Ancient Atlases and Maps are at times of far greater value than are printed books relating to the same subjects, as they illustrate and demonstrate the exact Geographical, Historical and Political Aspects and conditions and divisions of the various countries at different periods. We have sold MOLL'S ATLAS twenty years ago for five shillings, to-day several of the maps bring from one to two guineas each. This illustrates our point and custodians of historical institutions and other friends with a few dollars to spare should lose no opportunity in securing even duplicate copies for purposes of exchange as the time will surely come when these interesting, scarce and valuable items will be sought for in vain.
