Victorious Troops Fight With MACHINISTS PLACE Ardor-Many Prisoners Taken.

Rome, July 7.-The Italian troops on the southern end of the Piave having driven the Austrians across the new Piave, are establishing themselves in the extensive region between the new and old river beds which the Austrians were compelled to evacuate, today's war office statement shows. The statement highly praises the valor of the troops which won the ounced success that has been achieved. The text reads:

"Between the Sile and the Piave our troops, having reached with perfect manoeuvering and irresistible elan the right bank of the new Plave, and driven the enemy to the other side of the river, are now fortifying themselves on the vast tract of ground recaptured, every yard of which shows, trace of the epic struggle, and furce of the epic struggle, and fur-hes proof that the enemy's losses

WORKING FOR UNION DURING LUNCH HOUR

H. W. Harper, business agent of the International Union of Machinists for Toronto, stated on Sunday that the strike at the Russell Motor Co., which had been in progress for more than two weeks, and which had occasioned the mass meeting held on Sunday afternoon and which might yet precipitate a general strike of all the machinists in Toronto, arose from the dismissal of a secretary of a Toronto local from the employ of the company. The question was not merely personal; it involved a principle. The Russell Motor Co. had taken the stand that no employe at the works should be considered as out of its jurisdiction from the time of entry at seven o'clock until that of the departure of the employe for the day. In this case no employe was considered a free man, or woman while engaged at lunch at regular stated times. The employe in question had been carrying on work in the interests of union labor during the lanch hour, and carrying out this principle of complete jurisdiction over its employes the company has dismissed this man. This action was considered by the union as one of undue discrimination. Hence Sunday's meeting. The government, he stated, had been warned by telegraph that unless the Russell Motor Co. gainstated this man a mass meeting would be held on Sunday Russell Motor Co. geinstated this man a mass meeting would be held on Sunday next to consider a strike vote.

TORONTO TELEGRAPHERS

C. E. Hill, general organizer of the Commercial Telegraphers' Union in Canada, stated that the Toronto locals had decided to inform the government that if the two men, Thomas Taylor and R. Thompson, recently dismissed by the G. N.W., were not reinstated by Wednesday noon the Toronto locals, thru their central committee, would ask R. Konenkampt, president of the union, to call a strike of the operators in Toronto. Mr. Hill stated that the meeting at the Foresters' Hall was well attended. The operators from both Winnipeg and Montreal had promised to go out in sympathy, if necessary. The principle of trades unionism, he stated, was involved in this matter and the union would fight the company to the last ditch.

Washington, July 7.-Plans for an immediate recess of congress were ing upon a concurrent resolution, adopted by the senate providing for an adjournment until Aug. 12, subject to an earlier call by the president. Strategic Points Must Majority Leader Kitchin had asked for immediate consideration of the senate resolution, but after opposition developed he withdrew his request with the explanation that he believed a majority of the house would vote against the resolution. The house adjourned immediately afterwards and upon receiving notice of its action, the senate also adjourned until Monday.

In spite of President Wilson's request, emphatically reiterated today that the resolution authorizing him to that the resolution authorizing him to take over and operate during the war, telegraph, telephone, cable and radio systems be passed before the recess, the senate was ready to begin its vacation when the house suddenly blocked the plans of the leaders.

London, July 6 .- The coming German blow will not be less dangerous paring for it, but it is comforting to know that the men are prepared and the allied armies are confident of the result, said A. Bonar Law, chancellor of the exchequer, at a dinner to the delegates of the parliamentary commercial conference.

"It is impossible to foresee the future," he said, "but I do believe that the fateful hour of this war is upon up, and if in another three months our enemies have won no strategic object, hen their campaign will have failed and it will, I hope, be a decisive fail-

The Germans possessed the most perfect military machine that ever existed, but the chancellor said he believed that when the history of the war was written it would be seen that Germany had made greater military mistakes than any other power. Oakville Canadian Club was ad ressed on Saturday at the first anual picnic by Hon. Dr. H. J. Cody. minister of education. W. D. Gregory, minister of education. W. D. Gregory, president of the club, upon introduc-ing Dr. Cody, said that the primary object of the club was education, and education was the basis of citizen-

ship.
Dr. Cody, in his address, said that what Canada needed was formation, and not reformation, and every person interested in this vital subject and not reformation, and every person interested in this vital subject ought to be glad to have suggestions from an educational standpoint, that they might hear the truth. He said the war had demonstrated that learning was a power both for good and for evil; that education had lowered the ideals of the German people, resulting in the perversion of human nature which caused the conflict of nations. This bold champion of science had construed education in the evil way; but Canadians ought to construe education in a manner that would make for citizenship—a disciplined command over knowledge.

He dwelt on the education that was being received by the boys and girls of fourteen and sixteen, saying it was necessary that they should be better trained to become citizens of Canada. This war had paramount claims on the construed of the section. A deputation of women, under the leadership of Mrs. Carthy, Rhodes avenue, waited upon the city council, and Ald. W. W. Hiltz and Richard Honeyford actively co-operated in their behalf.

L. W. Mullen, president of the Riverdale Ratepayers' Association, expressed his satisfaction and said: "The money for the playground authorized by the board of control is well invested and may be the means of saving the lives of many children to the district, who have only the streets for a playground. necessary that they should be better trained to become citizens of Canada. This war had paramount claims on them, he said, and it would be necessary for them to do more than their share because of those who would not come home again. Boys and girls were living and growing in a new era; they were learning the meaning of service; they were learning that Canada stood for great ideals and that they must make this a great age, for inevitable changes were coming over the world. Many boys of today were quickly assuming the responsibilities of manhood, are even becoming officers in the army and leading hundreds of men—thru a crisis unparalleled in

Canada would fraternize with other countries, and it would come out of this war shaken of its isolation. "The empire is now one, and it will ever remain so, both in interest and partnership. Schools will be the leading factor in our new Dominion, and we must have new formations in our schools. There is at present an unschools. There is at present an un-due burden thrown on the school teacher by the public at large; teachers are receiving painfully low sal-aries; a teacher must have personality, and a good salary tones the spirit of personality. It is a disgrace for this country to haggle over the spend-ing of ten millions on education; it should be impelled by its shame to action and raise teachers' salaries."

Kelly's liquor depots, situated at Raybould street, Runnymede, the offices of County Council Clerk Phillips' were Saturday morning, a sight for the thirsty. Altogether there were fifteen glass gallon containers filled with liquor and beer of all kinds. On Friday Mark Kelly was fored 11000 to the light day Kelly was fined \$1000 at the city hall for keeping liquor for sale, and the county police are now looking for him, so that he may appear at the York County police court, but Kelly evidently is of the epinion that Toronto is no place for him.

ROADWAYS NEEDED

Mayor Church Thinks Ottawa Should Start Work Right Away.

All roads lead, or will lead to the new Rosedale Military Hospital and the big demobilization camp on the heights to the north. Mayor Church would like to motor around the seventy odd acres the government have secured, but he is afraid of the springs on his car. It has lots of power, but a trip up there is hard on tires, and the price for repairs is not on the decline.

"There are very few in Toronto who ully realize what is going on in North Rosedale," said the mayor on Saturday. " The establishment of a big demobilization centre has not come a day too soon. Unless we have well organized system for returning soldiers to civil life there will be frightful chaos. The government have made a good start here, and I was pleased to read in The World an account of what they propose do-

TELLS OF VISIT THRU BATTLE-TORN FRANCE

Rev. John Neil, D.D., of Westminster Presbyterian Church, Bloor street, who went overseas last fall as representative of the Presbyterian Church in Canada, gave an address on his experiences in France and England, last night, at Cooke's Presbyterian Church, Queen street. He had visited many camps and hospitals in England and everywhere the optimistic spirit prevailed.

In January he went to France for a nine days' trip. He visited Vimy Ridge and he told how Canada had become immortalized thru the action of her soldiers at that place. He went along the Somme River and was able to see only the remains of villages which were so badly wrecked that they could only be identified by means of a marker.

He said the courage and perseverance of the boys at the front were unsurpassed, that he never heard one soldier utter a pessimistic word, and they were resolved to see the war thru. He said the temptation over there must not be underestimated, especially in London and Paris, but the soldiers strive to lead clean lives and most of them remain true and steadfast.

we have frequently indicated, of the Besant's Indian Government League, known in England as a controlled comidly in recent years, as the result, as we have frequently indicated, of the short-sighted policy of postponing essential improvements, and endeavoring to escape the payment of due debts by leaving them to the future. If the policy of pay-as-you-go had been enforced from the first the postponement of needed improvements are adapted to a people inexperienced in self-government, but there are provisions for extension of the lower in England as a controlled company. All its work and processes are under supervision and direction of the British Government, and all of its product is taken by that government. We refine down the nickel as far as possible in Canada, but the final processes take place in our plant at Swansea, Wales. The matte goes across the ocean under government control. It is refined under and that the agents in America of the

with which Mr. Bradshaw has to Soldiers Delegates in the city. deal. It may be observed that there vices from Vladivostok stated that the why should the profits go to the United is not a little patriotism in the action of the city refraining from competition with war bonds at this juncture. The report deals very fully with all aspects of this debenture situation, and must be read in full to be appreciated.

Mr. Bradshaw states that the extraordinary debt expansion in recent years is due to the "large number of extensive annexations." Since 1907 the area of the city has grown from 16,424 to 25,330 acres. It would be necessary to have an account of the revenue derived from the new areas. however, to be able properly to consider this point, and the information does not appear to be available.

Mr. Bradshaw strongly insists on the necessity of making, all civicowned and operated enterprises pay for themselves, each for its own cost. "Much has been said" he observes. "in extenuation of the course still being followed, but with all due respect to the excuses brought forward, there is, in my humble judgment, no justification for this wrong being continued." He feels it to be his duty to continue to protest on this matter. This applies to the civic railway, the civic abattoir, and the National Exhibition.

While rates of interest are at present abnormally high, it is satisfactory to know that the average rate cial interest to report.' of interest on the city debt is only 4.24 per cent. Nor is it likely that this will be greatly increased for some time to come, if the war situation should come to a satisfactory termination within a year or two. If the city had carried out more of its necessary improvements when money was plenty and available at 31/2 per cent, as in the period between 1889 and 1908 we should have had a better financial standing today.

While we intend to recur to this report we must applaud Mr. Bradshaw's determination to keep in view and be prepared for the acquisition of the street railway three years hence. He has been unfailing in his preparations to this end, and should have the support of the council in Two Preached at Guelph and Union all that tends to secure the aim he has in view. > W. G. Proudfoot, M.L.A., leader of the provincial opposition, told The World that he was reading and clipping every thing that appeared in the press about nickel. He thinks the nickel companies should be subject to higher taxation. He complimented Hartley Dewart and The Toronto World for the work they had done in the past and said that the Hearst government was now taking credit for doing what they had been forced to do by others.

Mr. Proudfoot did not, however, display any lively interest in the question, "Where did the nickel come from?" recently seized by the United States Government, in the hands of German agents in New York. He said that no doubt a great deal of Canadian nickel had found its way in the past thru the United States to Germany, but now that the United States was a belligerent we have nothing more of that kind to fear. Montreal, July 7 .- Fire this Montreal, July 7.—Fire this afternoon, which destroyed the Ontario skating rink and damaged several ice houses nearby, might have swept a whole block, including lumber yards and factories, but for the prompt action of Chief Chevalier of the Montreal Fire Brigade. The cause of the fire is unknown, and the amount of loss is uncertain owing to it not being know what the rink contained or how much ice was destroyed in the nearby storehouses.

The heat from the flaming rink was so intense that windows on opposite sides of the streets burst and the galvanized iron cornice of the building melted, poulting down into the street.

Lumber yards and a sawmill nearby had to be saturated with water to save them from the sparks that would soon have fired them.

The rink was well known here, having been the scene of many amateur hockey matches and carnivals.

MORE TOUGH LUCK FOR THE LEAFLETS

Syracuse Scored Winning Run in Ninth When Whitehouse Made a "Boot".

Syracuse, N.Y., July 7.-The prettiest pitchers' duel of the season was staged here today when Syracuse defeated Toronto, 1-0, the Donovanites getting the lone run of the game in the ninth inning after two were down. And the game might have gone a number of innings further from the way Alex. Peterson of the Leafs and "Cy" Barnhardt, Topsy Loo twirler of the Syracuse team, were traveling, if Whitehouse, centre fielder of Dan Howley's aggregation, had got in front of Bill Page's drive in the ninth, which scored Bill Irving from first base with the lone marker. After the first two batters in the ninth had been easily disposed of, Irving drew a free pass to first base on four balls from Alex., and Page followed with a healthy swing which sent a liner to the centre garden. Whitehouse raced over and instead of getting in front of the pill he scooped at it with one hand, with the result that the ball rolled on in the direction of the American flag in deep centre, and Irving raced over the plate from first base. Careful playing would have kept the hit down to a single and Irving could have got no further than third base on the wallop.

down to a single and Irving could have got no further than third base on the wallop.

It was one grand game to watch, despite the fact that it was cold enough for football. Overcoats were common, and many fans had their coat collars turned up around their necks in an attempt to keep warm. In the seventh inning a dark cloud passed over the park, spilling icy water, but it lasted for only a few minutes.

Peterson had a little better control than the Syracuse hurler, the boy from across the border giving but two bases on balls, while Barnhardt walked five. However, one of the five passes was issued purposely to Red Fisher, who looked dangerous when he came to bat in the fourth frame with Eddy Onslow on second, at which station he had arrived by means of a sacrifice hit, dragging the ball down to Weaver and then stealing the second cushion by way of the delayed method. After Fisher had been walked, Howley and the other Toronto players urged Peterson to lay on to one of Barnhardt's offerings, but the best that Alex. could do was to drive a fly to prving in right.

Toronto had much better and more chances to get a run over the plate than Syracuse, but when men were on the bases Barnhardt seemed to be invincible, for twice King Lear fanned, once with Duke Reilley on third base. The gloomy and cold weather kept the crowd away from the game, about 1000 turning out to see the final game of the series between the two clubs. That Manager Patsy Donovan is a bit disgusted at the way the fans are turning out here was shown today when he said that the franchise might be transferred to Hamilton, Ont. "Of course," said Donovan, 'no move has been made here yet, but it is not reasonable to keep a team in Syracuse unless the attendance picks up."

Knotty Lee, business manager of the Toronto Club, has been talking Hamilton for two days to Manager Donovan, and the Syracuse manager seems well pleased with the plan.

Manager Howley today received a

and the Syracuse manager seems well pleased with the plan.

Manager Howley today received a telegram from Bill Hinchman, which stated that the latter was not a free agent and that he still belonged to the Pirates, Therefore, Hinchman is not to join the Leafs right away. Howley is still after another outfielder, probably to replace Anderson, and one more reliable pitcher who can take his regular turn in the box and win.

The Toronto Club left here at 8 o'clock tonight for Rochester. The Leafs are full of fight and anxious to get at Arthur Irwin's colts, One game will be played on Monday and Tuesday. A double bill will be staged Wednesday afternoon.

GRAND CIRCUIT TODAY.

Cleveland, Ohio, July 7.—The opening meeting of the 1918 Grand Circuit harness meeting of the 1918 Grand Circuit harness horse racing will get under way tomorrow at the North Randall track. Indications are that the five-day meeting will be one of the greatest in the Grand Circuit season. Two hundred and fifty-two horses are named to start in the twenty-two listed events. Five races will be contested tomorrow and Wednesday and four on the other three days. The feature of tomorrow's card will be the Edwards 2.10 pace, with a value of \$3000.

London, July 7.—On Saturday night two rinks from the London Rowing and Bowling Club outscored two Elmwood Club rinks on their own greens for the Mintee Challenge Trophy. The challengers were 13 shots up at the end of 21 ends. Skip John Lochead defeated Skip Charles Speiran by 25 to 16, while Skip W. J. Snelgrove won from C. C. Gordon by 20 to 16.

LAWN BOWLING

FAILED TO LIFT TROPHY.

Gueiph, July 6.—Queen City Bowling Club failed to lift the Bowman Trophy in a game with the Gueiph defenders this afternoon, but they made a splendid effort, and had they braced up earlier in the game the trophy might now be in Toronto. As it is, F. M. Yates' rink will continue to defend the trophy. Their mext opponents will be Owen Sound. There is certainly keen rivalry for the trophy and Skip Yates has twice brought it back to Guelph and then defended it.

DAVISVILLE HOSPITAL GREENS OPENED TODAY.

The opening of the Davisville greens takes place today at four o'clock, Col. Bickford, G.O.C., Col. Ryerson and other military officers will be present.

There are four greens laid out at Davisville, so that there will be eight rinks playing. The rinks will be made up of the men at the hospital and skipped by prominent bowlers of the city clubs. All bowlers and their friends are invited and should be on hand to see that Davisville gets off to a good start.

The soldiers at the hospitals are taking a real interest in the game, and both Queen City and Balmy Beach Clubs have been defeated by rinks from the College and Base Hospitals.

The secretary reports the receipt of a cheque for \$30 from the St. Matthew's Lawn Bowling Club towards the soldiers' bowling green fund.

West End Weekly Events at Stadium

At the Varsity Stadium, the West Enders held their weekly scheduled events, the running broad jump, the fifty-yard dash and the hundred-yard dash. In the seniors, very good time was made in the two running events, In the fifty-yard dash, L. Crofoot finished first, with F. Armstrong a close second. The results were as follows:

Seniors—1, L. Crofoot (5.2); 2, F. Armstrong; 3, C. Keeler.
In the juniors, R. Innes, the comer, won, with T. Unsworth following close. The results were as follows:

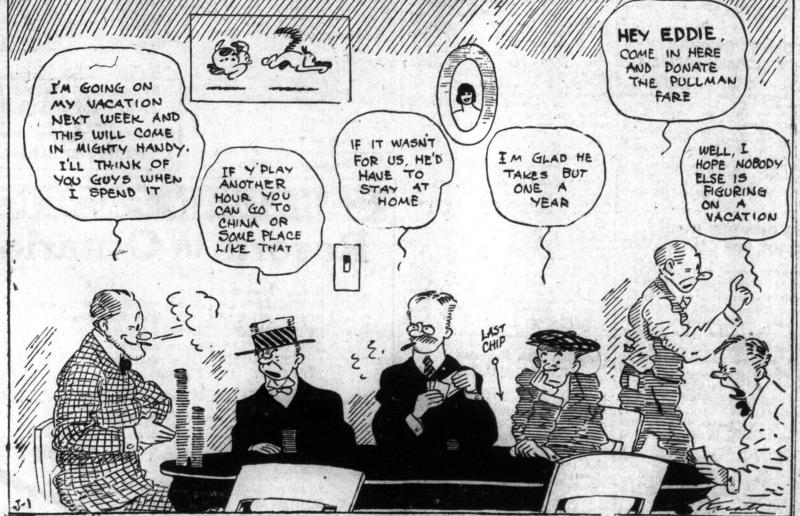

LIKE LACROSSE REVIVAL
Referee Waghorne says it looked like a lacrosse revival Saturday at St. Kitts. The game was even up to the last quarter, when Kalls and Fitzgerald got their combination working, and they soon ran over the Indians. The game was rough towards the finish, but 15 penalties tended to cool down the players. The attendance was 1500. Next Saturday the new league will show Maitlands against Leaside in Toronto.

Both goalers had to be continually on the alert. Crompton was injured and had to lay off for fifteen minutes thru the injury, but the locals played desperately. No score at half-time. The second half was just started when Hamilton scored for the Labor Party, Walker equalized within fifteen minutes, followed by E. Turney, making Davenports one up. With three minutes to go, Hamilton made an extraordinary run, and after a glorious display of combination and quick passing Glivear sent in a stinger, making the tally even. Broadview met Dovercourt on Saturday and were beaten by 186 to 78 in a game featured by some fine exhibitions of batting. Broadview is ted first, but, with the exception of G. Hudson, could do but very little against the bowling of Simmons, who secured seven wickets for 26 runs. Hudson gave a beautiful exhibition of polished, clever batting that was a treat to watch, his score of 53 including five clean boundary hits. Dovercourt, on going to bat, scored fairly fast, putting on 24 for the first wicket. Bodger batting steadily for 27, was third out at 42; then after Templeton had left for 10, two boundaries, Simmons and Robinson got together at 54 and were not parted till the total reached 141, Robinson being caught in the country for a splendid 55, compiled in his usual vigorous style. Included in his socre to 65, a practically faulties exhibition, compiled by clever strokes all around the wicket and including only two boundaries. Turner was the only remaining batsman to make any stand, retiring with a score of 12 to his credit. J. Buss was the only bowler who proved effective, capturing five wickets for 22 runs, Scores:

ewpie Korner

The World's Highest Paid Woman Writer. Among my acquaintances is a dear, clever, shrewd-eyed old lady who lives with her maiden daughter, Martha.

Martha is a capable and energetic soul, a born manager, whom nature destined to be the presiding genius of a husband and a large family of children will not permit us to do children. Unfortunately, fate somehow type and their interference with all self. As for the housekeeping, she tells everylody how she has taken purely altruistic spirit and for our own good. What we old people want is to have our own way, and to live out our own little short span of days in the manner that pleases us, and this our children will not permit us to do or children, that she is entitled to rest in her old age.

Martha is a capable and energetic soul, a born manager, whom nature destined to be the presiding genius of a husband and a large family of children will not permit us to do of children. Unfortungtely, fate somehow thwarted the matrimonial designs of nature concerning Martha, and having no one else to manage except mother, she spends all of her talents in that direction upon the poor old lady.

Strangers always say to mother:

"My dear Mrs. X, how blessed you are to have such a good daughter! I never saw such devotion. Why, she just simply never lets you out of her talent work of industry that you cannot be interesting the plant of the plant with more or less such as good daughter! I never saw such devotion. Why, she just simply never lets you out of her saight, and she seems to anticipate your every thought."

And mother smiles an inscrutible little smile and murmurs politely, "Oh, yes, Martha is the best of daughters," but to me she said once in a burset of confidence:

"Do you know what I am going to organize those down-trodden and oppressed parents into a regular Fourth of July Independence League, and we are going to make our last great fight for a little by to personal liberty.

Paul's, and others of the cathedral clergy, received the sovereigns here, the procession filing along the nave, until the allotted places were reached under the great dome, where the other members of the royal family had already taken their seats. There was a large attendance of official representatives and the vast nave was filled with wounded sailors and soldiers. The special service, which lasted 45 minutes, included an address by the Archbishop of Canterbury.

From the cathedral the King and Queen were driven to the Guildhall, whither the lord mayor and the city officials had preceded them. Here the address was read and the handsome illuminated copy of it presented to King George. This ceremony was followed by the presentation of a cheque for a large sum to be distributed among such charities as their majesties should decide upon, and the gift of a piece of silver. These were the only public silver wedding gifts the sovereigns consented to accept, they having decided that at the present time nothing should be diverted from charitable purposes, The gift was surscribed for by the leading banks, insurance and commercial companies, and others.

Consolidated Financial Statement of the National Council, Y.M.C.A. of Canada

(CANADA - ENGLAND - FRANCE)

The National Council of the Y.M.C.A. herewith presents a complete statement of its finances for the year 1917, covering its entire service Overseas and in Canada.

The Executive Committee of the Council arranged last November to have a complete statement for the year 1917 ready for publication before the recent Red Triangle Fund Campaign, but owing to conditions arising out of Military operations in France, this has been unavoidably delayed. It is presented now at the earliest date that existing conditions have permitted.

The portion of the following statement which concerns England and France has already been submitted to the Overseas Military authorities. Audited statements of the funds handled have been submitted to the Militia Department at Ottawa and for the past two years regular accounting has been made as well to the authorities in England and in France. In addition to the regular audit in France, the canteen business is checked every month by the Military Field cashiers, to determine the amount which is paid to Military units as indicated in the Expenditures. Printed copies of the audited statements are posted up in the huts for the information of the soldiers.

The General Operation Account shows on the one hand the entire receipts of the National Council; first, from the gross sales of its Military canteens in Canada, England and France, and second, from subscriptions received during the year. On the other hand, there is shown the entire expenditures for the year, including, first, the cost of the goods sold in the canteens and, second, the expenditures connected with the entire service which is carried on under the direction of the National Council.

The Balance represents the excess of receipts over expenditures. Of this the sum of \$118,351.43 was the balance at the National Headquarters at Toronto, and the remainder was Overseas. This balance at the end of the calendar year represents the amount available to carry on operations until the time of the campaign in 1918. While the financial statement is drawn up on the basis of the calendar year the receipts from the campaign of one year have to serve until the campaign of the next year. The above balance at the National Headquarters was by April 30th, just before the new campaign, not only used up but changed to a deficit of \$237,930.13. This deficit was, however, offset by the balance overseas, which has to be maintained there as a working balance to carry on operations.

The item of \$240,524.86 is a special amount which had to be expended for the purchase of canteen and other supplies in Canada for shipment to France. Beginning with June, 1917, on account of the scarcity of supplies in Great Britain, much of the purchasing formerly done there had to be transferred to Canada. The long period of time required for the shipment of these supplies to France involves the continuous employment of a large sum. The amount expended for this purpose, as at Decamber 31st, has had to be treated as an expenditure and placed in a Reserve Account against the merchandise in hand. It is, however, a possible asset and will, when realized upon, be devoted to other forms of service to the soldiers, when it is no longer required to maintain the canteen service in France.

It was possible to provide for this expenditure only because the amount asked by the National Council in 1917 was oversubscribed by more than the amount required just at the time the Canadian Purchasing had to be undertaken. But for this it would have been necessary either to borrow this large amount or greatly curtail the service in France.

It is to be remembered that the goods at the front in France, where the greater part of the stock is carried, are subject to enormous

risks. The English Y.M.C.A. in the German offensive of March and April suffered losses in huts and canteen supplies of nearly One Million Dollars. In the more recent offensive the American Y.M.C.A. has suffered losses nearly as large, and the National Executive have deemed it a matter of prudence to be prepared to meet a similar loss if it should fall on the Canadian Y.M.C.A.

The National Council has from the first declared the policy of devoting to the service of the soldiers whatever balance remains in the Military Fund at the close of the war. This policy has been made known to and accepted by the Overseas Military authorities. The need for the Y.M.C.A. service will continue all through the period of demobilization and the plan of the National Council is to use whatever balance then exists to keep up the efficiency of the service to the soldiers during that important period.

The National Council of the Y.M.C.A., under which the Military Work is conducted, is a representative body of the various Y.M.C.A. a throughout Canada, but it has no authority over or financial responsibility for any local branch. The funds which it handles have no connection with those of any local branch of the regular Y.M.C.A. It wishes to make clear, therefore, that the funds which are acquired in or subscribed for the Y.M.C.A. Military Work have not been and will not be used in connection with the regular work of any of these branches, but will, according to the policy already announced, be kept in the Military Work and devoted exclusively to the service of soldiers.

The service represented in the expenditures of the accompanying statement covered at the opening of the present year, 96 centres of operation in France and 76 in England, including all regular camps and units, base camps, convalescent camps, hospitals, railway troops, cavalry, London and Paris, and forestry units from the north of Scotland to the South of France.

There were on the Overseas staff 133 Secretaries carrying honorary commissions, 50 of whom were at the expense of the Y.M.C.A. for pay and allowances and the remainder at the expense of the Government. There are also a considerable number of other ranks, non-commissioned officers and men, detailed to the Y.M.C.A. staff by the Military authorities. A number of these, who are given non-commissioned rank because of special responsibility, are at the expense of the Y.M.C.A. for the extra pay over that of their regular rank. Civilian help is also employed where required and where circumstances permit.

In Canada the soldiers are served in 38 centres, including camps, barracks, Red Triangle Clubs, hospitals, naval stations and on troop trains. This has required approximately 100 Secretaries, who work on a civilian basis and are entirely at Y.M.C.A. expense. There is also required a considerable staff of employed helpers, exclusive of the committees of ladies who render their service free.

The scope and variety of the entire service, in so far as expenditures can reveal them, are indicated in the following statement.

Signed on behalf of the National Council of the Y.M.C.A. G. H. WOOD, Chairman.

F. L. RATCLIFF, Chairman of Finance Committee. CHAS. W. BISHOP, General Secretary.

We have audited the books, vouchers and accounts of the National Council Headquarters at Toronto, and of the Central Territorial Division, for the year ended 31st December, 1917, and have been furnished with the audited statements of the Maritime and Western Divisions of the National Council for the same period. We have also been furnished with the Annual Statement for England for 1917, duly audited, and the Annual Statement for France for 1917 with the auditor's Certified Statement for the six months to June 30th. Owing, we understand, to Military restriction on civilian travel between England and France, it was impossible for the auditor to go to France and complete the audit to 31st December, 1917. We have agreed the Canadian and Overseas statements with the above General Statement, which combines them, and, according to the books and statements furnished, the above statement in our opinion, correctly sets forth the operations of the National Council at home and overseas.

TO HEAR ARGUMENT

Galt, July 7.—Following the announcement of the Grand River Railway that it would advance its passenger and freight rates 15 per cent. tomorrow, Acting-Mayor Charlton and the board of trade wired the Ontario Railway and Municipal Board, requesting a delay of the order so that municipalities could be heard. This was refused, it being stated that the board's traffic expert had recommended the advance, but the board agreed to hear the municipalities on the question at a later date.

FIRST AWAKENING AGAINST TYRANNY

Assassination of Von Mirbach Will Cause Complications.

ACT OF REBELLION.

Phase of German Difficulties.

Paris, July 7 .- In their comments or bach, the Paris newspapers are unanimous in expressing the that the event will be likely to cause complications, the importance which cannot be gauged.

The first awakening of the ven geance of Russia against German tyranny, is the light in which Le Journal views it, while The Petit Journal wonders if it will not open a new phase of Germany's difficulties

'In the state of tension existing between Russia and Germany," says The Figare, "this assassination may lead to the most interesting complications." Humanite considers the act not a vulgar assassination but an act open rebellion by exasperated patriotism.

The assassination as The Matin views it; "shows that there still are in Russia men concerned with the dig-nity of their country, and imbued with patriotism," and The Petit Parisien comments that it "was probably patriotic indignation caused by the AT A LATER DATE approach of the German invader, which provoked the killing."

ation of General Count von Mirbach, German ambassador at Moscow, declared that while he could not "feel elated at the death of a human being," he could not help saying, "it is a good thing for Russia." M. Kerensky seemed reluctant to

believe the news, asking repeatedly, "are you sure?" When informed that "are you sure?" When informed that the news seemed perfectly reliable, as it originated in Berlin, he said:
"This may be the beginning of the rennaissance of Russia.
"But now the Germans will surely go to Moscow," he added sadly. Kept Germany From Moscow

It was only a few days ago that Kerensky, in a talk with the correspondent, gave as his opinion that the only reason German troops had 'not yet appeared in Moscow was because Von Mirbach had not required their presence there. "Should circumstances demand the resence of German troops," said the

ANNOUNCEMENT

FALL WHEAT SEED

IN view of the partial failure of the Fall wheat crop in this Province this year it will be necessary for farmers to make early arrangements for the supply of seed which they will need for Fall sowing. Under these circumstances farmers who have on hand quantities of wheat suitable for Fall seeding are urged to conserve them for this purpose. If there is no demand locally, the information should be supplied to this Department, or to the Local Office of this Department in your County, so that every effort may be made to have an equitable and satisfactory distribution. The need for foodstuffs justifies a large acreage of Fall wheat in this Province again this year, and the co-operation of the farmers in the mobilization and distribution of the available seed supplies is invited.

Hamilton B. Wills in his weekly market letter says: The unparalleled prosperity of the producing oil companies has led to a good old-fashioned boom in oil stocks on the New York Curb.

It is the consensus of well-informed opinion that the boom in oil shares is here to stay and that very much higher prices may be expected for the stocks of producing companies. The reasons for this belief are founded on solid facts and not on guesswork. Petroleum and its products are now required on a scale never before considered possible. The demand for crude oil is rapidly exceeding the supply, and every possible incentive is being given the producing companies to increase their output to the utmost.

The present practically unlimited demand for petroleum and its products is assured for a long time to come. In fact, it has come to such a point that there has been talk of curtailing the supply of gasoline used by pleasure vehicles in order to meet the demands of war, as without this most important product it would be impossible to carry on the conflict. Gasoline furnishes the motive power for airplanes, motor trucks and automobiles, all of which are being used in ever-increasing quantities by the allied armies.

Besides this, crude oil is of vital necessity to the navies of the world. It has been found that this fuel is far more efficient and cleaner than coal, and consequently most of the modern war vessells are equipped with oil-burning apparatus.

Furthermore, it takes fewer men to product the document of the protection of the pro

RAILWAY EARNINGS

Montreal, July 6.—The June return of gross earnings on the three principal railroads of Canada shows, like the return for May, a slight contraction from the high record figures of a year ago. The falling off in the aggregate of Canadian Pacific, Grand Trunk, and Canadian Northern was \$264,270 or 1,1 per cent., this following a decrease of \$356,985 or 1.5 per cent. in May.

Results for the half year ended

June 20, however, because of the substantial gains recorded in March and

April, are well ahead of the best previous figures in the history of the previous figures in the history of the country. At \$123,324,424 for the six months the aggregate stands \$3,635,360 or 5.1 per cent. ahead of the high record established in the corresponding period of 1917. It compares with less than \$75,000,000 in the depressed six months ending June 30, 1915, the increase over that period, therefore, amounting to more than \$48,000,000 or about 64 per cent.

DOMINION PERMANENT AFFAIRS DISCUSSED

A preliminary conference between committees representing the debenture holders and shareholders of the Dominion Permanent Loan Company was held in the offices of G. T. Clarkson, the liquidator, on Saturday morning, in preparation for pressing suit against the estates of former directors. Mr. Clarkson afterward stated that he had no statement to make for publication.

Officials estimated that if the \$2.40 price for wheat is approved, the price of flour would be increased by approximately \$2 a barrel with an increase of from two to three cents in the price of a loaf of bread. With \$2.40 as the basic price wheat probably would sell in New York at \$2.75 a bushel, it was said.

EXPECT SHRINKAGE IN CORN ARRIVALS

July Delivery Sells Higher -Bearish Advices Send

Oats Down. Chicago, July 6.—Belief that arrivals of corn would soon fall below immediate requirements, strengthened the market today for July delivery, but August and September sagged owing to the auspicious crop report. Prices closed unsettled 1-2c net lower, to 11-4c advance, with August 153 7-8 to 154, and September 155 1-4 to 155 1-2. Oats finished 1-8 and 1-4 to 1c down,

loats finished 1-8 and 1-4 to 16 down, and provisions varying from 10c down to a rise of 21-2c.

Altho traders expected to see a fairly good movement of corn, yet, from rural points for a week or so, the opinion was general that loading of new wheat would then turn out so brisk that cars available for corn would be relatively scarce. In this connection the fact evoked comment that the first wheat of the season reached Chicago today, a week earlier than in 1917. Estimates that Canadian mills were producing 4000 'to 5000 barrels of corn flour a day tended also to give firmness to immediate demand for corn. On the other hand, domestic crop advices were almost uniformly excellent, and word was received that some rain had fallen where most needed in Canada.

Heavy hedging sales against large purchases to arrive here put the oats tharket on the down grade.

Previsions averaged higher with hogs.

Montreal, July 7.—The alliance between Great Britain and the United States was commemorated today at Christ Church Cathedral here by a special service at which the Fion. James L. Rodgers, American consulgeneral, was present. The vicar, Rev. Dr. Symonds, in his sermon, emphasized the point that the results of the alliance, great as they may be in the conduct of the war, may be even of more far-reaching importance if there is a serious effort to cultivate the good relationship now entered into.

If You Believe in the Wonderful Power of Music

Nothing But a Victrola Will Satisfy You

If you believe in the power of music to elevate your thoughts and broaden your intellect—to stir your imagination and quicken your emotions—to soothe your mind and lighten your toil—you can appreciate what it would mean to own a Victoria

Three styles illustrated, but there are other types just as popular. The least expensive Victrola plays the most elaborate opera with the same clear tone of the more expensive ones. The summer home is more complete

when there is a Victrola to entertain you.

We will be pleased to demonstrate any of the instruments you

may wish to hear.
