King Proclaims Irish Amnesty

A COLD SPELL TO FOLLOW BIG BLOW

Storm of Short Duration, but Lively.

Reports from Various Parts of Canada and the United States Tell of Damage—U. S. Transport Comes Through All Right.

(Canadian Press.)

Washington, Jan. 12—The winter storm which yesterday wrapped the northeastern section of the U. S. in an icy blanket and buffeted the Atlantic coast with gales ranging in velocity up to 76 miles an hour, today was central over Southeastern Maine, according to weather bureau reports. Cold wave warnings were ordered for northern New England with the prediction that frosts are probable tonight as far south as Central Florida.

There was but little trace of yesterday's severe storm apparent in New York this morning. The weather was clear and crisp with moderate winds. Snow remained in some sections of the city, but it was not sufficiently deep to impede traffic and all surface lines were running as usual. The weather prophets promised a few days of clear cold weather.

Asbury Park, N. J., Jan. 12—The Angel of Peace statue, which had stood on the Ocean Grove beach for forty years, was in ruins today as a result of a five-minute raking this city received from yesterday's gale. The statue was toppled from its base by a 72 mile gust and shattered.

In New York.

New York, Jan. 12—This section was lashed yesterday by the worst gale of the winter—a gale that at 2 p. m. reached a velocity of ninety miles an hour off Sandy Hook.

Ushered in with snow that later turned to sleet and rain the storm buffeted New Yorkers without respite. The snow piled to several feet before the wind. One, eighty feet high, toppled in Fronton, N. J., falling in a deluge that supplied traction lines and tying up service for a while. A chimney, 125 feet tall, crashed in Brooklyn. Harbor traffic was hard hit and small boats were blown from their moorings. Incoming liners were held at quarantine by high winds which made it impossible for health officers to board them.

In the city the fire department was busy early afloat. The tractors were rolled out and a call issued for 2,000 extra sweepers.

In Boston.

Boston, Jan. 12—The storm which rushed up the Atlantic coast yesterday brought the heaviest gale of the winter to New England, accompanied by rain, sleet and snow. It smashed into the Provincetown fishing fleet and piled up two fishing schooners on the shores of Cape Cod, besides sinking two power boats. One man was drowned.

North and west Boston, a heavy snow fall was reported and in Maine and New Hampshire trolley service was interrupted at several points and trains were delayed. In Boston the storm started with snow which changed to sleet and on to heavy rain, making streets and sidewalks a mass of slush and water for several hours. Shipping kept close to port.

The Cook All Right.

Washington, Jan. 12—A radiogram from the U. S. transport Crook received at half-past six this morning said the crippled ship was making favorable headway.

"The gale reached the transport last night," the message said, "but did not cause it to slow perceptibly."

The transport's position was given as 365 miles east of New York. She is carrying 942 officers, men and civilian passengers. Formerly, the Roumanian, of the Allan Line, she was built thirty years ago, of 5,000 tons burden.

Severe in Montreal.

Montreal, Jan. 12—What was probably the most severe storm Montreal has experienced in years swept over the city last night when a blizzard, which at times attained a velocity of sixty miles an hour, whirled the snow about and piled it in drifts eight and ten feet deep in many of the principal thoroughfares.

So far as can be ascertained at present the storm did not result in any material damage, nor were any accidents or fatalities reported at the hospitals. Early morning sweepers cleared the main streets to some extent, so that the car service was not vitally impaired. Hundreds of men will be engaged by the authorities as carters and snow cleaners. It is expected many days will elapse before conditions throughout the city are again normal.

The snowfall was between eight and ten inches.

Ogdensburg, N. Y., Jan. 12—Merchants here were forced to suspend business yesterday because of a heavy fall of snow being whirled about by a fifty mile gale. Ferry service on the St. Lawrence between here and Prescott, Ont., was seriously interfered with.

In Nova Scotia.

Halifax, N. S., Jan. 12—A gale varying from southeast to northeast and attaining a velocity of forty-five miles an hour swept over Nova Scotia last night and this morning, accompanied by heavy downpour of rain. Sydney, Cape Breton, reported power circuits and long distance telephone lines badly disorganized. No other damage was reported.

Political Prisoners to be Freed at Once.

Applies to Time Prior to Operation of Truce on July 11—Matters in General Seem in Favor of Treaty Supporters in Dail.

London, Jan. 12—King George has granted general amnesty "in respect to political offenses committed in Ireland prior to the operation of the truce last July," so it was officially announced today. The release of prisoners will begin at once.

The text of the proclamation, which was issued by Winston Churchill, secretary for the colonies, reads:—"The king has been pleased, at the moment when the provisional Irish government is due to take office, to grant general amnesty with respect to all offenses committed in Ireland from political motives prior to operation of the truce, July 11 last."

"The release of the prisoners to which amnesty applies will begin forthwith. It is the king's confident hope that this action of oblivion will aid in powerfully establishing relations of friendship and good will between the peoples of Great Britain and Ireland."

Figures given out in Dublin on Wednesday night showed that 1,010 persons who probably would come under the classification of political prisoners were still in confinement. This number includes twenty persons charged with murder, 121 with attempted murder, 478 with possessing arms, and 226 with crimes of violence, the others being held on minor charges. A few Sinn Fein prisoners are under sentence of death, but according to recent Belfast news, including sixteen men in jail there whose execution has been set for the latter part of January. The men under confinement in the Irish internment camps were released in December.

FOLLOWERS OF DE VALERA MEET.

Dublin, Jan. 12—Leaders of the Sinn Fein faction opposing the peace treaty have been summoned for today by Eamon de Valera, deposed president of the Dail Eireann to consider the general situation growing out of ratification of the treaty. Meanwhile, Arthur Griffith, the new president, has started the machinery of his provisional government.

One of his first acts was to summon the supporters of the treaty to a meeting on Saturday for the purpose of formally ratifying the treaty. This formal ratification is specially provided for in the pact.

Mr. De Valera has said that he would ignore the meeting on Saturday and believed that his followers would do likewise. The supporters of the treaty believe that this insures unanimous approval of the treaty by the remaining members, with the added votes of the four Unionist members for Dublin University. It is expected that the proceedings will be brief and formal and that the acts taken by the cabinet in the interim will be approved, thus confirming the constitution of that body as announced by President Griffith. It is rumored that one of the Unionist members of the parliament may be added to the cabinet, thus giving a coalition complexion to the administration.

The British authorities have begun their evacuation from Dublin Castle, and announcement of the release of the Irish political prisoners is expected at any time. In addition, preparations for the withdrawal of British military forces are understood to be going forward. All these developments are construed as strengthening the position of the new Irish government.

While Griffith and his colleagues are going ahead with their plans there is no lack of prophets of evil, ready to emphasize the pitfalls surrounding their task, such as the republican opposition, the technical illegality of any act of the provisional government until the treaty is formally ratified both in Ireland and in England, the alleged bitter hostility of a large section of the Irish republican army, and similar issues.

Some Women Against Treaty.

The executive of the Cumann Na Mban, the Sinn Fein women's organization, at a meeting here last night adopted a resolution by a vote of twenty-four to two re-affirming its allegiance to the republic and refusing to support the Anglo-Irish agreement. Countess Markievicz, the president, was in the chair and delegates from the country districts attended. The league has 5,000 members in Dublin city alone.

It was announced by the Dail Eireann's foreign department last night that no official delegation from Ireland would attend the Irish race convention in Paris.

SOON BE PUBLIC WORKS MINISTER

Indications of Early Resignation of Hon. J. H. King from B. C. Legislature.

DEMPSEY AND JACK JOHNSON

Reported That Mexicans Seek to Match Them—Late Sport News.

Nogales, Ariz., Jan. 12.—Mexican boxing promoters hope to arrange a match between Jack Dempsey, heavyweight champion, and Jack Johnson, former champion, in the near future at the Plaza De Toros, in Mexico City, according to reports here today from the Mexican capital.

Those backing the enterprise are said to have declared that Dempsey has agreed to fight Johnson.

Edmonton, Jan. 12.—Baseball club owners assembled here yesterday from Regina, Saskatoon, Calgary, Vancouver, Tacoma and Edmonton, and organized the Western International League, being an amalgamation of the Western Canadian League and the Pacific International. Deacon White, president of the Western Canada League, is president of the new organization.

REGULATE LIQUOR FLOW TO AFRICA

League of Nations Council Asks Belgium to Establish International Office in Brussels.

Geneva, Jan. 12—Belgium has been requested by the League of Nations council to establish in Brussels an international office to regulate the liquor traffic with Africa.

The council, in acknowledging a letter from Hungary in which it was contended that Sir James Eric Drummond, general secretary of the League of Nations, should have summoned the council of the league at the time the former superior made his attempt at the restoration of the monarchy, replied that the secretary had no authority so to act in such a case, but that anyway the council did not desire to discuss the situation now, as it would be useless.

SAYS COMPANY SENDS \$20,000 WEEK FOR IDLE

Features of the Unemployment Situation in Cape Breton Coal Fields.

Sydney, N. S., Jan. 12.—That the Dominion Coal Company is sending \$20,000 weekly to relieve distress among its employees, and that no deserving case brought to the company's notice will be allowed to go unassisted, was a statement made yesterday by H. J. McCann, assistant general manager, addressing a delegation of the county council, at a session that unemployment was less acute in Cape Breton than in any other coal field on the continent.

The United Mine Workers, he said, were also making a weekly levy on the employed miners of the district for the assistance of those who have been thrown out of work.

A special session of the Nova Scotia legislature to deal with the unemployment situation in the coal fields of Cape Breton is urged upon Premier Murray in a resolution now making the rounds of the United Mine Workers' locals. It says there is grave danger of trouble in Cape Breton owing to the destitute condition of a section of the people.

There is movement for demand for representation of the United Mine Workers on the British Empire Steel Corporation executive.

Halifax, N. S., Jan. 12.—The board of conciliation which will hear the wage differences between the operators and coal miners of the British Empire Steel Corporation will meet here Monday and Tuesday, January 16 and 17, so it was announced today.

SOON BE PUBLIC WORKS MINISTER

Indications of Early Resignation of Hon. J. H. King from B. C. Legislature.

Ottawa, Jan. 12.—(Canadian Press)—Indications are that the portfolio of public works will soon be taken over by Hon. J. H. King, who will probably resign his portfolio in the British Columbia legislature in the near future.

Hon. H. Bostock, present minister of public works will, in all probability, retain his membership in the cabinet without portfolio. He will also be government leader in the senate.

As Hiram Sees It

"Hiram," said the Times reporter to "Mr. Hiram Hornbeam," "I had a very bad night last night and I was at half-past ten and was unable to sleep. The pillow didn't feel right under my head. The nerves in my feet turned and twisted, and my pulse beat faster and faster. I thought I would really have to sit up. When I finally fell asleep through exhaustion I had horrible dreams. At breakfast this morning there was ice in the milk and I had to wait for my toast. The first thing I saw when I came out was a creature I despise, who grinned and insisted on walking along with me. Twice I slipped and nearly fell on the icy sidewalks, and the people in the air nearly choked me. I can't see."

"That's one thing," said Hiram. "Do you know what the matter is with you? You're a crab. You're just lookin' for something to complain about. You can't think of nothing that's gloomy—at all about yourself. You'll live longer—yes, sir."

LEAGUE GOES INTO CASE OF VILNA

Dispute Between Poland and Lithuania is Taken Up—Hard Nut to Crack.

Geneva, Jan. 12—The dispute between Poland and Lithuania over Vilna came before the council of the League of Nations today. The situation in Albania and Lantz also was on the programme, but the Vilna problem held chief place. It is one of the most difficult problems confronting the council.

The League of Nations had already evolved a solution, but this was rejected by both countries, and the council is now considering the question in the light of the election held in Vilna last Saturday, the results of which are not yet known.

Meanwhile the council plans to decide upon measures to prevent renewal of hostilities and the most effective method of dealing with the minorities there.

REPORT OF FORD BID FOR LINCOLN

Receiver's Sale on Feb. 4—Announcement Leads to Sale of 80,000 Shares.

Detroit, Jan. 12—More than 80,000 shares of the Lincoln Motor Co. changed hands on the Detroit Stock Exchange yesterday, following announcement that the Ford interests planned to submit a bid of \$80,000 for the Lincoln plant when it is put up at a receiver's sale here on February 4.

The stock opened at less than \$8 a share, and the top price recorded was \$9 a block of fifty shares being sold at that price. The close was 5 5/8. Lincoln class stock was brought out at \$80 and sold as high as \$86, but has dropped, as low as \$2 since the receivership.

LABOR CALL FOR BEER IN ALBERTA

Say it Would Reduce the Sale of Bootleggers' Whiskey.

Lethbridge, Alta., Jan. 12.—The annual convention of the Alberta Federation of Labor closed yesterday afternoon with the adoption of a resolution asking that the federation press for the passage of legislation legalizing the unrestricted sale of beer in the province.

It was contended that the sale of beer containing 9 1/2 per cent alcoholic content would reduce the sale of bootlegger whiskey. It was also recommended that a system of unemployment insurance be introduced by the federal government. Frank Whentley was re-elected president.

THEY HAVE HIM IN HAMILTON

Negro Arrested Believed One Who was Sought Over the Continent.

Hamilton, Ont., Jan. 18.—The Hamilton police last night arrested in the colored quarter a negro believed to be Matthew Bullock, who is wanted by the police of a North Carolina town. A charge of vagrancy has been laid against Bullock, but it is understood the case is much more serious and that the search for the negro has been carried on all parts of the continent for some time.

Bullock's brother was lynched by a mob in the south some time ago. Stories of mob fights in which he participated were also told by the prisoner, and to prove his statements he exhibited scars on his arms which he says were caused by bullet wounds during these engagements.

Briand Quits As French Premier

Springs Great Surprise on the Deputies—Cabinet Goes with Him—He Reported Action Taken at Cannes and Bluntly Said to Take it or Leave it.

(Canadian Press Cable.)

Paris, Jan. 12—Premier Briand submitted his resignation to President Millerand today after making a lengthy statement before the Chamber of Deputies justifying his attitude at the Cannes conference.

M. Briand's intention to resign was announced to the Chamber of Deputies at the close of his hour's speech. The announcement came as an entire surprise, as he had apparently won the sympathy of the chamber. His colleagues of the cabinet were filled with amazement at his sudden determination.

CABINET GOES, TOO.

The entire French cabinet went out of office with Premier Briand. President Millerand accepted Briand's resignation.

On the subject of the Genoa conference Mr. Briand said: "It is inadmissible that France should be absent from this conference, which is purely financial and economic, especially when such a powerful financial economic state as the United States, without whose co-operation work is impossible, has agreed to participate."

(Canadian Press Cable.)

Paris, Jan. 12—Premier Briand, who arrived here this morning to consult the cabinet and appear before parliament with regard to the Chamber negotiations, will speak in the Chamber of Deputies this afternoon with the full support of his cabinet members, so it was said after his meeting with the cabinet this forenoon.

The cabinet meeting was concluded at one o'clock after a two hour session. The premier, it was indicated, had explained the situation with regard to the Chamber negotiations to his colleagues and they had agreed to support him. Here is France's security. Take it or leave it."

INFLUENZA NOW IS EPIDEMIC

Reaches That Stage in England, but Mild.

Not Many Deaths So Far, but Number Now Increasing and Things May be More Serious Unless Weather Changes.

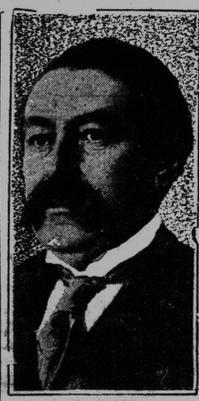

(Canadian Press Cable.)

London, Jan. 12.—A widespread influenza epidemic now prevalent in several parts of the United Kingdom has become a normal annual event in the last few years.

Up to yesterday, although numerous cases have been reported, they have generally been mild, with a very small proportion of deaths. An official statement issued a week ago showed the visitation to be not more serious than that of last year, but a sudden increase of the number of cases in the last few days has caused the authorities to modify this view.

The registrar-general's report to be published today, it is understood, shows the outbreak to have reached the stage which is officially recognized as an epidemic. A large number of the cases are of so mild a type that the sufferers themselves; nevertheless the number of deaths is substantially increasing. It is impossible accurately to appraise the situation until the registrar reveals the figures being dealt with the deaths, but the epidemic threatens to become more serious unless checked by a change of weather.

German boundary commission. Dr. Simons has arrived in Bruchten.

M. BRIAND.

Premier Briand put the Anglo-French pact, the question of postponement of German reparations payments and French participation in the Genoa conference squarely up to the Chamber of Deputies this afternoon, telling the deputies in the bluntest terms, to take them or leave them.

The premier first presented the question of the British pact. "You have been complaining for three years," he said, "of not being called upon to share in shaping French policies. I am bringing you what you have been denouncing for three years, and it is up to you to say whether you want it or not."

"So far as I am concerned, I am merely making these explanations to you and do not ask your approval or refusal. Here is France's security. Take it or leave it."

Premier Briand, in the course of his speech, said the United States had agreed to participate in the Genoa conference. "Do you wish France not to be represented there?" He asked. "If so, say so. I for my part wish France to take part."

Paris, Jan. 12—The British memorandum on the proposed British and French participation in the economic reconstruction of Europe will meet French desires regarding reparations and security and considers the first condition to a true entente to be the avoidance of naval competition. It suggests therefore as a condition to the contemplated treaty that the admiralties of both countries confer regarding their respective naval programs in order to avoid such competition.

The memorandum also insists on the necessity of clearing up points at issue between the two countries and as an essential part of this declares that peace in the Near East should be restored to a true entente to be the avoidance of naval competition. It suggests therefore as a condition to the contemplated treaty that the admiralties of both countries confer regarding their respective naval programs in order to avoid such competition.

It suggests therefore as a condition to the contemplated treaty that the admiralties of both countries confer regarding their respective naval programs in order to avoid such competition.

Naval rivalry must be avoided by the two countries, sets forth the memorandum, which declares that submarines have proved in four years experience to be inept either in naval attack or defense and can be used only to prey upon the merchant marine. Naval competition it is added, would corrode any accord.

Resumption of trade relations with Russia was declared by the memorandum to be indispensable to the recovery of Europe, and the consent of France to Russian participation in the economic negotiations was made one of the conditions of the accord.

Paris, Jan. 12.—A despatch to the London Times from Rome says the correspondent has been informed by Dr. Lavinio, who recently returned from Moscow, where he went to conclude the Russo-Italian trade agreement, that the Russian delegation to the Genoa economic conference probably will consist of M. Chicherin, the Soviet foreign minister, M. Litvinoff, chief of Soviet legations abroad and Leonid Krassin minister of trade and commerce.

### FINED \$500 IN CASE OF 'STILL'

#### A Richmond Street Case in Police Court.

John Maloney gave himself up to the police this morning and when brought before the magistrate on a charge of operating a still in his house at 28 Richmond street, pleaded guilty. He was fined \$500.

The four young fellows who were charged the other morning with trespassing and acting suspiciously on the property of the C. N. R. were before the magistrate today charged with acting together in breaking and entering the barn of John Kelly and stealing a horse and sled.

C. N. R. Constables Harbour and Morrice gave evidence in that they were in the case against the boys. John Kelly told of missing the horse on the morning of January 10. Kelly, a hold of finding the horse and sled in Gilbert's Lane on January 10. The sled in court would not fit out of the horse in the stable, he said. He knew all the defendants, one of them having worked for him about two years ago. Two of them lived near the stable. So far as he knew they were all well behaved young fellows. The case was postponed until Monday at eleven o'clock.

### AT WASHINGTON

(Canadian Press)

Washington, Jan. 12.—A difference of opinion regarding rules for the disposal of prescribed battleships remained to be settled by the "Big Five" today when they resumed their final revision of the naval limitation treaty. Agreement was reached on the subject of the disposal of the ships, but the delegation heads hoped to have the treaty completed and ready for public discussion at a plenary session on Saturday or Monday.

To make this possible, the Japanese expected to receive tomorrow Tokio's reply to their message regarding the Pacific fortifications agreement.

On the question of rules for disposing of prescribed battleships, the proposal of the United States delegation that such vessels be rendered entirely useless failed to receive yesterday the assent of Great Britain and Japan, whose delegates suggested that the ships, after being dismantled might be used as harbor guards or training vessels. They argued that absolute scrapping would mean useless financial waste. France and Italy, however, readily supported the U. S. position that such use of the vessels would not accord with the spirit of the scrapping agreement.

Prospects for a quick adjournment of the fortifications issue now referred to Tokio were strengthened by the declaration of Vice Foreign Minister Hanabusa that he saw no objection to including British and Chinese groups in the status quo agreement.

While the Japanese and Chinese held another meeting today on the Shantung question, after reaching a tentative agreement yesterday regarding withdrawal of Japanese troops, within the province, plans for resumption of the general Far Eastern negotiations were being laid by members of the various delegations.

There were indications that Japan's objection to the Chinese request, when formerly brought forward by the majority of the delegates.

### WERE HAVING GOOD TIME

A belated pedestrian, passing along King Street about one o'clock this morning, was amazed to see a cab being driven furiously around that thoroughfare, with a stream of cushions, robes and other articles flying in its wake and settling in pools of water. The cab was said to be occupied by two persons. The police said that they had had no report on the occurrence.

### THE SUPPORTS ASPIRATIONS OF ZIONISTS

#### A. J. Balfour Addresses Assemblage in Washington, and Renews Statement of Position.

Washington, Jan. 12.—Arthur J. Balfour, head of the British delegation to the arms conference, reiterated his support of Zionist aspirations in an address last night at a reception in the British embassy to the Zionist organization in America. Referring to his declaration in November, 1917 as secretary for foreign affairs, pledging the support of the British government to establishment of a Jewish national homeland in Palestine, Mr. Balfour said:

"I stand now where I stood then."

"You must do your work here," he declared. "The British government is doing its work in Palestine. The two must co-operate together, they must show diplomacy, consistency, they must show no undue haste, and there must be no moments of slackening in the endeavor to complete the work, which, after all, we must frankly agree, is only just begun."

"I assure you that my interest in the cause, my belief in its final success, my desire to see the ideal of the Jewish home really rising in happy success before our eyes has not diminished."

The reception was attended by more than sixty Zionists from all parts of the country, representing a number of organizations.

#### MURDOCK AND CARVELL.

Ottawa, Jan. 12.—(Canadian Press)—Hon. F. B. Carvell, chairman of the board of railway commissioners, "had nothing further to say on the subject of the railways and labor unions, in reply to a statement of the minister of labor, Hon. James Murdock, last night. He refused to discuss the matter further. He would never be helped by such statements as those attributed to Hon. F. B. Carvell, at a sitting of the board of railway commissioners in Montreal, and that Mr. Carvell was not shouting the other side of the question from the house tops," was what Hon. James Murdock said. Mr. Carvell had criticized the railway unions.

#### MONTREAL STOCK EXCHANGE.

Montreal, Jan. 12.—(10:30)—Dormant in whose dividend a cut of three per cent was forecasted at the annual meeting held here yesterday, featured the early trading on the local stock exchange this morning. After closing at 59 1/2 yesterday, this issue dropped to 51 during the first half hour of trading, later rallying to 55. Another steel issue, Illinois, advanced a point to 30. Other variations were fractional.

Montreal, Jan. 12.—(12:30)—Dominion Bridge was the most active issue this morning, closing at 24, a loss of 1/2 points, from yesterday. Tramways was strong, advancing a point to 148. Montreal Power, however, lost a bit to 57 1/2, as did also Steel of Canada to 55. Wayagamack, which has been very quiet lately, strengthened from 98 1/2 to 98.

### READY TO FLOOD IT AGAIN TONIGHT

#### Mr. Tebo and Aids Do Notable Work.

Fight Storm All Night to Save Track on Lily Lake for Championship Races, and Win the Contest—The Lady Convenors on Badges.

It will be a pleasing surprise to citizens to learn that, despite the severe storm last night, Joseph Tebo has the racing track on Lily Lake cleared off today to allow for another night. To accomplish this, he kept a crew of men working all night and today until two o'clock. Tebo said it was the best night's work he put in for many years, and all who remained on the job had to labor under very trying conditions. During the early hours the snow drifted into the enclosure as fast as it was shoveled out and the snow piled up and was almost as heavy to handle as concrete. Tebo said the worst of the weather he felt, combined with the elements, forced the men to extend themselves to accomplish their objective.

In an endeavor to get the track into condition prior to the storm Mr. Tebo and his men have worked every night and had a fine sheet of ice for the skaters. Thursday is evident on all sides and is one of the chief topics of conversation. What chances the local skaters will make, which he won't say, is a question of the day.

Mr. H. Thorne, Tebo's window in King street there is a display that is causing widespread interest. In the centre is a large photograph of a man, Mr. J. McCormick, former world's champion, and underneath it are the old type of Reach skates which he won the gold medal with at the 1910 Olympics.

The members of the Women's Council have commenced the sale of badges for the championship, and from now until Saturday, holders of world's amateur title for the 440 yards, Hilton Belyea, one of the local premier skaters for the past few years, will be in addition to a gala array of cups and medals won by Hilton Belyea.

### URGE BRITAIN TO BUILD WARSHIPS

#### Mayors of North England Towns Favor it to Give the Unemployed Work.

London, Jan. 12.—(Canadian Press)—At a conference of mayors of northern towns of England, held in Newcastle on Tuesday, it was decided to urge the British government to proceed with the building of battleships in order to mitigate the unemployment situation caused by the suspension of warship orders.

It was declared that, as the U. S. and Japan were building battleships, another suggestion was that the government should advance ten million pounds sterling to shipping companies so that they might start the building of passenger ships.

### DENIES REPORT BANK MERGER

Montreal, Jan. 12.—Official denial of this morning, made by L. De Guise, manager of the Banque Nationale, that this institution was to be merged with the Banque de Hochelaga.

Rumors to this effect originating in Chatham, Ont., were drawn to Mr. De Guise's attention and he issued this contradiction.

### POLITICAL MATTERS

(Canadian Press)

Toronto, Jan. 12.—J. A. M. Armstrong, ex-M. P., received the Liberal-Conservative party nomination at Newmarket yesterday to oppose Hon. W. L. Mackenzie King, in the North York by-election. The selection of Mr. Armstrong, however, did not carry with a decision to enter the contest. A committee was appointed to consider the situation and submit a recommendation on the question of putting up a Conservative candidate against the Liberal-Conservative party.

Chatham, Ont., Jan. 12.—Representatives of the press were excluded from the meeting of the United Farmers and United Farm Women's organizations held here yesterday to discuss the advisability of opposing Hon. James Murdock in the Kent by-election. Delegates refused to give out any information, but it is understood a convention will be held soon at which a candidate will be nominated.

Victoria, Jan. 12.—Following a conference of members of the provincial cabinet, Hon. J. H. King indicated that there would be no obstacle to his withdrawal from the British Columbia government and accepting the office of minister of public works at Ottawa.

### MONTREAL MEETINGS RE RAILWAY WAGES LIKELY TO CONTINUE SOME DAYS.

Montreal, Jan. 12.—The joint conference board of the Big Five railway brotherhoods, locomotive engineers, firemen, railway conductors, trainmen and telegraphers, was here yesterday afternoon to discuss wage agreements following notices by the railway companies of their desire to make permanent the tentative agreements arrived at under Mr. Justice MacLennan's board on October 8 last.

The meeting was held behind closed doors and at its termination it was stated that there was nothing to be given out for publication and that the meetings would be continued for some days.

### MISS EDITH HASLAM IS THE DIRECTRESS

#### Nurse Well Known in St. John Gets Montreal Appointment.

(Montreal Gazette)

Following a re-organization of the Child Welfare Association of Montreal which has been merged the Ashland Baby Welfare, English, Stations, Miss Haslam has been appointed executive secretary, and has entered upon her duties at the offices in Blumenthal Building, 207 St. Catherine street west. Miss Haslam is a trained nurse who graduated at Liverpool in London and who more recently has done much practical work in Newfoundland and Canada. She was at St. John, N. B., in the Victorian Order of Nurses, and saw service with the American Red Cross in Grand Mere, where she organized hospital and industrial nursing service during several months in the Laurentide Company. Speaking of her work there she stated that she had found the Canadians respond well to educational health work, and at a recent meeting the town manager of Grand Mere had testified to the benefits of this work, pointing out that there had been a drop in baby mortality from one common infantile complaint which he attributed to this health campaign.

The establishment of a hospital by the company had yielded one happy result in the fusing of the English and French-speaking elements, and it appeared that clergy, patients and relatives were all unanimous in their appreciation of this joint form of social service. Miss Haslam said she felt that a splendid foundation for industrial welfare work had been laid in Grand Mere under Dr. G. B. Wyatt, late of the Rockefeller foundation, which afforded a hopeful outlook for the highest interests of the community.

As to her task in Montreal, Miss Haslam admitted that the figures in infant mortality were much too high, and that the scientific knowledge available this ought not to be so. These figures could and must be reduced by educational propaganda.

### ST. F. X. HOCKEY TEAM SUSPENDED

L. T. Dow, secretary of the maritime branch of the A. U. of C. this afternoon issued an official bulletin from the St. Francis Xavier hockey players who participated in games with Gloucester on Tuesday, January 10. The bulletin was as follows: "Notice is hereby given that the St. Francis Xavier players who participated in games with Gloucester on Tuesday, January 10, are hereby suspended from this date. All registered athletes are warned not to compete with or against them."

"L. T. DOW, Secretary."

### LIQUOR SALE BY GOVERNMENT IN MANITOBA

Representatives of Moderation League Present Legislation to Government.

Winnipeg, Jan. 12.—Draft legislation proposing the establishment of government liquor dispensaries in Manitoba for the sale of intoxicating beverages was presented to the provincial government yesterday by representatives of the moderation league.

Sales would be made through a permit system, although personal application under the proposed act would be required. The liquor being sold only through the mail. The bill is modelled after the British Columbia act in many respects, but is much more drastic in its provisions for infractions of the measure.

### INTERNATIONAL ROTARY CLUB CONFERENCE

Port Arthur, Ont., Jan. 12.—A conference of International Rotary Club of Ontario, the first of its kind in Canada, was being held here yesterday to deal with important business affairs arising out of the activities of Rotary associations in twenty one countries. Dr. C. Crawford, C. McCollough of Fort William, international president, presided. Arrangements for the next international convention, to be held in Los Angeles, commencing on June 4 received consideration.

### NEW BRUNSWICK V. C. A. COLONEL

Prince Rupert, B. C., Jan. 12.—Lieut. Col. G. W. Peck, V. C., has received notice of his appointment to the rank of colonel on the occasion of his retirement from the command of the Sixteenth Regiment, Canadian Scottish.

It is understood that he will be succeeded in the command by Lieut. Col. H. W. Urquhart, D. S. O., M. C.

Colonel Peck is a New Brunswicker.

### ARBuckle CASE.

San Francisco, Jan. 12.—Selection of seven temporary jurors and dismissal, in the police court, of a perjury charge against Mrs. Minnie Neighbors resulting from her defence testimony in the first trial, were outstanding developments in connection with the opening of the second manslaughter trial of Roscoe Arbuckle, yesterday.

The defendant was cheerful and keenly interested in the proceedings. His wife sat in another section of the courtroom. Three women were among the temporary jurors selected.

Mr. R. R. Terry, of Westminister, Chatham, who will play the wedding march at the wedding of Princess Mary. For this effort he will receive the sum of \$2,000.

### LUMBERMEN AND FREIGHT RATES

#### Toronto, Jan. 12.—Freight rates loom large at the annual conference of the Canadian Lumbermen's Association, which opened here yesterday afternoon.

Reference to the knotty problem of rates was made by a grievance speaker at the opening session, following the presentation of the executive and transportation committees' reports, including the text of the application filed with the railway commission on August 25, 1921, calling on the commissioners to restore the rates on lumber in effect in Canada prior to September 23, 1920.

Wages.

Dealing with the question of wages, the executive report contained the following comment:

"Whilst there has undoubtedly been considerable done in the way of wage adjustments, we have not yet reached the point where Canada can hope to compete with other nations of the world."

Taking three typical industries, iron and steel, leather manufacturing and textiles, the report showed that wages paid per hour in these industries were higher in Canada than in Germany, France or Italy, and that wages in lumber industry in Canada, compared with the U. S., are also generally higher.

There is Strength in Every Tablet

One dose often helps commence to enrich your blood and revitalise your worn-out exhausted nervous system. Nuxated Iron is organic iron like the iron in your blood and like the iron in spinach. It is so prepared that it will not irritate the stomach. It is so prepared that it is ready for almost immediate absorption and assimilation by the blood while some physicians claim metallic iron which is usually taken is not absorbed at all. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron—three times a day after meals for two weeks. Then test your strength and endurance. You will be surprised to find how much you have gained. Your money will be refunded by the manufacturer if you do not obtain perfectly satisfactory results. At all druggists.

MOUNTEBANKS PLAY FOR SCOUT FUNDS

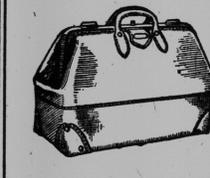

The Metagama Mouniebanks, the concert party of the steamer Metagama, had a crowded house to greet its performance in Trinity church school room last night and it gave a splendid programme. The entertainment was held under the auspices of the Trinity troop of Boy Scouts and the proceeds were for the troop funds, chiefly for camp expenses. A satisfactory amount was realized. Rev. Canon H. A. Armstrong, rector of the church, was the chairman. The programme was as follows: Part I. Song, "Mary," by F. Brooks; humorous song, "Woman," by A. Deane; sketch by Miss Fry Slater; son, "Amazon," by H. Beets; humorous sketch, "Three Blind Mice," C. Olden; song "Blind Boy," by W. Thomas. Part II. A pierrot circle introducing specialties; humorous song, "Cheer Him Up," by C. Olden; song, "Baldie's Eyes," by H. Beets; a medley quartette; humorous song, "Manly," by A. Deane; song "Just for Tonight," by F. Brooks; violin solo, "The Lost Chord," by C. Olden; humorous song, "Ring of Roses," by S. Willis; operatic finale: God Save the King. After the programme the concert party and a few of the friends of the members were entertained at a social hour when refreshments were served by an efficient

The Progressives "will extend to the Hon. Mr. King's government all reasonable co-operation and support in any efforts it may make to enact into legislation those economic and administrative reforms which have been advocated by the National Progressive party, while at the same time maintaining the complete identity and organization of the Progressive party."

MEXICO

Perhaps one should hesitate to make any observations on the peaceful state of affairs in Mexico, but the Oregon administration really appears to have accomplished a great deal since it assumed the reins of power. An exchange says: "The federal government of Mexico is showing a keen interest in education. It has checked and thwarted efforts of the state of Vera Cruz to close important schools, and made large appropriations for educational purposes in poor and backward districts, such as Lower California. This is the best testimonial to the Oregon administration thus far received. It shows that the hard-headed patriot now guiding the destinies of Mexico sees the chief need of his country, and means to supply that need. He has found the one way to make Mexico truly a modern nation. Without schools, industrial development is of little value, nay, might even be a curse to a considerable number of the people. But educational and industrial growth together will regenerate the land indeed. There is another consideration not well recognized north of the Rio Grande. Mexico needs schools as melting pots, as well as to fit her people to meet modern strains and stresses. The bulk of her population is Indian, belonging to many and diverse races and stocks, and speaking several distinct languages. Only through a common educational system can these tribes be fused into a nation. President Obregon's attitude shows that he not only recognizes this truth, but is determined to act on it."

MARQUIS OKUMA

The death of Marquis Okuma, former premier of Japan, was announced several days ago, did not really occur until Monday. He was one of the most remarkable men Japan has produced. The following are some extracts from a review of his career published in Saturday's Toronto Globe: "Twice the target of an assassin's weapon, twice prime minister of his country, one of the pioneers of the powerful liberal movement in politics, and the founder of Japan's greatest seat of learning, Viscount Shigenobu Okuma died in the imperial capital at the ripe age of 83 years. It was under his administration (after a very long and not-entirely successful career) that Japan herself entered the war on the side of the Entente Allies, contributing to the embarrassment of Germany by the capture of her Chinese possession of Kio-Chow."

and by siding the Entente Powers financially and through the manufacture of munitions. It was also during his administration that the important Russo-Japanese convention service was arranged and signed. In October, 1918, the Okuma ministry was succeeded by the cabinet formed by Takahashi Hara, who was assassinated on November 4 last. Since then Viscount Okuma has lived in retirement. Just as William Ewart Gladstone was a great Liberal, a great statesman of the people, a stout champion of the causes of the masses as distinguished from the classes, so was Viscount Okuma, who was born in the same year as Viscount Montey, the biographer of Gladstone, and himself a great Liberal. The central inspiring idea of Okuma's life was the emancipation of his people, socially and politically, from the narrow and unenlightened system that distinguished the Orient from Occidental culture. Education in the widest and freest form was his public ideal, and it was the supremacy of this ideal in Okuma's social and political philosophy which kept him in retirement from public life for fifteen years. He knew the atmosphere of the day was not congenial for the rearing of the fine flower of civilization he had in mind. An eminent Japanese, writing not so long ago in the Boston Transcript, said that in the contemporary political history of Japan three men figure most prominently—Marshall Yamagata, Prince Ito and Count Okuma. The chief mission of Yamagata was to reorganize Japan's military powers after modern principles of military science. Prince Ito's great service was in instituting a constitutional government, but his assassination brought to a tragic end a promising and useful career. It is widely held that Okuma was a man of larger calibre than either Ito or Yamagata. He was a world statesman; his views were founded upon a broad survey of world conditions. His liberalism was well and truly laid in the principles of liberty, equality and justice."

So long as Arthur Griffith and his colleagues have a clear field to go on with the affairs of the Irish Free State, they will doubtless be quite content to allow De Valera to do the talking. He now announces that he will not take the oath of allegiance as prescribed by the constitution. When the new state has been constituted, his failure to do so will put him outside the pale of friendly consideration by those who are now disposed to be friendly. He should go back to his profession."

The tribute paid to Gen. Macdonnell by the military officers last evening was so much to the new senator as to the gallant soldier who has made up all his friends during the period of his official connection with the service here. His unflinching courage and kindness not less than his high conception of his duty as an officer have won for him warm places in the hearts of St. John people, who congratulate him as a senator and regret to lose him as a fellow citizen."

President Covey of the maritime branch of the A. A. U. of C. is getting too much abuse from those who violate amateur rules for the sake of dollars. Mr. Covey is making a stand for clean sport as defined by the A. A. U. of C., and can do no less than stand by the rules laid down. If he did otherwise he would be unworthy of respect. He should be given hearty support and encouraged to hew to the line."

Today in Paris Premier Briand is put to the test, and much depends upon the attitude the French cabinet assumes in regard to his conversation with Lloyd George. It is not easy to understand the French point of view in relation to England. There appears to be a degree of unfounded jealousy and suspicion where harmony and co-operation should prevail."

CREDITORS' ACTION

Creditors representing seventy-five per cent of the total of \$1,121,731.41 provisos against L. A. Carreau of the English and Scotch Woolen Company voted last night at Montreal to accept fifty cents on the dollar as offered. Morris Joseph, one of the creditors, said that the courts would be asked to reopen the proceedings in bankruptcy."

Antigonish vs Sussex

Halifax, N. S., Jan. 12.—January 23 is mentioned as the date for the probable play-off between the League of the Cross Hockey team, Antigonish and Sussex, N. B., for the 1920 championship of the maritime provinces in negotiations now going on with the Halifax arena. New Glasgow, Moncton, Antigonish, Springhill and Stellarton are said to be also in the field for the play-off game."

THE FALL

You hitched your wagon to a star— It fell while you were flying. (I mean the wagon, not the star); You reached this old earth with a jar And lay there, hurt and crying.

Hitch on again with right good-will, Your courage has not crumbled, And see above the highest hill The star—your star—is shining still— 'Twas only you the tumbling!

THE GINGER MAN

My mother likes thin wafers, The kind you eat with tea, And Sister 'dores French pastry, But the Ginger Man suites me!

'Cause if you drop the wafers They are always sure to break; And I think it's awful silly, Slidin' roses onto cake.

But oh, the ginger feller, With his raisen eyes and nose, Is a sporty old adventurer From his ginger bread to toes.

And the wafers and the pastry 'Till they lock up in a case, But the Ginger Man goes travelling Down the deep, dark throat of me!

LIGHTER VEIN

Relieving Monotony, "That young man says he's tired of asking you to marry him only to be refused."

"I'm sorry to hear it," replied Miss Cayenne, "Proposing is about the only interesting thing he does in a conversational way."—Washington Star.

Thrown Down, Acceptance "in principle" and rejection in practice reminds one a little of Mr. Dooley's immortal advice to give him what they ask for and then throw him down and take it away from him!—Boston Transcript.

Mr. Hanna was emphatic in his declaration that with the return to normal conditions the National Railways would become a great asset to the country.

Calamity howlers had been saying that the fixed charges totalled \$66,000,000. "Such a statement is absolutely untrue," he declared.

The fixed charges of the Canadian National Railways, including the Grand Trunk, are only \$33,000,000. And I am going to say this, if we were back to normal conditions, given freedom from politics, it would be only a few years before the system will be earning more than enough to cover those charges, if not all of them."

"We have government ownership, but not the slightest interference by the government in the management of the railways. There seems to be a doubt existing that we are not free from political interference. I stand here to say tonight, and I speak with authority, that no claim can be made towards the operation of the National Railways has been interfered with in any way, shape, manner or form, either by the government or by any member of parliament."

GOOD PROSPECT FOR TRADE WITH BRITAIN Recovery in sterling exchange is directing more attention to the possibility of increasing trade between Canada and Great Britain.

Last year Canadian exports to the United Kingdom were valued at \$100,000,000, and after the temporary halt there is no doubt whatever that progress in the dominion will be more marked than it has ever been.

It seems to me that there is a greater prospect than ever for Anglo-Canadian trade once we get rid of the incubus of the war. Canada will want more and more of our woollen goods, cotton goods and iron and steel manufactures, and we shall make a larger call than ever for her live stock, grain, fruit, fish, butter, cheese, eggs, bacon, lumber and wood pulp.

There are serious possibilities of extending trade within the empire, and with the improved and constantly improving means of transport—and notably the completion of the great Georgian Bay project for shortening the route from the wheat fields to Montreal—there is every likelihood of a huge impetus being given to transactions between Canada and the home country."

THE FIRST POST Most people regard the post as a modern institution; yet this is not so, for regular postal services have existed for more than two thousand years.

One of the earliest systems for the delivery of letters was established by regular relays of postmen over thousands of miles of country.

Even the telegraph was in use in a crude form. Messages could be sent in an hour or two over distances of hundreds of miles by means of a system of shuttles, which passed them on from one to the other.

HANNA HINTS THAT HE MAY SHORTLY BE AMONG UNEMPLOYED Toronto, Jan. 12.—Recent political changes have brought home to D. B. Hanna, president of the British Columbia National Railways, the truth of the old adage, "Uneasy lies the head that wears a crown."

In addressing the Young Men's Canadian Club he made humorous references to the possibility of his own unemployment. "It's a poor day when the government goes around that my head is to be cut off," declared the chief of the Toronto Railway. He had, however, been enjoying three months' day and was hopeful that that will continue for some time to come."

The president was optimistic about the future of the government railways, and announced that the gross revenue for December would show a surplus over operating expenses. That meant that since turning the corner last August the system had become more than holding its own. Mr. Hanna was emphatic in his declaration that with the return to normal conditions the National Railways would become a great asset to the country.

Calamity howlers had been saying that the fixed charges totalled \$66,000,000. "Such a statement is absolutely untrue," he declared.

RESCUER AND TWO GIRLS DIE IN FROZEN LAKE

Children Skate into Airhole at Southampton, and Boy Plunges in to Save Them—They Drag Him to Death.

Southampton, L. I., Jan. 12.—Two little girls skated into an airhole in the middle of Lake Agawam and disappeared with a scream. Others skated toward the place to give help. From the village which is built around the shores of the lake a minute later came men with poles, ropes and axes, in the hope of making a rescue.

Charles Jenkins, nineteen years old, employed in the restaurant of James Bucheld, arrived on the border of the air-hole, unstrapped his skates, plunged in and swam through broken ice to the neck. He struggled to get them in such a position that he could tow them toward firm ice. The drowning girls had grips of steel. The boy could not save them or himself. Locked together, all three went down.

Soon men arrived with ropes and poles. One of these was James Bucheld, the restaurant keeper. He had seen his employe, Jenkins, go down, but did not know who they were. They weren't with us.

After some groping the poles hooked into the clothing of the three at the bottom of the lake. Mortimer Cooper, a wialer, of Bridgetown, Bucheld and others dragged them to the surface. It was not until the bodies were laid on the ice that they could be recognized.

"My God," cried Bucheld, "it's Marie." He had recognized his own eleven-year-old daughter. The other girl was Stella Largo, fourteen years old. Pulley motors were used for more than an hour without producing a sign of life. All three were dead.

CELEBRATED THEIR GOLDEN WEDDING

A recent issue of a Vancouver paper has the following article about two former residents of West St. John, which will be of interest to a wide circle of friends here:—

Mr. and Mrs. George Christopher of North Vancouver entertained a large party of relatives and friends in honor of their golden wedding anniversary, making the Christmas season more than ordinarily festive. Mr. and Mrs. Christopher are pioneers from New Brunswick, and with their family they moved to North Vancouver about five years ago. They were married at St. John on December 27, 1871, by Rev. Mr. Bill, the groom being twenty-one and the bride just nineteen. Mrs. Christopher was Miss Mary Toole, eldest daughter of the late John Toole. One son of the family was killed while on active duty in France, while one grandson, Harold C. Trafion, also served overseas.

The family home was beautifully decorated for the occasion, and during the afternoon many friends called to offer congratulations. In the evening a family party was given and the bride and groom of fifty years ago were each presented with a purse of gold. Mrs. Christopher was attired in a handsome gown of navy tricolette, embroidered in gold and old rose beads. Those present were Mr. and Mrs. Percy Christopher, Jacob W. Christopher, Arthur Christopher, Harold C. Trafion, Mr. and Mrs. F. H. Kelley, Miss Dorothy Kelly of Tacoma, Wash., and other children and grandchildren.

SHIPWRECKED LAD FROM HALIFAX WAS GRATEFUL

One bitter cold night, in January, 1912, Mr. and Mrs. E. Wilkinson of Langstaff, twelve miles north of Toronto, took into their home a young lad seventeen years of age, who had knocked at the door, and asked for something to eat. Three fingers of his right hand were frozen, and one of his ears had also been frozen. He said he had just left a freight train, after an all-day ride of 100 miles, and said, within the past few days, had rode freights from Halifax, where he had been made destitute, by losing a ship he had worked on, his clothes and money, having been left aboard. He was given a good supper, a change of clothing, and a bed for the night.

Upon leaving the following morning, after breakfast, Mr. Wilkinson, at the request of his wife, presented the lad with ten dollars. He was going to his home in Dallas, Texas, and promised to write. The Christmas of 1912 brought a card of Best Wishes, from Dallas. Each Christmas following, a similar card was received, and the Christmas mail of 1921 brought a pleasant surprise, in the form of a registered letter, with best wishes and \$250 enclosed, from the lad who so highly appreciated the kindness shown him in 1912.

He requested that his name be kept a secret, and stated that he had also sent a little gift of appreciation to a family in Halifax. This money, by a singular coincidence, arrived just in time to allow Mr. and Mrs. Wilkinson to finish paying off a mortgage, they had taken out on their home in 1914. A letter of thanks was sent at once to the young man.

Smart Afternoon AND Evening Frocks. There's no more attractive spot in this store now than the costume section. Lovely frocks for street, afternoon and evening wear are showing in a diversity of latest styles of the season. Each represents an authoritative mode and a favored fabric for winter wear. For example: An Afternoon Dress of navy satin crepe has front skirt of purple georgette and narrow side panels of purple banded with blue... A Black Kitten's Ear Crepe Evening Dress has loose waist and skirt panels fashioned over a foundation of cloth of gold. A lovely thick girdle of twisted black and gold, finished with full black tassel falls in long ends on each side of skirt. This frock is very distinctive and charming. Dark Brown Radium Lace is used effectively to form the long tunic for a smart dinner gown. Tunic is finished at the bottom with a broad band of brown georgette cut in uneven length and allowed to fall in points at each side of skirt. A soft satin girdle lined with jade crepe meteor and ornamented with mahogany colored velvet flowers, completes this attractive creation. This special gown is in size 42 in. For street wear a dress of Navy Tricolette is showing in popular straight line style with divided front panel falling from neck to hem. This dress is heavily beaded with self-colored wooden beads and has soft collar of ivory colored lace to soften the lines at neck. Two-piece Dresses of Navy or Black Tricolette are among the latest arrivals and are very moderately priced. They are fashioned with Balkan blouse and plain skirt. Blouses are effectively finished with sash of soft grey or bright tomato shade. Above are mentioned but a few of the many attractive frocks now ready for your approval in our costume department. Your inspection of these and others is invited. (Second floor.) Manchester Robertson Allison Limited KING STREET GERMAIN STREET MARKET SQUARE

MEETINGS OF SOCIETIES OF WOMEN IN CITY The meeting of the directorate of the St. John branch of the Catholic Women's League was held last night. Five new members were elected. The educational committee reported that a series of lectures were planned for the winter. The report of the physical committee was also received and was very satisfactory as much work has been completed. The social committee reported that plans had been made for a pantry sale. The committee will also co-operate with the Y. M. C. I. in catering for a banquet to be tendered the skaters and their friends after the championships. The executive of the St. John branch of the Women's Institute met yesterday afternoon. The reports of the secretary and treasurer were read and found very satisfactory. Arrangements for a general meeting were made. The sum of \$30 was voted to adopt a milk fund baby. The question of a donation to the Free Kindergarten was discussed and left over.

FIREMEN UNDER WATER BARRAGE SAVE 2 MEN Two watchmen succeeded on the fourth floor of a burning loft building in Brooklyn, were rescued by members of Hook and Ladder Company 11, who climbed up a fire escape while a continuous stream was played on them from four lines of hose. More than 400 persons living in nearby tenements were ordered out by the police and traffic was held up on the elevated line for more than an hour. The fire gutted the first two floors of the building, causing damage estimated at \$10,000. Fire-stoles almost given away. See Leaser's adv. on page 4.

## COPELAND EXCUSES THIN WINTER WEAR

Silk Stockings, Short Skirts and Low Shoes Not Surely Unhealthy, He Says.

(New York Times)  
In letters that have come to Health Commissioner Dr. Royal S. Copeland recur the question as to whether the wearing of silk stockings and low shoes in winter is bad for the health. Women have asked the question and men have asked it for the sake of their women folk. Dr. Copeland said that while some of the medical profession might take exception, he thought that half so conducive to catching cold as the wearing of heavy underwear. "This winter we see low shoes and silk stockings advertised for cold weather wear for the first time," he continued. "One would imagine that we were living in a Southern climate, or that warm weather was about to appear. I have been asked whether low shoes and silk stockings in combination with short skirts are bad for the health. It is impossible to give an unqualified answer to this question. "Certainly for indoor wear heavy stockings, high shoes and long skirts are likely to bring about a condition which will result in perspiration of the feet and legs. Then, if one goes out into the cold air there is likely to be a chapping of the skin. Every doctor is familiar with what we used to call mild winter pruritis, which means an intense itching of the skin. This is a symptom more common in country districts where people are likely to wear thick underwear—you know that old-fashioned red lined. All these things make one susceptible to colds. "Dress should be chosen and modified with reference to conditions of warmth and cold. I have observed of some of

the men and women who come into my office that they never remove their overcoats, wraps or mufflers. They sit long enough to perspire and then they go out to chill and wonder why they have contracted colds. "This has its application to the subject of short skirts and silk stockings. If the stockings are not too sheer, there is no doubt in my mind that the silk stocking is about as safe an article of dress as can be worn. The ideal method would be to wear thin stockings in the house and heavier ones outdoors. When men, however, will not do this. "It would be better for health if women who wear low shoes and thin stockings would put on spats when they go out. The reason they do not do so is, I understand, because they think it interferes with the trimness of their figure. If a woman is not sensible enough to change her stockings with reference to the temperature or to put on spats, then, and there may be some who will take exception to this, she is better off in thin stockings in the cold than she would be in heavier ones."

Dr. Copeland was asked whether in his opinion it was wrong to uncover the knees of children in cold weather. He replied: "While my prejudice is against the exposure of the knees of children in winter, I must confess there is a degree of adaptability that protects the child, provided short stockings are custom and not occasionally resorted to. The matter of dress and its effect on the health is an affair of daily habit. "The story is told of a Governor General who arrived in Quebec for the first time during a winter carnival. He observed several Indians walking on the frozen St. Lawrence clothed only in blankets. The Governor General asked one of them if he was not cold, with his body protected only by a scant blanket. In his turn the Indian asked the Governor General if his face was cold. "Why no," he replied. "Huh, me all face," said the Indian. "This story illustrates the truth that what may be exposure for one may be protection for another. If the scant attire of a woman, her short stockings and low shoes, is her accustomed dress, there is no doubt that it is simple protection against disease. On the other hand, if she clothes herself in furs part of the day and goes about in sheer dress the other part, she is gambling with her life."

## MONCTON MAN'S SON-IN-LAW RESTORED TO HIS WILL OF LATE MRS. P. M. BARKER

New York Herald: Her nephew, Donald H. Cowl, is made the principal heir and residuary legatee in the will of Mrs. Percival M. Barker, daughter of the late Geo. A. Hearn, which was filed for probate yesterday in the Surrogate's Court. The will disposes of an estate of a value in excess of \$1,000,000. Mrs. Barker died on December 20 last.

Donald H. Cowl, referred to, is the son-in-law of Mr. and Mrs. J. W. Y. Smith of Moncton. Mr. and Mrs. Smith have been spending the past few weeks in New York with their daughter, Mrs. Cowl, is a granddaughter of Lady Smith (Duchester) and the late Sir Albert T. Smith, who was minister of marine and fisheries in the Mackenzie government from 1874 to 1878.

## CITY OF RHEIMS MAY BE RESTORED IN FIVE YEARS

Rheims, France, Dec. 25.—(Associated Press by Mail)—The city of Rheims may be rebuilt within five years. This is the opinion of Marquis Melchior de Polignac, president of the Co-operative Society for the Reconstruction of Rheims. At the most, he says, the work will not require more than six or seven years. The amount of work remaining to be done is estimated by the marquis to cost 1,000,000,000 francs, of which 100,000,000 is for repairs and 900,000,000 is for reconstruction. He says that the society will have 200,000,000 francs placed at its disposal each year for the next five years, this is by arrangement of credits with the Department of Public Works.

## NOT SO MANY WERE MARRIED IN 1921

New York, Jan. 12.—(By Canadian Press)—D. Cupid has been having a slack time in New York. There were 4,227 fewer marriage licenses issued in 1921 than in the previous year in this city, 74,307 as compared with 78,284. Every borough reported a falling off.

**MANY WERE KILLED IN STREETS OF NEW YORK**  
New York, Jan. 12.—(By Canadian Press)—A report issued by the National Highway Protective Society shows that 838 persons were killed by autos and auto trucks in New York City during 1921. This is 42 more deaths than in 1920.

**WAS 105 YEARS OLD; HAD THIRD SET OF TEETH**  
Danville, Ky., Jan. 12.—(By Canadian Press)—Mrs. Sally Helm is dead at her home near here at the age of 105. She had cut her third set of teeth.

**FUR BEARERS VANISH**  
(Philadelphia Public Ledger)  
The muskrat, formerly held in small esteem, is today recognized as the most important of American fur-bearing animals. Its pelt, having become fashionable, commands an ever-increasing price. Thereby the pursuit of the little beast has been stimulated, with the result that its numbers nearly everywhere are rapidly diminishing. Trappers in the State of Wisconsin in 1918 took fewer than 300,000, took more than 800,000 muskrats in 1917, and in 1919 only about 150,000.

ATLANTIC SUGAR BUSY

(Montreal Gazette). The selling in Atlantic Sugar was said to be due to the coming out of one or two stop-loss orders on the market. This stock reached its recent high point on November 17 when it sold at 88 7/8, since when there has been a steady if slow recession to the present level. Last year's low point for the stock was 20 1/4, at which price it sold on January 9 a year ago. Yesterday's decline in stock was apparently due to technical market conditions rather than any change in the company's affairs. It is reported that the company has been grinding a large amount of sugar, and has recently received export orders for 5,000 tons at a satisfactory price. It is pretty generally understood that the financial condition of the company is tending to improve. An effort is under way to fund its obligations, and if the management can succeed in getting the raw sugar creditors to accept \$3,000,000 of ten or fifteen year bonds the company's position will be at once relieved of all pressure. Earnings of the company are understood to have been quite satisfactory ever since the last of its stock of high-priced sugar was disposed of. Directors assert that the turn in the company's affairs came last August.

THE TEA MARKET

(Toronto Globe) Prices on all varieties of teas are holding firm after the recovery made from the low levels touched early in 1921. The situation at present has resulted from a decided shortage in crops of all the growths, particularly Ceylon, India, Formosa and Japan, the last named having shown such a heavy shrinkage as to admit of importations by the American trade of barely 50 per cent. of the average supply for consumption. The decreased crops have made necessary the absorption of the accumulations of old tea which were a weight on the market, and today the would-be buyer of a large block of any kind of tea finds it extremely difficult to find a seller, even at prices 60 to 70 per cent higher than the low figures of a few months ago. The outlook for the tea market for the next five or six months, when the new crops are available, is a bright one, so far as prices are concerned.

COMMODITY PRICES

STILL ADVANCE IN U. S. Generally quiet conditions ruled in the principal wholesale markets in the United States last week, but prices continued to show an upward tendency, with forty-three gains appearing in the comprehensive list of quotations compiled by Dun's Review, as against thirty-three reductions. In a similar comparison for the previous week fifty-nine advances compared with thirty-one declines, while for the corresponding week a year ago, sixty-

two out of eighty-nine changes were in a downward direction. Prices of iron and steel disclose further slight concessions, but the market seems close to a stable basis.

## PROGRESSIVES TO SUPPORT KING ON DESIRED REFORMS

(Canadian Press Despatch.)  
Winnipeg, Jan. 11.—Farmers' Progressive members of parliament will support the government in putting into effect reforms which have been advocated by the National Progressive party but the identity of the Progressive party will be maintained. This was made plain this afternoon by Hon. T. A. Creaan.

who made his first public speech since the election when he read to the convention of the United Farmers of Manitoba a resolution adopted at the secret conference of Progressive members-elect from the three western provinces at Saskatoon on Dec. 20. The resolution was read as follows:  
"That the first consideration of the Progressive party will be to support the government in putting into effect reforms which have been advocated by the National Progressive party but the identity of the Progressive party will be maintained. This was made plain this afternoon by Hon. T. A. Creaan."

## SAID HE COULD NEVER BE WELL

"Fruit-a-lives" Restored Him to Health

159 Avenue Plus IX, Montreal.  
"For three years I was a terrible sufferer from Dyspepsia and my general health was very bad. I consulted a physician and took his medicine but I did not improve; and finally he told me that I could not be cured.  
At this time, a friend advised me to try 'Fruit-a-lives.' After taking two boxes, I was greatly relieved, and this fruit medicine made me completely well. My digestion and general health are now splendid."

Flood, sergeant-at-arms.

## CREAM CLEARS A STUFFED-UP HEAD

Instantly Opens Every Air Passage—Clears Throat.

"If your nostrils are clogged and your head is stuffed because of nasty catarrh or a cold, apply a little pure, antiseptic cream into your nostrils. It penetrates through every air passage, soothing and healing swollen, inflamed membranes and you get instant relief.  
Try this. Get a small bottle of Ely's Cream Balm at any drug store. Your clogged nostrils open right up; your head is clear; no more yawning or sneezing. Count fifty. All the stuffiness, dryness, struggling for breath is gone. You feel fine."  
Ely's Cream Balm is sold in St. John by the Ross Drug Co., Ltd., and F. W. Munro, and by leading druggists everywhere.

Jan. 17 to 20 and W. J. Crawford was elected a delegate to attend the conference. President, R. E. Fitzgerald; first vice-president, John Flood, st.; second vice-president, H. L. MRS. ANNA E. HUGHES, Chicago, Ill.

Chicago, Ill.  
Mrs. Anna E. Hughes, 22 West Elm St., Chicago, an artist who enjoys a wide enviable reputation for skill in china painting, in relating the facts of her remarkable experience with Tanlac, says:  
"I haven't enjoyed such good health or felt so well in every way in years as I do now. Before I took Tanlac I was so run down that half an hour at my work would tire me completely out and I was actually so nervous and weak that at times the brush would fall from my hands and I would have to quit work for the rest of the day. Every night I would lie awake for hours, miserable and nervous."  
"My improvement after the first few doses of Tanlac was rapid and constant. I'm happy to say I'm well and strong now and feel better than in twenty years. Tanlac deserves every word of praise I can give it."  
"Tanlac is sold in St. John by the Ross Drug Co., Ltd., and F. W. Munro, and by leading druggists everywhere."

Jan. 17 to 20 and W. J. Crawford was elected a delegate to attend the conference. President, R. E. Fitzgerald; first vice-president, John Flood, st.; second vice-president, H. L. MacGowan; honorary treasurer, C. S. Christie; D. C. McRoberts, carpenter; H. O. Clark, mason; D. J. Barrett, sheet metal worker; S. S. Walker, plumber; N. Nounonen, tiler; W. E. Jennings, painter; J. P. Mooney, general contractor; George H. Waring, mill machiner and iron worker; George N. Flood, sergeant-at-arms.

At a farewell dinner last night in Bond's restaurant in honor of Brigadier General A. H. Macdonnell, G. M. G., D. S. O., there were only two toasts proposed, one to the King and one to the general. The speaker said that Colonel P. Ogilvie would be the next commanding officer for the district. It proved true, no better appointment could be made he said.

The chairman then called on Lieutenant-Col. Harrison to propose the toast to the honored guest. The speaker said at the beginning that it was a very pleasant and responsible duty that devolved on him, but after giving the matter careful consideration and noting "the spirit of the troops" present, his task had become an easy one.

He gave the toast to Senator Macdonnell, first as a New Brunswicker. Even though he was born in Ontario, he had commenced his soldiering as a captain in the permanent militia in Fredericton and it was he who had taken the New Brunswick regiment to South Africa. He had commanded the 5th Brigade in France, and included in this brigade was the Fighting 26th Battalion. He came back and was made G. O. C. of Military District No. 7 with headquarters in this city. He next gave the toast to their departing general as a soldier. Thirty-five years ago he had commenced as a private in the Queen's Own Rifles, Toronto, and it was rumored that he had been promoted to sergeant (laughter). Later, he had joined the R. C. I.R. at Fredericton, and went to South Africa in command of New Brunswick's quota. In South Africa he had served with distinction, and was seconded to a British regiment and served in Nigeria, Lieut.-Col. Harrison said. He was one of the first to be sent to the front on his return to Canada, and at the outbreak of the war was staff officer in the London district. He sailed with the first contingent in 1914 as a staff officer, and later took command of the R. C. I.R.'s 2nd Battalion. He was in command of the 2nd Brigade with distinction, no mean task when one considered that this brigade was made up of such a heterogeneous lot of regiments and 22nd battalions. (Laughter.) He had returned and had been appointed G. O. C. of this district, and it was his duty to his efforts that this district was so well organized. (Applause.)

"There was an election on long ago," Col. Harrison continued, "and while a considerable portion of the country did not want a continuation of the present arrangement, still I can claim one fine act on their part, and that was the appointment of Brigadier Macdonnell as G. O. C. of the senate of Canada." Lastly, he gave the toast, as a man and a gentleman, it was his general's honor and his own distinction that he treated all ranks with respect and courtesy. (Cheers.) He was the friend of all the good fellows, and he would keep a warm spot in his heart for New Brunswick.

Wishing the guest of the evening success and prosperity, the speaker called for the toast, which was heartily given, followed by three rousing cheers and a song.

## ST. DAVID'S SUNDAY SCHOOL SHOWS PROGRESS

The annual meeting of the teachers and officers of St. David's Sunday school was held last night, with Rev. J. A. Mackie presiding. Reports of the various departments, presented by Robert Reid, the superintendent, a seal-bound edition of Moffatt's new translation of the New Testament. Mrs. R. Larsson presented to Mr. Reid a bouquet of twenty carnations.

The election of officers resulted as follows: Hon. superintendent, Alexander Watson; superintendent, Robert Reid; associate superintendent, D. W. H. Magee; secretary, R. A. Jamieson; financial secretary, F. J. Punter; associate financial secretary, A. H. Macdonnell; recording secretary, L. W. Sinclair; librarian, C. Manson; assistant librarian, K. H. Whalley; superintendent of the primary and cradle roll, Mrs. Robert Reid; secretary of the primary department, Miss Margaret Dunlop; treasurer, Miss B. Henderson; choir leader, F. J. Punter; organist, Miss P. McGowan; P. Magee, R. A. Jamieson, Mrs. A. W. Petch, Miss J. Milligan, Miss F. Harrison, Miss Somerville and R. A. Crook.

The death of Mrs. Hector LeBlanc, aged forty-six, occurred suddenly last evening at Moncton. She is survived by her husband, five sons and six daughters.

## Nervous Breakdown

The extreme depression and discouragement which comes over one at times is the most alarming symptom of nervous exhaustion.

This letter is a message of hope to all who find themselves in this unfortunate condition.

Mrs. Geo. T. Tingley, Albert, N.B., writes—  
"For years I was in a very nervous, run-down condition, was much depressed in spirits and suffered a great deal at times. The least noise would irritate me and at times I felt as though I certainly would go crazy. I consulted different doctors to no effect."  
"A friend advised me the use of Dr. Chase's Nerve Food and I can testify today to the great benefits received. There was a marked change before I had finished the second box and when I had used a dozen boxes my nerves were thoroughly restored and I was entirely relieved of those terrible feelings I used to have. I shall ever be ready to testify to the benefits of this wonderful medicine, feeling sure that it will give to others the quick and permanent relief it has given me."

## AN OLD RECIPE TO DARKEN HAIR

Common garden Sage and Sulphur makes streaked, faded or gray hair dark and youthful at once.

Almost everyone knows that Sage Tea Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application of two, your hair becomes beautifully dark, thick and glossy and you look years younger.

## 380,172 BOTTLES OF ASPROLAX ARE SOLD IN TWO MONTHS' TIME

New Scientific Discovery is Rapidly Becoming Sensation of the Drug Trade Throughout America.

BREAKS UP A COLD BY REMOVING CAUSE

Thousands Using It With Gratifying Results—Great Superiority Over Ordinary Remedies Clearly Demonstrated.

Remarkable as it may seem, 380,172 bottles of Asprolox have been sold in two months and Dr. Smathers' new scientific treatment for colds is rapidly becoming the sensation of the drug trade throughout America. The great superiority of Asprolox over the ordinary remedies heretofore prescribed has been clearly demonstrated, and people everywhere have been quick to recognize it as a preparation of remarkable merit.

Right here in Canada alone 84,564 bottles have been sold and distributed within the past two months, and it is with difficulty that the manufacturers have been able to supply the large and rapidly growing demand.

The phenomenal success of the preparation can be readily explained by the fact that it is a real specific and breaks up a cold by removing the cause, while the great majority of the present-day remedies relieve the symptoms only. Thousands of people who have used Asprolox state that it is almost magical in its effect and are recommending it to their friends.

Asprolox is a combination treatment, and acts as an anti-typer, which reduces the fever; an expectorant, which loosens the phlegm, relieves the congestion and stops the cough; a laxative, which opens the bowels, and an antiseptic which retards germ growth and prevents the spread of infection.

It is delightful to take and produces no unpleasant after-effects whatever. Even children take it readily, and it acts on all, both old and young, with the same gratifying results.

If you are suffering from a cold, go to your nearest drug store and get a bottle of Dr. Smathers' Asprolox. Open the cap, take one teaspoonful, repeat the dose in one hour and again in two hours. If by the time you have taken the third dose you are not surprised and delighted, take the bottle back and your money will be refunded without question.

Chronic coughs and persistent colds lead to serious complications, such as lung trouble and pneumonia. Only a bottle of Dr. Smathers' Asprolox is usually sufficient to break up the most obstinate cold.

**DELEGATIONS AT CITY HALL**

New Industry and Skating Championships.

Proposed Sarding Factory—Police Patrol for Lily Lake Asked—Half Holiday the Second Day, Beginning at 12 O'clock.

No business was transacted at the committee meeting of the city council this morning owing to the absence of Commissioners Price and Bullock. Two delegations, however, were heard by the other members of the council and consideration promised their requests. C. J. Mellday appeared in behalf of the St. John Fisheries, Ltd., and asked exemption from taxation for a period of five years. Charles A. Owens, Frank White and D. J. Corr appeared in behalf of the Y. M. C. A. and asked for police services at the Canadian National Championship races. Mr. Mellday appeared with A. A. Ellis, of Lepreau, and asked exemption from taxation for the St. John Fisheries, Ltd., for a period of five years. This request was made under 60 Victoria, chapter 55. He said the company has been capitalized for \$90,000, the incorporators being A. A. Ellis, of Lepreau, C. R. Stickney and Joseph Wickerson, both of Eastport, Me. It was the intention to erect a factory which would cost, with machinery, from \$50,000 to \$60,000. The company intended to can sardines and handle all kinds of fresh and salt fish. The plant would be operated the year round and would employ from 100 to 150 persons.

If favorable consideration were given the request of the company by the council, a start would be made within one month. An option had been secured on a site on the West Side. It was said that Mr. Stickney would be the general manager and Charles Wilson, the secretary.

Mr. Mellday said that the company was going ahead; it was simply a question whether it would locate in St. John or in Charlotte county.

The mayor asked that the request be placed in writing and he promised it consideration when all members of the council were present.

Those interested in the company are reported experienced in this industry and have several plants in operation in other parts of the country.

Messrs. Owens, White and Corr asked that police be furnished to patrol the races at Lily Lake on the days of the races and to keep order. It was said that about fifty policemen would be needed. Mr. Owens said that in the event of a big storm the day before the races he would like to count on the city supplying men and plows to clear the track.

The mayor said that the city would do everything in reason to help the meet as it was recognized that it was the biggest thing in the sporting line that had been undertaken in St. John in several years.

In reply to a question, Mr. Owens said that the track was in fairly good condition this morning.

The mayor asked at what time it was intended to start the races and Mr. Owens said that they would be started about two o'clock so that they could be run off before dark.

His Worship said that in that case he would proclaim the half holiday commencing at twelve o'clock so as to enable all to reach the scene of the races on time. The holiday will be declared for the second day of that meet and in case of a postponement the holiday also would be postponed.

The meeting then adjourned.

**WIND AT TIMES 76 MILES AN HOUR**

Gale was Real Howler at Pt. Lepreau.

Nearly Fifty Miles in City—Shipping Held in Port—Clear and Cold the Probabilities for Tomorrow.

St. John seems to be approaching the end of what is probably the worst storm of the winter. Snow started to fall about 5 o'clock this evening and kept up with changes to sleet and rain until about one o'clock this afternoon, when the wind rose at times to a velocity of nearly fifty miles an hour never going under thirty miles during the night.

Today a great deal of trouble was caused by the mixture of snow and water on the streets. In many places natural dams were caused and the water rose until it had reached a depth of nearly a foot. The gutters were badly plugged, causing many an unfortunate pedestrian to slip into one while under the impression that it was solid ground he was on. In other places the sidewalks were clean but the rain had washed off the snow and left a coating of ice which proved very slippery and treacherous, especially with the high wind blowing.

The wind last night varied from 36 to 44 miles an hour with occasional gusts which reached 48 miles. The temperature was high, the maximum being at midnight when it was 44 degrees above zero, this dropping to 28 degrees at nine o'clock. The thermometer fell one and one-tenth inches and is holding steady at that point with slight tendencies to rise.

The weather station at Point Lepreau, one of the most exposed places in the Bay of Fundy, reports that at times the wind reached a velocity of 76 miles an hour from the northwest. This morning at 8 o'clock it had dropped to 48 but the seas were running "mountain high." This is a very unusual velocity for the wind to obtain in the bay.

A street car which was reported stuck on the line to Glen Falls had not reached the city at one o'clock, but it was expected that a rescue would be effected this afternoon. All the company's sweepers are out on various parts of the line, so that no unnecessary delays will be caused. A car on the Main and Prince William stop left the rails about nine o'clock last night, in Duke street, and struck a pole on a corner, knocking it off the base about a foot and a half, but leaving the top held in position by guy wires.

Several vessels about to sail from this port were held up this morning by the storm. The steamer Empress, for Digby, was unable to make her daily trip for the first time since last February. Two schooners with cargoes of lumber were forced to put into this port for harbor during the morning. One of these was the Edward Smith.

Tomorrow's weather is expected to be clear and cold which is likely to mean slippery walking for pedestrians and hard work turning corners for traffic on the streets.

The basement in city hall was flooded this morning, the water being about one foot in depth. The trouble was said to have been caused by the blocking of a sewer.

Clifford Price, superintendent of streets, said this morning that the department of public works had seventy men and thirty-five teams working since early morning removing snow and spreading sand.

**SHOCKING STORY OF CITY DENTIST**

A certain amount of imagination is lauded as being a necessary adjunct to the equipment of the everyday business and professional man, but it sometimes occurs that it leads to startling results. Take the case of one of our well known local dentists.

He was making some slight repairs to his electrical apparatus and took the precaution to disconnect the line at the switch to prevent accidents. In his pre-occupation, however, he had forgotten the safety measure which he had taken, and his assistant was suddenly startled by his exclamation, "Gosh, I got a shock." When it was pointed out to him that there was no possibility of the current getting through the wire, he decided that his imagination had played a trick on him. He is still open to convictions, however.

**IN MEMORY OF BROTHER.**  
John Coram, 385 Lancaster street, West St. John, has received a bronze memorial plaque from His Majesty the King, in memory of his brother, Thomas L. Coram, who was killed in the battle of St. Eloi, on March 31, 1916. Private Coram enlisted with the 20th Battalion on June 13, 1915. The medal was accompanied by a note with His Majesty's signature.

**THE TRAINS.**  
Both Montreal trains which left here yesterday afternoon and last evening encountered the severe storm. The first was late in arriving in Montreal. In order to cope with the storm the C. P. R. had their ploughs and flanges continuously at work all over the district, and as a result no delays were occasioned this morning. The Montreal train was late reaching the city this afternoon, but this was said to be due to bad connections while en route here.
