READY-MADE CLOTHING!
A Large Stock of
BOOTS AND SHOES.
A LARGE SUPPLY OF
COTTON YARN!
Tea from 50 Cents upwards.
J. V. DETLOR & SON.
September 19th, 1865.

Ministerial Changes in England.

The Times announces that Sir Charles Wood is to be succeeded at the India Office by Lord De Grey. Lord De Grey will be succeeded at the War Department by the Marquis of Hartington. The Times considers this an excellent appointment. Lord Hartington will form, with Mr. Goschen, an element in the Cabinet which will tend to increase its popularity in the country. The appointment, too, places one of the two national departments, directing the national defence, in the hands of a man of the name of Lord De Grey. Lord De Grey is Under Secretary of the State for India. He will probably apply to the India Department that special study of abstract details, which it requires, and represent it to the House of Commons. Lord De Grey will be presumed, be provided for some other post, as the Government would not willingly lose his services. Mr. Russell, who was for several years clerk of the Ordnance, succeeds to the Vice-Presidency of the Board of Trade.

Pandemonium in Los Angeles.

CHICAGO FEBRUARY 27. NEW YORK AND BOSTON HURRIED!
The Chicago Times contains an account of a dog fight which took place in that city on the 25th inst., which drew together the lowest class of sporting characters from all parts of the States. The fight is represented as having been a very great success, and both of the unfortunate dogs were mangled and torn in a manner which was not only interesting to the two legged brutes who set them on, but also to a large number of spectators who were attracted to the place where the fight took place. The dogs were both of the bulldog breed, and were both of the same color, and were both of the same size. The fight was a very close one, and lasted for some time. The dogs were both of the same breed, and were both of the same color, and were both of the same size. The fight was a very close one, and lasted for some time. The dogs were both of the same breed, and were both of the same color, and were both of the same size. The fight was a very close one, and lasted for some time.

United States.

NEW YORK, Feb. 27.
EXTRA POLICE CHARGES AT THE CAPITAL.
In consequence of the turbulent disposition manifested by some portions of the people in the city of Washington, the President has ordered an extra police force at the capital during the hours of session.
AN ARMY FROM TEXAS.
Gen. Comstock, of Grant's staff, arrived at Washington from Texas with important reports for the President.
GEN. GRANT.
The Lieut-General reached Washington yesterday morning and at once repaired to the headquarters, where he is now busily engaged with military affairs.
THE PRESIDENT'S POLICY DENOUNCED.
The Hon. Mr. Johnson's speech yesterday in the Senate has been denounced by the members of the opposition as a gross insult to the President's policy in the terms of the financial policy and the political phases.
THE SENATORS OF TENNESSEE.
The Times says that the members of the Tennessee delegation to the Convention were elected to their seats in the United States Senate. It is stated that the members of the delegation were elected to their seats in the Tennessee Senate, and that they will be permitted to take their seats before the first of the next year.

Treatment of Freedmen.

The agents of the Freedmen's Bureau report that some hands in the interior of Texas are defying the United States soldiers and maltreating the negroes on the plantation. Texas has been too long a rebel State, and the Freedmen are about to be placed in a state of servitude. Many complaints have been received in circulation, dated February 1866. Several arrests have been made.

Horrible Accident—A Man Struck with Kerosene and Set on Fire.

Pittsburg Commercial.
A terrible accident occurred on the Pennsylvania railroad, on Wednesday night, near Lancaster station, about 20 miles from this city. A stock and an oil train, which left this city during the night, were derailed on the track while some cars of a forward train were being shifted. The front part of the stock train, consisting of a cow car, a pig car, and a horse car, was derailed and fell into the water. The cow car was struck by the front part of the stock train, and the cow was killed. The pig car was also struck and the pigs were killed. The horse car was also struck and the horse was killed. The train was derailed and the cars were scattered in all directions. The accident was a very serious one, and caused the death of several people.

THE NEW MILITIA BILL.

The Senate military committee reports to their meeting yesterday to report a bill to provide for the national defense by establishing an active, uniform, national militia force throughout the United States. The first section makes every able-bodied male person between twenty and forty years of age subject to enrollment for militia duty. The second section exempts all of the executive and judicial officers of the government and all of the states members of both houses of Congress, postmasters, pilots, marines, telegraph operators and all persons in charge of the mails. Section ten says there shall be organized in all of the states one regiment of active volunteer militia for each Congressional district. All officers of the active force are to be appointed by the governors of the states and territories, but the War Department is to furnish all arms, equipments, &c., to said militia force. The President can order all or any part into service at any time. The militia force is to be organized in a manner similar to the militia force of the United States.

Great Explosion.

HARRISBURG, Feb. 27.—A terrific explosion occurred last evening at the furnace of J. S. H. Melly, Middletown, resulting in the complete destruction of the furnace, the death of five men and the wounding of six others. Eight boilers were in the furnace, one was raised by the building, carried five hundred yards, and exploded in the Pennsylvania canal, the other boilers were scattered in various directions, some of them passing through houses and other buildings. The explosion was a very serious one, and caused the death of several people.

Farmers give him a call!

LEWIS ELLIOTT.
N. B.—Horse shoeing and jobbing of all kinds strictly attended to.
DEATH OF MR. GEORGE MICHE.
The Globe regrets to announce the death of Mr. George Michie, one of the well known business men of Goderich, who died on the 31st of January. Mr. Michie was a very successful business man, and was well known to all who were acquainted with him. He was a very kind and generous man, and was much respected by all who knew him. He was a very successful business man, and was well known to all who were acquainted with him. He was a very kind and generous man, and was much respected by all who knew him.

GODERICH, MARCH 8, 1866.

THE GUESTS BY THE ANS OF THE SUPERVISOR

The guests by the Ans of the supervisor of the Huron Signal in Ireland and the arrest of a large batch of conspirators, has influenced the Fenians of America with rage. Mass meetings are called in several States and a determination expressed to "write with the iron hot," as Mr. Elliott says in his handbill. Privateers are to be sent out, an army sent over to Ireland, and England's Empire destroyed indignantly, if not sooner.

DOINGS AT WASHINGTON.

Since the delivery of the President's extraordinary speech, Washington, as might well be imagined, has been in a fever of political excitement. It is all very well for men occupying subordinate positions in the State to utter demagogic speeches, but when the chief magistrate of some thirty millions of people makes an open and public attack upon leading politicians, we may anticipate feeling in not a dangerous outbreak of passion. The republicans went back their blood-and-thunder during the civil war, thought, no doubt, that they could count upon the concurrence of the present occupant of the Presidential chair with regard to such measures as the Freedman's Bureau Bill, and hence their unbounded indignation at the present moment. The quarrel that now divides the President and a majority of his Cabinet has been brewing for some time and must not be attributed to any sudden condition of temper. Mr. Johnson, who is blessed with fair share of common sense, sees the South knocking for admittance at the door of Congress, and, as a plain man, thinking in a plain straight-forward manner, he can see no reason why he should be refused a ticket in the legislation which is to inflict burdensome taxes upon the masses of her people. No so, however, the ultra, led by Thaddeus Stevens of Pennsylvania and Charles Sumner of Massachusetts. They know perfectly well that the strength of their party lies in the continued prostration of the South. They have no definite plan of action, except that, in their opinion a joint resolution of fifteen could bring in a joint resolution as a basis of reconstruction, and President Johnson is patriot enough not to add to all this shame an unconstitutional and ill-considered judgment by the intelligence of the nation.

PROF. BUCKLAND'S VISIT.

We would again remind our farming readers in this vicinity, and all who are interested in the subject of Agriculture, that Professor Buckland of Toronto is to deliver a Lecture in Goderich at 2 o'clock on Friday next, the 9th inst., on the subject of "Soils—their Origin and Management." Agriculture being of the greatest possible importance to the community in this section, and the time having arrived when our farmers can best profit by the teachings of science, it is to be hoped that there will be a first-rate turnout to hear the professor. Those of our agriculturists who are intelligent and enterprising enough to seize upon every hint that may enable them to advance in their noble calling, will be glad to have the opportunity of gaining information from a man who has devoted years of study and careful observation to the subject upon which he treats, and there are many others who should come out and do a thorough viewing of whether they do or not. In view of the great benefits to be derived, and to show their interest in the matter, we really hope that the Court House will be crowded on the occasion. The Professor has kindly consented to deliver a lecture on horticulture in the evening of the same day, and we have no doubt that he will have a large and highly appreciative audience. While on this subject we should urge the claims of the County Agricultural Society. In promoting horticulture, fruit growing, the introduction of improved stock, machinery, &c., and the advancement of Agriculture generally, it has done a most excellent work in the past, and the addition of the nation's influence of many who now hang back, would be the means of giving it a fresh impetus and increased power for good. The progress of his calling, irrespective of the prizes he may or may not take, should be the object and aim of every intelligent farmer, and it is on this ground that we urge the claims of the Society.

The preparations for the reception of Prof. Buckland have been made in a spirit of common sense, and we highly approve.

He will be entertained at lunch in the Huron Hotel at half-past twelve or one, by as many as may wish to meet him, and then, at 2 o'clock, lecture apart from the "hip-hip-hurra" in the audience of doers and workers.

We hope the visit will be pleasant to the lecturer and profitable to his hearers.

MINISTERIAL DINNER AT CORNWALL.

On Thursday last, the members of the Canadian Ministry were entertained at a public dinner in Cornwall. Besides many prominent politicians, there were about five hundred guests present, and an equal number of ladies occupied the galleries. Dr. Allan, the Mayor, presided. On the toast of the evening being proposed, "Our Guests—Her Majesty's Canadian Ministers," Hon. J. A. McDonald responded in a short but eloquent speech, after which Mr. Holt returned cordial thanks for the reception given the ministers. There had been no occasion on which they had met with such a hearty welcome as this from the men of Stormont, Dundas and Glengary. There was no place where this toast could have been more appropriately proposed. In referring to the mission to Washington he said it was well that when we were threatened with interruption of our trade, we had received from a beneficent Providence such a bountiful harvest as the land. Judging from information at his command he was able to say that Canada was never in such a prosperous condition as at present. We had sold, during the last seven months, \$10,000,000 worth of our products than we had during the corresponding period of the year before.

RECIPROCITY AND MR. DERBY'S REPORT.

In our last we succeeded in showing that the present propriety of Canada was not due entirely to the Reciprocity Treaty; and in assuming such to be the fact, Mr. Derby went beyond the record. We now propose to bring under your notice one or two points we are required to concede, in order that we may obtain for one year, the extension of the Treaty. As of most importance, we shall first proceed to consider those demands which are calculated to effect our independence as a people, we allude to those interfering with our excise and custom laws, and the demands made for the suppression of our free ports.

THE FRENCH TROOPS IN MEXICO.

New York, Feb. 27.—The steamship Herman from Bremen on the 12th and the steamer Ontario on the 15th, arrived here this morning, bringing three days later news.
