Total villages				11,106	4.11

From the above will be seen that Carrick has the largest population and stands second lowest in the rate per head of taxation, and that the average rate levied in Townships on assessment for taxes is 7.7 mills on the \$, and in villages 18.7. This is a nut to crack for those who wish Mildmay to be incorporated.

Weary of experimenting with salves, suppositories and ointments and dreading a surgical operation, scores and hundreds have turned to Dr. A. W. Chase's Ointment and found in it an absolute cure for piles. The first application brings relief from the terrible itching, and it is very seldom that more than one box is required to effect a permanent cure.

Three Orangeville woman gave an unprecedented and scandalous exhibition on Mill street shortly after church on Sunday night. They engaged not only in a windy and hysterical war of words but a contest with fists and finger nails. The lungs of all three were in splendid condition and the resonant and roaring rhetoric was heard a full quarter of a mile off to the great scandal and horror of all and sundry. In this case there appeared to be not a woman but a man in the original cause of the quarrel, and one of the Amazons was also heard deploring the loss of 10c and vociferating that she would not have been so angry if she had not lost the dime. Of course no policeman turned up to end the row or arrest the participants and the latter dispersed only when they had become physically exhausted.

**C. WENDT.**

## COUNTY AND DISTRICT.

Nearly twenty cattle have disappeared from the vicinity of Sand Hill, and it is thought that they have been stolen and shipped to the U. S. They were grazing on the roads and may have caught the eye of a dishonest drover.

More than half the population of the world is ruled by two women—Queen Victoria and the Empress of China—and then there are besides the henpecked husbands, leaving the margin of thoroughly emancipated men exceedingly small.

Many a pale, weak school girl, suffering the evil effects of an exhausted nervous system, and thin, watery blood, has been fully restored to the vigor and buoyancy of robust health, by using Dr. A. W. Chase's Nerve Food. The healthful glow on the cheek and the brightness in the eye tell of the building up process which is taking place in the body.

WANTED—A pair of suspenders for the breeches of promise. A barber to shave the face of the earth. A bar for the bed of the ocean, and another for the cradle of the deep. A dentist to work on the jaws of death. Sea horses, to feed from the trough of the sea. A few seeds from the flower of speech. A pair of corsets for the waste of time.

The other day Mr. John Waechter of Greenock met with a serious accident which has since confined him to the house. It appears that he was returning from Brant township, and on the towline between Brant and Greenock his horses became fractious and broke the neckyoke so that the pole of the democrat fell to the ground and brought the vehicle to a standstill. The horses becoming disengaged started for home leaving Mr. Waechter, who had been pitched out, lying on the road insensible. In this condition he was found an hour or two afterwards and conveyed home, where he is now under the Dr's. care. Besides a severe general skaking of the system, he has a small bone in his shoulder broken.

Mr. Haight of Coira is known to his neighbors as a plain, honest, unassuming farmer, but thoughtful, progressive, and the possessor of great mechanical skill. In all respects we might describe him as an up-to-date agriculturist. With many others, he believes, for performing the heavier duties about the barn buildings such as cutting feed, pumping water, sawing wood and pulping turnips, in utilizing the cheapest power we possess, that furnished by the wind. With this purpose in view he purchased one of those splendid machines sold by the Aermotor Company of Chicago and with this he operates all his stationary machinery. But these comparatively simple achievements did not altogether satisfy Mr. Haight. The thought struck him, why not use wind power for the operation of moving machinery well, something in the same way as gasoline is used in propelling the horseless carriage? After long study and patient experiment, our friend has perfected apparatus by which he can use windpower to operate and cut hay with his new McCormick mower. The mechanical arrangement, by which he succeeds in doing this, is, as great inventions usually are, exceedingly simple and practicable. It is understood that he will take immediate steps to secure patents in all civilized countries of the globe. The possibilities of this new discovery are indeed amazing. It is as plain as the multiplication table that other farming implements can be operated equally as well. Thus we may confidently look forward to the time when the farmer who has hitherto borne about ten tenths of the White Man's Burden can sit in his cushioned chair and by simply pulling the lever invoke the winds to his aid both at seed time and harvest and enable him to live the life of a gentleman and avoid those slavish duties which have up to present made him little better than a hewer of wood and a drawer of water.

**BORN**  
DIEROLD—In Carrick, on May 26th, the wife of Martin Diebold, of a son.

## Additional Locals,

—Miss Carrie Faupel and Miss Sarah Fink returned from Buffalo on Saturday.

—Mildmay baseball club goes to Clifford on Dominion Day to play the club of that town.

—Miss Allie Curle attended a wedding at Harrison on Wednesday.

—Miss Annie Moyer, who has been in Paisley for the past four months, has resigned her position and returned to her home here.

—Mr. Robert Edmanson jr has returned home from South Africa where he has been for the past four years selling stock. On his way home he visited many of the larger cities in Europe.

—Mr. D. Culliton called at the office to-day and expressed his disapproval at the action of the Government for spraying his neighbor's trees free of charge and chasing the pests over to his orchard.

The line fence between Mr. Lewis' farm and Mr. Culliton's is covered with crawlers and they are making a bee line for Denny's orchard. Furthermore he wishes the Government to distinctly understand that he wants it stopped at once.

Wm. Barnett, who was sentenced by Judge Barrett to ten days in jail for jumping over the jail wall, was released from jail on Tuesday. It was at first supposed that he would have to put in the full time of his original sentence, but through the representatives of Mr. Dixon, John Tolmie, M. P. and others the Governor-General directed Barnett's discharge from further custody.

An ostrich farm is being established near Toronto. The farm at Pasadena, Cal., now contains 200 birds. The hen lays an egg every other day. The eggs weigh three pounds each and are equal to 30 hen's eggs. The feathers bring a big price and each ostrich produces \$30 worth a year.

As is usual in the early part of May when preparations are being made for the coming of new wool clip on the market, great interest is taken in the prospects presented for this important industry. The outlook is anything but reassuring. To begin with, it is estimated that 75 per cent. of the clip of last year is still held in this Province. A good deal of this wool was purchased from 16c to 18c and the highest price bid for it to-day in this market is 13c. Not only is the bulk of last year's clip still held in Ontario by parties who a year ago expected to be able to sell it at a profit soon after it was purchased, but a Canadian exporter has at an American point a large lot of the 1897 clip, which he was able to get across the line before the Dingley duty took effect, and for which, notwithstanding the fact that it has the advantage of not having to carry the 12 per cent. duty which the 1898 clip would have to pay, there is practically no market in the United States and it remains to-day unsold.

On Monday morning as Detective Heffernan was crossing the lower bridge, Walkerton, he noticed a woman jump into a river at a point behind Frank Ritchie's house. Thinking that that she had made the plunge to save a child from drowning he made all haste and in a minute or two was on the scene. When he arrived at the spot he found a woman floundering in the water which at that point was only two or three feet deep, and immediately hauled her ashore. On being questioned she admitted that her intention was to commit suicide; the fact of the attempt being unsuccessful being entirely due to the timely arrival of Mr. Heffernan. She declined giving any reasons for the act and such can only be conjectured. Her name is Miss McNeil of Paisley and she has lately been visiting in the house formerly occupied by Mrs. McConnell, west of Lee's mill. As it is unlawful for a person to take their own life or attempt to do so, an information was laid by constable Miltons before Justice McNamara in the absence of the police magistrate.—Herald.

EDITORIAL NOTES.

Germany pays \$5,000,000 for the Caroline, Palaos and Marianne Islands, Spain retaining three coaling stations, one in each group, and Germany undertakes to defend these stations in case of war.

The United States does not look with favor on the transfer of these Islands to Germany. The strategic position of the Caroline group is so great that it is a great disadvantage to have them fall into the hands of a strong nation like Germany.

The Court of Cassation in France on the 3rd inst. rendered a verdict in favor of a revision of the Dreyfus case and ordered a new court martial to sit at Rennes, 60 miles from Nantes, for the trial of the prisoner.

A large concourse of people, Conservatives and others gathered together on the 6th inst. to honor the memory of the late Sir John McDonald by decorating the monument of the great statesman in Toronto. Almost all the leading Conservative members of Parliament were present and representative from the different wards in the city. Some beautiful wreaths of flowers were among the decorations.

Judge Boyd, chairman of the inter-provincial arbitration board, has been knighted and will now be known as Sir John Boyd. At a meeting of the board last Saturday the senior counsel for Ontario, Mr. Aemilius Irving, on behalf of the bar, congratulated Sir John on the honor just conferred on him. The board has adjourned until July. The Township of Carriek has a large interest at stake in the deliberation of the arbitration board. We have a claim of about \$11,000 and about 30 years interest for our share of the land improvement fund. When the land was sold for the sum of \$1.50 per acre, one third of the price was to be returned to the municipalities for the improvement of roads and our claim to the above sum is for monies received from lands paid between the years 1861 and 1867, a portion of which was paid over to the Township. It will be within the recollection of many of our readers that we received about \$16,000 about the year 1878 from this fund, and the amount still due us would be thankfully received any time now.

The pupils of Upper Canada College were granted a half holiday on Monday last to celebrate the fact that an old boy of the college, Sir Alexander John Boyd, had received the honor of knighthood for her Majesty. Sir John was not only educated at Upper Canada College himself, but he has had nine sons as pupils in the college and holds the record in that line.

THIN GIRLS GET PLUMP

while using Dr. A. W. Chase's Nerve Food.

There comes a critical time in the life of every woman when the bud of girlhood is unfolding into the full blown flower of womanhood. Mothers at this time should carefully guard their daughters' health, for this is a time when many a girl falls victim to insidious diseases which make life a misery.

Loss of flesh, headaches, pains in back and side, nervousness, irritability, dull eyes and a pale, sallow complexion, these are the symptoms that warn you to use Dr. A. W. Chase's Nerve Food.

The blood is impoverished and the nerves require nutrition. Nature must have assistance and there is no better way to help nature than by using Dr. A. W. Chase's Nerve Food. It is a food for blood and nerves, and creates rich, red blood, solid flesh and new nerve tissue. The color will return to the cheek, the brightness to the eye, and increase in weight will tell of solid advance in health.

Dr. A. W. Chase's Nerve Food, 50c. a box. At all dealers, or Edmanson, Bates & Co., Toronto.

Screamed... WITH.. Agony

From the Terrible Itching, Burning Tortures of... Eczema on the Scalp

Some of the cures effected by Dr. Chase's Ointment are more like miracles than anything else. The case recorded here was one of the worst ever brought to the attention of Toronto's best physicians, and when doctors gave up all hope of recovery Dr. Chase's Ointment was successful in producing a perfect cure.

Mr. James Scott, 135 1/2 Wright Ave., Toronto, states: "My boy Tom aged ten, was for nearly three years afflicted with a bad form of Eczema of the scalp, which was very unsightly and resisted all kinds of remedies and doctor's treatment. His head was in a terrible state. We had to keep him from school, and at times his head would bleed, and the child would scream with agony. For two and a half years we battled with it in vain, but at last found a cure in Dr. Chase's Ointment. About five boxes were used. The original sores dried up, leaving the skin in its normal condition. To say it is a pleasure to testify to the wonderful merits of Dr. Chase's Ointment is putting it very mildly."

Dr. Chase's Ointment, at all dealers, or Edmanson, Bates & Co., Toronto.

Buffalo All-Steel Disc Harrow

This is the only Disc Harrow made or sold in Canada, having independent, adjustable spring pressure upon the inner ends of the gang discs. Following any amount of pressure to be thrown upon the inner ends of the gangs, by the foot of the operator. By this means a perfectly flexible action is secured and the ground can be worked to a uniform depth. Examine this Machine carefully and compare with others.

The No. 12 Cultivator

IS A MARVEL OF SUCCESS. The only Cultivator made that both lines of teeth will cut an even depth in the ground. Examine it and you will see why. The only Cultivator with a moveable tooth set so that the angle of the teeth can be regulated to suit any condition of soil. Pressure can be regulated to act differently on every section requiring it. The teeth are carried behind the wheels instead of trailing behind, as in other machines, thus securing lighter draft. This machine is furnished with grain and grass seed box when required. It has reversible diamond steel points for the teeth; also, extra wide chisel-cutting points can be furnished. Examine it and you will buy no other.

The Best Drill Made.

The Hoosier Needs No Introduction

Over 40,000 Drills and Seeders of our manufacture in use in Canada. The only Drill made with lever for instant and perfect regulation of depth of hole in all kinds of soil, while team is in motion. Sows absolutely correct to scale; saves seed, as every kernel is deposited at a proper depth to grow. Purchase only the best and you will be satisfied. We also manufacture Binders, Reapers, Mowers, Rakes, Cultivators and Pulpers as good as the best.

# Thousands of Farmers

IT PAYS TO BUY THE BEST.

This Trade Mark is on every Tag. See that you get it.

Want GOOD Binder Twine, and are willing to pay a fair price for it. Sensible farmers know GOOD twine is the cheapest; and poor twine is dear at any price. It is not what you pay, but what you get, that constitutes a bargain. "Plymouth" make and sell GOOD twine as low as GOOD twine can be sold. "Plymouth" does not make or sell POOR twine at any price.

NO OTHER TWINE IS "JUST AS Good" As PLYMOUTH.

Sold by C. LIESEMER.

## LIVE STOCK MARKETS TORONTO

The arrivals of cattle at the Western cattle market this morning were heavy for the closing market of the week, there being 67 carloads, made up of 1,000 cattle, 250 sheep and yearlings, 20 calves, 35 milch cows, and 1,100 hogs. At the opening trade was not as brisk as yesterday, but the pens were fairly well cleared out at the close. Prices for good cattle held up well to the level of the week, with the exception of stockers and shippers, which were again a little easier. Cows and heifers were in moderate supply, demand good and values firm. There were no choice heavy cattle in, but good light and medium weights were in ample supply, and such found an active demand at times.

Export cattle — The market was steady. The arrivals, which were moderate, were about equal to the demand. Prices remained unchanged from yesterday, and heavy exporters were quoted at \$4.80 to \$5 per cwt. Light were steady at \$4.60 to \$4.85 per cwt. The quality was good.

Butchers' cattle — Trading in this line was active and prices were steady. The enquiry for choice grades was good but medium and common stock were very slow at sale at easier prices. Choice selections were quoted at \$4.50 to \$4.65 per cwt. Mediums, which were in ample supply, fetched \$4 to \$4.25 per cwt, and common were a little lower at \$3.25 to \$3.75 per cwt. Inferior were slow at \$3 per cwt. A few choice heavy export bulls fetched steady prices, or \$3.50 to \$4 per cwt, and a light supply of light stock bulls were steady at \$3.50 to \$3.75 per cwt.

Stockers and feeders — Canadian stockers for Buffalo were again a little easier, being quoted about 10c per cwt lower or \$3.50 to \$4 per cwt. A few lots of good feeders found ready sale at \$4.40 to \$4.65 per cwt.

Sheep and lambs — While there was no excitement or special activity in this branch yet trade was very good and prices ruled steady. Local killers were all good buyers and the pens were

cleared out without trouble. Prices were a little easier for yearlings, which were very low sale. Sheep, clipped, for export and butchers' use, were steady at \$3.50 to \$3.75 per cwt., and sheep, with wool, were quoted \$3.75 to \$4 per cwt. Bucks were quiet at \$3 to \$3.25 and a few bunches of spring lambs fetched \$2.50 to \$4 each. Choice veal calves were firm at \$2 to \$10 per head. A few lots of good veals are wanted.

Hogs — The receipts in the annex today were about equal to the demand, everything being cleared out of the pens by noon. Prices remained unchanged from yesterday, and choice selections were quoted at \$5 per cwt. Light were steady at \$4.50 per cwt, and a light supply of thick fats were firm at \$4.37½ per cwt. Sows were quiet at \$3 per cwt.

## Local Affairs

Sec J. V. Berscht's change of advt.  
—Girl wanted to learn tailoring. Apply at once at McKelvie & Hemphill's store.  
—Try our Ideal shoe dressing in chocolate and black shades. John V. Berscht.  
—Miss Melia Herringer entertained a number of her friends on Monday evening, and a most enjoyable time was spent.  
—Geo. Flach's old tailor shop has been torn down and preparations are being made for the erection of the new brick shop. They occupy the rooms behind C. Schurter's store.  
—Thos. Parker, a farmer residing near Teeswater, was found dead in his bed last Friday morning. His wife has been ill for some time past and he has been sitting up with her during the night, and it is supposed that the over exertion killed him.  
—One day last week the mixed train ran into a settlement of caterpillars up near Dunkeld, and the consequence was that the train had to be cut into three sections to cross over. We have heard of several similar cases throughout the country and it is expected the railway companies will have to spray the track to keep off the pest.

—See J. J. Steigler's change of advt.  
—Rev. R. Keefer has been stationed at Mildmay for another year.  
—J. V. Berscht has had a nobby sign erected in front of his shoe store.  
—Sunday was the hottest day we have had this spring, the thermometer registering 90 degrees in the shade.  
—Wool season has commenced, but as the prices are lower than last year, farmers are a little backward in bringing in their wool.  
—The Carrick Branch Agricultural Society have changed the date of their fall show from Sept. 21st to Sep. 28th. The change was made so as not to conflict with other shows in this vicinity.  
—A lawn social under the auspices of the Union S. S. at Rozel's school will be held at the residence of Mrs. Whyte on the evening of Thursday, June 15th. A suitable programme is being prepared and an enjoyable time is expected.  
—Harry Best of Palmerston, a young man who worked as baggageman at the station here a few years ago, was killed at Lucknow on Tuesday. He had secured a situation on the G. T. R. as fireman and was doing well until the fatal accident occurred.  
—The flax business seems to be a thing of the past in this part of the country. So far as we know, there is only one mill in operation in Western Ontario, and that is in Wingham, which is a joint stock concern. Nearly every mill in the country is idle, and no flax is being sown. The reason of this is because the Americans are buying a cheaper grade in Russia. Many mills have still a large stock on hand, being unable to find a satisfactory market for it.  
—Last Friday Mr. John Pilger of the 12th concession, met with an accident which will lay him up for some time. He and his hired man were driving in a cart to Walkerton, and the horse, being a young and spirited animal, took fright at a sheep lying on the road, and ran away. Mr. Pilger was thrown out, and shortly after the hired man was pitched out, but he escaped unhurt. The horse soon became free of the cart and turned up the next sideroad. Mr. Pilger walked home, in a half-conscious state, and he was put to bed, where he remained unconscious till the next morning. His face was badly cut and two ribs bruised, and is now doing as well as can be expected.  
—On Monday morning the trackmen of the G. T. R., who have been on strike for the past two weeks, went to work, and after working a couple of hours, they were summoned to quit. The Grand Trunk Company held that the men had all been discharged, and in order to be reinstated, they must make an application individually, and the company would select the men they wanted. It now turns out that about 500 men will not be taken back in any event, as many who were receiving good wages, went on strike merely in sympathy with the rest of the Union. It is expected that the wages of the trackmen will be raised about 10 cents a day. A later account of the strike says that the trackmen are again on strike, because the company refused to engage about one-third of the men. It now looks as if the fight between the men and the company will be carried to the bitter end.

## Union Picnic.

The union picnic under the management of the Mildmay Athletic Association was held in the Agricultural Grounds yesterday afternoon and was greeted with a good attendance. The weather looked a trifle threatening but the rain held off until the evening, and the games came off with very little delay.  
At two o'clock the Teeswater and Mildmay juniors commenced a game of baseball and in the first two innings Teeswater had it their own way, scoring 9 runs. Our boys then began to pick up and at the end of the game the score stood 19 to 16 and an innings to spare in favor of Mildmay.  
The next game, which was the main attraction of the day, then came off when Clifford and Mildmay baseball clubs took the field. Considering the fact that Mildmay has not played baseball for three years, the boys held their opponents down well and with a little more practice will hold up their end nicely. The following is the score by innings:  
Clifford—1 1 3 4 1 0 0—10  
Mildmay—0 0 2 0 2 0 3—7  
Batteries—Clifford, Hillhouse and Young. Mildmay, Vollick and Lewis.  
Several foot races were then brought off and the prizes were awarded to the following—Boys under 12, Chas Glebe; Boys under 16, Chas O'Malley; Girls under 12, Tillie Miller; Girls under 16, Margie Filsinger.  
We have not heard what the proceeds amounted to, but the attendance was fully up to the expectations. The funds raised will be devoted to the improvement of the new park.  
An excellent supper was served in town hall, and the tables were filled several times with the hungry spectators. The ladies who took the matter in hand managed splendidly.

—Good second-hand buggy, newly painted, for sale cheap. Apply to J. V. Berscht.  
—The hot weather is working on the volunteers in camp at London with telling effect. Two of the members of the 82nd were sun struck on Monday while practicing at the butts.  
—Lieut-Col Scott and officers of the 82nd Bruce Battalion of Infantry have our thanks for an invitation to partake of the privileges of their mess during camp at London.  
Farmers who wish to improve their stock would do well to see the famous imported horse, Hazeldean, owned by Mr. A. Ste. Marie. This horse was imported by Collison & Lavin of Harriston, and has proved to be one of the best horses that firm ever owned.  
—The death of Miss Elizabeth Hamilton of concession A, Carrick, took place on Monday. Deceased was 37 years of age, and was ill for three years with phthisis. She was highly respected by all who knew her, and her death has cast a gloom over that community.  
—One of the saddest occurrences that ever occurred in this vicinity, took place on Saturday afternoon of last week. Mr. Chas. Wilson of Howick left his home on the afternoon of that day about 1:30 to go to a neighbors about 14 miles distant, on an errand. He left home in good health and spirits, telling his family he would be back in a short time. When night set in and he did not return, his family became anxious about him, as he was sometimes subject to faint spells, and upon enquiry at the place he was going to, it was learned he had never reached there. About 10 o'clock his body was found in a small bush about a mile from home with the throat cut. There are many mysterious circumstances connected with the death of Mr. Wilson, and no reason can be assigned for the act on his part, as he was in no trouble or embarrassment of any kind. Mr. Wilson settled in Howick about 38 years ago, and was universally esteemed and respected by all who knew him. He took an active part in public affairs, having served in township council for many years as 1st deputy reeve, and only two weeks ago was appointed treasurer of that township. He was also an active worker in church affairs, being an elder in McIntosh's congregation for many years, as well as being superintendent of Sabbath school where his example was felt by all. The funeral, which took place on Tuesday, was the largest ever seen in Howick, there being about 225 vehicles in procession. The family have the deepest sympathies of all in their affliction.
