The copy filmed here has been reproduced thanks to the generosity of:

La Bibliothèque de la Ville de Montréal

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La Bibliothèque de la Ville de Montréal

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

PREFACE.

The following Tables have been prepared with the view of meeting an emergency which has arisen in consequence of the exorbitant rate of Exchange, and the high premium on Gold in the American money market.

A portion of them had been compiled for private use; but the author has been induced to extend them at the high rates indicated in the title-page, and to publish them for the more especial use of the Banker, the Exchange Broker, and generally for all who trade in sterling bills. The introductory Tables which show the advance of *one sixteenth, one eighth, one quarter, and three eighths* per cent., will, it is believed, be particularly useful, where the rate is at small fractional parts of one per cent.

The Tables of Commission, or Discount, occupy a considerable space; and, with those of Exchange, have been calculated and arranged expressly for this work, by the Author alone, thus assuring himself of the accuracy of the whole: and in the typographical execution, the utmost care has been taken to provide against errors of the Press.

In order to fix the price within moderate limits, the *Decimal System* has been, as far as possible adopted, the Author being persuaded that in practised hands the book will answer all the purposes it is intended to serve.

Quebec, January 1863.
