ELK LAKE-GOWGANDA ROAD URGED BY 500 PIONEERS

Railway Needs of the Northern Mining Country Forcefully Presented to the Government—All Classes Represented in the Deputation—Extension of T. & N. O. Would Promote Colonization.

THE PLEA FOR A RAILWAY INTO ELK LAKE AND GOWGANDA IS A BUSINESS PROPOSAL, FOR WE HAVE THE TORONAGE BOTH COMING AND GOING TO PAY THE RAILWAY FOR ITS INVESTMENT.

Yesterday was a great day for the Montreal River silver mining district; 10-day is expected to be even greater.

Yesterday afternoon between 400 and 500 men from New Ontario, particularly from Elk Lake and Gowganda, at the call of Dr. Harcourt and Col. McKee of Elk, M. L. Foley of Toronto and Gowganda, Walter E. Hensley of New York and Gowganda, assembled in public meeting in Victoria Hall to discuss the reasons why the Ontario Government should build a branch line of the T. & N. O. Railway from Charlton to Elk Lake and on to Gowganda.

It was an army of pioneers in the great new Ontario mineral and agricultural belt that took possession of Victoria Hall yesterday afternoon. They were serious men, rugged, full-blooded and tuned to a purpose.

An Army of Pioneers.

It was an army of pioneers in the great new Ontario mineral and agricultural belt that took possession of Victoria Hall yesterday afternoon. They were serious men, rugged, full-blooded and tuned to a purpose.

Reasons Put in Brief.

Many speeches were heard; many arguments advanced. After the meeting, every pioneer was ready to talk. Summarized, the arguments advanced may be thus stated:

Why should Porcupine be favored and Elk Lake and Gowganda not favored? Why should the Government build the line, while it debase let some one else do it? The Elk Lake and Gowganda people are serious enough and have faith enough in their properties, to undertake the work.

Without a railway Elk Lake and Gowganda with their millions invested in development work. This looks like business, and we have a business government in Ontario.

Great is the T. & N. O. Railway has been the greatest blessing New Ontario has known. Let the blessing continue and also let it spread to Elk Lake and Gowganda.

Colonel McKee Fights.

Toronto and the Temiskaming Country.

The Cobalt Nugget has a leading article on "Toronto and Northern Ontario Trade," in which it refers to President Gourlay's (Toronto Board of Trade) speech, recommending a special committee of the board to plan for development of the trade of this city with New Ontario.

"People here are being slowly impressed with the idea that Toronto business men have not the slightest disposition to investigate and see if the appeals made to Northern Ontario are correct or not.

"Northern Ontario is developing very rapidly, and is a splendid market for the merchants and manufacturers of the great trade cities of the south and east.

"It will be a pity if indifference on the part of Toronto business men prejudice the consuming public of this great section against the very city with whom we should establish the closest relations.

The World for two years or more has been trying to impress on the business men of Toronto, on the government of Ontario, on the Temiskaming Railway Commission, the importance of this subject.

The meeting in this city yesterday of the Gowganda and Elk Lake mining interests bears out in this matter.

Addressing Large Assembly at Bible Tercentenary Celebration, Rev. John Ritson Sounds Warning.

YELLOW PERIL NOT A PHANTOM

Three thousand people testified in mass meeting in Massey Hall last night to the interest the Bible holds for Toronto people.

His Honor Lieutenant-Governor Gibson, moved the resolution which was seconded by Chancellor Burwash and unanimously adopted, expressing gratitude for the English Bible, and recognizing the unique bond it had proved to be in uniting English-speaking people in all quarters of the globe.

Devolitional exercises were led by Rev. John Neill, D.D., westminister Presbyterian Church; Right Rev. J. F. Sweeney, D.D., Bishop of Toronto, and N. W. Hoyle, K.C., L.L.D., president of the University of Toronto.

Why should Porcupine be favored and Elk Lake and Gowganda not favored? Why should the Government build the line, while it debase let some one else do it? The Elk Lake and Gowganda people are serious enough and have faith enough in their properties, to undertake the work.

Without a railway Elk Lake and Gowganda with their millions invested in development work. This looks like business, and we have a business government in Ontario.

Great is the T. & N. O. Railway has been the greatest blessing New Ontario has known. Let the blessing continue and also let it spread to Elk Lake and Gowganda.

A PLUNGE INTO THE DARK

Making Jack Canuck Walk the Plank.

RECIPROcity BILL PASSES HOUSE OF REPS. BY 221 TO 92

Carried by Aid of Almost Solid Democratic Vote

Three Railways From Toronto to Belleville

The C. P. R., C. N. R. and an Electric Road All Pushing Ahead to Help the G. T. R. to Do the Business.

Things are getting lively in regard to railways east of Toronto. For 50 years and more the Grand Trunk has had a monopoly of the territory and towns along the lake front, the Canadian Pacific of the country in the rear.

The C. P. R. propose to supplement their steam line from Cobourg to Toronto by an electric road running on the Kingston-road from Cobourg, through Bowmanville, Oshawa, Whitby, Pickering to the county line between Ontario and York, whence it will run to Toronto over the steam road now being built.

As to lines and the towns: The G. T. R. is a long way, from the centres of Whitby, Oshawa, Bowmanville and Cobourg; the C. N. R. will be still more distant from Whitby, Oshawa and Bowmanville, but proposes to go through them with an electric road; the C. P. R. proposes to get right into them direct, from Whitby to Belleville, and to run a fast service.

The Great Heath Hat. The celebrated English hats, as sold by Heath in his five special stores in London and in the New York agency on Fifth-avenue, are now on sale at Dineen's, 140 Yonge-street. Dineen is sole Canadian agent for these hats and for those of Dunlop of New York. You will find every new block issue this year now on sale.

WORLD SUBSCRIBERS are kindly requested to telegraph the Post-Office Department, M. 5208, regarding irregular or late delivery of their paper.

HAVE POLITICAL OBJECT IN VIEW

Hon. George E. Foster Declares that U. S. Aim is Not Economical—Spells Continental Union—In Five Years Trusts Would Gobble Everything in Sight.

OTTAWA, Feb. 14.—(Special.)—Hon. Geo. E. Foster presented the Conservative case against reciprocity with the United States in the house of commons to-day, concluding the partially delivered speech of Thursday last. He dealt with the question open-handedly, commencing at a few minutes past three and did not conclude until a quarter of six.

Mr. Foster's arraignment of the government was severe. His chief argument was that acceptance of the reciprocity proposals means abandonment of the confederation ideal, developed since 1867. The object of the United States was political, not economical, in short, it spelt continental union.

A Broken Pledge. He charged Sir Wilfrid Laurier with breaking his pledge not to revise the tariff, until a commission had been appointed and showed the helplessness of the government in the face of the fruit growers' demands, replying that it was "too late." This was all the more remarkable in view of the fact that a telegram expressing satisfaction with prevailing conditions had been received from the Fruit Growers' Convention on Dec. 15. He challenged the statement that the preference had been scrupulously maintained, and argued that profitable reciprocity would have been with the West Indies and Great Britain. He asked if Canada was thru with responsible government, and said:

BAD WRECK IN FRANCE

Paris-Brest Express in Collision—At Least Ten Are Dead.

COURVILLE, France, Feb. 14.—A bad collision occurred near here this evening on the western section of the State Railroad, when the expresses for Paris and Brest dashed simultaneously onto a freight train which was being side-tracked. The wreckage immediately caught fire.

HOTEL GUESTS BARELY ESCAPED

ST. JOHN, N.B., Feb. 14.—A fire broke out a few minutes before 1 o'clock this morning in the Felix Hebert Hotel, Edmundston, N.B., of which J. M. Siro is the proprietor.

NO CHANGE IN POLICY.

MONTREAL, Feb. 14.—(Special.)—L. J. Tarte of La Patrie, gave out this evening a statement that there is absolutely no truth in the report that Mr. Thomas Coyle will join the staff of La Patrie in order to conduct a pro-reciprocity campaign. He has accepted a position on the staff like any other writer, and will be subject to the policy of the paper.

THE CANADA FIRST PARTY.

EditorWorld: Let us all join in and revive the Canada First party as an organization to fight the annexation movement contained in the reciprocity deal. It is a national party. Sound the rally and the men and young men will fall into line. Canada For Ever.

SENATE REFORM.

OTTAWA, Feb. 14.—(Special.)—Major Sharpe, North Ontario, has given notice of a resolution calling for the appointment of a committee of five to meet with a similar committee of the senate to consider and report upon a plan of reform of the senate.

A Play With a Moral. A powerful lesson in fashioning one's expenditure according to one's income is taught by "The Spendthrift" the entertaining play by Porter Emerson Browne, that is at the Princess Theatre this week. "The Spendthrift" appeals to all classes.

Gaelic League. The Gaelic League will meet to-night at 64 Henry-street.

HAMILTON HAPPENINGS

LACK OF POWER TIES UP HAMILTON FACTORIES

Street Railway and Interurban Lines Blocked—Steam Railways Feel Effect of Blizzard.

HAMILTON, Feb. 14.—(Special)—The snow storm which commenced last night in a mild snow fall and followed up this morning with a heavy snow fall, increased to-night to a terrific gale, and since dark set in the whole city has been completely at the mercy of the elements. Thru lack of power no factories worked to-day, the newspapers published under difficulties, and indications all point to the continuation of the tie-up for a couple of days.

Early this morning the street railway and the interurban lines were blocked. A car from the street railway on the Dundas line about 9 o'clock and no more were sent out on any lines after it was replaced on the rails. By 8 o'clock to-night the street railroads started to feel the effects of the blizzard. Trains 12 and 17 westbound on the T. H. & D. and M.C.R. lines to London were cancelled, and all other trains were running away off schedule. On the Grand Trunk the evening train for Jarvis and Port Dover was started going up the mountain. It ran back to the city and a steam rotary sent out to clear the road jumped the track at Ferguson-avenue and Wilson-street. It was replaced without any damage having been done. All Grand Trunk trains are late. So far the telephone and telegraph companies have had little trouble.

John Carter, arrested for the Hamilton police in Toronto in charge of passing a worthless cheque for \$35 on the Empire Hotel of this city, was brought back this evening by Detective Bleskely.

The interdenominational missionary institute closed its two-day session to-night. Rev. R. F. MacKay, D. D., Toronto, spoke on modern missionary movements, specially referring to and lauding the Hague Tribunal and the great republic conference in Washington. Archdeacon Cody, Toronto, failed to show up owing to the severity of the weather, and Rev. G. M. Ross took his place with an address on China. Dr. MacKay also spoke this afternoon and deplored the lack of prayer in the home, calling for a revival of the Young Men's Christian association. He suggested more missionary teaching in the Sunday schools.

Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, was recently situated and easily reached from all parts of the city. Erected in 1908. Modern and strictly first-class European plan. Rates \$1.50 to \$2 per day. Thos. Hanrahan, proprietor, phone 1455.

HARTNEY FORCES ISSUE

Motion to Appoint Superintendent of Education Soon to Be Made.

"That in view of the increasing complexity of the educational problems of Toronto and of the desirability of a more economic correlation of the various educational forces, a superintendent of education be appointed."

The above resolution will be introduced by Trustee Fred B. Hartney at an early board meeting, giving the members of the board an opportunity to say which system they prefer, the present one, or that with the one head over all.

A number of the trustees are in favor of the one supreme head, and it is thought it will likely carry.

SAID GOOD-BYE

Archbishop Gauthier Presented With Purse of Gold and Cross.

KINGSTON, Feb. 14.—(Special)—St. Mary's Cathedral was filled to the doors to-night when the congregation said farewell to Archbishop Gauthier who leaves for Ottawa Wednesday afternoon. The congregation presented him with an address and a purse of gold of \$2000, and the laity presented a golden pectoral cross and an address. After the ceremonies at the church the archbishop gave a banquet to the clergy at the palace. At 8 a. m. tomorrow his grace will say his last mass in the cathedral for the children.

George Dove Acquitted.

Magistrate Kingsford yesterday dismissed George Frank Dove, charged with fraudulently alluring Mabel Lewis, 19 years, from her parents' home in Dufferin-street.

The girl stated that Dove presented her with a marriage certificate and a ring in September, but denied that he had spoken to her about marriage.

The magistrate concluded that she had gone of her own free will.

James Davidson, Ernest Kinnard, George Meider and Benjamin Cook were fined \$1 each and costs for fighting in the street.

A Different Player-Plan.

It is worth while to drop into the restaurant of the old firm of Youngman & Co., Ltd., 192-195-197 Yonge-street, and learn something of a new creation in player-planes, built by the firm, noted for its skill in the building of high grade planes.

LAZY LIVER

"I find Cascarets so good that I would not do without them. I was troubled a great deal with torpid liver and headache. Now since taking Cascarets I feel very healthy and feel very much better. I shall certainly recommend them to my friends as the best medicine I have ever seen."

Anna Babin, Res. Osborn Mill No. 2, Fall River, Mass.

Pleasant, Palatable, Potent, Taste Good. Do Good. Never Sickens. Cures Constipation. Always Reliable. Guaranteed to cure or your money back.

TEST

How Big Trunk Sewer is Being Engineered

'Tis a Veritable Romance of the Underground World—A Personally Conducted Tour.

A visitor to Toronto in the past few months who had occasion to pass along West Adelaide-street, doubtless wondered at many places along the street huge piles of bricks were heaped up and hoisting engines stationed at intervals busily engaged in pulling up buckets of clay and lowering bricks. To a Torontonian who knew the reason it would only be a matter of moments to explain that these were only visible signs of a great work being carried on by the city engineering department. In the construction of the high level interceptor of the trunk sewerage system, had that visitor taken the trouble to follow the workings along the course of this great sewer, he would have found that the system of excavation changed from tunnelling to open trench work with steam shovels and had been so fortunate as to get the company of Engineer Wilfred Hollingworth on the trip. The engineer has learned a number of interesting things about sewage disposal.

SOCIETY NOTES

The many friends of Mrs. E. J. Evans of Victoria-street, who has been only ill in Grace Hospital, will be pleased to know that she has sufficiently recovered to return to her home.

Mrs. Donald Sutherland, 83 Dewson-street, will receive on Friday, Feb. 17, Mr. and Mrs. W. B. Somerset of 29 Warren-road left Saturday for a few weeks in the south.

A bright, attractive scene will be presented at the armories on the afternoon of Saturday, Feb. 25, when the doors of the automobile show open. Although the show will have its official opening by Hon. J. M. Gibson, lieutenant-governor, on Saturday evening at 8. An army of decorators is at work upon the interior, transforming the lofty ceiling and walls from their dull brick red to a waving canopy of white and blue and crimson. The promenade spaces will afford plenty of room and the music of bands in the gallery will contribute to the cheerfulness of the occasion.

RACINE STIRS UP RACIAL ISSUE

Continued From Page 1.

assistance, are not being properly looked after. The results are not good in them as in our separate schools."

Mr. Racine would be glad to see Ontario and Quebec get closer together—"get mixed," is the way he put it. He was glad to see the vote of 100,000 towards the ten-century fund and last night he would go long way in this direction. But he prophesied that his honorable friend, G. H. Ferguson from Grenville, would live to regret the motion he had introduced regarding bilingual schools.

Sir James Whitney rose to protest that it was clearly contrary to the elementary rules of procedure to refer to a subject which was already on the order paper. It should not be discussed at that order of business was reached.

Treatment of North Country. A. Aubin, French Conservative member from Sturgeon Falls, contrasted the treatment accorded to the north country under Liberal and Conservative rule.

The present government was getting as much revenue from small areas of timber to-day as the old government did for immensely large areas. The present government was getting its word to the people in every particular.

Mr. Donovan, with some warmth, protested against the expressions of the member for East Hamilton, especially in saying that some of the members acted as if their main desire was to get grants for their ridings sufficient to insure their re-election. This Mr. Donovan emphatically denied.

Mr. Studholme convulsed the house by declaring that Mr. Donovan probably knew less upon the question than any other member of the house. He was personally convinced that Hon. Col. Matheson was a careful treasurer and was unable to do more for New Ontario owing to the persistence of members from Old Ontario for local grants.

Doesn't Fear Reciprocity. The provincial treasurer had described the possible loss of revenue on the R. and N. O. thru reciprocity, but with an enterprising development of the hinterland of Ontario, there would be no lack of freight for the government.

If the government would not seize the opportunity which New Ontario offered for creating a new rich farming section, with a home market at Toronto, to the leader of the opposition should he not know if the leader of the opposition was brave enough to do so.

Stu-Jones closed by announcing that he would oppose every item for immigration when in supply.

Hon. G. MacKay moved the adjournment of the debate. At the instance of the city council, W. D. Macpherson gave notice that he would introduce a bill giving the right of way over streets and highways while proceeding to a fire or answering a fire alarm call.

George H. Gooderham, South Toronto, has given notice to amend the Public Health Act. The bill is that proposed by the Barbers' Union, the features of which have been published.

How Big Trunk Sewer is Being Engineered

'Tis a Veritable Romance of the Underground World—A Personally Conducted Tour.

A visitor to Toronto in the past few months who had occasion to pass along West Adelaide-street, doubtless wondered at many places along the street huge piles of bricks were heaped up and hoisting engines stationed at intervals busily engaged in pulling up buckets of clay and lowering bricks. To a Torontonian who knew the reason it would only be a matter of moments to explain that these were only visible signs of a great work being carried on by the city engineering department. In the construction of the high level interceptor of the trunk sewerage system, had that visitor taken the trouble to follow the workings along the course of this great sewer, he would have found that the system of excavation changed from tunnelling to open trench work with steam shovels and had been so fortunate as to get the company of Engineer Wilfred Hollingworth on the trip. The engineer has learned a number of interesting things about sewage disposal.

Course of Sewage. Thru the kindness of A. G. D. Blanchard, the engineer who has charge of this important work for the city, a World reporter was permitted to accompany Mr. Hollingworth on his daily trip he makes over the works. They started in at the treatment tanks at the foot of Morley-street. These are huge inverted iron siphons, which are encased in a concrete wall and will eventually be covered over with brick red to a waving canopy of white and blue and crimson. The promenade spaces will afford plenty of room and the music of bands in the gallery will contribute to the cheerfulness of the occasion.

The sewage comes into a large canal at one side and travels thru the many compartments from various openings. Here it deposits the solids on the apex of the inverted iron siphon. The siphon openings near the top the liquid flows off to the drainage pipe 5 feet in diameter, which carries it thru the bottom of Ashbridge-bay into a portion of the island out into 55 feet of water in the lake for a distance of 200 feet. At this point there is still another 500 feet of drainage pipe which discharges the liquid into the lake, distributed in such quantities that the oxygen from the air does a great extent, destroy the bacteria which the liquid contains. Or rather it would be more correct to say that this is the case when the system is put into operation.

Much work remains to be done before this takes place. The pipes at the outlet are made thru one of the short sections near the shore, and this will be connected up early in the spring. The pipes under the water in the lake, which are made of a cast iron, the drain thru Ashbridge-bay will be of concrete laid down in sections of 10 feet. These are already placed in position.

The Pumping Station. A few hundred feet west of the separation works a large concrete pumping station will be built. The sewage from the low level interceptor will be pumped up to this station, where it will be pumped into a completed part of the work for about two blocks. The gangs removing the earth were just arranging their platforms preparatory to starting work on the trench. The completed work of the tube, now about eight feet in diameter, the ascent was made thru another shaft to the street.

A Subterranean Trip. It was on West Adelaide-street that the first tunnel work was encountered. A descent was made thru one of the shafts by a ladder to the tube, which is about 20 feet below the surface of the street. With the light of candles the engineer made his way down. It is imperative that no fall be lost, particularly as the high level interceptor carries its sewage to the lake entirely by the force of gravity.

With that the engineer started the engine and the muddy shove went into sight. Mr. Hollingworth grasped the ball and pulled it over to the side of the platform. The reporter stepped into the tube, which was about 4 feet in diameter. The signal was given and they were lowered into a completed section of the brick pipe of the interceptor. It is a circular tube composed of three layers of sewer brick laid tight to the earth, which has only been excavated sufficiently for the actual size of the tube. The part of the tube was lit by electricity.

Welded Noses. As soon as the rattle of the hoisting chains had ceased, there came a peculiar sound like that of a muskrat trumpeting for it mate in a lake-side marsh. After a while of about a block long the tube of origin of the sound was discovered. Or to be correct, it was a trio of sounds almost as high as the first, the pty changed to a work with picks hacking out chunks of blue clay. They punctured every blow with an audible discharge of sparks. The noise was a low, steady hum like three miniature gasoline engines at work. They were clad only in shoes, overalls and summer undershirts and were perspiring like a fat man in a Turkish bath. The reporter was inclined to pity them at first, but when he was told that they frequently make as high as \$10 per day, the pity changed to envy. These men are experts in what is known as sewer mining, and besides a good wage, are given a bonus for an exceptional day's work.

Back of these three men are two others. They are known as muckers. They place the earth which has become loosened into buckets similar to the one in which the descent was made, and run them on a little truck to the shaft where the hoisting engine raises them. From the shaft the earth is teamed away in wagons.

Masons Work at Night. After watching the work for a few minutes, Mr. Hollingworth and the reporter started back along the tube. They passed the shaft and went about half-way to York-street, where another shaft of men with another trio of miners, emitting the same peculiar sounds, was at work.

Mr. Hollingworth explained that these men did the excavating during the day, and the muckers bring up what they have excavated during the night.

There was another trip back to the shaft, during which one of the mud cars was encountered, and the reporter had to sit in the mud for a few minutes. The trip over the tunnel to let it pass. The bucket and hoisting engine was again utilized to get back to the street level.

The trip over the tunnel to let it pass. The bucket and hoisting engine was again utilized to get back to the street level.

They place the earth which has become loosened into buckets similar to the one in which the descent was made, and run them on a little truck to the shaft where the hoisting engine raises them. From the shaft the earth is teamed away in wagons.

Masons Work at Night. After watching the work for a few minutes, Mr. Hollingworth and the reporter started back along the tube. They passed the shaft and went about half-way to York-street, where another shaft of men with another trio of miners, emitting the same peculiar sounds, was at work.

Mr. Hollingworth explained that these men did the excavating during the day, and the muckers bring up what they have excavated during the night.

There was another trip back to the shaft, during which one of the mud cars was encountered, and the reporter had to sit in the mud for a few minutes. The trip over the tunnel to let it pass. The bucket and hoisting engine was again utilized to get back to the street level.

How Big Trunk Sewer is Being Engineered

'Tis a Veritable Romance of the Underground World—A Personally Conducted Tour.

A visitor to Toronto in the past few months who had occasion to pass along West Adelaide-street, doubtless wondered at many places along the street huge piles of bricks were heaped up and hoisting engines stationed at intervals busily engaged in pulling up buckets of clay and lowering bricks. To a Torontonian who knew the reason it would only be a matter of moments to explain that these were only visible signs of a great work being carried on by the city engineering department. In the construction of the high level interceptor of the trunk sewerage system, had that visitor taken the trouble to follow the workings along the course of this great sewer, he would have found that the system of excavation changed from tunnelling to open trench work with steam shovels and had been so fortunate as to get the company of Engineer Wilfred Hollingworth on the trip. The engineer has learned a number of interesting things about sewage disposal.

Course of Sewage. Thru the kindness of A. G. D. Blanchard, the engineer who has charge of this important work for the city, a World reporter was permitted to accompany Mr. Hollingworth on his daily trip he makes over the works. They started in at the treatment tanks at the foot of Morley-street. These are huge inverted iron siphons, which are encased in a concrete wall and will eventually be covered over with brick red to a waving canopy of white and blue and crimson. The promenade spaces will afford plenty of room and the music of bands in the gallery will contribute to the cheerfulness of the occasion.

The sewage comes into a large canal at one side and travels thru the many compartments from various openings. Here it deposits the solids on the apex of the inverted iron siphon. The siphon openings near the top the liquid flows off to the drainage pipe 5 feet in diameter, which carries it thru the bottom of Ashbridge-bay into a portion of the island out into 55 feet of water in the lake for a distance of 200 feet. At this point there is still another 500 feet of drainage pipe which discharges the liquid into the lake, distributed in such quantities that the oxygen from the air does a great extent, destroy the bacteria which the liquid contains. Or rather it would be more correct to say that this is the case when the system is put into operation.

Much work remains to be done before this takes place. The pipes at the outlet are made thru one of the short sections near the shore, and this will be connected up early in the spring. The pipes under the water in the lake, which are made of a cast iron, the drain thru Ashbridge-bay will be of concrete laid down in sections of 10 feet. These are already placed in position.

The Pumping Station. A few hundred feet west of the separation works a large concrete pumping station will be built. The sewage from the low level interceptor will be pumped up to this station, where it will be pumped into a completed part of the work for about two blocks. The gangs removing the earth were just arranging their platforms preparatory to starting work on the trench. The completed work of the tube, now about eight feet in diameter, the ascent was made thru another shaft to the street.

A Subterranean Trip. It was on West Adelaide-street that the first tunnel work was encountered. A descent was made thru one of the shafts by a ladder to the tube, which is about 20 feet below the surface of the street. With the light of candles the engineer made his way down. It is imperative that no fall be lost, particularly as the high level interceptor carries its sewage to the lake entirely by the force of gravity.

With that the engineer started the engine and the muddy shove went into sight. Mr. Hollingworth grasped the ball and pulled it over to the side of the platform. The reporter stepped into the tube, which was about 4 feet in diameter. The signal was given and they were lowered into a completed section of the brick pipe of the interceptor. It is a circular tube composed of three layers of sewer brick laid tight to the earth, which has only been excavated sufficiently for the actual size of the tube. The part of the tube was lit by electricity.

Welded Noses. As soon as the rattle of the hoisting chains had ceased, there came a peculiar sound like that of a muskrat trumpeting for it mate in a lake-side marsh. After a while of about a block long the tube of origin of the sound was discovered. Or to be correct, it was a trio of sounds almost as high as the first, the pty changed to a work with picks hacking out chunks of blue clay. They punctured every blow with an audible discharge of sparks. The noise was a low, steady hum like three miniature gasoline engines at work. They were clad only in shoes, overalls and summer undershirts and were perspiring like a fat man in a Turkish bath. The reporter was inclined to pity them at first, but when he was told that they frequently make as high as \$10 per day, the pity changed to envy. These men are experts in what is known as sewer mining, and besides a good wage, are given a bonus for an exceptional day's work.

Back of these three men are two others. They are known as muckers. They place the earth which has become loosened into buckets similar to the one in which the descent was made, and run them on a little truck to the shaft where the hoisting engine raises them. From the shaft the earth is teamed away in wagons.

A touch of black is shown in almost all the new novelty ribbons, and the new designs are more tempting than ever. There is wide fancy ribbon with a dot and stripe pattern of black on ground of white, sky, pink, mauve, reseda, champagne, old rose and black, and along with the black pattern is a dainty little satin cord stripe in self-colors; a beautiful taffeta ribbon made to give excellent wear for dress sashes, bows, millinery, etc.; 6 inches wide. Thursday, per yard29

LOCAL OPTION CHECKED BY CORRUPT PRACTICES

Temperance Workers So Complain—Liquor Interests Bold, Says W. E. Raney.

Great enthusiasm was shown in the workers' conference held yesterday in the basement of Cooke's Church prior to the annual conference of the Ontario branch of the Dominion Alliance, about two hundred workers being present.

The convention proper commences this morning, and it is expected that fully one thousand delegates representing the various municipalities throughout the province will be present.

Units those who are opposed to the liquor trade, and fight for prohibition from a specific standpoint—that of local option, was the advice given by Rev. Wm. Kettlewell, in his address on the subject of organization.

Rev. Fred Prior of Gravenhurst was very outspoken as to the advisability of holding the office in line. "One of the greatest essentials in a temperance campaign is an honest assessor in your municipality," was his opinion.

John Coburn, Toronto, gave advice as to how the voters' list should be handled and condemned strongly the alleged padding of the list.

Dealing with the scientific relation of drink to society, Miss Cora E. Stoddart, Boston, secretary of the Scientific Temperance Federation, spoke at some length. One of the most interesting features of the convention is a scientific exhibit, of which Miss Stoddart has charge.

Alleged Corrupt Practices. Corrupt practices on the part of the liquor men were charged by W. E. Raney, K.C., speaking on "Legal Point to Guard." "There are two classes of legal matters to be safeguarded in liquor contests," he stated. "The first has to do with the question of voters; that is to say, with the voters' list."

en to safeguard the requirements of the law with regard to corrupt practices. I would suggest that posters be printed and sent into every municipality where there is to be a contest, calling attention to the law and requesting that any breach of the provisions intended to insure an honest vote be promptly notified to the executive committee in Toronto for such advice or action by the committee as the circumstances may justify."

"The Local Option" was admirably dealt with in a paper prepared by W. A. Smallfield, editor of The Starfree Mercury. Mr. Smallfield was undoubtedly the most widely read man in the province. "Workers should early see the newspaper proprietors and urge that the discussion be not restricted to a purely commercial basis, but rather from the standpoint of a high civic duty," he stated.

An excellent address on "Canvassing" was given by J. R. Cavers of Galt, and then John C. Miller of Orillia spoke on "Getting Out the Vote."

Mr. Smallfield's address on "How to Secure Enforcement," Inspector J. A. Aveyard spoke at some length on the use of legal machinery, detailing the system in use in this province. "The officer can not enforce the law unless he has the co-operation, and moral backing of the people of the community," he stated, citing many cases where the ends of justice were averted owing to the community not working in conjunction with the inspector.

D. A. McDiarmid, Toronto, gave a short paper on "Keeping up the Organization," urging immediate action on the part of the workers, even if the question does not come up again for two or three years.

"One Attitude," said the president, Jos. Gibson, "must be and is on the side of the law, and in no way must committees in charge of campaigns violate the statutes. We cannot afford to have even the breath of suspicion attached to our methods."

"To-morrow morning a deputation will wait on the government to ask a repeal of the three-fifths clause.

A DOUBLE MURDER.

TABOR, Alta., Feb. 14.—Jack Eskine, a well-digger, was found murdered in a house of shady reputation this morning, while outside the house the body of a woman who went by the name of "Babe" Adams, was discovered riddled with bullets. A Japanese is suspected, and the R. N. W. M. P. have the case in hand.

You Can Cure Chest Colds

And Bronchitis by Using DR. CHASE'S SYRUP OF LIME AND TURPENTINE. If You Get the Genuine.

The mere mention of pneumonia and consumption causes a person to shudder, but a cold is such a common thing that it is too often left alone until these other ailments develop from it.

COL. M'GILLIVRAY DEAD WAS PROMINENT IN I.O.F.

For Many Years He Was Supreme Secretary—Appointed President of Exhibition in 1906.

The death occurred yesterday at Guelph, after an illness of several years, of Lieut.-Col. John Alexander McGillivray, eldest son of the late George McGillivray of Whitby.

The deceased was born in Whitby on July 18, 1853, and was prepared for matriculation to the Toronto University at the collegiate institute of that town.

He studied law in Ottawa, and on being called to the bar started practice in Port Perry. He subsequently removed to Uxbridge, where he soon enjoyed an extensive and lucrative practice. He early became prominent in political circles, and unsuccessfully contested North Ontario against Isaac J. Gould for a seat in the local house.

Nothing daunted, he turned his attention to Dominion affairs, and was returned in a by-election to support the administration of Sir John Thompson. In fraternal societies, he was prominent. In the Masonic craft he rose to the rank of D.D.G.M. of Toronto district. In the Foresters he occupied the position of supreme secretary for many years and until failing health compelled him to resign. Also busily engaged in the practice of law while at Uxbridge, he found time to administer at least two farms and to encourage agriculture in its various branches. He was among the first, if not the first, to import the horned Dorset sheep into Canada, and for many years his services were sought after by the Industrial Exhibition Board as a director.

He was elected president in 1906, but in a short time he was overtaken by illness that rendered his discharge of his important duties more than he could bear, and his resignation followed. He early sought to serve his country thru the medium of the Canadian militia by joining Uxbridge company of the 34th Regiment as a lieutenant. He remained with the regiment until he became commanding officer in 1902. He leaves a widow and one son, Gordon. The funeral will be held at Uxbridge on Thursday at 2:30 p.m.

Canada's Lyric Soprano.

Miss Teresa Frances Wolfe, who is to appear in a song recital at Massey Hall on Monday evening, the 27th inst., is a Toronto lady. When a child she showed marked ability as a vocalist.

Since then she has studied under the best masters in Germany and won fame on both continents as a very talented vocalist. Mr. Jan Hambourg, brother of the great pianist Mark Hambourg, will assist with special violin solos, and to make the combination complete a Heintzman & Co. piano will be used.

BRIDEGROOM FAILED.

OTTAWA, Feb. 14.—Love's young dream was shattered for Miss Antoinette Cote, when the bridegroom, Joseph Gauthier, failed to turn up this morning for the wedding. In fact, he has not yet appeared, no trace of him can be found, and the police are now looking for him.

DID YOU GET YOURS?

"The greeting habit" so universally practised on St. Valentine's Day, always means much additional work for the large staff of employees at the post-office who have to sort and direct every message of love and friendship that affectionate Toronto sends to distant points. A conservative estimate of the valentines distributed and collected at Toronto yesterday was about 750,000. This was in addition to the regular mail.

"HYPER" AND THE CANON.

Editor World: "Hyper," whose correspondence again adorned The World's columns on the 9th inst., seems so obviously affected that he fails to realize that the one aim in my criticism, published by The World on the 20th ult., was to point out the absolutely untenable position of certain clauses of "Believers," occupied, who at Victoria conference declared for "the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. George Jackson's book, which (when combating (see folio 46 and 47) the claim of those who maintain that the authority of Christ and His apostles must absolutely obtain, as relating to the things of God, and who at the same time and place, strenuously defended and endorsed the teaching of the Rev. IF Champagne were 50c a bottle, the epicure would carefully avoid it. In order to be good, he thinks, it must be expensive. That's price prejudice. The smoker of "imported" cigars is of the same "kidney."

The "NOBLEMEN" Cigar has shown him that the superiority of imported brands is a fallacy. The essential point is quality, and the "NOBLEMEN" Cigar is "full of quality."

"NOBLEMEN" are sold 2-for-a-quarter, yet are made from the cream of the Havana crop, by skilled Cuban workmen. Shakespeare says: "Custom is a Tyrant who robs us."

The smoker could save himself 50 per cent by giving up the "imported" custom and smoking Davis' Clear Havana "NOBLEMEN" Cigars.

"NOBLEMEN" Size, 2 for a quarter. "PANETELAS" Size, 10c straight. "CONCHA FINA" Size, 3 for 25c.

KEEN DEMAND FOR HORSES Purchases Largely Individual, However, and Supply Want Exhausted. There was a big sale of horses at the Repository yesterday, and by last night a great many horses had found new owners.

MULES AND GOATS RACE LADIES' DAY AT MONCRIEF

Melissande, Favorite, Wins the Handicap—Results at Juarez and Oakland.

JACKSONVILLE, Feb. 14.—Probably the largest crowd ever seen at a Florida race course was at Moncrief Park this afternoon, the reason being the third ladies' day of the present meeting.

Melissande, favorite, captured the handicap at six furlongs, run as the sixth race, from a field of six sprinters. Only two public choices finished in front.

FIRST RACE—Purse \$400, two-year-olds, four furlongs: 1. New Haven, 115 (McTaggart), 3 to 1 to 1 and 1 to 5.

FIFTH RACE—Special goat race, one mile, catchweights—1. Simon Slik (O'Connor), 2. Bad Bill (Gass), 3. Steamboat Bill (Gibby), 4. Lime Back, Old Mouse, Kate, Maud, Red Hill, Olla, Black Gal also ran.

SIXTH RACE—Purse \$400, three-year-olds and up, six furlongs: 1. Oakhurst, 104 (Byrne), 5 to 2, 4 to 5 and 1 to 1.

EIGHTH RACE—Purse \$400, four-year-olds and up, selling one mile and seventy yards: 1. Radium Star, 102 (McCahey), 5 to 2, 3 to 1 and 1 to 1.

NINTH RACE—Purse \$400, four-year-olds and up, selling one mile and seventy yards: 1. Radium Star, 102 (McCahey), 5 to 2, 3 to 1 and 1 to 1.

TENTH RACE—Purse \$400, four-year-olds and up, selling one mile and seventy yards: 1. Radium Star, 102 (McCahey), 5 to 2, 3 to 1 and 1 to 1.

ELEVENTH RACE—Purse \$400, four-year-olds and up, selling one mile and seventy yards: 1. Radium Star, 102 (McCahey), 5 to 2, 3 to 1 and 1 to 1.

Twelfth race results and summary of the day's events.

The World's Selections BY GENTLE

THIRD RACE—Orbitour, Premier, The Water Boy, SECOND RACE—Borrower, Old Boy, Delena.

MAIN 5305. Is The World's No. 1 Telephone Number.

WEDNESDAY MORNING, FEB. 15, '11.

WHERE WE GET OUR MONEY.

To-day, Canada and Canadians can freely borrow millions in the English money market, either for the Dominion as a state, or for the province or for municipalities or for railway propositions or any other reasonable exploitation.

Our mortgage and loan companies can sell their debentures on favorable terms in the British money markets. Our banks here can float money schemes they take up in conjunction with London capital.

British capital to-day has no confidence in American institutions and still less has it confidence in the fluctuations of Wall Street. They are absolutely discredited at the present moment and have been for years.

If we go in for reciprocity, which means annexation, it also means that we will lose the confidence of British capital, because capital will see that the tendency of reciprocity will be annexation and that our institutions and ways of doing business will gradually become American ways and therefore not entitled to the same credit that they now enjoy in England.

THE FEELING GROWS. So far the friends of reciprocity have it all their own way in Canada. But the feeling against the deal grows steadily day by day.

A TIME OF REFRESHING. If the Canadian Pacific spend ten millions in new terminals and stations in Toronto, the Grand Trunk will have to follow suit and the Canadian Northern also, only in a less degree.

NEED FOR MONSTER PROTEST. Editor World: Talk is the cheapest thing in the world. So far beyond a deputation or two and some speech-making, nothing practical has been done to meet the crisis into which that matter of air persiflage, and apologist for his acceptance of the Cobden medal, the premier of Canada, has plunged his country.

NEW MUNICIPAL LEGISLATION. Messrs. W. D. McPherson, Allan Stodhols and R. H. McElroy are all interested in the control of territory adjacent to towns and cities which is clearly destined to ultimate annexation.

CALL FOR CANADA. Editor World: May I hope you will give some prominence to this, a call for counsel upon the most momentous issue that has been raised in Canada since the west was linked with the east?

DR. A. W. CHASE'S 25c CATARRH POWDER. is sent direct to the diseased parts by the improved "Blowdown" method.

has taken some pains to discover the wishes of the municipalities, and there is a general feeling against New Year's Day for the purpose. Any regulation that requires political campaigning amidst the rigors of winter is dangerous to the public health.

GOVERNMENT BY COMMISSION. Port Arthur has been wrestling with the problem of government by commission. The Trades and Labor Council has endorsed the plan for a three-man commission which the people sanctioned by vote.

A PROVINCIAL MUSEUM. Editor World: The announcement that the University of Toronto and the Government of Ontario are joining to erect a museum should be welcome to all lovers of the university and all patriotic citizens of Toronto and of the province.

THE FEELING GROWS. So far the friends of reciprocity have it all their own way in Canada. But the feeling against the deal grows steadily day by day.

STOP WASTE OF WATER

DR DOUBLE FILTRATION Present Plant Only Designed for 40,000,000 Gallons Daily, Says Allan Hazen.

"The proposed extension of the intake pipe 500 feet further out into the lake will tend to decrease its capacity," said Allan Hazen, the city's consulting engineer on filtration matters, who came in from New York yesterday.

Another Filtration Plant. "Unless something is done to stop the waste of water Mr. Hazen is of the opinion that the duplicate intake will be required just as soon as it can be laid."

Judge's Chambers. Before Teetzel, J. Re Glaspeil-F. W. Harcourt, K.C., for another motion in matter for order of maintenance.

THE FEELING GROWS. So far the friends of reciprocity have it all their own way in Canada. But the feeling against the deal grows steadily day by day.

NEED FOR MONSTER PROTEST. Editor World: Talk is the cheapest thing in the world. So far beyond a deputation or two and some speech-making, nothing practical has been done to meet the crisis into which that matter of air persiflage, and apologist for his acceptance of the Cobden medal, the premier of Canada, has plunged his country.

REHEUMATISM FOR SEVERAL YEARS—Now as well as Ever. 647 Main St., St. John, N. B., Nov. 27, 1908.

Rev. Father Morrissey. I am writing to tell you I have been a victim to Rheumatism for several years and have been treated by several doctors without finding any permanent relief until I got Father Morrissey's medicine.

Rheumatism cannot exist when the kidneys are in perfect working order for they take out of the blood all the Uric Acid, which alone causes the Rheumatism.

Father Morrissey's "No. 7" Tablets act directly on the kidneys, toning them up and helping them to clear the blood of the Uric Acid.

Even if other remedies have done you no good, do not give up till you have tried Father Morrissey's "No. 7" Tablets.

DOCTOR SAID SHE WOULD DIE

"Fruit-a-tives" Saved Her Life

RIVIERE A PIERRE, Que., May 9, 1910—"I look upon my recovery as nothing short of a miracle. I was for eleven years constantly suffering from Chronic Dyspepsia, indigestion, and Constipation. The last two years of my illness, I was confined to my bed nearly all the time. I was so thin I weighed only 32 pounds, and I vomited everything I ate. Even water would not stay on my stomach.

"The doctors gave me up to die as the stomach trouble produced heart weakness, and I was frequently unconscious.

"At this time, a lady friend strongly advised me to try Fruit-a-tives, and I was so thankful I am to try Fruit-a-tives that I had taken one box. I was much better, and after three boxes, I was practically well again and had gained 25 pounds.

"I have taken thirteen boxes in all and now weigh 150 pounds and am absolutely well. I have no heart or stomach constipation—my heart is sound and complexion clear."

MADAME ARTHUR TOUBANGEAU, 25c a box, 6 for \$3.00, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

adian industry. Yet in spite of this protest they had sacrificed this enormous national asset without listening to the advice of those interested.

He concluded by characterizing the proposal as an unjustifiable and unfair blow at a great industry, which deserved the ampler consideration and encouragement at the hands of the government. The British Columbia industry represented an investment of \$40,000,000.

Mr. Burrell moved the adjournment shortly before eleven o'clock, and the debate will be continued on Wednesday.

Woodford, Alfred de Gackel, Edwin Swan, Paul Bertram, E. A. Kraus, J. Hughes Clayton, J. Reid, Fred Hines, J. P. Noel, W. Proudfoot, Bonington, L. Langley, Walter Duncan, Arthur Mills, Teneche and J. Howard Walker.

ON EXHIBITION, COMMENCING Saturday, February 11, at 68 King St. East

FOR PRIVATE SALE AT MARKED PRICES

All those not sold in this way will be disposed of by Auction to the highest bidder. No reserve whatever, on Thursday afternoon, Feb. 16th at 2 o'clock.

This will be an exceptional opportunity to purchase pictures at a low price, as our Mr. Townsend is selling for England at an early date, and we are determined to turn the whole collection into cash.

G. J. Townsend & Co. Auctioneers 626

ALLOWED FOR LAW COSTS Dr. Bray Sued Patient for \$80 and Was Awarded \$20.

In the division court, yesterday, Dr. James Bray sued Geo. Chandler, a young veteran of the South African war, for \$80, the amount being his bill for an operation removing a bullet from the defendant's wrist.

After looking at the books, his honor discovered a discrepancy and noted it. "Your day book shows entries for this operation for \$87 and your ledger shows \$80," he said.

The case was finally disposed of by allowing the physician \$20.

Dental College's Wide Power. A decision showing the extreme power of the Royal Dental College was rendered in the court of appeal yesterday when the action of F. W. Gordon and J. W. Bushnell, brought to prohibit the college from penalizing them for accepting employment from J. E. Hendry, who ran a dental parlor, was not a licensed dentist, was set aside.

Atlas Subordination Charge. Justice Teetzel reserved judgment on the application of Wm. Douglas and S. H. Bradford for an order of certiorari removing from the general sessions of the high court the charge of subordination of Perly, which was laid against the Rev. Geo. M. Atlas.

W. W. CORY, Deputy of the Minister of the Interior. N. B.—Unauthorized publication of this advertisement will not be paid for.

prosperous condition of the island. Provision will be made for railway extension and the development of the interior.

JAMAICA TO REVISE TARIFF. KINGSTON, Jamaica, Feb. 14.—At the opening of the legislature, the governor, Sir Sydney Oliver, requested an early revision of the tariff, and a reduction in the duty on flour, biscuits and other food stuffs, owing to the

Wheat Markets Lack Vivacity
Prices Record Small Decline

Liquidation and Short Selling at Chicago Keep Values on Down Grade—U. S. Visible Supply Shows Decrease.

CHICAGO, Feb. 14.—Depressed by impending reciprocity and by rain in the trough-stricken southwest, miscellaneous holders of wheat sold out to-day with little or no reserve. Much evening up or open interest on the part of shorts caused a rally, but the close, the firm, was at a net loss of 1/4 to 1/2. The day's trade led corn from 1/4 to 1/2 higher than Saturday night. Oats unchanged to 1/4 by provisions, less expensive by a shade to 20c.

Receipts at Primary Centers. Receipts of wheat in cars at primary ports, with comparisons, are as follows:

Table with columns: City, To-day, 10-day ago, 30-day ago, 60-day ago. Rows: Chicago, Duluth, Minneapolis, Winnipeg.

European Grain Exchanges. The Liverpool exchange closed today 1/4 to 1/2 lower than on Saturday for wheat, and 1/4 to 1/2 lower for corn.

World's Shipments. World's shipments, with comparisons, are given by Bromfield as follows:

Table with columns: Wheat, Corn, Oats, Flour, etc. Rows: Total, 1910, 1909, 1908.

European Visible Supply. European visible is as follows: Wheat, 36,885,000 bushels, against 37,165,000 bushels last week.

Liverpool Stocks. Liverpool weekly stocks—Wheat, 4,336,000 quarters, against 4,360,000 Corn, 1,152,000 quarters, against 1,225,000 last week.

United States Visible Supply. A comparison of the visible grain supplies in the United States today and on the corresponding dates of the past two years is as follows:

Table with columns: Wheat, Corn, Oats, Flour, etc. Rows: 1910, 1909, 1908.

Canadian Visible Supply. This week's last week's last year's. Wheat, 8,777,000 bushels, against 8,128,000 last week.

ST. LAWRENCE MARKET. Receipts of farm produce were 700 bushels of grain, 10 loads of hay and one load of straw, with several lots of dressed hogs.

Chicago Gossip. The additional moisture in the southwest and weaker foreign cables in the United States market have caused liquidation early in session, but shorts and investors turned out.

Ericksen Perkins & Co. had the following at the close: Wheat, 100 bushels, 7.00; Corn, 100 bushels, 2.50.

Ericksen Perkins & Co. had the following at the close: Wheat, 100 bushels, 7.00; Corn, 100 bushels, 2.50.

72 CARS AT CITY YARDS
CATTLE TRADE STEADY

Butchers' Cattle Firm But No Higher—Sheep, Lambs, Calves, Strong—Hogs Lower, \$6.90.

The railroads reported receipts of 72 carsloads at the City Yards, consisting of 120 cattle, 570 hogs, 615 sheep and lambs and 15 calves.

The quality of the cattle generally was better than usual, and more of the better class were on sale.

Trade was good, but not just as brisk as it was last Thursday.

Prices as far as we could see, were about the same as at the Junction on Monday.

There were several lots of cattle of export quality on hand, the bulk of which were bought by the Harris Abattoir Company for the local market.

Prices for the local market were about the same as at the Junction on Monday.

Montreal Stocks

MONTREAL, Feb. 14.—After some early strength the local stock market displayed a reactionary tendency in the late trading to-day with the close generally easier. Canadian Pacific, Soo and Richelle were the most active issues in the market advanced to a new high price at 22 1/2, but later weakened to 22 1/4, with the closing bid 21 3/4. Detroit United, after selling off to 7 1/2 advanced to 7 3/4 at the close. Quebec Railway, after weakening to 6 1/2, recovered to 6 3/4, with 5 1/2 bid at the close. Steel Corporation, after selling in the early trading at 58, weakened in the late market to 56 1/2. Nova Scotia Steel held at 96.

Oct.	13.10	13.05	12.97	12.95

Chicago Cattle

ERICKSON PERKINS & CO. had the following:

Further weakness abroad caused renewed uneasiness here, concentrating the situation in Great Britain, where it is feared, spinners are over-stocked and facing a serious falling off in business owing to the Chinese plague and the sharp decline in bar silver. General liquidation caused a weak opening and the uncovering of stop orders added to the confusion, but a steeper tone appeared once compulsory selling was completed, and many of the professionals were of the opinion that the local market was the cheapest region in the world, and urge our friends to take advantage of the weak spots and buy the summer options.

J. J. WARREN'S HOME-COMING.

J. J. Warren, manager of the Trusts & Guarantee Company, who was summoned to answer in police court on Friday, a charge of conspiring with Dr. Beattie Nesbitt, C. S. Smith and J. R. Stratton, to obtain a charter for the Farmers' Bank fraud, returned yesterday from the west. On Monday his two-month-old son died, and he knew nothing of it till he arrived home.

CONTROLLER SPENCE BETTER.

Controller Spence, who suffered a relapse after recovering from an attack of grippe, was threatened with inflammation of the lungs but is reported to be improving.

Administration of Justice.

The city has been notified by the attorney-general's department that the County of York has petitioned for an order-in-council directing an examination with regard to the present arrangements between the city and the county as to the cost of the administration of justice. The city is asked to state its objections to a settlement of certain matters in a dispute of 1909 and 1910. The matter is under the jurisdiction of the property commissioners.

INVESTMENT DEMAND IS ASSURED.

World Office, Tuesday Evening, Feb. 14.

The easier undertone to the active issues in the Toronto market to-day would appear to indicate that inside support has been relaxed and that prices for a time will be left to the tender mercies of the traders. Many stocks have made good advances since the first of the year, and a reaction on account of profit-taking is perfectly natural. It is not likely that prices will shrink much before the buying power again becomes effective. A continued investment demand for the high-class stocks is assured.

Slight Falling Away in Values Of Stocks on New York Market

Wall Street Shows Signs of Moving in Rut at Opening Session of Week—Toronto Exchange Drifts Into Dull Trading.

World Office, Tuesday Evening, Feb. 14.

The Toronto Stock Market lacked buoyancy to-day, and in a measure impressed the onlookers as becoming amenable to realizing sales. There was a falling off in the volume of transactions, the standards of the exchange being quiet while such issues as B. C. Packers were manipulated in selling off to 7 1/2 advanced to 7 3/4 at the close. Quebec Railway, after weakening to 6 1/2, recovered to 6 3/4, with 5 1/2 bid at the close. Steel Corporation, after selling in the early trading at 58, weakened in the late market to 56 1/2. Nova Scotia Steel held at 96.

Bond Sales in New York.

NEW YORK, Feb. 14.—The National City Bank of New York announced that the subscription list to the \$5,000,000 refunding and improvement five per cent bonds of the Kansas City Southern Railway Company has been closed, the issue having been very largely oversubscribed.

Dividends Declared.

OSLIVE directors have declared the regular quarterly dividend in the preferred stock of the company, payable April 1, to stock of record of March 10.

London Market Quiet and Steady.

LONDON, Feb. 14.—Money was in quiet demand and discount rates were easy to-day. Trading was active on the stock exchange, and a large bulge trade was transacted in colonial issues, industrial shares and home calls.

Only Formal Affair.

The Toronto Electric Light Company's annual meeting yesterday was a purely formal affair, the shareholders having been previously notified of an adjournment until March 15, when the annual statement will be presented and the position of the company and city discussed.

BIG TIMBER HOLDINGS.

WASHINGTON, Feb. 14.—The assertion that a great timber trust is in progress of formation, and statistics showing how the government lost millions in disposing of timberlands are contained in a special report sent to congress by H. K. Smith, commissioner of corporations.

On Wall Street.

ERICKSON PERKINS & CO. had the following:

Stocks continued in a rut all day, with specialties prominent, but the general list was more or less reactionary, and in the last hour appeared to be pressed for sale. There was no particular news affecting stocks, either one way or the other, but the lack of buying by prominent interests gave the impression that the present advance had culminated at least for the time being. The conviction seems to be gaining ground that the bankers think all the improvement that was likely to see for some weeks has been discounted in the rise that has occurred. Under such circumstances a trading market is always in order.

RAISED THE DIVIDEND.

HALIFAX, N. S., Feb. 14.—At the meeting of the directors of the Halifax Electric Tramway Company, this morning, it was decided to raise the dividend on the company from 7 to 8 per cent. It was also decided to reduce the price of electric light. O. E.

Drafts, Money Orders and Letters of Credit Issued

Available in any part of the World.
 Special Attention Given to Collections.

SAVINGS DEPARTMENT.
 Interest allowed on deposits at all Branches of the Bank throughout the Dominion of Canada. 1514

There was good buying of Steel on predictions that prices would be advanced. In the last hour the market eased off about half per cent. on traders selling. The market still needs a tonic. If banking interests should put up with the present state of affairs, there would be liberal response from the home and foreign public. In the most influential circles sentiment continues bullish.

Capital for Canada.

Association of Bankers and Stock-Brokers, saving important capital for disposal, would undertake the formation of any reliable mining, industrial or commercial concern, in which they also the placing of shares and bonds of American and Canadian companies legally incorporated. New York Stocks

NEW YORK, Feb. 14.—Speculative interest shifted from the stock exchange to other quarters to-day, and trading lagged far behind its usual proportions. Developments in regard to the new flotation of the New York Central's plan, the directors having announced of \$20,000,000 two-year 4 1/2 per cent. notes, sale by the Baltimore & Ohio and the Kansas City Southern's recent offering of \$6,000,000 bonds had been largely oversubscribed.
