CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent the dreaded summer complaints. They are an absolutely safe medicine, being guaranteed to contain neither opiates nor narcotics or other harmful drugs. They cannot possibly do harm—they always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MILLS—BROWN

A pretty mid-summer wedding took place on Wednesday, July 21, at 3 o'clock, when Lela Lowena, daughter of Mr. and Mrs. Victor Brown, London, became the bride of Mr. W. Adair Mills, son of Mrs. P. A. Mills. The ceremony, which took place at the home of the bride's twin sister, Mrs. J. F. Calvert, 461 Teemisch avenue, was performed by Rev. N. S. McKechnie under an arch of marguerites and ferns.

The bride, who was unattended, looked charming in a smart travelling suit of fawn-colored silk with hat to match and corsage bouquet of pink roses. Following the ceremony the happy couple, amid showers of confetti and good wishes, left by motor for Simcoe and points east. On their return they will reside in London.

Among the out-of-town guests were Mr. and Mrs. H. B. Moulton and Miss Queenie Moulton of Simcoe; Miss Nellie Loukes of Watford, and Mrs. Arthur Brown of Port Rowan.

LOWER SCHOOL RESULTS

The candidates from Lambton County named below, have passed the Lower School Examinations for Entrance into the Normal Schools.

R. A. Anderson, M. E. Anderson, V. M. Bost, S. A. Bullock, C. Burnard, E. C. Burnard (honors), F. I. Buckindall, L. S. J. Baird, B. E. Burton, H. H. Chalk, R. V. Colling, H. C. Crowe, C. A. Cushman, F. Chong, J. M. Coutin, G. E. Cooper, W. Crawford, J. M. Crann, W. N. Douglas, M. A. Dawson, E. M. Dicer, F. M. Dicer, M. Dowding, H. T. Ewart (honors), T. W. Elliot, H. Elnor, F. I. Edwards, N. B. Farrell, W. H. Fisher, L. D. Germain (honors), A. F. Graham, W. Y. Garroch, W. C. S. Grace, H. Hair, F. W. Hubbard, A. K. Haines, F. R. Harmon, C. M. Healey, E. Iverson, G. H. Johnson, I. F. Kenzie, W. A. Leonard, A. E. Lockham, I. E. Logan, C. McLaughlin, K. D. McKechnie, H. R. McKellar, M. M. McKinlay, F. M. McHattie (honors), H. McManus, E. J. MacColl, E. E. Morrison (honors), M. M. Murray, M. R. McLennan, W. M. Mackenzie, G. M. McDougall, F. E. McGillivuddy, C. McLean, G. M. Miers, I. H. Nurse (honors), H. V. Norwood, L. Pollock, M. E. Porter, M. L. Polley, T. L. Rawlings, R. E. Russell, A. C. M. Reid, G. J. Reddick, I. C. Skinner, L. H. Smith, G. C. Smith, T. A. Scarsbrook, M. E. Strang, E. E. Straus, E. M. Simpson, G. A. Simpson (honors), A. E. Sole, M. D. Smith, F. A. Taylor, W. E. Vivian, J. T. Webb, G. H. Webb, J. L. Wilson, L. A. Wemple (honors), A. Wheatley, T. C. White, A. J. Wilkinson, M. H. Wilson, M. H. Workman, D. M. Williamson, E. M. Williamson, V. C. Wright, T. O. Young.

The following candidates were successful on all but one subject of the lower school examinations, and are permitted under the regulations to qualify for a lower school certificate by writing the subject named in brackets after their respective names at any subsequent examination, and obtaining 60 per cent. thereon:—

L. M. Chalk (arith.), G. I. Fulcher (geom.), L. A. McMaster (arith.), J. MacKenzie (arith.), T. M. Neely (art), B. J. Warwick (spell.), R. H. Welsh (B. and C. hist.), B. M. Zavitz (spell.).

STRATHROY DISTRICT MINISTERIAL SUPPORT COMMITTEE MEET

An enthusiastic gathering composed of over 50 laymen from the various circuits of the Strathroy District met in the Methodist church, Watford, on Monday evening, to discuss the question of adequate ministerial support for the pastors of this district. Mr. J. R. Steadman of Petrolia, chairman of the committee, presided. The meeting was ably addressed by Brothers Chown and Stanley of Lucan, two of the best known laymen in the London Conference.

The following resolution was unanimously passed: "That this meeting place itself on record as being in hearty sympathy with the movement and that the circuits of the Strathroy district pay the minimum salary as planned by the London Conference." A collection of \$50 was taken up, it being the amount assessed from the central committee.

The above resolution affects directly only the circuits which have been below this minimum but the appeal is to all the Quarterly boards to join in the movement of general advance as the cost of living is over 100 per cent. since the war began. Therefore each board is urged to take the first opportunity to make their pastor's salary at least twice what it was in 1914 and thus save Methodism from the humiliation of paying from the standpoint of purchasing power, less than the inadequate salaries of six years ago.

This movement is associated with an effort to develop the spiritual resources of the Canadian churches. It is gathering headway. Get into line and do not let it be said that your church dragged down the average. Let your board lead and keep your circuit standing in the first rank. Many Methodist churches have increased their pastor's salary hundreds of dollars this year over last.

This meeting was most hearty and unanimous in the work in hand and it augurs well for the maintenance of the high standing of Methodism in the country.

GOLDEN WEDDING

One of those rare and interesting social events and historic incidents that but seldom stir a community was observed in our town last week. It was the celebration of the fiftieth anniversary of the marriage of Mr. B. H. Parker and his beloved wife, formerly Miss Ann Clark. Mr. Parker is a son of the late Edwin Parker and was born in Wiltshire, England, 76 years ago, coming to this country while still a lad. Mrs. Parker was born in St. Catharines, Ontario, 75 years ago. In the providence of God their lives were cast together and their friendship ripened into courtship and it resulted in their marriage on July 21st, 1870. That event took place in Watford in the old Methodist parsonage on Erie street next house west of the present home of Mr. and Mrs. Parker. The ceremony was performed by Rev. Mr. Hicks then stationed here assisted by Rev. Mr. White then stationed at Arkona. Mr. and Mrs. Parker went at once to the home of the groom on the 2nd line south in Warwick on the 27th side road. There they continued to reside till eleven years ago when they retired from the farm to reside in Watford.

There was born of this union six sons and one daughter follows. Wm. E., at present reeve of Warwick; Dan G. formerly reeve of Watford but now in Leamington; Reuben, of late years living in Saskatchewan; Mrs. W. Galloway, of Sarnia; Joseph, John and James B., all residing in Warwick. These with their life partners and their children numbering in all twenty-one, with the exception of Reuben and his family, were all present at the celebration last week and his family was presented by the second daughter, Miss Ida. Mrs. Parker's sister Mrs. Fuller, of Arkona, and her son, Samuel. Besides these the pastor of the Methodist church, of which Mr. and Mrs. Parker have been faithful members for many years, Rev. A. C. Tiffin and family were present to enjoy the festivities and rejoicings of the occasion. The appropriate decorations of the home and the festive board together with the lavish and choice supper of things both substantial and appetizing, many of which were luxuries undreamed of fifty years ago, were all looked after by the daughter and daughters-in-law, this fact is enough to guarantee their character. Several of the numerous friends of these estimable townspeople called during the evening to offer their congratulations, these were generously served with refreshments.

After supper Rev. Tiffin made a brief felicitous address referring to many of the excellent qualities of the host and hostess and their splendid family and offering the hearty congratulations of himself and others present apart from the family and many others for whom he felt assured that he could speak. This was preceded by the reading of the following address and the presentation of appropriate gifts and tokens from the family and also from the grandchildren. Mr. Parker made an appropriate and characteristic reply expressing hearty appreciation of the kindness of friends, the loyalty and devotion of their children and their gratitude to God for his long extended mercies and favors through a happy and prosperous wedded life of fifty years. Many other friends also sent presents and good wishes. The occasion was one long to be remembered and unmarred by any untoward incident. The whole community takes this occasion of offering congratulations.

The address following:

To Mr. and Mrs. B. H. Parker,
Dear Parents and Grandparent,
We, your children and grandchildren, are gathered with you to-day to celebrate the Fiftieth Anniversary of your wedding day. We offer you our heartfelt congratulations and return humble thanks to Almighty God for so richly blessing you during all your years and especially those of your wedded life.

We desire also to express our gratitude to you, for all your love and sacrifice for us, and for your tender care when we were helpless and dependent. We did not always appreciate it but now we know what it must have meant. We are proud of our parents, of their industry, their thrift, their courage, their christian zeal, and their worthy example. God has been good to us all in many ways, but especially good in our parents.

We beg of you to accept of these gifts as a tangible token of our love for and devotion to you. We sincerely hope that in the good Providence of God you may both be spared, to celebrate your "Diamond Jubilee" under as happy and favorable circumstances as you now celebrate your "Golden".

Watford, July 21st, 1920.

The West Adelaide Ladies Auxiliary held their last meeting on July 2 at the home of Mrs. L. Grogan with twenty members and twenty-five visitors present. Collection amounting to \$5.85. The next meeting will be held on August 5th at the home of Mrs. Fred Conkey. All the ladies are kindly invited to attend.

Small but Potent.—Parmelee's Vegetable Pills are small, but they are effective in action. Their fine qualities as a corrector of stomach troubles are known to thousands and they are in constant demand everywhere by those who know what a safe and simple remedy they are. They need no introduction to those acquainted with them, but to those who may not know them they are presented as the best preparation on the market for disorders of the stomach.

M. E. MUMA, Teacher.

Flies torment cattle badly. The use of a good fly repellent means extra trouble, but it also means extra gains or extra milk.

Horses appreciate a drink during a long half day on the binder. Horses lose in condition rapidly when worried with bees or flies.

Young calves will make best gains when housed during the day, and on fresh pasture at night.

Unless carefully fed, freshly threshed grain may bring on digestive troubles with stock, particularly horses.

A look at the best in live stock at one of the larger fairs will tend to fix in your mind the approved types.

Wool Embroidery.

The fad for wool embroidery is reflected everywhere. Scarcity of merchandise necessitating a search in one art department for colors, in another for needles, and another for patterns frequently discourages the shoppers and they abandon the attempt at handmade decoration altogether, says the Dry Goods Economist. Hat bands, wide ribbons, sashes, handbags, blouses, gowns, porch pillows and practically every article susceptible to embroidery are showing gay little flowers and all-over and conventional patterns done in wool.

Make Blankets Soft.

Blankets may be made fluffy and soft after washing, if they are brushed thoroughly with a new broom or brush while they are hanging on the line to dry.

Wives and Mothers of Canada

Stratford, Ont.—"I am very enthusiastic in praise of Dr. Pierce's Favorite Prescription as a tonic for expectant mothers."

I have had experience both with the 'Prescription' and without it, and am in a position to know that there is a vast difference. I was never nauseated or sick at all with the 'Prescription' babies but I was extremely uncomfortable with the others and my suffering was greatest when I had not taken the 'Favorite Prescription'. I shall always take pleasure in recommending it to expectant mothers."

—MRS. LEOTA M. PEPPER, 114 Grange St.

COULD NOT SLEEP

Halifax, N. S.—"I was in a run-down, nervous condition for over two years, had been treated by several doctors and only found temporary relief. I could not sleep at night my heart palpitated so, and I was almost afraid to close my eyes. Being persuaded, I wrote and stated my symptoms to the Medical staff at Dr. Pierce's Invalids' Hotel in Buffalo, N. Y. I was advised to use Dr. Pierce's Golden Medical Discovery with the 'Favorite Prescription' and the 'Pleasant Pellets'. I did so with the very best results. I could sleep and became my natural self again. I certainly recommend Dr. Pierce's medicines to all sufferers, for they have done for me what doctors failed to do and they have saved me doctor bills, too."

—MRS. JOHN HOMANS, Clam Harbor.

Toronto, Ont.—"For over thirty years I have been a user of Dr. Pierce's Pleasant Pellets. I have taken them for liver trouble, biliousness, constipation and sick-headaches and they always gave me the relief wanted. I am sure the 'Pleasant Pellets' have saved me many a sick spell. I can highly recommend them."

—MRS. HANNAH BOWNESS, 60 Strange St.

MOTORIZING THE FARM

THE horse has been declared by Thomas Edison to be the most inefficient machine in the world. In return for the amount of food and care needed, the horse returns less in work than any other machine.

The average team of farm horses costs \$400, a good set of double harness \$100, a wagon without box \$115, making a total of \$615.

A Ford Truck costs \$750 at Ford, Ont. A Fordson Tractor costs \$850 at Dearborn Mich.

The initial cost of motorizing a farm is slightly greater than the cost of a horse outfit, but the lower cost of operation and upkeep of the tractor and truck and the greater amount of work done easily put the horse out of the running.

Government experiments have proved that the cost of feeding a horse is 8.7 cents per working hour.

A team of horses cannot plow more than two acres in a ten-hour day. At 8.7 cents per hour or 17.4 cents per hour for a team, the cost would be \$1.74, or 87 cents an acre. A Fordson Tractor plows on an average of seven acres a day. The cost per acre averages not more than 75 cents per acre for gas and oil. The Fordson does three and a half times as much plowing in a day at a smaller cost per acre.

Suppose you are hauling produce to market or bringing out supplies. If the town is twenty miles away it will take you a whole day to make the return trip

with horses. If you have a heavy load and the weather is hot it will take you two days. If it took you twelve hours, the cost at 17.4 cents an hour for your team would be \$2.09. The average cost of running a Ford Truck, for gas and oil, is 4 1/2 cents a mile or \$1.80 for the forty miles. But with the Ford Truck you can make the return trip in four hours. The truck enables you to make three times as many trips and at a lower cost per trip.

But this is not all. If you motorize your farm you can get up an hour later in the morning. You have no horses to feed, groom or harness. You start work after breakfast.

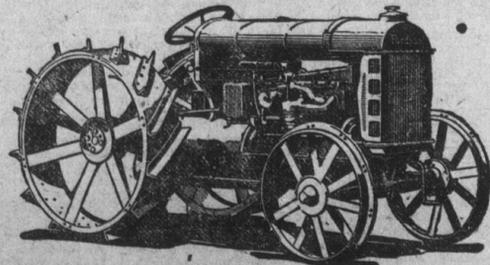

When dinner is ready you stop at the end of the field, drive your tractor direct to the house, eat your dinner, and rest till it is time to go to work again.

If the afternoon your motor works just as well though the sun is hot and the flies are bad.

And at night when work is over you are through for the day,—no horses to rub down, feed or water.

You are always free to leave your farm for picnic or vacation—no worry about horses left behind to be cared for.

Every way you look at it the motor has the advantage over the horse. It means shorter hours on the farm, more work done in less time and at less cost.

The biggest help on the farm

IN a short time you will find this plant is the biggest thing on your farm. Big in value—big in the amount of drudgery it saves—big in its labor-saving for your wife—big in the comfort and conveniences it makes possible—and big in its economy.

It is driven by the famous "Z" engine which permits of the greatest possible saving in power because you can utilize the full power of the engine to drive other machinery.

It is so simple a boy can run it. It requires little attention and seldom needs adjustment or repairs.

Runs six hours to the gallon of kerosene. Saves time, labor, and enough money to pay for itself.

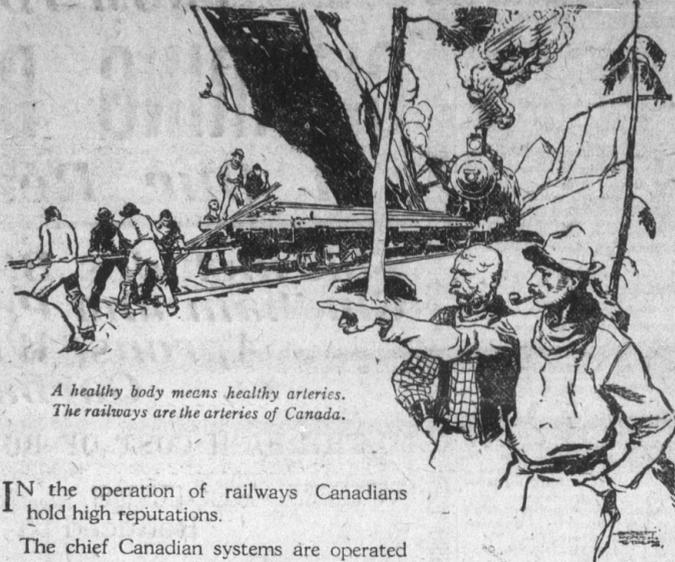

Come in and see a demonstration, or send a card for catalogue which gives full information.

A healthy body means healthy arteries. The railways are the arteries of Canada.

IN the operation of railways Canadians hold high reputations.

The chief Canadian systems are operated over great stretches of territory presenting widely different problems.

Their traffic obligations fluctuate rapidly with the seasons.

Climatic conditions are sometimes difficult. Unusual foresight, skill and determination are called for.

Yet the only unfailing highways for the heavy traffic across the New World from China to France during the war—were Canadian railways.

Canada alone among the allied countries had no war-time transportation crisis. When foreign roads choked under their load, she relieved them of millions of tons. At a time when ships were the need of the hour no ship lost time in any Canadian port through failure of the railways to deliver cargoes at the docks.

To-day the Canadian producer still commands the fastest, the most dependable and the cheapest railway service in the world.

But the foresight that made this record possible could do nothing without MONEY! The skill that kept terminals uncongested had to be backed with MONEY! The determination that drove crippled engines ahead in the face of 40-below gales and mounting snow would in the long run have been useless without MONEY!

Thus to-day the alarming fall in the net revenues of the railways is a menace to railway efficiency. It injures railway credit. It dissolves the reserves needful to meet the expanding needs of a growing country. It imperils national prosperity.

Increased freight rates are imperative therefore, not merely on behalf of railways but in the interests of Canada itself!

This is the first of a series of advertisements published under the authority of
The Railway Association of Canada
formerly the CANADIAN RAILWAY WAR BOARD

In July 1918 the Canadian roads were threatened with a general strike. To prevent this public catastrophe they agreed to follow the American scale of wage increases. The Government of Canada meantime allowed freight rate increases intended to make up the cost of these new wage rates.

Leaving aside all question of increased cost of material, the new wages cost the railways of Canada an extra eighty million dollars for the first year alone.

The new rates yielded them an additional forty-three millions!

The annual deficit on wages alone was thirty-seven millions and is constantly growing!

"--that certainly is Good Bread!"
[Whose make is it?]

"Why, LOVELL'S of course!"

Try it You'll like it, too!

No one need endure the agony of corns with Holloway's Corn Cure at hand to remove them.

Better Ensilage Equipment With Greater Economy

Good ensilage will increase dairy or meat production 25%. But good ensilage demands a good silo, protecting the ensilage and giving ample capacity.

Toronto Silos are the best on the market. Made of double tongued and grooved staves of selected spruce, saturated with creosote, they give ample protection from air and cold.

Hip Roof design Toronto Silos have an unusually large capacity. Ensilage can be tramped right to the top of the walls.

The greatest profits result from your silo when you have a Toronto Ensilage Cutter on your farm. Rigid, durable, constructed entirely of metal, it will withstand the roughest usage. A Toronto Ensilage Cutter eliminates all chance of loss through corn lying in the field waiting for a hired machine. You can fill your silo when you are ready—as often as necessary.

A Toronto Kerosene Engine is the ideal economical engine for farm use. Gives efficient power on cheap kerosene. Not only will it run your ensilage cutter, but any other farm machinery you possess.

Write for more complete information on these three Toronto products. Let us show you how they increase your profits 25%.

BROOKE COUNCIL.

Alvinston, July 24, 1920.

Council met pursuant to adjournment. Members all present. Minutes of former meeting read and on motion of Loosemore and Zavitz were adopted.

Report of A. S. Code, O.L.S., C.E., read on the proposed construction of the Moffatt-Lucas drain No. 2. A number of the tax payers interested in the 9-10 Side Road and Smith-Patterson drains were present and objected to the proposed work with outlet into the Smith-Patterson drain.

Campbell—Zavitz, that report be adopted and by-law be prepared authorizing work and loan.—Carried.

Report of A. S. Code, read on the proposed construction of the McCoubrey-Colehour drain. Estimated cost \$1000.

Zavitz—Campbell, that report be adopted and Clerk prepare by-law authorizing work and loan.—Carried.

Mr. Jas. Hand interviewed the Council asking for a grant in aid of the Lambton Corn Show.

Campbell—Zavitz, that the sum of \$25.00 be granted, to be given in prizes for Brooke Township.—Carried.

Petition received and signed by a majority in number asking to have the Smith drain repaired across Lots 13, 14 and 15, Con. 6.

Sutton—Loosemore, that petition be entertained and A. S. Code be instructed to make an examination of the drain and submit a report, plan, profile, estimate and to make an assessment of lands and roads liable for assessment.—Carried.

Mr. H. A. Holbrook served notice in writing to have the Watson drain repaired or improved.

Campbell—Sutton, that notice be entertained and Geo. A. McCubbin, O.L.S., C.E., be requested to make an examination of the drain and if he considers advisable to repair or improve the drain, to submit a report, plan, profile, estimate and to make an assessment of the lands and liable for assessment, whether or not such assessment be a variation of former assessments or not.—Carried.

Sutton—Campbell, that Council open as a Court of Revision on assessment in by-law authorizing repairs to the Watt Award Drain, under the Municipal Drainage Act, with Reeve in the chair.—Carried.

No appeals.

Zavitz—Loosemore, that assessment as made by Engineer on repair to the Watt Drain be adopted and Court closed and by-law be read a third time and finally passed.—Carried.

Brooke Municipal Telephone System asked that \$100 be advanced for Telephone purposes. Granted on motion of Loosemore and Sutton.

By-law submitted and read authorizing repairs to the Cook drain and for borrowing on the credit of the Municipality the sum of \$3146, being the proportion to be contributed by the Township of Brooke.

Zavitz—Campbell, that by-law be provisionally adopted, printed in pamphlet form with a copy served on each party assessed with a Court of Revision on same be held in Inwood, on Saturday the 21st day of August, 1920, to open at 2 o'clock p. m. A. E. Loosemore to be commissioner and to serve by-laws.—Carried.

By-law submitted and read authorizing repairs to the Morley drain across lots 1, 2 and 3 in Con. 3 and outlet into the Perry drain in Enniskillen, and borrowing on the credit of the Municipality the sum of \$2314, being the Municipality's proportion of the cost.

Loosemore—Sutton, that by-law be provisionally adopted, printed in pamphlet form with a copy served on each party assessed with a Court of Revision on same be held in Inwood on Saturday the 21st day of August, to open at 3 p. m. D. M. Campbell to be commissioner.—Carried.

Zavitz—Loosemore, that Pathmasters not returning road lists by Oct. 1st, 1920, that Clerk enter same on Collector's Roll as unperformed statute labor.—Carried.

Campbell—Loosemore, that Morley Zavitz be paid \$20 for one sheep worried by dogs.—Carried.

Sutton—Loosemore, that Council do now adjourn to meet in Inwood on Saturday, the 21st day of August, 1920.—Carried.

W. J. WREED, Clerk.

Just push back the rugs and start the Victrola

Then—"On with the dancel!" That's how easy it is to "put life into the evening" when you have a Victrola. And good dance music is only one of the endless joys it brings.

Have you a Victrola? You can have—on the easiest of terms.

Healthy Mothers Healthy Babies

Every true mother realizes the fact that her baby's health depends upon her own, that the very vitality of her child is influenced by her own physical condition. How important it is, therefore, to guard against any derangement of the female organs, which induce general weakness, nervousness, constant fatigue and utter inability to properly care for her child. Please remember, that Lydia E. Pinkham's Vegetable Compound has brought health and strength to thousands of such mothers.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia, I had gained in strength and was able to go around and do all my housework. My baby when 7 months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. PEARL MONTGOMERY, Mitchell, Ind.

Good health during and after maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound

"Yes, madam, this is the grade of Imperial Polarine specified for your car by the Imperial Polarine Chart of Recommendations, and you will always find Imperial Premier Gasoline of uniform high quality. My customers have learned that operating costs are kept at a minimum through using Imperial Polarine exclusively."

Reduced Operating Costs

IMPERIAL Polarine reduces automobile operating costs in many ways. By providing a piston-to-cylinder seal which assures maximum power. It helps to save friction waste in every moving part, keeps the engine running smoothly and out of the repair shop and minimizes depreciation.

Imperial Polarine prevents friction by coating every wearing surface with a heat and wear-resisting oil film. It seals all the power in the piston chamber. Imperial Polarine gives correct lubrication to every part of your car.

One of the three grades described below is specially suited to your motor. Look for the Imperial Polarine Chart of Recommendations when you buy oil and learn which grade to use.

Imperial Polarine is sold in sealed gallon and four-gallon cans, 12 1/2-gallon steel kegs, steel half-barrels and barrels, by dealers everywhere. There is an appreciable saving in buying half-barrels and barrels.

IMPERIAL POLARINE (Light medium body) IMPERIAL POLARINE HEAVY (Medium heavy body) IMPERIAL POLARINE A (Extra heavy body)

Fabric Suitable for All Purposes From Breakfast Robe to Ball and Theater Attire.

In these days of the high cost of everything few women can afford to make a distinction between dinner gowns and evening dress. They both signify formal wear, but to persons of meticulous care in dress there is a difference. With housekeeping such a tremendous problem and the domestic question a shoul on which many households founder, the custom of dining out is becoming more and more prevalent. At the more exclusive restaurants one is not properly dressed unless in evening clothes, yet if the evening's entertainment includes the theater one's costume needs to be more reserved than if a dancing party or the opera is contemplated.

Of all the materials we have seen this season, observes a fashion writer, the palm of popularity goes to black velvet—unquestionably the fabric suitable for all purposes from breakfast to ball gown, and in the restaurants and theaters it predominates. A clever woman whom we see at every important function is not noted for her wealth nor her lavish expenditures on dress, but she is always tastefully if rather unobtrusively gowned.

At the opera one evening she appeared in a stunning gown of black silk velvet made severely plain with a round of décolletage and the skirt ankle length with a long, straight panel falling from one hip to form a side train. We remarked the costume for its extreme elegance of line and lack of adornment. A few nights later this woman came into the dining room of our most fashionable and exclusive hotel again gowned in black velvet. We noticed that the bodice was cut rather low and filled in with a shirred gilet of embroidered black net, short sleeves edged with tiny ruffles were of net and chiffon, and on one hip several flat loops of the velvet simulated the bouffant effect.

It was not until afterward that we realized that this costume was in fact the opera gown worn with a glimpse of net, and with the train looped up. Not one woman in a hundred, unless she were in the habit of scrutinizing and analyzing feminine wearing apparel, would have discovered the metamorphosed frocks. Very convincing transformations may be accomplished by a woman who is clever with her needle or who has a good dressmaker.

IN MORE TEMPERATE SHADES

Season's Colors Good and Comprise the Soft but Rich and Warm in Tone.

Absent are the glaring colors of yesterday, supplanted as they are by more temperate shades, deep and warm in tone.

This season the colors are exceedingly good. They are soft, but rich in tone. There are colors of varying shades to set off every complexion, and yellow has its butter-colored series, its old gold with a hint of green, lemon, primrose, sulphur and canary—all yellow but with that slight difference that permits the fair woman to humor her taste without sacrificing her complexion.

Gray hair is always beautiful with gray clothes. White-gray hair needs careful choice of colors between the blue-gray and yellow-gray, according to its requirements.

Evening dresses show many pastel shades and the colors of Louis Quinze brocades are in evidence. A dance dress of dull green shows many tiny frills edged with dull, brass-colored gold braid. A bouquet of gold flowers adds the finishing touch to the costume. Gold and silver, especially for dresses, are becoming more and more popular.

Patterned materials, pattern in design rather than color, are easily made up and need no trimming, but to judge of color it is necessary to have an absolute color eye. Seeing sharp or flat is responsible for the many mistakes in selection of colors, even with the abundant opportunities of the present season of mellow tones.

HINTS TO HOUSEWIVES.

Keep piece of charcoal in refrigerator. Everything will keep sweet. Soaking potatoes 15 minutes in cold water before boiling makes them mealy.

Straight hanging dresses are the most satisfactory for working about the house.

If alum is added to the paste used in covering boxes with paper for

THE DAILY MISERY OF ILL-HEALTH

Three Years of Suffering Quickly Relieved by "FRUIT-A-TIVES"

MR. GASPARD DUBORD

159 Avenue Pius IX, Montreal.

"For three years, I was a terrible sufferer from Dyspepsia and my general health was very bad. I consulted a physician and took his medicine and faithfully carried out his instructions, but I did not improve and finally the doctor told me I could not be cured.

At this time, a friend advised me to try 'Fruit-a-tives' and I did so. After taking two boxes of 'Fruit-a-tives', I was greatly relieved; and gradually this marvelous fruit-medicine made me completely well.

My digestion and general health are splendid—all of which I owe to 'Fruit-a-tives'.

GASPARD DUBORD.

50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

scrappooks, moths or mice will not invade them.

To remove marks made by placing hot dishes on a polished table, rub well with turpentine. Leave this on for some time, say half an hour, then polish and the marks should have quite disappeared.

When the wall paper happens to need a patch and the new paper is conspicuously bright compared with the old, hang the new piece in the sunshine, watch closely, and you will find that it will soon sun-tone to match the old paper. You may then patch your wall and the patch will be hardly noticeable.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

THE N. B. HOWDEN ESTATE

Ford

1920 Advantages

- Has deep, wide, luxurious seats, with plenty of room.
- Unsurpassed in anything near its price in riding qualities.
- Has very high grade heavy upholstery.
- Has roller bearings in front hubs.
- Has double bulb headlight system, which is more efficient than dimmer type.
- Has a magneto to furnish ignition independent of storage battery.
- Repair parts can be had almost anywhere at very little cost.
- Has real service behind it which has never been attempted to equal.
- Can always resell a used Ford to better advantage.

Orders are still coming in faster but just now I am getting a good bunch every week. Will be able to give fairly prompt delivery. Once you are in the 1920 Ford the decision is made.

CHRONIC INDIGESTION

A Much Too Common Trouble With Farm Horses.

Usually Due to Faulty Condition of the Teeth—Symptoms Described—Prescriptions and General Advice as to Treatment—Cultivation of the Hoed Crops.

(Contributed by Ontario Department of Agriculture, Toronto.)

CHRONIC indigestion, or indigestion without engorgement, is caused by improper food; imperfectly masticated food due to the process of dentition or irregularities of the teeth, voracious feeding, irregularity in feeding, debility, or partial inactivity of the digestive glands.

Symptoms.—A capricious appetite, often a tendency to eat filth, usually increased thirst, the animal becomes hide-bound and has a dry scurvy skin, irregularity of the bowels, general unthriftiness, dullness and more or less well marked inability, to perform work. When caused by imperfectly masticated food, the cause can usually be told by the appearance of the feces. Colicky pains are sometimes present an hour or so after feeding. The animal has a general unthriftiness and lacks vigor.

Treatment.—As a large percentage of cases is due to inability of masticate properly, the mouth should always be carefully examined. If the teeth require attention and the owner has neither the necessary instruments nor the skill to correct the fault he should take the horse to a veterinarian. In horses about three years old the trouble is very often due to unshed molar crowns, Nos. 1 and 2 in each row. In a horse about four years old No. 3 in each row. These crowns can be easily removed by the use of a pair of small forceps or a pair of pliers. In older horses the trouble is very often due to sharp points or projections of tooth substance on the outer edge of the upper molars or the inner edge of the lower ones; to a long tooth that requires shearing, or other mouth trouble that can be corrected only by an expert with the necessary instruments. When the fault is not in the mouth, and the patient be not too weak, a purgative of 6 to 8 drams aloes and 2 drams ginger should be given.

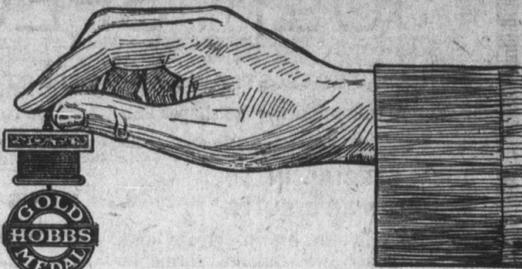

In all cases where a purgation is to be given and prompt action is not necessary, it is wise to prepare the patient by feeding bran only for 18 to 24 hours. In all cases after the administration of a purgative, the animal should be given rest, and bran only to eat until purgation commences, which is usually 18 to 24 hours, and sometimes longer. When it fails to act in about 48 hours, a second dose, a little smaller than the first should be given.

After the bowels have regained their normal condition, mix equal quantities of powdered sulphate of iron, gentian, ginger, nux vomica and bi-carbonate of soda, and give a tablespoonful three times daily. Give food of good quality in small quantities, and as digestion improves gradually increase the quantity, until the desired amount can be fed.—J. H. Reed, V.S., O. A. College, Guelph.

Cultivation of the Hoed Crops.
The Hoed Crops in Ontario are made up principally of corn, beans, potatoes, turnips, mangels, and carrots. These crops occupy fully one million acres annually. During the past fifteen years, the area used for corn has increased, that used for potatoes has decreased, and that for potatoes has remained practically the same with exception of some variations in individual years.

All the root crops here referred to do well after sod, especially after clover. It is generally well to have the land ploughed in the early autumn. If manure is available, the land could be worked before winter, manured and piced in narrow ridges about thirty inches apart. This enables the frost to work on the subsoil between the ridges, and preserves the fertility in the ridges themselves. Land prepared in this way works splendidly in the spring when brought into cultivation. In the case of potatoes, it is much better to manure in the autumn than in the spring, and it is frequently recommended to manure even for the crop previous. In order to prevent the development of a large amount of scab on the tubers. Farmyard manure for the Hoed Crops can often be supplemented to advantage by a limited use of commercial fertilizers. The fertilizers have given particularly good results in connection with co-operative experiments throughout Ontario with potatoes, mangels, and turnips. The application of 160 pounds of nitrate of soda per acre increased the mangel crop about six tons per acre per annum in average of five years' test. A potato fertilizer made up in the proportion by weight of seven parts of nitrate of soda, sixteen parts of superphosphate, and nine parts of muriate of potash, has given economical results where it is used at the rate of 320, 640, or 960 pounds per acre.—Dr. C. A. Zavitz, O. A. College, Guelph.

Pin Your Faith to Hobbs' Gold Medal Lines

"ATTENTION!"

"THE STORE THAT SATISFIES"

A MOTHER'S TRIALS

Care of Home and Children Often Causes a Breakdown.

The woman at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often, indisposed through weakness, headaches, backaches and nervousness. Too many women have grown to accept these visitations as a part of the lot of motherhood. But many varied as her health troubles are, the cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this good blood so necessary to perfect health, and that is through the use of Dr. Williams' Pink Pills. These pills make new blood, and through their use thousands of weak, ailing wives and mothers have been made bright, cheerful and strong. If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you. You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

EAST LAMBERTON ENTRANCE EXAMINATION RESULTS

223 candidates wrote on the examination and of these 157, or 70 percent, were successful. The examination question papers were considered very fair and suitable in every way as a test of each candidate's knowledge and ability to think. The names are arranged in order of merit at each of the centres where the examinations were held. Those who obtained 75 percent, or more of the total marks given have passed with honors. Eva Chambers of Petrolia Public School passed highest in the Inspectorate, with a total of 650 marks out of a total possible 750. Many of those who wrote showed inability to interpret correctly the author's meaning in the passages of literature given on the Literature paper. From the reading of the Geography answer papers it is also evident that more drill is required in the use of maps, particularly the wall maps provided by the trustees.
