REDUCED RATES OF PREMIUM.—HALF CREDIT RATES OF PREMIUM.—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British Borth America, to the ordinary furopean Rates. The result of such Reduction is to enable parties to avail thermselves of the important henefits to Life Assumance at much losser Rates of Premium than those of any other Assurance Company i ansacting business in Canada.

The Directors have also resolved to extend to British Morth America the advantages afforded by the HALF CREDIT RATES of PREMIUM. North America the advantages afforded HALF CREDIT RATES of PREMIUM by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likenwise offered to the Assured in the limits to which their respective Policies.

THE Advantages offered to 'be Public by this Institution are MANY and IMPORTANT, and the Rates of Premium quite as LGW as security to the Assured, and safety to the Office, will admit of.

The following are some of the advantages offered by this Society:—

The peculiar Benefits secured to the Assured by the principle of the Premium for the first five years may be paid by the Assured's own Note. These Notes need not be paid, but may remain on Interest, to be deducted from the Policy on the death of the Arsured.

RAILWAY ACCIDENT .-- We learn from th

the accident, a Rev. Mr Joalyn, who received some slight injuries.

Among the passengers were the following Bishops of the Protestant Episcopal Church, who were on their way to the General Convention to be held in Cincinnati next week:—Bishop Meade and Assistant Bishop Johns, of Virginia; Bishop De Lancey, of Western New York; Bishop Whittingham, of Maryland; and Bishop Eastburn, of Massachusetts. We are happy to learn that none of them were injured. Bishop Johns returned to Rochester with his family for the night, while the others proceeded to Buffalo. It is a wonder no lives were lost by the fearful accident.

A Sattle-Count of the Seventies of War as Canada.

Sy ADOLPHUS M. MADE.

On the road leading from the fown of Three Rirers to the Seignorial manne-tions of Pointe-dulac, there lives an oil Canadian Anothenia,
whose alivery locks betoken that he is waning fast

are now Malendy passing down the scene of his
arry days, and his eye brightens, and his sounare now "allously passing down the stream of time." He loves to dwell on the scenar of his early days, and his eye brightens, and his contention to whom he can recount his long pressic stories about the battles of the stevolution, and the glant deeds of British and American warriors during the war of '76. He belongs to that class of Prench Canadian "habitents" who boast of their descent from the proud sobles of Normandy, many of whom emigrated to Canadia before the conquest by the British arms, and who look back, with feelings of satisfaction, to the pride and chitalry of their ancestors. Like a supely oak it the forest, a solitary tree, standing amidst the min and devastation that curround it, he has borne witness to his old companions in sense, one by one, descending to the grave, and leaving him amongst the last of his race." He dwells in the vicinity of a spot which is hallowed and consecrated in his memory from having been a buttle-ground of the revolutionary campaign in Canada, and from his stra y-hatched cottage he can point his faiger to the place where many a hrave warrier lost his life-blood in lighting for the cause in which he was engaged. When those events occupied, he had hardly seached his aventeenth yegr, and yet his recollections are viried of the memorial blood in agricing engaged. When those events occupied, he had hardly seached his avventeenth year, and yet his recollections are vivid of the personal appearance of Montevan Generals, who distinguished Bettek and American Generals, who distinguished Bettek and during that personal He relates the flight of during that personal He relates the flight of during that personal He relates the flight of during that personal his work of a story, and gives yent to bursts of admiration and joy at the successfulness of the fire-year and the motevantal hours of the fire-year.

He says, "et sont sies anciens emis, De Niverville et de Lanaudiere, qui l'ont side a 'esquiver," and mentione with precision every circumstance of that interesting event. He attributes the safety of Cariston to the loyalty of those French Canadians who advised him to abandon-the sloop-of-war Gaspe, which could not pass the American batteries, at Fort forel, and betake himself to the Canadian canoe, in which he safely reached the metropolis of the country. With what enthusiasm he dwells on this event, as affording a striking instance of the safeity of his countrymea, and the reliance which can be placed on them in the hour of danger.

striking instance of the angactiv or an evolutive parallel and the relinnee which can be placed on them in the hone of danger.

The last cannon had not been first from the wails of Quebec, and the foot-prints of Astirican soldiers were yet impressed on the mands of that fortress, when the Surprise and Isis frigates appeared, with reinforcements in the harbor, and gave renewed hopes to its long besieged inhabitants, that the power of England would be exerted on their behalf. And yet how manfully, how heroically, did their brave enemies dispute every inch of ground, swan as they receded before undaunted bravery and overwhelming numbers. How one lingers over that page of history which recounts the deeds of American warrious, under their brave and gallant leaders, harrassed by the privations of a long winter's campaign, sincountering the hardships of war and the rigors of a Canadian elimate, to accomptish the success of the cause in which they were engaged! What higher, what nobler motive of action could animate men 1—their own breasts imbued with sentiments of liberty and of love and affection for their race!

What a sight it must have been, in June, 1776, to see a few regiments only of American militia, under the command of the gallant Thompson and Maxwell, leaving the beautiful village of Nicolet, where they had been joined by a small detailment under Coloniel St. Clair, sailing down the St. Lawrence in open boats or batteaux, regardless of the cannon holes in the sides of British frigates then riding at anchor between Three Rivers and Nicolet, and officially also been seen and Nicolet, and officially a serious a triangle, the Lotte Nt. There is a road, leading along opposite Nicolet, to Three Rivers, and it was along this road that the American troops were obliged to march, exposed to the risk of fire from the British vessels-of-war in the river, in order to take a position on the top of the Cote &t. SPRINGFIELD, Oct. 1st.

Great excitement prevails here this evening, on account of the support of presence of slave catelens. The colored people are arming, and the Fown Hall is througed by thousands of excited people, who are determined that not a slave shall be carried frow Springfield— Law or no Law? There will be hard against if the thing is attempted. There are about faity fugitive claves residing here.

The meeting was addressed by several fugitives and citizens,—among them was the venerable Dr. Oacood, who made some remarks against the bill, and pledged himself to do all in his power to defeat its application and protect fugitives. Recolutions were adopted declaring the "Bill? unconstitutional, and organg an organization against it, and declaring no fugitives should be carried from Springfields.

A large committee of safety was appointed.—It is supposed the meeting will be adjourned with the increw night. People have been standing inagase about the streets all day. Nothing else talked of Baltrimons, September 30, 1856.

RAILWAY ACCIDENT.—We learn from the Rochester papers, that on Thursday evening the express train, consisting of six cars, filled with passengers, which left that city for Buffalo, was thrown off the track by coming in contact with a cow, and falling down an embankment, became a perfect wreck. The engineer and fireman escaped unhurt. A boy named Oliver—son of the keeper of the water station six miles West of the city, who acted as bell-ringer on the engine, had one leg badly broken, but was doing well this morning.

The tender and baggage cars were pretty much used up. One of the latter was thrown into a field near by. Of the passenger cars only two gene displaced from the track, and one of these process. and two or three passengers slightly injured. Only one, we believe, was detained by the accident, a Rev. Mr Joslyn, who received some slight injuries.

Punch says that the camel has a particular way of renovating when too much is being put upon her back. She turns round and sighs. If sighs take no effect, she weeps. The tears are generally irresistible, and she is allowed her own way. We have heard of the same expedient being resorted to when ladies consider themselves "too much put upon." They turn around and weep, and instantly they are allowed their own way. The strongest thing in the world, is decidedly a woman's tear, for we never knew a man yet who could stand up against it. which will take place on SATURDAY, THE 5TH OCTOBER, 1950,

ISLE OF SHOALS.—The census of these Islands has just been taken by the Marshals of New Hampshire and Maine. One of them reports that the inhabitents of there islands are about as hardy a race of men as can be found in the world. The Islands themselves, situated tee miles out in the ocean, are nothing but a mass of bristling rocks, on which nothing but a few potatoes are raised. In severe storms from the East, when the surf dashes up to a great height, the keeper, of the onter ligot-house boarps up his windows and chimney, takes in his pig and cow, and lives a "retired" life, till fairer weatier. The population subalsts wholly by fishing.

LET THOSE WHO SUPFER TRY 1T?

It will prove itself in a few minutes. As soon as it is taken internally, or applied externally, its beneficial effects are seen. It is factor than all other remedies.

HERE IS THE PROOF.

There is no other remedy that claims to subdue the crucip pangs of pann in seconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is promised. Not so with Radway's Ready Relief. Its effects are instantaneous; the first dose that is taken; or the first external application commences its great work of relief from pain.

BEAR IN MIND,

That Radway's Ready Relief will cure either of the above-mention-d Diseases in one-tenth the time it takes any other Remedy

That Radway's Ready Relief will cure either of the above-mention-d Diseases in one-tenth the time it takes any other Remedy to give even Partial Relief.

Taking Colld.

This sentence is constantly in the mouth of every person, in order to explain certain complaints. Those who use it often, we think, have but a faint idea of its precise meaning. We will offer an explanation, which we believe to be the opinion of a majority of the most learned physicians. A person, for instance, has been over exerting any particular set of muscles—of the throat, from violent speaking—of the loius, by too much stooping or bending, or these or any other part of the body: these parts or muscles are, consequently, weakened and relaxed, and become a fair prey for any disease. The person who has been than acting, accidentally or otherwise, exposes himself to the cold air, the perspiration immediately ceases, and the blood, which had been but just now circulating rapidly throughout the surface of the body, is repelled inwardly, and is sure to settle in those parts which have been pre viously wearied and relaxed. Here, then, we have an accumulation of blood, a congestiou, which gives rise to all the pain and stiffices attendant spon such consipaint. When this takes place in the binot, we have when is called Sore Throat; when in the loius, Lambago or Sliff Back; when in the cheat, Plearies. We also have in in the shoulder-biacle, side, and other parts.

RADWAY'S READY RELLEF,

RADWAY'S READY RELIEF,

Talcen Internally and applied Externally.

Its first action, when freely applied, is to blunt the acute sensibilities of the nerves, and almost instantly relieves the pair; its accordary action is to excite perspiration, and redden the parts over which it is applied almost to a glow, thereby determining the blood from the nutured parts to the surface. In these cases, the READY RELIEF should be applied freely, at the same time rubbing the parts with a piece of flamiel, and it will be found in every case to give immediate and permanent relief. N.B.—If convenient, a piece of flamiel saturated with the RELIEF, and tied or pinned around the parts, does good service.

the parts with a piece of flamiel, and it will be found in every case to give immediate and permanent relief.

N.H.—If convenient, a piece of flamiel saturated with the RELIEF, and tied or pinned around the parts, does good service,

A. BAD COUGH CURED IN TEN MINUTES,

Mr. Rigdon, of Brooklyn, the celebrated Charch Singer and Organ-Player, on the night of the 10th of December was attacked with a severe fit of coughing—so that he coughed from 9 o'clock until 12 o'clock, P. Mr, without three minutes intermission. One of the Clerks of Radway & Co., who sleeps in the next room, got up and gave him a tea-apoouful of the Relief internally, and bathed his throat, neck, and chest; he also saturated a piece of flamnel with the Relief, and land it over his chest. In a few seconds the coughing ceased, he could expectorale freely, and raised with perfect esse a great quantity of phlegm. The Relief instantly soothed the irritation of the throat, and removed the inflammation from the longs, and gave free action to them, produced a free and copious perspiration of the throat and clest; and in ten minutes he was eatirely free from pain, and sunk tinc a sound and pleasant sleep. In the morning he was free from hourseness and cough, and has not been troubled since. Let every individual who is troubled with a cough, sore throat, inducenz, or hoarseness, pursue the same pian, and we will warrant them a speedy cure.

LAMENESS.

If you have a stiff joint, a wrenched limb, a swelled leg, a bruise, or any thing short of a bruken bone. Radway's Ready Relief will cure you. The lame have been restored to the free use of their limbs by a few applications of the Relief. The cripple, who has limped from spot to shot upon his crutch, has been relieved of his painful afflictions, and enabled to atand ere-t, as God designed that Man should stand, by a few times using the Relief.

Who has been bed-ridden for years, shut out from the busy world, and fingered with pain upon a couch of sickness, deprived of the Relief limbs by a few applications o

S. R. WARKEN,
MANUFACTURER OF ORGANS & PLANO-FORTES,
Currer of St. Joseph and St. Heavy Street,
NONTERAL,

WOULD respectfully call public attestion to
the large and complete assortment of Rosewood and Mahogany Planu-FORTES, which
he is now offering for Sale at his WAREROOMS; they consist of the Harmonic. Grand
Square and Cottage Ryle, six, six and—half, and
seven Octayes, with Metallic Frames.

These Instruments being of his own manufacture, he has no hesitation in saying, that, in brilliancy and vacellence of finish, they are inferior
to none imported into this Province.

From greatly increased facilities for manufacturing, he begs leave to state, that the above Instruments, will be Sold at a great reduction from
former prices; and that all orders for Pianos,
Church, Parlour Reed Organs, Enloybens, and
Harmonicons, of any size and capacity, will be
executed with promptness, and warranted to give
entire attisfaction. He has just finished a few
beautiful and fine-toned Melodeons, in Rosewood
and Mahogany cases, from four, four apid-shalf,
to five Octayes—to the inspection of which he
would invite the Musical Connoisseurs of Montreal.

This Valuable Preparation has been before the public for many years, during which time it has been extensively used, and has proved eminently successful in all those discusses in which his medicine is prescribed. It is considered by Physicians of the present day the very best Medicine for re-establishing the constitution after it has undergune the effects of Morenty. In Chronic Rheumaniam, the most marked effects have been produced by the use of Sarasparila; and its continued use is often attended with improvement of apposite and digestion, increase of strength, the production of a more healthy state of nime, and the palliation, or, in some cases, complete disappearance of various morbad symptoms, & Eraptions, Ulcerations, pains of a Rheumania character, &c., &c.

Drs. McCulioch, Campbell, McDonell, and Fraser, who have extensively used it is their practice. have kindly favored the Proprietor with the following Certificates:—

ALEX. URGEMAT. Ecq.:—Dara Sin,—I have much pleasure in bearing testimony to the faithful manner in which you prepare your Pluid Extract of the Compound Decetion of Sarasparills. This I am enabled to do, on account of several of my paliants baving derived the greatest benefit from its use.

For Constitutional Styphiles and Chronic Rheumatian, I have prescribed it with the most marked eisects, I can, therefore, without the least hesitation, recommend your preparation as one possessing all the Medicinal qualities of the Compound Decection of Sarsaparilla, while it as a the same time more palatable, and less apt to derange the Stymach.
