THE PRINCESS PATS SHOWERED WITH GOLD

National Reception at Ottawa Marks the Return of Canada's Immortal Fighters

With helmets shining under a friendly sun, and bayonets pointing to a peaceful sky, Canada's famous regiment the Princess Pats, marched through the Capital on Wednesday. As they turned towards Parliament Hill, they could realize that at last their trials were really over, and their regiment geographically back to the place where it started in 1914, although in honor and renown it has advanced so far since then.

It was a national, not a local unit, and it was received on a national scale by the Governor-General and the acting Prime Minister of the Dominion.

The famous "Pats," looking serious and dignified as befits heroes whom a whole nation honors, marched through a queer conglomeration of snow and mud which must have reminded them of some of the impassable roads of Flanders. But at least, this was Canadian mud, and good, northern Canadian snow. Mud or snow, wet or dry, it was home, and better to these men than all the thoroughfares of Europe, clean or dirty.

Sadness seems inseparable from war, whether in the early stages or in the victorious end. When the Princess Pats went away, in spite of the cheering send-off, there were many tearful eyes among those who watched them go. These men were off on the great adventure and the great task, but it was an enterprise from which not all would return.

These tearful eyes saw even more truly than they feared in 1914. It was a deadly enterprise, and one in which the Princess Pats took one of the most glorious, but also the most dangerous and fatal parts.

And at last, here was the regiment marching through the streets of Canada's capital again, to the accompaniment of the waving flags, the flare of trumpets and the welcome shouts of citizens.

But again there were tearful eyes among those who saw. These were the Princess Pats in truth, but where were the rest of the other lads, and older men too, drawn from all quarters of the land, who had marched past Parliament Hill four and a half years ago.

But, through the tears, these eyes could see that the sacrifice had not been in vain. Not only had a victorious world peace been achieved, but for Canada herself, a deeper nobility had been won and immortal traditions had been added to her history. The wealth of these honors and the depth of national richness added to the achievements and the name to the Canadian army, were realized and brought home to the people as never before, as the Princess Pats came home.

The League of the Empire

Through the co-operation of the Department of Education there is being sent to every school in the Province two circulars in which the Ontario Council of the League of the Empire offers its services in linking up in correspondence schemes, schools and pupils throughout Canada and other parts of the British Empire. With the circulars there is a covering letter from Dr. Cody, Minister of Education, commending the plans of the League and encouraging the teachers of Ontario to use the opportunity offered of doing a real imperial and educational service. At this juncture, when Canada's relationships are under process of re-adjustment within the Empire, and the League of Nations we feel that the development of the League's School-Linking and Comrade-Correspondence schemes will undoubtedly help to create the most desirable feelings of intelligent goodwill amongst the boys and girls who in a very few years will be assuming the responsibilities of citizenship. The press heartily endorses the scheme and recommends that the Board of Education and parents in general encourage the teachers and pupils to make use of the opportunity offered. We see many advantages in having our schools exchanging letters, pictures and natural objects with other schools in Australia, Great Britain, India and South Africa, as well as our nearer neighbours in Quebec, Nova Scotia or British Columbia.

Death in Montague

The death took place on the 14th instant at his home, of Joseph Tomlinson, of Montague. The late Mr. Tomlinson was seventy-two years of age and was born in Montague township and lived there all his life. He was a prosperous farmer. He had only been ill ten days, suffering from hemorrhage of the stomach. Surviving are the widow, and one son, Henry, on the farm with his parents. The funeral took place to the Franktown cemetery. Rev. Canon Bliss, of the Anglican church, Smiths Falls, officiated at the service at the house. The deceased was a member of L.O.L. No. 88, and a number of the members of the lodge were present at the funeral.

There was a little penny went on a tramp,
It grew to twenty-five and became a Thrift Stamp;
Sixteen little Thrift Stamps, formed into a square,
Then made a certificate,—was ever sight so fair!

The maple syrup season is in full swing.

Rev. J. E. Hunter, of Crossley and Hunter evangelistic fame, is dead.

A branch of the Great War Veteran's Association has been organized at Perth.

Mrs. Geo. Keyes has returned to Carleton Place to reside with her daughter, Mrs. C. W. Moore.

Mr. J. J. Bradley of Smiths Falls, has sold his gents' furnishing stock to Mr. Omer Brown of Delta.

Mr. Alex. May who has conducted a flour and feed store in Smiths Falls for over twenty years has sold out his business to Mr. John Beckett.

The Renfrew Dairy has sold their milk business in Carleton Place to Mr. J. A. Von Ness, of Ottawa, who will continue without interruption.

Warden James D. Ferguson, of Montague, has sold his farm and has an auction sale booked. It is understood he is going to reside in Smiths Falls.

Mr. T. Lett Simpson, who recently obtained his discharge from the Military Service, has received and accepted an appointment in the Militia Department at Ottawa, in the Assigned Pay and Separation Allowance Branch.

Allan Chapman, son of the late Herb. Chapman of Ottawa, and a grandson of Mr. Wm. Pattie, arrived home from overseas last week. Allan was at the Kimmel Camp at the time of the riot, and can tell something of the excitement on that occasion.

We will resume our Taxi Service next week to all points.

Carleton Motor Sales Co.

Messrs. Wheeler & O'Hara have opened an electric supplies shop and wiring installation business in the Maguire block. They come well recommended as experienced men in the business. Both are married men and will add two new families to the town.

Mr. and Mrs. P. J. Ferguson, who had been spending the winter in the east, left on Friday morning for their home in Saskatchewan taking with them their little niece, Miss Dorothy Mountain, daughter of Mr. W. H. Mountain of Ottawa. Mr. Mountain came out this far to see his little girl safely on board and bid her adieu for a time.

Capt. A. Roy Brown, who won world wide fame by bringing down the famous German ace Richthofen, arrived home last Wednesday morning on furlough, and is daily receiving hearty congratulations from his many friends, considering the awful smash up he received when his plane suddenly gave out and he was dashed to the earth. He is looking remarkably well, and hopes in time to be fully restored to his normal condition.

—Mr. John E. Aust, piano tuner, representing Mr. Webster, will make periodical visits to Carleton Place. Orders left at McIntosh's Drug Store will receive prompt attention. Mr. Aust is an experienced tuner and comes very highly recommended by Mr. Webster.

There is a brisk demand for houses to rent at present.

A very successful men's meeting was held in the Methodist church last night.

Perth Oddfellows are making arrangements to have a Rebekah lodge established there.

Mr. E. H. Sutherland and family of Boyd's will take up their residence here about the 1st of April.

A letter from Mr. G. A. Burgess regarding the reception to our returned soldiers, to be found in another column, is well worth the attention of our readers.

We will resume our Taxi Service next week to all points.

Carleton Motor Sales Co.

Rev. A. D. Fraser, of Appleton, occupied the pulpit in Zion church on Sunday morning last in exchange with Mr. Dobson who took the services at Appleton and Ashton.

Dr. A. B. Hyndman has recently received word of his appointment as Coroner of Carleton. He is also the Medical Health Officer of the townships of Huntley, Torbolton and March. These offices were all formerly held by the late Dr. O. M. Groves.

It is expected the Ottawa Prescott Provincial Highway will be ready for traffic by the end of next year. General plans and specifications will be ready at an early date and tenders for paving will be invited in August, so that the work may be commenced in the fall and completed in 1920.

Some senseless young scamps smashed eight panes of glass in the public school windows after midnight Saturday night. Mrs. Albert Lowe heard the crash and on looking out saw two young fellows throwing ice at the windows. Her light probably was a beacon of warning to the culprits and they fled. Pity they could not be captured and made to pay the penalty.

There has been considerable sickness among horses in this vicinity similar to influenza which recently attacked the people. In this case pneumonia also develops unless early treatment is resorted to. Mr. Nat. Mulligan of Huntley lost a horse by it last week and there are several other cases of the disease although it is reported to be abating.—Carp Review.

Rev. J. D. Ellis, of Kingston was heard with pleasure by those of his former congregation on Sunday in the Methodist church. It is many years since Mr. Ellis was pastor here, but he is kindly remembered still, and it was good to see and hear him again. Mrs. Ellis accompanied her husband on this visit. The occasion was the annual missionary services, and Rev. Mr. Lawson went to Kingston in exchange.

SHIPPING DAY

Will ship Hogs, Calves and Cattle from here Saturday, March 29th. Good fat Calves wanted. But young or poor Calves will be cheap. Highest market prices for Hogs.

Glover-Sadler

The home of Mr. and Mrs. Thos. Sadler, on the outskirts of the town in Ramsay, was the scene of a pretty wedding last Wednesday evening, when their daughter Hazel was united in the golden bonds with Mr. Thomas Glover, of Regina. The ceremony was performed by Rev. Mr. Mond's, the young couple being unattended, little Misses Otie Hendry and Marion Miller making very pretty flower girls. The guests were limited to the immediate relatives. After the ceremony supper was served and the young couple left by the evening train for their home the west going by way of Toronto and Winnipeg. The bride was the recipient of many beautiful and costly gifts, and the young couple enter upon their marital career under the most auspicious circumstances and with the best wishes of hosts of friends for their welfare and happiness.

Inspector Rose has come to take up his residence in Carleton Place, and has obtained Mr. Brown's house on Judson street.

Despite the havoc wrought in the school year by the influenza epidemic last fall, the children of Ontario will enjoy their usual ten days' vacation at Easter. Dr. Colquhoun, Deputy Minister of Education, stated that there would be no curtailment of the holiday period, as an amendment to the Educational Act would be necessary if such a step were taken.

Death of Mrs. John Mains

Mrs. Mains, widow of the late John Mains, who had been in poor health for some time, passed away on Friday morning at her home in the Derry (Beckwith). The deceased lady had attained to the allotted span of life, was well known and much esteemed, and her death is deeply lamented. Mrs. Mains was born in Goulbourn, her maiden name being Miss Morton. She is survived by two sons, Benjamin and Harold Mains, and one daughter, Miss Edna Mains, at home. The funeral took place on Sunday afternoon to the cemetery at Munster, the services being conducted by the Methodist minister of Ashton, and was very largely attended.

Textile Union Organized Here

Last Tuesday evening nearly one hundred of the operatives in the woollen mills here assembled in the hall of the Chosen Friends, when a branch of the International Textile Workers Union of America was organized, the new union starting with a charter membership of 65. Mr. Patrick Green, of Ottawa, president of the District Labor Council, was the organizing officer. Mr. J. Flett, organizer for the I. U. of Stove Mounters, who was in town in connection with the textile operatives, also gave an address to the textile operatives. The new union will meet again this evening, when it is expected many more members will be added.

Some girls never discover they have hearts until after they are lost.

The Technical School

Dr. Merchant, of the Education Department, Toronto, met with the local Board of Education, the Board of Trade, and the Town Council, last Friday evening, in the council chamber, and outlined the steps necessary to have a Technical School located in Carleton Place. He stated that the local authorities would have to provide the building and the teachers, two thirds of the salaries to be paid by the government, the equipment to be provided in full by the department. Of course a separate building would not be necessary, as the technical work could be done in a separate wing in a high school building. In our case, should Carleton Place decide to have a Technical school here an application will have to be made to the Department, after which an inspector would be sent down to view the field and decide whether it would be desirable to place such a school at this point. In case of approval the Board would then have to make provision and the usual routine would be followed until the object was attained. With the information given by Dr. Merchant in a very interesting address, the Board of Education is now in a position to consider the project and will probably discuss the matter very fully at the next meeting.

Sudden Demise of Mr. Raney McNeely

Quite a surprise indeed was the announcement last Wednesday morning that Mr. Raney McNeely, of the 10th con., Beckwith, had passed away that morning, after a short illness, only being two days in bed. His death was due to a general break down of the constitution, although he had always enjoyed good health and had reached the ripe old age of 81 years. Mr. McNeely was born in the township, being a son of the late James McNeely, one of the pioneer settlers, and lived his entire life within the township. His wife, who before marriage was Catherine Robertson, predeceased her husband by two years and nine months, and two of the sons also passed away before their father—Peter and James. The survivors are two sons, D. R. McNeely, town, and W. J. McNeely, and three daughters—Mrs. Robt. McLinton, Mrs. Elisha Morris and Mrs. Robt. Sample. Mr. McNeely was of a reserved disposition and never sought public office, yet was widely known and much esteemed. The funeral took place on Friday afternoon to Pine Grove cemetery, the service at the home of Mr. John Rattray being conducted by Rev. Canon Elliott of whose church he was a member. The pallbearers were three sons-in-law, Messrs. Robt. McLinton, Elisha Morris and Robt. Sample, and Messrs. W. J. and J. J. McNeely and James Rattray.

Our Returned Soldiers

Every few days we learn of some of our soldier boys returning from overseas, and we are pleased to give them a hearty welcome home. Among those arriving last week were

Capt. Roy Brown, already mentioned.
Capt. Forbes Baird, who was with the Dental Corps, and who looks the picture of health.

Sergt. Cecil McEwen, son of Mr. F. C. McEwen, the only one of our home boys to get into the Navy. Cecil enlisted at Ottawa, and went over in 1916. Got his training in England and became an engineer in the motor boat fleet. He had a most exciting experience mostly on the Irish Sea. He was once wrecked off the French coast and was on his way to Germany by the Kiel Canal when the armistice came. He looks every inch a sailor in his uniform of blue.

Pte. Crawford also arrived last week. In the latest lists the names of Lawrence Fraser, H. Sheppard, N. S. Ferguson, Murray Kirkpatrick, J. R. Steele, E. H. Halpeny, E. McDonald and A. H. Stewart appears, and D. G. Cameron is with the Queen's Battery unit.

Child Fatally Scalded

A very sad accident occurred at Prospect the early part of last week, when the five year old son of Mr. John Porter, Prospect, accidentally fell backward into a tub of hot water and was so badly scalded that he died from the effects a few days later. It appears the mother was engaged with the week's washing when called to the telephone, and she left a tub of suds on the floor, whilst she was conversing at the phone, the little fellow opened the kitchen door and came in with his hand sled and in pulling it over the step it came so quickly that he fell over backwards, and directly into the tub. His screams brought the mother out once, and every effort was made to relieve the little sufferer, but without avail, and collapse resulted as stated above. The bereaved family have the deepest sympathy in their sudden sorrow.

With the Empire's Fighters

The moving picture, "With the Empire's Fighters," which Dr. H. D. Girdwood of London, Eng., explains and accompanies with is undoubtedly one of the best war pictures produced. Dr. Girdwood was present when the pictures were taken. The pictures are not faked but show actual front line scenes. In some cases the dust thrown up by bullets fired at the operator show how real these pictures are. Do not miss it.

We sell Everything that Men and Boys Wear.

NEW SPRING HEADWEAR

HATS

Our new stock is here, and is large enough and varied enough to suit any Man's requirement of Style and Price.

We are showing many snappy new styles for Young Fellows, as well as the quieter styles for more conservative dressers.

HOME CIRCLE COLUMN

Pleasant Evening Reveries dedicated to tired Mothers as they join the Home Circle at Evening Tide.

Let us see, Father, I notice that you pounce upon Jack and scold him soundly whenever Mother reports that he has brought home a school grade card with a low mark or a failure on it. Very well. Perhaps the boy needs your jawing, perhaps not. But when you get through with him, please call him and Mother in and have them fill out a card for you on the following points:

1. Number of nights per week home with the family.
2. Take family to the movies with reasonable frequency.
3. Attendance at church services.
4. Take the boy on an occasional hike.
5. Abstinence from liquor and tobacco.
6. Attention to the boy's schooling and lesson preparation.
7. Teach your son respect for the integrity of good people.
8. Teach your son saving and thrift.
9. Parental example of patriotism.
10. Grade each point on a scale of 100 and figure the average. Below 70 is a failure.

This score card for fathers is prepared with a view to testing their efficiency merely as guides and examples for their growing sons, and not in any more general way.

In marking number one allow Father Sunday night for church if he goes, and one night out at the club or lodge, but hold him for the other five.

Grade well upon number two if he tries faithfully to see that his boy enjoys about one good, clean motion picture entertainment per week.

One faithful regular church attendance per week should constitute a passing grade, while two such would be perfect.

Father may not be in a position personally to go on many outings with his son, but give him about 85 per cent if he seriously plans for the boy to receive the benefits of the hikes under competent leadership.

If father requires his boy to abstain faithfully from liquor and tobacco, then grade him down on these points with cold-hearted justice, if he indulges in them.

Every boy has a right to a hobby of his own and should be helped by father in the enjoyment of it.

A little timely assistance with the boy's most difficult school lessons and a frequent admonition as to how to get along with the teacher and the fellow pupils is a reasonable standard for point seven.

Through casual remarks, occasional admonitions and his own personal attitude regarding the matter, the busy father may teach his boy the habit of

respect for the virtues of ordinary men and women. It pays in every sense of the word for us parents to hold a favorable opinion of the common run of citizens about us, and it is our obligation to teach this same optimism to our children.

Not so much the amount of money Father earns but his manner of using it will be emphasized here. Is he merely spending his boy for being a spendthrift and prodigal, or has he a working plan of thrift which he both exemplifies in his own life and makes applicable to the training of his son.

If you want cheerfulness in your home, you must have sunshine and genial hearts. Plan to live in the sunshine; if there is a pleasant room in your dwelling, live there; if there is a dark room, shut it up; keep the children out of it; if you have troubles shut them up there—never take them into the family circle—give home the sunniest thought and plans of your whole life, and fill it with love, joy, peace, gladness—sunshine.

True riches do not consist altogether of money. A man may be rich and not have a dime in his pocket, or even a pocket in which to carry a dime if he had it. A happy disposition and a sound body is worth more than pure gold, and a clear head and good parentage more than any amount of money that can be named. The magnitude of one's bank account is an exceedingly poor means by which to determine the genuineness and value of one's possessions.

From the morning when the Creator first called into being woman to be man's helpmate on down through the centuries until this eventful period in which we live, in all the hopes and aspirations which have stirred men's souls in all the struggles and crises of the great drama called life, struggles with self and sin, with passion and pride, woman has ever stood by man's side, his noblest, his truest, purest, most disinterested friend, pleading, praying, whispering words of encouragement, lifting him in strong arms of love toward heaven; and 'tis not her fault if he enters not its golden portals.

Take the trouble to get well acquainted with your children, and to interest yourself in their pastime, etc. By this means they will learn to trust and confide in you, and are not easily led away by outside influence.

WINTER EGG PRODUCTION

(Experimental Farms Note.)

The possibilities for making a good profit from winter eggs were never better than they are at the present time; although many poultrymen and farmers have reduced their poultry activities during the last year, thinking that at the present high price of feeds, profits from eggs would be impossible. However, the profit or loss from the poultry business does not depend upon feed alone. The successful poultryman must pay the strictest attention to all the essentials of care, feeding and management, if he is to make his work profitable. Even the slightest negligence on the part of the poultryman in any of these essentials may mean the loss of many eggs. A high producing hen is like a very delicate machine, easily put out of repair. Anything that interferes with the health of the flock for even a day may cause a high producing flock to become non-producers for a period of from two or three weeks or longer. Remember a hen lays an egg, or doesn't, never a half. All hens or pullets should be efficient transformers of raw materials into a finished product. This transformation, to be the most profitable, should take place when the price of the finished product (eggs) is at its maximum which is during the winter months. All hens or pullets tend to consume a similar amount of food, regardless of whether they are good or poor winter layers. It is during the winter months of November, December, January, February and March, when the poultryman has to supply his flock with all of the following: grain, mash, vegetable and animal food, grit, shell and charcoal, that his expenses are the heaviest; therefore if, by careful and judicious feeding and management, he can have his flock producing eggs enough to defray expenses, or to give him a small profit, he is bound to be more successful than the poultryman who has to pay the winter's board of spring egg production.

During the months of November, December and January, the egg production at the Experimental Station, Charlottetown, from a pen of 50 White Leghorn pullets was November 159, December 623, January 762, making a total of 1544 eggs.

From these records it will be seen that the White Leghorn pullets averaged 3-18, 12.46 and 15.24 eggs for the months of November, December and January respectively.

The cost of feed consumed was—656 lbs whole grain \$21.84, 328 lbs mash \$24.47, 38 lbs shell 70c, 15 lbs grit, 27c, 22½ lbs beef scrap \$1.35, and 500 lbs mangels \$2.50, making a total cost for feed of \$36.13.

The value of the 128½ doz. eggs at 55c was \$70.77; deducting the cost of feed \$36.13 left a profit over cost of feed for the 50 pullets for 3 months of \$34.64.

It will be seen from the statement above that these pullets not only paid for their feed during the time specified, but yielded a net profit of 69c per bird.

LEST WE FORGET

How Great Britain might have fared is pictured in the following comment: "There will be no such country as Great Britain in existence at the end of the war. In its place we shall have Little Britain, a narrow strip of island territory, peopled by loutish football kickers, living on the crumbs that Germany will design to throw to them." "Certain it is that the laughable and childish military system of Britain will shortly fall to pieces. Then the once mighty Empire, with her naval strength represented by the few old tubs, which Germany will have left her, will become the laughing stock of the nations, the scarecrow at which children will point their fingers in disdainful glee."—Cologne Gazette, Sept., 1914.

Drainage Lessens Damage Caused by Heaving

The heaving of plant roots, which so disastrously affects clover and alfalfa crops, is caused by the presence of an excess of water in the soil. Freezing water inevitably expands. Its expansive power is almost infinite. It bursts the most solid rock assunder. If the soil is full of water it cannot expand either downwards or sideways; it can only work upwards. Soil, crops, everything "heaves" as a result, provided the soil is a close textured one and large pore spaces afford no safety valve. In the spring when the ice melts, the soil settles back faster than do the roots, so that the plants are left "heaved" out of the ground. This often breaks the roots and kills the plant. Now the water does not stand near the surface of a well drained piece, and consequently little or no heaving occurs. Its granular condition also gives the soil a springy, resistant power, enabling it to absorb, to take up as it were the expansion of the ice without itself actually rising to any marked extent. No soil heaving or root tearing can take place where drains work well and are laid deep enough to keep the water level down near the frost line.

The Quebec referendum will likely be taken on the 10th of April.

The Orange Grand Lodge of Eastern Ontario is meeting at Cornwall.

An agreement has been reached among the allies concerning the strength of the army of occupation.

Premier Lloyd George has been urged by the representatives of France, Italy and the United States to remain at Paris for another fortnight before returning to Britain.

Gray Hair
Gray Hair Health
A preparation for restoring natural color to gray or faded hair, for removing dandruff and as a hairdresser's aid. Is not a dye. Generous sized bottles at all dealers, ready to use. Philo Hay Co., Newark, N. J.

LAURIER'S GREAT MEMORY

The marvelous memory of Canada's Parliamentary Nestor and his grip upon the Parliamentary proceedings of over forty years was unexpectedly instanced in the House of Commons on September 7, 1917, Senate amendments to the income tax bill were before the House, and the point of order was raised that the Red Chamber could not amend a money bill.

Hon. Speaker Rhodes, after hurriedly consulting authorities, found a case in May, 1874, in which Hon. Alexander Mackenzie, then Premier, had moved to accept Senate amendments to an act respecting the appropriation of certain Dominion lands in Manitoba, stipulating that the action should not be accepted as a precedent.

"It so happens that I was a member of this House at the time," said Sir Wilfrid Laurier, rising. "I was of course, a very young member then, but I have a recollection of the debate that then took place." The veteran Liberal leader then recited in some detail the debate of more than 43 years ago, differentiating between the land act then under discussion and the money bill now before the House. Meantime, the Speaker had sent for the ancient Hansard, and subsequently placed the record before the House. It was in exact accordance with Sir Wilfrid's memories, and both sides of the House paid its senior member the tribute of hearty applause.

One For the Cook

A Philadelphia woman did not approve of the dress of her cook. One day, as the cook, in a particularly stylish frock, showed up after a day off, the mistress said:

"Why, Mary, what elegance! It would be hard to distinguish the lady from the cook."

"Don't worry, mum," said Mary, "the cooking would tell."

For His Sake

A dentist strayed into town and one of his customers was Bronco Bill, a gunman. "Will you take gas to have that tooth pulled?" asked the dentist.

"Will it hurt if I don't?" demanded Bill.

"Yes, without the gas it will be quite painful," admitted the dentist. "Then," said Bill, "for your sake, maybe I'd better take gas."

DANGER LURKS IN EVERY ONE OF US

We Are As Full of Deadly Poisons As A Germ Laboratory.

AUTO-INTOXICATION OR SELF-POISONING

"FRUIT-A-TIVES" Absolutely Prevents This Dangerous Condition.

The chief cause of poor health is our neglect of the bowels. Waste matter, instead of passing from the lower intestine regularly every day, is allowed to remain there, generating poisons which are absorbed by the blood.

In other words, a person who is habitually constipated, is poisoning himself. We know now that Auto-intoxication, due to non-action of the bowels, is directly responsible for serious Kidney and Bladder Troubles; that it upsets the Stomach, causes Indigestion, Loss of Appetite and Sleeplessness; that chronic Rheumatism, Gout, Pain In The Back, are relieved as soon as the bowels become regular; and that Pimples, Rash, Eczema and other Skin Affections disappear when "Fruit-a-tives" are taken to correct Constipation. "Fruit-a-tives" will protect you against Auto-intoxication because this wonderful fruit medicine acts directly on all the eliminating organs. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

The peace conference has decided that the navigation of the Rhine would be controlled by an Allied commission.

Charles O. Smith, a 14-year-old Browning, Sask., boy, walked 150 miles to Winnipeg because he was tired of living on the family farm.

THE GIFTS THAT LAST!

Home furnishings make the most delightful of all Gifts. They are not just for a day. They are for years, add even for a life-time so,—

Why not Furniture for the new year?

The Hopper

of a concrete mixer has a good appetite and a great capacity at the top. But all that goes into it must pass easily through the narrow outlet at the bottom. If the man on the job goes away and leaves the mixture to harden in the hopper—he gets fired—that's all.

And the machine is put out of working order for a time. It's easy for you to satisfy your appetite with food. But if you neglect yourself, and the food waste clogs up, hardens and stagnates in your lower bowel—if you become constipated—your leggy machinery will suffer; and if you try to get rid of the mass by taking castor oil, pills, salts, mineral waters, etc., to force the bowels to move, you will only make matters worse.

You can't fire yourself for neglect. And you can't cure constipation by forming the habit of taking medicine every time you want your bowels to move. But you can overcome the trouble by taking Nujol.

Nujol brings about the habit of easy, thorough bowel evacuation at regular intervals, because Nujol is not a drug, does not act like any drug. Nujol brings about a return to Nature's methods by supplying necessary lubrication of the bowel contents, by facilitating intestinal muscular action, by absorbing poisonous matter, and thus securing necessary cleansing of the intestinal canal.

Nujol makes you regular as clockwork—use it, and you'll not have to worry about the size of your appetite or the ability of your body machine to get rid of dangerous food waste. Get a bottle of Nujol from your druggist today, and send for free booklet "Thirty Feet of Danger."

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. At all druggists. Insist on Nujol. You may suffer from substitutes.

THE SPRING TONIC FOR PALE, THIN PEOPLE

If You Want to Gain in Weight and Recover Your Appetite, Energy and Ambition, Try This Well Known Remedy.

With the passing of winter many people feel weak, depressed and easily tired. The body lacks that vital force and energy which pure blood alone can give. In a word, while not exactly sick, the indoor life of winter has left its mark upon them, and a blood-building, nerve-restoring tonic is needed to give renewed health and energy. Dr. Williams' Pink Pills are an all-year-round blood builder and nerve tonic, but they are especially useful in the spring. Every dose helps to make new, rich, red blood, and with this new blood returning strength, cheerfulness and good health quickly follows.

If you are pale and sallow, easily tired, or breathless at the least exertion; if your complexion is poor, or if you are troubled with pimples or eruptions, Dr. Williams' Pink Pills are just what you need to put you right. If you have twinges of rheumatism, are subject to headaches or backaches, if you are irritable or nervous, if your sleep does not refresh you, or your appetite is poor, you need the treatment which Dr. Williams' Pink Pills alone can give—you need the new blood, new health and new energy this medicine always brings.

A COMPLETE WRECK

Mrs. C. Forsythe, R.R. No. 2, Fisherville, Ont., says: "At the age of fourteen my daughter Viola was feeling very much run down in the spring. Then she was attacked with whooping cough which left her a complete wreck. She had no appetite, could not sleep well nights and was subject to chills which sometimes kept her in bed for the day. She was doctoring steadily but not apparently getting the least benefit, and I naturally grew very anxious. One of my neighbors suggested giving her Dr. Williams' Pink Pills, and I got a box. When she began using the pills she weighed only 87 pounds. Before the box was all gone I sent and got six more boxes, and under their use she constantly grew stronger. Her appetite improved, the color came back to her cheeks, she could sleep well, and feels and looks like a different person, and with all this while using the pills she gained 20 pounds in weight."

GAINED IN WEIGHT

Mr. M. B. Rickert, Kitchener, Ont., says: "I was weak, run down, and losing weight when I began using Dr. Williams' Pink Pills. I took the pills steadily for a month, and the difference they made in my condition was most gratifying. I gained both in strength and weight, and feel since I used the pills like a new person. I also recommended the use of the pills to my daughter-in-law, who was pale, thin and weak. When she began using the pills she weighed only 103 pounds and when she discontinued their use she weighed 137 pounds. For all weak people I think there is no medicine can equal Dr. Williams' Pink Pills."

A SPRING COLD

Mrs. Chas. Winegarden, Delhi, Ont., says: "Last spring my daughter Ruby was taken with a bad cold. She seemed weak, had a constant pain in her side, grew pale, and as the remedies usually used in cases of this kind did not help her we feared she was going into a decline. I decided to give her Dr. Williams' Pink Pills and got six boxes. Before she had used them all, she was again well and strong. The cough had left her, she had a good appetite, the pain in her side disappeared, and a nice rosy color had returned to her cheeks. I have therefore much reason to speak warmly in praise of Dr. Williams' Pink Pills."

A SALLOW COMPLEXION

Miss Gladys Marshall, Chatham, Ont., says: "I suffered from nervousness and my blood was in a very poor condition. My face broke out in pimples and my complexion was very sallow. I took doctors' medicine but without beneficial results. I was feeling much discouraged when a friend recommended Dr. Williams' Pink Pills. I used in all six boxes, and was overjoyed to find that my complexion had become quite clear, pimples had disappeared, my nerves were strengthened and my old-time health and ambition returned. I shall always have a good word to say for Dr. Williams' Pink Pills."

Notwithstanding the increased cost of all drugs, there has been no change in the price of our Dr. Williams' Pink Pills. They can be had through any medicine dealer at 50 cents a box, or six boxes for \$2.50, or will be sent on receipt of price by The Dr. Williams' Medicine Co., Brockville, Ont.

EXPERIMENTS WITH FARM CROPS

The members of the Ontario Agricultural and Experimental Union are pleased to state that for 1919 they are prepared to distribute into every Township of Ontario material of high quality for experiments with Grains, Fodder Crops, Roots, Grasses, Clovers and Alfalfas, as follows:—

- EXPERIMENTS FOR 1919
No. Grain Crops. Plots
1 Testing two varieties of Oats. 2
2 Testing O.A.C. No. 21 Barley and Emmer. 2
3 Testing two varieties of Hulless Barley. 2
4 Testing two varieties of Spring Wheat. 2
5 Testing two varieties of Buckwheat. 2
6 Testing three varieties of Field Peas. 3
7 Testing two varieties of Spring Rye. 2
8 Testing three varieties of Soy Soja, or Japanese Beans. 3
9 Testing seven varieties of Flint and Dent Husking Corn. 7

- ROOT CROPS
10 Testing three varieties of Mangels. 3
11 Testing two varieties of Sugar Mangels. 2
12 Testing three varieties of Swedish Turnips. 2
13 Testing two varieties of Fall Turnips. 2
14 Testing two varieties of Carrots. 2

- FORAGE, FODDER, SILAGE AND HAY CROPS
15 Testing the planting of Corn at six distances in the row. 6
16 Testing three varieties of Millet. 3
17 Testing two varieties of Sorghum. 2
18 Testing Grass Peas and two varieties of Vetches. 3
19 Testing Rape, Kale and Field Cabbage. 3
20 Testing three varieties of Clover. 3
21 Testing two varieties of Alfalfa. 2
22 Testing four varieties of Grasses. 4

- CULINARY CROPS
23 Testing three varieties of Field Beans. 3
24 Testing two varieties of Sweet Corn. 2

- FERTILIZER EXPERIMENTS
25 Testing Fertilizers with Rape. 5

- MISCELLANEOUS EXPERIMENTS
29 Testing three grain mixtures for Grain production. 3
30 Testing three grain mixtures for Fodder production. 3
The size of each plot is to be two rods long by one rod wide.

Any person in Ontario may choose any one of the experiments for 1919 and apply for the same. The material will be furnished in the order in which the applications are received, while the supply lasts. Each applicant should make a second choice, as the material for the experiment selected as first

FARMERS ELECT OFFICERS

Another meeting was held in the town hall on Tuesday under the auspices of the Maple Leaf Farmers' Club of Lanark county when a large number of farmers turned out to hear the representative from the United Farmers' Club of Ontario. Mr. R. H. Halbert, the president of the U. F. O., was to have been the speaker but he could not be present and in his stead he sent another representative, in the person of Mr. Howell, who gave a detailed and interesting history of the initial steps leading up to the founding of the Club and of the progress which had been made since throughout the province. An interesting address was also made by Mr. Hogan, of Perth, representative for Lanark county of the U. F. O. He urged that an aggressive campaign be launched in each township for membership in order to make the organization as representative as possible.

The officers of the local branch made a canvass of the audience for members and met with splendid success securing over one hundred members. The officers of the Maple Leaf Farmers' Club are as follows: Pres. and Manager—H. McCreary. Vice Pres.—Robert Pressley. Secy.—Byron Howland. Directors—Thos. Chapman, Jno. McArtor, Robt. McEwen, W. J. Rathwell, Thos. Gardiner, Thos. McCuan, Homer Simpson, Geo. Buchanan, Alfred James. For the convenience of any farmers who may wish to become affiliated with the club they may give their membership fee, \$1.50, to any of the above officers. Rooms for monthly meetings have been secured in the Central Canadian hall. The next meeting will be held on the first Tuesday of April, (1st prox.) and thereafter on the first Tuesday of each month.

The German military and civil authorities in Upper Silesia are making active preparations to resist Polish and Czech claims to that part of Silesia.

Illustration of a woman holding a box of Fry's Pure Emment Cocoa. Text: "It's dood for me". The Englishman Came Back. All who have visited Epsom have seen the big gates on which are perched two stone dogs. An American officer saw them recently for the first time. He approached a native with a joke on his lips, expecting to see it fall, flat, as he believed would be the case. "When do they feed these dogs?" he asked. "Every time they bark," said the Epsomite, and now this particular American is more of an admirer of Englishmen than ever.—Tit-Bits. Some Substitute. She is the best of women, and for four years she has worked untiringly. But the other day, at the N—sons N—hospital she was not exactly tactful. Seeing a newcomer in the habit of visiting, she said: "So you have lost a leg?" "Yes." "Ah, poor fellow! Have a chocolate!" The Charge. A man named Sissons had the misfortune to stay out late one night and create a disturbance, for which he had to appear in a Police Court the following morning. "What is your name?" asked the magistrate. "Ssss—ssss—sssss—" began the unfortunate Sissons, who stammered slightly. "Stop that noise and tell me your name," said the magistrate impatiently. "Ssss—ssss—ssss—" "That will do," said the magistrate severely. "Constable, what is this man charged with?" "I think, your Worship, he's charged with soda water," answered the policeman.

THE HERALD

TUESDAY, MARCH 25TH, 1919

The Canadian Pacific Railway earned 10.97 per cent. on the common shares in 1918.

Hon. W. J. Hanna, head of the Canadian end of the Standard Oil Company, former food controller for Canada and one time provincial secretary of Ontario, died in Augusta, Florida last week. Mr. Hanna was one of the late Sir James P. Whitney's strongest ministers.

The fight between free trade and high protection is on at Ottawa, and it will be a fight to a finish this time. Canada has too long been saddled by the highest tariff of any country in the world. Large revenues must however, be raised, and for this reason complete free trade would be inadvisable at present. A compromise should be affected by the extremists.—Kingston Whig.

The Housing Bill has passed the Legislature. It makes available something like \$10,000,000, of which the province loans \$2,000,000 and the Federal Government about \$8,000,000, for the building of houses costing not more than \$3,500 each including land. Major Tolmie, a Liberal member who has been at the front, proposed a Government grant of \$300 to a returned soldier or the widowed mother of a returned soldier to enable either of them to purchase a lot and so be able to avail themselves of a clause which authorizes the advance of the full cost of the house to such a party. The Government ruled the motion out of order.

Effect of the Armistic on Hoarded Money

There is reason to think that hoarding was practised a great deal more during the war than is generally believed. With peace assured, the hoarded money is now beginning to appear, and it is to be hoped that quite a lot of it may go to buy War Savings Stamps.

In the United States it is estimated that \$1,960,000,000 were hoarded by foreigners during the war period. Banking authorities say that since the signing of the Armistic, this hoarded money has come out to a surprising extent and this opinion is confirmed by the savings bank deposits. In New York State this class of deposits increased by \$39,400,000 during the period from December 28th, 1918, to January 12th, 1919.

Undoubtedly the cessation of hostilities has had a similar effect on hoarded money in Canada, for it is well known that hundreds of people of foreign birth drew money out of the bank and either carried it on their person or hid it. The question is—how much of this money will go into War Savings Stamps? The whole country is vitally interested in seeing that a large portion of it is thus invested, while it is to the interest of the person holding such money to put it to this use.

A bill was introduced into the Canadian parliament providing twenty million dollars for good roads covering five years.

A steady upward trend of prominent Canadian industrial stocks is shown by recent transactions on the Toronto exchange.

A foreign woman in Manitoba sued for divorce because her husband, she said, slept with an axe under his pillow.

The Allies are to furnish five hundred thousand tons of food a month to feed the stricken people of the devastated countries.

The decline in steel price quotations, in the United States, will, it is believed, have a stimulating effect on business generally.

Clarence Engel, Waterloo, fifteen years of age, accidentally shot and killed his sister, aged thirteen, with his brother's revolver.

E. D. Hand, aged 87, one of the oldest newspaper men in Canada, died last Tuesday. He founded several weeklies in the province.

Entry to Canada of immigrants of German, Austro-Hungarian, Bulgarian or Turkish races or nationality, has been prohibited, except with the permission of the minister of immigration and colonization.

The bulk of the large estate of William H. Yawkey, lumber and oil dealer, and former owner of the American League baseball club, will go to his widow and adopted son, Thomas, under the terms of his will filed. Mr. Yawkey died March 5 in Augusta, Ga., leaving an estate estimated at nearly \$40,000,000.

Woman's Statement Will Help Carleton Place

"I hated cooking because whatever I ate gave me sour stomach and a bloated feeling. I drank hot water and olive oil by the gallon. Nothing helped until I tried simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka." Because it flushes the ENTIRE bowel-tract completely Adler-i-ka relieves ANY CASE sour stomach, gas or constipation and prevents appendicitis. The INSTANT action is surprising.

W. J. Hughes, druggist.

FRANCE CAUSES DELAY

Objects to Plan for Rationing Germany.

Peace Congress Takes Step Backward and the Situation in Paris Commences to Look Serious—It Is Feared That Unless Conditions Are Improved in the Near Future Chaos May Result in Europe.

PARIS, March 24.—With irritation over delay manifesting itself more plainly every hour, with the news of Bolshevik success in Hungary pointing a direct moral, with unrest throughout the world growing in intensity the Peace Conference took a step backward Sunday when it became known that the French had formulated new objections to the execution of the British agreement whereby Germany was to be rationed. As a result the flow of food into that country had been held up, and, if conditions are not cured immediately, serious results are feared.

The matter has been thrown back to the Supreme War Council for consideration. France's reluctance to go further at this time arises through her insistence that exports from Germany should be limited and priority of delivery should be accorded the Allies, who should have the right to fix the prices they are to pay for such exports as they take. There is a further question of payment in francs and lire which would compel Germany to make good the loss in exchange or throw the loss upon the American purveyors.

A member of the commission who is a shrewd observer said that he believes France has come to the conclusion that her safety rests in permitting the disintegration of Germany, and that she is pursuing that policy by delays and objections. He differs from the wisdom of this view and fears that, with Germany in chaos, the rest of the world, and particularly France, will travel the same road.

The general situation is serious, and it would be foolish to attempt to disguise the fact.

One member of the conference said that the attitude in Paris was having its reflex in Germany, and that the German signature to a peace treaty was growing less probable each day because, if she signed, she would be, in her people's eyes, accepting slavery, which would bring on Bolshevism; and if she did not sign she would be thrown into Bolshevism anyway. It may be that, after all, the military terms will be submitted to the Germans secretly before further delays in other phases are encountered.

There is a lack of unison and absence of progress that has become marked in the last three days, and it is reacting gravely upon the whole body of the Paris proceedings. A shake-up is needed in the opinion of all who are conversant with the situation here.

MUST GUARD EX-KAISER.

Wm. Hohenzollern Receives Two Threatening Letters.

AMERONGEN, March 24.—There was a state of extreme alertness around the von Bentinck Castle throughout Friday night and Saturday in consequence of the former German Emperor having received on Friday two violently threatening letters, one emanating from Amsterdam and the other from the Belgian frontier, and also a telegram from a friend warning him of menacing peril.

All the Dutch gendarmes watching over the ex-emperor's welfare were kept on duty, instead of half their number being allowed their accustomed rest. Saturday morning all the garden paths in the neighborhood of the shed where William Hohenzollern was engaged in sawing wood were constantly patrolled by armed guards, while even outside the walls of the castle gendarmes were carrying loaded carbines.

One man was watching each of the four sides of the castle, and other precautions were taken to ensure safety.

Over 5,000 Jews Massacred.

NEW YORK, March 24.—The Bolshevik invasion of the Ukraine has resulted in pogroms in which thousands of Jews were massacred, 5,000 being killed or wounded in Proskurov, according to cable messages from the Copenhagen Zionist bureau made public here by the Zionists of America. Hundreds of Jews were killed in Berdichev, Zhitomir and other places, said the message, which declared the pogroms were instigated by Polish anti-Semites.

Trotsky Mobilizes Force.

PARIS, March 24.—The Esthonian-Lettish offensive against the Bolshevik is menacing Petrograd so seriously that Leon Trotsky, the Bolshevik Minister of War and Marine, has ordered the general mobilization of all men up to the age of forty-six, according to a Zurich despatch to the Matin.

Portugal Asks Large Indemnity.

PARIS, March 24.—The Portuguese delegation at the Peace Conference has transmitted to Lisbon more than two dozen reports drafted by the various conference commissions, according to a telegram from Lisbon. One of these reports, the message adds, demands for Portugal a war indemnity of £120,000,000.

Premier Expected Home.

OTTAWA, March 24.—Sir Robert Borden is expected to return to Canada about Easter time, although the date of his arrival may be later. There is said to be no truth in the report that it is not the Prime Minister's intention to again assume the duties of his high office in Canada.

Two hundred persons are reported to be dying daily in Petrograd from typhoid fever.

SENATOR TAYLOR ILL.

Was Well Known as Former Conservative Whip.

OTTAWA, March 24.—Hon. George Taylor, of Gananoque, member of the Senate, since 1911, for the district of Leeds, Eastern Ontario, and for twenty-five years previously chief whip of the Conservative party, is dangerously ill, as the result of a stroke of paralysis, and is not expected to recover. The Senator was stricken on Saturday, and has not since regained consciousness. Senator Taylor was born March 31, 1840, and is therefore almost 79 years of age. During the long period he was whip of the Conservative party he was one of the best known figures in the House of Commons, and enjoyed the confidence of Sir John Macdonald and the several Conservative Prime Ministers who succeeded him before the Liberals came into power, in 1896.

Senator Taylor continued in his post as opposition whip under Sir Charles Tupper and Mr. R. L. Borden, throughout the greater part of the fifteen-year period the Laurier Government was in power. While always a strong party man, he commanded the respect and warm personal friendship of the late Sir Wilfrid Laurier and other Liberal leaders in the House of Commons.

His retirement from the Commons to the Upper Chamber was due to the circumstances that after the general election of 1911 he resigned his seat for the constituency of Leeds, to provide a seat for Hon. T. W. White, now Sir Thomas White, who had been named Minister of Finance by Sir Robert Borden. Senator Taylor has been coming to Ottawa continuously during the session for the last thirty-seven years, having first been elected to represent Leeds in the Commons at the general election of 1882.

ANXIETY OVER POLAND.

Disposal of Danzig May Cause Difficulties.

PARIS, March 24.—Poland's problem remains unsolved. It is understood that Premier Lloyd George is opposed to giving Danzig to the new Polish state, although the Polish commission unanimously recommended it, and that the Premier rather favors the internationalization of the place or its transformation into a free port.

He also objects to the cessation on the ground of self-determination, of which he is an enthusiastic champion. He holds that in the corridor proposed between the Polish frontier and Danzig too many Germans would be taken under Polish rule. There would be 1,800,000 of them. The scheme of the commission would affect altogether about 2,200,000 Germans.

The Polish commission was asked to reconsider its report. Having done so, it has presented the same report again. Danzig serves the most extensive cotton manufacturing district in the world. Lancashire has a big trade with Lodz, which might be affected by the new Poland's fiscal policy.

The difficulty in dealing with the Germans over Poland is that they consider themselves victorious in the east, and they have no armistice with Russia to hamper their freedom of movement in that direction. Gen. von Hindenburg's headquarters are at Kolberg, on the Baltic southwest of Danzig, and the Germans undoubtedly appear to be preparing for a move against Poland. They are still refusing facilities for the landing of Gen. Haller's Polish divisions at Danzig.

FARMERS ARE UNITED.

Will Break Away From Old Political Parties.

OTTAWA, March 24.—Even in New Brunswick, which has been dominated by partyism for years, the farmers are beginning to break away from the old political parties. This is the opinion of Mr. John Kennedy, vice-president of the United Grain Growers, Limited, and a member of the Canadian Council of Agriculture, who returned to Ottawa Sunday from Woodstock, N.B., where he has been attending the first annual convention of the United Farmers of New Brunswick. Kennedy says they had an exceedingly enthusiastic convention, and that the farmers of New Brunswick are strongly in favor of a substantial all-round reduction in the tariff. They organized only a year ago and are low-tariff men rather than out-and-out free traders. They are now forming a platform, as framed at Winnipeg by the Canadian Council of Agriculture, as the only national platform now before the people of Canada.

"There were 300 delegates present from all parts of the province," added Mr. Kennedy, "and enthusiasm was very marked, particularly in regard to independent political action. They are very anxious to co-operate with the United Farmers of Ontario and the organized farmers of the West, and I believe that direct taxation and independent political action are going to bring the farmers of Canada together more quickly than anything else."

Mr. Kennedy is a native of Beaverton, Ont., and went out to Manitoba forty years ago. His headquarters are at Winnipeg.

Bedouins Attack British.

LONDON, March 24.—Reuter's Agency says it learns that telegrams received up to Sunday evening show a continued improvement in the situation in Egypt, but that the Delta region is still disturbed. Bedouins attacked a detachment of British troops in the Province of Fayum, middle Egypt, but were repulsed with losses.

A movement has been started to erect a monument to Sir Wilfrid Laurier on Jacques Cartier Square, in the heart of Quebec East, which he represented in the Commons for forty years.

Cairo has been placed under martial law, as a result of the extension of rioting by Egyptian Nationalists.

United States secretary of war, Baker, stated at San Francisco that the war cost 197 billion dollars and over nine million lives.

BIRTHS.

MOFFATT—In Ramsay, March 21st, to Mr and Mrs P. W. Moffatt, a son.

MARRIAGES.

GLOVER-SADLER—To the bride of the bridegroom, Wednesday evening March 19th, by Rev. J. J. Monds, M.A., Mr Thomas E. Glover, of Kingston, and to Miss Hazel Sadler, daughter of Mr and Mrs Thomas Sadler of Ramsay.

DEATHS.

MCNEELY—In Beckwith, March 19th, Mr. Ramsey McNeely, aged 81 years.

NEW ADVERTISEMENTS.

CARD OF THANKS.

I HEREBY acknowledge with sincere thanks to all who assisted her in her recent troubles and bereavement, and did so much to relieve our sorrow, especially the members of the Oddfellows Order. These acts of kindness were deeply appreciated and will not soon be forgotten.

MRS. W. MACHIN AND FAMILY.

CARD OF THANKS.

ON behalf of myself and little children I wish to thank all those who were so kind and thoughtful towards us, not only during the illness of my dear husband, but through those days when the shadow of his death hung so heavily over us. You were friends in need and friends in deed.

CHRISTINA INGRAM.

IN THE SURROGATE COURT

JUDICIAL DISTRICT OF REGINA;

In the matter of the Estate of MARGARET EDWINA CAMERON, deceased.

TAKE NOTICE that all persons having claims against the Estate of Margaret Edwina Cameron, late of Carleton Place, in the Province of Ontario, deceased, are required to send particulars of their claims and of any securities held thereon, verified upon oath, to the undersigned, one of the Executors of the Will of the said Margaret Edwina Cameron, on or before the 10th day of April, A. D. 1919.

And further Take Notice that after the said date, the executors will proceed to distribute the estate, having regard only to such claims as may be then received, verified upon oath as aforesaid.

Dated at Carleton Place, in the Province of Ontario, this 15th day of February, A. D. 1919.

ANNIE W. MCEWEN,

Carleton Place, Ontario.

DISTRICT NEWS.

APPLETON

The box social held in the village hall on Friday evening last was quite a success financially, over one hundred dollars being realized.

The sleighing is almost gone and the weather has become very spring-like during the past week.

Mr. Harold Garvin visited with Peterboro friends during the past week.

Miss Annie James, of Three Rivers, Que., is visiting her parents at present.

Mr. Fred Oxford has moved to his home across the river, having sold his former residence known as the Kirkwood home to Mr. David Fumerton.

Rev. Mr. Dobson, of Carleton Place, gave a very interesting discourse on the "Forward Movement" on Sunday morning, in St. Andrews church.

Mr. and Mrs. John Turner visited with Drummond and Bathurst friends last week.

Mrs. J. Morris, of Ottawa, is spending a day or two with her sons, Lloyd and Earl, in the village. She was accompanied by her brother, Driver James Draper, who has just returned from overseas after spending four years in the great war.

Mr. John McEwen sails for Scotland this week. Mr. McEwen has been in poor health for some time, and his friends hope that a visit to his old home and relatives may prove beneficial.

The Rev. Jas. Ellis, of Kingston, occupied the pulpit in the Methodist church Sunday afternoon and preached a very excellent sermon on the Forward Movement. Quite a number of years ago Mr. Ellis was over this pastorate, and his old friends and acquaintances were delighted to welcome him back again.

INNISVILLE

Mrs. Wm. C. Tretton arrived at her home here on Thursday, after spending a few days with her sister, Mrs. W. Killfoyle, of Smiths Falls. Mrs. Killfoyle accompanied her home and intends spending some time here.

Miss Zella Anderson, of Franktown, accompanied by Messrs. W. P. Killfoyle and Hugh Armstrong, spent last Sunday with Miss Elsie McLaren.

Mr. and Mrs. Benj. Crampton spent Sunday with the latter's brother, Mr. George Wright, at Hillside.

Several from here attended Mr. E. H. Sutherland's sale at Boyd's last Friday.

Messrs. W. Morris and Willie Dennison returned to their homes in Elgin last week, after spending a few days with friends here.

We are pleased to report that Mr. E. H. Bolton, who has been on the sick list for the past few days, is able to be out again.

Miss Annie Gardiner, accompanied by Miss Elizabeth Dial, spent the week-end at her home in the Scotch Corners.

Mr. and Mrs. Wm. Quinn and daughter, Eileen, of Ferguson Falls, spent a day last week with Mrs. A. McGarry.

Mr. and Mrs. S. C. Crampton spent Sunday evening with friends in the village.

ALMONTE

Mrs. Sinclair returned home on Wednesday from a visit with Carleton Place friends.

Mr. and Mrs. W. H. Williams announce the engagement of their daughter, Ruby F., to Mr. Frederick G. Garvin, son of the late Duncan Garvin and Mrs. Garvin. The marriage to take place early in April.

Mrs. Howard Conn has gone to Ottawa to visit her son, Lieut. Kenneth Conn, who is leaving on Friday for New York, where he will sail on Sunday for England to be absent some time.

Mr. P. W. Moffat of Ramsay brought two loads of wheat to the Whyllie Milling Co.'s mill on Friday last, one of which contained over 134 bushels and the other over 130 bushels, for which he received \$566.20.

Mrs. J. M. Munro left sunny California on Friday, on the California Limited, for Boston, and after a stay there of few months hopes to journey on to Almonte where she looks forward to spending the summer.

Mr. A. G. Horton is in Ottawa, where he went to undergo an operation, and he is now progressing towards recovery.

Mr. Hirst Taylor, who has been engaged in the gametting and shoddy business here for about eight years, has sold out to the Yorkshire Wool Stock Mills, Toronto, who will move their plant to Almonte and expect to be here

by the first of May. Mr. Taylor has been a busy citizen since coming to Almonte, and will now take a rest for a year or so, but will remain in Almonte.

At the First Presbyterian Church, Pasadena, California, by the Rev. Robert Freeman, M.A., D.D., on Tuesday March 4th, 1919, Miss Valdemir Edith Munro, only daughter of Mrs. J. M. Munro, of Highbourne Gardens, Hollywood, was married to Ensign Thomas J. Reynolds, son of Mrs. Thos. Reynolds of Waterville, Maine.

The Ottawa Valley Amusement Co. have purchased the Riddell & McAdam property and also the adjoining property belonging to Mrs. J. S. Patterson, the price paid for the whole being \$2000. The Co. intend erecting an up-to-date building to cover both lots, and to contain a modern movie theatre, and stores and offices for rental.

One of Ramsay township's oldest residents, Mrs. Alexander Lett, passed away at her home on the 4th line, on Thursday of last week, aged 87 years. She was born in Ramsay and spent her whole lifetime in the township.

LANARK

Serg. Peter McLaren, son of Mr. David McLaren, Drummond, has returned from overseas and is in Montreal awaiting his discharge. Serg. McLaren enlisted with the 66th Edmonton Battalion.

Mr. Ben Cameron died on Saturday last at his home at Hall's Mills. He was born in Dalhousie 31 years ago.

One of the first pioneers of the Red River Valley died at his home in East Grand Forks on Sunday morning, March 2nd, in the person of Timothy Sullivan, sr., aged 91 years. He was born in Ferguson's Falls, County Lanark, Ontario, Feb. 10th, 1828, and went west in September, 1877. Sullivan township was named after him, and his house two and a half miles east of the Red river was the first house built on the prairie in that district. Mr. Sullivan moved into East Grand Forks in the fall of 1877, and had resided there since that time. He took a keen interest in all public affairs, and for a number of years was a chairman of the county board.

A quiet wedding took place in the Manse, Middleville, on Tuesday 11th inst, when Nellie, third daughter of Mr. and Mrs. William McIntyre was united in marriage to Mr. John A. Herron of Harris, Sask.

Mr. Arch. Rankin of Middleville received a telegram on Monday from Chicago announcing the sad tidings that his brother, Mr. John A. Rankin, had died that morning. Deceased was 53 years of age and was born in Middleville on the 11th day of October 1865.

PERTH

Mrs. Geddes fell in the hall of her home Monday evening and sustained a fracture of her left arm just above the elbow.

Several local men were taxed heavy fines in Police Court this week for breaking the Ontario Temperance Act, one fine being \$200.

This winter has proved that Perth has been a good customer to the enterprising farmer with good hard maple for sale.

Mr. Richard Motherwell, of the 4th line of Bathurst made 178 trips to Perth, beginning some time early in December and delivering a load of wood each time. He has travelled in this time, over 1100 miles.

The marriage took place in St. James' church, Perth, March 19th, of Miss Elizabeth Laurine Farnell, daughter of Mr. and Mrs. George W. Farnell, Burgess, to Mr. William Preston Bell, son of Mr. and Mrs. James Bell, Beckwith. Rev. R. C. Phillips officiated.

The bride was unattended and looked charming in a dress of Dutch blue silk trimmed with fringe and silver beads, with hat to match and marabou fur. After the ceremony the happy couple left for Arnprior, Cobden and other points, where the bride and groom have many relatives. On their return Mr. and Mrs. Bell will reside in Beckwith where the groom has a home in readiness.

The bride and groom were the recipients of many useful and beautiful presents, including a cabinet of silver, cut glass and china.

Precaution

An eminent K.C., briefed in a great case, was appointed judge on the eve of the trial. Thereupon his clerk returned the brief with some regret, but not the cheque for several hundred guineas which had accompanied the papers.

The instructing solicitor stepped across to the K.C.'s chamber to offer his congratulations—and incidentally to draw attention to this little oversight.

"Yes," said the K.C., "I quite appreciate your point, but I am really sorry I cannot return the cheque. I would really be very glad to do so, but it would be against all precedent." Said the solicitor: "I quite appreciate your difficulty, and thought there might be something of that kind, so on my way to your chambers I called at my banker's and stopped the cheque."

"Wouldn't Miss the Goose" "Surely you are not going to slay that fowl," remarked the bystander to a man in Aesop's story as the latter walked in, axe in hand, toward the goose that laid the golden egg.

"Yes, I am," replied the owner. "What!" exclaimed the stranger, "and that bird producing 18-karat eggs?"

"Oh, shucks," responded the owner of the goose, "I wouldn't miss that bird much. I've got a cow that's giving 70-cent butter and 15-cent milk."

Agrarian strikes are spreading in the agricultural districts of Argentina. The farmers are refusing to plow the ground because of the low prices of products.

Tying on The Ribbons

There are hundreds of bright girls in Canada who are dreaming of careers for themselves—only dreaming. And yet the dream persists in coming back again and again. Must it always be only a dream? For most girls "No."

Nothing truer was ever said than that where there is a will there is a way. The girl who is worthy of having her dream come true will find a way to accomplish her ambition. She will not necessarily run away from conditions imposed by duty or hard circumstances but she will never lose sight of the vision of herself as artist, doctor, lawyer, teacher, scientist—whatever she means to become. And she is exactly the kind of girl who will slip away the pennies, earn them in countless quiet ways and buy not only Thrift Stamps with every quarter saved but will purchase more than one War Savings Stamp—putting in four dollars and drawing out five at the end of five years.

How many will she need to put herself through one year at college? At the end of that time she can earn more than ever and go back to tie the ribbon on her diploma.

Everybody's Corner. 25 words or less, 1st insertion, 25c; 2nd insertion, 20c; 3rd or subsequent insertions, 15c. Three times for 60c. Over 25 words 1c a word first insertion, 1/2c a word for subsequent insertions.

How Christian De Wet Lost Admirability by Acts That Displayed Treachery

THE recent refusal of the Cape Town Government to issue passports to Gen. Christian De Wet and Pieter Grobler, a grandson of President Kruger, who desired to proceed to Paris in order to submit proposals for an independent South Africa to the Peace Conference, recalls the futile effort of these irreconcilables and their confederates, Beyers, Maritz, and Kemp, to break up the Union and establish a republic in the early months of the great war. De Wet, captured in the field and tried for treason, was sentenced to six years' imprisonment, but, with Pieter Grobler, upon whom a sentence of two years was imposed, was soon pardoned for political reasons. It was no time to enforce the rigors of the law against a famous veteran who was still a hero in Boer households, or to make an example of a descendant of Paul Kruger.

No doubt the influence of Gen. Botha and Jan Smuts, who had accepted British rule in the belief that it would be for the welfare of South Africa, was exerted in favor of their old comrade in arms. The truth, of course, was that martyrdom for De Wet would have fomented the rebellious spirit still latent in the Transvaal and Orange Free State. The Transvaal, with a population of nearly 2,000,000, is the richest province of the Union, and it was wise to try

CHRISTIAN DE WET.

conciliation with those Boers whose loyalty was still under suspicion. They were chiefly the older men who had fought in the war of 1899-1902. A good many of the veterans were staunch supporters of Botha and Smuts, but there was an element that gave sullen allegiance to the Empire. It is active enough at the present time to agitate for independence and ask to be represented at Paris. The influence of the two veterans who have been honored by the British Government with high place and who have driven the Germans from Africa is so strong, however, that "self-determination" would doubtless show the Boer people of the Union to be satisfied with the British administration, which is liberal, progressive, and farseeing. The younger Boers understand its advantages, and are proud to be represented by such soldier-statesmen as Louis Botha and Jan Smuts.

Looking back, the rising which brought out De Wet from his retirement is seen to have been an irrational and dishonest enterprise doomed to failure. Maritz, who beguiled De Wet to his undoing, was an unscrupulous and graceless figure. The propaganda of the revolt was a tissue of lies to delude the Boer farmers who were out of touch with true conditions at Cape Town. At first they were allured by the promise that it should be a bloodless revolution. Then they were told that Botha had inspired and would lead the movement. Soon after Christian Beyers joined it he was reported to be bombarding Pretoria with German artillery. Maritz was said to be on the Vaal with 30,000 men and 100 guns. But when Gen. Botha took the field the rebellion crumbled like a fungus.

De Wet had had his choice to serve with the Imperial forces in the great war. He might have gone to France, so it was said, with a corps of British and Dutch Afriander scouts, but he elected to attack the Government of the Union from ambush. There is no doubt that he could have had a command under Botha or Smuts in South Africa. For his fame it would have been better if the ablest guerrilla leader that the world has probably ever known had at least remained in retirement during the struggle. He had been a most romantic figure and was greatly admired by a generous enemy. After the Boer war he was treated with consideration by the victors, and accepted office from them. In the rising of October, 1914, he lost his prestige as a soldier, and in a cause that had little to recommend it from any point of view he cut rather a pitiful figure.

Heat and Sound.

When the temperature is 23 degrees, sound travels 1,090 feet a second and one additional foot a second for each additional degree of temperature. Electricity over a wire where there is no resistance travels 192,924 miles a second.

Teutons Accept Defeat Without Much Dignity Future Looks Very Dark

THE moral backbone of the German people is broken," said a correspondent of the London Times who left Berlin at the end of January. "There is no dignity in the way they carry their defeat." Comparing the way in which the Germans take their loss of the war with the way the French acted after 1871, the correspondent continued:

"The Germans seem to have lost all spirit of enterprise. Only the most necessary work is done, and even that is badly done. Nobody seems to care. Nothing is done to transform the factories which had served the purposes of war into factories for peace production. In some of them the workmen are kept and paid, though the works stand still. The workmen pass the day playing cards. But do not think they are satisfied. In one factory where not a stroke of work had been done for months the workmen, or card players, even asked for an increase of pay and a six-hour day. When this was refused they threatened to strike.

"Capitalists do not dare to invest their money in industry, mines or commerce, but try to smuggle it out of the country out of reach of socialization and taxes. Several people whom I did not even know came and offered me large sums if I would smuggle their money and securities into a neutral country.

"When Germans discuss defeat, as they often do even with strangers, they never admit that they were beaten in a military sense. One often hears the expression 'our invincible field grays.' They admit two causes of defeat, the British blockade and British propaganda; these together shook the morale of the people and prepared the revolution. That even a decisive battle was fought between Cambrai and St. Quentin they ignore, as well as the fact that the final blow of Marshal Foch's offensive was to be delivered by Gen. Castelnau in the south about Nov. 15, which, of course, was known by the German negotiators and prompted their decision to accept unconditional surrender.

"It seems to me that only the Socialists in Germany understand that the basis of the armistice was an unconditional capitulation; the others seem to imagine that the armistice was a kind of preliminary peace in which Germany obtained certain guarantees on the basis of Mr. Wilson's fourteen points. Only the Socialists admit that the situation is such that the German Government will have to accept the Allies' peace conditions, however hard they are. But the Democrats still make an attempt to show some national pride, or perhaps keep up the national bluff dear to the old government. They often say that if the peace conditions go one single inch further than Mr. Wilson's points the Germans will have been cheated, and the Government will refuse to sign them.

"The Socialists hate war too sincerely to think of revenge, even if they also would resent a diminution of German territory and heavy indemnities. But the Conservatives are chauvinists, and preach revenge whatever may happen."

Pill-making Crabs.

These tiny creatures, most of which are about the size of a pea, are in abundance on the shores of the Malay Peninsula. They are usually first noticed on the beaches after the going out of the tide, when they make the beach look covered with loose, powdery sand and holes of various sizes. Upon looking more closely it is seen that little paths converge in the sand to each hole and that the sand itself is in minute balls.

At the approach of an observer there immediately becomes apparent a peculiar twinkle—the simultaneous and rapid retreat of a myriad of the tiny crabs into their holes.

Should the watcher take up his position by one of the holes and remain perfectly motionless, they will in time come out, when he can see them at work.

Coming cautiously to the mouth of the hole the crab will reconnoitre. Satisfied that no enemy is near, it will venture about its own length from its lurking place covered with loose, powdery sand in its claws, it deposits them in a groove beneath its thorax.

As it does so a little ball of sand is rapidly projected through its mouth. This one put aside, the process being repeated until the smooth beach is covered with little pellets or pills. This is evidently the crab's method of extracting particles of food from the sand.

Ancient Botany.

The oldest botanical work in the world is sculptured on the walls of a room in the great temple of Karnak at Thebes, in Egypt. It represents foreign plants brought home by an Egyptian sovereign, Thotmes III, on his return from a campaign in Arabia. The sculptures show not only the plant or tree, but the leaves, fruit and seed pods separately, after the fashion of modern botanical treatises.

A New Discovery.

A new heat insulating material composed of a mixture of a special clay and cork, has been discovered by a Norwegian engineer. The clay and cork mixture is burned, and the result is the formation of a very light substance that is said to be eminently suitable for all heat insulating purposes.

FOR STREET WEAR

One-Piece Dress Important Part of the Wardrobe.

Tailored Frocks, Not Suits, Predominate in Fashion Thoroughfare During Shopping Hour.

The one-piece dress for street wear is by far the most important single item of a well-dressed woman's wardrobe. Selecting garments for wear at home, whether for morning, afternoon or evening, is a simple task. Making these garments is equally simple; but a woman's reputation for being well or poorly dressed depends upon the selection of her street apparel. The suit long ago took second place. The fact that many suit manufacturers have included dress lines in their output during the past few seasons helps to prove this, if any proof is needed. A glance at any fashionable thoroughfare is another proof. Fully 80 per cent of the women seen during any popular shopping or promenade hour will be found garbed in tailored frocks, not suits.

Each season brings out its own special colors, with navy blue always in the lead, and this year much black is being worn. It is not the dull, lusterless black of mourning, but black satin and velvet and fine black velours.

Tailored Frock of Black Velvet.

The semitailored street frock shown in the sketch would be smart made of black velvet embroidered in color and with a touch of color on the collar, sleeves and belt. The skirt of this dress, while straight, shows a cleverly arranged fullness, with the upper part gathered in to the deep straight band at the foot.

The dress fastens at the left front and on the shoulder.

Inasmuch as a great deal of fur is being used as a trimming for street dresses this season, the frock shown would be handsome made of velvet in black or color with wide skirt band, girde, collar, and cuffs of a flat fur such as Hudson seal, beaver, nutria, squirrel, kolinsky, etc. If fur is used to trim the dress a muff and little fur toque to match may be supplied, and a charming outfit be the result.

OILCLOTH FOR GAME TABLE

Substitute for Linen Now in Marked Demand and Serving Numerous Good Purposes.

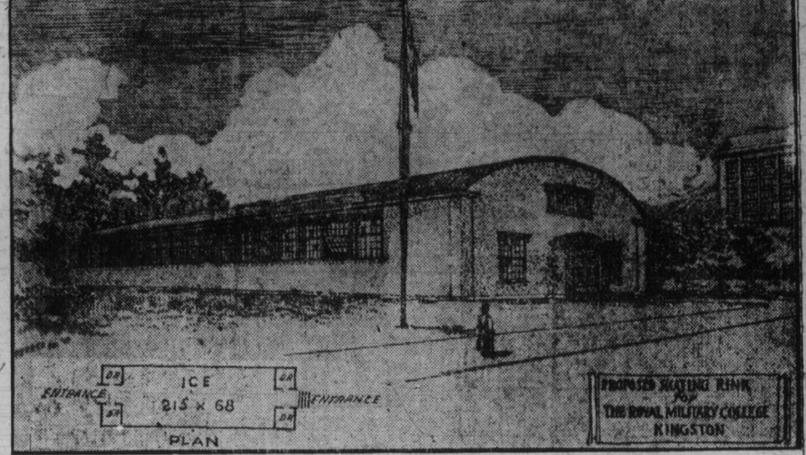

The vogue for using oilcloth, or any one of the new compositions which go under the same name, in place of linen is growing apace. And now comes the most serviceable game table cover of the oilcloth stenciled in the corners with appropriate designs. The advantage of such a cover can easily be appreciated when one considers how easy it is to wipe off the cover with a damp cloth after a strenuous game. Tapes stitched across the corners tie it to the legs of the table.

And again comes oilcloth in the very place where you might expect to find it—for a tablecloth and bib for the kiddie. This time the sanitary material is a light biscuit color and is stenciled in brown with nursery characters. A band of the brown paint around the edge of bib and tablecloth—which is really only a place cloth, large enough to fit the tray of the high chair—is the only finish necessary.

The Vogue of the Panel.

The vogue for loose flying panels on dresses seems to be increasing as the season develops. At first confined to the back, these loose and full-length panels are seen now on both front and back of formal, semiformal and afternoon frocks. They are frequently of a material different from that in the body of the dress and sometimes are of a different color. The combination of satin and serge is seen a great deal and, where the dress is all silk, the body of the garment may be of a shiny material while the panels are dull finished though of the same color.

NEW USE FOR AVIATION SHEDS

AFTER many years of waiting a covered skating rink has been secured for the Gentlemen Cadets at the Royal Military College at Kingston, and the acquisition of this building will give a great impulse to our national game—"hockey." Hitherto the Royal Military College hockey teams have had to get along the best they could, using the open ice on the lake and occasionally the city rink at Kingston. These limitations interfered materially with the quality of the game. On the demobilization of the Royal Air Force in Canada and the abandonment of the aviation camps at different points some suitable buildings, originally designed for and used as flight sheds (or aeroplane hangars) became available, and through the kindness of Sir Joseph Flavelle, Bart., Chairman of the Imperial Munitions Board, under whose direction these aviation camps were originally established, two of the flight sheds, each 120 feet long by 68 feet wide, were secured to form the basis of the new covered skating rink. The many friends of the Royal

Military College were not slow in taking advantage of this opportunity nor in coming forward to assist in carrying out the idea. The Canadian National Railways, through the courtesy of Mr. D. B. Hanna, its president, and the Grand Trunk Railway System, through the courtesy of its president, Mr. Howard G. Kelley, have undertaken to free-freight the material of the sheds from Camp Mohawk to the point nearest to the Royal Military College, to Kingston. Sir Herbert S. Holt, who is deeply in everything that makes for the welfare of the Royal Military College, has generously financed the undertaking, and a contract for the removal and reerection of the flight sheds above referred to, has been let to the Kingston Construction Company, who now have the work in hand. The Minister of Militia and Defense has approved of a site within the college grounds on which the covered rink will be erected. Mr. F. L. Wanklyn, General Executive Assistant of the Canadian Pacific, who is also deeply interested in the welfare of the

college, has taken charge of all the work in connection with the carrying out of the scheme. The rink, when completed, will be substantially as shown in the above illustration. The main building will be 240 feet by 68 feet wide, and the height from the underside of the roof trusses to the ice level will be 18 feet. Commodious dressing and locker rooms, 25 feet square, will be provided at one end, over which a gallery for spectators, capable of seating 300 persons, will be provided. The main sheet of ice will be 215 feet by 68 feet wide and this will, in the opinion of well known hockey experts (Messrs. "Riley" Hern and Col. Walter Maughan) make a most satisfactory hockey rink. The building will be lighted by windows all round and with electric lights for the evening. The outside will be neatly finished in cement rough-cast and present a generally attractive appearance. The originators of this project have received many congratulations from a host of friends interested in the Royal Military College.

CHAPTER IX.

Spells.

THERE was a dinner that included creations not found in cheap boarding houses—fried chicken, for example, tender and flaky and brown, and crisp waffles with honey, and sweet potatoes in the southern style.

Then there were cigars, mild and very good, smoked on the porch, both ladies protesting that they liked the fragrance of tobacco. And then the host, with the air of having come to the real business of the meeting, rose and said:

"Shall we have some music now?" "Oh, by all means!" said David politely, wondering how much credence he ought to place in the advance notices.

They went into the parlor, where Jonathan turned to Miss Summers. "Do you feel like singing this evening?"

"Yes," she said and went at once to the piano.

She played a few chords softly, and then her voice rose in a low crooning note that went straight to David's heart.

For she sang as the thrush sings—because God had put music in her heart and shaped her throat to give forth pure rich liquid sounds and meant her to be revealed through song. And that evening in the simple little slumber song she sang first there was no faltering or roughened note to tell that part of her gift had been taken from her. While she sang there was nothing in the world but melody and the rest of which she sang—and the singer.

She ended. But over at least one of her audience the spell of her voice lingered. For a long moment David sat motionless, lips parted, staring wonderingly at her even after she had swung around to face them.

"Why—he stammered foolishly—

"why—I didn't think—"

The rose pink in her cheeks became rose madder, and it was easy to see that she was happy over something. "Oh," she said, "it just happens to be one of my good days! Sometimes my voice leaves me in the middle of a note and lets me down flat." She laughed as though there were humor in that.

David did not laugh. He saw no humor in that. He could not believe that it had ever happened.

And so she became the Iris girl. But he did not suspect that yet. He was not looking for Iris girls. It is much to his credit.

They did not notice the excitement glistening in Jonathan's eyes.

"You have been practicing again," he declared.

"Just a little. And only for the fun of it. Not in earnest, of course. It's your turn now."

He said no more about her practice, but got out his violin, tuned it carefully, opened a book of music before her and waited for her to play the prelude. Then, tucking the violin under his chin with an eager, caressing gesture, he began to play.

That was a night of wonders to David. He was transported from a world of failures and disappointments into a

delectable land where a dinky little man, armed with nothing but a horse-hair bow and his own nimble fingers, compelled a gut string box to sing songs of love and throb with pain and dark passions and splendid triumphs. That is always magic, though some call it genius. And the magic did not cease there. It touched the player—transformed him. The homely manikin, a bit ridiculous with his mannerisms and whiskers, a trifle too obvious in his good will to others, disappeared. Where he had been stood a man strong but fine and gentle in his strength, proud and passionate, as strong men are apt to be, but brave enough to turn willingly from his chosen path

That Was a Night of Wonders to David.

because another way seemed best. David, watching the player's swaying body and transfixed face, understood, as even the blind little mother could never understand, how much her son had given to her.

"If only he could be playing always!" Jonathan's mother slept. But for two hours the man who was no longer manikin and the girl who in real life was only a frail little bookkeeper played to David—a brilliant polonaise, a nocturne that was moonlight and shadow set to music, a concerto that the masters attempt, a few noble old classics. Between them she sang thrice, songs chosen by Jonathan, each a little more taxing than the one before. Not once did she falter, and only once, in the last song, where her contralto voice had to take a flat above middle c, was there a hint of strain.

More than rare harmonies and melodies and rhythms were coming to David. Player and singer, though they did not know it, were giving themselves to him. This was the man and that the girl whom—rather patronizingly, as though he were conferring a favor—he had let proffer their simple, unaffected friendship! "He gave up his work of his own accord for that poor old woman who can't even guess at what it cost him. She was forced out of hers when success was in sight. I don't know which is worse. And they don't make gloomy grandeur out of it."

The last song, to which Jonathan improvised an obligato, ended the music. Esther—for that was her name—pointed in dismay toward the clock and the sleeping hostess.

"Thank you," said David from his heart. He was thanking them for more than the music.

Mrs. Radbourne stirred, yawning daintily. "Are you stopping so soon? My dear, you sang very prettily, particularly in the Largo. I remember Ole Bull in '67."

When that anecdote was concluded the guests rose to leave. Because it was very late Mrs. Radbourne prevailed upon Esther to stay overnight. David would not be persuaded. So they gathered around him at the door. And, having shaken hands, he said again: "Thank you. And I should like to say—"

A sudden awkward lump jumped into his throat. He began anew, "I should like to say—"

But what he would like to say would not be said. "Good night," he forced out abruptly and hurried into the night.

David walked home. When that absurd lump had been conquered he began to whistle determinedly, as became a young man who was no longer to make gloomy grandeur out of his failure. He kept it up until he reached the apartment and its chill loneliness smote him.

"Oh, Shirley," he cried. "If only you were—"

And that was another saying

he did not complete, because it might have been lacking in loyalty.

A new tenant for the apartment had been found. The next Saturday David turned the key for the last time on a scene of defeat. He was not sorry to leave. That night he took a train for an over Sunday visit with Shirley. She had been urging him to come.

"I know it's an extravagance," she wrote. "All the nice things are. But Davy Junior and I are so homesick for you." David's heart cut no capers at that even before he read what followed. "I'm afraid people will think it queer, your not coming, and of course I can't tell them it's because we are poor."

It was an unsuccessful trip from the beginning, though Shirley, all smiles and exclamations, met him at the station and hugged him so hard that she wrinkled his collar. She took him to Aunt Clara's in that lady's new car, saying, "Home, Charles," as if she had been born to automobiles and chauffeurs. There the day was taken up

"When do you think Mr. Radbourne will raise your salary?"

by many guests, including the resplendent Sam Hardy, in cutaway and silk waistcoat, New York made, that made David feel shabbier than he looked—come to inspect Shirley's husband. The only real "aside" he had with Aunt Clara, who quizzed him concerning the state of his debts.

"You are doing quite well," she was pleased to approve. "I begin to believe there's something in you, after all."

"Thank you," David murmured as politely as the case allowed.

"Now don't get huffy with me, young man," she said. "That's saying a great deal, from me to you. You can't expect me to fall on your neck."

"Not exactly," said David.

"Humph!" she sniffed. "Sounds much like 'God forbid' which isn't grateful. You've much to thank me for if you only knew it. Shirley's better off here—and you're much better off having her here—than back there pinching pennies with you. There are some things Shirley never could understand."

David answered nothing, but a little voice within was piping: "It is true! It is true!"

Aunt Clara looked at him sharply, then suddenly, to her own great surprise, blew a trumpet blast from her long nose and said:

"Tut, tut! Don't mind my impertinent old tongue. I like you better than I sound. You may never set the river afire, but you have a pretty patience I never had. And I could be a fool over you if I let myself. Do you want me to send her back home? I will if you say the word."

David hesitated a moment.

"Do you want her to go?" "No," said Aunt Clara. "Shirley can be good company when things go to her taste."

"Does she want to go?" "If she does," said Aunt Clara, quite herself once more, "she's bearing up under the disappointment remarkably well—for Shirley. I take it my question is answered."

Shirley and David went to the station as they had gone from it—alone in Aunt Clara's car. All the way he was trying to tell her of the new resolve he had taken when Jonathan and Esther Summers made music for him. It was strangely hard to tell.

"Shirley, I'm afraid you thought I was pretty babyish—about giving up my profession. I—I was babyish. I'd like you to know I've got my nerve back."

"Shirley was very sweet about it. 'I did think you were a little foolish to take it so hard, dear, when the old architecture never brought us anything but disappointments. I always knew you would come to look at it sensibly.' And she dismissed the subject with the carelessness it may have deserved. 'When do you think Mr. Radbourne will raise your salary?'"

"Probably before I have earned it." "David, do you think we'll ever be rich?"

"I suppose not. There seems little chance of it."

She sighed.

"There is nothing in the world but money, is there?"

Tears of self pity were coming into her eyes. "It's terrible, having to look forward to being poor forever."

CONDITIONING HORSES

Must Start Four to Six Weeks Before Spring Work Begins.

Time Now to Build Hotbeds—How to Construct It, Ventilation and Watering Most Difficult Problems, Injure Early Vegetables.

(Contributed by Ontario Department of Agriculture, Toronto.)

THE experienced farmer knows the importance of having his horses in the best possible condition to stand the strenuous work of spring. Upon his horse power depends, in no small degree, his success in getting his seed sown early in a well-prepared seed bed in the proper tith to bring best possible returns, for early seeding and a deep, fine seed-bed mean more bushels in the granary in the fall.

The actual practice of conditioning for spring work should commence from four to six weeks before the land is likely to be ready for the plough or cultivator. All changes in feeding should be made gradually. Straw in the roughage ration should gradually be replaced by hay until finally nothing but good quality hay is being fed. Careful feeders generally save their best hay for the spring work. The horse that has been getting little or no grain must not be immediately put on a full ration. Commence with a small feed, say half a gallon of rolled oats or, at most, twice per day and gradually increase this as spring draws near until the horse is approaching full feed. While the horse is still idle the percentage of roughage fed to the whole ration may be continued large. That is, at first half a gallon of rolled oats or, at most, twice per day and gradually increase this as spring draws near until the horse is approaching full feed. While the horse is still idle the percentage of roughage fed to the whole ration may be continued large. That is, at first half a gallon of rolled oats or, at most, twice per day and gradually increase this as spring draws near until the horse is approaching full feed. While the horse is still idle the percentage of roughage fed to the whole ration may be continued large. That is, at first half a gallon of rolled oats or, at most, twice per day and gradually increase this as spring draws near until the horse is approaching full feed. While the horse is still idle the percentage of roughage fed to the whole ration may be continued large. That is, at first half a gallon of rolled oats or, at most, twice per day and gradually increase this as spring draws near until the horse is approaching full feed. While the horse is still idle the percentage of roughage fed to the whole ration may be continued large. That is, at first half a gallon of rolled oats or, at most, twice per day and gradually increase this as spring draws near until the horse is approaching full feed. Education Worth All It Costs

It is a great satisfaction to lay money aside for the education of your children. Indeed you could not well spend money to greater advantage. Let your money accumulate in a savings account where interest will help to swell the total. Ask our local manager about opening an account.

RE SOLDIERS' RECEPTION

TO THE CITIZENS OF CARLETON PLACE.

Ladies and Gentlemen,—Think our soldiers are entitled to something more substantial than scrolls of paper. I would like to see all our returned town boys receive also a properly engraved pocket watch chain. Understand one of our leading Ontario mines produces over a ton of gold per month, and surely we might scrape up a chip of it for our heroes. The Citizens were generous to all the several Patriotic Funds, and I think they will "see it through" in the same generous manner. Suggest that a committee of Citizens get together, start a campaign, ask the banks to receive contributions request the ladies to make a canvas, and if they do, I think this fund would jump by leaps and bounds. Any surplus to be handed over for the Memorial Fund of our honored dead when it is started. Feel I shall always be indebted to these brave boys, and deem it a privilege to remember them in this way. Would like to be on the list for one hundred dollars and will be glad to give more if necessary towards said locks and chains, similar to those already given. Believe the different Organizations, Societies, Clubs, etc., which have worked so hard at war work, will be pleased to donate to this worthy cause. Give the boys something that they will wear, to take about with them, that they may well be proud of, and something to hand down that there is not a likelihood of its being destroyed. Would be glad to hear other citizens views.

Sincerely,
G. ARTHUR BURGESS

HATS OFF TO THE PRESIDENT OF THE BOARD OF TRADE.

Mr. Editor.—It is interesting to learn that a new C.P.R. Station and a better train service are within the grasp of the town. The committee appointed to interview the officials were greatly encouraged. In the looming up of this project it is to be hoped that the town will not lose sight of Mr. G. A. Burgess, the president of the Board of Trade, who was the prime mover in this undertaking. In fact, single-handed through his untiring efforts, he has sacrificed the interest of the C.P.R. in this matter, leaving the committee, so to speak, the simple task of but pressing the button. Not only at this time, but in the past he has given his time, energy and money unparagonably to further the interests of his home town. So keep on, Arthur, and our heartiest thanks for now, till at some future time, an opportunity may be afforded to assure you of our sincere appreciation.

A CITIZEN.

In Your Old Age

You are going to do in your old age just about what you are doing now. If you are sitting around finding fault with others; if you are grumpy and grumpy through jealousy and envy; if you are niggardly and stingy—you will entertain the same mental attitude when the twilight age falls about you. This business of going to do things is all tummyrot. You think you can grab your life away, and starve yourself now, and enjoy an easy, generous old age. You think that after you have made your fortune by grabbing everything in sight, you can lead a decent life in your declining years. But you can't; you can't change your habits and your disposition at will. You imagine you can settle down after awhile and devote yourself to more serious things. You are mistaken. You are getting out of life just what you will continue to get out of it—and that is exactly what you put into it. No man ought to desire to retire. He ought to want to get to a point where he can leave details to others and give his attention to bigger things, but he ought to find more in work than in anything else. He ought to strive to sit with his boots on, as they used to say out West.

Canada to Have an Air Force

Those who are desirous of joining the Canadian Air Force, which is to be established in the near future, should submit their names to the officer commanding the district to which they belong. It is the idea of the Canadian Government to establish a corps that will convey the mails and other lighter articles throughout Canada. Although nothing definite has been stated, it is expected that relay stations will be established in the principal towns in Canada. Aeroplanes that were in use for the training of the cadets in Canada may be used for this purpose. Men who submit their names are requested to do so at the earliest date possible as only a limited number of applications will be received.

The Renfrew Manufacturing Company has decided to dispose of its Peterborough plant used for the manufacture of munitions.

Convict Breaks Jail After Stabbing Guard

Leo Rogers, a young Russian Pole, who is serving a seven years term for robbery, made a desperate but unsuccessful attempt to escape, Saturday afternoon and as a result of his effort, John Barrigan, a Kingston penitentiary guard, lies in the Hotel Dieu seriously wounded. About 3 o'clock, Rogers, who has been employed in the prison kitchen, rapped on the west gate, and in reply to a query from Barrigan, who was in charge of the gate, he told him he had a note for him. The guard opened the gate and as he did so Rogers hit him on the head with a stick of wood. Barrigan was knocked down, but he quickly got to his feet and attempted to grapple with the convict, who viciously stabbed him with a knife which he had taken from the kitchen. The knife entered his left side below the heart, passed through the diaphragm and made an ugly wound in the stomach which required several stitches. Rogers ran along the outside of the prison wall, passed over the late Senator Richardson's property and on to the grounds of the Ongwanda Military Hospital. Captain Morrison tried to intercept, but he threatened the captain with an axe which he had picked up on the grounds. The captain being unarmed, naturally made no effort to detain the prisoner, who after hitting the door of the garage with his axe, crossed the road to the home of J. G. Ettinger. He entered the house by way of the kitchen, went up the back stairs, and when first discovered by a lady of the household, he was standing on the landing at the top of the front stairs. When asked what he wanted he replied: "I want money to go to my mother who is in the hospital." Mr. Ettinger, who had been sleeping, was awakened and succeeded in getting Rogers to go downstairs to the kitchen. Here he exchanged his prison trousers for a pair of overalls and a cloth cap. He had arrived hatless, coatless and bootless. In the meantime Mr. Ettinger had phoned the prison authorities and with the view of detaining him, was getting him a pair of boots. When George Laturney, the penitentiary accountant, arrived with a drawn revolver, Rogers made a bolt out of the back door. Laturney, who was right on his heels, said: "Stop or I'll put a hole through you." The fleeing prisoner did not stop and Laturney fired, but not at him. Rogers dropped on his knees and threw up his hands. Laturney ordered him to his feet and marched him away. In addition to the wound in his stomach, Barrigan has two severe scalp wounds. His hand was cut when he attempted to ward off Rogers' knife thrusts. His condition is serious but it is thought he will recover. Rogers, who is only about 18 years of age, has served nearly two years of his sentence, and until now has never given the slightest trouble. He is closely confined and will be arraigned in court in due time. Rogers was born in Liverpool.

Peace Gardens

The home gardening impulse of the two years of the war will not vanish now that peace has come. While the need for utilizing every available bit of earth is less pressing this gospel of intense conservation is still to be preached. As in many other activities it will be urged that what was good in time of war is also good in time of peace. All this is quite aside from the gardening habit that has been formed the last two years. Many a backyard gardener of 1917 was a blundering novice. Profiting by failures and fired by determination and enthusiasm the novices of 1917, favored by a better year, became almost expert in 1918. They learned the pleasure of making the earth work for them, they proved the advantage of utilizing waste places, and they enjoyed the intense satisfaction of reaping the fruit of their own manual labor. These men and women are not going to break the gardening habit just because the Kaiser no longer menaces. The peace gardens of 1919 may be fewer than were the war gardens of 1918, but they will be many. They will be far more numerous than were the gardens of the year before the war. And this it seems may be rated as one of the enduring blessings that have come to the people out of the horror and cruelty of war.

Smiths Falls Papers Amalgamate

As a result of negotiations completed Monday the Smiths Falls News and the Rideau Record newspapers are to be amalgamated in Smiths Falls with Mr. Harry Sutton of the Rideau staff manager of the company. Colonel Balderson, proprietor of the News, still retains his interest in the company. Mr. G. F. McKinnis, for many years proprietor of the Record, is retiring from the newspaper business.

SUMMARY OF NEWS

McGill University is to nominate a Rhodes scholar this year.

The situation in Egypt has improved greatly and Cairo and Alexandria are tranquil.

Cawthra Mulock's will was filed at Toronto, the total amount of the estate being \$2,351,211.83.

The Canadian Government has been asked to establish a direct steamship service with Jamaica.

Robbers made a haul from an express car at Niagara Falls, but overlooked a \$40,000 package of furs.

In order to retain her youth and popularity all a girl has to do is acquire a fortune and remain single.

The date for the election of delegates to the Hungarian National Assembly has been fixed for April 13.

The French Government has consented to the resumption of horse racing in France beginning May 5.

The Vienna Government has again notified ex-Emperor Charles that it is desirable he quit the country.

The action of the British Government in withdrawing support from stirring exchange may have far-reaching effect.

Major Reginald Conover, a returned officer twice wounded, has been appointed Customs Officer at Brampton.

Very Rev. Dean Davis, of London, Ont., is dead after forty-three years service as rector of St. James' Church.

The nineteen-year-old wife of a soldier who has just arrived from overseas by the Celtic was found dead of carbolic poisoning after a veterans' ball at Calgary.

A movement has been started to erect a monument to Sir Wilfrid Laurier on Jacques Cartier Square in the heart of Quebec East, which he represented in Commons for forty years.

Fort William Board of Education voted \$600 towards compensation to five teachers for the loss of their effects in a fire, and their fellow-teachers donated a day's pay, amounting to \$400 more.

A fund is being established at the Royal College of Dental Surgeons, Toronto, which will be used for research work, and also for treating the teeth of the poor.

Arrangements for the financing of an order for \$3,180,000 worth of Canadian ready-made woollen clothes and blankets for distressed Roumania have been satisfactorily consummated in London, England.

Great Britain will receive thirty thousand tons of potash from Germany. Negotiations with other Entente countries were not completed. The proceeds of the sale of potash will be credited to Germany in payment for food supplies.

An increase in travelling rates for soldiers has been sanctioned by the Railway War Board and accepted by the Department of Militia and Defence. The increase, affecting soldiers travelling individually or in bodies, is from two cents to three first class and from 1 1/2 to 2 1/2 cents second class. Troops moving in bodies of 350 or over by special train for distances of 100 miles or over receive a flat rate of two cents a mile, both first and second classes. The increases went into effect on March 9.

Another entry for the £10,000 prize offered by the Daily Mail for the first flight across the Atlantic was made in behalf of Major J. C. P. Wood, pilot, and Captain C. C. Wylie, navigator. They propose to make the attempt in an airplane of 375 horse-power, capable of a speed of 95 miles an hour when carrying a weight of 2,632 pounds. Major Wood has had considerable experience as an aviator, while Captain Wylie, in addition to his flying experience, has been navigating destroyers in mid-Atlantic.

CHURCH DIRECTORY.

Topics where given are for the following Sabbath

Baptist Church

REV. MR. J. F. FORSYTHE, Pastor.
Services—11 a.m. and 7 p.m.
The Pastor to preach.

The Pastor to preach.

St. James Church

REV. CANON ELLIOTT, Rector.
Services—11 a.m. and 7 p.m.

Zion Presbyterian Church

Services—11 a.m. and 7 p.m.
REV. W. A. DOBSON, B.A. B.D., pastor
A.M.—A Rash Vow.
P.M.—Average Ability.

Knox Church, Beckwith

REV. J. W. S. LOWRY, Pastor.

St. Paul's, Franktown

REV. MR. LOWRY Pastor.

SPRING WEATHER HARD ON BABY

The Canadian spring weather—one day mild and bright; the next raw and blustery is extremely hard on the baby. Conditions are such that the mother cannot take the little one out for the fresh air so much to be desired. He is confined to the house which is often over-heated and badly ventilated. He catches cold; his little stomach and bowels become disordered and the mother soon has a sick baby to look after. To prevent this an occasional dose of Baby's Own Tablets should be given. They regulate the stomach and bowels, thus preventing or curing colds, simple fevers, colic or any other of the many minor ailments of childhood. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Two hundred persons are reported to be dying daily in Petrograd from typhoid fever.

Ex-Emperor Charles of Austria-Hungary will likely reside in Switzerland. The Federal Council has favorably considered his request recently made.

Rheumatism, Kidney or Stomach Trouble and Asthma Promptly Cured

For Rheumatism, Kidney Trouble, Indigestion, Dyspepsia, Biliousness, Sick or Sour Stomach, Bitter taste in the mouth, Loss of Appetite, and Asthma, this medicine has no equal. Two to five doses will cure Sore Back or Sluggish Kidneys.

Corporal W. Lewis No. 305525, 1st D.A.C. at present residing in Eganville, Ont., writes:—"I was 18 months in France and went through the battles of the Somme, Vimy Ridge, Lens, Hill 70 and Passchendaele. On account of Kidney Trouble I was invalided to England. I was treated there for some months in the 5th, and 11th Hospitals, and was finally invalided home to Ottawa, where I received treatment in the Convalescent Home. I was finally discharged as being medically unfit for further active service. Having heard of your Victory Rheumatic and Kidney Cure, I decided to try it, and after using four bottles I feel certain it has made me as well as ever, and I am gaining in weight every week. I can highly recommend it to any sufferer from Kidney Trouble as a sure and quick cure."

Mr. W. J. Payne, Renfrew, Ont., writes:—"I had Rheumatism in my arms, shoulders and legs for over four years. At times I was unable to get on my coat without assistance. My kidneys were also in bad shape. Three bottles of your Victory Rheumatic and Kidney Cure completely cured me."

For sale by W. P. Pattie, Carleton Place, M. R. McFarlane, Almonte; L. A. Wilson, Smiths Falls; J. L. Rochester Ltd., Rideau St., Ottawa; or direct from the manufacturer W. F. Ritchie, box 296, Renfrew, Ont.

Price, 75c per bottle.
In remitting for mail orders add sufficient to cover postage.
