## Protection the Keynote of President's Address

**C. C. Ballantyne, Head of C.M.A., Says Fiscal Policy Has Ceased to Be Matter of Partisan Controversy—Annual Meeting in Winnipeg.**

It is for us to say whether we will continue to purchase our manufactured goods from the United States, or put just a little more tariff on certain lines, and make the factories in Winnipeg, Saskatoon, Moose Jaw, Calgary, Medicine Hat, Regina, Edmonton, and all the rest of the population we are getting.

It must be a matter of gratification to all patriotic Canadians that the fiscal policy has ceased to be a matter of partisan controversy. The leading politicians of both political parties now recognize the necessity of protecting Canadian industries of all kinds, and we may hope that when the members of our Dominion parliament are called together in November to consider the revision of the tariff they will set aside the prejudices and look at the question from the broad standpoint of Canadian interests, that they will consider what policy will best develop the sources of our country, give profitable employment to all classes of our people and maintain and advance the prosperity that now exists.—President C. C. Ballantyne in annual address to the Canadian Manufacturers' Association.

Winnipeg, Sept. 17.—(Special.)—Over 200 delegates to the convention of the Canadian Manufacturers' Association were registered here this morning, when several sections met for business. Most interesting was a meeting of subscribers to and members interested in the formation of a mutual fire insurance company. This was endorsed.

Tonight a civic reception was tendered at the Royal Alexandra Hotel, when addresses of welcome were given by Premier Roblin, Mayor Sharpe and others, which were replied to by Vice-President Cockburn of Brantford.

The reading of the annual address of President Ballantyne was, of course, the feature. It was a strong plea for a protective tariff, not alone for the manufacturer, but for the farmer. In this way only could be seen a future for Canadian national industry. He drew an alluring picture of the prospects of the west as a field for the establishment of manufacturers. His remarks were constantly applauded.

President C. C. Ballantyne, of Montreal, in presenting the annual address referred glowingly to Winnipeg as having "already reached the threshold of greatness." The growth of the city was marvelous, business amazing. Looking back over Canada's activities of the year, there could be seen "on

## REJECT PEACE OVERTURES REBEL LEADERS ORGANIZE

Meanwhile Reports of Fighting in Cuba Are Coming in—Washington Hopeful.

Havana, Sept. 17.—At a meeting of rebel leaders held in the town hall of Bejucal to-day, it was decided, after a number of violent speeches had been delivered, not to accept the peace propositions of the government.

The leaders of the rebel forces in the western part of Cuba held a general meeting yesterday near Elicano and elected Pino Guerra to be major general of the first division, and Toy-naz Del Castillo to be major general of the second division of the insurgent army. Asbert, Mtra. Aronchiba and Guas were chosen brigadier generals.

Gen. Rodriguez, the commander of the government forces, reports that as a result of his fight with the rebels at Wajay, Sept. 14, 115 rebels were wounded and sent to hospitals. The government in this engagement had seven men killed and 14 wounded.

A small force of insurgents attacked 30 government soldiers in San Felipe, near Betabano, Sunday, but were repulsed.

Word has reached here of the first fighting in San Juan Province. Four hundred rebels, under Col. Dubois met the rural guardsmen at Lamaya. The result of the engagement is not known. A violent explosion occurred here this morning and wrecked two brick buildings. Six persons were killed and many wounded. No details of the cause are yet at hand. The explosion is thought to be the work of incendiaries. The buildings at once caught fire. Dead and wounded are still being taken from the wreckage. The buildings were insured.

**ALL QUIET.**  
Washington, Sept. 17.—Commander Colwell of the cruiser Denver, at Havana, telegraphed the navy department to-day that all was quiet there. Hostilities formally ceased yesterday and a definite settlement of the trouble seemed possible to-day.

**WHERE TO LUNCH.**  
Crown Hotel 75 Bay St. Excellent Cafe. J. Walker, Proprietor.

Motor Boats and Automobiles are machines, and the former are built in Canada. The latter are built in Britain. Rev. Samuel P. Collier, Manchester, Mr. Collier will be in Toronto on Sept. 30 and Oct. 1.

Rev. George Jackson, Toronto, also addressed the conference.

French, German, Spanish and Italian Languages Taught. Free lesson by calling at our warerooms the week of Sept. 18 to 24. Oldest company in Canada engaged in the guarantee business. Address Canada Life Building, Phone Main 1442.

Ask your druggist for Neato toilet soap powder. A fine shampoo.

## ONE DEAD AND ONE MAY DIE RESULT OF CAR ACCIDENTS

David Jackson Fatally Hurt and Isaac Caswell in Critical State.

David Jackson of 318 Bathurst-street died about midnight at the Western Hospital, from concussion of the brain, received in a street car collision on McCaul-street yesterday morning.

Jackson was a driver for the Consumers' Coal Company. A car struck the wagon.

It is said that Jackson was driving along the track promptly before the collision of the car.

He was about 30 years of age and married.

Isaac Caswell, an old man aged 75, who lives on Strachan-avenue, was hit by a street car last night at Dovercourt-road and Dundas-street, while crossing the street. He was taken to the Western Hospital, where it was found that concussion of the brain had resulted from the accident. Mr. Caswell is a brother of the late City Solicitor Caswell. His condition is critical.

Thomas Mathewson, 74 Gladstone-avenue, who is employed by the Toronto Carpet Company, was struck yesterday and will be laid up some time.

## WHERE DID MONEY GO TO?

Christian Workers Demand Accounting From Their Secretary.

A much-wrought-up body of men comprises the general mission board of the Christian Workers' Church. They held a meeting last night to decide upon a new line of action which might induce Rev. Geo. Fisher, of Lippincott-street, to produce an itemized statement showing how certain moneys collected for mission purposes were appropriated.

About twenty were present at the meeting, and after reviewing the whole situation from nine years back it was decided to call a public meeting of all who have been paying in to the Christian Workers' Mission Society, and get advice before taking further proceedings.

It was said that Mr. Fisher had been asked repeatedly, but in vain, for a statement, and that in all the eight or nine years of his secretaryship of the international missionary board, into which the Christian Workers' board has been paying large sums, he has made only verbal reports.

## CLERGYMEN SUE.

Cardinal Vaughan and Others Say Money Was Returned by Broker.

Montreal, Sept. 17.—(Special.)—Suit was entered on behalf of the Royal Trust Company and Rev. Father Henry to-day by Messrs Smith, Markey and Skinner against Antoine Robertson, to recover two sums of \$50,000 and \$200, which are claimed from the estate of the late Cardinal Vaughan.

The Royal Trust Co. is acting as the trustee of the estate of the late Cardinal Vaughan, who died in England, who alleged that the late Robertson had received \$50,000 from the estate, and that the account has not been audited.

The suit of Rev. Father Henry is for an amount retained as commission.

## TRAIN GOES THRU BRIDGE.

Falls Fifty Feet and Crew Escape Without Injury.

Port Arthur, Sept. 17.—(Special.)—A miracle only saved Engineer Dohm, Fireman W. Muter and Brakeman Groves of the Canadian Northern, from a horrible death.

The men were on a wheat train coming from the west. Whilst crossing a bridge west of here the engine and train went into a ravine 50 feet deep.

On top of the engine were 18 cars of loaded grain and there was nothing but a great pile of debris to indicate where the accident had taken place. The men in the engine escaped almost without injury.

## Marvelous Precision Shown by Cantons In Prize Competition at "Camp Wright"

Detroit, Washington and Toledo Chevaliers Go Thru Variety of Intricate and Picturesque Evolutions with Grace and Snap That is Fairly Bewildering—Formal Opening of the Camp Yesterday at Noon an Imposing Ceremonial.

"Want of promptness is a military offence and may be treated as an error."

So reads rule 15 of the general regulations for the conduct of Camp Wright. It is an excellent rule, too, as everybody must agree, and one that would provide a sterling maxim for everyday life, but, somehow or other, it wasn't strictly observed in yesterday afternoon's proceedings.

The program set forth in cold type that at 2 p. m. there would begin the prize drills by cantons. It was about 3:30 p. m. when this splendid feature was actually introduced, but it was a thoroughly good-natured gathering that awaited the rather tardy coming of the gallant chevaliers, gold caparisoned and purple plumed. Everybody was expectant during the delay of an hour and a half, but there were no audible or visible tokens of impatience. It was realized that the machinery of the big-entrance could be expected to operate on a day. In truth it was a busy afternoon in the natural history building, the headquarters for the chief and staff, for there were thousands and one details to be looked after.

The intenses of the start made it necessary for the dress parade and cantons and reception to General M. A. Raney, general commanding at the camp, to be deferred. It will take place to-morrow afternoon.

A conference of the judges in the dining compartment was held about 3 p. m., the officials being Col. Thompson and Major Alfred Curran of the 12th Regiment, U.S. Cavalry; Col. C. E. Norton, chief of state police, Chicago; and Capt. R. A. E. Rollins of Wyley Canton, Butte, Montana. The commanders of each of the four cantons entered were summoned, and the draw was made for order of appearance. It so chanced that the Detroiters, who are particularly popular at the

camp, were allotted the task of making the initial bow. Thru the unfortunate absence of a couple of chevaliers of the

## Ontario's Best Greeting For Visiting Oddfellows

Premier, Mayor and Provincial Lodge Representatives Join in Welcome and Getting Down to Business—To-morrow's Parade.

Ten thousand or more visiting Oddfellows and friends gathered to-day night happy in the consciousness of a day well spent. Officially welcomed in the morning at the parliament building, the afternoon was spent in active ceremonial work, with drill competitions at Camp Wright and de-termined team contests in Victoria Hall and at the Temple building. Councils and committees were busy in the afternoon, and the relief from business cares was gained thru two receptions, while several hundred who are of the Order of Humility and Perfection had "hot time," that lasted until the wee sma' hours of this morning.

The train yesterday brought delegates, but the big crowd is expected to-morrow, when at least 20,000 will come in for the parade. Mr. Eggleston, with building, and last night an illuminated "Welcome" with three links be-neath it, crossed Yonge-street just above Adelaide.

General Raney who is in supreme command of the Patriarchs Militant, says that there were 100,000 members of the Order of Humility and Perfection at Camp Wright yesterday. He is confident that the parade of to-morrow will be the largest ever held in the city, and that the number of other visitors will be about as great.

The "biggest parade we ever had," he remarked, "was at Indianapolis in 1901, when we had 80,000 men in line."

Mr. Eggleston, in his address of welcome, said that the spirit of the competition of the afternoon, he remarked that while Lucas Canton, Toledo, had won the first prize at Philadelphia last year, it had been won by the preceding two years at Baltimore and San Francisco by the Washington contingent.

"We are having a good time in Toronto, surpassing our expectations in this respect," so declared Brigadier-General Hughes, who said he would be surprised if the total number of visitors were not 100,000.

A reception was tendered to Grand Sire and Miss Wright of the Grand Sire Wing Edward from 7 to 10 last night. Between six and eight hundred members of the Sovereign Grand Lodge and their wives were introduced to the official board.

Those receiving were the Grand Sire and Miss Wright of the Grand Sire; Deputy Grand Sire and Mrs. Conroy of Chicago; General John C. Cunningham; Mrs. J. S. Oliver and Mrs. J. W. St. John entered they were met with a salvo of applause. Aid. Oliver, P. G. M., presiding, and the premier said it afforded peculiar pleasure to welcome the delegates to the first city of the first province of the greatest outlying dependency of the world's greatest empire. The atmosphere of the legislative hall would have been more conducive to ceremonial deliberations. Ontario welcomed the visitors and hoped their duties would result in good, not to the society alone.

**Official Welcomes.**  
The assembly chamber at the parliament buildings was gorgeously be-littered with the flags of almost all nations. The members' seats were filled with delegates and many ladies were among the crowds in the galleries. When Premier Whitney and Hon. J. W. St. John entered they were met with a salvo of applause. Aid. Oliver, P. G. M., presiding, and the premier said it afforded peculiar pleasure to welcome the delegates to the first city of the first province of the greatest outlying dependency of the world's greatest empire. The atmosphere of the legislative hall would have been more conducive to ceremonial deliberations. Ontario welcomed the visitors and hoped their duties would result in good, not to the society alone.

## TOIMIE IN NORTH BRUCE TO CARRY LIBERAL FLAG

R. E. Moore of Lyon's Head Will Probably be the Conservative Opponent.

Tara, Sept. 17.—(Special.)—The Liberals of North Bruce will meet here on Friday to nominate a candidate for the house of commons. The successful claimant for the panning honors will be John Toimie, ex-M.P. Toimie was first elected as a patron for West Bruce in 1886, but supported the Liberals in that parliament, and in that following his re-election in 1900.

In 1904, after Toimie had fixed the riding to suit himself in the gerrymandering, he lost the convention to J. E. Campbell of Hespworth, whom the late Leonard I. Bland, Conservative, defeated by 107 votes.

Who the Conservative candidate will be is a question hard to answer. Hugh Clark, M.L.A. for Centre Bruce, could have the nomination if he would take it, but Mr. Whitney is reluctant to let him go, and R. E. Moore, merchant of Lyon's Head, and chairman of the House board of the riding, will likely be chosen. There is, however, talk of a dark horse from the southern part of the riding.

Many Liberals are said to be dissatisfied with Toimie and would support a Conservative if one to their liking were nominated.

The riding has seen good fighting ground since confederation. The record is:

1867—Sprout, Conservative ..... 19  
1872—Gilles, Liberal ..... 43  
1874—Gilles, Liberal ..... 106  
1878—McNeil, Conservative ..... 118  
1882—McNeil, Conservative ..... 113  
1886—McNeil, Conservative ..... 29  
1890—McNeil, Conservative ..... 31  
1894—By-election, Halliday, Con. 11  
1901—By-election, Conservative ..... 107

## EAST HAMILTON.

Hamilton, Sept. 17.—(Special.)—The death of Henry Carscallen, K.C., M.L.A. for East Hamilton, has given rise to speculation as to his probable successor. Two gentlemen, who have recently mentioned in connection with the Conservative nomination—Mayor Biggar and Mr. Gilbert, both and also mentioned. It is known that Mayor Biggar and other leading Conservatives are anxious that Mr. Gilbert should run.

Another gentleman favorably spoken of, is J. L. Counsel.

Whoever the candidate may be there is a feeling that he must be in sympathy with the public ownership views of the great majority of the party. Critical errors in form it is believed the Liberals will not dare to enter the field in opposition.

## SENTIMENTAL TIE THAT BINDS

Hamer Greenwood Speaks of Relations with Motherland.

Winnipeg, Sept. 17.—(Special.)—Hamer Greenwood, M.P. for York, England, got a magnificent reception at the hotel selected for the Canadian Special to-day. Over 400 of Winnipeg's most progressive young men sat down to luncheon under the chairmanship of Rev. Ralph Campbell.

Mr. Greenwood's speech was patriotic and imperial. His point was that the imperial feeling of Canadians was sentimental rather than commercial.

## STRATFORD NEEDS POWER.

Stratford, Sept. 17.—(Special.)—The city council to-night decided to request the hydro electric power commission to give an estimate of the price to be charged the city for from 200 to 5000 horse power from Niagara Falls.

## RUNNING IN TWO MONTHS.

Winnipeg, Sept. 17.—(Special.)—A contract for building a line from the land selected for the G. T. F. shops, four miles east of St. Boniface, was awarded to-day, and within eight weeks G. T. F. engines will be running into Winnipeg.

MRS. WANTED. MRS. WANTED. MRS. WANTED. MRS. WANTED. MRS. WANTED.

WOMEN'S WORLD.

Colors Take Place of Bridal White. The newest of all brides is now clothed as if decked for a ball instead of in virginal white. From England, that land of colored wedding fancies, there comes the fancy for faint pinks and gold and silver shades. Her toilet is made as for any evening affair, while in continental countries the ceremony lately has been performed at twilight when the bride was in brilliant red.

At one recent wedding the bride wore a lovely gown of white applique with over a dozen pink chiffon. It was trimmed with embroidered ribbon wreaths of pink and mauve flowers. Her toque was white, with shaded pink and white ostrich feathers, and she wore a string of pearls, and carried a bouquet of mauve orchids. The bride was in brilliant red.

Another was a princess gown of silver tissue exquisitely embroidered with pearl and diamond lines and a border of pearl and diamond embroidery. The train was of old point lace over silver tissue and caught with silver lover's knots.

Another gorgeous wedding dress planned for early this winter, is to be white satin draped with Brussels lace and white ribbon. The bodice is of similar lace and outlined with silver embroidery. The bridesmaids will wear white with white and white sashes lined with vivid red velvet and will carry red pansies. Their hats will be white beaver with white ostrich feathers.

Advice to Girls in Business. Don't fall into the habit of thinking that the world owes you a living. Advise the Philadelphia Telegraph. The world owes you just exactly what you are willing to work for. We are all here to make our own way, and the most we can get out of life. Some of us succeed, some of us fail by the way, but as a rule, one who tries hard comes out well to the fore.

Don't go at your work in the spirit that you are conferring a favor on your employer, or your fellow-employees. You are there to do your work to the best of your ability, your employer to pay you according to what you are worth.

That is a perfectly fair arrangement. If you want to rise in your business you must be willing to work hard, and sometimes a little more than your shape of work, and to do it well. The way to bring yourself up is always being interested in your work. Nothing pays like making yourself agreeable and obliging to your fellow-employees. Don't be stand-offish and taciturn. A pleasant word costs nothing and makes many a friend. Make the things very disagreeable for your if he likes. Have a pleasant word for the janitor and the scrub woman to the office. Dress neatly and serviceably. Beads and laces and ribbons are for dress-up occasions.

The Accordion-plated Skirt. The accordion-plated skirt can be mentioned as a novelty of fall. It is a strange thing to see in a skirt. The fall skirt is accordion-plated with not a great deal of fullness to spare. The accordion plating is made of thin, shallow, and the skirt is not so very full. It is nicely fitted to the hips and it hangs gracefully around the body. A novelty is found in the new belts which have considerably changed from last season. The new belts are made of leather and they are laid rather shallow, and the skirt is not so very full. It is nicely fitted to the hips and it hangs gracefully around the body.

Trimming Long Coats. The long coats, also built upon the lines of those of last spring, are much more numerous and of more variety. Several lines have given some sort of finishing. Here again braid is brought into play, and a long, straight, narrow strip of braid is used to fasten in front with a handsome buckle, the not a very large one. A straight handsome strip of braid is used to fasten in front with a handsome buckle, the not a very large one. A straight handsome strip of braid is used to fasten in front with a handsome buckle, the not a very large one.

Embroidered Buttons. Buttons delicately embroidered, are a popular fall. Cut silk or cloth in circles, made the circles the size of the button to a stiff tulle, with shaded tulle leaves. French knots, a vine or threads starting from centre to outside circle in graduated lengths. The wooden moulds neatly covered with a pretty design will amply repay the daily worker.

Gordon W.C.F.U. The first meeting of the Gordon Union, held under the auspices of the W. C. T. U. since the opening of the holidays took place yesterday in All Saints' Church. The president, Mrs. Vance, presided. Mrs. Reed is secretary and Mrs. McDonald treasurer. An interesting letter was read from Mrs. Powell, relating her experiences in the work of four numbers of the branch societies in Manitoba and the Northwest. A grant of \$10 was made to Northwest missions and \$20 to aid in the work of providing suitable literature for the lumber camps.

Queen and Empress. Copenhagen, Sept. 17.—The Dowager Empress of Russia landed today for the first time from the imperial yacht Polar Star, which is in the harbor here. She accompanied her sister, Queen

CONGREGATION WILL BUILD CHURCH. An Anglican mission will be erected at Davenport and Davenport-roads by voluntary labor.

CASTORIA For Infants and Children. The Kind You Have Always Bought Bears the Signature of J. C. Watson

BERKELEY ST. LOOP LINE WOULD HAMPER FIREMEN

Three-Horse Engine Would Have Difficulties in Getting Onto Street. Capt. Crawford of hose 4 at Berkeley and Duke-streets, wants to know: "If the Street Car Company lay a track on Berkeley-street, as on the recommendation of the city engineer, would I get a three-horse engine to make a quick start?" Berkeley-street is 24 feet wide, and the street car track will be 4 feet 5 inches in width. It is shovelled back the 24 feet leaves a margin on each side of the track of about 3 feet and a few odd inches to the curb.

Capt. Crawford argues that in the winter and in the summer the snow will sweep the snow on each side and the snow in front of the fire station must also go in the summer. Then again the residents on the east side of the street only boast of 18 feet 8 inches of front lawn to the edge of the curb. Of this the sidewalk takes up some 4 feet.

The snow has to be shoveled off the sidewalk, and it is shoveled back on the front yards then the tenements will suffer from flooded cellars. If they put it on the road then the fire companies will suffer and in consequence a big list of important manufacturing concerns may be endangered. Within the fire protection precincts of this station are the Simpson Woolen Mills, Standard Woolen Mills, Smith Shoddy Company, Smith Wagon Works, Gendron Company, Polson Iron Works, Davies Packing Company, Morris Soap Works and the Firstbrook box factory and many more.

The proposed loop line from Parliament to Duke to Berkeley to King-street is all nonsense," says Captain Crawford. "I don't know anything about their business and I know mine—and perhaps the engineer knows his. My idea of avoiding the difficulty is to run the loop along Duke-street to Ontario-street, then to King-street. Duke-street is 66 feet wide and in better condition for the laying of the track."

"Ontario-street is not used a great deal, and the fire department would not have to run the risk of delays." "It seems a shame," said Captain Crawford, "that nearly \$60,000 should be spent on a fire station only to have its usefulness marred by a loop-line by the Toronto Railway Company."

MRS. CHADWICK ADMITS. Fatal illness of Mrs. Bigley Brings Confession of Family Ties. Columbus, Ohio, Sept. 17.—Mrs. Cassie Chadwick, who is confined in the state prison, when news of the fatal illness of Mrs. Mary A. Bigley at Windsor, Ont., her mother, was disclosed, admitted to her mother, and asked permission to go to the bedside, but this was refused.

The identity of Mrs. Chadwick with the woman who had refused heretofore to give any of her true history or birth place to her relatives in Canada. Mrs. Chadwick was later told of the death of her mother.

FINDS NEW AFRICAN RIVER. Duke of Abruzzi Announces an Important Result of Expedition. New York, Sept. 17.—A special cable from Marseilles says that the Duke of Abruzzi, who has arrived there, has just made an announcement that one of the most important scientific results of his expedition is the discovery of a new river.

A Terrific Crash. Fiqua, Ohio, Sept. 17.—A Pan Handle freight train ran into a Cincinnati and Dayton excursion train yesterday, killing a boy and injuring several persons. The excursion train was standing on a siding, the engine partly on the main track. The freight struck it with terrific force, tearing it loose from the coaches and carrying it 200 yards across the bridge spanning the Miami River.

A Quake at Sea. San Francisco, Sept. 17.—The lumber laden ship Robert Searies has arrived from Tacoma and northern ports. Capt. Pittz, in command, says a severe disturbance of the water was felt on the morning of Sept. 14. The cargo and crew were shaken. The length of the shock was 22 minutes.

Bullets for the Judge. Warsaw, Russian Poland, Sept. 17.—Gen. Doroshewski, president of the court martial which, on Sept. 15, condemned two revolutionists to death by hanging, was shot at and wounded in the thigh while driving here to-day.

Operation on Wite. Berlin, Sept. 17.—A despatch to The Lokal Anzeiger from Hamburg, says that Count Wite, Ex-ambassador of Russia, was operated upon yesterday for the fifth time by Prof. Spieser for polyp of the nose.

Minister Dies Suddenly. Newburgh, N. Y., Sept. 17.—The Rev. William K. Hall, D.D., pastor of the First Presbyterian Church for 31 years, died suddenly this morning of heart disease. He was moderator of the New York synod in 1878 and in 1892. He was also chaplain of the Ancient and Honorable Artillery Company of Boston.

Best Side Trip. An excellent opportunity is extended to Oddfellows to visit Niagara Falls on Thursday (day following parade). Tickets are only \$1.25, crossing the lake by the palatial steamers of the Niagara Navigation Company to Lewiston and Great Gorge Route to Falls. Special arrangements for visiting places of interest.

PICKERING COLLEGE REBUILT WHERE IT WAS?

People of the Town Anxiously Await Verdict of Investigating Committee. Pickering, Sept. 17.—(Special.)—The pretty little Village of Pickering, lying snugly on the banks of Durbin's Creek, some 25 miles east of Toronto, contains the ruins of the Friends' College, recently destroyed by fire. On an eminence overlooking the smiling waters of Lake Ontario, the situation is almost ideal for the building of a college, and it was this fortunate aspect that induced the stalwart Quakers of the seventies to build and equip a Friends' college.

The site is an admirable one from every standpoint. The ozone-laden breezes that stir the old elm and shapely maples, drive away the baneful enemies and burn up impurities. Sickness at the college was at a minimum and contagious diseases unknown. Many people in the City of Toronto recognized this and sent their children there to regain health even while under a course of study.

Again, the view sweeps in the amphitheatre of eight fair townships, rising to the height of the Laurentian ranges and extending from Scarborough's historic cliffs to the blue haze that met away over Darlington's fertile fields. Here, with all a city's comforts and a rural blessedness, this school has risen to an educational institution most enviable, when the disastrous fire of December 1897 laid it in ruins.

At the yearly meeting held at Newmarket the Friends decided to leave the rebuilding of the college entirely up to the representative committee. The sub-committee, with the architect, visited the college property at Pickering last week. The village people and friends are anxious to have the college rebuilt, and many are confident that if the building were once begun the old ground would be ready to receive the building to begin to flow rapidly.

It is a question to many why the rebuilding of the college in any other place should have been mooted at all. The travelling public seem to be unanimous in their praise of the location. Many business men in the place are willing to aid in the restoration to a degree worthy of a bigger place.

YOUR WILL POWER. Every Day a Man Has the Chance to Prove His Strength of Purpose. When a man enters a store he knows what he wants, and if he has that quiet strength of purpose he gets what he wants.

If a man goes into a store to get a pair of shoes or a Semi-ready tailored suit he proves his will power when he insists, like the man from Missouri, on the "showing" policy. Make the clerk show the label and price on the garment or article.

Semi-ready tailoring would not have its reputation for goodness if it had not been earned by excellence. The Semi-ready label is sewn on the inside of the pocket of every genuine Semi-ready garment.

UNIVERSITY APPOINTMENT. The university governors at their meeting yesterday appointed Dr. V. E. Henderson to be lecturer on pharmacy in the faculty of medicine, and Rev. P. W. Mueller to be instructor in German.

Side Trips for Visitors. Four N.O.F. delegates from Maritime Provinces, Quebec, points west of Port Arthur and from the United States, the Grand Trunk Railway will sell round trip tickets at single fare to all points in Canada, east of and including Sault Ste. Marie, Mich.; Detroit and Port Huron, Mich.; Niagara Falls and Buffalo, N. Y., good for two days. Return limit will be Oct. 24 if delegates have their convention tickets extended to fitting power. If they do not otherwise return limit will be Sept. 24. Secure tickets at Grand Trunk city office, northwest corner of King and Yonge-streets.

Chippewa on the Route. On account of the Oddfellows' convention to fitting power, the company have decided to run their large steamer Chippewa all this week. Special tickets at single fare to all points on the Chippewa route. Buffalo, Buffalo, good for two days. J. Webster, King and Yonge-streets, or office on wharf.

Drop Dead in Hotel. Milwaukee, Sept. 17.—Word was received here early to-day of the sudden death of Denver Wm. H. May, president and general manager of the Milwaukee Tug Boat Line, and well known in lake maritime circles. He dropped dead in the lobby of a hotel.

Goody to Zion. Chicago, Sept. 17.—John Alexander Dowle yesterday announced a farewell service at Sibley for next Sunday. Immediately after this service he will leave for Mexico. It is not expected that he will ever see Zion City again.

Windsor Prisoner Dead. Windsor, Sept. 17.—Peter Parady, aged 49, one of the oldest prisoners of Windsor, is dead at the residence of his son, from old age.

HINE'S Three Star BRANDY

The better judge you are of brandy the better you will be pleased with HINE'S Three Star BRANDY. Guaranteed Twenty Years Old. T. Hine & Co. are the holders of the oldest vintage brandies in Cognac. D. O. ROBLIN, of Toronto, Sole Canadian Agent.

Our Friend From Cannington Meets Men Who Feather Nest

The Adams furniture store has the atmosphere of a newly established household founded on love—instead of the common amalgamation of dollars and cents to tip the beam of society and overtip the bucket of means. You could almost find it on your tongue to ask to see the baby. And the baby, like all great babies, you know perfectly well would not cry, and you could overpraise it enormously. Perhaps this atmosphere is the result of the constant tide of matrimonials and soon-to-be flowing and ebbing thru the open doors, who sweep the furniture out of the place on waves of ecstasy—and empty their pocket books, setting up love on a wooden basis—very often as well giving it a wooden leg. There's the pity. From running wild the man stumps the girl to marry him; for they stomp ever afterwards and the dream carries a stick and is thankful for three meals a day without a plus face should have been mooted at all. The travelling public seem to be unanimous in their praise of the location.

TO THE FARMERS OF ONTARIO. Never prepared to rest content with what it has already accomplished.

The World makes another stride forward in its effort to be more than ever a farmer's daily paper.

It will devote more and more of its energy, its resources and its powers of advocacy to the service of the agricultural interests of Ontario.

The farmer in this great, wealthy and happy province requires a daily paper as much as, yes much more than any other class of the community.

He needs daily weather reports, crop reports—most of all accurate live stock market reports. He wants the general news also. So do the members of his family, while the hired man will be all the better of a look at a daily paper before he seeks tired nature's sweet restorer, restful sleep.

But the farmer particularly wants honest, hearty advocacy of his rights in the columns of an independent and representative newspaper.

The farmers of this country are now being betrayed by a press which has largely passed into the service of great corporations and by public men in close alliance with them.

These organs and allies of the corporations profess to be the farmer's friends—but their business is to chloroform into acquiescence in the aggressions of their masters.

The World proposes to continue in a still more vigorous and aggressive form its campaign for cheaper fares on steam and electric railways because, for one thing, the farmer needs the relief a reduction will secure.

It will press its demand for government ownership of the trunk telephone lines and for municipal ownership of the local systems, because this reform will be advantageous to the farmer as well as to the dwellers in city and town.

And The World will not cease to advocate more stringent regulation of freight and express rates and of the conduct of railway traffic, believing that this is necessary for the farmer as for every citizen.

But the issue supreme above all others to the farmer of Ontario today—the issue which The World has made its own and promises to maintain and labor for until the victory is won—is the distribution of electrical energy at cost price all over the province by the joint action of the provincial government and the local authorities.

Success in this means more for the farmer than anything else in sight these days. Electricity will give him cheap, good, clean and sure light for his house, outbuildings, yard and roads, instead of coal oil coming to him from the United States and controlled by the greatest monopolist company in the world.

Electricity will drive his pumping engine and his machines cheaper, more efficiently and more reliably than any other power—

some day it will supersede coal and warm his house. There is no end to the uses electricity will serve nor the work it will do.

It promises to be the greatest labor saver in the world, and no one needs it more or more urgently than the farmer.

No daily newspaper has taken up this cause—the cause of the people—in the straight and whole-hearted way The World has done.

There is unfortunately every reason to believe that some press advocates of cheap electric power—even a paper professionally published in the interest of the farmer—are controlled by the electric ring and are being employed not to further, but to defeat this important campaign.

If the movement is to succeed it must be supported by every citizen. No government, no municipality, no local board can act without a solid body of public opinion behind them.

The World will help to create and consolidate that public opinion and it asks the co-operation of the farmers of Ontario, without whose assistance this great work cannot be carried to completion.

For the improvement of our special farmers' supplement, which will appear in the meantime twice weekly and will soon become a daily feature, The World has engaged Mr. F. M. Chapman, who will in future have it in special charge.

A special staff of writers, reporters and correspondents has also been organized, and the farmers of Ontario may rest assured that no effort will be spared to make our agricultural and market reports reliable, accurate and up to date.

THE STREET CAR SITUATION AT NIAGARA FALLS. If a man owned the only well of water in a desert land, and rented it to another, it is plain that he, and his household, would be compelled to buy their water from the lessee.

It would be in the power of the latter to charge such a price for the water that the unfortunate owner would pay, in the end, more money than he received.

That is today the situation in Nova Scotia, except that coal, instead of water, is the commodity owned by the province and purchased, at exorbitant prices, by the people of the province from the lessee.

Similar results were bound to follow the policy of the Ross government respecting the water powers at Niagara Falls. It was Hon. Adam Beck who first pointed out that it was immaterial how much rent was exacted. Whatever the sum might be, it would be collected twice over from the consumer in Ontario.

Fortunately, as to the power, government ownership may now be supplemented by government operation. There still remains for government interference, however, the remarkable monopoly which controls the electric railway running from Chippewa thru Niagara Falls, Ont., to Queenston, every foot of which is laid upon the crown lands of Ontario.

It is one of those anomalies in which English-speaking people are apt to delight, that a commission appointed to beautify a public park should be entrusted with the supervision of gigantic mechanical works and cognate matters; but when the commissioners of the Queen Victoria Niagara Falls Park were appointed no one foresaw the tremendous developments that are now a matter of history.

There was a commendable desire to save the scenic surroundings of Niagara Falls, and to establish a magnificent park for the tourists of the world. Probably Lord Dufferin was responsible for the suggestion. At any rate the State of New York and the Province of Ontario hastened to carry it into effect.

Our commissioners very wisely acquired the "chain reserve," and thus vested in the crown the shore line from Lake Erie to Lake Ontario. That stroke of business, to-day, is responsible for our control of the power situation at Niagara. But when this was done the commissioners found that the Canadian park was handicapped thru the pernicious activity of the American hackmen.

Tourists landed at Niagara Falls, N.Y., where a large town had grown up. There was at that time no town at the Canadian falls. The hackmen assured tourists that there was nothing to see on the Canadian side, or, if they brought them over, soon returned them to Niagara Falls, N.Y. To secure a street car line from Chippewa thru Niagara Falls, Ont., to Queenston, was therefore important, and the commissioners gladly gave a building syndicate their own terms when a road was projected in 1881.

The railway was built and subsequently sold to an American concern known as the International Railway Company. But during the past fifty years great changes have taken place. Niagara Falls, Ont., has become a city. It is built up to the horseshoe falls. Three great power-houses have been erected, employing hundreds of men. The railway, built thru the woods to accommodate summer tourists, is now an important radial, accommodating thousands of citizens who have occasion to use it the year round.

That such a road should be free to charge forty cents for a round trip of four miles is intolerable; yet twenty cents going and twenty cents return is the cash fare charged from Bridge-

street, Niagara Falls, to one of the power-houses. Other charges are in proportion, and ten cents per mile is not an unusual rate. There is some reduction if tickets are bought, but they are for sale only at the company's office, and are never for sale on the cars.

The City of Niagara Falls is impatient, for the road is upon crown lands, exclusively.

The park commissioners granted a lease that may run for fifty years, and which permits the railway company to charge fares sufficiently high to "make a profit." But the road has been so manipulated that it would require an expert to differentiate the genuine fixed charges from the "profits." It is not even clear which railway board has power to act. It was always intended to keep the company under provincial control, but that intention may have been defeated by the Dominion Railway Act of 1903.

The Province of Ontario owns the land upon which this road is built. It receives a rental, which is exacted many times over from the people. One would think that here, too, was a case where government ownership might well be supplemented by government operation.

Yesterday the Canadian Manufacturers' Association met at Winnipeg, the city which, as the president remarked in the exordium of his address, has already reached the threshold of greatness. It has not only shared in the general advance made by the country, but has profited by the extraordinary development of the wheat lands, which more than anything else has contributed to the world-imperial position Canada holds to-day.

Agriculture is, as Mr. Ballantyne said, the cornerstone of Canadian industry, and while its relative supremacy may not in days to come be so great as it is now, the primal place it must continue to hold.

But as the president pointed out, agriculture could not remain the only industry. For the building up of a nation all its natural resources must be utilized. The growth of a mixed population following many lines of business and manufacture, and creating great industrial centres, is necessary if agriculture is to be properly developed.

To promote that general development it was necessary to protect the infant industries of the Dominion and to afford scope for the youth of the country who were not satisfied with the opportunities afforded them in the place of their upbringing. Hence, before Canadian industries began to spring up under the shelter of a protective tariff Canadians went south by the thousands. Now that the Dominion is forging ahead so rapidly in every line of life and work they are returning to a land of promise—their own land.

The prosperity of the farmer is intimately bound up with the prosperity of the country at large. Except in the case of the chief wheat-growing centres, the farmer's home market is his best and most profitable one. That market can only come by the establishment of commercial and industrial centres, little and large. As these multiply, so does the farmer's market, and any policy which hinders or destroys them is against his interests.

The action of the protective tariff is compelling United States manufacturers to transfer their productive works in Canada so that instead of Canadians contributing to the prosperity of the United States as they would, but for the tariff, have done, they are making their neighbors and rivals contribute to the prosperity of Canada.

Notwithstanding the rather free appeal of a few free traders, or, rather, free import devotees, who have not the courage of their convictions, there is fortunately no serious demand to open the door to unfettered competition by nations who have been careful to protect their own industries by means of high tariff walls. Both as to the general tariff and the preferential treatment of British goods, the president made his views perfectly clear, and they square in all points with the previous declarations of representative manufacturers.

Their position is simple and clear—a tariff sufficient to encourage local industries, and a preference for British goods when it is necessary, but by no means where. At this stage of the country's progress these objects are quite compatible. Mr. Ballantyne's excellent address contains ample food for reflection on these and the other points he treated, and the meeting this year should help to increase the sentiment of solidarity in the Dominion.

FLAG BUSINESS OVERDONE. The invited guest, well-mannered, does nothing and desires nothing done that will offend his host. The invited host, well-mannered, does nothing and desires nothing done that will offend his guest.

For a host to make too much of his guest is to embarrass him. This ostentatious show of the Stars and Stripes makes too much of our guests from across the line, and they are embarrassed. They come from their land, their homes, and they hardly recognize the change, for the flag still flies. They believe it is all well meant, but they would be better pleased if it were not so noticeably overdone.

Being well-mannered, they do not tell their host of their error, but being also rational beings, they think things. Coming to Canada, they expect to see the British flag, as grand an old rag as the Stars and Stripes, which George Coban calls "The Grand Old Rag." They do not understand the process of

reasoning by which Canadians forget their own flag in a studied effort to please their guests. Respect for his flag is one of the cardinal virtues of the citizen of the United States.

It is time some one of our guests from across the line told his host that this flag business is grossly overdone. For a time, he may drop his native politeness, and tell his host that he does not like to see the Stars and Stripes waving where a British flag should fly. He at first may be considered ill-mannered, but if he is he will be a martyr for a good cause, the cause of good form, man to man, nation to nation.

AT OSGOODE HALL. ANNOUNCEMENTS FOR TO-DAY. Master's chambers—Cartwright, master, at 11 a.m.

Judges' chambers—Hon. the Khan-celler, at 11 a.m. Divisional Court. Peremptory list for hearing at 11 a.m.

Peremptory list for hearing on Tuesday, Sept. 18, at 11 a.m.: 1, Thomson v. Maryland Casualty Co. (continued); 2, re Ontario Medical Act; 3, McAuliffe v. County of Welland; 4, Rex v. Saunders.

A bes case from the County of Norfolk is engaging the attention of the divisional court. Lucas and Pettit are neighbors, living on opposite farms separated by the highway. Lucas keeps bees immediately opposite to the house of Pettit. On August 10, 1905, while Pettit was harvesting his oats, a swarm of bees from one of the hives across the way stung and killed his two horses. With the result that the horses died from the effects of the stings, and Pettit himself was seriously ill for several days.

Against the plaintiff was awarded \$400. Against this verdict the defendant is now appealing. The court reserved judgment.

An ex parte motion in the action of the King against Mann (Institute of Biologists) was made before the divisional court for an order nisi to quash the search warrant, and the information for search, which was issued on the ground that no information was laid before the warrant was granted. The order was made as asked.

In the ex parte motion of Grant v. McKee, the master-in-chambers handed out judgment directing certain paragraphs of the statement of defence to be struck out, and allowing the defendant to amend if they so desired. Costs were given to the plaintiff in any event.

Deputy Attorney-General Cartwright appeared before the court of appeal, and asked for a reserved judgment in the King against Burr, a criminal action for seduction from the County of Kent. No one appeared for the accused. The court reserved judgment.

The City of Ottawa is defendant in some three actions arising out of the case of the master-in-chambers, now in liquidation. In one of these actions, Black v. Ellis, the defendant, James A. Ellis, mayor of Ottawa, moved the master-in-chambers to stay proceedings until the other actions are disposed of. His motion was refused.

The Maryland Casualty Company is appealing to the court of appeal against the verdict of \$100 damages awarded to Mrs. Edith Thomson for the death of her husband, alleged to have been due to the negligence of a car, alleging that there was misrepresentation in the taking out of the policy.

The Woodruff Company, Limited, have been appointed liquidators of the secretary-treasurer, W. J. Colwell, from acting as manager of the company and denying the authority of the plaintiff to use the name of the company, and on Saturday moved before the master-in-chambers to strike out the name of the company as plaintiff, and to require the other two plaintiffs, C. H. Woodruff and S. H. Woodruff, to give security for costs before the action is allowed to proceed. The master has handed out judgment dismissing the motion with costs in the cause.

R. J. Tretaway will sue the Toronto Railway for injuries sustained by falling from a car.

Cheese Factory Burned. Peterboro, Sept. 17.—(Special.)—The cheese factory at Melrose Abbey, owned by Andrew Mearns, was burned to the ground yesterday. The fire is believed to have originated from a spark of a passing traction engine.

A HARD CASE OVERCOME. No longer necessary to suffer from muscular rheumatism. Every case can be cured. Ferreroze is unfailing as proved by David Johnston of Ormston, Ont. "My wife was a dreadful sufferer," he writes. "For two years she could scarcely do any work. Her muscles and joints were stiff and sore. To get up or down stairs was impossible. She took box after box of Ferreroze, and rubbed the sore places with Ferrerine. Improvement started and she mended fast. To-day she is quite cured and we thank Ferreroze for her recovery. No remedy more popular with doctors than Ferreroze; it does cure, 50c per box at all dealers.

THE T. EATON CO. LIMITED THIS STORE CLOSSES DAILY AT 5 P.M.

Good News For Men

4.95 FOR ONE OF THESE 80 HIGH-GRADE SUITS

There's a good reason back of this remarkable offer, but you're only interested in the offer. And you may be satisfied that the suits are right every way.

They're made from desirable tweeds and colored English worsteds in browns and greys with overplaid, made in new single and double breasted styles, sizes 34 to 42.

5.95 FOR A FINE CRAVENETTE RAINCOAT

Quantity limited to sixty-seven. No doubt about the garments being desirable, no doubt about the price being an exceptionally low one, value extraordinary.

Coats full length, centre vent in back, self collar, material in plain park grey or olive with colored thread stripe, sizes 36 to 42.

NATURAL WOOL UNDERWEAR READY

Proper thing to wear for fall and winter, unless you can't comfortably wear woollens next to the skin, then we've silken garments by the hundreds to choose from.

But these woollen garments are best for the cooler weather, and we've been fortunate enough on our buying trips to make your buying here, profitable.

Just a mention of two lots:

A NEW AND BETTER FLANNEL SHIRT

Unshrinkable grey flannel, has two separate torn-down collars, best make and finish, full body, sizes 14 to 18. It's the quality you're paying for, price.....1.00 MAIN FLOOR—QUEEN STREET

MAYOR IS AFTER RAILWAYS ASKS MEMBERS' ASSISTANCE

For Better Transportation Laws—West Islanders Want Long Leases—City Hall Matters.

Disgust with transportation facilities generally is expressed by Mayor Coatsworth, who stated to The World yesterday that he was calling the attention of the members of parliament to the injustice to the public of the local state of affairs which exists on boat and on rail at the present time. He makes the request from his own experience, and urges the members to bring it before the government.

These companies as common carriers should be compelled to give accommodation when they are paid for it. After paying first-class fare, a passenger is entitled to a first-class passage. I was for two days on the trains last week, and the crowding and accommodation was simply disgraceful, he said.

Mayor Coatsworth went on to discuss the matter, saying that the companies had apparently made no allowance for the rapid growth of the country. The service on railway and boat lines was entirely inadequate. If the companies could not give the accommodation they were asked they should, not sell the ticket.

These residents of the west point of the island, which was known as the sandbar, want the island committee to agree to make their leasehold of the lots for twenty-one years, instead of yearly, as at present. They now pay \$25 per annum and feel that it is not unreasonable to ask the long lease without any increase, as they have practically made the place. As well as that most of the big deputation of residents which appeared at the city hall yesterday pay taxes and water rates in the city, during the summer.

These representations were made by A. Chamberlain and Mr. Jefferys before Ald. Chamberlain, McMurich and Controller Jones at what was intended to be a meeting of the island committee yesterday afternoon. There was no quorum, however, so the matter will stand.

Ald. McMurich informally submitted a plan of a tramway across the sandbar into the lake so that boats could be transported across. The idea seems to be a splendid one, and will be taken up when the officials have reported.

Controller Shaw and Park Commissioners Chambers went around the ravines and the north end parks yesterday with a view to improvement.

Cottingham-square is being regraded and graded by the parks department. It will be a free skating rink in the winter.

Some people want the name of Ramsden Park changed to Hillsborough Park.

Cars will be running on the Gerrard-street extension this week. A construction car has already gone over the tracks.

Sunnyside free baths will be kept open till the end of the month. Again does Dr. Sheard threaten to prosecute certain milk dealers who are not doing the right thing by their customers.

Controller Shaw will move at the board of control that the city stop the work of laying a track alongside on

Richmond-street and Bay-street for the Street Railway loop. The Building permits amounting to \$84,575 were issued from Sept. 13 to 15. Of these twenty-six are for dwelling houses. The year 1906 was a record-breaker, but the present year is running far in advance, and if the rate keeps up will be over \$2,000,000 ahead.

TWO WIVES LEFT HIM. Married Again, But Won't Go to Jail—True Bills in Season. In the sessions yesterday George Leverton was tried for bigamy. He had been married three times. According to his own story, his first wife left him, because she liked someone else better. As he did not hear from her in the usual seven years time he married again, while having a good time in New York. This bride left him the next morning and he married again, this time his brother's widow. Wife No. 1 came to Toronto and caused his arrest.

Judge Winchester discharged Leverton on the seven years' clause. The case of Miss Beckett was commenced and will be finished to-day. The young woman is charged with maliciously destroying patterns, the property of W. A. Murray & Co., for whom she worked.

The grand jury brought in a true bill yesterday afternoon against John Murray, charged with keeping a common betting house at 897 West King-street. Detective Tipton, Chas. F. Connor and Fred Shingle were called as witnesses. A true bill was also returned for the same offence against George Street. The witnesses called were P. C. Redford, Chas. Connor and Wm. O. Connor.

James Joyce and Samuel Smith will be tried for assault on P. C. Owen McCarron. The hand book cases will commence this afternoon.

CARLISTS AGAIN ACTIVE. Authorities Take Severe Measures for Their Suppression. San Sebastian, Spain, Sept. 17.—The recurrence of Carlist agitation in Catalonia has caused the civil and military authorities of that province to adopt most severe measures for its suppression.

There has been concerted action among the extreme elements of the Carlists, whose activity is attributed to the influence of Don Jaime of Bourbon, son of Don Carlos, the Spanish pretender.

C.B.R. EARNINGS. Montreal, Sept. 17.—(Special.)—Receipts of the C.P.R. for the week ending September 14, 1906, were \$1,371,000; the same period last year, \$1,045,000.

Liquor and Tobacco Habits A. McTAGGART, M.D., C.M., 75 Yonge St., Toronto, Canada. References as to Dr. McTaggart's professional standing and personal integrity permitted by: Sir W. H. Meredith, Chief Justice; Hon. G. W. Ross, ex-Premier of Ontario; Rev. John Potts, D.D., Victoria College; Rev. Father Telfer, President of St. Michael's College, Toronto; Rt. Rev. A. Sweetnam, Bishop of Toronto; Rev. Wm. McEwen, D.D., Principal Knox College, Toronto.

Dr. McTaggart's vegetable remedies for the liquor and tobacco habits are baneful, safe, inexpensive home treatments. No by-stander's injections, no publicity, no loss of time from business, and a certainty of cure. Consultation or correspondence invited.

Store Closes at 5.30 p.m.

Dress Goods

(Black and Colored)

Our stock of Dress Fabrics comprises many dress patterns not sold to any other house in this country, and in this way our customers may insure themselves against commonness. Some of the popular fabrics much in evidence this autumn are plain, checked, and figured velvets, broches, silk chenets, diagonals, worsteds, herringbone and plain worsteds, fine navy chevrons, in stripes and checks, embroidered, and broadcloths, silk stripe amonzons, striped covert cloths, Harris tweeds, silk and satin maintenons, etc.

Silks

A magnificent display of gorgeous evening silks in dreads, chenes, figured Louisiane, moires, etc.; also the more substantial kinds for shirt waists, shirt waist suits, house dresses, etc., all in keeping with our established reputation for quality and good value.

Ladies' Gown and Suit Making by Mail

One of the features of our ordered tailoring and gown making department is that it guarantees perfect satisfaction to mail order customers. We furnish style cards, estimates and measurement forms, which insure accuracy, on request, and absolutely guarantee satisfaction.

Millinery

Our famous millinery in this season even more beautiful than usual. Reproductions of the world's millinery masters, and also many attractive modifications and creations of our own are now on display.

Mantle Department

We are showing this season an especially complete range of ladies' suits, jackets, coats, vest coats and mantles, walking skirts, opera and reception wraps, automobile hooded cloaks, etc.

Mail Orders Carefully Handled

SIR HOWARD VINCENT HERE

Distinguished Imperialists Will Be Banqueted To-Night.

Sir Howard Vincent will be in Toronto this morning, and a banquet will be tendered to him by the British Empire League to-night at 7.30 o'clock, at the National Club.

Sir Howard Vincent is one of the warmest friends that Canada has in England. He persistently advocated a protective tariff against foreign countries, with a preference for the colonies for a number of years before Hon. Joseph Chamberlain adopted that policy.

PHENOMENAL FLOW.

Natural Gas Well Produces 8,000,000 Feet a Day.

Chatham, Sept. 17.—A gas well near Chatham has reached the phenomenal flow of eight million feet of gas per day.

Piles Cured

Countless Hundreds of Pile Sufferers Have Been Quickly Cured by the Wonderful Pile Cure and More Being Cured Every Day.

A Free Trial Package Sent to All to Prove its Remarkable Power.

Now that the Pyramid Pile Cure has been discovered and has been proven to be a quick and certain means of relief and lasting cure, there is no excuse for undergoing an operation.

Does the Pyramid Pile Cure give immediate relief? Does it cure? Try a sample and prove to yourself as thousands have done before you. Then go to your druggist and get a 50-cent box and complete the cure.

The Pyramid Pile Cure acts with a certainty and a rapidity that is both pleasing and astonishing.

Take, for example, the case of Mr. Geo. B. Bender, 28 Diversey-street, Chicago. We quote his own words:

"I have been a sufferer for 14 years from internal and external piles. I have bought all kinds of pile cures to get relief, but it was all in vain until I read your ad in The American and I am sure, I am very thankful for the sample you sent me. I used it. I have bought one 50c box of Pyramid Pile Cure and one box of Pyramid Ointment. I have used them as you directed and to-day I bought another 50c box. Gentlemen, candidly speaking, I must tell you that I am sure I am getting relief by using one 50c box and I am free from pain at present. I sincerely believe it is one of the best and grandest piles cures in the world. I would advise all sufferers to try the Pyramid Pile Cure, for it is the best remedy ever used. It is a sure cure. I am very thankful for the sample you sent me.

The Pyramid Pile Cure is a god-send to the sufferer of piles and I know it.

The Pyramid Pile Cure has quickly and easily cured the worst cases of piles. The Pyramid Pile Cure heals ulcers and sores, reduces inflammation and takes away all itching and burning.

Prove it to yourself at our own expense. That is all we ask you to do. Send your name and address to the Pyramid Drug Co., 53 Pyramid Building, Marshall, Michigan, and get a free sample package by return mail.

BRITISH MOVE ROOSEVELT TO END STRIFE IN CUBA

Revolutionary Junta in New York Issues Statement That Palma is Dictator Instead of Weyler.

New York, Sept. 17.—The Times prints a story to the effect that the real cause of the action of President Roosevelt in regard to Cuba was not the appeals of American sugar planters near Cienfuegos, but a complaint made thru the British embassy at Washington regarding the damage done to the property of the Western Railroad, which is owned by British capitalists, and the heads of which are in London.

The revolutionary Junta of New York has issued a proclamation which says: "We have been careful not to overdraw the seriousness of the political situation in Cuba, and have made no changes that cannot be fully substantiated."

"We charge that President Palma obtained his election to office thru fraud and intimidation, and by the denial to the Liberals of their right of suffrage."

"We charge that the government of President Palma was directly responsible for the killing of Col. Enrique Villacudas, a member of the house of representatives at Cienfuegos on Sept. 22, 1905."

"We charge that President Palma has usurped the powers and functions of the governing bodies of the municipalities, and has annulled, arbitrarily and without warrant of law, the elections of Liberal officials, displacing them with members of his own political party, the Moderates."

"We charge that he has in like manner removed from the bench, judges who refused to act in their judicial capacity according to his dictation."

"The Liberals have made continued peaceful appeals that this injustice be righted, but to all these, the government turned a deaf ear. Denied the constitutional rights for which the Cubans fought, and and died for nearly half a century, we decided that our one recourse was again to take up arms."

"We now ask only one thing, and that is that the illegal and fraudulent election of last December be annulled and a new election held, at which every citizen will be given a fair chance to vote."

In concluding the proclamation it says: "That Palma is to-day the dictator of Cuba instead of Weyler," and declares that the men who surround him are the same who supported the Spanish regime while patriotic Cubans were in the field fighting."

WAREHOUSE BURNED.

Large Quantity of Fruit and Baskets Destroyed by Flames.

St. Catharines, Sept. 17.—(Special.)—About six o'clock this evening the large fruit warehouse of Titterton Bros., wholesale fruit dealers, was totally destroyed by fire. Besides a quantity of fruit, the building contained a large number of baskets.

How the fire started is a mystery and owing to the inflammable nature of the building and contents, the fire spread with great rapidity.

The loss will be about \$2500 with insurance of \$800. The fire will not interfere with the firm's business, as they immediately secured new premises for packing and shipping.

SHIPMENTS SATISFACTORY.

Grain Commission Hears Evidence at Owen Sound.

Owen Sound, Sept. 17.—(Special.)—The Royal Grain Commission convened here this afternoon. Those who gave evidence were: Wm. Coulter, chief of C.P.R.; J. H. McQueen, superintendent of C.P.R. elevators; James Clark, C.P.R. grain clerk; and Walter McNeil, government weighmaster at this port.

The evidence indicated that the methods of the C.P.R. in the shipment of grain could scarcely be improved upon. The regular schedule of storage rates was followed and complaints from shippers or millers were very few indeed.

The commission leave this evening for Meaford.

PORTFOLIO FOR WILLOUGHBY.

Will Be Made Minister of Health—Perhaps To-Day.

Hon. Dr. Willoughby, minister without portfolio in the Whitney cabinet, will be given charge of the new department to be created—the department of health.

This statement is made by one close to the premier.

The provincial cabinet will meet again today to discuss health matters. It has been practically decided to abolish the provincial board of health, and the duties of the department will be given over to a responsible minister.

Dr. Hodgets, secretary of the board, will be made deputy, in all probability.

In the Police Court.

Because Walter Willis, intoxicated, refused to hand over the horses and carriage to his employer, he was charged with theft. The magistrate dismissed the case. Joseph Edwards, charged with having in his possession a quantity of beer from a railway warehouse, Alexander McNamee, charged with having in his possession small sums and giving worthless cheques in return, was remanded for a week. Annie McConnell, chef of a pair of gloves from store was given 30 days. Henry Hunter was given in charge of a Barrie constable.

Edgar Judge Stricken.

Montreal, Sept. 17.—Edgar Judge, a prominent grain merchant, and one of the best known members of the board of trade and Corn Exchange Association, has suffered a stroke of paralysis, which, it is feared, will prove fatal.

Mr. Judge was formerly a resident of Toronto, where he was interested in journalism.

A bonus of one month will be given free to those who register for the complete term on September 24. Send for catalogue No. 7. It is given free upon application.

CENTRAL BUSINESS COLLEGE

Yonge and Gerrard Streets, Toronto. A. F. SPROTT, Secretary-Treasurer. W. H. SHAW, Principal.

GOOD RESULTS

Are obtained by taking a course in our oldest and most reliable school. Every advantage is afforded for the thorough and rapid advancement of our pupils. Our courses of study are modern and most effective in producing good results. Our location (Central Y.M.C.A. Bldg.), equipment and facilities for placing students in positions are of the best. Handouts calendar sent on request.

EVENING SCHOOL

Is open on Monday, Wednesday and Friday evenings from 7.30 to 9.30. Careful individual instruction. Evenings may be profitably spent by following a course of studies here. Phone, write or call for particulars.

British-American Business College

Y.M.C.A. Building Yonge and McGill Streets, Toronto. T. M. WATSON, Principal.

BREWERY WORKERS BUST.

Series of Resolutions Accepted, Discarded or to Be Considered.

The resolution committee of the Brewery Workers' convention was instructed yesterday to draw up a resolution against local option, to be discussed and voted upon at a later session.

From prisoner to state governor is the career the socialist party of Idaho has mapped out for Wm. E. Haywood, one of the three labor men imprisoned recently for alleged murder in the miners' strike and to help this end the brewery delegates yesterday unanimously voted \$500 to the Idaho Socialist party. In addition to this a resolution was passed requesting Judge Frank Smith of Idaho to either grant Haywood, Moyer and Pettibone immediate trial or let them out on bail.

A committee was appointed to visit Reinhardt's Brewery of this city and settle a little internal difficulty.

A proposition to assist the family of the former editor of the official journal to the extent of \$500 was referred to a committee.

By an overwhelming vote, a resolution to leave the A. F. of L. and the Industrial Workers of the World, was defeated.

The convention decided that the driving of hoops was the work of a brewery helper and not necessarily a petty work. This decision was in response to an appeal from Local 27 of Spokane, Wash., which union has experienced some trouble on that score.

Detroit delegates desire to remove the headquarters from Cincinnati to their city. The matter was turned over to the resolution committee, as were three other resolutions providing for changes in the makeup of the International executive board.

The organization committee will look after applications from Lake County, Pennsylvania, and the joint executive board of Pittsburgh, asking for appropriations of \$200 each to aid in organizing new locals.

The following resolutions were voted down: to form an international death benefit; to establish a press committee to pass upon all articles for the official organ; to nominate international officers by referendum; to allow delegates railroad fare to the international convention.

RELEASED FROM CONTRACT.

John McLeod Had Made an Error in His Figuring.

A special meeting of the property committee was held yesterday. John McLeod was released from his tender on the masonry work of the Phoebe-street, Dewson-street and Kew Beach schools, on the ground that he had failed to take into account the supplying of stone. He still retains his contract on the carpenter work. The masonry work was relet at the following figures: Phoebe-street, \$48,000 to J. C. Webb; Dewson-street to Henry Lucas and Son for \$6580 and on finance.

PILES

Dr. Chase's Ointment is a certain and guaranteed cure for piles, hemorrhoids, and every form of itching, bleeding and protruding piles. See testimonials by the press and your neighbors' home. You can use it and get your money back if not satisfied. 50c. at all druggists or EDWARDS, BATES & CO., Toronto.

WHAT TEDDY ID.

Editor World: After having read numerous articles condemning the recent "flag incident" at the National Exhibition, it occurs to me that undue stress is laid to the incident, which, in itself, was but complimentary to the people for whom the day was set aside. In direct contrast to this silly controversy

and Jarvis.

## WHY THE MANIPULATION?

World Office, Monday, Sept. 17.  
The recent action of Twin City is proving an enigma to those who cannot see behind the scenes, and therefore understand why the stock can suddenly drop 1-1/2 points, and as suddenly resume its former position. These prices are not made in the Canadian markets, but are reserved for New York; there it is not difficult to make quotations for specific purposes. The quotations are effective in controlling local sentiment on the issue, and New York has always been the medium employed for the purpose. Those who guess at the object of the manipulations—and no one disputes that its purpose is to cause a feeling of uneasiness among speculative holders in order that most of the stock will be liquidated prior to an advance. If there is one settled conviction as to the market, it is that Twin City will be put on a 6 per cent. dividend basis, if for no other purpose than to make a market for the new stock issued three months ago. It would be useless, it is thought, to attempt any campaign a long time hence until money is plentiful, and the market is sufficiently plentiful to allow of large speculative transactions, and enable the pool to get out more stock than has to be taken.

Manitoba Wheat.  
At the Winnipeg option market to-day the following were the closing quotations: Sept. 17, 57 1/2c bid, 58c offer, 58 1/2c bid, May 74 1/2c bid.

Toronto Sugar Market.  
St. Lawrence sugars are quoted as follows: Granulated, \$4.48 in barrels, and No. 1 golden, \$4.58 in barrels. Prices are for delivery here; car lots 5c less.

LOCAL FRUIT MARKET.  
For a Monday the receipts at the wholesale fruit market yesterday were somewhat heavy, but the demand was a good one and everything offered was picked up at fair prices. Peaches were all too scarce and would have commanded ready sale. From 65c to a dollar was the prevailing figure for real good stock. The bulk of the stuff going at the market in fruit ranged all the way from 25c a bushel up.

While the report is not really confirmed, it is said that the Canadian market has resulted to buyers from inability to secure baskets. In other quarters this report is ridiculed.

Tomatoes were a drug on the market yesterday. Real good stock was offered in a 5c basket, and some lots were said to have been sold at even lower rates.

Blueberries, box, \$1.75 to \$2.00. Lawton berries, \$0.08 to \$0.10. Peaches, \$0.73 to \$1.00. Apples, Crawford, \$0.75 to \$0.90. Peaches, Leno, top baskets \$0.75 to \$1.25. McIntosh, bunches, \$0.75 to \$1.00. California pears, \$0.20 to \$0.75. California plums, \$0.20 to \$0.75. Apples, California, \$0.20 to \$0.75. Lemons, Messina, \$0.50 to \$0.75. Lemons, Verillia, \$0.50 to \$0.75. Valencia, \$0.50 to \$0.75. Concord, \$0.50 to \$0.75. Canadian melons, large, \$0.20 to \$0.50. Melons, per crate, \$0.50 to \$0.75. Watermelons, each, \$0.20 to \$0.50. Cucumbers, Can. basket, \$0.50 to \$0.75. Cherkis, basket, \$0.50 to \$0.75. Tomatoes fancy, late, \$0.20 to \$0.50. Do, early, \$0.20 to \$0.50. Spanish onions, case, \$3.25 to \$3.50. Potatoes, per bush, \$0.50 to \$0.75. Sweet corn, No. 2, \$0.50 to \$0.75. Alexander, per bbl., \$2.50 to \$3.00. Peas, No. 2, \$0.25 to \$0.50. Do, No. 1, \$0.25 to \$0.50. Finnish beauties, \$0.25 to \$0.50. Egg plant, per bush, \$0.50 to \$0.75. Red peppers, \$0.50 to \$0.75. Onions, small, green, bush, \$0.45 to \$0.50. Do, large, green, \$0.85 to \$1.00. Celery, per basket, \$0.25 to \$0.50. Sweet potatoes, \$0.50 to \$0.75. Lima beans, \$0.50 to \$0.75. Chickpeas, per bbl., \$1.40 to \$1.50.

Toronto Grain Stocks.  
Last week, this week.  
Rye, bush, \$1.75 to \$1.85, \$1.75 to \$1.85.  
Wheat, No. 1, bush, \$1.75 to \$1.85, \$1.75 to \$1.85.  
Wheat, fall, bush, \$0.74 to \$0.75, \$0.74 to \$0.75.  
Wheat, red, bush, \$0.74 to \$0.75, \$0.74 to \$0.75.  
Oats, bush, \$0.38 to \$0.39, \$0.38 to \$0.39.

Visible Supply.  
Sept. 17, '06, Sept. 16, '06.  
Wheat, \$1,108,000, 13,350,000.  
Corn, \$1,000,000, 15,000,000.  
During the week we increased 1,028,000 bushels, or about 10,000 bushels and also increased 80,000 bushels.

World's Shipments.  
This week, Last week, Last year.  
American, \$2,500,000, 2,800,000, 3,122,000.  
Australia, \$200,000, 200,000, 200,000.  
Argentina, \$300,000, 300,000, 300,000.  
Brazil, \$100,000, 100,000, 100,000.  
India, \$50,000, 50,000, 50,000.  
Danube, \$1,984,000, 1,968,000, 3,416,000.

Chicago Gossip.  
Marshall, Spader & Co. wired J. G. Healy, King Edward Hotel, at the close of the market.  
Wheat—The wheat market, after closing quite firm and higher than any part of the session, finally turned heavy and sold off about 1/2c to 3/4c figures. The weakness was due to heavy profit-taking by local bulls in the absence of supporting orders. Commission houses were thought to have been early, but later were seen to favor the bulls, cables all being quite firm. It is expected that on any further decline we advise purchases.  
Kinnis & Stoppel wired to J. L. Mitchell, Michigan Building, at the close of the market.  
Wheat—Following a rather strong opening with the general tone of a rather bullish hue, the market became very quiet and uninteresting. Just at a moment when

## DEATH OF BRITISH ADMIRAL WHO DID DEWEY GOOD TURN

Sir Edward Chichester Also Had Charge of Transportation of Troops to South Africa.

Gibraltar, Sept. 17.—Rear Admiral Sir Edward Chichester, who commanded the British squadron at Manila during the Spanish-American war, died here to-day of pneumonia, after an illness of a few days.  
Rear Admiral Chichester was chief of the sea transport service during the Spanish-American war. His work in transporting a quarter of a million men 6000 miles to South Africa won him great praise.

It was Sir Edward Chichester who, according to reports, stood by the American in Manila Bay at a time when the British squadron was ordered to leave the American and German fleets were grudgingly at each other's heels, giving their decks cleared for action.

One account of the affair, printed in a London paper, said that "when the American and German fleets were grudgingly at each other's heels, giving their decks cleared for action, Capt. Chichester, stolidly steered the British squadron between them; giving, in a word, a good humor that probably saved a battle which would have resulted in disaster to the peace of the world."

Under the heading, "The Flag and Its Legend," The London Globe says the policy announced by Premier Roblin at Winnipeg recently will be warmly welcomed by every imperialist. Referring to Premier Roblin saying, "The man who objects to perpetuating the glories of our flag is undesirable," The Globe says it is good to hear such outspoken words after the sickly sentiment which we at home had too much of during the last few months.

Concluding, The Globe says that not all the piteous appeals of newly converted secretaries to the cause of Canada will alter the "colonial conviction" that radicalism would betray them if it dared.

Arnold Craik, in The Book Monthly, is the authority for the statement that Canada can lay little claim to being a large buyer of books. She has not reached the stage where the development of her natural resources can give place to any general development of culture. The books in demand are in the main ephemeral. There are few large private collections. There are a few large book stores, but the original publishing in Canada has passed very little beyond the school-book stage. Practically there are only two publishing houses in the Dominion which regularly bring out books by Canadian authors.

Levis Men for Canada.  
One hundred men from the Isle of Lewis, engaged to work on the trans-continental railways in Canada, sailed from Glasgow on Saturday. Another batch leaves this week.

GAVE MUCH, BORROWED LITTLE  
Man Who Posed as Morgan's Nephew is Under Arrest.  
London, Sept. 17.—A man calling himself Gerald Morgan, and representing himself to be a member of the Harvard Rowing Club, and a nephew of J. Pierpont Morgan, had been remanded for trial at the Greenwich police court, on the charge of obtaining fraudulently a small amount of money from Dr. Dickson, resident surgeon of the Miller Hospital.

Morgan signed orders on an American express company, directing the payment of \$1000 to the hospital, and promising an annual payment of \$125 to the institution. He declared the first amount to be a donation from his uncle, J. Pierpont Morgan, and the second from himself.

At the conclusion of this business, Morgan told Dr. Dickson he had lost his purse and obtained from him a small sum of money.

While he has not yet been identified, Morgan is probably the same man who victimized several west end tradesmen of several hundred pounds from his uncle, J. Pierpont Morgan, and the second from himself.

NEW AGED WOMEN'S HOME.  
First Step Turned in Preparation for a Good Work.  
At 10.30 yesterday morning, Mrs. Gunther turned the first sod in preparation for the foundation of the new Aged Women's Home on Belmont street. The ceremony was brief and informal. Prayers of supplication for continued blessing upon the work were offered by Mrs. McLaughlin and Mrs. Ewart. Several members of the board and their friends were present.

The need of a larger building has been felt for some years, as there has always been a waiting list. When the new building is ready the present one will allow added accommodation for aged men and that, in turn, will also allow of a much larger industrial refuge.

The new building will accommodate about 100 inmates.

Bible Training School Opening.  
The opening rally of the Toronto Bible Training School was held last night, Dr. Stewart presiding, while the attendance was especially gratifying. The address of the evening was given by A. C. Gaebelein of New York, and the theme was "The coming of the Lord as revealed to Zachariah." Others present, and who spoke briefly, were Rev. Dr. Parsons, Robert Kilgour, Dr. Baldwin and Rev. Mr. Weston of Emmanuel Baptist Church.

The series of addresses will continue through the week and the regular winter session of the Training School will begin to-day with an estimated attendance of 200, when the classes are to be finally arranged.

London, Sept. 17.—A man calling himself Gerald Morgan, and representing himself to be a member of the Harvard Rowing Club, and a nephew of J. Pierpont Morgan, had been remanded for trial at the Greenwich police court, on the charge of obtaining fraudulently a small amount of money from Dr. Dickson, resident surgeon of the Miller Hospital.

Morgan signed orders on an American express company, directing the payment of \$1000 to the hospital, and promising an annual payment of \$125 to the institution. He declared the first amount to be a donation from his uncle, J. Pierpont Morgan, and the second from himself.

At the conclusion of this business, Morgan told Dr. Dickson he had lost his purse and obtained from him a small sum of money.

While he has not yet been identified, Morgan is probably the same man who victimized several west end tradesmen of several hundred pounds from his uncle, J. Pierpont Morgan, and the second from himself.

NEW AGED WOMEN'S HOME.  
First Step Turned in Preparation for a Good Work.  
At 10.30 yesterday morning, Mrs. Gunther turned the first sod in preparation for the foundation of the new Aged Women's Home on Belmont street. The ceremony was brief and informal. Prayers of supplication for continued blessing upon the work were offered by Mrs. McLaughlin and Mrs. Ewart. Several members of the board and their friends were present.

The need of a larger building has been felt for some years, as there has always been a waiting list. When the new building is ready the present one will allow added accommodation for aged men and that, in turn, will also allow of a much larger industrial refuge.

The new building will accommodate about 100 inmates.

Bible Training School Opening.  
The opening rally of the Toronto Bible Training School was held last night, Dr. Stewart presiding, while the attendance was especially gratifying. The address of the evening was given by A. C. Gaebelein of New York, and the theme was "The coming of the Lord as revealed to Zachariah." Others present, and who spoke briefly, were Rev. Dr. Parsons, Robert Kilgour, Dr. Baldwin and Rev. Mr. Weston of Emmanuel Baptist Church.

The series of addresses will continue through the week and the regular winter session of the Training School will begin to-day with an estimated attendance of 200, when the classes are to be finally arranged.

**MANUFACTURER'S CONVENTION**  
Continued from Page 1

every hand evidences of comfort on the part of the people and prosperity of our business institutions. Canada's foreign trade had shown a remarkable increase. The total trade was \$73,046,000 in excess of 1904-05, and exports had increased \$58,270,000. The imports from the United States showed another increase. This year they reached \$180,728,000, an increase of 8 per cent. A gratifying feature was that the imports of British goods had increased more proportionately than imports from the United States. The increase was 12 per cent. The total imports, \$69,296,000. A large proportion of this increase was a direct result of the preferential tariff. The value of the exports of agriculture and animals and their products was \$120,518,000, an increase of \$30,197,000 over 1905. Manufactured goods had increased from \$21,191,000 to \$24,561,000, a gain of about 16 per cent.

**Opportunities at Home.** "The growth of this country is so rapid that we must guard against the possibility of becoming engrossed with the enormous work of today without placing a proper estimate upon the future. Agriculture is the corner-stone of Canadian industry. With the development of our farms, we have built railways, established banks, and opened trading houses, all of which are most necessary. We thought at one time that certain of our eastern provinces were destined to be chiefly agricultural provinces. After a few years we discovered that we were lacking in big cities, in consuming centres; we discovered that our sons and daughters born on the farm would not all be farmers, some would not because of their temperament, others would not because

**PROVED AFTER FIFTY YEARS.**  
The test of time has proved that Putnam's Corn Extract cures quicker, with less discomfort and more thoroughly than anything else. Contains no acids, is purely vegetable and absolutely guaranteed. Insist on "Putnam's" only—it's the best.

There is lots of vim and "expression" in this season's styles, and you get it all if we make your suit. You get exclusiveness, too. We can show you any number of different things in cloths that are bound to appeal to you and the Suit we make will be made as you want it—not as someone else wants it.

**Suits from \$25.00.**

they saw greater opportunities elsewhere. The result was that Canadians went south by the thousand. I feel safe in saying that the most of these Canadians were lost to our country because we had not the so-called factories—in other words, the inducements and the opportunities.

"To-day the situation is completely changed. We have begun to study our own resources. Within our own borders, we have all the raw materials for the world's great industries, the necessary industrial opportunities for all our sons and daughters, and the greatest and best market for the products of our farms. Our neighbors to the south have recognized this even sooner than we ourselves. To-day they are returning to us our own.

"It is for us to say whether we will continue to purchase our manufactured goods in the United States, or put just a little more tariff on certain lines, and make the factories in the States built plants in Winnipeg, Saskatoon, Moose Jaw, Calgary, Medicine Hat, Regina, Edmonton or any other of the many centres in our great western prairies which have advantages to offer by the means of keeping the population we are getting."

**What of the Future?**  
It was only within the last decade that Canada has begun to realize the future remain in the country, or should it by a mistaken fiscal policy go abroad for the enrichment of other nations?

"The future of Canada largely depends upon the way our statesmen decide," said Mr. Ballantyne. "It must be a matter of gratification to all patriotic Canadians that the fiscal policy has ceased to be a matter of partisan controversy. The leading politicians of both political parties now recognize the necessity of protecting Canadian industries of kinds, and we may hope that when the members of our Dominion parliament are called together in November to consider the revision of the tariff they will set aside all old prejudices and look at the question from the broad standpoint of Canadian interests. They will consider what policy will best develop the varied resources of our country, give profitable employment to all classes of our people, and maintain and advance the prosperity that now exists."

When a number of members of the Canadian Manufacturers' Association visited the United Kingdom last year the leaders of the party took pains to make their position regarding the question of a preferential tariff clear to the British people. That when we must go abroad to buy goods we would prefer to buy them from our fellow citizens of the British empire. The leaders of the tariff reform movement in England expressed approval of the attitude, and the chambers of commerce of the empire had also endorsed it.

Continuing Mr. Ballantyne explained what was wanted in an "equalizing tariff." The difference in the wages paid in two great factories, England and Canada, was remarkable. Figures show that common labor is 52 per cent. higher in Canada than in England; gang-labor or sub-foremen 70 per cent. higher; boys (16 to 18), 35 per cent. higher; machinists, 54 per cent. higher; carpenters, 40 per cent. higher; girls (by the hour), 60-3 per cent. higher, and girls (piece-work) 62-3 per cent. higher. These figures are sufficient to show the necessity of maintaining an equalizing tariff against British goods.

**As to foreign trade,** business had never before been so good in all civilized countries. "Indeed," said the speaker, "Canada has been so prosperous that many of our people have failed to see the necessity of providing for future years. The world's commerce may pass through a period of stagnation, as it has so often done in the past after periods of great activity and general prosperity. They have failed to see that, by sending abroad annually many millions of dollars for manufactured goods, they could be made just as well in Canada, we are draining the country of when the bad years come."

For the fiscal year ending June 30, 1906, Canada's trade with the world at large amounted to \$63,000,000, an increase of over eighty millions over the previous year. Canada, per head of population, had a greater commerce with the outside world than the United States. That we should not be too ready to congratulate ourselves on this fact, a writer on this subject had pointed out that if the Americans would buy all the iron and steel and all the cotton now manufactured in the United States the figures of foreign trade would be enormously increased. If the raw cotton and the iron ore used in American mills and furnaces were shipped abroad to be used in the cotton mills and blast furnaces of Germany and Britain the total exports of these raw materials would be largely in the trade returns, and when the finished products were brought back to the United States they would swell the figures of imports. Yet no one would argue that it would be better for the people of the United States to close their cotton factories and shut down their iron and steel works, in order to thus increase the foreign trade per head of population. During the fiscal year ending June 30, 1906, imports from the United States for consumption in Canada, exclusive of gold and silver, amounted in value to \$152,431,826, while Canadian exports to the United States, exclusive of gold and silver, amounted to only \$53,498,642.

**Be not the last to lay the old aside.**  
Look at the calendar and you'll see it's time for a new Fall suit.

Don't be the last man to lay aside the old suit for a new one.

Look at our lines—we both make and import.

Buyers tell us they can't find as smart a cut or style anywhere else as they get in our clothing—suits and overcoats.

You can't tell how good they are till you see them.

Glad to have you look. Look as long and as often as you like—then come again, if you like.

**SUITS AND OVERCOATS, \$15 to \$25.**

large manufacturers in the east were building branch factories in Winnipeg now, and a great many more were contemplating doing so. If manufacturers were to receive a fair treatment in the growing trade in the west, it would be necessary for them to establish branch factories in Winnipeg and the other enterprising western centres.

"To accomplish this we want a strong Canadian policy that will benefit both Canada and the world. Mr. Ballantyne said that the great imperial preferential movement, to which we were moving on land in the commerce of the world, was a most important part, and the life of the C.M.A. must be woven into her development from year to year. "What a great task what greater opportunities," he said, "to develop all our industries, hand in hand, to cultivate and maintain a national co-operation between our now scattered provinces, to weld and strengthen the bonds which bind us to the other portions of the empire, and the wisdom to keep pure and healthful our moral and political life?"

**Treasurer's Report.**  
The report of the treasurer says: "There has been a steady and steady advance during the past year by our association in all its departments and undertakings, and this very net result is in the above statement. It will be observed that after providing fully for bad and doubtful debts and writing off \$200 for depreciation on furniture, our surplus assets are \$7400.46, which is an increase over last year of \$2657.25. The receipts, which total \$40,383 are \$1877 in excess of last year, and the expenditure, which amounts to \$39,258, is \$388 less." "Industrial Canada is now a paying basis. The insurance department has cost the association \$873.19 to date, and the transportation department \$3966.25, the cost of establishing a British office is estimated at \$6000."

**Parliamentary Committee.**  
The parliamentary committee reported labor conditions on the whole satisfactory. Strikes in manufacturing establishments had not been numerous. Wages had, during the last few years, been on the increase, and employers had learned the necessity of keeping control of their shops, and have shown that they are not prepared to discriminate against any competent workman just because he does not belong to a labor organization. The "open shop" had made headway. It had not been necessary to oppose at Ottawa any demands of organized labor. Representations made opposing certain sections of the Sunday Act as originally drafted, the Gold and Silver Stamping Act, the Prison Labor (which should be taken up by the association), a recommendation that the exportation of wheat to Alberta be discontinued, and that the Ontario Assessment Act should be carefully watched by the incoming committee, a word of regret that the act respecting stationary engineers—probably the worst example of hastily considered legislation, the committee has given figures to show that as a general proposition the western provinces could derive a much greater benefit from protection as the eastern. One reason why it was particularly important that the tariff protection should be increased without delay was the fact that our foreign materials are used on the Grand Trunk Pacific and other great railways that are now in the course of construction the money will go out of the country.

**Provincial Taxes.**  
President Ballantyne then passed on to what he called a serious question, the growing tendency of several of the provinces to pass laws which in their private effect discriminate against the business establishments in other parts of the country. "It is a deplorable fact that many

of our provincial legislatures have so forgotten the great confederation idea of unity that they have been only too ready to devise means to add to their local revenue by taxation directed at the business people of other provinces, thereby imposing unnatural restrictions upon inter-provincial trade," he said. "The situation in this respect has grown rapidly from bad to worse in the last year or two, until one begins to wonder just how far the provinces will go before they will be obliged to call a halt."

"As manufacturers we have good reason to object when we cannot send our travelers or our goods into other provinces without filing statements, making deposits and paying special taxes and registration fees, the latter of which varies in the provinces Ontario, Nova Scotia, British Columbia and Prince Edward Island. Steps should be taken to harmonize the trade legislation in the different parts of the country and make an end of the senseless discrimination of one province against another."

Under the head of transportation, the speaker referred to the new C. P. R. and Allan services to Britain and the C. P. R. Express-Asia export movement, together with various rail and water projects now under way. Notwithstanding the great progress, however, there were, during the fiscal year 1906, 2,600,000 more bushels of Canadian wheat shipped by United States ports than by Canadian ports. This showed that improvements in our shipping was a national question. It was to be hoped that with the great improvements that are being made in water and rail transportation from the west, it would soon be a matter of past history for the country to send any wheat abroad via American ports. The government was each year spending more money to improve our harbors and rivers, but the fact that it did not keep pace with the growth of the country.

**The Association's Work.**  
The work and growth of the association had been highly edifying, showing two new sections, pulp and paper and printing, had accorded Canada a favored-nation preference, of which the association had worked three years.

It was gratifying to know that there had been an absence of effort on the part of organized labor to secure unfair privileges from the Ottawa government. The Ottawa government would continue this policy. For the most part conditions between employer and employee were satisfactory, and the unions and the other associations of employers should seriously consider the results that ill-advised attempts to advance legislation would have. "Probably the greatest need of manufacturers at the present time was skilled help, and the association had not hesitated to express its approval of the emigration policy of the Dominion, which discouraged skilled mechanics from Canada, while the Allen Labor Law was designed to prevent manufacturers from bringing such men to Canada; a national system of training was greatly needed in Canada."

The insurance department had had a successful year, the once again the Canadian Fire Underwriters' Association had turned a deaf ear to the overtures of the American companies, and they prefer to remain entrenched behind their powerful organization, undisturbed by thought of injustice or unfair competition. The Canadian Fire Underwriters' Association had been entering the Canadian field and some measure of relief might be expected. The value of an expert in transportation matters had been emphasized more during the past year than ever before, and an increasing number of members were taking advantage of the services of the department.

In concluding his address, Mr. Ballantyne said that the great imperial preferential movement, to which we were moving on land in the commerce of the world, was a most important part, and the life of the C.M.A. must be woven into her development from year to year. "What a great task what greater opportunities," he said, "to develop all our industries, hand in hand, to cultivate and maintain a national co-operation between our now scattered provinces, to weld and strengthen the bonds which bind us to the other portions of the empire, and the wisdom to keep pure and healthful our moral and political life?"

response schools that offer them facilities for industrial education, which they cannot obtain at home. A similar situation was to be found in Toronto, Hamilton, London and other industrial centres, so that probably upwards of half a million dollars is paid out every year by Canadian mechanics for better industrial training. And yet, one of the greatest needs of Canada was for properly trained employees.

## GO INTO HOT WATER.

Why Boys Hadn't Bathing Suits and What Resulted. Three young lads were fined a dollar yesterday afternoon at the police court for going in bathing without suits. "The reason we didn't take suits," said one, "was because we didn't know the water was warm." Joseph Sugare of foreign birth, was an innocent banana seller. He didn't have a license for a day or two, but somebody put him wise to the fact that one was needed. Sugare saved himself by a day.
