STUDENT IS HELD
AWAY ATTEND
MCGILL

Entire Body of Third-Year
Medics. Numbering 100 Pass
Resolution of Protest Against
the Lack of Practical In-
struction and Too Many
Lectures.

One hundred medical students in the
third year have risen in rebellion
against a number of existing conditions
at the medical college, and have car-
ried their grievances to Dean Clarke.
Two indignation meetings have been
held, at which resolutions of protest
were passed and they have been for-
warded to the dean. The students
threaten to approach President Fal-
coner if they do not get satisfaction.

It is said that the entire body believe
that they would receive better treat-
ment at McGill, and they threaten to
desert Toronto next year and attend
that institution if present matters are
not remedied.

There has been trouble brewing
among the third year men since the
school opened last autumn. The griev-
ances summed up are. Too many lec-
tures and not sufficient clinical and
practical training. Radical changes
are wanted. At present there is an
instructor for classes of ten men, and
it is claimed that individually not suf-
ficient attention is given the students,
and they want the classes reduced to
four or five men, which is the case at
McGill. More classes in surgery and
medicine are wanted along with more
practical work in surgery and pathol-
ogy.

Want Better Returns.
There are 100 students in the third
year, each one of whom is paying a
fee of \$150. This is the largest paying
body attending the university, and the
"Medics" therefore claim that they
should receive better returns.

The lectures are many and long, and
monotonous, they say, and often need-
less. Instead of so much talk, they de-
sire practical instruction, claiming
that most of the lectures could be dis-
posed of in text books, saving a waste of
time, money and study, and more at-
tention could be devoted to the prac-
tical and clinical tuition.

Numerous protests have been made
regarding the lectures, but with no
avail, so a number of students got to-
gether a few days ago and called an
indignation meeting with the case of
two resolutions asking for radical
changes as a result. The entire body
is united in its purpose.

FEDERALS ARE
NOW BESIEGED

Rebel General Orozco Boasts That
He'll Speedily Take
Parral.

JMINEZ, Mex., April 4.—(Can.
Press.)—The federal defenders of Par-
ral again are within its adobe walls
sustaining the fire of re-inforced rebels.

Throughout yesterday afternoon there
was fighting near Bacon, twenty miles
distant, between the rebel rear-guard
under Major Quevada, and the federals
who pursued Campa from Parral Tues-
day to that point.

During the night, Gen. Salazar's re-
inforcements arrived and the federals
retired to their base. To-day Gen.
Luis Fernandez, another rebel leader,
arrived and preparations to take the
town began in earnest. Salazar em-
barking on a flanking movement, while
Major Quevada and Gen. Fernandez
engaged the enemy in front.

Gen. Orozco does not think within 24
hours this city will be his. Until this
has been accomplished, however, it
will be impossible to move against
Torreon.

TEDDY IS "FIGHTING MAD"

PARKERSBURG, W. Va., April 4.—
(Can. Press.)—Striking severely at his
political opponents here, Col. Roosevelt
charged them in a speech to-night with
using unfair methods in an effort to
defeat him at the convention soon to
be held in this city. The former pres-
ident said he has been informed that
plans were being made to turn the
Wood County convention against him
in spite of the fact that it had been re-
presented to him that a large majority
of the people were on the Roosevelt
side.

BILLY LILLY'S ADVENTURES

"The Adventures of Billy Lilly in the Fashionable Whirl" is the subject of a clever sketch in the magazine section of The Sunday World this week. The drawings are by Penrhyn Stan-
slaws and are done in four col-
ors, making a strikingly beau-
tiful front page.
Billy is a frivolous girl who
doesn't care to be too formal,
or to be subdued by the dictates
of a cranky chaperon. She
doesn't know much about
bride; is sure that she will
never get married, and is very
fond of club life. On the whole,
Billy is a witty, unconven-
tional girl, and our readers will
follow forward to reading of her
adventures as they appear from
week to week.
Next week Billy-Lilly goes
shopping. Watch for the series.

THOUSANDS LEAVE
FOR EASTER
HOLIDAYS

Incessant Stream of Travelers
Hurried To and From in the
Union Station—Toronto
Hotels Are Crowded, and
Visitors Will Not Find Much
Accommodation To-day.

"Off for the country," appeared to be
the slogan at the Union Station all day
yesterday. Altho this is not the best
time of the year for such a trip, many
were the expectant faces that were
turned to getmen at the union, asking
for directions as to trains. The usual
bustle, hustle and tussle were much in
evidence; everyone seemed to have a
hatbox, satchel or other contraption
which was constantly getting in the
way of some person who was just
little more of a hurry than the party
with the article. Dancing children
promenaded around the confines of the
waiting rooms, eager to demonstrate
the Easter clothes they wore. Once
again the inadequate facilities of the
station for handling large crowds was
shown. An incessant stream of people
poured in and out the doors; women
and children were jammed and crushed
in the throngs; babies cried; but those
who were so anxious to get away from
the city's turmoil did not look to see
what suffering they had caused.

The traffic is said to be much heavier
than last year, and altho it is still early
in the holiday, lack of hotel accommo-
dation is already seen. At the Walker
House, the manager says that even the
cots in the halls are filled, and in the
Queen's conditions are little better. The
hotels will have to leave to go to great
inconvenience even to secure a "couch"
on which to rest the weary head.
Four hundred Toronto teachers left
for Chicago yesterday and will remain
a week Sunday. While in that city they
will be shown around the schools.

THEIR JOY RIDE
WAS VERY SHORT

Two Young Men Took Motor
Car From Garage, But
Were Soon Placed
Under Arrest.

Albert Carter, 168 St. Patrick-street,
and Thomas Jenkins, 21 Palmerston-
avenue, were arrested at 12.30 this morn-
ing charged with stealing motor car
belonging to Frank McConvey, 75
Eglington-avenue. The car had been miss-
ing for only three-quarters of an hour.
The lads were about 18 years of age
and took the car from the garage, in
making their flight they were rather
noisy and attracted the attention of Mr.
McConvey, who telephoned to police
headquarters. At the corner of King
and Church-streets he spotted his car,
and calling Policemen Lindy and Lav-
eney had the couple arrested.

POT EXPLODES, 3 MEN HURT

LONDON, Ont., April 4.—(Can.
Press.)—Three men were injured, one
of them seriously, the result of an iron
pot weighing one hundred pounds, ex-
ploding in the McClary laundry shortly
before 6 o'clock to-day. The injured
are Peter Klimski, Russian, with his
fractured, and bruised about the
body; W. S. Groves, cut and
bruised about the body by flying iron,
and Alex. McClary, Russian, cut about
the head and legs by flying iron.

MRS. WYLIE IS DEAD

Mrs. John H. Wylie of 10 Rathbun-

SCOTT DIDN'T TRY

AMUNDSEN

Private Letter Indicates Brit-
ish Commander Was De-
termined to Take No Chance
of Failure Thru Over-Haste
—Says if Rival Wins, He
Deserves the Honor.

CHRIST CHURCH, N. Z., April 4.—
(Can. Press.)—The Central News is au-
thorized to make public extracts from
a private letter written by Capt. Scott,
under date of Oct. 28, on the eve of his
departure southward. The letter, of
course, was not written with a view to
publication, but it indicates very clearly
that Scott never had any intention
to race with Amundsen for the south
pole.

"I am fully alive to the complica-
tions in the situation arising from Cap-
t. Amundsen's presence in the Antarctic,
but as any attempt at a race might
have been fatal to our chance of get-
ting to the pole at all, I decided long
ago to do exactly as I should have done
had Amundsen not been here."
"If he gets to the pole, he would be
bound to do it rapidly with dogs, and
one foresees that success will justify
him. This way he is taking a big risk,
and if he gets there he will have de-
served the luck. Meanwhile, you may
be sure that we are doing our best to
carry out the object of our plans."

MINERS SAY NO
BUT LEADERS YES

Majority of 43,000 for Con-
tinuing Strike in Britain
Will Not Affect
Decision.

LONDON, April 4.—(Can. Press.)—
The executive committee of the Miners'
Federation to-day decided to re-
commend a resumption of work by the
miners throughout the kingdom. This
recommendation will be taken under con-
sideration at a conference of the whole
federation on Saturday. The decision
was reached notwithstanding the fact
that in a total vote of 445,000 on the
question of terminating the strike, 241,
000 were against resumption and 204,
000 were for it.

Malcontents in various districts are
arranging to hold demonstrations in
protest against the executive commit-
tee's action, but taken on the whole the
decision to resume has been well re-
ceived. In Scotland the indications are
that there will be a general return of
the men to the collieries at an early
date. The North Wales miners' dele-
gates have decided to order the men to
resume forthwith, without waiting for
the action of the national conference.
The Cumberland miners have been or-
dered to return on Tuesday.

SAMUEL LOUNT DEAD

Was Registrar of Deeds for Simcoe
County Since 1872.

BAIRRIE, April 4.—(Special.)—Samuel
Lount, registrar of deeds for Simcoe
County since 1872, died to-day at his
residence here, at the age of 74.

Mr. Lount, who was born in Holland
Landing in 1838, was a son of the late
George Lount, who was the first regis-
trar of deeds for the county, and was a
nephew of Samuel Lount, who was exe-
cuted for alleged treason following the
historic rebellion of 1837. He succeeded
his father in the office. The family was
closely connected with the history of
the county.

Mr. Lount leaves a widow, one daugh-
ter, Miss Lount, at home, and a son,
Kenyon Lount, of the Bank of Nova
Scotia here. The funeral will take place
here on Saturday afternoon.

THE GOOSE THAT LAID THE GOLDEN EGGS

INDIAN IS GIVEN
DEATH SENTENCE

Stephen Kyoshk of Walpole
Island to Be Hanged for
the Murder of
Comrade.

SARNIA, April 4.—(Special.)—Steph-
en Kyoshk, the Indian charged with the
wild murder of Adam Johns on
Walpole Island, to-day sentenced to
be hanged on June 6.

The witnesses were mostly Indians
from the reserve, and spoke several
different languages, as Walpole Island
has the remnants of several once pow-
erful tribes, including Chippewas, Ot-
tawas and others.

The two chief witnesses were Bela
Williams and her mother. Their stories
agreed perfectly. On New Year's night
they heard men shouting on the river,
and running down met Kyoshk and
Adam Johns, who were landing from a
boat. The couple were quarrelling and
Kyoshk was flourishing a stick. The
two men started for the council house,
where a feast was in progress, and the
two witnesses followed.

After going a few feet, Kyoshk turned
about and went back to the river,
where he quarrelled with Charles Nah-
dee, who was with Flossie Williams.
The couple went to Nahdee's home
and Kyoshk stated he would finish Nah-
dee and would go and get a gun. The
witnesses returned home and later
heard shots. In the morning the body
of Adam Johns was found in the river
but that of Nahdee had disappeared.

The verdict was a surprise to the citi-
zens, as it was rumored that a convic-
tion could not be made on the evidence.

LABOR MEN WILL
ESTABLISH A
PAPER

Company Will Be Formed With
\$40,000, and Stock Sold to
Union Workers—Local
Shoe Companies Put on Un-
fair List—Circulars Had No
Union Labels.

Extensive reports were submitted
by the different committees of the
Trades and Labor Council at the meet-
ing in the Labor Temple last night. In
addressing the delegates about the
movement to start a labor paper in this
province, James Simpson said that
every man who held a union card could
well afford to buy some stock in the
new company, as it was only \$5 per
share. A resolution ratifying the estab-
lishment of such a paper was car-
ried unanimously by the meeting, and
The Labor Educational Publishing Co.,
as the new concern is to be known, will
apply at once for incorporation under
the Ontario Companies Act. The pro-
posed capital is \$40,000.

The report of the labor committee
stated that two local shoe companies
were unfair to organized labor, and
the delegates were asked to inform the
union of this fact. As a result of this
strenuous campaign against the pri-
vate-made broom, the government had
continued the manufacture of this arti-
cle of the wardrobe condemned by the
union made. Many stove manufactur-
ers and barber shops were non-union
and the delegates were cautioned
against patronizing them.

That scores of the city shops were
taking work into the filthiest sections
of the ward—places condemned by the
labor and heretofore all brooms were
made here. He said that the strike could
be settled if they would go back to the
open shop. This he declared, amid
much applause, they would never do,
and he further said that they "had com-
pleted arrangements with the Inter-
national whereby the strike could be
carried on till next fall.

ANTI-TREATING
BILL NEXT
YEAR

It is Not Likely That Govern-
ment Will Enforce "Dutch
Treat" Idea During Present
Session—House Was Ad-
journing Till Tuesday—Will
Acquire Timber Limits.

The legislative grid mill ceased
operations yesterday so that Easter
could be observed with proper decorum.
After an afternoon's discussion of bills,
Hon. Speaker Hoyle adjourned the
house until Tuesday afternoon, April 5.
There were no echoes of the temper-
ance fight the day before, except for a
question from the leader of the opposi-
tion.

"Will the hon. minister tell us when
we may expect the government's anti-
treatting bills?" asked Mr. Rowell of
Provincial Speaker Hanna.

"Not to-day," answered Mr. Hanna,
good-naturedly. "It will come in due
course." The opposition leader then ap-
peared satisfied.

However, it is unlikely that the gov-
ernment will enforce the "Dutch Treat"
system during this session. Evidently
the business will not stretch over two
weeks after the Easter recess, and
there is much legislation now before
the house to be ground out within that
time. And during the last few days
complaints have been raised by the
cabinet regarding the presentation of
bills at the eleventh hour when the ad-
ministration was not prepared to deal
with them.

Acquire Timber Limits.
Hon. J. B. Latta introduced a bill to
enable the government to raise \$500,000
to purchase timber limits in Algonquin
Park and elsewhere. It is believed that
this move is in accordance with the gov-
ernment's intention to acquire an
immense timber limit as possible with the
restoration plan in view. The bill was
given its first reading and will be dis-
cussed when the house resumes on
Tuesday.

Re Bilingualism.
Just before the breakers were applied
to the proceedings, Mr. Rowell asked
the premier when the ruling would be
forthcoming with respect to the opposi-
tion's protest of the Speaker's action
in wiping a number of questions touch-
ing upon bilingualism off the order
of business. It would be presented on
Tuesday," asked Mr. Rowell.

Sir James replied that such was in-
definite on account of the necessity of
responsible management of the order
of business during the rush of the ses-
sion during the dying hours of the ses-
sion.

J. H. Toronto.
Florida: I regret to report that I have
to support Ontario's request to the council for
expert advice on Toronto's traffic problems. I was
led away by Robert John's plausible pleas. I can-
not always see from this distance. But I don't like
Swamp methods running the City of Toronto any
more than the legislature running the City of
Quebec. I don't mind Mr. Wee and his Land
marks being heard, but I don't think
Swamp is too much for me.
I'm getting a list made of the
Civil Service in the city council.

AT THE THEATRES

Setting on "Bunty's" Business. It is surprising the interest that is being taken among all classes of people in the approaching return visit of "Bunty Pulls the Strings" at the Alexandra Theatre.

"The Fortune Hunter." The tinsel and glare of "girl shows" in which field Miss Josephine Cohan achieved her early success, has at last pelted upon her the same old-fashioned more exacting work of the "legitimate" stage.

"The Concert." David Belasco will present "The Concert," a comedy from the German Theatre in three acts, at the Princess Theatre the last half of next week, beginning April 11, with a matinee on Saturday.

American Managers Sell For London. A. L. Erlanger and Charles Frohman sell for London from New York tomorrow on the East Canada steamship Mauretania, to superintend the staging of "Pen-Hur" at the Drury Lane Theatre.

"The Honeymoon Girls." Al Rich offers the big musical success "The Honeymoon Girls" with the Otto Bros. and Miss Alice Lazar.

Bohemian Burlesquers. As an added attraction with Tom Miner's "Bohemian Burlesquers" at the Star Theatre next week, April 8, the management has engaged at the enormous salary of \$1000 per week "Charmion," the most perfectly formed woman in the world to-day.

Toronto Symphony Orchestra. Those desirous of hearing the last Symphony concert of the season on April 10th next, are reminded that the public sale of tickets opens at Massey Hall and the Bell Piano office in the morning.

"Mrs. Wiggs of the Cabbage Patch." The quaintest, most original and most successful musical play, "Mrs. Wiggs of the Cabbage Patch," returns from a record tour, to the Grand Theatre on Monday, April 8, at 8 o'clock.

Popular Concert, Massey Hall. At the popular Good Friday concert in Massey Hall to-night, there will be presented the following splendid program: Coronation Music, "Hymn of Hope and Glory," 4th Highlanders Band; song, "The Song of the Angels Sing," Mr. Harold Jarvis; recitation, "A Vessel," the "Country," Jessie Alexander; song, "The Sky Boat Song," Miss Barbara Foster; solo on the great cathedral chimes, "Bells of Westminster," (4th Highlanders Band); song, "The Palms," Mr. Harold Jarvis; recitation, "The Song in the Market Place," (with song accompaniment by Mr. Jarvis); song, "Alexander," song, "The Old Country," (by special request), Miss Barbara Foster, musical song, "The Bay of Biscay," (with band accompaniment—first time in Toronto), Mr. Harold Jarvis; humorous sketch, "Friday-Baragan Day," Jessie Alexander; songs, "Night of Stars," Miss Barbara Foster; Grand National Fantasia, "A Soldier's Life," introducing the 4th Highlanders Band. Those who have not already secured their seats, should do so to-day at Massey Hall, so as to prevent crowding at the box office to-night.

Mme. Adelaide Norwood Coming. Manager Shea offers an extraordinary bill at Shea's Theatre next week headed by the famous Madame Norwood, the greatest American prima donna. Mme. Norwood sang the principal roles of the following: Lucia, "La Tosca," "La Boheme" and "Mme. Butterfly." Mme. Norwood is enthusiastic over her short engagement in vaudeville and she has been popular wherever she has appeared.

Tetrazzini's "Ritorno Vincitor." When Madame Tetrazzini sang in San Francisco a few days ago, she was hailed as the greatest soprano of the world. She is now a dramatic soprano as well as a coloratura soprano, and she sings "Lucia" as well as "Boheme" and "Mme. Butterfly." She has added a touch of tragedy to her tones, and "Ritorno Vincitor" was sung last night as if, you have heard it sung before. The natural spirit was there, and even the audience waited in breathless expectation for a top towering note at the end, and was disappointed there was a fermentation that has not, I think been heard before. The opera in which Mme. Tetrazzini had made her debut when she first came to Toronto, was "Lucia," before she was one of her greatest mediums. Perhaps the diva is returning to Toronto with a new repertoire of songs, which she has added a touch of tragedy to her tones, and "Ritorno Vincitor" was sung last night as if, you have heard it sung before.

Miss Kathleen Parlow. The New York Evening Sun has the following to say of Miss Kathleen Parlow, the great Canadian violinist, who will be at Massey Hall on Friday evening, April 12.

"Kathleen Parlow, tall, straight, slim and swaying as the white birch sapling of her native Canada, but a spring violinist in pluck from French heels to fiddle chin, and crowned with parted chestnut hair of a deeper auburn than any impression of masterful ease, from start to finish, the French Saint-Saens' Respite also born the heightened effect of a strong, new personality. The very rousing of stage sweep of that bow arm and then, the intense contrast of tone overpowered a pretty sentiment now mistake the furor she created in the critical audience that assembles in the 'Festival of the Lilies.'"

"This popular annual entertainment—the 'Festival of the Lilies,' will be given in Massey Music Hall, commencing punctually at 8 o'clock. Patrons are requested to be in their seats before that hour."

FRIDAY MORNING Quality is the best economy LIPTON'S TEA GOES FARTHEST FOR THE MONEY

SHOULD SECURE HOSPITAL AT ONCE Deputation. Convinced Board of Control of Need for Immediate Action, and Government Was Interviewed — A. E. James Makes an Offer for Water Supply.

During the city to co-operate with the provincial government to secure a hospital for the insane and to aid in obtaining better legislation regarding the custody for insane people, a deputation composed of representatives of the Ministerial Association, the Associated Charities, the Local Council of Women and the Daughters of the Empire, waited upon the board of control yesterday morning and succeeded in mistaking their support in a deputation which waited upon the provincial secretary in the afternoon. The deputation proposed that the city should secure the site, upon which the government should erect and maintain a building and provide temporary accommodation immediately. Rev. Dr. Turnbull, who introduced the deputation, said that the present custody other than the jail. The act, he said, was defective in that no such institution existed as was suggested, and provide temporary accommodation immediately. No Precedent. Controller Church thought that the British Government should take the initiative in the matter. He was doubt-

ful whether there was any precedent for a municipality supplying a site for an asylum. Rev. Byron E. Stauffer said there was no use discussing the affair if the board took the stand that the city should assume no liability in this matter. "We can't neglect this matter because the government does," said Controller McCarthy. "I think the city is willing to consider the question, and I think the government is willing to act. I move that this board confer at once with the government in order to ascertain what the city should do. Later I will move that we take steps to provide temporary quarters." The jail diagnosed a case of supposed insanity he received a fee of \$5 if he pronounced the patient insane and nothing if he did not. "That was practically putting a premium on insanity," said Controller Church. Deaths at Jail. According to Rev. Byron Stauffer, 13 insane people had died in the jail last year. At the present time there were ten insane people in one ward. He told of a case where one insane girl had been strapped to a bed and kept that way all day. It was finally agreed to wait upon the provincial secretary at 2:30 in the afternoon, and steps were taken to organize a large deputation. Suffrage Restaurant. Representatives from the Women's Suffrage Association asked the board to grant them accommodation to run a restaurant at the exhibition, and the controllers decided to endorse their application. Ald Yeomans appeared before the board in reference to his motion that wells be sunk at the island for the purpose of supplying the city with water. He asked that \$5000 be spent in experiments, claiming that this sum was sufficient to make the necessary borings and complete an exhaustive report. City Engineer Rust, he said, would not endorse this idea because he was already committed to the intake system. It was decided to refer the matter to the city engineer. Water Supply. E. A. James, the well-known consulting engineer, wrote to the board that he had a client who was willing to undertake to supply the city with water from wells fed from Lake Ontario and to supply any quantity up to one million gallons a day. His client was prepared to enter into a contract by which the city would not be called upon to make any payments until such quantity was delivered daily. The letter asked for information as to the city's water requirements and the controllers referred the matter to the city engineer.

THE KLONDIKE IS CHANGING Pay Dirt Formerly Had to Show \$30 Per Yard, Now 75c is Not Thought to Be Bad. The Empire Club luncheon at the St. Charles yesterday was addressed by Mr. Justice Craik of the Yukon district, taking for his topic "The Present Conditions and Future Prospects of the Yukon." Before the address, a communication was read from Col. Lowther, secretary to the Duke of Connaught, intimating that his royal highness would be the guest of the club on Empire Day. The communication was received with a round of applause. The speaker pointed out that Klondike camp had produced more gold in proportion of area than any other placer camp—\$5 feet having produced \$1,000,000. In one year \$2,000,000 was produced, on which royalty was paid. But to this should be added another \$10,000,000 on which royalty was never paid. Mining in Klondike to-day was different from what it used to be. Formerly, unless mining claims produced \$50 per yard, they were not worked. Now they were worked if they showed 75c per yard, showing the wasteful methods of the early mining. Dawson, in 1900, had a population of 20,000, to-day it had only 2000, owing to the two large gold companies taking in hand almost all the claims. "Whole streets of houses are now standing empty," said he. Taking up the question of quartz claims, only two mines carry on systematic operation, and are showing very promising results. In closing, his honor made the suggestion that the government take decisive steps to prevent wildcat mining, and to secure a competent geologist and mining authority to advise prospectors the best development processes, and also as to the value of their finds.

EUROPEAN WAR RISK GREATER LONDON, April 4.—(Can. Press).—The Times this morning says there were some enquiries yesterday of Lloyd's for par rates on insurance to cover the risk of an outbreak of war between certain European powers. Six per cent. was paid to insure against the risk of a war breaking out between Great Britain, Germany and France within twelve months. This rate compares with four per cent. quoted on a similar risk in the middle of last month. The Underwood Minstrels. The Underwood Minstrels, a happy group of musicians, who once every springtime endeavor as best they can to provide entertainment for their good friends, are giving their third grand show on Wednesday and Thursday evenings of next week. Stenographers and their friends are cordially invited. Admission is by ticket only, and tickets may be obtained by applying at the office of the United Typewriter Co., 7 Adelaide-street east.

Hopes Now Centre In Foster and Haggard Friends of Imperialism Fear Majority of Commission Are Hostile to Expansion.

LONDON, April 4.—(C. A. P.)—The Times is disappointed with the British names on the trade commission, and says that on the other hand the dominions nominated some of their best men, Foster for instance, being a man of great authority in Canada. The other nominees bear witness to the seriousness with which the dominions regard the enquiry. The Fall Mail Gazette says with reference to the commission that the government struck fiscal questions out of the scope of the enquiry, but appointed three or four enemies of imperialism. However, Rider Haggard, the pioneer of South African progressivism, and Foster, the Canadian federalist, are stamped with Chamberlain's own approval, and may be trusted to represent the continuity of true colonial spirit.

MORE TERRORISM IN FRANCE

PARIS, April 4.—(Can. Press).—A gang of four bandits this morning leaped on to an expressman's wagon in the vicinity of Choisy-Le-Rio, about six miles from Paris, killed the driver by strangling him, looted the wagon of a large quantity of valuables, and then tossed the corpse on to the roadside. Through Train to the West Via Chicago and St. Paul. The MACKAY Treatment For the Cure of ALCOHOLISM Dr. John M. Mackay's specific medicine for alcoholism is highly recommended by the clergy and the government of the Province of Quebec in 1904—See reports of the Courts, 1904, 1912—Effective in 85 per cent of chronic cases treated—Drunkness is a disease and should be treated medically like any other. Dr. John M. Mackay's specific medicine cannot and does not call where a desire to be cured exists and where the Doctor's directions are fairly carried out. This Medicine is based on scientific principles—Removes craving for alcohol in shortest time—causes no distress or suffering to patients—Has restored thousands of lives to sobriety and usefulness. Dr. John M. Mackay's Medicine can be taken at home privately and without interfering with a man's occupation—No special diet is necessary. The Treatment covers a period of 10 days, but it immediately removes the craving for drink and enables a man to begin a new life with courage and confidence. Inexpensive, and within the reach of every afflicted person. The Clergy, Dominion Alliance at W. C. T. U. can obtain the advantage of the medicine for the poor under a beneficial arrangement with the Government. The only treatment specially used by any government. Beware of imitations. DUFFERIN PARK N. L. U. TEAM

A. M. Orpen Says He is Willing Under Certain Conditions to Pay Salaries—Conventions To-day.

The professional lacrosse situation in these parts took a new turn yesterday when A. M. Orpen announced that he would back the Toronto team in the National Union. Thus the matter resolves itself into a new game at Dufferin Park, the lease of which is held by Mr. Orpen.

Only preliminary steps have been taken as yet, but Mr. Orpen has quite made up his mind to go into lacrosse. He always liked the Canadian national game, and he, of course, has the necessary qualifications as a financial supporter.

The team at Dufferin Park, if acceptable to the N.L.U., will be called the Dufferin's of Toronto. Should the club be accepted at Rosedale, which is altogether unlikely, Mr. Orpen will drop out.

Thus Ottawa and the other old clubs in the east will take renewed hope. While the Big Four is well established in Toronto, the same cannot be said of Montreal, where the Nationals are only temporarily located, and the Irish-Canadians have neither grounds or players.

It is a pity that if the N.L.U. gets back in Toronto it will not be according to Fred Thompson's co-operative plan at Rosedale. He signed with Con Jones' team to have a straight business proposition or otherwise, they'll stick to their 300 members, cricket, bowling, golf and rug-football.

As A. M. Orpen displays a willingness to support a National Lacrosse Union team at Dufferin Park and his most of the players are still on the market, the third team looks pretty nearly a certainty for Toronto.

Geo. Kalls, Roy McGregor, Eddie Powers and the two Fitzgeralds have been signed to play with Vancouver, the five announcing yesterday that they had affixed their signatures to Con Jones' contracts. The top salary is Eddie Fitzgerald, \$2000. Fred of them leaves on April 20, with McGregor staying ten days longer in Toronto at school.

J. B. Williamson of Vancouver, formerly of the management committee of the Con Jones' Club, is in the city, looking for another successful season in the west with no lack of good players in the B. C. League. The talk of Vancouver coming for a bet he characterizes as foolish and altogether unlikely to take place.

There was an unusually large crowd at the C.L.A. headquarters when the delegates were receiving their credentials. Hanover, Weston and Markdale, who were counted on by the C.L.A. directors, paid their fees and will again be in line with the old association. Mr. Farlinger of Hanover is a candidate for the C.L.A. council.

The C.L.A. executive meet this morning at 9 at Labor Temple and the convention convenes at hour later.

The O.L.A. convention is on this morning at the Central Y.M.C.A.

The organization meeting of the Elora Rocks Lacrosse Club was one of the largest and most enthusiastic ever held in the town. The club will enter an inter-town and also a junior team in the C.L.A. The prospects never were brighter for two promising teams.

Charlie Querris has practically closed with Don Cameron on the Cornwall bay, the best player in the east, will be found with the Indians at the island this summer. As McGregor is now signed with Vancouver and will play in the west, the Indians at the island follows: Goal, Kinsman, point, Cameron, center, Yeaman; defence, Graydon, McKeen, Ed Cummings (Cornwall), Querris, McKeen, Bert Green, who will be carried along as spare on defence, Green and Jimmy Collins, Dolly Durkin and J. Rowland will also be carried.

It is certain that Harry Pickering will be back east and along with him Mickey Ions will take the trip. Both have been released by Querris. Ions may figure on the Tecumseh defence. Pickering is going to the Scarborough aggregation.

The Toronto Junior Lacrosse Club will practice today at 9 a.m. on Duggan field, Woodbine avenue.

CENTRAL Y.M.C.A. WIN THIRD CHAMPIONSHIP. Defeat London Intermediate Basketball Team by 57 to 20 for O.B.A. Honors. Central Y.M.C.A. intermediates grabbed the third championship for their club last night when they defeated the London Y.M.C.A. in the final O.B.A. game on the Yonge-street court. The score last night being 57 to 20, and the Londoners having had a 21-point lead on the first game played in London, the tally now showing a 20 point margin for Walker's wonders. The game was a slay house scumous affair from start to finish, and the Londoners were entirely at sea on the large court, and their efforts last evening proved that they are entirely a home team and use their checker board court for all stands in it. Morris, who did all the damage in London, was checked to the ribs once. London changed their defence men twice in an effort to stem the flood of shots, which White, Carrick & Co. were raining on their nets, but to no avail, and the final whistles blew with the Londoners aeroplaning. The team: Morris (20), Morris and Balnes, forwards; Shaw, centre; Barton, Freeman, Adams and Stephens, defence. Referee—Frank Harvey, Hamilton. Timekeeper—Jack Tressler, Scarer—Ralph Bowen. Line of halves, 29 minutes. In the defeated Farkdale Juniors by the score of 54 to 1. Line up: Central—Johnson (16) and Urquhart (28) forwards; Chubb (6), centre; Tompkins (10), and McLean (10), defence; Tompkins (8), Parkdale—F. Garrett (10) and Dalton (7), B. Garrett (10), Manser (9), Robertson (9), forwards; Shaw, centre; Barton, Freeman, Adams and Stephens, defence.

Played Baseball 18 Centuries B.C. As going to show that there is nothing new under the sun, the excavations and decipherments just made at Boghaz Keul, in Northern Syria, by Professors Kinkle of Berlin and Hogarth of London, threw a flood of light on the game of baseball as depicted on 13 clay slabs. There is a baseball game being played by a team of hispidulous Hittites, the catchers bearing a perforated mask made of the dried shell of the calabash, of native gourd, the umpire being King Subul Lullman, who reigned in the eighteenth century B.C., the amphitheatre shown being some as nowadays and occupied by men and women all carrying fans. Again, some small tablets were found on which, in cuneiform script and ideographic signs were written the rules of the game, and in a stone casket a sample of the standard ball and bat of the period, the centre of the former being a whittled out ball from the end of a sturgeon's nose, which is a cartilaginous substance, having all the resiliency of rubber, and this wound around with thread of the arundonax, or native grass, and covered with camel's hair, the bat being somewhat like that used in cricket and made of gopher wood. We may say in this connection, that it is a very notable and significant fact that the name Hittite is derived from the Arvan root of "hit," to strike, and "ninth," to catch, which, in relation to the above mentioned discovery, disposes most effectually of the theory that the name was derived from "Hann" or "Heh" and shows most conclusively that it came from their being good hitters in the noble game of baseball.

SNEAK THIEF ARRESTED The man who was sneak thieving in J. J. Gooderham's residence, 47 Sherbourne-st., has been identified as was notorious John Gowan. Gowan has a long record. Some two or three years ago he played the sneak thief game in the King Edward Hotel, and since then has been known to the Winnipeg police as Browning Crawford. He is wanted in Windsor for false pretence. The police believe him to be the man who made his escape from Marshall's drug store a week ago and helped himself to the car tickets and loose change in the overcoats at the Church of Epiphany on Wednesday night.

JOHN RYAN ARRESTED. John Ryan, who made a specialty of interesting widows in real estate and other "safe investments," was arrested last night in Prescott.

SUGGESTING AGAIN AT SPARTANBURG Leafs Beat Carolina Team Second Game in Warm Weather by 10 to 2. By D. L. Sneddon. SPARTANBURG, S.C., April 4.—Kelley's Maple Leafs treated Spartanburg fans to another batting best here to-day when the Carolina Association squad were handed a 10 to 2 beating, only gathering 4 safeties, while Toronto landed on the pill 18 times, and every one was of the clean cut variety. The hard red clay played havoc with the feet of the players, and before the game ended Kelley had an entire new outfield working. Bill O'Hara hobbled around for a couple of innings, giving way to Meyer. Fitzpatrick gave snow a rest later, while Joanne Leahy went out to right when Dalton went lame. Three pitchers worked, and were the master of the bases, while they contributed, handing out two hits and three runs. Spartanburg's runs, Backman next took up the burden, giving out two bingles. Furedson finished the game and was unmovable to the class D hitters. He walked three, but not the arm of a hit was made off him. Long hits were thick as snow. Fletcher batted out a home run centre in the second, while Backman contributed a triple, while Dalton, Fry and Meyer met it on the nose for keystone sack hits. The whole team performed super bly, and not a boot was performed super bly, a real warm day and did the team a world of good. Carter took turn his arm yesterday sliding into third and was out to the park in his street clothes, and expects to be able to do his share tomorrow. Speer got the chance to work when he relieved Fletcher in the eighth. He was full of pepper and caught a nice one.

THE LIQUOR QUESTION

Those who heard Mr. Rowell and Sir James Whitney in last Wednesday's debate must have been struck by the contrast presented. Mr. Rowell's speech was an academic effort, dealing mainly with the undoubted evils which attend the excessive consumption of intoxicating liquors, and suggesting by way of remedy, not that the traffic should be made illegal, but only that the open bar or tavern license be done away with. There was no recognition of practical difficulties; the hotel with the bar attached was placed on a parity with the opium joint, and the business of hotel-keeping as it is carried on under the laws of Ontario was mentioned in the same breath with the white slave traffic. Finally there was the effort to cast about the introduction of a crusade resolution all the glamor of the Rowell and the government was warned of "a rising tide of sentiment in favor of temperance reform."

Sir James Whitney spoke from the standpoint of the experienced legislator and man of affairs. What Mr. Rowell mistook for a rising tide was, in the premier's judgment, a strong, steady current of public opinion, in which he shared and with which he sympathized. The drink evil was one of the most serious which confronted every modern legislature. It was an old, old question, which had been dealt with in many ways, and action along the suggested lines by Mr. Rowell had resulted most disastrously under the Scott Act. The government, he believed, had done much to curb the evils of the traffic, and more would be done by regulation. The treating habit was confessedly an evil and it could be broken up, at least to some extent, by legislation which the government was prepared to bring down.

One reform which might be considered by the Whitney government is the divorcing of the liquor business from the hotel business. We would have better hotels. If hotel-keeping was a business of its own, and not a cover for the saloon business, the saloonkeeper, too, could be better dealt with were he deprived of his mask as a hotelkeeper. There is a logical reason in a country like this, where wine-sinking at tables is practically unknown, for the hotelkeeper having a franchise to sell liquor. In local opinion centres the friends of temperance would find their cause stronger if the closing of the saloon was not complicated by the possible closing of the hotel.

A DREAM OF EMPIRE.

To President Taft must be ascribed that high faculty of statesmanship which thinks in continuance. He is probably the first president since the revolution, except Buchanan, to bring to his office any training in local office. His experience as governor of the Philippines, and his diplomatic missions which involved a tour round the world gave Mr. Taft a wider outlook and a more intimate knowledge of international politics than that possessed by the great majority of his predecessors. Quite naturally he perceived that the United States had not that commanding position in the western world to which one might suppose her to be entitled. Not only had she comparatively no influence with the South American republics, but her relations with the other North American countries were strained. He set to work to correct this condition of affairs, and the reciprocity pact with Canada was a step in that direction. The recent visit of Secretary Knox to the Caribbean countries was another step, and now the United States is taking an active part in the affairs of Mexico. The recent action of the president in permitting arms to be shipped from the United States to Madero, and in refusing to permit arms to be sent to the insurgents places the Mexican government for the time being under strong obligations to the United States.

Were Mr. Taft a politician instead of a statesman he would seize any pretext to invade Mexico. A little fighting on foreign soil would divert the minds of the people from their troubles at home, and furnish the Republican party with the simple and all-sufficient slogan of "Stand by the President." But Mr. Taft being a statesman rather than a politician, his ambition is to unify the continent by his conciliation, not by arms. A federal union of all the nations of North America may be, and probably is, his dream of empire.

EXPRESS RATES FIXED BY LAW.

The inter-estate commerce committee has favorably reported to the house of representatives a bill fixing express rates by law and compelling express companies to interchange business with the postoffice. The rates apply to packages of eleven pounds or under, and the maximum charge per pound is twelve cents where the distance is more than two thousand miles; the rates are reduced as the distance decreases until a flat rate of two cents per pound is fixed where the distance is not more than 250 miles.

The bill provides for the acceptance of a parcel by the express companies, which is to be carried part way by their agents and then turned over to the postal authorities for delivery on a rural free mail delivery route, and the man on the rural free mail delivery route may give a package to the carrier with instructions for him to forward it by express. The express rates being fixed by law, a citizen will know just as he knows what the government will require in postage stamps.

The bill seems weak in so much as it requires the express companies to accept business at a lower rate than the postal rate. The short cut to the best solution of the question involved would be the expropriation of the tangible assets of the four big express companies and their immediate operation as a government parcel post service.

ELECTRIC HEATING

Six months ago the electricity committee of the Marylebone (London) Borough Council equipped the catering department of the Marylebone Lane Power Factory with a complete electric cooking plant. The kitchen is now used for preparing dinners and teas for the staff of about 400 employes, but the catering is not done by the firm itself, but by an independent company, the London Home Delicatessen Association, which had to make its profit out of dinners supplied at from eight cents to ten cents per head. The problem offered was therefore whether electrical cooking could be introduced and allow a sufficient margin of profit to be earned. After the six months' trial the caterers are satisfied with the result, altho the conditions were not altogether favorable. One of the more notable features is that altho the kitchen was not originally planned for culinary purposes and is confined in area, the atmosphere was never oppressive and the decoration as clean as when it left the hands of the tradesmen.

In a report on the six months' trial of the installation the caterers say that their first estimate for the cost of current was based on the assurance that the cost would not exceed the cost of gas. "The actual cost of electricity used in practice," they say, "proves to be lower than our estimate, even at the price of a penny per unit, and we are satisfied that it would not be possible to work this kitchen, taking all things into consideration, at a less cost by using coal or gas as the heating agent." They also state as a fact that meat cooked in an electric oven does not shrink to nearly the same extent as meat cooked by other methods and they put the saving in weight at approximately one pound in 12 pounds. In the near future it is certain that electricity will supersede all other heating agencies, and Ontario will have more reason than ever to commend the policy that has secured a public supply of electricity practically at cost.

VICTORIA INDUSTRIAL SCHOOL.

Editor World: After all the disturbance and sympathy excited for a notorious incorrigible and rebellious student of the Victoria Industrial School who has given so much trouble to all concerned, I feel that I should fall in my duty if I did not bear my testimony to what Mr. Ferrier, the principal, and manager of the school, whom I have personally known for so many years, and whom I have seen on duty on several occasions in the school, and whose opinion I have formed in respect to Mr. Ferrier is that he is one of the kind and most conscientious men I have ever known—a man carrying a burden of responsibility little understood by anyone not personally acquainted with the peculiar conditions and difficulties of the position. From my personal knowledge of these conditions and something of the wonderful results of Mr. Ferrier's influence and efforts in the reclamation of boys entrusted to his care who might otherwise have fared very differently, I venture to say it would be difficult to find a man who has done so much good under such discouraging conditions as hundreds of boys who have passed under his kindly influence and training and are now leading useful and honorable lives could testify. The exaggerated reports and malin sympathy developed in respect to the alleged cruelty of the management have done more to demoralize the school and add to Mr. Ferrier's burden of care than anything that I have ever known in connection with the school.

No man outside of the school has a better practical knowledge of the situation than Dr. Godfrey, M.L.A., and his testimony should outweigh all the other reckless exaggerations concerning the management. So far as I understand the situation, I feel that I can endorse what Mr. Godfrey has said in this respect. I would like to add a word respecting Mr. Beverley Jones, who for so many years has been in the school, and whose interest in the school, and who is familiarly known as the "father of the boys"—another most kindly man whose influence in the school is so little known by the general public. The Victoria Industrial School is his hobby. It is to be hoped that the demoralization of the school, the result of this disturbance, will be overcome, and that Mr. Ferrier will not feel that his task, which has become almost insuperable, is a hopeless one in caring for the two or three hundred boys who have been placed under his charge, many of whom have given their own family and

WINNIPEG, APRIL 4.—(Can. Press.)

The legislative tangle straightened itself out this morning, and it is now certain that the bill to amend the Public Works Act, which was introduced by the hon. Mr. G. J. Graham, and the bill to amend the Public Works Act, which was introduced by the hon. Mr. G. J. Graham, will pass.

HAS G. T. R. SURRENDERED?

Reinstatement of Two Conductors Believed to Foreshadow Concessions.

BROCKVILLE, April 4.—(Special.)—Two Brockville G.T.R. conductors, who have been kept out of employment since the strike, notwithstanding that they were exonerated from any lawlessness or intimation by Judge Barron's decision in the case, are to be reinstated. These are about the last of the strikers at this terminal who were entitled to re-employment.

WITHOUT FOUNDATION

The World is authorized by the manager of the Alexander Apartments to state that there is no foundation for the statements in yesterday's Mail and Empire that the company is going to build an addition to the apartments. The company recently bought 80 feet in the rear of the apartments, fronting on Murray-street, for the purpose of improving their right of way, but the company has no intention of buying more land or extending its apartments.

Site Secured For Canada's Building

Sum of \$250,000 Paid Thru Lord Strathcona—Tenders This Year.

OTTAWA, April 4.—(Special.)—It is understood that the government has purchased a splendid site in the heart of London, Eng., where it will build a magnificent Canadian building. The site is said to be the old St. Giles' Hospital, not far from Westminster Abbey, on Victoria-street. The sum of \$250,000 was paid for the site, and the government is understood to be the credit to the Dominion, and will be one of the finest London's modern structures. It is hoped to be able to call for tenders this year, and the cost will probably run up to two million dollars. One million dollars was placed in the supplementary estimate this year in the supplementary estimates to purchase the site and to start work. The new building will house all the Canadian consular offices, which are scattered and unsuitable.

The Spring Season

Has been one of phenomenal activity in our Ladies Tailoring and Garment-making Departments and to some we have had to deny Easter deliveries owing to late placing of orders. Now, however, that the end of the Easter rush is in sight, we would say we are prepared to give unusually good deliveries, for a time at least.

LADIES' TAILORED SUITS, GOWNS, DRESSES, ETC.

MILLINERY

The success of this season's millinery is a compliment to the good judgment and taste of our designers and adaptors, and while the most elaborate of Parisian confections are on display in our show-rooms, yet in many instances the quieter designs of our own artists appeal more strongly to the Canadian lady.

READY WEAR SUITS

Every season appears to produce smarter models. Ladies' Ready-wear Suits. All the novelty materials, trimming effects and suit models are shown in the splendid assortment from \$16.50, \$18.00, \$22.00 to \$45.00 each.

CAMBRIC AND LAWN DRESSES

Ready to wear, in a full range of sizes and a charming array of dainty and serviceable models and materials from \$2.75, \$3.50, \$4.25, \$5.00 up.

LADIES' COATS

In full range of fashionable materials, including Tweeds, Serges, Homespuns, Worsted, Face Cloths, etc. in all the latest styles from \$14.00 each; also a striking display of single pattern garments for special wear. Suits, Blouses, Skirts, Lace Effects, etc. from \$25.00 to \$100.00 each.

WASH FABRICS

Our display embraces all the season's favorites, along the regular wash lines, such as Ginghams, Chambrays, Gophers, Galateas, Linens, Crepes, etc. also the new and splendid fabric known as "Rustine," the popular crash, toweling finished, wash dress fabric for 1912.

LADIES' GLOVES

In a full range of sizes and qualities for spring wear.

HANDKERCHIEFS

Of every description and for every use of lady or gentleman, from the plainest of ordinary utility makes up to the finest in the world. Real Lace Handkerchiefs always a strong feature of our stock.

SOCIALISM IS TO GOVERN CHINA

Ex-President Sun Yat Sen Says Principle of Public Control Will Be Extended to Railroads, Mines and Other Industries—Has Thibet Been Seized?

LONDON, April 4.—(Can. Press.)—Sun Yat Sen, the political revolutionist and now well known in the world's history, said Dr. Sun Yat Sen, the ex-president of China, in an interview at Shanghai to-day, according to a despatch from that city to The Daily Telegraph.

"The abdication of the Manchus is only the means of greater development and the future policy of the republic will be in the direction of socialism.

"I am an ardent follower of Henry George, whose ideals are practical on the whole in the case of China, as compared with their practicability in the Europe or the United States, where the money is controlled by the capitalists."

Dr. Sun says that he has the full consent of the government to start his propaganda immediately, whereby the railroads, mines and similar industries will be controlled by the government. The single tax system and, as far as possible, free trade, will be adopted.

Proclaim Thibet Republic.

CALCUTTA, April 4.—(Can. Press.)—Despatches from Gyantse, Thibet, say that the Chinese have established a representative council at Lhasa, the capital of Thibet, and proclaimed a republic. The officials have cut off their queues, some of them wearing silk hats and frock coats. The Thibetans oppose the change and are threatening to exterminate the Chinese. Fighting has occurred at Shigatse, 120 miles from Lhasa.

GREAT VICTORY FOR PUBLIC RIGHTS

City of Peterboro Was Given Power to Expropriate Electric Light Plant, and Hydro-Electric Commission is Victorious Over Eastern Ring.

Public rights, as represented by the hydro-electric commission, won a notable victory yesterday morning before the private bills committee of the legislature. Nominally it was a struggle between the City of Peterboro and the Peterboro Light and Power Company, but far greater interests were involved, the whole "electric ring" of Eastern Ontario being concerned in the legislation. The situation was outlined by Hon. Adam Beck, who explained why the city wanted to expropriate this plant. The Quaker Oats Company, which supplied power to the Peterboro Light and Power Company, claimed that Hon. Adam Beck had aimed to monopolize the water power of the district and to prevent competition.

When the city had contemplated the making of a power contract several years ago, the hydro-electric commission had surveyed the situation and had advised against entering a contract with this company, feeling that in time the hydro-electric would be supplying the municipalities. The City of Peterboro, however, in entering the contract relied on a clause by which they felt they could, in time expropriate the company's plant if they so desired.

L. F. Hellmuth, K.C., made a vigorous effort to convince the committee that the agreement did not mean what it appeared to suggest. He said that only a general act of the legislature was contemplated and not a special act. "Nor was it ever believed," said he, "that the day after the contract was made the city would come to the legislature asking to abrogate it." He maintained that the city should be held to its bargain as he interpreted it.

Evading Agreement.

"It seems to me you are trying to evade your agreement," said G. H. Ferguson, the chairman. Mr. Hellmuth admitted that if the expropriation proceedings were under the hydro-electric direct the agreed abrogation of com-

penation for the franchise would apply.

Mr. Lucas thought the city should have this right also.

Strachan Johnson, K.C., representing the Trent Valley interests, said that when the agreement was made his clients were quite willing to run the risk of a general act, because they believed none would be passed.

"Then you were monkeying with the city council," retorted Mr. Ferguson. "This, of course, Mr. Johnson indignantly denied."

Hon. Adam Beck stated that the company had gone into the contract with their eyes open. They understood that the hydro-electric commission would have power to expropriate any plant, but they had wished to acquire all the water power of the Trent Valley direct the agreed abrogation of com-

hydro-electric power by ten to one," said Mr. Beck, "is this committee going to block the aims and advancement of this municipality?" The committee did not.

TWO STORES SLATER OPEN EVENINGS

Men's Boots

Men's footwear fashions show radical changes for this season—less of the novelty—more of the common sense and comfort in the styles, and the new stock of Slater Shoes for Men shows the very pick of the "favorites," and that does not mean that there is lack of assortment, but the very reverse—a wealth of good styles in all leathers, topping the best with tans, and carrying through the whole list of dull and bright black leathers in special hand-built, bench-made stock—all Goodyear welted—some military heels—more of the good, square, flat heels—heavy, medium, and light soles—straight-laced, Blucher, and buttoned cut—just the most particular footwear for the most particular men—special Easter display of it—6.00, 5.00, and—

4.00

Ladies' Boots

It is really a charming stock you may choose from in these exclusive shoe styles we are displaying for the new season—we are creators of styles, but we have no hard and fast rules in doing so—we study comfort—we are careful to have the dressiest—we are most particular in choosing the leathers—and it's the best shoe-making skill of the world we have had at our command in producing what we are showing to-day—and so "good shoes" is a byword with us as a matter of course—Tan Boots, Oxfords, and Pumps—"Patent" and Gunmetal Boots—Gunmetal Pumps—Suede Boots and Pumps, and dainty Footwear in Cravenette and Satin—an exhibition "de luxe" for the Easter demand—6.00, 5.00, 4.00, and

COAL DRIVERS MAY STRIKE

Now it is the coal drivers who are seriously contemplating going on strike. One big coal concern has received a demand from the drivers for an increase, but no answer has been given. The same old story is the cause of the difficulty, viz., hours and wages. A glance at the clause governing the wage rates, which the drivers have submitted to the employers shows what the men desire:

"That on and after April 1 the minimum rate of wages for coal drivers shall be, for the drivers of one-horse wagons 22 cents per hour, for drivers of two-horse wagons 25 cents per hour; overtime at the rate of 25 cents for singles, 30 cents for doubles, or such changes as shall be agreed upon from time to time."

At present a 60-hour week is worked by the men, or a ten-hour day six days a week. A few of the companies are willing to grant the increase if the other firms will comply. It is stated that the International Union is backing the drivers in their demand.

RAISE LIMIT FOR SCHOOLS

Pupils Will Be Six Instead of Five Years if Dr. Noble's Proposal Carries.

Dr. Noble secured the unanimous support of the board of education last night for a petition to the legislature "to inalter the age for pupils entering school six years instead of five as at present."

His motion for pupils to be taught exercises to develop the teeth and jaw was sent to the dental inspector for a report.

Trustee Hartney's motion to restrict new schools to eighteen rooms, and two stories in height, was sent to the property committee.

This sub-committee's report favoring purity lectures by Rev. Dr. Eby, was adopted.

INCREASE OF HALF MILLION ON ASSESSMENT THIS YEAR
ALD. CROW BELIEVES THAT REVENUE WILL BE INCREASED BY \$12,500 BOOST FOR MAIN STREET PROPERTY

Will Welland's assessment be increased by half a million this year? In the opinion of Ald. J. H. Crow, who has secured his information from a reliable source, it will. Mr. Crow told several members of the Council in the clerk's office a few minutes before the Council meeting on Thursday night, that he believed there would be at least the increase above mentioned.

"On what do you base your statement?" asked a Telegraph reporter later.

"On the information which I have," he stated. "Land in all parts of the town is being raised in valuation by the assessors. Then, too, there are many new houses and new buildings. I am told that on East Main Street, in the business section, the valuation is being raised from \$70 to \$100 a foot."

Mr. Crow said that this would mean an increase in revenue of \$12,500 this year.

A GROUND FLOOR PROPOSITION
 in TORONTO REAL ESTATE for the SMALL INVESTOR

We are purchasing a large block of land and intend to place it immediately on the market in building lots.

These lots will sell rapidly, because the land is beautifully situated and will have all conveniences for immediate building purposes. They are bound to sell, because we have a splendid selling organization.

Enormous profits have been made in placing Toronto subdivisions on the market. We have made large profits ourselves, and intend that this subdivision will make a profit within a few months of over 200 per cent. on the money invested.

Thirty-seven thousand five hundred dollars is required to close the purchase of this property, and finance the whole proposition. We have \$18,000.00 ourselves, and must raise the balance, and raise it quickly.

Our Proposition to You. If you have a hundred dollars or more, and will assist us by investing it in the purchase of this property, we will share all the profits with you equally, dollar for dollar on the money invested. This is the first time such an opportunity has been presented to the small investor in Toronto real estate.

Instead of buying a lot at retail prices, you get all the profits that arise from buying a large block at a wholesale rate.

The investor has no personal trouble or worry with the property. A large selling force will be engaged developing an active market for these lots, which already exists, and the capital behind the proposition guarantees that the property will be sold and profits realized.

In a month's time you will be buying lots in this subdivision, and gladly paying three times what this property is now costing. Under such circumstances a good profit will be made by the purchaser of individual lots.

No person is asked to take anything on faith. This is a proposition that we ask you to investigate. You can satisfy yourself thoroughly. Full particulars will be supplied you, and you place yourself under no obligation by making enquiries from us.

We are offering a golden opportunity to the small investor, and those who do not act at once will find that their money is not required.

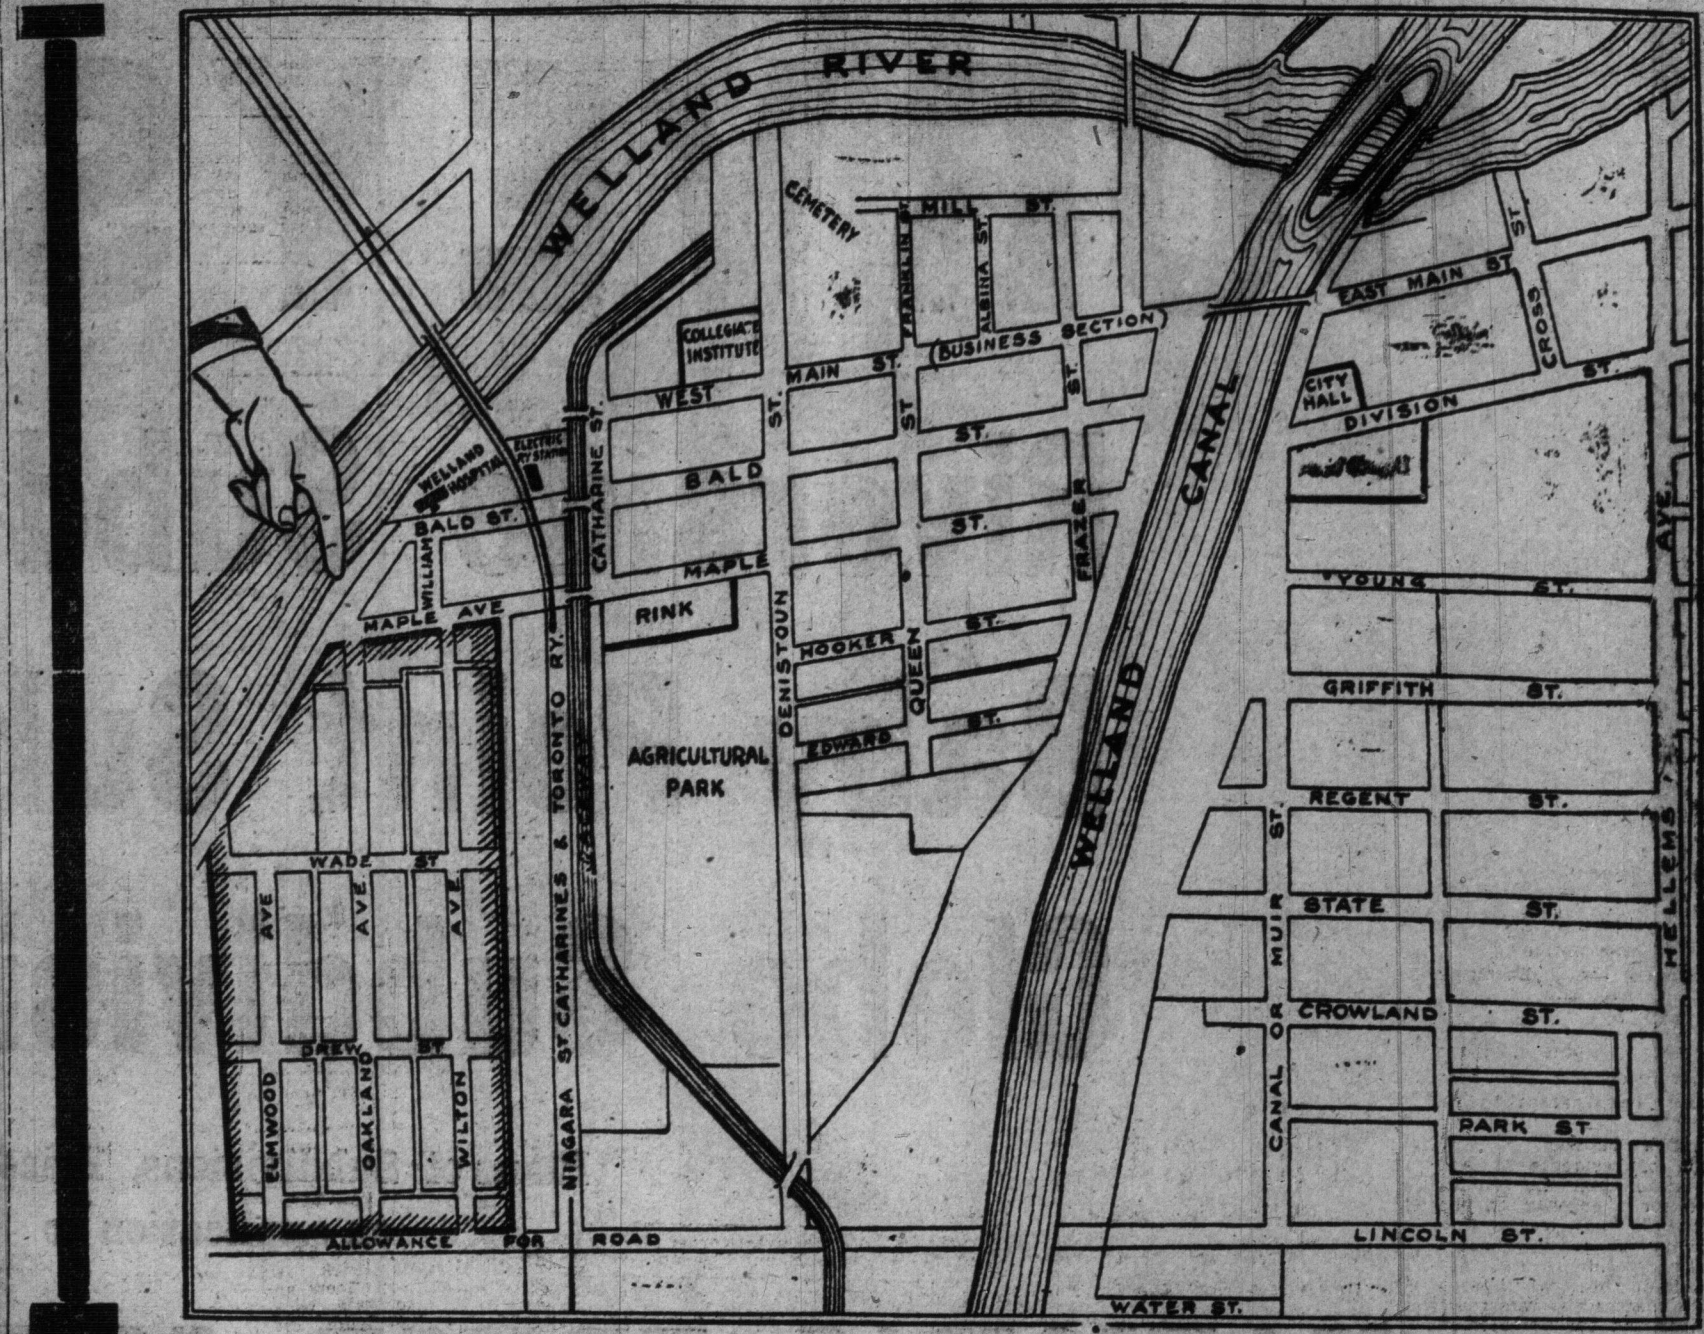

Let us explain this whole matter to you. Office open on Friday, Saturday and Monday, and in the evenings.

hundred acres on both sides of the Humber River, extending north to Lambton, and then running due west a mile above Lambton Village and Islington.

Only the property nearest to present settlement, and therefore transportation, is being offered at the present time. All the property will be highly improved. Roadways will be graded through it, and an electric radial service is planned. A great deal of the property is wooded and some of it affords beautiful views of the valley, particularly the Baby Point sub-division.

The National Trust Company, 22 East King-st., are selling agents.

CONNAUGHT PARK A NEW SUB-DIVISION
 Located on Danforth Avenue.

Keers and Mabee have secured a very choice property on Danforth-avenue, well located, level, with extraordinary advantages and are offering it for sale at \$20 per foot and upwards.

They claim it is the finest sub-division in the city, and it is being taken up by builders and those looking for moderate priced homesites. This is always a big day for Toronto real estate men, and early buyers will realize substantial profits by purchasing at first prices in Connaught Park.

Keers and Mabee will motor all those who will investigate this property, and suggest an inspection and comparison.

City to Put Subdivision on Market
 The city will go into the subdividing game. The works committee, on the advice of the assessment commissioner, yesterday decided to cut up a small tract of land which the city owns on Carlton and Boston-avenues, just south of Gerrard-st. It will be sold to build-ers.

FRIDAY AND SATURDAY

Last Saturday we sold over \$20,000 worth of lots in Walmer Hill, the closest-in subdivision. Monday, Tuesday and Wednesday saw some splendid property remain. The half from which you can get an astonishing view of Lake Ontario, a magnificent sweeping view of miles and miles of picturesque landscape to the north, east and west, is open, and is sure to sell more rapidly than in the farther-out half.

Walmer Hill is not only directly in front of the best growth of Toronto, but only three minutes' walk from it. The Great Hill District, with its unique architecture, its massive dwellings, its beautiful, perfectly attended lawns, its noted healthfulness, its absolute desirability, in less than two years will have taken in Walmer Hill, with its exclusive environment, its surprising altitude, its cleanliness, privacy and convenience.

Walmer Hill is less than three and one-quarter miles from the City Hall, closer than Roncesvalles Avenue, Kingsway Road or North via Queen's Park, Avenue Road, Spadina Road or Poplar Plains Road—the pleasantest way home.

Thirty-four choice lots are left, and we have yet to hear of a purchaser who would take as little as \$5 per foot more than he paid for his lot in Walmer Hill. We will consider it a pleasure to motor you from any address to Walmer Hill on Friday or Saturday. Telephone your address to Main 412, and state the time and place for us to call for you.

YOU CANNOT SPEND YOUR HOLIDAY IN A BETTER WAY THAN IN VISITING Kingsmount and Glenmount Park

Right-on-the-Gerrard-Street-Civic-Car-Line, on which cars will be running this Summer.

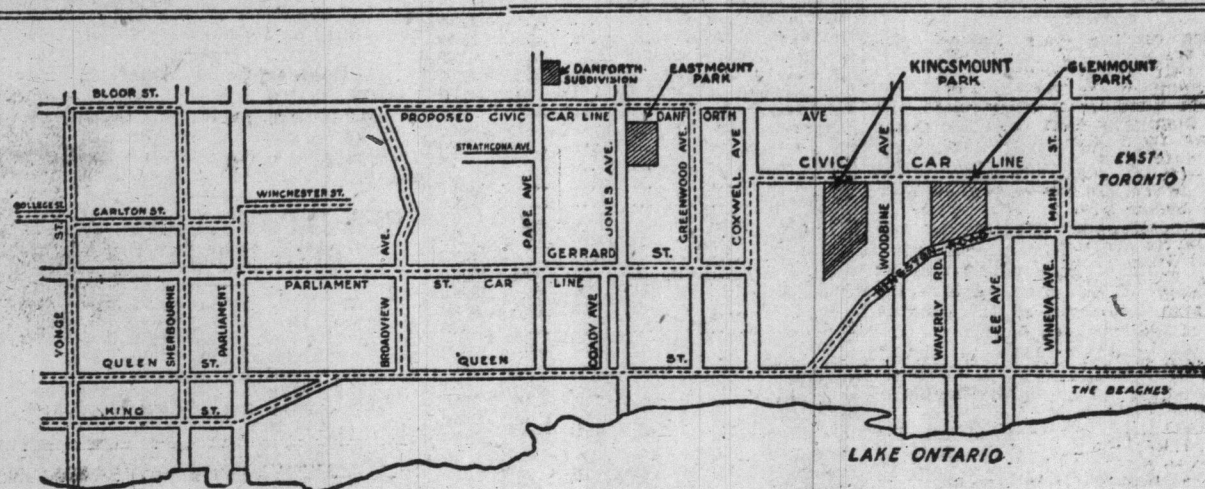

McEachren MOTORS will be at the Corner of WOODBINE AVE. and QUEEN ST. EAST, TO-DAY and SATURDAY AFTERNOON.

Or Phone Adelaide 42 before noon To-day for special appointment.

This is the greatest real estate offering of the year. These parks are inside the City Limits, 22 minutes from King and Yonge. Prices are away lower than any other properties in Toronto. And these prices will jump \$10 a foot just as soon as the cars are running. The steel is down now---the Street Railway Company will interchange traffic. Pause for a second and think what this means.

These properties are closer than Parkdale and far more attractive. Beautifully wooded, with high elevation—a magnificent place for your new home. Buy a lot to-day. You will reap a rich profit.

We'll take you down. We won't have to expound the advantages of Glenmount Park and Kingsmount Park. You'll see them for yourself at once.

NOTE THE LOCATION

Well within the city limits, and in the best part of the new east end. High-class restrictions—solid brick on every lot. Surrounding property is restricted too.

Our parks are a hundred acres of forest untouched except by the grading of sweeping crescents, and stately boulevards and roads.

The Last Word in Blue Serge IS 'LEITH SERGE'

HUNDREDS of wearers can testify to our assertion, and show their appreciation by ordering consistently. "Leith Serge" is made of the finest Botany Bay wool, dyed pure indigo before being woven.

is imported in four different weaves, shades and weights, and is controlled exclusively by Brodericks in Canada and the United States.

The smartest dressers the world over wear "LEITH SERGE" and now most of Toronto's well-groomed men do likewise.

Upturn in New York Market Carried on With Free Hand—U.S. Steel Resumed Leadership—Sharp Advances Shown in General List.

NEW YORK, April 4.—Contrary to expectations, which were quite natural in view of the approaching holiday, today's stock market threw off its apathy of the two preceding sessions and resumed its upward march of last month.

The equipment shares and American Can issues, both the common and preferred, making new high records. In fact, Can common was one of the most active stocks in the entire list, but the rise in both issues was accompanied by some adverse comment because of its seemingly manipulative character.

Dealers fell off in the later session, but the movement at that time was most prominent in the standard railway group, including the Hill issue, St. Paul, Union Pacific and Louisville & Nashville. Renewed strength in the Wabash issues, including the refunding issue, was attributed to the entrance into the company of a new and important financial interest.
