The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par la première plié et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par la seconde plié, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. CANADA CHURCH ESTABLISHMENT.

COPY OF A LETTER addressed to R. J. WILMOT HORTON, Esq. by the Rev. Dr. STRACHAN, Archdeacon of York, Upper Canada, dated 16th May, 1827; respecting the State of the Church in that Province.

Colonial Department,
Downing Street, 22d May, 1827.

R. J. WILMOT HORTON.

19, Beny-Siegars, St. James's, 16th May, 1827.

Sir.—I take the liberty of enclosing for the information of Lord Grenville, an Ecclesiastical Chart of the Province of Upper Canada, which I believe to be correct, for the present year 1827, and from which it appears that the Church of England has made considerable progress, and is rapidly increasing.

The people are coming forward in all directions, offering to assist in building churches, and soliciting with the greatest anxiety the establishment of a suitable minister; indeed the prospect of obtaining a well-established clergyman unites neighbourhoods together, and when one is sent of a more conciliatory disposition, he is sure, in any action he may be called upon to perform, to turn the respectable part of the inhabitants into an increasing congregation. There are in the Province 150 townships, containing from 100 to 500 families, in each of which a clergyman may be most usefully employed; and double this number will be required in less than twelve years.

When contrasted with other denominations, the Church of England need not be ashamed of the progress she has made. Till 1813 there was only one clergyman in Upper Canada, a member of the Church of Scotland. This gentleman brought up his two sons in the Church of England, of which they are now parish priests. After his death his congregation was split in three divisions, which with another collected at Kingston in 1822, form four congregations in all, which are in communion with the Kirk of Scotland. Two are at present vacant, and of the two Scotch clergy now in the province, one has applied for holy orders in the church of England.

The teachers of the different denominations, with the exception of the two ministers of the Church of Scotland, four congregationalists, and a respectable English missionary who presides at the Wesleyan Methodist Meeting at Kingston, are for the most part from the United States, where they gather their knowledge and form their sentiments; indeed the Methodist teachers are subject to the orders of the Conference of the United States of America, and it is manifest that the Colonial Government neither can nor can have any other control over them, or prevent them from gradually rendering a large portion of the population, by their influence and instruction, hostile to our institutions, both civil and religious; than by increasing the number of the established Clergy. Two assertions have been made respecting the Church of England in Upper Canada, which, if correct, ought certainly to have considerable influence. First, that her Clergymen have no congregations, Nov. 1st from personal knowledge, that in 58 places where regular or occasional service is performed, numerous and respectable congregations assemble. The second assertion is, that in the House of Assembly, consisting of 44 members, only two belong to the Church of England. Now the fact is, that 18 out of the 44 profess to be of the Church of England, for the truth of which I pledge myself, and can, if necessary furnish the names; the remaining 23 are of various denominations, but certainly not more than three or four Scotch Presbyterians.

The Church of England in Canada, was supported for many years out of the very limited and fluctuating revenue of the venerable Society for Propagating the Gospel in Foreign Parts, which did its utmost to increase the number of the clergy, but its means were inadequate to the demand, that it was at length obliged to solicit the aid of government to continue and extend its efforts, accordingly a small sum, in aid of its funds, has been for some years voted by the Imperial Parliament, of which Upper Canada receives a portion. How inefficient this aid is to supply the increasing necessities of the colony has been sufficiently shown, for the tendency of the population is towards the Church of England, and nothing but the want of moderate support prevents her from spreading over the whole province.

But it may be asked, why do not the Clergy Reserves afford a remedy?

To make the answer to this question intelligible, a few remarks are necessary.

By the 31st of George the 3d, c. 31, one-seventh of the land in Upper Canada is reserved for the maintenance of a Protestant Clergy; the operation of which provision offers at this time the following results: —The number of townships actually surveyed may be taken at 210, averaging 65,000 acres, one-seventh of which 9,133, equal 47 reserved lots of 200 acres each, consequently the number of such lots, in 210 townships, is about 11,000 containing 2 1-5 million of acres.

But as these lands partake of the quality of those around them, many lots will be found, from various causes, unfit for cultivation

so that the number eligible for settlement cannot be taken at more than 9,000, containing 1,800,000.

That this provision will at no time be ample for the support of a religious establishment sufficient for the population of Upper Canada when fully settled, will be clearly apparent from the fact, that the whole surface of the colony does not exceed 31 millions of acres, of which not more than 21 are capable of cultivation; one-seventh of this, containing 3,750,000 acres, or 18,000 reserved lots of 200 acres each, will ultimately constitute the whole property set apart for the maintenance of a Protestant clergy. Now judging from what takes place in the United States, each lot will not produce in a country an average rent of £10 per annum, making a total of no more than £187,500, which, divided among two thousand clergymen (a very small number for a country nearly as large as England) gives only £93 10s. to each.

Hitherto the reserved lands have been inefficient, from causes now very obvious, though not perhaps anticipated by the distinguished statesmen who advised the appropriation.

The causes are —

1. —The great encouragement given by government to settlers of good character, by bestowing on them land on a payment of a trifling fee.

2. —The gratuitous grants of land made to such persons as retained their loyalty during the American revolutionary war, and to officers, soldiers and sailors who served in the late war in Europe and America.

3. —The preferences given by the colonists to lands in fee-simple to leases, even where the latter are more advantageous.

4. —The difficulty of collecting rents, from the smallness of the amount charged on each lot, and from being scattered over the whole province.

5. —So long as applicants can get lands of the best quality and in the most convenient situations for nothing, or a mere trifle, the natural consequence is, that the rent of lands upon lease is almost nominal.

In regard to the gross rental of the leased lots, it amounts to about £1,200 per annum, and was for a long time swallowed up by the expense of making out the leases necessary to convey the title to the applicant; and though this item of expense has been removed, it is still reduced by the fees and per centage of the sheriff, who are employed to collect it, from persons scattered over a surface of nearly 40,000 square miles, so that the net sum actually paid over to the treasurer does not much exceed £100 per annum.

These things pressing forcibly on the minds of the Lord Bishop of Quebec and his Clergy, and on the Lieutenant Governor of Upper Canada and his Council, induced them to seek the power of selling the Clergy Reserves to a limited extent, as well as leasing them, leaving the proceeds to be disposed of as provided for in the 31 Geo. III., c. 31, and this is the object of the Bill before Parliament.

From this measure they look for many important advantages;

1. —A large portion of the country, now in a manner locked up, would be made free.

2. —The lessees would be more punctual in paying their rents, for fear of losing any claim to renewal or advantageous purchase.

3. —The means would be afforded of multiplying clergymen to any number that might be required.

4. —The popular objection against the reserves, as a barrier to improvement and internal communication, would in a great degree be removed.

5. —The Imperial Parliament would in a few years be relieved from the annual grant, in aid of the Society for Propagating the Gospel in Foreign Parts, in as far as respects Upper Canada.

6. —Two or three hundred clergymen living in Upper Canada, in the midst of their congregations, and receiving the greater portion of their income from funds deposited in this country, must attach still more intimately the population of the colony to the parent state. Their influence would gradually spread. They would infuse into the inhabitants a tone and feeling entirely English; and acquiring by degrees the direction of education which the Clergy of England have always possessed, the very first feelings, sentiments and opinions of the youth must become British.

I have, &c.

(Signed) JOHN STRACHAN.

As the Missionaries have no settled Clergymen, it has been found difficult to ascertain the number of Itinerants employed, but it is presumed to be considerably, perhaps from twenty to thirty in the whole Province; one from England, settled at Kingston, appears to be a very superior person. The other denominations have very few teachers, and those seemingly very ignorant; one of the two remaining Clergymen in communion with the Church of Scotland has applied to be admitted into the Established Church.

I. What is the precise state of things in those places where it is said in Dr. Stow's Chart that there are
Churches—Churches building—or Divine Service performed?

II. What number of persons monthly attend Divine Worship of the Church of England at each of the places in

V. What is the number of Sitters and Communicants in each existing Scotch Church?
