#### NOTE AND COMMENT

Separate smoking cars have been placed on through trains in the C.N.R., replacing the present cars which have only a small smoking compartment.

A gasoline tax is proposed as a means of taxing the motorist according to the use he makes of the expensive roads which it has become necessary to build.

An effort will be made at the coming session of Parliament in Canada to secure a return to penny postage in Canada. The Government is considering the matter.

Marcconi promises another wireless revolution: the projection to a definite terminus of wireless waves now broadcast in every direction. There will be a lot of senders and receivers interested in this. By and by they may be able to say to trespassers, "Get off the air; that's my route."

Ottawa Citizens: The spirit of friendship and co-operation and brotherhood is operating. It has found expression, however cautious, in the League of Nations. Perhaps before long, civilized people must emancipate themselves from the shackles of the money-changing business. It cannot last, even though the powers of cosmopolitan finance keep the world in turmoil to save it.

Kingston Standard: What is truth? This is the historic question asked by Pilate. If he had lived in these days he would have said that it could be answered by an application of truth serum. This is said to be absolutely effectual. It may be so but people will want further proofs. The danger we see in it is that it may induce some other scientist to produce a serum which will make truthful people tell lies.

The Baldwin government received a crushing defeat last Friday when the Conservative protection policy was overwhelmingly turned down by the electors of Great Britain. The result of the election is Conservatives 261, Labor 186, Liberal 153, Independent 10, with six seats to hear from. The result puts the Conservative Ministry in a minority of 89 votes against the combined Opposition. Britain will therefore still remain Free Trade.

Chatham News: The truth of a statement does not always justify its publication. Life would be unbearable if there was no restrictions either by law, customs or good form on the privileges of publicity. Today with many people there is not much regard left for decencies of private life. If they are not of their own accord rushing into the limelight to take the world into their confidence they are depending on sensational journalism to drag them out. This craving for publicity has gone so far that naturally there is a reaction.

Hamilton Spectator:—Radio will never displace the press any more than lecturing has displaced libraries. Over twenty years ago H. G. Wells imagined a time when people would get their news from loud-speaking telephone receivers at the street corners. But while the radio saves time in transmission it is tied to the moment. It cannot adapt itself to the convenience of the hearer. A misheard or misunderstood word or phrase cannot be repeated. For this and other reasons, while it may aid the press it can never supplant it.

Brevity may be the soul of wit, but abbreviation is not the soul of high sentiment and sacredness that attach to Christmas. Why abbreviate the syllable that carries its sacred meaning? Why make it "X"? Surely the ink, or space or trouble saved does not warrant marring a word that holds such high place in our hearts and memory. Thanksgiving Day or Victoria Day have not been cut down to abbreviation and certainly Christ's birthday should be as generously dealt with. It's "Christmas" in speech. Let it be so in writing.

The country is face to face with a serious problem. There are too many chances being taken and too many people being injured because of the chance-taking habit. The motorist who habitually takes chances is reasonably sure to be involved ultimately in an accident. The same general rule applies to the pedestrian.

London Free Press:—The farmers of Western Canada may be in a bad position, but according to the wheat growers of the Western States, they are in paradise compared with their fellow agriculturists across the American boundary line. The advocates of a higher duty on Canadian wheat going into the United States have presented facts and figures which should bring cheer to the most pessimistic Progressive to be found west of the Great Lakes. Sydney Anderson, a representative of Minnesota in Congress, has prepared a statement for the wheat growers of the Western American states which should start a regular stampede into the Canadian West. Mr. Anderson claims that the farmers of the Canadian prairies have lower taxation, cheaper freight rates and a better yield per acre than their American farm competitors. Particularly he emphasizes the fact that Canadian wheat is so much better than the American product that it is impossible for the American farmer to compete on an even basis.

Did you ever pause in a post office long enough to take a squint at the floor shortly after a number of people have received their mail? If you have you were probably struck by the number of circular and form letters and hand bills that littered the floor. In fact, you doubtless were struck with the fact that many of them had been thrown in the basket as soon as they were removed from the envelope, the recipient never even taking the trouble to give them a second glance. But did you also notice that you don't see anyone throwing the newspapers and especially the home town newspapers in the waste basket or on the floor? Did you notice that newspapers are always carried away instead of tossed away? Well, right there is a mighty good argument in favor of advertising in the newspapers. The circular letter—a costly form of advertising—goes into the waste basket. The home town paper goes into the home. Remember this and spend your advertising money accordingly.

THE CAUSE OF SICKNESS  
Almost Always Due to Weak and Impoverished Blood.  
Apart from accident or illness due to infection, almost all ill-health arises from one or two reasons. The mistake that people make is in not realizing that both of these have the same cause at the root, namely poor blood. Either bloodlessness or some other trouble of the nerves will be found to be the reason for almost every ailment. If you are pale, suffering from headaches, or listlessness, poor appetite and weak digestion, the cause is almost always poor blood. If you have nervous headaches, neuralgia, sciatica and other nerve pains, the cause is exhausted nerves. But run down nerves are also a result of poor blood, so that the two chief causes of illness are one and the same.

If your health is poor; if you are pale, nervous or dyspeptic, you should give Dr. Williams' Pink Pills a fair trial. These pills act directly on the blood, and by enriching it give new strength to worn-out nerves. Men and women alike greatly benefit through the use of this medicine. If you are weak or ailing, give Dr. Williams' Pink Pills a fair trial and you will be pleased with the beneficial results that will speedily follow. If your dealer does not keep these pills you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

SOMEWHERE IN FLORIDA  
To be somewhere in Florida, where the sun is always shining where the golden oranges hang in clusters on the trees, the palms stir gently to the warm balmy breezes and "Where the sweet Magnolia blooms" is the thought in the minds of hundreds of Canadians every winter.

This year there will be the usual exodus of Canadians to the south. When Canadians at home are skating and skiing, those in the south will be surf-bathing, sun-bathing on the warm sands, deep-sea fishing, golfing, etc.

When making arrangements for the trip south, consult any agent of the Canadian National Railways for particulars of service. Winter tourist fares are now in effect, valid to return up to June 15th, and good for stopover at all important points.

Some Wise, Some Otherwise  
Some Newswy, All Readable.

The Ontario Government has purchased the moving picture manufacturing Company at Trenton for the sum of \$80,000.

Last week's Canada Gazette contained notices of eight applications for divorce at the coming sessions of Parliament.

A silver nugget weighing approximately 3,200 pounds and estimated to run 75 per cent silver was brought into Cobalt by a New Liskeard carpenter. The owner estimates his find to be worth \$20,000.

A suggestion recently submitted to the Post Office Dept. for the more expeditious handling of mail matter by placing the destination on the envelope before the address, is likely to be adopted.

The Underwriters are making an increase in farm fire insurance rates of from 50 to 66 2/3 per cent. The companies stating they will either have to have a much higher rate for this class of insurance or else quit writing it.

Speaking in Hamilton, the President of one of the leading business houses of Cleveland, said that from the best statistics compiled on the question it was believed that fully 54 per cent of those who read newspapers also read the advertising.

In Picton the Inspector submitted a questionnaire on Bible history to the pupils of the Public Schools and, although the questions dealt with some of the most familiar figures in the Old Testament, only 31 per cent of the answers given by 200 children were correct.

A Toronto man who was in Germany lately states that he paid eighteen million marks for a night's lodgings, and when he produced an English note it had to be sent from the provincial town he was in up to Berlin to get it changed. The change arrived two days later by train.

An indirect victim of the Home Bank failure is the unfortunate Italian woman in Toronto who, panicked by that disaster, drew out all her money, amounting to \$13,000 which she had on deposit in banks, and hid it in the house, only to have it all stolen by a burglar.

The Consolidated Municipal Act of 1922 provides that the council of any township may pass by-laws for granting a prize not exceeding \$10 for the best kept roadside, farm front and farm house surroundings in each Public school section in the township and for prescribing the conditions upon which such prizes may be awarded.

He would be a very callous person who is not moved by the inscription placed on the monument erected to thirty-two little victims killed in automobile accidents in St. Louis this year. "In memory of child life, sacrificed on the altar of recklessness." That monument situated on a public thoroughfare should have a restraining influence.

W. J. Southam, managing director of the Hamilton Spectator, has made application to the Canadian Press for an evening paper membership for a paper to be known as the Windsor Spectator, to be published in Windsor. If Mr. Southam's present plans mature Mr. Herman will have competition in Windsor for the Border Cities Star which hitherto has had that field to itself. The Southam family, in addition to the Hamilton Spectator, own a string of newspapers extending from Ottawa to Vancouver.

It is roughly estimated that there are at least 50,000 radio receiving sets in use in Canada, representing an investment of about \$2,500,000 and of that total only 16,118 have up to the present taken out licenses during the present fiscal year. The fee for a private receiving license is \$1 and failure to take out same may invoke the penalty of the law, which is \$50 on a summary conviction and up to \$500 or one year's imprisonment on a conviction on indictment. Licenses for reception only may be obtained on applications at any post office or by writing to the Deputy Minister of Marine and Fisheries, Ottawa. Licenses for transmitting stations are obtainable only from the Deputy Minister.

The Guide-Advocate is well equipped to handle all printing orders.

Canada's export of flour is increasing with very gratifying speed. The figures show an increase in three years of 107 per cent. The figures are 3,832,000 barrels per annum before the war, and 7,885,000 barrels per annum since the war. Exports to the United Kingdom advanced from 2,300,000 before the war to 4,100,000 during the past years. We are also exporting larger quantities to other countries.

The most profitable crop per acre in the United States is cranberries. In 1922 the average return was \$288 per acre. Next in line came tobacco bringing \$177 an acre as an average, followed in turn by hops \$100; potatoes, \$60; rice, \$37; cotton, \$35; hay \$19; corn, \$18; wheat, \$14; barley, \$13; oats, \$11; rye, \$10. The high return for cran berries is accounted for by the fact that they have to be grown in a bog and are picked by hand.

Sometimes we hear it stated that we have too many laws but a man near Winnipeg was taken up for "breach of pound", having taken a cow out of pound by sheer force, and when he was convicted the magistrate on looking up the law could find no penalty for the offence. He then looked up the English law and the only penalty there was hanging or transportation to Australia, the convict to have his ears cut off before being transported.

Several schools in Manitoba have been closed because of the belief of the municipal authorities that they could not collect sufficient revenue to pay the teachers' salaries. It would appear that there are economics that could be practised that would be of greater value to the province than the one decided upon. To deny three or four thousand children the education which few of them can secure outside the public schools is an act difficult to justify, and one that cannot make for prosperity.

The autumn season of 1923 has surely been a wonderfully fine one for everybody. The farmer has had a great chance to get the work done before winter comes. Those using cars have had the finest roads to drive on. Hunters have had grand weather for a tramp in the woods. Even we townspeople have enjoyed

the dry sidewalks and the bright sunshine. It has helped the fuel problem too; for it cannot be denied we still have that worry to contend with.

The five young men near Cayuga who as a Halloween prank last year removed a red lantern from the entrance to a bridge, which was down, and which resulted in Dr. John Jacques, a veterinary surgeon, being instantly killed when he motored into the trap and his car crashed down into the creek, have been ordered to pay the widow \$500 each as well as all the costs of the action, and to furnish securities for their good behavior for three years.

At a meeting of postmasters from different parts of the province at Toronto it was decided to form an Ontario postmaster's association. It was pointed out that the duties in the postoffices had become increasingly onerous of recent years, but there has been no corresponding increase in remuneration. A recommendation was made to the executive commission that the matter of closing the postoffices and observing the statutory holidays should be taken up by the Canadian Association.

Many have wondered why 25c. should be referred to as "two bits", and many will be interested to learn how it originated. A bit is the American equivalent to the old Spanish real, which was used in California back in '49. When it disappeared finally, it had become part of the language. When American silver replaced the real it was reckoned in terms of bits, which were worth 12 1/2 cents. Two of them made two bits which equalled the American quarter. It was also used in company with Chinook, the western made language of early days. Difficulty arose when anything smaller than a quarter was produced in payment. The bit was the universal standard. Hence, a dime was known as a short bit and 15 cents as a long bit. Copper was taboo. If a customer bought a bit's worth of tobacco and gave the storekeeper a quarter he'd get a dime change. If he had a dime it would be accepted, but if he didn't he was penalized 2 1/2 cents.

### GENTLE REMINDERS

All subscribers paying their subscriptions, either past due or for next year, before the 31st of December, will get two chances on the Ford Sedan and cash prizes being given by the Watford Community Club. Those from a distance sending subscriptions by mail will be allotted signed tickets for each dollar sent, which will be placed in the ticket box on our counter.

### CHILDHOOD CONSTIPATION

Constipated children can find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which never fail to regulate the bowels and stomach, thus driving out constipation and indigestion; colds and simple fevers. Concerning them Mrs. Gaspard Daigle, Demain, Que. writes "Baby's Own Tablets have been of great benefit to my little boy, who was suffering from constipation and indigestion. They quickly relieved him and now he is in the best of health" The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### PSALM 3, VERSE 5

We lay us down and resting  
We calmly fall asleep  
The hours of lonely darkness  
Pass o'er us with a leap.

Grey light proclaims the dawning  
The sun we soon shall greet  
And as this planet's turning  
It's absent friend to meet.

The eye that never slumbers  
That eye that cannot sleep  
The hand that never blunders  
Our souls and bodies keep.

And while we're quietly resting  
The heart ne'er stops to beat  
Unconsciously we'er trusting  
The one we all should seek.

And oh, we're glad He found us  
Tho' frail and incomplete  
Safe with His arms around us  
Awake, or sound asleep.

His love should keep us thrilling  
And humbly at His feet  
To find us ever willing  
His wise commands to keep.

His precepts are adorning  
All demons they defeat  
New appetites we're forming  
His laws are very sweet.

Nov. 23, 1923 —W. B. LAWS

# Spend Christmas in Algonquin Park

**A** GAIN the Christmas season approaches with all its joys and problems. Why not have a real holiday this Christmas, have each member of the family bring out his snowshoes, skates and skis, pack up his warm sports togs and all hie away to Algonquin Park for the festive season? This will eliminate the problem of the Christmas Party and everyone will have a rollicking good time.

The Park lies up in the Ontario Highlands at an altitude of 2,000 feet above sea level and in winter is a veritable fairyland. The very air is a tonic and the climate is ideal for all out-of-door sports. The chief attractions are snow-shoeing, skating, skiing, tobogganing and sleighing, while there are also picnics in the woods, fishing through the ice and other delights innumerable.

A special Christmas dinner is served at Highland Inn, there is a Christmas tree and festivities in keeping with the season. Any Agent of Canadian National Railways will supply you with descriptive booklet, "Winter in Ontario Highlands."

**NEW FORD CARS  
ARRIVE IN WATFORD**

Now on Display in Wat-Ford Garage Showrooms

The first of the new type Ford cars just announced by the Ford Motor Company of Canada, Limited, have arrived in Watford and are now on display in the showrooms of R. Morningstar, Wat-Ford Garage.

The immediate impression on viewing these new types is that of much better style and close inspection reveals many improvements, not alone in body lines and construction but also in interior arrangement.

Changes affect all the cars, so that there is a complete new line, the most conspicuous feature of which is the larger radiator, hood and cowl, standard in all types and extending also to the Ford one-ton truck, bringing increased efficiency generally. In every respect the cars are the handsomest ever produced by the Ford Motor Company of Canada, Limited, and present a greater value than ever before.

Included in the new cars which have arrived here and are on display, are the runabout, touring car, coupe and four-door sedan.

The four-door sedan is an entirely new model, which has been introduced into the Ford line. It is an exceptionally practical one, embodying graceful stream lines, and distinct features in its construction. This model will be known as the "Fordor" sedan. The requirements of the "Fordor" sedan have been anticipated with Ford thoroughness. The arrangement of the front seat separates it from the rear portion of the car and access to both is made easy by the four wide doors.

The coupe is entirely new in body design and construction. The exterior is trim and sturdy in appearance, the seating arrangement affords unusual comfort, and there is exceptional carrying room for luggage in the rear compartment. A new style windshield, a windshield visor and cowl ventilator are details which add much to the appearance of the car, and the careful observer will be pleased at the new design rear fenders. The double-cushioned seat is divided, so that the driver does not have to leave his place while the gasoline tank underneath is being filled. A small recess shelf at the rear seat is convenient for carrying small parcels or wraps.

The touring car appears lower and more attractive than ever. The new stream-line effect also gives the slant windshield and one-man top a more striking appearance.

The new runabout has a strong appeal to those seeking a small car for business purposes, because of its improved style, trim lines and general appearance.

Another feature which gives the front end of the new Ford cars a highly finished effect is an apron at the base of the radiator, blending in a graceful sweep with the fender on either side.

**New Lamp Burns 94 Percent. Air**

BEATS ELECTRIC OR GAS

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without order, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, F. N. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month. d-m1

### KERWOOD

Master Fraser Galbraith of S. S. No. 7, has received from the Department of Agriculture a certificate of honor for the highest number of points gained at the Rural School Fair held at Kerwood.

Miss Grace Dowding is visiting at her brother's Mr. Orval Dowding of Port Huron.

Mr. Robert Vincent of Cadillac, Mich., who has been visiting his niece, Mrs. M. C. Morgan, has returned home.

We are sorry to report the serious illness of Mr. Seymour Langford, his many friends hope for his speedy recovery.

Miss Erna Wright is visiting relatives in Melbourne.

Miss Lena Temple of Watford spent a few days the guest of Miss Roberta Richardson.

The death of Mrs. John Richardson one of Kerwood's best known and dearly loved residents, took place at her home on Friday, after an illness of a little over a month. The deceased, who was in her 76th year, had been a resident of the vicinity all her life. She leaves to mourn her loss her aged husband, four sons and three daughters, namely William George and Henry of Alberta; Alfred and Mrs. W. Waltham of B.C.; John of Petrolea; Mrs. Bourne of Alvinston and Mrs. Johnston of Kerwood, and one daughter, Mrs. Thos. Freer, who predeceased her two

months ago, this being the first break in this splendid family. The funeral service which was held from the Methodist church was very largely attended, the pastor, Rev. Brooks having charge of the service. The deceased's favorite hymn "On Jordan's Stormy Banks" was sung by Miss Hazel Patterson and Miss Irene Eastbrook. The pallbearers were six grandsons: Mr. Lyle Richardson, Mr. Walter Richardson, Mr. Orval Richardson, Mr. Bruce Bourne, Mr. Elton Freer and Mr. Stanley Johnson. Interment was made in Stratroy cemetery. The sympathy of the community goes out to the bereaved husband and family.

The Young People and the Ladies' Guild of St. Paul's church will hold a joint meeting on Friday evening, Dec. 14th, at the home of Mr. and Mrs. Wm. Gimlett. A remainder of the pretty articles left from the bazaar will be sold. A pleasing program will be given. A dainty luncheon will be served. Everyone welcome.

The Mission Circle met last Saturday with Miss Alice Johnson presiding. The scripture lesson was read by Miss Florence Johnson and the following young ladies, Misses Irene Eastbrook, Eva Wright, Nona Wilson and Hazel Patterson took part in the debate, "Which was more important Foreign or Home Missions." The decision being for Foreign. Miss Eastbrook then gave a splendid report of the recent convention held

in Watford.

The members and friends of the Women's Institute are requested to meet in Kerwood at the home of Mrs. Howard McLean on Wednesday afternoon, Dec. 19th. Mrs. Brunt and Mrs. Chittick have arranged a delightful musical program and Mrs. Rogers will give a talk on "Woman as a School Trustee, Do we need Her?" Roll call will be answered by "Beautiful thoughts from Poetry." All members are asked to bring a sample of their favorite home made candy, which will be arranged in boxes and sent to any sick and elderly folk. Lunch will be served at the close by Miss Ella McMahon, Mrs. Gilbert Dowding, Mrs. deCex and Mrs. George Freer. As this is the last meeting before Christmas all members are urged to attend. Visitors are always welcome.

Shipments of sugar beets so far this season via C.N.R. from Glencoe to the Dominion Sugar Bee Company, Chatham, amount to 750 tons and it is estimated that there are 125 tons yet to be shipped, which will make 875 tons, the product of 100 acres. In addition large shipments are being made at North Glencoe, Walkers and Appin by the beet growers of this section. The average yield per acre is upwards of 8 tons, which is better than was anticipated in view of the unusually dry summer.

THE MOUNT ROBSON ROUTE—ACROSS CANADA

The delights of a trip across Canada never fade in memory, the interest never wanes, and the ecstasy of the day's travel through the Canadian Rockies is an experience of a lifetime. The route of "The Continental Limited" which runs daily between Montreal and Vancouver with direct connections from Toronto, traverses the beautiful lake country of Northern Ontario. From Winnipeg to Saskatoon and Edmonton it passes through some of the most fertile lands of the great prairie provinces. A night's run from Edmonton and you are in Jasper National Park and the glorious Canadian Rockies, embracing some of the finest mountain scenery in the world—then on to the Pacific Coast through an ever-changing panorama of magnificent and stupendous scenery. The Canadian National line through the mountains skirts Canada's highest peaks at the easiest gradient and lowest altitude of any transcontinental route, the highest point reached in crossing the "Great Divide" being 3,712 ft. You will consult your own interest if you make your trip west by the new way "The National Way"—you have the choice of various routes. You have the option of making the journey in a splendid tourist car at minimum cost or if taste dictates the more luxurious Standard Sleeping Cars or Compartment Library-Observation Cars are at your disposal. The equipment on "The Continental Limited" is all-steel and modern in every particular. Get full information from any Canadian National Ticket Agent.

Rub it in for Lame Back.—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

When He Took "Fruit-a-lives" For Rheumatism

The Medicine Made From Fruit There can be no doubt that "Fruit-a-lives" is the long sought remedy for Rheumatism and Lumbago. From all over Canada come letters testifying to this fact. Mr. John E. Gulderson of Parrsboro, N.S. writes: "I suffered badly with Rheumatism for five years—tried different medicines—was treated by doctors in Amherst—and here at home—but the Rheumatism came back. In 1916, I saw an advertisement for "Fruit-a-lives" and took a box and got relief, so I took them for about six months and the Rheumatism was all gone and I have never felt it since". 50c. a box, \$1 for \$2.50, trial size 25c. ADDRESS AND PRESENTATION

The neighbors and friends of Mr. and Mrs. E. J. Carroll, Navoo road, met at their home Wednesday evening, prior to their departure for Ravenswood where Mr. Carroll has purchased a business, and presented them with a leather rocker and reed pedestal. The following address was read.

To Mr. and Mrs. Carroll:— We, your friends and neighbors on learning of your departure from our midst, have met here this evening to enjoy your hospitality once more.

We regret very much to lose you as neighbors. We shall miss you at our community gatherings, but what is our loss will be a gain to the community in which you have chosen to reside. Even though you move away we shall always have a place for you in our hearts.

As a slight remembrance of the years spent on the 12th line and of the esteem in which you are held by us, we ask you to accept these gifts. May God grant you and yours every success and happiness in your new home.

Signed on behalf of your friends and neighbors: Bessie Lett, Mrs. Campbell, A. Campbell, G. Oakes. Although taken by surprise Mr. Carroll made a suitable reply thanking the friends for their gifts and good wishes, after which the evening was spent in games and dancing and closed by singing "They are Jolly Good Fellows."

It will prevent Ulcerated Throat— At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

The New Ford Coupe

An entirely new body design of remarkable beauty as well as practical utility, is the distinguishing feature of the new Ford Coupe. The body lines follow in one graceful sweep from the new high radiator to the "Turtle-back" curve of the rear deck, which has been enlarged to conveniently accommodate bulky grips and packages. Upholstering is luxuriously deep both in the seat and back, the covering being of rich brown broadcloth with mahogany stripe. A recess shelf is provided behind the seat, for parcels. Interior fittings include revolving window regulators, and door locks and handles finished in nickel. The large rear window is fitted with silk poplin shade in dull silvered mountings. The windshield is surmounted by a broad sun-visor, which protects the eyes from glare. As a handsome and practical all-weather car for town or country, the new Ford Coupe cannot be surpassed.

**FALL FROM APPLE TREE FATAL**

The death occurred on Wednesday afternoon at the family residence, lot 8, con. 13, Metcalfe, of James Henry Case, a wellknown and highly respected farmer, in his 64th year. Mr. Case suffered a fall about four weeks ago from an apple tree, when the limb broke on which he was standing while picking apples, dislocating his shoulder and hurting his spine, from which he never recovered. Mr. Case was born near Lapeer, Mich., and came to this country with his parents when about four years of age, settling in Caradoc, where he resided until about seven years ago, when he removed to Metcalfe township. Besides his widow he is survived by three sons and four daughters. The funeral services were conducted by Rev. M. Parr, pastor of the Appin Methodist church, and interment was made in the Strathroy cemetery.

A number of dastardly acts have been committed in Usborne township recently, such as hacking of harness, breaking of wagons, etc.
