APPROVED BY THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA UNDER ORDER 162.
DATED MARCH 30, 1916.

It is agreed between the sender of the message on the face of this form and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeatable telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case the Company shall be liable for damages, suffered by the sender to an extent not exceeding \$200., due to the negligence of the Company in the transmission or delivery of the telegram.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz: one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers he acts for that purpose as the sender's agent; if by telephone the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

DAY LETTERS.

This Company will receive DAY LETTERS, to be transmitted at rates lower than its standard telegram rates, as follows: one and one-half times the ten-word Day message rate shall be charged for the transmission of fifty (50) words or less, and one-fifth of the initial rate for such fifty words shall be charged for each additional ten (10) words or less.

DAY LETTERS may be forwarded by the Telegraph Company as a deferred service and the transmission and delivery of such DAY LETTERS are, in all respects, subordinate to the priority of transmission and delivery of full-rate messages.

DAY LETTERS shall be written in plain English, or in French. Code language is not permitted.

DAY LETTERS may be delivered by the Telegraph Company by telephoning the same to the addressees, and such deliveries shall be a complete discharge of the obligation of the Telegraph Company to deliver.

DAY LETTERS are received subject to the express understanding and agreement that the Company does not undertake that a DAY LETTER shall be delivered on the day of its date absolutely and at all events; but that the Company's obligation in this respect is subject to the condition that there shall remain sufficient time for the transmission and delivery of such DAY LETTER on the day of its date during regular office hours, subject to the priority of the transmission of full-rate messages under the conditions named above.

Dear Sir

I hope you will pardon my presumption in writing to you as I feel compelled to do so. Yesterday was armistice day in honour to those who paid the supreme sacrifice, but there are those who have returned some who are ill & will never get over the hardships they went through, some are compensated liberally, others are not. My Brother in Law happens to be of the latter Gunner Stanley Waring 89968 of the 2nd Ammunition Co. F. A. had the honour of serving under your

excellent leadership & since his
return he has been admitted to
Hospital three times he is receiving
Fifteen Dollars a month pension.
He has tried to re establish himself
& has had to give up, we have letters
from his past employers advising us
for him to change his position.

The question now is "What can he do?"

We have written to Ottawa to see if
they would grant him a vocational
training but the replies we get are
not satisfactory. It is trouble his
valvular Disease of the Heart & is
a very sick boy.

In writing this letter I hope that you

Sir would intercede on his behalf
If you wished for any further
information I could send the boy

My dear Colonel:-

I thank you very much for arranging to send a wreath to Lady Watson's house on behalf of Lady Currie and myself. Please let me know the cost thereof at your earliest convenience.

I am sure that all of you were terribly grieved and shocked when the General passed away so suddenly. I was in Quebec last Thursday from the arrival of the 2.10 train to the departure of the 4.40, but I had no time to look him up. I am very sorry now that I did not drop into the Club for a moment, where I probably would have seen him. Watson was a very kind-hearted and generous man, a willing and capable soldier and his early death will be mourned throughout Canada.

With many thank for your trouble and all good wishes to you and the regiment, I am,

Dear General,

I thank you very much for your kind letter of the 25th instant.

Indeed it was a real shock to us when we heard of the sudden death of Sir David Watson. I had seen him two days before his death and he was, as usual, cheerful and anxious to get news from his old 22nd. It is a real loss to us all.

The funeral was really most impressive.

Sept. 20. 1920

Dear General Currie,

I thank you very much for your letter and kind wishes & truly I hope to see you some times although I appreciate your time is very valuable and for to it from me to intrude on it but my thoughts and sympathy are with you in your great work and if at any time I can be of service to you, no matter how small or big please always allow me to be of use, not only as a duty but as a pleasure —

Regarding Fred Selby, if he will call and see me personally I will give him a job on our Bell-Boys Staff, or better if he is capable, I will also keep an eye on him, will you kindly write him to this effect.

THE WINDSOR HOTEL

MONTREAL

I have been asked as a "Committee of one" by "Ashlar Lodge F.X. & F.M. Toronto" to personally call on you to try and persuade you to be their guest on October 26th. which is to be a Military night, and I am sure if you can see your way clear to accept the invitation, it will not only be esteemed a great honour and privilege, but all the members, or at least, a great many of them are all your old comrades from the lowest to the highest rank and all are keenly looking forward to meeting you again, as no doubt you know, it is one of Canada's oldest lodges and probably one of the most exclusive in Masonry at least in Toronto.

THE WINDSOR HOTEL
MONTREAL

I must not take up your time, and I have written you about it because I know how valuable your time is, and a visit personally at this season and time might be out of place.

If you can accept the invitation, which I think has already been sent to you by dear old "Col. Bull Green" W.M. please do so, and give us the privilege of entertaining you.

With best wishes & thanks

Yours very faithfully
Walter H. M. W.

Colonel R. H. Webb, D.S.O.,
Windsor Hotel,
Montreal.

My dear Webb:-

I have your note of yesterday,
in which was enclosed a suggested Toast List.

I am very glad to know that
Generals Turner, Watson and Burstall will be
present. I think each one of them would expect
to be called upon to say something. I under-
stood that I was to be Chairman, and that is a
very good arrangement for me because it would
mean that I would not be expected to make a
set speech. I am afraid if I am asked to reply
to such a toast as "Our Country" it would mean
a formal address and one which I have not the
time to prepare.

I think, Webb, that those who
speak will say pretty much what comes into
their minds and it doesn't make much difference
what you call the toast to which you ask them
to respond.

Might I suggest something like
this as a toast list:-

1. The King
2. The silent toast to fallen comrades.
3. Absent members of the Originals.
To which General Turner and Gen.
Watson might reply.
4. Canada's Defence Forces. To which
Gen. Burstall might respond, as he
is now the Inspector-General.

Col. R.H.Webb,D.S.O., - 2 -

5. The Women of Canada. To which Gen. Dodds might respond.

If I am Chairman you would hear enough from me in the proposal of these toasts.

Regarding No. 2 I could ask Canon Scott or Canon Almond to propose that toast.

I shall fall in line, though, with the wishes of the Committee whatever they may be.

Yours faithfully,

My dear Webber:-

I hope the letter which I am enclosing with this will be of some use to you. I mean every word it contains and I hope that you are given the position which you seek.

From time to time I hear of you from those who served with us in the old days. Only a week ago to-day two chaps from the War Office called on me - one in the Intelligence Department and the other in the Operations Department. Their names have just passed from my mind, but one was a Gunner and the other of the Black Watch. The Gunner went to the Staff College at the same time as Edouard Panet. Both of them knew you very well and told me that they thought everything was going well in your business life.

The other day I was up in Ottawa, making a speech to the Civil Service Institution, and there I ran across Willis who told me that he had recently had a letter from you. Willis, as you know, is with Byng who tells me that he finds Willis most useful. He told me at one time that he would never go on a long trip without taking Willis along. As you know he is married now and has a baby daughter and I think another child is expected some time towards the end of this month. MacBrien has been away in China attending the Japanese manoeuvres. He is back again now and, while I haven't seen him, I believe he looks

Brigadier-General Webber - 2 -

upon his trip as being a very valuable experience. Many of MacB.'s friends worry a little about him because, since his wife's death, his mind seems to have turned to flappers. He does not appear to realize that it is the wise man who keeps in his own class and that when your top speed is 2.40 there is no use in entering the 2.20 trot or pace.

I am glad to say that all goes well with me in Montreal. You know it is our largest city and in fact contains 1/10 of the population of Canada. I like it very much indeed and also my work at the University. I am counting on going to England next summer. If I do I shall look forward to seeing you then.

With all good wishes, I am,

Ever yours faithfully,

December 6th, 1924.

Brigadier-General N. W. Webber, C.M.G., D.S.O.,

My dear Webber:-

Since I last saw you in 1921 when you told me of your intention to give up the Army and enter the business world I have often wondered how you liked the change. You have yourself told me how interested you were in your new work, while from others I have not been surprised to learn that you have done very well.

As one who has been in business and in the Army and able to appreciate the qualities necessary for success in each, I see no reason whatever why you should not go far in the business world. Men who succeed in it must have the ability to appreciate past experiences and present situations. If, with the ability to do these things, they have good judgment they ought to be able to make wise decisions. In my experience in the war I met no officer with a greater ability than yourself to appreciate the situation, to pay due regard to past experiences, and to unhesitatingly decide what should be done. You were bold, but not incautious. Your judgment was good, while your unselfish devotion to your job and to the units you served furnished an example to be emulated by all.

You have now been associated with the Company you serve for three years. That is plenty of time in which to learn the technical details of any business which a manager of it should know. With youth,

Brigadier-General Webber - 2 -

enthusiasm, level head, and outstanding ability at your command, coupled with your engineering knowledge and the fact that you were one of the most brilliant and trustworthy staff officers of the British Army, I see no reason why you shouldn't go to the top.

I shall always be interested in hearing how you get on.

With kindest wishes, I am,

My dear General

I am writing to ask if you will be kind enough to help me by sending me a letter giving your opinion of my general ability etc, particularly as applied to business -

My reason for this request is that the Managing Directorship of the British Dyestuffs Corporation, with which firm I have been for the last

three years, is now vacant & I am applying for the post.

Some members of the Board are thinking of bringing in an outside business man, with no knowledge of the Company's affairs, on the plea that, because I have been a soldier, they could not defend my appointment, as Managing Director, before the shareholders, should the latter object.

I need hardly tell you that after 3 years I have a very complete grasp

of the business as I have been
understudying the late managing Director,
who is also Chairman of the Board -

I am absolutely certain that I am
the right man for the post but I am
anxious to support my application
with letters from a few well known
men, like yourself, who have first
hand knowledge of my capabilities.

As the decision will be made
in the very near future, I should
be most grateful if you could
send by return a letter which
I could make use of -

I am looking forward to seeing

You in England again very soon.

I am most awfully grateful
to you for having taken so much
trouble on my behalf as I know
You are a very busy man these

days with many calls on your
time -

The situation has changed some-
-what since I wrote to you: our then
Chairman has resigned from the
Board & has been succeeded by
Lord Ashfield, who is head of
London's tubes & buses. He is
busy surveying the position &
will be formulating his scheme of
management in a fortnight or there

books, so your chit has arrived
at a most opportune moment.

I will let you know how things
turn out.

It is very refreshing to hear news
of one's friends in Canada as I
don't get many opportunities of meeting
Canadians in London as my work

I am delighted to hear that you

I am sorry to hear about MacB:
his wife's death must have been a

great blow to him as she was
such a cherry little woman.

I see George Farmer occasionally
here but otherwise I haven't seen
any other members of the Coops for

just a line to thank you
very much indeed for the copy
of Gibson's paper, which I found
awaiting my return, & to wish you,
though rather belated, the very best
for 1926 —

The paper was intensely interesting & brought back the old scenes most vividly but I was rather disappointed to find that there was not a single reference to the 2nd Div or any of its people.

After all we did actually take Coirecellette & Pascheudaele & I still think that we got as far as the 1st Div on April 9th 1917.

Please forgive this grouse; I don't
want to quarrel with Gibson but I
do think that, out of the mass of tributes
which he has bestowed, he might have
given one little bouquet to the old C.

I hope all goes well with you &
that your holiday quite set you up

Dear Sir,

Some two years ago Roy
Webster, of Woodstock, Ontario,
a returned soldier, borrowed
\$25.00 from his aunt, my brother's
wife in Philadelphia, Pa, promising
to return it as soon as he reached
home. Not yet paid.

At the time my brother was an
invalid, since passed away. His
wife sewed often sixteen hours a day
to keep the wolf from the door.

Some time ago she wrote me, and
I have endeavored to reach him,
but I am unable to locate him.
His father, John, W. Webster, lives in
Woodstock, Ontario, Canada.
He is abundantly able to pay it but
don't. I suppose he is tired of the

business. I think his ²son is somewhere
in the Northwest, not sure.

If there is anything you can do to make
him pay, I urge you to do it.

Dear Mr. Weisman:-

I have given careful attention to the subject matter of your letter of March 3rd, and beg to say,-

(1) That a fairly adequate presentation of matters pertaining to patents is already given in our course in Engineering Law.

(2) Much space is devoted to the matter in several of the manuals on Law which are specially prepared for the use of Engineers and which are readily accessible.

(3) Granting the importance of the matter to some Engineers, it seems to me unwise as far as McGill University is concerned to introduce a course of lectures on the subject of patents into an already overcrowded curriculum.

it seems to me unwise, and in this all of my colleagues whom I
have consulted agree, to introduce a course of lectures on the
subject of patents into our already overcrowded curriculum.

4th. An extension course of lectures on this subject might
possibly be successful. Some enquiry, however, would be necessary
in order to judge whether a sufficient number of practising
Engineers in the City would be interested.

S I R :--

During several years of patent practice in this city, I have found that Canadian engineers are almost entirely unfamiliar with patent matters, while engineers trained abroad, particularly in Germany, Sweden and Switzerland, have a fairly good grasp of the fundamentals of the subject.

In order to bring Canadian engineers to a par with foreign engineers in this respect and to provide Canadian engineers with an understanding of patents, which at one time or another is needed by every engineer, I would suggest the introduction of a course of lectures on Patents at McGill University. Such a course would be intended for engineering students, but should also be open to students in economics and others who may be interested. This course would teach engineers and others to know

When they have made a patentable invention,

To judge whether the invention is adequately protected by patent application papers prepared by a solicitor,

To estimate the scope and value of patents,

To understand intelligently a patent situation as it confronts the engineer or executive,

To estimate and supervise inventions of employees, and

To understand patent infringement.

Although it may appear that an engineer might leave such matters in the hands of a patent attorney,

--2--

the assistance of one who is skilled in the technical issue involved is indispensable. This assistance can come from no better source than the engineer who is primarily interested in the invention or patent in suit.

If you will grant me the honor of an interview, I shall be glad to lay the matter before you in greater detail and at the same time submit my qualifications for giving the course.

Trusting that this proposal will merit your serious consideration, I am--

Dear Sir:-

RE EX-SCOTS GUARDSMAN

Further to my letter to you of the 29th Sept. I duly took the question up regarding said Guardsman. Mr. Chisholm (Rev. John Chisholm, 190 Bishop St., Up. 3136) states that the only way this man could be looked after would be to try and get him back on a cattle boat; Mr. Chisholm would attend to trying to get passage for the man himself. We have had numerous inquiries from ex-soldiers trying to get free passage to England - many of the boys seem not to be satisfied in either England or Canada. In view of the above I would refer to the Rev. Mr. Chisholm who is one of the most active members of the British Immigration Aid Association of which your esteemed Principal is Vice-President.

Trusting the above information will assist you.

Dear Sir Arthur:

By this post I am
sending you a copy
of my new anthology,
"Later English Poems".
Pray read my Preface,
as it indicates clearly
why I prepared such
a book. A school
edition is to follow soon.

By the way, I should
like to write for the

Young people of Canada
a brief biography of
Canada's most renowned
soldier, - Sir A. W. Currie.

I could not essay such
a work without your
approval and, more,
your aid. I would
want to make a real
biography for the children
and young people of
the present and of
the future. Such a
book should be written
by a sympathetic con-
temporary, not by a
scholar of fifty years hence

I think such a book would
easily find an English publisher.

If I write such a document
I shall suppress myself entirely
in dealing with your school
days. I think you could trust
me to do the work well and
with constant discretion. It
would, of course, mean trouble for
you in furnishing me with
information and records.
Give the matter your
earnest consideration, please.

My dear Mrs. Wheatley:-

I am sorry that I have taken so long to acknowledge your letter of April 24th, but I took the matter up with the Bank authorities shortly after its receipt.

The Bank will keep your request in mind, but it is not always convenient to move members of the staff from one place to another in order to meet the wishes of families concerned. From what I can learn your son was moved from Victoria largely because it was thought a change would do him good. I almost feel like advising you, Mrs. Wheatley, that if you insist on your son being with you in Victoria, it would probably be best for him to leave the Bank. The clerks who progress the most rapidly and who rise to the highest positions are the ones who shew themselves most willing to conform to whatever the Bank deems to be in its own best interest.

I am sorry I cannot give you any great amount of encouragement, but those in charge of transfers say they will keep the matter of his transfer in mind.

My dear Sir,

I dare say you will not

upon you once at the "Empress"
here in regard to assisting
me to obtain a pension on

account of the loss of my
son S. Talbot Wheatley, who
died of wounds in France
in June 1916 - he belonged
to the 5th Regt in Victoria at
that time -

My husband suffered
from a stroke after the son's
death, and has been dicker
ever since - My second
son has been in the Bank of
Montreal for the past five

years, two years of which he has been
at Nelson - B. C. - he is 22 yrs of age.
I really require him at home,
both financially and otherwise
as his father is quite an invalid
& grieves about his boy's absence.
I applied last summer to the Sup^t
at Vancouver to have the change
made, but so far no action has taken
place - There are young men in the branches

here who have been here for years
to whom the change would make
no difference -

I wondered if you would use
your influence in my behalf
to arrange this matter.

I should esteem it a great
favor if you would consider
the case -

Trusting I am not troubling
you too much -

Yours Sincerely,
J. M. J. Wheatley

Dear Sir Arthur,

I am returning herewith letter of Mrs. J.M.T.Wheatley which you left with Mr. Spinney last week. I had hoped to see you following the Board meetings this week but unfortunately I was not informed in sufficient time to catch you before you left.

Mrs. Wheatley's son, C.H.Wheatley is at present attached to our Nelson Branch where he has been for approximately two years. He is twenty-two years of age and has been in the service since October 1919, and in view of nearly five years' experience his reports are not entirely satisfactory. He requires driving and is given to carelessness, faults which are within his own power to overcome.

When previously stationed in Victoria this young man apparently took on undesirable companions and was reported to be living beyond his means. Hence his transfer from Victoria.

In December 1922 he applied to the Superintendent for a transfer to Victoria on account of his father's illness. It was inconvenient at that time to make the transfer and the Superintendent did not consider it was necessary for the boy to be at home on account of his father's health.

As we have only recently merged two of our branches in Victoria it would be inconvenient to place Mr. Wheatley there and we are writing the Superintendent requesting that he keep him in mind for a transfer to the coast if he cannot conveniently be placed at Victoria at the present time.

I trust this will meet the case.

Dear Sir:-

I am very happy to comply with the request contained in your letter of January 10th. Will you please accept my good wishes for your success at the University.

If this something which is to take the place of war is ever satisfactorily established it will require the continued and enthusiastic support of all educated people. I believe the nucleus of that machinery lies in the League of Nations imperfect as that organization is at the present time, but we must not be impatient. War has been practised by mankind from the beginning of time and it would be too much to hope that it could be entirely done away with in only a few years.

Please give your cousin my good wishes also.

Ever yours faithfully,

Dear Sir,

may I presume to ask for your autograph?

I am a student in the University here, and my cousin served under you in the C. E. F. and was loud in your praise.

It was therefore with interest that I read a recent speech of yours in Canada.

If I might be permitted to say so, I think, sir, with you that the great common enemy of the peoples of this troubled earth is war itself, rather than one another; and if this state of mind - a widespread legacy from "the" war, can be crystallised into some machinery which will banish away that black cloud which continually threatens our civilisation, then, sir, the war will not have been fought in vain.

I hope you will be able to pardon the liberty I take in writing to you, and if you could send me your autograph I should be proud to have it.

Thanking you, I am,
yours sincerely,

Edmund Whittaker.

My dear Wilcox,-

I have your letter of May 12th and delayed answering it in the hope that I would see Col. Foster and Mr. Deane as you stated they would call to see me. I am sorry I have not seen them and as, today, I am leaving the city for a period of two weeks it is hardly likely that I shall see them.

I remember you very well, Wilcox, as a member of the 52nd Battalion a unit which certainly did credit to anyone connected with it. I also know of the service of your family and certainly all are to be congratulated.

I note that you say that the S.C.R. may shortly curtail their activities in Victoria and that you would like a position of some sort. I can say nothing more at the present time than that I will keep your request in mind and I hope that the future may give me an opportunity of assisting you to get a position, and I assure you it would be a pleasure for me to do so. Please keep me posted regarding any particular position which you would like and I will always use what influence I can bring to bear to help you.

Dear Ridgway:-

I acknowledge the receipt of your letter of February 1st and wish to thank you for your congratulations on my joining the Directorate of the Bank of Montreal.

I note that you are desirous of being appointed Architect in charge of all B. of M. work on Vancouver Island. If at any time I can put in a word for you in this connection I shall be very glad to do so, and will take the first opportunity of mentioning the matter to the Bank authorities. It would also help a little, I think, if you were to write to Mr. H. B. Mackenzie, who is now the Manager of The Royal Trust Company, not the Montreal Trust Company. The association between the Bank of Montreal and The Royal Trust is very close, whereas the Montreal Trust is rather closely associated with the Royal Bank.

I should think there ought soon to be a speeding up in the building line. There was so little done during the War that the normal increase in population demands increased accommodation. It is interesting to know that the Hudson Bay Building is to be opened shortly, and that work in connection with the Dry Dock will soon begin. Victoria has always derived a good deal of satisfaction from knowing that works like the Dry Dock and the Johnson Street bridge are being undertaken. My mind goes back to the time when we in Victoria based our hopes for prosperity on Riley and the Dredge. Too often, I think, have the people out there looked to the Government to keep things going and too seldom have they put their own shoulders to the wheel to shove things along.

Dear Sir Joseph:-

Let me first recall to your memory who I am. I am General Currie, who during the closing years of the War commanded the Canadian Corps. I had the honour of meeting you on several occasions, both in England and in Paris when you were attending the Peace Conference.

The purpose of this letter is to introduce to you Lieut.-Colonel J. L. Ralston, C.M.G., D.S.O. Colonel Ralston at the close of the War commanded the 85th Battalion Nova Scotia Highlanders. All his service was with them. He was four times wounded, and, as you can see, was rewarded for outstanding services.

In private life he is a lawyer, is a K.C. and has been a member of the Nova Scotia Legislature.

He is visiting New Zealand for the first time and I shall much appreciate anything you may be able to do for him. I have every confidence that both of you will derive much pleasure from your acquaintance.

With all good wishes and hoping that some time we may meet again, I am,

Ever yours faithfully,

The old city deserves all the good fortune in the world, for of all the places in which my lot has been cast, there is none which I would prefer to Victoria as a place of residence.

While efforts to secure industries are legitimate, still the sooner that Victoria makes up its mind that it cannot compare with many other places as a great industrial centre, the better. It can be one of the very finest residential cities in North America continent, or in the world, for that matter. Such being the case, it is hard for one on the outside to see just why such a project as municipal golf links is turned down. It may be that the proposal as submitted was not satisfactory, yet the principle of municipal golf links is one of which every citizen should approve.

Lady Currie joins me in cordially reciprocating your good wishes.

Dear Sir Arthur.

I see by the papers that you have been appointed a Director of the Bank of Montreal an honor I have no doubt you will appreciate and on which may I offer my congratulations.

As I am, like many others worrying out every scheme and opening to get back into business and incidentally having a mighty hard struggle; it suddenly occurred to me that you might be able to help in one matter by getting me appointed Architect in charge of all Bank of M. work around this Island. It does not amount to very much but every little helps and at the present ~~moment~~ moment I know of something that could come my way at once.

I might explain that for all big Bank premises they usually have ^{plans} prepared or approved by their Head Architect in Montreal (who used to be a Mr. Taylor whom I once met here) and they then in most cases have a local man to carry on the work who has charge of any other smaller work on their properties in the neighbourhood.

When I call on other Banks looking for business they usually reply that they naturally give preference to their own customers which is reasonable; I have kept my account at the old Bank of B.N.A. for nearly thirty years and re-built that building which is now Bank of Montreal I am also well and favourably known to

Mr. H.B.Mackenzie. late Assist. Gen. Manager I think of the B. of M. and now of the Montreal Trust Coy. I enclose a memorandum showing some of my recent works as a reminder and . . . well you know as much as I can tell you about myself.

Now I am not sure just where the settlement of these things comes from I suppose there may be some Provincial head in Vancouver unknown to me and who knows me not, but the general impression in such matters is that if one can only get the good-will and backing of a Director at Montreal and he cares to press the matter that is all that is necessary.

I do not think I should be doing any local man an injury; when Rattenbury did their work I never expected or wished to "butt in" but he has not been in the Architect's business for some years and has told me he does not wish to be, he has his hands full enough with "Rattenbury Lands" so it seems I have as much right as anyone and perhaps more need, and I think my record of thirty years here will stand scrutiny as well as the next man. I hope I am not taking too great a liberty in asking your assistance but I have been trying for nearly twelve months now to get my old business connection together but after 5½ years break and not a great deal doing it takes some patience, however

I believe there will be good business in the near future it is merely a question of hanging on by one's eyebrows until the time comes and I have had to rustle as I never did before.

It may interest you to know that the big Hudson's Bay building ^{here} is now being finished at a cost of nearly three quarters of a million dollars having already spent nearly as much on the main building, this will probably open up about next May the contract for the five million dollar Dry Dock is also let and work is just about to begin also the Johnson St. Bridge Contracts are let running to altogether about $\frac{3}{4}$ of a million and building generally is looking up as prices are coming down so this little old 'burg may have a new lease of life yet long enough I hope to set some of us on our feet again.

Dear Sir Arthur,

I thought I would let you know of my doings since I saw you last. I also sincerely trust you are enjoying good health, which is the best wish of all, don't you think. I have taken up the matter of my syndicate here with Dr. Shillington, one time A.D.M.S. in the C.C.F. now living on Gilmour St. here, & he is getting in touch with different investors with a view of getting the work started before the snow comes, but I cannot say what success I'll have yet financially. I have reduced the amount from \$4,000 to \$1,500, with the same interest as before. In the meantime I have taken over the advertising end here for the Tuckett Tobacco Co, & like the work very much, a very congenial business, but will be always ready to take up Mining again. Have you seen any interesting parties in Montreal recently, Sir Arthur, the American makes the investor in such business as this, doesn't he.

From time to time I will let you know how the affair is moving, knowing that I can obtain good friendly advice from you, a big asset to a man in my position. With best personal regards

I am afraid I cannot say very much about the feeling towards mining operations in Montreal, as the people whom I meet the oftenest do not deal very much in that class of industry, although I have heard it mentioned on more than one occasion that there is likely to be great activity in the mining areas during the coming summer.

Everything is going very well at the University, and one's time is very fully occupied.

Dear Sir Arthur,
Once again I wish to acquaint you with my movements concerning those Mining Claims of mine which I had tried to syndicate.
I have today written Sir John Carson about them, to ask him to send his Engineers to look at them this coming Spring in order to take up an Option if found to be warranted an Option which would be very agreeable to his Coy. inasfar as I would let them work it on a Free Option for 6 months, providing they performed so much work, after that to take a share of the land.
Sir John may phone you, I have asked him to do so, so that he will remember me, or rather, recall me, it being over 7 months since I saw him in Montreal, when you so kindly gave me the introductory letter to him.
Various reports had me to the opinion that

The Gold Areas will boom next summer, I sincerely hope so, so that I can sell off these Claims & go to The South.

What is the general feeling in Montreal in respect to Mines etc. in Arthur, its a very far fetched question, I know, but you may know, I thought.

I sincerely trust you are enjoying the very best of health, please except my warmest regards,

My dear Eddie:-

Thank you very much for the congratulations contained in your letter of the 10th of December.

I certainly appreciate very much the honour of being a member of the Board of Directors of the Bank of Montreal. I know the close association which exists between it and the Royal Trust, and if I can be of any assistance to you at any time, I shall be only too happy to help.

There is nothing that I can suggest at the present time as to a way of making easy money. I find the feeling here most cautious and conservative, though for a man who desires investment, many of the bonds offering ought to appear most attractive at their present prices. There is, of course, too much selling going on and too few buyers apparently. If I can give you any good advice at any time be sure I shall do so.

I did not see Sam the last time I was out. I telephoned but found that he was away on the farm, and of course, I was there only a day or so. I hope the old boy is well and making a success of all his ventures. It would be a pity, though, if he stuck too much to his farm. I think Sam is a fellow who should from time to time buy some gilt edged securities and stock them away with the firm determination not to touch them.

I do not know when I shall get out to B.C. again, thought the last trip was a surprise

Dear Sir Arthur

A few lines to tell you I am in hospital and have been for the past six weeks. I am now on my way to an early recovery thanks to the very good care I have received while here. I read of your visit to this city some time ago and did not like to ask you to see me as I knew your time would be all taken up during your short stay. I wish to thank you for your kindness to me while in Montreal and also hope you are enjoying the best of health.

I know I will appreciate
good health when I leave
here. Hoping I may receive
a line from you I am
Yours most sincerely

P.S. Please excuse my unsteady
writing. Sitting up in bed.

tired none of us believed there was
an armistice!

Col Bennett told me that No. 1 C.C.S.

be moved down or feet out on march
forward - It is the Army of Fate
that my "Preparedness" then, has cost me

9 yrs. of misery! Sometimes memories of the beauties of the Rhine, your kind Hospitality etc., and the sentiment of being with the Canadian Corps. to the end are ample compensation - at other times, I wonder if anything could possibly be worth such a price!

Wishing you all the success at McGill you had in France, and hoping that you still visit the Hospitals sometimes, and find your way to Room 17.

Dear Mr. Montizambert:-

I have a letter from Jack B. Wood, 127 Beechwood Avenue, Victoria, in which he asks me to give him a general letter of recommendation. He states that he is going to England almost at once to endeavour to secure an agency for the "Ace" Motor car.

When I lived in Victoria before the war there were several men by the name of Wood in the motor car business. One, we used to call Jake Wood, who before taking up the motor business, was a policeman. He had a brother whose christian name I have forgotten. There was also a Jack Wood or Woods who owned his own car and was in the general Livery business.

I would like to know which Wood it is before I give such a letter as he desires and I would also like your opinion as to how far one could go.

Thanking you in anticipation and with all good wishes,

Yours faithfully,

Dear Sir Arthur:

You will think me very remiss in not answering your enquiry about Jack B. Wood sooner. I have made every endeavour to locate him, without avail. Two men in the office have been making enquiries, but he is not to be found at the address you give.

I regret my inability to furnish you with any information about this man.

My dear Sir Arthur,

Sir Godfrey Thomas has sent me the enclosed which was received by His Royal Highness the other day, saying that Lord Renfrew would be grateful if the case could be looked into. As I am rather at a loss to know which is the best Association in Montreal to enquire into a case of this kind, I should be much obliged if you would be good enough to have enquiries made, and let me know whether anything can be properly done in the matter. It might possibly be dealt with by the local G.W.V.A. but there may be some other organization for cases of this kind. ?

With kind regards.

Your Royal Highness.

I venture to write a request
on your return to Canada, and can
only trust you will forgive my troubling
you - on this occasion.

I am an ex Scots Guardsman
and was invalided prior to the War
from Milbanke, but served in 1914
with the Artillery - was again invalided
but managed to join up again with
the 3rd Gordons.

I have been in Canada since
last June, a year ago. whether I am too
old - or not strong enough for work
over here - I do not know. but I.

- feel I must return to England.
before another winter sets in.

I have lately been laid up with double pneumonia - and it has weakened me greatly. I am making, what may appear, a very extraordinary request, but will you exert your influence to assist me to return to London. In whatever way is possible. I will try and return your kindness, by contributing what I can to the British Legion - or any return, or any ex. service men's - association - you may care to name. as I can draw a small amount - monthly out of a Trust Income. but not a sufficient amount in ready money.

I have the honour to be

Dear Sir:-

There has been forwarded to Sir Arthur Currie an application which was made to Lord Renfrew by a man who calls himself an ex-Scots Guardsman.

This man states that he is in poor health and very anxious to be assisted to return to England. The cost of a third class passage is \$90.00. I am not going to ask you to investigate the case at all until I have interviewed the soldier himself, but I would be very glad if in the meantime you would let me know if you know of any fund available for cases of this nature.

Dear Sir:

Your letter to Mr Thompson of the Central G.W.V.A. was handed to Mr. R.E.C.Werry, president, who has passed it on to the British Immigration Aid Association for our suggestion or action. After careful inquiry at various sources, which has caused our delay in replying to the inquiry, we find no fund available for such a case. The Government, the railway companies and other agencies provide only for bringing people to Canada. There are, however, three ways of helping the man one of which may be applied. We could appeal through the press for his passage money. He could be deported if there are sufficient grounds; or, he could work his passage back either on a passenger or a cattle boat.

The latter would probably be the easiest thing to arrange provided he would and could take on such work. I understand you are investigating his case. I also am told that he saw our Mr. Chisholm. If you find that he can work and would be prepared to do so we will be glad to do all we can to place him on a boat. If it is a deportation case the G.W.V.A. can attend to it as well as anyone.

Yours truly,

A. I. Morison
