PRICE—TWO CENTS.

THOUSANDS WERE DISAPPOINTED WHO WENT TO PORT DALHOUSIE

GOING UP THE CANAL TODAY

Decides to Continue Arrangement with Hydro Looking to Construction of Radial Railway.

There were crowds of ill humored and disappointed people last night, when after journeying to Port Dalhousie in cars crowded to the limit they had to return to the city without a glimpse of the German submarine.

From five o'clock until nine the cars carried crowds and it was estimated that at nine o'clock there were between seven and eight thousand people on the pier and along the harbor.

Seen at a Distance
The U. Boat could be seen away out in the lake and people watched it coming nearer and nearer only to be shot of by the pier beyond even reasonably close view. Those who were crowded and jammed and packed in, crowded cars know what the feeling was when word came in that the submarine was anchored there for the night. Then everybody wanted to go home at once, and the rushing and crowding began all over again. It was stated today that in the front of one of the closed cars there were seven people packed in so that the motor-man was barely able to run the car.

Any way the crowds got down there and they had naturally to get home no matter how. It was long after midnight before the last of the tired displeased crowd reached their various homes again. Hundreds of automobiles were in the village having come in from every direction.

Crowds Were Displeased.
It was said that Port Dalhousie has never before been visited by so many people in one evening. The expressions of displeasure and criticism were general and the public is still wondering why so many a discourtesy should be shown Canadians. It would not have been a difficult thing for the U. Boat to have come into the harbor for a short time and to remain out in the lake with thousands of eager persons waiting on land to see it was indeed tantalizing.

An effort was made by the Mayor to have the former Hun pirate stop near St. Catharines. Thorold made a similar attempt to get it to halt there but apparently without success. It develops today that the instruction from Washington to the Commander forbids the "sub" to stop anywhere in the canal except long enough to lock through.

Niagara Falls was also most anxious to get a glimpse of the sea monster and wired Washington asking to have it stop at Thorold but no word has yet come that this wish is to be granted.

Left Port Today
The "sub" left Port Dalhousie about 8 o'clock this morning and started on the canal. It had to wait at lock two for some time before it could be locked through but account of other vessels, it will hardly reach Thorold therefore will leave this afternoon or early evening.

Two U. S. submarine chasers came down the canal a day or so ago to meet the U. Boat and they lay in the harbor so that it seems as though the Commander of the "sub" simply did not care to enter the harbor and satisfy the curiosity of an idle crowd.

Asked for Harbor Master
When the "sub" and the boat towing it came to Fort the harbor master was asked for. Port has no such officer and all that was necessary was some one from the vessel to get the necessary permit to lock through. This was given but perhaps the lack of dignitaries and an official reception created an indifference in the mind of Commander Lockwood. This people are expressing the opinion that if the authorities higher up knew how the Commander stood "out at sea" when he could have come into harbor, they would not sanction the discourtesy.

In endeavoring to get the "sub" to stop here the Mayor wired Mr. J. D. Chaplin, M. P., who took the matter up with the authorities in Ottawa. Mr. G. J. Desbatat on behalf of the Marine Department wired back that the "sub" was in charge of the U. S. Navy and the captain had considerable latitude and might be prevailed upon to stop here.

It was found impossible however to make arrangements as Commander Lockwood's instructions were not to stop anywhere in the canal.

A serious wreck occurred on the G. T. R. at Princeton, when an axle on a freight broke. Ten cars were derailed and two smashed.

VEGETABLE GROWERS MEET

The St. Catharines branch of the Ontario Vegetable Association met at the Agricultural office last night.

Mr. Henry Broughton, of Sathia, manager of the Sathia Independent Vegetable Growers, gave a very interesting and instructive talk on the co-operative sale of vegetables. Mr. Broughton has been the manager of the Sathia Association for the past twelve years, and his association is one of the outstanding successful co-operation marketing associations.

Mr. Broughton emphasized that to make a success of a co-operative selling organization, the members must put up good quality, and put them up in uniform pack.

Mr. P. A. Murphy, successor to Mr. W. A. McCabbin, gave a short talk on robust beans. This variety is very resistant to disease and is practically immune to mosaic.

Mr. Murphy is distributing small quantities of these beans among the growers with a view to comparing them with the varieties grown here.

ANTI-JAP MOVEMENT IS SPREADING IN CHINA

TOKIO, June 12.—Advices received here from China show that there has been a serious spread of anti-Japanese agitation, especially in Shanghai, Hangchow, Nanking and Canton, with indications that it may develop into a general anti-foreign movement.

Several warships of the Japanese China squadron have been hurried to Shanghai. Shipping at Chinese ports has virtually ceased, owing to a boycott, resulting in great money losses to steamship companies and exporters.

GUELPH IS AFTER 400 ENGLISH GIRLS

Guelph, June 12.—The Guelph chamber of commerce has taken formal notice of the Indian, the immigration of Guelph of several hundred English girls. It has been estimated that one hundred girls are needed here at present time for domestic purposes, and three hundred for factory work.

Secretary Westoby of the Chamber of Commerce has written the British Board of Trade, whose representatives are now in Canada, asking that some of the surplus female labor be diverted to Guelph, and an effort is being made to have the British representatives come here next week to meet the chamber of commerce directors and arrange the necessary details.

SULTAN'S PALACE BURNS

Official Home of Turkish Ruler is Destroyed.
CONSTANOPLE, June 12.—The palace of the Yildiz kiosk, inhabited by the sultan, was destroyed by fire.

The Yildiz kiosk has been the official home of the sultan of Turkey for several years. In the palace the sultan received his ministers and foreign diplomats. The kiosk, which includes other buildings, is removed from the noise and bustle of the city. It was at one time the home of Sultan Abdul Hamid II.

POLICE COURT

Joseph Soulet charged with assaulting Rosie Schomak, with whom he has been living for the past eight years was before the Magistrate this morning, admitted that he struck her over the head, but denied having been intoxicated which she claimed. The Magistrate imposed a fine and costs of \$16.10.

They both claimed they had no money and were ordered to raise the amount by 7 o'clock tonight.

CHICAGO MEN TO RUN FIRST CARS

WINNIPEG, June 12.—The striking street car employees have voted unanimously not to return to work Thursday, according to an official report made by officers of the Car-men's Union to the Strike Committee Wednesday.

The job of running the first cars therefore falls on detectives that have been brought to the city from Chicago.

Pte. H. Fenner, who was drowned at Fort Qu'Appelle, Sask., was buried at Tilsonburg.

Ingersoll will lend money to build houses to applicants who own their own lots.

RESIGNS FROM OFFICE OF SECY

Splendid Services of Mr. W. R. Robertson in Soldiers Aid Commission Appreciated by his Associate Members.

At a meeting of the Soldiers Aid Commission held yesterday, Mr. W. R. Robertson who has been secretary ever since the organization was formed about three years ago, offered his resignation. He found that his own private duties would not permit him longer to do the work of which there is a good deal. After hearing Mr. Robertson's reasons, the resignation was accepted with a good deal of regret and the following resolution was unanimously passed—

Moved by Capt. Malcolmson, seconded by J. M. Elson: That in view of the resignation of Mr. W. R. Robertson from the office of Secretary which he has filled since the formation of the Commission with untiring zeal and splendid success, this Commission desires to express by resolution its sincerest appreciation of the work he has accomplished. It is rare that a citizen gives so generously of his personal time, ability and means for a public cause and the Commission is under a profound obligation to him and deeply regrets his withdrawal.

During the life of the Commission Mr. Robertson has done a great deal of work for returned soldiers and their families of which the public will never know.

On motion of Canon Broughall and Mr. W. B. Burgoyne, Mr. G. L. Sherk was elected to the office.

Routine business of the Commission was put through after which the meeting adjourned.

CHAUTAQUA WEEK

Six days of wonderful entertainment June 15th to 24th. On the fourth day this famous DeMille Quartet will produce an excellent programme, such a high class entertainment is alone worth the entire cost of the course—\$2.00 for adults, \$1.10 for children.

THE DEWILLY QUARTET
Canadian all residents of Toronto, the musical center of the Dominion, where they have established an enviable reputation by their peerless ensemble work. Chautauqua does not boast of a Quartet with a finer record. None is more fully equipped to please the connoisseur.

The repertoire of the Quartet includes selections from the great oratorios and operas; the choicest of the English, Scotch and Irish melodies; standard and popular songs.

Not alone as a Quartet do they excel, but in concert, recitals, oratorios and operas, each individual member stands distinct, having been accorded marked recognition because of his virtuosity.

The accompanist is a distinct artist in her individual piano work, which is marked by unaccommodated brilliancy and power.

FIRST INDIAN FLYER

Impressive Memorial Service for Lieut. James D. Moses.
BRANTFORD, June 12.—A memorial service of impressive and interest was held in St. Peter's Church, on the Six Nations Reserve, on Sunday, at the reservation, in honor of Lieut. James D. Moses of the Royal Flying Corps, who was reported missing months ago. His father received official confirmation of his death a short time ago. Lieut. Moses was the first Indian to enlist in the 17th Battalion, and the first Indian flyer.

HUNS MAY HAVE TO WAIT ANOTHER DAY

PARIS, June 12.—There was increasing belief in the Peace Conference circles yesterday that the reply to the German counter proposals would not be ready for delivery before late Saturday night. Five days have been definitely fixed as the limit within which the Germans must decide upon their course.

WOULD QUIT BUILDING SHIPS

Shipping Board Urges Government to Get Out of Business
WASHINGTON, D. C., June 12.—Recommendations that the government quit building and operating commercial ships at the earliest time practical were presented to the senate committee today by the shipping board.

Sale of all commercial ships was recommended. Vessels which could not be disposed of immediately would be leased.

Tilsonburg to create is 1-2 mills less than last year.

GENERAL'S ARRIVAL DELAYED

Brig. General King was expected to reach St. Catharines this forenoon from a long and distinguished service overseas but he has a sister in Toronto and has probably decided to visit her for a day or so. He will therefore not reach this city till later. If it is known when he is going to arrive an effort will be made to have a goodly number of representative citizens over to meet him.

RACE RIOTS IN BRITAIN

Whites Clash With Negroes Brought From Africa for War.
LONDON, June 12.—Serious race riots occasioned by the presence of negroes brought from Africa and other parts of the world during the war, as labor battalions have occurred at several ports in England and Wales recently.

They culminated in a night long fight last night between negroes and white men at Cardiff and Barry dock nearby. One white man was killed and numerous whites were wounded.

This morning negroes armed with revolvers fired on the police in Liverpool where similar scenes occurred. The local authorities have asked for government aid.

THE STRIKE IN DETROIT HAS COME TO END

DETROIT, MICH., June 12.—Detroit's traction tie-up, which became effective last Saturday night, came to an end early yesterday evening when the striking men of the Detroit United railways, voted to accept an offer by the company of wage increases from 48, 46 and 48 to 50, 55 and 65 cents an hour. The men had asked an increase of 27 cents.

REMANDED AGAIN

Mrs. Margaret Robertson who was to appear this morning on a charge of concealment of birth of her child, whose body was found in the old Welland Canal at Merriton in April 8th, has been remanded until Monday, June 16th, owing to the continued absence of her counsel, A. Courtney Kingstone, who is at present in Hamilton on an appeal case.

PREPARING TO RESUME HOSTILITIES AT ONCE

Feel and General Weygand Confer With "Tiger"—New Government in Germany Expected.
PARIS, June 12.—Marshal Foch and General Weygand had two conferences yesterday with Premier Clemenceau at which they discussed the immediate resumption of hostilities and a concerted advance by the allies, says Marcel Hutin in the Echo de Paris.

The general opinion is, the writer adds, that Count Von Seeckendorff-Rantzau has committed himself too far to be able to sign the treaty. It is also believed that the Scheidemann ministry will be swept away, to make room for a ministry of moderate independent socialists which will be joined by Matthias Erzberger, chairman of the German armistice commission. The ministry, it is declared, would be disposed to accept the allied conditions which will be about July 1st.

THE WEATHER

Toronto, Ont., June 12th, 1919.—The barometer remains high from the Great Lakes and Middle States to the Maritime Provinces, while the western disturbance has become quite unimportant and is still centred west of Lake Superior. Local thunder storms have occurred in Manitoba while in all other parts of the Dominion the weather has been fine.

FRENCH OFFICERS REPLACE ITALIANS

Paris, June 12.—Information reached peace conference circles yesterday that the Italian officers serving with the Czech-Slovak army have been replaced by Frenchmen.

REV. A. H. PRIEST TO CARRY ANOTHER FLAG AT ST. GEORGES

Former Curate Will Occupy Pulpit at St. George's Church After Three Years Overseas.
Capt. the Rev. A. H. Priest, formerly curate of St. George's Church who went overseas three years ago with the Army Medical Corps, and later was transferred to the chaplain force, serving with the 47th battalion, will preach at St. George's Church on Sunday morning and the Mission of the Good Shepherd, Facer Street, in the evening. The many friends of Rev. Capt. Priest will be glad to welcome him back to a local pulpit.

NEW MACHINERY INSTALLED

Messrs. Dainty and Marrick of the Modern Shoe Repairing store, James Street, are to be congratulated upon some new machinery which is being installed at the present time. The equipment was purchased from the Champion Co. of St. Louis, Mo., and a man from that city will have the machinery in operation in a few days. The stitcher which is the only one of its kind in this district will insert 400 stitches per minute, while the nailer will insert 450 nails per minute. These machines are identical with the equipment used in the modern shoe factories.

TO THE GRAVE

All that was mortal of the late Mrs. William Patterson was tenderly laid to rest in Victoria Lawn Cemetery on Thursday afternoon. The funeral, which was largely attended by sympathizing friends, was held from the family residence No. 32 Rodman St. Rev. Canon L. W. Broughall conducted the service and spoke words of sympathy and comfort to the bereaved family and friends. Six nephews acted as bearers: Bert McDermott, F. McDermott, Archie McDermott, Chas. Honsinger, Oliver Honsinger, Lloyd Honsinger. The floral tributes placed upon and around the casket were many and beautiful, bearing silent testimony to the sympathy of many friends.

RACE RIOTS IN BRITAIN

LONDON, June 12.—Serious race riots occasioned by the presence of negroes brought from Africa and all parts of the world during the war as labor battalions, have occurred at several ports in England and Wales recently. They culminated in a night-long fight last night between negroes and white men at Cardiff and Barry dock nearby. One white man was killed and numerous whites were wounded. Boarding houses in the negro quarter were stormed, one set on fire and others looted.

This morning, negroes, armed with revolvers, fired on the police in Liverpool, where similar scenes occurred. The local authorities have asked for government aid.

DEATH WAS ACCIDENTAL

The jury empanelled to investigate the death of John Helonga, who was killed at the hydro crusher plant at Queenston on June 9th, held the meeting which was adjourned from last week in the police station last night. They passed the verdict that the man met his death the result of injuries received by falling into the machinery of the beet drum. It appears from the evidence that deceased had no particular work at the point where he was killed. The jury decided that more care should be taken to notify employees in future of their line of work before the machinery should begin operation.

MIGHT START IN FALL

HAMILTON, June 12.—Sir Adam Beck intimated to members of the City Council that it was possible construction work on the Hydro-Railway from Toronto to the Niagara frontage might be started this fall. The survey work would be undertaken as soon as possible, and if finished in time the work might be started before the snow flies. Work would be commenced both at Toronto and Hamilton.

ENGLAND BURNING UP

LONDON, June 12.—The present drought in England is well on the way toward establishing a record. There has been thirty-eight days of blazing sunshine, and the sun's rays is burning up.

In most of the churches throughout the Kingdom prayers are being offered that the drought may be broken.

TO CARRY ANOTHER FLAG WOULD VIOLATE MARINE LAW

OPTIMISM AT PARIS
Austria Hungarian Political Situation However Considered Serious
The peace conference barometer, which for some time has been vacillating between pessimism and optimism as to the probability of an early agreement by the council of four on the answer to the German counter-proposals to the peace treaty, again registers optimism.

From Paris comes the definite statement that the reply of the Allied and associated governments to the Germans is complete, and that all that now is required to end the tense situation is to draft the answer, present it to the Germans and wait five days for their final reply whether they accept or reject it.

LOUTH COUNCIL PASSES BY-LAW

German U Boat Pirate Would not Enter Harbor but lay all Night in the Lake to the Keen Displeasure of Vast Crowds.
Council met pursuant to adjournment at Frank's Hall, Jordan, on Monday, June 9th, 1919, at 10 a.m. as a Court of Revision and for general business.

All the members were present. The minutes of the last regular meeting and the special meeting held on May 28th, 1919, were read and adopted.

On motion of Wm. Honsberger and A. C. Gregory, the Council resolved itself into a Court of Revision for the hearing and decision of all appeals and complaints against the Assessment Roll for 1919.

A number of appeals were heard and decided; after which the Council proceeded with the general business.

On motion of Wm. Honsberger and S. M. Honsberger, the clerk was authorized to correct and put into a proper state the title to lots numbers 24 and 25 in Block number two on the west side of Main street in the Village of Jordan.

On motion of P. F. Bowslaugh and Wm. Honsberger, the Reeve and A. Traverser were authorized to sell the Hydro-Electric debentures for \$1950, and for \$20,000 for school section number three.

On motion of Wm. Honsberger and P. F. Bowslaugh, the report of the committee re Hydro-Electric power be received and adopted.

The above report is as follows—
June 9th, 1919
To the Reeve and Council of the Corporation of the Township of Louth in Council assembled.
Gentlemen:

Your committee beg leave to submit their report.

That on the 28th day of May, 1919, with delegates from 135 municipalities of the Province of Ontario, we waited upon the Hydro-Electric Power Commission of Ontario regarding the difficulties with the labour on the Power canal at Queenston, and after thorough discussion it was moved that the matter be left in their hands of the chairman with full power to act.

All of which is respectfully submitted.
Sgd.
C. H. Claus,
A. C. Gregory,
Committee.

On motion of Wm. Honsberger and S. M. Honsberger, a By-law was introduced to borrow \$20,000 by the issue and sale of debentures to pay for the erection of a new school section number three of the township of Louth.

On motion of A. C. Gregory and P. F. Bowslaugh, the said By-law was read a second and third time.

On motion of A. C. Gregory and S. M. Honsberger, a By-law was introduced to appoint Mr. George W. Purdy, Road overseer for the township.

On motion of Wm. Honsberger and P. F. Bowslaugh, the said By-law was read a second and third time.

Resolution with regard to the agreement with the Hydro-Electric Power Commission under the Hydro-Electric Railway Act.

Moved by A. C. Gregory, seconded by P. F. Bowslaugh,
Whereas the agreement under the Hydro Railway Act 1914, and amendments thereto, between the Hydro Electric Power Commission of Ontario, hereinafter called the "Com-

Comander of U Boat Explains That Men of War Fly Only Colors of Nation to Which They Belong—Reason Why Harbor at Port was not Entered.

As the German submarine passed up through the Welland canal today the news spread of its passage and many citizens went out in automobiles on foot and on the street car to see it. The banks of the locks were lined with curious and eager spectators.

At Lock 10 Mayor and Mrs. Elson were taken aboard and His Worship extended an informal welcome to Lt. Lockwood and crew on behalf of St. Catharines. They were in turn given the courtesy of the vessel and were taken down through it as it went on up to lock 11 where they stepped ashore again. The inside of the marine pirate is a mass of mechanism, electrical and otherwise.

Lieut. Lockwood was asked by the Mayor why it was that he did not take the U boat in the harbor at Port Dalhousie, last night. Thousands had been disappointed, it was explained, and would very likely could not get a close view of the vessel.

"We have been on circus parade for some time" laughed the young commander, "and to tell you the truth, we were all tired and preferred to lie out in the lake where our men could get a good rest."

Likelihood of Danger
"Another reason that cannot be overlooked is the danger that occurs from crowds jamming up to see the vessel."

At Cornwall, he stated, vast crowds had gathered and four had been shoved into the water, one woman nearly losing her life, so he decided that it would be unwise to take chances at Port Dalhousie. On passage through the canal the U boat is not to stop except to lock through.

Commander Lockwood was also asked by the Mayor what marine law established with respect to the flying of flags on vessels passing through foreign waters. Citizens were anxious to know.

"Men of war only carry the flag of the nation which is commanding them," said Lieut. Lockwood.

"It is contrary to regulations to carry anything else. I would be severely reprimanded by the Department for a breach of rules. The same point came up at Hamilton and Toronto but I can assure Canadians that it is no lack of courtesy but only international marine law governing men of war."

The vessel is proceeding on to Port Colborne and will be taken to Chicago where U. S. Naval men will pull it in pieces for examination.

Capt. Ben Bach of this city, who in his earlier years sailed out of Harwich Port, England, and Miss Colgan were also aboard for some time.

mission" and the Municipal Corporation of the township of Louth, hereinafter called the "Corporation" and other Municipal Corporations, for the construction, equipment and operation of an electric railway in and through the municipality of the township of Louth and certain other municipalities, has been constituted by the Hydro-Electric Railway Act 1914, and declared to be valid and binding upon every municipal corporation a party thereto and executing the same.

And whereas it has been further enacted by the said Hydro-Electric Railway Act 1914, that it is the duty of the Council of each Municipality to finally pay and give effect to the by-law relating thereto which has been approved by the electors and that the head of such Municipal Corporation and the clerk or Treasurer thereof shall sign the said agreement and affix the seal of the corporation thereto.

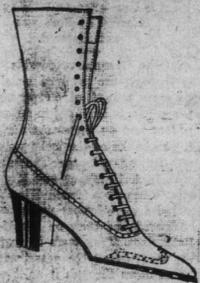

And whereas certain Municipal Corporation, viz. the Township of West Elmhurst, and the Township of Saltfleet named as parties to the said agreement, have failed to pass a by-law approving of the said agreement, but the amounts for which the said municipal Corporations would be liable under the said agreement do not exceed ten per cent. (10 p. c.) of the estimated cost of the construction and equipment of the Railway and it is nevertheless desirable to proceed with the aforesaid agreement with the understanding that the construction, equipment and operation of the Railway was duly submitted to and has received the approval of the electors of the corporation and the council of the corporation has finally passed the said by-law.

Now therefore it is resolved by the Council of this Municipal Corporation (Continued on page four)

LEMIEUX GROWS CAUSTIC

OTTAWA, June 13.—"I notice that the Rev. Mr. Jones, leader of the strikers in Winnipeg is a parson," remarked Hon. Rodolphe Lemieux, during the budget debate yesterday. "What kind of parson?" "I don't know, but I want to put this to the President of the Council (Rowell): I would like to put it to a Massey Hall audience; I would like to put it to the orange lodges, what would have been his fate if he had been Rev. Father Drummond, a Jesuit priest. Mr. Speaker, if this leader of the Soviet in Winnipeg had been a Jesuit he would have been shot before this."

SUMMER CARE OF VEGETABLES EXPERIMENTAL FARM NOTES

Root crops, such as beet, carrot and parsnip, should be carefully weeded and thinned while the plants are still small. Parsnips should be thinned to about four inches apart; Swede turnips six to eight inches. Carrots may be thinned to one inch apart and, when large enough to use, alternate rows pulled, leaving the remainder about two inches apart. Garden beets may be similarly handled, but the final distance in this case should be about four inches. As beet tops make a very delicious early green vegetable, thinning should be done so that these tops may grow to a useable size. The soil should be kept cultivated and never allowed to bake or harden. This is particularly true with peas and beans if a tender, succulent crop is desired. Beans, however, should not be cultivated when moist with either rain or dew, as the plants, if injured under these conditions, are particularly subject to bean rust (the spores of this disease developing in the injured tissues).

Corn that has been sown in hills should be thinned to three or four plants to a hill, if the hills are two to two and a half feet apart. Cabbage and cauliflower plants require eighteen to twenty inches of space to each plant in the row, and the rows should be two and a half feet apart. The soil should be kept well hoed to conserve the moisture and encourage rapid growth. Where space is limited tomatoes may be grown in rows three feet apart and the plants eighteen

inches apart in the rows and tied up to stakes. Corn, tomatoes, cucumbers, squash, pumpkins and melons all grow in a hill, the hills spaced about three feet apart; squash and pumpkin three or four plants in a hill and the hills six to eight feet apart. Where the soil is rich and warm and space limited, hills of cucumber, squash and pumpkin may be planted between alternate rows of corn.
Potatoes should be thoroughly cultivated to conserve all possible moisture "ridging up" also supply the tubers with loose soil in which to develop. However, in areas where there is a light summer rainfall, level cultivation will conserve the limited soil moisture more satisfactorily. Spraying should not be delayed until there are signs of injury from the well-known potato beetle, or

(Continued on page 5)

The Pirates' Hoard

RAISE PIGS PROFITABLY

Mustard Can Be Controlled by Spraying.

Spraying Should Be Applied on Clear Day as Soon as First Few Mustard Plants Show Flowers. (Contributed by Ontario Department of Agriculture, Toronto.)

ANIMALS, no matter what kind, always put on weight most cheaply when they are young and the younger they are the cheaper the gains. As a consequence of this it is essential that the man raising young stock realize this and give a reasonable amount of attention to the young animals he is rearing. A few days before farrowing the sow should be brought into the pen so that she may become accustomed to her surroundings. A close watch should be kept on her during these days in order to ward off constipation, which is the bug-bear of a great many swine breeders. Once this condition occurs very little can be done, so it is a matter of prevention rather than cure. When the animal is taken into the new quarter her feed should be sloppy and of a laxative nature, a liberal supply of roots and a small amount of linseed oil meal helping to bring about this condition. The meal ration for a brood sow may consist of equal parts ground oats and wheat middlings.

At the time of farrowing the sow should be left alone but the attendant should be keeping a watch on her to see that no trouble arises. After farrowing the sow should not be disturbed for ten to twelve hours and her first feed should be little more than a drink of water with a little middlings in it. After this the ration may be increased to full feed, taking eight to ten days to do so. When the young pigs are weaned the ration should be cut down to stop the secretion of milk and, if it is necessary, turn the sow in with the young pigs once a day for a few days. If, when the pigs are born, they are good and strong and vigorous they should be left alone for a while and as soon as the right time arrives they should be placed to the teat to suck as soon as possible. If the pigs are vigorous and healthy, nothing special need be done for them until they are two or three weeks old, by which time they should have learned to eat a little bit by picking around their mother's trough. At this time, if it is convenient, a small trough, away from the large trough, should be provided and the youngsters should be given skim milk with a little middlings stirred into it. As the pigs grow older more middlings may be stirred into the milk.

Outdoor exercise is very important for young pigs and every means should be used to induce the young pigs to take it. In hot weather must be taken to protect the youngsters from cold winds and the hot sun. If the sow is turned out with the pigs she should not be given too much range at first unless the little fellows become unduly tired as a result of travelling too far. Boar pigs not intended for breeding purposes should be castrated before weaning to get the best results, though there is not much danger in castrating at a later date provided care is observed in connection with the operation. Clean hands and instruments and disinfectant on the wound will overcome all danger of infection.—J. McBeath, B.S.A., O. A. College, Guelph.

Spraying With Iron Sulphate to Prevent Mustard From Seeding

Iron sulphate or copperas can be successfully used to prevent Mustard from seeding in standing grain without injury to the crop.

Preparation of Solution.—A 20 per cent. solution should be applied. This can be prepared by dissolving 80 lbs. of iron sulphate in 40 gallons of water. Iron sulphate is dissolved quite readily in cold water. The solution should be strained through a cheese cloth as it is put into the spray pump tank. This will remove dirt and small particles that are apt to clog the nozzles.

Time to Apply.—Apply on a clear day just as soon as the first few plants in the fields show flowers. It is very important to spray early. If the plants are left too long the treatment is not nearly so effective. If a heavy rain comes within 24 hours after the solution is applied, it will be necessary to spray again.
How to Apply the Solution.—An ordinary hand-pump barrel sprayer such as is employed to spray fruit trees may be used, or a potato sprayer can be rigged up to do the work. Many of the up-to-date potato sprayers have a special broadcast attachment for spraying weeds. These are excellent for large areas, as they cover a wide strip at each round. Care must be taken to see that every mustard plant is covered with the solution in the form of a fine spray. Iron sulphate may be obtained at any hardware store or from the Nichols Chemical Co., Toronto. In wholesale lots it is better purchased from this company, who can supply it much cheaper in large quantities than it can be purchased at local hardware stores.—J. E. Howitt, O. A. College, Guelph.

Selling Cream Pays.

Selling whole milk robs the young things on the farm—often the farmer's own children, of needed milk-supply, hence many farmers are content with less ready cash secured by selling cream in order to have better and more live-stock, and consequently richer soil, which, after all, is the basis of good farming.—Prof. H. H. Dean, O. A. College, Guelph.

Chief of Police Findlay seized six gallons of beer belonging to John Wright at the Black Hills plantation St. Mary's.

TO MAKE KINGSTON A NATIONAL HARBOR

KINGSTON, June 13.—Chief Engineer Chapleau of the Department of Public Works, Ottawa, and C. D. Howe, elevator engineer of Port Arthur, are to meet in Kingston tomorrow and go over the harbor with a view to selecting points best suited for the erection of Government grain elevators in connection with the proposal for making Kingston a national harbor and equipping it as a port-of-the-lakes terminal for the grain transshipping trade with the new Welland Canal is completed. Public Works Engineers have completed their plans for proposed deepening of the harbor so as to provide for a 22-foot channel.

CITY OF ST. CATHARINES

Taxes Year 1919

Under the authority of By-law No. 3200 passed on the 25th day of March, 1919, notice is hereby given that all taxes for the year 1919 are now due and payable but may be paid in three instalments as follows, subject to the following exceptions and conditions.

Taxes which are not payable by instalments.
Taxes in Income Assessment, Arrears of Taxes and charges collectable as taxes for any work done or services rendered by the Corporation are due and payable in bulk on or before the 25th day of June, 1919 (and not by instalments.)

Payment by Instalments
1st. Instalment—due and payable on or before the 25th June 1919. One-half of the taxes will be the amount of the 1st. Instalment.

2nd. Instalment—due and payable on or before the 25th September 1919. One-quarter of the taxes will be the amount of the 2nd. Instalment.

3rd. Instalment—due and payable on or before the 25th November, 1919. One-quarter of the taxes will be the amount of the 3rd. Instalment.

Taxes not paid when due.
If default is made in the payment of any instalment on the above dates, the privilege of payment by instalment becomes cancelled and the whole of the taxes or the balance unpaid, as the case may be, at once becomes due and payable together with percentages in addition, as follows:

Upon default in payment of taxes on the dates appointed,
Penalty 1% Or amount paid within ten days of time of such default, a percentage charge of one per cent. will be collected.

Penalty 2% On amounts paid within twenty days of time of such default, a percentage charge of two per cent. will be collected.

Penalty 3% On amounts paid within thirty days of time of such default, a percentage charge of three per cent. will be collected.

Penalty 5% On amounts remaining unpaid after thirty days of time of such default, a percentage charge of five per cent. will be collected.

Failure to pay the above instalments of taxes as they become due not only forfeits the right of settlement by instalments but brings the parties under the penalty of the Assessment Law, which enacts, that in case any party shall REFUSE OR NEGLECT to pay the same imposed upon him for the space of fourteen days after demand, the Collector shall levy the same, with costs, by distress and sale of the goods and chattels of the party who ought to pay the same.

1. Ratepayers who do not receive their tax bills by the 1st day of June should notify Tax Collector's Department of the fact.

2. Cheques tendered in payment of taxes must be "marked" by bank and made payable at par to the City of St. Catharines.

3. Taxpayers sending amounts by mail for payment of taxes should also enclose the tax bill and a self-addressed and stamped envelope for the return of receipted Tax-bill.

4. Taxes are payable at the office of City Tax Collector.

STUART K. WATT, City Treasurer.

CITY TREASURER'S OFFICE, ST. CATHARINES, 17th May, 1919. m19/31/16/14/18/21

A WONDERFUL OUTING ALONG NIAGARA GLEN

By Harold C. Lowrey in Toronto Globe

Niagara Glen is so wonderful in its woodland beauty, its curious rocks, its rare flowers, its icy caverns and plunging waters that words limp in their effort to depict this glen incomparable. Few visitors to Niagara Falls find it, but those who do invariably return again and again to enjoy the refreshing grandeur of the place once known as "Foster's Flats" which is situated half way between Queenston and Niagara Falls on the Canadian side of the Niagara Gorge.

Niagara Glen lies in a rugged semi-circle, beneath the high cliffs about half a mile below the great Whirlpool. It is about three quarters of a mile across at the widest point, and is about two miles in length, reaching from the slender finger of rock which juts out into the turbulent waters of the rushing Niagara, to force the speeding river into the narrow, known as the Lower Whirlpool Rapids, right down to the flats where the river widens to precipitately that the water finds it difficult to cover all the rocks and the ledges.

The Glen is part of the Queen Victoria Park system which is preserving and beautifying the forgotten frontier. It is part of the great national park which will eventually stretch from Lake Erie to Lake Ontario along the banks of the Niagara River. Nearly everybody is familiar with the section adjacent to the Cataract, more people are becoming familiar with the section surrounding Brock's monument and Laura Secord's monument at Queenston Heights. These parks are beautiful, yet they dim from the memory when one comes down from the cliffs into the sylvan woodland which God gave Canada as a boundary.

A Place of Thrills

Here innumerable paths wander in and out among the fern covered boulders of glacier origin and down among the struggling trees to where the rapids thunder their ceaseless anger that presumptuous rocks should dare to block their way to the sea. The rapids are spectacular. One can sit on the rocks above the tumbling water.

The rapids make a wonderful fringe for the emerald carpet Nature lays every year from the shelving cliffs down across the levels to the river's edge. Coming down the stairs from the tabled above, a path runs north and south, clinging close under the great overhanging cliffs jutting far out over the path like the roofs of a Chinese pagoda, ruffled and checked with a curious pattern left by the disintegrating sandstone melting in the lapping waves that centuries ago must have laved their face. At the north the path drops steeply away from the curious "Stern Cliff," so named because of its similarity to the stern of a ship, down into the flats which have not as yet been reclaimed. At the south one comes out into the open to gaze with astonishment at the glorious panorama spreading out beneath.

DR. ARTHUR B. COBB Dentistry

Every day we perform complicated operations that would have been unnecessary had the proper attention been given at an earlier time.

Neglected tiny cavities are responsible for these serious treatments. If these cavities had been given prompt attention when they were tiny no further treatments would have been necessary.

If you have not visited a Dentist in six months, you undoubtedly have one or two of these cavities in your teeth.

Let us fill them for you—painlessly, skillfully and at but trivial cost.

Our charges for all kinds of fillings, for high class Crown and Bridge Work and for Plates that are good to look at and comfortable to wear—are all exceedingly low.

Crown and Bridge work \$5 a tooth. Excellent plates \$7.50. Come in for free examination and consultation today.

Offices: 368-378 Main Street, Corner of Eagle Open until 8; No Sunday work. Phone: Seneca, 405.

Known formerly as White Dental Office.

"Completely Discouraged"

is the feeling and plaint of women who are "run-down" so low that work drags, head aches, back aches, dragging down feelings, dizzy, pale and weak, little things annoy and "every thing comes wrong."

Look the other way! That's what Dr. Pierce's Favorite Prescription has done for millions of women in the last fifty years.

It is a medicine that's made especially to build up women's strength and to cure women's ailments—an invigorating, restorative tonic, soothing cordial and bracing nerve; purely vegetable, non-alcoholic, and perfectly harmless.

You can procure a trial pkg. by sending 10c to Dr. Pierce, Buffalo, N. Y. TILLAMBOURG, ONT.—"A few years ago I had a severe nervous break-down. I would have pains in my head and would suffer with backache. I was sitting for about two years. Had doctor but did not seem to get cured of the ailment. At last I took Dr. Pierce's Favorite Prescription and it did me more good than any medicine I ever took. It built me up and I felt better in every way than I had for two years previously."—MRS. L. HEATH.

ers for hours, held in the spell of a scene difficult to equal. There is a thrill in watching the mighty Niagara sweep majestically out of the clutches of the Whirlpool and come swiftly down upon the finger-like rock which separates the river from a placid pool pocketed against the cliffs, there to cap and plunge with terrifying force against the boulders of the rapids. The river is so narrow and the current so swift that the water is held in a curve several feet higher in the centre of the river than at the sides being sufficiently rounded to hide the American waterline from sight of any one standing at the Canadian water's edge. The river hurtles through the gorge with the speed of an airplane only to burst heaven-ward in a cloud of spray the moment it hits one of the hidden rocks. The roar of the rapids is deafening, yet you forget that so long as the witchery of the tumbling waters casts its spell over you.

A Glorious Panorama

The rapids make a wonderful fringe for the emerald carpet Nature lays every year from the shelving cliffs down across the levels to the river's edge. Coming down the stairs from the tabled above, a path runs north and south, clinging close under the great overhanging cliffs jutting far out over the path like the roofs of a Chinese pagoda, ruffled and checked with a curious pattern left by the disintegrating sandstone melting in the lapping waves that centuries ago must have laved their face. At the north the path drops steeply away from the curious "Stern Cliff," so named because of its similarity to the stern of a ship, down into the flats which have not as yet been reclaimed. At the south one comes out into the open to gaze with astonishment at the glorious panorama spreading out beneath.

The flora of the Glen has a world-wide fame, for it is claimed that every known variety of wild flower is to be found here. A few years ago the botanists from all over the world came to Toronto for their congress in order that this wonderful glen might be visited. The park officials took strict precautions to protect these flowers and do not permit the removal of any without permission. The trees are unique because of the struggle they wage for existence among the rocks. In one place a pine has succeeded in establishing itself upon the very pinnacle of a high, conical rock, and by running its roots down the thirty foot sides of the rock secures substance from the earth below. There are scores of similar curiosities.

The "Dr. J. J. Punch Bowl" is per-

The Hospital Ship "Loyalty"

1918, ex-R.M.S. "Empress of India," Hospital ship "Loyalty," Bombay.

UPPER recently the hospital ship "Loyalty" has been converted for use on such useful commercial work for 23 years, and being relieved by the Pacific Coast by a larger and more modern style of ship (the new "Empress of India") about some of the scenes at the outbreak of the present war. Just when His Highness the Maharajah of Gwalior decided to re-equip his loyal and illustrious fleet of 1900, by purchasing a hospital ship of 300 beds capacity for use during the war, it was appropriately the ship was acquired from the Canadian Pacific Railway Company. The Director of the Royal India Marine and his chief acted for His Highness in the matter of buying, altering and refitting the "Empress of India," of London, and changing her name to the "Loyalty" of Bombay. This was done in October, 1914, and within four months from the time was declared the hospital ship "Loyalty" and was ready to begin her good work and assist in the relief of suffering humanity.

Record of 17 Years.

The "Loyalty" sailed from the East India Company's pier at Bombay, having been renamed "Loyalty" on the previous day and from that time up to nearly the end of last year she was in continuous service on the Pacific trade, and carried a great name for the quick transmission of passengers, mails and fine goods, such as silk and tea, between Hong Kong, Japan, Vancouver, and thence to various points by the Canadian Pacific Railway across the North American Continent. It will thus be seen that the "Loyalty" prior to being bought as a hospital ship, took a great part as "Empress of India" in the opening up and developing of commerce in one of the outlying parts of the Empire. Incidentally she has the honor of carrying King George as a passenger when he was Prince of Wales.

It would almost seem to be in the natural order of events that the good ship "Empress of India," after carrying on such useful commercial work for 23 years, and being relieved by the Pacific Coast by a larger and more modern style of ship (the new "Empress of India") about some of the scenes at the outbreak of the present war. Just when His Highness the Maharajah of Gwalior decided to re-equip his loyal and illustrious fleet of 1900, by purchasing a hospital ship of 300 beds capacity for use during the war, it was appropriately the ship was acquired from the Canadian Pacific Railway Company. The Director of the Royal India Marine and his chief acted for His Highness in the matter of buying, altering and refitting the "Empress of India," of London, and changing her name to the "Loyalty" of Bombay. This was done in October, 1914, and within four months from the time was declared the hospital ship "Loyalty" and was ready to begin her good work and assist in the relief of suffering humanity.

Incidents at Sea.

Unique as part of the ship's life during work was the rescue of the crew of the steamship "Ben Vorlich," which had been wrecked and torpedoed by a German submarine near Calcutta, on August 1st, 1915. This incident and the sinking of the steamship "Clintonia" were witnessed by the "Loyalty" from a distance of about 13 miles, which she was full of a wounded man (British) rescued from the Dardanelles on her way to Alexandria and Malta to Southampton.

When lying in Indian waters, the "Loyalty" had the good fortune to render assistance to a transport which took fire and was abandoned at sea, the "Edinburg." Bearing the distressed vessel's masthead, she wireless, the "Loyalty" proceeded with all speed to the place indicated and picked up 70 of the burning ship's people in three boats during the night, afterwards transferring them to the steamship "Madras," which was bound for Bombay. Had the "Loyalty" not been a hospital ship she would have been unable to do this without infringing the Geneva Red Cross Convention.

She also rendered assistance to several Italian and native craft met at sea during her voyage about a week ago, and to a lightship in the Red Sea.

The hospital was staffed with three British, Indian, Chinese, West Indian, East and West African, and German, Turkish and Arab prisoners, of whom there were 15,406 patients.

On her way to Bombay, she was met by her assistant surgeon, and one major and four to six nursing sisters and sub-assistant surgeons.

Matches are Cheaper than Gas --- and Less Precious

FORECASTS—Moderate winds, very warm today and on Saturday.

Do not leave a gas jet burning wastefully because you are "going to put something on again in a few minutes." A match costs infinitely your jet off and lighting it again the trouble of turning your jet off and lighting it again is very small. You can easily replace all the matches you burn, but you can't replace the natural gas you waste.

ALTHOUGH NATURAL GAS IS CHEAP, DO NOT WASTE IT. THE SUPPLY IS NOT EVERLASTING.

THE UNITED GAS COMPANIES, Limited.

You Have No Right To Suffer

Suffering is unnecessary and with CHIROPRACTIC at hand, ready and willing to help you, you are acting very foolishly if you do not consult your Chiropractor at once. Upon the condition of your spine depends the state of your health and your suffering is without doubt due to a subluxated vertebra which is pressing upon the nerves causing the stop of mental impulse from the brain to the various organs. Your Chiropractor will give you a Spinal Analysis, will locate the place where the subluxation occurs and will proceed to adjust it. Mental impulse will then flow freely and unimpeded and your sufferings will be over.

Consultation and Spinal Analysis Free.

On motion of Wm. Honsberger and A. C. Gregory, the Council adjourned to meet again at Frank's Hall, Jordan, on Monday July 14th, 1919, at ten a. m. for general business.

M. A. BALL, Clerk.

YOUR DANDRUFF AND STOPS FALLING HAIR

Save your hair! Make it thick, wavy and beautiful—try this!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderrine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderrine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

WANTED

Competent Stenographer must have experience; high wages. Apply The Pedlar People, Limited Oshawa, Ont.

Owing to lack of quorum there was no meeting of the Public School Board last night.

The two hundred pulp and paper representatives from the United States are expected to come down to St. Catharines tomorrow afternoon to visit the Kinkaid paper mills.

There will be holy communion service at Christ church Sunday morning at 8 a.m.

The handsome bathing pavilion at Kingston, the gift of the late Captain Geo. T. Richardson, was formally opened last night.

Wm. J. Element, who has been a resident of London almost continuously for 70 years, died yesterday.

Raymond Shaw, Chatham, died as the result of being run over by a loaded manure spreader.

NEGROES ASK FOR PROTECTION

Paris, June 13.—Wm. Trotter, of Boston, Mass., secretary of the National Equal Rights League, has presented every member of the peace conference a petition from negro citizens of America, asking that a clause assuring all citizens "full liberty in the rights of democracy and protection of life without distinction based on race, color, or previous condition," be inserted in the covenant of the league of nations.

THE LAUGH LINE

Don't think that because a judge is small he isn't a fine imposing man.

The man who points out our faults may be a true friend, but we feel like kicking him just the same.

Father—Why are you always behind your studies, my son?

Son—So that I can pursue them.

If a man is wise he will never start a fight unless he has enough friends present to interfere if he gets the worst of it.

Many people went down to the canal today to see the submarine as it passed by.

MARY HAD A LITTLE LAMB—IT WAS THE WORST OF SHEEP—SHE SOLD ITS WOOL AND BOUGHT WAR-SAVING STAMPS.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel backache or have bladder trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush out the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

To Returned SOLDIERS

Welcome Home Boys

OUR HANDS ARE OUT—SHAKE.

Our store is at your disposal. Make it your headquarters. Let us suggest, if you are ready to jump into your civilian clothes, come in and see us. You will be sure pleased. Ten of the largest locomotives built for use on Canadian railways have been under construction some time at the C.P.R. shops in Montreal, and one of \$302, was inspected by the President E. W. Beatty, President Grant Hall. The motives are of the heavy type and are intended for use in being designed and built under direct supervision of Mr. Terrow, the Chief Mechanical Engineer.

The weight of the engine in working condition is 600 lbs. The diameter of wheels is 55 inches. They are 25 1/2 inches in diameter stroke, which with pressure makes them capable of exerting a tractive effort of 36,000 lbs. The diameter of the front end and 90 inch back end. The fire box is 14 feet wide and 120 inches high. The cab is of the vertical type which is the C.P.R. standard. The accommodation for men as comfortable as possible. The cab is fitted with a locker 14 inches by 20 inches, which clothes can be hung up. The tender has a capacity of coal and 8,000 gallons of water.

Fine Swiss lawn with hemstitched border and fancy colored designs in colors.

Chatham has been advised by the Public Utilities Commission that they will pay 90c per horse power instead of 80c. Since Confederation 341 divorces have passed the Senate. Brantford clothiers resent the statement made in the report of the Cost of Living Commission that their profits are excessive. Alberta Baptists will hold a convention at Edmonton June 19-24. Fat Dodginghorse, who ran away from the Sarcel Indian school near Calgary, was killed by a train at Lethbridge. Bradley's butcher show, Aylmer, was badly damaged by fire.

New Giant C.P.R. Locomotive

Ten of the largest locomotives ever built for use on Canadian railroads have been under construction for some time at the C.P.R. Angus Shops in Montreal, and one of these, No. 5302, was inspected the other day by President E. W. Beatty, and Vice-President Grant Hall. These locomotives are of the heavy Mikado type and are intended for freight service; being designed and built under the direct supervision of Mr. W. H. Winterrowd, the Chief Mechanical Engineer. The weight of the engine and tender in working condition is 500,000 lbs. The engine alone weighs 324,000 lbs. The diameter of the driving wheels is 63 inches. The cylinders are 25 1/2 inches in diameter by 32-inch stroke, which with 200-lb. boiler pressure makes these locomotives capable of exerting a maximum tractive effort of 36,000 lbs. The diameter of the boiler is 80 inches at the front end and 90 inches at the back end. The fire box is 84 inches wide and 120 inches long, and the grates are moved by steam grate shakers. The cab is of the vestibule type, which is the C.P.R. standard, and every effort has been made to make the accommodations for the engineers as comfortable as possible. One side of the cab is fitted with a clothes locker 14 inches by 20 inches wide, in which clothes can be hung and trunks put away. The tender has a capacity for 12 tons of coal and 8,000 imperial gallons of water. President E. W. Beatty and Vice-President Grant Hall, of the C. P. R., snapped after inspecting the new engine.

USING MILKING DEVICES

When it is Advisable to Invest in Milking Machines.

The Cause and Cure of Diarrhoea in Calves — Simple and Common-sense Methods of Treatment May Save Valuable Young Animals.

(Contributed by Ontario Department of Agriculture, Toronto.) It is clear that if dairying is to develop as it ought to do in the Province of Ontario, more labor is needed on dairy farms. As the supply of labor is limited, cow-farmers are turning their attention to the mechanical milker as an aid in the biggest job on a farm where milk cows are kept, namely, that of milking.

While it is true that mechanical milkers are not yet perfected, and possibly will never be absolutely "fool-proof," they have reached a stage of perfection where they can be recommended to the man who is in need of help at milking-time.

There are several machines now on the market which have proven to be more or less successful in tests made at Experimental Stations, but what is even more important, have stood the test of actual farm conditions. The advertising columns of the agricultural press contain a list of the leading makes of machines which can now be purchased by milk-producers.

In answer to the question, will it pay to buy a milking machine, the answer would be, under the following conditions:

1. Where a herd of twenty or more milking cows are kept, though we were a stable hand, every man was using a machine to milk eight cows, and he considered that it paid him.

2. Where hand-milkers are not to be had, and where it means selling all or part of the herd, because of the difficulty in getting the cows milked.

3. Where a man desires to increase his herd but cannot do so, because hand milking is impossible.

4. Where a man has some mechanical genius and is willing to give his machine the necessary attention in order to make it a success. Not every man can get good results with a milking machine. The cows must be stripped after the milking, to insure "milking out clean."

5. Where a man or woman will give the necessary attention in order to keep the machine clean. It must be thoroughly washed and the milk-lugs kept in a solution of chloride of lime—one pound, dissolved in ten gallons of water. This must be changed about every two weeks, or as often as necessary to prevent contamination.

6. Where a man has the necessary capital (about \$500) to invest in a machine and does not have to borrow the money at the present high rate of interest.—Prof. H. H. Dean, Ontario Agricultural College, Guelph.

Infectious Diarrhoea in Calves.

A form of diarrhoea in calves, known as "Infectious Diarrhoea," is not uncommon in calves, and the owners are often at a loss to account for it.

It is caused by a specific germ that gains entrance to the circulation, generally by the navel opening. It generally occurs as an epidemic in certain stable or farm localities, and as it is often fatal, causes great loss to the breeder.

The cause and results strongly resemble those of joint ill or navel ill in foals. The virus which causes the trouble exists in the stable or in the soil.

Symptoms.—At a variable time after birth, in some cases a few hours and in others a few days, the young animal suffers from an attack of acute diarrhoea, the symptoms of which do not differ markedly from ordinary diarrhoea, except from the fact that they seldom yield readily to treatment. The patient refuses to nurse or partake of nourishment, persists and death soon results.

Treatment.—Preventive treatment consists in preventing the cause. When we know that the entrance to the circulation of a germ causes the trouble, its entrance must be prevented in order that we may be successful. The building in which the cow is expected to bring forth young, and especially the stall, should be thoroughly disinfected. This may be done by sweeping and dusting thoroughly, and following by a thorough washing or scrubbing with a hot five per cent. solution of carbolic acid on one of the coats, and acetone, or a thorough coat of hot lime wash with five per cent. crude carbolic acid. The stall should be cleaned out daily and a little slacked lime spread upon the floor each time before supplying fresh bedding. The attendant should have a quantity of a good strong disinfectant on hand, as one of the solutions above mentioned, or a solution of corrosive sublimate, 30 grams to a pint of water. The writer prefers the latter. The navel of the calf should be freely dressed with this as soon as possible after birth, and several times daily afterwards until thoroughly healed.

Curative treatment is often ineffective. The following has probably given better results than any other, viz.: Mix part of cream with 10 parts new milk and mix a teaspoonful of this with each part of milk consumed by the calf. When the calf is nursing its dam the mixture can be mixed with a small quantity of the dam's milk and given as a drench, the attendant estimating about how much it should get. When the calf is to nurse the dam it is well to wash udder and teats with the solution before the calf nurses and once or twice daily for a week or so afterwards.

When this is done the parts should be allowed to dry, and then be well rubbed with a dry cloth before the calf is allowed to nurse.—J. H. R., Ontario Agricultural College, Guelph.

Frank Troch of Vancouver is again amateur trap-shot of Washington State, scoring 298 in 300. His long run was 200.

SUMMER CARE

(Continued from page 2)

from one or more of the many potato diseases. Paris green and arsenate of lead have been found very satisfactory poisons for the beetle and can be applied at the rate of one ounce of Paris green to four gallons of water, adding an ounce of lime to neutralize any free arsenic present. Arsenate of lead adheres better to the foliage than Paris green and may be applied at the rate of one ounce to a gallon of water, if the paste form is used, or one ounce to two gallons if the powdered form is employed. Bordeaux mixture may be made up in small quantities in the following manner, employing wood-en pails for mixing the spray. In each gallon of water dissolve two ounces of copper sulphate (blue stone) slake one pound and a half of quick lime (unslaked lime) in one gallon water, stir thoroughly and then add one pint of the lime water for each gallon containing the two ounces of dissolved blue stone.

ATTACKING LIVING COSTS

The resolution of the Provincial executive of the Great War Veterans meeting in Toronto, demanding "immediate" and "drastic" action on the part of the government to deal with the labor, food and clothing situation, voices the unanimous feeling of all classes in the country, except perhaps the people who are piling up their ill-gotten gains to the detriment of the consumers and the grave peril of the national stability. The War Veterans are unable to find employment, they complain, on account of labor disturbances, and these labor disturbances, they believe, are due to "the suspicion that the workers are being systematically robbed by profiteers."

It will not do for the government to dilly dally any longer with this supremely important question. The measures which are being undertaken to deal with the evil, are all very well in their way, but there is a danger that they may be rendered nugatory by procrastinating methods and half-hearted action. The new tariff proposals should afford some relief in the matter of imported foodstuffs and clothing material, but it is more important to get after the native delinquents. The high cost of living commission should get down to business immediately, and convince the public of its sincerity and earnestness by boldly attacking the trouble. There

HERE AND THERE IN SPORT

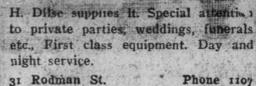

It begins to look now as if we are to witness a clash between Sergt. Alexander and Jack Loney. We cannot see why a bout between these two popular scrappers should not be a paying proposition, considering the great interest St. Catharines fight fans are taking in the expected bout. By all reports, Alexander will give Loney the toughest fight the much-touted local boy ever had, the late sergeant having cleaned up the best scrappers in the Old Land. Anyway the contest will be worth seeing in two views of the rivalry between these two boys.

There is every chance of a matched race between Lonsdale and Scourageman if the Merigold horse is shipped north. Peter G. Christopher thinks that he has the best Canadian-bred horse owned in Hamilton, and Bob Merigold can have a substantial side bet if the race is ever arranged.

The Brantford Expositor's sporting writer is out after Shaughnessy's scalp and has devoted several columns of late to panning the Hamiltonian.

JOHN THE BARBER THREATENS SUIT

TOLEDO, O., June 13.—John J. Reiser, known to the boxing fraternity as "John the Barber", a former manager of Jack Dempsey, has threatened to bring suit here in an attempt to restrain Dempsey from meeting Jess Willard in the heavyweight championship contest here July 4, unless he is paid \$10,000, which amount it was said yesterday, Reiser claims is due him out of the \$2,500 the challenger is to receive for boxing Willard. Reiser made known his demands to Tex Rickard, promoter of the contest.

which newspaper critics say, I won! In the east, I trained hard with no gift and was dead-in the ring. I couldn't move around in my usual way. Perhaps I trained too hard."

Six hundred athletes already are training for the inter-allied games at Colombes, France, where quarters have been prepared for 3,500 athletes. Trainers, cooks and others connected actively with the games, French, Roumanians, Arabians and Americans, of which there are 250 of the latter, on the ground.

There is a proposal to get together the seventy-five or eighty yachts of all kinds at Toronto in a race. The idea is to separate the boats in their various classes, start them off at probably ten-minute intervals and race around the island, finishing at the starting point, in front of the R.C. Y. C.

Hamilton A. A. and their city council are squabbling over a tax bill of \$2,670, and the club threatens to cut the athletic field into lots, claiming that they had turned over their grounds for patriotic purposes so often that they should not be taxed.

The Toronto Wheelmen's Association and the Canadian Wheelmen's Association are to buck one another. In Toronto Tuesday night the Toronto Association was formed. About twenty wheelmen attended and gave their views and expressed their thoughts concerning the C.W.A. Most of these are the men who have had grievances against the C.W.A. for some time, and the formation of the new association was no surprise.

SIR BARTON WON BELMONT IN A GALLOP

NEW YORK, June 13.—In a more canter, and galloping along more like a horse being waved back at the end of an exercise gallop than one finishing one of America's most famous stakes, Sir Barton yesterday added the great Belmont Stake to his list of achievements.

And while throughout the mile and three-eighths of running this marvelous piece of racing machinery never was once urged or extended, he ran the distance in 2:17 2-5, and hung up a new record for the course. That he could have clipped much more off the mark than the two-fifths of a second by which he beat the time of Hourless made in 1917, no one who watched the race could doubt.

June Weddings

Smith-Bossey
A very pretty June wedding took
place at 4 o'clock, Wednesday, at the
Presbyterian Church, Thorold, when
Rev. W. H. Smith, pastor of the
church joined in the holy bonds
of matrimony, Lorraine Douglas,
daughter of Mr. and Mrs.
Archib J. Smith of Toronto, at present
employed at St. Catharines.

Precisely at the appointed time to
the strains of the wedding music
played by Miss Nellie McNeil the bride,
entered the church escorted by her
father who gave her in marriage. She
wore a pretty robe of white satin with
overdress of Georgette crepe, tulle veil
with orange blossoms and carried a
flower bouquet of cream bridal roses.
Her maid Miss Gladys Bell of St.
Catharines, wore a pretty dress of pink
silk hat to match, and carried a show-
er bouquet of pink roses. Mr. W.
We'j man acted as groomsmen. Mr.
Daniel, during the signing of the reg-
ister sang "Because". As the bridal
party left the church the strains of
Mendelssohn's wedding march was
heard very sweetly.

The service over the bridal party
drove to the home of the bride where
a sumptuous wedding supper was
served, the tables being prettily de-
corated in pink and white. Mr. and
Mrs. Smith left for points west where they
will spend a honeymoon after which
they will reside in St. Catharines.

TELL THE WORLD THIS WOMAN SAYS

**That Lydia E. Pinkham's
Vegetable Compound made
Me a Well Woman.**

Los Angeles, Cal. "I suffered with
female troubles for years, was sick
most of the time, was not able to do
my own housework, and I could not get
help from doctors.
I saw Lydia E. Pinkham's Vegeta-
ble Compound advertised in the newspa-
pers, and took six
bottles, and am a
well woman. You
can use my name to
tell the world the
best of your medicine has done me as I
shall praise it always."—Mrs. A. L.
DeVine, 647 St. Paul Avenue, Los
Angeles, Calif.

THE WONDERFUL OUTING

haps the best known of the curious
rock formations. This is a flat rock
of huge size, in which ancient waters
have drilled great holes. It is a fa-
vorite place for visitors to pose for
snapshots. The leaning rocks form
many arches through which the paths
wind, and along one path named
"The Lover's Retreat" there is a
strange natural tunnel, where custom
has established the privilege of ex-
acting a toll the nature of which you
may surmise, but please don't men-
tion; just get there first and be toll-
keeper.

Here and there are deep caverns
and crevices. Even the rocks, where
ice mounds seem to be always, no mat-
ter how hot the summer may be. Of-
ten within a few feet of solid ice one
can see in the not days of August,
flowers blooming and drooping with
the heat. In other places one finds
earth dust dry within a few feet of
marshy ground because of the rock
placements.

All in all, Niagara Glen is a mar-
vellous place to go for a day's out-
ing. It is easily reached by the trol-
ley line from either Queenston or Ni-
agara Falls, Ont. There are shelters
and picnic accommodations, as provid-
ed in the other parks along the fron-
tier, so this year make it a point to
visit this beautiful and curious place
so loved by all who have ever been
to Niagara Glen. Words fail to pic-
ture it adequately for only a personal
visit can give you a conception of
what this part of the Niagara fron-
tier is really like.

Hot Water for Sick Headaches

Tells why everyone should drink
hot water with phosphate
in it before breakfast.

Headache of any kind, is caused
by auto-intoxication — which means
self poisoning. Liver and bowel poi-
sons called toxins, sucked into the
blood, through the lymph ducts, ex-
cite the heart which pumps the blood
so fast that it congests in the small
arteries and veins of the head
producing violent throbbing pain and
distress, called headache. You be-
come nervous, despondent, sick, fer-
erish, and miserable, your meals sour
and almost nauseate you. Then you
resort to anastilide, aspirin, or the
bromides which temporarily relieve
but do not rid the blood of these ir-
ritating toxins.

A glass of hot water with a tea
spoonful of limestone phosphate in
it, drunk before breakfast for awhile
will not only wash these poisons from
your system and cure you of head-
ache but will cleanse, purify and
freshen the entire alimentary canal.
Ask your pharmacist for a quar-
ter pound of limestone phosphate. It
is inexpensive, harmless as sugar,
and almost tasteless, except for a
sourish twinge which is not unpleas-
ant.

If you aren't feeling your best, if
tongue is coated or you wake up
with bad taste, foul breath or have
colds, indigestion, biliousness, con-
stipation or sour, acid stomach, be-
gin the phosphate hot water cure to
rid your system of toxins and
poisons.
Results are quick and it is claim-
ed that those who continue to flush
out the stomach, liver and bowels
every morning never have any head-
ache or know a miserable moment.

THE POSSIBILITIES OF IRRIGATION

Wheat on one of the Veterans' Farms, near Tilley, Alberta.

WHAT surprises a person most
when travelling through the
irrigated areas of Southern
Alberta is the wonderful variety of
crops that can be successfully grown
there, their abundant yields, and
their excellent quality. Wheat, oats,
barley and flax, the standard crops of
the Canadian West grow there and
give as heavy yields as anywhere else
on the continent. Alfalfa thrives as
it does nowhere else in Canada, and
is literally making fortunes for its
growers. By the application of
water the crops of clover and the
straw varieties of nutritious tame
grasses are multiplied manifold, in
the garden vegetables of all kinds,
including those that are associated
with hotter climes, such as tomatoes,
melons, squashes, grow in the open
as well as to indicate great possibi-
lities in this direction.

Wheat, of course, is the dominant
crop there as it is in those areas of
Western Canada where irrigation is
not practised. Oats, barley and flax
are also grown extensively. The
yields of all these grains compare
very favorably with those in any
other part of the west. Crops of
wheat this season that have been
properly irrigated are averaging thirty-
five bushels to the acre. Some crops
will thrash as high as forty bushels
or more to the acre. The yields of
other grains are equally as good.
Grain growing under irrigation
brings ample returns to the farmer,
especially when it is considered that
uniform results may be looked for
every year.

But, yielding such good returns as
the growing of grain does, other
crops that may be grown under irri-
gation are possibly still more profit-
able, and it seems reasonable to sup-
pose that in years to come the grow-
ing of grain in districts where water
is available will be to some extent
superceded to enable larger areas to
be put into other crops. Land that
will produce up to seven hundred
bushels of potatoes of a quality that
brings the best prices, on which
peas, for the most desirable kinds,
yielding forty to fifty bushels to the
acre are being grown, where sugar
beets of high sugar content thrive,
where pumpkins of enormous size

and excellent flavor, cantaloupes,
watermelons, tomatoes, cucumbers,
peppers, to say nothing of giant
cauliflowers and cabbages, early and
late, and all varieties, carrots, tur-
nips, beets, all kinds of beans and
many other vegetables flourish, and
which produce the most delicious
strawberries, raspberries, goose-
berries and other small fruits—this
land will, no doubt, be used to grow
more of these things in the future,
especially when labor conditions are
such as to enable a more intensive
system of farming to be followed.

Then there are the fodder crops,
of which alfalfa is the chief. Contrary
to a widespread belief, it is not grain,
not fruit growing, not truck garden-
ing, but to the growth of fodder crops
that the greater portion of the irri-
gated lands in the United States are
devoted. The large yields of alfalfa
that are being obtained in Southern
Alberta under irrigation assure this
crop of an important place in the
production of the farmer who is able
to utilize the water from the moun-
tain streams on his land. Not only
does alfalfa under irrigation assure
this crop also enriches the soil to
such an extent that any other crop
grown on the land after it has been

Glen Ridge

The Ideal Residence Area
of St. Catharines

Glen Ridge is by far the most desirable residential sub-
section in St. Catharines now on the market, and
possesses the following enormous advantages:

1. It is close to the heart of the city, all lots being within one
mile radius of the Post Office and City Buildings.
2. There are building restrictions ensuring the erection of only
the most desirable dwellings.
3. Beautiful surroundings and park areas.
4. Prices moderate and reasonable terms.

We expect a big movement in this property in the
next two months. So act quickly and own a home in
the most beautiful sub-division in the Niagara Peninsula.

Kindness and Cleanliness Two Chief Points to Observe in Caring for Dairy Stock—Cow and Young Calf Should Be Separated in Not Over Three Days.

(Contributed by Ontario Department of Agriculture, Toronto.)

CO-OPERATIVE experiments have been conducted in agriculture throughout Ontario annually since 1886. Previous to the war the number of farmers conducting these experiments reached over 5,000, and in 1918 (the last year of the war) the number was slightly over 3,600. Some of the leading varieties of crops now grown in general cultivation throughout Ontario were introduced through the medium of the co-operative work, such, for instance, as the O.A.C. No. 2 barley, Marquis spring wheat, O.A.C. No. 42 oats, O.A.C. No. 3 cats, Dawson's Golden Chaff winter wheat, O.A.C. No. 61 spring rye, Canadian Beauty pease, O.A.C. No. 11 soy beans, Ryebuck wheat, Golden Bantam sweet corn, Early Amber sugar cane, Dwarf Essex rape, Irish Cobbler potatoes, Yellow Leviathan mangel, Grimm and Ontario Variegated alfalfa, etc.

The co-operative experiments enable practical farmers to obtain information regarding varieties of field crops, mixtures of grain for grain and for fodder production, ways of increasing soil fertility, etc., for their own particular farms which they cannot possibly get in any other way. They furnish hundreds and even thousands of object lessons annually, which form centres of interesting study along the lines of progressive agriculture. They enable farmers to get a supply of the best seed of the leading varieties of field crops which rapidly increase in quantity and which furnish seed for sowing and planting in large areas, resulting in good crops. The whole work leads to a substantial increase in farm profits and to a steady advance in agricultural education throughout Ontario.

The plan of the co-operative work for 1919 is printed in circular form and has already been sent to all the successful co-operative experimenters of the past few years. Other interested farmers could secure a copy of the circular by applying to the Department of Field Husbandry, Agricultural College, Guelph, Ontario. Dr. A. A. Zavitz, Ontario Agricultural College, Guelph.

Care of Cow and Young Calf.
Kindness and cleanliness are the two chief points to observe in caring for dairy stock.
About a week before the young calf is expected, the cow should be placed in a clean, well-bedded, comfortable box-stall. The practice of compelling cows to give birth to their calves, tied in the row, is cruelly for the cows, dangerous for the calf, and bad for the whole herd. Privacy and quietness should be the rule at this time.

The cow should be allowed to lick the calf dry, and should be kept tied until the after-birth is removed. The two may be left together one or two days. Some remove the calf at once, but if it is to be reared, it should be left with the dam for a short time, in order to give the young animal a good start. Leave the cow and calf together for a day or two also tends to remove inflammation from the udder of the cow.

If necessary the cow's udder should be bathed with warm water or some form of liniment such as camphorated oil, or equal parts of turpentine and vinegar and an egg in one quart of the mixture.

In case the cow and calf are all right, they may be separated in not over three days, and the cow be returned to her regular stall. The calf may be allowed to remain in the box-stall, if not needed for another cow, or be placed in the nursery along with other calves, as this will cause it to forget its "mummy" more quickly. It should receive its mother's milk for a week, whole milk for two or three weeks, then skim milk and other suitable feeds for six months, and be kept dry and clean at all times.—Prof. H. H. Dean, Ontario Agricultural College, Guelph.

Trimming and Staking Tomatoes.
This method of handling tomatoes has come into very extensive use in the past few years among the commercial market gardeners, owing to the high price of land and backyard gardens. The plants as a rule are set two feet apart each way and after planting are given one cultivation. The sticks are then set; driving them down about a foot into the ground and leaving from five to six and a half above the ground. These sticks may be made from mill edgings, saplings or anything else of a similar nature about one and a half inches square and strong enough to hold the plants when the fruit is fully grown. After driving the sticks and tying the plants to them the ground should be covered from four to six inches thick with very straw manure, as a mulch. This mulch will keep the moisture in the ground and, at the same time, remove any necessity for cultivation and other disturbance of the roots. In growing tomatoes on the single stem, such as is used in this method, all side branches which appear where leaf stems join the main stem of the plant are removed as quickly as possible. If they are allowed to grow it will take away very valuable plant food from the growing plant. The plant should be tied every eight or twelve inches to the stake and when they have reached the top are cut off.—A. H. MacLennan, Ontario Vegetable Specialist.

Robert Martin was killed near Campbelltown when the auto he was driving was struck by the Ocean Limited from Montreal.

BEECHAM'S PILLS

Keep the stomach well, the liver active, the bowels regular, and the breath will be sweet and healthy. But let poisons accumulate in the digestive organs, the system becomes clogged, gases form in the stomach and affect the breath.

Correct

WHEN TO CUT ALFALFA FOR HAY

(Experimental Farm Note)
The yielding capacity of alfalfa depends on quite a number of factors, one of them being the time when the crop is harvested. Indeed, affects the yielding capacity per acre of alfalfa more than it affects other hay crops for reasons which will be explained briefly.

It is unfortunately a rather common practice among farmers to delay the cutting of hay crops too long, under the mistaken idea that by waiting a little longer that the crop has reached its best stage from a quality standpoint, larger and consequently more remunerative crops may be realized. This practice, however, works out rather the other way in alfalfa.

It is generally held that most satisfactory returns, both from the standpoint of tonnage per acre and from the standpoint of the hay quality, are obtained, if the alfalfa is cut when, as it is generally expressed, it is "one-tenth in bloom." This expression really means that it is time to cut alfalfa just after it has started to come in general bloom. The blossoming is, in fact, on the whole, a rather good indication of the proper time to cut alfalfa; but it is not always so, for in certain seasons especially if wet and cool weather prevails in the early part of the summer, the blossoming period may be considerably delayed beyond the best time for cutting the alfalfa for hay. It is not always easy to determine when an alfalfa field is "one-tenth in bloom" and, in case of doubt on that question, the alfalfa-grower may easily be tempted to wait a little too long.

A far safer indication of the best coming on of the second growth from the crown of the roots. The second growth generally begins to shoot just when the plants begin to blossom, but sometimes a little earlier. As the second growth is the one on which the size of the season's second crop of alfalfa depends, it follows that the first hay crop of the season should be taken off before the second growth has reached such a development that with the first crop. And this might easily happen, if the cutting of the first crop is delayed too much, the result of course being that the return from the second crop of the season is apt to become smaller.

Under the circumstances alfalfa growers would be well advised not to delay the cutting of the first crop any time after the second growth begins to come on. Simple examination of the crown of the roots will show how the new growth is developing, and the cutting of the first crop should take place before it is high enough to be caught by the mower.

KNIFE ON CORNS CAUSES LOCKJAW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezeone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts off with the fingers.

It is a sticky substance which dries the moment it is applied and is said to simply shrivel the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callosity.

You are further warned that cutting at a corn is a suicidal habit.

FORAGE CROPS FOR PIGS

Raise All the Dairy Calves You Possibly Can.

We should strive to double our cow population in the next ten years—More immediate, and larger; Cash Returns, secured by Sale of Milk Than of Cream Where Location Is Favorable.

(Contributed by Ontario Department of Agriculture, Toronto.)

FOR the farmer who is raising hogs, one of the greatest problems is summer pasture. A new luxuriant growth of green grass is soon eaten off when the dry hot season comes and it is just at this time when the stockman needs some form of succulent feed for his stock. When the stock are running on pasture they are getting back to nature and there is nothing like good green feed as a conditioner for the animals.

As for forage crops in this country alfalfa and rape seem to give the best results. Above anything that will produce a good green growth in a dry season is all right. Wherever alfalfa will grow it gives the best kind of permanent pasture for pigs, as there is no danger from blight as is the case of sheep and cattle. Alfalfa provides pasture for a greater length of time than any of the grasses and is green and succulent even when the alfalfa has become somewhat dried and woody.

Heavy pasturing of alfalfa is not good for it and consequently the number of animals allowed to pasture on it should be restricted and the plants should be allowed to grow up and be cut two or three times a season. Pigs, fed corn alone on alfalfa pasture, make fairly satisfactory gains since the protein in the alfalfa helps to balance up the deficiencies in corn, although for best results a little of some nitrogenous concentrates should be fed. Red clover in the country gives very excellent results as a pasture for pigs; for the reason that it can be grown in a great many localities where alfalfa cannot be raised at all and consequently it is of great value. At one of the Experimental Stations in the States, red clover was inferior only to alfalfa, while at another it was found that it was surpassed only by alfalfa and rape.

As an annual pasture for swine nothing surpasses rape. It can be sown both early and late in the season and as a consequence forage may be provided for at any time. To get the best results from rape, it should be sown in the spring and allowed to obtain a height of twelve to fourteen inches before turning the animals in. Care should be taken not to allow the plants to be eaten off too closely as the young plants do not get a chance to recuperate. To guard against this it would be wise to provide a second plot where the animals could be turned in for a time. Rape is also grown in conjunction with oats or with oats and field peas, and some authorities rank rape and oats next to alfalfa and red clover for pig pasture.

For young pigs in pasture it is not wise to force them to subsist on alfalfa and rape. They should be fed a little grain. Pigs that are being pastured for the purpose of fattening rather should have a limited grain ration, as this system of feeding has been found most economical.—J. C. McBeath, B.S.A., O. A. College, Guelph.

Shall I Rear Dairy Calves in 1919?

In brief, raise all the heifer calves for which there is feed, labor, and stable-room. More and better cows are needed in Ontario. The number of milk-cows in the province has remained stationary at about one million, for a good many years. There is no good reason why this number should not be doubled in the next ten years, but it can be done only by rearing or buying. Buying cows is expensive and risky. It is a far better plan to raise cows. This means that all the best heifer calves should be saved for future cows. As it requires from three to four years to attain the age when a cow can be put to double the cow population in ten years, making allowances for necessary discards, we need to begin right away, in order to attain the desired objective.

The average number of cows per 100 acres of farm land in Canada is but two, whereas in Denmark it is fourteen, and in Holland sixteen. We have a long way to go in raising cows, before we have anywhere near the number which are found in the best European dairy countries. There is but one economical way to attain this result, and that is by raising practically all the heifer calves dropped during the next ten years and as many pure-bred calves of excellent ancestry, as may be required for breeding purposes.

Shall I Sell Milk or Cream?

This will be determined to a large extent by the character of the farming operations. If the need for direct, quick cash in largest amount, is great, then selling milk will best "fill the bill." On the other hand, if the dairy farmer can afford to wait for the slower returns from cream and live-stock, and particularly if he desires to improve or maintain soil fertility, then selling cream is to be recommended.

Nearness to market is another factor. Where the dairyman is near a small town and has the time to "peddle" milk, he can make more money out of his cows than by any other system. At ten to twelve cents a quart, a good cow will return from \$250 to \$300 per year for her milk. When this is compared with \$100 to \$150 per cow, where cream is sold, or milk sent to a cheese factory or condenser, we get what a decided money advantage there is in selling milk to customers direct.—Prof. H. H. Dean, O. A. College, Guelph.

Geo. Armour, Moncton, N. B., who was accused of perjury in connection with a prohibition case, was acquitted.

HYDRO RADIAL PROPOSALS ARE PRESENTED TO COUNCIL

Municipalities Required to Pass Resolution As to Percentage of Those Places Which Will Not Carry By-Law—Bankers Bond Company Gets Debutante.

At a special meeting of the City Council held last night to open ten-ty, twenty year debentures, and to Mr. Gaby, chief engineer of the Hydro Electric Commission, it was decided to accept the tender for the Hydro Radial line, of the Bankers Bond Company of Toronto for \$101,000, this being the highest bid. There was a large list of tenders, one of the largest indeed that the city has ever received for such an issue and the offers ranged generally pretty high as compared with what has sometimes been offered in the past.

All the bids except one were from Toronto houses. That one was from a Quebec firm.

Mr. Gaby speaks

Mr. Gaby on behalf of the Hydro Commission spoke in explanation of the necessity now of the passage by municipal councils of a resolution setting forth that such municipalities as voted favorably for the construction of a hydro radial line between West Credit and St. Catharines are still ready to have the work carried on and will also assume an extra liability.

As explained previously in The Journal there were three municipalities that did not carry the hydro radial line three years ago. They were Hamilton, Salford township and the township of West Flamboro, since that time Hamilton resumed the by-law and it was carried. This leaves two out. In the estimated appropriation of the cost between all the municipalities between and including West Credit and this city, the amount calculated for Salford was \$1,002,200 and for West Flamboro \$1,000,000 of a total of \$2,002,200.

Upon investigation by the school authorities, it was found that many mothers, forced, because of the laziness of their husbands to work in factories at night and perform their household duties by day, used these drops as a stimulant and that the stimulant had been sampled by their children.

FORMER PRESIDENT DIES

NIAGARA FALLS, June 14.—T. Gaskin died yesterday at the home No. 1124 Ontario avenue, 65 years old. He leaves his wife, two sons, and a daughter.

Mr. Gaskin came here about 35 years ago from Lockport. He was at one time president of the old village of Suspension Bridge.

330,000 FOR SCHOOLS

BRIDGEBURG, Ont. June 14.—The town council last night passed a by-law granting the school board \$300,000 with which to build a four room addition to the Phipp street school. It is possible that there will be a vote of taxpayers to decide whether the money shall be paid out of current taxes or by means of deferred bonds.

BRIDGEBURG COUNSELLORS FOUND THAT THEY HAD TO MAKE BIG GRANT

BRIDGEBURG, Ont. June 14.—The town council last night passed a by-law granting the school board \$300,000 with which to build a four room addition to the Phipp street school. It is possible that there will be a vote of taxpayers to decide whether the money shall be paid out of current taxes or by means of deferred bonds.

OPERATORS STOP AT KEYS TODAY

Railway Tickers at 23,000 Points in United States Stop Receiving Messages.

CHICAGO, June 14.—The second stage of the commercial telegraphers strike will be reached today when the railroad operators at 23,000 points in America are to discontinue handling commercial messages under an order issued by the Order of Railway Telegraphers.

Such action, strike leaders declared last night, will tie up all commercial telegraph business except between the larger cities in which the Western Union and Postal Telegraph companies maintain their own offices. Officials of the Postal said that company will not be affected by the order as little Postal business is handled through railroad stations.

UNLUCKY DAY NOT ATTRACTIVE TO BRIDES

NEW YORK, June 14.—Only two couples appeared yesterday, Friday the 13th, in the Marriage License Bureau and officials of the office declared they had less work than on any day in the history of the bureau.

ALLIS-CHALMERS MEN ARE STILL ON STRIKE

BRIDGEBURG, June 14.—The strike of the employees at the Canadian Allis-Chalmers Company plant here, about 225 in number, still continues. The men have been out on strike nearly a week now, and there are no signs yet of a settlement.

WIVES TOOK DOPE AND CHILDREN FOLLOW SUIT

PASSAIC, N. J., June 14.—The state board of health was asked in a resolution adopted today by the local board of health, except upon prescription, sale of certain "dope" containing ether and alcohol which has been brought from many Passaic schools.

BRIDGEBURG, June 14.—The strike of the employees at the Canadian Allis-Chalmers Company plant here, about 225 in number, still continues. The men have been out on strike nearly a week now, and there are no signs yet of a settlement.

WILL USE AIRPLANES TO EXPLORE TIMBER

St. John, N.B., June 14.—Captain Dan Owen, late of the Royal Air Force, and now serial surveyor of timber lands for the United States firm on his way to the United States said he expected to command an expedition to Labrador in the interests of firm with the purpose of surveying the vast timber lands owned by them in that country.

LAD TO REST

There was a large gathering of personal friends to pay their last respects to the late Robert Wright at the family home 112 Church Street, yesterday afternoon. Rev. Dr. Martin assisted by Rev. Mr. Hamilton and Rev. Mr. Copeland of Caledonia officiated at the home and graveside. Mrs. R. Biggs rendered very sweetly "He will wipe away all Tears." The following gentlemen acted as bearers: W. H. McCormick, Fred Rogers, A. E. McCormick, W. Wood, Geo. Mitchell and Geo. Darter. The floral offerings were very numerous and beautiful showing the high esteem in which the deceased was held.

NEW VICTROLA RECORDS

Some Pretty Ones in the May Lists

You will add to the value of your Victrola by making a selection from the new May records—now stocked in the Victrola Parlors of Ye Olde Firme of Heintzman & Co., Limited, 68 St. Paul Street, St. Catharines. Does your selection contain "Bird Chorus," "The Butterfly," and "Calling Me Home to You."

COUNCIL REFUSES DEMAND PHOR-OPERATORS STRIKE

VANCOUVER, B. C., June 14.—The refusal of the City Council last night to accede to the demand of the General Strike Committee that jitneys be ordered off the streets of the city, resulted in union telephone operators being called from their switchboards about two hundred employees of the British Columbia Telephone Company obeyed the mandate and walked out.

PUT OFF THE TRAIN: NOW SUES C. P. R.

HAMILTON, June 14.—Wm. Griffin is suing the C. P. R. for five hundred dollars damages for alleged breach of contract. He says he purchased a ticket from Wallaceburg to Hamilton and that the company put him off at Galt.

DOESN'T LIKE IDEA OF ADVISING MATRIMONY

BRANTFORD, June 14.—A member of the G.W.V.A. Executive stated yesterday morning that it had been reported to him that the lady representative of the Pension Board, who came here on visit, had been urging the war widows to hustle up and get married again.

CHOPIN'S NEW JACKET

Chopin's love of elegance was revealed in his earliest youth. When he was nine years old his parents allowed him to play at a charity concert in Warsaw. The young musician was so small that, to array him carefully for the important occasion, his mother stood him upon a chair. The boy was very much interested in his new jacket and particularly pleased with his large collar thereof. After the concert his mother took him in her arms, glad to see that he was not untimely exhausted. Well, she asked, what did the audience like best, Oh, mamma return to Frederick joyously everybody looked at my collar.

SPENT PLEASANT TIME

A very pleasant time was spent at the home of Mr. and Mrs. Leslie Watson, Thorold Road last night, when the yentored about fifty of their friends to dinner, the occasion being the 25th anniversary of their marriage. The evening was spent in games, music and dancing, and the jolly party returned to their homes voting the host and hostess admirable entertainers.

GIVE GERMANS EIGHT DAYS FOR A DECISION

PARIS, June 14.—It is believed to-day that the presentation of the allied answer to the German counter-proposals will take place on Sunday evening or Monday morning.

It is asserted that the Germans will be granted eight days within which to determine whether they will sign the treaty.

ACCEPT HIGHWAYS PLAN

WELLAND, June 14.—J. G. Morningstar, warden, was notified this week by the Highways Department that the roadways which the county council asked to have designated as provincial highways have been accepted. As such, these include the Canboro Road and also an important link on the south, running south from the Pock's Road to Marshville, then south if the 1st and 2nd concessions in Wainfleet, then east to the Methodist church at Port Colborne and following that by the Garrison Road to Fort Erie.

EVERY QUEBEC RIDING TO SEND DELEGATES

QUEBEC, June 14.—All the counties throughout the Quebec district are organizing their delegations which will go to Ottawa August 5, 6, and 7 to participate in the general Liberal Convention. Meetings are being held all over Quebec Province to choose these delegates to the convention and indications are that every constituency in the Province will have its authorized number of delegates there.

BRITISH SQUADRON BOMBARDS KRONSTADT

STOCKHOLM, June 14.—A British squadron in bombarding the Bolshevik base at Kronstadt with heavy guns, according to a report published in the Altonian, the Bolshevik batteries, however, are not replying to the British fire. The Bolsheviks have placed floating mines in the nearby waters. The report suggests that the Bolsheviks are trying to evacuate the town.

DOESN'T LIKE IDEA OF ADVISING MATRIMONY

BRANTFORD, June 14.—A member of the G.W.V.A. Executive stated yesterday morning that it had been reported to him that the lady representative of the Pension Board, who came here on visit, had been urging the war widows to hustle up and get married again.

A. W. WRIGHT PASSES AFTER LONG ILLNESS

TORONTO, June 13.—Mr. Alexander Whyte Wright, Vice-Chairman of the Workmen's Compensation Commission of Ontario, died last night at his home, 105 Macdonnell avenue, Parkdale, after a long illness. Mr. Wright was a newspaperman and later took an active interest in labor and was an ardent supporter of public ownership of utilities. Mr. Wright leaves one daughter, Mrs. W. E. Hunter, Toronto. The funeral takes place Monday.

IS YOUR VICTROLA WORKING?

It runs with increased satisfaction if kept in use with a few new records at intervals from out of the large assortment found in the handsome Victrola Parlors of Ye Olde Firme of Heintzman & Co., Limited, 68 St. Paul Street, St. Catharines. Does your selection contain "Bird Chorus," "The Butterfly," and "Calling Me Home to You."

NEW VICTROLA RECORDS

You will add to the value of your Victrola by making a selection from the new May records—now stocked in the Victrola Parlors of Ye Olde Firme of Heintzman & Co., Limited, 68 St. Paul Street, St. Catharines. Does your selection contain "Bird Chorus," "The Butterfly," and "Calling Me Home to You."

GETTING READY FOR REFERENDUM

Preparations Being Made at Toronto for Test of Public Opinion on the Liquor Question

Enumeration of elections preparatory to testing the vote on the temperance referendum in the fall is to begin almost immediately in Toronto, Ottawa, London and Hamilton. Toronto members of the legislature, it has been learned, have been asked to attend a meeting to discuss the preliminary arrangements for the preparation of the voters' lists. It is the desire, it is understood, of Hon. J. B. Lucas, that the deputy enumerators in each riding shall be appointed forthwith, so that they may in turn choose their assistants. If possible it is hoped to have the work under way in Toronto by the middle of next week, and in the other cities mentioned shortly after.

While the date on which the referendum is to be held has not yet been fixed by the government, the troops are so nearly all home that it is more probable the vote will be taken some time in October. This being the case, it behooves the government to have the lists in shape by that time. Now that the vacation season is here, and many people will be out of the larger cities during July and August, the government is anxious that no time be lost in getting the lists ready. Toronto being the largest of the provincial cities, the preparation of the lists will best be done there.

CHOPIN'S NEW JACKET

Chopin's love of elegance was revealed in his earliest youth. When he was nine years old his parents allowed him to play at a charity concert in Warsaw. The young musician was so small that, to array him carefully for the important occasion, his mother stood him upon a chair. The boy was very much interested in his new jacket and particularly pleased with his large collar thereof. After the concert his mother took him in her arms, glad to see that he was not untimely exhausted. Well, she asked, what did the audience like best, Oh, mamma return to Frederick joyously everybody looked at my collar.

TO VOTE ON AMENDMENT

OTTAWA, June 14.—It is now definitely decided that the McMaster amendment to the budget is in order and the commons will accordingly vote upon it. Speaker Rhodes stated when it was introduced that he would reserve decision.

TO ERECT LOFT BUILDING

BRANTFORD, June 14.—The City Council took steps last night to provide better care of local cemeteries new in a wretched condition; forbade the parking of autos on the four principal streets and decided to send to the repayments a by-law calling for the guaranteeing of bonds of the Brantford Industrial Realty Company up to 85 per cent. of \$400,000 for the erection of a loft building to house infant industries. Two such buildings were erected here in the past and proved wonderfully successful.

PUT OFF THE TRAIN: NOW SUES C. P. R.

HAMILTON, June 14.—Wm. Griffin is suing the C. P. R. for five hundred dollars damages for alleged breach of contract. He says he purchased a ticket from Wallaceburg to Hamilton and that the company put him off at Galt.

DOESN'T LIKE IDEA OF ADVISING MATRIMONY

BRANTFORD, June 14.—A member of the G.W.V.A. Executive stated yesterday morning that it had been reported to him that the lady representative of the Pension Board, who came here on visit, had been urging the war widows to hustle up and get married again.

M'COLLOUGH PAID FINAL PENALTY

THE CROWN BUYS
A deed was registered in Welland County Registry office this week conveying one hundred acres in the township of Stamford from Mrs. Jane Agnes Stevens to His Majesty The King.

DRIFT FOR TWO DAYS AND NIGHT ON LAKE ONTARIO

John Bolton, Niagara Fisherman, Ran Out of Gasoline and Had No Oars

NIAGARA FALLS, Ont., June 14.—John Bolton of Niagara on the Lake has just got through an experience that nearly turned his hair grey, having been for two days and a night afloat on Lake Ontario in a drifting boat. He was out on the lake attending to his nets when his gasoline ran out and not having any oars in his launch he had to sit quietly and let the craft drift with him where it liked.

WHY'LL VOTE ON DRY ISSUE?

Conference Met at Queen's Park to Define This Point

TORONTO, June 14.—A conference of the Toronto provincial members of Parliament and the Attorney General, I. B. Lucas was held at the Parliament Buildings yesterday regarding the enumerators for the referendum on the liquor question in the fall. They are to report back their suggestions for these enumerators in two days. Every man and woman of 21 or more years, if a British subject by birth or naturalization, having resided in the electoral district over three months before the election will have the right to cast a ballot. Males and females, and Indians, not otherwise qualified to vote, will be granted the right to do so if they have served in the naval or military forces of the King in the great war. In the city the lists are made up by street numbers, and the enumerators will call from door to door.

NEW HOLIDAY TRAIL THAT IS UNEXCELLED

The beauties and vacation attractions of the Canadian Rockies and the Scenic Seas of the North Pacific Coast are described in an illustrated folder just issued by the Grand Trunk Pacific Railway. Jasper Park and Mount Robson Park are among the great regions in the alpine kingdom opened up by the railway to tourists and sportsmen. Canada's highest peaks with scores of glaciers and lakes can be inspected in their full majesty from the railway line. The traveller may stop off at an alpine camp where there are the comforts of a hotel in the heart of the mountains making delightful daily excursions afoot or on horseback. Upon reaching the Pacific Coast at Prince Rupert the famous Grand Trunk Pacific oil burning steamships are ready to carry you through the "Norway of America" to Vancouver, Victoria or Seattle, one of the world's finest yet most sheltered sea voyages. Plan your trip now and write to nearest Grand Trunk Agent for copy of folder "The Canadian Rockies, Mount Robson Route, Scenic Seas of the North Pacific Coast."

CZECHO-SLOVAKS STILL FLEE BEFORE HUNGARIANS

PARIS, June 14.—Peace Conference advisers are to the effect that the Czecho-Slovaks are still retreating before the Hungarians. Bela Kun, the Hungarian Communist leader, is said to have visited the Hungarian Red Army, and in a long speech told the troops that their valor would be responsible for a change in the attitude of the Peace Conference toward the Hungarian Government.

SPENT PLEASANT TIME

A very pleasant time was spent at the home of Mr. and Mrs. Leslie Watson, Thorold Road last night, when the yentored about fifty of their friends to dinner, the occasion being the 25th anniversary of their marriage. The evening was spent in games, music and dancing, and the jolly party returned to their homes voting the host and hostess admirable entertainers.

DIES FROM SHOT INQUEST HELD

Returned Soldier Who Tried to Enter House While Mentally Weak Dies From Wound—Jury Adjudged Hearsay.

There passed away at the Welland Hospital on Friday afternoon, Andrew Conner, after an illness the result of being shot at Beaverdams a few days ago.

Conner, who is a returned soldier, 45 years of age, was employed at the farm of Mr. Merrithew, Beaverdams, near Decew Falls. He was taken in a few nights after being engaged and his state of delirium he tried to break into the house of Mr. A. Vanderburg, a neighbor farmer. Mr. Vanderburg shot at the man three or four times and he was brought to the Welland Hospital in a serious condition and passed away yesterday afternoon.
