AMERICAN VESSEL OWNERS MAK-ING A KICK.

The Marbor Master at Port Sarnia Gives a Quid Pro Que and They Don't Like It-Representations to Washington.

WASHINGTON, D. C., Aug. 27.-United States Consul Pace in a despatch to Secretary Bayard says there is much complaint on the part of American vessel owners and Captains at the recent appointment of a harbor master at Port Sarnia by the Canadian authorities. The master charge American vessels fees ranging from \$1 to \$5 for the privilege of touching a dock or anchoring in the stream, which at Port Sarnia is the dividing line between Canada and the United States, and which by law and pre-cedent is free to the ships of both national-ities. The Canadian government has never expended a dollar to build a harbor at this

point. The docks are the property of private, individuals, and whilst the harbor private individuals, and whilst the harbor master may collect fees from ships which may land at these docks, the individual owner of the docks may order their imme-diate removal for refusing to pay tribute to him. Canadian shipping is guided to the river by a light furnished at the expense of the United States government and no harbor dues are charged to Canadian vessels at Port Huron or else-where on the river St. Clair. Gonsul Pace also mentions an attempt by the Canadian

where on the river St. Clair. Consul Pace also mentions an attempt by the Canadian authorities to seize the American steam tug Mocking Bird because she had assisted the American steamer Wissahickon, bound from Buffalo to Chicago, and which had stranded on a sand bar. Some days after this assistance was ren-dered, the Canadian authorities boarded the Mocking Bird and proceeded to seize her for violating the wrecking regulations. The captain of the tug declined to be seized, saying his vessel was in mid-stream and saying his vessel was in mid stream and not under the jurisdiction of the Canadian authorities. The tug went to Port Huron with the officials on board. The case is till in dispute.

Commissioners Sinclair, Langmuir and Sullivan, Provincial Secretary Hardy, Inspector Christie, Orange Sentinel Clark and Irish Canadian Boyle assembled in th court house yesterday punctually at 11 o'clock to listen to the forensic eloquen which the counsel engaged in the Centraj prison enquiry were to display.

Before the argument opened Mr. Hardy said the government would be pleased if the commissioners would visit several prisons in the States and the Kingston penitentiary before bringing in their report. Judge Sinclair assured him that the commissioners intended to do so. The evidence furnished was very meagre on the head of punishments, etc.

When the charge of religious partiality failed it should have been withdrawn; that would have been the generous and decent course. Mr. Idington considered the charges con-cerning bathing and ventilation to be well met by the evidence. In regard to sanitary complaints Dr. Aikens had spoken almost boastfully of the general good state of health existing in the prison. Even Guard Hart whose avidence tastified the escape, was bound over in \$200 to appear for sentence. John Becker, larceny, and William Milne, bigamy, elected to be tried by jury. Wm. Hope and Joseph Morgan, threatening their wives, were bound over in \$200 each to keep the peace. Chas. Smith and John Worthey were committed

Mr. Idington then went into the question of punishment at some length. He read extracts from reports of several prisons in the states esting forth the necessity of rigoreus di-cipline and heavy punishments. He con ended that the warden was within in bylaw in inflicting indefinite punishment. Butterflies and Buckwheat At the corner of King street and Wilson avenue, Parkdale, may be seen a collection of butterflies that passes all ordinary ex. of butterflies that plasses an other by a perience. They are attracted thither by a blooming buckwheat patch, and there is apparently a butterfly for each blossom. Not the least singular feature of the gathering is that the butterflies are all of bylaw in inflicting indefinite punishment Other wardens possess grast advanta, e-over Mr. Massie. He is to keep discipli-among the worst rascals in Ontario, with only two medes of punishment, namely by confinement in the dark cell, or in the man's own cell. He should be allowed to use the lash at his own discretion. The warden's prison life had been fully gone-into; would the affairs of any business man with twenty-five employes not of his own obcosing, stand inspection so wel.? Moreover, every prisoner with only a tolerably decent record had given evidence directly in Mr. Massie's favor. Among the guards, the only men who had spoken against him were Hart and Hartnell, both of whom, by their bearing in the box, gave evidence of the extreme antagonism they bore to the warden. Business among the boats yesterday wa bore to the warden. Efforts are being made to induce the London. Ont., city council to purchase the property known as Carling's farm, and omprising 107 acres, for the new military school to be established there and for fail

purposes. The London Advertiser oppose the purchase; estimating that the money required will be \$75,000. Its argument appears to us, without going into the merits of the subject, to be rather weak and inconclusive, especially when it gets off the following:

off the following: If the city council took this \$75,000 and offered a boins of \$6000 for every factory employing, say, 100 men, brought to this city, with exemption from taxiton for twen y years, we would expend the whole in less than a year, and make London the greatst manning the dominion. Sevenity five thousand dollars expended in that way would being fifteen factories here, each of which would employ 100 men, and each man having an average family of five, 7500 souls would be down't take much argument to show the advantage there is in adding 7500, or only 100, to the city's population. This not only calls for only to mind Capt. This not only calls forcibly to mind Capt.

Bobadil's famous method of defeating an army, but is an extraordinary line of argument for so bitter an oppenent of the N. P. as the Advertiser to take.

With its customary disregard for public feeling and public interests, the Globe growls at those who have taken the trouble of warning Salvation Booth and other British moralists that they need not expec to find a warm welcome here for the immoral women of London town. The Globe affects to disbelieve the rumor (their proposed exportation hither, but is careful not to say that it will disapprove o

the scheme should it take shape. The tone of its remarks implies quite the contrary. We are not called upon to youch for the accuracy of the allegation, which is public property, and which reached this country in the ordinary way. But the character of similar schemes already in operation is such as to justify the belief that there are influential men and women in London quite equal to an enterprise of the sort. Such being the case, protests were and still are in order. But the Globe, although an opposition organ, did nothing to prevent. the importation of Chinese immorality and is naturally somewhat better disposed feels happier for his belief by all means let to the Caucasian brand. The spectacle of such a journal appealing to the people of Canada as their friend, philosopher and guide may well provoke the contempt with which its appeals are treated by the electors.

It is hardly necessary to say that Cardina

Manning is the great energizing force in E gland of the church of his adoption. Newman is more or less of a recluse, but Manning lives largely in view of the public. His latest idea is a great convention, or I gland of the church of his adoption. His latest idea is a great convention, or congress, of English-speaking Roman Catholics, embraoing delegations from Great Britain and Ireland, Canada, the United States, Australia, and other remote postions of the empire. Among the questions which the cardinal proposes to submit to the gathering is that of emigra-ance, and the satisfaction is ours that our tion, a discussion of which will be of interest to Canadians of every creed. Cardinal Manning very truly says that through ignorance on this subject much harm is

WANLAN AND LEE WIN AT THE GENEVA REGATTA.

Swimming Races of the Dog Sports Ciub

-Racing at Saratoga-Teronto Beats Guelph C. C.

GENEVA, N.Y., Aug. 27.-Despite fact that the weather was very chilly to. day, Geneva was alive with people by o'clock who had come to witness the finish of the regatta. There was scarcely a ripple on the water. Thousands of person crowded on the moving grand stand and on the steamboats and yachts, and others

lined the shore the whole length of the ourse. At 4,40 the train moved down t the starting point. Only four careme

were in line-McKay, Hanlan, Hamm and Hosmer, Lee, who had obtained a position in this race, having withdrawn to enter the consolation race. Exactly at 4.45 word was given and simultaneously the carsmen bent to their work. At the half mile Hanlan led by work. At the half mile Hanlan led by a boat's length, followed closely by Hosmer, Hamm and McKay in the order named. At the half mile flag Hanlan led McKay and Hamm by one length, with Hosmer two lengths behind. Soon after this Hosmer stopped and turning around returned. Hanlan turned his buoy in 9.43, McKay in 9.45, and Hamm in 9.50. The race down the home stretch was MoKay in 9.45, and Hamm in 9.50. The race down the home stretch was a sport all the way and a most magnificent exhibition of rowing. Hanlan appeared to be rowing with the least exertion and easily related his lead and crossed the line, winner by a length in 21.38¹/₂. It seemed to be a foregone conclusion with the spectators that Hanlan would win and the interest of the multic was accordingly

interest of the public was accordingly centered in the two other carsmen. They contered in the two other carsmen. Indy fought every inch of the way down the home stretch, yet Hamm was unable to overtake his antagonist and McKay minished second by haif a boat length, in 21.395. He was enthusiastically cheered

by the spectators. The carsmen in the consolation rac which was immediately started were Dabinette, Hosmer, Teneyck and Lee, Lee obtained the lead at the start and held it roughout, winning by half a length, in .48. Teneyck and Hosmer were tok and nock three-fourths of e way, when Hosmer weakened d finished third five lengths in the rear. 21.48. nd fini Teneyck's time was 21.49. Dabinette was

alf a mile down the course. Courtaey, Gaudaur and Teemer were present during the regatta. Courtey and Couley are anxious to make a double gould match with Hanlan and Lee. Courtney placed \$1000 in the hands of Edgar Parker, editor of the Advertiser, as guarantee of his good faith in the matter, and as a forfeit for Hanlan to cover. Hanlan says he will not make such a match, as no has made arrangements for all the contests that he cares to row this fall. There is no prospect of such a race being made. Haniaa and Les leave for New York at once.

English gentlemen v. All Philadelphia, at Nicetown, Penn. The meeting at Monmoush park was in more than one respect the best of the extended meetings ever held in America. The meeting began on July 4 and lasted twenty-three days, during which there were 161 races run, three of which resulted in dead heats and one was a walkover. Of the dead heats two were run off. The money involved during the meeting amounts to something like \$225,000, of which over \$130,000 was given by the association in added money and purses. Of the winner, the Dwyer Brothers take the lion's share, they winning twenty-eight races, worth over \$48,000. The Rancocca stable was next with twelve races won, worth over \$43,000. Of the other stables, Mr. Kittson won three, worth over \$10,000; Mr, Haggin three, worth nearly \$9000; Mr. Kelso eight, worth a trifle ever \$8000. Of the other owners, Mr. Corrigan's two races were worth over \$8000, while Chim & Morgan, Appleby & Johnson, F. T. Walton, G. Horn, P. H. Ryan, W. Lake-land, W. L. Soott, with the Clipsiana and Melbourng stables each in turn won stakes that placed to their credit money to the amount of two or more thousands of dollars. to him now." Jim Hewer, manager of the Leafs, passed through the city this morning. He was bound for Buffalo, and purposes getting some new men there to strengthen the team. The Leafs have not given up the struggle yet. A fresh start has been made. There is said to be plenty of money becking up the team now, and if Hewer rakes in some good men in Buffalo, the backing up the team now, and if Hewer rakes in some good men in Buffalo, the Leafs are just as liable to end somewhere as any of them.—Hamilton Spectator. The Guelph Herald of Wedneeday says: "Four players were telegraphed for this morning, among them being Billy Mount-joy, the well known pitcher. There appears to be a determination on the part of several enterprising gestlemen to make the Leafs a strong nine, and if, money can get players they will be here."

Corsets to Order. -Ladies, the manufacture of neat fitting corsets is one of the most intricate as wel as the most exact of mechanical genius. If not properly made and constructed in every part to fit the figure it is practically useless. In a neat fitting corset we claim to have revolutionized the old styles, and to nave revolutionized the oil styles, and to produce such an article we use in the manufacture of those goods the very best material. Corsets to order a specialty. The Van Stone Corset Company, 354 Yonge street. 615
