RUMANIA KING SLANKING FAST, SAYS, BELGRADE

Illness Aggravated by Recent Public Appearance

SUFFERS CANCER

Severance of Telephone Communications Believed to Veil Impending Events

British United Press. BELGRADE, Nov. 26.—Despite severance of telephone communication between Bucharest and Belgrade, it was learned here today that King Ferdinand of Rumania was sinking rapidly.

His already serious condition was aggravated by his recent appearance in public to allay the country's excitement. He has also been weakened by his starvation diet.

The King, it was reported, must submit to an operation for cancer.

BELIN, Nov. 26.—King Ferdinand's condition is known to be hopeless despite official denial at Bucharest, the Vossische Zeitung said today.

POLITICAL TROUBLES

The present regime, it added, was preparing for a fight to hold power in case His Majesty should die. The strength of the opposition was sufficient to make civil war possible, the paper said.

The interruption of telephone communication between Bucharest and Belgrade's executive and an attempt by Rumanian officials to veil some recent catastrophes in Budapest or to suppress news of some impending event.

FREDERICTON MAN INJURED BY FALL

John Roberts Thrown Heavily Trying to Control Horse—Has Operation

FREDERICTON, Nov. 26.—John Roberts of this city is reported today by Victoria Public Hospital to be resting fairly well after a good night following a serious operation performed upon his head last night.

The operation was made necessary by an accident which occurred in Marsville Thursday afternoon.

Roberts, who is a driver for O'Neill's bakery in this city, left his horse in front of a store fastened by a foot strap. As he removed the latter the horse started forward and Roberts ran along trying to regain control. In some manner he was thrown to the frozen road striking upon his head.

He was not disabled at the time and after gaining control of the horse drove to Fredericton. After walking home he complained of illness and medical examination disclosed the fact that an operation on his skull had to be made at once. He was rushed to hospital and the operation performed. He is a son of Mrs. James Roberts.

BISHOP DUNN MAKES REPLY

R. C. Head Answers Criticisms By Bishop Manning

NEW YORK, Nov. 26.—Bishop John J. Dunn, head of the Roman Catholic archdiocese of New York, declared last night that the Catholic Church has always protested and will protest against tyranny and selling of women in marriage.

Bishop Dunn's statement was made in reply to one by Bishop Manning of the Protestant Episcopal Church, criticizing the Roman Catholic Church for its annulment of the Vanderbilt-Marion marriage.

"Whatever doubt one might have had," said Bishop Dunn, "with regard to the compelling force of the evidence submitted in the Rota, is all dispelled in the amazing and shocking exposure in the amazing and shocking exposure in the sworn evidence given by those closest to Consuelo Vanderbilt. It did seem that the days of making women captives and holding them captive for marriage had passed.

Bishop Manning has stressed very vehemently the claims of the civil law as well as of the ecclesiastical law from the fact that the marriage took place in the United States, and he overlooks the higher and the more essential laws; namely, the natural law, the law written into the very nature of things, by God Himself, which neither civil nor ecclesiastical law can change."

TEN MEN ENGULFED

MARTINEZ, Calif., Nov. 26.—Ten men met sudden death in the Contra Costa Hills last night when San Pablo Creek, swollen by a heavy rain, burst a temporary dam and sent a torrent of water rushing into a tunnel in which they were working.

The workmen, a shift boss and nine laborers, had not a chance for their lives. They were working in the far end of the bore, 2,200 feet from the entrance, and the flood, coming with barely an instant's warning, engulfed them.

FIRST DECLINES, LATER AGREES TO RE-CONSIDER

Selection Came After Deadlock Between Aspirants

SIX BALLOTS

Convention Divided All Day Between L. J. Lader and Senator J. D. Taylor

Canadian Press. KAMLOOPS, B. C., Nov. 26.—Hon. S. F. Tolmie, member of the House of Commons for Victoria City, last night was the unanimous choice of the Provincial Conservative convention for permanent leader of the party in British Columbia. Mr. Tolmie's election came after he had first refused to accept the position offered him on motion of Leon L. Lader, M. P., and Senator J. D. Taylor, both contenders throughout the day for the leadership. Dr. Tolmie, however, agreed to reconsider his refusal, and later the convention gave its endorsement.

Six ballots had been taken during the day, without election when the convention adjourned for dinner. When it resumed at 8:10 o'clock, Leon J. Lader, one of the candidates for leadership, and top man in the balloting program, and Senator J. D. Taylor, seconded that the convention offer Tolmie, M. P. of Victoria, but Dr. Tolmie refused the proffered position. It was at this stage that a committee to consider the election was appointed.

OLD AGE PENSIONS

The convention endorsed old age pensions and recommended the immediate holding of a provincial election. By amendment to the constitution the prefix "Liberal" in the by-laws of the Liberal Conservative Association was eliminated. By further amendments the provincial executive will in future include members of the provincial committee residing in the province. Conservative members of the House of Commons and federal legislature and the senate. The executive, which will have a membership approved by 120, must be by amendment met annually.

HELP FOR MINERS

Another resolution passed urged legislation to further safeguard the lives of miners and to remove Ontario from underground. The convention pledged itself to support legislation to protect the widows of deceased owners of small mining properties.

Children of London Show Improvement

LONDON, Nov. 26.—Sir George Newman, in his report for 1925, as chief medical officer of the Board of Education, reveals the fact that post-war children are gaining in height and weight, and that the slums show the greatest improvement. On the other hand, the report reveals that when entering school a larger proportion of children are still under-nourished and bear the marks of industrial environment. Love of open air, however, is saving the nation. He warns that modern life is too soft and that the teeth and eyes of the nation are deteriorating.

British United Press. CAPE TOWN, South Africa, Nov. 26.—Two American explorers and two white women who accompanied them were believed today to be lost in Angola, West Africa, between the Congo and Cunene Rivers.

The Americans were Dr. N. E. Magoon and Dr. W. W. McMillan, whose expedition into Angola had not been heard from since September, when it was reported that bushmen had looted the party's provisions and had killed five native attendants.

Magoon was reported to have been blinded by the explosion of a rifle.

SHOP Talk

"Anything in the paper today?" This is an oft repeated question. And the answer frequently comes, "No, there's not a bit of news."

But if we go into the woods for a week and do not see a daily newspaper, we thereafter learn that there is always something in the paper. The stock which we could have sold to advantage last Tuesday has now fallen off ten points; an interesting concert is missed; a good friend has died; the Board of Trade has made an important move; many things have happened at the City Hall and in Police Court circles; an important political situation has developed; a turn has come to a European industrial crisis.

Nothing in the paper! There is never an issue of The Evening Times-Star that does not have in it an amazing fund of information. The weather report; the financial quotations and comment; the sporting news; current history from all parts of the globe; social activities; theatrical and other entertainments; commercial announcements of various kinds; humorous bits; thoughtful editorials on matters of public policy.

These are but a few of the features presented daily by The Evening Times-Star. Compare The Evening Times-Star with any paper three times its price.

RAIL DELEGATES LIKELY CONFER WITH OFFICIALS

No Strike Action Expected Until After Negotiations

STILL MEETING

Representatives Endorse Break If Wage Demands Are Not Met

Canadian Press. MONTREAL, Nov. 26.—Having acceded to the men's wishes, that if the railway companies do not grant them a six per cent. increase in wages, a strike should be called to enforce their demands, the representatives of the 15,000 railway conductors and trainmen will now decide on a date on which the men, if necessary, will be called upon to cease work.

In the meantime the executive of the unions, now engaged to take whatever steps they deem advisable, will, in all probability, confer with the railroad officials and endeavor to come to a satisfactory settlement without going to extreme measures.

BRITAIN PLANNING INDUSTRIAL LEAGUE

Aim to Mobilize All Forces to Prevent Future Disputes

By HERBERT BAILEY. British United Press. LONDON, Nov. 26.—Search for the foundations of industrial peace in Britain is proceeding briskly and thoroughly. THE STOCKING FUND

Pathetic Appeal Comes From Family of Fatherless Bairns; Won't You Help Them?

WRITTEN in lead pencil on a scrap of wrapping paper, came a pathetic appeal to The Times-Star today from a family of fatherless children in Kings county, asking for a share in the good things which will be distributed on Christmas eve through The Empty Stocking Fund. The family consists of six kiddies, ranging in age from 2 to 13 years. Each of the older children makes his or her separate plea for the warm stockings and the candy and fruit with which they will be filled. The following are extracts from their joint letter:

"Papa is dead and we have no Christmas. . . Please bring some candy and suits and something for Mamma and a pair of stockings . . . and please send the other children some things. . . Mamma has to work very hard and can't buy anything for Christmas."

FUND NOW OVER \$100

A \$10 contribution from a friend, received this morning, brings the total of the fund to over \$100. From now on it should march steadily forward, and at least \$100 a day will be needed to bring the total to a figure which will ensure that not a kiddie in Saint John will spend a cheery Christmas.

BOY SCOUTS TO HELP

**FINE PROGRAM ON ST. ANDREW'S DAY ANNOUNCED**

**Saint John Scots to Have Church Parade and Scottish Night**

Each year at this time, for 128 years, the Scots of this ancient city have been busily engaged in preparing for their annual celebration on Saint Andrew's Day, November 30. In every centre throughout the world, a similar activity prevails among the sons of Scotia. From the Arctic Circle south through the torrid zone, down to the chill southern seas, in strange lands and among strange peoples, the call has gone forth for the mustering of the clans.

This year, the Scots of Saint John are preparing for their annual celebration with a new and ambitious programme of prominent citizens have been fully employed for some weeks with the result that arrangements have been completed in a very thorough and thoughtful way, for what promises to be one of the best Saint Andrew's Days in the history of the city. The programme, which the society has already held here.

**SEVERAL EVENTS.**

As is usual, the church parade of the society takes place on the day prior to Saint Andrew's Day, and next Sunday, at 10:30 a. m., members gather at the Orange Hall, Central street, and thereafter, march behind their pipers to Saint David's church, where service will be conducted by Rev. Hugh Miller, the chaplain of the city at 11 o'clock.

On Tuesday, November 30, at 7:45 p. m., sharp—Installation of officers; 8:00 p. m. sharp—Commencement of program.

Entertainment—Tenor solo, "The Lea Rigs"; Musical numbers by the following: George MacLaren Burgess; baritone solo, "Hurray for the Holidays"; Peter Tonner; soprano solo, "Sound the Bells"; Mrs. Hugh Miller; recitations, "Candle Down," "A Scotch Flittin'"; Miss Muriel Curran.

Each of these artists is well known. The two gentlemen are from the old sod; the first from the Town of Ayr and the second from Glasgow. They will sing in costume. The number selected by Mrs. Miller is peculiarly adapted to the dramatic character of her voice. Miss Muriel Curran is a graduate in elocution at Mount Allison.

**EVENING ORATION.**

The oration will be the main event of the evening will be delivered by Mr. Colin Mackay Kerr, Ph. D., B. S., of the Presbyterian church of Halifax; late of St. George's in the city of Edinburgh. He is a man of remarkable intellectual attainments and a brilliant and forceful speaker.

**FOUR PIPERS.**

There will be four pipers, all veterans of many fights. Sergeant Alexander Campbell, born in the village of Glenochy, Argyleshire, E. B. Macdonald, from the Island of Mull, Argyleshire; Clinton Regan, of Saint John, piper 26th Highland Light Infantry, with much service to his credit in India and France; and Hugh Ferguson, late of the Highland Light Infantry, with much service to his credit in India and France. During the proceedings, one very interesting ceremony will be the passing of the Mull—an ancient snuff box set on the head of a black-faced man. This is carried on with all the solemnity of a rite, the practice dating back for many centuries and having a significance of its own that is interesting as well as historic. The Mull of the local society has been handed down for generations and by reason of its antiquity and associations is of great value.

**MEMORY OF BURNS.**

Another interesting point is that the back panel of the chair from which the society's president conducts the proceedings, is made from a tree cut from close to the grave of Robert Burns, while the rest of the chair is constructed from woods brought here from historic points and buildings in Scotland, notably from Leithgow Castle, in which Queen Mary was imprisoned. The carving on the chair was done by the famous old ship's carpenter of this city, John Rogerson, whose beautiful figureheads graced the bow of many a clipper built in local yards.

Dancing will commence at 10 p. m. The DeMons Chapter, I. O. E. D. E., will provide a running supper, and everything is set for one of the best Saint Andrew's nights in the history of the local society which is one of the oldest in North America.

**Lady Juror Faints At English Trial**

**CASE OF POKER GAME ON TRAIN GETS TO COURT**

**American Says Deuce Became Jack in Big Stud Pot**

MONTREAL, Nov. 26.—How a deuce turned into a Jack and won a \$750 pot in a stud poker game was described to Judge Perrault by Harvey J. Hill, an American, president of a company which operates a string of hotels across the border, who alleges that J. Jackson, alias Lyons, defrauded him of \$180 while the game was being played on a train running between North Bay, Ont., and Montreal.

**SAID HE WAS OIL MAN**

Lyons introduced himself as an oil man from Casper, Wyoming, Mr. Hill stated. Another man who started in the game, supposedly a stranger to Lyons, had said when a deuce covered. Bets were closed. The fifth cards were to be drawn.

Lyons then jumped to open a ventila in the compartment. Mr. Hill did so. "Turning from the table, he accidentally glanced into a mirror and saw Lyons' hand sweep over his cards. "After the draw," Mr. Hill added, "Lyons came up his cards, there was a pair of Jacks and the card which should have been a deuce was a Jack." The three Jacks beat the two pairs, and Lyons took the pot.

**C. P. R. PROSECUTES**

The Canadian Pacific Railway, on whose train the game took place, commenced prosecution of J. J. Cremer, K.C., appearing. He called Mr. Hill who said he had boarded the Imperial Hill cigarette. "Both had started smoking when the conductor had requested them to stop."

Mr. Hill then invited Chesser into his private compartment to finish a cigarette. "We discussed the question of prohibition," Mr. Hill stated. "He then excused himself and said he wanted to locate a man on the train. He said, 'If you are going to retire early, I will be back in about ten minutes.'"

**LYONS APPEARS**

"An instant later, Mr. Lyons appeared in the doorway, evidently in a hurry, and he went up for voluntary bail. "I see you are alone!"

"Was he intoxicated?" Judge Perrault asked. "I don't think so. He asked if I could come in, and I agreed. He said: 'I have been drinking. Will you have a drink?' 'I said: 'No.' He said: 'Do you play bridge?' I said: 'Not very good!' He then asked me if I had any objection if he went and got his liquor and his cards, which were in his compartment, and I said I had not. He brought them in, and rang for a table. Then glasses were run for. After he poured himself a drink, and while he was doing this Chesser appeared in the door. He said: 'I see you have company.' I supposed they were strangers. Mr. Lyons said: 'Come in, I've brought a deuce, and it will be an oil man from Casper, Wyoming."

**Weddings**

Webster-Munro. Nov. 25—John Webster, who left on a trip to Montreal, returned with a bride after a honeymoon at Toronto and Niagara Falls.

There is an element of romance in connection with the wedding, due to the fact that the bride, who was Miss Margaret L. Munro, formerly of Inverary, Scotland, but for the past year the Victorian Order nurse at Cannon, N. S., had booked passage for Scotland on a holiday trip and visited the home of her brother, Nicol Munro, Montreal, they embarked on this city en route to Montreal, their families being connected. Her sister, Miss Elizabeth Munro, who came out recently from Scotland on a visit, accompanied her to Fredericton, and they went to Montreal to sail from that port. Mr. Webster accompanied them; but meanwhile Cupid had been busy and on reaching Montreal Mr. Webster had succeeded in winning Miss Munro's consent to change her plans and return to Fredericton as Mrs. Webster instead of going to Scotland as Miss Munro. On Nov. 10, at the home of her brother, Nicol Munro, Montreal, they embarked on the sea of matrimony, the ceremony being performed by Rev. Dr. McKee, of Montreal, with Miss Elizabeth Munro acting as her sister's bridesmaid.

**Irving-Hicks**

SACKVILLE, Nov. 26.—A pretty wedding took place yesterday afternoon at the home of Mr. and Mrs. Harvey Hicks, when their eldest daughter, Mrs. J. J. Irving, of Point-de-Bute, Rev. A. J. Vincent officiating at the ceremony. To the strains of Lohengrin's wedding march, rendered by Miss Lillian Fawcett, the bride entered the parlor on the arm of her father, and took her place under an arch of evergreens. She looked charming in a gown of gold brocade silk, trimmed with gold lace and ribbon, and carrying a bouquet of bridal roses and ferns.

The bride's going away suit was of many tricoles, with fur trimmings and a black picture hat. The happy couple left by auto for a trip to Northern New Brunswick. On their return they will reside in Point de Bute, where the groom is a prosperous farmer.

### COTTAGE CRAFT DISPLAY WINS ADMIRATION

Fine Exhibit, in M. R. A. Window, of New Brunswick Work

A display which is creating a great deal of interest is a cottage craft window of Manchester Robertson Allison, Ltd., King street, in which are shown samples of the goods made in the cottages and homes of the farmers in Charlotte county. It is a splendid demonstration of what can be done and the hope is this work will grow until it embraces the whole province and every farm house will have a part in it.

**ALL NEW BRUNSWICK.**  
The articles on display were all made in New Brunswick from New Brunswick material. The wool is grown here, carded and spun into yarn, dyed and then woven on hand looms. This project is gradually developing a New Brunswick art and artists, as the workers make their own designs and these are taken from the everyday scenes around them. The centre of the window is a scene showing New Brunswick farms, which was at the Wembley exhibition. It is made of wool and is a very realistic picture of New Brunswick farm scenery.

**POTTERY AND WOOD.**  
Beside the wool products there is a display of pottery and wood working. The pottery has been highly commended by English potters. Recently a start has been made on the making of toys and it is asserted these can

### ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain  
How To Treat.  
Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The hydrochloric acid irritates the delicate stomach lining, causing the disagreeable symptoms which every stomach sufferer knows so well.  
Artificially digested meats are not such cases and may do real harm. Try laying aside all digestive acids and intake of stomach irritants. The use of **Blau's Magnesia** is the most successful remedy for stomach trouble. It is made of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness or pain. Blau's Magnesia (in powder or tablet form—never liquid or salt) is harmless to the stomach, is as extensive to take and is the most effective of all remedies for the stomach. It is used by thousands of people who enjoy good health with no more fear of indigestion.

### Two In Railway Change

J. E. DALRYMPLE

A. T. WELDON

An important change in the express and traffic department of the Canadian National Railways was announced yesterday in the retirement of Vice-President J. E. Dalrymple and the appointment of A. T. Weldon as his successor.

### London Fog Puts Damper On Banquet

LONDON, Nov. 26.—London was a pallid sufferer yesterday from a very old complaint—a thick fog which caused the most interference with traffic and business, and many accidents, happily not of a fatal kind. Even the cheer of the American Society's Thanksgiving Day dinner at the Savoy was dampened somewhat by the moist and ghostly mists that creeping in and at times almost obscured Ambassador Houghton, the presiding officer, from the view of those at the opposite end of the banquetting table.

### Upper Portion Of British House Crumbling Fast

LONDON, Nov. 26.—The numerous workmen constantly engaged in making repairs to the crumbling stone of the Houses of Parliament find themselves in a position not unlike that of a man pouring water into a sieve. As soon as one part is repaired another begins to disintegrate. The condition of the upper fabric is now causing the greatest concern. Some months ago members were warned that when they were walking on the terrace they were not to venture too near the walls. It was explained that flakes of stone, and possibly considerably heavier fragments might fall on their heads. It has now been discovered that some of the biggest pieces of decorative stonework, especially the pinnacles and ornamental battlements, have developed cracks some inches deep and are in danger of falling. "A large number of masses have been drafted for that work and are doing all they can to repair the fabric quickly." "The whole place is going to pieces. Workmen have been there ever since it was built, but the cracks in the battlements are particularly serious." The smoky atmosphere of London with the acids it contains is one of the chief reasons for the "rotting" of the building, although the stone itself is said to be unsuitable for a building of this kind.

### BAPTIST W. M. S. MEETING HELD IN SAINT JOHN

Nearly \$30,000 Raised by Women in Maritimes For Acadia

The amounts raised by the members of the Baptist W. M. S. of the Maritime Provinces for the Acadia fund to date total nearly \$30,000. It was reported at the opening session of the quarterly meeting of the executive of the Maritime W. M. S. of the Maritime Provinces held last evening in the parlour of the German street church with Mrs. W. G. Clarke, of Fredericton, president, in the chair. The sessions will continue throughout today and this evening. Reports presented yesterday were most gratifying. Mrs. J. W. Seaman, of Amherst, treasurer, reported receipts of \$3,977.63 during the quarter and expenditures of \$18,025.71. The report of Mrs. H. C. Reed, of Amherst, on the Acadia fund, showed that the total was nearly \$30,000 and the sum received during the quarter had amounted to \$307.66. The report of home missions by Mrs. H. G. Perry was read by Mrs. C. T. Clark, of Fairville, and after discussion of various home mission problems, decisions were made for governing the work in future.

### Maine Bears Are Destroying Sheep Flocks

FARMINGTON, Me., Nov. 25.—Farmers who raise sheep in the northern part of Franklin county are becoming alarmed by the numerous and increasing losses by raids of bears. Raids have almost wiped out some flocks, at first supposed to be the work of dogs. Local hunters have as yet had but little luck in bear hunts, and none of the marauders have been reported shot. The farm bureau who have been attempting an increase in the number of sheep, declare that measures must be taken to protect the flocks of the farmers.

### Banquet Given For Firemen of North End of City

A very enjoyable banquet was held in the C. N. R. dining hall at the Union Depot last evening, when Mrs. Susan Nase was hostess to the members of No. 5 Hose Company and No. 3 Hook and Ladder Company, of the North End branch of the fire department, in recognition of their service in saving the premises of P. Nase & Co., Limited, recently visited by fire. Mrs. Nase donated a sum of money and it was used for the banquet. An excellent dinner was served by Harry Tallon, manager of the Depot Dining Room. Captain Frank Shannon, of No. 3 Hook and Ladder Company, presided and the invited guests were Chief W. S. Vaughan and District Chief Robert Carson. After all present had enjoyed a bountiful repast the toast to the King was proposed and responded to by the signing of the national anthem. After brief addresses were given by the Chief of the fire department, District Chief Carson, Captain Shannon, Foreman John McIntyre, of No. 5 Hose Company and John Cunningham, engineer of No. 5 station, the gathering came to a close with the singing of God Save the King.

**Will the Gay Young Man Be Content to Give Up His Dance-Hall Friends After Marriage?—Anxious Mother, Whose Son, Like So Many Other Busy Men, Forgets to Write—Disciplining Babies in the Cradle.**

DEAR MISS DIX—I am a young man who has lived a very gay life. About eight months ago I met a beautiful and wonderful girl, not of the dance-hall, wild-woman type that I had been running with, but a noble, splendid woman. We fell in love with each other, and she straightened me out. I had been conceited, vain, lazy, and didn't care how I made money, but this girl made me see what a worthless fellow I was, and I went to work and we were very happy.

Last week a fellow invited me to a party and I went back to the old crowd. They made a great fuss over me. I got drunk and had a wonderful time. Well, since this party I have had no peace of mind. I love dancing and flattery and the company of wild girls, but I love my fine, pure girl, too.

What shall I do? If I marry her, do you think I will settle down and be content with a quiet life? JULIO.

**ANSWER:**  
No, I don't, and I think under the circumstances you would be doing the girl a very great injustice to marry her. The trouble with men is that they make the mistake of thinking that matrimony is a sort of cure-all for whatever weakness ails them.

They labor under the delusion that having a priest or a preacher mumble a few words over them will wipe some sort of a miracle that will change their whole natures; that it will make a lazy man industrious; that it will quench a drunkard's thirst, and make a man with dancing feet want to put them in slippers and sit by his own fireside every evening.

Nothing of the kind happens. A man's tastes and habits and desires are not altered by a march up to the altar. The things you enjoy doing before marriage you will enjoy doing after marriage, in places you like to go to before marriage will still attract you after marriage. The crowd that allured you before marriage will draw you to them after marriage.

And that is where the trouble begins, because after marriage you are not free to indulge yourself and follow your inclinations as you were before marriage. You have a wife to consider and you will make her very miserable if you do the things of which she doesn't approve.

No man has a right to get married until he is ready to settle down, until he is done with dance-halls and dance-hall girls, until the very sight of a wild cat fills him with loathing, until a home and a good woman look better to him than anything else on earth.

You can't run with the hare and hounds at the same time, Julio. You can't have the love and honor and respect of a good woman and the blandishments of bad ones.

You have to choose between them. Don't marry until you make up your mind which one you really want.

**DOROTHY DIX**

DEAR MISS DIX—Will you please tell me why my son almost never writes to me? I often do not hear from him for months at a time and then he writes just little notes. I worry so when I don't hear from him for fear he is sick, or something is the matter with him.

**ANSWER:**  
I think, Anxious Mother, that when many a man goes up to the judgment for the blackest score the recording angel will have charged against him will be, "He didn't write to his mother."

For there are thousands upon thousands of sons like yours. Men who have gotten so absorbed in their affairs, who are so self-centered and selfish, that they have forgotten their old mothers.

Isn't that they have ceased to love their mothers. Oh, dear, no. But there is a shrine in their heart where they worship in secret. They are busy and tired and rushed with work and business, and they get off from day to day writing to their mothers.

They forget how lonely she is, back in the old home from which all of the children have gone, how long are the days in which nothing happens; how dull is the life that has no longer in it any hopes or plans or aspirations to take care of themselves, and that she is always worrying about their health, and whether they remember to change their shoes when they get their feet wet, and if they have the right things to eat and enough covers on their beds to keep them warm.

They forget that mother's life is merged in theirs, and that there is no detail of their lives in which she is not vitally interested and which she would not love to hear about.

They forget how she watches for the postman's step of a morning, how she springs eternally in her breast that this day will be a red-letter day in which she will get a letter from her boy, and the despair and the leaden heart with which she turns away when the postman passes her by and leaves her still looking for the letter that never comes.

It is only after mother has gone where no letter can reach her, and no remorse or repentance can avail, that many a man remembers with bitter tears the letters that he forgot to write to his mother.

**DOROTHY DIX**

DEAR MISS DIX—My wife and I are a young couple who have twin boys about 3 months old. Every time they howl my wife runs and picks them up, thereby encouraging them in their temper. I tell her that she is ruining them, but she says that they are sick. If they were sick every time she thinks they are, they would be dead, but they are the healthiest-looking kids you ever saw. Am I right or is she right?

**ANSWER:**  
You are.

Your wife is making a lot of trouble for herself and doing the children an injury by taking them up every time they cry. Get her a baby book and let her read what the authorities say on the subject.

You can't begin disciplining children too early. The foundations of character are laid in the cradle, and you can never undo the training a child gets in its babyhood. It is marvelous how early you can teach a child self-control and obedience.

Women give in to their babies and spoil them because it is easier to spoil them than it is to discipline them, but a man should have more firmness of character.

I am glad to see that you are going to be a father who recognizes his duty to help rear his children, instead of turning over the job entirely to their mother.

**BEHIND THE SCREEN**

**Evelyn Brent.**  
By GENE COHN. SHE might have leaned back in leisure and luxury as wife of a film magnate. But Evelyn Brent enjoys acting and work.

Her husband happens to be S. Fine-man, one of the inner circle of the Paramount concern, but that hasn't hindered her career. What is even more interesting, she has been content to play in not-so-good roles as a means of fighting her way up on a basis of personal merit.

Now, as you might have anticipated, she is beginning to sit on top of that particular part of the world reserved for stellar film folk. A co-star in "Love 'Em and Leave 'Em," which soon will be broadcast through the movie houses of the realm, she will begin work at once in another top role under the direction of Edward Sutherland.

**TEST OF HER ABILITY.**  
These two pictures, in all probability, will give her a definite place in the "who's who" of filmdom.

But a few months ago Evelyn Brent stepped out from behind the camera in many half-breath-thriller that ran on and on, leaving the heroine handsome picture will, in all probability, be a basis of test.

**Flapper Fanny Says**  
I used to think, in days gone by, Thanksgiving only came with bleak November's sullen sky and last leaves' gold and flame. With Autumn's pomp and pageantry forgotten, passed away, there came the household cheer and clatter of bright Thanksgiving Day. Then all about the laden board heaped high with Earth's largesse of riches man had reaped and stored, loved looks gave fond caress. It was a joyous day of old-fashioned, hearty, and clear of bright Thanksgiving cheer I hold through all the glad years' round, and I have learned to prize each day the happiness it brings, a friendly line from far away, a flash of red-birds' wings. So daily from my heart ascends a paean on my way for all this bounty, love and friends; each day Thanksgiving Day.

**MENUS For the Family**  
MENU HINT  
Many people like and indeed need a hearty breakfast, especially in cold weather. Sausages must be well cooked to be digestible. Cook them slowly until they are brown all over. This applies to the sausage meat as well as the links. The corn cakes should also be cooked rather slowly and thoroughly. They take a little longer than ordinary griddle cakes, although they are cooked on a griddle.

- Orange Juice Sausages
- Corn Cakes with Syrup Coffee

**Corn Cakes**—Two eggs, one cup milk, one can corn, one and one-half cups flour, one teaspoon sugar, one teaspoon salt, one teaspoon baking powder. You may need to add a little more flour, but try this first. Bake on a hot griddle.

**A CHECK** reveals the following Ford literature: A great roaring tank of a car, for instance, advised through a sign on its fire cover, "Don't Worry Big Boy; She's Bought and Paid For!" A limping flivver admonished through tall white letters on its back, "Pass me Slowly; I'm Nervous Wreck." And there were others, "Chicken, Here's Your Coop," "Leap In, Limp Out," "King Tut's Chariot," "Don't Laugh, You May Be Old Yourself Some Day," and "Beauty Is Only 'Til Deep"—such signs as these were and are numerous. Another quite as old plaintively pleads, "Don't Laugh Girls, How Would You Look Without Paint?"

**See-Sawing On Broadway**

THE demand in the large department stores of Manhattan for salesfolk of "unusual personality" is proving a life-saver this winter for scores of actors out of work.

Not long ago the employment chief of one of the biggest stores conceived the bright idea that men and women with stage experience—particularly women—would prove an asset to any sales force if they would but project the stage smiles and bright talk over the counters as they had over the foot-lights.

Several theatrical agents were advised and told theatrical folk seeking work that here was a new way of keeping the wolf from the door. The more temperamental sounded, but many felt the actual pinch of unemployment. In one store I saw a former dancer in a vaudeville team, a light comedian and a couple of ingrates from "straight" acts.

I was told that the stage may be minus a number of second-rate actors for some time since steady work, even in shops, is not to be frowned upon by those accustomed to pounching the pavements months on end.

THE "three-card monte" boys, once the fabulous figures of county fairs, are at it again right in the heart of the Times Square section, I am told.

It was the old fairground custom for the sharper conveniently to bend the corner of the "pay card" so that the victims would feel they had a sure thing within their reach. Of course they would put their money on the bent card—and, of course, they would lose.

In the modern Manhattan version of the grand-old-time game the sharper tears off a corner of the card, having dexterously palmed the "pay card." I am told that \$50 was cleaned up in a few moments of operation the other night. Yes, right here in wise old New York.

THIS is the way the girls from the "bank towns" get the Broadway break.

The other evening one of the most successful musical shows on the big street awarded to find that the prima donna had walked out into the night. Walked right out and hadn't come back.

What to do? The management looked about. And up stepped one Eric Briggs, who, I am told, came from the choir of a church in Horton, Kas. Horton, I am further told, boasts a flag pole, a library, a post office and everything. She was given her chance. Tomorrow her name will be in the big lights.

**TO SPEND MILLIONS**

Carnegie Corporation Will Aid Libraries

NEW YORK, Nov. 25.—Four and one-half million dollars will be spent during the next 10 years by the Carnegie corporation in improving American libraries, according to the annual report.

The money was appropriated during the fiscal year ending September 30 last. Most of it will be expended on existing library schools, in founding a graduate library school at the University of Chicago and on the work by the American Library association. Besides the improvement of libraries, the corporation granted \$600,000 to be used in activities in fine arts, \$375,000 for scientific research, and \$300,000 for adult education. Miscellaneous grants amounted to \$100,000.

**SUES FOR \$100,000**

NEW YORK, Nov. 25.—Dr. Max Spencer Rhode, who conducts the Lexington Hospital at Lexington avenue and fifty-seventh street, is sued for \$100,000 in the Supreme Court by Miss Edna Fields, a cloak maker, who alleges breach of promise.

Miss Fields, who came to New York from St. Louis six years ago, charges that last fall Dr. Rhode promised to marry her, but the ceremony was deferred and that finally he refused definitely to make her his wife.

Dr. Rhode denies all the charges.

**PEPS**  
for Coughs and Bronchial Troubles

THESE November days, when the old bronchial cough shows signs of return and the chest feels raw and tender, Peps are a boon and a blessing.

You breathe in the Peps medicine and it gets to vital spots which can't be reached by liquid medicine swallowed into the stomach.

Peps carry comfort and healing deep into the chest. They strengthen and heal the bronchial system, loosen phlegm, free the breathing and soon end the worst cough.

BISHOP SPEAKS AGAIN IN N. YORK ON ANNULMENT

Head of Cathedral of St. John the Divine Makes Statement

NEW YORK, Nov. 25.—The "whole proceeding" of the annulment by the Roman Catholic Church of the marriage of the Duke of Marlborough and the former Countess Vanderbilt "is a discredit to the Christian Church and injury to religion," said Bishop William T. Manning at the Cathedral of St. John the Divine today.

The Bishop's statement took the form of an extended message to the diocese of New York in which he said, "if marriages are to be declared null and void on pleas so insignificant, no marriage and no home can be regarded as safe."

COURT'S RIGHT CRITICIZED

The Bishop criticized both the grounds of duress on which the annulment decision was rendered, and the right of a Vatican court to pass upon the validity of a "marriage" between the members of another congregation solemnized in a Protestant Episcopal Church in New York, under the laws of the United States.

"This assumption of jurisdiction by a Vatican court," he said, "has serious implications and will be rightly regarded by great numbers of our people." Further characterizing the action of the Roman Rota as "an unwarranted intrusion and an impertinence," Bishop Manning turned to the assertions from abroad that the 47-year-old Countess was forced into the marriage by her mother, the present Mrs. O. H. P. Belmont, who sailed yesterday for France.

The Vanderbilt-Marlborough wedding was solemnized in St. Thomas's Protestant Episcopal church here in 1885.

"Many who were present at the marriage," said the Bishop, "and were associated closely with the Marlboroughs at the time, have informed me that they saw no sign whatever that the bride was acting under any compulsion, but quite of the contrary."

RECTOR SATISFIED

"I have the direct testimony of one who heard his statements that in view of the special circumstances attending the marriage, the rector of the church, the Rev. Dr. John Wesley Brown, took great care to assure himself that his young parishioner was acting of her own free consent, and that he was entirely satisfied as to this."

"If there had been forced consent in any sense which constituted duress, relief from this should have been sought, and the forced consent repudiated, at the first practicable moment."

"It was not until long after she had divorced and remarried that she presented this plea to the Courts of the Church of Rome."

"The plea of duress made under such circumstances as these, after a quarter of a century of married life, and the birth of two children, would not be entertained by any civil court, and the decree of the Vatican Court based on this plea is one which earnest and devout Roman Catholics should resist, avoid, and I am sure may do, with great regret."

"That any woman of middle age, after years of married life, should be willing to swear that her parents sold her for worldly gain, and against her will, is in itself a scandal, and the more so when one of the parents is no longer here to deny such an accusation."

"This whole proceeding is a discredit to the Christian Church and an injury to religion. It has done more than any event in years to weaken the sanctity of marriage."

"In the light of this annulment and the others that are now rumored on trivial and puerile grounds, let us become of the claim of the Roman Church that it stands for indissoluble marriage?"

WITNESS BEFORE LUMBER INQUIRY

Evidence Largely of Private and Confidential Nature, Says Chairman

FREDERICTON, Nov. 25.—Mr. Justice Grimmer and Mr. F. C. Beatty, sitting as a Commission on the Commission on the lumber business of New Brunswick, appointed by the Provincial Government, held their first day's session here today. The Commission will sit here again Friday and after, where sitting are to be held next week at Campbellton and Edmundston.

After that the Miramichi will be visited. Mr. Justice Grimmer said tonight that Campbellton was expected to be the place at which the most time would be spent on account of the centralization of much of the lumbering of the north at that point, and the considerable number of large firms which could be reached there.

SOME EVIDENCE TAKEN. Today evidence was given by the employees of Fraser Companies Ltd., the River Valley Lumber Company, with mill at Oromocto. On Friday evidence will be given by Fleming & Gibson Limited, conducting large hardwood operations at Juniper, and by firms and operators with headquarters at Fredericton. Among the latter will be James M. Scott, M.L.A., and E. C. Atkinson, M.L.A. Other operators also are to be heard.

Mr. Justice Grimmer stated also that the examination of the Crown Land officials would not take place at this time, as far as he knew, but they might be questioned later. He stated further that no information concerning the evidence was to be given out, as it all was of a private and confidential nature.

Miss Blanche Whitehead, of Saint John, is the official reporter to the Commission.

At the close of Imperial Theatre program last night a private exhibition of six reels of animal nature studies in the wilds of New Brunswick was given in moving pictures taken by Burton E. Board Will Act Against 30 In Simonds

RUMORS have been current in Simonds that persons had made connection with sewers in East Saint John, without obtaining a permit from the Simonds Sewerage Board and paying the entrance fee of \$10. The board has had a survey made and has found that quite a number of persons had made connections with the sewers without a permit. It has been decided to take action. It is said that about 30 did not secure the necessary permit.

Funerals

W. H. Fairall

The remains of W. H. Fairall, former dry goods merchant of this city, which arrived from Montserrat, N. J., at noon for burial this afternoon were met at the train by C. F. Sanford, a brother-in-law, and John Crandall, of Montreal, grandson. William Fairall, son of deceased, accompanied the body of his father to the funeral.

Mrs. C. F. Crandall, formerly of this city, daughter of the late Mr. Fairall, is at present accompanying her husband on a business trip to England. John Crandall, who came from Montreal to attend his grandfather's funeral, was a small child when the family moved to Upper Canada some years ago. He is a student at McGill University. Heaped upon the mahogany coffin of the late Mr. Fairall today were numerous floral tributes from relatives, friends and neighbors.

The funeral service of Mr. Fairall were held in Brenns' Funeral Home, Paradise Row, at 2.30, being attended by many friends of the family so kindly remembered, members of Centenary church congregation, relatives and acquaintances. Rev. R. G. Fulton officiated. Interment was made in the family lot in Fernhill, where the body of Charles Fairall, a son, reposes.

NO QUARREL WITH I. S. U. DECLARES VETERAN HERE

Association Stand Is That Canada Control Sport in This Country

CHAMPIONSHIPS HERE WORLD MEET

Montreal Skating Enthusiast, in City Today, Gives His Views

"THE Canadian Amateur Skating Association has taken the stand that it should control the game in Canada and there is no quarrel on that with the International Skating Union," declares James A. Taylor, of Montreal, honorary president of the Canadian body, and one of the outstanding leaders in this sport on the continent, in an interview here today.

"We have been friendly and always will be friendly with Saint John, despite many rumours and reports and no official of our association has ever knocked a meet in Saint John. We believe that in taking the stand that we should have the allotment of the Canadian championships, we are doing so for the benefit of the game in Canada and our one hope is that people will not believe there is a big fight on. We have simply withdrawn from the International on this ground and we are asking Saint John to think well before deciding against us."

Mr. Taylor, who is one of the founders of the International Skating Union and who refused the presidency of that body four times, declares that there is no quarrel with the Canadian championships, we are doing so for the benefit of the game in Canada and our one hope is that people will not believe there is a big fight on.

Mr. Taylor reported 60 men in Lancaster Hospital, and the usual visits had been paid there.

Mrs. J. H. Doody reported three drives had been received from Mrs. G. E. Barbour, Mrs. W. O. Sullis and Mrs. A. J. Mulcahy. For the conveyance of soldier patients, who were guests of "Dumbls" performance, Dr. Murray MacLaren and Mrs. Leonard Tilly.

Forster, Mrs. W. Bonnell, Mrs. Royden Thompson, Mrs. Heber Vroom, Mrs. C. B. Allan, Mrs. Frank Fairweather, and Miss Ethel Jarvis.

PRAISES SAINT JOHN

So far as he personally was concerned, he recognized the two different styles of skating and also recognized the sporting champion aspect of the meet here last winter. He said he hoped this would clear the air in Saint John with regard to any resentment against the Canadian body on this matter.

"We recognize that Saint John is the key centre not only in Canada but in this continent of the speed-skating game. There never were better or bigger meets than those staged in this city and all the Canadian body like to see that it has the sympathy of Saint John in this matter."

"The Americans, he said, should handle their national championships themselves and the same right to hold their national contests should be accorded Canada. When it came to international championships, that was a matter for co-operation on both sides of the border and he was sure Canada would not be found lacking."

FRONTENACS CASE

Speaking of the award of the Canadian championships to the Frontenacs Club, Quebec, Mr. Taylor said he was not speaking for the Canadian body but expressing his own opinion, which he said he believed no action would be taken in regard to any resentment against the Canadian body on this matter.

Mr. Taylor reported 60 men in Lancaster Hospital, and the usual visits had been paid there.

Mrs. J. H. Doody reported three drives had been received from Mrs. G. E. Barbour, Mrs. W. O. Sullis and Mrs. A. J. Mulcahy. For the conveyance of soldier patients, who were guests of "Dumbls" performance, Dr. Murray MacLaren and Mrs. Leonard Tilly.

BIRTHDAY AND ANNIVERSARY

On Wednesday evening Mrs. T. S. Hill was tendered a very pleasant surprise party at the home of her daughter, Mrs. W. E. Darling, Fairville Flat, on the occasion of her birthday and wedding anniversary. Mrs. Hill was the recipient of many gifts and congratulations from friends in New York, New Jersey and Boston, as well as here. A very pleasant evening was spent and delightful refreshments were served.

**GREATER TRADE ERA FORECAST**

**U. S. Expected to Send Minister to Canadian Capital**

WASHINGTON, Nov. 26.—Canada soon is to have a minister in Washington, and the United States will have one in Ottawa. It was Canada which grew tired of having to depend on the intermediation of the British ambassador in the transaction of diplomatic business between the Washington and Ottawa governments. The new arrangement suits the State Department perfectly. That the Canadians want not so much a clever international politician here as a good business representative is indicated by the selection of the Hon. Vincent Massey for the Washington post.

Except that he accepted a portfolio in Premier W. L. McKenzie King's cabinet, Massey's interests have been largely commercial. He isn't at all the type of man an old world foreign office would have picked for such a job, but does know about trade.

**SHERMAN NAMED**  
AS the United States appointee to Ottawa, Roger I. Sherman of Massachusetts has strong backing.

Sherman, an expert in the canning and packing of food products, is engaged on a large scale in the development of the exchange of such commodities between the United States and Canada—that is, the sale here of such as are peculiar to Canada and the sale in Canada of those more readily available on this side of the border.

Naturally his activities have given him a wealth of information concerning the two countries' mutual interests and the opportunities for each in the other's field.

**OPEN TO ESCAPE**  
WHETHER Sherman would accept a diplomatic appointment is open to some question. He certainly would do it, if at all, at a heavy financial sacrifice. There is considerable inclination, however, to drift him for the work, as perhaps better equipped to handle it effectively than any other man in the country.

In Canada, his supporters point out he would be the most acceptable of ministers.

He is representative in the United States of the Co-operative Federation of Quebec with 30,000 membership, has the endorsement of the Canadian government and has vastly increased Canada's American markets. For obvious reasons he stands well at Ottawa.

There can be a profitable interchange of products across the border, Sherman insists, into which the element of competition won't enter in the least. It's considerably interfered with, he admits, by tariff walls which do nobody any good, but he wants to level them if he can.

**MARLBOROUGH IN PLEASANT EVENING**  
Annual Session Announced For December 9; New Member Welcomed

Marlborough Lodge, Sons of England, held its regular meeting last night with H. E. Thompson, the W. P. in the chair and several visiting members of Portland Lodge present. One new member was initiated and received a hearty welcome. It was announced that the annual meeting would be held on Dec. 9, when election of officers for 1927 would take place. The entertainment committee is preparing to provide excellent entertainment for the future meetings and it was expected that there would be more largely attended meetings. The report of the church service committee was received and letters of thanks were sent to all who had helped with the service in St. Mary's church. A program of songs and speeches was enjoyed after the business session and those taking part were as follows: Messrs. Lawrenson, Webb, Clark, Thompson, Tremaine, Pritchard, Horsman and Curtis. Cards and other games were played afterwards.

**A Long-Haired Oklahoma Queen**

Central Press Photo

Miss Jane Bowman of Pault valley, Oklahoma, was the first long-haired queen elected at the University of Oklahoma in five years, so she decided to give the bobbed-haired lassies something to talk about. The result is a double curl over the forehead. Now nearly all the girls have double curls.

Some of the views shown were of places familiar to Canadians, including Westminster Abbey, Buckingham Palace, London Bridge, the Houses of Parliament, the Tower of London and Westminster. He minutely described the famous Nelson monument which cost \$300,000 to erect, with four massive lions at the base. It might surprise some to know, he said, these were the largest bronze lions in the world, being 20 feet long and eight feet in height. Describing slides of the British museum, Mr. Mayes said it contained the finest original collection of art treasures in the world. It was erected in 1753 and would require more than a month to make even a cursory examination of its treasures.

**WEMBLEY SLIDES**  
Mr. Mayes also showed slides of the Wembley exhibit. Describing the Canadian exhibit, he said it was excellently arranged. He showed several pictures of the palaces of arts, industry and engineering. The exhibit, required about three-quarters of a mile square and its stadium would seat 132,000. Quoting from Henry James Forman, Mr. Mayes said the Empire capital was the most complete city in the world. Comparisons were odious, but a solemn London was much richer in returns than one in Paris. The lure of Paris, he said, was the result largely of a few palatial phrases, where the lure of London was substantial actuality. He said that Canada might well feel proud to be part of the British Empire, of which London was the heart. Its traditions from the mists of antiquity were of the most, while its destiny was sure. In the great work of the Empire, Canada would play a leading part. Mr. Mayes was heartily thanked at the conclusion of his interesting lecture.

**TEA TO BOSTON.**  
It was Davison, Newman & Co. who sent out the tea which figured in the Boston Tea Party, helped to precipitate the American Revolution, and thus changed the course of history. The firm has records which reveal that in the early days of the firm tea cost \$50 per pound, while almonds and raisins were cheaper than they are today, and chocolate about the same price. There is still in use the counter where it is said the first pound of tea was sold in England more than 270 years ago.

**HOCHELAGA SUEB**  
QUEBEC, Nov. 25.—The collar Hocchagaga, which is at present in the Lauson drydock, where she is undergoing repairs following a collision with the Leopold L. D., a French freighter, a little over a week ago, has been libelled by the legal firm of Atwater, Bond and Beauregard, of Montreal, acting for the Dreyfus Company, owners of the Leopold. The French company is claiming a sum of \$125,000 damages as a result of the collision. The writ of seizure has been issued by the Admiralty Court.

**DEATHS**  
Edward L. Parsons.  
Word was received in the city yesterday that Edward L. Parsons, formerly of Saint John, but for many years a resident of Malden, Mass., had passed away that morning. The news of his death was a great shock to relatives and friends here as although he had been in poor health for some time it was not thought that he was seriously ill.

He was a son of the late James E. and Eliza Parsons of this city, and his father was one of the prominent business men of the south end of the city, being established in the business of ship-chandler during the busy days of ship-building here. He had made his home in the United States for many years, but had visited his native city on several occasions and has many warm friends here. He was a man of sterling character, highly esteemed and well regarded by all who knew him. He is survived by his wife, who was formerly Miss Northrup, a native of New Brunswick. He also leaves two brothers, a half-sister and a half-brother. The brothers are James C. Parsons, of West Saint John. Mrs. Thomas Lee, of this city, is a half-sister and Nathaniel Litter, of the customs department at Halifax, is a half-brother.

The funeral will take place in Malden, Mass.

COBHAM FAILS TO FLY PLANE FROM STEAMER

Ground Swell Too Strong And Tug Tows Aircraft

NEW YORK, Nov. 25.—Failure marked the attempt today of Sir Alan Cobham, British aviator and lecturer, who arrived on the liner Homeric, to fly a "moth" plane from the Quaran- tine to the Battery, to prove that mails could thus be expedited.

The only time that the small plane soared in the air was when it was hoisted from the after deck of the Homeric to the water below. After being buffeted by ground swells, the "moth" was finally towed to the Battery and later to Miller's Field, Staten Island.

Sir Alan and Lady Cobham boarded the plane on the ship and were hoisted over the port side without incident. The plane was steadied by guide ropes controlled from the ship, while the wings were unfolded and fastened in their proper position.

Two officers of the Homeric stood on the pontoons during the hoisting and lowering, but after one of them had been removed it was discovered that there was no arrangement to take off the man who was to have cranked or turned over the propeller.

The ground swell by that time was too strong to permit a safe take-off from the water. The problem of getting the "moth" to the Battery was solved by having a tug tow the plane.

Meanwhile the Homeric had passed of America greeted them at the Battery, hailing the British aviator as a pioneer.

Many passengers on the Homeric voiced indignation that they had missed their trains and Thanksgiving dinners due to the ship's three-hour delay in docking to enable Sir Alan to make his attempt.

SEARCH CONTINUES

CORRUPTION CHARGES AIMED AT GOULD MAKE MAINE CONTEST WARM

Investigation Into Primary Expenses Demanded by Democrats and New Brunswick Probe Figure in U. S. Senatorial Election

AUGUSTA, Maine, Nov. 25.—With Republican control of the next Senate depending on the outcome of a special election in this State next Monday, Maine's political apple cart was turned bottom up last Sunday by a broadside of corruption charges aimed at Arthur R. Gould, Republican Senatorial nominee in the special primary of November 1.

Fulton J. Redman, Gould's Democratic opponent, opened fire with a public statement in which he charged Gould with having given a \$100,000 bribe several years ago.

ACCUSED BY PASTOR

Previously Rev. A. F. Leigh, of Randolph, filed charges with the Secretary of State here that Gould had exceeded the legal limit of \$1,500 in his primary campaign expenditures, while a group of Maine Democrats asked Senator James A. Reed of the Senate campaign funds investigating committee to inaugurate a federal inquiry into the Maine primary situation.

HEARING SET FOR FRIDAY

Meanwhile Secretary of State Frank Ball set tomorrow as the date for a hearing on the Rev. Leigh's charges. The Randolph clergyman is prominent in the Ku Klux Klan organization of Maine, which was reported to have been actively opposed to Gould's candidacy.

**WELDON NAMED AS SUCCESSOR TO DALRYMPLE**

**New Brunswick Man To Be Traffic Vice-president**

MONTREAL, Nov. 25—J. E. Dalrymple, vice-president in charge of traffic and express, Canadian National Railways, today announced his resignation to take effect Dec. 31 next.

A. T. Weldon, general traffic officer, is appointed vice-president, succeeding Mr. Dalrymple. The position of general traffic manager will be abolished.

**GETS LEAVE IN DECEMBER**

Mr. Dalrymple added that the management had granted him leave of absence during the month of December, and that he was, therefore, immediately transferring all outstanding matters to Mr. Weldon, his successor. On being asked as to his immediate plans, he stated that he proposed to stay at home and get better acquainted with his family and was not going to think about business until at least the New Year. He proposed to continue to reside in Montreal.

Mr. Dalrymple has had a striking career, having been engaged with one railway interest for over 40 years, starting in an office boy with the Grand Trunk in July, 1883, and finally filling the position of vice-president of the succeeding company, the Canadian National Railways.

**WELDON BORN IN PROVINCE**

Albert Thompson Weldon, the new vice-president in charge of traffic and express, was born at Dorchester, N. B., in 1876 and entered the employ of the old Intercolonial Railway as messenger at Moncton in 1899. The next 10 years were spent in various clerical capacities, mainly in the freight department, and the freight claims department at Moncton. In December, 1901, he became chief clerk of the divisional freight agent, Nova Scotia division, with headquarters at Halifax. **SUBJECT IS "EXCUSES"**

Using the parable of the Great Supper recorded in Luke 14, for his text, Rev. Eugene C. Stiff in the Coburg street Christian church last night, preached an interesting sermon on the subject of "Excuses". He said that every excuse was a lie but that reasons were truths. He said that in this country men might buy land in Florida or some other place without looking at it but in the land of our Lord's ministry, the people investigated very carefully before making any investment. Mrs. H. Kee sang very effectively "The Old Rugged Cross". Rev. L. Duval offered prayer.

**HOW TO FEED A GROWING CHILD IN WINTER.**

Medical science teaches that properly fed children are never sick. There are two classes of foods, "acid-forming" and "alkali-forming." These should be fed in proportions of one-third acid to two-thirds alkali, to keep the blood normally alkaline. When too much acid-forming food is eaten acid accumulates in the blood and sickness is inevitable, in child or adult. Dr. Robert G. Jackson, at 63 a physical wreck, is at 87 a vigorous, forward-looking, youthful man planning years of strenuous effort. His great health change resulted from eating natural foods: nuts, fruits, vegetables, Roman Meal, milk. These can do even more for children in their developmental period. Dr. Jackson is dietetic editor, "Archives of Therapeutics," New York; a physician's journal; advisor to "Defensive-Diet League," a physician's association. Send for his free leaflet, "How to Keep Well," to Robert G. Jackson, M. D., 202 Vine Ave., Toronto (2) Ont.

SUGAR ADVANCES 40C. SUPPOSED AUTHOR OF HOAX ARRESTED

A 40 CENT ADVANCE in sugar prices was among the long list of advances in the city market quotations of the week. Other commodities quoted at higher prices were eggs, low, chicken, creamery butter, squash, molasses, Emperor grapes, bananas, flour, shelled walnuts and raisins. There were very few declines, but among those few were potatoes, milked, American plate beef, canned shrimps and sardines and almonds. Fresh extras in eggs had become a very rare commodity, but supplies in most of the other lines were quite plentiful.

EMPEROR GRAPES UP 25c.

In wholesale fruits, Emperor grapes were up 25 cents, at 80 1/2 a keg. Bananas were up a half to one and a half cents a dozen. There was a pound increase in the price of a dozen of the 40-cent advance in sugar made north \$8.45. The 20-cent advance in flour prices gave quotations of \$8.00 for Manitoba, and \$8.50 for Ontario.

NATIVE SQUASH HIGHER.

In the retail green goods list native squash was a cent dearer at five cents a pound. Parsnips sold at four to five cents a pound, and red cabbage brought 10 to 20 cents each. There were many changes in the wholesale grocery list. Choice seed brought 14 cents a pound. Straw and hides were unchanged in price, and the only variation in the fish list was an advance of two cents on the price of mackerel, which sold at 12 cents a pound.

### WOOD DOESN'T YIELD TO STEEL IN CASE OF PARRSBORO SHIPPERS

"THE shipping men on the Parrsboro shore have never accepted the fact that wood had to yield to steel, and they are successful in maintaining their lines of traffic on the Atlantic seaboard, as the deposits in the Savings Banks at Parrsboro show," a Kentville correspondent writes, and adds: "About fifty wooden vessels are owned and operated in that district."  
"The three-master, William Melbourne, wrecked recently in the Bay of Fundy, and a total loss, was loaded with wood pulp from the Avon Power Company mill, on the Gaspeau River, back of this town," he continues. "This company is shipping to the United States about 2,500 tons a year."

The fight against tribes of insects and the cost of fertilizers are in many cases overtopping all possible returns."

DEADLOCK IN DISPUTE OVER PARTNERSHIP

Judge White Suggests Arbitration in Pettit vs. Cox Case

At the close of argument of counsel yesterday afternoon in the Chancery Court in the case of W. Holland Pettit vs. Arthur E. Cox, an action over a partnership agreement, Mr. Justice White suggested to the parties that their best course would be to take advantage of the clause in the agreement, relative to arbitration in the event of a disagreement, and settle the matter out of court. The parties will consider terms of a settlement and report to the court within a day or two. The plaintiff is asking for 20 per cent of \$18,000 stock, alleged to have been received by the defendant, the Connors Bros., for services in reorganization, claiming this amount under the terms of a partnership agreement between Cox and Oscar Hudson & Co., chartered accountants, whose successor is the plaintiff.

As Hiram Sees It

"I thought we was done with the French folks," says I to the town feller, plintin' to the patch of moonlight on Long Reach, "but there goes a hull lot of 'em down river." "Them," says he, "is the ghosts of two hundred French that went down to Fort Frederic—that Col. Monckton built over in Carleton—to ask if they couldn't keep their land on the Saint John River. That was in October, 1759. In January of the next year them another hundred that had been brought in was sent in ships to Halifax—to be sent as prisoners to England. Governor Lawrence at Halifax was bound to settle the river with English. The French had letters to show that they had took the oath of allegiance and that Col. Monckton said they could stay—but they was packed off to Halifax. An' that's the last we'll see of the French gals up an' down Long Reach. They suffered a lot afore the last of 'em was sent away. Old Lawrence was mighty hard on 'em. Them was their ghosts we just seen in the moonlight on the river."
