CHRISTMAS AT THE SALVATION ARMY

What a time Capt. and Mrs. Goodwin are having making elaborate preparations whereby a number of needy families and poor children may have a happy time this coming festive season.

A number of baskets will be sent out Christmas eve to poor families and on Monday night Dec. 26th Santa Clause arrives heavily laden with useful gifts of wearing apparel, etc.

To enable the Capt. and Mrs. Goodwin to do this a special "Keep the Pot Boiling Week" will be held and friends of the Army will one and all have an opportunity of dropping their offerings into the pot during Christmas week outside the Post Office.

As in larger towns, the kind people of Newcastle who at all times willingly help the Army in their good work, will again have an opportunity of "Good Will to All Men".

THE TROUT BROOK TOWER

The Trout Brook tower is about ten miles north of Newcastle. The eighty-foot tower being erected there is for joint use by the Geodetic Survey of Canada and the New Brunswick Crown Lands Department. The expense of construction is to be borne jointly.

Tozer Brothers of Newcastle have the contract for its erection. The ranger's cabin at the foot of the tower has been completed and the foundations for the tower also have been finished.

The tower is situated near the high road on what is known locally as Ashton Hill. Its elevation is five hundred feet above sea level, and a wide area can be viewed from it.

WAYERTON WOMAN ACCIDENTALLY SHOT

A shocking fatality occurred at Wayerton Settlement, about twenty miles from here, last Friday when Miss Molly Kingston, daughter of Paul Kingston, the well known lumberman, lost her life.

Miss Kingston was in the habit of practising rifle shooting, and Friday morning about 9 o'clock took her rifle and went out into the yard. A few moments later the occupants of the house heard a muffled shot and a groan, and on going out into the yard found Miss Kingston lying on the ground, shot through the abdomen.

It is presumed that the shell became jammed and in her endeavor to dislodge it the rifle was discharged. She was unconscious when found.

Dr. Bell was called from Newcastle and did everything possible for the young lady, but she passed away six hours later.

Coroner Desmond, after enquiring into the facts, decided that an inquest was unnecessary.

The deceased was about thirty-one and leaves her parents, four brothers and five sisters.

SAD DROWNING FRIDAY EVENING

About 4 o'clock last Friday evening a sad drowning fatality occurred on the river, at Clatham, when John Brophy aged 20 years lost his life by skating into open water. He and two companions were skating down the North Shore, at the time. Every effort was made to reach him, but failed, and the body was carried under the ice. He was an only son, and heartfelt sympathy goes out to his bereaved parents, Mr. and Mrs. T. Brophy.

The body of the young man, was recovered at noon, on Saturday, near the place where he went through the ice. The funeral took place Sunday afternoon, interment in St. Michael's Cemetery.

ANOTHER VICTIM OF DROWNING

Edmund Jimmo, of Loggieville, while on his way home from his fishing work, Saturday evening, was drowned within sight of his home.

He and some other fishermen were homeward bound. When nearing Loggieville he parted from the others to take a short cut across the ice. After going a short distance, he walked into an airhole, and before his companions could reach him after hearing his cries, he had gone under the ice. Inside of 24 hours, the Miramichi river, had claimed two victims. It was growing dark at the time of the fatal accident, which caused some delay in finding him. A bereaved wife and two children, are left to mourn, and much sympathy is felt for them. About eleven o'clock on Sunday morning, the body was found. The funeral took place yesterday.

ALL ABOUT THE LADIES

Referring to the recent election the Daily Mail says "The recent contest has made it quite clear that there is still considerable work for the Churches to do before the elections can be carried on without the aid of debasing influences." No doubt the shock the Mail received, when Hanson won, resulted in the poor thing having a brain storm, for it wants us to believe, that if the list of women who sold their votes, to a list of bribes etc, had publication the moral reformers of Fredericton would be greatly shocked. Of course, there could not possibly be anything wrong on the Mail's side of politics; all the buying and selling, was done by the other fellows. It is hard to tell, whether such effusions, is the ravings of a brain storm, or the cantings of a hypocrite probably a little of both. As to Church influences, a visit to Northumberland would furnish ample information, and illustration.

Evidently the ladies have worried the Mail terribly, for it goes on to say "Old time advocates of woman suffrage, in this province, such as the late Dr. A. A. Stockton and Hon. H. R. Emmerson, used to argue that the extension of the franchise to women would tend to the uplifting and purification of politics. Had they been privileged to see female political workers in action at the polls they would probably have modified their opinion somewhat."

The last sentence is hard, very hard, against female suffrage, and truth to tell, even the ladies them-

seems are divided upon the question. At the same time, until the act giving them votes is repealed, the ladies should exercise their lawful right to vote, to the full. It is quite possible that evil influences may be at work, in a contest, or that some prejudices may bias a result, and unfortunately under such circumstances; women bound together should they be swayed by such prejudice or evil influence will go to the polls in full force, and win an election; because their fellow women, less suspicious and less prejudiced stayed at home, and did not vote. Both men and women err in this respect, sometimes. We know, this actually did occur in some sections of our County, on election day—Influences were used in certain sections, which fairly compelled women to go to the polls, while others, perfectly indifferent, stayed at home, and did not exercise their right to vote, their absence from the polls, aiding a result, which by word of mouth, they condemn. It is better to use a lawful right than to ignore it. Defeat with honor, is vastly superior to a victory gained by political chicanery, falsehood, and prejudice.

NATIONAL RAILWAYS PROSPECTS BRIGHTEN

The improved financial showing of the Canadian National Railways for the months of August and September has received general and favourable comment in the Press throughout the country. It will be of interest to the public to see in graphic manner the monthly advances made since the beginning of the year.

The accompanying chart shows that Operating Expenses, as indicated by the upper line on the chart, were brought down, month by month, and that they drew gradually towards a meeting with the lower line, which indicates the Gross Earnings. In August, the lines met and crossed, showing a small margin to the good for that month. In September, the widening gap between the lines indicates net earnings of more than half a million dollars. The trend of the sweeps or curves, as they are sometimes termed, predict a much better showing in October.

Those who were in close touch with the situation, and who knew what was being done to bring about operating economies, could see well in advance, that a continuation of these measures, with the usual increases in volume of traffic, would bring the lines together, and that with the seasonal crop movement, they should cross. It was hardly expected that the month of August would show net earnings, but reductions in the costs of materials and supplies, coupled with the readjustment of wages, and the increase in Gross Earnings, were factors which, combined, enabled the

"I am in my 78th year. About 25 years ago, I began to have trouble with my Stomach. One doctor said I had Cancer; another said, Ulcer of the Stomach; another, Gall Stones; others, Ulcers of the Liver and Inflammation of the Gall Bladder.

Three years ago, I consulted one of the best specialists in Montreal. He said I must go to the hospital, have an Ulcer cut out of my stomach and gall stones removed. I was then 74 years old. I said "NO." Then, I began to take "Fruit-a-tives". I found they helped me a lot, and I still take them occasionally, and I am so much better that my old friends often ask me what I have done to myself to look so well. I am gaining in weight and enjoying life very much."

ARE ALL MEN BORN EQUAL

That honored document, the Declaration of Independence, lays down as self-evident the proposition that all men are born equal. It does not say all women.

That statement, of course, is an absurdity.

It needs not to compare the Hottentot in this respect with the Caucasian infant who is destined to become a college professor. Let us rather take note of certain recent observations, the first of their kind, made by expert psychologists who examined and mentally classified 1,700,000 men recruited for the America Army in the great war. Thorough tests revealed the fact that the average mental age of these 1,700,000 men was about thirteen years—taking as a standard the intelligence of an average 'bright' child.

From these tests it is inferred that in the United States there are 25,000,000 people who can never pass beyond the mental age of thirteen, and that there are 45,000,000, who, in an intellectual sense, will never be as old as that. On the other hand, there are 30,000,000 above this average, and 4,500,000 of 'very superior intelligence'—WAS. 3, 21

What! only thirty or thirty-five million, out of the United States population of one hundred and ten million, with intelligence, anything superior to the 13 year old, and out of that lot only about four and a half million of superior intelligence, certainly men are not equal in the U. S. anyway, but they all have votes.

much better showing made in that month.

A feature of the situation, which constituted a great difficulty encountered by the management in their endeavors to wipe out the deficit, is graphically displayed by the chart which shows that Gross Earnings dropped after February; that month's gross is usually the lowest in any year and, commencing with March gross earnings invariably improve; but during the present year a new condition prevailed; the earnings in the months of April, May and June were lower than those in the months of January and February. This slump in business was general, and affected all lines. If the usual trend of earnings had been followed, the operating economies effected would have brought the lines together at an earlier date.

The chart also shows that the greater reductions in operating expenses was largely brought about by the readjustment of wages, effective July 16th.

The Canadian National Railways, earlier in the year, informed the people of Canada, by a series of frank, explicit articles in the public press, of some of its problems, and, in particular, of the pressing need of more traffic. The improvement in the relative position of the National lines has been accomplished, not only by the reductions of operating costs, but, also, through the co-operation of the public that realized the truth of the statements made on the National Railways behalf, and who have met the situation in a practical way.

Success in Retailing

Be Loyal To Your Own Community

An essential factor in achieving success in a retail business is ADVERTISING—telling the buyers of your community what you have for them.

One doesn't need to be exceptionally clever or a genius to be a success, but one must have an aim, and pursue it resolutely and intelligently.

The businesses that are prospering and expanding are those that purposefully seek out new customers and place before both old and new customers the news of their service, in the form of Newspaper Advertising.

A WORD TO THE PUBLIC

Who serve you best—busy or half-busy men? busy or half-busy shops? Where is your custom most desired and appreciated? Is it not at those shops which stretch out the hand of welcome and invitation—in the form of advertisements in THE UNION ADVOCATE?

ANOTHER REST

Now that the Election is over, Canada will have a breathing spell once more, waiting for the New Government to show its Executive ability, and all the glories of the new prosperity, oratorically pictured, and promised by the so-called Liberal Party.

The Advocate has no apology to offer for the cause it chose to maintain during the contest, and acknowledges with pride, the handsome support given to the Conservative Candidate. When the canvases used against Mr. McCurdy are brought in to account, the wonder is that his poll stands so good.

As to our opponents they are quite welcome to the result. Notwithstanding all their efforts up to the Saturday night before the election, their case was a hopeless one, and the Morrissyites feared defeat. Their tone was very different on Monday morning, and the dependents of the week before wore a smile, and declared their victory was afore-gone conclusion. It seems it was, results have made it so.

Taking into account, the fact that the late government sustained defeat, it is perhaps more satisfactory that a supporter of the New Government should be in place at Ottawa. At any rate under the circumstances Mr. McCurdy is as well pleased to be at home, as had he been elected, he would have been in Opposition.

As it is we are in the hands of a Representative, whom we still think unfit for the position. M. P. at the end of his name, makes, it no more politically honorable, than the name

PAINS SO BAD STAYED IN BED

Young Mrs. Becroft Had Miserable Time Until She Took Lydia E. Pinkham's Vegetable Compound.

Hamilton, Ont.—"I have suffered for three years from a female trouble and consequent weakness, pain and irregularity which kept me in bed four or five days each month. I nearly went crazy with pains in my back, and for about a week at a time I could not do my work. I saw Lydia E. Pinkham's Vegetable Compound advertised in the Hamilton Spectator and I took it. Now I have no pain and am quite regular unless I overwork or stay on my feet from early morning until late at night. I keep house and do all my own work without any trouble. I have recommended the Compound to several friends."—Mrs. EMILY BECROFT, 269 Victoria Ave. N., Hamilton, Ontario.

For forty years women have been telling how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women, why don't you try Lydia E. Pinkham's Vegetable Compound? It is made from native roots and herbs and contains no narcotics or harmful drugs. For special advice women are asked to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years experience is at your service.

he bore already that of Hon. John Morrissy. He is simply what he is, that and nothing more. Men do not gather grapes off thorns, or figs off thistles.

Whatever good John Morrissy may do or be the means of doing for Northumberland, will be duly acknowledged in the Advocate. Our attitude will be that of watching and waiting. If he spoke the truth, King has already promised Jack to build the Tracadie Railway for him, a fine promise for a man to make, who said he would build no more railways etc. The Hon. John, has also promised the Chelmsford Bridge; in fact the list of promises 'if they only put him in, would take up too much of our space to publish. We feel satisfied our readers, and the general public, who know what they are worth, will pardon us for not inflicting such a list upon them.

The supporters of the Conservative Party in Northumberland County, have not by any means lost hope in their good cause. They are as sincerely attached as ever to the political principles so ably and consistently announced and defended by the Hon. Arthur Meighen, and when the occasion again arises will be ready to rally to the standard, as faithfully as ever. Today the Liberal party, is a house divided against itself, a mixture of policies, which will not unite, with a single Province holding the whip hand. Can it stand?

In the meantime, be sure, when the fall comes, to be ready for the emergency, and begin now. While waiting, as was advised in our last issue, in reference to John Morrissy, watch closely his career in the House and Judge him accordingly. It would not surprise us if he defeated himself.

BAD BOYS

Editor of Advocate:— Sir:— Can nothing be done to stop the profanity, and obscene talk indulged in by some bad boys in our town? Names could easily be given, as I have made some enquiries, but I refrain for the present. If parents, or those having home authority, will not stop this sort of thing, some other course must be taken, as the law can interfere.

I was passing along a principal street, the other Sunday evening, and the conduct, and Sabbath breaking was shocking. Boys and girls, some of them just after being at Sunday School were congregated at a hill opposite bottom of a street coming from the railway, and sledding down it, jostling one another, using loud talk, hollering and some of them swearing among them some of the worst boys in town. Respectable parents should not allow their children to go there, and every one having proper regard for Gods day, should have this Sabbath breaking put a stop to. If parents wont do it, or dont care, let the town authorities try their hand. Dec. 9th, 1921 A MOTHER

THE "WHOOOPER"

The "Whooper" resumed a daily service yesterday. This matter was strenuously taken up with the Railway authorities by Mr. E. A. McCurdy, with the result that the train has been re-instated, and will relieve a great inconvenience to residents of the up-river districts. Orders for the change, were issued previous to the election.

HALIFAX DISASTER

Election day, was the fourth anniversary of the Halifax explosion, which occurred Dec. 6th 1917 Two thousand people were killed, and the north end of the city laid in ruins. The rebuilt portions of Richmond and the Northend, presents a better appearance, than they had before the disaster, and it is expected that complete re-establishment, will be gained before very long.

FAYOLLE ON CANADA.

Vastness of Land Compared to His Beloved France.

Marshal Fayolle, head of the French Mission to Canada has written up for the Revue des Deux Mondes the diary of his official tour. The narrative is crisp and yet illuminating, and bears no trace of the stomach trouble which too many banquets are said to have given the author. Not the least remarkable is what might be termed the peroration. Here the Frenchman finds eloquent tongue in prophecy as to the future of the two countries. The passage was based on a comparison of Canadian scenery with the scenery along the homeward route between Havre and Paris. The following are the magnificent concluding paragraphs of the report:

"In Canada, all is vast, almost boundless; here all is beauty and harmony. On the one hand, the immensity of territory, plains and forests which reach away to infinity, rivers which spread out over thousands of miles, while crossing lakes which are like seas, on the other hands, landscapes in a fairy-like frame that is continually changing, always with finish that is exquisite in incomparable variety. Yonder, enormous latent treasures; here, admirable delights perfected throughout the centuries. Yonder, the future with its vast hopes; here, the past with the treasures of a marvelous history which is not yet finished, whose most recent chapter written in blood, illuminated with victories, is the most glorious of all. In both cases, the hands of powers and glow of soul in confidence for the future."

"O French Canada, how we understand your motto: 'I remember.' 'This motto, we make it ours; we too, we remember."

"It is in this union of thoughts that we murmur lovingly, while the train bears us towards Paris: 'Hail, land of our fathers, whom your separated children and those who dwell with you love with an equal love; hail, O beloved France, queen of motherlands!'"

Marshal Fayolle."

Color and Crime.

If a prisoner is in for premeditated violence put him in a cell with walls the hue of the daffodil; if his act is one of passionate violence, his term should be served in a cell of blue; if he is being punished for burglary, confine him in a dungeon of violet and black.

For the human being is responsive to color just as the king of the cow pasture re-acts to red, according to Mr. Kemp Prossor, the color specialist, quoted in a San Francisco paper. His color prescriptions were made public when he took occasion to deprecate the idea of prisoners choosing their own colors.

People who have committed a violent crime which they have been contemplating for many years should be placed in a cell colored yellow or orange, as these colors stimulate the brain and tend to drive out morbidity, he says. If the crime has been done on the spur of the moment, blue or bluish green should be used, for they are soothing colors. A man confined a few years in a cell so tinted would probably be quite altered. All cells should have a blue ceiling, to drive away the idea of being confined within four walls, which preys on the prisoner's mind.

Burglars rarely have any money. They rob for the love of the game more than anything, says Mr. Prossor. They love excitement. To break down that spirit of adventure a scheme of violet, black, and a little blue should be used. In some institutions the predominant color should be pink. The color scheme of 75 per cent of English homes is pink. That color will impress on the boy thieves and others the idea of returning to the home. This decoration of prison cells could be done very easily and very cheaply.

Danger In Fog.

In a heavy fog there is danger of collision between ships because the uniform signals used merely indicate their presence, and tell nothing of their course or direction. A sea captain of long experience now has devised a system which overcomes this difficulty, says Popular Mechanics. Four signal horns of different tones are used, two sirens, a shrill whistle, and a steam gong, all of which are operated by foot levers. Each of these corresponds to one quadrant of the compass, and is operated only when the ship's course lies in that general direction. The four divisions of the quadrant itself are indicated by varying the signals, as, for example, one long blast, a long and short, a long and two short, and two long. A recording mechanism is connected to the signal equipment and serves as evidence in case of subsequent question as to the handling of the ship.

Eggs Boiled In Oil.

A new method of sterilizing eggs, as a preliminary to cold storage, consists in immersing them for five seconds in an oil solution at 250 degrees Fahrenheit. This brief exposure to a heat considerably above the boiling point of water is sufficient to kill not only whatever bacteria the eggs may contain, but also the vital principle in those of them that are fertile. Electrical machinery does the work. It is claimed that the eggs are in no way injured by the treatment and, when afterward put into cold storage they retain their freshness much longer.

A Famous Flower Market.

In the famous Covent Garden flower market in London, Eng., the work of carrying is done largely by women porters. A somewhat odd recognition of their work is received annually by these flower porters in the shape of a shawl and two aprons each, a gift from the Duchess of Bedford.

ANOTHER CALAMITY Look out for 1926. The new Canadian Government is to be blown to smithereens. The world will cut loose from its foundations, in every way, politically, spiritually and physically. London will be buried in the Thames, Paris in the Seine and New York in the Hudson. There will be a general turning up-side-down, and inside out. There will be another great war, the last big battle, the final Armageddon. Four great powers are to be in the fight, which will end in a British victory and "the second coming." There will be another disarmament Conference, and lasting universal peace. The prophet who tells of this, has before now been astray, and Mercury and Mars may not "conject" enough. If they did we couldn't help it.

JUSTICE AT LAST The terrible crime, committed when the Lusitania was sunk by a German submarine, under the brutal command of Captain Schwioger; is brought to mind again, by the tragic end of that piratical murderer. He became an object of almost universal reprobation, on account of his war record; and was hunted from country to country. At last he found a resting place in Paraguay, and became naturalized. His knowledge of Seamanship gained him a position as Capt of a warship; the Adolfo Roqueime. His natural brutality soon showed itself, when he had the power. Finally, the crew of the warship could stand it no longer. They rebelled against his harsh discipline, and brutal treatment. He was seized, flogged and thrown into the sea. His life was a curse; his end a tragedy, his epitaph—well merited, it was just.

GRIFFITH WILL STAND BY TREATY

Arthur Griffith, founder of the Sinn Fein and head of the Irish delegation which negotiated the settlement at London has issued the following statement.

"I have signed the treaty between Ireland and Great Britain. I believe this treaty will lay the foundations of peace and friendship between the two nations. What I have signed I shall stand by, in the belief that the end of the conflict of centuries is at hand.

The following is the oath which according to the treaty, each member of the parliament of the Irish State will have to take:—

"I will be faithful to His Majesty King George V. and his heirs and successors by law, in virtue of the common citizenship of Ireland and Great Britain and her adherence to and membership of the group of nations forming the British commonwealth of nations."

THE IRISH QUESTION

Washington, Dec. 7.—Profound effects on both British and United States affairs and better relations between Great Britain and United States are foreseen here by reason of the settlement of the Irish question. Comment here in the most intelligent quarters is that the settlement will quiet a large element of voters in this country who have tried persistently to involve the United States and England over the Irish question, and the Irish problem will cease to be a factor in the United States politics.

INTERESTING MEETING

A highly interesting meeting, under the auspices of the Red Cross Society, took place last evening in the Town Hall, Captain Mullineux of the Imperial War Graves' commission was the principal speaker. Lantern slides were exhibited showing the War Cemeteries in France, where thousands of the heroes of Canada, rest in their honored graves. A good audience, including some relatives and friends of the soldiers, attended. Mayor Fish, who occupied the chair, made a very appropriate opening address. Rev. W. J. Bate made a short closing address, and the gathering dispersed after singing.

CONGRATULATIONS

The return of Mr. G. B. Jones, at the head of the polls, for the Royals, is one of the most satisfactory results of the election. The Opposition will have in him one of the best, and strongest members, not a fluent orator, but a good logical reasoner, well versed in the political questions of the day, with a large knowledge of National requirements. We extend congratulations, and hope to see him one day, still nearer the Premier of his party, in the ministry.

RECEIVED CALL

Rev. S. J. Macarthur, of Chalmers' church, Quebec, formerly of St. James' church, Newcastle (N. B.) has received a call to the pastorate of Westminster church, Smith's Falls (Ont.) Mr. Macarthur has been four years in Quebec. Westminster church, Smith's Falls, was formed in 1913 by the union of the two former congregations of St. Andrew's and St. Paul's. Rev. A. L. Fraser now of Park street church, Halifax, was minister of the united congregation for some four years.

The British Fleet.

Decidedly, self-advertisement does not come easily to the British nation. Though not to be commended as a good practice in itself, a total lack of the capacity is apt to lead to serious underestimation by the world in general, and her allies in particular, of the part which, aside from the actual battle fronts, Great Britain has played in the war. For instance, how many people, either at home or abroad, realize that, during three and a half years of war, the Admiralty has carried 17,000,000 passengers, by military transport, backward and forward to the various theatres of war? The number of animals conveyed has exceeded 2,000,000, and the tonnage of stores \$7,400,000. These figures include a large amount of assistance given to Allies. Italy, to quote only one instance, has received a million tons of stores carried by the British Admiralty, and three and a half million tons of coal have reached her in requisitioned steamers. These are just a few facts, which, after a deal of prodding of the Government departments concerned, have been made public, but with a characteristic lack of trumpeting.

The New Year

is not very far distant and immediately after that the shipments of fertilizer begin to go out. Many of our customers handle their carload on the snow while the roads are good, others want to have it on hand and delivered before the planting season, and others to avoid the delay which may come with a later order.

While it is too early yet to have any fixed idea of business next spring the general conditions appear favorable for a much better fertilizer trade than a year ago. There is a distinct shortage of potatoes in Western Canada and United States which under usual conditions results in advanced prices. The shortage is much greater than two years ago when potatoes reached the high mark. However other conditions do not favor marked higher prices but merely a steady demand seems to be assured.

In the apple growing sections of Nova Scotia the shortage of apples in other sections has opened new markets. This has made a free movement of a large crop at reasonable good prices.

These improved markets compared with last year and the reduction in price from five dollars a ton in the lower grades up to a reduction of fifteen to twenty dollars in the higher grades will probably cause a larger demand for fertilizers with an earlier placing of orders.

The "Made at Windsor, N. S." fertilizers meet the requirements of the farmers in supply, quality and price.

We want agents, either dealers or farmers in all territory where we are not now represented.

A treaty was entered into between the Representatives of England and Ireland, and that treaty was signed by Arthur Griffiths, founder of the Sinn Fein, and Foreign Minister, Michael Collins, Finance Minister; Robt. C' Barta 'minister of Commerce'; George Gavan Duffy and Eamonn J. Dugan, all satisfied with England's offer. England rejoiced at the settlement released three thousand pol-

itical prisoners and England's King said "I am proud to have been able to contribute to the happy issue." The news of a settlement flashed over the wide world, and congratulations and rejoicing poured in from all quarters of the Globe, even a service of thanksgiving was held by Cardinal Bourne, in the Roman Catholic, Westminster Cathedral—all of no avail the President of the Sinn Fein, has condemned the treaty, and refuses to acknowledge it though his ministers already mentioned have agreed to it. There are other members of his cabinet who agree with him, so the members are in disagreement. The question will now be left to the so-called Irish Parliament. May the

SHE CAN HARDLY REALIZE CHANGE

Popular Business Woman Says She Never Dreamed Tanlac Could Do So Much For Her.

"I am only too glad to praise Tanlac, for it has done for me what I never dreamed was possible, and I now feel so well I can hardly realize that only a short time ago I was in such a miserable condition," said Miss Alytha, Perth, 351 Carlton St., a popular young Winnipeg business woman, conducting a public stenographic office.

"Just about three years ago I had a nervous breakdown which kept me in bed for several weeks and left me in such an awful state of health I had but scant hope of ever getting better. I was so nervous I trembled all over, couldn't sleep, and even after I went back to the office, I seemed to have no strength at all and only through sheer force of will power was I able to attend to my duties.

My stomach soon became disordered, and indigestion caused me the most frightful pains, bloating and shortness of breath. My kidneys also, bothered me and I had a pain across the small of my back that made life positively miserable.

"Well, despite the fact that I was trying one medicine after another, I found I was going down hill rapidly. But after taking only two bottles of Tanlac I could see it was doing me a world of good, and seven bottles have relieved me of all my ailments and now my health is just fine. My whole system seems to be in the best of condition, and I eat, sleep, work and enjoy life better than for years. Tanlac is simply grand.

SIXTY-FIVE CANDIDATES LOST THEIR DEPOSITS

Ottawa, Dec. 7.—Election returns available show that 65 candidates lost their \$200 deposits and that a sum of \$13,000 accrues to the Dominion treasury as a result. It is expected that the complete returns will considerably increase these totals.

The Progressives were the greatest sufferers in this respect, 19 of the new party candidates failing to secure more than half the number of ballots cast in favor of their successful opponents. Independent candidates ran a close second with 18 deposits lost. Conservatives ran third with 12 with Labor at nine and Liberals seven.

Listen!

Have you heard about Peps? Peps is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.
Peps contains certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.
In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence healing.

One Man Who Came Back

Not long ago the people of Peru set aside a week for the celebration of their centenary of independence. At the same time at Tiello, a little hamlet in the Andes and the site of the highest railroad station in the world, there was a flag-raising ceremony in honor of one Henry Meiggs. Outside of Peru hardly anybody has heard of Henry Meiggs, except railway builders and engineers. These experts regard him as one of the most brilliant of their brotherhood. He built the highest railroad in the world, in the course of which he had to perform some amazing feats of engineering, and to-day he is revered by the Peruvians almost as though he were a saint. Meiggs did not live to see the railway which he had planned brought to completion.

Henry Meiggs was an American who saw service as an engineer in the Civil War. Later on he went to California, but he was not in luck's way and came near to destitution. Then one day he got a job as clerk in a bank in San Francisco. He handled more gold in an hour than he had ever earned in all his life. He was tempted and he fell. One day he disappeared and simultaneously a shortage was discovered in his accounts. The bank searched long and far for Meiggs, for it is a principle with banks that those who swindle shall be punished, not more for their own crimes, but as an example to others who may also be tempted. But the bank's detectives found no trace of Meiggs. He had made his escape by ship, and one day in 1867 he turned up at the Peruvian port of Callao. From there he made his way to Lima, where he settled down to a quiet life in a hotel.

He seemed to be a man of plenty of means and complete leisure, but he used to spend many days traveling in the mountains. Returning he would collect plants and make notes. Nearly a year passed in these explorations, and then one day, accompanied by the American Consul, he appeared before a member of the Peruvian Government and unfolded his plan for a railway which should make accessible the hidden riches of the Andes, tap isolated valleys and bring the people of the interior country closer to the sea. The idea was not a new one. Various Peruvian engineers had been able to surmount even on paper the tremendous physical difficulties in the way. The Peruvian Government thought at first that Meiggs was merely another visionary, but a careful examination of his plans showed that he had conquered obstacles that had baffled others.

A preliminary survey was made and confirmed Meiggs' reports, and two years after arriving in the country he was given the contract to build the railway. It is known now as the Peruvian Central, and is only 247 miles long, but nowhere else in the world is there such another 247 miles of railway. It passes over forty-one bridges, threads its way through sixty-five tunnels and makes twenty-one zig-zags in its climb toward the top of the mountain. From Callao, which is at sea level, the road climbs to Tiello, which is 15,855 feet above it, and the trip is made in nine hours and a half, which is good going when one considers the grade, the turns and other obstacles to swift traveling. In the early stages of the construction a force of 1,000 men was engaged, hundreds of whom were killed as the steel was carried up the mountain side or thrown across the deep gorges.

At the famous Chaupuecas Bridge a runaway engine struck a derrick car and a dozen Americans were hurled over the abyss. To this day part of the wreckage may be seen from the car windows. Many workmen died of some mysterious malady in the district surrounding the Verrugas Bridge, one of the loftiest in the world. It is impossible for human beings even now to live in this region, although persons passing through it are immune from the attacks, which the Peruvian doctors have been unable to explain. At one place on the line Meiggs had to construct a tunnel beneath a river, in order to avoid constant washouts. At another place a tunnel was bored through a mountain in order to divert a river, whose bed was required for the railway. Whether Meiggs ever paid off his debt to the California bank we do not know, but Peru valued his services so greatly that rather than surrender the fugitive she would have gone to war.

Ancient Oath Taken On the Isle of Man

Douglas, Isle of Man, Dec 6—The appointment of two new "deemsters" or members of the legislative council of this island has just called attention to the peculiarities of the ancient oath they take on the Bible when assuming office. It reads:

"By this book, and by the holy contents thereof, and by the wonderful works that God hath miraculously wrought in heaven above and in the earth beneath in six days and seven nights, I do swear that I will execute the laws of this island justly between our sovereign Lord the King and his subjects within this isle, and between party and party, as indifferently as the herring backbone doth lie in the middle of the fish."

The Isle of Man, which is well known as a pleasure resort and is situated in the Irish Sea, has its own legislature and is not bound by any acts of Parliament, unless it is specifically mentioned in them

say **Aspirin**

Nothing Else is Aspirin—say "Bayer"

Warning! Unless you see name 'Bayer' on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an unbroken "Bayer" package which contains directions worked out by physicians during 21 years and proved safe by millions for Colds, Headache, Earache, Toothache, Neuralgia, Rheumatism, Neuritis, Lumbago, and pain. Made in Canada.

All druggists sell Bayer Tablets of Aspirin in handy tin boxes of 12 tablets, and in bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

NEW LIGHT SERVICE
Newcastle and the Hydro-Electric hooked up, last Sunday evening. The power is generated at the Falls on the Nepisiquit River. The new service takes the place of the steam power plant, formerly used to supply light, and it is believed will be an improvement over the old.

ACCIDENT
Capt. and Mrs. Goodwin and a party of 'Salvationists' went to Trout Brook Sunday to hold a meeting there. After a very successful and real salvation meeting, they prepared to return to Newcastle. They reached town, but unfortunately near the R. C. Church, the sleigh overturned, and the horses became unmanageable. The whole crowd, ten of them, were thrown out. Some had a severe shaking up, and George Johnson, had three ribs broken. Dr. Nicholson is attending him, and he will very likely be unable to do much for some time, but the army chariot is still rolling on.

"Cold in the Head"

is an acute attack of Nasal Catarrh. Those subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions.

Mrs. Ellen Simpson, relict of the late Simon F. Simpson of Neguauc departed this life, at the home of her son-in-law, Mr. Robt. Murray, Chatham, last Friday morning in her 83rd year. The funeral took place on Sunday and the interment at the Presbyterian Cemetery, Burnt Church.

NARROW ESCAPE

Two young people, Miss Alma Irving and Dick Keoughan, were skating on the ice on the river about opposite the ferry wharf, Chatham, when they unfortunately went into an airhole. George Robins and Danny Critbs, heard their cries for help, and after considerable anxiety and trouble, the victims of the mishap were hauled to safety. The accident occurred last Thursday evening, and according to the Gazette no ill effects follow the immersion.

A LAUNDRY RAIDED

Early last Sunday morning, a Chinese Laundry on Robinson St., Moncton was raided by police. They found a dozen or so of the Chinese about a table, decorated with sets of Dominos, and bills of various denominations. They were enjoying themselves, and the proprietor Fong Lee was asleep in his bunk.

The entry of the police caused a scramble for the money, but the law officers managed to secure a \$5 bill, which will be put in evidence. It was found on getting the names, that the celestials belonged all the way from Sackville to Newcastle.

THE IRISH QUESTION

On hearing that the Irish question was about settled, Sir Robert Borden who is in Washington, representing Canada at the Peace Conference made the following statement. "We can rejoice that an agreement has been reached respecting the future relations of Ireland to the Empire and we earnestly hope that it may soon be worked out to a successful and happy conclusion."

On the same day, Sir Robert declines to comment upon the result of the election in Canada. There is some speculation, as to how Canada's representation at the Conference, would be affected by the change of Government in Canada. Sir Robert would not make any statement on this point.

A PROTECTION TARIFF

The Liberal party by its 1919 platform, is pledged to interference with the tariff. As the government is at present the majority of the Liberals elected are from Quebec which makes it almost certain, that Mr. King, will not be able to tinker the tariff to any great extent. The Province of Quebec is protectionist and the advocates of free trade, or a tariff for revenue only, will find, that Quebec, on that question will block the way. There may be a pretty fight in the Liberal Camp.

CAPITOL OF THE WORLD

Changes are proposed in the English Capitol, the city of London, which will make it Earth's capitol, the largest city in the world, and which will even make "Greater New York" look small.

The area would be forty miles in one direction, and thirty miles in another, extending over a great part of Middlesex, and areas in Hertford, Essex, Kent and Sussex. Should the project succeed, and there is hardly any doubt of it, London will be incomparably the largest city the world has ever known. Old England is bound to be on top.
