The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE SEASONS.

Vernal Equinox—Spring begins.. March, 21st day, 0h. 1m. Morning.

Summer Solstice—Summer begins...June, 21st day, 8h. 47m. Evening.

Autumnal Equinox—Autumn begins...September, 23rd day, 10h. 57m. Morning.

Winter Solstice—Winter begins...December, 22d day, 4h. 35m. Morning.

Explanations of Weather Table.

It will be seen from the table, 1st. That the nearer the time of the Moon's change, First Quarter, Full, and Last Quarter, is to *Midnight*, the fairer will the weather be during the seven days following; the space for this calculation occupies from ten at night till two next morning.

2.—That the nearer to *Mid-day*, or *Noon*, these phases of the moon happen, the more foul or wet the weather may be expected during the next seven days; the space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to summer, though they affect spring and autumn to a considerable extent.

3.—That the Moon's Change, First Quarter, Full, and Last Quarter, happening during six of the afternoon hours, *i. e.* from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as it is noted in the table.

Though the weather is more uncertain in the latter part of autumn, the whole of winter, and the beginning of spring; yet, in the main, the above observations will apply to those periods also.

..... Frequent showers..... Cold with high wind

WEATHER TABLE.

The following Table (ascribed to Dr. HERSCHEL, and revised by Dr. ADAM CLARKE, constructed upon philosophical considerations of the attraction of the Sun and Moon in their several positions respecting the Earth, and confirmed by experience of many years actual observation, furnishes the observer, without farther trouble, with the knowledge of what kind of weather there is the greatest probability of succeeding, and that so near the truth, that in very few instances will it be found to fail.

**Regulations and Rates.**

All letters sent by post in Canada and other Provinces of British N. America, are charged by weight.

The scale of weight for charging postage is the same as that by which letters to and from the United Kingdom are charged, viz. :—

|                                                     |                      |
|-----------------------------------------------------|----------------------|
| For a Letter not exceeding $\frac{1}{2}$ ounce..... | 1 Rate               |
| Ditto ditto                                         | 1 ounce.....2 Rates  |
| Ditto ditto                                         | 2 ounces.....4 Rates |
| Ditto ditto                                         | 3 ounces.....6 Rates |

And so on, adding two rates for every additional ounce. After the first ounce, fractional parts are not noticed; thus, if a letter exceed one ounce, it becomes liable to four rates, and if it exceed two ounces, six rates.

The Rates of Postage on Letters are—For a Letter not exceeding half an ounce, (without regard to the number of pieces of which it is composed)

|                                  |                            |
|----------------------------------|----------------------------|
| Conveyed 60 miles or under.....  | 0s. 4 $\frac{1}{2}$ d. Cy. |
| Ditto 60 miles to 100 miles...0  | 7                          |
| Ditto 100 miles to 200 miles...0 | 9                          |
| Ditto 200 miles to 300 miles...0 | 11 $\frac{1}{2}$           |
| Ditto 300 miles to 400 miles...1 | 1 $\frac{1}{2}$            |
| Ditto 400 miles to 500 miles...1 | 4                          |

And so on. Letters re-directed are rated afresh for the further distance.

Between the Province and the United Kingdom, a uniform charge of 1s. 2d. sterling, or 1s. 4d. currency per half ounce. English letters re-directed, 2 $\frac{1}{2}$ d. currency additional per half ounce.

Letters may be pre-paid or not, at the option of the sender.

The Inland Postage, on all Letters, Papers, &c., for the U. States, must be pre-paid, otherwise they will not be forwarded, but sent to the Dead Letter Office.

**Newspapers.**

Colonial Newspapers, not exceeding two ounces, to or from any part of the British North American Provinces, pay one half-penny, pre-paid or not, at the option of the sender.

If sent to any British Colony beyond sea, (not intended to pass through the United Kingdom) or to any foreign country, except the United States, one half-penny, to be pre-paid.

If sent to any part of the United States—one penny—to be pre-paid.

Newspapers from the United States pay, on delivery, one penny Provincial, in addition to the United States postage.

United States Newspapers if re-posted in Canada, are liable to letter rates of postage.

Newspapers from or to the United Kingdom, sent by closed Mails through the United States, are liable to a postage of one penny each—payable on delivery.

With exception of these last, (which are not limited as to weight) a newspaper to pass under the foregoing regulations, must not exceed two ounces, otherwise it will be liable to pamphlet postage,—*i. e.* one penny per ounce.

British Newspapers can be re-posted in Canada, subject to one half-penny postage.

Supplements charged as distinct newspapers.

### **Votes and Proceedings in Parliament.**

If sent to the United Kingdom by packet, or to any part of British North America or British West Indies, one penny for every four ounces.

If intended to be sent to the United Kingdom by private ship,—double the above rates.

No packet or cover containing votes or Legislative proceedings, permitted to be sent through the Post, if exceeding six pounds weight.

### **Pamphlets and other Publications.**

If printed in the United Kingdom, British N. America or British West Indies, may be sent to any place in British North America, the United States, or British West Indies, at the reduced inland rate of one penny per ounce, in addition to sea postage, provided they do not exceed sixteen ounces.

Pamphlets mailed to any part of the United Kingdom are subject to letter postage.

If printed and mailed in the United States, they are liable on delivery in this Province to the same rate, one penny per ounce; but if re-posted in Canada, they are charged with full letter postage.

Newspapers, Pamphlets, Publications, and Parliamentary Proceedings, must be sent without covers, or with covers open at the ends. If this is not done, or if there be any marks or writing on them besides the address, full letter postage will be charged.
