W. J. Bryan, for the United States, Has Recognized the New Chinese Republic as a Constitutional Government. and So Notified the Wasnington Representatives

Special to The Toronto World. WASHINGTON, April 2 .- The Unitof States Government has formally recognized the Chinese Republic as a constitutional government.

This became known today, following conference at the White House of President Wilson and Secretary of State Bryan. At the close of the conference Secretary Bryan asked the representatives here of foreign governments to meet him at the state department. The representatives of the following nations called on Secretary Bryan between 3 and 3.30 o'clock and received a formal note, which told of the recognition: Brazil, Japan, Great Russia, Portugal, France, Germany, Netherlands, Belgium, Sweden, Peru, Denmark, Mexico, Spain

Comment Refused. Secretary Bryan refused to com-ment on the action today, saying he would have something later to give out. The reason for the secretary of state taking this action is that he wishes to get the formal notification pest office, and was answered by the to China and the other powers before giving out the statement here.

One of the most thrilling stories of the flood brought here was told by Capt. C. A. Martin, regimental quartermaster, and Capt. H. A. Jamieson, of the Sixth Missouri National Guard. They were rescued in a launch from a section of levee which broke away at Bird Point, Mo., just below here. Thirty-six of their men, they said are now on the levee section, which is 200 yards long and ten feet wide, and floating down the Mississippi.

### Raw Wool on Free List

WASHINGTON, April 2.—(Can. Press.)—Removal of all tariff from raw wool has been agreed upon between President Wilson and members of the house committee on ways and means, as the result of conferences that ended today. The present plan, which will have the unanimous endorsement of the Democratic members of the committee, provides that the wool shall be placed on the free list, an end for which the free wool Democrats of the house have fought for two years. The president leans strongly to revision by a single bill. He thinks the income tax question can only be decided after an agreement has been made upon tariff rates. He believes that sugar should go on the free list, but is open to conviction on that point. WASHINGTON, April 2 .- (Can-

MACON, Ga., April 2 .- (Can. Press.)-There was happiness in the Leaf camp this afternoon when word was received from President McCaffery at New York that Tim Jordan would report at Atlanta tomorrow. The Kelley Klouters went out to the ball park and said good-bye to the Macon fans in a six-to-five defeat of the local South Atlantic Leaguers this after-

Mith Kubat and Dube doing the pitching for the Leafs, and two new twirlers working against the champions, the game was fairly close. In the final innings Manager Kelley relieved Dube and pitched himself. "Kel." had a running fire of disconcerting talk directed at the Maconians while he was in the box. He struck out Prysock, the Frank Baker of the league.

struck out Prysock, the Frank Baker of the league.

The Leafs whipped the ball around the lot of midsummer style, with the exception of Shaw, whose arm is very sore and weak. Shaw wants to get away from the Toronto team and has expressed a preference for the American Association. It is doubtful whether Toronto will let him go. The echampions break camp, with the pitchers, excepting Rudolph and Lush, ready to go six or seven innings. Dick's arm is weak and Lush is still much over weight.

The player in question stated that he proposes remaining on the coast this season and apparently knowing Donihee's worth as a player, wants to secure him before he is listed up with a contract in the east. While it cannot be said that any of the western officials are at the bottom of the matter, it is quite evident that a D. L. It is understood that Donihee has replied to the effect that he is open for an agreement.

About 3000 people left the Clyde for Canada the other day and this is only a weekly occurrence, and surely with these and the rapidly increasing number coming professional football should have no fear as to lack of interest.

ronto.

The managers of the two interprovincial professional soccer teams in this town last night, when interviewed, were so optimistic regarding the welfare of the new project that if their hopes are realized Toronto is to see somthing in the football line that will favorably compare with the game as played in the old country. Vague rumors have been current for some time past as to whether or not pro. soccer was a myth, but both the local organizers were so much in carnest over it and ventured the state metal the public would be as enthusiastic as themselves.

George Campbell, the manager of the Toronto team, and for the last seven years a member of the Thistles, said; "Not only am I satisfied that this thing will prove a success but it will be a move that will do more to put soccer on a firm basis than anything else, both pro. and amateur. As yet I have not actualy signed up any men but have strings on some of the best amateurs in Toronto and have only to say the word beyon and marked. AGE OF ASSURED PERSONS.

A bitter opposition to the bill introduced by Mr. C. R. McKeown in the legislature is being put up by the life and that is "a law that would make it insurance men. The bill provides that as much of a crime for men to embezir surance companies must take the zle power as to embezzle money." age of an assured person as proven at the time the insurance is made. The insurance companies wait till the man dies and then raise an objection, and offer to compromise. It is frequently impossible to get adequate proofs of age after the lapse of many years, and the compromise frequently is dictated by the company.

Of course there is another side to the case, and Mr. J. K. Macdonald offered some testimony for the companies. He had not known of any case where a compromise had been forced on a beneficiary, but this by no in order to secure progress he will means precludes the possibility.

It was the business of the agent to anticipate difficulties and not to lure people into taking policies which would not be paid in the event of their death. Mr. Macdonald said they would be paid on the filmsiest evidence of age, but surely this evidence could be secured more easily at the time of writing the policy than when it matures.

The insurance companies will consult their own interest in this matter by making arrangements to bring themselves into harmony with Mr. McKeown's bill. Some companies will do it and they will get the business. If the city had gone ing that height. If the city had gone to the legislature with a request to Britain, Paris, Boston, New York, keep the limit to 250 feet, no doubt this could have been established. As it is, there is now practically no limit.

Governor Fielder has adopted the suggestion and has made known his determination to the legislature.

Mr. Bryan, the president's secretary of state, attended on request the annual dinner of the Trenton, N. Speaking of their relationship to the party platform, he declared that "a platform which is not binding is like the written representation upon which a man obtains money and subjects himself to prosecution for obtaining it under false pretences. A platform that is not binding ought never to be written." Mr. Bryan adde I, as an expression of his own conviction, that if he had power to enact laws, there is one he would very speedily pass

Oliver, Reid & Co.'s charge is that they received a card from the city architect notifying approval of plans for an apartment house at Broadviev and Langley avenues, and that the permit awaited being called for; that a clerk was sent for the permit and was referred to F. H. Sykes, chief examiner of plans; that Mr. Sykes tool the card from him and commenced to write the word "not" on the card, but the clerk prevented him; and that the clerk then demanded, at the depart-ment counter, the permit and the plans, and was refused and informed that the plans were in Commissione Chisholm's office,

AT THE MOVIES.

When Adam delved and Eve span, the artful moving-picture man was round the corner lurking; it fills us with a great amaze to find that from the plans were in the property commissioner's office. The city clerk said that he had no recollection of phoning the city architect's department about the bylaw, but if he had phoned it would not be an unusual proceeding. Mayor Hocken expressed his opinion that there had been a misunderstanding. As the residents of the standing. As the residents of the leighborhood of Broadview and Langley avenues have agreed to a conference with Oliver, Reid & Co. this afternoon, it looks probable that approval will be given the erection of the apartment house.

Judgment: The affidavits in support
of the motion put it beyond all doubt
that there is a very strong opinion
among a large class in Brantford extremely hostile to the defendants.

It is desired on both sides to have a
speedy trial. This can be had at Simcoe
on 15th inst. . . As the plaintiff is admittedly without means, the defendants
must provide such sum as is necessary
to take her witnesses to Simcoe—what
that will be has not been stated. This
will be accounted for by plaintiff if successful, on the final taxation. Costs of

# ON TO JERUSALEM CRY OF NEW SECT

London Woman Becomes Proselyte Thru Efforts of Mysterious Couple.

LONDON, Wont., April 2 .- Rehoboamites is the name of a new sect which has made its advent into London and which will shortly commence a pilgrimage to Jerusalem.

As a result of their coming to the city, Inspector Sanders of the Childran's Aid Society has been asked to make an investigation in the case of Mrs. Doan, of Duchess street, a widow with two small children, who became so enthusiastic about the new relig-ion that she has left the children in the care of relatives and sold her fur niture with the idea of making the pligrimage to the Holy City. Relatives in the city had their first intimation of Mrs. Doan's decision to make the pilgrimage when she tried to make arrangements to leave her chil-

dren with them.

The originators of the sect are a man whose real name is said to be McKnight, and a woman who claims

to be his wife.

In some manner they were directed to the home of Mrs. Doan when they came to the city recently, and since that time have been living with her and teaching their doctrines until they finally persuaded her to go to Jerusalem with them.

Persuasion Useless. Mrs. Doan was interviewed to-day by Inspector Sanders in an attempt to dissuade her from her decision, but and the children have been left with Mrs. Doan was seen to-day and re

iterated her decision to make the pil-grimage as "the Lord had called her and she was going." McKnight was unwilling to be interviewed. His wife, however, told the reporters of her belief, altho she steadfastly refused to divulge anything of a personal nature, except that she came from the States. She said she had just returned from Jeru-salem. "We are the chosen," she said.

With regard to Rehoboam, himself, who is described as a smooth shaven man of medium height and weight, with rather peculiar prominent eyes, nothing could be found cut.

# Man Sentenced to

BERLIN, Aprifl 5.—Sternickel, the man charged with the triple murder at a farm, was yesterday condemned to death thrice: also, according to the curious German custom, to five years' hard labor for arson, and loss of civil rights. Two of his accom-plices were condemned to death, and the third, who is under age, to fif-

teen years' imprisonment.
The trial ended with an incident The trial ended with an incident which is likely to cause vehement discussion for a long time to come. Sternickel's counsel, in his final appeal, instead of making the faintest effort to say anything on behalf of his client, turned on him as if he had been the counsel for the crown, and denounced him and his accomplices, averring that he was unable to believe that the murder was not premeditated, or that Sternickel's accomplices were not fully aware of what they were about. "As counsel, I grew on the same tree as the public prosecutor and judges. I also am lic prosecutor and judges. I also am an organ of justice. I am not Ster-nickel's wage laborer; and the jury

will not, therefore, expect me to ask for a verdict of not guilty."

He criticized as sharply as any prosecutor every argument that could be adduced in favor of a life sentence instead of the death penalty, and in inviting the jury to find all the prisoners equally guilty said he the prisoners equally guilty, said he did so at Sternickel's express desire. The position was doubtless hopeless; but for a defending counsel dpenly to range himself with the prosecution is extremely unusual. Sternickel received the sentence with-

duties to perform than those towards her children. There are other members and there are innumerable duties to be performed inside and outside the home. I need not talk of them. The homekeepers know all about them, and the outsiders wouldn't believe that one pair of hands could accomplish so much, one busy brain direct so many activities or one big heart enfold so many interests.

And so, when I tell you of things to do for the children—things that take up a great deal of time just now perhaps, when I ask you to stop your work to play with your bables, when I suggest walking instead of cleaning cupboards, reading instead of sewing, please do not think the suggestion comes from no knowledge of what it means to be hostess, maid, cook, laundress, nurse, teacher and mother all rolled into one.

However, the mother who takes care of her own children will find that it involves less work to do so in the proper, modern way, than in the manner of mothers of former generations who carried their babes in their arms while at work, or rocked the cradle while they sewed. outsiders wouldn't believe that one pair

And the modern idea is to make all mothers familiar with the signs of perfect health, and also with the symptoms of ill-health, so that they may, by their knowledge, guard the children from ill. Briefly, in the next two or three articles. I shall outline the average child's development before we enter into minute discussions of each part of that development, and the care required to make it perfect.

Every child at any age should have the proper amount of restful sleep; should cry very little; should have a good appetite; should show constant gain in weight, solid fiesh, well-shaped bones; should have clear skin and good color; should have the bowels in order; should have no vomiting or gas; and should show a progressive development of the pormal extra of life.

### To Keep the Face Fresh, Clear, Youthful

(National Hygienic Review.)

More important than the cosmetic care of the complexion is its physical care. To keep the face clean, fresh, youthful, there's nothing better than common mercolized wax. It absorbs the soiled or faded, worn-out skin particles. Using cosmetics simply adds unwhole-someness to the complexion. That's the difference. By all means, acquire the mercolized wax habit. It's so easy to get an ounce of the wax at the druggist's, apply at night like cold cream and wash it off next morning. There's no detention indoors, the old skin coming off so gradually no one suspects you're using anything. When in a week or two the alluringly youthful, rose-like, under-skin is fully in view—well, you won't want, or need, a make-up complexion after that. It must be apparent that this process means complete riddance of all cutaneous blemishes, like freckles, pimples, blotches and blackbreds. If you will keep your eyes open you will see that homes are opened to friends just after they have been through the process of "housecleaning." For a few weeks there is a spasmodic hospitality. New decorations and fresh furnishings are exhibited along with my-lady's new wardrobe.

When it is over there is no more entertaining until there is something else new to show, or until social debts have piled mountain high and must be paid. What we need is more common-sense in the home. What is good enough for your friends. With such a destring the worry (National Hygienic Review.)

delay, but sufficient time should be taken so to amend the law as to make it a real source of welfare to the province. It is undoubtedly true that for mental and physical reasons some men and women should be denied the privilege of marriage. In determining those cases, however, the responsibility should be placed not upon the minister of the Gospel who is called upon to perform the ceremony but upon to perform the ceremony, but rather upon the government officia who issues the marriage license. Ministers are ordinarily possessed of a reasonable amount of acumen, but were reasonable amount of acumen, but were doubt the wisdom of holding them reams sponsible for saying who, or who shall not, marry. Let there be fewer is suers of marriage licenses appointed and let those who are appointed have qualities in addition to the capacity for selling wedding rings; and let licenses, if necessary, be issued on physician's certificate procured by the candidates for marriage and presented to the issuer of licenses. This done, we do not believe anything would be gained by insisting that there must be three weeks' notice of marriage, even on the part of non-residents.

He is the father of the story and the motif of the play is his love for his beautiful and ingenuous young daughter, from whom he has been separated for twelve years when the story begins. Fortunately for Mr. Miller he was able to find a young girl whose acting in the role of the daughter is second only to his own. The young actress is Ruth Chatterton, not yet eighten years old, and she proves herself a sweet, blithe, ingenuous girl without a trace of staginess or artificiality. The other roles of the play are filled by the members of the original New York cast. The seats for Mr. Miller's engagement will be placed on sale at the Princess this morning.

A popular matthee will be given on Thursday. After naving been at the head of their respective organizations for the past ten years. Messrs. Primrose and Dockstader amargamated their interests the past summer for the purpose of presenting to the public a big revival of genuine old. the public a big revivat of genuine oid time minstrelsy. That the idea was a good one is best told by the fact that the innovalon was received with much enthusiasm thruout the American con-tinent. Practically every large city has been visited and in many instances the engagements have been extended to accommodate the many who sought admission. Minstreasy is eminently an American institution, as is the circus, and when it is presented in its orighal form, it consists of sweet voice? ballad singers, graceful dancers, funny comedians and comical negro sketches in which all of the performers appear in black face. It is claimed that Messrs, Primrose and Dockstader have been successful in organizing a spiendid corps of vocalists, dancers, comedians and that the sketches and playets are very funny, and that the scenic equipment is most elaborate. A noon-day street parade will be given each day, headed by Messrs. Primrose and Doubsider

### NEW SHERBOURNE AND WELLESLEY APARTMENTS

Wellesley and Sherbourne street elevations of the new apartment house that is to be erected at the south-east corner, with a frontage on Bleecker street. It will be called Ernscliffe, after the old house on the site. There is some likelihood that the building will go higher than the tentative plans. Deeth & Son, the builders, MORINE & will start construction in three weeks. English's, Limited are agents, and Redmond & Beggs, architects

Hundred Thousand Dollars in Trio of Deals That Include Old Clarke Hotel Property.

The old Clarke Hotel at the corne of Brant street and West King was sold yesterday by George Clarke, after 47 years' holding, to W. L. Argue of The Star, thru Tanner & Gates. The property adjoining at the west has also been sold, as well as the lot on Brant street to the north of the old

hotel. The deals, all put thru re-cently, aggregate about \$100,000. The Clarke corner property, on which stands an hotel building, from which the license was "cut off" a few years ago, has a frontage of 101 feet on King street by a depth of 100 feet rought \$51,000 The property adjoining at the west was sold by H. Lutz to a local theatri-

cal man at \$27,500; it has 52 feet on King street by a depth of 208 feet. The Brant street property, which is separated from the corner lot by a lane, and has 82 feet frontage, brought \$215 a foot. Theodore Honeyfood ford was purchaser and Mr. Clarke vendor. All these plots are covered with old buildings of disregarded

### NEW SCARBORO LAYOUT

Thirty acres at stop 35, on the Kingston road, and just south of the Scarboro Golf and Country Club's grounds, is to be developed as a bungalow community by J. Stanley Livingston, Mail building. The layout will be offered within two weeks.

### PROSPECTIVE BUILDERS BUY IN ANSLEY GARDENS

Out of the seventy lots in Ansley Gardens, the high-class layout on Glengrove and Glenview avenues, twenty have been sold to date, all to people who will build. The lowest price in this property is \$65 a foot and the average of the lots sold is \$3000.

### EIGHTY-THREE THOUSAND FOR L-SHAPED PROPERTY

price mentioned in the deal now going on for the L-shaped property at 216 and 218 West Queer street and 5 and 7 McCaul street. The owner, John Patterson, says that a hitch over terms feet, at \$56,000. may prevent the deal ever going thru. The person buying is Isadore Shessel. The Queen street part is 40 by 121 feet and the McCaul street side 30 by 40 feet.

LAPLANTE STREET DEAL

Charles F. Lee has sold 9, 11 and 13 Laplante street and 190 Teraulay street to F. Bott at \$24,500. The first property is 55 feet by 75 and the other is 25 feet by 75.

## HAMILTON AS A FIELD FOR OUT-

Notwithstanding the natural advantages that are making Hamilton one of the leding mnufacturing centres of Canada, very little has been done to bring to the attention of the outside capitalist the opportunities this city offers in he way of real estate investment. Both Hamilton and the outside capitalist have suffered from this lack of publicity; the outsider, in that he has been kept from a most profit-able field for investment; and the city, in the way development has been retarded. We feel it now at the time of our most rapid growth and prosperity. Taken from the 1913 March issue of

The Realty Review, Toronto.

Within the past week one of the choicest mountain properties has been put on the market in building lots. Situated just twenty-five minutes from the centre of the city. H. C. McLeod. Former General Manager of Bank of Nova Get Too Much Consideration-Safety Limit of Loans Exceeded-External Audit Recognized as Absolute

OTTAWA, April 2.—(Can. Press.)—
At the meeting of the banking and commerce committee this morning H.
C. McLeod, former general manager of the Bank of Nova Scotia, and whose outspoken attitude with reference to the large of the bank of Nova Scotia, and whose outspoken attitude with reference to the large of the bank is the large of the bank should be required to the large of the l pank inspection caused a stir in bank- to keep a fixed cash reserve in gold quiry of the public accounts coming circles just before his retirement, and legal tender. Some years ago I read a lengthy statement embodying advocated 1 per cent. of a bank's liaread a lengthy statement embodying his views on the proposed new Bank Act and banking legislation in general. Mr. McLeod said in part:

The privilege of enlarging the powers of circulation by the deposit of gold in a proposed central reserve, and the clarifying of the government statement are two more features that should prove beneficial. There are some features that should be introduced and some that should be im-

Profits Not Excessive.

Mr. McLeod said he did not consider bank profits excessive when the double llability was considered. He continued: "The machinery of the Canadian banking system is excellent, but in many individual cases it has been used without skill or recklessly used.
"From the outset the finance de-partment has failed to exercise effective control over the banks. We are told the government is afraid to seem

to assume any responsibility, lest at-tempts to conserve the interest of bank depositors should be construed as an 700,000. By the same progression there is due to be seventeen banks in 1928, with average capital of \$10,398,000. By a goodly number of banks of obligation. It is not so in other countries. If efficient supervision cannot be provided in any other way, the department of finance should organize a bureau for the purpose.

"Like its predecessors, the act has few provisions for the protection of

few provisions for the protection of depositors, of whom the majority are savings depositors. In most countries savings depositors are the special wards of legislators.

Borrower Unduly Privileged.

"In the aggregate the borrower is becoming almost the savings depositors are the special wards of legislators. "In the aggregate the borrower is given far too large a proportion of Canadian bank assets. There would appear to be an impression within this committee that the banks should further expand their loans, for in the list of main questions on which evidence is desired we find a proposal to dence is desired we find a proposal to tax moneys loaned in foreign coun-tries. Money loaned in foreign finan-cial centres is almost always a por-tion of a bank's resources that the management desires to keep readily management desires to keep readily available, and to say to a banker that the shall not, without penalty, thus employ his funds, is equivalent to saying. "You must reduce your readily available resources, and give more to the Canadian borrowers." If parliament yields to any such suggestion, the effect will surely be detrimental to depositors, and it will as surely be disastrous to borrowers in every time of stress.

The and their existence in the act tends towards inflation. A bank should be prohibited from circulating another bank's notes, which prohibition would restore daily redemption, without which the elasticity of bank note circulation is impaired. "The Bank Act should prohibit the loaning to any one customer more than a reasonable percentage of a bank's capital, to avoid a rock on which so many banks have met ship-

"Permit me to suggest to the members of this committee that in the course of their study of the subject they look into statistics to ascertain they look into statistics to ascertain the extent to which banking prudence may go in making loans. They will find that in the world's practice the limit of safe load is far more clearly defined in banking than is the safe load in bridge engineering. They will also find that this limit has been porsistently exceeded in Canadian banking. At the end of February the total ability.

"There the percentage of loans of all banks' total assets is 55 9-10 per cent.

"The national banks loan about 53 per cent. of their assets, and from the percentage given for all banks it appears that there is an agreement of practice within that country as to the limit which prudence will not exceed. The banks in Great Britain (excepting the Pank of England) loan about 55 per cent. of their iteral features a count of the country is seemed to Mr. McCurdy, who asked the question, that if there was an accumulation of money in one section of the country that section should get some advansage from it. External Inspection Necessary. Among the provisions that should introduced for the protection of depositors there ought to be included a most rigid and thoro external in-spection of the general management of each bank. A less efficient inspection, or one where the smaller banks are inspected and the larger ones, thru influchce, go free, would be a mockery of the depositors' rights. The system proposed in the Bank Act is an acknowledgment that external inspec-tion is necessary, but only by the utmost activity of the department of finance can this plan be made effective.

"No stipulation is made as to the proper qualification required of the auditors, and it is open to any bank by auditors that are nothing more than 'dummies' of the general manager. I believe the appointment of nembers of the board of bank inspectors, proposed in the act, should be by vote of the general managers of all the banks. I will quote one paragraph from the suggestion made to the Canadian Bankers' Association in No-

'The board shall consist of not less than seven full members.'
Four shall form a quorum and there shall be not less than seven asthere shall be not less than seven as-sociate members, all of whom shall be elected by vote of the general managers of all the banks and one-tenth of of all the banks, and one-tenth of such vote being recorded against a candidate for either full or associate embership shall exclude him from ection. The chairman of the board shall be appointed from the members

Mr. McLeod thought it would be hard to introduce sections in banking, and that it would also be difficult to keep track of where money was accumulated in the country.

Should Limit Capital.

Mr. McLeod also thought that the matter of limiting bank capital was well worth consideration, and that the tendency, if any, would be to reduce the interest on deposits. Capital, he thought, should be limited, and the reserves increased. If this did not work to the advantage of circulation some other method would have to be adopted.

# SLIGHT RELAPSE IN TORONTO MARKET

Natural Reaction After Recent Sustained Move Toward Higher Levels.

SOME ISSUES ADVANCE

And Offset Weakness in Other Sections-Specialties on Down Grade.

Profit-taking sales, inspired by the had gone far enough for the time being, came into play in the Toronto exchange yesterday and gave an easier tone to the market. It was noticeable that numerous of the active securities were decidedly resilient, however, and with a resumption of the sustained demand on the afternoon board, some of the favorite isgues turned strong again, so that at the close a sprinkling of advances as feeling that the recovery in stock values at the close a sprinkling of advances as well as declines was in evidence. Trading was active, tho not up to the recent

A downturn in Brazilian in London was the only outside news calculated to inspire bearish operations at the opening, but the weaker feeling in the New York market aided the movement later on and proved the leading factor for the day. Brazilian opened here at 97%, compared with 98% at the close on Tuesday, and dropped to 97% before the liquidation was checked. Then in the last hour the price stiffened up again, and the final bids at 97%, the high level of the session, left a net loss of less than half a point.

Recurring Weakness.

A selling movement in some of the specialties evidenced the fact that the market was still subject to recurring fits of weakness. Thus Sawyer Massey common was off a full six points from the previous sale, the shares changing hands at 42½, a new low record for the year. Locomotive common was also under pressure, with the quotation back to 60, a loss of 2½ points. Canners at 78% was down %, Detroit dropped to 75%, and Consumers' Gas lost ½ at 178. Macdonald was also lower at 59.

Such stocks as Toronto Railway, Richelieu. Maple Leaf and Duluth Superior

lower at 59.

Such stocks as Toronto Railway, Richelieu. Maple Leaf and Duluth Superior proved the redeeming features of the day. Rails moved up to a new high for the movement at 139, and the others gained anywhere from a small fraction to a point each. Twin City, General Electric and Mackay held firm at their recent advance. Interlake preferred reached a new high in its history at 95, a gain of over two points, and Maple Leaf preferred was also improved. Dominion Bank continued its recovery, selling at 223, compared with 219 last week.

# March Financing

Effect of Money Stringency Plainly Seen in New Capital Creations.

Corporate financing in the United States during the month of March aggregated \$150,000,000, or \$46,000,000 less than in February, and \$205,000,000 less than the record month of \$355,000,000 financing for January this year. March's total of \$150,000,000 compares with \$193,-000,000 for March, 1912. In the previous two years the amount of financing increased steadily from February thru to the end of June. This precedent is not being followed this year.

Railroads still hold the lead in amount of financing, having aggregated \$66,-000,000 in March, as compared with \$44,-000,000 for the public utility companies, and \$38,000,000 for the industrials. This proportion remains about as it was for the previous two months of the services.

MORGAN IS DEAD:

LONG LIVE MORGAN

NEW YORK, April 2.—J. P. Morgan today made his first appearance at the offices of J. P. Morgan & Company since the death of his father. He defined himself to interviewers and declined to give out any messages received from Rome regarding the nature of his father's illness or arrangements for bringing the body to New York.

Erickson Perkins & Co. (J. G. Beaty) wired: The attitude of the outside public toward stocks has undergone a change for the better. People are now prepared to take on stocks for investment or speculation, believing that we have turned the corner, and that business should improve by degress. There are some doubting ones, but these were could be any substantial recovery in prices.

# DEMAND FOR BONDS CLOSE WAS FIRM **MORE PRONOUNCED**

Toronto Stock Exchange Reveals That Fact.

The most significant feature of the EUROPE'S SKY CLOUDED tatement of transactions on the Toron-Stock Exchange for the month of March is the big increase in the amount of bonds which changed hands. The par Montenegro's Obstinacy Revalue of the bonds dealt in was \$180,600, a total which is nearly eight times the record of the previous month, and over three times the figures for January last. Comparison reveals the further interesting fact that the bond transactions were

NEW YORK, April 2.—The rise in stocks was halted today. During the early trading prices were scaled down moderately, but later there was a gradual The advance of the last ten days, running from five to ten points in many cases, had reached sufficient proportions largely responsible for the action of the market.

Depression of European markets tended to check the advance here. There was some buying of stocks for foreign account, but on a smaller scale than durcount, but on a smaller scale than during the earlier days of the week. Reviving apprehensions as to the Balkan situation, owing to the attitude of Montenegro, made it plain that the foreign
situation still must be taken into consideration. With the passing of the April
settlements and easier money conditions,
it is expected that some of the semi-governmental European banks may reduce

change in the Bank of England's rate is expected tomorrow.

Money Easier.

Money was easier here. Call rates relaxed considerably from the high rates of the preceding two days, and quotations for time funds and commercial paper were shaded. The change in the money market and rather extensive purchases of stock here recently by Europe were of effect on foreign exchange rates, which were lower.

Rumely touched another low point today, dropping nearly five points to 37½. Weakness of this issue was attributed to the statement of a director that the dividend might be passed. Canadian Rubber and the local traction stocks were in demand at rising prices.

### GERMAN BANK HAS BIG LIABILITIES

KUESTRIN, Germany, April 2.—A local banker, Gustave Puppe, suspended payment today with liabilities estimated at \$6,250,000 to \$7,500,000. Puppe and his son have disappeared. The suspension is one of the biggest that have occurred in this country in years. Many large Berlin banks will lose by the failure.

# MANY ESTIMATES OF MINING MARKET MORGAN'S WEALTH

Good Name He Left-Big Profits.

BOSTON, April 2.-The Boston News Bureau says: Estimates of the fortune of J. P. Morgan will vary widely. The greatest asset Morgan leaves behind is in a good name and a well organized banking house.

While Mr. Morgan placed a liberal value upon his services, he was never avaricious or miserly, and he worked more for the good of his country and his fellow-man than for the accumulation of a large personal fortune. Mr. Morgan's father left a fortune of \$17.000,000 in 1890, which was divided among his three children.

We have heard it estimated by associates of J. P. Morgan that he was never worth \$100,000,000; but we believe that as a prudent financier he would never have maintained his style of living, his large personal estates and put so many millions into art unless he had been worth between \$200,000,000 and \$300,000,000.

That he left a fortune of more than greatest asset Morgan leaves behind is

000,000.

That he left a fortune of more than, \$100,000,000 is evidenced by the wealth of his steadily retiring partners, all of whom became multi-millionaires from very small interests in the banking house in which Morgan was always the majority.

majority.

Morgan was always what he testified at Washington, when he said: "I am my house." The largest profits of the banking house were probably in the year 1901. In that year, we understand, the house passed \$35,000,000 to the right side of the profit and loss account, of which \$18,000,000 came from the organization of the United States Steel Corporation. PEARL LAKE RECOVERS

Cobalts Continue to Show Resiliency—Bids on Crown Reserve Raised.

The mining market firmed up again esterday, the incoming of substantial buying orders at the lower prices inspiring a moderate recovery, in certain sections of the list. At times it became apparent that the liquidating tendency was still in effect, but the improved demand sufficed to take care of all the selling which came into play, and at the close left a round half-dozen issues with moderate advances in evidence.

rate advances in evidence.

In the Porcupine stocks, Pearl Lake, Foley-O'Brien, Moneta and Dome Lake all improved their position, while the only weak spot was Porcupine Reserve, which sold down a couple of points, to ten. Considering the fact that these shares were run up from 5 to 12½ last month, without a single reaction, the setback was not of any material importance. The move in Pearl Lake was due to a revival of the buying, the belief that the company will in time prove one of the leading producers of the Porcupine camp inspiring purchases for the long pull. The price rose two points, to 65. Moneta was up to a new high level since last June at 9½, and Dome Lake, at \$2.78, was eight cents above the previous close. Foley-O'Brien responded to the report that the property was to be reopened by advancing again to 38. Hollinger sold at \$17.40 and \$17.45.

# Little Nip at

Writ, Recently Issued, Will Put Final Quietus on Company.

Investigation into the affairs of the Little Nipissing Silver Cobalt Mining Company reveals the fact that the writ recently issued by the Trusts and Guarantee Company on behalf of the holders of the mortgage of \$21,000, will wind up the concern. It seems that parties interested in the mortgage have paid off all the debts of the company, so that there is now no one in a position to redeem the situation, even should they be inclined to do so. The result will be that the property, J. B. 2, will have to be disposed of, which will mean the end of the turbulent existence of Little Nip. The mortgagees' position is also a doubtful one, depending entirely upon whatever value the property known as J. B. 2 may in the future develop.

# Old Alexandra is Redeeming Itself MONTREAL

Cobalt Property Under New Manage ment Looms Up as Prospective Shipper.

Work is progressing rapidly on what was formerly known as the Alexandra property, at Cobalt. Owing to want of capital development at this property was discontinued just at a time when the holding gave every evidence of making good at both the 200-foot and 300-foot levels.

The Alexandra was taken over by the Canadian Gold and Silver Mining Company a short time ago. This company also owns seven gold claims in the famous Kirkland Lake district.

With E. W. Beidler as manager, the company will concentrate its effort first on proving up the Alexandra. Mr. Beidler, who was in Toronto yesterday on his return from Cleveland, received the following wire from his foreman: "Two hundred-foot crosscut in 39-foot and 300-foot crosscut in 12-foot. Calcite increasing in quantity, the vein is looking encouraging."

Mr. Beidler told The World that there raging."

Mr. Beidier told The World that there was every prospect of the big vein on the Balley and Penn-Canadian being struck on the Alexandra within a short time, and, with this accomplished, the mine would add another to the Cobalt shipping list.

The Canadian Gold and Silver Company has a strong hoard of directors is in a The Canadian Gold and Silver Company has a strong board of directors, is in a good financial position, and the entry of the company into the Cobalt camp is welcomed. The stock has a wide market, being listed on the Toronto exchanges, and also on the New York curb.

Cobalts are Resilient.

The Cobalts showed remarkable resiliency and enjoyed an excellent market thruout. Timiskaming recovered two points of its recent reaction. Chambers was up one, at 24; McKinley-Darragh was in demand around the \$2 mark, and City of Cobalt moved up a fraction, to 45½, under a sustained demand. Coniagas was firm at \$8.30. Little Nipissing dropped back to one, its lowest since February. Peterson Lake was steady between 24 and 24½ all day.

The big issues were quiet, but firm. Bids on Crown Reserve were raised to \$3.80 at the close. La Rose and Nipissing were steady. Sentiment in respect to these stocks, and, in fact, with regard to the whole market, was a shade more optimistic than earlier in the week. Cobalts are Resilient.

WINNIPEG, April 2.—After the steady advance in wheat values for some days recently, a reaction occurred during the earlier hours of business. Opening figures were ½c to ½c lower, and further declined ½c to ½c, but the close was unchanged to ½c lower. Cash wheat was in good demand. Exporters bought for delivery ranging from opening of navigation till August.

Oats were firm and prices higher. Cash onts closed ½c to ½c higher. Flax was again weak. owing to the extremely heavy offerings. Cash flax closed ¾c lower for all grades.

It is the only satisfactory substitute for the pneumatic tire that has been discovered.

Rubberine is lighter, more resilient than pure rubber and cannot be punctured. A demonstration of this wonderful composition may be seen at Suites 5 and 6, 32 Adelaide St. East.

RUBBERINE, Limited, has secured the manufacturing and selling rights for Canada. A small allotment of stock in this Company is being placed on the market.
