If we didn't sell so many shoes RAIN STOPPED GAME IN EIGHTH

Whitewashed the Rowdies,
Altrock outpitched Conn at all stages of the game, and the subdued Rowdies never had a chance. Besides, the Toronto southpaw fielded the position brilliantly, his stop of Lush's liner and catch of Phelps' hot shot being of the sensational order. Fast fielding was in order at the outset, Lush and Bean being retired by wonderful catches by Hargrove and Schaub. Tho the turf was soggy, the fast fielding was kept up throut, the only mistake being made by Smith, who fumbled Bonner's sharp grounder in the first innings. Hargrove walked, Bannon was out on a slow grounder to third, Toft struck out, Smith fumbled Bonner's grounder, but almost retired the runner at first. Bruce singled in the run, and Blakey sent a grounder to first.

Bruce and Schaub singled in the fourth, Blakey striking out between hits, and Bemis' fly to Barclay ended in a double-play at the plate.

Toronto indulged in a pretty batting rally in the seventh, that Schaub opened with a single between third and short. Bemis struck out, and Altrock retired at first on a grounder to second. Hargrove hit a double between Lush and Grey, Bannon tripled along the right foul line, and Toft punched a pretty hit over Smith's head, all for three runs, that made the game look easy. Rochester retired 1.2-3, the rain started to pour, and the umpire called the game. Score:

Capt. Andrews Tips Invader.
The Invader was not shipped to Chicago yesterday. The delay was due to the rain on Saturday and Sunday spolling a new coat of paint that had been put on the challenger. The yacht is braced upon a flat car, and will be sent out some time to-day. Capt. Andrews of Oakville, who built the boat. was down at Bertram's yards watching the packing. He will go to Chicago to see that she is gotten into the water all right. Two professional saliors, Billy Fisher and Fred Stoner, will go along with the boat.

The crew, consisting of Skipper Jarvis, George H. Gooderham, Chas. Lowndes, V. T. Hughes and J. S. McMurray, will leave for Chicago on Saturday, while it is likely that Mr. Fred Turner will follow on Tuesday.

When asked yesterday if he thought Invader's chances were good he said he thought that they would bring back the cup, judging from the way the hoats at Chicago are sailing their trial races. Judging from the reports that come from the Windy City it seems assured that the Cadillay will defend the cup.

BUCKET SHOP SUSPENSION.

Editor World: The Toronto Evening News has announced in alarming headlines that we had suspended, and thereby would lead those that did not read the paragraph in question closely to think we had "laid down" on houses doing business with us. Such is far from the truth, since before taking a much-needed summer holiday we notified our clients and paid up every cent of our firm's indebtedness. Windsor, July 29.—It would appear that the disclosure of the discrimination of the freight rate on corn from Windsor in favor of Detroit, which was made by the Board of Trade before Prof. McLean, Commissioner on Freight Rates, has led to a quick redress of the grievance. A reduction of 9 cents per 100 pounds on corn has been announced. The local rate from Windsor to St. John, Hallfax and points in Nova Scotia was 27½ cents. The new rate to these points is 18½c. and the export rate is still lower. Notwithstanding the unpleasant weather

## THE QUICK PACE OF **DECLINING HEALTH**

Wasted Nerves and Weakened Bodies Give Way to Suffering and Disease-The Action of

DR. CHASE'S NERVE FOOD

There are hosts of people who are susceptible to attack of various kinds of iliness. Their systems are ever ready to take on disease. They bend under the slightest trial, and their health is jeopardized by every trivial exposure. They lack resisting power, and health declines because there is no nerve force to make good the waste by disease.

At first elight weakness, stomach annoyance, headache, heart fluttering, trembling of the hands and limbs, restless sleep, indicate something is lacking—that something is nerve force. Until the stock of nerve force is replenished the pace of declining health will increase, until lost vitality is expressed in every move.

Pale, languid, nerve-shattered people find exactly what they require in Dr. Chase's Nerve Food. It supplies the wants of wasted nerves, rebuilds the wasted cells and renews the blood. Its wonderful cures are due to the fact that it restores natural nerve force; and it is lack of nerve force that causes most suffering these days. Brain nerves, heart nerves, stomach nerves give out, and all sorts of troubles follow.

Mrs. M. A. McCrea, Tory Hill, Ont, writes: "My system was all run down when I began to use Dr. Chase's Nerve Food. I was weak and very nervous, and felt so thred and worn out that I could scarcely drag myself about the house. It seemed impossible for me to get rest or sleep at night, and I felt that I was gradually growing weaker and more nervous and irritable. Since beginning the use of Dr. Chase's Nerve Food I feel altogether different. It has gradually strengthened my nerves and built up my system wonderfully. I sleep well now, and am being thoroughly restored to health and strength. I believe it is the best medicine to be had for the nerves."

Change in Sixty-Nine Years.

I have just looked upon two pictures, on ntitled "DeWitt Clinton and Train-1831," entitled "DeWitt Clinton and Train—1831," and the other "Empire State Express—1900." The former shows the primitive locomotive DeWitt Clinton, belonging to the New York Central Railroad, drawing a train of three old Concord stage coaches at its top speed of 15 miles an hour over the 17 miles of track which constituted the New York Central System 69 years ago. It is most conical. The latter exhibits the Empire State Express going at 65 miles an hour, with its splendid train of rolling palaces on a part of the same "system," now grown from 17 miles to 10,453. Cows unprotected from files in summer do as poorly as those allowed to live around the straw stack in winter. J. J. Dixon has the following this even ing from Ladenburg, Thalmann & Co., New York:

The opening of the market was strong and at generally higher prices, extending as far as 2 per cent. in Steel common and 1½ in St. Paul and Union Pacific, while ther Pacific issues were strong and higher. The high opening brought out considerable stock and prices shaded off somewhat from the highest record made. After the liquidation was absorbed prices began to get firmer and St. Paul and Union Pacific touched new record about noon. The news of the day was favorable, inasmuch as the corn bet has had good rains over Sunday and the situation in the steel strike was pointing more to an early settlement. In the afternoon trading the market became professional in character, and most stocks out under small liquidating sales. Murrich, Sheppard, Crane, Graham and Foster, accompanied by Dr. Smith, president, and Mr. H. J. Hill, secretary-manager, visited the Industrial Exhibition grounds yesterday afternoon and decided upon the repairs that would have to be made. The committee is to distribute the funds turned in by the Chinese government among the various powers in proportion to the interest payments due them.
