Have that faded Overcoat or Suit Dry Cleaned... STOCKWELL, HENDERSON & CO'S

SEVENTEENTH YEAR

IT WAS BLOWN... Mayorality Meeting Simply a Disgrace... POLICE WERE CALLED ON

E. A. Macdonald Went to the Pavilion in His Fighting Clothes... The Aqueduct and Mayor Fleming Had it Hot and Lividly in the Presence of the Haters...

For two hours last night the Pavilion presented a scene of unedifying and unenthusiastic seditious witness at a big municipal meeting...

The one who threw in the apple of discord was the redoubtable and irrepressible E. A. Macdonald...

The Mayor interceded with the chairman and Mr. Macdonald was given five minutes to conclude his remarks...

THE CHAIRMAN'S SPEECH... Mr. Barwick presided in the unavoidable absence of Mr. J. E. Keenan...

Mr. J. T. Langton Church gave an unequalled praise to the People's Gove...

Mr. E. F. Cross praised the Mayor for being the champion of the poor...

THE MOST VEXAL YOUNG MAN... I have a distinct recollection of Mr. E. A. Macdonald telling me that Mr. Douglas was the most vexal young man living...

THE LADIES SPEAK... Mrs. Annie Brown was then called on and said: 'I have not come here to say any more about the Mayor's conduct...

THE AQUEDUCTOR SPEAKS... Mr. C. A. leading politician, says: 'The Mayor's conduct is a disgrace to the city...

THE AQUEDUCTOR SPEAKS... Mr. C. A. leading politician, says: 'The Mayor's conduct is a disgrace to the city...

ALL HE HAS TO OFFER AT PRESENT.

PEANUT POLITICS... The Mental Strain on the Accused Man is Having its Effect—The Jury...

Boston, Jan. 1.—Thomas M. Bram, charged with the murder of Capt. Nash and his wife of the barquentine Herbert Fuller, was an anxious looker as he came into court this morning...

District Attorney Hoar resumed his argument immediately after the judges had taken their seats. He assumed the testimony of Bram, whose story, he said, was not borne out in any essential particular...

After a brief recess, Judge Webb delivered the charge to the jury. He said the jury must determine their verdict upon the evidence submitted and must not be influenced by any arguments of counsel...

Just as the court was about to leave the defendant and jury brought in a communication from the witness stand. 'What time was it when you saw Bram strike Capt. Nash?' 'At 2 o'clock,' Judge Coe said...

The jury then put the following question to the witness: 'What time was it when you saw Bram strike Capt. Nash?' 'At 2 o'clock,' Judge Coe said...

No verdict having been reached up to 10 o'clock to-night, the court adjourned until morning.

HIS NEW YEAR LEVEL

Lord Aberdeen Held Forth in the Red Chamber... ABOUT 500 PEOPLE CALLED

And Paid Their Respects to the Representative of Royalty...

Rossland Pronounced to be Emphatically Ahead in the Matter of Mining Towns—Deputy Minister Scarth Has Been Investigating the Picro-Pneumonia Scare and Finds That the Disease Never Had an Existence in Canada—Details of the Eastern Townships Case—Other Ottawa News...

Ottawa, Jan. 1.—(Special.)—His Excellency the Governor-General held his usual New Year's day levee in the Senate Chamber to-day. He was attended by Capt. Wilberforce and Lieut. Neve, as A.D.C.'s. Among the members present were the Premier, Hon. Messrs. Scott, Borden, Fielding and Davies...

Manitoba Premier Greenway, Archbishop Dulmead, Bishop Hamilton, Lord Archibald Douglas, General Gascoigne and Col. Lake were in attendance on His Excellency. About 500 leading citizens called to pay their respects. For several days past an advertisement has appeared in the city papers urging the ladies of the Canadian Yew's callers. His Excellency accordingly adopted the request...

THE Picro-PNEUMONIA SCARE. Mr. Scarth, Deputy Minister of Agriculture, was to-day shown the full report of the slaughter of diseased cattle in the Eastern Townships and was enabled to give a more circumstantial explanation of the matter than occurred during his visit to the Eastern Townships in the fall of 1896. He stated that the disease was not compared with Rossland at its present stage of development.

NOT OBSTRUCTIONISTS, BUT—

The Council occupied five hours in arriving at a decision upon the report of the Sunday Car Committee respecting the agreement for the submission of the vote on Sunday cars and the acceptance of the proposition to extend the city street car system to the Island.

A cry against monopoly is always popular, especially when directed against a corporation such as the Railway Company. The proposal made by Ald. Scott to insert a proviso, which would enable the city to give the Island franchise to another company, was of this character.

Had any one of several amendments which were offered at the Council meeting been adopted, another deadlock would have occurred. The leader in the attack upon the report and in the movement to bring about the deadlock was Alderman Scott, who was seconded by Ald. Gowankow and supported by Ald. J. J. Graham, J. H. Hubbard, Crane and Hallam.

Ald. Spence has heretofore enjoyed the reputation of being the "faddist" of the Council, with respect to Sabbath observance, and kindred questions. He outshone his reputation when he attempted, by raising the fare, to take money from the pockets of the public and transfer it to the coffers of the Railway Company, in order to gratify his desire to keep his fellow-citizens from riding on the Sunday cars when they run.

THE SYNDICATE BUSINESS IN ENGLAND.
The plethora of money in Great Britain, says a contemporary, is producing a crop of proposed enterprises, and bringing out features of speculation which are curious.

Turkish Bath at Home.
The home Turkish Bath Cabinet, and is now recognized by physicians as one of the greatest aids to other medical and hygienic measures in the medical profession.

Mr. McVey's Correcives.
Mr. W. D. McVey, one of the candidates for school trustee for Ward 6, who was reported to have said at his nomination that "general appearance" ought to count in the selection of teachers for the public schools, desires to state that he was misrepresented.

The "Zlor."
Among the different mining companies in close proximity to Rosedale, the Zlor Gold Mining Company, Limited, referred to elsewhere in this issue, is worthy of particular note.

HOSPITAL FOR SICK CHILDREN.

THE VICTORIA HOSPITAL. A Model Institution in Toronto Kept Going by the Efforts of Several Philanthropic Citizens.

The World has recently given sketches of the benevolent work of the Toronto General Hospital and St. Michael's Hospital. Today are given above illustrations relative to the Victoria Hospital for Sick Children, on College Street, at the corner of Elizabeth Street.

POLICEMEN THUMPED.

A New Year's Day Saloon Row at Grand Rapids, Mich., Which Had Serious Results.
Grand Rapids, Mich., Jan. 1.—Two men were shot and two policemen received a nearly fatal beating in a saloon riot here last afternoon. Officers John Vergever and William Harrington entered the place, suspecting that the laws were being violated in keeping open. Immediately they were confronted by an angry crowd, in which "Hunk" Treadwell and Orlo Kruger, the bartender, seemed to be leaders. The men demanded to see the officers' badges and almost immediately the crowd set upon the two policemen. Revolvers were drawn and shots were fired. Beer glasses and bricks and all sorts of instruments of assault were used. Treadwell was shot in the right breast and his condition is serious. Vergever is unconscious from the effects of the beating. A number of arrests have been made.

St. Joseph's Fancy Fair in Pontion's Hall will close to-night. All the fancy articles, etc., remaining unsold will be disposed of by auction. No admission fee will be charged. The coupons in the drawing, which must be handed in before 7 o'clock, at the drawing will be held early in the evening.

ELECTION CARDS. ELECTORS OF WARD 3.
I am a candidate to represent you as Alderman for 1897. If you elect Mr. McMurrich for Mayor it will be necessary for you to elect me to assist him in giving you good government. If you elect Mr. Fleming it will be imperatively necessary that you elect me to watch him and prevent the recurrence of secret 5 a.m.

RAIDS ON THE TREASURY.
I am in favor of a policy of aggressive enterprise. I am opposed to a policy of stagnation and dry rot. I ask you to support me in my endeavor to make Toronto a great industrial centre by making this metropolis the Mecca for cheap electric heat, light and power.

E. A. Macdonald. MUNICIPAL ELECTION.
Your vote and influence are respectfully solicited for the election of Thos. Bryce as Alderman for 1897.

WARD NO. 3. 1897.
Your Vote and Influence are respectfully requested for the election of A.F. RUTTER AS ALDERMAN FOR 1897. Toronto Junction Mayorality

WARD No. 2 THE PEOPLE'S CANDIDATE ALD. T. DAVIES Solicits your Vote for re-election as Alderman for 1897.

**AFTER A MONOPOLY.**

Ball Commenced at Topoka to Dissolve  
 the Kansas City Live Stock  
 Exchange.

Topoka, Kas., Jan. 1.—Suit was com-  
 menced in the United States Circuit  
 Court here yesterday to dissolve the  
 Kansas City Live Stock Exchange.  
 The petition was prepared by United  
 States Attorney W. C. Perry, and was  
 signed by Attorney-General Harmon.  
 The petition charges that the object  
 of the organization is to control the  
 buying of live stock at the Kansas  
 City stock yards, and that its existence  
 restrains trade, is against public pol-  
 icy, and is a violation of the federal  
 anti-trust laws. The petition alleges  
 that the Live Stock Exchange and the  
 Stock Yards Company, working  
 together and doing business in con-  
 junction, are operating a monopoly in that  
 it is impossible for any other than a  
 member of the exchange to do busi-  
 ness in Kansas City markets, and are  
 placing an obstruction and embargo  
 on the marketing of stock shipped  
 from the Western States to the Kansas  
 City market, which is not consigned  
 to the Kansas City Stock Yards Com-  
 pany, or to the defendants or other  
 members of the exchange, who are  
 permitted by said Stock Yards Com-  
 pany to transact business at its  
 yards. An order was issued by Jus-  
 tice of the Peace for the arrest of the  
 Live Stock Exchange and en-  
 joining against the enforcement of the  
 terms of the Federal Court on Jan. 14.  
 This proceeding is the outgrowth of  
 the fight between Groer, Mills and  
 the Kansas City Live Stock Exchange.

**A Winter Home in Toronto.**  
 Families contemplating closing their  
 homes for the winter months will find  
 in the new Grand Union, corner Sim-  
 coe and Front (the most modern hotel  
 in the city, steam heated, bath, elec-  
 tric light, gas, lift, etc.), a perfect  
 winter home. Mr. Campbell will  
 be pleased to give special rates. 248

**A Montreal Fire.**  
 Monmouth, Ills., Jan. 1.—W. A. La-  
 Grace, who was arrested here two  
 weeks ago as the supposed author of  
 the fire at the Hotel de Ville, was  
 identified by Officer McMahon as In-  
 sador Bodo, wanted in Montreal for arson.  
 The recognition was mutual and the  
 prisoner accompanied the detective  
 this morning without resistance papers.

**Consumption Cured.**  
 An old physician, retired from prac-  
 tice, had placed in his hands by an  
 East India missionary the formula  
 of a simple vegetable remedy for the  
 speedy and permanent cure of con-  
 sumption, Bronchitis, Catarrh, Asthma,  
 and all Throat and Lung affections,  
 also a positive and infallible cure for  
 Nervous Debility and all nervous com-  
 plaints. Having tested its wonderful  
 curative powers in thousands of cases,  
 and feeling it his duty to relieve human suffer-  
 ing, I will send free of charge to all  
 who wish it, this radical cure for  
 French or English, with full directions  
 for preparing and using. Sent by mail,  
 by addressing, with stamp, naming this  
 paper, W. A. Noyes, 820 Powers' Block,  
 Rochester, N.Y.

**Sailing for Europe.**  
 New York, Jan. 1.—Among the prom-  
 inent passengers booked to sail for  
 Europe on the Cunard Liner Cam-  
 pania to-morrow is Dr. T. G. Rod-  
 dick, M. P. of Montreal.

**THE METHOD OF A GREAT  
 TREATMENT FOR WEAK-  
 NNESS OF MEN.**

**WHICH CURED HIM AFTER EVERYTHING  
 ELSE FAILED.**

Painful diseases are had enough, but  
 when a man is slowly weakened away  
 with nervous weakness the mental fore-  
 bodings are ten times worse. Sleep  
 most severe pain, or any kind of  
 the mental suffering day or night. Sleep  
 is almost impossible. The responsible  
 strain men are scarcely able to stand  
 what they do. For years the writer rolled  
 and tossed on the pillows, and sea of sexual  
 weakness until it was a question whether  
 he had not better take a dose of poison  
 and thus end all his troubles. But pro-  
 vidential inspiration came to his aid in  
 the shape of a combination of medicines  
 that not only completely restored the  
 general health, but enlarged his weak  
 and emaciated parts to normal size and vigor.  
 He now declares that any man who  
 will take the trouble to send his name  
 and address may have the method of  
 this wonderful treatment free. Now, then  
 I say free, I mean absolutely without  
 cost, because I want every weakened man  
 to get the benefit of my experience.  
 I am a philanthropist, and do these as  
 an enthusiast, but there are thousands of  
 men suffering the mental tortures of weak-  
 ness and manhood who would be cured if only  
 could they but get such a remedy, as the  
 one that cured me. Do not try to study  
 out how I can refer to pay the few post-  
 age stamps necessary formation but send  
 for it, and learn that there are a few  
 things on earth that, although they cost  
 nothing to get they are worth a fortune  
 to some men and mean a lifetime of hap-  
 piness to most of us. Write to Thomas  
 and Sister, Box 2088, Kalamazoo, Mich., and  
 the information will be mailed in a plain  
 sealed envelope.

WE OFFER THE FOLLOWING CLEAN-  
 INGS FROM 1896.

**40 REMNANTS OF  
 BLACK and COLORED DRESS FABRICS**  
 specially assorted and arranged with  
 the following lots. These will all be  
 found to be bright, clean goods, short  
 ends left and small pieces of the sea-  
 son's importations. The prices attached  
 represent the very acute of dress fabric  
 bargains.  
**15 BLACK GOODS**  
 150 ends, 3/4 to 3/8 yds, suitable for  
 Waists or Trimmings, from 50c to 75c  
 per yard; sold all season at 50c to  
 \$1.25.  
 250 Skirt lengths, 4 to 6 yds, from 50c  
 to \$1.25 per yard; sold all season at  
 75c to \$2. We will make one of these  
 into a pair of pants, 3 1/2 to 4 yds in  
 good finish, best work at very moderate  
 cost.  
 50 Dress Patterns, from 25c to 40c each;  
 sold all season at \$3.50 to \$5 each.  
**FOLLOWING DRESS GOODS**  
 100 ends, 1 1/4 to 2 1/4 yds at 25c to 50c  
 750; sold all season at 50c to \$1.25 yd.  
 150 ends, 2 1/4 to 4 1/4 yds, 50c to 75c;  
 sold all season at 75c to \$1.25.  
 100 Skirt lengths, 3 1/2 to 4 yds in each  
 at 50c to \$1 per yard; sold all season  
 at 75c to \$2 yd.  
 40 Dress lengths, clearing at \$2 to \$2.50  
 each length; were \$3 to \$12 each.

**MAIL ORDERS**  
 continue until every garment has dis-  
 appeared. Reductions of from 25 to 50  
 per cent. are being allowed.  
**MAIL ORDERS**  
 for bargains receive every attention.  
**John Catto & Son,**  
 King-st., Opp. the Postoffice.

**JANUARY  
 for  
 WHITE  
 GOODS.**

SCORES and thousands of women have learned to  
 wait and appreciate the January White Goods sale  
 of the big store. There will be a greater quantity  
 than ever shown this year. The cotton underwear stocks  
 are of a kind that will enlist speedy attention.  
 Forehandness is the price of economy, and the sale  
 that we commence on Monday in cotton underwear is the  
 fruit of months of planning.  
 You will be delighted with the snowy white piles.  
 By no possible ingenuity could you buy materials and  
 make up the goods at anything approaching the prices we  
 will quote during this sale.  
 Rare ripe bargains in underwear, cottons and sheet-  
 ings and men's white goods. There can be no such thing  
 as dull days with the big store in January with the plans  
 it has made for business—the white goods sale being the  
 start.

**The Toronto World.**  
**AGENTS WANTED!**  
 1897 - - THE WORLD - - 1897

THE WORLD is prepared to make a special canvass to one or two active men in every mun-  
 icipality in Canada, who will undertake to make during the months of January and February a  
 personal canvass of the farmers of one or more of the municipalities of the county in which  
 they reside. Our subscription price places THE WORLD within the reach of every farmer. Our  
 accurate market reports and reliable weather probabilities will many times repay the subscrip-  
 tion price of the paper. THE WORLD gives no premiums or prizes, but puts its money in news  
 and trusts to its merits for recognition. It goes to press at 4 a. m., and always contains the  
 latest news up to the hour of publication.

**Our terms to Agents are the most liberal ever offered by any paper in Canada**  
 Agents can make more money by canvassing for THE MORNING WORLD than for any  
 other paper published on this continent. Should the reader desire to accept the agency for  
 one or more of the municipalities in which he resides, he should fill in the attached coupon and  
 return to this office at once, and we will furnish our terms to agents and give him authority to  
 act as our representative for the municipality named in coupon.  
 Address, Manager Circulation Department, TORONTO WORLD.

**TALKED ON MONEY MATTERS**

Mr. McKinley and Major Wolcott Conferred.

**ENLARGED USE OF SILVER**

Was One of the Points Which Claimed Their Attention.

Washington, Jan. 1.—No time has been lost by the committee appointed at Senator Wolcott's suggestion by the Republican caucus to devise a scheme for carrying out the platform pledge of the party looking to the international bimetallicism. Very soon after the Senate comes together again a bill will probably be introduced providing for summing up another international conference. This time it is to be done with the assent of Major McKinley, who had a long talk with Senator Wolcott at Canton a few days ago, and who is thoroughly in accord with the project. There is little difference of opinion among Republican Senators as to the wisdom of doing something very early in the next Congress looking to the enlarged use of silver in the commerce of the world. It is felt that the party owes this to the silver Republicans, who stood by McKinley and Wolcott in the matter of the tariff, and at the risk of their political careers, made an uphill fight. Senators Wolcott, Carter, Mitchell and Wilson have been diligent in the election in emphasizing the importance of the phrase, "which we pledge ourselves to carry out," contained in the platform, and a preliminary agreement with the leading commercial nations of the world. The committee of the St. Louis platform, which does not follow, though it has in its mind to be made into an agreement for the free coinage of both gold and silver. Those who are most active in working an international conference do not expect that it will be held in the near future, but on quite different lines.

Senator Wolcott's project, which he has not yet revealed in detail, even to his Congressional associates, is to bring about the settlement of the silver question. One feature of this plan of his is an agreement among all the silver-using countries of the world, including the United States, to coin a silver dollar of greater weight and fineness than the other leading nations of the world. The points out that the true dollar was by means so much of an article as to be made into a coin. Out of the \$20,000,000 issued, only about \$7,000,000 were sent back for redemption. In other words, three-quarters of the number were held for just so much additional silver. Under the present tariff, the silver market in the Senate have been considering it. It is a question of the silver dollar, and the question of an enlarged use of silver in the currency of the world promises to be a very lively one.

**MEN AND THINGS.**

Secretary Olney and the representatives of the silver party on the other side have been pretty busy these last few weeks, but none of them seem to know exactly just where they are at. They are all so friendly and so business-like, however, for the benefit of European nations, the United States hasn't any colonies to look after, but on the principle that old maid's children are preferred, they have had the friendly advice. But there is a rift within the lute. Secretary Olney thinks that the resolutions of the Senate and House of Representatives are only the personal opinions of the eminent gentlemen who vote for them. Some of the eminent gentlemen think that Secretary Olney doesn't know what he is talking about. There is a rift within the lute, and the rift gets wider. It is a rift that Mr. Secretary is not quite so sovereign as he thought, and so the rift gets wider. It is a rift that Mr. Secretary is not quite so sovereign as he thought, and so the rift gets wider.

Chief Justice Hagarty's retirement marks an epoch in the history of our courts. He was the only Chief Justice of the Supreme Court of Ontario, and his career makes one wish that old buglers still existed for the purpose of appointing judges. It is the great pity that no chronicler of legal vicissitudes of which the Chief Justice was such a master has yet appeared in Ontario. Many a bon mot has been suffered to flicker and go on because no one kept it alive. It is said that some years ago, after the Chief's appointment, he was checking on King-street by a friend of his. When asked to explain his very appearance, he replied that it was just six years and six days since he became a judge, and that he was rejoicing that his six years of ignorance, gross and ordinary, were now mercifully forgiven by the Statute of Limitations.

Another friend met him long after exhibiting more chastened expression of satisfaction. Hagarty elicited the fact that he had been declared by the life insurance companies a risk, and that he had probably seen in last one of the directors and officers of every company to which he had applied for insurance. It is also said that those who make that country's government their professional occupation found it difficult to find in Napoleon III's career. His idea of perpetrating government by means of a Republic was not shared by Austria, with Germany, it answered for a time, as exploiting the Monroe doctrine to serve his turn. But the Republic has given fair warning, and their turn is coming.

**NEW YEAR'S AT THE WHITE HOUSE**

The President and Mrs. Cleveland Were Made Tired With Hand-Shaking, But Smiled Through.

Washington, Jan. 1.—The annual New Year's party at the White House took place to-day according to long-established custom. It constitutes the yearly ordeal of the President and mistress of the White House, and is a most interesting and profitable one. The President and Mrs. Cleveland were made tired with hand-shaking, but smiled through. The President and Mrs. Cleveland were made tired with hand-shaking, but smiled through.

**Public Notice.**

**City Buildings**

Qualified to Vote on Money Bylaws.

An investigation of the report presented by the Property Committee of the City Council, which shows that the amount necessary to complete the City Buildings is \$275,000, and a bylaw will be introduced at the next Municipal Elections to provide for the same.

It is regretted that the erection of these buildings undertaken by the city, the fact remains alternative to complete the same, and that the ratepayers will vote the money for the work.

It is therefore most earnestly requested that the ratepayers will vote the money for the work.

**BERT J. FLEMING, Mayor.**

**URGENT NOTICE.**

Main on Front-street from Church to Dundas-street.

**KEATING'S REPORT.**

All no doubt remember that at the fire at which the property of the Keating Building and a number of other buildings were destroyed a year or so ago, that the pressure was not as good as it should be, and I understand that complaints were made to the City Council, but by citizens generally, who were not out that this main is intended to form a part of the improvement of the distribution system, the business portion of the city, but for all that the east of the River Don. It has been suggested the whole length of main, from Simcoe to Sherbourne, and it would be sufficient to lay only on Simcoe and Church-streets.

Contracted for this work, as well as the completion of Front-street, which cannot possibly be done until the amount to be expended is provided for by the people on January 4th, 1897.

**BERT J. FLEMING, Mayor.**

**NOTICE.**

NOTICE IS HEREBY GIVEN THAT application will be made to the Legislative Assembly of Ontario at its next session for an Act to incorporate the Toronto Radial Railway Company, such Act to provide for the following:

1. Acquire all or any of the real and personal property, rights and franchises and privileges now or heretofore owned or enjoyed by the Toronto Belt Line Railway Company, or by any other company operating or having the right to operate an electric railway or system of railways within or within fifty miles thereof.
2. Exercise all such rights, franchises or privileges, and also to improve the Toronto Belt Line Railway or other railways within or within fifty miles thereof, and to convert the same or any portion thereof into an electric railway or system of railways within or within fifty miles thereof.
3. Make such extension or extensions of the said railway or railways within the city of Toronto, or within a radius of fifty miles thereof, as may be deemed necessary or expedient, and operate the same.
4. Make such agreements and exercise all such powers as may be necessary for the purposes aforesaid.

MORRIS, BRADFORD & TITTS,  
Solicitors for Applicants.  
DATED this 21st day of November, 1896.

**NOTICE.**

NOTICE is hereby given that the Agents of the Toronto Construction Company of Toronto are authorized to receive applications for shares of the said company at its next session for an Act to change the name of the Company to the Ontario Aqueduct and Construction Company, such Act to provide for the following:

1. That the provisions of the Act of the Ontario Aqueduct and Construction Company, shall apply to the said company.
2. That the company may carry on its business anywhere within the Province of Ontario.
3. That the company may do general construction work.
4. That the provisions of the Act of the Ontario Aqueduct and Construction Company, shall apply to the said company.

E. A. MACDONALD,  
General Manager.

# ANNUAL White Goods Sale!

Weeks and months ago before the holiday trade had fairly begun we began manufacturing and collecting goods for a very special occasion during January. The extent of that preparation shows to-day in vast quantities of white goods at prices below the market and such facilities for quick selling as have never before been equalled. We believe there is plenty of business to be got even in midwinter, and, acting on that belief, the store has been generally busy every January for years.

What we emphasize now is new goods, new styles and new prices. There's no suggestion of stocktaking or other threadbare expedients. All the goods advertised to-day are brand new. It is important that you remember that.

The time long since passed when it paid women to make underwear at home. New facilities for manufacturing goods in great quantities have reduced the cost so materially shoppers can't help but wonder where our profit comes. It's enough to know in advance that we pay fair wages and skimp nothing in the making. Values such as these are bound to surprise those who take the trouble to see the goods these prices represent.

### White Cotton Gowns.

Ladies' White Cotton Night Gowns, Mother Hubbard yoke, lace on neck and sleeves ..... 30  
 Ladies' White Cotton Night Gowns, Mother Hubbard yoke, wide frill of cambric on neck and sleeves and down front ..... 47

BRITISH MINING EXPERTS

Are Turning Their Attention to Canada's Riches.

GOLD IN THE ANTIPODES

But the Scarcity of Water is a Great Drawback.

A London Expert on His Way to Rossland—Great Hopes Mine Sold for \$2,000,000—Depositor of the Coal Mines in England Attracting Attention—The London Mining Journal Discusses the Subject.

Scarcely a day passes now that does not bring to Canada some British mining expert who has been interested in the gold fields of Australia or South Africa for years past, but it is now that they are turning their attention to the rich resources of Algoma or British Columbia.

The latest arrival of this class is Mr. A. Cairns of London, Eng., who has just passed through this city on his way to Rossland.

Mr. Cairns has for years been identified with the famous Coolgardie gold fields of Australia, and he says there is plenty of gold in the Antipodean Continent yet, much of it free-milling and of a quality which is only surpassed in the Coolgardie property being 300 miles distant.

Through his solicitors, Charles Ericson of Rossland is suing the Le Roi Conty for an amount of \$100,000, which he claims is due to him for work done on a mine.

LIMITS OF DEEP MINING.

An Important Question Discussed by a Big Authority.

The rapid deepening of the coal mines in England, the wonderfully deep sinkings on some of the Lake Superior mines and the project of deep mining in the Transvaal, have attracted attention to the important question of the extent to which extreme subterranean excavations may be carried on.

It is universally recognized that the obstacles to deep mining are of a two-fold nature, physical and economic. The first consideration limits the depths below which it will be impossible to mine; the second that below which it will not be profitable. That there really is a limit to which the word impossibility can fairly be applied is evident, and we consider that the earth's temperature is a constantly increasing amount as we descend below the surface, so much so that if the more central portions are not in an actually liquid condition, they are probably in what may be called a potentially liquid condition at a level at which the heat is sufficient to melt the rocks.

It is fairly well known nowadays that the rate of temperature does not vary with the depth in simple arithmetical progression, but that the rate is rather more complicated, so much so that the probable temperature attained at great depths is not so easy to calculate. Moreover, there are a number of subordinate circumstances that must serve to properly modify the results of individual cases.

First of all, both the absolute depth and the relative depth of the heat, meaning by the former the depth that this working reaches below sea level, and by the second the depth below the mouth of the working; or, to put it differently, the height above sea level at which the central heat from ascending, or above the given spot, thus preventing the central heat from escaping. For example, the low temperatures obtained by Agassiz at the Calumet and Hecla mines are due not only to the proximity of the cold waters of Lake Superior, but to the conducting powers of rock impregnated with metallic copper, which enables the cooling influence of this body of water to make itself felt at great depths.

Another most important factor is the direction whence the water currents at any particular point are moving, whether they are coming upwards, and are thus conveying heat to the spot, or whether they are capable, on the contrary, of cooling it by taking heat away. It seems accordingly certain that local conditions such as cannot well be predicted, will play a most important part in determining the temperature in depth in any particular case.

It is not, however, a matter of course that the severe manual labor it used to be, and machine drills and mechanical haulage require rather intelligent supervision than physical exertion. We hold that the greater difficulty will be found less in keeping the temperature of the air low enough for working in than in handling the very hot rock as broken out from the mine, especially if it be wet and the miners have water or hot mud to contend with. If this water is highly mineralized, in the bottom of the Calumet and Hecla shaft, a further difficulty will be encountered.

Pressure must, like temperature, be considered under two heads—namely, that of the atmosphere and that of the rocks. The former does not need serious consideration. In the Fraser method of shaft sinking, men have worked under three atmospheres of pressure, though with a certain amount of difficulty. This pressure may be taken as just about the limit at which men can work and not be injured by any means, can stand this, though, no doubt, sufficient pressure could be obtained for all ordinary mining purposes. As this pressure corresponds to a depth of over 100 feet, low sea level, any difficulty on this score may be disregarded. The of rock pressure is more of a consideration; some engineers hold that the pressure on the roof and sides of an excavation must necessarily increase

with increasing depth, and attempts have been made to reduce this pressure to a matter of calculation. It is, however, by no means so self-evident as it appears at first sight, and has not been proved to be absolutely inaccurate. Thus all mining engineers will have come across instances where the upper levels of a mine needed very careful timbering, while the lower ones required very little, and vice versa without any, and in most shafts it is the upper portion that requires the most careful securing. For, while it is perfectly true that pressure increases with increasing depth, this same pressure tends to consolidate the rocks, and renders them more capable of resisting the pressure. The amount of support required by an excavation depends not only upon the pressure, but even more on the nature of the walls, and whether these are strong enough to resist the former. It seems probable that in very deep mines the horizontal thrust, tending to squeeze the walls of an excavation together, will be the most serious danger to be guarded against; this can readily be done by building suitable arches and by careful use of timbering. The latter will, in any case, be necessary to save hoisting worthless material up deep shafts.

Looking, then, at the two main elements that determine the possibility of mining at great depths, we find that though a limit must be reached, it will be a very low one, and one that need not be taken into practical consideration for many years to come. The temperature at the bottom of a deep—was about 150 degrees F., under conditions when the heat was retained as much as possible. It seems, therefore, quite safe to say that mining will be possible at a depth of 3,000 feet, and under exceptional circumstances may even be possible at a depth of 5,000 feet.

The question, therefore, resolves itself into the further consideration: Will minerals be found as rich at great depths as at shallow ones? With respect to coal, the question is entirely answered. There is no reason whatever why the deep-seated seams of coal should not be every bit as rich as those near the surface, and experience, as far as it has yet gone, seems to bear out this conclusion. In fact, in some deep shafts, as in Belgium, and in still deeper borings in many parts of the world, no noticeable difference in quality has been found. It is in iron ore that the earth's crust at which the veins become either barren or iron-rich, it can only be said that we have as yet nowhere reached it, not even in the deepest shafts.

Finally, it must be remembered that the impossibility of one generation becomes the everyday practice of the next. Mining has progressed within the last century at a rate so rapid as any other branch of engineering, and it may well be that the descendants of a century hence will merely point to our present ideas of the limit below which mining is impossible, as amusing examples of old-fashioned prejudice.

The British Lion as a Lamb. New York Journal. English's prudent conclusion that her interests will be best served by not continuing to dispute the validity of the Monroe doctrine, is a very wise one. The Venezuelan boundary has been treated to disquisitions on the incoming of a new era typified by the noble observance of what our British kinsmen—an era which shall be a high court of arbitration established for the decision of disputes between the two nations. The Anglo-Saxon race, represented by the United States, is to lay down the sword and set an example to the kind of a truly Christian civilization in which justice and not force shall rule. Finality in the settlement of the dispute by every humane being is a proposition not to be dissented from, but, unhappily, human nature is undergoing a change merely because England has retreated from a position which might have brought a war which would have been ruinous to her business interests and position among the powers.

While peace-loving brethren are assuring the British lion that she is a lamb, the insurgent commander who replaced Antonio Maceo, the Provisional President of the Province of Pinar del Rio, is wounded, according to advices received here from Artemisa.

Leon Herrman, a nephew of the late Prof. Alexander Herrman, sailed on the St. Louis from Southampton on Saturday for New York, and has taken command of the original company and complete the work previously laid out by the dead magnate.

The deficit is heavy. Washington, Jan. 1.—The Treasury statement, which will be issued Saturday, shows that the deficit for the first six months of the current fiscal year is in round figures \$20,000,000.

Development Work will be commenced in January, and several properties will be got ready for the spring boom. The Capitalization is very small considering the number of properties that have been secured, and stock is selling readily at \$1 per share. Have you a Prospectus of this Company? It is considered by financial men to be one of the best gold mining prospectuses issued in Canada.

A CANADIAN COMPANY.

The Gold Hills Exploration & Development Company of Toronto, Limited.

Non-Personal Liability. Shares sold at a discount absolutely non-assessable. Incorporation applied for under the Ontario Joint Stock Companies Letters Patent Act and the Acts Relating to Mines and Mining.

HEAD OFFICE TORONTO, CANADA.

PRINCIPAL AGENCIES WILL BE LONDON, ENG.; ROSSLAND, B.C.; RAT PORTAGE, ONT.

PROSPECTUS. The best form of mining investment is the development company, when properly formed, as it does away with middlemen, and its shareholders get, or should get, the first profit, always the most important. A number of valuable gold, silver and copper propositions in the best fields have been already secured.

The company will have information (already confidentially secured for that purpose) on which it can act at the FIRST OPENING OF SPRING by prospecting parties on a REGION OF EXTRAORDINARY PROMISE, which is as yet known to only a few.

Every man on the Board of Directors is well and favorably known in Canada. None of them would be connected with a project that was not perfectly sound, nor could they afford to allow their names to be used in promoting a mining company of a merely speculative character.

They believe in the EXTRAORDINARY RICHNESS OF CANADA'S NEWLY FOUND MINERAL WEALTH; they think that the system on which this company proposes to operate will promote the honest development of that wealth, and they are of opinion that there are sources of LARGE LEGITIMATE PROFITS for the shareholders of this company.

The Company will have its own Mining Experts and Engineers and will only deal in claims and mines favorably reported upon.

The following table shows the selling price of mining shares in London on the 18th December, 1896.

Table with 2 columns: Share Name and Price. Includes: S. African Exploration \$18-18, Consolidated Gold Fields \$18-18, Gold Fields of Bygonia \$18-18, Crown Reef \$18-18, Champion Reef \$18-18, Crown Deep \$18-18, Rand Mines \$18-18, Johannesburg Pioneer \$18-18.

A limited number of shares subject to allotment are now offered to the public in blocks of not less than one hundred shares at ten cents per share. Those desiring to secure part of this first issue may apply to Messrs. A. W. ROSS & CO., Mining Brokers, 4 King Street East, Toronto.

Correspondence Solicited.

SILVERINE

1500 shares in small lots at \$1. The Silverine is one of the promising properties of the camp, and has an ore strike of 100 feet in surface, from which came some of the largest assays of the camp, 100, 800, 1000, and 2000. This stock is one of the cheapest in the Rossland camp. WYATT & CO. (Members Toronto Stock Exchange), 240 King-street west.

The Canadian Gold Fields Syndicate.

An Exploration and Mining Syndicate, operating under bond the high-grade Sunset Group of Gold-Copper properties at Rossland. Owns the Jennie, a rich silver property in Slocan. Capitalization, ten million shares, par value ten cents each. Sold only at par, absolutely non-assessable. No personal liability. Entire capital stock placed in Treasury.

HEAD OFFICE—ROSSLAND.

HOWARD C. WALTERS, President and Managing Director. JAMES CLARK (Superintendent War Eagle Mine), First Vice-President and Advisor. Director, J. O. DEWEY, Secretary-Treasurer. BANKERS—Bank of Montreal and Bank of British North America. SOLICITORS—OLUPE & NELSON, Rossland.

It is only intended to sell two million shares of the stock at present, that being sufficient to pay for the properties now under bond, equip them with machinery and provide ample working capital. The remaining eight million shares in the treasury will not participate in the profits until sold; at any time the syndicate to acquire other first-class properties. Purchasers of syndicate shares at par (ten cents) participate in the profits of every transaction of the company.

The Sunset—now being actively developed by the Canadian Gold Fields Syndicate Limited—a shaft is down 45 feet in pay ore. Five assays made from fair samples clear across the shaft give the following results in gold: No. 1, \$44; No. 2, \$42; No. 3, \$50.40; No. 4, \$48; No. 5, \$56. No shaft in the camp gives superior results.

Plans for complete steam hoist, air compressor and four-drill plant are under way, and, as soon as equipped, extraction and shipment of pay ore in quantity will begin.

Subscriptions are now invited for the fully paid non-assessable shares of the Canadian Gold Fields Syndicate, Limited, at ten cents per share. Prospectus on application. Send orders and remittances through any bank, broker or direct to The Canadian Gold Fields Syndicate, Ltd., Rossland, B.C. Agents and correspondents wanted everywhere.

Gillis Bernard Found Dead. Albany, Jan. 1.—Gillis Bernard, who belongs near Montreal, was found dead last night in his room at the Directory Hotel. Death was undoubtedly caused by apoplexy; as he had two previous attacks. He was in the city visiting his children, who attend school here. He was a man of means.

The Powers Will Agree. London, Jan. 1.—The Chronicle's Rome correspondent telegraphs that it is rumored that the powers generally will give adherence to the arbitration pact between the United States and Great Britain. Italy, it is added, will be the first nation to signify its official approval.

It Froze Up Suddenly. Yesterday it rained all day in Winnipeg and pools of water covered the streets. Last night came a stiff frost and froze solid all the pools. The result is that today the street car lines are tied up.

James O'Sullivan is reorganizing a new play which he will shortly produce. It is a substitution from the street car line of the piece has not yet been made public.

BACK AT THE DEEP DIGGINGS

Attempt to Revive the Great Interest of the Fifties.

A PIONEER AT THE QUEEN'S

Was an Old-Time Associate of the Famous Cariboo Cameron.

How the Old Diggings Were Operated—Lack of Capital Injured the Progress of the Work—Work on the Rossland South Belt—A Talk With H. O. Tibbets—In the Slocan—General Mining Notes.

An attempt is to be made to revive the interest in the "deep diggings" mining which flourished in British Columbia away back in the first boom days of the fifties and sixties. The rich gold quartz propositions of Rossland and other camps have largely superseded the old-time placer and "deep diggings" operations, but there are those who claim that just as rich results may be obtained from the old river beds of British Columbia as at present working the Rocky placer and "deep diggings" operations, but there are those who claim that just as rich results may be obtained from the old river beds of British Columbia as at present working the Rocky placer and "deep diggings" operations...

The term "deep diggings" is applied to that branch of gold mining which has for its bases of operations the old beds of rivers. In the alluvial deposits of gravel and soil washed down from the mountains and stored by nature beneath the running streams of water are frequently found quantities of the precious metal, and this gold is the object of this method of mining to obtain. The method operated adopted is to sink shafts in the banks of the rivers and then drift and timber in the gravel beneath the running water. These deposits often continue for miles under the streams, and the usual depth of "pay" gravel is about seven feet, though it sometimes runs as high as 20 feet. An idea of the return to be obtained from operations in this line may be therefore arrived at by reflecting that the workings on Williams Creek in the early days are said to have yielded over 200 tons of gold, and as it has only to be "washed" to extract the gold from it. Lack of capital and the need of machinery, Mr. Ramos pointed out, caused a cessation of operations in this district in the early days, but now he thinks a revival is at hand. It is understood that it is the opinion of Prof. Dawson, the Dominion Government geologist, that not half the gold being taken out of the Cariboo diggings, and Mr. Ramos thinks that Canadians will do well to try to get hold of what remains.

Already some attention is beginning to be paid to the district, the Cariboo Gold Fields Company having recently been formed, with a capital of \$250,000, in England, to work some of the "deep diggings." Mr. Ramos, who belongs to a syndicate which owns three miles of diggings on Slough Creek, which is a continuation of the famous Williams Creek, will endeavor to organize a company here and in Montreal to work them. This gentleman, it may be understood, was the first to introduce into British Columbia a boring machine, which facilitates the finding of the old beds of the rivers in which the deposits occur. He brings with him considerable amount of risk, the success or failure of development companies depends upon their managers, and in the Rossland Development Company they are strong. The president is Mayor R. J. Fleming, Vice-president G. A. Farini of London, England; secretary and treasurer, F. Roper, Esq., who is also secretary and treasurer of the Dominion Telegraph Company. This assures

ROSSLAND'S SOUTH BELT. Mr. H. O. Tibbets of That Town Thinks it is Very Rich. Mr. M. O. Tibbets, secretary of the Silver Bell Mining Company, was in the

ADJOINS THE SILVER BELL

THE IBEX

THE IBEX MINING COMPANY is organized under the laws of British Columbia. Capital \$1,000,000, divided into 1,000,000 shares of the par value of \$1. Treasury Stock, 300,000 shares. Stock fully paid and non-assessable.

OFFICERS. G. A. POUNDER - - - President. W. J. GREEN - - - Vice-President. D. L. TIBBETS - - - Treasurer. J. A. SCAMAN - - - Secretary. JOHN A. POUNDER - - - Superintendent of Mines.

THE IBEX mineral claim is situated on the south-west slope of Deer Park mountain, adjoining the well-known and valuable SILVER BELL MINE and comprising about three acres. Three ledges have been uncovered on the property—the East St. Louis ledge, the Stock Exchange ledge and the Silver Bell ledge.

The two former intersect each other near the centre of the claim, at which point the iron capping is thirty-five feet wide. Here a shaft has been sunk to a depth of twelve feet in well mineralized rock. The Silver Bell ledge lies farther south, on the steep slope of the mountain, and, as nearly as can be determined from the work already done on it, dips into the hill at an angle of about 45 degrees.

This ledge is twenty-four feet wide at the Silver Bell mine, immediately adjoining the Ibx on the south-west, and one is being taken out for shipment assaying from \$80 to \$103 per ton. This lode can be easily tapped at a good depth by means of a tunnel.

After cross-cutting and proving the dip of the upper ledge it was decided to drive a tunnel in on it for a distance of one hundred feet, attaining by this means a depth of seventy-five feet on encountering the vein. This tunnel is now in about thirty feet, and will be continued night and day. When the vein is reached a shaft will be sunk.

A fifteen feet crosscut will be made on the lower ledge and a shaft sunk to a depth of probably thirty feet on the ore vein before the regular working tunnel is started, to tap the vein at a greater depth.

The Ibx promises to turn out a valuable mine, and stock should be bought now at the low price of Five Cents per share

RED EAGLE 7 1/2 This property shows remarkably high assays and should turn out one of the best mines in the Trail camp—situated between the Mayflower and Curlew mines. Price subject to advance without notice. Write for prospectus. SNOWDROP 4c Will soon be advanced to 5c. Work is in progress on this mine. A tunnel is in about forty feet and seven men are regularly at work. Write for prospectus. SILVER BELL 10c A large body of high-grade ore is now on the dump awaiting shipment to smelters on completion of Red Mountain railway. Latest assay shows \$156 to the ton. WILL BE A GREAT MINE.

city yesterday, having just returned from Rossland, B.C., an Easterner, but has lived in the West for the last 12 years. A great part of the past year he has spent in Rossland and of the mineral resources and future of the town he speaks in most sanguine terms. He is interested in other mines besides that with which he is officially connected. The prospects of the Silver Bell, he said in an interview with a World reporter, are very fine indeed. At present they are taking out pay ore and have a supply of shipping ore on the dump. The Ibx Mining Company is a new adjacent enterprise, already incorporated. It starts out with very good prospects indeed. It possesses some very strong leads. The Silver Bell ore has ranged as high as \$156 per ton. The Stock Exchange and St. Louis are also very promising. These ledges cross each other in the Ibx claim.

Mr. Tibbets added that he had received a telegram from the president of the Ibx Mining Company, Mr. James A. Livingston, stating that a tunnel had been constructed on the intersection of these two ledges and very fine ore has been found.

The Crown's Nest Railway, he said, was very much needed for the development of the district. There are, he continued, that the model gold mining country of the world, in his opinion, in speaking of the affairs of the World's Fair, Mr. Livingston said that, after spending two months in the West, he had seen in the Rossland and Lake of the Woods districts, he had succeeded in purchasing property in three different parts of the country, namely, on Whilgoun Lake, Eagle Lake and Lake of the Woods. Mr. Livingston says, is more companies that will develop properties, so that when the capital comes in they may have a chance to invest. Mr. Livingston will return to the West in January to commence the development of his company's properties, several of which will be offered for sale in the spring.

INFLAMMATORY RHEUMATISM.—Mr. S. Ackerman, Commercial Traveller, Bellefleur, writes: "Some years ago I used Dr. Thomas' Electric Oil for rheumatism, and three bottles cured me. I was the whole of one winter unable to walk, and every movement caused excruciating pain. I was kept in bed for several months, and every kind of medicine had been tried, but I never felt better until I used Dr. Thomas' Oil. I now keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others, as it did so good for me."

DEVELOPMENT OF MANY MINES GOING ON IN THE SLOCAN. Though winter checks the action of the prospector in the Slocan silver camps, work on the claims which laid in their winter supplies goes on briskly.

The Wellington has shipped five carloads of ore since snow fell. The miners have struck another 37-in. vein of galena and grey copper, giving 6000 five hundred oz. of silver per ton and the average yield in the winter months has been to put on more men.

The Whitewater is shipping two carloads per week, and the ore is remarkably rich, the yield in the winter months being about one dollar per pound, of silver and lead.

The output in fact from the Wellington and Whitewater camp, as a whole, creates general activity.

The Lonsdale though work only began late in the fall, has already run one tunnel 120 feet, 40 feet being through the outer ledge, and two others are being run at lower levels.

The Corinne also has four tunnels running up into big pay, it is said, and the bondholders of the Corinne or Corvair, are pushing work as the Lone Star adjoining is doing, and saying little.

The latter, with four other claims, has been captured as the Hansard. It is reported that the Eldon has already withdrawn its stock from the market.

The Slocan Star has paid its fourth dividend since August, and in all, \$200,000, or three-fifths of its capital, \$300,000 of it having been paid last year.

The fraction between the Eldon and Paradise was sold for \$500 one day, its owner being in need of money, and the buyer re-sold it next day for \$900. This small claim is entirely undeveloped, but in a rich camp.

The comparative ease with which mining is carried on in the Slocan silver district is shown by the work already ready done in the Charleston, the Corinne and Lone Star. The former began to be worked in August last and the Corinne and Lone Star in November.

The influx of strangers on the look-out for pay claims only shows what the Slocan may expect in the spring.

ROSSLAND GOLD MINING, DEVELOPMENT AND INVESTMENT COMPANY. This new movement, said a mining man yesterday, is in the right direction to assist Canadians to own and develop their own mines with the smallest amount of risk. The success or failure of development companies depends upon their managers, and in the Rossland Development Company they are strong. The president is Mayor R. J. Fleming, Vice-president G. A. Farini of London, England; secretary and treasurer, F. Roper, Esq., who is also secretary and treasurer of the Dominion Telegraph Company. This assures

ROSSLAND'S SOUTH BELT. Mr. H. O. Tibbets of That Town Thinks it is Very Rich. Mr. M. O. Tibbets, secretary of the Silver Bell Mining Company, was in the

the public that the business of the company is in capable hands. On the list of original subscribers there are names of some of our prominent business men, from whom additional directors will be elected.

This company is said to be starting on a paying basis, as the brokerage business owned by it is said to show a profit of over \$700 per month, which is held out as a strong inducement to investing investors.

The Rossland Development Company's offices are at 114 Yonge-street, Toronto.

GRIMSBY GOLD MINING COMPANY. James A. Livingston, publisher of The Independent, Grimsby, and managing director of the Grimsby Gold Mining Company, paid Toronto a visit this week on business for the company.

Mr. Livingston speaks very enthusiastically of the gold regions of Western Ontario. He thinks that there is a far better chance for the poor man and the man with a few dollars in the Rossland and Lake of the Woods districts, he has succeeded in purchasing property in three different parts of the country, namely, on Whilgoun Lake, Eagle Lake and Lake of the Woods.

Mr. Livingston says, is more companies that will develop properties, so that when the capital comes in they may have a chance to invest. Mr. Livingston will return to the West in January to commence the development of his company's properties, several of which will be offered for sale in the spring.

OFFICERS

President—R. J. FLEMING, Esq., Mayor of Toronto. Vice-President—G. A. FARINI, Esq., F.R.H.S., Director British Canadian Gold Fields. Secretary-Treasurer—FRED ROPER, Esq., Secretary and Treasurer Dominion Telegraph Co. Solicitor—R. S. NEVILLE, of Neville & Hansford, Barristers. Bankers—THE DOMINION BANK.

OBJECT The Company is formed for the purpose of buying, selling, operating, leasing, prospecting and developing mining properties. Also buying, selling, as principals or agents, stocks, bonds, mortgages, debentures of mining corporations; also smelting, mining and general brokerage business.

It is one of the prominent features of our business, which is at present upon a paying basis. It is thoroughly organized, as we have an agency business extending throughout the Dominion and elsewhere. Our Companies will be floated by us without broker's expenses, and yet we derive a profit from buying and selling stocks of all other good Companies.

DIVIDENDS FROM THE START The Company have acquired the largest mining brokerage business in Toronto. This arrangement places the Company in a position to pay all expenses from the start, even if the business does not increase immediately in volume, which it is confidently expected it will do. The directors are satisfied that this business alone will pay dividends almost immediately.

AUDITOR'S REPORT. ROSSLAND GOLD MINING DEVELOPMENT & INVESTMENT CO., Toronto, Ont. Gentlemen,—I have examined the records of the brokerage business of the Rossland Gold Mining Development & Investment Co., 114 Yonge-street, Toronto, for the month of November, 1896, and find that the commissions earned as shown thereby were \$742.45. I have also verified the orders for stocks by carefully examining the original letters, telegrams and other documents received during the corresponding period. Yours very truly, J. P. LANGLEY, Accountant, McKinnon Building.

GOLD MINING TO-DAY PAYS This is especially so in British Columbia, where we largely intend to operate. No country in the world has such a large percentage of pay mining lands for the number opened. Not a single mine in 1896 has been abandoned or shut down because the indications did not warrant a further expenditure, and even supposed "wildcat" properties have, after partial development, proved valuable claims. Not a single mine in Ontario, where we have developed 150 feet in depth but that can ship ore to-day. Attention will also be given to other Canadian mines, especially in Ontario, where the ore, being free-milling, is cheaper to work, will pay equally well. J. F. Caldwell paid \$100 for the "Sultana" mine and has refused \$1,000,000 for it.

OPTIONS This Company is fortunate in having connected with it men who have been through the Gold Fields of British Columbia and elsewhere, who have options in these and other districts. These options are now at the disposal of the Company, and it is intended to have the properties reported upon by experts, and upon their advice complete their purchase. You are not asked to buy shares in a Company having one, two or three claims, which cost a few thousand dollars and are capitalized for a million each; three-fourths of which are kept by the vendors, who sell sufficient of their stock to recoup themselves. The claims in such cases are developed with the money that the public subscribe, and if a gold mine is found the vendors become rich men; while, on the other hand, if the development is not sufficient, or no pay ore can be found, the public have lost their money. Under our plan such a thing cannot occur. The whole of our capital is in the Treasury. Every subscriber stands on an equal basis and is entitled to his share of the profits in every property the Company owns or may acquire. Mr. W. Hamilton Merritt, Esq., F.G.S., Mining Engineer, has to say: "The best way that Canadians can do to open up their undoubted mineral wealth is to form legitimate development companies to help the prospector to open up his single prospect by spending a limited amount on each of such claims. Under expert's advice, there will be good chances of striking one or more deposits that will make rich mines. The investing public should be careful as to the character of the men who give their names to the enterprise."

LOW-GRADE ORES Of Which There Are Millions of Tons in Rossland A company has been formed in London, England, to work the Flavel patents for reducing low-grade ore cheaply. A plant by this process is working in Colorado in charge of Mr. Mead, and \$5.00 ore is being reduced at a cost of \$1.00 per ton. The London company's agent is now in Rossland arranging to put up a plant, also the representative of the Pellatt-Cleric process, who claim they can extract gold, copper and silver by their leaching process for \$1.25 per ton. This process has been tried on the Le Roi ore with satisfactory results, which will put all the mines on a paying basis, without the cost of an expensive plant.

UNIVERSAL SUCCESS OF DEVELOPMENT COMPANIES On Nov. 1st, 1896, the West Australian Mines Development Syndicate, on a capital of \$75,000, after writing off all preliminary expenses and making a provision for depreciation, yielded, after fifteen months' operations, over \$500,000. The Venture Syndicate, another Australian company, with a paid-up capital of \$120,000, earned \$520,000, or nearly four and one-half times its paid-up capital. The Ferreite Gold Mining Company of Johannesburg—capital \$50,000—on Sept. 30th, 1896, declared a dividend for the quarter ending on that date of 125 per cent. This was the seventh quarterly dividend paid by that company. On Oct. 3rd, 1896, the Johannesburg Consolidated Investment Company—capital \$800,000, in which Mr. B. J. Barnato is heavily interested—presented its balance sheet for the year ending June 30th, 1896, to a meeting of the English shareholders. It showed a profit of £531,136 3s 6d. Its 1 1/2 shares were then selling freely at £4 each. Since then its capitalization has been increased to £2,750,000. Shares of the Konata Reef Development Company, issued at 5s. less than three months ago, are now selling at 14s. each. No development company has as yet proved a failure. We could give many more instances of their success.

FIRST ALLOTMENT We invite subscriptions for the first issue of 200,000 of the fully-paid, non-assessable shares at 10 cents per share. Allotment will be made in the order in which applications are received. Prospectus of the Company and other information will be forwarded on application to

## A PEDIATRAN'S EXPERIENCE.

Illness Brought Him Almost to the  
Verge of the Grave.

Pain and Emaciated, Suffering from Ex-  
cruciating Pains in the Back, Life Be-  
came a Burden and Death was Thought  
to Be Not Far Off.

From The St. Catharines Journal.  
It is a curious pathological fact that  
spinal complaint has sometimes actual-  
ly been mistaken for Bright's disease,  
and there is no doubt many have been  
miserable for Bright's disease when  
spinal trouble was the real malady.

George T. Smith, pediatr of St. Cath-  
arines, is one who thus suffered. His  
narrative is as follows: "In the fall of  
1884 I began to experience alarming  
symptoms of what I thought to be  
spinal trouble. I resorted to various  
plasters and other remedies, but to  
no avail, as I continued to grow worse.

At this point my friends advised me  
to consult a physician, which I gladly  
submitted to. The professional man  
made a minute examination and pro-  
nounced mine a case of Bright's dis-  
ease, which quite naturally gave me a  
severe shock. As I deemed death cer-  
tain had been passed upon me. The  
doctor said he could alleviate my suf-  
fering, but remarked that it would  
only be a matter of time with me.

However, I accepted his medicine,  
and took it according to directions,  
with no beneficial results. In the mean-  
time my friends procured a remedy said  
to be a cure for Bright's disease. This  
medicine I took, but with no effect  
whatever. My condition had become  
worse and I had become so haggard,  
emaciated, stooped and miserable that  
my friends had difficulty in recogniz-  
ing me. In fact they, like myself,  
harbored the most painful apprehen-  
sions. At this juncture, an old nurse  
to visit me, and strongly advised me  
to try Dr. Williams' Pink Pills. Like  
drooping man reaching for a straw I  
did so. To my great surprise I soon  
noticed an improvement, the pain in  
my back began to leave, my appetite  
improved, my color returned, and by  
the time I had used eight boxes my  
ache or pain remained, and I am as  
able to travel about to-day as previous  
to the attack. I can now enjoy my  
resort to Dr. Williams' Pink Pills,  
and I urge those ill or suffering to give  
them a trial.

Dr. Williams' Pink Pills strike at the  
root of the disease, driving it from the  
system, and restoring the patient to  
health and strength. In cases of para-  
lysis, spinal troubles, locomotor ataxia,  
sciatica, rheumatism, erysipelas, acro-  
lous troubles, etc., these pills are superi-  
or to all other remedies. A remedy said  
to be a specific for the troubles which make  
the lives of so many women a burden,  
and speedily relieve the most severe  
health to pale and sallow cheeks. Men  
broken down by overwork, worry or  
excess, will find in Pink Pills a cer-  
tain cure. Sold by all dealers or sent by  
mail postpaid, at 50c a box, or six  
boxes for \$2.50, by addressing the Dr.  
Williams Medicine Co., Brockville, Ont.,  
or Schenectady, N.Y. Beware of imita-  
tions and substitutes alleged to be "just  
as good."

Trades Council and Manual Training.  
Editor World: In this morning's issue  
of your paper I noticed a resolution  
passed by the Trades and Labor  
Council opposing the Manual Training  
Trustee on the ground of my supporting  
manual training. This action, I presume,  
is the result of an incorrect report of  
my nomination speech. Now, all I said  
that could have been heard of this  
question was that in most of the large cities  
of Europe, and in some of the United States,  
lectures were given by specialists on cur-  
riculum in the schools on such practical subjects  
as the various departments of domestic  
economics, mining, etc., and that we might  
advantageously follow this example.

In regard to manual training, the kind  
of training in our schools, I believe a trust-  
worthy and competent teacher intends mak-  
ing a stay in Toronto and giving exhibi-  
tions of walking.

A BARBER IN TROUBLE.  
William W. Lepper, accused of making 5c  
and 10c bills contrary  
to Law.

Detroit, Jan. 1.—William W. Lepper,  
a barber in the Hotel Cadillac, was ar-  
rested yesterday afternoon by Sec-  
retary of Police William J. Barus  
on the charge of counterfeiting. Lepper  
was taken before United States Com-  
missioner Graves and remanded to jail,  
pending examination, but being fixed  
up on a contempt matter was kept  
quiet as possible and no one but those  
immediately concerned with the arrest  
were informed of it. The idea was  
not to warn the rest of the gang. More  
arrests are expected. The specific  
charge against Lepper is that of manu-  
facturing \$5 and \$10 bank bills. The  
\$5 notes are on the National Bank of  
Commerce of Chicago, and the \$10 notes  
on the Union National Bank of De-  
troit. They are said to be very clever  
imitations and the police and United  
States detectives have been on a still  
hunt for the author of them for weeks.  
It is thought that Windsor was the  
place selected for the business. Lepper  
is known, made his home there for  
a part of the time.

Mr. King Was the Floor.  
Editor World: The friends of consistency  
and honesty have asked The Mail and Em-  
pire, regarding the deputations that ap-  
peared before the Ministers while taking evi-  
dence on the tariff question in Toronto, if  
the Charles King of Cobourg (who was  
one of the deputations in the latter inter-  
view) was the Charles King of Cobourg  
has been a prosperous tanner here for over  
20 years. If so, the tanner who was  
know why Mr. King has been so mistaken  
in his ideas on the World case. For  
these years, and why he has so suddenly  
become attracted to the duty should  
be for all the tanners in this country. In  
his line in particular, and as he was a rival  
for the tanneries at the last session and  
made the statement publicly that his  
business was being hampered by the pre-  
sent tariff, and if he had only free trade  
he could do very much better both for  
himself and himself. Now he asks for an  
increase of the duty. Can you suggest any  
reason why Mr. King should be so mis-  
taken in his ideas that he should be  
attending the meeting? Your many readers  
will be glad to hear the tanner's story.  
Whitby, Dec. 31. Consistency.

A Great Opportunity.  
Not often have the public an opportunity  
of buying high-grade furs at such abar-  
dantly low prices as are being offered by the well-  
known fur house of James H. Rogers, cor-  
ner of King and Church-streets. To-day  
this house begins a sale of its large stock  
of manufactured furs. Muffs, Buffs, Capes,  
Jackets, Fur-lined Coats, Persian Lamb, Seal,  
Grey Lamb Jackets, ladies' and gents' furs  
of every class, are subject to big discounts,  
while some lines are less than cost. No  
body should miss a chance of buying such an  
outstanding lot at measured distance of 102  
yards.

JOE MALLORY'S GOOD SHOT.  
A well-attended pigeon shoot came off at  
the Coone Hotel, Norway, yesterday, the  
contestants being Mr. Roberts and Proprie-  
tor F. Coone. The latter had four birds,  
three of the birds killed dropping out of  
hundreds out of the latter had four birds,  
killed eight and his antagonist seven. Dur-  
ing the match Joe Mallory, who was perched  
upon a position on an adjoining hillside,  
was the first to shoot at a bird, and an  
outstanding bird at measured distance of 102  
yards.

The Use of the Bicycle for Insane Persons  
Editor World: I see it recommended in  
your paper of 30th Dec. that the use of the  
bicycle in a letter to The British White on 10th  
Dec. with good reasons assigned for its  
adoption. R. Allison.

## Sarsaparilla Sense.

Any sarsaparilla is sarsapa-  
rilla. True. So any tea is tea.  
So any flour is flour. But grades  
differ. You want the best. If  
you understood sarsaparilla as  
well as you do tea and flour it  
would be easy to determine.  
But you don't. How should  
you? When you are going to  
buy a commodity whose value  
you don't know, you pick out  
an old established house to  
trade with, and trust their ex-  
perience and reputation. Do so  
when buying sarsaparilla.

Ayer's Sarsaparilla has been  
on the market 50 years. Your  
grandfather used Ayer's. It is  
a reputable medicine. There  
are many Sarsaparillas—  
but only one Ayer's. It  
cures.
