### MORE MONEY IS WANTED FOR GOOD ROADS WORK

Highways Commission Intends Urging City to Make Adequate Grant.

Altho the board of control has refused to spend \$116,000, asked by the highways commission for good roads in York county, it is understood that pressure will be brought to bear to increase the \$57,000 which the board is inclined to favor. The highways improvement act provides that the county may spend five mills on good roads, so long as the equivalent amount, does not exceed half a mill of the city rates.

tails of its program. He could only name the work which ought to be done on with, as follows:  
1. Mile and a half at Highland Creek should be built eastward to connect with provincial highway. Twelve per cent. grades should be reduced to four per cent.  
2. Half mile of Don Mills road just outside city limits, where grades were reduced last year from eleven to six per cent., should be paved.  
3. A mile of Weston road from the limits around to the overhead bridges should be paved.  
4. Two more miles of Danforth road, just outside the city limits, should be given an asphaltic concrete pavement using the old water-bound macadam as a base.  
5. More work on Yonge Street.  
6. Five miles of Yonge street, from city limits to Richmond Hill, laid 14 feet wide with waterbound macadam in 1911, should be widened about 6 feet.  
7. Short gap south of Aurora should be paved.  
8. Two and a half miles from north of Armitage to Holland Landing, should be paved with bituminous bound macadam.  
9. Three miles branching at Newmarket towards Jackson's Point should be paved.  
10. Three miles should be paved from Jackson's Point towards Toronto.  
11. Four miles of the Malton road should be paved from Weston towards Brampton.  
12. Five miles of the Langstaff road from the industrial farm eastward towards Port Perry, should be paved.

### ONE CHILD KILLED, OTHER BADLY HURT

Ran Out on Road in Front of Passing Motor Car.

Young children, running from the sidewalk onto the roadway without first looking to make sure there were no motors in the vicinity, resulted yesterday afternoon in one boy being killed and another injured. Both accidents happened within a short distance from one another on Shaw street.  
Four-year-old Richard Spicer, whose parents live at 44 West Queen street, was almost instantly killed by a motor car in front of 108 Shaw street. The accident happened at 4:45 yesterday afternoon. Young Spicer was playing with other children on the sidewalk, when he suddenly darted onto the road and was run down by an automobile driven by John Squires of 8 Russett avenue. The front wheels of the motor car passed over the child's head, fracturing the skull, and he died within a few minutes from the time that he was picked up from beneath the car. Squires was taken to Claremont street station, but was not held.  
At 2:45, George Lancaster, aged 5 years, of 21 Hanna avenue, ran off

the sidewalk on Shaw street, and was struck by the rear wheel of a motor car. The car, driven by L. J. Adams, 738 West King street, was proceeding north on Shaw street from Queen. The boy ran out, and the left wheel of the automobile knocked him down, injuring his left leg. The injured boy was taken to the Western Hospital.

### WAS PREPARING "DOPE" WHEN POLICE CAME IN

Richard Howard was caught in the act of preparing laudanum for use in a room on East Queen street last night. With the door of a small room tightly fastened, Howard had a quantity of the drug on a spoon, and was heating it over a fire. He started with several newspapers rolled together. Plainclothesmen Waterhouse and McMahon arrested Howard, charged with having drugs in his possession for other than Waterhouse purposes. McMahon, on searching Howard, found several hypodermic needles and two small bottles containing laudanum.

### BEDFORD PARK WANTS POST CARRIER SERVICE

York Township Council Promises to Help Residents Get One.

York Township Council met yesterday afternoon. Reeve Fred Miller presiding. A deputation asked for assistance of advice regarding the installation of a postal delivery in Bedford Park district. It would seem that the reason given by the postoffice authorities for the lack of such service is that the streets are not properly named and numbered. The reeve characterized the statement as a "blatant" on the part of the authorities, as other districts with all streets named and numbered did not have carriers. Instructions were given to the deputation to prepare a list of street names and to present it to the council as soon as possible, when the necessary action will be taken.

Mr. McBeth asked the council, on behalf of the ratepayers of Swaneson, for information regarding fire protection for the district and for a grant toward the organization of a fire brigade. The council assured the deputation that arrangements had been made with the city to provide protection for Swaneson until such time as a satisfactory solution of the problem could be found. In reply to a very definite complaint against the rate at which sidewalks were being laid the reeve made various emphatic statements to the effect that no wooden or other temporary sidewalks were to be laid. Cement walks would in future be made in the first instance.

Protection Against Fire. A report of an investigation of the fire protection for the city cabinet papers, etc. in the treasurer's office and existing measures found inadequate. Recommendations were made to install a cabinet which would meet with approval of the underwriters. Silverthorne G.W.P. again brought up the case of Mrs. Harkness, widow of a local soldier. All the widow's capital and pension had been expended to complete payment of the home and to make the necessary repairs. The children are sick and the house is still in bad condition. The deputation was advised to apply to York County soldiers' relief committee.

The matter of cemetery property was later brought up by the deputation. He cited a case where a block had been bought as a Jewish cemetery and had later been subdivided and parts sold to various congregations. A letter from Mr. McPherson, provincial solicitor, advised that nothing was to be done in the matter. The council will petition for an amendment to the present act.

The waterworks department was instructed on a resolution to purchase a new fire hose on sale at the Imperial Munition Works on the Kingsway. Building is Active. Wm. Deever, building inspector, reported that value of building permits issued by the township during February totaled \$12,420. Seventy-four permits were issued. They are as follows: 20 dwellings, 2 stores and dwellings, 4 garages, 2 stables, and 1 blacksmith shop. The Hydro bylaw will be submitted to all returning officers are appointed. A municipal bylaw authorizing expenditure of \$200,000 will be voted on at the same time.

After some discussion the solicitor was instructed to take up the matter of voting by ballot in the case of elections at rural school trustees and endowments to have an amendment to the public schools act passed to that effect. A request of the trustees of the public school for \$16,000 debentures to complete a six-room school was received, and the council decided to issue \$10,000 20-year debentures at 6 per cent. The matter was referred to the solicitor to prepare a bylaw authorizing this.

There will be a special meeting of the council during the week to complete arrangements for the coming year.

### SIR ADAM TO OPEN BYLAW CAMPAIGN

Will Speak on Thursday Night for Hydro Radial Movement.

Hamilton, March 3.—With Sir Adam Beck speaking here on Thursday night under the auspices of the Hydro Electric Railway Association of Ontario, the campaign to carry the Hydro bylaw in Hamilton will give its official and initial start. The meeting will be held in the R.O.C.F. Temple on Gore street, and will be only the beginning of a series of meetings that the champions of Hydro have planned to hold here with the object of acquainting the ratepayers with the clauses of the bylaw in its entirety.

Despite the fact that the opponents of the bylaw have been working tooth and nail for the past two weeks, the officials of the Hydro Association only turned their first sod today in a field that will develop into a pitched battle between the advocates of "public ownership" and the corporations. T. J. Hannigan, secretary of the association, outlined his preliminary plans this afternoon, which include securing a number of halls where the bylaw will be discussed and intelligently. It is not the intention to confine the meetings only to those who are in favor of the bylaw, but those who are against it, and to give every opportunity to place their arguments before the ratepayers.

Bylaw is Favored. With the time, interest in the cause is beginning to grow and the indications are that before March 15 the public will be at least evenly split. At the present time the bylaw appears to be very much in favor and one of the incidents that have helped the cause of "public ownership" was the meeting used by the Hamilton Electric Radial Company to try and force a higher schedule of rates upon the town of Burlington. The action of the corporation in stopping it also showed the public just what little influence they had in forcing a railway company to live to its franchise.

Again, the fact that Hamilton will become the hub of the radial lines of the province, and that cheap fares will be furnished to Toronto and the Niagara river, are also arguments in favor of the coming election. The citizens are also aware of the fact that the entire fruit belt will have shipping facilities and that rates to and from Hamilton will be cheaper than the steam roads. They also look forward to a boom in real estate, and that they have no outside interests, as the results of the service that the radial line will furnish.

Commission to Co-operate. In the event the commission would be only too willing to co-operate with the city on the matter of an entrance in order that the scheme for the right-of-way would not be hampered, the Hydro officials removed considerable trouble from the path of the bylaw. Another agreeable feature is that the city has to furnish any right-of-way that the commission may require, the expenses of the right-of-way come out of the original fund of nearly six million dollars. While these agreements have not been inserted in the bylaw, the city council will receive them in writing before March 15.

It is also pointed out in connection with the financial end of the matter, that Hamilton has not got to put up one cent. Hamilton has only got to guarantee bonds and the Hydro Electric Railway Association of Canada will raise the money on a railway that runs thru the most thickly populated and richest section of the Dominion. The ratepayers know that when Hydro was first brought to Hamilton they had to guarantee bonds, but they have never had to hand over any of their own money.

While there are great influences backed with large capital striving to bring about the defeat of the bylaw in Hamilton; as the campaign progresses and many of the assertions of the opposition are shown to be merely campaign literature, there is every likelihood that the demand for "public ownership" for the public will grow. To the casual observer, Hamilton appears to be waiting quietly for March 15, but under it all there is a tremendous campaign going on from mouth to mouth and door to door.

### HAMILTON NEWS

Hamilton, March 3.—There is much opposition to the proposal that part of the \$35,000 raised by debentures for the establishment of bathing facilities at Dundurn be devoted for meeting of other parks board expenditures. Dr. H. L. Brittain in a speech here last night strongly condemned the "indecency" through the country to erect memorials as tributes to the soldiers. The Property Owners Protective League is refusing to give information to newspapers which criticize its opposing the Hydro radial bylaw.

At the 66th annual "orphans festival" held tonight in the Grand Theatre, it was suggested that there be a public campaign to raise money to wipe out the three thousand dollar deficit of the institute. The police commissioners at a meeting held tonight raised four constables to rank by the city building fund. Major-General Emilio Guglielmo will address the Canadian Club of Hamilton on Friday night.

NO FIGHT TODAY IN OLD GERMAN ARMY

Full Evidence of Complete Uselessness of Remnant of Force Throughout the Country. Coblenz, March 3.—In the opinion expressed by United States army officers who have specialized on the question of demobilization and readjustment of the enemy forces, there no longer is any doubt about the complete uselessness of the remnants of the old German army now in regimental and battalion departments throughout Germany. These conclusions are based upon a large quantity of detailed information gathered from various sources by the army of occupation. It is estimated in the summary of an expert that there are approximately three hundred thousand men, mostly of the 1899 class, who have declined to volunteer for the new army. They comprise the old army of today in the depots, together with skeletonized staffs of many large and small units. "There is no fight in these men," said an expert today. "The events of the past two weeks have demonstrated that they are as useless in the suppression of internal disorders as they are against Bolshevism or the Poles. One has only to read the

SEAMEN'S CONFERENCE ADJOURNED TO PARIS

London, March 3.—The international conference of seamen, which has been in session here, decided today to adjourn the conference to Paris, thus rescinding the decision to send a committee to lay the case of the seamen before the peace conference commission of the international labor conference in Paris. This served to heal in part the breach over the proposed sending of the committee as the American delegates were opposed to dealing with any agency of the peace conference and declined to accept membership on the committee.

CANADA'S EXHIBIT AT LYONS FAIR

Products of Fifty-Three Firms Constitute a Striking Display. KEEN ENTHUSIASM Committee Formed to Seek Permanent Organization to Foster French Trade. Lyons, March 3.—Enormous crowds, among which were thousands of foreign commercial and industrial men, thronged the grand theatre at the official ceremony marking the opening of the fourth annual Lyons Fair. The whole city was gaily decorated. Jean Coignet, president of Le Commerce de Commerce of Lyons, declared the fair open. The speaker gave tribute to Canada for its participation in the present fair as well as her unforgettable share in aiding France on the battlefield. So crowded are the hotels and pensions with visitors that the question of housing is becoming a serious one, the actual population being more than a million, and already the management of the fair is considering the advisability of splitting next year's fair into two parts, one section to be held in

ALLEGED RACING FRAUD UP IN MONTREAL COURT

Montreal, March 3.—Charged with getting \$65,000 from S. T. Champoux by a fake race track gambling scheme, J. C. Lalonde appeared in the police court this morning. On the witness stand this morning Champoux told of how he had been introduced by Lalonde to a man named Ned Pigeon, who claimed he had a brother in the Western Union Telegraph Company's employ at Albany, how he bet on alleged advance information on horse races this man checked for sums totaling \$65,000 at Albany on races, the poolroom being raided just around the time when he went to get his alleged winnings. The case resembles the gambling scheme that was alleged to have been operated against Arthur Ecrement, who is charged with others with getting \$125,000 out of Michael J. Conolly at Buffalo.

NEW IRISH REPUBLIC MUST LOOK TO WILSON

London, March 3.—At a meeting of the Ultra Nationalist Irish Society in London today, a letter from Edward De Valera, the Sinn Fein leader, who recently escaped from Lincoln prison, written in cipher, was read. The letter contained the following advice to the society: "Providence no opinion on President Wilson. It is premature, for he and his friends will bear our country in mind at the crucial hour."

ALLIED NAVAL LOSSES TOTAL 803,000 TONS

Of This Loss the British Portion During the War Was 550,000 Tons. London, March 3.—The total allied naval losses in the war aggregated 802,000 tons, according to an estimate sent by Reuter's Paris correspondent. Of this loss the British portion was 550,000 tons. The central powers lost 415,000 tons, but the German total, which was 350,000 tons, does not cover the huge tonnage surrendered under the armistice terms. Commenting upon these estimates, The Westminster Gazette says that, "When we get some notion of the tremendous character of the effort approximating the naval losses suffered by the chief powers engaged in the war, 'When we learn that in big ships alone we sacrificed thirteen battleships, three battle cruisers and thirty-five cruisers,' says the newspaper, 'we get some notion of the effort that was necessary to enable the navy to emerge from the war vastly more powerful than it was at the end of 1914.' Nine public schools held night school classes last year, with an average monthly attendance of 266. The cost per pupil was \$21.41.

Will Hamilton Sit on a Door Knob?

In the Hamilton campaign for the bylaw to put the Ambitious City on the map of the provincial Hydro radial system, the opponents of the bylaw are trying to play the people under the mountain for suckers. They assume that Hamilton people do not know any more than a setting hen which may be diplomatically approached with a white door knob and relieved of her eggs, and left in a perfect state of satisfaction with the china knob. The electric "interests" in Hamilton have a fine white china knob which they propose to substitute for the viable eggs of public ownership without getting a cackle out of the hen.

The Hamilton Herald and The Hamilton Times are aiding and abetting the door knob substitution by plausible but misleading appeals to the fears of the property owners. We have been all thru this in Toronto, and know how it feels and how it sounds, and also how it is worked, and we have too high an opinion of the intelligence of the Hamilton ratepayers to suppose that they can be deceived again by the same confidence crowd. The Herald, particularly, should be ashamed of itself, for it knows better and could answer its own Saturday catechism more truthfully than it did.

One of its main points was an outcry against the terrible invasion of the streets of Hamilton, by the people's radial railway. It does not lay much stress on this fact that the railway, wherever it runs, belongs to the people, to the very property owners it asks to reject the bylaw. It tells these property owners that they are being let in for a tremendous liability and that their property will be mortgaged for six millions. But it does not tell them that even were it true that their property would be mortgaged, which it is not, the property owners would then also become owners of the radial railway and partakers of all the profits and benefits that arise from it.

Why does The Herald not tell the people this? Because the electric "interests" who believe in private ownership of all such profits and benefits wish to keep them for themselves, and desire to hoodwink the Hamilton people with their china door knob, and The Herald, for some reason best known to itself, stands in with them.

It is not true that the guarantee of six millions or less asked for by the radial bylaw will be a mortgage on the Hamilton property owners. It will, on the contrary, give them a share in one of the finest paying properties that ever was designed. The traffic over the radial railway to Niagara will become as great a wonder as Niagara itself within a year of the completion of the road. This is why the local private interests wish to block the road and defeat the bylaw. It means putting Hamilton on the map for the greatest stream of tourists that ever patronized an electric road if the bylaw is carried. It means leaving Hamilton to hatch out the china door knob of private interests with all the profits to the favored few, and corporation service of the established trade for the people, if the bylaw be defeated.

All this outcry about the invasion of the Hamilton streets is made up for the occasion. The Herald could have explained the situation if it had wanted to, but it did not suit the private interests to have anything explained to the people. The entrance adopted in the radial plans was the only one available under the conditions by which the city of Hamilton failed to co-operate as it might have done on account of the opposition of the "interests" to the people's radial railways. There is no question as to whether they wish to change it. It is the people's railway, and they can have it run wherever they wish, as long as the proposed route is satisfactory and supplies the conditions of the general plan.

the traffic be so big there will be no liability. If there be a liability then Toronto is not going to benefit.

The real facts are that the road will pay from the start and the property owners of Hamilton will have an asset and not a liability by their share in it. The same kind of talk, only more alarming, was indulged in by the interests when the Hydro-Electric Power System was first launched. It was going to bankrupt Ontario, they were told. Instead it has turned out to be a gold mine. So will the radial railway.

The Hamilton people know that nothing can be hatched out of a door-knob. They know that "eggs is eggs." They will vote for the bylaw and better radial service.

Every day people are being fined and sent to jail for being caught with whiskey, or for selling it or having it in an illegal place. Their trials usually last about ten minutes. In fact, the speed with which the Toronto police court is quite in a class by itself, and it has made the entire continent talk.

In this case whiskey which legally belonged to the government was admittedly given away by employees of the city, and taken away by men who are well known in public life. To say that the spirits traveled when the law forbids would be putting it mildly. They fairly galloped where the men in the parliament buildings had said they should not be on any account. And yet it has taken possibly three weeks to reach a decision.

As for the part which Inspector Pogue played in the little drama, it was perhaps the least offensive of all. He received a telephone message from Sergeant McKinney, telling him that Mr. Archibald wanted some whiskey, and asking him if he had any in the station. He had, and he said he would next part part of his stunt was done when he handed the bottles over to the gentleman upon his appearance at the station. The fact that Mr. McKinney had given him instructions as to what was wanted, and that he had not been given them, there would necessarily have had to be much talk before the whiskey would have been given out.

However, the most unfortunate part of the entire affair is the fact that a bottle was given to another man in the station, altho there appears no doubt that this was done merely an act of kindness on the part of Inspector Pogue.

And now the question is, just what sort of a verdict will be brought in? Certainly if one man is censured and punished, it would seem almost necessary to mete out the same treatment to everyone connected in any case. It might be a good idea for the commissioners to make some ruling, and make it soon. Public mind is such an impatient thing.

It is not true that the guarantee of six millions or less asked for by the radial bylaw will be a mortgage on the Hamilton property owners. It will, on the contrary, give them a share in one of the finest paying properties that ever was designed. The traffic over the radial railway to Niagara will become as great a wonder as Niagara itself within a year of the completion of the road. This is why the local private interests wish to block the road and defeat the bylaw. It means putting Hamilton on the map for the greatest stream of tourists that ever patronized an electric road if the bylaw is carried. It means leaving Hamilton to hatch out the china door knob of private interests with all the profits to the favored few, and corporation service of the established trade for the people, if the bylaw be defeated.

THE PROMOTER'S WIFE By JANE PHELPS.

Lorraine, Morton and Barbara Dine With Mr. Frederick CHAPTER XXIII. The next morning I packed Nell's bag and sent Tonko down with it. I slipped in a little note telling Nell how I loved him; and how even the two days he was to be away would be interminable. Then I kept busy with the Vanderbilt we had ordered, his refusal to allow me to accompany him.

THE FRENCH RIVER A NATURAL WATERWAY

The French is one of the few large streams which supply the great inland reservoir of the St. Lawrence, backed by a drainage area covering 14,000 square miles and the water supply is amply assured. Immediately at its head lies the large Lake Nipissing storage area of 320 square miles. The source of the supply streams lying mainly in the great permanent forest reserves of Timagami and Algonquin National Park preserve it from undue fluctuation and facilitates regulation.

Business matters detained me. And he hesitated—"If I won't intrude, and you are expecting no one else, you know me, I like such a lonely mining man and dine with me?"

"But we have ordered," Lorraine said when he kicked me under the table. I knew she meant for me to accept it. "Make that order for three, and bring me a wine card. We'll have a bottle of very fine wine. Something that won't hurt you," he added, noting the refusal in my face.

Evidently a hotel was more nearly the stamping ground of this westerner; for he was far more at ease than he had been at the house. He knew how to handle waiters, and to order so that we had good service, if he did not know a waiter, he would order a private house. I could see he was making a good impression on Lorraine (and she was very critical).

"Ask anything you like, Mrs. Forbes. I will answer it for you." "Are you a bachelor?" I laughed, and they both joined me at the frank-but-put question. "Yes, I am a bachelor, free white, and a little past twenty-one." He was forty if he was a day. "We were very gay at dinner. Then we took a taxi for the play."

Population. The population of Nipissing District (including Timiskaming), which territory will mainly be served by this waterway, was given in the census of 1901, 23,809; census of 1911, 74,130. This is an increase of 170 per cent. during this ten year period. No definite figures are available since the last named census, but a conservative estimate would place it at 115,000, or an increase of over 400 per cent. in seventeen years. Nipissing and Timiskaming districts hold the record as the fastest expanding area of the Dominion.

No more conclusive evidence can be had of the character of the citizenship of a country or nation, or their substantial progress than the development of education. School Population. Towns... 1903 1917 Rural sections... 2,982 7,119 Totals... 5123 15,685 Increase in school population 210 per cent.

Increase in value of buildings in fourteen years, 717 per cent. These increases ranging from 202 per cent in school population to 717 per cent in value of school plants, indicates progress that has not been exceeded in the same space of time in Canada and possibly none in the world.

THE JUVENILE COURT PROPOSED INVESTIGATION.

Editor Toronto World: As president of the Big Brother Movement, I have been in close touch with the juvenile court since the year of its inception. I hope that this intimate and disinterested co-operation, continued through the administration of Judge Boyd and of the late Commissioner Starr, will entitle me to be heard in connection with this proposed investigation.

The council have asked for a public investigation of the court, and I am enquired, similar to that being conducted as to the property committee of the school board. Anyone who takes the trouble to read carefully the newspaper reports of this enquiry will see that it merely shows the members of the committee to be human like the rest of us, and that in some cases the investigator's hand is better than the committee's foresight. Most of us, however, do not read such reports carefully. We get our news thru the headlines. In a vague way we conclude that so much smoke must be caused by a well-hidden fire. The very existence of the investigation thus causes an attitude of suspicion toward the committee to develop on the part of the public, and the suspicion will not be entirely removed by any verdict of the investigators, no matter how sweeping may be their exonerations.

LEWIS CASE ANGERS SASKATOON LABOR MEN

Saskatoon, Sask., March 3.—A crowded mass meeting of the Trades and Labor Council, to which the public was admitted, was held in the Labor Temple last night to discuss the Lewis case. It was stated that habeas corpus proceedings will be instituted at the court in the chambers at Regina on Thursday. A petition was drafted for circulation thru the city and district demanding Lewis' release for a new trial, and a wire was sent to the minister of justice demanding the repeal of all orders-in-ham that interfered with the liberty of the people, the freedom of the press and the right of trial by jury.

Beard. Bradshaw v. Douglas. McArthur v. Niles Limited. Judge's Chambers will be held Friday, March 6, at 11 a.m. before Mr. Justice Rose. Shaver v. Young. This was an action arising out of the exchange of property known as the Beverly Apartments, for a number of vacant lots in the town of Bassano, in the province of Alberta, and is upon a mortgage given by the defendant, in connection therewith, which has been assigned by the mortgagee to the plaintiff, Mr. Justice Sutherland. His judgment says: Let Judgment be entered for the plaintiff as against the defendant for \$3588.90, with interest at six per cent. from the 29th of July, 1918, and costs of action. Stay for 10 days. Baker v. Toronto; Speal v. Toronto. Mr. Colquhoun on behalf of the city of Toronto moved before Mr. Justice Rose to have the actions against the city dismissed, contending that the city is not liable. The actions are the outcome of the riots of last year, when the White City Cafe and the Sunnyside Cafe were damaged. H. Hartley Dewar, K.C., appeared for the plaintiffs. Judgment was reserved.

AT LOEW'S THEATRE.

The feature at Loew's this week is "Shadows," a Goldwyn picture, starring Geraldine Farrar. The shadows, literally speaking, fall on Muriel Barnes, wife of a prominent Wall Street broker.

AT THE GAYETY.

Fred Irwin's "Big Show," this week's attraction at the Gayety Theatre, is replete with good singing and dancing. The comedy is of a high standard, and the capacity audience that attended the theatre last night were unanimous in their opinion that Mr. Irwin had brought along a "big show."

AT THE HIPPODROME.

Many suitors, a swift running courtship, an enduring season of partnership with a husband devoid of home loving instincts which make a woman's lot in life worth while, this was the experience of Adele Moore in the film drama presented yesterday at Shea's Hippodrome.

"FRENCH FROLICS" PLEASURES.

"French Frolics" of the Star Theatre has brought to Toronto this week one of the brightest burlesque attractions of the age in the "French Frolics." This show, for many seasons, has been one of the big money-makers of the circuit, and is noted for the attractive looking pony chorus.

AT THE MADISON

Large audiences at the Madison Theatre yesterday enjoyed an exceptionally good program. Lucille Lee Stewart has a strongly dramatic vehicle in "The Eleventh Commandment," and reveals herself as an actress of sterling quality.

Looks Like U.T.S. and Woodstock to Battle for the Junior O. H. A. Honors

U.T.S. SECURE A LEAD OVER CORNWALL TEAM

Win Game, Two to One, on Soft Sheet of Ice.

Cornwall, March 3.—The first of a series of home and home games to decide whether the University of Toronto Schools or the Union Jack hockey team of Cornwall would play the winners of the Woodstock-Sudbury series in the Junior O.H.A. was played here tonight before a large crowd.

The second saw the Toronto working better and Galt made some great stops. Jeffrey and Munro went down a couple of times, and it looked like the sure thing, but the local net guardian was equal.

After a long siege Aggett emerged with the puck. Munro and Jeffrey went after him and Aggett shot, but the puck went behind and circled the net and passed out to Aggett.

After a long siege Aggett emerged with the puck. Munro and Jeffrey went after him and Aggett shot, but the puck went behind and circled the net and passed out to Aggett.

The teams and officials were: University of Toronto School—Sullivan, Munro, Howell, Aggett, Jeffrey, Grey, Sube-Gunn and Kearns; Cornwall—Lafave, Kingsford, Tilson, Larose, Sube-Lafave and Grayley.

SEAFORTH ARE EASY FOR COLLINGWOOD SIX

Seaforth, March 3.—In the Intermediate semi-final here tonight, Collingwood won by 7 to 1, winning the championship. The game was fast and clean through, and the northerners clearly demonstrated their superiority over the local team.

Beaches Juveniles Won From St. Josephs

Beaches and St. Josephs clashed at the arena last night to decide the championship of juvenile group 1. After a fast and clean game, the score was 3 to 0. For the winners Denard, Smith and Cavell started, while Morgan, McPherson and Coffey were best for the losers.

Five Toronto Beaches Games Tonight, Arena

The Toronto Beaches Hockey League will fill the bill at the Arena tonight when they will stage two games. The first is an intermediate, one junior and one juvenile game to decide the respective districts.

GENERAL RENNIE THANKS THE CURLERS

Word has been received from Brigadier-General Rennie that the chocolates provided by the curlers of Toronto for the patients in the hospital at Bramshott, England, were received in good order and were very much appreciated by the men.

WOODSTOCK IS READY FOR THE JUNIOR FINAL

Won the Round From Sudbury by Nine Goals—Soft Ice.

Woodstock, March 2.—Woodstock tonight qualified to enter the O.H.A. junior finals by defeating Sudbury in the local arena by a score of 9 to 5, winning the round by a margin of nine goals.

The Hamilton Herald figures the Tigers' chances as follows: The exhibition in no way alarmed the Tiger Club. The feeling is that the Hamilton sextet will step out in front of the curlers and the Tigers will be spared.

STRATFORD BY FIVE GOALS

Galt, March 3.—Galt's hockey season closed tonight when the locals defeated the Stratford Midgets by a score of 5 to 3, but lost the round by 5 goals.

HAMILTON CRITICS SAY TIGERS WILL OUT-BUMP ST. PATRICKS

In Summing Up Senior Finals the Old Confidence Staff Bobs Up Again—Irishmen Will Need to Repeat Saturday's Performance to Win.

It is St. Patrick's and Hamilton in the senior final. The Toronto Irish team surprised many of the fans by downing Kitchener so handsily on Saturday, but they ably demonstrated that they are a great team.

The Saints' game on Saturday would just about any team with something well walled at all times, and had the goods in every department. They checked Kitchener into the ground, their defence drove out every attack, and the offensive was the kind that will carry any team thru.

Program for Friday's Military Boxing Show

SPILL FAVORITES FOR THE WINTER BOOKS AT LOUISVILLE—Other Stakes.

Louisville, March 3.—Eternal and Billy Kelly are equal favorites in the winter books at Louisville for the Kentucky Derby of 1919. That these two great youngsters of last season should continue the undecided battle for supremacy, especially in that stand-out tournament of 1919 will be surprising, but is not over surprising. The race, however, is three months away, and what winter betting there is a bound to be light until the other more promising candidates get to joggling in the open.

GRAND AMERICAN HANDICAP NEXT AUGUST IN CHICAGO

New York, March 3.—During the second week of next November an annual national indoor championship trapshooting tournament will be inaugurated. This event will be held in this city in conjunction with the annual meeting of the American Shooting Association. Forty-six states are represented in this organization and it is expected that all the state champions will take part in the initial indoor shoot. The executive committee of the American Trapshooting Association at its meeting today selected the week beginning Monday, Aug. 11, in which the Grand American Handicap tournament will take place.

Alas, Ed. Barrow Has Given George Whiteman the Gate

The great work of Geo. Whiteman in the world series is being recounted these days because the gate has been again opened back to the minors. He left Toronto the year before and maybe will be back with us again some day. Whiteman has been received from all the major league clubs by Manager Ed Barrow of the Boston Red Sox on Whiteman, who was the biggest noise when the Red Sox copped the championship. In the first game of the 1918 world series "Big Jim" Vaughn of the Cubs represented at fifth base in a scorching pitcher's battles ever contested in the big series, George Whiteman was the only player who succeeded in getting two hits. Twice he saved this game by great catches. Whiteman's three-bagger to the centerfield fence in the second contest scored the lone tally made by his team in that game.

BASEBALL ASSURED FOR WESTERN ONTARIO

Flint, Mich., March 3.—Baseball for Western Ontario and Michigan was definitely assured following the meeting here on Sunday of representatives of the four Michigan cities which will make up the new league, the Western Michigan League, the Canadian end having already been agreed upon. Saginaw, Bay City, Flint and Battle Creek were the towns agreed upon after a long discussion. Lansing being eliminated after it was announced that no organized effort had been made there. There was no representative from Detroit, which is now in London, Hamilton, Kitchener, Brantford, these cities having already complied with requirements for franchises. Final organization will be completed at a meeting to be held here next Sunday, when all eight franchises will be represented. Joe S. Jackson, former president of the old Southern Michigan League, was agreed upon today to head the league, it being understood that the Canadian cities are also favorable to his candidacy. Salary limit for players will depend on classification, which, in turn, is based on the financial resources of the national board.

Challenge Received For the Hough Cup

London, Ont., March 3.—Secretary G. Haines of the Western Footbal Association today stated that he is in receipt of a challenge for the Hough Cup, which is now held by the Toronto club. The offerer, from Woodstock College, Mr. McGregor of the college, in making his challenge, advised that the club will open at Newark, April 30, instead of at Baltimore, as was previously planned. The athletic committee of St. Mary's Club held their annual meeting on Saturday, March 1, and elected Jack Down, the well known hockey player, and former catcher for Ottawa University, as president. The meeting was held at the club house, corner Adelaide and Baiter streets. All players wishing a try out with a real live team are cordially invited to attend. Manager Jack Dore or Mr. J. Wiley, care St. Mary's Club.

LOSE TOMMY THOMPSON; COMMISSION CHANGES

President James J. McCaffery of the Toronto Bath Club returned home yesterday from the New York meeting. He says President Pultz has the lining-up of a great in-flight team of eight swimmers to be sent to Montreal; but that is only a guess. The league season will consist of 134 miles of water, and will open at Washington, D.C., on the 10th of May. The club have signed to contract, the leaves have made an offer to Boston for Outfielder George Whiteman, St. Louis Nationals have also put in a claim for him. Toronto tried to get Jimmy Walsh, but went to Seattle.

FIVE THOUSAND FINE AWAITING DEFAULTERS

Ottawa, March 3.—Fines which may be imposed on defaulters under the military service act are not to be less than \$50, and not more than \$5,000. An order-in-council, amending the military service regulations to this effect, has received the approval of the governor-general. "If a fine is imposed," the order proceeds, "the sentence shall direct that in default of payment of the fine, the person convicted shall be imprisoned with or without hard labor as the case may be, until the fine is paid provided that such imprisonment shall not be for any term in excess of that which might have been imposed for the offence and that the person convicted shall not be liable or compelled both to pay a fine and to suffer imprisonment. The new regulations are applicable to offences heretofore committed and to pending as well as to future offences."

BERLIN MOB HOOTS AMERICAN OFFICERS

Hostile Crowd Also Make Offensive Remarks About the French Mission.

Berlin, March 3.—During a demonstration on the return of General von Lettow-Vorbeck and some of his East African troops yesterday afternoon, a crowd of enthusiasts shook fists and sticks at a number of American officers sitting in the windows of the hotel where the American mission is quartered.

The reception to the former German commander in East Africa savored of the old regime. The imperial flags fluttered everywhere, instead of the banners of the German republic.

SUICIDE IN PORTUGAL OF MONARCHIST LEADER

Lisbon, March 3.—The suicide of Henrique de Paiva Couceiro, leader of the recent monarchist revolt in Portugal, is reported by travelers arriving here from Tuy, Spain.

Senhor Couceiro was at the head of three unsuccessful monarchist revolts in Portugal during the last eight years. In the autumn of 1911 Couceiro invaded northern Portugal from Spain, but his effort was in vain.

PROPOSES REGIMENT OF DOMINION GUARDS

London Paper Says It Would Signalize High Fighting Qualities of Overseas Soldiers.

WILL MEAN TRIUMPH TO MILITARISTS

North Chinese Delegates to Conference in Shanghai Telegraph Resignations.

Shanghai, Sunday, March 2.—The delegates of the northern Chinese government in session here with representatives of the southern governments for the purpose of adjusting differences which have led to fighting during the recent past, have telegraphed their resignations to Peking, asking that they be replaced by "more competent representatives who enjoy the complete confidence of the government."

It is understood that the actual reasons for the delegates' tendering their resignations lie in the fact that the Peking government has failed to satisfactorily enforce the armistice in the province of Shensi, where the military government is reported to have attacked southern forces, and also that Chu Chinchien, the chief northern delegate, is considered as an untrusting mouthpiece, whereas the decisions of Tang Shao-Yi, the head of the southern delegation, are binding on the south.

Observers here believe that if the conference is dissolved the northern militarists will have won a triumph and that the Chino-Japanese military convention providing for the building up of a new army officered by men trained in Japan will go forward.

LOCAL MILITIA OFFICES PLACE FOR ENQUIRIES

Ottawa, March 1.—Since the armistice the militia department is in receipt of an ever-increasing volume of inquiries regarding individual soldiers, the movement of units and kindred matters. The widespread public interest and the natural desire for the fullest possible information is appreciated at militia headquarters, and a considerable staff is kept busy answering the innumerable inquiries forwarded by correspondents from all parts of Canada.

POLICE CLAIM FINDING OF OPIUM DRUG TRUST

Sherbrooke, March 2.—What is claimed to be an organized steamship trust, with probable headquarters in Montreal, and using Newport, Vt., as a gateway to the States, has been unearthed by the police customs officers here, and a large quantity of opium, cocaine and heroin has been seized and two men arrested.

Steamship Company's Report Shows Surplus of Five Million

Montreal, March 3.—The new management of the Canadian Steamship Lines evidently consider that verbiage is out of place at annual meetings, theirs held on Saturday being the first since the merger of the two lines. The president, J. W. Norcross, in part, said:

SPANISH REVOLUTIONISTS FREED

Madrid, March 2.—All persons arrested as a result of incidents late last week in Barcelona, and Madrid have been set free, now that martial law has been rescinded.

OPHIR LEADS IN MINING MARKET

Buying is Heavy and Price Scores Advance—Davidson in Demand.

Ophir fairly dominated the local mining market yesterday afternoon when a flood of buying orders came into the hands of Standard Exchange brokers, and the price of the stock, which had opened firm at 3/4, advanced to 3/8, closing at the top. Transactions in Ophir amounted to 75,300 shares of the day's total of 177,835, and many of the orders to purchase were reported to have come from the north and from New York.

The rumor gained circulation that a strike had been made on the property by the mining union, and the option would probably be exercised, but this report was received with good deal of reserve. It is that as it may, the buying was of an insistent character until the final gong, and the "street" waits in the light on the mystery. Ophir has been so long holding out promise, but proving shy on fulfillment, that the market has long valued the property has grown to be regarded by many traders as somewhat like Captain Kidd's buried treasure, but Ophir may, like some other silver properties, spring a decision to close the mine.

DAVIDSON "DARK HORSE" OF PORCUPINE DISTRICT

Property Has Best Defined Ore Channel in the Camp.

A mining man always likes to see a well defined vein, receptive to which the auriferous solutions can have access. It is a means of concentrating the metal distributed through the rock. If payable values could be found in such rock their veins would not be important; but, unfortunately, they are not. Given an ore channel or receptacle for the circulation of intensely hot water, gold will be leached from the neighboring rock both laterally and in depth and deposited in the veins.

SOVEREIGN STOCK ISSUE TAKEN WITH EAGERNESS

The directors of the Sovereign Porcupine Gold Mines are greatly pleased with the success of the department of treasury shares. There has been a considerable over-subscription, and the company can now get in only at a higher price.

BOOM IN GOLD STOCKS LOOKED FOR IN SPRING

Isbell, Plant & Co. in their weekly market letter, reviewing the situation from the mining end, are confident that the real boom in the gold stocks is coming this spring. We base our prediction on the fact that here we have the Hollinger, the greatest gold mine in the world today, taking on help as fast as they can secure it, increasing their output and generally preparing for the greatest effort in the life of the mine.

BANK OF GERMANY

Berlin, March 2.—The statement of the Imperial Bank of Germany, issued February 22, shows the following changes: Total gold and bullion decreased 1,725,000 marks. MINING NOTES

While there are no visible indications of the Schumacher mine being reopened soon, it is reported that dewatering the workings is to be started within the next few weeks. An appeal against the decision regarding slimes dumped in Peterson Lake from the Dominion Reduction mill will be heard shortly. The decision of two courts was in favor of Peterson Lake.

BULLISH FEELING IN CORN MARKET

Chicago, March 3.—Corn advanced in value today chiefly owing to belief that the \$17.50 minimum hog price would be maintained during March. The close also unsettled was 3/4 to 1/2c, net July \$1.22 to \$1.23 1/2. Oats finished 3/4 to 3/8 to 3/4c, up. Provisions gained 25 to 65 cents.

TRADING AT MONTREAL IS WELL DISTRIBUTED

Montreal, March 3.—The feature of the local market for Canadian securities today was its breadth, and the good distribution of the dealings. Canadian Power stocks were not individually particularly active, but most of the issues traded actively, and at or slightly under the best prices for the day. There was less activity than usual in the bond department, but the local market for Canadian securities today was its breadth, and the good distribution of the dealings.

CEMENT STRONG ON BRISK BUYING

Toronto Railway One of Few Weak Spots - War Loans Buoyant.

Brisk buying of Canada Cement, bringing about a sharp advance in price, provided the feature of trading on the Toronto Exchange yesterday.

The strength of the market was evidenced to shareholders before long some of the profits of war contracts which have been settled, and it is also contended that the company's business during the reconstruction period will be extensive.

The general tone of the market was steady to strong. Dominion Canners advanced a point to 39-2.

Spanish River was fairly active but unchanged at 20-3-4.

Unexplained weakness was shown by Toronto Railway, which ranged between 16 and 45, closing at 17-7-8.

The anomaly is presented of "rails" selling about four points below Twin City, although the former is on a four per cent. dividend basis and the latter not paying dividends.

Winnipeg Railway, also a non-dividend payer, was up a point at 49, the highest price of the year.

International Petroleum at \$22.75 compared with previous sales at \$23.00, the record price for the stock.

The strength of the Victory Loan of 1917 featured the war loans. This loan sold at 101-1-4, the highest price on record, and closed there.

The other loans were steady to firm with brisk buying of the 1923 loan which was strong at 102-7-5 to 102-3-4.

The day's transactions: Shares, 1923; mines, 200; war loans, 3388, 680.

WILL MARKET SURPLUS OF GOVERNMENT COPPER

Producers Reach Tentative Agreement - Rate 13 Cents Per Pound.

New York, March 3.—All the surplus government copper will be marketed for the government by the Copper Producers Association for a period not to exceed fifteen months by agreement with the director of sales of the war department, according to an announcement made here today by the association, which represents 90 per cent. of the copper production of the country.

The agreement, it was said, was tentative, and the copper would be sold by the producers at market prices for the period stated, subject to business conditions.

So far as could be learned, no price was determined for initial sales, but it was indicated that a 15-cents-per-pound rate would prevail for the immediate future.

The agreement is subject to ratification by the war department and the copper-producing companies. The government's surplus of the metal is estimated at 140,000,000 pounds. The copper producers would be allowed the cost of selling from the proceeds of the sale, under the tentative agreement.

ON NEW YORK CURB.

Hamilton E. Wills received the following wire at the close of the New York curb market yesterday: Allen Oil was in splendid demand today, around record high prices.

METROPOLITAN PETROLEUM, Island Oil, and Cosden exhibited a strong undertone, while side buying was again in evidence in Federal Oil, Midwest Oil and Boston and Wyoming were under pressure on account of the fact that the senate failed to ratify the houses' action in passing the oil leasing bill.

Making a Great Gold Field.

West Shining Tree is now coming into the limelight. It is very closely related to Porcupine in its geological features. It was the seat of very ancient mountains wholly igneous in fact, an upheaval of volcanic flow unlike the more recent uplifts, such as the Rockies, partly formed of fragments of pre-existing rocks.

During many millenniums the original lava flows at West Shining Tree were weathering and breaking down, and ultimately their fragments were consolidated into a distinct series called the Timiskaming. In still more recent geological times these came eruptions of granite and syenite, and these occasioned the great gold deposits now awaiting development. They fractured the crust, opened veins of ore channels, generated intense heat and set in circulation great quantities of hot water. And the heat from the dynamical source reinforced the stational heat of the earth, then much greater than it is now.

The original lava flow belongs to the earliest or Keewatin epoch. The granite and syenite came in the late Algonman or metallogenic epoch. Without the latter intrusions West Shining Tree would not have been a great gold field. It has both granite and syenite, indicating two distinct eruptions. Porcupine has only granite. This shows how nature planned what it should be richer than Porcupine. The result of these specially favorable geological conditions can be seen on the Atlas Gold Mines. This great property has the richest ore as yet found in Northern Ontario.

It is probable that something will soon be done with the Atlas. A property of such exceptional merit cannot be allowed to rest now that the gold mining situation is becoming more favorable.
