Royal Victoria Life Insurance Company

Reserves on a 3 1/2 per cent. basis held on over 60 per cent. of insurance in force.

The Annual Meeting of this Company was held at the Head Office in Montreal on Wednesday, the 26th March. Mr. James Crathern, President, occupied the chair, and Mr. David Burke, General Manager, acted as Secretary.

DIRECTORS' REPORT.

The Board of Directors submit for your consideration their report of the Company's business for the year 1901, which shows a very satisfactory increase over previous years.

INCREASE OVER PREVIOUS YEAR.

The new insurance applied for amounted to \$1,204,076, of which \$1,099,405 was accepted and \$112,240 declined or not carried out at the end of the year. The insurance in force on the Company's books has now reached the sum of \$2,702,456.

INCREASE OVER PREVIOUS YEAR.

Applications received, \$1,204,076, increase \$288,076, or 31 per cent. Insurance issued, 1,099,405, increase 290,905, or 26 per cent. Insurance in force, 2,702,456, increase 585,576, or 27 per cent.

CASH INCOME.

The income of the Company from cash premiums and interest reached the sum of \$104,376.67.

The accumulated assets of the Company which increased over 11 1/2 per cent. during the year, taken together with the guaranteed capital, now amount to \$1,104,594, for the protection of policyholders.

DEATH CLAIMS AND ANNUITIES.

The claims by death occurring during the year amounted to \$15,000, which, although larger than the previous year, and in part due to accidental and acute causes, was much more favorable than the mortality table indicated. The death claims paid within the year amounted to \$9,500,000, and the sum of \$3,668.14 was paid to annuitants.

Since the last Annual Meeting, the Directors have further increased the deposit of securities with the Dominion Government of the value of \$102,947.97, making a total amount deposited for the protection of policyholders \$175,180.63. Our deposit now exceeds the legal reserves on all policies in force in the Company, as computed by the Superintendent of Insurance, together with all other liabilities to policyholders, the figures of which appear in the Financial Statement attached.

The Insurance Act of Canada requires all Life Insurance Companies to value their Reserves on new policies issued after December 31st, 1899, on a 3 1/2 per cent. interest basis, and on policies issued previous to that date 4 per cent. Reserves commencing from January 1st, 1910, and after January 1st, 1915, to maintain 3 1/2 per cent. Reserves on all policies in force. In conforming with these requirements, this Company already maintains the high standard of 3 1/2 per cent. Reserves on over 60 per cent. of its Insurance in force.

The Directors again have to express their appreciation of the faithful efforts of the Company's agents and staff.

The books and securities of the Company have been regularly audited during the year by Messrs. Macintosh & Hyde, Chartered Accountants, and their certificate is attached to the Financial Statement.

The Directors retire this year are Hon. L. J. Forget, Hon. Robert Mackay, and Messrs. James Crathern, John Cassils and David Burke, all of whom are eligible for re-election for the incoming term of three years.

All of which is respectfully submitted.

DAVID BURKE, General Manager. JAMES CRATHERN, President.

ABSTRACT OF FINANCIAL STATEMENT.

Table with columns for Receipts in 1901, Disbursements in 1901, Assets, December 31st, 1901, and Liabilities. Includes items like Premiums Received, Death Claims, Cash on Hand, and Capital Paid-up.

Audited and found correct. DAVID BURKE, A.I.A., F.S.S., General Manager.

MACINTOSH & HYDE, Chartered Accountants and Auditors.

The President moved the adoption of the Report, which was seconded by Mr. A. F. Gault, First Vice-President, and unanimously approved. Scrutinizers having been appointed, and a ballot taken, the retiring Directors, Hon. L. J. Forget, Hon. Robert Mackay, James Crathern, John Cassils and David Burke, were all re-elected for a term of three years.

At a meeting of the Board subsequently held, Mr. James Crathern was re-elected President and Mr. A. F. Gault and the Hon. L. J. Forget Vice-Presidents, and Dr. T. G. Roddick, M.P., Medical Director.

ONE HUNDRED AND SEVENTY-SEVEN

Messrs. Cadieux and Demore File Their List of Indebtedness.

Montreal, April 4.—Messrs. Cadieux & Demore to-day filed their list of assets and liabilities. The latter total nearly \$100,000. The assets consist of the stock in trade and fixtures of the firm's place of business, Notre Dame street, and some real estate; the personal property of Mr. L. J. A. Demore, upon whom, however, a personal demand of assignment has been made by La Banque Nationale, and contested. The principal creditors are: The Hochelaga Bank, industrial security, \$25,000; Borel et al., \$11,981.55; Watson, Foster & Co. Limited, \$14,000; H. Heesbourg & Co., \$14,000; Cie Impriemerie Moderne, Montreal, \$27,000; All other claims, \$10,000, together there are 175 creditors.

A PHYSICIAN HURT.

Helped Himself.

When the doctor himself brings on heart disease by the use of coffee, it is time for ordinary people to think carefully of the effect of that beverage. The testimony of Dr. O. W. Mathewson, 1301 Penn. Ave., Des Moines, Ia., is as follows: His letter is rather long and this extract is necessarily condensed.

"I am a physician of 18 years' practice. I felt the need of a stimulant and for the first five or six years of my practice used strong coffee. Eight or ten years ago I began to notice symptoms of heart disease. This seemed to be a regular organic type, and year by year became aggravated. Dizziness, faintness, and later, inability to walk at times.

"Physicians could find no marked symptoms of disease, but that observation. Finally I became a confirmed invalid and gave up practice. Several years elapsed, with the symptoms growing worse. I was considered as marked by the fact that I finally became impressed upon me to give up coffee. This I found easier to do when Postum Coffee Food was used in its place. I did this with any hope of benefit from such a simple change, especially in such an incurable case as mine. I was debilitated and very weak and about 30 pounds short of my old weight.

"From the first week I noticed a marked change and within three months I was almost fully restored to my old strength and health. These facts are known to hundreds of my friends and acquaintances."

The Old North Toronto II had a meeting Wednesday night, when it was decided to have a practice on Friday, at 2 p.m., at O'Halloran's Grove. All players, or those wishing to join, are requested to be present at the next meeting which will be on Tuesday evening, April 8.

A goodly number of friends and members of the Wyndwood Presbyterian Mission gathered in Wyndwood Hall on Thursday night. The occasion was the closing of the Literary Society's year for the season. The program, which was highly enjoyable, was given by the choir of Coliseum Street Presbyterian Church. The following were the performers: Misses Looze,

FISHER ON 1891 CENSUS REPEATS AGED CHARLES

Returns From Quebec Were Systematically Stuffed—Effort of 1901 Accurate.

Ottawa, April 4.—In the House to-day the Minister of Agriculture resumed the debate on the budget. His speech was almost entirely devoted to a defence of the census of 1901, or rather to an attack on the census of 1891, which, he claimed, was systematically stuffed, especially in the Province of Quebec. In support of this charge he quoted the reports of special commissioners, to whom he had given the schedules of 1891, with instructions to ascertain if they contained names which should not have been taken.

Mr. Fisher read a report signed by the parish priest of Joliette, Quebec, as to names of people having been put on the census schedule in 1891 who had either been living in the place or had removed from the locality to the United States 1 1/2 years ago. He said that in 1891, a schedule in which a woman 30 years of age was registered as having been born in the place, the oldest being 24 years of age.

Mr. Fisher stated that the minister had made an enquiry of the enumerator charged with this particular fraud, and what was his answer? Mr. Fisher thought that some of the enumerators were asked, but in this case he was not. He said that the enumerator had been asked, but it didn't matter, anyway, as the evidence of such a man would not have much weight. He promised, however, after repeated questioning, to give the House the replies of the enumerators. He went on to read a report of Mr. Marshall, M.P. of Bagot, that the population of Rouville was swayed by 1500.

Mr. Ingram asked how it was that before the census was taken in 1901 a circular was sent out by Mr. Coxe through Quebec to counteract the disposition of the enumerators to put names of the list, but now it was claimed that names were put on that should not have been put there.

Better in Ontario. Mr. Fisher did not see that both conditions might not have prevailed. Then he went on to say that investigation had also been made in Ontario, but the results showed that the enumeration there had been more correct than in Quebec. In Belleville, for instance, the enumeration had proved correct. In Goderich, however, there had been 63 persons duplicated or otherwise counted twice.

Therefore Census Accurate. So it is that the Dominion census was verified as to its accuracy. There had been 30,000 more of an increase between 1891 and 1901 than between 1881 and 1891. This was a satisfactory showing. He would not say the census had been stopped or acted, for there would always be a migratory movement, but the great stream of migration was now from the United States into Canada.

The School Board on Thursday evening decided to impose a fee of 25 cents per month on non-resident pupils. Instructions were given for the purchase of desks and other school requisites.

At home held in the school room of St. Clement's was a most enjoyable event. Reports of an encouraging nature were submitted, showing marked progress in church work. Mesdames McKinley, Pritchard and Boulden, with Messrs. Banks and Boulden, furnished choice musical selections. Refreshments were served by the ladies of the Women's Auxiliaries.

Two large barns.

Two large barns, the property of James Adams and William Caulpott, in Glenora, a short distance north of the second mill, were destroyed by fire at an early hour yesterday morning. The city fire brigade was gaged to furnish help, but owing to the absence of hydrants they could do nothing.

FAR OFF HILLS LOOK GREEN.

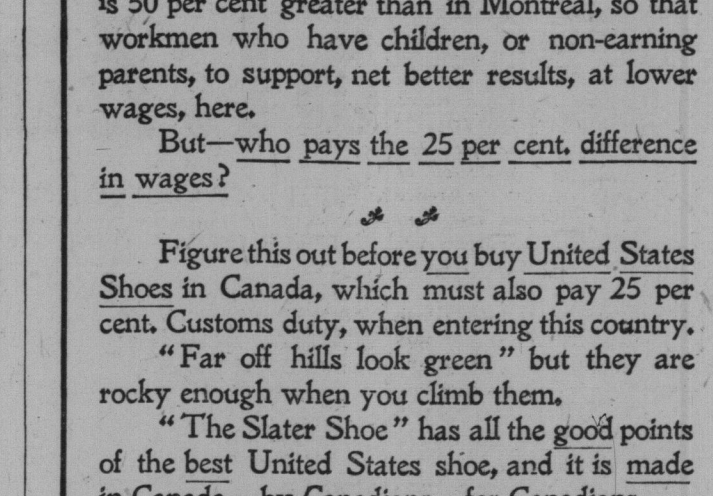

A great Shoe centre, is Boston! Canadian skilled labor has made it so! Its total population is about 650,000. Of this, 117,000 were born in Canada. The State of Massachusetts alone contains over 350,000 Canadians.

A heavy percentage of these are making shoes. Making the same kind of shoes in the United States, that their Fathers and Brothers are making here, in The Slater Shoe factory.

Why have these people emigrated? Because United States wages are 25 per cent. higher than Canadian. Why don't their Brothers follow? Because the cost of living in Massachusetts is 50 per cent greater than in Montreal, so that workmen who have children, or non-earning parents, to support, net better results, at lower wages, here.

But—who pays the 25 per cent. difference in wages? Figure this out before you buy United States Shoes in Canada, which must also pay 25 per cent. Customs duty, when entering this country. "Far off hills look green" but they are rocky enough when you climb them.

"The Slater Shoe" has all the good points of the best United States shoe, and it is made in Canada—by Canadians—for Canadians. For Women—for Men—\$3.50 and \$5.00.

Nickel - Steel. ROOM MOULDINGS

In addition to the \$35,000,000 in the auxiliary company of the U. S. Steel Trust, there are now many millions more seeking investment in nickel. The demand for nickel is very great. We could sell a big one now for \$7,000,000, but there is not one, large or small, on the market, and more prospects, however promising, will not be considered by big capitalists, though properties, potentially rich, that is, with 500,000 tons or more fairly in sight, can be readily sold at good prices. Hence, the necessity for and profit in a development company to prove the existence of one in commercial quantities. ould not patronize any particular college, but distribute themselves through the University. Trustees are allowed to suspend or remove any scholar at their discretion.

Mr. Rhodes expresses the hope that the trustees will arrange an annual dinner and reunion for all students and scholarship graduates who are able to attend and invite thereto as guests "persons who have shown sympathy with the views expressed by me in my will."

T. Stead has written the following:

Worthy of Author.

"The will of Cecil Rhodes is in every respect worthy of its author.

"What renders this will of exceptional interest to Americans is the fact that it reveals for the first time under his hand and seal, that he was no British Imperialist, but that he was essentially a citizen of the united States of the English-speaking world.

"Mr. Rhodes' first will was made in September, 1877, when he was a young man of 24. At that time he was only beginning to make his name, and before he died, had made him a multimillionaire, not in dollars, but in millions of his own countrymen.

"The two documents are essentially alike in sentiment. They both embody, in simple terms, what was ever the master thought of this master mind, the necessity for promoting the reunion of the English-speaking race.

Fund of \$10,000,000.

"Mr. Rhodes' will appoints a well-known group of seven of his friends as general executors of his estate. This group is further charged to undertake the duty of acting as trustees for the educational endowment fund, which will provide the liveliest discussion and excite the keenest interest through both the United States and the British empire, for both communities share the benefit of Mr. Rhodes' bequest. Mr. Rhodes was a graduate of Oxford, and had been at Oxford College, to which, by the way, he has left a special bequest of \$500,000. He has made Oxford University, in whose glories the American descendants of its founders share equally with those who still inhabit the Old Country, the centre of his educational scheme, and he has left a sum, which may be roughly capitalized as representing \$10,000,000 for the foundation of Anglo-American scholarships, tenable at Oxford for three years. To his thinking, the university, better than any other institution, nature of a university, is a fitting centre of race unity. It is free from all political complications, and with the old traditions of Oxford, seemed to him the best fitted for the purpose he had in view.

Objects to a Loaner.

In a codicil to his will, Cecil Rhodes settles the Dalham Hall estate on his brother, Col. Francis William Rhodes, and his male heirs, with remainder to his children, and in a clause referring to this settlement, Mr. Rhodes expresses his objection to the expected hair developing into a "mother's letter," and says that the essence of a proper life is that every man should have a definite occupation during a substantial period of his career. In the disposition of the Dalham Hall estate, it is provided that the successor to the estate must have been 10 years in business or in profession other than the army, or, in the case of an infant, he must enter business and remain there for ten years, otherwise the estate will terminate. The will guards strictly against encumbering the estate.

DEALS WITH \$30,000,000.

London, April 5.—According to The Daily Telegraph, the will of Cecil Rhodes deals with a total of 10,000,000.

DIED IN THE SUMMER HOUSE

Body of Mrs. Elizabeth Robinson, Cook at Keeley Institute, Found Friday Morning.

HUSBAND DIED SUDDENLY LATELY

Inquest Opened by Coroner Young and Adjourned to Hear Result of the Autopsy.

George B. Griffith, assistant manager of the Keeley Institute at 780 West Queen-st., yesterday morning found the dead body of Mrs. Elizabeth Robinson in the summer house of the institution. Mrs. Robinson was employed as cook at the institute, from Nov. last, and was just seen alive at 7 o'clock on Thursday morning, when she went out, apparently for a walk. At 10:30 o'clock that night she had not returned, and the doors of the institution were bolted. It was not until late and finding that the doors were all locked, that she was discovered in the summer house for snifter against the cold.

Coroner W. A. Young opened an inquest last night at the Metropolitan Undertaking Rooms, at 479 West Queen-st., when George B. Griffith, Nelson McGuire and Dr. Duncan Young Campbell of the Institute were examined, after which an adjournment was made for Monday night, to hear the attendance of Dr. John Cavanagh, who conducted the autopsy. Griffith, explained the body, and the coroner, who said that Mrs. Robinson, although not strictly temperate woman, and never incapacitated from work by over-indulgence in liquor.

Deceased was 45 years of age, and is survived by two daughters—Susie, employed by J. H. Henderson at West Hill, in Scarborough Township, and another, who lives on Elizabeth-street in this city. The funeral will take place this afternoon to the Necropolis.

A peculiar coincidence in connection with the death of Mrs. Robinson, was her husband died suddenly, while she was on the doorstep of his home.

Body Not Taken

George Henry Sweetman journeyed to Frankton yesterday, and viewed the remains of the young man found in the C.P.R. truck on Wednesday morning with train hands. The body was not that of William Turner, Mr. Sweetman's son-in-law, who disappeared last night, but of a man who turned up at his home when his young wife is anxiously awaiting tidings of his whereabouts.

Plant Will Be Established at Port Burwell by Bertram.

Almer, April 4.—A shipbuilding plant is to be established at Port Burwell by the Bertram Engine Works Company, Toronto. The estimated cost is \$100,000. The land for the site has been bonded, and contracts and plans have been prepared. The construction of the material needed in the construction. Between 400 and 500 men will be employed, and the work, which will be commenced at once. No bonus was asked, but an arrangement was made with the Bertram Engine Works for a fixed assessment of \$10,000 for the construction of the plant.

The company have a contract for building three large boats for lake traffic, and the permit for the same being made at Toronto, and taken through the Welland Canal. It was largely on this account that the new enterprise has been selected as a site for the new plant. As a result, the land in the town has taken a sudden rise in value.

PLAGE OF COLONIAL CAMP

The Famous Alexandra Palace Has Been Set Apart for Troops' Entertainment.

ARRANGEMENTS ARE INTERESTING

In Easy Access to the Metropolitan— Everything to Be Thrown Open.

London, April 4.—The famous Alexandra Palace, perched on Muswell Hill, and commanding what is probably the finest view of London that can be obtained, is the camp selected for the colonial troops, 2500 in number, who are to visit London next May, and stay for four weeks.

Inquiries of the palace authorities elicit some interesting details. The colonial troops—Australians, Canadians, South Africans, Dyaks, Malays, Maltese, Cypriots and others shall be housed or camped in the palace or its extensive grounds, and while these soldiers of the King will in no way interfere with the ordinary program of entertainment provided for the visitors, they will, as it were, be on view in all their native splendor to all who care to make the journey to the palace during the last week in May until the beginning of July.

No better place could be found, either in the matter of position or accommodation. Some 1000 of the troops will be housed in the palace itself, and the remainder will be housed in the upper part of the main building, the splendid balcony of which runs along nearly the whole of the front being turned into a dormitory, and the remainder in the banquet hall in the grounds.

The officers will also have accommodation provided for them and their servants in the main building, in which there is a sufficiency of delightful rooms—airy, light, and comfortable. The main building, from here, too, a splendid view is obtainable, and on all but the coldest days, a cooling breeze may be relied upon. No healthier place could be imagined.

It is expected that the officers commanding this very miscellaneous contingent will bring their own horses, while for the cavalrymen, mounts

All Talk No cures to report, no long record of testing, nothing to give you confidence—but talk, all talk. That's the truth about nearly all cough medicines.

But there's a record of 60 years of cures back of Ayer's Cherry Pectoral. And physicians endorse it, prescribe it for colds, bronchitis, and coughs of all kinds. Probably your own doctor does. Ask him. He knows all about it—has the formula.

"I know from personal experience that Ayer's Cherry Pectoral is the best medicine in the world for quick breaking up a heavy cold that has settled on the lungs."—D. C. SNEDDER, Pine Hill, N. Y.

J. C. AYER CO., Lowell, Mass.

thru Crouch Hill and Kentish Town. Another point in favor of the scheme is the commodious kitchen accommodation, which, with a supply of cooks, will be quite equal to the task of feeding the 2500 officers and men of the colonial contingent.

Nearly all infants are more or less subject to diarrhoea and such complaints while feeding, and at this period of their lives is the most critical moment should not be without a bottle of Dr. J. D. Kellogg's Diaper, Cordial. This medicine is a specific for such complaints and is highly spoken of by those who have used it. The proprietors claim it will cure any case of cholera or summer complaint.

Attention is called to the list of companies to be sold under the management of Messrs. Charles M. Henderson & Co., the popular auctioneers. Parties requiring their services would do well to give early notice to secure dates.

BUSY BOARD OF CONTROL

held Eight Meetings to Discuss Estimates During the Past Four Days.

CASE OF AMERICAN CONTRACTORS

Referred Again to the City Council

Talk of a Lower Tax Rate.

The Board of Control is making a record for itself. There have been eight meetings during the past four days, and there was almost a decision to meet again to-day, but an adjournment was made last night until Monday.

Council will be asked to decide definitely on Monday whether or not the concrete sidewalk contract, the matter came up again yesterday afternoon in the Board of Control, and the Mayor thought that, as the board was divided on the matter, it would be better to send it back to Council without any recommendation. Ald. McKeown asked that the contracts be awarded to the City Engineer, but the Mayor thought possibly such a course would not be legal. Ald. McKeown moved that the American contractors get the contracts as local tenders, but only Ald. Crane voted with him.

Those Leaky Roofs. The roofing contractor at St. Lawrence market will be dismissed unless he stops the leaks in the roofs immediately. Architect Jarvis wrote that he had notified the contractor to that effect.

As asphalt repairs an additional \$2000 was voted.

The tax collectors wanted a few city directories, but as 50 directories are supplied to various departments, the tax collectors will not require to go far for their accommodations.

Still Cutting Estimates. The pruning of the estimates by the Board of Control went on yesterday, and nearly \$7000 more was chopped off the wants of the Property Committee, making the aggregate reduction \$110,000.

The Parks Committee strongly recommended that the salary of John Chambers, Park Commissioner, be increased from \$1650 to \$2000 per annum, and in their report to the board stated:

"Mr. Chambers has been in the employment of the city for about twenty-four years, and taking into consideration the large park area, which he supervises, your committee feel that he is not adequately compensated for his services, and are unanimously of the opinion that Mr. Chambers is justly entitled to the small increase in his salary herein recommended."

The board postponed consideration of the matter.

Turns Monument Site. A recommendation from the Parks Committee, that a site for a Bunsen monument be granted in the northern portion of Allan Gardens, was endorsed by the board.

An additional cost of \$650 will be necessary to bring the ground to the proper level for the new manufacturing building at the Exhibition grounds, and the amount was granted.

Cost of the Parks. In the afternoon the estimates of the Parks and Exhibition Committee were taken up, and about \$7000 was struck out in small items. The Mayor spoke about the big expense of Riverside Park, and also about the proposal to spend out of money or British Pond in High Park, which matter will be further considered.

Water Main. Engineer Rust will bring before the Works Committee a proposition of the Municipal Commissioner that water mains be laid on Sheppard and Ontario-avenues on the Island to assist in the leasing of property.

The Mayor has sent Dr. Sheard the suggestion of the National Council of Women that a building be erected for insane persons now confined in the jail, and he will ask the city council to appear made through the press in behalf of the afflicted home on Arthur-street, Toronto: The King's Daughter, \$2; W.
