Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/
Couverture de couleur
- Covers damaged/
Couverture endommagée
- Covers restored and/or laminated/
Couverture restaurée et/ou pelliculée
- Cover title missing/
Le titre de couverture manque
- Coloured maps/
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/
Planches et/ou illustrations en couleur
- Bound with other material/
Relié avec d'autres documents
- Tight binding may cause shadows or distortion along interior margin/
La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure
- Blank leaves added during restoration may appear within the text. Whenever possible, these have been omitted from filming/
Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments:/
Commentaires supplémentaires:

- Coloured pages/
Pages de couleur
- Pages damaged/
Pages endommagées
- Pages restored and/or laminated/
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed/
Pages décolorées, tachetées ou piquées
- Pages detached/

- Only edition available/
Seule édition disponible
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image/
Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	14X	18X	22X	26X	30X
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

Medical Library
McGill University
Montreal

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contains the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Medical Library
McGill University
Montreal

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Vaccine.

To the Medical Profession.

We desire to call the attention of the profession to the fact that we, the present managers of the New England Vaccine Company, have been continuously engaged in the propagation of pure and reliable bovine vaccine virus for the past fifteen years, and are thus enabled to maintain an even standard in the quality of our productions which can only be acquired by careful observation and study of the subject, combined with actual experience in all its details.

Beginning in a small way, at a time when the use of Non-Humanized vaccine lymph was comparatively unknown, our patronage has steadily increased from year to year until now we can justly claim the most extensive business of the kind in the world, having among our patrons the Boards of Health in many of the largest cities in the United States and Canadas, together with the War Department of the United States, whose entire requisitions for vaccine virus we have received for the past eight years.

Early in the season, when there appeared indications that an epidemic of Small Pox was imminent, the usual number of new vaccine farms sprung into existence. The so-called Directors, with neither experience nor reputation as propagators of reliable vaccine virus to warrant their securing the patronage of the profession through the merits of their productions, have offered special inducements in the way of reduction in prices, that being their chief claim.

In most cases their virus is worth less than the price asked for it and we shall continue to refuse to compete with them, knowing that a trial of their lymph is all that is necessary to convince the profession that price is not the most important requisite, and, if patronized temporarily, trade will undoubtedly return to the older and more experienced propagators, whose virus has stood the tests of many years.

TERMS.

TEN IVORY POINTS,	\$1.00
SINGLE POINTS, Each,	.20

A liberal discount will be given to Boards of Health and Physicians using large quantities.

In case of failures in primary vaccinations, where the virus has been used strictly in accordance with our printed directions, a second package will be furnished gratis, if notice is received within three weeks from the receipt of the first supply.

624/3

We publish the following complimentary communications which we have received recently :

MONTREAL, CANADA.

"The vaccine which our Health Officer is getting for the city is giving every satisfaction."

HENRY R. GRAY,

Member of the Board of Aldermen.

LONDON, ONTARIO.

"We are having splendid satisfaction with your points."

W. E. SAUNDERS & Co.

QUEBEC, CANADA.

"I must compliment you on your vaccine lymph, it is very good indeed, and the best that I have ever used. In fact I have been successful in almost every operation in primary as well as re-vaccinations. I believe it has proved so with my confreres who have used it properly."

DR. RINFRET, JR.

Among the advertisers of cheap vaccine is one whose circular reads "Also associated with the New England Vaccine Co.," and we beg leave to inform all patrons and friends that this party is not in any way associated with us, and has not been since July 20, 1884.

Prior to that date his services with us were purely clerical, having no connection whatever with our stables, and had he been of value to us, his services would have been retained as he desired.

We have recently ascertained that the vaccine sold by the New York Dispensary was never produced under his supervision, and while in our employ he never vaccinated an animal nor charged any points, his only experience in these important branches of the business having been gained since he started his recent venture.

Acting on the defensive, we are forced to make this announcement, from the fact that his circular implies, with evident purpose to deceive, that he is still connected with us, and our patrons should be informed to the contrary.

Address all orders to

T. Garceau, M. D.,

New England Vaccine Co.,
