## ANTI-TUBERCULOSIS MEETING

Illustrated by Pictures and Supplement by Instructive Pamphlet

In the Opera House Wednesday evening Dr. Townsend of the River Glade Sanatorium repeated to a very much larger audience his lecture delivered in Temperance Hall several weeks ago. This time the lecture was illustrated by pictures. It was exceedingly instructive.

Col Maltby was chairman, and on the platform were Mayor Pedolin and Rev. P. W. Dixon and W. J. Bate.

REV. P. W. DIXON  
in moving a vote of thanks to Dr. Townsend said that there are yearly three million deaths from tuberculosis generally between the ages of twenty and twenty-one years. He believed that we should adopt the hygienic methods and in fifteen or twenty years

the disease will cease.  
REV. W. J. BATE  
in seconding the motion made a very happy speech. During the course of his remarks he said he expected, as he passed along the front and back streets of Newcastle, to see the bedroom windows raised high every morning. The reverend gentleman also made a timely and true remark about men standing around the post office and other business corners, spitting on the sidewalks, which is a disgusting sight. If they have to spit why not do so in the gutters, Rev. Mr. Bate was much pleased to second the motion.  
A very valuable pamphlet dealing with tuberculosis was distributed at the close of the lecture.

## MARCH WEATHER RHEUMATIC WEATHER

Victims Can Cure Themselves With Dr. Williams' Pink Pills.

With the coming of March people who are afflicted with rheumatism begin to have unpleasant reminders of their troubles. The weather is changeable—balmy and springlike one day, raw, cold and piercing the next. It is such sudden changes of weather that sets the pangs and tortures of rheumatism, lumbago and sciatica going. But it must be borne in mind that although weather conditions start the pains, the trouble is deeply rooted in the blood and can only be cured through the blood. All the lotions and liniments in the world can't cure rheumatism. Rubbing may seem to ease the pain while you are rubbing, but there its value ends. Only through the blood can you cure rheumatism. That's why Dr. Williams' Pink Pills have so many thousands of cures of this trouble to their credit. The new, rich blood which they actually make drives out the poisonous acid, and rheumatism is vanquished. Here is an example. Mr. W. C. Douglas, Webbwood, Ont., says: "I was attacked with inflammatory rheumatism, which spread through my entire system. For two months I was not able to go about, and seemed to be hovering between life and death. My joints were swollen and my legs and arms twisted, until I expected that they would never return to their normal shape. The doctor seemed to help me, but not to cure me, and I would be better one day and worse the next. At this time a friend strongly urged me to try Dr. Williams' Pink Pills and I got a dozen boxes. Soon after beginning the pills there was a change for the better, and I continued using the pills until I was quite well again. The swelling disappeared from the joints. My limbs returned to their natural shape and I feel as if Dr. Williams' Pink Pills have saved me from being a rheumatic cripple. I hope my experience may prove a blessing to some other sufferer."

If you suffer from rheumatism, or any other disease of the blood, begin to cure yourself today with Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## PROVINCE OF NEW BRUNSWICK AWAKENING

Immigration Congress Asks Local Government to Use Public Money to Assist the Farmers.

The Immigration Convention, the first of its kind in Canada, held in Fredericton March 8th, was a success and will tend to give New Brunswick a forward impulse that should be felt.

John T. Jennings of Fredericton presided.  
Among North Shore delegates were:  
Newcastle—Ald. T. W. Butler, Hon. Donald Morrison, E. A. McCurdy, Geo. M. McDade, Ald. H. H. Stuart and H. Williston.  
Chatham—Mayor Byrne, Ald. J. F. Benson, Ald. J. L. Stewart, F. J. Loggie, W. L. T. Weidon, J. Y. Mersereau.  
Bonou—Rev. E. S. Murdoch.  
Dartmouth—F. D. Swim, J. T. Sutherland.  
Blissfield—T. A. Hurley, Z. Gilks.  
Nelson—J. P. Burchill, M. P. Dalhousie—C. H. LaBillois, M. P. P. M. J. McKinnon.  
Campbellton—Wm. Currie, M. P. P.; J. Harquail, D. A. Stewart.  
Rexton—Geo. Jardine.  
Buctouche—John Sheridan, M. P. P.  
J. D. McKenzie, Sussex, seconded by Ald. Butler, Newcastle, moved, "That this congress desires to emphasize the necessity for greater publicity of the opportunities, resources and educational and social advantages of New Brunswick."

T. W. BUTLER  
Ald. Butler made an eloquent and powerful plea for the Miramichi Valley.  
The resolution carried and was referred to a committee.  
C. Fred Chestnut, Fredericton, introduced a resolution in favor of running excursions from Ontario and the West to New Brunswick, and suggested business men's excursions from the west to be arranged by boards of trade.  
Wm. Stitt, C. P. R., said there were only 4000 New Brunswickers in Western Canada and 50,000 in New England. The latter should be induced to return.  
Mr. S. L. Peters, Gagetown, in discussing what New Brunswick has to offer the immigrant, moved: "Resolved, that it is in the interests of New Brunswick to give greater publicity as to what we have to offer intending immigrants."

Mr. Peters expressed the hope of seeing an agricultural college and experimental farm established in connection with the U. N. B. He said that New Brunswick contained more acres of fruitful land in proportion to its total area than any other land under heaven.

T. W. BUTLER  
Ald. Butler of Newcastle made a strong address, favoring government assistance to young couples desiring to settle on the land. They should be assisted to obtain land, and to build, and should be bonused for every child they begot. The crying need of the country was earlier marriage and more children.  
Dr. T. Ives Byrne, Mayor of Chatham, suggested that free homesteads would prove an effective means of attracting immigration and advised that the government be memorialized for this as well as financial assistance.

H. H. STUART  
Ald. Stuart of Newcastle, in discussing New Brunswick's advantages, advocated as immediate improvements universal free rural mail delivery, parcels post, nationalization of telephones, a few more railways, and taxes on land value only.  
The resolution carried and was referred.  
Mr. H. B. Scott, Meductic, introduced a resolution favoring the establishment of central bureau at St. John to give immigrants reliable information. Carried.

## WHAT N. B. CAN OFFER IMMIGRANT

Some Suggestions to the Immigration Convention by One of the Newcastle Speakers.

In the discussion in the Immigration Convention in Fredericton on the 8th instant on the question, "What New Brunswick has to offer as a home for the immigrant," Ald. H. H. Stuart of Newcastle, spoke in part as follows:  
The first aim of the country should be to keep its own people at home. Acquisition of land by its young people should be made as easy as possible, the colonizing methods of the French speaking people of Quebec and Northern New Brunswick being worthy of careful consideration.  
In looking for immigrants we should not solicit people of different color, for they will not assimilate with us and would be a source of division and weakness rather than of unity and strength. Neither should we go to much warmer climates, for their people can stand our conditions much better than we can accommodate ourselves to theirs, and their settling here would reduce the area inhabited by people of our civilization and temperament. But if we must have immigrants, let them be of the kindred peoples inhabiting the British Isles, Germany, Scandinavia, &c., and, in any case, men of the temperate zone, and of the same color and, as nearly as possible, of the same grade of civilization as ourselves.

To the immigrant New Brunswick can offer an invigorating temperate climate, good land, well watered, well worked and fertile. In Douglstown and Avoca and other places on the Miramichi, 26 bushels or more of wheat can be raised to the acre—a better yield than the average out West. Fruit can be grown in every county, and mixed farming precludes any possibility of famine.  
While we have no gold mines, our deposits of iron, coal, gypsum, government to come from those bodies.

H. H. STUART  
Ald. Stuart opposed the amendment and favored the provincial banking system endorsed by the original motion. He asked what the Government was for if not to look after the interests of all classes. Was it only to bonus railways and the big corporations? Farmers and Workmen should be assisted here as the former are in Australia and the latter in Ireland. It would be risky to refer the matter to the Union of N. B. Municipalities, as the executive of that body had failed to prepare legislation for this session to carry out the views of their last convention on taxation reform.  
Mr. Armstrong's amendment was lost and the original motion carried, being referred to a committee to press it upon the local government.

A GREAT STEP FORWARD  
Mr. Arthur Hawkes, Dominion Immigration Agent, declared the adoption of the foregoing resolution marked a great step in provincial progress, being a recognition of the principle that public credit must be used for the benefit of the farmers.  
Premier Fleming closed the convention in a strong speech, speaking of the importance of immigration in general and of teaching children the beauty of the land. He said the government was prepared to do its duty in the matter.

HER SKIN SEEMED ON FIRE

Every Other Treatment Failed But "Fruit-a-tives" Cures

GRANDE LIGNE, QUE., Jan. 2nd, 1910. "My wife was greatly distressed for three years with chronic Eczema on the hands, and the disease was so severe that it almost prevented her from using her hands. The doctor gave her several ointments to use, but none of them did any good. He also advised her to wear rubber gloves and she wore out three pairs without getting any benefit. As a last resort, I persuaded her to try "Fruit-a-tives" and the effect was marvellous. Not only did "Fruit-a-tives" entirely cure the Eczema, but the Asthma, which she suffered from, was also completely cured.

We both attribute our present good health to "Fruit-a-tives". N. JOUBERT. "Fruit-a-tives" will always cure Eczema or Salt Rheum because "Fruit-a-tives" purifies the blood, corrects the Indigestion and Constipation, and tones up the Nervous System.

**JUSTICE OF THE PEACE**  
HAD ULCERS & ECZEMA 4 YEARS  
ZAM-BUK HAS WORKED A CURE.

Mr. J. E. Arsenaull, a Justice of the Peace, and station master at Wellington, on the Prince Edward Island Railway, says:

"Four years ago I slipped in the station and fell on a freight truck, sustaining a bad cut on the side of my leg. I thought this would heal, but instead of doing so it developed into a bad ulcer, and later into a form of eczema which spread very rapidly and also started on the other leg. Both legs became so swollen and sore that I could only go about my work by having them bandaged. My doctor said I must stop work and lay up.

"After six months of this trouble I consulted another doctor, but with no better result. I tried all the salves, liniments and lotions I heard of, but instead of getting better I got worse. "This was my condition when I got my first box of Zam-Buk. Greatly to my delight that first box gave me relief. I continued to apply it to the sores, and day by day they got better. I could see that at last I had got hold of something which would cure me, and in the end it did.

"It is now over a year since Zam-Buk worked a cure in my case, and there has been no return of the eczema."

Such is the nature of the great cures which Zam-Buk is daily effecting. Purely herbal in composition, this great balm is a sure cure for all skin diseases, cold sores, chapped hands, frost bite, ulcers, blood-poisoning, varicose sores, piles, scap sores, ring-worms, inflamed patches, cuts, burns and bruises. "All druggists and grocers sell at 50c. box, or post free from Zam-Buk Co., upon receipt of price.

MEETING OF CAMPBELLTON TOWN COUNCIL

Ways and Means Discussed at Tuesday's Meeting.

The Town Council met on Tuesday evening, His Worship Mayor McDonald presiding. Councillors present Messrs. Alexander, White, Mewat, Lunan, McKenzie, Miller, Pinault and Moores.

Minutes of previous meeting were read and confirmed.

Communication was read from Duncan McKinnon asking reduction of assessments for property on Cedar Street. Referred to assessment and appeals committee.

Communication read from Capt. W. H. Belyea B. Co. 73rd Regiment enclosing account of \$35.35 for equipment not returned to him after the fire. This was referred to Capt. McKenzie of the local company of the regiment.

Communication was read from the Council of the Board of Trade as follows:—

Submit plans of proposed wharf adjoining and east of the Town Electric Light wharf, and the estimated cost of the work and advise the use to which this wharf is to be put.

It is proposed to use this location as a dumping ground, and if so for how many years it is estimated the property can be used for this purpose.

If it is to be used as a dumping ground, will it be a general dumping ground, or if not, what disposal will be made of all offensive matter?

It is the intention of the Town Council to erect a concrete dam at Smiths Lake, if so what is the estimated cost of same.

What is the cost of operating the present Electric Light plant under day and night loads respectively:—

This communication was laid on the table.

The following reports of standing committees were received and adopted. Councillor Pinault from Public Property and streets accounts totalling \$188.49, Councillor Miller, Finance Committee, \$56.25, Councillor White, Fire Protection, \$44.40, Councillor Lunan, Police and License Committee, \$13.50, Councillor Moores, Public Charities Committee \$104.45, Councillor Alexander, Water and Sewerage Committee, \$124.29.

Councillor Lunan submitted report of Police and License Committee, recommending that a license for a Tailoring and Clothes-Pressing establishment be granted George LeTourneau on payment of \$10.

The agreement between the Shives Lumber Company and the town, respecting the wharf property was submitted and approved. The deeds were ordered to be executed and forwarded for registration.

Councillor Pinault moved and Councillor White seconded that the committee proceed with the construction of the dumping ground crib wharf in accordance with the plans of the Town Engineer.

This motion raised general discussion, the main trend of opinion being that it would be unwise to go further into debt when there were other pressing problems before the Council, such as the Smith Lake dam, and the further requirements of the fire alarm system. The discussion was taken part in by all the Councillors, and in the end, an amendment that the matter be laid over till next meeting was carried.

Council then adjourned.

THE FREE DENIAL ELECTRONICUS

Mr. Oscar Underwood, Dem. President of the U.S., writes to the Editor: "What is the meaning of this?"

(Publishers Press News Service) Washington. — Oscar W. Underwood the dem. leader in the house is not a 'progressive' but the house is so strongly progressive (with a fighting group of insistent republics) that Underwood yields more or less to progressive spirit. Underwood is more of a presidential possibility than is generally known. In order to give him a chance to be understood by the public a list of questions were submitted to him. Herein follow the chief questions and the answer which Mr. Underwood gave to them.

Q.—Do you believe in the initiative, referendum and recall, including the recall of judges?

A.—I am utterly opposed to the initiative and referendum — utterly and unalterably opposed. I believe that is the only safe form of government of our government. It is the notion of representative government. It is wholly reactionary and not progressive. I believe, however, that the initiative, referendum and recall should not be placed in the national platform, but that as a local matter it should be

OSCAR UNDERWOOD

worked out in each state, and not be made a party issue. I am absolutely against the recall, even in its worst form — the recall of judges — to be so dangerous as the initiative and referendum. The recall of an officer merely affects the tenure of an office. I believe that at reasonable intervals the people should have an opportunity to re-elect their officers, and short terms of office could accomplish much more than the recall.

AMERICAN PACKERS LOSE BRITISH CONTRACTS

Decision Will Hit Meat Barons Hard and Argentine W.H. Beneficial

London. — The British government has decided to exclude the American meat packers against whom prosecutions have been instituted in the United States from tendering for contracts for the supply of meat to the British army and navy, pending the settlement of suits. The decision of the government is due to the opposition of labor and advanced radical members of parliament to the American trusts.

The contracts given out by the war office which had hitherto been secured by American firms are now expected to go to Argentine meat packers.

It was explained by officials of the war office that the government's action was in accordance with its regular policy. In case any company with which the government dealt became in serious litigation, the government immediately refrained from giving it contracts. British firms received the same treatment under the same circumstances.

They could pay off the whole national debt of Britain, and could, if they chose, put a million men in the field, and wage war for ten years. Millions upon millions of Lord Strathcona's holdings are in Canada.

SPIES SENTENCED

Seven Years' Penal Servitude Given Shipbroker Who Was Caught With German Naval Plans

Leipzig. — Heavy punishments were meted out to English spies arrested at Hamburg and who have been on trial behind closed doors for several days before the imperial court. Max Schultz, an English shipbroker, was sentenced to seven years' penal servitude. One of his associates, an engineer named Hipsch, was condemned to twelve years in jail; an engineer named Wulff, was sent to jail for two years, and a merchant named Von Mackel, and Max Schultz's house keeper, each received three years.

The judge in sentencing the men, said the arrest broke up a group of spies, whose activities were dangerous in the highest degree to the safety of the empire.

Hipsch, in particular, who had been twelve years employed as an engineer in a naval shipyard, was able to collect designs and information from all the German yards. This he delivered last January to agents of an English information bureau, thus exposing Germany's most important military secrets.

Max Schultz had organized, according to the judge, a network of spies through Germany.

Hipsch probably was the lowest ranked spy of importance on record. He was paid only \$10 a week. Wulff, it was stated, dealt with the question of submarines.

MEANING OF THE CROSS

This cross (in red) has been adopted in Canada and all over America as the emblem under which the Crusade against Consumption is carried on.

Every reader knows of the ravages of this disease; how, too often, the bread-winner of the family falls a victim, or the young man or young woman, with a promise of a happy and useful life, is stricken down.

This modern Crusade, like the one of old, is a winning fight. The death rate from Consumption in this province shows a decrease of over 25% in the past few years.

Nearly 6000 of these poor sufferers have been cared for in our Consumptive Homes in Muskoka and near Weston. To-day we have 300 patients under treatment—patients who, if they had the money, could not through fear of contagion gain admittance into other hospitals.

In the Muskoka Free Hospital alone we are now caring for 156 patients. 128 of these cannot pay a single cent for the cost of their maintenance, 15 pay 70c. per day, 1 pays 57c. per day, 12 pay 50c. or less per day.

Our Trustees, having faith in the generous-hearted people of Canada, have continued to carry on this work during the past year.

Money to pay doctors, food, nursing and caring of these sick ones, is urgently needed. Will your readers help and have the joy of sharing in a work that has the promise of the Master's reward?

CONTINUATION OF MANCHUS UNLIKELY

Whatever the Outcome of Negotiations Yuan Shi Kai Will Probably Be Ruler of Peking

(Publishers Press News Service) Shanghai. — Prospects of peace in China become more definite today with the announcement that all six of the great Powers, Great Britain, France, the United States, Germany, Italy and Japan, are united in co-operative effort to assist Dr. Wang Fang and Tang Shao Yi in their negotiations. There was rejoicing today when it was learned that the representatives of the six Powers were preparing to offer formally their assistance for the speedy conclusion of a understanding by the negotiators at the present conference.

It is clearly understood that this action by the powers is taken in the most friendly manner.

The pourparlers between Wang Fang and Tang Shao Yi opened with surprising smoothness and there was a complete absence of any sense of strain which might have seriously retarded the diplomatic progress of the conference. It is unmistakably evident, however, that the continuation of Manchu rule, even as concerns the imperial throne at Peking, is considered unlikely by either side. In this connection much significance is attached to the statement of Tang Shao Yi that he does not regard the throne, but rather the Premier. Coupled with Wang Fang's early insistence upon the establishment of a republic, this is taken to mean that Yuan Shi Kai is prepared to concede the ending of the dynasty.

Even though the present dynasty is ousted, the Premier evidently hopes to retain the Imperial form of government, possibly with the present Emperor designated as the first ruler of a new Chinese dynasty and with Yuan Shi Kai as regent.

A ROMANTIC IRISH MARRIAGE

Claim That Only One Witness Being Present at Wedding Null and Void According to the Roman Catholic Church

(Publishers Press News Service) Dublin. — In the Probate Court, before Mr. Justice Madden, an application for annulling the hearing of the case of the marriage of the respondent, Mrs. Usher, was heard. The petition is brought by the husband for the nullity of the marriage. The family residence is at Eastwell, Louisa, County Galway.

Mr. Serjeant Macarty, who appeared for the respondent, Mrs. Usher, said that the petitioner, William Archibald Usher, a gentleman farmer, stated in his petition that on April 24, 1910, at 10 o'clock at night he was married to Mary Caulfield, "now falsely called Mary Usher," in a bed room in his house. They are Roman Catholics and the ceremony was performed by a Roman Catholic priest in the presence of one witness. The petitioner now said that the marriage was null and void by reason of the fact that only one witness was present and that the ceremony was not carried out according to the rites, regulations, and ceremonies of the Roman Catholic Church or according to law. The respondent denied that the marriage was null and void for any of the reasons stated by the petitioner.

In a replying affidavit the petitioner said that the contract of marriage was not accompanied by a valid religious ceremony as was required by law, that it was subject to and on the express condition that it should be according to the rites of the Roman Catholic Church and on the express condition that the Roman Catholic Church should permit of the same being valid.

A GREAT PAINTER'S START IN LIFE

How a Young Girl Inspired Ziem, the Great Portrait Painter, To Get Out of Himself, and Work.

Paris. — Ziem, sitting cross-legged on a table beside a window, worked as a tailor's assistant for several years. His life was thrown into a new channel by the arrival in the court yard of an Italian family in which there was a handsome, auburn-haired girl who sang as a ballad singer. The father played a hurdy-gurdy, the mother made lace and a boy performed divers gymnastic feats. The girl had a fine voice. Her father wanted a new coat and asked the elder Ziem to make it and Mme. Ziem to take in a part of the family as lodgers. She took in the boy and girl.

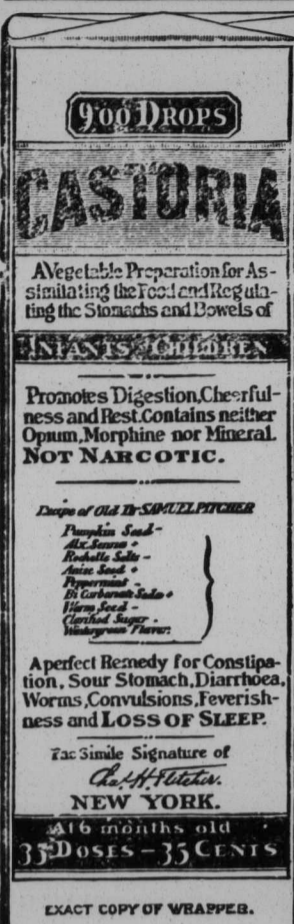

The latter lifted the future painter out of himself with her Venetian songs and accounts of the glorious city to which she hoped soon to return. Her name was Caterina. When she went away Ziem felt miserable. He lost spirit and could not shake off the sort of paralysis that had seized on all his faculties. At last he determined — with the help of his needle and his talent, as he thought, of portrait painter and violinist — to make his way to Venice. He answered to his hopes of going down by water to Marselles, for he knew no geography, and thence to Rome. It would be now curious to see the portraits of Saone and Rhone captains of barges, wine and wood rafter that he did for them, in lieu of passage money. In Rome he got in with painters and tourists. The former helped him to enlarge his artistic culture, and the latter took him about as a guide. But Caterina and Venice lay on his heart, and he took the bold resolution of going on foot to the city of his dreams. He so fell in love with it the first day he went on the lido that he did not break his heart when he heard that Caterina had not turned up, but had gone to Paris to serve as a model.

#### MEMORIAL SERVICE

### FOR MRS. HENDERSON

The memorial service for the late Mrs. James Henderson in St. Mark's Church, Douglastown, on Sabbath Evening, March 3rd, was one of unusual interest. The musical selections, where particularly appropriate, being rendered with great taste and feeling by the large choir. The following was the order of service:-  
Organ Prelude - "Sweet bye and bye"

Anthem-"No more tears"  
Invocatory Prayer.  
Hymn 340 - "How bright these glorious spirits shine."  
Scripture Lesson Psalm 16.  
Hymn 328-"Now the laborer's task is o'er"

Prayer.  
Anthem-"Some sweet day"  
Scripture Lesson-Revelation 7.9-17.  
Hymn 345-"There is no night in heaven"  
Sermon-Psalms 16.8-11.  
Prayer.  
Hymn 334-Forever with the Lord.  
Benediction.

In referring to the deceased lady Rev. Mr. Simpson spoke in part, as follows:-

Her devout and beautiful life of simple trust ought to prove an inspiring example, not only to those who know her best, but to all who came under the influence of her genial and kindly Christian character. We can well apply to her those wonderful words "Blessed are the dead which die in the Lord from henceforth: ye shall rest, and their works do follow them."

After all it is in the experience of those who, like her, live the life of faith in Jesus Christ, and can look calmly and confidently into the future that our faith finds its sweet

confirmation. Undoubtedly she was one of God's Saints on earth; full of piety without ostentation, humbly walking with God; clear in her conviction; strong in her confidence; and possessed of a faith which no circumstances could shake or shatter. It is these rare and saintly souls who abide under the shadow of the Almighty, that discover God's secrets and rejoice in the sweet consciousness that God is an ever present helper and friend. These are they who can say, as our departed friend said almost with her last conscious breath, "yea though I walk through the valley of the shadow of death I will fear no evil for thou art with me; Thy rod and Thy staff they comfort me! Let us thank God for those who have lived, and died in this faith; and let us be the true followers of them who, through faith and patience inherit the promises of God.

#### THE FUNERAL

The funeral of Mrs. Henderson took place on Feb. 28th. It was very largely attended, although the day was a most stormy one. Interment was in St. James Cemetery, Newcastle. Services at the house and grave were conducted by Rev. F. C. Simpson.

#### EUROPE AND CHINESE TROUBLE

Powers Now Take Over Chinese Railroad and Send Troops to Protect Line and Ensure Communications.

Peking - The treaty powers have undertaken the protection of the railroad between Peking and the sea. Interruption of traffic along this line, which has prevented the passage of the mails for four days, has resulted in this decision. Detachments of British, German, Japanese and French troops have been stationed at intervals between Peking and Chin Wang Tao, according to the plan devised two months ago.

The respective nations assume charge of different sections of the road. Great Britain taking care of the section between Peking and Yang Tsun; France between Yang Tsun and Hangku; Germany, Tanaku and Tangshan; the United States, Tangshan to Lanchow, and Japan from Lanchow to Chin Wang Tao. The United States, however, has no troops in North China, except 300 legation guards, and has been unable to assume responsibility for the section allotted to it, but British troops are protecting that district until the Americans arrive. Just when additional American troops will reach China is not known, although Minister Calhoun cabled several days ago to the State Department at Washington advising the dispatch of a regiment on a peace footing. So far he has received no reply from the department.

Mr. Grabstein: "I am a Republican, and don't lead herdie they pun himself or his peesness future is ruined!"  
Mrs. Grabstein: "How you do!"  
Mr. Grabstein: "Yy, a purat child creeds der fire."

#### AGRICULTURAL SOCIETY, NO. 122

Held Annual Meeting at Whitneyville on the 5th inst.

The annual meeting of Agricultural Society No. 122, at Whitneyville on the 5th was attended by some 50 men of the surrounding country, among whom were several from Newcastle.

Valuable discussion took place. The society decided not to offer prizes this season.

It was resolved to purchase three pure bred Ayrshire bulls, to be sold at auction to members only.

The value of the society is felt already. Several seed companies have sent catalogs and offered substantial discounts on prices to members. It was decided to purchase through Treasurer, H. Williston, Newcastle.

C. C. Hayward, on behalf of the Lounsbury Co., offered three prizes of \$10 each for best fields of potatoes grown with the company's fertilizers, on which Mr. Hayward quoted special prices to members and 10 p. c. discount if ordered beforehand and taken from cars.

Ald. Butler, the secretary, offered prizes of \$10 and \$5 for best acres of wheat.

The secretary's report to the agricultural department showed that past season had been good for vegetables, roots and berries, but not so good for grain; hay had been above the average. Oats were grown too steadily; fruit grew bounteously; no reasonable attention had been given to stock-raising; only few thoroughbred cattle, mostly Ayrshires; sheep neglected, because of dogs; few swine kept; and those not pure bred; executive had decided to purchase purebred Ayrshire bulls. A grist mill was wanted, to encourage wheat growing.

With present yield per acre of most crops could be doubted in the district.

#### PROVINCIAL LEGISLATURE OPENS

### Speech From the Throne Adopted Without Division.

The Provincial Legislature opened on the 7th.

The speech from the throne noted with loyal satisfaction King George's coronations in Britain and India and the appointment of a royal Governor-General, the prosperity of the province, increase in agricultural societies and exhibitions, fruit growing, &c. An effort would be made to prevent cutting down of Maritime representation at Ottawa: The St. John Valley Railway Contract had been let, to be completed before November 1915, the road to be leased to the federal government.

Immigration was increasing. A bill to promote the recreation and settlement of abandoned farmers would be submitted. A railway would be built from Minto to Gibson; and the Central railway would be operated by the C. P. R. The territorial revenue was some \$500,000.00 larger than previous year. Bills amending the Liquor License Act, Game Law and Workmen's Compensation Act were promised.

On Monday the Speech from the throne was adopted without a division, the opposition not forcing a vote.

#### A NEW NAVAL ACT PROMISED

And the People Will Have the Privilege of Voting Upon it.

Ottawa, March 4-In the Commons today Mr. Mendou, a Quebec member, asked the following questions of the government.

1-Does the government intend to propose the repeal of the naval service act?

2-If so, does the government intend in case of such repeal to propose another act containing the policy of the government in the matter?

3-If such other act is proposed is it the intention of the government to submit the same for the approval of the people before put into force?

Hon. Mr. Borden: The answer to each of these three questions is "Yes."

It seems to us befitting that we should express ourselves thus on this the anniversary of your birthday. Assuring you of our best wishes for a long happy and even more useful life, also a full share in the "glad new song" in Heaven above, we beg to remain in loving service,

LISTEN TO US

"We are only little ones, but we know Zam-Buk eased our pain and cured our sores. Perhaps it would cure you, too, if you tried it?"

Isn't this sound advice from "babes and sucklings"? Take it! The speakers are the children of Mrs. E. Webster, of Seigneurs St., Montreal, and the mother adds weight to their appeal. She says: "My little girl contracted scalp disease at school. Bad gatherings formed all over her head, and not only caused the child acute pain but made her very ill. The sores discharged, and occurring on the scalp we feared she would lose all her hair. She was in a pitiable plight when we tried Zam-Buk, but a few days' treatment with this balm gave her ease. Then the sores began to heal, and we continued the Zam-Buk treatment. In a short time she was quite healed. "My little boy sustained a serious scald on the neck. It set up a bad sore, and quite a few things we tried, failed to heal it or give him ease. Once more we turned to Zam-Buk, and we were not disappointed. It acted like a charm in drawing away the pain, and soon healed the wound."

Zam-Buk is "something different" in the way of balms. It contains powerful healing herbal essences, which, as soon as applied to skin diseases, kill off the germs and end the painful smarting. Other essences contained in Zam-Buk so stimulate the cells that new healthy tissue is speedily formed. Eczema, itch, ulcers, cold sores, abscesses, festering sores, blood poisoning, chronic wounds, cold cracks, etc., are healed and cured in this way. Use it for all skin injuries and diseases. It is also of great service for piles. All drugists and stores at 50 cents box, or Zam-Buk Co., Toronto.

THAT AWFUL BACKACHE

Cured by Lydia E. Pinkham's Vegetable Compound

Morton's Gap, Kentucky—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and an enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have the backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. OLLIE WOODALL, Morton's Gap, Kentucky. Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so surely as Lydia E. Pinkham's Compound.

Write to Mrs. Pinkham, at Lynn, Mass., for special advice. Your letter will be absolutely confidential, and the advice free.

HOCKEY

The Victorias added another to their list of victories when they defeated the Fire Department in a good clean game of hockey. The game was well handled by referee Lavoie, his decisions meeting with universal approval. The final score was 4 to 0 in favor of the Vics.

The success of this team can only be attributed to their team play, not so much to their individual abilities. The other teams comprising the league will need to get more practice together, for most of their work is lost on the ice by each one striving to do too much on his own. Individual play looks fine on the ice but it does not get goals, and until the teams get down to good solid combination work, one can scarcely look for a great deal of improvement.

The line-up of the teams was as follows:

Table with columns for teams (S. F. D., Victorias, G. Wallace, Point R. Matthews, O. McWat, Rover J. Mattheus, W. Ferguson, Cover H. Wallace, Sullivan, R. Wing Schurman, Smith, Centre Delaney, S. McLean, Goal Kelly, Ryan, L. Wing, Keith) and referees (Referee, R. J. Lavoie; Goal judges, Messrs Gillis and McDonald).

Table titled 'STANDING OF TEAMS' showing goals scored and points for various teams (Vic's, IRC, CFD).

Two points for a win, one for a draw.

Table titled 'GOAL SCORES' listing players and their goal counts (H. Wallace 8, Schurman 3, Keith 8, Mersereau 2, Delaney 8, Lavoie 2, Damboise 5, Boudreau 2, Ferguson 4, Shirley 2, O. Mowat, J. Matthews, Smith, G. Wallace and Martin, 1 goal each, Campbellton Graphic).

Children are much likely to contract the contagious diseases when they have colds. FROZEN TO DEATH

He was found in some bushes over an embankment, while his horse with the overturned sleigh was found near by. An inquest was held by Coroner Wallace. The verdict was death from exposure.

LIBERALS AND SOCIALISM

Germany's Future Hangs on Fateful Election of New Reichstag — Big Radical Gains Expected. (Publishers Press News Service)

Berlin.—The German government is due for a beating. Just how severe it will be depends on how strong the socialists and other opposition parties prove to be.

The ultimate results of the coming national election will mark it the greatest day in German history since the war of 1870. Upon the issue depends the existence of all the political and economic institutions which the outside world regard as representative of modern Germany.

The election is for members of a new Reichstag, the thirteenth since the union of Germany. The new Reichstag will be elected by free, equal and secret suffrage. Every male over 25 has a right to

AUGUST BEBEL, Famous Leader of the German Socialists.

vote. The elector delivers at the polling booth, which is presided over by honorary officials, his ticket, which must be on white paper. The ticket is delivered sealed, or in an envelope, and is thereupon deposited in a voting urn.

The five great parties are the conservative, the center (clerical and Catholic), the national-liberal, the freisian (radical) and the social democrats or socialists. The election now being fought is, put roughly, between the first two in combination and the last three, more or less in agreement. The conservative-clerical parties form the famous "blue-black block," on which Chancellor von Bethmann-Hollweg relies for a reichstag majority.

The three opposition parties do not form a coalition, although attempts have been made to induce them to. The famous publicist, Friedrich Naumann, thousands will vote with the Bassermann to Bebel," meaning that the national-liberals, with Bassermann as chief, should (via the intermediate freisian) join the socialists under August Bebel. The liberals and freisian and the freisian and socialists have certain agreements about not splitting forces in doubtful electoral districts and about mutual support in "stichwahlen." But the three parties remain independent of one another and are united only in their common ambition to overthrow the "blue-black block."

In 1907-09, during Buelow's regime, the socialists did not win one special election. Since 1909, under Bethmann-Hollweg, they have won no less than ten. In 1907 the socialists were badly defeated. Their party of 81 was cut down to 43. With the aid of the subsequent special elections, they now have 51 members, and few doubt that the coming election will restore the old 81. Some predict 100; a few enthusiasts say 120.

The genuine socialist vote is precisely known. The question is how many thousands will vote with the socialists merely to display their anti-government bias.

INVENTOR OF FREE LUNCH DIES WEALTHY

Chicago.—Frederick Glahe, inventor of the free lunch, is dead. He came to Chicago when 18, without money. He opened "Fred's Beer Tunnel" in the basement of the McVicker theater. On one side was the bar, on the other a counter, piled high with sandwiches. It was the first free lunch.

"I figure I can offer something to eat with his beer, and make money. Beer and food go together," said Glahe.

Glahe's idea justified itself. In 23 years the free lunch was an American institution. Glahe died worth \$200,000, extreme west, to Lake Meleha, on the east. It is reported that the main body of the Turks has retired on Gharian, leaving a small advanced body at Azizia.

IN THE LIMELIGHT

Martin W. Littleton, congressman from Col. Roosevelt's district, and whom W. J. Bryan classifies as a "thorough-going reactionary" has made a stand against the "classical black-mailers," who have so little regard for our leading statesmen that they will come right out and tell what they think about the lies. What provoked M. W. L. was the accusation that he was a "little brother to the steel trust." That hurt the congressman with his constituents and the hurt of the hurting there aunts somewhat.

### A TREASURE HUNT IN AUCKLAND

After Four Previous Attempts to Recover Lost Gold, a New Expedition Has Started Out On the Hunt.

Auckland, N. Z. — Captain N. C. Sorenson, formerly employed as diver by the Auckland Harbor Board, purposes, in conjunction with a partner in Dunedin, to fit out an expedition to cost about \$50,000, to proceed to the Auckland Islands to endeavor to recover the bullion believed to have been lost in the General Grant, wrecked there in 1866. Four previous attempts to recover this treasure were unsuccessful. Captain Sorenson believes that the failures were through attempting the work from the seaward side. His idea is to land an expedition on the landward side and out a road across to the wreck, and operate by means of derricks erected on the cliffs.

The General Grant was a sailing ship of about 1300 tons. She left Melbourne for London, laden with valuable profits of the Ballarat goldfields, on May 2, 1862. Just ten days later she struck hidden rocks off the Auckland Islands, and the majority of those on board were lost. The survivors experienced hunger and cold before they were discovered in the month of March, two years later, by Captain Grey, of the ship Hampshire, who took them to the coast.
