L. BLACK & CO'S
Spheroidal
Spectacles
AND
EYE GLASSES
ARE the best for the preservation of
the sight, and took the medal at the
Centennial Exhibition.
The lenses are made of the best ma-
terial, uniform in density, and of high
refractive power, their perfect polish
and spheroidal shape adapt them to ease
and improve the sight of the wearer.
The eye being the most delicate or-
gan great care should be exercised in
selecting spectacles; it is not enough
that the glass be of the right focus, but
the lenses must be perfectly centered
and in many cases perfect relief is only
given by having each eye fitted separate-
ly. To effect this the lenses are made
interchangeable, and having an Opto-
meter to measure the sight, a perfect
fit is guaranteed.
Call and examine before purchasing
any other kind.
A full stock in Steel, Rubber, and
Gold Frames and prices to suit all
pockets.
S. F. SHUTE,
Watchmaker and Jeweler.

PLUGHS!
PLUGHS!
The subscriber takes this method of
expressing his thanks to his numerous
friends who during Forty-two years of
business in this city have stood by him
so loyally and well.
It is time that you shouldst leave
us, Sir Maurice," said the Templar
to De Bracy, "In order to prepare
the second part of the mystery.
Thou art next, thou knowest, to act
the part of the Knight Deliver to
the captives."
"I have thought better of it,"
said De Bracy; "I will not leave
this till the prize is fairly deposited
in Front-de-Bœuf's castle. There
will I appear before the Lady Row-
ena in my own shape, and trust that
she will set down to the vehemence
of my passion the violence of which
I have been guilty."
"And what has made thee change
thy mind, De Bracy?" asked the
Templar.
"That concerns thee nothing,"
answered his companion.
"I would hope, however, Sir
Knight," said the Templar, "that
this alteration of measures arises
from no suspicion of my honorable
meaning, such as Fitzurse instilled
into thee?"
"My thoughts are my own," said
De Bracy. "The fiend laughs, they
say, when one thief robs another;
and we know that were he to spit
fire and brimstone, it would never
prevent a Templar from following
his bent."
"Or the leader of a Free Com-
pany," answered the Templar,
"from dreading at the hands of a
comrade and friend the injustice he
does to mankind."
"This is unprofitable and peri-
cious recrimination," answered De
Bracy. "Suffice it to say, I know
the morals of the Temple Order,
and I will not give thee the power
of cheating me out of the fair prey
for which I have run such risks."
"Pshaw!" replied the Templar.
"What hast thou to fear? Thou

HOLY FAMILY ACADEMY
ST. BASIL, MADAWASKA.
THIS new institution occupies a beautiful
site on the banks of the St. John. Its
position unites all the benefits of country at-
mosphere with every desirable facility for
youthful exercise and amusement; well-being
is neglected to promote the health and well-being
of the pupils. The course of study comprises
English, French, Composition, Geography,
History, Arithmetic, Book-keeping, Zoology,
Botany, Instrumental and Vocal Music, Pen-
manship, Plain and Fancy Needlework.
Board and tuition, per year, \$60.
Music and use of Instruments, 25.
Drawing, 10.
Washing, 5.
Fancy work, 5.
The train running from Grand Falls to Little
Falls affords an easy mode of access. Great
attention is given to the French course, which
is conduced to the special care of French
teachers.

IVANHOE.
So saying, he stepped to the
stone basin, in which the waters of
the fountain as they fell formed
bubbles which danced in the moon-
light, and took a long drink of the
water.
"When didst thou drink so deep
a draught of water before?" asked
the knight.
"Never since my wine butt
leaked and let out its liquor by an
illegal vent," replied the friar,
"and left me nothing to drink but
my patron's bounty."
Then plunging his hands and
head into the fountain he washed
away all marks and signs of he
revel.
Thus refreshed and sobed, the
jolly priest twirled his heavy par-
tisan round his head with three
fingers, as if he had been handling
a reed, exclaiming, "Where be the
false ravishers who carry away
wenches against their will? May
the foul fiend fly off with me if I
am not man enough for a dozen of
them."
"Swearest thou, Clerk?" said the
Knight.
"Clerk me no Clerks," said the
transformed priest; "By Saint
George and the Dragon, I am no
longer a shavling than while my
frock is on my back. When I am
cased in my green cassock I will
drink, swear and woo a lass with
any other."
"Come on, Jack Priest," said
Locksley, "and be quiet; thou art
as noisy as a whole Convent on a
holy eve, when the Father Abbot
has gone. Come on you, too, my
masters, tarry not to talk of it—I
say, come on, we must collect all
our forces, and few enough we shall
have, if we are to storm the castle
of Front-de-Bœuf?"
"What! is it Front-de-Bœuf?"
said the Black Knight. "Is he
turned thief and oppressor?"
"Oppressor he ever was," said
Locksley.
"And for thief," said the priest,
"I doubt if ever he were half so
honest a man as many a thief of my
acquaintance."
"Move on, priest, and be silent,"
said the squire; "it were
better you led the way to the place
of rendezvous, than say what should
be left unsaid, both in decency and
prudence."

CHAPTER XXI.
While these measures were tak-
ing place in behalf of Cedric and
his companions, the armed men by
whom the latter had been seized,
hurried their captives along toward
the place of security, where they
intended to imprison them. But
darkness came on fast, and the way
seemed but imperfectly known to
the marauders. They were forced
to make several long halts, and
once or twice to return on their
road to resume the direction they
wished to pursue. The summer
morn had dawned upon them ere
they could travel in full assurance
that they held the right path. But
confidence returned with light and
the cavalcade now moved rapidly
forward. Meanwhile the following
dialogue took place between the
two leaders.
"It is time that you shouldst leave
us, Sir Maurice," said the Templar
to De Bracy, "In order to prepare
the second part of the mystery.
Thou art next, thou knowest, to act
the part of the Knight Deliver to
the captives."
"I have thought better of it,"
said De Bracy; "I will not leave
this till the prize is fairly deposited
in Front-de-Bœuf's castle. There
will I appear before the Lady Row-
ena in my own shape, and trust that
she will set down to the vehemence
of my passion the violence of which
I have been guilty."
"And what has made thee change
thy mind, De Bracy?" asked the
Templar.
"That concerns thee nothing,"

Mr. J. H. BATES, Newspaper Advertising Agent, 41 Park Row (Times Building), New York, is authorized to contract for advertisements in the WEEKLY STAR at our best rates.

The Evening Star.
—
J. E. COLLINS, Editor.
FREDERICTON, MAY 6, 1880.

The readers of this journal, are hereby informed, that Fredericton is the Capital of New Brunswick, and that York Point, and Marsh Bridge, and Reed's Castle, and MacEvoy's, and the old Bell Tower, and Partridge Island, all remain just as they were!

MR. JOSEPH N. GREEN.

We have been struck before today with the gentlemanly demeanor, the untiring energy, and commendable pluck of Mr. Green. He came before the legislature asking simple justice, and need we say how shamefully that justice was denied him. Everything he had in the world was at stake in the Grand Southern Railroad, his reputation too was staked there. He asked a hearing before a Committee of the Council, that hearing was denied him. The Council had made up its mind upon a "judgment" and the feeble tones of one, though the accents were those of an injured man, who based his cause upon equity and right, could not move it. We are reminded of the colored Magistrate, who thus addressed the Counsel on both sides: "Gentlemen you had argued de case bery well; and I shall take free weeks afore I will gib my decision. But eventually I shall decide in favor ob de plaintiff." Or to take a more serious view of the case, the action of the Council in refusing to hear Mr. Green's case before Committee, was like passing judgment on a man in court without giving him the benefit of a hearing. The Council carried out its will, and what it has gained is far more indeed than we can tell. The respectable press of the Province denounces the act, and the masses find for it no justification either. How false and how delusive was the hope which dangled before the mind of the Council ere they perpetrated that shameful deed that the Province would send up a pean of praise to it, as the guardian of their rights! Only a few, a few made up of those who understood not the case and who are interested in the rival road, say "well done," but turning to their own breasts, where all good men look for consolation, they hear nothing but reproach. Ill indeed it becomes their gray hairs to dishonor them by an act of such crying injustice. But Mr Green will triumph, and the road will be built: and this article is a mere reflection on an immoral and unrighteous act. Here is what the *Telegraph*, which has been making no uncertain sound of late on this matter, says of Mr Green, among other excellent things:

Mr Green as he stood before the committee, as he defended his unquestionable rights, as he expounded the work done on the Grand Southern, won golden opinions. He impressed every one with his candor and frankness as a man, with his skill as an experienced engineer, with his pluck as a defender of his interests, and with his indomitable energy in prosecuting his enterprise.

Mrs JONES, and Mrs Robinson, came for wool, but went home shorn. We speak of their campaign against Gibson et al on Riviere du Loup matters. They understand what we mean.

OUR MAKER'S WANT OF FORESIGHT.

If we were to judge from what we see going on around and about us, we would conclude that the Creator made a mistake in making man as he did, a free agent. But this has not been our belief by any means. From our earliest youth we have believed man came into the world with Free Will.—Do this and live, do that and die. This theory held so long, and believed so firmly, is, according to modern philanthropists all wrong. They hold now that Providence did not know Man as well as we do, else he would not have given to him so much liberty. He ought to have made him at least with a suspending clause.

Another sad mistake which He also made was to place in Terrestrial Paradise, a Tree: a tree whose fruit was death to all who partook of it. Had that tree not been there, man would be today, a paragon of perfection. This august truth is even developed at burdock "shows," and thundered from the inspired lips of the stump speaker. There would then be no compounding at five cents on the dollar, no bank robberies by dishonest servants, no divorces through incompatibility of temper, no shooting at sight for amusement, no illegitimate offspring cast by the wayside as food for beasts of prey. Old heads grown grey through debauchery and sin, would be fresh and blooming as the flowers of May. We would, in a word, be all "saints," according to the modern acceptance of that term. Why did Providence therefore do it? Was it through ignorance of man's waywardness at some future day? It must seem this and nothing else. Our duty, therefore, is to make him according to our own image and likeness. When we have succeeded this will be the Celestial City in reality and in truth.

CHARACTERISTIC INSINUATIONS.

OUR attention has been called to the following paragraph which appeared in a little Westmorland paper, the *Times*, May 3rd.

"The Hon. P. A. Landry, Commissioner of Public Works, was in town on Saturday evening and examined the draw bridge over Hall's Creek with a view to repairs necessary to work the draw and keep the bridge in order.—It is said that Mr. Buck, C. E., who was sent here to report on the bridge some weeks ago went beyond his instructions so far as to strongly recommend that the bridge be moved some distance up stream. Whether Mr. Buck acted on his own opinion of what was needed or was inspired from some quarter does not appear but the change is not likely to be made."
This paragraph is remarkable for nothing but its absurdity. Who was to know what Mr. Buck's "instructions" were? Certainly a Killam organ could be the last to know. And as to the "inspiration" in the silly sentence that concludes the paragraph, whence came that inspiration? The coward always covers his charge up in insinuation; and in the whole paragraph above we have the character of the *Times* Editor as correctly painted as Correggio himself could do it. We do not propose to enlighten such a worthless quarter on the facts; and we need only say that the hidden hand under the paragraph, is that of the man who has "many a time and oft," thrust his arm to the shoulder, into the public chest. It is the Bridge Vulture that is the moving spirit.

THE SURVEYOR GENERAL'S ILLNESS.

THE Surveyor General has been confined to his house since his arrival home, and he is yet far from recovered. He has been under the care of Drs Smith and McDonald, and these gentlemen have recommended a change of air. He will, therefore, leave for New York tomorrow, where he will spend a few weeks with his brothers.

Mr Adams possesses by no means a rugged constitution, and his close attention to the duties of his office, which are often harassing and trying to a person of the strongest constitution, has helped to bring about his present prostration. Last year, till late in the autumn, he travelled through the various free grants districts, through wet and cold, and many parts of these where horses could not travel he visited on foot. We know we only join in the general sentiment, when we hope his proposed trip may restore him to perfect health.

RETURNED FROM THE GRAND SOUTHERN.

MR. WALTER M. BUCK, C. E., of the Board of Works Department, has returned after having made a tour of inspection over the Grand Southern Railroad. Mr Buck was accompanied over the road, by Mr Holt, Assistant Engineer of the line, the party starting from Carleton. Just a week was occupied from the day they set out, till they reached St Stephen. The snow Mr Buck says was all gone, so that there was no difficulty in making the examination. The latter dealt with the character of the grading, the quality and quantity of materials delivered, and the estimated value of the whole—the work done, and material provided. This estimate will be laid before the Government and upon it the subsidy falling due will be paid. Mrs Jones of the Council called Mr Perley's report a fraud, we hope she will not be dissatisfied with Mr Buck's. Mr Buck tells us he was favorably surprised at the condition of the work done on this road four years ago. From what he further told us though the utterance is not "official," we learnt that he was quite well satisfied of the permanent and thorough character of the work done. It is only a few months more ere the iron horse will be tearing along through this region!

DIED.

The City Clock died to-day at ten minutes to 11. The winder, Mr White, has got in the sulks; it would seem, and the City Council does not care what becomes of the city. How long is this state of affairs to continue!

The freshest is dangerously high at Miramichi, and properties are deluged.

"GOSSIP CORNER" and other matters cant see the light till next.

A rupture between China and Russia is talked of.

That terrible nuisance blew again this morning.

CONSUMPTION CAN BE CURED

IS A FACT ATTESTED BY THE HIGHEST MEDICAL AUTHORITIES IN THE WORLD.
A careful observance of the laws of health, and the systematic and persistent use of **scott's Emulsion of Cod Liver Oil with Hypophosphites of Lim and soda** will accomplish this result. This preparation has all the virtues of these two most valuable specifics, in a form perfectly palatable, and acceptable to the most delicate stomach, and we make the unqualified statement that **scott's Emulsion** is being used with better results and endorsed and prescribed by more physicians for Consumption and the diseases leading to it, such as Chronic Coughs, Bronchitis, Anemia, General Debility and the Wasting Disorders of Children, than any other remedy known to medical science. The rapidity with which patients improve on this food medicine diet, is truly marvellous.
See What Physicians and the People Say About It.
Messrs. SCOTT & BOWNE, 66 West Thirty-sixth Street, New York, September 2, 1876.
GENTS,—I have frequently prescribed SCOTT'S EMULSION OF COD LIVER OIL with HYPOPHOSPHITES during the past year, and regard it as a valuable preparation for scrofulous and other diseases, of a reliable and efficacious nature.
C. C. LOCKWOOD, M. D., Baltimore.
Messrs. SCOTT & BOWNE:—Gentlemen,—Within the last year I have used in my own family, and in my private practice prescribed very extensively SCOTT'S EMULSION OF COD LIVER OIL with HYPOPHOSPHITES and find it a most valuable preparation, especially in diseases of children. It is agreeable to the most delicate stomach; which renders it a very reliable agent as a nutritive remedy in consumptive and scrofulous cases.
Oct. 12, 1879. Yours respectfully, J. SIMONAUD, M. D., New Orleans, La.
Messrs. SCOTT & BOWNE:—Gentlemen,—Within the last two months I have fairly tried SCOTT'S EMULSION OF COD LIVER OIL with HYPOPHOSPHITES, and I candidly declare that it is the finest preparation of the kind that has ever been brought to my notice; in affections of the lungs and other wasting diseases, we can consider it our most reliable agent, in a perfectly agreeable and elegant form.
December 10th, 1878. Yours truly, R. W. HAMILTON, M. D.

Messrs. SCOTT & BOWNE:—Gentlemen,—In September, 1877, my health began to fail and my physician pronounced it spinal trouble; under his care I got some relief from pain, but my general health did not improve, and early in the winter I began to lose blood and rapidly grew worse. In May last I was taken with a violent bleeding which brought me to my bed and my life was despaired of for many weeks; violent symptoms appeared, night and morning coughs, night sweats and short breath, and a return of the spinal trouble. My physician stopped the bleeding and then ordered Cod Liver Oil and Lime; and I used various preparations, but they did me no good. I lost all hope of life and was an object of pity to all my friends. Last September I purchased a bottle of your Emulsion and before it was all taken I was better. Afterwards I bought a dozen bottles, with the following results: Coughs subsiding, night sweats stopped, appetite returned, pains in spine disappeared, strength returning, and my weight increased from 118 to 140 pounds in sixteen weeks. I have taken no other medicine since commencing with your Emulsion and shall continue its use until I am perfectly well. I frequently meet some friends of the street who ask, "What cured you?" and I answer, "SCOTT'S EMULSION OF COD LIVER OIL." I have a friend who has not spoken aloud for 15 months, and he is getting better. I gave him a bottle and he bought two more, then got a doctor, and says it is food and medicine for him. He was given up to die a year ago; but he is improving now wonderfully. My recovery is exciting the surprise of many people, and shall do all I can to make known your valuable medicine.
January 20th, 1879. Very truly yours, H. F. SLOCUM, Lowell, Mass.

Messrs. SCOTT & BOWNE:—Gentlemen,—I got a bottle of your EMULSION and at that time I was so prostrated that no one who saw me thought I could live longer than a few weeks at most. I could retain nothing on my stomach and was literally starving. I commenced the use of the EMULSION in small doses; it was the first thing that would stay on my stomach; I continued its use, gradually increasing the dose; and from that hour I commenced mending, and now am able to ride and walk and strength rapidly returning. My recovery is exciting the surprise of many parties to try it, and some two or three have already tried it. I am sure I shall entirely recover.
January 20th, 1879. I am gratefully yours, R. W. HAMILTON, M. D.

\$5 to \$20 per day at home. Samples sent Portland, Maine. \$5 free. Address STRIMON & COY.

Boots & Shoes

CLAPBOARDS, SHINGLES, BRICK AND LIME,
HARDWARE & PAINTS,
Groceries
CHOICE TEAS, CROCKERYWARE, STOVES
DRY GOODS, HAT, CAPS, Etc.
Country Produce taken in exchange for goods.
BEN. CLOBE,
Under Riviere du Loup House
Gibson, Sept. 25, 1879. 6 mos

A DOWN TOWN MERCHANT.

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, at length convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggists. 25 cents a bottle.

Brown's House Hold Panacea.

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood, whether taken internally or applied externally, and thereby more certainly RELIEVE PAIN, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation. It cures pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, and ALL ACHES.

THE GREAT RELIEVER OF PAIN.

"Brown's Household Panacea" should be in every family. A teaspoonful of the Panacea in a tumbler of hot water [sweetened, if preferred], taken at bedtime, will BREAK UP A COLD. Twenty-five cents a bottle.

MUCH SICKNESS.

Undoubtedly with children, attributed to other causes, is occasioned by Worms. Brown's Vermifuge Combs, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty-five cents a box.

DELICATE WOMEN, Pale-faced, Sickly Children, the Aged and Infirm, alike are benefited by the Strengthening and Blood Making Power of "Hamilton's Quinine Wine and Iron."

It stimulates the circulation, improves the Appetite; and removes all impurities from the Blood. It is the best medicine you can take to give you lasting Strength.

THE HORRIBLE, UNSIGHTLY, BLOOMING, AND FEVERS, and the SALLOW COLORLESS COMPLEXION can be QUICKLY and EFFECTUALLY replaced, by a CLEAR HEALTHY SKIN. The remedy is CERTAIN and EASILY PROCURED, and is simply "Hamilton's Quinine Wine and Iron," taken according to directions. Try one bottle and be convinced. Price 50 cents per bottle; 6 for \$2.50. For sale by all druggists.

Local Matters.

Divine Service. This being the feast of the Ascension special services were held in St Dunstan's Church.

The Streets. Reports from up river as to stream driving are encouraging. Crews are busy at work, and the constantly melting snow keeps up the flood sufficient for driving purposes.

Legitimate Action. We have been authorized to state that the Police Magistrate will this evening swear 15 policemen for night duty; one of them will be Geo Bigger and the other probably James Roberts. He intends to try them for 10 days anyway.

Ill in Hampton. A few days ago Master Frank McGoldrick of this city went on a visit to his friends at Hampton. On the way he caught a severe cold and now lies at the point of death at Hampton. His father went down by train this morning. He is a son of Mr. Owen McGoldrick.

A Catastrophe Impending. It is reported about town that the Engineer of the city clock, James White, threatens to let that article run down, and not acquaint the Committee thereof. Mr. White evidently supposes that no one but himself can run this clock, but in this surely he is mistaken.

Personal. Mr. Fred W. Brown, proprietor of a boarding house on Grand Falls in the city. Mr. Brown looks in perfect health.

Walter M. Buck, C.E. returned last evening from his tour over the Grand Southern.

Billiard Hall. Messrs Crangle and Howard are fitting up a billiard hall and refreshment rooms on Queen Street in the store lately occupied by J. Ward. Their preparations are extensive, and they will sell all kinds of temperance drinks. They ought to be successful.

New Brunswick Railway. The above company held their annual meeting Tuesday, p. m., in the Agricultural Office. The following directors were chosen for the ensuing year: Hon. Messrs Isaac Burpee and John Boyd and Messrs Jeremiah Harrison, Alex. Gibson, E. R. Burpee, S. S. Hall and A. F. Randolph.

The meeting was a little breezy, but the storm threatened by the Council was turned out to be cast paw; and these two gentlemen had to eat such humble pie as Mr. Alexander Gibson can give.

Legal Partnership. Consolidation seems to be the leading idea now among the lawyers. We are glad to see that Mr. Charles Beckwith, Barrister, City Law Clerk, has associated with him, in the room of Mr. Geo. B. Seely who has been to St. John, Mr. Daniel Jordan, Barrister, late of St. John. We think we could with little risk as to our predictions, venture to say this new firm will receive an extensive share of public patronage. Mr. Jordan is a young lawyer, and we do not put him down on the list of voracious St. John pettifoggers, and for his years he stands among the foremost practicing at the Bar. We have heard a learned judge speak in high terms of his industry and intelligence in conducting cases. As to Mr. Beckwith his record is here, and need not our feeble praise to reflect on the public memory. It is of a sterling kind. The new firm will do business in the City Hall, where they have excellent offices. As will be seen by advertisement in another column, Mr. Geo. B. Seely, late of Beckwith and Seely has opened an office in St. John, having associated himself in partnership with Mr. McMillan. Any Fredericton gentleman having transactions with that firm, or desiring to be the capital (but on how it did it) would do well not to forget Mr. Seely.

Normal School Examination.

The semi-annual opening of the Normal School took place yesterday, 140 candidates, Principal Crockett, Messrs Green and Fowler and Misses Gregory and Clarke being present. The examination always commences with reading, and the candidate who cannot pronounce with tolerable clearness and pronunciation with moderate correctness, is debarred from standing the examinations that follow. The candidate's name is called to him, or she blushes and trembles, and per the condescension of the examiner selects a piece from any of the readers. The examiner afterwards selects a piece which he requires the candidate to read. After the reading examination was under way yesterday the following subjects, printed upon slips of paper, were laid on the candidates' desks.

- 1 GEOGRAPHY. Time 1 hr, 30 min. 1. Draw a map of New Brunswick, locating the principal rivers and chief towns, and writing or printing their names. 2. By referring to the map you have drawn, trace (in words) the watersheds of the Province. 3. Name the principal rivers of North America that flow into (1) the Arctic Ocean, (2) the Pacific Ocean and its indentations, (3) the Gulf of Mexico, and (4) the Atlantic Ocean and indentations. 4. Compare England and New Brunswick as respects area and population. 5. Name, and tell the situation of, the chief manufacturing towns in the British Islands. 6. On a circular diagram, not less than 1 inch in diameter, draw lines representing the equator, the tropics and the polar circles, writing the name and the latitude on each. 7. What conditions affect or determine the climate of a place? The following questions are optional, but additional credit will be given for any correct work done:— 8. Describe the course of the three longest rivers in Europe, naming in order the chief towns on their banks. 9. How can you find by the globe the time of the beginning and end of twilight at a given place? 10. Have you solved any problems by globes? This is a comprehensive paper, but well constructed: (II) MENTAL ARITHMETIC. Time, 3/4 hr. (To be worked in silence and without figuring.) Answers to be written on this paper. 1. If 60 is divided between A and B, so that B receives \$9 more than A, how much does each receive? 2. When 64 can purchase 16 yds. of cloth how many yds. could be given for 18 yds. of the same? 3. If 1 lb. of sugar is 1/4 the price of one lb. of tea, how many lbs. of sugar should be given in exchange for 819 lbs. of tea? 4. From the sum of 3/4 and 2/5 take the product of 3/5 and 1/4. 5. Find the interest on \$450 for 1/3 year, at 4 per cent per annum. 6. Bought 50 gallons at \$2.50 per gal. and lost 20 per cent on the sale, how much was the whole sold for? 7. How many farms, each 1/4 acre, 3 rods, 2 yards, 6 feet, can be formed from 1000 acres? 8. Multiply 14.75 by 121, to the product add .016, and divide the result by 3.5. 9. 1/2 gallons, 3 qts, 2 pts, can be bought for \$38.10, how much can be bought for 30 cents? 10. 18 men can build a wall 50 feet long, and 6 feet high in 20 days, how many men would be required to build a wall 40 feet long, 4 feet high, in 2/3 of the time? 11. Find, by Practice, the price of 310 yards, 3 qts, at \$3 1/2 per yard. 12. Make out an account of the following sales:— Joe Smith bought of Thomas Green, January 5th, 100 yards of cloth, at \$1.50 per yard; February 6th, 25 3/4 tons of hay, at \$12.50 per ton; March 3rd, 400 yards of Brussels carpet, at 35 cents per yard; March 18th, 4 boxes of tea, each containing 100 lbs. at 55 cents per lb.; April 4th, 3 reams of foolscap, at 20 cents per ream. 13. Explain the terms—factor, product, quotient, multiple, composite number, ratio. 14. Find the difference between the true and the bank discount on \$450 from March 1st to Sept. 30th, at the rate of 6 per cent per annum. The 10th question is optional, but additional credit will be given for a correct solution. We bear the name of Joe, and object to its being appended to Smith. The Thos. Jones, a member of the Mrs. Jones of the Council, it is a pity the examiner could not have selected fictitious names. But the paper is an excellent one, with these exceptions:—

- IV COMPOSITION. Time 1 hour. 1. Write a connected narrative from the following outline— Alfred a boy—his mother had a book of poems with beautiful pictures—shows it to her children—promises it to the one who learns to read—Alfred resolves to try, though not the oldest—goes to his teacher—studies hard—quickly learns—reads and repeats a poem to his mother—receives the book. 2. Write a letter properly dated and addressed to a friend, stating:— 1. What induced you to come to the Normal School. 2. For what purpose you came. 3. What subjects of instruction you have studied, and to what extent. 4. (a) What you know respecting the nature of education, or (b) the duties of a Teacher. 3. Give a brief description of your birth-place or the name of the place where you spent your early days. 4. Correct or justify the following expressions— "They ain't come yet. I can't believe he done it. They laid down and rested for an hour when they would just divide it between you and I. Whom do men say he is? I beg to apply for admission to the Normal School as a student-teacher. The two boys are perpetual companions. The eldest boy conveyed the parcel to his father. The day is finished. The tenant oppressed the landlord by defrauding him of his rent. The following question is optional, but additional credit will be given for a correct answer:— Specify the qualities to be aimed at in the construction of paragraphs. Explain the qualities you name. This is a well constructed paper also, but ought that third question to be there? There are some curious places in New Brunswick you know, and a good many duties about the farm house. Too much attention can't be given to the dialectic expressions creeping into the language. The fourth question is the most beneficial in the paper.

V. GRAMMAR AND ANALYSIS.

- Time, 1 hour. 1. What is the distinction between sex and gender? Name the various ways in which you can gender of the following phrases— as if, 2. Write the plural of pea, ox, lady, goose, what, father-in-law, chimney, potato, life. 3. Write the past tense and past participle of begin, run, choose, go, lie (to recline), fly, lay, down, sleep, swell. 4. How do you classify that, is, what, would you call, each in the following phrases— as if, so that, at present, in general, according to, along with? 5. Write a simple sentence; b, a compound sentence; c, a complex sentence. 6. Analyze the following sentence, that is, divide it into clauses, and state what kind of clause each is—I know, and you and he know that, if you persevere, you will certainly succeed. 7. Give the particular analysis of each clause in the sentence you have analyzed above. 8. Parse the words in italic in question 6.

Normal School Examination.

We would recommend some student to take the lines 422, 423 in Milton's Paradise Lost E. I. and consider them in connection with question 1. The lines read "Of Balsam and Ashtaroth, those male, These feminine."

CANADIAN HISTORY.

- Time 1 hour. 1. State what you know respecting Martin Crockett and Sir Humphrey Gilbert in connection with the "Period of Discovery." 2. Write a short account of the "bitter strife" between D'Aulnay and LaTour. 3. Sketch the career of Villebon in Acadie from the following outline:— Appointed Lieutenant-Governor—headquarters successively at Fort Royal, the St John, the Nashwan—his visitors at Fort-wait and their object—the attack on Fort William Henry—attack on Fort Nashwan by the New Englanders. 4. Describe the Battle of the Plains of Abraham, in the following manner:— Landing of Wolfe—Montcalm's course of action on receiving intelligence of the landing and the blunder he made—number and character of the troops on each side—the perilous position of Wolfe—course of the battle—losses on each side and the final result. 5. Explain the following terms:— Parliament, Legislature, Cabinet, Executive, Bill, Act, Responsible Government and Confederation. The following question is optional, but additional credit will be given for a correct answer:— Name the European Treaties that bear on the history of Canada, and state in what connexion. On Saturday it will be known how many of the candidates passed a successful examination on the above.

GIBSON NOTES.

There is a genuine hum springing into existence about here. The tannery and patent leather factory is doing a great business, and the railway seems to be far from idle. The Railway Wharf here is nearly filled with shingles piled up in every direction belonging to Mr. Sherman of your city, and every day more or less are brought down the line. Every day also vessels are being loaded and sent away with them for Boston and other American ports. Besides the above, they are continually bringing down large lots of hemlock bark from along the line, and considerable quantities of starch in its unrefined state.

WANTED.—Chains on our ferries for which your city by-laws provide: yesterday a team backed over our ferry for want of a guard.

The N. B. R. line up as far as Aroostook is in a splendid condition and the road above that is not yet made level. By next week however the Supt. says, it will be in as good a state as any part of it. The prospects for this season in the passenger line, he thinks will be favorable. If there was only a first class hotel at the Falls now, with proper accommodation for travellers, the travel would be considerable from this out.

Yours X.

[So it would.—Ed.]

Sale of Horses.

Mr. Geo. Bone of Bangor, yesterday purchased from Mr. James Burnham of Queen Hotel, the matched bay team General and Henry, also the grey mare Jen, and the dashing trotter J.P. Morris. This horse is probably the fastest and best bred of Robt. R. Morris. He has now a record of 2:24 for such a measure of his speed. The horses were shipped this morning by the train. Mr. D. F. Seely bought of the State the horse Neo-Coe, which he purchased from A. G. Blair, M.P.P. This horse is a full brother to Mr. E. C. Smith his and the State's Bob-tail, which, from its perpetual attendance about the Board of Works Office, was known as the "Corporation Horse." This animal was owned, however, by Captain Lyons, and will be a novelty on the other side. He went more "kindly" for Mr. Robert Thorburn. It is said, that for any one else, Mr. Brad Winslow always excepted. Mr. F. B. Coleman has sold to Mr. E. C. Smith his and the State's "Brighton Young." Mr. Smith intends putting this fine animal in training as from his breeding and confirmation he promises to show speed at the trotting gallop. Brighton is by Crown Prince, Jr.—by Crown Prince—(record 2:30) by Lord Mansfield, and the mare Maine—by the Stone Horse—by Winthrop Messenger—by Imp. Messenger. Mr. Coleman has sold to Mr. T. Coville for one season and could trot a 2:30 "clip."

Notes from Two Quarters.

Our correspondent R. who has recently removed from Kingsclere to Miramichi, sends us a communication from which we make the following extracts:— The examination of Mr. A. Grant School in district No. 6, took place on Saturday, May 1st, and was very creditable both to themselves and their teacher. They were examined in Reading, Spelling, Arithmetic, Geography, Chemistry, &c., &c., and showed a general efficiency. The greater portion of our news has gone to the Sabbath in a fearful manner for which they should be punished. Miramichi.—Our rivers are clear of ice, and about half of the mills are open, Chatham, are running, and the others are either fitting up or waiting for logs. Of these we shall soon have plenty. Men are scarce and wages are expected to be high. Gloomy accounts are received here from Colorado, where it is said wages for laboring men are running at \$1.00 per day, and just middling. The exodus to this Canada of the West will soon stop.

False Alarm.

About midnight last night an alarm of fire was sounded, but it was not till the whole city had been roused that it was discovered to be the work of some ruffian. We expect plenty of this kind of thing now, for our goodly Council have left the city without a police force, and one is not sure when going to bed at night, but he will be robbed and the house burnt over his head before morning. We learn the magistrate has undertaken the responsibility of protecting the city; if so, the act is creditable to him, and he should have the recognition of our citizens. But to conclude, we think the time has high arrived when the citizens should rise in a body, and ask the Council which has placed our city in such a painful condition to resign. We learn Engineer White was not at his post when the firemen visited the engine room, but that Mr. Todd was. This is a frequent occurrence.

Business at Gibson.

A few days ago 4 car loads of wheat containing 1200 bushels arrived at Gibson from the Gibson Mill. The wheat was purchased in Fredericton by the firm of Messrs. Seely, Todd and Burdett, and brought over by the Grand Trunk. This is the kind of enterprise that makes up a country. But what a pity the time is not spent in importing wheat, when we have so many millions of acres of our own upon which the best of wheat can be raised. However, "There's a good time coming," and the farmers all over are busy preparing the land for wheat. The Gibson mill will run all this summer and the home and imported wheat. Next season we have little doubt but our own farmers will keep the heel, all the while, going round.

STAR BRIEFS.

Road Master Greives yesterday sold the street cleaning. There was some lively bidding among the scavengers.

REGULAR COUNCIL MEETING!

James White Caught in a Discreditable Transaction.

A LITTLE OF EVERYTHING AND NOT MUCH OF ANYTHING.

The City left without Police—And the Recommendation of the Bench Magistrates Treated in true Kearney Fashion.

A STAMPEDE AND DISREPUTABLE ADJOURNMENT.

His Worship in the Role of an Alderman.

All the Aldermen rallied inside the rails Tuesday evening, that being the night appointed by law for the regular meeting. The meeting was held in the City Hall, and the Mayor, who is at present absent, was represented by the Clerk, and then ended the respectable feature of the occasion.

We shall now try to give the proceedings in a "tabular" as possible, and to present a true picture of that monthly meeting!

Bills were presented in every order, from the Roads and Streets, the Fire Department and the City Hall, and cheques were ordered to be issued in payment, much to the discomfort of Ald. Wheeler, who was present at the other meeting!

Requests also issued to the city officers for their last quarter. The opinion prevails among the Kearney element at the Board that the city could "get along first-rate without any officers at all." They have made the first trial by "doing away" with the police.

The Mayor, who is at present absent, is in the present Council, read a communication from James White, Engineer of the "Alexandra." So much of this document as was near the point pretended to show cause for the proposed dismissal of F. J. Todd by said White. The charge preferred was that Todd was drunk at the Sharkey fire, two weeks ago, and that therefore he was not a reliable man.

For the want of a document more decent, that of White's was received by the Board, and justly and properly gave rise to a long discussion. It is held by many that this White is a man of a very malignant nature, that his feelings and whims run so strong and that his hatred is so bitter, as to completely pervert his judgment, and that he is not a reliable man. The Mayor, who is at present absent, is in the present Council, read a communication from James White, Engineer of the "Alexandra." So much of this document as was near the point pretended to show cause for the proposed dismissal of F. J. Todd by said White. The charge preferred was that Todd was drunk at the Sharkey fire, two weeks ago, and that therefore he was not a reliable man.

In the discussion it came out quite plainly that malice was the cause of White's recommendation for Todd's dismissal. Todd was present, and for the life of him could not tell why he was taken off, but under pressure the explanation was given, that he was drunk two years ago at the Sharkey fire! What a malignant old man, to be sure! Now if Todd were drunk then, why did not White report him before, and put together in a substantial manner. Its shape gives commodious space to the apartment, while its internal arrangements are simple, suitable and convenient. For sale by

NEW SPRING HATS!

NEW YORK STYLES. JUST OPENED. Thos. Lucy, SHARKEY'S BLOCK, Next above the Barker House, Queen St. Fredericton. P'ton, April 15, 1879.

Gunter arose and submitted a document which he called a resolution; but it fairly puzzled the Mayor who again meddled in the business of the Aldermen. If Mayor Gregory does not confine himself simply to the duties of the chair, and let dreadful Aldermen plod their way through their own labyrinth, we shall have a serious reckoning with him. The gist of the Mayor's resolution therefore was that the city have two policemen, one by night and one by day. A question was taken, and the Mayor's absurd amendment was lost.

Then His Worship, ruffled as is the iceberg when the enraged and nonsensical billows dash about its base, asked the Council what they were going to do in the matter. Then a Solon arose to point the way out of the difficulty: this Solon was William Wheeler who moved an adjournment; and not at all strange to say this ridiculous motion was carried, and the Council disbanded immediately without police, and adding one more to the long list of Kearneys that now blacken and sully the city's page. This motion was quite worthy of the Alderman, who was present at Friday's meeting. Then each Alderman grabbed up his hat and slunk out. "How long O Lord how long!"

Wheat in "Smithfield." A STAR Reporter got his eye on a Smithfield farmer yesterday, just as he arrived in town. He immediately interviewed him on the wheat prospects for the coming season. The farmer got off his wagon, and came over to the reporter's side. "I raised enough wheat last year all winter, and it made just as good a flour when ground as I could get in town. I have not paid a cent for flour this last winter, nor do I intend to any more, so long as each wheel I get from my wheat is as good as what I have got. Why?" continued he, "all the farmers out there are growing their own wheat, more or less, and every year we are increasing our crops. We plant the 'Lost Nation,' so called, and find it to yield better than any other. Some of us have very large farms there and our land for wheat raising is not probably as good as other land, but this year I intend planting 6 or 7 bushels and from that I expect to get a yield of about 70 bushels. I do not take your paper," he added, "but I have seen some copies of it and it suits me first-rate. I will go up and subscribe."

More of the Councils Doings. The firemen will not turn out at next fire, unless they receive prompt payment of their dues now owing. The longer the city is going to tolerate this Council, some Aldermen threaten resigning.

Canadian Pacific Railway.

TENDERS FOR TANKS AND PUMPING MACHINERY.

TENDERS will be received by the undersigned up to noon on SATURDAY, the 15th MAY next, for furnishing and erecting in place at the several watering stations along the line of the Canadian Pacific Railway under construction, Frost-proof Tanks with Pumps and Pumping Power of either wind or steam, as may be found most suitable to the locality.
Drawings can be seen and specifications and other particulars, obtained at the office of the Engineer in Chief, Ottawa, on and after the 15th April.
By order, F. BRAUN, Secretary
Dept. of Railways and Canals, Ottawa, 1st April, 1880.
Fredericton, 7th April, 1880, Law & May 14th

WELLAND CANAL.

NOTICE TO MACHINIST-CONTRACTORS

SEALED TENDERS addressed to the undersigned (Secretary of Railways and Canals) and endorsed "Tender for Lock Gates Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on THURSDAY, the 5th day of JUNE next, for the construction of Locks, and the necessary machinery connected with them, for the new locks on the Welland Canal.
Plans, Specifications and General Conditions can be seen at this office on and after THURSDAY, the 20th day of MAY, next, where forms of tender can also be obtained.
Parties tendering are expected to provide the special tools necessary for, and to have a practical knowledge of works of this class, and are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and in case of firms—except there are attached the actual signatures, the nature of the occupation and residence of each member of the same; and, further, an accepted bank cheque for a sum equal to \$250, for the gates of each lock, must accompany each tender, which sum shall be forfeited if the party tendering declines entering into contract for the work at the rates and on the terms stated in the offer submitted.
The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.
For the due fulfilment of the contract the party or parties whose tender is proposed to accept will be notified that their tender is accepted subject to a deposit of five per cent. of the bulk sum of the contract of which the sum sent in with the tender will be considered a part—to be deposited to the credit of the Receiver General within eight days after the date of the notice.
Ninety per cent. only of the progress estimates will be paid until the completion of the work.
This Department does not, however, bind itself to accept the lowest or any tender.
By Order, F. BRAUN, Secretary.
Dept. of Rys. and Canals, Ottawa, March 29, 1880.
Fredericton, 6th April, 1880.—Lawt June 3.

WELLAND CANAL.

NOTICE TO BRIDGE BUILDERS.

SEALED TENDERS addressed to the undersigned (Secretary of Railways and Canals) and endorsed "Tender for Bridges, Welland Canal," will be received at this office until the arrival of the Western Mails on TUESDAY, the 15th DAY OF JUNE next, for the construction of swing and stationary bridges at various places on the line of the Welland Canal. Those for highways are to be a combination of iron and wood, and those for railway purposes are to be of iron.
Plans, specifications and general conditions can be seen at this office on and after MONDAY, the 21st DAY OF MAY next, where forms of tenders can also be obtained.
Parties tendering are expected to have a practical knowledge of works of this class, and are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and in case of firms—except there are attached the actual signatures, the nature of the occupation and residence of each member of the same; and further an accepted cheque for a sum equal to \$250 for each bridge, for which an offer is made, must accompany each tender, which sum shall be forfeited if the party tendering declines entering into contract for the work at the rates and on the terms stated in the offer submitted.
The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.
For the due fulfilment of the contract the party or parties whose tender is proposed to accept will be notified that their tender is accepted subject to a deposit of five per cent. of the bulk sum of the contract—of which the sum sent in with the tender will be considered a part—to be deposited to the credit of the Receiver General within eight days after the date of the notice.
Ninety per cent. only of the progress estimates will be paid until the completion of the work.
This department does not, however, bind itself to accept the lowest or any tender.
By Order, F. BRAUN, Secretary.
DEPT. OF RAILWAYS AND CANALS, Ottawa, 29th March, 1880.
Fredericton, April 7, 1880.—Law June 1st
