Bill waiting for, and here is the recipe that he gave: "Cook the loon in water twelve hours, at night pour off this water and cook him over night in the morning throw in a piece of grindstone, and when you can stick a fork in the grindstone, the loon is done."—Ex.

Local Items

A new record has been created in Montreal. Up to Saturday the 19th inst. eighty cases of accidental and violent deaths had been reported to the morgue there during the month of August.

In connection with the shortage of the potato crop this season a Kingston man states that whereas last year he had fully 1000 bushels, this year he would have barely enough for his family.

The Athens branch of the Women's Institute met in the town hall on August 26. After routine business, Mrs A. R. Brown gave her ideas on pickling while Mrs F. White explained her method of canning green vegetables. Discussion on both topics followed. Owing to the absence of ladies who were to take part, certain numbers on the programme were omitted.

The prize lists for Delta, Lyndhurst and Frankville Fairs are being issued this week. In addition to containing carefully revised regular prize lists, the number of special prizes is unusually large and valuable. These fairs are among the best county fairs in the province and are well worthy of the strong support they receive from all classes of people.

The burglars who are operating in Eastern Ontario made their latest visit to Chesterville, where was perpetrated one of the most daring robberies in the history of the village. From the jewelry store of N. Louchon rings, watches, and jewelry were taken to the value of about \$400. In the store of Sauter & Casselman the cash register was smashed, but there was very little cash in them, and clothing, boots, razors and knives in large quantities were taken and in Peletier's some loose cash and goods were taken. In one of the stores they coolly stopped and lunched from meat and salmon cans. The provincial police have been notified and are working upon the case.

A whole rink-full of people heard Mr R. L. Borden in Brockville on Mon. evening. Perhaps we should say "aw," for the acoustic properties of the rink are such as make hearing almost impossible to those in the rear seats. All the same, it was a great demonstration of interest in public affairs, and despite the confused and confusing cries that are being sent up by the party press, unscrupulous stumpers and hired mouthpieces, the vote polled on Sept. 21 will be an unusually intelligent record of the people's opinion of the great trade proposal. The question of whether the farmer should have two markets or one, can best be answered by the farmer himself, and on his own opinion, after all has been said and done, will depend the result of the election.

The big oratorical political guns have been fired in Athens and now the rank and file of the respective parties are settling down to the real earnest, effective work of the campaign. The Liberal rooms, over Arnold's store are open every Wednesday and Friday evenings, and the Conservative rooms in the Gamble House are open any evening. When information is desired, or when a stalwart possesses knowledge that would be of value to his party, he should go to one of these rooms and load up or unload, as the case may be. An honest ballot is the only weapon that should be used in this campaign, and in "getting out the vote" there is plenty of work for all good men, without resorting to undue influence or ways that are dark and trixas that are vain.

DEATH OF HENRY ROWSOME

After an illness of several months, due to his advanced age, Henry Rowsome died on Saturday last in Brockville at the home of his daughter, Mrs N. Marshall.

Mr Rowsome had attained his eightieth year. He was born near Athens and until his removal to Brockville a few years ago had spent his whole life here. Of a quiet, industrious, unassuming disposition, a man of unquestioned integrity, he is pleasantly remembered by the older residents of the village. His wife died many years ago and he is survived by three daughters: Mrs Thos Berney, Mrs I. M. Kelly, Athens, and Mrs Marshall of Brockville.

The remains were brought to Athens to the home of Mrs Kelly and on Monday, following a funeral service by the Rev. F. A. Read, interment was made in Athens cemetery.

A Favorite Singer

Westmore no two people could talk together five minutes without in some way mentioning Bettina Light, for everybody knew Bettina and nearly everybody loved her.

Bettina was twenty-seven and not twenty. She was plump and she did not always look just as she was in her clothes.

Bettina taught the Westmore high school and most of her wages went to support her home and her parents.

Mrs. Lull asked Bettina to sing at her musicale Bettina at once consented. Musical was now in Westmore and so was Mrs. Lull.

The musicale was begun by Mrs. Moss and little Teddy Warner, giving a piano duet. This was earned. Then Prof. Hoy stood up to give his musical solo.

"Who's that?" Bettina whispered to Mrs. Falloway.

"That's Miss Gloria Gardner, from New York a cousin of mine," Mrs. Falloway said.

FIVE POINTS IN BOND INVESTMENTS

A desirable investment has in it these essentials—the safety of the principal—the certainty of income—a fair and fixed rate of income—probable appreciation in value—and saleability.

Bonds, carefully selected, ensure to the investor all these desirable elements and are invariably secured—principal and interest—by the total assets of the company that issues them.

Write us to day for our literature on Bond Investments and a list of those we recommend.

FARMER TELLS INTERESTING STORY

Whether Sick or Well, in Good Weather or in Stormy, He is Obligated to Work Always.

Market people complain about prices they have to pay for farm produce. They forget that rain or shine, warm or cold, the farmer must keep at it or else the narrow profit, his bare living, will be lost to him.

A well-known Haldimand farmer, Mr. J. P. Pelletier, writes: "For nearly three years I was in poor health. A drenching storm caught me in the fields and wet me to the skin. I got home only to find I was threatened with inflammation of the bowels. I never got over it and felt weak and heavy and my system never worked quite right.

FOUR RECIPES FOR TOMATOES

TOMATO MARMALADE. One quart of ripe tomatoes skinned and sliced. Put on stove with half a cupful of cider vinegar, one third of a cup of sugar, one teaspoonful of salt, one teaspoonful of mixed spices; cook slowly and stir often with a wooden spoon.

TOMATO SALAD. Wash and cut in small pieces, but do not chop, one large, ripe tomato, one small onion, and one green pepper.

ESCALLOPED TOMATOES. Use a small baking dish. Skin and slice two ripe tomatoes, lay them in the dish with alternate layers of fine cracker crumbs, pepper, salt, and bits of butter.

SPICED TOMATO SAUCE. Melt a lump of butter size of a nutmeg, and pour in one cupful of tomatoes. Add salt to a pinch of cayenne, a pinch of onion, a dust of flour, and a slice of ground cloves and cinnamon.

The Bishop of Toronto has made the following appointments: Rev. W. J. Creighton as incumbent at Brantford, in succession to Canon Morley; Rev. Charles Carpenter as incumbent of Campbellford, in succession to Rev. A. J. Reid, who comes to St. Mark's Church, West Toronto.

Inspectors Packard and Francis, of the Toronto Medical Health Department, seized seven cans of milk at the dairy of the Canadian Creamery Company, 20 Division street, Toronto, because of the unsanitary conditions of the building where the milk was kept. The milk was emptied into a sewer.

As the result of the campaign against light weight bread inaugurated at Windsor, Ont., some weeks ago by High Constable Campeau, four additional complaints were laid against Frederick Harrison and Archibald McPhail, of Leamington, and Mr. C. L. Pett and Charles Cooper, of Kingsville.

LOST HUSBAND.

Discovered by Account of His Swimming Feat.

Montreal, Aug. 28.—Though seeing a despatch in a local newspaper about Capt. Jack Williams, who was coming upon her, and her power to work is decreasing, as is her humble wage. Her husband, she thinks, is making money by his swimming, and she will now seek to obtain his help.

Four years ago Capt. Jack Williams, an athletic old man, well known locally for his remarkable ability as a long-distance swimmer, and as the swimming instructor at the Grand Trunk Boating Club, left Montreal for Detroit by way of Toronto. His wife, whom he had left well supplied with money and the house rent paid in advance, did not worry much, when she heard nothing from him for several weeks. But when the weeks became months, and the months years, she became satisfied that he had died without being able to communicate with her.

For several years past she had been supporting herself by washing, but the infirmities of age were coming upon her, and her power to work is decreasing, as is her humble wage. Her husband, she thinks, is making money by his swimming, and she will now seek to obtain his help.

BOTANY PROFESSOR.

Geulph, Aug. 28.—Mr. J. E. Howitt has been appointed professor of botany at the Ontario Agricultural College. Mr. Howitt has for some time been the assistant in this department and his promotion comes upon the retirement of Professor F. B. McCready, whose appointment as inspector in the Provincial field was announced some time ago. Mr. McCready will, however, retain his identity with the college as professor of nature study.

THE FIRE HORSE

Will Give Place to Motors in New York.

New York, Aug. 28.—Five hundred picked men of the fire department are to be trained to become expert chauffeurs. They are to operate and keep in perfect condition the motor engines and high pressure hose wagons which gradually are displacing the apparatus now in use. The training for each will last a month, and they will be trained in squads of fifteen.

Battalion Chief Howe says that within five years the department will not have any horses. He said that the motor apparatus has been tested fully and has proven to be far more satisfactory than horse drawn apparatus.

It is expected that within a year there will be 150 automobile engines and high pressure hose wagons in the department. Each will require three drivers.

STOLE TO GIVE

Bookkeeper Stole Money From His Employers

And Spent It on Charitable Objects.

New York, Aug. 28.—The story of a bookkeeper, who embezzled \$6,200 of his employer's money in four years time, only to give almost all of it to charity was made known at the general sessions, which Richard Pachatz, 38 years old, was brought before Judge Swan for sentence.

From the testimony of the bookkeeper himself it appeared that he was possessed of a keen desire to gain social distinction. One of the members of the firm told the court that Pachatz had used almost every cent of the embezzled money in giving picnics and outings to the children and old folks of the Odd-fellows Home and Orphan Asylum at Mammaronce, of which he was a director. Many times he had paid for high-priced specialists for surgical operations for members of the institution.

It was stated that friends had partly made restitution, and that the firm would take Pachatz back, knowing that he would make good the balance. The firm asked for suspended sentence. "I've been a fool, judge," said Pachatz, as tears streamed down his face, "and now when it's too late I realize it." He was given a month in the Tombs to repent.

BIG VESSEL.

New Hamburg Liner and Leviathan of the Deep.

London, Aug. 28.—The New Hamburg liner which is being built in Stettin for the trans-Atlantic service is to be named the Imperator. She will be larger than any craft yet afloat, and in her present condition in the slips at Stettin she presents a wonderful spectacle.

The huge vessel appears something like the skeleton of an eleven-story skyscraper in course of construction, as she stands fully a hundred feet high. It is nearly ninety feet in beam, and has a length of 710 feet. The Imperator's displacement will be 50,000 tons, and she will provide accommodation for 5,000 passengers of all classes.

IN A TRANCE.

Girl Expected to Wake in Few Days.

Montreal, August 28.—The identity of the young girl who was brought to the Royal Victoria Hospital from the St. Henri car barns, apparently under the influence of a drug at an early hour this morning, has been established. She is Blanche David, 18 years of age, who lives with her parents at 81 Grand avenue. Her mother states that she was not drugged, but in a trance, and that she had been subject to trances from which it is impossible to waken her, ever since the middle of January. The trances last from two or three days to a week. Between trances the girl enjoys perfect health. She has been treated unsuccessfully at every hospital in the city. At present she is resting easily in the hospital, to all appearances merely sleeping an unusually deep sleep. The doctors expect her to awake in a few days.

MRS. EDISON

Is Said to be With Husband in Europe.

Orange, N. J., Aug. 28.—Mrs. Thomas Edison, wife of the inventor, is not "lost" somewhere on the Pacific, as indicated in despatches received here from the west last night. On the contrary, she is at present with her husband in Europe.

This statement was made to-day by a representative of Mr. Edison, who explained further that the Edison family is now on an automobile tour of France, Belgium, Switzerland and Germany. The erroneous statements concerning Mrs. Edison's whereabouts are ascribed to mistaken identity.

THUGS IN WEST

Winnipeg Constable Will Die of His Wounds.

Winnipeg, Man, Aug. 28.—Harry Kelly and Frank Jones, the young bandits, who participated in a spectacular street duel and hold-up on a street car last night, with a score of policemen, were arraigned in Police Court to-day and again locked up, pending the death of their victim, Constable Traynor. Surgeons declare the officer can live but a few hours, as a heavy bullet penetrated his bowels.

Restrictions have been taken off the immigration ports of entries in the West to aid the farmers in securing harvester help, and as a result the country is being overrun with desperate young men. Traynor, who was fatally shot last night, was fired upon repeatedly only a week ago by a young highwayman from the United States. He was unarmed. The Police Commissioners are contemplating changing the traditional policy of sending officers on patrol without other arms than a night stick or billy.

The battle in the streets, and a battle extending over a mile through a thickly settled portion of the city, is created quite a sensation. A great crowd talked of lynching the thugs when they found an officer had been fatally shot.

U. S. WORKMEN

Wear Themselves Out Working Too Hard.

London, Aug. 28.—The Board of Trade has issued a report from Consul Bennett regarding the trade of New York, New Jersey, Connecticut for 1909. It contains the following comparison between American and European labor: "Every worker in America puts more energy into his work than does the European in his own country. Spending is partly responsible for this, but the reserve of energy is no greater in America than in European stock. American energy is consequently exhausted more rapidly.

"At between the ages of forty and fifty, when the European workman is at his best, the American frequently breaks down physically exhausted. His place is taken by a younger man. So long as there is an abundant supply of labor through foreign immigration the vacant places can easily be filled; if the stream stops there will not be so much heard of the superiority of the American workman for America would then have to depend upon her own children whose stock of vitality is not greater than of their parents, whether American or foreign."

HE WAS RICH,

But Lived and Died in Abject Poverty.

New York, Aug. 28.—Although he lived in abject poverty and died from lack of proper food, the will of Dr. Charles F. Meyers, an eccentric aptown physician, shows that he was worth hundreds of thousands of dollars. His lawyer places his estate at \$500,000. His holdings include twenty pieces of the New York real estate and a safe full of bonds and mortgages.

The physician, who was 65 years of age, lived like the poorest of men, cooking his own food in the one room in which he slept, ate and carried on his business affairs. Ten years ago some influential friends succeeded in getting him an honorary degree of Doctor of Civil Law from a Canadian college. The physician, however, decided that the railroad fare was too much to make it worth his while to go after it. Relatives in New England will inherit his property.

SLEPT UNDER CAR.

Lay Down Between Rails and Was Killed.

Toronto despatch.—Becoming tired with the arduous work he was commissioned to do, Samuel Curtis, 28 Brant street, coast under a freight train in the G. T. R. Don shunting yard to sleep for a short time. His work was finished and his limbs ached for rest. While lying unconscious to the world a yard engine came along and moved the freight train away, and at the same time cut off the leg and arm of the sleeper.

The pain awake Curtis, and the flow of blood himself, he was removed to the General Hospital, where he regained consciousness only long enough to ask for his wife. At 9 o'clock, six hours after the accident, he passed away.

BUSINESS MEN FOR BRITAIN.

Winnipeg, Aug. 28.—One hundred prominent western Canada business men will visit the chief industrial cities of Great Britain during June of next year. This was definitely decided at a directors meeting of the Winnipeg Industrial Bureau to-day. Leading financial and commercial men representing all western cities will be invited to accompany the Winnipeg party, covering six weeks' itinerary abroad.

BURNED TO DEATH

Massena Young Lady Suffered Terrible Agony.

Corwall despatch.—Miss Mabel Bailey, daughter of Mr. and Mrs. F. E. Bailey, of Massena, across the river from here, was the victim of a horrible accident at her parents' home. Miss Bailey and her mother were preparing supper with an alcohol stove, and Mabel was lighting the fire, the fluid exploded, setting fire to her clothing, and she rushed from the house by the front door a human torch. At the sound of the explosion, Mrs. Bailey rushed into the room, having heard her daughter scream, and proposed to extinguish the flames, which were burning her hair, but was not aware that her daughter's clothing was on fire. Miss Bailey threw herself on the grass on the lawn in an effort to put out the blaze, and the neighbors rendered what assistance lay in their power.

Physicians were sent for and found the unfortunate girl was horribly burned from the ankles to the body, and her arms to the shoulders. Miss Bailey lived for twelve hours and suffered terribly.

TRIPLE MURDER

Parents and Son Killed and House Fired.

Eldest Son Arrested on Suspicion by Police.

Boonville, Ind., Aug. 28.—A triple murder was committed in Boonville this morning. Richard Lee, Mrs. Lee and their 17-year-old son, Clarence, were killed in their beds with a hammer, and the house set on fire.

By the time the firemen reached the house it was blazing from all sides. Trying to enter, they found all the doors and windows were locked. Breaking down the doors, the firemen found the incinerated bodies of Lee, his wife and his son. Robbery, it is believed, was the motive.

It is known that the Lee family, consisting of the father, mother and two children, had sold a small piece of property and divided up the money between themselves.

The older son, William Lee, who is 21 years old, was arrested by the sheriff this morning on a charge of murdering the other members of the family.

ONTARIO CROP BULLETIN

The following statement regarding the condition of crops in the Province, based upon returns of correspondents under date of August 25th, has been issued by the Ontario Department of Agriculture: Fall wheat.—According to the May bulletin this crop suffered more or less from winter-killing in many counties, and a considerable area of fall wheat land had to be plowed up, or was re-sown with spring grains. Returns just to hand show a wide variation both in yield and quality reported, ranging from poor to good, but the average yield per acre will be decidedly less than usual. The straw, while short, is generally clean and bright. Smut was reported by only a few correspondents.

Spring wheat.—This crop suffered from the drouth and unusual heat of the season. Although short in straw, heads were filled in well, and the grain is said to be of good quality generally.

Barley.—This crop will also be below the average in yield. The straw is described as being short but clean.

Oats.—Oats have fared the worst of the grain crops, although some good yields are reported. Complaints of rust have come from different districts. While some are through harvesting oats others have not yet begun cutting.

Rye.—Where grown for grain this crop has been of fair yield and quality, although short in straw.

Peas.—The unusually high temperature prevailing at different periods of the growing season told severely upon some peas, reports of the blossoms drying up owing to the heat and drouth.

Beans.—There has been too much heat and too little rain for beans in the first stage of growth.

Hay and clover.—Clover did not winter well, and in many quarters the excessive heat and drouth of May and June added to that drawback. The crop has been remarkably free from insect pests this season. Cutting extended from the 20th of June to the end of July.

Corn.—Late planting, owing to drouth of May, was the greatest drawback to the corn crop.

Tobacco.—The ground was exceedingly dry at planting, and the crop did not get a good start, while the ensuing hot and dry weather was trying to growth.

Potatoes.—A light yield of small potatoes will be the general rule, as the season has been too dry and hot for best results. Early planted suffered most.

Roots.—All classes of roots experienced a poor start, on account of the drouth delaying or preventing the seed from germinating.

Fruit.—Some correspondents claim the unusually hot weather at times of blossoming affected the setting of fruit. Apples will be light in total yield. Winter apples will be scarce in nearly every locality, but in most quarters there is a fair supply of Duchess and other varieties. All classes of apples are much freer from spot or scab than usual.

THE TUG MARTIN

Fears That She and Crew Have Been Lost.

Captain's Wife on Board—No News of Tug.

Midland, Aug. despatch.—The tug Martin, believed to have been lost with all hands in the Georgian Bay when the barge Albatross went down, had nine or ten persons on board. These included Captain George Vent and Mrs. Vent. They have four children, Richard Melia, single; Robert Hook, Ernest Hughie and Charles Oliver; the latter is married and has four children. Hook is also a married man. Others on the tug were: W. Martin, F. McQuinn, F. Busaume. It is thought there was another man on board.

Byng Inlet, Aug. 24.—The worst fears as to the fate of the tug C. C. Martin, of Midland, would seem to be only too well grounded. That the vessel is lost, with all on board, is the general belief, although some persons, in discussing the probabilities, are not unwilling to hope, if not believe, that the tug has gone ashore on some island, and having no yawl, the crew are unable to make this plight known, and must await the success that will come later on from some quarter or another. This view of the situation is, however, hardly borne out by the facts as known. The Martin had in tow in a tremendous sea, a big barge and the barge sprung a leak and foundered, sinking so quickly that those aboard the tug had no time to cut the tow-line and thus save their craft from being dragged down with her consort.

To-day the tug Davidson, belonging to the same company as the ill-fated Martin, Messrs. Vent & Syer, Midland, called at this port to make inquiry about the missing boat. There was no news of her at French River, whither the tug proceeded, carrying as passengers the survivors of the wreck.

BOSSED HIM.

Short Engagement Broken Just Before Wedding.

Wilkesbarre, Pa., Aug. 28.—Daniel Crumley, forty-one years old, and Miss Bridget Boyle, forty-five years old, met for the first time yesterday, fell in love, became engaged, got a marriage license here this morning, and thirty minutes later returned the license, having disagreed.

The couple met at the home of Mr. Crumley's brother-in-law, at Swoyersville, near here, and during the day Mr. Crumley asked "Have you ever been married?" "No," Miss Boyle answered. "Have you?" "Not yet," declared Mr. Crumley, "but I like you ever so much."

They got the license here this morning. Half an hour later they returned. "We are not going to marry after all," Mr. Crumley explained. "She began bossing me on the way to the minister's house and I refuse to stand for it. We want the money back. They were informed that the clerk could not return the money. 'Well, it's all off anyway,'" exclaimed Mr. Crumley, and he tore up the marriage license.

AVIATOR HURT.

Placed Mulai Hafid on Moroccan Throne.

Chicago, Aug. 28.—General Kaid Belton, who conquered Morocco and placed Mulai Hafid on the throne in 1908, was the victim of an aeroplane accident yesterday.

When Belton was expelled from Morocco a year or so ago, he came to Chicago and took up the study of aviation. Last evening he fell from an aeroplane at the flying field, One Hundred and Seventeenth street and Union avenue, fracturing his right leg, bruising his hand and dislocating a wrist.

The General was flying at a height of 125 feet, when his motor stopped and he tried to glide to the ground. He lost control of the machine and when a few feet of the ground he cleared himself of the machine and jumped out.

PERISH IN FIRE.

Three Girls Dead at Port Arthur.

Port Arthur, Ont., despatch.—Three daughters of Mr. and Mrs. Schmidt, Chamberlain street, on the outskirts of the city, were burned to death in a fire which destroyed their little house yesterday. Two other children narrowly escaped the flames.

The fire, from some unknown cause, started on the upper floor as Mrs. Schmidt was preparing breakfast, and when she started upstairs to call the children she was met by a wall of flame and smoke too thick to penetrate. Two children were able to jump from windows, but the other three were overpowered by the fire, and the bodies were found later in the ruins. The dead are Ella, aged 16, employed in the city telephone office; Louise, aged 9, and Marion, aged 5.

THE CRICKETS

Eat Grasshoppers' Eggs and Help the Farmers.

Minneapolis, Aug. 28.—The cricket's once defiled fiddling now is music to the ear of the farmer of the Northwest. M. P. Somers, grasshopper expert for the State Department of Entomology, after a summer-long investigation in the grasshopper infested districts of Minnesota and the Red River Valley, declares that the cricket has an insatiable appetite for grasshopper eggs and is eating them by the millions. The female grasshopper for several weeks now has been depositing her eggs in the ground. The cricket, according to Mr. Somers, has a peculiar aptitude for finding these deposits, and a ravenous maw after he once gets his mandibles into the egg pod.

The extermination of the grasshopper, which destroys thousands of acres of grain in the Northwest, seems to rest with the question of providing more crickets. The discovery is looked upon as an important one by entomologists and by crop experts.

A. O. F. HIGH COURT

Presentation of Silk Flag by City Officials.

Peterboro despatch.—At this morning's session of the High Court of Ancient Foresters the following officers were elected: H. C. R., E. Ramsay, Montreal; H. S. C. R., W. E. Woodstock, Toronto; H. C. T., H. G. Wilson, Toronto; H. C. M. E., Dr. L. Seord, Brantford; H. C. S. W., A. Webster, Winnipeg; H. C. J. W., A. Martin, Hamilton; H. C. S. R., H. McPherson, Peterboro; Auditor, F. Abbot, Meaford.

It was also decided to appoint a representative at Winnipeg to take charge of western work. The Law and Judiciary Committee was appointed as follows: W. J. Vale, for 25 years chairman, withdrew his resignation, and was elected; W. Douglas, Owen Sound; J. Haygarth, Hamilton; W. Richardson, London; H. Chick, Toronto.

At the afternoon session Chief of Police Thompson and Brother Chief Howard, of the fire department, visited the High Court, and on behalf of the city officials presented H. C. R., elected Ramsay with a beautiful silk flag.

The District Chief Rangers were appointed as follows: No. 1, Fursey, Halifax; 2, Sears, Ottawa; 5, Miles, Trenton; 6, Highland, King; 7, Wainwright, Toronto; 8, Geo. Burt, Toronto; 9, Monk, Hamilton; 10, Masterman, Brantford; 11, Kenwood, Geulph; 12, Miller, Severn Bridge; 13, Little, Owen Sound; 14, Outman, Plintone; 15, Lancaster, St. Mary's; 16, Whitson, London; 17, Netherland, Simcoe; 18, Leach, Sarnia; 19, Maple, Walkerville; 20, Antribus, Port Arthur; 21, Haldiday, (S.) Winnipeg; 22, Greenwood, Portage la Prairie; 23, Barlow Moose Jaw; 24, Dupan, Leithbridge; 25, Armatage, Calgary.

The proposal to abolish the Law and Judiciary Committee was defeated. The sum of \$100 each was voted to establish new courts in the Northwest, subject to consent of the Executive Council as to location.

DOWIE AFFIDAVIT.

Christ Will Visit Earth in November, 1912.

Buffalo, Aug. 28.—A declaration and affidavit putting the time when Christ will again appear on earth as next year, was received by Deputy County Clerk Seylour yesterday, from Harry L. Burnette and John Taylor, disciples of the late John Alexander Dowie, of Zion City fame, with a request that both be filed on record here. According to the documents Christ will appear on earth in November, 1912.

This is a similar document to the one filed recently by the same persons in the office of the county recorder in Chicago. According to Burnette, Christ will remain on earth 434 years, and during that time the tribes of Israel will be reunited and cities will be built throughout the earth modeled after Dowie's Zion City. Then will come the rebuilding of Jerusalem and next the end of all things.

FIND OF COAL.

Mountain of It Found North of Montana.

Indianapolis, Ind., Aug. 28.—Edwin Perry, Secretary-Treasurer of the United Mine Workers of America, who has returned to headquarters in this city from the Canadian Northwest, heard glowing accounts at Fernie, B. C., of the "mountain" of coal that was discovered not long ago in Canada, near Corbin, about forty miles north of the Montana line. It was said that a drill was sunk 1,000 feet without reaching the bottom of the coal.

Coal is being taken out at present and being hauled by wagon, but work has been begun on a railroad that it may be shipped more readily.

ARTILLERY COMPETITIONS.

London, Aug. 28.—Owing to the unpromising weather the artillery competitions were postponed until to-morrow, after the Birmingham and Canadian contingents had fired under the most trying conditions.

PHILIPPSVILLE

The frequent showers have started the after-grass and wet the ground so that some of the progressive farmers have started the plow. It is hoped that the late planted potatoes will be benefited by the rain. If they are no better than the early ones there will be a potato famine.

The whistle of the steam thresher is heard again and those who have threshed report a fair yield. Acheson Bros. shipped a car of hogs on Saturday. They paid seven cents per pound. They could not find any fat cattle fit to ship.

A heavy thunder storm passed over here last Sunday night. Mrs Wm. Lashley, after a two weeks' stay with her father, W. B. Phelps, returned to Toronto on the 19th. Master J. C. Lashley, after visiting his grandfather for the past two months, left for Toronto on Saturday, 26th inst.

Mrs Miles Lockwood is able to go out driving these fine days. Mrs Samuel Carr had several visitors last week and this week Mrs Gore of Chantry is her guest.

Mr and Mrs Anson Brown of Athens were guests of friends in this vicinity for the past week or ten days. Wm Perry of Toronto motored down from Toronto and spent a week here with relatives, leaving on Saturday morning for home and taking his two girls with him. They spent their vacation with their grandmother, Mrs H. Brown.

W. B. Phelps has had erected in the Baptist cemetery a monument to his wife who passed over to the silent majority last year.

Almost everyone in this section attended the Old Girls' Reunion at Elgin on the 24th inst.

Mrs E. A. Whitmore spent a week at the home of her father, L. N. Phelps at their cottage on Delta Lake.

W. B. Phelps unloaded a car of feed on Wednesday last.

Stanley Haskin has purchased a separator and will soon be able to thresh out the many full barns and grain stacks that dot the farmer's yards. It has been many a year since we saw so many hay and grain stacks as there are this year throughout the country and all were secured in good order from the wet weather.

D. P. Alguire is having a lot of improvements put on the house on one of his farms.

The carpenters will soon have Mrs Shire's new residence on Cottage street ready for the plasterers.

Wilson Chase has a large brick and tile kiln on fire and brick and tile ready for another kiln.

Mr Cross will poll a heavy vote here in favor of reciprocity.

Recorder: When W. L. Hanson, of Saratoga, N. Y., son of W. H. Hanson, who spends his summers at Charlottown Lake, went to his motor boat house, near the site of the old electric light station, he discovered his launch missing. Mr Hanson had not visited the boat house since last Thursday so was at a loss to account as to the time of its disappearance. The police were promptly notified and a description of the craft given. It is 25 ft long, four feet beam and is fitted with a six cylinder 18 h.p. St. Lawrence engine.

CHARLESTON

Mrs Geo. P. Chamberlain, who was visiting her mother, Mrs H. Johnston, was called to Sudbury on Thursday by the serious illness of her little son Paul who, in company with his father, was coming east to join his mother. A FAIR OF MAGNITUDE

The growth of Canada is indicated in the fact that at this election there will be more than fifteen thousand polls. The increase is particularly noticeable in the West, where the settlements are both numerous and scattered. Don't be impatient, therefore, on the night of the 21st if midnight arrives before you know whether to get out on the street and cheer or hike away quietly to your home.

YOU CAN DEFY HEADACHE!

Yes you can, with a box of ZUTOO Tablets in your pocket or home. Taken when you feel a headache coming on, one little tablet will ward it off—rip it in the bud. Taken later it will cure the headache in twenty minutes. Why then continue to suffer when a box of ZUTOO will make you headache proof. You would be surprised to know how many people, who never before used a headache remedy, are now using ZUTOO Tablets. Why not you?

MIDWAY OF MARVELS

The directors of the Ottawa exhibition have broadened the scheme of entertainment. That will be evident from announcements later of the famous vaudeville stars, acrobatic troops, etc., that will appear before the grand stand. The inevitable midway will be more sensational and curious than ever. This rollicking feature will be furnished by the Park Booking Circuit of New York, which means that a gorgeous assemblage of the world's freaks and marvels will be at Ottawa.

HOMESEKERS' EXCURSIONS

The Grand Trunk Railway has issued a circular authorizing all Agents in Canada to sell Homeseekers' Excursion tickets to points in Western Canada. This is interesting information for those desiring to take advantage of these excursions on certain dates from April to September 1911. The Grand Trunk Route is the most interesting, taking a passenger through the populated centres of Canada, through Chicago, and thence via Duluth, or through Chicago and the twin cities of Minneapolis and St. Paul. Ask Grand Trunk Agents for further particulars. —It will pay you to write or call at the Reporter office before arranging to attend Business College. We can save you money.

THOUSANDS IN PRIZE MONEY

The fact that \$16,000 in regular prize money and over 100 special premiums, many of them gold medals, have been appropriated for encouragement of the agricultural industry, along approved lines, is just ground for making a special appeal to the farming community in regard to participating in the competitions and attending the Ottawa exhibition. Agriculturists and stock breeders are never so far advanced but they may learn and acquire enthusiasm in their calling by attention to the instructive features, object lessons in many sections devoted to their interest. Prize winning animals will parade daily before the grand stand, and judging will also be carried on where those interested may observe. Competitions and lessons in butter making and the establishment of a splendidly equipped cold storage plant for cheese denote the special attention paid to the dairy industry. The scope of importance of the great fair is best indicated by a perusal of the prize list which may be obtained on application to Secretary Ed McMahon, 26 Sparks street, Ottawa. The premiums are the largest ever offered. Last year 90 per cent of those winning medals, exchangeable for cash, preferred the money. Winners of special prizes will be given similar options this year.

LESSON X.—SEPTEMBER 3, 1911.

Review.—Read Isa. 1: 10-20.

Summary.—Lesson I. Topic: Impending calamity. Place: The land of Judah, under the reign of Hezekiah, Judah was measurably prosperous. This king was honest and earnest in his efforts to accomplish a thorough reformation.

II. Topic: Prophetic view of redemption. Place: Jerusalem. The lesson contains one of the most vivid descriptions of the Messiah in all the range of prophecy.

III. Topic: Reaction against religious reform. Place: Jerusalem. The successor of Manasseh in Judah was his young son Josiah, who proved to be one of the best rulers in the history of the nation.

IV. Topic: Independence of Christian character. Place: Jerusalem. The successor of Manasseh in Judah was his young son Josiah, who proved to be one of the best rulers in the history of the nation.

V. Topic: Providential discoveries. Place: Jerusalem. An important discovery was made in connection with the work of repairing the temple.

VI. Topic: God's terms with sinners. Place: Jerusalem. In the early part of the reign of Jehoiakim, who succeeded Josiah, his father, Jeremiah uttered a prophecy in which the destruction of the nation was predicted unless they repented.

VII. Topic: Divine deliverance despised. Place: Jerusalem. In the fifth year of Jehoiakim, king of Judah, a message was read to the people assembled at Jerusalem which made a deep impression upon them.

VIII. Topic: God's constancy to Judah. Place: Jerusalem. After the three months' reign of Jehoiakim, the son of Jehoiakim, Zedekiah, a son of Josiah, became king by the appointment of Nebuchadnezzar.

IX. Topic: Closing scenes in Judah. Place: Jerusalem. After the siege of a year and a half the Chaldeans broke down the walls of Jer-

salem and gained an entrance into the city. King Zedekiah and his men of war sought to escape, but were soon overtaken and made prisoners. They were taken to Riblah, where Nebuchadnezzar had his headquarters, and severe judgment was passed upon Zedekiah.

TOPIC.—Judah a tottering kingdom.

I. Her prophets.

II. Her kings.

III. Her people.

The presence of the prophets in Judah was not merely incidental, nor their office important. They spoke as the oracles of God, both to strengthen and direct the people in times of deep distress and to warn and exhort them against apostasy.

The prophets among the people began to see the handwriting on the wall. God's watch-care for His faltering people. Their messages breathed forth the divine faithfulness in that that they revealed plainly the sins of the nation and pointed out the way of repentance.

With every threatening and warning was given an entreaty to return to God and His true worship with the promise of pardon to all repentant souls. Isaiah was faithful to his vision, and consecration and vision failed not to perform his prophetic duties.

Jeremiah filled an important position after Isaiah. He, too, searching messages did not allow the people to forget that God was calling upon them from sin. They revealed sin and its consequences and the only way of deliverance from sin.

earthly god otat money and position could procure they were forgetful of God, but when losses came and they were left destitute they turned toward the Lord.

"Departed not from following the Lord" (2 Chron. 34:33). Many things in Josiah are commendable, and among them are his devotion to the house of the Lord and his ready acceptance of the book of the law. God's word like a lighthouse on the seashore.

"Carried away captive into Babylon" (Jer. 39:9). The folly of Judah and Israel in the world's history. "Because sentence against an evil work is not executed speedily, therefore the heart of the sons of men is fully set in them to do evil" (Eccl. 8:11).

AUTUMN SOWING

Results of Experiments Throughout the Province.

Four hundred and forty farmers throughout Ontario conducted experiments with autumn sown crops during the past season. The average results received from thirty-three of the counties of the Province.

WHEAT.—In the co-operative experiments with different fertilizers applied in the autumn, the Ontario Agricultural College, the Crimean Red, which stands second in the co-operative experiments, has been reported as the autumn sown wheat of the highest yield.

WINTER EMMER AND WINTER BARLEY.—A comparative test of Winter Emmer and Winter Barley was made throughout Ontario during the past year. The Winter Emmer gave a yield of 2,460 pounds, and the Winter Barley 2,540 pounds per acre.

As long as distinctly late, material will be distributed free of charge in the order in which applications are received from the farmers.

Officials of the dairy division will also conduct dairy tests, or milking competitions, at the fall fairs to be held at Woodstock and Perth, Ont., Brome and Sherbrooke, Que. Awards will be based on the weight of milk, butter fat and solids not fat produced.

WHAT THEY LOST. British Railways Suffered Over £500,000 Worth. London, Aug. 28.—British railways lost considerably more than £500,000 as a result of two days' strike last week. The traffic returned published last night show an aggregate decrease of £465,000, whereas under normal conditions an increase of £600,000 might have been looked for.

Sweet Miss Margery

"Make Margery Daw your wife!" The earl started, and his color deepened. "If she consents," he answered, after a moment's pause, "I will."

SKIN SUFFERERS

Do you realize that to go through life tortured and disfigured by itching, burning, scaly and crusted eczemas, or other skin and scalp humors is unnecessary? For more than a generation, warm baths with

Cuticura Soap

And gentle applications of Cuticura Ointment have proved successful in the most distressing cases, of infants, children and adults, when all else had failed.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on treatment of skin and hair, will be sent, post-free, on application to "Cuticura," Dept. 9M, Boston, U. S. A.

and she would have questioned him further but that he ended the interview by walking away in search of Stuart. He found the young man strolling listlessly about the grounds attended by all his canine pets. There was no doubt as to the sincerity of the pleasure on Stuart's face when he saw his cousin; but Sir Douglas was quick to notice the worn look and the gloom that almost immediately settled again on his features.

house; but before they entered Sir Douglas started out his hand. "Heaven bless you, lady," he said tenderly. "We may never meet again, Margery, but you have all the happiness and sunshine in your life that a man such as you ought to expect! Remember your promise."

NO LAND TOO HOT OR TOO COLD FOR MAN.

Man inhabits about every part of the earth except a few island groups in the interior of continents and immediate vicinity of the poles. It is from dread of cold that man has sought a temporary resting place in some of those far distant spots. He has not sought the heat or cold of any of the unexplored regions of the globe, but a greater range of temperatures has been reached in the regions now inhabited.

A TERRIBLE RECORD OF CHILDREN'S DEATHS

As every mother knows the death rate of little ones in Canada during the hot summer months far exceeds that of any other season of the year.

COME WITH ME.

The low world put its hand upon the vulgar mass called work, and pass sentence. But come with me and look within, and see the aspirations like tiny ladders on the wheel of capillary attraction.

THE HOUSE BEAUTIFUL.

A black house, a naked moor. A silvering pool before the door. A garden of flowers and fruit. And poplars at the garden foot. Bleak without and bare within.

A Succession Horseman

Never allows his horse to suffer pain. He always uses Nervine, which is noted for curing stiffness, rheumatism, swellings and strains.

DICKENS AND DORA.

Interesting Relics Which Were Recently Offered for Sale at Auction. A Greek codex of the four Gospels, laboriously indited 1,000 years ago, and a fan scarcely a quarter of a century old, inscribed with historic signatures, make a strange company, yet auction juxtaposes these curious antiques, and on July 27, at Sotheby's, there were offered, along with the true account of the relation between Dickens and Dora, venerable illuminated manuscripts and flippantry letters by Wilde and Whistler.

The Dickens letters, privately printed for the Boston Bibliophile Society, prove the labors of Mr. Stonehouse and Professor Baker in elucidating the love story of the novelist and Miss Peckham. The first set of letters, written in 1833, show the dramatic intenseness of an attachment doomed to disappointment. Over 20 years afterward Dickens reopened the correspondence.

The Hon. Geo. P. Graham believes that the people of Athens should be encouraged in their endeavor to make the Labor Day celebration this year a big success, and as an evidence of his belief sent to the executive committee his cheque for \$25. It will sure be a great celebration and the athletes and horsemen are now carefully studying the programme of events.

Mrs. J. C. Eaton entertained on Thursday evening in honor of her guests, Mr. and Mrs. McKee, the beauty of the lawn was enhanced with flag and lantern decorations, while the house was tastily trimmed with maple leaves, ribbon and flags, among which appeared the stars and stripes. After a few hours of unalloyed pleasure, the guests dispersed after wishing Mr. and Mrs. McKee many happy returns to Canada and a safe journey to New York town.

On Saturday last a claim for wages came up for adjudication before Justices of the Peace M. B. Holmes, W. G. Towrie and John Mackie. The defendant claimed that only a home and maintenance were to be given to the plaintiff for his services, but the magistrates allowed the whole claim of \$40 and gave costs against the defendant, amounting to \$7.00. An appeal may be entered. Neither party was represented by counsel.

Last week Mr. W. B. Percival purchased the brick residence on Victoria street belonging to the D. Fisher estate together with the buildings lately known as the Athens Carriage Works. By this purchase Mr. Percival secures one of the best homes in the village and also abundance of room for the storage and display of his musical instruments and dairy machinery.

The outing enjoyed by Trinity Church S.S., Oak Leaf, at Webster's Bay on Saturday was delightful. A large number of the adult members as well as the children were on hand. Sports were indulged in and all became, for the time being, children again. The usual excellent lunches were provided by the ladies. Mr. E. J. Green's trim launch, "The Lotus," contributed much to the pleasure of the occasion. The last Saturday in August is the date allotted by common consent to this annual function of the S.S.

Instructions have been sent out by the Attorney-General's department to Police Magistrates throughout the Province, calling attention to the Dominion and Provincial laws of the continuance of the public using railway tracks for pedestrian traffic, and directing that all cases brought before them be summarily dealt with.

A CORONATION SCENE

The night spectacular performance at the Ottawa exhibition will be the most magnificent pyrotechnic display ever attempted in the Capital. Arrangements have been made with the Hand Company, of Hamilton, for a reproduction of the grand naval review as seen at the Coronation of King George V. All the splendor of the great function will be portrayed. Following this a fireworks display showing a host of new creations will be made.

FOOD - FOR THOUGHT

Who pays the enormous expense of those show-rooms in our towns and cities? Is it not the people who buy pianos there?

Why buy from them when you can get just as good, and in many cases better, from me, delivered Free from the factory to your door? This is one of the reasons I can sell you a piano for less money than you pay at any show-room.

All kinds of instruments taken in exchange. We defy competition for the money in all grades. Get my prices before purchasing, for they are certainly very low for strictly high grade pianos.

Also agent for Raymond, New Williams, and New Home Sewing Machines.
