FORETOLD PRESENT TANGLE HOUSING COMMISSION IN LETTER TWO YEARS AGO

J. G. Richter Resigned From Commission on August 12, 1919, Because of Radical Methods Introduced by Other Members.

Following a "tip" issued to an Advertiser reporter this morning by a prominent city official, J. G. Richter, the first chairman of the Lepadon Housing Commission, was asked why he resigned from that position in 1919. Mr. Richter replied: "My reasons were given in the letter, namely, that I did not approve of speculation on the part of the commission in constructing houses, such as will later done on Garfield avenue. My anticipation of trouble has since been proved to be war-ranted, and further than that I have nothing to say." Richter's Letter.

The letter, on the files of City Clerk Baker, was then consulted Dated August 12, 1919, and addressed to C. R. Somerville, mayor of London at the time, it follows in full:

"When consenting to act as a mem-ber of the London Housing Commis-sion, I did so in the belief that duties of the commission would be confined to supplying houses for bona fide appli-cants, who would comply with the provisions of the housing act in this be

Council to the action of the city council at their last meeting when one of the market stalls was definitely leased to that concern. It was intimated to The Advertise today that Dr. Hugh A. Stevenson, M. P. P., well known as one of the champions of the municipal fish market, proposes to take some immediate action in the affair, and has promised, it is said, that he will "get after Ald.

Watkinson."

To Create Business.

"It should be emphasized," continued Ald. Watkinson, "that we should not endeavor to keep out any firm that wants to do legitimate business. The idea is not, as has been hinted, to put the city fish market out of business, but rather to create business. We recommended the rental of one stall to this company for the purpose of supplying fresh fish to the consumers of London who desired the same. As a matter of fact, there are six empty stalls in the market house used only as receptacles for old bottles, rubbish, etc. Further-more, the company is going to be taxed louble the rent.

A Free Market. "It's a free market, and these people have guaranteed to supply fresh fish at certain price. I understand that one of the labor delegates at a recent meet ing claimed that the fish to be handled would come from Vancouver and the west, and would be more than two years in cold storage. I do not know where he gets that information. This is a local concern, with many branches, and they obtain their fish from Lake Erie and deliver it to the housekeepers of London at a fair price. I can't understand these objections whatever."

Competition Good.

"Labor has always hollered 'competition,' and here's where they are going to have it," explains Ald. George Wenige. "They have always been emphatic." phatic in their claim that an exclusive right is only a detriment. Incidentally was decided to depart from the plan of dealing with bons fide applicants and enter upon a program of speculative building in the professed belief that houses so built will better serve the purpose in view.

Motor Bandits Rob Springfield Citizen, Liquor and Money

Claim of Ald. G. Wenige in Home of Albert Oliver Entered by Four Men at 3 o'Clock This Morning-Forced To Reveal the Hiding-Place of Liquor—Locked in Bedroom Before Robbers Effect an Escape-Elgin County Police Begin Search.

[Special to The Advertiser.]

Aylmer, Aug. 5.-Four motor-car bandits forced an entrance into the home of Albert Oliver at Springfield, eight miles east of here, at 3 o'clock this morning and compelled him, at the point of a revolver, to reveal the hiding place of his private stock of liquor. After securing all the whiskey in the house and \$85 in "I should like to hear from them money, the robbers made their escape, driving east at high speed.

Mr. Oliver was forced to go upstairs and was locked in a edroom before the men made their escape. All four were youths, and are believed to be the same gang that previously raided and robbed the homes of several citizens near St. Thomas.

The Elgin County police instituted a search immediately upon being notified of the robbery.

Ulster Members Will Not Consider Any Proposal That Tends To Diminish Powers—De Valera and His Followers Are Favorable to Another Conference, of All Parties Concerned, To Be Held in London.

London, Aug. 5 .- Another meeting of the Ulster cabinet has been called to discuss the Irish peace negotiations, it was announced today, although it is reiterated in Belfast that no message has been received there from Eamonn de Valera. It is added that no overtures will be entertained which dimin-

ishes the powers of the northern parliament. Nonetheless, the Imperial Government continues optimistic as to the outcome if it can get the opposition leaders together.

While the Sinn Fein leaders are maintaining silence, it is believed Mr. De Valera and his advisers favor a conference in London and will support before the Republican Parliament a proposal for such a conference. It is hoped in Government circles here that the Republican Parliament will announce its willingness to open direct negotiations in London for the future government of Southern Ireland, while attempting, through other sources, to make an arrangement with Ulster. The Ulster cabinet meeting was called for this afternoon.

Perhaps, if one were more thoughtful still, he might see in the new buildings all the wonderful history that is to be enacted within their walls, and so might be substituted the romance of the future for the glamor of the past. But Futur-ism as a philosophy or state. ism as a philosophy or state of minima as a philosophy or state of minima has faults as well as good points. Futurism makes mistakes. Futurism may be quite right in discarding the traditions, the dogma, and the superstition of the the dogma, and the superstition of the past, but Futurism will make mistakes in turn, if it falls to heed the fundaons that the Past has taught humanity. D'Annunzio made mistakes in governing Flume, and Bolshevism, a der kind of Futurism, made mistakes

Only Commonplace.

Today, the 5th of August, 1921, precisely speaking, it is safe to assert that 99 per cent of London's population looks out upon London's principal thoroughfares and historic old streets and see only commonplace, humdrum sunlight playing on dirty pavements, and a certain amount of business. But a very great proportion of 99 per cent of Londoners will be able to recall a time in their lives when Romance beckened with compelling and hypnotic fingers on every street and corner. A very few members of the Historical Society, for instance, will look back and see in raminstance, will look back and see in ramshackle, dilapidated old buildings, past associations of princes, generals and other famous people. Some far-seeing minds may look forward and see the glory and the activity of the future when London will perhaps at a con-servative estimate be a city of a quarter-million. Still fewer yet are those who can look out today and see romance in the making, the evolution of the his-toric and the picturesque—the peanut vendor patiently selling his wares that his grand-daughter may be educated to sing in grand opera, or the shoe repair

From the standpoint of aesthetic con-siderations, the tree-sheltered streets of London, Ont., are probably not surpassed by any city of equal size in America. And architecturally the residences of London will compare favorably with those of the best built cities ably with those of the best built cities on the continent. London has no great public buil ligs. There is no use trying to ke out that London has. St. Peters Cathedral, were its long-deferred towers added, would be the first unit in the architectural attractions that some day this city may boast. But in the matter of parks, boulevards, residences and schools of modest size, London need fear no comparison, perhaps, anywhere. The one underlying principle in the aesthetique of London's streets width, the greenness of their neat boulevards, and the cool shelter of their ever-arching trees. Most of those trees are maples. The maple is graceful. stately, but lacks certain elements of natural picturesqueness, such as the elm and the willow possess. Why-there ere so few elms along London streets is not obvious. Perhaps it will occur to someone else. But if you are going to erect more imposing buildings, you should plant elms. The elm is the chief mercenary bleakness of a factory wall, or tone down the harshness and the height of a neighboring sky-

As most people know, apartments rooms and boardinghouses cost much less in the university districts of a city like Toronto, for instance, than at a greater distance from the schools and colleges in the same city. London's student population has never been large enough in the past to claim a district all its own. Hence in that district clustered around Talbot street, in the vicinity of Maple and Kent streets, stenographers and clerks comshould plant elms. The elm is, the chief element of the picturesqueness found in many New England cities. BARN RAISING IS STILL FEATURE OF COUNTRY ACTIVITY

Successful Raising Held On Farm of R. Kennedy, London Township.

Not yet have barn-raisings become events of the dim past, for yesterday a most successful one was staged on the farm of Robert Kennedy, lot 26, con. 6, London Township. More than 100 farmers participated. At 3 o'clock Reeve Ed Douglas of London Township, who was master mechanic, appointed D. A. Graham, formerly warden of Middlesex County, and Capt. T. E. Robson, county treasurer, team captains. After seven or eight bents had been put together, the selection of the teams was made.

Although the barn was a large one it was raised by 6:30 o'clock. Two of the plates used were 50 feet long and 10 inches square. The race was a close and exciting one, but not an accident occurred, nor did a cross word pass between the rival gangs. When the task was completed both sides claimed the victory, but the head framer declared a draw, saying that he had never seen two teams so evenly matched in all his nost successful one was staged on the

PRISONER'S STORY WINS SYMPATHY

Man Charged With Vagrancy Is Allowed To Depart.

George Lloyd, a Welshman, but no re-lation to Lloyd-George, was allowed to go this morning, after the magistrate had heard the evidence presented in police court in connection with a vagrancy charge against him.

He was arrested in the city by Constable Louis McCaughey, after Adrian Gould had complained of his actions. Gould stated that his car had broken down near Glanworth, and that he left it where the accident occurred. When he returned Lloyd was standing near it, and then came to the city with him and asked for money. He was given a new but as three tires were missing from the car, he was not paid for guarding it. The prisoner stated that he had been working on a farm, but had been laid off for a short while. He expected to go back to work this week. He said he earned \$1 a day and his board while on the farm, but had no money, as he had sent it all home to his family in had sent it all home to his family in Wales. The court decided that he was not such a bad sort of a fellow and allowed him to depart.

AUSTRALIA AND AFRICA ATTRACTING IMMIGRANTS

Kamloops, B. C., Aug. 5.—English emigrants are looking in the direction of Australia and Africa, rather than toward Canada. This is the opinion of Viscount Northcliffe, who informed Vancouver newspapermen here yesterday that his chief object of interest in Western Canada had been the opportun-ity offered for agricultural settlers from Great Britain.

Lord Northcliffe again declined to admit that he found any prohibition in the United States. He had found that the average person found "liquor easy to get, very expensive and very often bad," and added: "I prefer the ways of John Bull and the beer which he has years.

ORDERS EXAMINATION OF BODIES IN EFFORT TO SOLVE MYSTERY

Chicago, Aug. 5.—Two more bodies are to be exhumed in the investigation of the deaths of the Kolze family, Corover Hoffman announced today, in the effort to trace down what county officials assert may be a series of murders. Coroner Hoffman ordered exhumed the body of Mrs. Lena Kolze. If her body shows traces of arsenic, as did those of Mr. and Mrs. Fred Kolze, and John Demmer, whose widow, Mrs. Mary Demmer, has been questioned, the coroner said he would examine a fifth body, not related to the Kolze family, but embalmed by the same undertakers. The undertakers assert their embalming fluid does not contain arsenic.

Mrs. Mary Demmer, housekeeper of Fred Kolze after the deaths of her husband and of Mrs. Kolze, is being de-tained by the authorities in connection with the case.

Albert Black pleaded not guilty to a Mrs. Demmer was said to have admitted caring for her husband and Mr. and Mrs. Kolze prior to their deaths and also charge of breaking and entering the People's Garage and of stealing some for Fred Kolze and her jealousy of him, but denied the poisoning of any of the

"I am in favor, though," concluded Dr. Wilson, "in having the children's cases handled away from the police environment."

Ald. Wenige intimated this afternoon that as yet he has received no reply from either his last wire or a recent letter to Attorney-General Raney as to precisely just what powers a juvenile court judge would have.

"It begins to appear as though I shall have to go to Toronto to get a personal reply to my letter," suggests the councillor.

DISCUSS EMPIRE DEFENCE

The work of the imperial shipping committee was overhauled, and a suggestion to continue the committee under a royal charter was put forward and dropped in the absence of unanimative. On the question of empire news services the conference is understood have contented itself with approving the resolution of the 1920 imperial press, conference and to the conference and conference which concludes to morrow when the report will be finally adopted, cover a considerably wider range than has been indicated by the meastre official accounts. One of the most important debates centred on a constitution for the empire. It is believed, adopted the conference adopted a policy of laissez faire, contenting itself with south African delegates dissenting the limited field for white labor in South African.

IS LEFT OVER

The discussion of wireless communication revealed some divergence of opinion. It is understood an Australian delegate contended vigorously for stations of sufficiently high power to enable Australia to communicate direct with England as against the opposing view of more stations of less power. The latter view is believed to have gained the day, it being decided that Great Britain should complete the stations in the territory under her control, which as far as might be necessary Australia, South Africa and India also would erect necessary stations within their borders with New Zeland and Canada co-operating in the chain.

BIG DROP SHOWN IN LIQUOR "PERS"

TORONTO, Aug. 4.—In the month of June, 30,143 liquor prescriptions were issued by doctors in Ontario, against 53,183 in March last. The falling off is believed to have been the result of the warning sent out to the profession in May that unfavorable inferences would be drawn by the board of license commissioners from the practice by some doctors of overfseuing early in the month and curtailing to almost none in the latter part of the month. Only three doctors issued more than 75 prescriptions during June, and two of them are in Ottawa. These three are being suspended for a period.

LONDON, Aug. 4.-Extreme reticence ions. From a number of conflicting reports the only definite fact emerging reports the only definite fact emerging is that the Dail Eireann has been summoned August 8, but whether to register the success or failure of the negotiations there is no hint. It is supposed that this long notice is given to afford the time necessary for the formalities connected with the liberation of the members of the Irish Republican Parliament, to whom notification has been 'cent'.

the two accused challenged the authority of Judge Cussen to commit his clients to stand trial on charges of censpiracy to steal, and of stealing sums totalling \$120,000, the property of La Presse Publishing Company. Counsel in his argument claimed that the charges as laid by the prosecution involved eriminal breach of trust and that the law provided that complaints of the nature should be authorized by the attorney-general of the province before proceedings in enquete were started, which had not been done in this case.

The proceedings this afternoon were principally taken up with arguments between counsel on the point raised above, and at the end of the afternoon it was decided to adjourn the argument until Monday morning. Have Held Parleys.

It is known that there have been parleys between Dublin and Belfast with parleys between Dublin and Belfast with a view to ascertaining the minimum Ulster is disposed to accept, and, despite adverse rumors the belief continues here that it is in the interest of the Government itself to prevent the breakdown of the negotiations, and that therefore any influence the Government is able to exercise over the Ulster cabinet will be in the direction of reconciliation between the North and the South.

Publishers' Association Seeking Best Way To Settle Disputes.

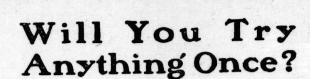

INDIANAPOLIS, Ind., Aug. 4.-The American Newspaper Publishers' As sociation is in favor of the principle of arbitration in settlement of industria disputes, but it contends that all re lations should be arbitrable, it was said today at the office of H. N. Kellogg, chairman of the special standing mittee of the association. It was explained that the publishers desired that laws of the International Typographical Union as they affect working conditions on newspapers should be subject to arbitration.

subject to arbitration.

At a recent meeting in Chicago of a publishers' committee and members of the executive council of the Typographical Union, the publishers' committee explained its instructions from the 1921 convention to the effect that no contract be made except one that will provide for the arbitration of any or all differences. The executive council members are said to have declined to agree to this proposition.

It was then decided that as comparatively few of the laws of the international union relate to working conditions of newspapers that representatives of the union should submit to the Quebec convention a proposal that efforts to agree regarding the application of these laws shall be made and if agreement is reached as to any of them they will be included in the contract, but those upon which there is disagreement will be subject to arbitration.

burglary at Doumachelle's home on June 21, when 39 cases of liquor were reported stolen. The judge, after hearing the evidence, concluded that the liquor burglary was bona fide, and declared Doumachelle free from the slightest suspicion.

"In a case of this kind," said the judge, "where the burden is cast upon the accused under the statute, it is always a rather difficult burden to carry. In this case the accused has brought in his evidence in a manner which is unusually convincing in a case of this kind, and Mr. McHugh, in presenting the evidence for the defence, did so in a manner which leaves no doubt in my mind. The charge will be dismissed."

no doubt in my mind. The charge wind be dismissed."

Quickly Arrested.

Doumachelle was arrested six hours after he had reported his home looted of liquor. Police doubted the report, because of the fact that the window glass, which had been broken, was lying on the ground, and they presumed that it had been broken by some person inside the house. Investigation, they said, also revealed to them the fact that the men had carried the liquor to a motor car three blocks distant.

Looted the Cellar. Liquor burglars looted the cellar at the home of F. W. and H. W. Harris, 521 Grove avenue, occupants reported to the police late last night. The burglary was carried out between 5 and 9:30 p.m. when members of the family were absent. A skeleton key unlocked the front door, and nine cases of whiskey valued at \$360 was carried away.

One thousand dollars was paid by On Lee, Chinese, 121 Sandwich street east, to escape going to jail for three months, when Judge Gundy imposed sentence for having narcotic drugs in his possession unlawfully. BOOST FOR LONDON, ADVISES LIONS' VICE

Emery Hamilton Addresses Local "Cubs" At Weekly Dinner.

"Let everyone try and get away from that pessimistic attitude. Let everyone boost," appealed Emery Hamilton, vice-president of the Lions Club of London, speaking to the members of that organization at their weekly gathering and dinner at the Tecumseh House Thursday evening. "Consider some of the larger cities, Toronto, Montreal, Chicago and soon. What is one of the first characteristics that you cannot help but notice in the inhalitants there? I'll tell you. The Chicago people are all for Chicago. The Toronto people are Toronto every minute, the Montreal people cannot see a better place than Montreal. And rightly so. Let Londoners be for London. This helps not a little." September 22 was selected at last night's meeting as charter night. This event will be marked by an unusual attendance, including visiting Lions and Tail-twisters from Hamilton, Chatham, Toronto and other of the larger and older dens of cubs.

Strongly Pro-British.
As the name signifies, the Lions Clubs are primarily British, although the most cordial relations between the empire and the neighboring republic are sought by means of the many Lions on the other side of the boundary line. A definite program of welfare work will be outlined in due course by this, the youngest of London's social organizations, and many valuable suggestions were advanced last evening. The members were seemingly of one accord with the proposal that institutions like the Byron Sanatorium and the Westminster Hospital be selected as one outlet at least for the social and helpful activities of the cubs, directly they have completed their charter preliminaries and are "away to a good start."

Efforts Appreciated.

As a number of the cubs pointed out, there is still a good field of endeavor along this line, in aid of the different women's and other bodies already engaged in the same work to no small degree. Brief periods judiciously devoted to the benefit of the many civil and soldier patients of these institutions are greatly appreciated—to a greater degree usually than is

persons.

After appearing before different associations in Montreal, Ottawa and Toronto, Frederic N. Withey, vice-president of the National Surety Company of New York, will address the London Lions at the Tecumseh House Aug. 22.

YOUNG FOREST FIRE IN ST. MARYS HEDGE

Peculiar Blaze Set Fire To Roof of House Also.

[Special to The Advertiser.]
ST. MARYS, Aug. 4.—The Stone
Town had its third fire within a week
tonight, and the latest blaze was an
unusual one. Around the home of M.
Sinclair on Widder street is a big
hedge of cedar trees. Someone, it is
believed, either threw a match or a
cigar stub into one of the trees, and
in a few seconds a young forest fire
was in progress. The flames destroyed
the entire hedge, and so flercely did
the trees burn that the roof of the fine
residence nearby caught, and also a
corner of the woodshed. The fire department was on hand quickly, however, and soon extinguished the blazing roof.

HANOVER WOMAN LOST ARM IN ACCIDENT

Mrs. Henry Seip Is Expected To Recover From Injuries.

HARRISTON, Aug. 4.—Two serious auto accidents occurred at almost the same spot on the Elora road, s.uth of town this afternoon. About 3 o'clock a car, driven by W. Walker of Guelph, struck some loose gravel near Cotswold and overturned. Mr. Walker had his wrist badly cut and suffered severe bruises. The car was considerably damaged.

bruises. The car was considerably damaged.

About an hour later a coupe, driven by Edward Selp of Hanover, overturned. Mrs. Selp, mother of the driver had her arm fractured and it was so badly crushed that it had to be amputated just below the elbow. Mr. Selp was taking his mother to Kitchener, his car being the last of four in a row. A new car, owned and driven by Jacob Hammer of Kitchener, after having passed the first three cars, ran into the coupe and overturned it. Mrs. Selp, who is 73 years of age, will probably recover. A third accident occurred in the evening, when two buggles collided just north of the overhead bridge. Mart Fulton was the driver of one, and Dave Palman of the other. The Fulton buggy sustained a broken wheel. The other was not badly wrecked.

POLICE COURT REFORM.

The royal commission which was appointed to inquire into the organization of the police system and the administration of the law in Ontario has come to very interesting conclusions, and makes some very pointed recommendations in regard to police of Jutland, and culminated in the ignominious scuttling courts. For example, the commission deciares that orgy at Scapa Flow. "methods that were followed thirty years ago are considered good enough for today. The prisoner is re- but is prepared to meet any nation half way until a garded too much as an individual to be punished, and real understanding as to international disarmament his reform a matter with which the time of the court has been arrived at. British law, as every Briton knows or ought to And all thy swaying fairles over floors know, holds that a man accused of any offence or crime of luminous water lying strange and bright is innocent until he has been proved guilty; but it is alleged that there is a tendency in modern police court procedure to hold a man guilty until he has been proved innocent, and the whole atmosphere of the courts savors of punishment, not of reclamation. It is complained that in some cities the proceedings are frequently too | every beauty urge and every trace of loveliness making hurried, and it is stated that a man is sometimes hustled off to the cells before he has had time to realize that he has been sentenced or what he has been sen-

They hold that it was not established by the police for the police, but by the community for the service of the community, and that the less of the spirit of the police there is about the court the better for the community. "Piers Plowman" was a fourteenth century poem written from the point of view of the masses, and satirizing the social abuses of the time. It would appear, therefore, that the purpose of the new histories will be to depict the changes that have marked the lives of the ordinary folk of England.

In our schools, English and Canadian history is gone over several times along much the same lines, personal, political and constitutional, all together. Possibly better results might be obtained if the political outline once covered were afterwards taken for granted, and work pursued along special lines, such as social, cultural and economic, in handbooks like those of the "Piers Plowman" series. The boys and girls do not learn sufficiently the life of the past as it was lived by the masses of the people. Already much improvement has been made for elementary instruction by the series called "Highroads of History," to be had at the Public Library. Secondary school history may perhaps be advanced in another way.

It will, therefore, be seen that the program of re acing four obsolete boats to be completed in 1925 does not contain any element of challenge or provocation; To the Editor of The Advertiser: moreover, these new battleships, which are to be of the Hood type, are designed to obviate the need of larger lockvards than at present exist.

But, as Lloyd George said the other day, the fact that Britain is making good the depreciation in her naval strength requires no apology from a nation to which the fleet has been the mainstay of her very existence. As an island kingdom, with the protection of her mercantile marine in time of trouble the greatest stake in the world, she cannot afford to allow her warships to go to rust and decay, while other countries vie with each other in putting on the sea vessels which outclass anything that Britain has got. As Winston Churchhill, secretary for the colonies, points out, the fact remains that if Britain delays another year the construction of necessary vital units, she will have to face a position of definite and perhaps final naval inferiority; she would sink to the third naval power, and, having with that other quotation. "Vengeance is mine, I will repay, saith the Lord." Institute wisdom alone knows whether a

This was the object which Germany strenuously strove to attain before embarking on the Great War. She was feverishly building ships for years, and trying to hoodwink Britain into doing just the opposite. Her responsibility when it orders the killing idea was that Kiel and Bremerhaven should resound with the clang of the rivetter's hammer, while Newcastle, Belfast and Glasgow were silent. Mr. Churchill, then at the head of the Admiralty, with the sanction of the British Government, tried to get Germany to call a halt in her mad scramble for sea power, and brought forward a definite program of mutual disarmament; but the Kaiser, in the excess of his megalomania as lord high admiral of the German fleet, would have none of it, and while Britain, in order to set Germany an example, actually cut down her naval estimates, that country went ahead with her insane dream of ruling not only the land but the seas as well, which was shattered at Heligoland Bight and at the Battle

The charming bride, who was unattended, was given away by her father. Her gown was a French creation of white taffeta, over which she wore a bridal vell, and she carried a shower bouquet of white roses and illies of the valley.

Or maybe she would drop in unexpectedly. That would be amusing.

She went to sleep that night and dreamed delightful dreams.

The library of Mr. Bellairs' country place was a large panelled room, severe in furnishing, but comfortable.

THE SUMMER FOULARD. The coat dress has become an im portant factor. Time was when it was sturdy material; the same sort of fabric one used for their utility suit or their street dress. This summer has taught us that a coat dress may be of foulard, or summer silk, or of the ever-popular crepe. A model worn recently by a woman noted for her distinctive clothes His aunt, too, had been unusually gracious. That haughty lady had actually unbent sufficiently to express the hope that Mary would be comfortable, and the hope that was recovery wouldn't make was made of a foulard that has been

blue ground with confetti dots. There are sure to be foulards worn each summer whether fashion really approves or not—just now fashion does approve—as who would not of the very smart and unusual designs which have taken place of the old prints of former

seasons?
A good many of the smartest foulards of the season are black and white, and many of them are distinctly Oriental in spirit—some with white grounds against which little Japanese and trees are silhouetted, and others with black grounds, smartly splashed with white.

Experience has taught most of us that the figured fabric is difficult to wear unless one is in the divinely tall and the divinely slender class, but by com-bining figured and plain materials women are able to indulge their fancy ir picturesque prints. At present, when most design interest centers on the skirt and the bodice is left pretty much alone it is wise to use the foulard of flowered georgette, or whatever ma-terial is to hand for the skirt. One very clever dress made in one piece had a black foulard with a large ring used for the skirt, and plain black for the bodice; but the union of the two fabrics came not at the waistline, inches or so above it the white wheels being cut and appliqued onto the plain black at the joining. A sash of the black material fringed at the ends was

the only trimming color and charm to frocks just now It is quite the mode to wear a dark frock and girdle it with a brilliant color, the girdle sometimes being of beads, for one of the newest notes from abroad is the use of beaded metal and jeweled girdles. A practical frock made on the familiar lines of theever-popu lar wool jersey model with its simple turnover or pinafore collar of white made of heavy Canton crepe and girdle with a scarlet sash in which threads of gold are woven. This sash was tied directly at the front, and gave a stunning touch of interest and color to a dress otherwise commonplace.
Many of the new beaded girdles have
strands of beads falling Egyptian fashion down the front, while others have sons are in the water swimming at almost any hour of the day this time of year, and inevitably among so many one here and there is going to die unexpectedly. It is customary in every such case to assume that the victim had "cramps." the pendants at the side.

(by Vincent G.Perry) THE BANDIT DOGS. Part Eleven. Little Cha had been a show dog long nough to know how to steal out of a rage that was locked merely with a hook-and-eye lock, and that's the kind of locks that were on the doors of the cages the dog catcher put the dogs in at the dog prison. When all was still, little Cha wiggled and wiggled the door and bunted his broad little nose underneath it until the lock slipped up and the door swund open. It was so long since Cha had tried that trick he had been almost atraid he wouldn't succeed, but now that he saw he had succeeded he could have yelped for joy had he not been afraid to bring the dog catcher back to see what the matter was. This didn't bring the uncouth Vehics to their senses, however. In the second Shay went up in the air and made a one-hand grab of Dugray's liner thich discourage them temporarily; but in the third they bounced up as serene as ever, Gray showing the bad example to his crowd by banging out a two-bag smash to center field. Emmer sacrificed him along to third, from where he scored when Roseberry's choice to Pinto didn't give the London hurler much time for the play at the plate. The umps ruled Dolly safe, anyway. This happened to be their last, though they didn't know it at the time. Fact is, they kept on trying right to the end, until Stutz snubbed them so effectively in the tenth.

In the fourth it was only a lightning double play by Stutz and Donnelly that kept them within bounds. Dugray had remaired on first after he shot a hard one down to the grass, and Shay's fast peg had caught Donnelly with his foot off the bag. Jordan laid down a sacrifice, which Stutz came in for. Dugray wanted a double advancement, however, and rounded second, thinking he could beat George Wash to it. He didn't.

Pinto Master Here.

After that Pinto was at himself. True, he picked Roseberry's hot smash off his right eyebrow in the fifth; watched Roseberry's long bust go through Schaefer's legs and on out.

BRITISH BOWLERS

DOE KELLY, former manager of the Toronto Leafs, and now scout Detroit Tigers, looked at the Grand Trunk station yesterday from n windows, thought to himself it looked like the "sticks," and decided off. The ivory hunter unostentatiously found his way to the park eat, where he looked over the Flint-London game. Our "medium" is looking for a pitcher or two, a shortstop and an outfielder.

It isn't always baseball that beats the Vehics, judging by their form here. Breaks have an awful habit of stacking up against the Halligan crew.

With Flint turning out en masse to ball games, it's worrying Owner Tom that he can't give the fans a first division team. However, the ability is there in spots. They're in there fighting all the way, and it's quite likely that after Saturday, anyway, they'll break out on a winning streak.

If Mike Kelly was looking for some hurling, he got it while Pinto was toiling over the Flinters in the ninth. Dugray and Jordan both whiffed, but they whiffed at just whisps of smoks in the wake of the fast ones Pinto was shoving over. They make a great pair, Curry and into. That was a baby pop Curry icked off the end of Conway's bat in

The Flints were crowding the youngster in the eighth rather pointedly.
With Roseberry draped over third as a
result of his triple, and Hunter on first
through a walk, Pinto had two more to
get. Conway he got via the strike-out
route, but there was more danger that
he'd get the umps before he got Wotell.
The first one hit Cavanaugh in the
shoulder, and the next took his mask
off neatly without hurting. Wotell
slammed down a hard one, Pinto making the out at first, and that was that.

President Maines is trying to interest Roger Bresnahan of the Toledo American Association Club in Hamilton. The Tigers would then be used as a farm by the Toledo Club. Nothing has been done

this fall.

The Inter-Club League stages its games at the lakeside, and is no criterion of awakened interest in amateur ball, but the other two leagues are, and their receipts show that the club rink won the Dr. Robinson challenge cup at the Ontario Hospital Club tourney yesterday by 3 wins and a plus score of 27. Frank Brown's London Thistfes were second with 3 wins plus 16. Two other L. R. C. rinks skipped by J. Farrow and Dr. "Jeff" Wood were amongst the prize winners. Supper was served the bowlers in front of Dr. Robinson's residence. The tournament was the most successful in the history of the club.

Shipment Seized in Raid At Ottawa To Be Disposed Of.

OTTAWA, Aug. 4.-The last chapter to the story of the raid last July on the premises of the Ontario Export company, when the owners of the liquor, which to the amount of \$200,000 had been seized by the Ontario provincial police entered the warehouse and sequestering the government watchman piloted the whole stock across the border to Hull, has not yet been written.

It is stated on very good authority that \$55,000 worth of the liquor which was seized by the Quebec liquor commission owing to its having been transported to Hull without a permit, will shortly be forwarded to the Ontario provincial government at the request of Attorney-General Raney, who has been in communication with the Quebec commission. The date for the return of the liquor has not yet been set.

One conversant with the intentions of the Quebec Government stated today that the return of the liquor was for the purpose of promoting a better spirit of friendship between the provinces of Ontario and Quebec and to support a better state of interprovincial matters between the two provinces. police entered the warehouse and se

Soldiers Had Difficulty Keeping Throngs Back As ' Cortege Passed.

Services were held in this famous
church by permission of King Victor
Emmanuel, who sent a special representative to attend the ceremery. A great
choir composed of hundreds of singers
assisted in the high requiem mass.

In Crystal Coffin.

The crystal coffin encased in a woodan casket was borne in a hearse drawn
by six horses. There were innumerable
floral offerings, among them a wreath
from the City of New York. All places
of business had been closed as a sign
of mourning and as the great procession
passed aeroplanes flew overhead.

So dense was the throngs that the
troops had difficulty in holding the
people back. All the windows and balconies were crowded and many of them
were draped. Eulogies were pronounced
by the Prefect of Naples in the name of
the king, and the government by the
director of the conservatory and by representatives of the mayor and the artists of the city.

The body of the great singer lay on
a catafalque in the centre of the Basilica surrounded by hundreds of candles.
The catafalque, covered with black velvet and gold stood in a bower of flowers.
Took Last Look.

Before the church was opened to the
public, Mrs. Caruso, having her little
daughter Gloria by the hand, came to
view the body of her husband once
again. She placed beside it a large bunch
of roses. Others of the grief-stricken
relatives gathered in the Basilica and
looked for the last time upon the face
of the dead, which seemed to be of one
sleeping peacefully. Glovanni, brother
of Enrico, first knelt beside the coffin,
then rising, invoked Caruso to breathe
again. Rodolfo, the son, was equally
affected.

Former Premier Nitti came to Naples to pay his last respects from his country place where he had ben spending the summer Speaking to Deputy Porzio, the executor of the will, Mrs. Caruso expressed the desire to live either in Naples or on the estate Caruso possessed in Tuscany, but said she would first go to New York, accompanied by Giovanna Caruso, to settle her husband's affairs there.

TURKS NOW IN BETTER POSITION TO MEET GREEKS

Nationalists Sustained Enormous Losses in Their Recent Retreat.

ATHENS. Aug. 4 .- After having been orced to retreat with enormous losses, the Turks now are in a better position the Turks now are in a better position to offer serious resistance to the Greek forces, according to a communication issued to the Greek newspapers, which makes this assertion after giving details of the various cperations since the offensive began. All the actions of the various units of the Greek army from the time they entered the fighting are described.

As for the future operations of the Greek army in Asia Minor, it is stated that the principal object is to vanquish the remainder of the Turkish forces, but it is denied that a Greek division

but it is denied that a Greek division is marching on Constantinople. The Greek military authorities are releasing all fugitives in the occupied zone. Greek eroplanes, the announcement says, again have bombarded Angora, the

The Turkish statement of August 1, that the Greeks had been repulsed with heavy losses near Sivri-Hissar and that they were retreating towards Eski-Shehr, is branded as false.

A CAUSE OF

WOMEN OFTEN THINK THEY HAVE BEART TROUBLE, INDIGESTION, NEE-VOUS PROSTRATION, ETC., WHEN IT'S FLY IRON STARVATION OF BLOOD.

Many women believe they are weak and nervous as a result of age, worry and overwork; they think that their disturbed digestion, headaches, heart palpitation, shortness of breath, pains across the back, etc., are due to some serious disease instead of the real cause—iron starvation of the blood. This is proven by the fact that when many of these same women take organic iron these same women take organic iron for a while all their alarming symptoms quickly disappear and they become strong, robust and healthy. Iron is absolutely necessary to enable your blood to change food into living cells and tissue. Without it nothing you eat does you the proper amount of good—you do not get the strength out of it.

you the proper amount of good—you do not get the strength out of it.

If you are not strong and well do not wait until you go all to pieces and collapse in a state of nervous prostration, but take some organic iron—Nuxated Iron—at once. But be sure it's organic iron and not metallic iron which people usually take and which is made merely by the action of strong acids on small pieces of iron. Organic NUXATED TRON is like the iron in your blood and like the iron in spinach, lentils and apples and it often increases the bodily and mental vigor of weak, worn-out women in two weeks' time.

Beware of substitutes. Look for the word "Nuxated" on every package, and the letters N. I. on every tablet. Your money will be refunded by the manufacturers if you do not obtain perfectly satisfactory results. At all druggists.

Chicago, Aus. 5.—An arbitration plan affecting some 30,000 Armour & Co. employees in all parts of the United States was adopted at the first meeting of representatives and management yesterday under the recently adopted "industrial democracy," by which the workers were given a voice in all problems affecting their interests.

Similar plans are being prepared by other large packers, and it was believed would soon be extended to cover the entire industry.

GRIFFENHAGEN EXPERTS

"FIRE" STENOGRAPHERS

Quebec, Aug. 5.—A small panic was caused in the ranks of the Quebec postoffice employees here yesterday when two of the Griffenhagen efficiency experts arrived in the building. It was reported yesterday that 27 employees had been suspended. Most of the employees let out are lady stenographers.

Chicago, Aug. 5.—New setbacks in the price of wheat were witnessed today, with bears predicting that the visible supply total on Monday would show an increase of 3,000 to 4,000 bushels. Besides, gossip was current that spring wheat growers would sell freely direct from the threshers. On the breaks in price, however, signs of considerable export buying developed. Opening quotations, which varied from unchanged figures to %c lower, with September at \$1.20% all 21%, and December at \$1.24% the series of t

TORONTO STOCKS

TORONTO STOCKS

Toronto, Aug. 5.—Trading broadened out somewhat on the Toronto Stock Exchange this morning, with a fair volume of busines sbeing transacted. Toronto Railway, the most active stock this morning, after selling at 73% reacted to 73, or half a point higher than yesterday's close. Dominion Canners, for which 22 was bid last night, opened at 24 this morning, and advanced to 25, closing at the top price. Brazilian scored a net advance of % at 24½, while Canadian General Electric was ½ higher at 92. Paper issues were quiet, but one lot of Spanish River changed hands at 5½, recovering all of yesterday's loss. Steel of Canada made the best showing of the morning, with a gain of 2 points, of the morning.

LAW TO ENCOURAGE BUYING OF "MADE-IN-CANADA" GOODS

Ottawa, Aug. 5.—By Canadian Press.—Regulations governing the marking of imports with the name of the country of origin, which comes into effect on October 1, have been drafted by the department of customs and excise practically in the form which it is expected they will be made effective. In order that he may secure the views of the importers with regard to the suitability of the proposed regulations, which become necessary through amendments to the customs legislation at the last session of Parliament, the minister of customs, Hon. R. W. Wigmore, has called a round table conference of exporters from the Montreal and Toronto boards of trade, which will be held on Monday next, and at which the present draft of regulations will be laid before the exporters. It is expected that the bringing into force of the new regulations on October 1 will have a salutary effect on the movement for the use of Canadian products wherever necessary as every article imported must, under the new law, have the name of the country of origin stamped plainly on the outside wrapper. In this way Canadian purchasers will be able to see at a glance whether or not they are buying "made-in-Canada'' goods.

Motion To Unite With Canada

WINDSOR, Aug. 4.-George Egan and David Costello, here from the United

> CALGARY, Alta., Aug. 4 .- There has een a marked decrease in the number trict to the United States as well as a big drop in price since the Fordney bill was enacted by the United States Government, it is shown in a comparative statement issued by the stock yards

company of Calgary.

In fact, since the bill went into effect

men in search for pickpockets, the official said.

Having "prescription" liquor in a hotel is unlawful, Judge Gundy said, when imposing a fine of \$200 and costs of unlawful, He was prosecuted by license department officers, who searched the place on the belief that liquor was being kept there for the purpose of sale. Reynolds said that the whiskey was prescribed by a physician for his wife, who had been ill.

Harry Paget, a local truckman, was fined \$25 and costs for unlawfully transporting liquor. He leaded guilty to the charge. License department inspectors said that Paget was "rum-running" in the vicinity of St. Thomas. He was also charged with unlawfully disposing of liquor, but this charge was laid over for a hearing in Ford police court next Tuesday.

Gompany of Calgary.

IMPORTANT WITNESSES

OTTAWA, Aug. 4.—(By Canadian Press.)—When the hearing of evidence in the alleged sterling exchange frauds opens here again on Monday, Aug. 8, it is expected that several important witnesses will be called for the crown, and that the hearing here will continue for several days and perhaps for the whole of next week. Through the audit of the books, which has just been completed, it is understood that several new facts have been brought out which will be the subject of investigation when the hearings reopen. **FEELING** TIRED? members of Lodge 240 of the Brotherhood of Railway Trainmen at their pienic at Springbank Thursday afterwoon. Ice cream cones, soft drinks, cigars, bananas and other goodies were given to the children and grown-ups at the refreshment booth. The after noon was taken up with a large sports program and a baseball game between the G. T. R. yardmen by a score of 12 to 10. Each player of the winning team received \$1 and the losers received 50 cents. Batteries for the yardmen were Lane and Lamond, and for the roadmen, Pook and Andrews.

"Umps" Criticised.

Needless to say, the game, while it tasted, was fast and furious. The umpire, A. Lamond, received a few tumpires do. The base umpire, one Michael J. O'Leary, was firm in his decisions, and let the players know that his word was law. He, however, one may be a man back from third base to second. The players insisted that he was an inning late in his judgment, as the cause for the unfair decision occurred in the previous inning. However, "Mike" called him "out," so there was nothing to do but let him have his war. "Ernie" Blackwell, in the third inning, was asked to "tap" the ball lightly. He broke two bats in the first two innings, on, however, remained to see the finish of the game.

In the races it was generally a "ie" to the ream come and the produce of the care. It has been contained to see the finish of the game.

In the races it was generally a "ie" to the ream cone, and there was only one left. This last one, however, remained to see the finish of the game.

be rescued in the nick of time by a fellow employee, was the experience of James Johnson, an employee of the City Gas Company, about 4 o'clock yesterday afternoon.

Three employees were in the act of cleaning out the gas main, Johnson being stationed in the basement of the house pushing rods through the pipe, when he was overcome by gas. His foreman, W. C. Arbuckle, of 5 Erighton street, suspecting trouble, investigated. He discovered Johnson lying on the floor completely overcome. With great difficulty he pushed him through the cellar window, into the open, where with assistance, the man recovered sufficiently to be taken home.

Mr. Arbuckle and another employees were also partly overcome in effecting the rescue.

It was stated that if Johnson had not
