A few weeks ago we sent out over \$900 in accounts to delinquent subscribers, ranging in some cases from one to four dollars each. A few, a very few have responded and these have our sincere thanks for their promptness. To those who did not respond we wish to say that there is not one subscriber to pay. Reporters cannot pay their subscription if they only thought so, and this notice is to remind them that we are neither able or willing to allow them to remain delinquent any longer. We need the money to pay Reporters, and we need to provide our family with the necessities of life, (we don't ask for luxuries) and we trust that this call will not be forgotten or neglected. We hate to be continually harping at people to pay up but we have no way of reaching our subscribers, scattered all over Canada and the United States except through the medium of the Reporter. This notice is in no way intended for those who always make a practice of paying for their paper promptly.

A Deserved Recognition.

In reporting a meeting of the Ingersoll Board of Education, the Sun says:—"Mr. L. J. Cornwell's salary was increased from \$900 to \$1,000 from Sept. 1st next. The Board had not been asked for this increase, but it is considered to be a very efficient teacher." While here Mr. Cornwell was indefatigable in his efforts to obtain the best possible results, and we are pleased to make a special mention of his meeting with recognition in his new home.

He arrived safely at the camp which is about two miles from the village, and in a few minutes, contrary to the advice of Mr. Myers, went in bathing. Thinking that his guest had been in the water long enough Mr. Myers went down to the lake shore, a short distance from the camp, and again requested him to get out of the water, as the shore was very dangerous, and he, not being able to swim would probably be drowned. Having received an answer that he would be out shortly returned to camp. Some few minutes afterwards he heard considerable splashing in the direction in which Mr. Baillie was, but thinking that the Rev. gentleman was simply amusing himself, he paid little or no attention to the matter for a few minutes, but becoming alarmed at his guests prolonged absence, he hurriedly returned to the lake to again request him to come to land. Imagine his surprise when reaching the water to find the unfortunate bather but his clothes, knowing the dangerous shelving state of the rocky bottom and the inability of his guest to swim, the truth quickly flashed upon Mr. Myers, and a messenger was quickly dispatched to the village for help, which arrived shortly after 6 o'clock. A search was immediately made for the unfortunate bather and in a few minutes Mr. H. Arnold succeeded in locating and bringing the body to the surface. The body was quickly conveyed to the village where kind and loving hands prepared it for burial. The funeral took place on Thursday and was largely attended by friends who wished to show their last mark of respect to one, whose sudden and is one more lasting monument of the truth contained in the words "we know not what a day or an hour may come forth." Rev. W. G. Henderson of Perth, assisted by Revs. Messrs. Howard and Barnett of Elgin performed the last sad rites of the burial ceremony and laid the remains to rest until the Judge of the court shall order the remains to be interred in the cemetery.
