

VOTE FOR WARDROPE AND McCLEMONT

EDWARD'S VISIT TO CZAR OF RUSSIA

Causing Great Interest in Russia.

Hard Test For King's Statesmanship.

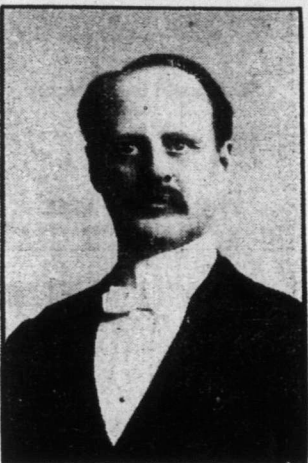

Will Have Long Talk With the Emperor.

St. Petersburg, June 6.—The effects of King Edward's forthcoming visit to Russia are being keenly canvassed in political circles here principally with regard to its relation to Germany, against which the broad trend of the King's recent policies is supposed to run.

Serious politicians are of the opinion that King Edward's statesmanship has now to face the hard test, the initiating of more intimate relations with Russia, on whose soil he will be the first English King to set foot. The task, however, will be facilitated by the political necessities, and mutual advantages will be equally appreciated by both sides.

Public opinion here is ready to meet England more than half way. All political parties, except the Extreme Reactionaries, look upon an Anglo-Russian accord as natural to the completion of the chain of Franco-Russian and Anglo-French ties.

Matters to be discussed at the meeting by King Edward and Emperor Nicholas will take a wide range and particular attention will be given to questions relating to Morocco and Macedonia, regarding which the need of a common Anglo-Russian-French policy is especially felt.

W. H. WARDROPE, The Man for West Hamilton.

DID NOT MARRY SECOND TIME.

IT WAS SIMPLY A CASE OF "SCOTCH MARRIAGE."

Charge Against Thomas Kirkpatrick, Who Pleaded Guilty of Bigamy, Was Dismissed.

Although Thomas Kirkpatrick pleaded guilty to a charge of bigamy when in the Toronto Police Court last week, the Crown has decided that the prisoner is innocent of the offence. The woman in the case, who is commonly known as Minnie Hays, declared that they had never been married. She knew that Kirkpatrick had a wife in Hamilton, who left him because he would not turn Roman Catholic, and Mrs. Kirkpatrick, No. 1 had also married again. After hearing the woman's statement, the Crown decided to investigate the matter, and Mr. Corley made his report yesterday.

"I believe that the woman is right," he said. "We can find no record of any ceremony having taken place, so I have come to the conclusion that perhaps it was just a Scotch marriage." The case was dismissed.

STEAMER ON ROCK.

City of Montreal's Passengers Had Thrilling Time.

Morrisburg, Ont., June 5.—A party of about 20 tourists reached Morrisburg to-day after a thrilling experience and a long delay on the St. Lawrence. They were passengers on the steamer City of Montreal, which stranded at noon on Thursday, 14 miles below here, and which is likely to remain there for about a week. The steamer was carrying over 600 tons of freight, and this heavy cargo is all that prevented her from turning turtle. The steering cable snapped and the boat swung towards the New York shore.

The tourists were at dinner, when the steamer broad-sided to the twenty-mile current and bumped into the rocks. Passengers, tables, chairs and dishes were hurled pell-mell over the floor, and some of the former were badly shaken. The piano tilted, the freight in the hold slid about, and pandemonium reigned until the ship stuck fast. The prow was about 50 feet from the shore, but a salt tar twenty times across the Atlantic, declared it a miracle that there was not an upset.

Capt. R. Chesmit, of St. Catharines, who is relieving Capt. Lefebvre, and Purser Purtil were put ashore and after an afternoon's absence arrived to transfer the passengers to Morrisburg via steam launch, and from there by rail. The only Toronto passengers were Mrs. J. V. Patton, 295 Beattie street, and Mr. and Mrs. H. S. Peel, of Parkdale.

In the party were the Berlin News-Record Belles, 15 young ladies, in charge of R. E. Curtis and Editor Solon Lutz. They were on their way from Montreal as the News-Record's guests. They are a tired lot, as there was no sleep last night. The boat sprang a leak and the pumps were kept busy all night. The damage to the boat is estimated at \$25,000. The wrecking boats are now at work unloading her freight.

WANT OF CONFIDENCE

Count Bought Them and Anna Gould Won't Pay.

Paris, June 6.—Counsel for Madame Anna Gould has applied to the civil tribunal to grant her a delay in the payment of \$24,000 to Madame Nemoiff, a singer, for a necklace purchased by her former husband, Count Boni de Castellane, pointing out that her income now is only \$8,000 per month, and that it would be impossible to pay such a large sum immediately. The court consented to the payment of \$6,000 each three months to the singer.

INTERNATIONAL LODGE.

At the meeting of International Lodge, I. O. G. T., held in the C. O. F. hall last evening, two candidates were initiated and one proposition for membership was received. The Pledge Committee recommended that the annual outing of the lodge be held at Lyle's Hollow, Hamilton Beach, on Saturday, July 4. After an informal discussion the recommendation of the committee was unanimously adopted. Next Friday evening every member of the lodge will have an opportunity of displaying his or her musical or elocutionary ability, or failing to respond to the call of the chair will have to help swell the funds of the order.

A Handy Way

To make lemonade is to use Parke's Lemonade Powder, no trouble to make and it is a pure delicious lemonade when made. You can have a glass of lemonade any time. It is a great favorite wherever it has been used. Try a package at 15c. it will make 20 glasses of lemonade. Parke & Parke, Druggists.

STUNG AGAIN.

AFTER THE POLE.

Perry and Bartlett to Start With Newfoundland Crew.

St. John's, Nfld., June 6.—Happy in the hope of a successful dash for the North Pole with Commander Robert E. Perry, Captain Bartlett, sailing master of the Arctic explorer, and a crew of eleven sailors, departed to-day on the Allan line steamer Siberian for New York, where they make their start for the north on Perry's ship Roosevelt.

The sailors have been selected with regard to their adaptability to Arctic exploration, and are practically the pick of Newfoundland's seamen. Capt. Bartlett asserts that if the Roosevelt is fortunate enough to gain the position made during the last attempt to reach the Pole, the experience acquired in that voyage, combined with the aid of the specially selected crew, will make this effort to reach the desired goal an easy task.

TAFT AND GOLF.

He Won't be Able to Attend the Toronto Tournament.

New York, June 6.—A special to the Times from Washington says: "Secretary Taft generally spends his summers at Murray Bay, Canada, golfing, and the newspapers have exploited his skill. To-day Henry L. West, Commissioner of the District of Columbia, who is an enthusiastic golfer, went to the War Department in behalf of the American Golf Association, of advertising interests, to extend an invitation to Taft to attend the tournament at Toronto, July 6 to 11. "Just now," replied the Secretary, "there are several reasons why we all can't agree to go. In the first place, if I should go and all the fine prizes you tell about should be offered, it would be a shame for an American guest of the association to carry them off. In the second place, if I'm able to negotiate certain arrangements at Chicago which I now expect to handle satisfactorily, I'll have no time to play golf this year. In the third place, if I don't make those little arrangements at Chicago, my fellows won't want me at your tournament anyhow."

DECORATION AT BATTLEFIELD.

The veterans have made all arrangements for decorating the Stoney Creek battlefield where the British soldiers were interred who fell in the war of 1812. It will take place to-morrow, June 7th. Rev. Canon Bull will officiate. Car will leave Terminal Station at 2.10 p. m., and the Stoney Creek branch of the Wentworth Historical Society, school children of a Stoney Creek and Fruitland will meet the veterans on the battlefield. All veterans are cordially invited.

Saturday's Special—From 12 Noon to 8.00 p. m. in Toronto.

By taking the palace steamer Turbina leaving Hamilton every Saturday at 10 a. m., you will have eight hours in Toronto; or return from Toronto 5.30 p. m., at your pleasure. Only 50c. return.

THE MAN IN OVERALLS

Vote for Wardrope.

Vote for McClemont.

Loan your rig for Monday.

Vote early and get the others out early.

Take a day off, if you can, and help our candidates.

The man caught buying votes will go to jail.

I thought the hotel men were not to be assessed, Mr. Scott.

This is Mr. Hendrie's finish.

Mr. Scott thinks this is a buy-election. But it isn't.

The only way to get rid of Whitney is to vote the Liberal ticket.

If you have a horse and buggy or wagon, come around with them on Monday morning and help get out the vote.

The church people have not forgotten that insult, Mr. Scott.

Oh! Peter Bertram, how could you?

The Spectator calling Mr. McClemont names is not making any votes for Scott.

Never mind the roorbachs. Vote for Wardrope and McClemont.

Make it blue Monday for the Tories.

Mr. Hendrie gave the Toronto people two votes and gives you only one. Toronto can get anything it wants. Hamilton gets nothing.

If any man tries to bribe you on Monday, lodge a complaint against him and have him punished.

Those two hotel men who were canvassing in East Hamilton yesterday may know what is best for them, but I don't think it.

The only way to get rid of Whitney is to vote the Liberal ticket.

Pay no attention to Peter Bertram. He'll be sorry he spoke next week.

Remember that Hendrie's railway bill is not worth the paper it is printed on.

Dan Reed will be elected in South Wentworth sure thing, if the Liberals get out and work and vote for him. But they've got to do it.

Very likely some lies will be published to-night or Monday morning about Wardrope and McClemont. Take no stock in them. They will lie anyway.

Don't forget that Whitney has been doing his best to keep immigrants from going to the Northwest, and has been steering them into this Province.

The Canadian Manufacturers' Association (Tory) has also been dumping mechanics into Hamilton, so as to keep down wages. John Milne hasn't denied it.

If you know any one who has to be sent for to vote, let it be known at the proper quarter.

Scott can't be elected. That's settled.

Don't throw away your vote on Studholme. The only way to get the Liberals back into office is to vote for Liberals.

The Tories will spend any amount of money to elect their men. They will be watched, and, if caught, will be severely punished.

Vote early and help the others to vote.

Then come around at night to the Times office and help cheer over the big victory.

A TRAITOR.

The man who sells his vote is not a man. He is a politician—a traitor to his country. When he sells his vote he sells his birthright for a mess of pottage. He is selling for filthy lucre what cost him and your forefathers their very life blood. The right to vote, which he esteems so lightly that he will part with it for a dollar or two, was secured to him only after long years of agitation, struggle and sacrifice. It was the culmination of a century of conflict between the masses and the classes, and the boon was worth all the strife. On election day at least the poorest man is the equal of the millionaire. With his ballot in his hand his influence is as great, for weal or woe, as that of the highest of the land. His ballot counts just as much as does the others. Jack is as good as his master. Need I add that the man who buys a vote is as contemptible, if not more so, than the man who sells one? No Liberal at least can stoop to such a deal without striking a deadly blow at the principles of his party—the party which secured the ballot for all. Be a man and act according to your convictions on Monday. Treat any attempt at bribery as an insult, and, if possible, bring the would-be briber to justice. We must have a clean election.

LAW-M'ILLAN.

Former Hamilton Young Man Married in Manitoba.

The home of Mr. and Mrs. C. E. Fingland, 127 Clarke street, Fort Rouge, Manitoba, was the scene of a quiet wedding on Tuesday evening last, when David W. Law and Miss Emma Marjorie McMillan, a niece of Mr. and Mrs. Fingland, were united in marriage by Rev. Dr. Wilson.

Miss Agnes Armstrong acted as bridesmaid, whilst Mr. Taylor assisted the groom. The bride was given away by her uncle, Mr. John McMillan, of Moose Jaw.

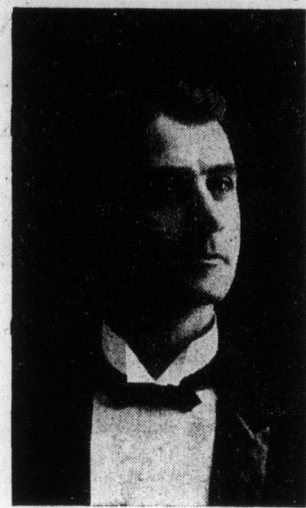

After the ceremony the guests to the number of fifteen sat down to a sumptuous repast. The esteem in which the married couple were held was evidenced by the number and value of the presents received, and by the presence of a number of old friends from distant points.

Mr. Law is a son of Mr. R. Law, 46 St. Matthew's avenue, this city. He has met with good success in the west.

No Doubt

You want to be posted as to the pineapple market. If you haven't already ordered your supply for preserving, do it now. Prices are steadily advancing. We have an abundant supply of large ripe ones. Also all sizes of fruit jars at rock-bottom prices. Place your order early for spring chickens for Saturday—quantity limited.—Bain & Adams, 89, 91 King street east.

ENGLISH MONEY IS AFRAID OF WHITNEY.

W. M. McCLEMONT, The Man for East Hamilton.

NO MONUMENT ON CANADIAN SOIL

TO SOLDIERS WHO WERE ATTACKING THIS COUNTRY.

Wentworth Historical Society Places Itself on Record—Annual Meeting Held Last Evening.

The Wentworth Historical Society held its 19th annual meeting last evening in the parlour of the Y. M. C. A. The Secretary-Treasurer first read his report, in which he said the past year, though not marked by public effort or effect, was nevertheless one of fairly effectual work. A request from the Toronto societies that the local society join in protesting against the abolition of the old fort there, was granted, and the protest forwarded. On Feb. 17, 1908, a branch of the Wentworth Historical Society was founded at Stoney Creek, with E. D. Smith, M. P., and W. A. Corman, Honorary President and President respectively, and Rev. W. G. Davis, Secretary. The President, on behalf of the society, backed by the Veterans' Association, signed a petition to the Minister of Militia for the erection of a monument on the Stoney Creek battlefield. A reply was received from the Minister stating that a sum would be voted for that purpose. Affiliation was brought about with the Historical Landmarks Association. A prize of \$50 is to be given for the best essay on Quebec, composed by any of the pupils of the Wentworth county schools. The society did not receive the usual grant from the Ontario Government this year, but it was explained that it had been overlooked, and they would receive a double amount next year. The receipts were \$249.06; expenses \$161.15; balance \$87.91.

The reports from the Stoney Creek branch were then read. The receipts were \$18.50, expenses \$16.03, balance \$2.47. The branch has 74 members and is getting along splendidly. The following officers were elected: Rev. George A. Bull, Honorary President; Justus A. Griffin, President; S. F. Lazier, K. C., First Vice-President; H. H. Robertson, Second Vice-President; The President of the Ladies' Committee, Third Vice-President; J. H. Land, Secretary-Treasurer; Mrs. R. G. Sutherland, Corresponding Secretary.

Charles Lemon, J. H. Smith, J. A. Barr, Lieut.-Col. A. H. Moore, R. T. Steele, D. Martin, John Gardiner, Major J. E. Orr, E. D. Smith, M. P., W. E. Corman, and Lieut.-Col. Van Wagner, Executive Committee.

A resolution that met with the support of all was the following: "That whereas we have learned from the public press that a bill has been introduced into the House of Representatives at Washington providing for the erection of a monument at Fort Erie, in memory of the United States soldiers who fell there, resolved, that we enjoin a protest against the erection of any monument on Canadian soil, by any foreign Government, in memory of men who fell while attacking our country."

A resolution of regret upon the death of the late Mrs. J. Rose Holden was passed. A hearty vote of thanks was tendered the Y. M. C. A. for the use of their parlour.

Moonlight Sail to Toronto and Return, Saturday 5.30 p. m. Only 35c.

Steamer Turbina will leave Hamilton Saturday at 5.30 p. m., with a grand moonlight excursion to Toronto, returning arrive in Hamilton 10.30 p. m. Come along and enjoy yourself on this large, palatial steamship. Special rate 35c return.

SAFETY DEPOSIT BOXES To rent at \$5 a year and upwards, for the storing of deeds, bonds, stocks, wills, silver and other valuables. TRADERS BANK OF CANADA. Genuine Health Pipes.

Alsorbo pipes are the cleanest and healthiest pipes to smoke. They absorb the nicotine and smoke cool and dry. The health pipes are sold for 10 cents at peace's pipe store, 107 King street east.

Why H. & W. Road Is Not Building.

Fine Address by Wardrope in 3 Ward.

Large Crowd Heard Mr. McClemont in No. 7.

W. H. Wardrope, Liberal candidate in West Hamilton, fired the last shot of his campaign in ward three last night at an open air meeting on Locke street south, when he addressed an enthusiastic gathering and was given a cordial reception. It was a strong note the candidate struck when he dealt with the way the Whitney Government had shaken the faith of outside capital in Canada when it took the owner of the O'Brien mine by the throat and shook twenty-five per cent. of the earnings of the mine out of him. Emphasizing the far reaching effect of an act of this kind in scaring off capitalists, Mr. Wardrope referred to the case of John Patterson, who has just returned from the old country, where he had been trying to finance the building of the Hamilton, Waterloo & Guelph Railway. "What did these capitalists say to him?" asked the speaker. "They said, 'We understand that after the Ontario Government grants patents they are in the habit of taking the owners by the throat and shaking out of them what don't belong to the Government. In the meantime we will not grant you any money, but we will look into it.'"

With his characteristic vigor, Mr. Wardrope flayed the Government for its inconsistency, and its failure to show that a single dollar had been spent during Liberal rule, although Whitney and his followers, then in opposition, had promised to make startling revelations when they got control. The La Rose deal, the C. N. R. guarantee, the prison labor contracts, the Normal College steal and other matters were touched upon. Regarding the gerrymander which gives every man in Toronto two votes, Mr. Wardrope asked the electors if Whitney was giving the native born Canadians a square deal or looking after their interests when he gave foreigners in Toronto two votes, as compared with one any other part of the country.

Mr. Hendrie was an estimable gentleman, but Mr. Wardrope declared that Colonel Hendrie had not looked after the interests of Hamilton in allowing the Normal College to go.

William M. Findlay, chairman of the meeting, spoke of his anxiety for the Government for its failure to lift the liquor license administration out of politics.

P. Griffin, another speaker, referred to the local situation regarding the license administration, when one of the commissioners, a local politician, stepped out to make room for one more in harmony with the party. Col. Hendrie at his meeting had stated that the Government could not do to the expense of \$7,000 to create the office of Minister of Labor. He had said that it was not practical to do so. Surely the labor people would resent any such statement from any public man.

During the meeting some of the prison made goods were displayed.

Crowded McClemont Meeting. About two hundred people crammed the tent at Barton and Wentworth streets where W. M. McClemont spoke last evening and the Prison Labor Contract got another awful bump. The Tory three-cents-an-hour prison labor made goods were shown to the crowd and the candidate explained to just what extent this prison contract business was hurting the workmen. With a Minister of Labor this sort of robbery would not be stood for one week and a Minister of Labor was what Mr. McClemont promised the crowd he would fight for.

Cheers greeted this promise and when ever the name of Whitney was mentioned there were loud jeers and groans from the crowd. Like Thursday night's meeting, last night's meeting was composed nearly wholly of working men. That prison labor is unpopular, was clearly shown by the spirit in which the crowd greeted the production of some of the goods made in prison under the Whitney regime. Reference to the latest scheme of the Tories in trying to buy the two ridings of Hamilton showed that the crowd was dead against such dirty tactics and was with Mr. McClemont when he appealed to his opponent in east Hamilton for a clean election. This appeal Scott had not deigned to answer and the crowd was left to draw its own conclusions. The school book gag, that much denied promise of free school-books, was also laughed at. Mr. McClemont reiterated that part of Whitney's speech when he said two Grigs would get as much for Hamilton as two Tories.

A point discussed by Mr. P. Griffin, who also spoke, was the view the local senior Tory organ took of the Minister of Labor scheme. This organ said that a Minister of Labor would cost the province \$7,000 and that the work of this man would cost another \$7,000, and they did not consider at all the fact that 75 per cent. of the voters are working men. The idea of a Minister of Labor was first brought up by Mr. McClemont and to him belongs the honor of first insisting on the rights of the working man despite the way the Tories blockade anything that their party is not in favor of. James Chisholm brought the meeting to a close with an able appeal to the voters to work for Mr. McClemont, the

W. M. MCLEMMONT FOR EAST HAMILTON.
R. A. THOMPSON FOR NORTH WENTWORTH.
DANIEL REED FOR SOUTH WENTWORTH.

THE HAMILTON TIMES

SATURDAY, JUNE 6, 1908.

A LAST WORD.

There is an end of argument and persuasion, and the electors—those who sought to become informed on the issues of the election have not lacked opportunity—will be called upon on Monday to give their verdict at the ballot box.

To the honest elector, however, who seeks only the good of his Province, and wishes to make his vote count in securing it, the path of duty is clear. Two results are to be contemplated. The public may condone the villainy of the Ontario Administration of over three years and invite still greater taxation, squandering of the people's money, and prostitution of the power of Government, by voting to send its supporters, or they may declare for honest government, wise economy, and respect for the rights of the people, by voting to return two Liberal representatives from the city.

Let no elector, especially no Liberal elector or labor man, make the mistake of weakening the cause he advocates by throwing away his vote on third candidates. In East Hamilton, where many of the Conservative electors absolutely refuse to swallow Scott, the machine is in hopes that a diversion of some of the objectors to a third candidate may furnish the only long chance of allowing its man to slip in.

As the contest closes there are boasts that the Liberals will not be allowed to succeed if the expenditure of money can prevent it. It is quite possible that, in their desperation, the machine managers may resort to attempts at corruption. That an ample reptile fund has been accumulated out of the extra \$2,500,000 a year that Whitney has added to the Provincial expenditure, we have no doubt, and that the machine is capable of using it, the public well knows. It will be the duty of Liberals and the public generally to co-operate to prevent the success of such tactics.

The work on Monday is to get out the vote. If the Liberals devote themselves diligently to that work, the election of Messrs. Wardrope and McLemont will not be in doubt.

MONDAY'S BALLOTS.

The battle of the ballots will be waged on Monday, and the Times awaits with confidence the result of the fight. The belief is almost positive throughout the Province that if the Liberals are not returned to power, the Whitney majority will be cut down more than half. Hon. Mr. MacKay, who has been over the field himself, predicts that fifty per cent. of the Liberal candidates will be successful, this despite the fact that Whitney has gerrymandered the Province and "queered" to the best of his ability New Ontario. Whitney will lose three or four seats in Toronto; Beck is in great peril up in London, and most of those rural constituencies that turned over to Whitney at last election will go back to the Liberal column.

In Hamilton the prospects are bright for the election of both Messrs. Wardrope and McLemont. Since their nomination they have shown by their speeches that they are able men and good speakers, capable of representing this city as it should be in the legislative halls. They are both men without a smirch upon their private or public character, and men of all political creeds admit that they are in every way worthy of support. Mr. Hendrie is handicapped by the fact that he has allowed himself to become a mere tail to the Whitney kite, doing whatever he is asked to do by his masters. His failure to help the city in time of need is evidence that he is not fitted for the position he seeks. Of Mr. Scott, little need be said. Nobody out side of the Tory machine has a good word for him.

Mr. Studholme has a certain following among the working classes. We have nothing to say against him as a Labor

man. We believe in much that he advocates and believe he is earnest in his advocacy of them. But we also believe that Labor can be better served by Mr. McLemont than by him. Electing Mr. Studholme will not help one iota in driving Whitney from power, which is the duty of every Liberal voter. Mr. Studholme is a Labor man, but he is also a Tory, always was a Tory, and is by instinct and training opposed to Liberals and Liberalism. A vote for him means a vote for Whitney.

Liberals should see to it on Monday that they vote early, and those of them who can should help to bring out the others to the pole. Every vote is needed and every vote should be polled. This applies to the county as well as to the city. The Tories feel that they have got the worst of it in the campaign, their men making a poor showing against our candidates. There is a feeling that they may try to win the day by unfair means. Any attempt on their part to use money unlawfully will be carefully watched. We want a clean election.

HAS NO USE FOR WORKINGMEN.

Whitney has made it abundantly clear that he has no sympathy with the idea of having a Minister of Labor in his Cabinet. He has no patience with such a proposal, and its quite tired of the "butting in" of the working classes. His speakers and organs treat MacKay's advocacy of a Minister of Labor and Colonization with contempt. He has had ample time to consider the question, and he gives it his hostility. In 1904 the Liberals formally declared for the creation of a Department of Labor, with a Minister at its head. Unfortunately for the Province, and especially for the interests of Labor, the Liberals were defeated and Whitney was placed in power.

Did he take the matter up? Not he! Nearly four years have been allowed to elapse and no move has been made toward carrying out the policy declared for. The interests of Labor have been absolutely neglected, and when MacKay presses for the appointment of a Minister of Labor and Colonization, he is greeted with jeers by the Government speakers, and the very men who put Scott and Hendrie forward to solicit their votes ridicule the proposal that the workingmen should be represented in the Cabinet. Meanwhile Whitney attacks the Dominion Government because it absolutely refuses to promote the immigration of mechanics and workmen to our cities to overcrowd the labor market, and complains that it sends the newcomers through to the Northwest, and does not give Ontario her share of the immigration, and the records of the Whitney administration show that in his eagerness to remedy this alleged grievance against the Dominion Government, he has increased the expenditure on immigration and colonization by 161 per cent. The workmen of the Ontario cities will not thank the Premier for this spending their taxes to bring in competing labor to lessen their earnings. If we had the Department of Colonization and Labor, as advocated by Mr. MacKay, the workmen in charge would be able to regulate the matter so as to prevent this oversupply of labor at times when it becomes a serious disadvantage to the Province.

Why should Whitney oppose and ridicule a proposition of that kind? Much sickness was caused and many valuable lives were lost last year owing to neglect of sanitation in the northern mining region. Men lived in defiant disregard of the simplest precautions for the preservation of health. Take Cobalt, for example; there the people conducted a flirtation with death, and that the Provincial health authorities shut their eyes to the conditions prevailing is something that seems to require explanation. Will it be better this year? Will the harvest of death be greater or less? Will Whitney's Government still neglect its duty?

WAKE UP, WHITNEY?

The June Canadian Magazine contains an article on Cobalt by Frederic Robson. The author writes from personal experience, and his article is illustrated by reproductions from photographs. We quote: "As a municipality, Cobalt is a failure. As it stands to-day there are no real streets. Garbage is thrown into the back yards; cows and pigs feed on the refuse lying along the main street. There is no local water to drink. Nearly every drop consumed is brought from Montreal and sold at 50c a gallon. Fuel sells at exorbitant prices. Rents, even of shacks, run from \$50 to \$60 a month. There is no drainage, few sidewalks, scarcely any fire protection of an adequate sort."

Is such a condition of affairs one that the Provincial Board of Health should view with equanimity? Does not Cobalt yield in product to the miners, and in revenue to the Provincial treasury, sufficient to warrant the Whitney Government in taking such action as may be necessary to prevent it from becoming a distributing point for typhoid and other diseases?

Whitney's school book fraud should deceive nobody. Neither Crothers' performance at Welland (since apologized for), nor Scott's unwarranted and indefinite hints to fool the Hamilton workingmen nor mean anything. Whitney would not even give them qualified approval. The Government's performance in the school book matter is one of which not even the ironclad party man pretends to be proud. The school book price reduction is but the "under cost sale" of the rag end of a dead stock, as Commissioner Cooper has warned the people. The new books will cost, when issued, as much, if not more, than the old.

EDITORIAL NOTES.

The Tory bribers will be well watched.

Help to get the vote out early on Monday.

A vote for Studholme means a vote for a Tory.

Rigs are wanted to bring out the Liberal voters.

Studholme never yet said a good word for the Grits.

Vote for Wardrope if you vote in West Hamilton.

Vote against the men who allowed the Normal College steal.

The "long green" men will be worth the watching to-morrow.

Mark your ballot for McLemont if you vote in East Hamilton.

Scott himself said that he was the most unpopular man in Hamilton.

This is Hendrie's finish, and he feels it. He should have run in Toronto.

The hotel men have been assessed to help elect Scott. That's another kind of barrel.

Isn't it about time that we had that \$2,000,000 worth of Sothman light distribution plans?

Voting for Studholme will never put Whitney out. Studholme is just as Tory as he is Labor.

Even the Tories admit in the West that if the Grits do their duty Hendrie will be left at home.

Why did John Milne's moulders walk the streets all winter? Wasn't it because he wanted to cut their wages?

The Junior Tory organ now makes the awful charge against McLemont that he is too young—only 43 years! Surely that ought to crush him!

Still \$7,388 discount on \$100,000 of 4 per cent. city bonds is a big lot to sacrifice. And we are doing a great deal of this pawnbroker business nowadays.

Any stories told in the papers to-night or on Monday morning about Wardrope and McLemont may be put down as false. Pay no attention to them.

More rows in the Tory camp at Toronto. If the bosses don't make free use of the whip there may be bloodshed among the faithful before Monday night.

How the obstructionists squealed and begged when it was proposed to make them work during the Wednesday recess! But they'll have to come down to it in the end.

All the Tory boasts of confidence in their campaign are like the whistle of the cowardly boy passing the graveyard. Not even the visit of the Cabinet aggregation makes them easy. Then the Provincial Treasurer is brought here, only to prove a frost.

There are whispers that the machine has tapper the bar! and that those in the inner circle know where it is to be found. Considerable circumspection must be used by the men with the hoodie, as not only the bribers, but the bribed, may find themselves behind prison bars.

Some of Scott's machine canvassers say that their one hope is that there may be a few of the Liberal voters drawn off to Studholme, to that extent weakening McLemont. They say that the Junior Tory organ, the Herald, has been assigned the task of helping Scott in that way. Let not the Liberals be fooled by such a trick to help Scott!

The Tories campaigning in the north county are boasting much that in 1904 the Liberals granted to Temiscaming only \$30,000, while last year the Tories granted \$70,000. The case does not look quite the same when it is pointed out that the Government received from mining in 1904 only \$27,000, while, as the result of Ross' policy of development of the north county, the Tories received last year \$1,600,000.

The Toronto Farmers' Sun says that good legal opinion is entirely against Mr. Whitney in his contention that the additional C. N. R. guarantee was necessary to bring the company's terminals in Toronto into the security held by the Province. The Sun is fully warranted in saying this. Not even S. H. Blake, with the best will in the world to help Whitney out, would venture his reputation in disputing it.

The Peterboro' Examiner is rather severe on Hon. Dr. Pyle for his bungling of the Model School matter. According to the Minister of Education's official circular, the Model Schools are to be abolished. According to Whitney's stump declarations, the Model Schools are not to be abolished. It is not unreasonably to think that the Ministers ought to try to reach a modus vivendi so that the student teachers may know where they are at.

The Canadian Courier remarks upon the Toronto News' throwing off the disguise of independence as "the official recognition of Mr. Flavelle's failure" to establish an independent journal in Toronto, and declares that "it is not too much to say that the tone of the paper gradually sank from the clear notes of the muzzoon to his minaret to the

raucous cry of the watercarrier on the street." The Courier thinks the News has proved untrue to its ideal. Well, its descent has been easy.

It hardly needed Hon. G. W. Ross' striking presentation of what his Government did for the University of Toronto to prove the falsehood of Whitney's allegation that he had starved it. No university in the world has such a record of growth and progress as that of Toronto, under the Liberal Government. In 21 years the growth of the students in attendance from 347 to 2,344 and of the teaching staff from 21 to 120 renders argument on the question unnecessary.

Are all those vociferous Bertram protesters really necessary to the understanding of the situation by Liberals? Mr. Bertram simply opposes actively the Liberal nominee, and seeks to draw off votes to a third candidate, thus offering, to the best of his ability, a chance to Scott. That may be Mr. Bertram's aim, but let it go at that! Why so much protesting and explaining? He has a right to help Scott if he so desires, and he is not likely to mislead many by his course.

The Herald in desperately endeavoring to betray the city to the Hydro-electric power monopoly contract actually has the mendacity to allege that there will be no cost of transforming to the city and no loss of power—thats all is included in the commission's estimate of \$17,500! The contract does not say so. The commission does not say so. Nobody who has any knowledge of electricity can be deceived by the monopoly organ's falsehoods, of course; but it aims at deceiving the people who are not electricians, and to do so it scruples at nothing.

OUR EXCHANGES

Don't Forget the Scrutineer. (Toronto Globe.)

Hope all things, believe all things, but do not neglect to put a scrutineer in every polling booth.

Hon. Mr. MacKay. (Toronto News, Tory.)

Mr. MacKay has fought hard. At times his work has been brilliant. The effect must be to strengthen greatly his personal ascendancy with the Liberals of the Province.

Foster's Chance. (Halifax Chronicle.)

Wonder if the charwomen who are waiting for their 50 cents a day offered Mr. Foster a "commission" if he would withdraw his opposition to the country paying them their wages?

What Obstruction is For. (Ottawa Free Press.)

In 1906, a very indiscreet registration clerk, named Bennett, sat at Balsam Bay, on the eastern shores of Lake Winnipeg, to receive applications to be put on the list, and when he finished his labors, he wrote to party friends saying, "Nobody applied but a few Grits, and I didn't put their names on, you bet." Twenty-six Liberal voters were refused registration by this official of the Manitoba Government. There was some stir made in the newspapers, and, after trying to prevent the names being put on at the revision, W. H. Hastings, the Conservative organizer, had to admit that the men were qualified to vote and they were duly enrolled.

HITCHCOCK IN PRISON.

No Bail for Comedian Pending Resumption of Trial.

New York, June 5.—Raymond Hitchcock, the comedian, was committed to the Tombs Prison this afternoon, when his trial on charges preferred by three little girls, which began to-day, was suddenly adjourned until next Monday.

The adjournment came when Hitchcock's counsel conferred privately with Justice Goff immediately after the first juror had been selected. At the conclusion of the conference Justice Goff announced that in view of what the attorney had told him he would adjourn the case, and that in the meantime Hitchcock would be remanded to the Tombs Prison without bail.

HATED TO SPEND THIS 50 CENTS

Which the Canadian Pacific Collected Above the Price of a Dinner.

"The 50 cents I hated most to spend," said the traveling man, "went to the Canadian Pacific railroad. I don't mind paying for things I get, but this particular expenditure couldn't be enclosed for value received." "A number of us got into St. John, N. B., one night just as time to catch the night train for Boston. We got aboard, only to learn that the train can't carry a man. Now, a long night ride without dinner isn't a pleasant prospect, so we besieged the conductor.

"Why don't you start on the Montreal, which puts out just ahead of us?" he said. "It carries a queer and we can pick you up at Fredericton Junction."

"No danger of your passing us," we asked, and he assured us that we couldn't very well, as there was only one track. So we all piled out, after leaving our baggage in our Pullman berths, and bet we was sure a fine scene, we thought, as we did as our nature in the Montreal train. After a quarter we sought the nearest smoking compartment in a sleeping car and prepared to wait in comfort for Fredericton Junction.

"Then along comes a much uniformed official and demands of each of us a half-penny of eating a meal and having a smoke aboard his train. We explained carefully that we belonged on the other train, and had given up the price for Pullman berths, and furthermore that we had been sent aboard this train for the sole purpose of getting out of dinner. Didn't the Canadian Pacific run both trains, we asked.

"But it was no use. We had to pay."

Rastus—Boss, ain't yo' goin' to run fo' no office dis year? Mr. Hiskins—No, Rastus, not this year. Rastus—I'm sorry fo' dat. Cos I certainly does need de money dis year.—Newark Evening Star.

MONDAY, JUNE 8, 1908 SHEA'S Bargain Day

A Stirring Blouse Offering-- 50c, 75c and 29c

20 dozen of them (240 waists), made of mulls, lawns, and a few cambric, embroidery and lace trimmed, long sleeves, 3/4 sleeves, some in Peter Pan style, a grand collection of waists and well worthy of everybody's consideration; real values 50c, 75c and \$1.00, sharp at 8.30 on Monday morning they go on sale for each ... 29c

CENTRAL Y. M. C. A. NOTES.

Gym. Men's Bible class at 10 a. m. Regular Bible class at 3 p. m. Instead of the regular men's meeting a mass meeting will be held in Association Hall at 4:15 addressed by Joseph Gibson, of Ingersoll, subject "Temperance and Moral Reform." Mr. Gibson has the reputation of being one of Canada's strongest advocates on this subject, and should have a large audience to hear him. The chairman of the Methodist Laymen's Association will preside. Robert Symmers will sing. Everybody invited. Arrangements have been made for the Cruise to sail on July 15th. The same route to be followed as that of previous years. On account of increased expenditure it has been found necessary to raise the price of the two weeks' sail to \$17. Parties wishing to go would do well to arrange for their berth early. The first athletic meet of the season will be held at Birtania Park next Wednesday evening. Entries should be in not later than Monday. Moonlight on Thursday, June 25th. Tickets for sale at Nordheimer's.

EAST HAMILTON Y. M. C. A.

Bible class at 3 p. m. Song service at 8:15 on the lawn, weather permitting. Short address by Rev. A. Hamilton, B. A. B. D. Hespeler, Ont. Mr. Hamilton comes well recommended. Solo, Mr. J. Springstead. Everyone welcome. Arrangements are being made to form a Camera Club in connection with the East End Branch. The dark room has been opened. All desiring to join such a club should hand their names to the secretary.

JUNIOR Y. M. C. A. NOTES.

Shady Nook Bible class will leave the building to-morrow at 9:45 sharp. Let all the boys be on hand. The Beach house is undergoing a thorough cleaning, and will be ready for use in a week. All wishing to go should hand their names to Mr. W. J. Robinson as soon as possible. The agricultural club wish to thank their many kind friends for the implements, seeds and bulbs they have donated. The Camera Club will visit the Beach house this afternoon, and help do some cleaning while there. This, of course, much facilitates the subsequent treatment, as the pulp from the sieve is already partly freed from ink and other foreign bodies. One process to which it may be subjected is that of Knopf (German patent 127,820). This inventor treats the pulp from the sieve with soap solution. It is then sieved again and the soap carries most of the remaining pigment, which it has loosened from the fibre, through the sieve. The amount of soap required naturally varies within wide limits—that is, from 3 to 22 per cent. of the weight of the waste paper, according to the character of the paper and the nature and amount of the printing ink present. The pulp on the sieve is rinsed free from the excess of soap with water. Such a process entails loss of finely divided fibre during sieving, and the conversion of the vehicle and filling into a lye or emulsion which will not only escape through the sieve but carry the pigment with it is never complete.

MAKING NEW PAPER FROM OLD.

Used printed paper and paper cuttings have now an important place among the raw materials of paper manufacture. So much is this the case that large establishments exist for sorting purposes only, and many middlemen occupy themselves entirely with paper scraps, printed or otherwise. The chief difficulty in the way of obtaining a usable pulp from printed papers is presented by the printing ink, and means have therefore to be sought of getting rid of this substance. Taking the chief sort of printed paper—that is, old newspapers—we find an inferior paper made of wood pulp, cellulose and fillings. The printing on it may be regarded as the result of the drying of a mixture of finely divided lampblack with an oil vehicle. On examining a printed letter under a high power, the black particles of lampblack and the gray dry residue of the vehicle can often be clearly differentiated. The first step is to tear up and disintegrate the waste paper in the ordinary manner. The resulting pulp is sieved, and it will be found that while the fibre remains on the sieve almost entirely, a fine sieve being, of course, used, a large part of the pigment which has been mechanically loosened from the fibre during the disintegration of the

Drowned From Canoe.

Toronto, June 4.—John W. Bates, aged 29, a son of Mr. Andrew Bates, of the firm of Bates & Dods, and a partner in the firm, was drowned at Sunny-side yesterday while bathing from a canoe. With a companion, the young man was in the canoe, 100 feet from shore. They were jumping in and out of the canoe, and young Bates suddenly sank. It is thought that he was seized with cramps, as the water was only five feet deep.

Method of Vice.

St. Catharines, June 5.—Rev. G. B. Brown, of Beamsville, who it will be remembered, single-handedly raided a raffle last winter, at the Niagara and Hamilton Baptist Association, deplored the fact that Baptists are not as active in the fight against the liquor as they might be. Mr. Brown added that since he had become a member of Niagara and Hamilton Association he found that the Niagara Peninsula is a veritable hotbed of intemperance, gambling and lawlessness, and no man seems to have had the courage to raise his voice against the gambling evil.

The Daily Fashion Hint.

A negligee to be made up in flannel or lawn.

LESSON FOR POLICEMAN.

Case Dismissed Because of His Insolence.

Troubles of McPherson's in Police Court.

Father Keeps the Children For Time Being

One of the hottest jolts ever handed to a police officer by Magistrate Jeffs was given this morning at police court to Constable Hill, who spoke insolently to Dr. Gillrie, while the latter was in the witness stand defending an action against himself for an alleged breach of a city by-law.

On Thursday Constable Hill was on the corner of King and James street, and Dr. Gillrie and his wife were driving east on King street toward the corner. When they reached the corner the doctor turned his horse down James street, but Constable Hill objected. In the witness box the constable swore that the doctor turned on his wrong side and that when he, Hill, spoke to him he was told to mind his own business, and was told that the doctor said he could drive where he pleased. He tried to stop the horse, but he was unable to do so, as the doctor used the whip on the animal. Dr. Gillrie took the stand and said, in starting, that the constable had lied while in the box. "He said I told him I could drive where I wanted to, but that is a lie. I told him I was within my rights in driving where I could," said the doctor.

The defendant also stated that he had not cut the corner, but had driven around as far as possible before making the turn. Chief Smith cross-examined the defendant, and Magistrate Jeffs was on the point of imposing a fine, when Constable Hill walked into the fray. To the magistrate he said: "If I had not got out of the way of a witness that way, I would not have done it. I guess that's what you wanted—a job, eh?" The magistrate immediately turned on the constable with the following rebuke: "I won't allow any constable to speak to a witness that way. If you talk like that in court I will take it that you are not entirely unbiased. The case is dismissed."

The case of George McPherson and his wife, who have been fighting for some time over the custody of their two children, was thrown out this morning. J. L. Connell appeared for the defendant, Mrs. McPherson, in an action to take the children away from her, and served a writ for unstated damages on the husband. The case without hearing a lot of evidence of immorality such as was promised. The case will go to the high courts in several different forms, the suit for slander probably being one of them.

John McLaren, arrested yesterday morning for stealing tools from fellow employees on the building at Jarvis and King streets, was found guilty of stealing from Ed. Poag, H. Noseworthy and P. Philpot, this morning, and remanded for sentence till next week. He put up the old excuse that a stranger gave him the tools and he sold them, but this was not believed.

William Rhodes, Catherine street north, said he was drunk yesterday morning when he took some pineapples and other fruit from a wagon belonging to Joe Galando. He was fined \$5 or 21 days for being drunk.

Kate Sullivan, who gave her address as London, came here from Toronto, said she has a husband doing six months in Simcoe. She was charged with being drunk and disorderly, by Constable Sharp. Kate met the constable last night while in plain clothes. She asked him for money and started to yell till P. C. Reynolds came along and took charge of her. She was given 24 hours to leave the town.

Ray Cooper, for allowing his horses to run at large, was assessed \$5. He did not appear and the evidence was taken in his absence.

Six drunks were fined \$2 each as follows: Margaret Reeves, Woodstock; James Hall, James street; Malcolm Macdonald, no address, James Doxstater, Stoney Creek, Will Harrison, James north, and Robert Glover, Vinemount.

FRENCH-THOMPSON. A Very Pretty Wedding In Town of Caledonia.

Caledonia June 5.—(Special.)—A very pretty wedding took place at the home of Mr. and Mrs. H. Thompson yesterday, when their youngest daughter, Miss Elizabeth, was married to George T. French, of Port Dover. The ceremony was performed by Rev. Mr. Godden. The bride looked charming in white silk and carried bridal roses. She was attended by her sister, Miss Annie, who wore embroidered muslin and also carried roses, while Mr. Robert Wilson supported the groom. Mr. and Mrs. French left amid showers of rice and confetti for Windsor, where they will spend their honeymoon. The presents were costly and numerous.

LEFT \$149,000.

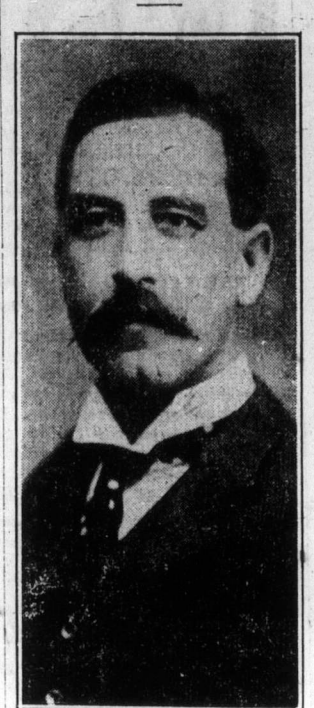

Will of Late Charles Lenz Has Been Probated.

The will of the late Charles Lenz, ship manufacturer, who lost his life at the Beach last fall, has been probated. The estate was valued at \$149,000, made up as follows: Cash, \$11,000; real estate, \$32,000; stock in trade, \$21,000; book debts, \$16,000; life and accident insurance, \$48,000; stocks and bonds, \$21,000.

To the widow, who had a half interest in considerable of the real estate, was left the Charlton avenue home and one-third of the balance. One-third goes to the daughter and two sisters of the deceased are left the Beach house and a sixth of the estate.

Even when a man wants the earth he doesn't want it thrown at him in the form of mud.

THOMAS MARSHALL, Who Succeeds Hon. R. Harcourt as Liberal Candidate in Monck.

Monck, says the Welland Tribune, is to be congratulated on securing a name which is eminently qualified to take up the work of his distinguished predecessor. Personally, Mr. Marshall is a man of prepossessing, commanding presence, widely known and intensely popular throughout the entire riding. Good natured and affable he is a favorite with all who know him. Mr. Marshall is an arts graduate of Toronto University, and was a high school principal before entering on his business career in Dunnville, in which he has been entirely successful. His sterling qualities which have made for him success in the fuller political life upon which he is entering. His broad and liberal views on public matters and his university training fit him to take a foremost place in the new Liberal party of the Province of Ontario.

OBITUARY. Death of Mr. W. J. Diddams—Funerals To-day.

William John Diddams died at the City Hospital yesterday morning after being ill some time with throat trouble. Deceased, who was 37 years of age was born in England and had been in Canada a little over one year. He is survived by a widow. The funeral took place this afternoon at 2:30 o'clock, from A. H. Dodsworth's undertaking rooms to Hamilton Cemetery for interment. Rev. Canon Sutherland conducted the services at the rooms and grave.

The funeral of Miss Eliza Stevenson took place this morning at 9 o'clock from the residence of her brother-in-law, H. Lunt, 62 Kay street north, to Thorold, where interment took place this afternoon. A service was held at St. John's Church at Thorold.

The remains of Mrs. Thomas Mason arrived in the city this afternoon at the Stuart Street Station, at 1:35 o'clock, and were taken to Hamilton Cemetery for interment. Rev. J. C. Sycamore conducted the services.

In Toronto, on May 19, at the family residence, 442 Euclid avenue, Constantine Marguerite Masterson, beloved wife of M. B. E. Ward, passed to the beyond. Besides her husband, six children mourn her loss, Dr. B. F. Ward, Chicago; Dr. J. B. Ward of Chicago (late of Detroit); Dr. W. F. Ward, of New York; Mrs. William Algie, of Alton; Mrs. J. F. Harper, of Hamilton, and Mrs. A. W. Milligan, of Toronto.

A. M. E. ORDERS FOR CAMP. No. 20. This corps, in accordance with its militia order, will proceed to Niagara camp for its annual training June 10th to 20th.

No. 21. Members of this corps not being able to proceed to camp must get leave of absence by Tuesday next, or will be dealt with according to the militia act.

No. 22. This corps will parade in service uniform at the Drill Hall on Tuesday, the 8th, and Friday the 12th, at 7:45 p. m. sharp.

No. 23. The orders respecting camp will be issued on Tuesday next.

No. 24. The quartermaster-sergeant will be at headquarters each evening for the purpose of issuing stores and Oliver equipment.

PARADE FOR INSTRUCTION. Hamilton, June 5, 1908. No. 12. No. 9 company will parade in instruction at headquarters on Monday, 8th inst., at 7:45 p. m., when orders for camp at Niagara will be issued.

T. LAWSON, Captain commanding.

Opening of C. P. R. Toronto-Sudbury Line. The first train on the Canadian Pacific Railway's new line to Sudbury will be the Winnipeg express, leaving Toronto at 9:30 p. m. Sunday, June 14th. Connecting train leaves Hamilton (Hunter street station) at 8:15 p. m. This is the train that will bring Winnipeg within 36 hours of Toronto, a saving of eight hours on the present time. Commencing June 15th, and augmented on June 27th, with an additional noon train to Muskoka, there will be an excellent service of well-equipped trains to Muskoka Lakes, Parry Sound, Georgian Bay, French River and Sudbury. Folders giving complete schedule will be ready for the public in a few days, and may be obtained at all C. P. R. ticket offices.

SANFORD PICNIC. The Sanford Manufacturing Co.'s employees will hold their annual excursion to Niagara Falls and Buffalo on Saturday, June 20th. A special feature this year will be a grand prize drawing, free to every lady holding an excursion ticket. The prizes will be ladies' gold watch, refrigerator and duster.

PROSPECTS ARE THE BEST EVER.

SAME STORY TOLD FROM EVERY SECTION IN ONTARIO.

Local Wholesale Firm Has Received Replies From 100 Places, and All Tell the Same Story. A few days ago, in order to ascertain, at first hand, the business conditions and crop outlook of the country, Messrs. Lucas, Steele & Bristol, of this city, sent out about 300 post cards to all parts of Ontario, asking for information on those two points. Up to this morning they had received exactly 101 replies. In every instance these replies are most encouraging. Business generally is reported good and prospects better. Crop indications everywhere are of the most promising nature. Here are a few of the answers.

Trout Creek—Indications are most favorable; the best we have known in years. Rodney—Prospects very bright; crops will be best in years. North Bay—Prospects for increased business are bright in this district.

Fort William—Trade equal to last year at same time. Expect things will be very brisk as crop prospects are favorable. Welland—This is a very promising looking season. Penetang—Crop prospects never better.

Bridgeburg—Crop prospects greatest in years. Huntsville—Crop prospects in Muskoka were never brighter.

Port Arthur—Business has increased over April and May of last year. Prospects are, if anything, better. Woodstock—In view of good harvest prospects are excellent. Gravenhurst—Crop prospects are the best.

Hillsdale—Crops are fine. Ahead of last season by two or three weeks. Haileybury—Crops and outlook in this district better than fair. And thus they go throughout the whole list from every corner of Ontario.

COUNTY COURT. June Sitting Will Open Next Tuesday.

The June sitting of the County Court will open next Tuesday before Judge Snider. There are twelve jury cases and six non-jury cases on the civil list. There are ten cases on the criminal docket, but it is not likely that six or seven of these will be tried. The other cases are: Crown vs. Randall, cutting and wounding; Crown vs. Ricard, cutting and wounding; Crown vs. Servos, false pretences.

The civil list is as follows: Jurg cases: Smyth vs. Stewart—A. C. Beasley; Nesbitt, Gauld & Dickson. Lavine vs. Ronald—M. Malone; Bruce, Bruce & Counsel. International Harvester Co. vs. Belbeck—Mowat & Co.; J. Y. Murdoch. Frid vs. Whitman—Brewster, Muirhead & Co.; Nesbitt, Gauld & Dickson. Porter vs. International Harvester Co.—T. D. J. Farmer; Pablow & Ogilvie. Underhill vs. Brantford & Hamilton Railway—Biggar & McBrayne; Nesbitt, Gauld & Dickson. Marchant vs. T. H. & B. Railway—Brewster, Muirhead & Co.; Cahill & Soule. Diwel vs. Hamilton Street Railway—Chisholm & Logie; W. L. Ross, the plan of Ontario Co.—Lazier & Lazier; Kerr & Thomson. The Pure Milk Co. vs. Hamilton Street Railway—Stanton & Co.; Gibson, Osborne & Co. Turner vs. Fowlers—Cramer, Crerar & Bell; Robinson & Co. Hoffer vs. Goldberg—Biggar & McBrayne; Kerr & Thomson. Williams vs. Petty—Lees, Hobson & Stephens; Nesbitt, Gauld & Dickson. Turner vs. White—Lees, Hobson & Stephens; D. T. K. McEwen, New Leikard. Sawyer vs. Hutchinson—Martin & Martin; R. Ruddy, Millbrook. Bayne vs. White—Bruce, Bruce & Counsel; Lazier & Lazier. DeKam vs. Brandon—H. D. Petrie; Lee & Farmer.

ART SCHOOL PRIZES. Awards Made This Morning—More Prizes Next Year.

Miss Enid Hendrie, Miss Jessie B. Dixon and Mr. Harold Beckett, this morning received handsome prizes at the Hamilton Art School. Dr. Lyle gave a very appropriate and interesting address, and Mr. Adam Brown presented the prizes which were as follows:—Miss Enid Hendrie, solid silver bon bon dish, which bore the inscription "Norman Ellis Prize given to Miss Enid Hendrie for best Water Color Painting at the Hamilton Art School, June, 1908."

Miss Jessie B. Dixon, a silver fern dish, which bore the inscription, "To Jessie Dixon for the best work in Arts and Crafts, Hamilton Art School, 1908."

Mr. Harold Beckett received \$10.00 cash prize, given by W. D. Long, for best architectural drawing. These prizes were given in addition to those advertised in the school catalogue. Mr. Adam Brown also announced that arrangements had been made for awarding three other prizes for the coming school year, announcements of which will be made later.

One on Hendrie. (Kingston Whig) Supporters of the Government are not always successful in their demands. Col. Hendrie, a member of the Whitney Government, but without portfolio, says he did all he could to prevent the removal of the Normal College from Hamilton to Toronto, and failed. Which showed his lack of influence, says an opponent. Col. Hendrie was unfortunate in a second respect. He was against the contracting of prison labor, and he protested, he said, against Mr. Hanna's deal with his friend Ellen Charlotte Taylor, but it went through. The colonel may have objected, mildly, but had he "kicked over the traces," like some of his horses, something would have been doing.

Where the finest biscuit, cake, hot-breads, crusts or puddings are required ROYAL is indispensable. ROYAL Baking Powder Absolutely Pure. Not only for rich or fine food or for special times or service. Royal is equally valuable in the preparation of plain, substantial, every-day foods, for all occasions. It makes the food more tasty, nutritious and wholesome.

ENGLISH MONEY IS AFRAID OF WHITNEY TO EQUALIZE RAILWAY FARES.

THE PRINCIPLE ADOPTED BY THE METHODIST CONFERENCE. The Methodist Conference continued its work this morning. An address was given by Rev. R. P. Bowles, M. A., B. D., on the "Art of Pulpit Illustration." He held that the value of illustration is the power to stir the imagination and create interest. There are six sources of illustration: The Bible, history, fiction, observation of nature, past life and experiences of the preacher and common and homely events of every-day life. There are dangers to be avoided, such as using obscure illustrations, which do not throw light on the subject. Again there are the distracting illustrations which have a tendency to stir the antagonism of an audience against the speaker. Combined with these are those which are too elaborate and too long.

A few reports from some of the confessional officers were then received. Dr. R. I. Warner, Principal of the Alameda Ladies' College, St. Thomas, gave a short address on the work of the year. The season had been a successful one, and a bright future was predicted. Rev. J. J. Hare, principal of the Ontario Ladies' College, Whitby, gave a short history of his work and the success that had attended it.

Mr. Seneca Jones, on behalf of the committee appointed on the question of equalization of railway rates of the delegates reported that the committee had recommended that the railway expenses be equalized by dividing the total cost of the railway fares among the delegates present.

Dr. Williamson, of this city, objected to the report on the ground that it was not a feasible plan. Mr. Joseph Gibson, Ingersoll, wanted to know if Dr. Williamson was in the land of dreams. He could see no justice in making the man from Warton pay while a man from Hamilton did not have to pay a cent. This was the plan adopted by fraternal societies of equalizing the rates. Mr. Gibson wanted the preacher who was being paid \$3,000 a year to pay his share of the expenses as well as the minister from the small town.

Dr. Williamson was of the opinion that Mr. Gibson was letting his imagination run away from him. There is a large difference between a Methodist conference and a convention of a fraternal society. No resolution of the conference could compel the quarterly board of a church to pay the expenses of the delegates.

An amendment was submitted which carried to the effect that the fares be equalized only, not the whole expenses. A committee on transportation will be appointed to enter upon its duties next year.

R. N. Knowles, Hespeler, introduced the following resolution, which passed by a good majority: Resolved, that the members of the Methodist Conference here assembled, with deep dissatisfaction and regret, view the baneful effect of the use of tobacco, on the young men and boys of our country, and as a committee on transportation will be appointed to enter upon its duties next year.

The regular meeting of the Orkney and Shetland Society will be held in the Forsters' Hall, James street north, on Tuesday evening, at 8 o'clock. A good attendance of members is requested, as there is some important business to discuss.

VISIT OUR WASH GOODS SECTION. WONDERFUL BARGAINS AWAIT YOU.

FINCH BROS. 29 AND 31 KING ST. WEST

KING AND CZAR. Edward and Alexandra Sail—Czar to Meet Them.

Port Victoria, Eng., June 6.—The royal yacht Victoria and Albert, with King Edward, Queen Alexandra, Princess Victoria and a large suite on board, left here at daylight this morning for Revel, Russia, by way of the Kiel Canal. The King's yacht, the Alexandra, will join the party at Brunshluttel, Prussia, and will be at the disposal of the royal party in the Baltic.

St. Petersburg, June 6.—Emperor Nicholas and other members of the imperial family, accompanied by a numerous suite, will leave Peterhof at 4 o'clock to-morrow afternoon for Revel, where he is to meet and welcome King Edward and Queen Alexandra.

The Russian imperial yachts Standard and Polar Star, escorted by the cruiser Almaz and four torpedo-boat destroyers, will arrive at Revel early in the morning of June 8.

THEY ARE LOYAL.

At a meeting of the band of the 91st Highlanders on Wednesday evening, tenders for the new doublets for the band were opened. There were two of them, one from an English firm, through a Toronto dealer, and the other from the Sanford Manufacturing Co. of this city. The Sanford tender was \$2 per doublet higher than the old country offer, but the band unanimously decided in favor of the made-in-Hamilton goods and awarded the contract to the Sanford Company.

THE WORLD OF FASHION

Are long or short skirts fashionable this season? is a question agitating the feminine world of dress at the moment, and apparently it is one of those all important topics for discussion that are doomed never to be authoritatively settled. There has been of late years a great change in the attitude of mind on the subject of women's clothes, and the cast iron rules that prevailed for so long a time and made the choice of a gown such a wearisome task have in almost all instances been abolished. Women have grown much more independent in their choice of styles—that which is practical and becoming wins almost without exception over what is inappropriate and unbecoming but demanded by the latest fashions.

The long skirt is, almost without exception, far more becoming than the short one; the lines are more graceful, adding height and slenderness, and it is possible to get a far better effect for the entire gown, especially if it be on the elaborate order. On the other hand, the short skirt, if well fitted and well hung, has a certain coquetry and style that is very smart and desirable. For any outdoor practical costume the short skirt is always chosen, but the more elaborate costume, suitable, for afternoon reception wear. For the woman who goes about in her own carriage or motor the long skirt is more constantly possible than for the woman who has to depend upon the public conveyance or walking from reception to reception. A long skirt held up is most ungraceful and unbecoming and a far simpler and less expensive short skirt is infinitely smarter.

For the house the long skirt is, invariably to be chosen. The most attractive gown ever turned out if made short will look badly in comparison with the graceful gown made with the long, becoming skirt. After all, does it not go to prove that woman's dress is all the time advancing from the truly artistic point of view and that the suitability of the right style of dress worn at the right time has at last been realized?

Delightfully attractive are the street costumes intended for the summer to be worn at the fashionable watering places, where the most elaborate dress is required in the morning hours, and equally suitable for the afternoon elsewhere. Tussah, pongee, in all the new weaves, and foulard, the latter just making its appearance; silk voile and several new materials classed as novelties are this season made up in the most novel and attractive of gowns. A coral pink is a favorite shade in pongee, and while rather too conspicuous for street wear in the city is most satisfactory everywhere else. Made in rajah or tussah such a gown is most attractive trimmed with bands of heavy lace the exact shade of the material or in a deep cream white. Skirt and waist are made in one, and there is short jacket to correspond, or one of the elaborate three-quarter length coats. If the long coat is chosen braiding is used in preference to lace, although it is thought by many that the lace is less heavy looking and more appropriate to the material and to this season of the year than the braiding, which can be and is used on heavier fabrics.

White waists with colored skirts and coats are no longer thought smart, but are admitted to be indispensable to comfort, so that in extremely warm weather it is quite safe to predict that lace and lingerie waists will be as fashionable as ever. The waist with yoke and sleeves or cuffs of lace or net will, however, be thought far smarter at all times. Shall skirts be plain or trimmed? is another absorbing question, and to be answered in the same manner as is the question of their length. Both are fashionable. There are many effective and becoming styles in the absolutely plain skirts, whose

Paris Fashions for Summer Gowns—Both Long and Short Skirts Are Fashionable This Season

beauty of line is all effective. There are also trimmed skirts which are very smart and equally effective. Braiding and embroidery of all kinds are fashionable, and lace seems destined to endure forever in popular favor. The trimming around the very hem, whether plain band, embroidery, lace or braiding, adds greatly to the elaboration of a skirt, while the horizontal and perpendicular lines of braid, lace or embroidery are often more effective and costly than the material of which the gown is composed. The tunic overskirt furnishes an excellent opportunity to display trimming of any kind, for the favorite fashion is to have the tunic bordered with a pattern outlined in braiding or embroidery. When the braiding of the tunic takes on any Grecian lines the Grecian patterns show to best advantage, but there are many other styles, that are equally popular.

It is interesting to note how the introduction of some light and becoming color will completely transform a costume. The lining and facings of a coat will make a dark, sombre costume noticeably bright and effective, while with an all black coat the linings and facings of a contrasting color transforms it absolutely. This season it is the fashion for the linings of all transparent gowns to be of a different color than the material; a suggestion of ecru, pink or blue through a pale grey or yellow, of mauve through blue, or vice versa, renders a gown that in itself is in no way remarkably sweet, charmingly distinctive.

The most popular and costly of this season's evening gowns is of cloth of gold over which is a gown of yellow net spangled with gold. No ordinary spangled gown can compare with the beauty of this, for the cloth of gold lining emphasizes the note of color. As may readily be imagined, this item of lining adds greatly to the cost, but that counts for naught if the gown be a success.

It is a poor rule that does not work both ways, and a gown of dark voile, inexpensive voile, ton, can be made to look like a most expensive creation if made up over a changeable taffeta in a shading that is effective. The pongee and tussah gowns, it is asserted, are on account of the lining the least expensive, as they can be made up to wear over anything, and there need be no extreme expense or fatigue of choosing a lining that will emphasize the color or transform it if so desired.

All things considered, the dress question resolves itself into the choice of what is appropriate and becoming, and with the apparently limitless field of choice in color and fabric there can be no excuse this season for a woman being "badly turned out," the pet expression for a badly dressed woman.

To Be Souful.

Ah, that is it.
One must sigh.
And must yearn.
A starved soul is the thing.
'Tis well to cultivate socialism.
One may artistically go to pieces.
It's not a bad idea to become unstrung.
Poetry and music provide a plausible excuse.
Emotionalism is, indeed, the successor of the witty pose.
And the great trouble is that it all

For a voile or pongee of tobacco brown. Delft blue velvet is used for cravat, girdle and to outline yoke, while the hat is trimmed with long Delft-blue quills.

INDIGESTION CAN BE CURED.

Dr. Williams' Pink Pills Succeed After Other Remedies Fail.

There are twenty drugs to help your digestion at a time, but there is only one medicine that can positively cure your indigestion for good. To any one with indigestion a half dozen boxes of Dr. Williams' Pink Pills are worth all the purgatives and mixtures in the country. After all these things have failed Dr. Williams' Pink Pills have cured the worst cases of indigestion by going straight to the root of the trouble in the blood.

You can take a purgative to tear through your bowels and make a clean sweep of your food, whether it is digested or not. You can take stomach bitters to create a false appetite—if you don't care what happens after you swallow your meal. You can drug your stomach with tablets and syrups to digest your food for you—if you don't care how soon you run your system altogether. You can do all these things—but don't call it "curing your indigestion." There is only one way to cure indigestion, and that is to give your system so much good, pure, red blood that your stomach and liver will have strength enough to do their natural work in a healthy and vigorous way. That is why Dr. Williams' Pink Pills cure indigestion—they actually make new blood. Here is the proof. Mr. R. McCorkell, St. Thomas, Ont., says: "About a year ago my system became generally wrecked. My stomach was always in a state of nausea. The sight of any kind of food often turned my stomach and I would arise from the table without eating. Doctors advised different medicines which I took without benefit. Finally I became so run down that I had to quit work. For two months I tried to build myself up with the aid of doctors, but as time went on and my condition did not improve I became much discouraged. Then a friend told me he thought Dr. Williams' Pink Pills would help me, and I began their use. In three weeks' time I was so improved that I went back to my work, but I continued using the pills until I had taken twelve boxes, and now my stomach is strong, and I am ready for a good meal three times a day, and life now really seems worth living."

It is because Dr. Williams' Pink Pills make new, red blood that they cure such common ailments as anaemia, with all its headaches and backaches, rheumatism, neuralgia, St. Vitus dance, partial paralysis and the secret ailments from which women and young girls suffer so much. You can get the pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

Vacation Cloths.

One secret there is of comfortable travel, and that is going unhampered. The day of our grandmothers is past. The sensible woman and girl no longer takes all she possesses on her journeyings. Indeed she takes as little as possi-

ble, but that little is a host in itself. Above all, she does not take things she has little chance of using. One handsome evening dress was quite ruined by a woman who tucked it in thinking she might wear it. She did not. And, by the way, crepe de chine is a most satisfactory evening dress to carry, as it does not crush and takes up little room; so does a foulard. Various blouses now do duty for one tailor suit for sojourns

of short duration, or even for an all-summer vacation; for the latter a number of simple little wash and silk frocks, jumpers and various princesses. For economy's sake it is well to remain true to one line of coloring. Last summer one girl always looked smart and, excepting for a few simple evening dresses, she had nothing but two white linen coat suits and the necessary blouses.

Naturally, the amount of clothes to be taken vacationing depends upon the destination. For an all-summer stay at a smart resort one takes all the new and suitable attire one possesses. "Quiet, country board" is another story, and in addition to a plain coat suit or so, plenty of pretty gingham, dimities and the like, will be chosen. For real traveling, with only a day or so passed at any one place, a well-built coat suit of serge is, together with the necessary blouses, desirable. A simple little jumper dress of foulard, and one evening dress, are enough. Some do not even seem to require those. The fair one who can pack a week-end grip properly is not too numerous. Most of us find a suit case at lease necessary, but one woman cut a very creditable appearance with only an ordinary sole leather fitted bag. In it she managed to tuck a black crepe de chine evening dress (by adding a rear flounce with snap buttons she made the drop of her black serge tailor suit serve for an evening petticoat), an extra lingerie blouse and her nightdress. Foreign travel makes about the same demands as domestic, save that most persons require a warm and heavy extra coat, and a steamer rug in which to be tucked up in the deck chair. Some carry heavy underwear, too, and it often is found very comfortable.

On Being Bitter.

Don't.
Again don't.
It doesn't pay.
It has no effect.
That is, not the desired one.
It does not brand the attacked.
It simply and effectively brands the speaker.

And the worst of it is it becomes a nasty habit.

Besides, even if legitimate, it is a task impossible to complete.

One had much better take the time to remove the beam from one's own eye rather than passing a whole life trying to pluck motes from the eyes of other people.

NEW COLORS.

flour and butter. Mix well and cook in double boiler ten minutes. Before removing from stove add one beaten egg, three tablespoonfuls grated horseradish; one-half teaspoon unmixt mustard, a little salt, and pinch of cayenne pepper. If served with hot boiled ham make just before going to table and serve hot.

SUCCESS APHORISMS.

Realize the good within you and get it out.

Don't be a "used-to-be," or "going-to-be," but an "am-now."

Genius is taking infinite pains; not inspiration, but perspiration.

Worry and fret are fatal to integrity of nerve and brain.

What ripens fast does not last; soon ripe, soon rotten.

If you have a mouth, don't ask another to blow for you.

Knowledge advances by steps, not by leaps and bounds.

Be all that you are now; don't worry about past or future.

Take things as they are, and proceed to make them better.

To him that hath shall be given. Everybody has something to begin with.

Never try to cross a bridge until you get right up to it.

He who gains riches through crookedness loses everything else.

Do your best and leave the rest; never mind to-morrow.

The world never neglects the man who can do things—and does them.

Never judge your future possibilities by your past failures.

Optimism is glorified, intrepid, hopeful common sense.

When you are right you can afford to keep your temper.

No one chants the praises of the floundering weak-be.

Prove all things, and hold fast to that which is good.

If you are in a hole, build yourself a ladder and then climb out.

Keep in the sunlight; nothing beautiful grows in darkness.—From the Success Ladder.

To Feather Gese.

Full all the best feathers of fir and then when it comes to the fine fuzzi scald the goose and wrap it up in a cloth for a good fifteen minutes, and then take off the cloth and you can rub the fuzzi right off with the hand.

Cleaning Fluid.

Buy 5 cents' worth of borax and 10 cents' worth of camphor gum. Put them into a large bowl, breaking the camphor gum first into small pieces. Pour over this one quart of boiling water, stirring to dissolve the borax. All the camphor will not dissolve. After it is cool put it into a bottle and cork tightly. When wishing to use it pour a portion into a basin, diluting it with half the quantity of cold water. Wet a black stocking with this and sponge your black goods, pressing afterwards. This will remove all spots and grease and restore the black.

Fasten Rugs to Floor.

If the housekeeper who finds it hard to keep carpets or rugs smooth on the floor will sew a loop on the corners of the carpet and nail a small tack on the floor she will have no more trouble. In that way she will not ruin a nice floor or wear her carpets out in the corners by running tacks through them. Unhook the loops when you want to shake the rugs.

Vegetable Down Pillows.

Thistle and dandelion down mixed with slender strips of fine tissue paper make an excellent filling for sofa pillows. I have the children gather it in salt bags, allowing them a picnic in recompense.

Kill Insects.

Hot alum water is the best insect destroyer known. Put the alum into hot water and let boil until dissolved. Then apply hot with a brush to all cracks and closets. There is no danger of poisoning and it will eradicate the pests.

Pin Hose.

A most serviceable sock or hose supporter can be made from two common safety pins. Use one pin for each sock, fastening the sock to the drawers.

CHILDHOOD DANGERS.

No symptoms that indicates any of the ailments of childhood should be allowed to pass without prompt attention. The little ailment may soon become a serious one, and perhaps a little life passes out. If Baby's Own Tablets are kept in the house minor troubles can be promptly cured and serious ailments thus averted. And the Tablets can be given with equal safety to the new born babe or the well grown child. Mrs. H. Gendron, Martineville, Que., says: "I have used Baby's Own Tablets and have found them in every way satisfactory. I always feel safe when I have them at hand." Sold by medicine dealers or by mail at 25c a box from the Dr. Williams' Medicine Co., Brockville, Ont.

SERIOUS WOMAN.

It takes man to jest.
Was a King's jester ever a woman?
What great comic play has a woman written?

Some look askance at the comic woman actor.

Are there many women who compose comic songs?

No, we doubt a comic woman being a real woman at all.

Yet, why should not woman be privileged to laugh and grow fat?

Why should Mr. Man do all the laughing over stories of the stone age?

Stand before a new stand and see if a woman buys funnyisms from "Fun" or any of the comic publications.

Next she. The poor dear is either waiting for some noble male to tell her the old, old story, or else he has told it and she is more than busy wondering what she will have for his dinner and keeping the baby safe from pins, cramps and other infant ills.

HOUSECLEANING.

Furniture cleaner.—To clean furniture use two tablespoonfuls of ammonia to about a quart of water and apply to furniture, rubbing thoroughly. When perfectly dry saturate a woolen or cotton cloth with the common linseed oil and apply to same. This will brighten your furniture up beautifully. Hardwood may be treated in like manner.

Housecleaning aids.—I always use a small whisk broom to clean my woodwork, such as mouldings, mop boards and wainscoting; it is much easier than a brush. For cleaning corners I use a stick about four inches long, pointed at one end, over which I place a cloth. This is especially useful in cleaning windows and the like. It also saves the fingers.

Housecleaning convenience.—During house cleaning time a handy arrangement is to have a small drawer attached under the top of the step ladder in which you can place a hammer and screw driver, also picture books, tacks and such small articles used at that time, saving many steps climbing up and down the ladder and having things always within reach.

Suit of natural pongee trimmed with black satin. Hat of rose straw with black satin bow and cherries.

Model for a linen dress with vest of Oriental embroidery or Irish lace.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of

Chas. H. Fletcher

The Kind You Have Always Bought

In Use For Over 30 Years.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

flour and butter. Mix well and cook in double boiler ten minutes. Before removing from stove add one beaten egg, three tablespoonfuls grated horseradish; one-half teaspoon unmixt mustard, a little salt, and pinch of cayenne pepper. If served with hot boiled ham make just before going to table and serve hot.

NEW COLORS.

Cerise.
Sulphur.
Fog gray.
Guil gray.
Mist gray.
Ibis pink.
Malachite.
Prawn pink.
Jade green.
Toast brown.
Lotus blue.
Thistle blue.
Spruce green.
Cypress green.
Russian violet.
Sea holly blue.
Ashes of violet.
Sunset purple tints.
Mordore (reddish brown).
Delicate plumbeous blue or naphthalin.
Deep, rich lapis lazuli blue.
Pimpernel (familiar watermelon).
Green.
Sour brown, which isn't as bad as it sounds.
Veronese green, which is really our old friend grasshopper.

Belts and Buckles.

Two inch wide bands of Oriental embroidery, lined with pale satin and with neatly stitched edges, are used for fancy belts, and provided one has the necessary buckle may be made of the band which trimmed the winter hat, after it has been carefully pressed upon the wrong side. A really handsome belt buckle is a good investment, as it may be shifted from one belt to another. Glace kid belts are fashionable in all colors. They are lined with heavy satin and tailor stitched and are finished with what is known as the true gold, silver and jet, which are worn with evening gowns.

SERIOUS WOMAN.

It takes man to jest.
Was a King's jester ever a woman?
What great comic play has a woman written?
Some look askance at the comic woman actor.
Are there many women who compose comic songs?
No, we doubt a comic woman being a real woman at all.
Yet, why should not woman be privileged to laugh and grow fat?
Why should Mr. Man do all the laughing over stories of the stone age?
Stand before a new stand and see if a woman buys funnyisms from "Fun" or any of the comic publications.
Next she. The poor dear is either waiting for some noble male to tell her the old, old story, or else he has told it and she is more than busy wondering what she will have for his dinner and keeping the baby safe from pins, cramps and other infant ills.

HOUSECLEANING.

Furniture cleaner.—To clean furniture use two tablespoonfuls of ammonia to about a quart of water and apply to furniture, rubbing thoroughly. When perfectly dry saturate a woolen or cotton cloth with the common linseed oil and apply to same. This will brighten your furniture up beautifully. Hardwood may be treated in like manner.

Housecleaning aids.—I always use a small whisk broom to clean my woodwork, such as mouldings, mop boards and wainscoting; it is much easier than a brush. For cleaning corners I use a stick about four inches long, pointed at one end, over which I place a cloth. This is especially useful in cleaning windows and the like. It also saves the fingers.

Housecleaning convenience.—During house cleaning time a handy arrangement is to have a small drawer attached under the top of the step ladder in which you can place a hammer and screw driver, also picture books, tacks and such small articles used at that time, saving many steps climbing up and down the ladder and having things always within reach.

SUCCESS APHORISMS.

Realize the good within you and get it out.
Don't be a "used-to-be," or "going-to-be," but an "am-now."
Genius is taking infinite pains; not inspiration, but perspiration.
Worry and fret are fatal to integrity of nerve and brain.
What ripens fast does not last; soon ripe, soon rotten.
If you have a mouth, don't ask another to blow for you.
Knowledge advances by steps, not by leaps and bounds.
Be all that you are now; don't worry about past or future.
Take things as they are, and proceed to make them better.
To him that hath shall be given. Everybody has something to begin with.
Never try to cross a bridge until you get right up to it.
He who gains riches through crookedness loses everything else.
Do your best and leave the rest; never mind to-morrow.
The world never neglects the man who can do things—and does them.
Never judge your future possibilities by your past failures.
Optimism is glorified, intrepid, hopeful common sense.
When you are right you can afford to keep your temper.
No one chants the praises of the floundering weak-be.
Prove all things, and hold fast to that which is good.
If you are in a hole, build yourself a ladder and then climb out.
Keep in the sunlight; nothing beautiful grows in darkness.—From the Success Ladder.

To Feather Gese.

Full all the best feathers of fir and then when it comes to the fine fuzzi scald the goose and wrap it up in a cloth for a good fifteen minutes, and then take off the cloth and you can rub the fuzzi right off with the hand.

Cleaning Fluid.

Buy 5 cents' worth of borax and 10 cents' worth of camphor gum. Put them into a large bowl, breaking the camphor gum first into small pieces. Pour over this one quart of boiling water, stirring to dissolve the borax. All the camphor will not dissolve. After it is cool put it into a bottle and cork tightly. When wishing to use it pour a portion into a basin, diluting it with half the quantity of cold water. Wet a black stocking with this and sponge your black goods, pressing afterwards. This will remove all spots and grease and restore the black.

Fasten Rugs to Floor.

If the housekeeper who finds it hard to keep carpets or rugs smooth on the floor will sew a loop on the corners of the carpet and nail a small tack on the floor she will have no more trouble. In that way she will not ruin a nice floor or wear her carpets out in the corners by running tacks through them. Unhook the loops when you want to shake the rugs.

Vegetable Down Pillows.

Thistle and dandelion down mixed with slender strips of fine tissue paper make an excellent filling for sofa pillows. I have the children gather it in salt bags, allowing them a picnic in recompense.

Kill Insects.

Hot alum water is the best insect destroyer known. Put the alum into hot water and let boil until dissolved. Then apply hot with a brush to all cracks and closets. There is no danger of poisoning and it will eradicate the pests.

Pin Hose.

A most serviceable sock or hose supporter can be made from two common safety pins. Use one pin for each sock, fastening the sock to the drawers.

CHILDHOOD DANGERS.

No symptoms that indicates any of the ailments of childhood should be allowed to pass without prompt attention. The little ailment may soon become a serious one, and perhaps a little life passes out. If Baby's Own Tablets are kept in the house minor troubles can be promptly cured and serious ailments thus averted. And the Tablets can be given with equal safety to the new born babe or the well grown child. Mrs. H. Gendron, Martineville, Que., says: "I have used Baby's Own Tablets and have found them in every way satisfactory. I always feel safe when I have them at hand." Sold by medicine dealers or by mail at 25c a box from the Dr. Williams' Medicine Co., Brockville, Ont.

GOOD WORK FOR CHILDREN.

Annual Meeting of the Local Society Yesterday.

Comprehensive Reports Presented by Officers.

Mr. Adam Brown Again Elected to Presidency.

It is not necessary that I should make any speech in moving the adoption of the report—it speaks for itself. I would, however, just say, using the words of our own literature, that no better work can be done than in assisting the Children's Aid Society.

girls have been married. We have most satisfactory reports on such of these as have been visited by Mrs. Harvie, the Government Visitor, as well as by Mrs. Urquhart, our late secretary, who continues her warm interest in our work.

We have the most encouraging reports as to the conduct and progress of very many of our boys and girls, a few of which are appended. Our wards are visited twice a year at least by Mrs. Harvie, the Protestant Visitor, and Mr. O'Connor, the Roman Catholic visitor.

The election of officers resulted as follows: President—Mr. Adam Brown. Vice-Presidents—Lieut.-Col. Moore, W. H. Wardrope, K. C. W. A. Robinson. Recording Secretary—Miss Elsie Forbes.

GRIMSBY AND BEAMSVILLE.

Mitchell the Man for the Legislature.

A Fruit Man to Represent a Fruit District.

What is Going on at Grimsby Park Just Now.

Grimsby, June 6.—Help to get out the vote, and show that you appreciate Mr. Mitchell's past efforts on behalf of this town.

Rev. F. Lewis Barber, has been appointed to fill the pulpit of the Methodist Church here for the next three years.

A large number of natives from the reserves have already arrived in the district preparatory to the coming strawberry crop, which promises to be immense.

Mr. Mitchell, in the town hall tonight. There has been a crying need for cold storage plants at several of the more important fruit shipping stations in the Niagara Peninsula for many years.

Mr. Mitchell, in the town hall tonight. There has been a crying need for cold storage plants at several of the more important fruit shipping stations in the Niagara Peninsula for many years.

The marriage of Miss Ferguson is announced to take place at her father's home in Clinton Township on June 16th. It is to be four years more of old fashionism?

There will be a Court of Revision to hear and determine appeals against the assessment roll, sitting in the Town Hall next Friday night at 7.30.

The following pupils in attendance at the High School will write on the examinations for junior teachers: Della Davey, Winifred Hoshal, Isabel Kew, May Sharpe, Emma Bartlett, Pearl Henderson, Edith Woodland, Alexander Southward and May C. Thompson.

Thomas C. Watkins A great quality and value store Thomas C. Watkins

CHURCHES TO-MORROW

SPECIAL SERVICES AND SPECIAL MUSIC TO-MORROW.

Pastor Philippot will preach morning and evening in the Gospel Tabernacle. At the First Congregational Rev. J. K. Unsworth will preach in the morning, and Rev. G. H. Cobbledeick, of Woodstock, in the evening.

In Zion Tabernacle, Conference Sunday, Rev. L. McVey, of Burlington, will preach at 11 a. m., and Rev. A. W. Tonge, of Tillsonburg, at 7 p. m.

Rev. Alex. Irwin, B. A. B. D., Secretary of conference, will preach to-morrow morning in Wesley Church, and Rev. Manley Benson, D.D., in the evening.

In MacNab Street Presbyterian Church the pastor, Beverly Ketchen, will preach in a quartette with Rev. J. J. Hanna, Provincial Secretary, for the deep interest he takes in our work, and for the encouragement he gives us by word and act.

Such was the opening speech of the annual meeting of the Children's Aid Society, delivered by one who understood what he was talking about, Mr. Adam Brown, President. There was a fairly good attendance at the meeting, and all the reports were most favorable.

Mr. William Farrar read the report of the sub-committee on the Children's Shelter, which was as follows: "The sub-committee on Children's Shelter report that the application of the Children's Aid Society for the establishment of a shelter for incorrigible children has been carefully considered, and with a view of ascertaining the necessity for a shelter being opened in Hamilton, the sub-committee visited the Victoria, Alexandra and St. John's Industrial Schools, where it was found that the Government has made almost every possible provision for the care and education of children sent to these schools by the Police Magistrates of the Province.

They also visited the Children's Shelter at Toronto and London and the charitable homes of the city, where arrangements have been made for the care of the very young children coming under the control of the Society. The city pays these homes three cents per day extra for the maintenance of these children.

The only class not thoroughly provided for is the class coming before the Police Magistrate for the care and education of children sent to these schools by the Police Magistrates of the Province. They also visited the Children's Shelter at Toronto and London and the charitable homes of the city, where arrangements have been made for the care of the very young children coming under the control of the Society.

The ordinance of infant baptism will be administered in St. Andrew's Presbyterian Church, at the morning service. Rev. J. A. Wilson, the pastor, will preach at both morning and evening services.

Canon Almon Abbott, M. A., will preach at both services at Christ's Church Cathedral to-morrow. Anthem by the choir and duet, "Love Divine" (Stainer), Miss Stares and H. A. Stares at evening service.

In Gore Street Methodist Church eloquent sermons will be preached at 11 a. m., by Rev. R. W. Wright, M. A., B. D., of Palmerston, and at 7 p. m., by Rev. J. J. Liddy, M. A., chairman of Simcoe District. Special singing.

Rev. J. H. Robinson, the former pastor, will preach to-morrow morning in Emerald Street Methodist Church. Rev. J. J. McKinnis will address the Sunday School, Rev. W. J. Smith, B. A., of Guelph, will preach at night.

The pastor of St. James' Presbyterian Church preaches to-morrow in the morning on "The Relation of the Christian Church to the Old Testament Church." In the evening Rev. D. C. DeFeo, B. A., will preach. Seats free. All welcome.

SOCIETY

John Brown, ex-M. P. P., of Dunnville, to Dr. John Alexander Kerr, son of the late William Kerr, of Dovercourt road, Toronto. The ceremony was conducted in Knox Church by Rev. H. J. Pritchard, of Galt, brother-in-law of the groom, assisted by Rev. James Gourley.

Lady Violet Elliott, the youngest daughter of Lord and Lady Minto, was presented by her sister, Lady Errington, at the last May court of their majesties.

On Thursday evening the marriage of Miss Nellie Near, daughter of Mr. and Mrs. S. J. Near, and Mr. Herbert Raine, Hamilton, was solemnized at the home of the bride by Rev. W. J. Brandon, Port Colborne Methodist Church. The bride, given away by her father, wore a cream silk dress, with lace inserted, embroidered in pearls and cream roses.

Mrs. Thomas James and daughter, Mae, formerly of this city, sailed this morning on the Campania for Europe, where Miss Mae will take a course in vocal culture.

On Tuesday last the Ladies' Aid Society of St. John Presbyterian Church was entertained by Mrs. J. H. Horning in her own charming way. The ladies spent the afternoon upon the beautiful lawn. Business was transacted in an informal way. Plans were laid for the final meeting of the season, to be held on June 16th. Marriage bells are likely to hinder some from being present on that day.

Mrs. VanWyck, 518 Wilson street, will be out of the city next Tuesday, so cannot be at home to her friends.

Mrs. Edward Crawford, Stinson street, has returned from Cleveland, after a very enjoyable fortnight visiting friends and relatives.

Mr. and Mrs. Walter Morton Hampson, Aberdeen, announced the engagement of their only daughter, Marion, to Dr. Frederick Edward Von Riethdorf, Ph. D., Leipzig, Germany, resident of Huntsville, Alabama, son of Edward Von Riethdorf, at present in Italy.

The engagement is announced of Miss Emma Adele Barnard, daughter of Mr. and Mrs. Harry Barnard, to Mr. Edgar Percival Hamilton, of Toronto. The marriage is arranged to take place in August.

MAJOR TAKES HAND IN PECULIAR CASE AT ST. CATHARINES. St. Catharines, June 5.—A peculiar case has been in progress here for the past few days to secure possession of a young girl named Crazie Moffat. About a year ago the girl arrived here from Glasgow, Scotland, and has recently developed signs of insanity.

Mr. Killen carried out her orders and took possession of the girl. She committed with Crown Attorney Brennan and secured the aid of High Constable Boyce to get possession of the girl. In the meantime Mr. Campbell had been removed from her home in the Hamilton Orphan Asylum, and a diligent search was unable to find her.

Mr. Killen later received instructions from Ottawa to drop the matter and returned home.

SIXTEEN KILLED.

Vienna, June 6.—Sixteen workmen were killed and seventeen others were more or less seriously injured by an explosion this morning in a celluloid factory at Ottakring, a suburb of Vienna.

History is full of "also rans."

THE RESULT OF A JOKE

Harry Miller was day clerk at the Hotel Crawford, and delighted in playing practical jokes. In fact, that was his particular hobby. He had no opportunity to indulge in his favorite pastime. So one evening about eight o'clock, when his uncle arrived quite unexpectedly at the hotel, he decided to play some kind of a joke on him—just to break the monotony," he said. His uncle knew nothing of his connection with the hotel, and Harry concluded that he should not be put "wise" until after the little affair.

Harry sought his sweetheart, who was in the business office of one of the local papers, and between them they invented the joke.

Harry's uncle exercised considerable power in the financial world, and his opinion was much sought after about financial conditions then existing. It was their idea to write a letter to each of the different newspapers men whom Harry's sweetheart, uncle warther away from him, and he realized that he was powerless to change conditions. And one day Uncle James announced to his nephew that he had won.

Harry made no fuss at all, he swallowed his disappointment, like a man. He extended his hand and gave his uncle a hearty grip, and after the lapse of a few seconds, said: "I bear you no ill will; you have won her fair and square, so accept my congratulations, and God bless you both," and with that he was gone.—G. W. Campbell in Buffalo Times.

lighted to find that he had met her before. Uncle James was jolly and witty the whole evening, and Harry during the latter part, was grouchy and inclined to snark, and when they departed together, Harry's dear girl, he couldn't get through enumerating her various charms until Harry felt like choking the life out of his uncle.

When James Cortland Bendsome started out to do anything he generally succeeded. Day by day Harry saw his sweetheart, slipping farther away from him, and he realized that he was powerless to change conditions. And one day Uncle James announced to his nephew that he had won.

Harry made no fuss at all, he swallowed his disappointment, like a man. He extended his hand and gave his uncle a hearty grip, and after the lapse of a few seconds, said: "I bear you no ill will; you have won her fair and square, so accept my congratulations, and God bless you both," and with that he was gone.—G. W. Campbell in Buffalo Times.

Visitors on Board the Jacques Cartier at Dunkirk

The Jacques Cartier—Fitted Out for Sea

Behaving Petrol on Board the Vessel

ANOTHER EXPEDITION TO SEEK THE NORTH POLE.

Captain Benard, a French naval officer of great experience, has just left Dunkirk in a sailing vessel called the Jacques Cartier, which is probably the first polar expedition of 1908. The Jacques Cartier corps of nine men and a crew of eight men, is specially built for work in the polar regions, and Captain Benard will be content to study the flora and fauna of northern latitudes if he is unable to make a dash for the North Pole itself. The expedition was planned by a committee for oceanographic research, established in Marseilles some two years ago under the presidency of M. Charles Roux.

and customs as male traders.—Judge Parry at Manchester.

The month of art has arrived, and a certain air of anxiety can be detected in the features of second-class passengers, indicating that they are once more making an endeavor to recollect that R. A. has another meeting besides that of the Royal Artillery.—Mr. Pett Ridge in the Queen.

Every church has three dominant personalities; the vicar, who knows everything about theology, and nothing about music; the organist, who knows everything about music, and nothing about theology; and the curate, who generally knows nothing about either.—Mr. J. R. Dear, F. R. C. O., at Eastbourne.

Almost Choked to Death.

Mr. Lionel E. Schwartz, a commercial traveller, writing from Winnipeg, Man., says: "Catarrh cured me of Asthma after the doctors had despaired of my recovering. I seldom slept through a whole night without waking up in a fit of coughing. Sometimes I almost choked to death. I have not been bothered since using Catarrh. It has cured me entirely. Catarrh is the only remedy I have ever met to give such good results." Sold by all dealers in 3 sizes: 25c, 50c, \$1.00 for two months' treatment, which is guaranteed to permanently cure.

THE TARDY GUEST

And Some Delightful Dining Cranks of Old.

It is embarrassing for the hostess when some important guest at a dinner party does not arrive at the expected time. But the hostesses of our great-grandmothers' day had much worse difficulties to contend with in that way than we have nowadays, when trains, cars, motors and motor omnibuses make punctuality comparatively easy. Yet there were hosts even then who refused to accept any excuse for lateness.

"Bosvilian" punctuality is a forgotten term in these times; but a hundred years ago to dine a la Bosville had a significant meaning, for it implied that dinner would be served at the exact time when mentioned on the invitation. "Colonel Bosville was a martinet where dining was concerned. His dinner was always ordered to be placed on the table at exactly two minutes to 5, says the St. James Gazette. No guest was admitted after the appointed time, his porter locking the street door and placing the key at the head of the dinner table on the first stroke of the mystic hour.

It was said of a man of the day who was of some importance in the official world that in answering an invitation to dinner he invariably added this postscript: "Nota Bene.—I conclude you mean what you say and that the dinner will be on the table at 5 o'clock, when I shall arrive at your door. If the dinner be on the table I shall come in and partake of it; if it is not I shall take the liberty of returning home."

Art has its home in the church, and so also has the drama.—Mr. Geo. Harwood, M. P.

Until a man is forty he does not begin to understand children.—Rev. R. W. Jackson, at Letchworth.

Men who go to colleges and come to the front would come to the front with out going there.—Mr. W. Pye, at Lincoln.

The professional elocutionist is always too busy showing the machinery—beating her breast and pulling her hair.—Miss Marie Shaddock, at Wakefield.

It is a mockery to erect monuments to the memory of those who fought in war, and then leave men to pass their time in workhouses.—The American Consul at Liverpool.

I would rather wish to accomplish a little to-day than strive for a great deal and accomplish nothing for a generation.—Mr. G. E. Thorne, M. P., at Wolverhampton.

Singers become stout, writers become moody and reserved, statesmen become prematurely grey, but artists are always youthful.—Mr. W. Pett Ridge in the Queen.

It is not armor belt on water lines that wins battles; it is the men who shoot straightest and are hardest and can stand punishment the longest.—Rear Admiral Evans (U. S.) at San Francisco.

Simple Home Remedies For Illness or Accidents

Earache.—Heat table salt in a saucepan until smoke begins to rise from it, turn into a cloth, tie in a soft bunch and hold to the ear as hot as can be borne. The back of the ear may be rubbed with camphor, but never put anything in the ear. If the application of heat, does not soon relieve the pain, consult an aurist.

Weak or Inflamed Eyes.—Frequent bathing with mild salt water is very beneficial. Another remedy is boracic acid. Take as much of this powder as will lie upon a dime, dissolve in a cup of warm water, bathe the eyes with it, using an eye glass if possible, then make little pads of a soft old linen handkerchief, dampen these with the solution and place over the eyes while lying down.

Feetache.—Each day the feet should be put in water as hot as can be borne, adding more hot water as it cools, for as long as is possible. Three or four trials will effect a cure.

Croup.—When the first symptoms are observed, apply cold water suddenly and freely to the neck and chest. Then lay a cloth wet with cold water on the chest and cover with cotton batting. Place the child in a warm bed and cover well. If you do not like the cold water treatment, try rubbing back, chest and neck with camphorated oil or goose grease, and covering well with flannel. A pinch each of hops, sage and pennyroyal may be steeped in a kettle, and the child allowed to inhale the warm fumes through a paper funnel, or if this is not easily done, at least allow the mixture to boil in the patient's room. The air is moistened and medicated by it. Mix one teaspoon of powdered alum with two teaspoons of sugar. This will often give instant relief. The juice pressed from a roasted onion and mixed with sugar will sometimes help to loosen the phlegm. The nostrils must be kept moistened with warm sweet oil. This may be applied with a small roll of very soft muslin.

Whooping Cough.—Place about 20 drops of oil of turpentine on a cloth and hold close to the patient's face, instructing him to breathe freely a number of times. Repeat this two or three times daily. A cloth moistened with oil of turpentine may be placed on the pillow at night.

Fever.—When a child has a fever from teething or any cause not connected with acute disease, give a teaspoonful of syrup of rhubarb, a warm injection and a sponge bath.

Fainting.—This is caused by the blood leaving the brain. Lay the patient down

Absurd All Around.

"Who is the old fellow over there with the comic coat, the stovepipe hat, and the baggy kneed trousers?"

"That's the professor who is lecturing on the absurdities of woman's dress!"—Cleveland Plain Dealer.

PETITION NINE MILES LONG PRESENTED IN THE HOUSE OF COMMONS.

On the night of May 4 Lord Robert Cecil brought in a monster petition against the licensing bill. The ponderous bundles of paper, containing the 600,000 signatures, were carried into the House by twelve attendants, amid ironical ministerial cheers. Lord Robert Cecil informed the House that the

INDIAN PRINCE VISITS LONDON. The Maharajah of Nepal Travels in Regal State. Nepal, which covers an area of about 54,000 square miles, and has a population of over 4,000,000, is somewhat bigger than England, and is a very interesting little country. It is from there the Goorkhas come. The de facto maharajah, Sir Chandra Shamsheer Jang, Rana Bahadur, was born in 1863 and educated at Calcutta University. He is an honorary major-general in the British army, honorary colonel of the Fourth Goorkha Rifles, became Prime Minister in 1885, succeeded to the supreme government of the country in 1901, and was made G. C. S. I. in 1905. He has translated several military books into Nepalese.

London, May 29.—A picturesque Indian visitor is now in London. This is his highness Sir Chandra Shamsheer Jang, Rana Bahadur, Prime Minister of Nepal. He travelled in regal splendor, with a suite numbering twenty-two persons and with twenty servants. The maharajah and his suite brought an extraordinary amount of baggage, consisting of hundreds of packages, including the case containing his highness' famous regalia of jewels. These jewels are said to be worth nearly \$500,000, one headpiece alone being valued at \$250,000. It is a magnificent ornament. The front is composed of a glittering mass of diamonds, while a border of pure emeralds hangs over the wearer's forehead.

Extraordinary precautions were taken to guard this valuable luggage on its way to London, and special detectives were on duty at Dover and Victoria. The question of catering for the maharajah and his suite is one of no little difficulty. Special sheep, bred in Nepal, were brought to England, as this is the only kind of mutton the party is allowed to eat. Many other provisions were also being brought from India.

The retinue includes a large staff of cooks, as all the food has to be specially prepared. The maharajah comes to England as the guest of the British Government, and Mortimer House, near Belgrave Square, lately the residence of Lord Penryn, has been taken for his use. Although the house has been gorgeously redecorated and fitted throughout, it forms a striking contrast to his palace at Khatmandu, a building nearly as large as the whole block of government buildings

FRANK ZASTERA. This young man is accused of the murder of William R. Sheppard, his wife, and Jennie Bende, a servant. The crime was committed near Matawan, N. J., and the motive was robbery.

HANGED BY THE NECK. No death is more certain than the end that comes to every offender treated by Putnam's Corn Extractor. Out comes the corn or wart, root and branch. Insist on "Putnam's" only; it's the best, free from acids and painless.

SPORTING NEWS

INJUNS PLAYED VERY GOOD BALL.

Cherokees Won From Hamiltons In Afternoon.

Night Game Was Taken by the Tigers, However—Scores of Games in the Big Leagues.

The Cherokee Indians baseball nine, a travelling organization very much about the average of touring teams, performed at the Barton street ball yard yesterday afternoon. They defeated the Hamilton International League team by a score of 5 to 3 in the fastest game played in this neck of the woods this season. The game, full nine innings, was played in one hour and twenty-five minutes. The visitors played fast ball and lost no time arguing with the umpire or any person else. They didn't have their war paint or feathers on, or there might have been a massacre. Six of the nine are real live red men of the plains, and two of them are French half-breeds, and one is a white man. The white man is Rothenel, who played years ago with the Phillies and other national league teams. He is the captain of the team, and he certainly has outlived the Indians well. He can play some ball yet himself.

Bisons won, 6 to 5, hanging up a lead of one in the initial inning that the Leafs could not overcome. Opportunities were lost galore, Manager Kelley himself falling down no less than three times, with two men on bases on each occasion. Toronto had ten men left on bases to Buffalo's four, and this shows what a hit would have done, especially when the visitors had only a one-run margin at the end. Score: R. H. E. Buffalo 6 9 3 Toronto 5 8 0 Batteries—McConnell and Archer; Rudolph and Vandy.

chances for becoming ball players are very slim, unless a sudden reversal in form takes place. Score by innings. T. H. & B. 4 5 1 1 1 0 1 3 2 5-27 A. S. 0 0 0 0 0 1 0 0 1 0-13 LONDON LOST YESTERDAY. London, June 6.—Guelph won here yesterday by a score of 2 to 1. Since Jack Sterling broke into this league some nice things have been said about him as a pitcher, but to judge by yesterday's performance the creamy hasn't been plastered on half thick enough. Jack was there, and what a beautiful game of ball he did pitch. However, far be it from a truthful narrator to detract in the slightest from the handiwork of mystifying "Cy" Parkins, for Cyrus pitched something of an air-tight game himself. His slow ball and roundhouse curve was delightfully unhittable, and but for the mutual admiration contest that he and Tootie Jeffries pulled off of a couple of dinky bunts which fell just midway between in that horrible "you take it" spot. Score: R. H. E. Guelph 2 3 1 London 1 5 4 Batteries—Sterling and Mainin; Parkins and B. Jeffries.

"MAC'S" COLTS DEFEATED. Yesterday afternoon the Black Diamonds defeated MacDonald's Colts by a score of 10 to 9. The teams were: Black Diamonds (10)—Duncan, Taylor, J. Smith, Warnsley, Workman, Conley, Peters, Brooks, C. Smith. Colts (9)—Platz, Gray, Cooper, Brittain, Hackbusch, Duffy, McLeod, Carroll, Hennessy.

LACROSSE TO-DAY.

Hamilton Team Will Play at Brantford.

The Hamilton lacrosse team plays at Brantford this afternoon, and if the game played here last Saturday is any criterion, the locals should again take the scalp of Danny McLean's Indians. The Hamilton team will be about the same as played the Brantfords here a week ago. A Lalonde taking Newsy's place in goal and Regan being moved back on the defence. Finley, the Winnipeg player, who was signed this week, will fill Regan's place on the home.

FAVORITES' DAY.

Short Priced Horses in Front at the Woodbine.

Toronto, June 6.—Five favorites were successful at Woodbine Park yesterday afternoon, and a second choice finished first in the other event. Although the fields were small in several races, the racing was of a most exciting nature. The biggest field of the afternoon went to the post in the Aberdeen Purse for Canadian bred horses, at six furlongs. There were 15 starters, with Xenocrates and Chino Shop coupled favorites at 8 to 5. Snilling rushed Xenocrates to the front and led all the way, winning easily by a length from Captain, who was the same distance in front of Iable Bay, who made up a lot of ground from a bad beginning.

BOQUET FOR "A. I."

A London Paper Sings Richardson's Fraises.

The following is from the London Free Press of this morning: Wherever baseball is played in Ontario and baseball fans and dopists abound, there is Addie L. Richardson, of Hamilton, known, for twenty years this correspondence of the Philadelphia Sporting Life, the editor of which, Francis C. Richter, says that "Richardson is the best posted baseball man in Canada," has been connected with the game of baseball. As a boy he played it and

Automobile Record Broken.

New York, June 6.—Road records for automobiles were broken yesterday during the races held in connection with the subway opening celebration at Jamaica, L.I. One mile over a road was covered in 38.35 seconds by a car owned by Harry Levery and driven by Herman Kilpatrick. This was at the rate of 93.26 miles an hour.

BALL TALK FROM AN AIR SHIP.

"Talk about baseball, there is no banner ball town in the country, the real best class with Chicago," remarked a fan the other day. "There are two big league parks, and they show to form 15,000 to 20,000 apiece on Sundays. These clubs are gold mines for their owners, for league ball in Chicago has been making money for thirty years. "In addition to these parks there are seven other parks, where the independent, or semi-professional, teams play. These teams show to 6,000 and over apiece on Sundays, so that on certain days as many as 60,000 people are paying to watch the ball game. "The independent teams make money, too. Jim Callahan, who was manager of the Chicago Americans at one time, has a park and a team, and they tell me that Comiskey is in with it, however true that may be. Anyhow, it is well understood in Chicago that Callahan went into winter quarters with \$12,000

Comment and Gossip

The spring meeting of the Hamilton Jockey Club, which opens next Tuesday, promises to be the most successful yet held by that flourishing racing association. From a racing standpoint the meeting should be as good as the O. J. C. meeting, as the purses are large and most of the best horses are coming from the Woodbine. In addition to these there are about 100 horses here from southern tracks—horses which did not race at Toronto. It is estimated that about 700 thoroughbreds will be at the racing plant by Tuesday morning. Many of these will have to be stabled in the vicinity. Yesterday Fred Lazard arrived from Louisville with the stables of J. R. Wainwright and E. A. Brennan, numbering in all 15 head, which includes the Derby candidates Terah and Petulant. The track never was as fast as it is this spring, judging from the time recorded in trials, while the steeplechase grounds and the turf course are perfect.

Tuesday is Derby day and as is usual on the opening day of the meeting society will be out in force. Inside information, received through the society reporter, is to the effect that many handsome gowns are in the course of construction at the big customing establishments and many orders for headgear placed at the millinery parlors are marked to be finished by Monday night.

The Lieut.-Governor, Sir Mortimer Clark, and party from the Government House, will be in attendance on Derby day.

They say Signoretta was a banana fed filly.

The banana fed horse in the Derby is better than the horse fed on milk.

The talent is already ready for the battle with the books.

The City League Stars of 1907 and the Hamiltons may yet cross bats. Last night friends of the Stars made up \$20 to set on teams. If \$100 is forthcoming the match will be played, under the conditions imposed by the manager of the Hamiltons.

Jockey shining was in great form at the Woodbine yesterday. It followed up his three starts, two seconds and two thirds of a second by cleaning up the Friday card, except that he finished second on Hawking to Havre. Unlike some riders that have worked nervous, Shining is willing to win regardless of the odds.

London Advertiser: Ever since the Tigers dropped to London on Tuesday, the "Spec" juvenile sporting writer has been crowding the harpoon into Umpire Charlie Smith. His latest remark is that the aforesaid arbiter is due for "a burned trip back to St. Thomas."

A Chicago exchange hits the umpire question in the right spot when it says: All umpirical decisions break for or against you. The game never goes astray, somebody wins it. The umpire means to be right. There is no reason in the world why he should mean to be otherwise. The fan—we mean the honest fan—lifts the term—who goes a ball game in this manner of mind has more fun for his six bits, or whatever the change may be, and goes offener than he who is moved to bounce a bottle off the devoted score of somebody who sees things differently.

It is always refreshing to see Mr. E. Haines, of Owen Sound, at the Woodbine races, looking hale and hearty. Twenty years ago Mr. Haines sold to Mr. Seagram, Jolly, the dam of Odomough, Joe Miller and Millbrook, also Objection, a good race horse, and the dam of Martello and Almese. From that time till now Mr. Haines has bought for the master of Waterloo and every one knows of his phenomenal success. Honest, reliable and a shrewd good judge, Mr. Haines bought the right ones at the right time. Six of the get of the sires and dams that Mr. Haines imported have won nearly \$12,000 at the present O. J. C. meeting. They are: Seismic \$6,800, Photographer \$2,250, Half-a-Crown \$775, Moonraker \$630, Mill on the Floss \$490, Lady Milner \$655.—Toronto World.

London Free Press: Charlie Smith, it seems, offended the effete taste of some baseball wisecracks at Hamilton by using certain intonations and inflections of old-time pronunciations that are not quite what one would expect from Professor Goldwin Smith addressing the House of Lords in England, if he ever happened to be placed in that position. Perhaps these horrified writers of genteel sport would be satisfied if he umpired would stop the game while he removed his hat and announced to the audience in limp accents that the last ball called on the batter was a strike. Charlie Smith is a good umpire, and Londoners at least will always think kindly of him for the manner in which he turned chaos and riot in the City League into order and peace when he took hold of things last summer and the one before.

learned on the back lots of Hamilton, and later graduated as a shortstop in amateur company. For ten years Richardson played in fast minor league professional clubs, and was with the Detroit National League club for part of a season, later going to Oil City, Pa., club of the Iron and Oil League, where he led the shortstops and also the league in stolen bases. He quit playing ball several years ago, and managed the Canadian professional league club of Hamilton, while London was a member of the same organization. He acted as press agent for Chub Collins in Hamilton for four years in the late International League, of which he is secretary and road manager. A fine little fellow is Addie, and among a host of acquaintances he cannot boast an enemy.

A JUST RULING.

Longboat Must Qualify in Marathon To-day.

Ottawa, June 6.—Unless Tom Longboat competes at Toronto to-day he will not go to England at the expense of the Canadian Olympic Committee. He will likely go at the expense of the Irish-Canadian Athletic Club, and the Olympic Committee may compensate Tom Flanagan's organization, but Longboat must qualify in the finals if he wishes to go team sails next week.

Tom Coley, the Hamilton boy, is in the same box, but something will likely be done in the case of each before the team sails next week.

The Canadian athletic team will sail for England on the Tunisian next Friday. They will leave Montreal and arrive in England on or about June 18. They will be in London June 20, and will have about a week to train before taking part in the Olympic competitions.

The present intention of the Olympic Committee is to send fourteen or sixteen men, but this number may be reduced or increased.

Toronto, June 6.—The last of the out-of-town candidates for the Olympic Marathon arrived in the city to-day, it is Fitzgerald, of Edmonton, Alberta. Every Province in the Dominion has sent representatives to the big race, which will start this afternoon from the Rosedale grounds.

The committee in charge of the race wish to request that all persons not especially interested in the race, in rigs and automobiles, refrain from accompanying or following the runners, particularly on the dusty roads.

ON THE FIELDS OF STONEY CREEK.

By Major Glasgow. Whoever thou art that draveth nigh, Where the Britons and their foemen lie, Let not the tombs of the departed lie, The sunshine of thy joys o'ercast; Let no dark frown of hate appear, Or frowns that are menacing here, The peace of death and funeral pyre Have cooled for aye their warlike ire; For never can the battle's side Sway heroes, who sleep side by side; And never more shall they enlarge The numbers in the noble charge; Each year the pink and snowy bloom, Are trophies shed upon the tomb; The wild flowers and the peonies rose Perfume the ground where they repose; And living hands fresh laurels spread Upon the tablets of the dead, Whilst weeping dews, that lightly fall, Keep near the garlands gleaned for all.

SHORT ENDS.

Little Paragraphs of Sport From Far and Near.

The Hamilton Rowing Club will hold spring races this afternoon, off the club house at the foot of James street. Montreal, June 6.—Mr. J. A. McKinnon, recently identified with the Edmonton Bulletin, is in Montreal with the object of interviewing Mr. P. D. Ross, one of the trustees of the Stanley Cup. He is desirous of seeing the Alberta Club compete with the crack Wanderers, and he claims that Edmonton's form out west justifies consideration at the hands of those in charge of the Stanley Cup. Recent advices from Scotland give an outline of the Scottish portion of the Canadian bowlers' programme. The bowlers are due to arrive in Scotland about July 23, and will proceed at once to Edinburgh, where they will be welcomed by the Lord Provost, and have, perhaps, a game with the officials and directors of the association, or with the Edinburgh and Leith Association. They remain in and about Edinburgh until July 28, when they proceed to Glasgow, the home of Balgie Watson; then to Glasgow for about three days, when a game will be played against the Scottish contingent of the team that was in Canada in 1906. The "Lewy Giants" defeated the Blue Labels in a baseball match at Victoria Park yesterday afternoon, by a score of 6 to 3. In the City Bowling League series last night the Hamilton Gun Club took two games from the Wood, Vallance team. The total pins scored were: Gun Club 2,140; Wood, Vallance, 2,174.

Japan's Duty.

If the Japanese Government desires to dispose of weapons no longer of service to her, it is her duty to see that they are not employed to damage her neighbor. It has been urged that Japan is not bound to ascertain the object and destination of the arms shipped from this country. That is doubtless true so far as legal duty is concerned, but the moral duty is clear and unmistakable.—Japan Chronicle.

Penny Cablograms.

There cannot be any object to a "pennygram" where there is a line not fully occupied with other more remunerative work. That there are cables which could be well occupied with such work is too obvious to mention, and the difficulties applying to the conduct of such traffic have been talked of for twenty-five years. It is obviously such a boon that it passes the wit of man to understand why it is not secured.—Electrical Review.

METHODIST CHURCH HAS PROGRESSED.

Interesting Statistics Presented at the Hamilton Conference Meeting This Morning.

Ordination Service In Centenary Last Night---Connexional Fund Addresses Yesterday.

At the Methodist Conference yesterday afternoon the principal order of business was the addresses of the different connexional officers.

Later in the afternoon a memorial service was held, at which the obituaries of the clergymen who had passed away during the year were read: Rev. John Scott, D. D., Milton District; Rev. Benjamin Coboe, Simcoe District; Rev. Bernice Bristol, Brantford District; Rev. John Mills, Guelph District; Rev. Chas. Smith, and Rev. John Cutler, Hamilton District.

The Conference was somewhat behind in its work, owing to the unusual number of addresses that have been given since the opening, and it is not thought it will be able to get through before Wednesday or Thursday of next week.

Rev. Dr. Griffin, associate treasurer of the Superannuation Fund, presented the following statement of that fund: The total investments now amount to \$315,900.42. During the year the receipts amounted to \$132,187.96 and the expenditures, \$132,091.28. There was transferred to the Special Reserve Fund \$25,006.68.

Rev. H. S. Meege, assistant secretary of Temperance and Moral Reform, and Rev. Dr. Withrow, editor of the Sunday school papers, spoke on the excellent work that was being accomplished on their respective departments.

Rev. T. Albert Moore, Secretary of the Lord's Day Alliance, appeared before the Conference. In a short address he spoke

of the new Lord's Day Act, and of its enforcement in every province.

The book room report was presented by Rev. J. J. Redditt, in the absence of the book steward, Rev. Dr. Briggs, who is at present attending the western conference at Medicine Hat, Saskatchewan and Winnipeg. He reported the finest year in the history of this grand old institution, which has been doing business since 1829. The net earnings amounted to \$1,400 more than the best past year, and largely increased circulation of Sunday school literature, running up to an excess of 325,000 copies for the year. The magnificent new additional fireproof premises on Temperance street were completed this year and furnished with modern up-to-date machinery, together with a perfect sprinkler system throughout the entire premises, all of which has been paid for, together with a grant of \$15,000 to the superannuation fund. Mr. Redditt urged the members of the Conference to be loyal to the old institution that has stood for the best of all these years.

Ordination Service.

The evening service of the conference was very largely attended. The President, Rev. Thomas Colling, was in the chair. The probationers who have been accepted for ordination were received with full connection with the ministry of the church.

Rev. Mr. Colling conducted the opening exercises, and Rev. W. J. Irwin, the secretary, read the scriptural lesson. Rev. D. A. Moir, of St. Catharines, conducted the devotional exercises.

The young men who were formally received are: Arthur A. Foreman, Ad-

phus E. Marshall, Arthur N. Cooper, E. Milton-Carter, Albert Joseph Elson, and Fred O'Keefe, of Victoria, B. C.

Each of the young men gave the experiences that had come to them in their conversion and their call to the ministry. The following resolution was moved by Rev. H. W. Crews, M. A., and seconded by Rev. J. E. Peters:

"That the young men whose names we have heard, having completed their probation for the ministry of the Methodist Church, be now received into full connection with the conference and that on Sabbath morning next they be ordained to the office and work of the Christian ministry."

Rev. Mr. Crews, in moving the resolution, said that this was truly a wonderful and strenuous age. The world is becoming more consolidated. The greatest forces in the world to-day are ideas and thought. The world has not changed greatly. The future is the same as it was centuries ago. Man has not changed. The only change is the acquiring of knowledge. The world is learning more every day. No one can read the blood stained record of Russia, without feeling there is a want of knowledge exhibited there. This is undoubtedly an age of investigation and research. This applies to politics, nature and everything. The Bible is the most audacious of all books because it tells of the past, present and the future and it has had to stand the scorching fire of criticism. This is an age for the critic. He claims that the Bible is a record of the religious life of God's people. The attitude of the young ministers toward the critic, should be to accept the beliefs that have been placed before them. There should be no strife. This is a democratic age. Some people think that socialism is a cure for the evils. The speaker was afraid that in studying socialism, one is apt to take the teachings of Christ without taking Jesus Christ Himself. If socialism advances in the next 25 years, it will have done in the past 25 years, it will have control of the government.

Mr. Crews held that this is a materialistic age. The ministry, deplors the fact, but it is very hard to overcome. The young candidates will have to work against the carnality and egotism that are to be found at the present time. What is the reason people stay away from church? Commerce has been put to the front and religion on the shelf. The message of the preacher to the people of to-day must be an earnest one. Courage is required. There is no need for scolding ministers. Sympathy is also needed. Optimism is one of the necessary advantages.

Rev. Mr. Peters had a few inspiring words to say to the probationers, and the president, Mr. Colling, closed the meeting with an address to the young men, exhorting them to be faithful to the work they had taken up.

Statistics Presented.

The report of the Statistical Committee was presented by Rev. A. E. Lavelle, Niagara Falls, this morning, the following interesting figures being taken:

Membership--		
Full	51,287	
On trial	625	
Total	52,012	
Increase	722	
Baptisms: Adult, 534; infant, 1,489;		
total, 2,023.

Total raised for all purposes, \$557,110; increase, \$29,843.		
Young People's Societies-- Epworth Leagues 238, Young Men's Societies 15, other young people's societies 18, Junior Epworth League 57. Grand total of all societies, 326, a decrease of 15. These societies raised for missions \$8,561, an		

HOT WORDS AT MEETING.

County Councillors Had a Lively Session Yesterday

Over Purchase of Machinery For Road Making.

Saved \$6,000 Through Railway Board Order.

There were lively doings at the County Council meeting yesterday afternoon, one councillor going so far as to say that the schemes of another were underhand and scandalous. Councillors Malcolm and Jones, the Beverly councillors, threatened that if the \$5,000, which was voted by the Council of 1904, to be used on the Dundas and Waterdown road, but which was used on the Lynden road, was not returned to the D. and W. road by appropriations, they would take legal action to compel the Council to do so.

After securing legal advice on the subject and finding that the action had been illegal, the Council decided to appropriate a further sum of \$500, along with \$2,500, which has already been appropriated, with the understanding that the Township of Beverly will withdraw any legal action that may have been taken and pay all cost in connection with same. The aforesaid appropriations to be a settlement in full of all claims for the amount transferred from the D. and W. road to the Lynden road.

Councillor Guest came for considerable criticism for buying a steam drill without consulting the Machinery Committee.

Road Superintendent Taylor said that he had prompted the action, and that the county had been losing \$10 per day by working without it.

Councillor Binkley then took the floor and said that he had not dedicated his rights to Mr. Guest, and he objected to money being spent in any manner, unless it came up before the Council.

It was announced that the drill had already paid for itself, and while admitting that Councillor Binkley was right in principle, the report of the Machinery Committee was adopted.

The real trouble began when Councillor Malcolm made a motion that as Beverly Township needed a steam road grader, that the council buy one, to cost not more than \$250, and then sell it to Beverly Township less the grant of 33.13 per cent, which would be given to the county by the Government, for which favor they would allow the county to use it whenever needed.

Councillor Hills said he would not support any such movement, as it was just one way of defrauding the Government.

Councillor Milten warmly denounced the resolution, and said that it was one of the worst schemes that a councillor ever brought in. He claimed that it was a "mean, underhand action," "a mere piece of thievery" from the Government, and that it was the first time that any such disgraceful motion had ever come for the benefit of the townships as well as the county.

Warden Emery did not entirely approve of the motion, and said that he would not like to see a resolution worked in that way go on record.

Councillor Gage made out an amendment, "that a steam road grader be bought, not to cost more than \$250," and said that some time after, if Beverly still wished to buy it, it could be sold, less the Government grant of 33.13 per cent.

Councillor Binkley thought that would be still more dishonest, and that if they wanted to put any such deal through to come out with it in writing.

Councillor Hills, who had apparently changed his mind concerning the matter, said he could see no reason why it should not be passed. As he understood it, the Government meant to benefit the township as well as the county; the amendment was then put to a vote and carried.

Councillor Gage presented a report on the Waterdown bridge matter, stating what the committee had accomplished. The report stated that after negotiating with the G. T. R. they were unable to come to any settlement concerning the subway scheme, and it was then taken before the Dominion Railway Commissioners, who made out an order by which the G. T. R. must rebuild the bridge and the approaches thereto. He explained that this action had got the county a good road at no cost, whereas the subway scheme, at the very lowest estimate, would have cost them \$6,000.

DIED AT A BALL GAME.

Winning Run Too Much for Enthusiastic Fan.

Gloversville, N. Y., June 4.--M. Sexton Northrup, a member of the Northrup Glove Manufacturing Co., of Johnstown, and one of the best known glove manufacturers of the country, died suddenly late this afternoon while watching a ball game between the J. & G. and Syracuse clubs in this city. The home team had just made what proved to be the winning run when Mr. Northrup, who was an ardent admirer of the game, fell back unconscious. Three physicians worked over him for thirty minutes, when he was pronounced dead.

JUST PRESS THE LEVER.

Electricity to Do Locking in the Welland Canal.

St. Catharines, June 5.--By improvements which are now being made to locks, vessels will save three full hours in every passage through the Welland Canal. A force of men has just completed the installation of machines by which the lock gates will be opened by electricity instead of by hand. The machines are made at the Beatty plant at Welland. The machinery was installed by Frank O'Neill, of the Packard works, of this city. The men are now at work installing motors of five horse-power, a motor being installed at each lock.

All that is now necessary is to press a lever and the gates will open and close in thirty seconds. It formerly required two hours to open and the same time to close. There are twenty-five locks on the canal. With saving seven minutes on each, three hours will be made up. The new arrangement will not affect the number of men employed. The new device is already working on locks 23, 24, 25.

Mrs. James Strachan, 73 years of age, wandered away from her son's home at Toronto, and was found twelve miles away, at Long Branch.

Ex-Ald. Daniel Lamb is to be appointed curator of Riverside Zoo, Toronto.

TRIBUTE TO DR. MACLAREN.

Retiring Principal of Knox Highly Honored.

Earnest Discussion on Evangelistic Methods.

Statistical, Sunday School and College Reports Received.

Winnipeg, June 5.—News of the death of Dr. Findlay Barrie, Superintendent of Missions for New Ontario, was received with the deepest regret by the commissioners of the General Assembly to-day.

The committee appointed to deal with the resignation of Principal MacLaren of Knox College reported a resolution in which the distinguished services of the retiring Principal were acknowledged.

The contributions to the British Columbia Theological College for 1907-08 amounted to about \$1,600.

This was adopted and the name of Westminster Hall chosen for the new college.

The President of the Ottawa Ladies' College, Rev. Dr. W. D. Armstrong, had a happy condition of affairs to report; total number of pupils enrolled 118, of whom 77 were in residence; average attendance, 128.

Report adopted. The report of the Committee on Statistics for the year ending the 31st of December, 1907, and contributions to schemes for year ending the 29th of February, 1908, was presented by Rev. Dr. John Somerville, Convener. The grand total contributed for all purposes was \$3,619,749. The number of communicants is 264,999.

An address by Dr. J. Wilbur Chapman, Washington, on evangelistic work, aroused much enthusiasm and interest. He was introduced by Principal MacLaren as one of the greatest of evangelists. He made a strong plea for closer attention of the Assembly to evangelistic work. He said he was commissioned by the General Assembly of the United States, which met in Kansas City two weeks ago, to appear before this Assembly and express the hope that an Evangelistic Committee would be appointed to carry on the work in Canada similar to that in the United States. Every Presbyterian minister in the United States stood now for evangelism. There was no problem of the city which he could not solve. It was only necessary to intensify the preaching. He deprecated irresponsible evangelism, and believed the church should train its own evangelists, using them on the frontier, in the rural districts and in city churches. He lectured in professional evangelism, in the hope of the church was not in that branch. Pastoral evangelism was the ideal kind that counted.

A resolution by Principal Gordon expressed appreciation of Dr. Chapman's address and named a committee to consider the whole question of evangelistic work, reporting to a later session.

The report of the home missions (eastern section) was presented by Dr. McCurdy, who pointed out that the west was making heavy drafts on the men of the east.

The need of men was emphasized by Rev. S. J. McArthur, who told of the difficulties of keeping up with the Gospel work in Newfoundland, Labrador and parts of New Brunswick.

Home Missions, Eastern Section. The Home Mission Committee, eastern section, Rev. J. S. Sutherland, Halifax, convener, which has oversight of New Brunswick, Nova Scotia, Prince Edward Island, Newfoundland, also of work on the coast of Quebec and Labrador, and part of the State of Maine near the New Brunswick border, reported contributions of \$13,301.18 for the past year, besides \$4,694.42 for the Northwest. The number of ordained missionaries is eighteen. Grants aggregating \$2,490.87 were received from congregations from the home mission fund. The reports from the field, served by catechists are gratifying, a marked advance being noted in almost every phase of the work.

The great need of the hour, as Rev. James Ross, superintendent for the Synod of the Maritime Provinces, puts it, is a larger number of young men in whom the spirit of God is to man the pulpits, for there are numerous vacancies in that Synod, with no immediate prospect of supply. The Halifax Presbytery has taken a forward step in Newfoundland. There were in the Synod's field twenty-eight, catechists and six ordained missionaries.

The report was adopted. Sabbath Schools. Rev. Alexander McGillivray, Toronto, presented the report of the Sabbath schools.

The report showed a marked increase in the four western Synods in the number of schools reporting the total being 2,919 (1,578 Presbyterian, a gain of 64, and 341 union, a loss of 21). The total enrollment, including Presbyterian teachers and scholars in union schools, is as follows: Officers and teachers, 23,011; a gain of 312; scholars, including Bible classes, 194,334, a gain of 6,530; average attendance, 134,251, a gain of 4,165; home department, 8,384, a gain of 666; errand roll, 8,992, gain unknown, as not reported in 1906. The contributions also show a marked increase throughout for running expenses, schemes of the church and children's day fund, reaching a total of \$162,531, a gain of \$9,715. The number of schools contributing to the schemes was 982, a gain of 23, and to children's day fund 1,636, a gain of 52.

The report was adopted. The Sabbath school, publications report, presented by R. Douglas Fraser, Toronto, was regarded as satisfactory, and was adopted.

There were printed and distributed during the year sixty thousand copies of the Presbyterian Record, an advance of 8,000 copies over 1906, equal to a thousand libraries, each containing three hundred volumes, of three hundred pages each.

The circulation of the Sabbath school publications, of which Rev. R. Douglas Fraser, D. D., is editor, and publisher, show an increase beyond any previous year, the total being 237,000. The evening sederunt was devoted to

RECENT VISIT OF GOVERNOR-GENERAL TO THE STONEY CREEK BATTLEFIELD.

The above cut is from one of the best photographs obtained of the recent visit of the Governor-General and party to Hamilton. The group includes His Excellency Earl Grey, Colonel Hanbury Williams, Lieut.-Col. Hon. J. S. Hendrie and Col. Hon. J. M. Gibson. The ladies, reading from right to left, are Mrs. Bertie Smith, Mrs. J. S. Hendrie, Mrs. J. M. Gibson, Lady Grey, Mrs. John Calder, Mrs. John Crerar, Miss Nisbet, Miss Hendrie and Lady Sybil Grey.

the subject of foreign missions, and the address of Dr. R. P. McKay, covering a fourteen months' tour of the far east, received close attention.

Foreign Mission Committee.

"The history of the missions under the charge of your committee during the past year has been one of mingled light and shadow," runs the report of the eastern section of the Foreign Mission Committee. Rev. E. D. Millar, D. D., Yarmouth, N. S., is convener. It continues:

The receipts for the foreign mission fund from all sources during the past year have been \$46,635; they totalled in 1906-07 \$45,288.64.

The expenditure during the year has exceeded this amount by \$8,849.88, which, with the debit balance of the preceding year of \$3,792.19 added, makes a total debt on February 29 of \$12,042.19.

The western section, with Mr. Millar and Rev. W. A. Martin, of Brantford, as joint conveners, after sketching conditions in North Formosa, Central India, Honan, Shanghai, Macao and among the Indians and Chinese in Canada, and embodying a brief report of the secretary's, Rev. Dr. R. P. Mackay's visit to the fields in India, China, Formosa and Corea, reports an increase of the staff in the south China mission (which has its headquarters now at Kongmin instead of Macao) by four new missionaries, that of north Formosa by two, the Central India staff by three and the appointment of one to Indore.

The Women's Foreign Missionary Society's work and that done by the Women's Missionary Society (eastern) for foreign missions in south China are briefly included. The former shows a great increase in membership, and a gain of \$2,883 in contributions. The Women's Missionary Society supports three women missionaries in south China (Macao), and has asked for another this year.

The work among the Jews in Toronto, numbering 15,000 in 1907, and rapidly increasing, was reported with much satisfaction for its growth in two months. The year closed with a deficit of \$11,485.42. The receipts totalled \$167,593.59, as compared with \$180,369.65 last year. Dr. MacKay's address followed, after which the report was adopted.

A HUMAN DOCUMENT

The Story of an Extravagant Wife and a Wretched Husband.

An account of a wrecked family life which appears in the New York Independent bears every evidence of being a real human document. A young clergyman married the daughter of a college professor. By following her desire for an expensive wedding journey, the young clergyman was \$400 in debt. His field of work was a small town in the far west. He soon discovered that he must limit her expenditure, as she was reckless in running up bills. She resented this and became more and more discontented. After leaving her husband for three months, for the purpose of taking violin lessons, for which he could ill afford to pay, she returned for a short time, but eventually she went to her former home, saying that when her husband obtained a post in a "livable" town she would go back to him.

The minister succeeded in finding a church in the east, says the Providence Journal, and his wife joined him, seemingly fairly contented. But an offer from her former teacher to take her touring in recitals induced her to leave her husband again; and after this she came home for brief intervals only, always demanding money for dress at these times. Naturally the minister's congregation did not like having a pastor's wife who was a "stage lady"; the situation finally became unbearable. The man resigned from the ministry and went into business. But his wife still looked upon him only as a till to be plundered whenever possible, and returned to him only when she needed money. The result of this situation for the man can well be imagined. His reason for reciting the story is that he wishes to "warn any young man contemplating matrimony that unless he and his betrothed understand each other thoroughly on the financial question be-

BECK POWER GETS A JOLT.

International Waterways Commission Objects to It.

Should Take Power From All Three Companies.

Must Preserve Lake Level and Beauty of Falls.

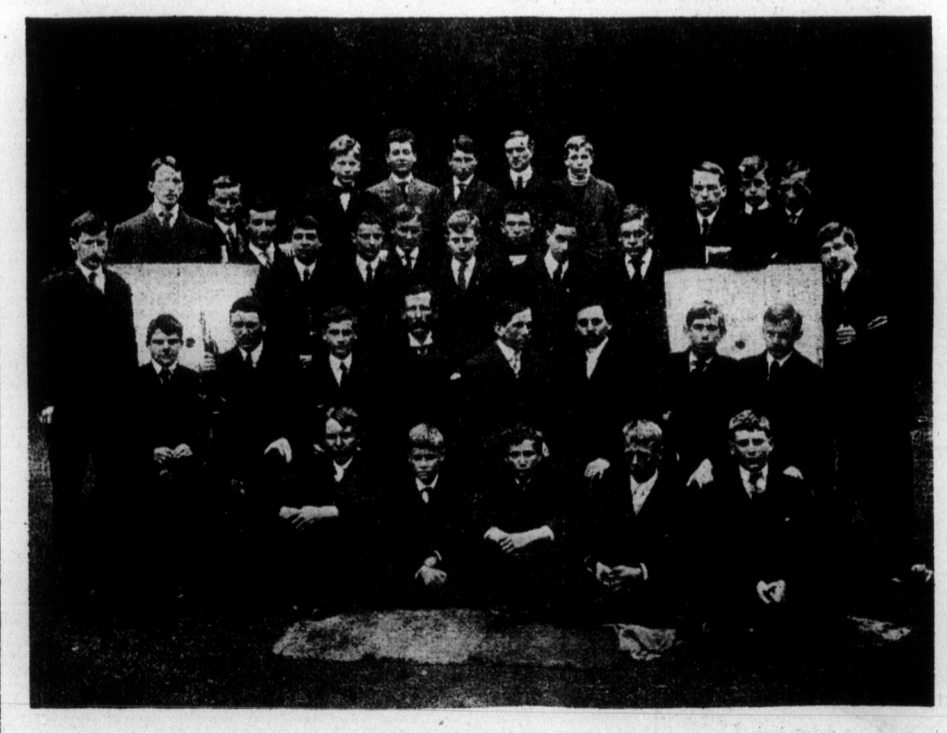

Ottawa, June 5.—The Canadian members of the International Waterways Commission, Messrs. George C. Gibbons, Louis Coste and W. J. Stewart, have presented their report covering the work for the year 1907. In reference to the Chicago drainage canal the joint commission recommends that the Government of the United States prohibit the diversion of more than ten thousand cubic feet of water per second for the canal, that amount being considered sufficient for the sanitary purposes of the city for all time, and providing also for the largest navigable waterway from Lake Michigan to the Mississippi River which has been considered by Congress. The amount by which the mean level will be lowered by the dis-

All Carpets Made, Laid and Lined Free Next Week.

The Thomas C. Watkins store announces that they will, for one week only, make, lay and line all carpets absolutely free of charge.

This free offer applies to every piece of carpet in the store—new lines, reduced lots, special priced lots and regular stocks. It means a straight saving of 12c to 14c on every yard you buy. Worth while, isn't it? Now is the time to refurnish. Buy your carpets at the Right House next week, and share in this splendid sale.

HIGHFIELD SCHOOL RIFLE CLUB.

This morning the Highfield Rifle Club furnished a team to take part in the inter-school rifle competition, inaugurated last year. This competition is carried out on the lines of the Ashburton English event, competed for by the great English public schools. In Canada the shooting takes place on the same day at the different schools which have been invited to take part, the ranges being 200 and 500 yards, and the number on the team four. Seven shots, with a sighter, are allowed, and the best aggregate score wins. Though no prize has yet been offered, it is thought probable that a shield may soon be presented for competition. There is perhaps no sport in which steadiness of nerve is so cultivated as in shooting; nor is that all, for besides an invaluable accomplishment to the future defenders of the empire, shooting goes far to bring out the many qualities in boys—those of generosity and cheerfulness under defeat. It soon becomes apparent to embryo marksmen that to be crestfallen in defeat is not "playing the game," and that in another fellow's success there is much cause for gratification. Realizing this, the Alexandra Chapter of the Daughters of the Empire has for the past three years presented

charge of ten thousand cubic feet through the canal is estimated at about six inches in Lakes Huron and Michigan, and about five inches in Lake Erie and four inches in Lake Ontario. Any further diversion, the commissioners say, would mean the necessary expenditure of a very large amount of money to restore depth in the harbors and to maintain a uniform draught of fourteen feet in our canal system.

Against Niagara Dam. With respect to the proposal to erect a dam or dams in the Niagara River, with a view to maintaining the level of Lake Erie, the Commission have agreed that no works should be authorized which would lower the levels in Lake Ontario or the St. Lawrence River. If some scheme could be devised which would improve navigation in Lake Erie without injury to other interests it should be supported, but the whole matter will receive more careful consideration before any recommendation can be made.

Power Development at Niagara. The Canadian commissioners make some important recommendations with regard to the question of power development at Niagara Falls. "All these proposed developments," the commissioners say, "would affect more or less seriously the level of Lake Erie, and all are objectionable on that account and wholly opposed to the principle adopted by the commission. The direct diversion, as proposed, of ten thousand cubic feet per second from Lake Erie to the Jordan River is considered especially objectionable, and would mean the reduction of the lake level by more than six inches." The

joint commission succeeded in agreeing upon the following conclusions:—First, that it would be a sacrifice to destroy the scenic effect of Niagara Falls; second, more than 36,000 cubic feet per second on the Canadian side of the Niagara River and 15,000 cubic feet per second on the United States side, including diversions for car purposes on the Erie Canal, cannot be diverted without injury to Niagara Falls as a whole. The commission therefore recommends that the diversions of water be limited to these amounts, respectively, and in addition thereto a diversion for sanitary purposes, not to exceed 10,000 cubic feet per second, be authorized for the Chicago drainage canal.

Treaty Should Be Limited.

The Canadian section, while assenting to the above conclusions, did so upon the understanding that any treaty giving effect thereto should be limited to the terms of twenty-one years, and should also establish the principle applicable to all diversions or uses of water adjacent to the international boundary. Dealing more particularly with the situation as it affects the three companies now established on the Canadian side, the commissioners say it would perhaps have been wise if development had been limited to the generation of electricity for distribution in Canada. In that case there would most likely have been one corporation up to this time, which would have fully supplied the Canadian market. It would be unfortunate, the commissioners think, if with the same objection in view, namely, the protection of the public interest, the policies adopted at Ottawa and Toronto should work apart.

The Municipal Scheme.

"If the municipalities of western Ontario elect to assume the burden of distributing in the hope of thereby securing cheaper power, it seems to the commissioners a most desirable plan that they should take over all the distribution and should acquire their power at Niagara Falls, not from one company, but proportionately from each, so that control over the export of each can be maintained. Duplicate lines would be wasteful and undesirable."

The report concludes:—"Your commission respectfully submit that each of the companies should be compelled to supply the Canadian demand proportionately, and only be allowed to export its surplus. If the principle of proportionate supply to the Canadian market be maintained, your Government could control the export and so insure at all times an ample supply for our use. This policy would be quite consistent with the terms of the agreements, not do any injustice to any of the companies and yet fully conserve the public interest. If we should ever require more than two hundred thousand horsepower (half of the production) we can safely leave until then the adjustment of that difficulty. In the meantime an additional supply may be made available by the use of the water below the falls."

HARD BLOW FOR UNIONS.

The Winnipeg Plumbers Fined Two Thousand Dollars.

Winnipeg, June 5.—The long-drawn-out litigation arising out of the claim for damages entered by the Master Plumbers against the Plumbers' Union as the result of the strike two years ago was concluded to-day, when Justice Mathers gave judgment which will have a very far-reaching effect on all similar labor troubles. He found the defendants guilty, and fined the union \$2,000, giving judgment against certain individual members for the amount. He also issued a perpetual injunction against picketing and interference with men at work. His Lordship said the men were within their rights in striking themselves, but they had done wrong in picketing the works of their former employers, and in inducing the men they brought here under contract to desert employment.

A life-saving service is to be established on Toronto Bay.

TIRED OF OBSTRUCTION.

Conservative Member Rebukes His Colleagues.

Mr. Fielding Intimates Some Action May be Taken.

Mr. Oliver Gets Some Immigration Items Through.

Ottawa, June 5.—Dr. Chisholm, Conservative (East Huron), acted the part of the candid friend this evening, and he spoke out plainly against the waste of time which has resulted from the tactics of his party. Though he did not specifically blame the Opposition, it was impossible to doubt that he had in mind the wilful obstruction on the part of his political associates when he declared that they were acting like a pack of schoolboys. At any rate the Liberal members interpreted the doctor's animadversions in that light, and cheered accordingly. Dr. Chisholm made it plain that he shared the views of members on the Government side, who, in the course of a discussion precipitated by Mr. Owen, came out boldly in favor of an amendment of the rules of the House, which would obviate such senseless obstruction as has been the practice of the Opposition since the beginning of the session. Hon. William Paterson's biting criticism at Brantford of the Conservative blockade had proved too much for Mr. Owen, who protested that the Minister of Customs had been guilty of misleading the electors in regard to the attitude of the Opposition. This gave Mr. Fielding an opening, and in a brief speech he drove home with relentless force the responsibility which had been assumed by the Conservative party in wilfully blocking the passage of supplies. The Minister of Finance headed the obstructionists; they had created a situation sufficiently grave to warrant a constitutional remedy, and he more than hinted that the patience of the Government had almost become exhausted. Mr. Gordon, of East Keat, and Mr. Duncan Ross, of Yale-Carleton, emphasized the dissatisfaction on the Government side with the delay of business, and made a strong plea for the adoption of the closure. Messrs. Lancaster and Lennox gravely disclaimed that the Opposition had been obstructing at all, and they showed that it was the Government who were the delinquents, but Mr. George Taylor, the Conservative whip, again spoiled the show by reiterating that not a dollar of supply would be allowed by the Opposition until the elections bill had been withdrawn. Dr. Chisholm's outspoken criticism was the final commentary upon the tactics of his party, and when he sat down the virtuous indignation of the Opposition vanished and the House got into supply. By midnight Mr. Oliver had succeeded in getting items amounting to \$1,500,000 through.

Mr. Graam then suggested that the estimates for the Intercolonial Railway be taken up, explaining that the employees were very anxious to get their pay. Mr. George Taylor, who was leading the Opposition, refused to proceed any farther, however.

Dr. Daniel resented the observations made by Mr. Fielding yesterday which referred to the waste of time involved in the discussion of the question of the representation of the Maritime Provinces.

Hon. Mr. Fielding thought the record of yesterday's proceedings would speak for itself. Hon. Mr. Pugsley took exception to a remark by a member of the Opposition that the Minister of Public Works had not taken part in the debate. There were thousands of men from the Atlantic to the Pacific who were looking for their pay, and he had resolved not to be a party to wasting one minute of the time of the House. (Liberal cheers.)

Mr. Taylor is Warm.

Mr. Taylor, when the House resumed after recess, made a strong political speech, in which he charged that by bribery, corruption, ballot-switching and the thin red line the Government had managed to get into power. Then he made numerous references to the "iniquitous election bill," which, he declared, contained a clause under which the Government could make collections from contractors.

Mr. Taylor was called to order for discussing a bill not for the present before the House. He made a new start, and had not gone far before he referred to the Minister of Justice, "who had done what his predecessor would not do, namely, brought in the election bill," as a man who had been "brought up to the feet of ex-Premier Ross to do his dirty work in the Province of Ontario."

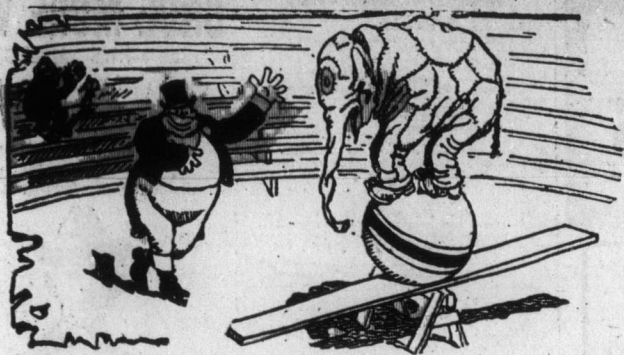

Mr. Taylor was promptly called to order and compelled to withdraw the expression. Once again he reverted to the election bill, speaking of it as a measure to allow every railway navy in the country to vote to keep the Government in power.

Having for the third time been called to order, Mr. Taylor managed to keep within the bounds for the rest of his speech, which was devoted to a frank declaration that the Opposition would oppose supply until the objectionable clauses of the election bill were modified to the satisfaction of the House or the bill withdrawn.

Mr. Carvell created much amusement by his clever comparison between Mr. Lancaster's speech of one hour and a half to prove that the Opposition were not obstructing supply, and Mr. Taylor's frank confession that they were, and intended to do so. It was easy to see that the Opposition were frightened, because of the hole they had got themselves into, and were trying to offset the truth, which the people here were not obstructing supply, and Mr. Taylor's frank confession that they were, and intended to do so. It was easy to see that the Opposition were frightened, because of the hole they had got themselves into, and were trying to offset the truth, which the people here were not obstructing supply, and Mr. Taylor's frank confession that they were, and intended to do so.

Hon. Mr. Oliver hoped that in future this would be possible. Following a discussion lasting some two hours, \$900,000 was voted under the head of Dominion lands.

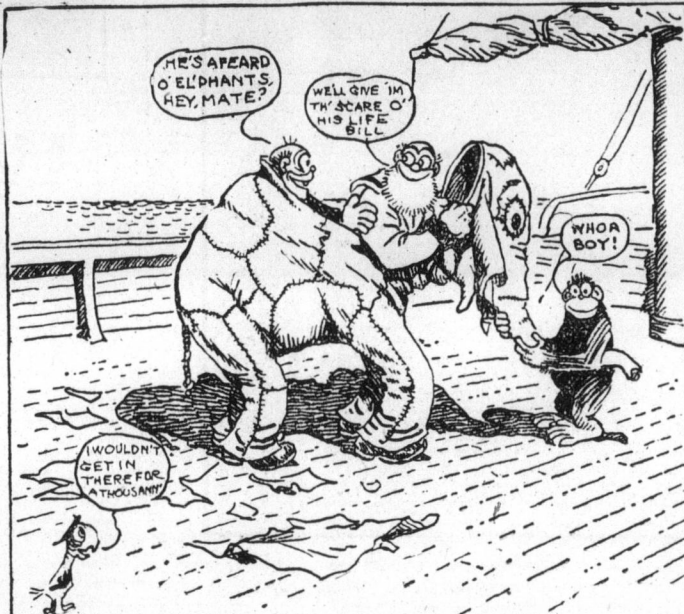

On Monday consideration of further he made numerous references to the estimates of the Interior Department will proceed.

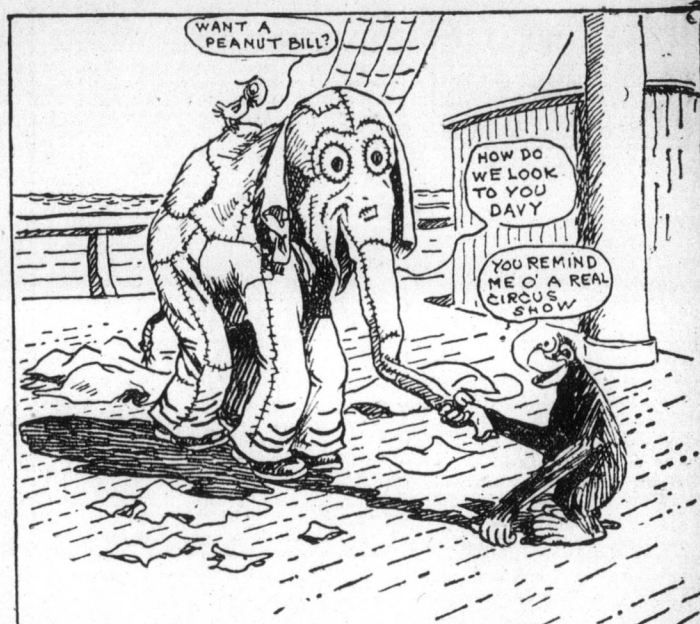

BINNACLE JIM TELLS HOW HE AND BILL SEWED THEMSELVES UP

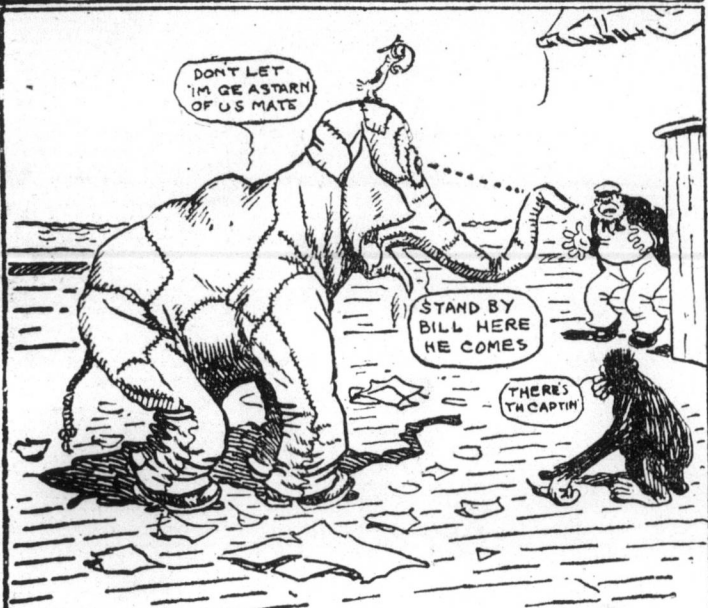

1. "They's a lot o' drudgery on shipboard as you muggs know, but fer a seaman-th' most un-excitin' work in mendin' sails. I recommerced once when th' old 'Dancin' Sal' 'ad been through a bit o' a blow. Old Walrus set Bill an' me to work at that very thing, an' th' idee occurred t' me all at a flash t' rig up one o' them make-believe el'phants what you see on th' theatre stage ashore.

2. "Bill fell in 'ith th' notion right off, an' as th' cap't'n wus snoozin' below decks we started in, an' arter cuttin' an' fittin' fer an hour or so you'd be astounded, as wus Bill an' me, t' see th' result. Yes, sir, a reg'lar el'phant an' when we got inside you couldn't tell th' difference; ears, trunk an' all 'ith a bit o' rope's end tail as a finishin' touch.

3. "Th' idee o' course wus t' scare ol' man Walrus out o' a year's growth, an' we figgered on rehearsin' awhile about th' deck afore we give th' big show. The sea wus calm, but th' weather so uncommon hot, it bein' off Borneo, 'at Bill got t' complain' about th' air supply, so we jest stood there while Davy Jones patched us in with a sail needle an' made things snug, general.

4. "We 'us all in high spirits, 'cept poor Bill. Bill 'us th' mizzin' end o' th' entertainment, an' took on dreadful at not 'avin' a look-out. He kep' a-talkin' o' an' albatross wot he'd killed one day, by accident, an' predicted 'at no good 'ud come o' th' scheme, when all o' a sudden who should pop out from behind th' deck-house but old Walrus.

5. "Well, sir, you'd a thunk he 'us froze solid th' way he stood an' stared at us, (I mean't say th' el'phant). When he started t' rub his eyes I give Bill th' signal t' charge, an' arter we watched step once we went clatterin' over th' deck fer th' skipper like th' Old Harry hisself. It 'ud make you laugh t' see th' way that ship's master showed us his heels.

6. "Round an' round th' deck we went an' th' old cap gettin' redder in th' face an' breathin' harder all th' time. I could feel Bill commencin' t' wobble hisself, when jest as we wus about t' overhaul th' skipper, what does he do but jump, sudden-like, behind th' main mast an' plump we went into th' thing an' wus stove up like an egg-shell as th' feller says.

7. "Well, sir, that added th' fun on our side, fer Bill, who'd had that albatross thing on his mind all along, an' had got hot an' tired o' bein' suffocated that way in th' sail, flew off o' his handle an' commenced t' lay th' blame on me fer runnin' afoul o' th' mast. One word led t' another 'til we fer-got all about th' capt'in an' had a free fight right there in that bag.

8. "They's no tellin' which o' us 'ud a got th' best o' th' argyment, fer all o' a sudden we got a whack over th' head 'ith a belayin' pin an' heard th' capt'in's voice like a fog-horn as he came bearin' down on us. We 'us caught, as they say ashore, here, with th' goods on, an' 'ef ever two mortal seamen wus took at a disadvantage, it wus no less than me an' Bill.

9. "I've suffered shipwreck an' starvation an' been cast adrift in an open boat, an' can usually take my medicine 'ithout grumblin', but swoller me by a shark, if I ever vollen-ter t' sew myself in a bag again. But, as Bill said arterward, we'd had th' daylight's skeered out o' old Cap Walrus fer a while anyway."

U. S. Presidential Candidates

GEORGE GRAY

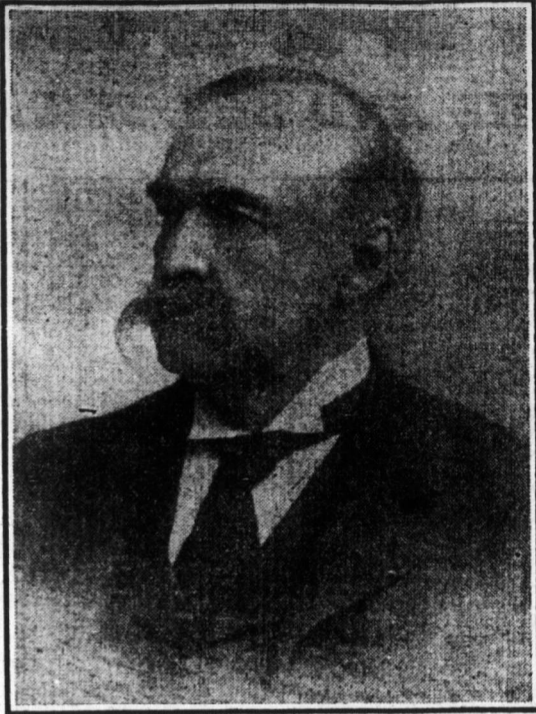

Gray's mother was Elizabeth Scofield, of Stamford, Ct.

George Gray inherited from his father studious habits and a fondness for literature. As a boy he developed a great interest in machinery, and a practical side of both the railroad and manufacturing business. His play time was largely given over to experiments with mechanical contrivances, and incidentally he spent much time on the shores of the Delaware river, and came in due course to possess unusual skill in the handling of a sailboat. Having received his elementary education at home and being prepared for college, he was entered as a student at Princeton as a junior and graduated in 1859 at the head of his class.

During Gray's college term his father met with financial reverses, and the young man was compelled to suddenly rely upon his own resources. However, he had studied law both in an office in his home town and at the Harvard Law School, so that he was admitted to practice at the bar in 1863, and thereafter advanced rapidly in his profession. Judge Gray has never made any pretensions to oratory, but he is a forceful and effective public speaker, whose arguments invariably carry conviction.

The young man's success in private practice led to his first service as a public officer, when he was appointed attorney general of the state in the year 1879. His administration of the office was so successful that upon the expiration of the term in 1884 he was re-appointed. During the first year of his second term as attorney general George Gray was elected United States senator for Delaware to succeed Mr. Bayard, who resigned to become secretary of state, and he served in that capacity uninterruptedly until 1899, having completed the unexpired term of Mr. Bayard and two full terms to which he was thereafter elected.

His 14 years of service in the Senate were notable in many respects. He was recognized as one of the Democratic leaders, and his influence in the body was well illustrated when he made that remarkable three-day speech against the notorious Force Bill which was generally credited with having served as the death blow of the measure put forward by the Harrison administration. During the two and a half terms in the Senate, Judge Gray always took a leading position in the discussion of the tariff question, constantly contending that the existing tariff laws conferred special

LATEST PHOTO OF JUDGE GEORGE GRAY.

privileges upon a small class of beneficiaries and tended to foster monopolies.

As a promoter of international and industrial peace, Judge Gray has rendered most notable service. In 1898 he was selected as a member of the Joint High Commission which adjusted numerous vexed questions affecting our relations with Canada. He was chosen by President McKinley to be a member of the Permanent Court of Arbitration at The Hague, and as a result of holding that position presided at one of the great unofficial gatherings held in this country to promote internal peace.

At the close of the Spanish War,

after hostilities had been suspended by an armistice, he was appointed one of the members of the Peace Commission, which met in Paris to negotiate a treaty between the United States and Spain. As a member of this commission he opposed the proposition to take over the sovereignty of Philippine Islands. At the suggestion of the President of the United States, Judge Gray became the leading member of the Anthracite Arbitration Commission, which settled the great coal strike of 1902. This body was successful in sending back to work at increased wages and under better living conditions, more than 170,000 miners.

RESIDENCE OF JUDGE GEORGE GRAY.

Following the successful adjustment of the anthracite dispute, Judge Gray was chosen virtually sole arbitrator of the Alabama Coal Strike Commission in August, 1903, and he was also the sole arbitrator in a dispute between the Illinois mining operators and their workmen. In all of these cases his decisions ended the controversies, were accepted by both sides, and resulted in sending the men back to work. Years ago, Judge Gray was known to be seriously considered by President Cleveland for appointment as Chief Justice of the United States Supreme Court, and his whole later career demonstrates his fitness for any judicial post. In 1866 the change of party supremacy having resulted in his retirement from the Senate, he was appointed United States Circuit Judge of the Third Circuit and since that time has worthily discharged the duties of the office in question.

Judge Gray, although now well past three score years, is as vigorous as most men of 50, combining in a marked degree the physical and mental prime of life with the wisdom and experience of maturer years. Judge Gray married Margaret E. Black, of the quaint old homestead in Wilmington has always been known as one of the most hospitable homes in Delaware's principal city. Judge Gray has an unmarried daughter, Miss Anna, who resides as one of the leaders of the old society of her Delaware home and who has frequently visited in many of the principal cities of the United States. Miss Gray stood sponsor for the gunboat Wilmington, when the vessel was launched, and in consequence, a prominent member of the newly formed organization of young women who have christened Uncle Sam's warships.

WALDON FAWCETT.

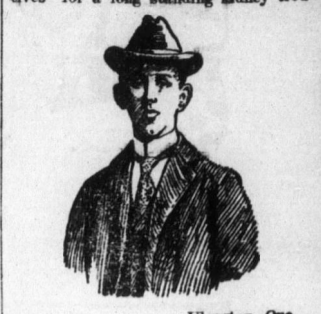

The Story of Innach Garden.

"Arma virumque cernit."
The man with two arms and a bow,
I sing.
The Spring
Saw him with spade and hoe and rake,
Dig and sweat and arms that burn and ache,
At the hard earth where
O'er the adamant sod
All day long like a slave he wrought,
The spade was dull and the day was hot,
When a cooler and softer place he sought,
Sunstroke and brickbat filled the spot.
From rosy dawn
Till the day was gone,
With tears and sweats his labored on,
By Luna's light the lantern led
With seeds of Lactuca sativa were fed,
Where the onion grew at its breathful taste,
The buds of the radish were sown,
And you never have seen a more charming
Garden.
Then those he put in the oblong mound,
With violet tri-color bordered row,
A row of Romaine cress,
Back in the kitchen garden bed,
Raspberries and strawberries red;
Where the tall poles burden the haunted
Air in
The place where he plants Phaeolus vulgaris,
All of the seeds that the grocer had,
Luz of things good and some things bad,
Things that he didn't know how to spell,
Rocks that he didn't know how to sell,
Unknown vines and suspicious weeds,
Scraps that came up and turn to weeds,
Things that it would poison the children to pull.
Every inch of his garden he filled it full.
Daybreak came and its earliest ray
Smiled on the garden just as it lay;
Eight o'clock and the man went down
To his office desk in the busy town;
Saw, and his family waited away,
With a rich relation to every day,
Then,
Just as the whistles were rolling then,
A bell,
Prize of the flock that lived next door
(Numbering 12)
Peeped through a crack of the neighbor's fence,
And said to her comrades, "Lactuca, bean."
Hens!
They came by one, by scores, by tens,
Because old birds, a certain crew,
Came with the crowd as they always do,
Having a right as big as a goose,
But worse than snow plough on a scratch;
Deeking fowls that make things whir
When they dig up the ground with an
extra spur.
Malay, and Hamburg, spanned and plain,
White-necked chickens that all from
Spain,
Fighting game chickens, Poland black,
Guinea fowls, and the awkward
Hens with chicks that weeded and cried,
Hens bereaved, whose nestles had died,
Golden roosters, that never die,
Grave old hens that were at it yet,
Portly old roosters solemn and stout,
Old-time braves with the eye out,
Hens with broods of awkward ducks,
That never needed a soldier's stick,
And never regarding their worried looks,
Plunged into gutters and ponds and brooks;
Mottled roosters, with tall feathers,
Fowls whose troubles were just begun,
Tough old fowl, for the boarders' collation,
Yellow-necked hens of the Western
emulsion,
Bright gems in the circuit rider's vacation,
Barnyard ducks with their awkward
tetter,
Husking around for some warm deep water,
Blue-looking turkeys scratching a living,
Fore-ordained to die next Thanksgiving,
And here in the mob was a solemn "peasant"
Of green, with tremendous feet for a
"strawite."
Not much on the scratch, but 'twas easily
seen
They were worse on grass than a snowing
machine.
Where they came from nobody knew,
But over the fence in clouds they flew,
And into the garden they came
They scratched till they panted 'out of
breath,
No pause, no stop, no stay for rest,
Till the sun went down in the crimson west,
Till the man came home from his work and
found
The yawning clefts in the river ground,
And he gazed for a space, with a tearful
start,
While the deep sob broke from his grateful
heart
And he clasped in his arms his babes and
spouse,
"Thank heaven the earthquake spared my
house."
—Occident, in Toronto Saturday Night

ONCE MORE WELL

"FRUIT-A-TIVES" ALONE CURED HIM

Clarence J. Placey is a farmer of Ulverton, Que., known as a man of integrity and good judgment. He writes in no uncertain terms of the great benefit he derived from taking "Fruit-a-tives" for a long standing kidney trouble.

Ulverton, Que.

I suffered for many years with kidney trouble, with bad pain in the back and all symptoms of disease of the kidneys. I took every known kidney remedy and kidney pill, but nothing gave me relief and I was getting discouraged. I was advised to try "Fruit-a-tives" and I did so—and this medicine cured me when every other remedy failed. I used altogether fifteen boxes of "Fruit-a-tives" and from the outset they gave me relief and I am now practically well again, no pain in the back, no distress, and all the symptoms of severe kidney disease have entirely left me. I am very thankful to be once more well, and I freely make this statement for the sake of others who may suffer as I suffered and to them I say "Try Fruit-a-tives."

(Signed) Clarence J. Placey.

"Fruit-a-tives"—or "Fruit Liver Tablets" are sold by dealers at 50c. a box—6 for \$2.50 or will be sent on receipt of price. Fruit-a-tives, Limited, Ottawa.

MAY CROP BULLETIN

The following information regarding agricultural conditions in the Province about the middle of May has been issued by the Ontario Department of Agriculture:

Full Wheat—While correspondents are not nearly unanimous, the general tenor of reports regarding fall wheat is favorable. In most cases the crop entered the winter a little short on top, but snow fell early, and lay on the ground nearly all the season, thus affording good protection, except on knolls where the young plants were exposed, and in some of the fence corners, where the crop was smothered. Early snow wheat did better than that put in later, and the crop did best on rolling land.

Winter Rye—This crop wintered even better than fall wheat, but it is not largely grown for grain, being raised chiefly for pasture, green feed, and for turning under for corn. Correspondents are much divided in their opinions regarding the condition and prospects of the clover crop, descriptions ranging from "excellent" to "poor."

Live Stock—It is the general opinion that the average condition of live stock is much better than was expected, and the prevalent handling of fodder supplies has shown that Ontario farmers as a class are well capable of meeting such an emergency. No disease of an epidemic nature has been reported amongst live stock. Horses are described as being rather thin, but they are in fair working condition.

Supplies—Hay was so scarce and dear last fall that much anxiety was felt by many as to whether they could pull along until the new growth was available. Some farmers, however, had been forewarned by the experience of those owning live stock, by careful feeding, came through the winter without having to resort to purchasing, and a number of persons who were holding surplus hay over for famine prices are now willing to sell at from \$4 to \$6 per ton. Hay was offered for it in the fall. Oats have not been so scarce, and high in price for years, although here and there a few farmers report a fair supply on hand. Most of the wheat has been sold, and the supply in the barns is much less than is usual at this time of the year. Some farmers than ever are having flour, and are feeding or selling all their wheat.

Fruit Trees—Orchards have come through the winter in good condition, having suffered less than usual from severe cold, ice storms, etc. The San Jose scale and the orange-bark borer are reported at various points, but the spraying campaign is being more vigorously entered upon than ever, and more attention generally is now being paid to orchard trees. Fruit buds promise a good yield should rain hold up during the period of bloom. In short, the spring outlook was never better for Ontario fruit.

Spring Seeding—In the Lake Erie district seeding was almost completed by the middle of May, and in some of the other western counties work was also well advanced, although hindered somewhat by rain. In the eastern half of the Province, more particularly in the St. Lawrence and Ottawa counties, heavy rains have kept farmers off the land, except in most favorably situated places, and much spring sowing remained to be done.

The "Soo" is an Ancient Place.

The summer visitor who sails up the Great Lakes in a magnificent passenger steamer which joins the procession of vessels that crowds through the locks of the "Soo," can hardly realize that this modern-looking town is so closely associated with the traditions of frontier life. The shores of the river and the pier end of Lake Superior are largely populated with Indians and half-breeds who cling to their tribal customs. They bring their canoe loads with willow wares and other souvenirs for sale, and during the summer are a picturesque feature of street life at the "Soo." The visitor who sees a group of these natives, and then runs across perhaps two or three dog teams hitched to little log stores and wagons, waiting outside the stores while their owners are shopping, is impressed with the curious mixture of the past and present which is to be found in this Michigan town.—From The Outing Magazine for June.

CHARLES E. HUGHES

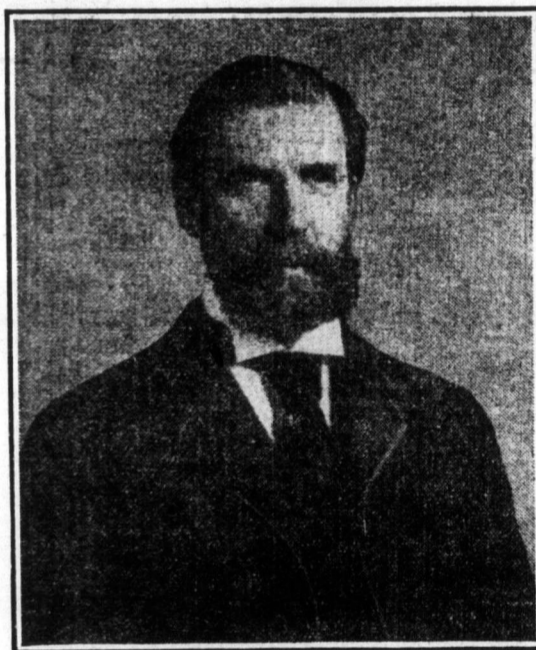

and the townspeople, no doubt, the elder Hughes accepted the proposal of his six-year-old son, and for more than four years the lad pursued his life in Delaware, with which state his recitations in the primary studies and in mathematics, French and German, while his father gave supervision to his work in Greek and Latin. When this remarkable lad was 10 years of age the family removed to New Jersey, and there he attended public school. Four years later he was a freshman at Colgate University, after which he entered Brown, from which college he graduated in 1881.

Hughes appears to have been attracted from childhood to the profession of law and after a year's preliminary study in a law office in Delhi, N. Y., he entered Columbia Law School, where he stood at the head of his class and took all the honors. Similarly when in 1884 he was admitted to practice he passed the best examination in the history of the New York bar. Incidentally it may be noted that while yet at Columbia Mr. Hughes spent some months in the office of Gen. Stewart L. Woodford, then district attorney and later United States minister to Spain—the man who is now the manager of his presidential canvass and president of the Hughes National League. Upon admission to the bar he joined the office staff of Walter S. Carter, one of the most prominent lawyers in New York and a man famous for his discernment in picking "coming men."

Such was Attorney Carter's appreciation of the exceptional ability of his new "find" that he soon transferred to him all the more intricate portion of the legal work of the firm. Romance aided in cementing this business association when a little later Hughes fell in love with and married Antoinette, the daughter of Mr. Carter. He was 25 years of age when he married, and although, compared to many less able legal lights, he has never been much of a money-getter, he was, ere he had reached his thirtieth year, receiving an income of \$20,000 to \$25,000 a year. This was of course, ample to maintain his family in comfort and the home life of the Hughes family has always been ideal. Mrs. Hughes, who is a graduate of Wellesley, is widely read and in full sympathy with her husband's studious and intellectual tendencies. They have one son and three daughters, and from present indications there is little danger that any of these young people will be permitted to be "spoiled" by flattery and public attention.

Governor Hughes has a passion for hard work and for the mastery of every detail of any proposition laid before him he accounts no expenditure of time and study an excessive price. This has been well illustrated by the various notable law cases he has tried, and was most convincingly demonstrated by his probing of corporation lawlessness, especially the insurance investigation, his successful conduct of which was instrumental in winning him the governorship of New York. As governor of the Empire State Hughes has emphatically "made good." His defence of the bosses and his manifest endeavor to conscientiously dispense even and exact justice to all interests, great and small, has won the hearty commendation of the great majority of the voters. That he can prove an energetic and stubborn fighter when occasion demands has been eloquently proven by his recent crusade for the enactment of anti-grabbing legislation.

The popular impression that Governor Hughes is excessively sedate is wholly incorrect. Among his intimates and the members of the college fraternities to which he belongs he is known as a splendid story-teller, and the vie with the late President

NEW PORTRAIT OF GOV. CHARLES E. HUGHES.

McKinley in the enjoyment which he can derive from reading aloud the Mr. Dooley yarns to an audience of sympathetic listeners. Similarly, Governor Hughes, who in his college days pluckily went in for athletics, despite the handicap of poor health, is fond of various outdoor pastimes. Fishing, camping, golf and mountain climbing are a few of his favorite diversions and divide interest with foreign travel, of which he is very fond, having made the trans-Atlantic trip more than a score of times.

Likewise is there little excuse for the widespread impression that Governor Hughes is cold, haughty and austere. As is natural with a student and a reader, Governor Hughes is somewhat reserved, but he is by no means frigid in manner, and certainly is not lacking in courtesy. To be sure, he could scarcely be denominated an ideal "mixer," but any lack in this regard is easily explainable by the fact that Hughes is not a professional politician. He has no especial liking for the game and his intimate friends declare that he would much rather be recognized as the head of the New York bar than be president of the United States.

WALDON FAWCETT.

Getting Use of Tent Life.

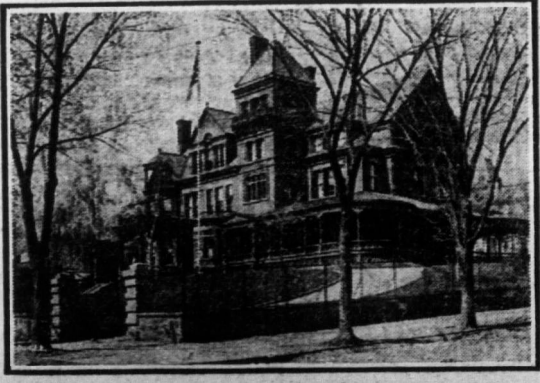

It is my habit to comb my hair before retiring, and to look at myself in the glass meantime. This may be due to vanity. It may be a sort of general inspection to see if I have added any new features, or lost any of those plucked from the family tree. Perhaps it is only to observe what the way of wrinkles and gray hairs, never mind the reason, it is a habit; but I didn't realize how precious it was to me until I got back to the tent and found that our only mirror was in Eddie's collection, in the back of a combination comb-brush affair about the size of one's thumb.

Of course it was not at all adequate for anything like a general inspection. I would just about hold one eye, or a part of a mouth, or a section of a nose, or a piece of an ear or a little patch of hair, and it kept you busy guessing where that patch was located. Furthermore, as the comb was a part of the combination, the little mirror was obliged to be twinkling around over one's head at the precise moment when it should have been reflecting some portion of his features. It served no useful purpose thus, and was not much better when I looked up another comb and tried to use it in the natural way. Held close and far off twisted and turned it was no better. I felt lost and distressed as one always does when suddenly deprived of the exercise of an old and dear habit, and I began to make mental notes of some things I should bring on the next trip.—From "The Tent Dwellers," by Albert Bigelow Paine, in The Outing Magazine for June.

Force of Habit.

"Does this car go to Twenty-fourth street?" inquired the elderly lady.
"No, ma'am, but I have something just as good," replied the conductor, who was formerly a drug clerk. "I can let you off twice at Twelfth street."—From the June Bohemian.

Kindness is often wasted; even the postage stamp must be licked before it will do its duty.

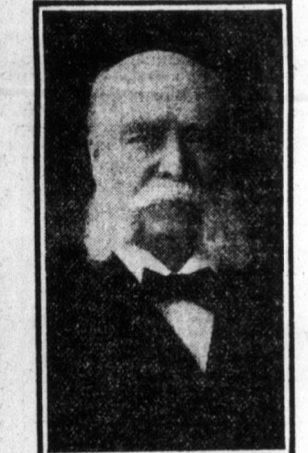

RESIDENCE OF GOV. CHARLES E. HUGHES, ALBANY, N. Y.

DAVID T. MARVEL, CAMPAIGN MANAGER FOR JUDGE GRAY.

The present indications are that the East, which one had almost a monopoly of Democratic leadership, will have but a single candidate of prominence to present at the Denver convention for the presidential nomination. This foremost "eligible" from the states bordering on the Atlantic is Judge George Gray, who was proposed by Delaware for president in 1904, and who is again brought forward with undiminished enthusiasm by the commonwealth that is geographically the smallest, but one in the sisterhood of states. Judge Gray, who has been conspicuously in public life since 1879 and has held positions of national prominence almost continuously since 1885, is known as a conservative in contrast to some of the more radical candidates, but his settlement of various labor disputes has shown to capitalists and laborers alike, that in his case designation as a conservative cannot carry any stigma.

Judge Gray, who is 68 years of age this month, was born and has lived his life in Delaware, with which state his ancestors for several generations had been closely identified. Andrew C. Gray, the father of George Gray, was, like his distinguished son, a successful lawyer, but during the latter part of his life became a potent factor in the promotion of the transportation interests of the state, being a leading spirit in the management of the Delaware and Chesapeake Canal. Judge

GEN. STEWART L. WOODFORD, Campaign Manager for Gov. Hughes and Presidential Candidate.

A man who has received the verdict of popular approval upon his administration as governor of New York State is bound to be a factor in the national nominating convention of the party to which he belongs. Just here it will be recalled that the New York gubernatorial chair was for Theodore Roosevelt a stepping-stone to the presidency. Small wonder then that there is much interest in the candidacy of Gov. Charles Evans Hughes, of the Empire State, for the Republican nomination for president. On the face of things Governor Hughes has not, personally, made anything like a personal canvass for the nomination as have some of his rivals, but his friends who have been looking out for his interests have by no means been idle.

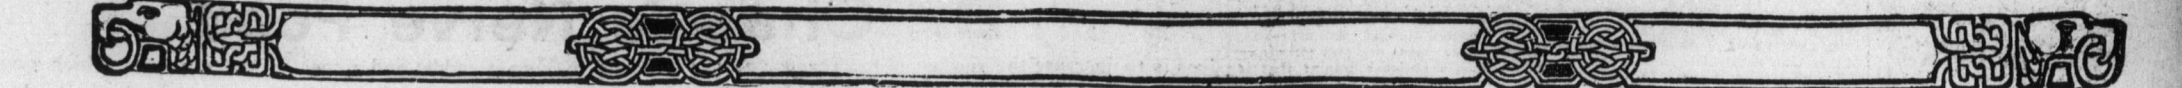

Governor Hughes entered his forty-sixth year only a few weeks ago, and is, with the exception of Secretary of the Treasury Cortelyou, the youngest man who has been prominently mentioned for either first or second place on the Republican national ticket. He is a native of the state which has honored him with the highest office in its gift, and there is still standing in the town of Glens Falls the modest frame cottage in which he was born. Hughes comes of Welsh ancestry on his father's side—the father having come to the United States only seven years before the birth of his now famous son—but his mother's family had long been established in Ulster county, N. Y.

The father of Charles E. Hughes was by profession a teacher of the classics, but ere he had been here more than a few years he was ordained into the Baptist ministry and was successively pastor of several churches of the denomination in Central New York. The only child delicate in health but mentally receptive and precocious, had the benefit of exceptional education opportunities, including, naturally, a thorough training in the Bible. He early evidenced a strong propensity for reading and had read all of Shakespeare's works before he was 10 years old. Charles started his school career when he was but five years of age, but his home instruction had been so wide and comprehensive that the routine of the primary grade appeared slow and uninteresting to him. Therefore, he approached his father with the declaration that he was tired of school and presented in written form an ingenious proposition whereby he was to be permitted to study at home.

Much to the surprise of the teacher

How To Be Healthy and Beautiful

By Mrs. Henry Symes

The Fat Girl

And It Is Fun, Too.

Deep Breathing Is for the Fat Girl—Because

No Matter What the Weather Is

A Simple Exercise Which Regulates the Lymphatic System

This Exercise Reduces the Hips

ONCE upon a time there was a girl who was pretty, but who grew fat and fatter till she was the fattest girl in her set—weighing 170 pounds at the age of 20. Now this state of affairs caused grief to the girl's father, who was a man of esthetic taste and of sufficient sense to know that increased avoirdupois does not always insure increased strength and health. The girl herself was not so troubled, for a dulled sensibility and indifference are characteristic of many fat people.

However, this girl was suddenly aroused from her lethargy by her father's offer of \$5 for every pound she would lose.

She experimented with ways and means—the unusual activity given her brain was helpful—and finally hit upon a method which proved most satisfying. She had once gloried in long walks and had been fond of sports, so walking and even running were resumed, as was also tennis. When engaged in these exercises (and it was summer, too) she was always arrayed in a white wool sweater, which induced profuse perspiration. The only caution necessary was to be prudent when the exercise

over, she sought rest and cool; to avoid draughts and cool water. At the end of the season she weighed just forty pounds less, had regained all her grace and comeliness and had added \$200 to her balance sheet.

This little story goes merely to show that, with proper incentive and systematic perseverance, proportionate and

youthful figures may be retained. The fat girl should guard against becoming indulgent in her habits. Seven hours is quite long enough for sleep, and the luxurious little day nap should be dropped from her program.

She should acquire active interests; her brain as well as her body needs stimulation.

Let her pursuits be varied. In order to

exercise all the muscles and to incite interest.

Long walks—no matter what the weather—are of benefit. All outdoor sports which will quicken the perception and induce quicker movement should be practiced. Jumping rope, if not overdone, and the heart is good and sound, is a good exercise, and it is fun, too.

Two exercises pictured are simple, and may be performed each morning upon rising. One tends to reduce the abdomen and lengthen the waist; Raise the hands above the head, with knees and elbows stiff, bend forward from the waist and try to touch the floor with the fingertips. Inhale a deep breath as you stand erect with raised arms; expel it as you bend toward the floor.

The other exercise reduces the hips: Stand with hands on hips and shoulders level; raise the leg, with the knee flexed, and make a quick side kick as high as may be; then bring the foot back to the floor and perform the action with the other leg.

Deep breathing is an exercise for the fat girl, because many stout girls have little chest development.

In the matter of diet she should be very careful and abstain from many goodies that girls dearly love—ice cream sodas and candies, and in fact, all sweets; soups and milk and starch foods.

The fat girl is not so likely to overeat as she is to be injudicious in her selection of food. The fat girl is inclined to be indulgent, and it is hard to impress on her so many "don'ts"—but we do it all in love.

Avoid that delicious little habit of between-meal eating.

method you describe use the following pomade: Iodide of potassium, forty-six grains; vaseline, one and three-fourth ounces; lanolin, one and three-fourth ounces; tincture of benzoin, twenty drops.

Make into a pomade and rub over the fatty parts twice a day. You should abstain from food that is especially fat forming—cereals, potatoes, corn, beans, etc. You should avoid sweets of all kinds.

Sage tea is the most harmless of remedies for darkening the hair. Make a strong brew of dried leaves, strain the liquid carefully through muslin, and to each pint add two teaspoonfuls of alcohol. This should be rubbed on the hair every night before retiring.

For Rough Skin
MRS. C.—The best thing to do for rough skin on the arms is to bathe the arms every night in alcohol. Rub them briskly, as this will improve the circulation of the blood.

This recipe will harden the bust and make it more firm.

This pomade should not be used as a massage cream, but should be applied after massage to restore a bristled or flabby skin: Oil of sweet almonds, six ounces; white wax, three ounces; tincture of benzoin, one and one-half ounces; pulverized tannin, six drams.

Wash for the Skin
BLANCHE—Cucumber wash is most excellent for the skin at all seasons of the year. To make it, take one or two cucumbers, cut them into rather small chunks without peeling. Put these into a mortar and pound with

a pestle (or use a heavy wooden potato masher and a heavy earthenware bowl) until the mass is pulp-like in consistency. Now filter this through a piece of cheesecloth or very coarse muslin, squeezing out as much of the juice as you can from the refuse. Now put the refuse and filtered juice into a clean enameled saucepan and simmer (don't boil) for ten minutes.

Then strain and when cold add alcohol to the proportion of one tablespoonful to half a pint of the strained liquid. Bottle and use to sponge your face instead of washing it during the day. The alcohol should preserve the juice.

To Develop the Bust
IVA—The following may be tried to increase the size of the bust: Lanolin, one ounce; cocoa butter, one ounce; sweet almond oil, one ounce. Put in small bowl, set in hot water until melted. Beat together and cool. Each night, after laying hot cloths on bust, rub it in by massaging gently and thoroughly in a circular direction for fifteen minutes.

I can give you a formula which will fade the brown spots somewhat, but they are almost invariably evidences of liver trouble. If you do not get better of them shortly after using the recipe, should advise you to consult your own physician in regard to the trouble.

Bichloride of mercury in coarse powder, eight grains; witch hazel, two ounces; rosewater, two ounces. Agitate until a solution is obtained. Mop over the affected parts. Keep the lotion out of the way of ignorant persons and children.

Mrs. Henry Symes' Advice to Correspondents

OWING to the great amount of mail received and the limited space given this department, it is absolutely impossible to answer letters in the Sunday issue following their receipt. The letters must be answered in turn, and this oftentimes requires three or four weeks.

All correspondents who desire an immediate answer must inclose a self-addressed stamped envelope for a reply. This rule must also be complied with in regard to personal letters.

Witch Hazel Cold Cream
MAY—Bathe your hands three or four times a day in warm water, using a good brand of soap. Rinse them carefully and dry thoroughly; then apply the witch hazel cold cream. This treatment if persistently followed will make the hands soft and white. Formula for cream is:

White wax, one ounce; spermaceti, one ounce; oil of almonds, one-fourth pint. Melt; pour into a mortar which has been heated by holding over some time in boiling water. Very gradually add three ounces of rosewater and one ounce of witch hazel, and as soon as the mixture until an emulsion is formed, and afterward until the mixture is nearly cold.

Lotion to Whiten and Soften the Hands
IRENE—Put into a bottle two ounces of glycerine, two ounces of water, four teaspoonfuls of lemon juice and a few drops of carbolic acid. Shake well. After washing and drying the hands, rub a little of this mixture into them.

Spotted Nails
FLO—White spots on the nails sometimes indicate disturbed circulation of the blood, but more frequently they result from bruise or injury by a marring instrument. No application would avail.

The lemon and glycerine formula given makes a simple and pleasant bleach. Citric acid (lemon), three drams; borax, two drams; rose petals, one ounce; glycerine, one ounce. Dissolve the acid and borax in the water; infuse the petals for an hour; strain through a jelly bag after twenty-four hours; decant the clear portion and add the glycerine. Apply as often as agreeable.

Rules for the Reduction of Flesh "FATTY"—Avoid all starchy and sweetened food, all cereals and vegetables containing sugar or starch, such as peas, beans, corn, potatoes, etc. Have your bread toasted; sprinkle it with salt instead of using butter. Milk, I regret to say, if it be pure and good, is fattening. Skimmed milk may be drunk. Hot

water is an excellent substitute for other liquids. Add a little of the juice of lemons or lemons to it, if you choose. Limit your sleeping hours to seven at the outside; no naps. You must take exercise.

To Develop the Bust
L. M. H.—The following will be found very good for developing the bust: Lanolin, one ounce; cocoa butter, one ounce; sweet almond oil, one ounce. Put in small bowl, set in hot water until melted. Beat together and cool. Each night, after laying hot cloths on bust, rub it in by massaging gently and thoroughly in a circular direction for fifteen minutes.

Eyelash Grower
E. M. O.—Apply the following lotion to the eyelashes with a tiny camel-hair paint brush. The brush must be free from any drop and passed lightly along the edge of the eyelids, exercising extreme care that not the minutest portion of the lotion touches the eye itself. Cologne, two and one-half ounces; glycerine, one and one-half ounces; fluid extract of Jabardani, two drams.

Consult a Physician
ANXIOUS MOTHER—As the trouble is undoubtedly due to cold, it would be wiser to consult your doctor about your daughter. I would advise you not to use any special treatment for developing the bust.

Lack of circulation is the cause of cold feet. Bathing the feet with salt alcohol or rubbing them briskly with salt stimulates the blood to flow more rapidly, thus making the feet warm. Exercise, too, is often a very good remedy for cold feet. Rise on the toes, count five; lower the body until the heels almost touch the floor; repeat eight times, touching the floor with the heels only on the eighth count. Repeat the same exercise, rising on the heels.

Sage Tea
A. M. A.—Sometimes the turning of the color of the hair is caused by excessive dryness of its roots. I think this must be your trouble, for you are too young for your hair to turn gray yet.

The recipe I am giving you will prove an efficacious tonic, and will give new life to your hair. Three drams of resorcin, one ounce of tincture of cantharides, four ounces of oil of ricinus, ten drops of oil of rosemary. Add sufficient bay rum to make eight ounces.

To Erase Wrinkles
L. L. L.—Wrinkles that are caused by much laughing are not at all objectionable, but if you wish to drive them away, massage with the following cream: Lanolin, two and a half ounces; spermaceti, six drams; white vaseline, two and a half ounces; coconut oil, two ounces; sweet almond oil, two ounces;

tincture of benzoin, half a dram. Melt the first five ingredients together, beat until the mass concretes, adding the benzoin, drop by drop, during this process.

Extract of violet or any perfume may be added if agreeable.

To help to reduce a double chin practice the following exercise: 1. Stand erect, in military position. Place the hands lightly on the hips, fingers forward. Drop the chin slowly on the collarbone; then throw the head back with a quick, even movement that is not a jerk, but yet puts all the muscles into quick play. Repeat ten times. 2. Turn the head quickly to the right till the chin is just over the right shoulder; then back again. Repeat ten times; then turn the head to the left in the same way. Repeat ten times. Do not tire the muscles of the neck, but gradually increase the number of exercises daily, until you can practice each one about fifty times without after discomfort.

Ingrown Toe Nail
CONSTANT READER—Loosen the flesh, cut the nail, moisten the affected part with a camel-hair brush soaked in perchlorate of iron. The flesh is thus made insensible and hard. This remedy is infallible.

Milk of White Roses
CONSTANT READER—This is an excellent cure for wrinkles. One-half pint rosewater, one-quarter ounce simple tincture of benzoin, three drops of attar of roses. Put the rosewater in a basin. Add the tincture of benzoin a drop at a time. Add attar of roses, and bottle.

Here is a recipe for a good hair tonic: Cologne, eight ounces; tincture of cantharides, one ounce; oil of English lavender, one-half dram; oil of rosemary, one-half dram. Apply to the roots of the hair once or twice a day. It is positively necessary that the scalp should be kept clean. Shampoo at least once a week.

Lotion for Dry Scalp
ANXIOUS—Apply this lotion to the scalp every night: Glycerine, one ounce; eau de cologne, one-quarter pint; liquid ammonia, one dram; oil of origanum, one-half dram; oil of rosemary, one-half dram; tincture of cantharides, one ounce. Briskly agitate for ten minutes, then add camphor jelly, one-half pint, and again mix well and stir. A few drops of essence of musk or other perfume can be added.

This cream for pimples has been helpful in his phaneron he was exposed to the most annoying breeze. As he passed a meadow there would be no wall to prevent the wind, "yes, without doubt, the wind itself," from blowing upon his noble brow, so he had to give up driving entirely and remain in his hermetically sealed domicile.

Two Hair Stains
KATHIE—Either one of the following recipes will darken the hair: Green walnut shells, two ounces; alum, one-quarter ounce; pure oil, four ounces. Heat to-

gether in a water bath until the water has been completely evaporated. Then express, filter and perfume.

Sage tea may be used to darken the hair. Make a strong brew of dried

leaves, strain the liquid carefully through muslin, and to each pint add two teaspoonfuls of alcohol. This should be rubbed on the hair every night before retiring.

To Remove Warts
M. A. G.—I think you will find this recipe better than the one you mentioned:

Mix one grain of paraform with nine parts of flexible collodion, and apply to warts three times a day. After two or three days the epidermis peels off and the wart will come with it.

Lemon juice, too, will cause some warts to disappear. Touch them two or three times daily with a camel-hair brush soaked in the juice.

To Reduce Fat
NELLIE F.—Instead of trying the

method you describe use the following pomade: Iodide of potassium, forty-six grains; vaseline, one and three-fourth ounces; lanolin, one and three-fourth ounces; tincture of benzoin, twenty drops.

Make into a pomade and rub over the fatty parts twice a day. You should abstain from food that is especially fat forming—cereals, potatoes, corn, beans, etc. You should avoid sweets of all kinds.

Sage tea is the most harmless of remedies for darkening the hair. Make a strong brew of dried leaves, strain the liquid carefully through muslin, and to each pint add two teaspoonfuls of alcohol. This should be rubbed on the hair every night before retiring.

For Rough Skin
MRS. C.—The best thing to do for rough skin on the arms is to bathe the arms every night in alcohol. Rub them briskly, as this will improve the circulation of the blood.

This recipe will harden the bust and make it more firm.

This pomade should not be used as a massage cream, but should be applied after massage to restore a bristled or flabby skin: Oil of sweet almonds, six ounces; white wax, three ounces; tincture of benzoin, one and one-half ounces; pulverized tannin, six drams.

Wash for the Skin
BLANCHE—Cucumber wash is most excellent for the skin at all seasons of the year. To make it, take one or two cucumbers, cut them into rather small chunks without peeling. Put these into a mortar and pound with

a pestle (or use a heavy wooden potato masher and a heavy earthenware bowl) until the mass is pulp-like in consistency. Now filter this through a piece of cheesecloth or very coarse muslin, squeezing out as much of the juice as you can from the refuse. Now put the refuse and filtered juice into a clean enameled saucepan and simmer (don't boil) for ten minutes.

Then strain and when cold add alcohol to the proportion of one tablespoonful to half a pint of the strained liquid. Bottle and use to sponge your face instead of washing it during the day. The alcohol should preserve the juice.

To Develop the Bust
IVA—The following may be tried to increase the size of the bust: Lanolin, one ounce; cocoa butter, one ounce; sweet almond oil, one ounce. Put in small bowl, set in hot water until melted. Beat together and cool. Each night, after laying hot cloths on bust, rub it in by massaging gently and thoroughly in a circular direction for fifteen minutes.

I can give you a formula which will fade the brown spots somewhat, but they are almost invariably evidences of liver trouble. If you do not get better of them shortly after using the recipe, should advise you to consult your own physician in regard to the trouble.

Bichloride of mercury in coarse powder, eight grains; witch hazel, two ounces; rosewater, two ounces. Agitate until a solution is obtained. Mop over the affected parts. Keep the lotion out of the way of ignorant persons and children.

Witch Hazel Cold Cream

HOW TO AVOID SUMMER COLDS

Seated Upon Steps in a Breeze

Drinking Cold Water When Over-Heated

There is at the present moment a French marquis who lives in terror of a draught. His house, in the environs of Paris, is furnished throughout with double windows and doors bound in balzo to exclude every "courant d'air," while even his veranda is inclosed in glass. This for a while satisfied him, but soon he found that even when he drove around the country in his phaeton he was exposed to the most annoying breeze. As he passed a meadow there would be no wall to prevent the wind, "yes, without doubt, the wind itself," from blowing upon his noble brow, so he had to give up driving entirely and remain in his hermetically sealed domicile.

This attitude lasted for a time, till at last madame, his wife, tired of seeing nothing but the four walls of the house, protested, and Monsieur le Marquis hit upon a plan. It was excellent—it was sublime; he was an inventor! He had made a carriage inclosed entirely in stiff leather with glass windows, something on the plan of what Americans call a carryall or Germantown. In the front there was a window of plate glass, with two rectangular holes through which to pass the reins, and even these were covered by flaps of leather. So he went forth in his airproof carriage, absolutely sure that he was secure from any vagrant breeze and positive that he would live forever—or, at least, until France became again a monarchy.

The marquis of the glass carriage was most decidedly peculiar; from the

American viewpoint, crazy; but perhaps there was some reason in his fear of a draught. Americans, as a rule, are a little too indifferent to the possibilities of catching a cold, and, as a result, they are usually afflicted with one; indeed, throat affections are very common among us.

People take cold not when inhaling good, fresh air, but when sitting in a draught, even when not overheated, or when sitting in the direct line with an electric fan. Others will rush into the house after playing tennis or otherwise exercising, drink several glasses of iced water and then rest on the cold steps until they are thoroughly chilled. Later, she who has been reading in a draught and she who has been catching a cold by the aid of stones and iced

drinks will meet and complain about the "sudden change in the weather," and thereafter for a week or two they will inflict their friends with their sneezing and coughing, for summer colds last a long time. Those who do not get the usual coryza frequently wind up with neuralgia, which is far more painful and even more difficult to cure.

During the summer be careful. Because you are very warm, do not immediately try to freeze to death; because you are thirsty, do not consume gallons of iced water. The French marquis, like other Europeans, would faint at even the thought of this latter Americanism, and while that is ridiculous, just the same it is unwise to drink it all the time and under all conditions.

The French marquis, like other Europeans, would faint at even the thought of this latter Americanism, and while that is ridiculous, just the same it is unwise to drink it all the time and under all conditions.

MUSICIANS AND PLAYERS

hearing within ninety days and that in the meantime no more suits were to be brought against Kleine's customers, but that the Edison Company might bring suits against such of its licensees as had broken their contracts.

The new suits referred to above as having been brought by the Biograph Company against Edison licensees and exhibitors, are apparently for the purpose of putting the Biograph Company in the same position in courts in the protection of its patents, as the Edison Company occupies on its side. At the Biograph offices it was denied that a policy of widespread suing was contemplated. The new suits are announced by the Biograph Company in the following notices:

The American Mutoscope and Biograph Company have brought suits against S. Lathin of Philadelphia for the infringement of the Latham Loop patent in the use of their cameras.

Suit has been entered by the American Mutoscope and Biograph Company against S. Lathin of Philadelphia for the infringement of the Latham Loop patent in the use of his camera.

The American Mutoscope and Biograph Company have brought suits against Jones, Schaefer & Linick of Chi-

ago for the infringement of the Latham and Ross patents. Jones, Schaefer & Linick operate moving picture exhibitions at the Orpheum and about twenty other Chicago houses.

The Armat Motion Picture Company of Washington, D. C., has brought two suits against William Fox, of New York, proprietor of the Harlem Amusement Company for infringement of the Jenkins-Armat Shutter patent and the Armat patent on the Geneva movement in the use of projecting machines. The Jenkins-Armat patent has been sustained by Judge Hazen and covers broadly any mechanism that gives more than 50 per cent. exposure of the film. The Armat Company is now closely allied with the American Mutoscope and Biograph Company.

As an illustration of the advance that is everywhere apparent in the character of moving picture theatres, the new Star Theatre in Pawtucket may be mentioned. This house is one of a type that has made its appearance in different parts of the country. The theatre has a raised floor and opera chairs and is handsomely decorated. The projecting machine is operated by electric motor instead of by hand, which gives the film great steadiness of motion. The pictures are thrown on a white plastered wall in place of the usual curtain, thus further eliminating annoying vibrations.

Those to whom the sensational in the drama appeals will enjoy the attraction to be offered by the Summers Stock Company at the Savoy next week. "The Gambler's Wife." It is a stirring play of western life, with comedy and pathos judiciously intermingled. The play is full of action, stirring situations and has a strong climax. Mr. Summers will

have a role which will permit him to do a realistic bit of character work, and with his clever company, a thoroughly pleasing performance is assured. The offering will be staged with special scenery and electrical effects, and, as usual, clever specialties will be seen between the acts.

To him who seeks early summer entertainment, and who enjoys good amusement at popular prices, a visit to the Savoy will not come amiss.

Writing of the drama in Canada, Mr. Frederick Robson begins, appropriately enough, by quoting the late Sir Henry Irving's words: "I have seen this Canada, yours and mine, its plains and all those pictures through the mountains on the coast. Some day you will crown it all with a national drama; that is what you need next, a Canadian drama." He goes on to point out that, owing to the scattered nature of the population of the Dominion, it is impossible to maintain companies in Canada, playing only to Canadians and governed by Canadian taste. Earl Grey has done much to clear the way for better things by establishing competitions for dramatic societies, and so encouraging amateur players to make their work and a real attempt to interpret their pieces rather than merely for amusement and purely social purposes. American theatrical managers know that "the ghost walks" to some purpose in the chief cities of the Dominion—Kingston in Ontario, to give one example out of many, is one of the best one-night stands on the continent—and if Canadians "were brought to believe that the theatre was a Temple of the Drama, and not a whiling with hand organ music and fun for grown-up children, then they would provide Canada with good plays well acted and well mounted. Better things can only arrive as a result of better taste on the part of the Canadian playgoer. "And," Mr. Robson concludes, "let the newspaper look to itself and do its part. Banish the false advance notice. Criticise the play when able to criticise—not able, then let it alone; say nothing more than that it pleased or disappointed. Let all those harping on the theatre's degeneracy look to themselves and learn whether or not they are giving the dramatic toboggan a good start down hill. The theatre-goer who remains away from the play of merit does as much to kill all merit on the stage as the one who turns out to the melodrama or frothy comic opera."

Mr. J. Hackett's clever company of amateurs will occupy the boards at the Grand on next Friday evening and very few travelling companies play so good a better than they can. The numbers for this entertainment are all new and catchy and as it will be race week, Mr. Hackett has arranged some very pretty race track scenes for the special pleasure of the followers of the ponies. Mike Doolin's haunting Car, which made such a hit, will be reproduced. The advance sale of tickets is very large and a big house is assured, which Mr. Hackett's talented pupils well deserve.

MADAMA JOANNA CREATEORE.

As a sequel to the series of musical divorces which originated in Philadelphia and New York cities, Bandmaster Joseph Createore, of gymnastic fame, has been married to Mme. Joanna Barili, the soloist.

The production that will be used by Mrs. Carter in this city is the same as that in which she first appeared, and her company is, of course, of the first order of excellence.

Seats are now on sale.

Although several new patent suits were commenced within the past few days by the Biograph Company and one of its allies against interests connected with the Edison combination of film and exhibition companies, it is not probable that there will follow any general policy of serving all film users and renters who are alleged to be infringing the patents of one or the other of the principal litigants. On the contrary, it is believed that the bringing of suits has now ended on both sides for the present, and that both the Edison Company and the Biograph forces will await the outcome of the suits already brought.

The Edison company was the first to open this feature of the contest with suits against the Biograph Company, the Kleine Optical Company, George Kleine and a large number of Kleine's customers, but after a hearing before Judge Kohlsaat, in Chicago, and an opinion by the court that indiscriminate suits, brought presumably for intimidation purposes, should cease, it was agreed by both sides that the suit against Kleine should be brought to a

close. Health CONNECTING LINK HAPPINESS

Dr. Chase's Nerve Food Makes Healthy, Therefore Happy, People.
As happiness is a result of health, and as Dr. Chase's Nerve Food makes tired, nervous people healthy, it can be justly called "the connecting link."

Red blood is the foundation of health and strength. The same parts of the blood which give it color—the red corpuscles—also contain the elements which sustain and invigorate the body and its organs. Now, what

Dr. Chase's Nerve Food
does is to increase the number of red corpuscles in the blood, making it redder and richer in the elements which go to build up new cells and tissues, to replace those wasted by disease or in the process of living.

By reddening the watery blood you lift yourself from the low level of health where you are liable to become a victim of some form of wasting or contagious disease.

Dr. Chase's Nerve Food is now famous as a treatment for all kinds of diseases of the nerves, as well as a blood enricher and purifier. Of the thousands who recommend it we submit the photos and testimonials of four so that you can judge for yourself. We offer \$500 as a guarantee for the genuineness of the following:

- A Physical Wreck.**
MR. C. E. BRATT, 51 West avenue, Hamilton, Ont., writes:—
Three years ago I was a physical wreck, unable to work and of little use to myself or family. Today I am stronger and in better health than at any time since my birth. This change in my physical condition is, I believe, due to the use of Dr. Chase's Nerve Food. I was a sufferer from nervous trouble and general weakness, could not sleep, and had no appetite, and frequently endured severe neuralgic pains. Five city doctors pronounced my case hopeless, but in spite of this I am well and at work again. I used, in all, twenty-one boxes of Dr. Chase's Nerve Food, my weight increased from 135 to 155 pounds, and I am feeling splendid.
- Nervous Indigestion.**
MR. P. BOUCHET, tailor, 70 Inspector street, Montreal, Que., writes:—
"I have been troubled for a long time with constipation, and for many years have been a great sufferer from indigestion. As a result of these ailments I frequently had attacks of sick headache and was also nervous and run down in health. After having used Dr. Chase's Nerve Food for a few weeks I found myself fully restored to health, the headaches have not troubled me of late and my digestion seems to be restored to its normal condition. This medicine has proved to be of great benefit to me, and consequently I can recommend it most sincerely."
- Tired All the Time.**
MRS. GEO. BEATTIE, Carr's Brook, Colchester Co., N.S., says:—
"Last spring I was very much run down, felt tired all the time, and did not seem to have life or energy enough to do my work. Three boxes of Dr. Chase's Nerve Food did me a world of good and made work a pleasure to me. I have not had occasion to use any medicine since, and have recommended Dr. Chase's Nerve Food to all my friends. We always keep Dr. Chase's Kidney-Liver Pills in the house to be used for constipation, pains in the back and stomach troubles."
- Broken-down Nerves.**
MISS LAURINE WELLS, St. Catharines, Ont., writes:—
"For three years I suffered agony with nervous headaches and my nervous system was entirely run down. Though I consulted several physicians, I got but little relief. On the advice of a friend I began using Dr. Chase's Nerve Food, and it was not long until the spells of dizziness and fainting had entirely gone. I used altogether seven boxes of Dr. Chase's Nerve Food, and now I do not know what it is to have a headache. I cannot say too much in favor of this medicine, for it has done wonders for me and saved me many dollars in doctor's bills."

Note the increase in your weight while using this great nerve cure; 50 cents a box, at all dealers, or Edmanson Bates & Co., Toronto. Dr. Chase's Ointment cures all kinds of piles and every skin disease.

SMITHVILLE

Crosley and Hunter, the noted evangelists, will commence a series of revival meetings here on Sunday, June 14th. As they are earnest, faithful men, there should be large audiences to welcome them.

Mr. William Mitchell, the Liberal candidate, is gaining in popularity every day, and from present appearances will be elected by a good majority on Monday next.

Rev. Wm. Kendall, of Burlington, will occupy the pulpit of the Presbyterian Church here on Sabbath next at 11 a. m. and 7.30 p. m.

The third gas well being drilled here is down about 250 feet, and already there are strong indications of a large flow of gas.

On Monday next the electors of this Province will be called upon to choose between a capable and honorable Liberal party and a Government whose leader, J. P. Whitney, with full knowledge of the facts, set his election day, June 8th, on the week that all the Methodist Conferences save one are in session, thereby depriving nearly 1,900 ministers and delegates from voting, knowing, as he did, that those bodies are by the law of the church obliged to meet and be in session on the first and second weeks in June, and but few of them could get home to vote, and also at the time that the General Assembly of the Presbyterian Church meets in Winnipeg, when 250 clergymen of that church are also deprived from voting, keeping the two religious bodies who are most opposed to the three-fifths clause from expressing their opinion at the poll.

Mr. Arza Bartlett, of Smithville, has lately repainted his house and outbuildings. They certainly look up-to-date in their new dress.

WOODBURN

John Ridge of Hamilton, spent Monday at Wm. Daw's.

Miss Irene Lester has been under the doctor's care.

The many friends of Wm. Ptolemy will be sorry to learn that he is very poorly.

Misses Lily and Minerva White are visiting their aunt, Miss A. White.

George and Mrs. Howard, of Lynden, were the guests of Wm. and Mrs. McEvoy on Monday.

The Hydro-Electric Power Commission has a party of men surveying through here.

School Inspector Smith visited the school here on Tuesday.

ATTERCLIFFE

Mr. and Mrs. James Snider, nee Miss Nettie Theiler, of Buffalo, are spending a week visiting old friends in this neighborhood.

The big cannon is loaded to boom in

ALBERTON

Mr. and Mrs. J. Vanderlip and Mrs. Phelps, of Langford, were the guests of Wm. and Mrs. Baker on Sunday.

Mr. and Mrs. Johnson spent Sunday at Hamilton.

Mr. and Mrs. Mulligan, Toronto, were the guests of A. and Mrs. Phelps on Sunday.

R. and Mrs. Bradshaw and Mrs. G. Smith, Southcoote, spent Sunday at Brantford.

The meeting of the Trinity Ladies' Aid, held at Mrs. A. Mackie's on Wednesday last, was largely attended. A very enjoyable time was spent.

Mrs. J. Phelps, of Langford, who has been spending a number of days with Mrs. J. Vanderlip, has returned again.

Master Howard and Miss Irene MacMurray, Hamilton, are spending some time with Mrs. Johnson.

Much sympathy has been expressed for J. L. Bradshaw, who last Tuesday lost his pretty and valuable pony, Flo. While out for a few hours' exercise she was frightened by a passing wagon, and jumped over the stone culvert east of the village, receiving fatal injuries.

Representatives of the Clifton Medicine Company are having nightly tent shows on Gore Park, and are entertaining large audiences. Particular interest is exhibited in the popular lady voting contests; candidates suggested as follows: Miss Eitel Book, Mrs. Peer, Miss Lily Baker, Miss Maude Shaver, Miss Lena Billard, Miss Nellie Miller, Miss Annie Baker. Mrs. Peer's name was withdrawn at the beginning of the contest by her own request. It is generally understood that the most popular lady received a diamond ring.

Mrs. John Johnson is spending a short time in the village.

Father to the Man.
The man who sighs for the bygone days
When a barefoot boy he ran,
Is the same old boy who used to say:
"Gee, I wish I was a man!"
—Chicago News.

HEADQUARTERS NINETY-FIRST REGIMENT

Hamilton, June 6th, 1908.

No. 53—The following extract from General Orders is published for the information of this Corps:
G. O. No. 72, 91st Regiment—To be provisional Lieutenant—Angus Alexander Stewart, Gentleman, to complete establishment, 9th April, 1908.

ROBBED A POOR-BOX

Harry Long Caught in Act in Cathedral at London.

London, Ont., June 5.—Harry Long, who says he is a compositor and came from England four months ago, was captured yesterday in the act of robbing a poor-box in St. Peter's Cathedral. He told the officers he was in church saying his prayers, but in the Police Court today he confessed to stealing from the boxes six times. Long claims to have a wife and children in England. He was remanded for sentence.

WILL REMAIN IN PHILIPPINES

Bishop Brent Declines Appointment to See of Washington.

Washington, June 5.—Charles Henry Brent, Bishop of the Philippines, in a cablegram received here today declined to accept the post of Bishop of Washington, in succession to the late Bishop Henry L. Satterlee, to which office the Bishop Brent was elected last month. The declination is made in the following message in response to his notification:
"Must decline. I would have gone, but God bids me stay. John v. 30. (Signed) Brent."

Gillette Safety Razor

Most perfect of all shaving devices. Needs no strapping or honing. Simple in construction. Cannot get out of order. Has 12 double-edged blades, 24 cutting edges. Any gentleman buying this razor will be delighted! Price complete \$5.99. Extra sets of blades, 50c.—John W. Gerrie, druggist, 32 James street north, city agent.

Two Years for Robbing Farmer

Winnipeg, June 5.—E. A. Benyon, an Englishman, employed as porter in the Hamilton House at Neepawa, has been sentenced to two years for complicity in robbing John McLaughlin, an Ontario farmer, of \$1,200, while the latter was drunk last Friday night. An accomplice is still at large.

Guns, Limbers and Wagons

Captain Carswell, assisted by Sergt.-Major, Nos. 1, N. C. O's, and gunners; these will be entrained on Tuesday morning, June 16.

Horses, (captain Carswell, assisted by Farrier Sergt. and all drivers.)
Baggage, Lieut. Field, assisted by Q. M. Sergt., N. C. O's, and gunners.
Transport, Battery Commander and O. R. clerk.

Head-on Trolley Collision Near Annapolis, Md.

Annapolis, Md., June 5.—Eight persons were killed outright and as many more injured, some of them fatally, in a head-on collision on the Washington, Baltimore & Annapolis Electric Railway between this city and Camp Parole, the first station out, to-night. The dead and injured are being brought here. Most of the victims are said to have been en route to the naval academy to participate in the graduation ball to-night.

FELL OUT OF HIS BOAT

John Misheau, of Penetang, Accidentally Drowned There.

Penetang, June 5.—John Misheau, about forty years of age, who lived on the opposite side of Penetang-shene Bay, was in town last evening, and in going home he was supposed to have fallen out of the boat. Several persons heard his cries for help, and two men went out in a boat and found the boat he had taken empty. His body was recovered this morning. Dr. Walbridge, Coroner of Midland, came over here and viewed the body, but did not consider an inquest was required. Misheau has been drinking.

ROBBED A POOR-BOX

Harry Long Caught in Act in Cathedral at London.

London, Ont., June 5.—Harry Long, who says he is a compositor and came from England four months ago, was captured yesterday in the act of robbing a poor-box in St. Peter's Cathedral. He told the officers he was in church saying his prayers, but in the Police Court today he confessed to stealing from the boxes six times. Long claims to have a wife and children in England. A SCENE IN "DU BARRY," IN WHICH MRS. LESLIE-CARTER WILL BE SEEN AT THE GRAND ON MONDAY EVENING.

MARKETS and FINANCE

Saturday, June 6.—Central market was brighter and busier this morning than it has been for some time.

White cheese, 11-12c; colored cheese, 11-10c; salted butter, 20-12c.

British Cattle Markets. London.—London cables for cattle are steady at 12 to 14c per lb.

Wall Street News. Spot copper in London is 13 3/4 lower, and futures, 2s 6d lower.

New York banks gained \$3,429,000 through sub-treasury operations the past week.

Anti-railroad party defeated at Georgia primaries. Judge Gary, in interview, hedges on question of maintenance of steel prices.

Texas State Railroad Commission says decrease in gross earnings only half that reported on account of Inter-State Commerce Commission's method of book-keeping.

Revised third term rumors are appearing for market effect. Lower prices for steel bars have induced large buying by consumers.

Pittsburg reports cut of \$5 a ton in steel billets, but Steel Corporation has no knowledge of it.

JOHN DRYDEN'S SALE. Sale of Shorthorns Brings an Average of \$216 Per Head.

Brookline, June 5.—John Dryden & Son's sale at Maple Shade Farm here today brought out the majority of the shorthorn breeders of Canada.

In all, 40 head of females and three head of males were sold, bringing a total of \$8,500, sustaining the good average of \$216.

FISHERMEN.—If you are opposed to the oppression of the fishermen by arbitrary and ill-considered regulations and unnecessary double fees, you will vote for the Liberal candidate.

AGRICULTURE.—If you think the present Government, while increasing legal expenses 240 per cent., the general expenditure of the Province 46 1/2 per cent., ought to have increased the outlay on agriculture more than 7 1/2 per cent.

LAW REFORM.—If you desire an immediate, substantial and radical measure of law reform, that will prevent too many appeals, and that will tend to cheapen and expedite the administration of civil justice, vote for the Liberal candidate.

RAILWAY POLICY.—If you approve of the work of Liberals in the past, in constructing and operating a Government road; if you favor an extension of this policy, so that by means of State-owned, State-operated roads, intersecting the all-Canadian routes, southern and western, yes, eastern Ontario, may largely increase their trade and commerce, vote for the Liberal candidate.

VOTING TESTS

Hon. A. G. Mackay's Eighteenth Letter to the People of Ontario.

LAROSE DEAL.—If you are opposed to giving away \$130,000 of the people's money to favorites, and defending such action by the absolutely untrue statement that a former Minister of Crown Lands had secretly given the mine away, whereas a Board of Arbitrators had in open court dealt with the case, vote for the Liberal candidate.

T. & N. O. COMMISSIONERS.—If you are opposed to a Government that publicly slanders the former Commissioners, by publishing in the campaign book that the Commissioners "staked out mining locations themselves," and when the false statement is pointed out, are not honest and gentlemanly enough to withdraw it, vote for the Liberal candidate.

CLAIM JUMPING.—If you are opposed to claim jumping, and you believe in stability of title, and also in the basic principles that Legislatures should make laws, but that it should be left to the courts to interpret them, vote for the Liberal candidate.

TITLES HONORED.—If you believe that this Province ought to maintain its honor and ought not to run the risk of Legislative theft, as it did when by two special acts it arbitrarily stopped procedure in the regular courts by the Florence Mining Company and others, even though by such theft, as by many others, wealth is temporarily made, vote for the Liberal candidate.

THE THREE-FIFTHS CLAUSE.—If you believe that both as to the adoption and as to the repeal of local option by-laws a majority vote is the proper test, and if you desire again to have these questions so decided that in any municipality the majority may abolish the bar, the wet nurse of the treating system, do not wait until a majority of the municipalities have adopted local option, when in the interests of the trade and under the guise of temperance legislation Whitneys will vote for majority rule, so as to make repeal easier, but vote now for the Liberal candidate.

COLONIZATION AND LABOR.—If you favor the bringing into this country of none but desirable immigrants you ought to favor the Liberal policy of appointing a Minister of Colonization and Labor, who would have one eye on the labor field so as to protect it, and one looking for agricultural and any other class of immigrants that are really needed in this Province, and, favoring this, you will logically and rightly vote for the Liberal candidate.

AGRICULTURE.—If you are opposed to the oppression of the fishermen by arbitrary and ill-considered regulations and unnecessary double fees, you will vote for the Liberal candidate.

AGRICULTURE.—If you think the present Government, while increasing legal expenses 240 per cent., the general expenditure of the Province 46 1/2 per cent., ought to have increased the outlay on agriculture more than 7 1/2 per cent. (see figures on page 14, campaign pamphlet), you ought to vote for the Liberal candidate.

LAW REFORM.—If you desire an immediate, substantial and radical measure of law reform, that will prevent too many appeals, and that will tend to cheapen and expedite the administration of civil justice, vote for the Liberal candidate.

RAILWAY POLICY.—If you approve of the work of Liberals in the past, in constructing and operating a Government road; if you favor an extension of this policy, so that by means of State-owned, State-operated roads, intersecting the all-Canadian routes, southern and western, yes, eastern Ontario, may largely increase their trade and commerce, vote for the Liberal candidate.

EDUCATIONAL.—If you are opposed to the abolition of Model Schools, and all other such centralizing policies, which ever school board understand the educational problems of their localities better than the inept and bunglers now in charge in Toronto; if you believe that thoroughness and accuracy in the elementary subjects of a school course are desirable, and, therefore, that regulations putting these at a discount and placing a premium on the more advanced subjects are entirely wrong, vote for the Liberal candidate.

THE POWER QUESTION.—If you believe that the people should have been trusted, and, therefore, the statute should have been followed, and all estimates and forms of contract should have been published with the by-laws prior to voting on the by-laws; if you disapprove of the non-observance of the statute by the municipalities (without again submitting the question to the ratepayers), even though the cost should be far in excess of the figure given by the Minister of Power, vote for the Liberal candidate, whose leader in effect said "Give all the facts in advance, publish the estimates, the contracts and the by-laws in advance, and then trust the people, who will be the parties liable and responsible, to look after their own interests. All the brains of the Province are not in Toronto, nor in the Cabinet."

EFFECTIVE VOTING.—Vote early. Convert your neighbor. It will do you at least temporary good. It will do him permanent and abiding good. Vote for the Liberal candidate.

ORGANIZATION.—This election is a comparatively quiet one—unembittered, thank Heaven, by racial or creed cries. The better organization will win in comparatively even ridings. Attend to it.

A CLEAN FIGHT.—Fight a fair, clean, gentlemanly and decent battle. Assist your old Conservative neighbor to the poll. He is entitled to his political views, and he has ever been your kindly neighbor and a good citizen in your locality. We can't all think alike. Do nothing that will unnecessarily "divide man from man and break the social tie," and "trust the people" as to results, but vote for the Liberal candidate.

A. G. MACKAY.

CHILD BADLY BURNED

BY FLAT IRON

Mrs. Thos. Allen, of 156 Water street, St. Mary's, Ont., says: "My little daughter Mildred, 4 years old, was severely burned a few months since by sitting on a hot flat-iron. She received three burns in all, one on her thigh, another on her heel and a third on her instep. At the time of the accident I used oils and then one preparation after another, but nothing seemed to take out the inflammation or heal up the open wounds. Finally we heard of Zam-Buk and obtained a box. I began applying this balm and was agreeably surprised when in the course of a few days the wounds were not so inflamed and the child rested easier. A persevered in using and gradually the sores on heel and instep healed over, but the wound on thigh took a much longer time. However, new skin formed as soon as soon as all inflammation and soreness was drawn out. Now only a small mark remains to show where the burns had been."

Zam-Buk is healing, soothing, and anti-septic. It is the "household first aid," and no mother or home should be without it. Of all druggists and stores, sell at 50 cents a box.

NO HELP FROM WHITNEY.

Read what the Toronto Tribune, organ of organized labor, had to say of the reception of the deputation appointed to wait on the Government to protest against the 30-cent-a-day contract: "So far as the Labor delegation was concerned they came away convinced that nothing will be done by the Government to cancel this agreement. The only satisfaction they received was that they had again placed a standing protest on behalf of organized Labor against placing the labor of convicts in the open market against honest and free labor, and to prevent Mr. Hanna, or any other member of this Government, from again making use of the assertion that no objection had been received from the unions against this most unfair kind of competition. This committee is now confirmed in the belief, which has been growing for some time, that the present Government is in no way friendly to labor, and no relief need be looked for from the Whitney Government."

A vote for Messrs. Hendrie and Scott is a vote for a Government which, without public competition, made a five-year contract for prison labor at thirty cents a day, and that contract, as also the binder twine contract at 50 cents a day, has still two and a half years to run.

The "Lake of Boys" Country.

A handsome brochure, artistically illustrated, has been issued by the Grand Trunk passenger department, telling of the beauties of the Lake of Bays district, in the "Highlands of Ontario." A new feature of this district is the new hotel—the Wawa—at Norway Point. The hotel itself has a page illustrating the beauties of the Lake of Bays district, with a brood of seven wild geese soaring gloriously beyond the tower. The concise description embodies the story of a charming resort.

The very pretty duo tone photographs show the beauty of the new fair land far more effectively than words can. A copy can be obtained free on application to J. D. McDonald, D. P. A., Toronto.

RIOTS AT VIGNEAUX.

Strikers Sacked Shops and Held Up Passing Automobiles.

Vigneaux, France, June 5.—There was a renewal here to-day of the disorders of three days ago, when a number of gendarmes, while attempting to arrest a striker, were surrounded by two hundred workmen. Believing themselves to be in danger, the gendarmes used their weapons, with the result that two of the workmen were killed and six wounded. The trouble to-day arose at the funeral of one of the men killed on Tuesday.

Orators harangued the strikers and demanded vengeance, and several shops were sacked to cries of "Down with Clemenceau." Passing automobiles were held up and money was levied from the occupants. The strikers finally were dispersed.

OLD MAN ON A TEAR.

River at Macleod Becomes a Grave Menace.

Macleod, Alta., June 5.—During the early morning hours a frame dwelling house belonging to Hon. Peter McLearen, situated on the flat Man three miles away, was carried away by the rising water of the Old Man River. It is a question of perhaps only a few hours till the Macleod Packing Company's factory meets a like fate. The water is only a foot from the structure. Macleod General Hospital, the new municipal power house and several dwelling houses are in grave danger. The approaches to the high bridge at Brocket are washed out, and the water is cutting away the approaches on both sides of the C. P. R. bridge across the Old Man three miles west of Macleod. Men and material have been rushed to both places. Rain has been falling continually for 48 hours, and there is no prospect of a speedy let up. The river is rising steadily and settlers on the low flats have moved to high ground.

AUTO TURNED SOMERSAULT.

Two Men Killed Trying to Save Girl Cyclist.

Brunswick, June 5.—A fatal automobile accident took place near here to-day. First Lieutenant Johannes Fritzsche and the chauffeur, a man named Eike, were severely injured. The automobile was a high power machine. As it was entering a small village the chauffeur endeavored to avoid running over a girl cyclist, and to do so he suddenly put on the full brake power. The machine, instead of slackening down, is said to have turned practically a double somersault. It fell upon the occupants and crushed them.

KING OFF TO RUSSIA.

His Majesty Sailed This Morning on Royal Yacht.

London, June 6.—King Edward and Queen Alexandra and Princess Victoria started for Reval, Russia, last night for a visit to the Emperor of Russia. A large suite accompanied the royal party, including Sir Charles Hardinge, Permanent Under Secretary to the Foreign Office; Sir Arthur Nicholson, British Ambassador to St. Petersburg; Admiral Fisher and Lieut.-General Sir John French. The party reached Port Victoria at 11 o'clock, and boarded the royal yacht Victoria and Albert, which sailed this morning.

White cheese, 11-12c; colored cheese, 11-10c; salted butter, 20-12c.

British Cattle Markets. London.—London cables for cattle are steady at 12 to 14c per lb.

Wall Street News. Spot copper in London is 13 3/4 lower, and futures, 2s 6d lower.

New York banks gained \$3,429,000 through sub-treasury operations the past week.

Anti-railroad party defeated at Georgia primaries. Judge Gary, in interview, hedges on question of maintenance of steel prices.

Texas State Railroad Commission says decrease in gross earnings only half that reported on account of Inter-State Commerce Commission's method of book-keeping.

Revised third term rumors are appearing for market effect. Lower prices for steel bars have induced large buying by consumers.

Pittsburg reports cut of \$5 a ton in steel billets, but Steel Corporation has no knowledge of it.

JOHN DRYDEN'S SALE. Sale of Shorthorns Brings an Average of \$216 Per Head.

Brookline, June 5.—John Dryden & Son's sale at Maple Shade Farm here today brought out the majority of the shorthorn breeders of Canada.

In all, 40 head of females and three head of males were sold, bringing a total of \$8,500, sustaining the good average of \$216.

FISHERMEN.—If you are opposed to the oppression of the fishermen by arbitrary and ill-considered regulations and unnecessary double fees, you will vote for the Liberal candidate.

AGRICULTURE.—If you think the present Government, while increasing legal expenses 240 per cent., the general expenditure of the Province 46 1/2 per cent., ought to have increased the outlay on agriculture more than 7 1/2 per cent.

LAW REFORM.—If you desire an immediate, substantial and radical measure of law reform, that will prevent too many appeals, and that will tend to cheapen and expedite the administration of civil justice, vote for the Liberal candidate.

RAILWAY POLICY.—If you approve of the work of Liberals in the past, in constructing and operating a Government road; if you favor an extension of this policy, so that by means of State-owned, State-operated roads, intersecting the all-Canadian routes, southern and western, yes, eastern Ontario, may largely increase their trade and commerce, vote for the Liberal candidate.

WOMEN'S CLUB Through the BALLOT BOX

Membership in Washington's Newest Organizations Depends on Men's Votes

THE new congressman's wife, at half-past 3 o'clock of a wintry Tuesday afternoon, took up the little wicker basket and hung it on the knob of the door of her apartments in Q street, Northwest, Washington, D. C.

All through the building the sound of doors opening and shutting gave notice, by dull thuds, that the two dozen other congressman's wives who lived there were doing the same thing.

"Oh, mamma!" pleaded the new congressman's daughter, attired in the very prettiest afternoon costume with which the East could bedeck rosy youth from the Middle West, "won't you—won't you please—let me tie this little bit of violet ribbon to it?"

"No, my dear"; and her mother closed the door with the emphasis of unwilling resignation. "We've just got to stick it out, without risking a single, solitary innovation until the Congressional Club—"

"And the Archonides—"

"Yes, of course, dear—and the Archonides, bring as some relief." For two hours hospitable mother and pretty daughter sat out the wearying misery of their regular afternoon "at home" in Washington, while, at intervals, skirts swished along the corridor, cards flicked or rustled faintly into the modest basket, and the skirts swished away again, the calling duty conscientiously performed; and the social, and presumptively sociable, Arachnes sat beyond the door, with never a friendship added to compensate for the dour privilege of the wicker basket acquaintance.

But it was this year, not last; and now there is hope, instead of blank despair. For, to vary the metaphor and yet to keep it elegantly classic, have not a couple of Perseuses, the Congressional Club and the Archonides, made bold to rescue these wretched Andromedas from the clutches of that awful modern Minotaur, Washington society?

NO WOMAN who has not been a new congressman's wife or daughter, or otherwise officially ranking female relative, can compete in what it means to find one's place in Washington society. So there are a good many million women who are in ignorance, while in and out of Washington there are still a good many dozen who have many a time wished they'd never been given the chance to learn by the sons and husbands of those envious millions outside.

For, after everything is said and done, the fathers, the sons and the husbands, on whom the constitution of the United States confers the ballot, are the ultimate arbiters of Washington society. If papa is elected, you go to Washington as the daughter of a representative—maybe as the daughter of that august creature of the vicarious franchise, a senator. If papa isn't well, you just stay home.

And now, with the Congressional Club and the Archonides, organized to fulfill their noble office of being first aid to the elected, the new congressman's wife and daughter, together with his otherwise officially ranking female relatives, behold themselves eligible to the proper one of the two new clubs, by the right which his electorate regard back home the thousands of voters who, at the polls, virtually elected them into their club and Washington society.

SUCCESS FROM THE START

It was early in March that Mrs. James Breck Perkins, wife of the representative from the Thirty-second District of New York, invited quite a large number of ladies to meet at her home on New Hampshire avenue. She had something she wanted to talk over with them.

Now, it happened that Mrs. Perkins is one of those wives of congressmen who has passed the first awful stages of Washington society. And it happened—simply happened, of course—that almost every woman who received her invitation was likewise blest.

Even if they did live in hotels or apartment houses, they had so far overpassed the heart-breaking wicker-basket stage that real friends called on their at-home days, and actually came in, and sat down, and talked.

It happened, too, that among Mrs. Perkins' guests was Mrs. John Sharp Williams—one of the most experienced women, socially, in Washington—who seemed remarkably quick to appreciate the trend of her friend, Mrs. Perkins' remarks.

something of a surprise; and to the others it came as something that seemed to have been in the air of Washington ever since Congress began its current session.

Indeed, there were those among the twenty-five guests whose memories, ranging afar to the prehistoric era of the Spanish difficulty—Washington is ashamed nowadays to call it a war—recalled that an organization of the kind had been long ago enthusiastically projected, and as enthusiastically squelched.

So, while they felt convinced it would be a good thing, they wondered whether it could ever be made successful.

Mrs. Perkins, who has not achieved her position in Washington society by any very noticeable paucity of tact, refrained from commenting upon the causes of the previous failure. But she did point out that the ladies then and there assembled were the very ones who, if they were all agreed upon the necessity for the organization, had it in their power to make it a reality.

Besides, if they should be studious to attempt nothing more ambitious than the formation of a club which would enable women in the higher official life to meet and to know one another socially, the object must surely be so innocuous that no one could disapprove of it. All they had need of was to be unanimous.

Unanimous they became, even to the election of Mrs. Williams as temporary chairman and of Mrs. Julius Kahn, of California, as temporary secretary. Mrs. James S. Sherman, of New York, invited the members of the nascent club to be her guests at one of the big reception rooms of the New Willard, two weeks later, the secretary, meanwhile, to invite the wives of all senators and representatives to be present.

There were 120 women in attendance at the New Willard, and the Congressional Club, then definitely launched, has gone forward to organization, with officers, a constitution and by-laws—drawn up by a

committee of which Mrs. Perkins was chairman—and all the other appurtenances of a full-grown club, except a clubhouse.

Mrs. Perkins has been elected president. Her fellow-officers are Mrs. Henry Cabot Lodge, of Massachusetts, first vice president; Mrs. Williams, second vice president; Mrs. Champ Clark, of Missouri, third vice president; Mrs. Joseph M. Dixon, of Montana, fourth vice president; and Mrs. Kahn, fifth vice president. Mrs. J. Stout Fassett, of New York, is recording secretary, and Miss Wood, sister of Representative Wood, of New Jersey, treasurer.

If a woman's husband has ever been senator or representative, whether his wife became a charter member or refrained from joining until years after his retirement from the post of national lawmaker, she is always eligible to membership in the Congressional Club.

In addition to the wives of congressmen, the constitution provides for the admission of the immediate family of a congressman, and of 100 women from among the immediate families of the government—members of the cabinet, assistant secretaries, justices of the Supreme Court and heads of bureaus. The wife of the President and of the Vice President are honorary members.

The women who are the heads of their respective families must pay initiation fees of \$10 each and annual dues of \$25. The yearly dues of other relatives are \$5. If a woman, by one of those oversights of voters which often happen with regard to congressmen, isn't re-elected to Washington, she still wears the glory of her former greatness, so far as the club is concerned; and she saves money, for, as a member non-resident, her annual dues are only \$5, and she

has her club to come to whenever she does happen to be in Washington.

And lastly, for the comfort of the timid souls who dreaded financial complications, the club is solemnly bound by its constitution never to give an entertainment unless there is enough to pay for it and still leave \$500 cash in the treasury.

Next fall, they're going to get a clubhouse.

It was a coincidence that about the time Mrs. Perkins invited Mrs. Williams and the others to her residence on New Hampshire avenue, Mrs. Williams' daughter, Miss Julia F. Williams, asked to her home on Girard street some close friends, among them Miss Beale Lamb, of Virginia; Miss Marian Chapman, of Illinois; Miss Blanche Stephens, and Miss Willis Cooper, of Texas; Miss Caroline Hubbard, of Maine; Miss Hull, of Iowa, and Miss Broadhead, of Pennsylvania.

Miss Williams and Miss Lamb were together in broaching the idea of a club to be composed of the daughters of members of Congress, and nobody knows to this day—nobody shall ever know—whether it was Miss Williams or Miss Lamb who first thought of it.

But the minute they thought of it they could see it was a good thing. Why, Washington was simply filled with the loveliest girls, who sat back of apartment doors with their mothers, waiting helplessly for other lovely girls to drop cards in the wicker baskets and run away again, in the desperate effort to keep up with the senatorial at-homes on Thursdays, and the congressional at-homes on Tuesdays, and the Supreme Court at-homes on Mondays, with the cabinet at-homes turning up on Wednesdays to take up a poor girl's time in odd weeks when she might be forming some genuine intimacies.

A CLASSICAL TITLE

There were reports that the daughters were going to start an opposition to their mothers' club, and other nonsensical stories which received a speedy quietus when the unanimity of the daughters resulted in permanent organization, with Miss Lamb as president, Miss Williams as first vice president, Miss Lona Tillman, of South Carolina, second vice president; Miss Mabel Madden, of Illinois, third vice president; Miss May Gregg, of Texas, fourth vice president; Miss Chapman, recording secretary; Miss Foster, of Vermont, corresponding secretary; Miss Stephens, treasurer, and Miss Helen Cannon, honorary president.

Every one was to pay \$5 initiation fee and \$12 yearly dues, and there was to be a dance at the Arlington, as soon as they could christen themselves, which should be an extremely swell dance indeed—with an orchestra of six pieces from the Marine Band, no less, at \$5 a man.

Well, they consulted their fathers and all the other men they knew, about the christening; and they had you can't imagine how many names urged upon them. Miss Williams' papa, John Sharp Williams, of Mississippi, who is a most learned man, couldn't think of anything better than "The Junior Congressionals." But Miss Tillman knew a professor of Greek, over in Georgetown University, who thought long and deeply and finally evolved the positively lovely title, "The Archonides," which the club has agreed to adopt.

Mr. Williams was so learned, and so jealous, when he heard the Archonides was to be the name, that he translated it on the spot, and grumbled: "Archonides—offspring of the Archons, the old Grecian lawmakers. Huh! might mean the sons just as well as the daughters."

However, a little thing like that could not worry the Archonides—accent on the second syllable, please—and they went right ahead, and had the loveliest dance Washington has enjoyed on any April evening in any springtime.

SOME POSSIBILITIES

And next fall, if the Archonides cannot, like their mothers, afford to build or buy a clubhouse, they are surely going to be able to rent one, where they can have a home for their very own and learn to love one another as their papas, in Congress, sometimes don't.

And perhaps, when two such old and tried friends as Speaker Cannon and Democratic House Leader Williams find themselves so filled with wrath over rules and tactics that neither can speak to the other and both can only think, "I hope you choke," while they turn the hateful back, the intimate friendship of Miss Julia Williams and Miss Helen Cannon may suffice to bring about again that peace between them which passeth understanding.

There cannot fail to be other effects upon Washington life, in the purely social evolution that is going forward, now that so many men of wealth are looking to the capital as a place of prolonged, if not permanent, residence.

It may be that the ladies who first saw in the Congressional Club—and the Archonides—the means of mitigating the crowded loneliness of the season, discerned also the possibilities of two factors which must necessarily determine the congressional circle as the one dominant in Washington society for all future time, to the emphatic subordination of all other classes, however wealthy and however regnant in their respective places of origin.

But that is something which no charter member, and least of all, Mrs. Perkins, president of the Congressional Club, will so much as consent to discuss.

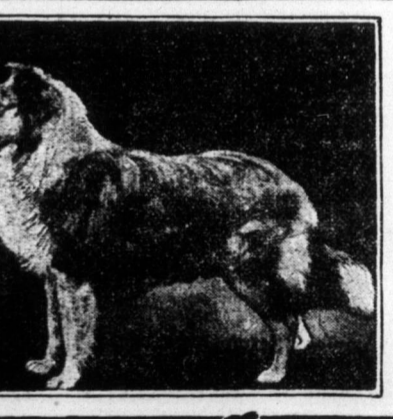

COSTLY DOGS FOR FASHIONS PETS.

A Chow of High Degree.

A bulldog valued at \$5000.

Scotch Scepter, a \$3500 Collie.

AN ENGLISH proverb says a dog is worth what it costs. Some dog dealer probably originated the saying, since many owners of petted canines would not part with their possessions for much more than the cost, although that cost may have been hundreds, even thousands, of dollars.

Men and women of former generations loved

dogs, no doubt, as well as do those of today, but they would have been astounded at the prices now paid for animals of high degree and aristocratic lineage.

A bulldog valued at \$5000, a St. Bernard costing \$6000, a collie for which \$3500 is held to be a reasonable figure—such prices no longer excite surprise. In fact, they would be held as bargains

in some cases. But they would have astonished our fathers.

The constantly increasing favor which pet and high-class dogs have found with women, of recent years, has had much to do with soaring prices. Women, as well as men, now pay immense sums for aristocratic animals, and members of the fair sex are among the most enthusiastic exhibitors at bench shows.

When fashion's decrees began extending to the canine world dog raisers were quick to note and act upon the fact.

It is not that the \$6999 bulldog or the \$4999 St. Bernard represent so much worth from a commercial point of view—their beauty may appear to some in inverse proportion.

Not long ago in London a couple of setters of the finest blood were sold for \$5.25, and a pack of pure breed harriers for a similar amount. If harriers and setters had been the fad in canine possessions or pets for the time, they would have been eagerly sought for at a hundred times that figure. Londoners will pay \$150 for animals of certain breeds that twenty years ago were a drug in the market at \$10, and the rest of the world will do likewise. Large sums of money have been made by forecasting fashion's tastes in canine matters.

A former owner of the collie champion Squire of Elyton paid \$4000 for the animal—then considered an enormous sum—but he sold it to an American enthusiast for \$6750.

At one time St. Bernards were all the rage and brought immense sums. Pinnimmon, a splendid specimen, cost Emmet, the actor, \$5990. Sir Belvidere was disposed of for \$4500, and Lady Mignon changed owners at a cost of \$5000.

Champion Frandley Stepany, from the kennels that produced Lady Mignon, brought \$4000, and the short-haired Hampstead Chief was sold at \$2000. These were European dogs; on this side the splendid St. Bernards of George J. Gould have attracted great attention because of their great price and lordly manner of living.

One of the high-water mark prices paid for this class was \$5000 for Champion Perfection; Southport Sculptor brought \$3500. And only twenty-five years ago tremendous excitement was caused in England by G. R. Krehl paying \$500 for Eclipse.

America's first notable attempt at record-busting was Mitchell Harrison's \$4600 for Champion Christopher. Fox terriers on several occasions have realized as high as \$2000. The short-haired Vice Regal sold for \$2250; \$1000 and \$1200 have become common prices.

Miss De Goot, of New York, has captured not a few blue ribbons at bench shows with her famous bulldog Mahomet, worth \$5000. Across the water, Baronet Heath brought \$2000, and Fashion's price was \$2250. Two years ago greyhounds were popular, and brought good prices. At one notable sale prices ranged from \$75 to \$1750.

Lapdogs most in vogue are miniature Pomeranians. They are weakly and subject to many troubles. The smallest specimens are those most valued. A breed once in favor was the Chinese spaniel, now supplanted after a fierce contest by the Japanese spaniel. Pointers and setters are said to be losing value as pets. They are harder to keep, to lodge, and commercially, are said to be less attractive and promising in the handling.

HOW TO VOTE

When you go to the Polls on Monday next, see that your ballot is marked as follows:

Table with 3 columns: District (EAST HAMILTON, WEST HAMILTON), Candidates, and Marking instructions (X).

REASON FOR DELAY.

Re-organization Committee Will Get Busy Now.

The special committee which has in hand the reorganization of civic departments will take the matter up just as soon as the elections are over.

The following building permits were issued to-day:

- List of building permits including names like Stewart & Witton, Turner, and H. L. Wilkinson.

Chairman Wright, of the House of Refuge Committee, announced this morning that donations of \$25 each had been received from John Billings and Stewart & Witton to furnish rooms in the new Home for Incubables.

The health report for the week shows two cases of smallpox, six of mumps, seven of measles, eleven of German measles, one each of chickenpox, erysipelas, whooping cough, scarlet fever and diphtheria.

BOYS HAVE OUTING.

Seniors and Juniors Went to Niagara Falls To-day.

The Queen Victoria School boys, who won the senior dirt competition at the Central School grounds last week, left shortly after 8 o'clock this morning for Niagara Falls, where they are enjoying an outing at the expense of a philanthropic gentleman, who believes in encouraging boys and is an admirer of the public school system.

TRADES COUNCIL.

Resolution Passed Re Technical College.

The Trades and Labor Council met last night and transacted a lot of business. The special committee appointed to look into the merits of technical school brought in a report, which was discussed. The Council is in favor of technical education, providing the scholars' product is not allowed to come into competition with the trades unions.

THE BARTON LODGE.

The Barton Lodge, No. 6, A. F. and A. M., elected its officers for the new year last night, as follows:

- List of officers for Barton Lodge including Bro. George Wallace Taylor, W. M., Bro. E. B. O'Reilly, M. D., S. W., Bro. Thomas Booker, J. W., Bro. M. W. Bro. Hon. William Gibson, Treasurer.

Notice to the Travelling Public.

Steamer Turbinia will not make her 9.15 a. m. trip out of Hamilton on Monday, 8th inst., owing to her owners installing electric light machinery and dynamo, but will resume her trips on Tuesday, 9th inst., leaving Hamilton 9.15 a. m., returning leave Toronto 5.30 p. m.

G. T. R. OFFICIALS HERE.

An official party of the Grand Trunk Railway was in the city yesterday, inspecting the road and properties. They found everything here in splendid shape. They also visited the Steel Plant. The party included General Manager Hays, Third Vice-President Fitzhugh, Superintendent Robb, General Transportation Manager Brownlee, Passenger Traffic Manager Davis, Superintendent Gilman, Superintendent Blacklock, and others.

ELECTION RETURNS.

The Times will give out the full election returns on Monday night, and will show appropriate lantern slides. Come around and see.

TEA TABLE GOSSIP.

Rev. John Young will conduct communion services in St. John Presbyterian Church to-morrow, morning and evening. The Salvation Army Band will run a moonlight excursion on Tuesday next per steamer Modjeska, in aid of the new instrument fund.

The Ancient Order of Foresters will run their annual excursion to Niagara Falls and Buffalo on Dominion Day, July 1, via T. H. & B. R.

Elisnore, at Hamilton Beach, will be opened for the summer months on Wednesday next, the 10th inst. Further reference to it will appear later.

George Coombes and Ed. Banks, of the Kerr & Coombes Foundry Co., sailed from Montreal yesterday on the Virginian for a two-months' visit to England.

The local Sons of England will hold their annual moonlight excursion on Wednesday evening next. The moon will be at its best, and fine music will be provided. The Hamilton Steamboat Company will give good service, and an evening of rare enjoyment is promised.

Emerald Street Methodist Church is in the hands of the decorators, Goodale & Laidlaw, undergoing a thorough renovation outside and inside, with new carpets, etc. The church audience room will be used to-morrow for the last time before re-opening.

number of Hamilton friends of Bishop McEvoy, of London, have received invitations to attend his installation as Archbishop of Toronto, which takes place at St. Michael's Cathedral on Wednesday, June 17th, at 10 o'clock. Pontifical high mass will be celebrated by Rev. Dr. Sbarretti, apostolic delegate to Canada.

Any one holding tickets for the aquatic carnival can have their money refunded at Anderson's music store, James street north, on June 8th until 10 p. m. This only applies to Macassa and Modjeska tickets, as only enough tickets were issued for the Turbinia to accommodate their limit, and only holders of Turbinia tickets were allowed on this boat.

ROAD WORK.

By-Law to Improve 30 Miles Introduced.

Councillor Malcolm introduced a by-law in the County Council yesterday afternoon, whereby the township would get the grant on about 30 miles of road in the four townships here named:

Beverly—Road in township of Beverly leading from the village of Westover, south, crossing the Dundas and Waterloo road to the Governor's road at Coptown, a distance of 6.1-4 miles. The third concession road in Beverly, from the town line between Dumfries and Beverly, east, till it crosses the Dundas and Waterloo road at Peter's corners, 6 miles. Also the road allowance between lots 6 and 7 from the Troy road, north, until it crosses the Dundas and Waterloo road at the village of Sheffield, 4.1-2 miles.

Ancaster—Commencing at the intersection of the Governor's road at London, with the side road between lots 12 and 13, in the township of Ancaster, then south 2.1-4 miles to concession 2, at the Baptist Church, then east 1.1-2 miles to the side road between lots 18 and 19, in the village of Jerseyville, thence south 1.3-4 miles on said side road to the intersection of the Ancaster stone road.

Binbrook—Commencing at Hall's Corners road, thence south, 2.3-4 miles. Glanford—Commencing at Binbrook road, between lots 13 and 14, thence south 3 miles to the 4th concession.

The bylaw was given its first reading. Accounts occupied the attention of the Council to-day.

THE BARTON LODGE.

The Barton Lodge, No. 6, A. F. and A. M., elected its officers for the new year last night, as follows: Bro. George Wallace Taylor, W. M., Bro. E. B. O'Reilly, M. D., S. W., Bro. Thomas Booker, J. W., Bro. M. W. Bro. Hon. William Gibson, Treasurer.

St. Kitts Tax Rates.

St. Catharines, June 5.—The City Council to-night adopted a tax rate of 22 mills for public school supporters and 23.50-100 for separate school supporters. The city's total assessable property valued at \$6,338,454. The gen-

THE MOLSONS BANK

ONE OF THE OLDEST CHARTERED BANKS IN CANADA. A Physician Was Heard to Say:

"There will be vastly less sickness among children when every house in this city is equipped with electric light. Pure clean air indoors will result."

THE HAMILTON ELECTRIC LIGHT & POWER CO., LIMITED TERMINAL BUILDING Call 3300-1-2-3 for particulars

Executors and Trustee

This Company may be appointed Executor and Trustee under your will, thus securing you a permanency of office and absolute security such as no private individual could give, at an expense which is no greater than occurs when private individuals are chosen in singular capacities. THE TRUSTS AND GUARANTEE COMPANY 43 AND 45 KING STREET WEST, TORONTO LIMITED Capital Subscribed - \$2,000,000 Capital Paid Up and Surplus, Over - \$1,200,000 JAMES J. WARREN, Managing Director

The Landed Banking and Loan Company

Dividend No. 62 Notice is hereby given that a dividend at the rate of 6 per cent. per annum on the paid-up capital stock of this Company has been declared for the half-year ending June 30th, 1908, and that the same will be payable at the office of the Company on and after Thursday, the second day of July next. The transfer books will be closed from the 16th to the 20th inst., both days inclusive. By order of the Board. C. W. CARTWRIGHT, Manager. Hamilton, June 1, 1908.

OUR OLIVE OIL

Is guaranteed to be the best and purest olive oil obtainable. We take great care in selecting our olive oil; only that oil which stands the highest quality test is accepted. Our olive oil contains from 10 to 20 per cent. more nourishment than the best beef. When taking olive oil, why not take the best, the kind sold in 25, 50 and 75c bottles by PARKE & PARKE Druggists 17, 18, 19 and 20 Market Square

POWER PRICES

Do Not Include the Cost of Stepping Down.

The Times has been asked to publish the following letter: Editor Herald.—In your issue of last evening you state that I may not know that the offer of the Hydro-Electric Company is for power stepped down for use.

I do not know it, neither do you. Adam Beck, nor Hon. J. S. Hendrie, nor John Milne, and neither do you yourself. Your figures in the editorial of the 4th inst., joggled as they are, show that no provision is made for the cost of stepping down or the loss in doing so, and all contracts with Toronto and other cities are on the basis of high voltage.

The only voltage mentioned in the contract offered this city is 60,000, and there is not one single word about stepping down to distributing voltage. I think it is pitiable that a newspaper supposed to be run in the public interest should have to descend to such practices to carry out its spite. Yours truly, John Patterson. Hamilton, June 6, 1908.

Turbina Special—Every Day In June.

The Turbinia Steamship Company will reduce their ten trip tickets to \$2 for June only. Those purchased in June will be good for passage during the season. Be wise and purchase now.

Spring Lamb Cut In Any Quantity.

Well-hung beef, fresh sausage, plentiful supply of spring chickens, green peas, beans, new beets, new potatoes, cucumbers, Grimsby tomatoes, asparagus, Egyptian onions, radish, strawberries, pineapples, grape fruit, coconuts, limes, new Brazil nuts, honey in the comb, fresh mackerel, Quebec salmon, flounders. Beach delivery leaves on Saturday at 1 o'clock.—Peelies, Hobson & Co., Ltd., King and MacNab streets.

Suits For Men \$10.98.

The greatest clothing purchase of men's suits we have ever made at this time of year. There are no less than 400 suits, and at least 200 of them are duplicates of suits sold in the best stores at \$10 and \$20. Fraick & Co., 13 and 15 James street north.

Notices of Births, Marriages and Deaths which are inserted in the Daily Times also appear in the Semi-weekly Times. 50c first insertion; 25c for each subsequent insertion.
