KILLED AT PETERBORO.

Mr. Clemens, aged 76, Run Down by a Train. Track Express—No Inquest is Necessary.

Peterboro, May 9.—An unfortunate accident attended with fatal results occurred here to-day in the P.E. train. The train was entering the western outskirts of the town, by which Mr. Clemens was passing. The old gentleman, who was here visiting his son and who was 76 years of age, went for a morning walk and when returning home took the G.P.R. track to reach his home. At the place where the accident occurred there is a sharp curve in the track which prevented the engineer seeing the old gentleman until it was too late. The engine struck him and hurled him from the track. The train was immediately stopped and the unfortunate man taken to the Nichols Hospital. He died a very short while after arriving there. The engineer immediately reversed his engine, applying the air brakes and blowing the whistle, but the victim evidently did not hear it. The coroner did not deem it necessary to hold an inquest as there was no blame to be attached to the train hands.

Field's Minister To-Night.

A large company of real southern negroes has been formed by Al. G. Field, under the title of "Darkest America." The basis of the entertainment is music, singing and dancing, and the representation of home-life in the south as it actually exists in the cities and on the plantations. Wherever these people have appeared in their entertainment, press and public alike have pronounced it the most unique and pleasing thing of the kind ever presented on the stage. Their entertainment is different from all other negro shows. In addition to the large company that composes "Darkest America" will be seen Haji Cherif's troupe of Arabs. These Arabs are capable of giving an entertainment in itself. Their features are entirely new to our people. "Darkest America" comes to the Toronto Opera House Monday night for a week's engagement, with the same troupe on Thursday and Saturday matinees.

CHILDHOOD DAYS.

Childhood Not Always Happy and Healthy.

Even in childhood troubles which are commonly supposed to affect older persons sometimes appear. Kidney and urinary difficulties are the most frequent of these. Little folks that have pain in the back that are restless, irritable and cannot sleep well, cause untold trouble and anxiety to their parents. T. C. Nixon, 213 Clinton-street, Toronto, where he has resided for 15 years, gives the story of the sufferings of her son Charles:

"My son Charles, 15 years old, has since infancy been afflicted with weak kidneys. From the time that he could talk he has complained of pain in his back. His weak kidneys have been a source of continual annoyance and discomfort. His urine was very red and left a sticky sediment. He has always been very restless at night, and would get but little sleep after 12 o'clock. He constantly complained of being tired and was very nervous and irritable; the slightest noise would startle him and the smallest trifle irritate him. I had given him many kinds of medicines, but none seemed to do him any good until I got a box of Doan's Kidney Pills from Mr. Gilpin's drug store, corner of College and Beaufort-streets, and he took them. From the time he experienced a benefit, and now he is well. It is most remarkable to my mind, but it is a fact that the pills at once reached the seat of his malady and removed the cause of the trouble."

Greater than any Dictionary Greater than any Encyclopedia

THE CENTURY DICTIONARY AND OYCLOPEDIA has, by reason of constant use, become the standard in both England and America, as is fully attested by hundreds of unsolicited testimonials of those who speak with authority, as well as by many laudatory press criticisms from both countries. It is greater than any Dictionary because it begins back of them all—at the very fountain-head of language, but goes far beyond where mere dictionaries stop, and covers the field of the great encyclopedias. It is indeed greater than any Encyclopedia because it takes all the knowledge found in them all, with much they do not contain, and refines, crystallizes and classifies it for the ready and perfect use and service of every profession, trade and calling.

It is a veritable descriptive and pictorial Encyclopedic Treasury of exact information regarding WORDS, THINGS, PERSONS and PLACES, which embrace the sum and substance of human knowledge well arranged and set forth with a comprehensiveness, accuracy and attractiveness which make the work simply invaluable for home, office, library and study.

Only 600 Sets available As a result of the negotiations referred to, THE MAIL-EMPIRE has succeeded in securing for its readers 600 sets only of the work at the lowest wholesale price ever conceded any one, which reduction effects an average saving of over 40 per cent. from the publishers' price.

The mechanical portion of the work is executed in the same rich, faultless and expensive style which characterizes all productions of The Century Company.
