For Sale or to Let.

FARM FOR SALE.

The undersigned will offer for sale the following very desirable farm, consisting of the easterly 100 acres of block 7, in the 7th concession of the Township of Colborne, in the County of Huron. This farm is situated 4 miles from Goderich, and 2 miles from Carleton Place, on the Main Gravel Road. There is a good frame house, 10 rooms, almost new, 28 by 30, containing 7 rooms; a large barn, 60 by 42, with cattle shed, 12 by 14, attached, and one of the best orchards in the township. It is watered by a never-failing spring creek, and has a good well. About 110 acres of land and free from taxes. There is no waste land of any kind on the place. Good school within 2 miles of the house.
Will be sold on reasonable terms.
For terms and further particulars apply to the undersigned.
JNO. BRECKENRIDGE, Proprietor, Goderich, or JOSEPH MCKEOWN, on the premises.

TO LET.

A good brick house containing ten rooms, good cellar, stable, hard and soft water, at present occupied by H. I. Strank, Esq., Possession in May. Apply to MISS T. SWEETH, 2200-17.

FOR SALE.

Lot 178—of Goderich. Apply to HILLIP HOLT, 90-17.

FOR SALE.

The property at present occupied by the undersigned as a residence on the Huron Road, in the Town of Goderich, consisting of one half of an acre of land, good frame house, 10 rooms, almost new, 28 by 30, containing 7 rooms, a kitchen, hard and soft water, good stone cellar, and carriage house. There are also some good fruit trees. This property is beautifully situated and very suitable for a residence. Possession in May. For further particulars apply to
E. CAMPION, Barrister, Goderich, 29-3m.

TOWN TOPICS.

A chief's amany ya, takin' notes, 'An' 'atuh he'll print it."

A GOOD PRESENT.

The most useful gift you can make is to give a copy of THE SIGNAL to a friend. It is a paper that is read by all, and is full of interesting news and information. It is a paper that is worth having in every household. It is a paper that is worth giving as a present. It is a paper that is worth having in every household. It is a paper that is worth giving as a present.

THE WOMEN'S CHRISTIAN TEMPERANCE

Union will meet regularly for the transaction of business every Tuesday afternoon at 2:30 o'clock, in the Temperance Hall. Every woman interested in the work is cordially invited to attend.

THIS IS THE SEASON OF THE YEAR TO LOOK

for your drainage. Saunders & Son have received a carload of American self-acting sewer tiles, which are being sold at less than city wholesale prices. A full supply of these tiles, lawn sprinklers and everything necessary for water service and drainage. The cheapest house under the sun.

In moulding character much care must be

taken, and so it is in everything where the moulding process obtains. Take a fine picture for instance, and let it be framed in an inferior moulding, and the result will be detrimental to the appearance of the picture. To obviate such a contingency, R. R. Sellows has recently placed in stock a fine selection of picture frames, which, compared with the finest workmanship, will prove admirably to all kinds of pictures, mouldings and prices to suit the public.

BRIEFLETS.

Miss Josie Old is visiting friends in Blith.

Miss Wallace has been visiting her sister in Blith.

Mr Peter Fisher, of Wingham, was in town during the week.

Auction sale of "500" lots this (Friday) evening at the Albion.

Mrs (Rev.) Richardson left on Monday to visit relatives in London.

John Acheson is to have a special sale of parasols all next week. See ad.

Mrs J. Hamlin, of Duncannon, has

been visiting friends in Goderich. Mrs W. A. Harrison, of Westfield, is visiting friends in town this week.

Mr J. T. Harris and son, of London, are the guests of Mrs Wm. Acheson. Mrs Bantzenhiemer, of Brussels, was the guest of Mrs F. Elliott, last week.

Preparations are being made for laying watermains on Albert st., from East-st. north.

Dr McDonagh will be in Goderich for consultation on the first Saturday of every month.

The past ten days have been backsetters to building operations, owing to the steady rains.

Mr Jas. C. Cassidy, of Auburn, has taken a position as clerk, in the employ of Acheson & Co.

Miss Jennie Martin left on the Campana last week to visit her sister, Mrs Campbell, at the Sault.

Some of our people are growing about the dilatory action of the council in the matter of the waterworks.

Rev. J. Edge, of Clinton, occupied the pulpit of Victoria st. Methodist church last Sunday, morning and evening.

Mr Jas. Young, of Auburn, paid a visit to THE SIGNAL office during the week. He is hot for the C. P. R. via Auburn.

Mr Geo. A. Thorpe left yesterday for Toronto, to resume his former position there. He has just recently recovered from a severe indisposition.

We are glad to notice that Mr Wm. Matthews, mail clerk, has so far recovered from the effects of the breaking of his leg as to be able to drive out.

Dr M. Nicholson, the West-st. dentist, makes the preservation of the natural teeth a specialty. Gas administered from 9 a. m. for the painless extraction of teeth.

The Safford Masons intend running an excursion on June 24th, from Goderich, Clinton, Safford and Mitchell, to Toronto and return good for three days for \$2.

Alek Saunders will represent Court Goderich No. 32 Canadian Order of Foresters at the annual session of the High Court, which meets in London, on the 11th inst.

Constable F. S. Scott, of Brussels, arrived in town Tuesday evening, in charge of Mrs Shine, an aged person charged with lunacy, who had been committed to jail.

The first draft of stationing committee of the Guelph Conference of the Methodist Church transfers Rev A P Potter, pastor of Victoria-st. church, in this town, to Durham. Rev B L Hatten will take his place.

It is announced that one of the attractions on Dominion Day will be the launching of Williams and Mariton's new schooner. This of itself ought to attract a large gathering of outsiders to Goderich on that day.

When we see a duck with a lame leg trying in vain to keep up with the rest of the flock, it always reminds us of a non-advertising so-called business man, endeavoring to hold his own against his neighbor who advertises.

AN IMPORTANT IMPROVEMENT.—The new Soft Stop and Practice Pedal attachment to a Newcombe Upright Piano serves the nerves of the listener or performer, when practising, as well as the instrument from wear, and preserves the tone.

Rev. Geo. Richardson, Superintendent of the Guelph Conference of the Methodist Church of Canada, left on Monday last for St. Marys, where that body meets this year, to attend the sitting of the stationing committee, of which he is chairman.

YES, EVERYTHING.—We do everything that can be done in any first-class printing office at THE SIGNAL, and keep on hand a full stock of printing and writing papers, cardboards, envelopes, etc., so that all work can be turned out expeditiously. Only reasonable prices asked. Call.

A TRIP TO THE MOTHER LAND.—Owing to the disagreeable condition of the weather last week, Dr Ure's lecture on the above subject was postponed till this (Friday) evening. Mr Cook and the choir will furnish appropriate music. Doors open at 7.30. Exercises to commence at 8 o'clock. Silver collection at the doors on behalf of Young People's Association of Knox Church.

HONORS FOR GODERICH STUDENTS.—In the recent examinations at Toronto University, Mr J D Swanson, of this town, succeeded in securing a Bachelor of Arts degree, taking honors in classics. Messrs W R McIntosh and J Wilson, former students of Goderich High School, passed their second year examination. We take great pleasure in congratulating these young men for the splendid manner in which they are upholding the credit of our High School.

A new puzzle has been introduced in the east which is receiving more attention from those who have seen it than did the famous thirteen puzzle in its day. Seven spots are made in a row thus "o x o o o". Three coppers are placed on the o's and three coppers on the o's, leaving nothing on the x. The puzzle is to place the o's and the dimes on the o's by removing the coins and jumping one copper with one dime or vice versa, never moving a coin backward. It can be worked. Try it.

Mr John Ross Robertson, of the Toronto

Telegram, was in town on Thursday, and delivered a lecture on "Massion" to the brethren in the evening. He is a hustler in everything he turns his attention to, and gets standing room on a solid pavement every time. He owns one of the best-paying newspapers in Canada.

A public meeting was held in the town hall on Friday evening to take steps to fittingly celebrate the 1st of July in Goderich. The following committee was appointed: C. A. Nairn, P. Holt, F. J. Priddham, D. McGillicuddy, W. L. Horton, D. C. Strachan, Jas. Mitchell, W. Proudfoot and C. A. Hamer.

"IMMIGRANT CHILDREN."—Mr John T. Middlemore, the founder of the Orphan Children's Emigration Charity, London, Ont., left Liverpool on the 31st ult. in the S. S. Lake Winnipeg with a party of 30 girls and 50 boys between the ages of 8 and 18 years, who are brought out to this country for adoption or hire, chiefly among farmers. They are expected to arrive at the Guthrie Home, near the city, or about the 15th. This will be Mr Middlemore's 16th annual visit to these shores with juvenile emigrants from Birmingham, England, since 1872. Already many applications accompanied by good references have been made for the children expected to arrive, but more are required. Further particulars may be obtained by addressing Mr H. Gibbens, Manager of the Guthrie Home, London, Ont.

CALEDONIAN SOCIETY MEETING.—A meeting of the Caledonian Society was held on 27th May '89. Present—M C Cameron, chief, D C Strachan, C A Nairn, D C McDonald, W Proudfoot, S Malcolmson, W L Horton. Moved, seconded and carried that the Caledonian games be dispensed with this year, and that Mr Proudfoot be requested to notify the town council. Moved by Mr Cameron seconded by Mr Proudfoot, that W L Horton be appointed auditor in the place of M A Dickson, deceased. The following officers were elected: Chief, M C Cameron; ex-Chief, M Hutchison; 1st Chief, D C Strachan; 2nd Chief, J T Garraw; 3rd chief, D C McDonald; 4th Chief, S. Malcolmson; 5th Chief, A. P. McLean; 6th Chief, M. Nicholson; Treasurer, Wm. Proudfoot; Rec. Secretary, C. A. Nairn. It is understood the Society will hold a Caledonian picnic some time during the summer, of which due notice will be given.

Y. W. C. T. U. OPEN MEETING.—The open meeting in the Temperance Hall on Tuesday evening, under the auspices of the Y. W. C. T. U., was largely attended by an intelligent and appreciative audience, and was an enjoyable treat. The meeting was opened with prayer by Rev J. A. Anderson, after which an excellent and varied program was given. The musical portion of the program was given by a number of the pupils of Miss Wyan, and it is needless to say, reflected credit upon both teacher and pupils; the readings given were of a good order, and duly appreciated; and the lecture on "Woman's Influence," by Rev Mr Simpson, of Brucefield, was an intellectual treat, the matter and manner of delivery being highly meritorious, and the lecturer succeeded in holding the rapt attention of the large audience from his appearance to the close of his remarks, and will be gladly welcomed to Goderich in a similar capacity at any time. Following is the program: Reading, "The Star of the Sea," by Miss Leal; Miss Graham; reading, "The Sorrows of a Hired Girl," Mr Harvey; solo, "Orange Blossoms," Miss Martin; solo, "My Heart is Sair for Somebody," Miss M. Acheson; duet, "Star of My Life," Misses Graham and Rines; lecture, Rev Mr Simpson; solo, "Little Boy Blue," Miss Nellie Gray; recitation, "The Foreclosure of the Mortgage," Miss Crosier. Mrs Henderson, the indefatigable president of the Y. W. C. T. U., deserves the thanks of the public for having given so excellent an entertainment under the auspices of the society, which she so ably presides over, and which she has succeeded in developing into so healthy an organization.

POPULAR ROW.
From our own correspondent.

Miss Dolly McPherson, of Goderich, was the guest of Miss Ida Sallows last week.

Miss McDougall and Miss Campbell, of Walton, were the guests of Miss Annie Sallows last week. These ladies were delighted with their visit on Popular Row. We should not wonder if a certain young man would visit Walton shortly.

Mrs William Brophy, of Goderich, visited friends on Popular Row last week on her way to visit some friends in South Bruce.

Popular Row can boast of the most and the best lady drivers of any place we know of. Some of them can handle the ribbons in good shape, and can drive very spirited horses. We think the prize at the North Western exhibition this fall for the best lady driver will be taken on Popular Row.

A certain young man working for a farmer in Colborne, while excavating for a cellar, found, at a depth of about three feet underground, the several articles herein mentioned.—Three horse shoes, a logging chain, one gross of clothes pins, one plough coulter, a dinner knife and fork, one pair corset steels, one boot, draw bolt for wagon, a large quantity of bones, in a good state of preservation.

WHY WE SMILE.

The Press Showers Praise on Our Efforts.

"The Goderich Illustrated Signal-Star" Receives Hearty Endorsement from all Quarters—It Fills the Bill in Every Respect.

IT IS WORTH THE MONEY, ANYHOW.

We have received the Illustrated Goderich Signal-Star, being the joint product of the two papers of that town. It is well and handsomely illustrated, and gives all the information required about Goderich and its industries. The town council contributed \$400 towards the publication.—Perth Expositor.—[We didn't get \$400, but we ought to.—Ed. Signal.]

A FINE VOLUME.

The Advocate is in receipt of a copy of the Goderich Illustrated Signal-Star. This is a late edition and chiefly written on that beautiful town of Goderich, also giving clear views of the different dwellings and business places of that town. This is a fine volume, and very interesting to all who are interested in Goderich.

ADMIRABLY FILLS THE BILL.

The Herald has received a copy of the Goderich Illustrated Signal-Star, a neatly printed paper, gotten up in book form, containing a description of that pretty town. It has been issued for the purpose of advertising the town of Goderich, and admirably fills the bill.—Guelph Herald.

LEIGH OF ENTERPRISE.

The Goderich Illustrated Signal-Star has just reached our table, and a very creditable sheet it is. It is very nicely printed and well illustrated and contains 28 pages. Goderich is to be congratulated on the spirit of enterprise which has been displayed in its midst.—St. Marys Argus.

A GOOD MOVE FOR THE TOWN.

THE POETS' CORNER

Prayer.
It is not prayer.
This clamour of our eager wants.
That fills the air
With weeping, selfish plaints.

It is true prayer.
To see the silver more than gift:
God's life to share
And love—for this our cry to lift.

It is true praise.
To simply trust His loving will.
Whichever he saith—
"Thy lot be glad" or "ill."

It is true praise.
To bless alike the bright and dark;
To sing all days
Alike with nightingales and lark.

The Romance of Adele Hugo

TRUTH MORE THRILLING THAN FICTION.

Mr Robert Motton, the stipendiary magistrate of Halifax, was for a long time a prominent lawyer in active practice in Halifax, Nova Scotia. He was chiefly distinguished as a criminal lawyer, and many stirring incidents of real life have marked his long professional career.

One morning in the year 1836 Mr Motton was seated in his law office as usual, when his clerk announced a visitor waiting to see him. On being shown in, Mr Motton observed a tall lady, apparently young and closely veiled. After the usual salutations she was invited to sit.

After a little preliminary conversation Mr Motton discovered that his interesting client had called to consult him professionally upon a matter of considerable delicacy. Halifax, as is generally known, is a garrison town—now the only garrison town in Canada.

Before proceeding with the object of her visit, it may be well to make the reader acquainted with the young lady. She gave her name as Miss Lewly, and that was the name by which she was known in Halifax.

Mademoiselle Hugo made known the object of her visit to her lawyer in something like the following statement:—While her family were living at Brussels during the exile, a wealthy English family was residing there named Pinese.

The Hugo and Pinese families became acquainted, and after a time intimately associated, and after a time intimately associated, and after a time intimately associated.

in the world, and money is never left out of the account.

The exact date of this courtship cannot now be ascertained, but it was probably about 1840. There is a strong presumption of mutual attachment.

The matter is not of great importance. It is sufficient to know that Pinese left Brussels for England, and on leaving his lady-love he promised, with every token of sincerity and honor, that she should join him in England, and that the marriage, which had been secret in Brussels, should be publicly celebrated in an English church.

When this proposition was received, it was duly discussed in the Hugo family circle. Victor Hugo would not entertain the idea. He demanded that Lieutenant Pinese should come to Brussels and marry his daughter there.

But the unhappy girl was madly in love; she belonged to that class of intense natures which are led away by passion, and she could not rest content apart from her lover.

Another of the letters is as follows:— My DEAR MRS SAUNDERS,—I am indeed exceedingly thankful to you for your kind note. Your information has been most welcome.

It will be recalled that the famous coup d'etat took place in Paris on December 2, 1851. Victor Hugo was one of the first persons proscribed by Louis Napoleon. He had persistently resisted the attempts of Bonaparte and his adherents to destroy the republic.

Her employment was writing; her handwriting was most beautiful—like copper-plate impressions. She soon had great masses of manuscript. Mr Motton mentions that she used to bring large bundles of beautifully written manuscript to his office, and offered it to him, saying:—"Publish this some time, and you will create a great sensation and make a fortune."

This writing, from day to day, in her room, with an occasional visit from Pinese during the first year or two, was the sole occupation of Adele Hugo for the three years or more that she lived in Halifax. She took no care of her room and utterly neglected her person and clothing.

sonal appearance. When she came to Mrs Saunders she had a large quantity of clothing, many silks, velvets and ball dresses, but they are described as being then somewhat faded and worn.

After this Mrs Saunders was able to obtain the true story of her lodger, and why he was in Halifax. The immediate response from Victor Hugo, in which he thanked Mrs Saunders most profusely for her kind interest in Adele, requested her to make every necessary provision for her clothing, comfort and respectability, and assured her that he would be only too happy to meet all expenditures.

concerning his subsequent life, but nothing sufficiently authentic to justify any definite statement. There seems little doubt, however, that he has since married—it is said—a lady of means.

At length the regiment embarked for Barbadoes—the station to which it was ordered. Faithful to her mission, Adele promptly followed and took up her residence in the little town where the garrison was stationed.

"Our Own Affairs."
Looking on fine faces, we admire features, color, expression. The features, these forms of brow and nose and chin, are bequests, often from far ancestors; colors, too, are in the main bequests, depending on the quality of tissue and of blood the more immediate parents give it; but expression is very largely our own affair. And, even with good features and the clearest colors, expression is "the best part of beauty." The play of thought and will and feeling on the face—of noble thoughts, firm self-control, and pure, unselfish, gentle feelings—we can ourselves secure, if so we will. Ten years of habit, three years, or only one, will affect expression much. Some one has said that "every face ought to be beautiful at forty," and another, that "no old person has a right to be ugly, because he has had all his life in which to grow beautiful." That is to say, life's opportunities of nobleness, or even forty years of opportunity, if well used, are enough to make so much beauty within that it cannot help coming through the surface in graceful habits of the nerves and muscles. The transfiguration of a pleasant smile, kindly lightings of the eyes, restful lines of self-control about the lips, pure shinnings of the face as great thoughts kindle inwardly, these things no parent makes inevitably ours, and no fitful week or two of goodness gives them, and no schooling of the visage, either, but only habitual nobleness and graciousness within; and this will give them all. Splendor from within! It is the only thing which makes the real and lasting splendor without. Trust that inevitable law of self-expression. Be, not seem! Be, to seem! Be beautiful, and you will be, and by seem so. Carry the face from within, not dress it from without. Within lies the robing-room, the sculptor's workshop. For whoever would be fairer, illumination must begin in the soul—the face catches the glow only from that side. It is the spirit's beauty that makes the best face, even for the evening's company; and spirit's beauty is the only beauty that outlasts the work and wear and pain of life.

A Confectioner's Confidence.
"I can plainly state that I can find nothing better than Hagar's Yellow Oil. I have rheumatism occasionally, and Yellow Oil does me great good. You can use my name if you wish." Yours truly, H. Dickinson, Confectioner, St Thomas, Ont.

A Girl's Opinion.
I heard a girl tell a man at an afternoon tea the other day that she always expressed her opinion on any topic that was introduced into the conversation. She liked to express an opinion, and she meant to do it; she did not care if she shocked people and made enemies; and she would rather do that than giggle and say, "I don't know" to everything and be a nonentity.

I like her for that speech. I like a woman who has the courage to express her convictions, regardless of what it may cost her, when she does not do it with the sole intention of shocking or smothering the truth. Of all insipid beings, of all detestable ninnies, the giggling girl or woman who never originates a thought or expresses an opinion—no matter how stupid it may be—is the most tiresome, aggravating creature that the nineteenth century has produced. And there are plenty of them. I have the misfortune to know several, and I avoid them as I would the plague—Saturday Review.

Never Despair.
Even when all seems lost, there is yet hope. Many a despairing, disheartened victim of dyspepsia, liver complaint, kidney complaint, scrofula or rheumatism, has been brought back to health and usefulness by Burdock Blood Bitters, the greatest remedy known for all blood diseases.

The Little Lane One.
I sometimes think that if an angel were to wing its way to heaven and tell them that there was one little child here on earth—it might be one of those shoeless, coatless ones you call a street arab—with no one to lead it to the cross of Christ, and if God were to call the angels and his throne and ask them to go and spend 50 years in teaching that child, there would not be an angel in heaven but would respond gladly to the appeal. We should see even Gabriel saying, "Let me go and win that soul to Christ." We should see Paul buckling on his old armor again, and saying, "Let me go back again to earth that I may have the joy of leading that little one to his Saviour." Ah! we need rousing; there is too much apathy among professing Christians. Let us pray God that he may send his Holy Spirit to inspire us with fresh energy and zeal to do his work.—D. L. Moody.

To the Medical Profession, and all whom it may concern.
Phosphate, or Nerve Food, a Phosphate Element based upon Scientific Facts, Formulated by Professor Austin, M. D. of Boston, Mass., cures Pulmonary Consumption, Sick Headache, Nervous Attacks, Vertigo and Neuralgia and all wasting diseases of the human system. Phosphate is not a Medicine, but a Nutrient, because it contains no Vegetable or Mineral Poisons, Opium, Narcotics, and no Stimulants, but simply the Phosphate and Gartic Elements found in our daily food. A single bottle is sufficient to convince. All Druggists sell it. \$1.00 per bottle. Low's & Co., sole agents for the Dominion, 55 Front Street East Toronto.

Life's golden Sunset.
Speaking of herself, Harriet Beecher Stowe recently said: "My life seems like a dream. My work is done and I am enjoying the luxury of perfect rest and freedom. I can't remember what I read nowadays. My mind is a blank. But I am roused into love, I love everybody, even the dirtiest beggar upon the street." What a sweet, golden sunset to a life of good deeds!

That which lays a man open to an enemy, and that which strips him of a friend, equally attacks him in all those interests that are capable of being weakened by the one and supported by the other.

Many Thanks.
"My age is 58 and for 20 years I have suffered from kidney complaint, rheumatism and lame back and would have been a dead woman if it had not been for Burdock Blood Bitters, of which two bottles restored me to health and strength." Miss Maggie Hendaby, Half Island Cove, N. S.

THE FASHIONS.

A Variety of Settings that Will Interest the Fair Sex.
It is in good form to have small and dressy little wraps made of the gown fabric wholly or in part, with tailor costumes for the promenade. These are applied mostly to morning wear and for the country and summer resorts. They take many different forms, embracing the Directoire cape, the plain coat, the mantle shape with front tabs, the pointed fichu, and are, in fact, in any shape that takes the fancy. The form or shape called the empire pelisse is a favorite. This has a short, straight back that barely passes the waist, and long paneled or ruffled scarf ends that nearly cover the front of the skirt. A vast number of openwork fabrics are also made into promenade wraps, some of them being much larger than the pelisse and cut mostly in the "visite" shape, with "caped" sleeves and "tabbed" fronts. So acceptable is this style of wrap that it may almost be said to be becoming a standard garment of wraps. It obviates the costly custom of furnishing each separate costume with one, and if made in black, which is now the most fashionable color for them, they answer for accompaniment to a variety of dresses. There is really no end to the list of abbreviated pelisses, French capes, directoire coats, and fancy short wraps, with tabbed or peplum finish. Then there are the long lace wraps spoken of earlier, besides a new style of semi-dolman shape that has lost its bunched effect, and no longer seems to bind the arms uncomfortably. There are also short wraps made of Armaure silk in black, and colors matching in the gown, and very costly ones are imported in heavy corded colored silk, brocaded in superb Persian patterns, and decorated with "jeweled" passementerie or lace. For genuine hot weather there are charming little short coats of black or white lace suitable for evening fetes, and fancy short wraps, with tabbed fronts, and long meshed granades in lattice or pattern of silk and velvet, with bands and fringes to correspond. Besides the lace conemarras, those of suitable material for warm weather travelling come in black and colors, and make comfortable and protected wraps. Women who give close attention to the details of a toilette find a suitable travelling cloak that can be easily put on and off indispensable at all seasons of the year.

Paris models in short wraps come in some of the palest tan-colored cloths, whether in jacket or pelisse form, and with no trimming but a double stitching round the edges; they are made to open over a gorgeous waist-coat of gold cloth to which apply the embroidery in done ecru cloth. Pingatons pean de soie or twilled saras for vests of light tan cloth jackets, using lavender silk with "livery tan" and cording all over the silk with gold and silver cord.

Lace is used in every available place. A double row of chantilly frouncing about six inches in width is sewed together at the straight edge, and shirred to the top-down velvet or satin collar that can be worn with any house costume. The lace is then knotted at the throat, gathered in at the belt with a fancy buckle, and the ends left to flow over the skirt to almost its whole length.

The gray shades in expensive materials are beautiful this season, and in many cases these various tints take precedence of all other colors, and their varying tones are more refined and artistic than ever before. There are also to be seen in the newest fabrics lovely tints of vieux rose, mauve pink, strawberry and green that are indescribably beautiful. The latter especially, in tones that are neither garish nor aggressive, appear in tenderest half-tones as if a bit of gray, or gold, or silver had been rubbed into the faintest of emerald dyes.

Some very beautiful effects are being affected in French models for tailor cloth or French camel's hair that are excessively stylish where dove-grays are combined with white armure or moire silk, braided over in silver. Or some have the cloth delicately mingled with the armure of the same tint, that is ornamented with fine cut steel embroideries, or gray silk cord flocked with silver threads.

A reeds cloth redingote, bordered with gold braid, is made up over a tan cloth skirt, with the lower sleeves of the tan color, also the plastron; while the waist has thickly corded ribbons in gray green, crossed a l'Empire, and hanging next to the floor at the left of the front. The tan skirt is full and plain, with two rows of gold braid at a border.

The sleeves are of the reeds from the shoulders to the elbow. They are full enough to push up in irregular folds, and below the elbow they shape into points which are edged with the braid. These points reach over tightly fitted second sleeves of tan cloth, which come down closely over the wrists. This and similar picturesque dresses for afternoon uses are to be worn with the projecting Empire hats of tan colored Milan braid, faced with green velvet and trimmed with long sprays of green foliage and pale tea-roses. Rosset-red cloths and red small-hair in various shades are shown—these designed for the summer resorts, with vests made of white cloth, wrought in vermilion devices in gold eork, with folds on the skirt and bedec of cream white Bengalis. The dinner and evening toilets are charmingly varied.

The very lovely old rose shades are brought out very attractively in some of the handsome cotton fabrics—lawns, muslins, satens, etc.—and the patterns we formerly saw in woolen textiles only are here repeated so that one is puzzled frequently, at a short distance, to know what is the exact nature of the material. The tints and patterns of some of the new Watteau satens are very beautiful. They are superior to many of the foulard silks of cheaper grades, which, while striving to imitate, have contrived to surpass. In their first freshness French

satens look equal to silk, but satens, however superior in quality, do not endure wear like foulard silks. These latter are the coolest materials, as they are also the lightest in weight, and stand a wonderful amount of wear. It is well in making up lace overdresses to keep them distinct or unattached to the silk beneath, at least in the skirt portion, as this offers the convenience of adapting the lace to other silk under dresses.

Wesley's Men of a Methodist.
A Methodist is one who loves the Lord his God with all his heart, with all his soul, with all his mind, and with all his strength. God is the joy of his heart and the desire of his soul, which is continually crying: "Whom have I in heaven but thee? and there is none upon earth whom I desire besides thee." My God and my all! "Thou art the strength of my heart, and my portion forever." He is therefore, happy in God; yes, always happy, as having in him a well of water springing up into everlasting life, and overflowing his soul with peace and joy. Perfect love having now cast out fear, he rejoices evermore. Yes, his joy is full, and all his bones cry out: "Blessed be God and Father of our Lord Jesus Christ, who, according to his abundant mercy, hath begotten me again unto a living hope of an inheritance incorruptible and undefiled, reserved in heaven for me."

Chronic Coughs and colds
And all diseases of the throat and lungs can be cured by the use of Scott's Emulsion, as it contains the healing virtues of Cod Liver Oil and Hypophosphites in their fullest form. See what W. S. Meier, M. D., L. R. C. P., etc., Truro, N. S. says: "After three years' experience I consider Scott's Emulsion one of the very best in the market. Very excellent in throat affections." Sold by all druggists, 50c and \$1.00.

Making Out a Prima Facie Case.
Here is a yarn about the incorrigible small boy which I heard yesterday. An Albany woman was telling a Binghamton woman, who was visiting in this city, of the rapidity with which rents were shooting skyward in Albany. The Binghamton woman, after listening awhile, began to tell of the Binghamton rents. Then her small son interrupted her, just as she had finished telling what she had paid per month in Binghamton, by remarking: "Why, then, wasn't it for a month, mamma, that was for a day." Both the women laughed at the boy's idea, but the little fellow kept right on and paralyzed his mother by adding: "It must have been for a day, any way, because the man used to come every day for the rent." Report says that the Binghamton woman collapsed.—Albany Express.

A Chicago man has invented a spring gong, to be attached to an umbrella or cane, so arranged that if any unauthorized person picks up the article so guarded the bell rings with a whir that is loud like gongs in larger quantity. I think it is worth the attention of every one within a block.

KENDALL'S SPAVIN CURE.
The Most Successful Remedy ever discovered, as it is certain in its effects and does not blister. Read below.
OFFICE OF CHARLES A. SYDNER, BREWSTER OF CHARLES A. SYDNER, CLEVELAND DAY AND THOMAS BIRD HORSES, ELWOOD, ILL., Nov. 23, 1888.

KENDALL'S SPAVIN CURE.
Dear Sir: I desire to give you testimonial of my good opinion of your Kendall's Spavin Cure. I have used it for lameness, stiff joints and spavins, and have found it a sure cure. I cordially recommend it to all horsemen.
Yours truly, CHAS. A. SYDNER, Manager Troy Laundry Station.

KENDALL'S SPAVIN CURE.
Dear Sir: I desire to say what I have done with your Kendall's Spavin Cure. I have cured my horse of a spavin, and I have cured my wife of a spavin, and I have cured my seven of a spavin. Since I have had one of your books and followed the directions, I have never lost a case of any kind.
Yours truly, ANDREW TURNER, Horse Doctor.

KENDALL'S SPAVIN CURE.

THE "WIRT" FOUNTAIN PEN.

EVERY PEN GUARANTEED.
Writes Thin and Thick Letters, as with a quill nib.
CAN USE ANY WRITING INK.
We have no hesitation in saying the "Wirt" is the most reliable Fountain Pen in the world. This may be seen by the fact that it is made of the finest materials, and its mechanism is so simple that it can be made by any one who can use a pen. It is the most easily freed from any sediment or corroding substance that any pen ever had. When not in use, it is the most convenient to carry in the pocket.
No paper spoiled by blotting. No time wasted dipping into an ink bottle.
Always ready for use. Always reliable. Always a source of pleasure to the owner in the "Wirt" Fountain Pen. Business men, professional men, clergymen, students, teachers, book keepers, in fact, everybody who does writing at all ought to have a "Wirt" Pen.
The large number of these Pens which have been sold in Goderich and vicinity, some of which have been in constant use for years, fully testify to their durability and efficiency.
Each Pen is enclosed in a neat case, and is accompanied by full directions for filling, cleaning and using, also glass and rubber bulb injector for filling the Pen.
Price, \$3.00 and upwards.

COUNTY COUNCIL.

Some of the Work of the June Session.

Abandoning the December Meeting—The House of Refuge Question—Lengthy Report from the Special Committee.

The Council was called to order at 3 p. m. on Tuesday last, a good majority of the members being present.

The Warden addressed the Council stating that the petitions for amendments to the Municipal and Assessment Acts had been forwarded to the Legislature; that the alterations ordered in the petty jury room had been carried out; and recommended an amendment as to the date of enforcing the by-law fixing the width of road of alley-runners.

The report of the County auditors was read and referred to the Finance Committee. The following report of Jailer Dickson was read and referred to Jail and Court House Committee:

REPORT OF JAILER DICKSON.

GENTLEMEN.—Herewith I beg to submit for your consideration my report of prisoners confined in your County Jail. There are at present 77 prisoners—52 males and 25 females; one of the females is insane, her case has been duly reported on and she is now waiting removal to the asylum. The other, Mary Brady, was committed for six months by Mayor Butler. She comes from the township of McKillop, is 57 years of age, weak minded, and has no friends that we know of. Of the males, Robert Fletcher, of the township of Howick, is committed as a vagrant; he is about 90 years of age, weak and feeble in body and mind. He has been in jail ever since the 25th of June, 1886, and his present sentence expires on the 25th of this month, when he will have to be recommitted, and so on until death claims him. Another of the males is under sentence for larceny. The remaining three are insane, have been reported on and are waiting removal to the asylum. Two of them, William Kelly and Charles Linington, are females; one of the third, Frederick Hunnicker, is exceedingly destructive in his habits. We have to watch him as closely as we possibly can, in order to keep him clothed, but with all our vigilance he destroys both the bedding and his clothes. I was under the necessity of getting clothes for the same Brady when she went out on the 5th of May last, but she was out only four days when she was again brought back and committed for six months. I also had to get a pair of pants for Thomas Clarke, a bill for which will be presented to you duly certified.

WM. DICKSON, Jailer.

An application from Sheriff Gibbons for a telephone for his office to the jail was read and referred to Finance Committee.

The report of Mr. Malloch, I. P. S. for East Huron, was read and referred to School Committee. An appeal from the trustees of S. S. No. 19 of Uxbridge, to the County Council, against the action of the township council, was referred to School Committee.

A circular from the Provincial Association of Public and High School Trustees, was referred to School Committee. A number of accounts were read and referred to Finance Committee. A motion to grant the East Huron Farmers Institute the sum of \$25, they having held the usual number of meetings, was referred to Finance Committee. Council then adjourned until 10 a. m. Wednesday.

SECOND DAY—WEDNESDAY.

Council resumed at 10 a. m., the Warden in the chair. A communication from the Canada Company, in reference to the description of lot 35, Maitland road, in original conveyance, was referred to Road and Bridge Committee.

A communication from the Wingham Board of Health, asking the Council to bear a share of the expense of removing the jam of timber in the Maitland river, was referred to the Special Committee. The following report of Road Commissioner Ansel was referred to Road and Bridge Committee:

REPORT OF BRIDGE COMMISSIONER.

GENTLEMEN.—I beg to submit to you this my second report for the year 1889.

(1) All the bridges which you gave orders to build at the January meeting have been duly placed under contract, except that over the Sauble river on the boundary line between the township of Uxbridge and Howick. The contract for the Wingham north bridge was let to Robert Jamieson, of Fordwich, for the price or sum of \$893. The contract for the Rogerville bridge was awarded to John Forester, of Wingham, at the price of \$119. The Zealand Creek bridge was awarded to John Forester for \$86. The contract to erect the Henfrey bridge was awarded to Robert Jamieson, of Fordwich, for the sum of \$393. The county of Perth is to pay half the cost of this bridge. All the above mentioned bridges are to be completed at an early date. The contract to furnish the plank to refloor the Maitland bridge was awarded to Benjamin Taylor, of East Wawanosh, at the price of \$14.50 per thousand, to be delivered and piled at the bridge as directed. From the 1st of January, 1889, to this date, I have issued the following orders for the amounts and purposes mentioned as follows:—(1) Jan. 14th, Wm. Vanstone, for repairing south abutment of Benmiller bridge, \$6; (2) Jan. 23rd, Cap. Paisley, for repairing Copeland's bridge and the approaches to the Kirkpatrick bridge, \$3.70; (3) Jan. 23rd, Ralph Forester, for repairs to the Creditor's bridge, \$2; (4) Jan. 23rd, Corporation of Ashfield, for repairs to approaches to county bridges, \$17.98; (5) Jan. 24th, Geo. Hawkins, for repairs to the approaches to Port Albert bridge, \$3; (6) Jan. 24th, Wm. Lasham, for repairing the floor of the Maitland bridge, \$7.66; (7) March 12th, Samuel Stanlake, for lumber for bridge floor, \$3.29; (8) May 13th, Arthur Forbes, for travelling the approaches to Grievie's bridge and repairing fences, \$19. I was requested by the commissioner of the county of Perth to meet the reeve of Fullarton and himself at a bridge on the

county boundary line about a mile north-east of Kirkton, on the 30th of May. I was at the place appointed on time in company with reeves Kay and Bissett, but owing to the very unfavorable state of the weather the parties from Perth could not meet us. However, we found the bridge a very old wooden structure and it appears about time it was rebuilt. By request of Mr. V. Ratz, reeve of Stephen township, I met Mr. John H. Jones, engineer for the county of Lambton, at the Grand Bend, on Friday, 31st May. We examined the bridge at that place and found the chords considerably decayed. It will require some attention as soon as possible. We considered by putting two strong bents to support the chords the bridge may stand two or three years longer. Some improvements which I think should be attended to this summer are the following:—A stone wingwall to Edmondville bridge, and the stone-work of the Maitland, Manchester and Clinton bridges to be repaired by filling the cracks and joints with cement. The probable cost of the vault for the registry office will be about \$1500. There will likely be about the usual amount required for small repairs. The amount of money likely to be required for the year 1889 for bridges and approaches and repairs to the county buildings, including the vault will, I estimate, exceed \$6,000. All which is respectfully submitted.

JOHN ANSLEY, Co. Commissioner, County of Huron.

Wingham, 4th June, 1889.

A circular from the Mayor of Ottawa, in reference to amendments to the Municipal and Assessment Acts, was referred to Special Committee.

On motion of Messrs. Kelly and Jacques, the Council decided by a majority of 19 to dispense with the December session this year.

It was decided that in the event of any appeal from the equalizing of the assessment rolls, the final adjustments be left with the County Judge.

Moved by Mr. Mooney, seconded by Mr. Thomson, that Kate Miskiming, Lizzie Miskiming and Mary Hays, all of the township of Morris, certified by Dr. Holmes to be insane and destitute persons, be supported at the expense of the County. Referred to Finance Committee.

The following statement of the County Treasurer was read and referred to Finance Committee:

STATEMENT OF COUNTY TREASURER.

GENTLEMEN.—I submit herewith statement of collections from non-resident lands between Jan. 1st and April 30, also statement of cash on hand and available to meet current expenditure. I take pleasure in informing you that the sinking funds are now all satisfactorily invested, \$14,250 having been loaned on first mortgages at six per cent since January 1st. These mortgages will be laid before your Finance Committee. It will be necessary to grant to your warden and treasurer the usual power to borrow \$20,000 to meet current expenditure until the taxes are paid.

COLLECTIONS FROM NON-RESIDENT LANDS FROM JAN. 1 TO APRIL 30, 1889:

Table with columns for Name, Amount, and Total. Includes entries for Ashfield, Goderich, Grey, Hay, Hullett, Morris, McKillop, Stanley, etc.

STATEMENT OF CASH ON HAND AND AVAILABLE TO MEET CURRENT EXPENDITURE:

Table with columns for Cash in Bank, Co. Rate due 31st, Less balance to credit Sinking Funds, Due Municipalities for taxes, etc.

COUNCIL THEN ADJOURNED TO MEET AT 4 P. M.

4 O'CLOCK, WEDNESDAY.

Council resumed, Warden in the chair. The following report of the Special Committee on the poor house question was read and laid on the table:

COMMITTEE: Messrs. Kelly, Manning, Proudfoot, Rollins, Wilson, Kaine, and the Warden.

In accordance with the instructions contained in the resolution of this council at its January session, your special committee have endeavored to obtain all the information possible relating to the cost of land, buildings and maintenance of the various institutions called Houses of Refuge, for the care of the poor, in the province, and other information of a kindred nature. A sub-committee, consisting of Messrs. Proudfoot and Manning, has collected the statistics which we hereby submit, and which will be found of great importance in considering this subject.

Your committee have aimed at giving to the council the very fullest information concerning this important matter, and the information has been obtained without reference to the hearings of the members of your committee. The sub-committee thought its first duty was to obtain a correct account of the amount spent by the various municipalities of the county under the head of "Charity."

This allows a comparison—though an imperfect one—to be made between the cost of keeping the poor in our own county and the cost in a county having a House of Refuge. The returns under this head embrace the years 1887 and 1888, and are as follows:—

Amount spent by the various municipalities of the county of Huron on charity in 1887 and 1888:

Table with columns for Municipality, 1887, 1888, and Total. Includes entries for Ashfield, Bayfield, Blyth, Brussels, Clinton, Colborne, Elgin, Goderich, Goderich Township, Hullett, Howick, Hullett, McKillop, Seaforth, Stanley, Tuckersmith, Turberville, Uxbridge, East Wawanosh, West Wawanosh, Wingham, Wroxeter, etc.

Including averages for municipalities not reporting, \$4,665 or \$5,310 per

It will thus be seen that directly out of the local municipal exchequers has been paid the sum of \$9,984 in two years. To these sums must be added the sums of \$244.16 and \$485, respectively annually about \$730, estimated by the County Treasurer as spent by the county for the same purposes as the local grants in the same years, and these two make a grand total of no less than \$10,751, or \$5,375 per annum.

Every member of the County Council is aware that these sums do not in any way represent the full amount of the charity bestowed by this county. Private charity by individuals, churches, and societies, is largely given to the very same parties that receive municipal aid.

Another large item of expense to the county is in connection with the running of the goal. The manner in which this expense is paid is as follows: The Government pays for all prisoners who are charged with indictable offences, and the county pays for all others. The last quarter the Government was charged with 119 days and the county with 1513 days. Of this 1513 days, 1433 days is chargeable to the maintenance of indigent. In consequence of this the county had to pay \$642, against \$46.37 paid by the Government, or about 14-1/2 times as much as the Government has been no indigents confined the Government would have had to pay nearly two-thirds, and the county something over one-third. In this way the cost to the county was for indigents alone over \$400 for the quarter. This quarter is not above the average, so that the total of the whole expense, if there had been no indigents confined the Government would have had to pay nearly two-thirds, and the county something over one-third. In this way the cost to the county was for indigents alone over \$400 for the quarter. This quarter is not above the average, so that the total of the whole expense, if there had been no indigents confined the Government would have had to pay nearly two-thirds, and the county something over one-third.

The question naturally arises—how much of this large sum would be saved to the local municipalities by the erection of a House of Refuge? From information in the hands of your Committee in this session, and of whose report we are aware, that only a very small amount of the charity went to indigents would necessarily remain. It is not pretended that there would be no amount to be spent by the local municipalities for charitable purposes, but it is established beyond all question in the counties where Houses of Refuge have been erected, that adding the items for charity and increased county grant for House of Refuge, together, the result is a less sum by a considerable amount than the sum previously spent for like purposes. The special committee appointed by the county council of Ontario to report on this same subject at its January session, and of whose report we have been favored with a copy, on this point report as follows: "The erection of Houses of Refuge appears to have obviated, except in the smallest degree, grants to indigents by the minor municipalities."

The various Houses of Refuge in the Province are as follows: County of Elgin—Township of Southwood, 3 miles west of St. Thomas. County of Waterloo—Berlin. County of York—Near Newmarket. County of Lincoln—Township of Grantham, a little over half a mile from St. Catharines. County of Middlesex—Township of Adelaide, near Stratford. County of Norfolk—Gore of Woodhouse. County of Wellington—Township of Nichol, midway between the villages of Fergus and Elnora.

County of Welland—Township of Thorold.

County of Brant—Township of Brantford.

The total acreage, the acreage under cultivation, and the cost of land and buildings, is as follows:—

Table with columns for County, No. of Acres, Average Cost of Land and Buildings, and Total Cost. Includes entries for Elgin, Middlesex, Norfolk, Welland, Brant, York, Wellington, and Waterloo.

It will thus be seen that the average cost of these institutions is the sum of \$16,670.66, but the present feeling of all concerned is that large farms are a mistake. The weight of evidence goes to show that 40 or 50 acres are better than 100 or over. In many cases the buildings are much more expensive than need be, and the officials recommend cheaper and plainer ones. The smaller institutions, such as would be ample for the county of Huron, do not average in cost over \$12,000. The Ontario county committee agree with us that smaller buildings and buildings could meet every want, and save a large and unnecessary expense.

Your committee would next call attention to the number of inmates, and the cost per head, of these institutions:—

Table with columns for County, Male, Female, Total, and Cost per head. Includes entries for Elgin, Waterloo, York, Middlesex, Norfolk, Wellington, and Welland.

The average cost of each inmate in these Houses of Refuge was the sum of about \$55. We have also ascertained that the average cost of maintenance, including salaries, food and clothing, of each inmate in five of the institutions during 1888 per week was as follows:—

Table with columns for County, Average Cost per Week. Includes entries for Elgin, Waterloo, York, Middlesex, Norfolk, Wellington, and Welland.

These institutions, however, yielded certain revenues which materially decrease the expenditure. These revenues are derived from the products of the farm and the labor of the inmates:—

Table with columns for County, From Farm, From All other sources, Total. Includes entries for Elgin, Waterloo, York, Middlesex, Norfolk, Wellington, and Welland.

A tabulated statement showing amount of salaries and all other charges of maintenance, less the revenue in each case, and the yearly cost of each institution gives the following result:—

Table with columns for County, Salaries and other charges, Revenue, and Net Cost. Includes entries for Elgin, Waterloo, York, Middlesex, Norfolk, Wellington, and Welland.

Total yearly expenses on building... Total yearly expenses on building... Total yearly expenses on building...

Less annual surplus for revenue, say... Less annual surplus for revenue, say... Less annual surplus for revenue, say...

Balance... Balance... Balance... Balance...

It will thus be seen that in the matter of municipal grants alone the amount expended would be less. If to these grants be added a proportion of the amounts spent privately, as undoubtedly should be done, then a very much larger saving can be shown. It must also be borne in mind that the present system is very unsatisfactory and insufficient. Under it one municipality frequently must care for the poor of another, but with a House of Refuge the burden would be equitably borne. At present many deserving poor really suffer rather than go to goal, which might be their fate if they applied for aid.

We take the liberty of calling your attention to the following extracts from the report already referred to of the Special Committee of Ontario County. The Warden personally visited the Houses referred to, and he states that though he has always opposed the building of a House of Refuge, this trip has made a thorough convert of him. In describing the different places visited they say:—

COUNTY OF ELGIN.

The House of Refuge of the County of Elgin is situated about 3 miles from St. Thomas. The farm contains 50 acres of land, nearly all under cultivation. The products of the farm are hay, corn, oats, potatoes, and other vegetables for the stock and inmates, little or nothing being sold, all being consumed on the premises. The building is a fine two-story, structure and basement of white brick, with accommodation for about 60 persons. This being insufficient, small frame cottages have been erected, and others are to be built this year. About 100 persons were lodged for a longer or shorter time during the year 1888, a portion of this number being under 90 days. The cost of the property was:—

Table with columns for Item, Cost. Includes entries for Farm, Main building, Cottages, Out-buildings, and Drainage, fencing and orchard.

The officials in connection with it are a physician, salary \$50 per annum; a physician, \$200; a keeper, \$350; a matron, \$200; an assistant matron, \$120. The last three live in the institution. Nearly all the work on the farm and in the house with this exception is done by the inmates. No less than 21 of the inmates were imbecile, idiotic or insane, and 7 blind. The average cost of maintenance, including salaries, food and clothing, of each inmate during 1888 was \$10.7 per week, which is a little higher than the average during the previous years.

COUNTY OF MIDDLESEX.

The House of Refuge for the County of Middlesex is situated nearly two miles west of the town of Stratford. It was erected in 1879. It is intended for the accommodation of 154 inmates, although at the time of the visit about 100 were in it. The city of London formerly sent a number of inmates to it, but they have now been withdrawn, the city having accommodation at home. The farm contains about 45 acres of land, the produce of which is consumed by the inmates. The cost of the land was \$3,300, and the present time is \$28,320. The total number of persons sheltered last year for a more or less time was 127. The house is heated by steam, and in addition to the usual officials an engineer is kept to manage the heating and pumping apparatus, at a salary of \$400 per annum. The total salaries paid are \$1,536 per annum, as little other labor is paid for, and no assistant to the matron is employed, the whole work being done by the inmates. The annual cost of maintenance in this institution, including the salaries, is \$1.05 per week for each inmate.

COUNTY OF WATERLOO.

The House of Refuge of the County of Waterloo is situated near Berlin, and is the oldest institution in the province, having been opened in 1869. The farm originally consisted of 141 acres, of which 16 have recently been sold for town lots. The building is a large brick structure, capable of containing about 125 persons, the average number of inmates being 85. The cost of the land originally was \$9,024, the building, stables and out-houses \$15,088 up to the present day, making a total cost of less than \$25,000. The officials employed are:—Inspector, salary of \$100; physician, \$200; keeper, \$150; matron, \$100; teamster, \$180; assistant keeper, \$180; two female servants, \$180 each; total, \$1,550. The cost of maintenance of each person is a fraction over 95c per week. In addition to the produce consumed on the premises, strawberries and other fruit are raised and sold in the town of Berlin.

COUNTY OF WELLINGTON.

The House of Refuge of the County of Wellington is situated near Fergus, and was established in 1878. The farm is about 58 acres in extent. The building was originally intended to accommodate 65 persons, but additions have been recently made increasing its capacity during the year. The average number of in-

J. A. REID & BRO.

Jordan's Block, Goderich, May 24th, 1889.

From the information before your Committee we are of opinion that a House of Refuge provided for 150 inmates, with an average of 100 per annum in keeping, the first cost of which was \$12,000, would cost the County of Huron yearly about as follows:—

Interest on \$12,000, at 5 per cent, \$ 600.00 100 inmates at \$5, this item including salaries, maintenance, etc., 5,500.00 Less annual surplus for revenue, say 1,000.00 Balance, \$ 5,100.00

It will thus be seen that in the matter of municipal grants alone the amount expended would be less. If to these grants be added a proportion of the amounts spent privately, as undoubtedly should be done, then a very much larger saving can be shown. It must also be borne in mind that the present system is very unsatisfactory and insufficient. Under it one municipality frequently must care for the poor of another, but with a House of Refuge the burden would be equitably borne. At present many deserving poor really suffer rather than go to goal, which might be their fate if they applied for aid.

We take the liberty of calling your attention to the following extracts from the report already referred to of the Special Committee of Ontario County. The Warden personally visited the Houses referred to, and he states that though he has always opposed the building of a House of Refuge, this trip has made a thorough convert of him. In describing the different places visited they say:—

COUNTY OF YORK.

The one at Newmarket is 105 feet long by 40 broad, and originally cost about \$17,200, and there has been added by way of outbuildings and otherwise \$8,862, making a total of \$26,062. It was built with the intention of accommodating 100 inmates, but they have had there at one time as many as 129. Those in charge of the institution strongly recommend a small farm, of say about 50 acres, as being much better than a large one, and much more profitable in the management. They also think that cheaper and plainer buildings might be used, and thus save a large and unnecessary expense. They have 51 1/2 acres, which cost \$4,500. The inmates do all the labor on the farm, and attend to all the work. They raise principally garden stuff, such as celery, cabbage, tomatoes, strawberries, potatoes, and other vegetables, for sale. They also have three horses and five milk cows, and use the milk on the place, and no butter made. They also raise and dispose of each year a number of fat hogs. The officers consist of a keeper, salary \$300; an inspector, \$100; physician, \$175; matron, \$200; two domestics at \$108 and \$90 a year. The average expense per week last year for each inmate, exclusive of interest on capital account, including salaries, was \$1.17. Total expense, including 5 per cent interest on capital account, per week for each inmate, \$1.35.

GENERAL.

Houses have been established in the counties of Elgin, Waterloo, York, Middlesex, Norfolk, Wellington and Welland. According to the returns sent to the Ontario Government, these Houses contain 779 inmates. Of this number 420 were over 60 years of age, and 122 children under 15 years of age. The number is made up of persons helpless through disease, accident or mental infirmity. It will thus be seen that the very large proportion of the inmates are through age unable to care for themselves, and barefoot as they nearly always are of persons able to care for them without the presence of a home staff, suffer severely even when granted the municipal and charitable assistance commonly given.

The conclusions drawn by the Committee from their investigations are:— 1. That, so far as could be ascertained, the people of these counties were satisfied with the result of the operation of these Houses of Industry, and that the opposition at the time of their erection had now died out, notwithstanding the fact that in one or two cases the annual cost of maintenance had exceeded the too low estimate of the promoters to a very considerable extent.

2. That their erection appears to have obviated, except in the smallest degree, grants to indigents by the smaller municipalities; had materially lessened the number of tramps and vagabonds; and had provided a comfortable home for the helpless, who otherwise would have been severely, even under the best means available to minor municipalities.

3. That from the information furnished by your Committee, the erection of a House of Industry would appear to be an act of economy as well as one of humanity. From the report of your Committee furnished at the January session, the amount granted to indigents in 1887 was \$5,864. This is but a portion of the cost, as it is well known that grants are largely supplemented by private contributions. The annual cost of maintaining an inmate in a House of Industry would be set down at \$55. This County would probably supply 125 inmates, and the annual cost would be \$6,875, or an excess of \$1,000 above that now paid by the municipalities, but this sum is certainly less than that which the insufficient aid given by the municipalities compels the charitable to contribute to the support of the indigent of the County.

4. That respecting the extent of farm required, the opinions of the officials materially differ. In nearly every instance the keepers of these Houses visited were in favor of large farms, while the inspectors believed fifty acres ample. The extent desired depended upon the character of the keeper. When he proved to be an energetic farmer he desired a large acreage, and wished to establish something like a model farm in connection with the House of Industry. In most cases able city employ all the inmates able to work, and above that extent help must be employed. The weight of opinion appears to be that 50 acres is sufficient.

Your Committee, before closing their Report, would respectfully call your attention to the repeated recommendations made by the various Grand Juries and Judges in past years. It is well known that these Grand Juries were composed of men representing all sections of the

County, and their representations are certainly worthy of the most careful consideration. These Grand Juries have repeatedly urged the erection of a House of Refuge and their recommendations have been strongly backed up by the addresses of the presiding Judges. They also refer in the strongest language to the fact that the large and wealthy County of Huron virtually place their unfortunate poor on a level with those guilty of crime.

Respectfully submitted, P. KELLY, Chairman.

A communication from Mr. Tully, architect of public works, in reference to the registry office, was referred to Finance Committee.

The report of the Equalization Committee was read and laid on the table. Moved by Mr. Eilber, seconded by Mr. Kaine, that the clerk procure the opinion of the county solicitor if this Council has the power to equalize the respective municipalities this year for personal property, in view of the Act 51 Vic., Chap. 29.

Moved by Mr. Eilber, seconded by Mr. Kelly, that the clerk ascertain from the treasurer of this county if Dr. Williams, Police Magistrate, has paid the said treasurer the sum of \$100, being the amount for a note reported by said Dr. Williams to said treasurer on 15th Nov. 1887, for Scott Act fine; and in the event of such sum not being paid, the clerk instruct the county solicitor to take such legal action as to him seems advisable against the said Dr. Williams. Police Magistrate, to recover said sum of \$100. Carried.

Moved by Mr. Wilson, seconded by Mr. Kaine, that the warden and clerk memorialize the Legislature of Ontario, to enact such legislation as will compel all sleighs to be so constructed that the runners will be of a uniform width of three feet nine inches apart from each side to the bottom, and that at a specified time all sleighs at present in use shall be so changed as to make them conform to the before mentioned width; further, that the clerk shall correspond with the clerks of each of the counties of this Province asking co-operation towards securing this legislation. Carried.

A motion by Messrs. Wilson and Kaine to repeal the by-law passed at last session relative to sleigh runners, was laid on the table. Council then adjourned to 10 a. m. Thursday.

REPORT OF THE EQUALIZATION COMMITTEE.

Your committee beg to state that in view of the fact that next year the equalization of this and other counties will have to be done extensively and de novo, and a different basis of equalization for future years, your committee deem it inadvisable to make changes this year. Your committee therefore recommend that the schedule attached be the equalized values of the municipalities for the current year. All of which is respectfully submitted.

Our recent heavy frost has been very favorable to the crop before the number of our Queens Birthday sport a very good lot. Our cheese maker, being a rushing business, is making from twelve or more.

Mr. Alex. McDiarmid, in connection with the erection of his farm this summer, Mr. and Mrs. Joseph very narrow escape from horse taking fire turning from Goderich through out of the road serious injury to their property.

On Monday last, when Mrs. Joo opened to Mrs. Joo, and while visiting the Lochsah, with the house being a rushing business, a room door and firing her spine, in a condition, I had her, and hope her recovery.

SPECIAL SALE

--PARASOLS--

Jno. Acheson.

Owing to an overstock of Parasols, we have decided to have a **Clearing Sale for ONE WEEK,** and will offer our entire stock of these goods at **GREATLY REDUCED PRICES.**

Now is the time to secure a Parasol, **At the Right Season, at the Right Price.**

JOHN ACHESON.

A MIS-FIT MOUTH

like this young man's may not be a thing of beauty, but it gets there just the same when it comes to kisses or cake; but take notice that the gash in his face can't compare with **OUR GREAT CUT IN PRICES.** We believe in turning over our invested capital as often as possible, and make quick returns recompense us for small profits. We begin right at the start. We mark things low, and the style and quality of the Goods do the rest of the selling. The great rush for Dress Goods still continues, but still we have lots of Goods left, all New Goods, all Fashionable Goods, at **PRICES SO LOW** as will astonish you. We do not say we sell for less than cost; if we did you would not believe us. We must live and therefore we must have a profit, but our profits are small. Call and see for yourself. Seeing is believing.

ACHESON & CO'S.

(Late Acheson & Cox)

SHEPPARTON.
 From our own correspondent.
 The following are the names of the first three pupils in each class in S. S. No. 11, Ashfield, for the month of May: 3rd class sr., 1st Lillie Green; 2nd, Christina Gordon; 3rd, James Maw. 3rd class jr., 1st, May Maw; 2nd, Lietta Cunningham; 3rd, Mary Cunningham. 2nd class, 1st, Mabel Hawkins; 2nd, David Brindley, 3rd, Jennie Johnston. Part 2nd, 1st, Herbert Foster; 2nd, William Brindley; 3rd, Emma Cuibert. 1st class sr., 1st, Alex. Gordon; 2nd, Annie Vroman; 3rd, John Brindley. 1st class jr., 1st, Wm. Hawkins; 2nd, Harry Maw, 3rd, Jennie Young.

Why They Lead.
 Dr Pierce's medicines outsell all others, because of their possessing such superior curative properties as to warrant their manufacturers in supplying them to the people (as they are doing through all druggists) on such conditions as no other medicines are sold under, viz: that they shall either benefit or cure the patient, or money paid for them will be refunded. The "Golden Medical Discovery" is specific for catarrh in the head and all bronchial, throat and lung diseases, if taken in time and given a fair trial. Money will be refunded if it does not benefit or cure.

Dr Pierce's Pellets—gently laxative or actively cathartic according to dose 25 cents.

PARAMOUNT.
 From our own Correspondent.
 The recent heavy frosts here injured the fruit badly in this section, the prospects were very favorable for an abundant crop before the cold snap.

A number of our citizens celebrated the Queen's Birthday at Point Farm and report a very good time. Our cheese maker, Mr F. McInnes, is doing a rushing business this season taking from twelve to sixteen cheeses per day. Mr Alex. McDiarmid is making preparation for the erection of a new house on his farm this summer. Mr and Mrs Joseph Agnew had also a very narrow escape from being killed by a horse taking fright at a dog while turning from Goderich. They were thrown out of the buggy and received serious injuries. We hope to hear of their perfect recovery soon. On Monday last a serious accident happened to Mrs Jno. McKenzie of the sundaries, while visiting at Duncan Rae's Lochalsh. Not being acquainted with the house she mistook a cellar for a room door and fell down stairs injuring her spine. She is lying in a critical condition. Dr Tennant is attending her, and hopes are entertained for her recovery.

SOME REASONS

WHY GOODE THE DRUGGIST CLAIMS YOUR PATRONAGE.

From the Child to the Judge all are treated alike honorably. He gives personal attention to Prescriptions at any hour and guarantees thoroughly scientific and reliable work.

He uses only purest materials—Any doubtful drug is carefully tasted before being sent out.

His conveniences and apparatus for dispensing are the best. The poisons on his dispensing case are kept in a glass under Lock and Key, making accidental substitution impossible.

His charges are as low as consistent with best work and honest material. Physicians and people are already beginning to appreciate these advantages for which thanks.

GIVE US A TRIAL.
 Pure Hellebore, Pure Paris Green, Insect Powders, Garden Seeds, Flower Seeds.

WALTER C. GOODE,
 97- DRUGGIST, ALBION BLOCK

THE PHARMACY.

ESTABLISHED 1854.

Having removed to my new store in Acheson's Block, fitted up specially for my use, I desire to thank my Customers for the liberal patronage extended to my predecessor and myself in the past, and trust to have a continuance of the same.

At the same time to permit me to inform you that I will keep a full line of

Standard Patent Medicines, Toilet Artic Perfumery, Tobacconists' Goods,

and everything found in a first-class drug store. Having had an experience of twenty years, I will give personal attention to the preparation of prescriptions, using only the purest drugs.

Telephone connection on call at any hour at store or residence on East-st.

GEO. RHYNAS.

FURNITURE!

If you want to see the largest stock of Furniture in town, go to **DANIEL GORDON.**

If you want to see the Cheapest WINDOW SHADES and the Newest styles, call and see these lovely tints and shades. PICTURE FRAMING neatly done. JOBBING done cheaply. I do not keep CHILDREN'S CARRIAGES in stock for want room, but have all the catalogues on hand, and any person wanting one I will order on small commission.

UNDERTAKING.
 In the undertaking I have everything required in a first-class establishment. I am the oldest and most experienced Funeral Director in the County. CHARGES MODERATE.
 Goderich, April 18th, 1889. 2200-3m

THE DOMINION IN BRIEF

WHAT IS GOING ON OF INTEREST TO CANUCKS.

The Happpings of a Week Epitomized into a Column of Newy Paragraphs for Interested Readers.

The growing crops in Manitoba were not damaged by the frost.

The town of Goderich gave a very successful banquet to the Grand Orange Lodge.

The rate of taxation this year in Winnipeg will be two cents on the dollar.

A new prison will have to be shortly built in Montreal the present one is too small.

Dr. S. M. Fraser, of London, has been appointed surgeon of the N. W. M. P.

Mr. E. Couper, of Kingston, was injured in a recent railway disaster near St. Louis.

Three times as many settlers have arrived at the Russell House, Ottawa.

Mr. Edward Murphy, of Quebec is mentioned as the probable successor of the late Senator Ryan.

Mr. Mercier has received a new favour from the Pope in recognition of his services to the church.

During 1887 the C. P. R. carried 9,000,992 lbs. of tea, while in 1888 it carried 13,582,911 lbs.

Prof. Selwyn, of the Geological Survey, believes natural gas can be found in Stratford.

North Ontario Liberals have nominated Mr. A. P. Cockburn for the Commons and Mr. L. J. Gould for the Legislature.

Warming and Elliott's livery stables at Port Hope were destroyed by fire and several horses were burned.

One hundred orphans, a large number of them girls arrived at the Stratford home from England Friday.

A vote on the question of the repeal of the Scott Act will be taken in the County of Drummond on June 27.

The Montreal Collector of Customs acknowledges the receipt of \$101.45, sent to him as consignment money.

The recent frost in the neighborhood of Owen Sound is estimated to have damaged the grapes, plum, and apple crop to the extent of \$50,000.

All the St. Lawrence canals are to be open hereafter from midnight on Saturday until six o'clock on Sunday morning, and again after nine o'clock Sunday evening.

Broadway Tabernacle, Toronto, a handsome edifice erected at a cost of \$72,000, was dedicated for public worship by Rev. Dr. Stone, Chairman of the Western Methodist District.

SOMETHING GOOD FOR YOU

WHAT MY WIFE SAID

"A Word Filly Spoken is Like Apples of Gold in Pictures of Silver."

"John," said my wife one night when, after a hard and trying day, I sat awaiting the preparation of the evening meal;

it had not only been a hard day, but it was a troublesome time in business, when other business men besides myself went home with the burden of the day's care

scarcely lifted from their shoulders and sought the comfort of the home nest and the consolation of home friends.

"I know that you are weary and anxious in my face as well as in my attitude, and the look of loving sympathy with which she had greeted my rather dejected

home-coming half an hour before had to a measure prepared me for the words of cheer which I had just heard.

"I know she was about to utter. In all our married life Jennie had never failed, in hours of weariness and discouragement, to bring forward some ray from her sunny mind and turn it into my gloomy path and lighten it up and inspire me with renewed hopefulness.

It never failed, too, to be some wise, well-chosen, thoughtful word, exactly suited to the occasion and fitted to the circumstances.

She was concise and terse in what she said, and never given to long speeches, but the words were formed in a busy and thoughtful mind and came from a warm and sympathetic heart.

"John," she said—as she stood there, beaming, before me, having just left her task in the dining-room to come to me, as if anxious to convey the loving thought which she had just formed.

"I noticed how the passing of the years had changed her face. It seemed to my partial eyes that nothing had been lost of the bloom and freshness that had marked it when years before I, unquestionably younger and fresher than now, had been her favored son among the village gossips,

but that she had grown richer and deeper. She had never been accounted beautiful in the accepted sense of the word, but hers was a beauty that was more than skin deep; and now, as I gazed, it seemed to come from soul depths and glow in every feature, matured and dignified but in no way faded by the hardihood of time.

I noted all this and more as she came forward and laid her hand on my forehead in the caress so old and familiar in its method, yet so new and welcome in its electric sympathy.

The caress itself seemed to bring me some preasure of the meaning of her yet unspoken words, but it was not until she had uttered the intelligence of sympathetic hearts, such the preceptive anticipation, the faith, perhaps it was, of a nature hungering for comforting sympathy and knowing that it is coming from a never-failing source, that I could almost have repeated in advance of her utterance the words she was about to speak.

"John,"—and I have no doubt at all that the little woman realized, as she spoke the words, how much of cheering inspiration they would bring to me, for her face shone with a peaceful, contented happiness that might have seemed all incongruous with the anxious state of my own mind had I not so fully sensed their blessed significance and felt so confident that what she had to say to me would be of such a nature as to completely justify the happy anticipation that gleamed in her and trembled in her voice.

"John,"—and as she spoke a word which had broken in the comfortable home room and reveal its details in a freshly-glorified aspect and a newly-harmonized ensemble, like a beautiful picture which has ever since remained, an immortal painting, on the canvas of my memory—the bright grate fire with its crackling blaze, the deep purr of the dozing wood fire, the cheerful rocking-chair opposite my corner, the picture on the wall, the cheerful glimpe of the supper-table through the open dining-room door, and by my side the brown-haired, smiling, loving, comforting wife; I have often conjured up the picture since and drawn upon the heat of it all and thought how, after all, it was what she said and the impressive manner of it that gave the scene its peculiar life and grace and brightness, such as it could have derived from no other source.

"John,"—and I have no doubt at all that the little woman realized, as she spoke the words, how much of cheering inspiration they would bring to me, for her face shone with a peaceful, contented happiness that might have seemed all incongruous with the anxious state of my own mind had I not so fully sensed their blessed significance and felt so confident that what she had to say to me would be of such a nature as to completely justify the happy anticipation that gleamed in her and trembled in her voice.

THE HOME CIRCLE

Birds without bones—Take three slices of rare, tender beef, spread them over three slices of bruiled ham the same size; put in each one an olive and a sage or bay leaf; wrap them over and tie with thread into little rolls. Cook them in a saucepan with butter, olive oil or olive butter. Cut the threads off when they come to the table.

Walnut cake—Half a pint of brown sugar, half a pint of walnut kernels, three even tablespoonfuls of flour, a third of a teaspoonful of salt and two eggs. Beat the eggs light, adding as named the sugar, salt, flour and the walnuts. Drop the mixture in small "frocks" on buttered paper lining a baking pan, and set in the oven until browned.

Puffed Egg—One dozen eggs, the yolks left whole, the whites beaten to the stiffest froth, as for cake icing. Put sufficient butter into a frying pan. As it begins to brew slip in the yolks separately so as not to break. Immediately cover the yolks with a teaspoonful of beaten whites. When lightly browned remove the entire egg with a perforated ladle. Serve on a hot plate with sauce Robot around them.

Shad roe omelette for six persons—Take two roes, bleach them by boiling in salted water; pour over it a small chopped onion or a teaspoonful of onion juice; mash up the roe, and beat in a saucepan with a piece of good butter; into a second piece of butter stir some lemon juice and parsley; put this last on the omelette dish and keep it hot in the saucepan. Cook in a buttered omelette pan, turning out the omelette long and thick and quite soft.

A pretty pudding in cups—Sir smoothly two ounces of semolina or rice flour into a scant pint of new milk and let both boil in a farina boiler for five minutes, then add to the hot paste a quarter pound of butter, two ounces of loaf sugar, the yolks of five eggs and the whites of three, the grated rind of a lemon, a little orange flower water, and some shreds of citron. Put the yolks of eggs, well beaten, into the pudding, as soon as it becomes cold, and stir in the beaten white after the flavoring and fruit. Drop into small cups, bake in the oven as custards, or over the fire in a pan of water, and serve with preserved fruit.

Little pound cakes (with preserved lemon peel)—Take three eggs, then weight in sugar, four and butter, half a pound and one ounce of candied or preserved lemon peel; cream the butter thoroughly, and beat in the sugar and the yolks of the eggs, and beat until light. Have the white of the eggs beaten to a stiff froth, and add it by degrees, alternating with spoonfuls of sifted flour. Then put on the (previously) grated rind and juice of the half lemon and the candied peel, cut in fine shreds. Beat for several minutes, then drop into buttered patty pans and bake for fifteen or twenty minutes. Ice the cakes on the under side immediately on coming from the oven.

Children's Clothing.—The clothing of babies must be subject to the methods of common sense. The great rule here is to consider the baby's comfort and health, and to be ashamed of it is silly to make a baby a milliner's model. Millinery, as it is now understood, should be banished from the nursery. If the writer could be a baby again, and carry his present experience with him, one of the first things he would do would be to organize a huge conspiracy of babies to burn down all the milliners' shops. Is it possible for any man or woman, inside or outside a lunatic asylum, to conceive anything more entirely destitute of a single grain of intelligence than the clothing of some babies? It is stiff where it should be yielding, tight where it should be loose, short where it should be long, and long where it should be abbreviated. On certain parts of the body where clothing might be dispensed with, as the hands and feet, there are gloves and shoes and stockings as such as make movements impossible. In certain other parts, which should be warmly clothed, as the chest and shoulders, nudity is the fashion which woman most delight in. But why repeat for the ten-thousandth time these stale platitudes? For this reason, that women who will not obey the plain dictates of common sense, and who at least know that they are wicked fools.

More Trouble May be Expected. If you do not heed the warnings of nature and at once pay attention to the maintenance of your health. How often we see a person put off from day to day the purchase of a medicine which if procured at the outset of a disease would have remedied it almost immediately. Now if Johnston's Tonic Liver Pills had been taken when the first uneasiness made its appearance the illness would have been "nipped in the bud." Johnston's Tonic Liver Pills are decidedly the best medicine on the market for general tonic and invigorating purposes. Price 25c. per bottle. Bitters 50 cents and \$1 per bottle. Sold by Goode, Druggist, Alton block, Goderich, sole agent.

Mr. Thomas Downey lost one of his best team horses on Saturday the 18th. It got sick at Leadbury and died soon after reaching Seaford.

A Wonderful Fish Producer. This is the title given to Scott's Emulsion of Cod Liver Oil by many thousands who have used it. It not only gives flesh and strength by virtue of its own nutritious properties, but creates an appetite for food. Use it, and try your weight. Scott's Emulsion is perfectly palatable. Sold by all druggists, at 50c. and \$1.

8000 LIV

THAT IS THE LA THE GREAT C

Thirty-Five Thousand With the Rushing Hoppers to the Cal

SAND HOLLOW, Pa. counts of the Johnston estimates now place the calamity and juster probable the death list at 10,000. The property lost is now estimated at \$1,000,000. It is now known that the sections of Pennsylvania Railroad, the maddest to ever be known, was torn from Friday at 11 on a siding between the amount stations.

The fatal torrent cascades between the mountain miles, and with a distance, sweeping away rocks, boulders, trees, masonry, leaving but one a wooden mill, where by such resistance, the locomotives, Pullmans, and swept down the against the great storm forty-one locomotive round-houses, the heavy derous framework of such one other trucks of houses, furniture, bird human beings. The Works sat in this plain the railroad tracks on the mountains on the water like a cataplac which such resistance, the locomotives, Pullmans, and swept down the against the great storm forty-one locomotive round-houses, the heavy derous framework of such one other trucks of houses, furniture, bird human beings.
