METHODIST GENERAL CONFERENCE

Previous Sessions—Where and When Held—Of Whom Composed—Business Forecast

Three General Superintendents—Union of Methodists in Japan—Rule on Amusements—Other Matters.

(No. 1.) Twenty-eight years ago the first great step was taken towards the unification of Canadian Methodism.

The first general conference was held in Toronto, and was presided over by the Rev. Eberton Ryerson, D. D., the chief superintendent of education in the province of Ontario.

Conferences were held in Montreal in 1876, over which Rev. George Douglas, LL. D., presided; in Hamilton in 1882, with the Rev. Samuel D. Rice, D. D., in the chair; and at Belleville in 1883.

The subsequent conferences have been held in Toronto in 1888, in Montreal in 1890, in London in 1894, and in Toronto in 1898, the presiding officer in each case being the Rev. Albert Carman, D. D.

The conference that is about to meet in Winnipeg, while spoken of as the sixtieth, is really the ninth general assembly of Methodists.

The legislation of this conference promises to be more than usually important and is being looked forward to with considerable anxiety.

The unification of the Methodism of Japan will be dealt with. There are at present in that country six Methodist denominations.

Every argument used in favor of the union of such churches in Christian lands applies with tenfold greater force in heathen countries.

church. This fund was originated in this city by the Rev. Dr. Wilson.

## ONE SCHOLARSHIP FOR EACH PROVINCE.

**Canada's Share in Cecil Rhodes' University Scheme.**

**Will Take Two Years to Complete the Plan — Dr. Parkin Favors Sending Men for Post Graduate Work.**

(Toronto Mail and Empire, 23rd.)

**WHAT DR. PARKIN SAYS.**

"There will be one scholarship per year to each province of Canada, that is, three scholarships holders at one time at Oxford from each province.

"We ought not to send boys going up to the university, but more mature men for post-graduate work, and if Oxford has not the facilities, let her provide them.

"A great many people think that these scholarships will be available for 1905, but I do not expect to see the scheme completed under two years.

"Upper Canada College will go on precisely the same as ever, and when we get the right man to take my place, I will retire."

"One of the first things I did was to speak to the trustees about the number of scholarships which would be allotted to Canada, and they assured me that Canada would be in as good a position as any other country."

"This is what Dr. G. R. Parkin, principal of Upper Canada College, who has been appointed to arrange the details of the Rhodes scholarships, and who returned to the city from London yesterday, told the Mail and Empire last night concerning Canada's share in the Rhodes scholarships.

"There will," he continued, "be one scholarship per year to each province, that is, three scholarship holders at one time at Oxford from each province."

Dr. Parkin read the extracts from the will governing these details, which while they have yet to be subjected to legal interpretation, seemed to indicate that each colony or province would have three scholarships each at one time, one per year, while each American State would have two scholarships, that is, there would be a blank every third year, when no appointment would be made. In all, Dr. Parkin estimates that there will be 200 young men kept constantly at Oxford by these scholarships, of whom about one hundred will be from the United States.

"I took the ground," said Dr. Parkin, "that the fact that the will only mentions Ontario and Quebec, that it would be ridiculous to leave out the maritime provinces, one of the most intellectual parts of Canada, and the Northwest and British Columbia. I told them that it would be the same as picking out New York and Pennsylvania, and then saying that all the States of the American union had been provided for. It is a curious thing how Mr. Rhodes came to mention only Ontario and Quebec. It appears that Rhodes gained much of his knowledge of Canada from reading the life of Sir John Macdonald, much of which is taken up with the struggle between Ontario and Quebec, and when he came to put out his great scheme he mentioned those provinces that were in his mind."

### LARGELY FOR POST GRADUATE WORK.

"Is it proposed to send graduates or undergraduates to fill these scholarships?" Dr. Parkin was asked.

"My theory is that we ought not to send say, boys from Upper Canada College—boys going up to the university. I think it would be a mistake for several reasons. We want to send more mature men and I would like to see men go largely for post-graduate work, and if Oxford has not the facilities, let her provide them."

"There is one point that ought to be mentioned," continued Dr. Parkin. "A great many people think that these scholarships will be available in 1903. But when the ground to be covered is measured, the countries to be visited, and the details of the work, it will be seen that this is impossible. As this thing is for all time, I think the feeling of the trustees is that it should not be hurried. I do not expect to get the scheme completed under two years. I expect to visit these countries, consult educationalists, and from all the information thus gained frame the details. Regarding this continent, as Toronto is very centrally situated, I expect to use it as a base, and hope to be here for many months. Of course, any scheme made now must be tentative, and the greatest point is to get into touch with the right men in each country."

"Do you think that a course in Oxford will ennoble men, unfit them for their work in the colonies?"

"I don't think so; I went to Oxford, and I never lived such a stimulating life as I did there. I don't think it made me a worse Canadian and it gave me the best chance I ever had to express myself about this country. A great deal will depend upon the respect we win for ourselves—upon the class of men we send. Canada ought to pride itself upon sending men of the first class. When we find that we have young men in our institutions who are taking a high stand we naturally feel that we would like to have them complete their course here, and then go to Oxford for something more."

**MAY DO OXFORD GOOD.**

Dr. Parkin, before speaking to the Mail and Empire, had hastily glanced at Rev. Dr. Jordan's interview on the same subject in this paper, in which the latter expressed that the more progressive Americans would change and possibly harm Oxford. He was asked if he thought this was likely.

"My opinion is," he replied, "that it can do no harm to Oxford and may do it a great deal of good. There will be two hundred young men or a little over at one time, and these are not likely to prove a greater force than three thousand other undergraduates. These students will be modest, hard-working fellows, who will follow their own lines of study rather than try to perversely existing affairs. I do not think this

## CANADA'S WINTER PORT.

**The Harbor of St. John Has Not Been Frozen Over Within Man's Memory.**

(St. Louis Globe-Democrat.)

ST. JOHN, N. B., July 30.—The most important feature of the recent commercial history of St. John is its isolation from the "winter" port of Canada. Its position with regard to the rest of the country is not of recent origin. It has been a place of importance for its own sake since the days of the first settlement.

### THE GENERAL EFFECT.

"Do you think that the general effect will be such as Mr. Rhodes desired?"

"It cannot be how it can be otherwise. The bringing together of a number of bright young fellows from different countries must have the effect of drawing the men and in a measure those countries closer together. I hope it will lead some American to take a hundred picked young Englishmen and send them to the great American universities. I only wish we could get a dozen young Englishmen to our institutions under similar conditions. I think what Rhodes said was this: 'There is no lack of robust, vigorous energy in the colonies and no lack of culture in the centre of Europe; let us bring these together, so that both may benefit by the interchange.' An important point that strikes me is this, that the educationalists of the different countries will follow the work of these young men closely, and when they have finished at Oxford there will be a place for them in their special work. It means careers for these young men."

### DR. PARKIN WILL LEAVE UPPER CANADA.

Dr. Parkin explained that he was for the present, and for as long a time as the Rhodes trustees would spare him, going to devote his whole attention to putting Upper Canada College in a first-class position, so that his successor, when he came to be appointed, would start under the best auspices. This would certainly be the case, for the school was never in as good a position. Its staff, which had been broken into by some changes, was again complete. A larger number of students than ever before had applied for admission, and the new preparatory school, the building for which had just been completed at a cost of \$50,000, would start with 100 boys.

"Upper Canada College would go on precisely the same as ever, and when we get the right man to take my place I will retire. The trustees will take plenty of time to get a man of the best class, who will get a splendid start."

Dr. Parkin looked to the inter-colonial conference to produce definite results. So far as this was concerned nothing better could have happened than the postponement of the conference, which had enabled all concerned to get better acquainted with one another.

### MONCTON.

MONCTON, Aug. 26.—The property in Westmorland County of the Mineral Products Co. was sold by sheriff's sale here today. It was a large tract, being the purchaser for the nominal sum of five dollars. Mr. Tweedie was acting for Barton E. Kingman of New York. The sale was in connection with an execution for \$100,000 issued out of the supreme court, and it is likely the company's property in Albert and elsewhere will be sold by like process and business carried on under a new basis.

The school trustees this afternoon released H. C. Acheson as teacher in Aberdeen school, and he will sail at once for South Africa, where he has an engagement in Pretoria at \$250 a year.

There is much hoo-bonoo among local government supporters here today, and all signs indicate the near approach of a general provincial election.

### A CHANCE FOR THE LARD.

(New York Evening Sun.)

"Dear," said the food merchant, "I must punish you for disobeying my orders."

"Please, ma," said the little one, "may I go to my room first?"

"Yes," consented the parent, and she cautiously followed him upstairs. "There Robert was kneeling by his bed, and his mother heard him say: 'Dear Lord, if you ever wanted to help my little cousin in trouble, now's your chance.'"

The whipping was indefinitely postponed.

### METHODISM IN CANADA.

Statistics Show Increase in Membership.

MONTREAL, Aug. 27.—Rev. Geo. H. Carnish, D. D., the Methodist General Conference statistician, has prepared his report of the meeting in Winnipeg next month. It indicates that there has been a total increase of membership in four years of 11,355, the most marked increase being 4,700 in the Northwest conference. The number of churches built during the quadrennium was 217; their value was \$705,024; new parsonages, 112; their value was \$172,066. The value of college and other property is \$2,168,164; value of book and publishing houses \$443,381; total value of church property, \$16,502,438, of which \$1,050,000 are colleges.

### A GALLANT DEED.

CHARLOTTETOWN, P. E. I., Aug. 28.—Dr. Purdy of New York had an exciting experience today at Brackley Point, Prince Edward Island. The children of Dr. Porter of Philadelphia, a boy and girl of 10 and 12 years, while bathing in the surf were knocked off their feet and carried seaward. Dr. Purdy ran to the rescue and reached them as, locked in each other's arms, they disappeared. He is a strong, good swimmer and by a great effort took both in his grasp. A breaker submerged him, but he was not broken. He believed it impossible to reach the shore with them. For an instant he hesitated, which to let go, but putting forth all his strength, he took one stroke and his feet touched bottom. When recovered the children were unconscious and their rescuer exhausted, but they soon recovered.

NEW YORK, Aug. 27.—Dora Lesko, 37, died yesterday, and her young lover, Joe Breskovitz, today at her side in Yonkers.

## CANADA'S WINTER PORT.

**The Harbor of St. John Has Not Been Frozen Over Within Man's Memory.**

(St. Louis Globe-Democrat.)

ST. JOHN, N. B., July 30.—The most important feature of the recent commercial history of St. John is its isolation from the "winter" port of Canada. ### METHODISM IN CANADA.

Statistics Show Increase in Membership.

MONTREAL, Aug. 27.—Rev. Geo. H. Carnish, D. D., the Methodist General Conference statistician, has prepared his report of the meeting in Winnipeg next month. It indicates that there has been a total increase of membership in four years of 11,355, the most marked increase being 4,700 in the Northwest conference. The number of churches built during the quadrennium was 217; their value was \$705,024; new parsonages, 112; their value was \$172,066. The value of college and other property is \$2,168,164; value of book and publishing houses \$443,381; total value of church property, \$16,502,438, of which \$1,050,000 are colleges.

### A GALLANT DEED.

CHARLOTTETOWN, P. E. I., Aug. 28.—Dr. Purdy of New York had an exciting experience today at Brackley Point, Prince Edward Island. The children of Dr. Porter of Philadelphia, a boy and girl of 10 and 12 years, while bathing in the surf were knocked off their feet and carried seaward. Dr. Purdy ran to the rescue and reached them as, locked in each other's arms, they disappeared. He is a strong, good swimmer and by a great effort took both in his grasp. A breaker submerged him, but he was not broken. He believed it impossible to reach the shore with them. For an instant he hesitated, which to let go, but putting forth all his strength, he took one stroke and his feet touched bottom. When recovered the children were unconscious and their rescuer exhausted, but they soon recovered.

NEW YORK, Aug. 27.—Dora Lesko, 37, died yesterday, and her young lover, Joe Breskovitz, today at her side in Yonkers.

## A WOMAN'S HEAD.

# KUMFORT HEADACHE POWDERS

If you suffer from blinding headaches or a dull, annoying head pain which lingers for days at a time, *Kumfort Headache Powders* will relieve you and cure you.

No matter what the cause of your headache, whether it is sick headache, neuralgia, or nervous headache, you will find in *Kumfort Headache Powders* Nature's own quick sure cure.

Unsolicited testimonials of thousands of grateful people prove that these powders almost instantly quiet the worst of headaches.

You need not be afraid of them. They are not the kind of headache powders which are composed of deadening drugs. They are purely vegetable products which may be taken by anybody, strong or frail, young or old, without the slightest fear of bad results.

They are something different from and better than any other headache powders, as years of experience have shown.

They are guaranteed to give relief or your money will be refunded.

Packages of four powders 10 cents; twelve powders 25 cents. At your druggist's, or by mail postpaid.

BURTON GERARD, of Grand Island writes: "I will have to have some more *Kumfort Headache Powders*. I will put 20 cents in this letter, and will please send me two packages."

MRS. ARCHIBALD McCLELLAN, Advocate Harbor, N. S., writes: "I got relief from my pain, and after taking those powders have been free from headaches since."

J. A. CLOUTIER, St. Joseph, Basco, writes: "I have found *Kumfort Headache Powders* a perfect cure for headache."

## THE F. G. WHEATON COMPANY LIMITED

FOLLY VILLAGE, N. S.

## WEDDED AT HALIFAX.

HALIFAX, N. S., Aug. 27.—The marriage took place this afternoon of Major Henry J. Woodside, late of the Canadian Mounted Rifles, and Miss Josephine V. Huestis, daughter of Mr. E. Huestis of the Federal Life Assurance Co. The groom was attended by Major H. B. Spairs and Miss Sadie M. Huestis, sister of the bride, who was bridesmaid. Immediately after the ceremony the couple boarded the Quebec, Ottawa, Toronto and other cities, on their way to Dawson City, where they will live for a couple of years before going to Manitoba, where they will permanently reside. The groom, before he accepted a commission in the C. M. R., was editor of the *Midnight Sun*, published at Dawson City. He was also census commissioner for the Yukon.

MANILA, Aug. 27.—Frederick Dorr, the proprietor, and Edward O'Brien, the editor of *Freedom*, recently convicted of sedition, have been fined \$1,000 without imprisonment.

## SPORTING GOODS CATALOGUE

FREE. We send our Illustrated Catalogue free on receipt of 5c stamp to help pay postage.

With it you can choose your equipment for Field or Game sports, for use on horse or on foot, and cheaper—make special prices for our catalogue goods, and our terms are so liberal that you can buy as cheap as some dealers pay for their goods.

SEND TO: T. W. BOYD & SON, 106 W. WABASH ST., CHICAGO, ILL., U.S.A.

## Why are Jas. Buchanan & Co's Scotch Whiskies in great demand by the leading connoisseurs of the world?

Because they have been pronounced by Royal Commission to be **ABSOLUTELY PURE.**

Because they are a perfect blend of the very finest Highland malt.

Because they have a delicate, smooth flavor, owing to the skill in blending and the maturing effects of storage for years in wood.

Because of the total absence of all traces of fusil oil. Every bottle guaranteed.

Ask your dealer for BUCHANAN'S "Special Quality" or "Black and White," and see no other brand is substituted.

THE SEMI-WEEKLY SUN

ST. JOHN, N. B., AUGUST 30, 1902.

RURAL SCHOOL EXPERIMENTS.

The selection of Kingston, Kings county, as the locality for the consolidated rural school in this province is suitable on many grounds, though many would have liked to see the experiment tried in a place more easily reached by rail.

There are no Macdonalds to bear this expense for the country generally, and if the experiment is a success it must prove that with a system in general operation there is no more extra expense than the rural taxpayers are willing to contribute.

When one comes to run over in his mind the possible places where this experiment could first be tried with success the range of choice is not so large as might be supposed.

When one comes to run over in his mind the possible places where this experiment could first be tried with success the range of choice is not so large as might be supposed. Along the line of the Intercolonial between St. John and Moncton are several points where roads intersect the main thoroughfare, thus connecting groups of school districts.

The St. John valley in Carleton or Victoria counties has been selected for the first school farm plot experiment. The idea is for each school to study nature in its own special garden, the same to be planted and cultivated by the children.

The immediate scheme for which Sir William Macdonald pays is to organize one or two groups in each province, including so many schools as one man can visit weekly.

after they learn the benefit of the training that is afforded. Both experiments ought to be watched with deep interest, for they may have an important effect on our educational history.

GOVERNMENT AND OPPORTUNITY.

The Chatham Advance, opportunist, says that the Sun, the Globe, the Times and the Transcript are all predicting the defeat of the Tweedie government. The Advance affirms its own confidence in the success of the government in the next contest and intimates that the press opposing the ministry will then be left in utter confusion.

The Advance has its own methods. So long as Mr. Tweedie is in power the Advance will support him. It will call for government printing and get it.

The editor of the Advance, who is in the pay of the people as a government official in an easy job, never deserts a government. But if Mr. Tweedie should be defeated, and Mr. Hasen should become premier, the Advance and its editor would change their politics within the following week.

Therefore it is not remarkable that when the Advance falls foul of its political comrades, the Globe and the Transcript, it has nothing to say against their attitude except that the government will win. That is its way of saying that the opposition is wrong. But the real question is not whether the government will win, but whether it ought to win.

A USELESS INQUIRY.

Two Central Railway inquiries have been held, each dealing with a disaster involving the loss of life. In both cases a representative of the provincial government was present.

LABOR IN POLITICS.

It is not yet announced what the platform of the labor organizations will be. But it will be generally admitted that they have chosen two candidates well able to support and defend any interests that they would undertake to represent.

MR. BORDEN AND THE WEST.

Mr. Borden has chosen a good time to hold a series of political meetings in the West. The opposition leader is not a pessimist or blug ruin orator, and does not need to wait for a period of

depression or a year of bad crops. He visits the western country when the farmers are in the full tide of prosperity, and are gathering in a great crop. Mr. Borden can rejoice with them in their happiness as many in all sincerity convey to the western men his best wishes for many years of plenty.

It is this will not prevent a full and frank discussion of public issues. The people of the coast and the prairie do not confine their attention altogether to grain fields, ranches, mines, banks and fish. They take an intense and intelligent interest in the public policy of the country, and in the merits of the administration.

The country west of Lake Superior is a young man, and a country for young men. Mr. Borden belongs to the younger school of Canadian statesmen. He is the great west, he looks to the future rather than the past. The western people will see in Mr. Borden's party on this tour a company of public speakers who can afford to look to the future rather than the past.

AFRICA AS A COTTON COUNTRY.

Upper Egypt gives great promise as a cotton producing territory. The secretary of the Sirdar has been telling the Manchester people that fifteen million acres of irrigated land on the Nile in the Upper Nile can be made available for cotton. It is not so difficult as the scarcity of labor and the Derwish movements have driven the agricultural population from the Soudan.

It would appear that if the British Empire can control the cotton products of the Nile it will soon be independent of the United States, a dependent which is British by no means a great cotton country. But Egypt alone, including the Soudan, is capable of supplying the British demand for cotton in the United States.

THE SAFEST BOER LEADERS.

The story that Mr. Kruger has relinquished the leadership of the Boers to General Botha was being relayed to all friends of the Empire and of peace. From three Boer generals, Botha, De Wet and Pretorius, Botha is the safest.

THE EXHIBITION ATTENDANCE.

Two or three circumstances indicate that the daily attendance on the St. John Exhibition of this year will be much larger than we have been accustomed to see. In the first place the show is likely to be an unusually good one, containing most noteworthy objects of particular interest.

A CRITIC'S ENGLISH.

The Globe of London, England, thus rebukes the writer of a perfectly correct news item: "The writer of a perfectly correct news item: 'four hundred tons of sand were used,' and he might add that several gallons of oil were required to hold them down, it could be further stated that many quarts of water were poured on this carpet and that they ran off in all directions.

be a happy thing if his confidence is justified. There are signs of trouble, but the difficulties are more less than would have been found in arbitrary government in a time of peace.

Manitoba is a farmer's country and has chosen farmers for its political leaders. Ex-Premier Greenway has his herd of cattle and is said to be harvesting 800 acres of wheat. Premier Roblin has 750 acres in wheat, 100 in oats, 50 in barley and 180 in timothy.

According to the Mining Record of Nova Scotia the following coal contracts have been made by the Intercolonial for the coming year: Colborne Ry & Coal Co., Springfield, 50,000 tons; Strathcona Coal Co., Joggins, 50,000 tons; Strathcona Coal Co., Miramichi, etc., 50,000 tons; Acadia Coal Co., Stellarton, 40,000 tons; Intercolonial Coal Co., Westville, 40,000 tons; Dominion Coal Co., Glace Bay, 20,000 tons; N. S. Steel & Coal Co., Sydney Mines, 5,000 tons; Inverness Coal & Ry Co., Broad Cove.

The agitation and continued demands for a lightship at the Lurcher seems to have at last brought results. The department of marine is calling for tenders for one or two lightships with screw propelling machinery and equipment. Tenders will be received until the first of October.

SUSSEX NEWS.

SUSSEX, Aug. 28.—Rev. Wilfrid E. Keirstead, M.A. of Chicago University, lectures in the Free Baptist church on Monday evening, September 1st, on Dualism and Christianity. The department of marine is calling for tenders for one or two lightships with screw propelling machinery and equipment.

The annual match of the Kings Co. Rifle Association will be held on the afternoon of Labor Day on the provincial range here. The holders of the certificate will be invited to attend. The secretary, Capt. J. M. McIntyre, the match is open to residents of the county. The annual meeting will be held on the closing of the match.

Schools in Sussex next week. The changes in the teaching staff are Mr. Maggs, principal, in place of Mr. Brodie; Miss Allen in place of Miss Lynde; and Mr. John in place of Mr. Fokins. Miss Briggs retains her position for the present. The new pipe organ recently purchased by the Presbyterian church is expected to be ready next week. A splendid organ recital is being arranged for the third week in September when the new instrument will be formally opened.

A. O. H. Biennial Convention Now in Session in Woodstock.

Cardinal Reception Extended By the Mayor and the County Warden—Service in St. Gertrude's Church—The Business Transacted.

WOODSTOCK, N. B., Aug. 28.—Woodstock extended a welcome by the mouth of the mayor to the visiting delegates of the Ancient Order of Workmen who are attending the biennial convention in this town.

The first thing on the programme after the brethren had assembled was the procession to St. Gertrude's Church, where a high mass was celebrated by Rev. W. F. Chapman. The Libermans to a number of not more than a hundred made a striking appearance, as they were in frock coats and silk hats, with badges attached to their lapels, they marched two and two through the town. Father Chapman briefly addressed the members of the order on the virtues and uses of the organization.

After service they re-formed and walked back to the Opera House, where the sessions of the convention then came the addresses of welcome by his worship Mayor Belyea, the chair being filled by John C. Ferguson of St. John, president of the association. After the mayor's appropriate and fitting remarks, a similar courtesy was paid the visitors by Warden Saunders on behalf of the county. Then the president made a brief and happy speech and some well chosen words were spoken by the secretary, J. W. Hamilton. Rev. Fathers Chapman and Ryan of St. Mary's responded to respective calls. This concluded this morning's session.

In the afternoon the chair was taken by the president. A graceful act was done by the association in sending a delegation to attend the funeral of Fred Moore, the well known lumberman, who died last Sunday, and whose remains were held this afternoon. When the association met for business, J. P. Maloney of Woodstock was appointed assistant secretary. J. C. Ferguson addressed the order on important matters of the order. The various county officers were appointed: Robert Hughes of Woodstock was appointed door-keeper. The treasurer was appointed by the audit committee.

The secretary's report was looked for with interest and it contained interest. He reported 19 divisions, 10 of which had been organized since the last convention. Eight divisions were organized in Northumberland county. M. Purcell, the treasurer, submitted his report, which showed the affairs in excellent shape. The following were the committees named: Grievance—J. J. Murphy, Michael Welch, T. Connolly, John Boyle, Alex. Easton, Bernard Gallagher, R. H. Halsey, I. B. Sheasgreen, Wm. L. Williams, D. McManus, Jerry Murray.

President—J. D. Hanton, Wm. Terry (Halifax), R. F. Waddleton, Charles O'Keefe. The resolution committee submitted their report. There were the usual resolutions of a kind that were properly worded. It was also resolved that the provincial officers be required to formulate a policy within one month after adjournment of this convention for the instruction of county division officers throughout the jurisdiction and that such instructions shall be binding on all officers and members of the order so long as a majority of the county members shall not consider the action of the provincial officers inconsistent with the declaration of the constitution.

The audit committee of the secretary's and treasurer's reports stated that the secretary had received since last report \$247.66, expended by that office \$281.87, paid treasurer \$24.83, amount in treasurer's hands last report was \$64.50, received from secretary \$24.43, total \$148.99. The treasurer had received since last report \$85.95, on hand \$83.99. The audit committee expressed their entire satisfaction with the mode in which the secretary and treasurer keep their reports.

The grievance committee reported everything harmonious. The laws committee reported that taking into consideration the recent date at which the new constitution was issued and the limited time at the disposal of members of the convention to consider the changes made, they recommended it be referred to the provincial officers to revise and that they place copies of the same in the hands of each county president within two months from the adjournment of this convention, and also in view of other proposed changes and amendments to the provincial laws they submitted in writing to the provincial secretary at least fifteen days before the biennial convention, nothing returning to interfere with any subsequent biennial convention by a two-thirds vote making any changes desirable. The committee on standing orders reported that the membership was 1,074.

The afternoon was given up, with the exception of a little routine business, to a drive to which the visiting delegates were treated by the members of the Woodstock division. They were in buck-boards and formed a very jovial party. They drove up the river and out the Jacksonton road, then over to town and across the river bridge and through Grafton. After returning to town again, the party took the pretty drive down the west side of the river to the "Watering Trough."

"PER-U NA NECESSARY TO THE HOME"

(Says Prof. Talford Smith, of Georgia.)

PROF. TALFORD SMITH.

Prof. Talford Smith, Principal of the Siloam High School, Siloam, Ga., writes: "With much pleasure I recommend Peruna to all who may be suffering with any trouble of the respiratory organs. I have been using it in my family for the past five or six years and find it to be almost a household necessity. Peruna is truly a grand catarrh remedy, general, tonic and will do all that is claimed for it by the manufacturers."

Catarrh is inflammation of the mucous membrane lining the eyes or the pelvic organs, throat, stomach, liver, bowels or kidneys. Catarrh is a systemic disease, not a local disease. If Peruna will cure catarrh in one place it will cure it in any other place, because Peruna is a systemic remedy. It reaches the disease through the circulation in each organ. It eradicates the disease by eradicating it from the system.

SALE OF INVENTIONS. The patent No. 645,052, issued to Asbestos Mfg. Co. for asbestos cloth, has been assigned to P. Dannabacher and Charles W. Kane for \$30,000, assignment recorded Dec. 19, 1901. H. F. Farwell assigned for \$10,000 his entire right to inventions of gramophones and telephones, executed applications bearing date July 28, and Aug. 22, 1901, respectively, to Chicago Home Telephone Mfg. Co. of Chicago, Ill., on Dec. 30, 1901.

The entire right in certain named states in and to patent No. 649,253 for carburetor, has been assigned to A. F. Moore by the M. & M. Oxiogen Lighting Co. of Kansas City, Mo., for \$50,000, assignment bearing date of December 14, 1901. Communication of Messrs. Marston & Marston, patent attorneys, Montreal, Canada, and Washington, D. C. Write to this firm for a free copy of their inventor's Help.

OLD TIMES IN ALBERTA.

A correspondent sends the following bit of history: The writer learned a short time since of an incident in the early history of Alberta which shows the difference between the postal service of the present day and that of 80 or 90 years ago. The late Converse Richardson of Watrous, in this county, came here from the state of Vermont in the year 1817. He was 24 years old at that time. A year or two later he received a letter from his former home which had been twelve months on the road coming, and on which he paid one dollar postage.

Inward Piles Relieved Instantly

And Afterwards Thorough and Permanently Cured By Dr. Chase's Ointment.

Scores of people endure the annoyance, uneasiness and acute suffering which is caused by piles, and do not know the nature of their ailment or what means to make use of to obtain a cure. We do not hesitate to claim that Dr. Chase's Ointment is the most effective cure for piles that is possible to obtain, and this claim is backed up by thousands of people who have used it.

Mrs. Jane R. Scott, North Grenville, Cumberland Co., N. S., writes: "Last spring I obtained from you a box of Dr. Chase's Ointment and used it for inward piles. It gave me almost instant relief from the torturing itching and burning, and as the trouble has never returned, I consider the cure a permanent one. You may use this statement for the benefit of others." Dr. Chase's Ointment, 60 cents a box, at all dealers or Edmondson, Bates & Co., Toronto.

CITY

Recent Events in St. John.

Together With from Corro and Exo Monday next being country market will be held at the Farmers' Market. The Roman Catholic taking steps to have there.

The civil case of ton was then taken over for the plain Baird for the defence. E. H. Hale, of the present turning the rate of 150,000 a d is cutting about 40,000 deals daily.

The marine department has been advised that the Thoresen has arrived in St. John, with a case of s New Brunswick K. of P., will have on Tuesday, September the ladies who assist ation day.

As a result of a from a horse, receive and John A., the 15 Murdock Boston, Levi on Monday. Rev. J. H. Heald, as "The Black Knight Reform," has been in Charlottetown, O. F. Hector made a St. John a few years.

In the county case of the fine, charged with break the place of a Mr. up. Murphy was sentenced to four years. The first issue of date of the fine, 1. The paper will be columns to a page, lished by Clarence of the Frontier News, of Hamilton, N. B.

H. Price Webber are playing in St. George's delighting everybody "telling" performances evening. The fire, they play for a week.

The Chicago Canada Act 23 in the case of the First Methodist, whose resignation of some recent come to go to the residence. He has relative interest.

Dr. W. W. Weeks, Road Baptist church of the Moncton, has just returned from the market and published that he has become pastor of ton, Mass., at a salary completely destroyed. Fire at Wallace, N. completely destroyed. store of C. W. Morris building. The fire, three building, but at lished to be under com named James Chambe who was in the large night, is missing, and has been burned to c Alexander A. Collins government official at shortly to publish in of which he is the au now ready for the p of the market and plained. It deals with pronouncement, as w proper accent and Latin words used in the Catholic church, largely for the use of Mr. Cullen holds Arts degree from Geology. District of C similar degree from Quebec.

SCARCITY OF August has been a fish market. The a month before in were so small. There the market and the scarce. From all the comes the same report. The quotations here are dock, four cents; haddock, four cents; halibut, four cents; mackerel, twenty-five cents; salmon, cold storage, twenty-five cents; mackerel, four cents; salmon, cold storage, twenty-five cents. WHEN LIFE IS "Without health life only a state of languor image of death." Chase's Nerve Food, languor and discouragement. It makes a rich, creates new nerve, still new energy and helps you to do things you had no idea of. It makes you strong and up to the system.

August 30th, 1902.

CITY NEWS.

Recent Events in and Around St. John.

Together With Country Items from Correspondents and Exchanges.

Monday next being Labor Day the country markets will be closed.

Tug Springhill left here yesterday for PARSBORO with two light barges.

The Roman Catholics of Mispec are taking steps to have a church erected there.

E. Lantam of this city has purchased the str. Elamond, a steamer at Canada, for \$2,000.

The Sun's Boston correspondent telegraphs that Dr. Stockton's condition continues quite favorable.

Regular trains will be run on the Cape Breton railway between Port Hawkesbury and St. Peter's by November.

The civil case of Coyle v. Babington was taken up. G. H. V. Belyea, for the plaintiff, and A. W. Baird for the defendant.

Fred. H. Hale's mill at Plaster Rock is at present turning out shingles at the rate of 150,000 a day, and the rotary is cutting about 40,000 feet of spruce deals daily.

The marine department at Ottawa has advised that the schooner Theresa has arrived at Dalhousie, N. B., with a case of smallpox on board.

New Brunswick and Union Lodges, K. of P., will have a sail up the river on Tuesday, September 16, to entertain the ladies who assisted them on Decoration Day.

As a result of a kick in the chest from a horse, received about two weeks ago, John A., the 15-year-old son of Murdock Beaton, Lorneville, N. S., died on Monday.

Rev. J. H. Hector, popularly known as "The Black Knight of Temperance Reform," has been engaged to lecture in Charlottetown, Oct. 26, 27 and 28. Mr. Hector made a big impression in St. John a few years ago.

In the county court yesterday the case of the King v. James Murphy, charged with breaking and entering the place of a Mr. King, was taken up. Murphy was found guilty and sentenced to four years in Dorchester.

The first issue of the new Calais daily will be printed on Monday, Sept. 1. The paper will be four pages, seven columns to a page, and will be published by Clarence Spooner, editor of the Frontier News, Eastport, formerly of Hampton, N. B.

H. Price Webber and his company are playing to a succession of crowded houses in St. George this week, and delighting everybody with their excellent performances. They open on Friday evening in St. Andrews, where they play for a week.

The Chicago Canadian-American of Aug. 23 says: "Rev. Doctor Macrae, of the First Methodist church, Foxton, whose resignation was the cause of some recent comment, has decided to go to St. John, New Brunswick, to live. He has relatives and friends living there."

Dr. W. W. Weeks, of the Walmer Road Baptist church, Toronto, formerly of the Moncton church, and who has just returned from a visit to the maritime provinces, denies the report published that he has received a call to become pastor of a church in Boston, Mass., at a salary of \$8,000 a year.

Fire at Wallace, N. S., Tuesday night completely destroyed the large general store of C. W. Morris and an adjoining building. The fire also spread to a third building, but at 4 a. m. was believed to be under control. An old man named James Chambers, a shoemaker, who was in the large building at midnight, is missing and it is supposed he has been burned to death.

Alexander A. Cullen, B. A., of the government offices at Moncton expects shortly to publish in New York a book to which he is the author and which is now ready for the press. Its title is Church Latin Pronounced and Explained. It deals with the continental pronunciation, as well as with the proper accent and meaning of the Latin words used in the services of the Catholic church, and is intended largely for the use of clerical singers. Mr. Cullen holds his Bachelor of Arts degree from Georgetown University, District of Columbia; also a similar degree from Laval University, Quebec.

SCARCITY OF FISH. August has been a record breaker in the fish market. There has not been a month before in which the receipts were so small. There are no shad on the market and other fish are very scarce. From all the fishing grounds comes the same report of small catches. The quotations here are: Cod and haddock, four cents; halibut, fifteen cents; salmon (cold storage), twenty to twenty-five cents; mackerel, fifteen cents; pickerel six cents.

WHEN LIFE IS NOT LIFE. Without health life is not life; it is only a state of languor and suffering—an image of death. The use of Dr. Chase's Nerve Food gives the weak, languid and discouraged a new hold on life. It makes the blood pure and rich, creates new nerve force and instils new energy and vitality into the whole being. It makes weak and sickly people strong and well by building up the system.

MORE HARVESTERS WANTED. Ten thousand more harvesters are wanted in the west. In today's Sun the P. B. announces another excursion from the maritime provinces on Sept. 8th. The fare is \$10; return rate \$18.

NOTICE.

The canvassers and collectors for the SEMI-WEEKLY SUN are now making their rounds as mentioned below. The Manager hopes that all subscribers in arrears will pay when called on.

Edgar Canning will shortly call on Subscribers in ALBERT COUNTY.

B. W. Robertson is in the Counties of DIGBY, ANAPOLIS and KINGS, NOVA SCOTIA.

I. D. Pearson is in P. E. Island.

F. S. Chapman in Kings County N. B.

J. E. Austin in the Counties of Queens and Sunbury, N. B.

TAYLOR-EANINGTON.

There was a pretty afternoon wedding at St. John's church Wednesday afternoon, when Miss Edith Lavitt Hanington, daughter of A. H. Hanington, K. C., was united in marriage to Rev. Thomas Wardlaw Taylor, son of Edward Taylor of Toronto. Quite a large number of guests were present and were ushered by Frank R. Fairweather and Fred R. Taylor.

The bride wore white tulle and orange blossoms. She was attended by her sister, Dr. Mabel Hanington, who wore white over pink silk, and by Miss Annie C. Scamwell, who wore white and green. The marriage was solemnized by Rev. J. G. Soyres. George Collinson was the organist for the occasion and a choir composed of friends of the bride sang the hymn, "The Voice That Breathed Over Eden." After the wedding the bride and groom were driven to Mr. Hanington's residence on Sydney street, where luncheon was served in the garden, the tables being beautifully decorated with sweet peas and other blooms. Mr. and Mrs. Taylor left by the Quebec train for a brief honeymoon. They will return and spend a few days in St. John, afterwards visiting Sir Thomas and Lady Taylor in Toronto.

They will then leave for their new home in British Columbia. They received many beautiful presents, the bride remembering her associates in the Maritime Provinces and in St. John's church Sunday school.

MORE HARVEST EXCURSIONS.

All advice received by the C. P. R. from the west are to the effect that more men are needed to handle the exceptionally heavy crops in that country. The harvest is great, but the laborers are few and there is a strong demand for more help from the east. In order to assist the western farmers to enable all who wish to go west to do so, the C. P. R. will run a second series of harvest excursions. The date of the excursion leaving St. John will be settled daily, but will probably be the 9th or 10th of September. The rates will be the same as on the previous excursion and all possible accommodations for passengers will be provided.

VALUABLE SPECIMENS.

Although the Natural History Society has not yet commenced the season's work it has been the recipient of a number of valuable specimens. This morning Alex. Johnston, of Loch Lomond sent in to town an Indian arrow head found on his farm at that place. He turned it up while ploughing, and a part of the shaft was attached to the head, but was so rotten as to be useless. The head itself is of chalchydite, about three and a quarter inches long by one inch broad and three-eighths of an inch thick and weighs about three-quarters of an ounce. It has been clipped into shape and the edges are serrated.

Another specimen has come in the form of a horse shoe or violet crab, collected by Miss Edith Markham in Connecticut.

MEN FOR THE WOODS.

About thirty men came up on the Alexandria, Tuesday, to hire for the woods. They marched through the streets with big packs of clothing on their backs. They will have no trouble in finding employment, as woodsmen are in great demand and wages higher than last fall.

A KINGS CO. WEDDING.

An interesting wedding took place at Barnesville, Kings Co., on Wednesday, when Rev. W. F. K. Thompson united in wedlock David H. McAllister of Scandia and Miss Margaret S. Floyd of Barnesville. The bride and groom are both greatly esteemed in that section of Kings county, and the gifts to the bride were most valuable.

THE HAPPY PAIR WILL LIVE IN TITUSVILLE.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

Latest advices from Boston are to the effect that Hon. A. A. Stockton's condition is such as to cause great anxiety.

BABY'S OWN SOAP.

Specialty adapted for children, on account of its absolute purity. Is used by young and old alike and commands an immense sale. Don't trade with imitations. ALBERT TOILET SOAP CO., MFRS., MONTREAL.

FINE BUSINESS ESTABLISHMENT.

An Apohequi Store That is a Credit to the Province.

It is probably within the mark to say that the finest country pr village store in the province is that of Jones Brock, at Apohequi, Kings Co. They have just added 60 feet to its length. It is a two and a half story building, 160x36 feet, with basement full size. On the first floor, almost the whole part was added, they have one room, 100x20 feet, devoted to furniture alone. Adjoining this room are one for ready made clothing, one for curtains, furs, etc., and also a tailor's and dressmaker's shops. On the ground floor is a milliner's room.

A new private office has been fitted up on the ground floor, finished in oak. A hot water heating plant for the whole building has been put in, and an acetylene gas plant is now being installed. The whole store is splendidly lighted by windows, and is fitted with every facility for the tasteful display of goods.

In addition to the main building the firm has a new warehouse outside, for the storage of flour, feed, grain, iron and steel, shingles, laths, lumber and other goods, for they have everything a customer is likely to want and get everything he comes for—or he is not so likely to come again. And we try to have whatever he needs.

Taking their main store and warehouse, the firm have an enormous floor space, and they carry a very large as well as varied stock. They carried over the winter, and the stock they last winter, say the owners, is now already being shipped to St. John for export.

MICHIGAN RY. MAN IN TOWN.

W. D. Trump, superintendent of the Pere Marquette Railway, Michigan, accompanied by his wife and family was in town yesterday in his private car. Mr. Trump's visit to the province is purely one of pleasure. He has been in charge of the railway at Searsville, Bath, Me., and is taking this trip on his way home. He was driven around St. John and environs places, last night for Halifax, where he will make a brief stay. He is so thoroughly satisfied with the scenery, climate and facilities of this part of the world that he expresses a strong desire of coming again another year, when he can extend his visit farther and try his luck at the trout and salmon fishing of New Brunswick. He is the only man which has travelled away out to his western home.

FOR THE FAST LANE.

E. Cooper Burgess, representing the Manchester, Guards, Manchester, England, is in St. John in the interests of his paper and of the proposed fast line. It is understood that the purpose of the trip is largely to place before Canadian shipping men the details of the port of Manchester as the terminus of such a line. Mr. Burgess arrived yesterday morning and during the day consulted with the Messrs. Thompson and other interested in shipping and with several members of the Board of Trade. He is staying at the Victoria hotel, where last night he declined to make any statement of publication concerning his business here.

RECENT DEATHS.

The death occurred Tuesday of Miss Cassie Rogan at the residence of her sister, Mrs. William O'Connor, Cedar street. Decedent was the daughter of the late Daniel Rogan, who had been for some years a resident of the United States. She leaves two sisters, one of whom resides in Providence, R. I., and the other in this city.

James Tait, of Westmorland road, whose family was reported to be in destitute circumstances some days ago, died at the hospital on Tuesday, aged 82 years.

James G. Payne, steamboat engineer, died at Charlottetown yesterday, aged 73 years.

A FAMILIAR NAME.

In the homes of Canada and the United States there are few names more familiar and none more reverently spoken than that of Dr. A. W. Chase, the great physician and receipt book author. He is blessed when the suffering he has relieved and the diseases he has cured; his name is reverently spoken and his prescriptions are followed because they cure when others fail.

The steamer Marguerite arrived here yesterday afternoon from St. Andrews. She is the steamer purchased by Capt. Pitt to run on the Gondeola Point route.

ACCIDENT ON I. C. R.

Track Blocked Last Night Between St. John and Halifax.

HALIFAX, N. S., Aug. 28.—The intercolonial fast freight for Montreal, which left here at 10.30 tonight, met with an accident three miles out from this city which completely wrecked the train and derailed two others. No one knows the cause, but it probably was a broken wheel. On account of the track being blocked, passengers on the incoming C. P. R. and the mails, were transferred and reached Halifax at 1 o'clock this morning.

WANTS INVESTIGATION.

W. F. Hatheway Wants to Know How Smallpox Got Into the Hospital.

At the meeting of the Board of Trade on Tuesday next, W. Frank Hatheway will move that the board recommend that the royal commission appointed to investigate the condition of the General Hospital shall go further than the epidemic of St. John, and enquire into the way the smallpox infection was carried into the hospital.

Barton, the sailor, whose case started the epidemic in St. John, last year, was taken ill on a vessel in the harbor. He was sent to the Public Hospital, where, in the general waiting room, he was examined by the doctors before he was sent to the epidemic building. It was about three weeks after this that two nurses in the hospital were taken with the disease.

The Board of Health shortly afterwards took the evidence of all connected with the buildings and promised their enquiry was completed to make the evidence public. This they have never done, and Mr. Hatheway feels that it is in the interest of the business of St. John for a full investigation to be made into a set of circumstances that worked so much harm to the city.

EN ROUTE WEST.

The express from Halifax on Wednesday morning brought to this city a man who gave his name as King, about 35 years of age, and having a wife and four children. His wife was a woman some ten years his junior, the pair claiming to be travelling to Toronto. Having some hours to spare they got lost, or more correctly lost their way, and were stranded here. Mr. King did not start west on Wednesday's train. They were not exactly sure where they had been, but after a diligent search located their traps and yesterday afternoon appeared at the depot ready to enjoin for Toronto. Mr. King, however, persisted in smoking a pipe in the depot and was ejected by Officer Collins. Like the provincial cat, he came back and with his fair companion started west.

HATHWAY AND McNEENEY.

Nominated by Trades and Labor Council Last Night for Local Legislature.

At a largely attended meeting of the Trades and Labor Council last night, the report of the committee appointed to nominate labor candidates in opposition to the local government was submitted. The committee named W. Frank Hatheway and George V. McNeeney, and these names were almost unanimously endorsed by the full meeting, between 35 and 40 strong, representing the labor rank in the city. Some mention had been made in an informal way of Daniel Mallin, K. C., as a suitable candidate, but his name was not on the meeting.

A SENSATION.

Queen's County Man Charges Alienation of Wife's Affections.

FREDERICTON, Aug. 25.—What promises to be a very interesting suit has been entered in the supreme court. James Walker of Fredericton, Queen's county has entered action, through his attorneys, Cursey & Vincent, against John A. Jackson of the same place, for seduction and breach of promise of affections. Damages of ten thousand dollars are claimed. In the plaintiff's affidavit it is stated Mr. and Mrs. Walker have been married eight years and that undue intimacy between Jackson and Mrs. Walker has existed for two years. The venue is laid at St. John.

DEATH OF WILLIAM FORSYTH.

William Forsyth, of the customs department of the post office, passed away shortly after noon Thursday after a somewhat lengthy illness. Stephen H. Forsyth of Barre, Vermont, died of this disease at St. John, five minutes after his brother's death. The deceased citizen was a man highly esteemed and a faithful government servant since 1873, when he was gazetted preventive officer. Of late years he had been an obliging and painstaking clerk in the parcel department of the post office, which comes under customs supervision. Mr. Forsyth was sixty-two years of age and leaves a widow.

Other relatives are: S. H. Forsyth, Barre, Vt.; Richard Forsyth, Mrs. Chas. A. Gurney and Miss E. Forsyth, of this city.

THE MURDER TRIAL.

It has not yet been decided when the trial of Frank Higgins will begin. D. Mullen, his counsel, fearing that he may be compelled to be absent next week when it was to have come off and is seeking for a postponement. Attorney General Fugate said yesterday that the case would probably not come up as at first stated, but he could not say when it would until the convenience of Judge Landry had been consulted.

UNMANNED.

"And I'll give you five cents. I suppose you're strong enough to carry my trunk?" "Gee! Five cents! I was purty strong, lady, but yer gen'rosity makes me feel weak!"

Regarding Fall Clothing.

You want the right kind of Clothing at the right prices. Send here at once for it. Counters are piled high with the newest styles of Fall Suits and Overcoats, and prices are lower than ever before.

Men's Overcoats.

finished with the thought and care of Made-to-Order goods. We are showing them for the very dressy man, as well as for the man who cares only to be neatly and comfortably clad. Prices \$5. to \$20

Boys' and Men's Suits.

at every good kind are here—tweeds, serges, chevots etc., carefully and thoroughly made and guaranteed to give satisfaction. Two Piece Suits for Boys 3 to 12 years \$1.50 up—Three Piece Suits for Boys 9 to 16 years \$3 up—Men's Suits \$5 to \$20.

Visitors to Our Exhibition.

You lose nothing as we guarantee every sale to give satisfaction or refund money.

GREAT OAK HALL. Scovil Bros. & Co.

BISHOP KINGDON.

Returns From Confirmation Tour in Queens and Kings Counties.

FREDERICTON, N. B., Aug. 25.—His Lordship the Bishop of Fredericton has returned from his confirmation tour to Queens and Kings counties. On Sunday the bishop was at Greenwood. In the morning his lordship held service and preached in the new church. In the afternoon confirmation service was held, when 19 persons were confirmed, many of whom had driven eighteen miles through falling rain in order to be at the service. In the evening the rite of confirmation was administered to an individual who was unable to leave her couch. On Monday his lordship went to Sussex, where he held confirmation in the evening, when ten persons were confirmed. On Tuesday, the Bishop to St. John, and arrived home yesterday morning. On Tuesday next Bishop Kingdon goes to Montreal to attend the general synod of the Church of England in Canada, which synod will probably continue for two weeks.

FREDERICTON.

Deaf and Dumb Enquiry Continued Yesterday—Some Discrepancies in the Accounts Satisfactorily Explained.

FREDERICTON, N. B., Aug. 25.—The deaf and dumb inquiry was on this morning. Mr. Wallace of the educational department was on the stand the greater part of the morning, giving explanations relative to the county grants. No special criticism was passed upon them. Deputy Receiver General Babbitt was recalled for \$310 county grant for 1892, and the receipt for which the treasurer's books did not show. The apparent discrepancy was cleared up by learning that in 1892 the government took over drafts for the county grants and gave the institution \$1,500 in lieu thereof. The treasurer's books show receipt of \$1,500.

Auditor General Beck was called and said he had withheld the provincial grant this year, \$500, because of the investigation now going on. He found fault with the annual reports of the institution as being too meagre. He found what he thought were discrepancies between the amounts subscribed and credited from subscriptions, the discrepancy in 1891 being \$1,200. He had not taken the trouble to ascertain that the difference arose because many sums subscribed are never paid, and costs of collection are deducted.

FIVE DROWNED.

BATTLE CREEK BETWEEN STEAMER AND ROW-BOAT.

BATTLE CREEK, Mich., Aug. 25.—Five employees of the Battle Creek sanitarium, nurses, probationers and stenographers, were drowned at Lake Gogaw last evening as the result of a collision between the steamer Welcome and a row boat containing a party of young people. Five girls had been out for a row about the lake with a young man and were returning to the sanitarium villa. The Welcome was starting out for her last trip. The young man, Bennett, who was at the oars, came beavered, and the steamer struck the boat broadside on.

Those doomed were: Mr. Bennett, Dallas, Tex.; Annie Brady, Battle Creek, Mich.; Mabel Richard, Traverse City, Mich.; Ella Dorsey, Alhensburgh, Penn.; Fannie Willis, North Toronto, Ont.

Carrie Fyock of Johnston, Pa., clinging to the boat and was the only one saved. Miss Brady and Miss Richard were evidently struck by the steamer and killed, for they were found floating. The other bodies are in 20 feet of water and are being dragged for.

Hon. L. F. Farris, the commissioner of agriculture for New Brunswick, is in town, a guest at the Royal. Mr. Farris says from what he has observed and from reports received by him from various parts of the province he thinks the season's crop will be a good one in all lines.

The tent meeting for the promotion of the faith will be continued over Sabbath next. Rev. J. H. Coy, Mr. Bennett, G. W. McDonald will preach on the Sabbath. Other workers will be in attendance. All are invited.

NETHERWOOD.

The Rothersey School for Girls will re-open on TUESDAY the 16th September, 1902. For calendars apply to MRS. J. SIMMONS ARMSTRONG, Principal. 1065

RU-NA NECESSARY TO THE HOME.

Prof. Talford Smith, of Georgia.

PROF. TALFOURD SMITH.

Prof. Talford Smith, Principal High School, Silliam, Ga., writes much pleasure I recommend to all who may be suffering with trouble of the respiratory organs. I have been using it in my family for five or six years and find it to be a household necessity. Permanently a grand catarrh remedy and it will cure it in any other case. PROVINCIAL NEWS.

SHEFFIELD, Sunbury Co., Aug. 25. The schools in the several districts have all opened after the summer vacation, with a few changes of teachers. Miss Caswell, who last term had charge of a school in York Co., has taken one at Clark's Corner. Miss Mabel Brown, who last term went through the Normal School, has been engaged by the McQuipit Lake school, and Alice Briggs the French Lake; otherwise the old teachers resume their schools, with the exception of Miss Alward, of whom we have spoken of before, who has the Sheffield Academy school, and Mrs. Sarah Kileen, Lower Tier, Little River.

EX-MANAGER RUSSELL

Traveling to Buffalo in Mr. Pottinger's Private Car. MONTREAL, Aug. 27.—Former Manager Russell of the Intercolonial, arrived in the city this morning on route to Buffalo, where he will take up his residence. He travelled in Mr. Pottinger's private car. Discussing his resignation, he said: 'There are peculiar methods on a government road, to which I could not adapt myself. That was the most charitable way of putting it.'

HALIFAX AND S. W. R. R.

HALIFAX, Aug. 26.—The first contract on the Halifax and South-Western railway (McKenzie and Mann's) was awarded today. Henry Sorrett of Bridgewater signed the contract to build the line from New Germany to Caledonia. The railway company have ordered 2,500 tons of rails to be delivered in Bridgewater in October.
