EMPLOYERS SURE OF VICTORY NOW

Says the Commercial Telegraphers Are Sure to Win

EAST AND WEST

The Whole World, He Says, Is in a State of Unrest, and Condition of Masses Must Be Improved.

BOSTON, Mass., Aug. 28.—The commercial telegraphers will win their strike, declared Samuel Gompers, president of the American Federation of Labor, in an interview last night. "They cannot help but win. If the conditions are favorable to them in Boston, and you know they are, you may be able to surmount how much more favorable and propitious conditions are in the west. It is the first strike that organized labor has had in this country that had its branches throughout the nation. Of course we have had coal strikes that affected the entire country, but the actual battlegrounds were local. A grand chance for organized labor, and it will, I shall address the labor leader gave as his conception of proper use of the injunction. First, it should be used to protect property to only, second, that he who seeks aid should come into court with a hands; third, that it should not be used where there was any other remedy; fourth, that it should not be used to curtail personal rights; and sixth, that it should not be used as a means to set aside trial by jury.

Leaving a bridge he went to police headquarters and calmly announced what he had done. He had not been locked up in a cell. His prisoner's wife telephoned the police and he was taken to the hospital. It then was learned that he was suffering from religious mania.

ELECTRIC SHOCK ROBBED HIM OF LIFE

General Carter's Son of U. S. A. Was the Victim

WAS A STUDENT

While at Work in the Dairy Room of the University of Illinois He Received the Shock Which Caused Instant Death.

CHICAGO, Ill., Aug. 28.—L. H. Carter, son of Brigadier General W. H. Carter, head of the department of the Lakes of the United States army, was killed instantly last night by an electric shock sustained in the dairy room of the University of Illinois at Champaign, where young Mr. Carter was a special student. The victim had been working during the summer months in the agricultural department of the university in order to get some practical experience. His summer term of work was almost ended. Young Carter was stoned dead when found. As is customary in industrial schools, he had been set at the task of polishing and cleaning a combination electric and gas chandelier hanging from the ceiling of a room in the university dairy. He had been working at it for some time when a piercing scream was heard by C. G. Potter, a fellow student, who was busy in an adjoining room in the building. Carter had been standing upon a small stationary engine which reached up to the chandelier. The engine was fastened with bolts driving through the concrete floor and this completed the circuit. A ladder was leaning nearby, and when Potter rushed into the room Carter's body had fallen over against it, both the hands of the dead man were still clutched tightly over the chandelier which had been partly wrenched from its fastenings in the ceiling.

Russian Mutineer Captured After Two Years Search—He Was Homesick.

ODESSA, Aug. 28.—The police of this city have succeeded, after great difficulty, in arresting the sailor Matuschenko, who led the mutiny on board the Russian battleship Kniaz Potemkin in the summer of 1905. Matuschenko had been for two years in New York, where he was employed in an iron foundry. He grew homesick, however, and last July returned to Russia in disguise and under a false name. He settled at Nikolayev and, suspicion being aroused, he was continually followed by detectives. The officers of the law, however, took no action until Matuschenko formed a revolutionary organization. All the members of this band were taken into custody along with their chief, and thrown into the Odessa prison. They will be court-martialed.

A tourist who is in the city this week has had a busy time in his eager search for one of the great attractions of the town. Before coming here, he said this morning to the Times new reporter, he had received a picture post card showing a handsome monument, under which was printed "Champlain Monument, St. John, N. B."

Having looked up the story of Champlain and saturated himself with historic reminiscences while on his way to the city, the tourist upon landing from the steamer asked the coachman to drive him to the hotel by way of the monument. The coachman took him to the Square and pointed out the monument. Upon learning that the monument was the one he had seen in the picture, he was disappointed.

THE TIMES NEW REPORTER

W. C. T. U. fountain, the fountain at Market Square, the fountain at Haymarket Square, the fountain at Indian tower, and the Martello Tower.

Saying things to himself about the stupidity of coachmen, the tourist went to his hotel, had supper, and asked the clerk to tell him how to find the Champlain monument. The clerk referred him to Mayor Sears. He went to City Hall and found it in darkness. Recalling a citizen he asked the way to the monument, and showed him the picture of it. The citizen said he had never seen it—it must be in Halifax.

By this time the tourist was in a most ferocious mood. He stopped men and women, interrogated policemen, and soon became an object of interested regard on the streets as the lunatic with the picture. He slept little last night, and next morning found the

mayor. He spent the day on the job, had another restless night, and late on the following afternoon located the mayor on the street. His worship listened attentively to the story and finally said:— "I am very sorry, sir, but I don't know myself where the Champlain monument is at the present time. We have been buying building it for a year now, but I do not know where it is or how you would find it. If you could come this way on your holidays next year I might get the committee together and find out what they know."

TOWN OF AMHERST IS PROSPEROUS

No Basis for Recent Alarmist Report Concerning Its Industrial Establishments. Replying to a recent article in the Halifax Herald stating that some of its industrial firms were sore-pressed financially, the Amherst News says: "It is true that in one or two instances owing to the stringency of the money market, some of the newer industries have been handicapped for money for development purposes, but the trouble was largely of a temporary nature, arising from unexpected conditions in the money market. "The old industries were not in the least disturbed by the action of the banks. Their resources were such that without embarrassment they could easily meet the terms of the banks. More than that, the capitalists of the town have shown a willing spirit to come to the rescue of the one or two industries that were temporarily embarrassed. Where the banks shrunk from the task, individuals have stepped forward and in a few brief weeks we expect to see the wheels of industry in our town once more revolving. "There is not in Amherst today an industry but which has orders to keep it a bank in town the stood to lose a dollar. The whole trouble arose from the fact that the expansion of our country is rapidly distancing our monetary and transportation conditions. "In Amherst today building is active. There is a great demand for labor. Wages have orders in abundance. The only trouble is that money is scarce and if it were as easily obtained as it was three years ago we would have half a dozen new factories in our town this year. "Every town in Canada is experiencing the same trouble as Amherst only with this difference, that here individuals and industries are readily meeting the adverse circumstances that suddenly came upon them and are rising superior to the situation. "Before the snow flies the men of this town, who have faith in Amherst and faith in Canada, will have successfully grappled and overcome the temporary embarrassment that they experienced. "Amherst is all right. Its industries are on a solid basis and the men at the head of them are not to be overcome by the tightness of the money market."

NORTH SHORE WELCOMES LEADER OF OPPOSITION

Great Reception Given to Messrs. Borden and Bergeron at Newcastle Last Night--Dr. Daniel and Senator Poirier Among the Speakers.

Newcastle, N. B., Aug. 27--Newcastle greeted Mr. Borden and his party tonight with flags, music and with an immense audience representing not only this town but the whole North Shore. The Opera House was by no means large enough to hold the people who thronged the streets anxious to hear the Conservative leader announce his platform and criticize the party in power.

Mr. Borden and Mr. Bergeron after the splendid meeting here tonight, left on the midnight train for Quebec, where their tour of the maritime provinces had been most successful. Certainly their visit has aroused the North Shore, interested the whole section of country, and put the Conservative party in fine fighting form and both he and Mr. Bergeron received a reception worth remembering. Dr. Daniel and Senator Poirier, who also spoke tonight, were loudly cheered and very evidently made an excellent impression here.

A representative gathering of local Conservatives assembled at the station to greet Mr. Borden on his arrival. Those present were W. A. Hickson, president of the County Liberal-Conservative Association; James Robinson, ex-M. P.; D. Morrison, M. P.; Senator Poirier, John McKean, R. L. Malby, John Dalton, D. Creighton, A. A. Davidson, K. C.; John Ferguson, R. H. Armstrong, Chas. Dalton, R. H. Gremley, R. A. Lawlor, K. C.; J. Adams, H. S. Parker, John Clarke, John McAllister, Dennis Doyle, W. Dunn, Charles Dickinson, Thomas Russell, T. M. Butler, George Sides and others.

The Ocean Limited arrived about ten minutes late and among the first to alight was the Conservative leader, who followed by Mr. Bergeron and Dr. J. W. Daniel, M. P. The visitors were introduced to those present and a short drive round the town followed and the carriage drove up at the Miramichi Hotel, which was Mr. Borden's headquarters during his visit.

At 7.30 p. m. the town band commenced playing a selection of music outside the hotel and a little before 8 o'clock Mr. Borden and those with him entered a carriage and proceeded by the hand drive to the Opera House. He was accorded a very hearty reception as he entered the building by the large audience which had assembled and again on taking his seat on the stage.

Mr. Hickson, president of the association, occupied the chair, having the leader of the Conservative party on his right and Mr. Bergeron on his left. Among those occupying seats on the stage were: John Ferguson, John McKean, James Robinson, ex-M. P.; Col. R. L. Malby, D. Morrison, M. P.; J. W. Davidson, R. A. Lawlor, K. C.; Chatham.

After a selection by the band the chairman, Mr. Hickson, briefly referred to the speakers of the evening. He was followed by Dr. Daniel who was first introduced and he gave a very interesting address. He was followed by Senator Poirier, who spoke in both English and French. He was both witty and eloquent.

Mr. Borden was the next speaker, and on rising was received with great applause, the audience waving their hats and cheering again and again while the band played the strains of "For He's a Jolly Good Fellow." He said:

"Mr. Chairman, ladies and gentlemen, let me first say it affords my friend Mr. Bergeron and myself a great pleasure to see so many fair ladies present. It has been our good fortune to be supported throughout our tour by very many of the fair sex. I am convinced that the ladies of Canada are with us, or the majority of the ladies of Canada, that it is equalled by no similar community in Canada. (Laughter.) A married man realizes that he has to do as he is told, in fact, as a leader of the opposition, he must have certain bond of sympathy with every one who is married or to be married. (Renewed laughter.)

He referred to the great success that had attended all the meetings. When we were in Glouce Bay with its wonderful resources of coal and iron we realized that if we have a great west we have also a great east. Then we passed through the beautiful Annapolis valley across the Bay of Fundy to the city of St. John, a community whose pluck and enterprise for the future of their port is equalled by no similar community in Canada. And now coming to this part of the province we are more than ever convinced of the great future before the maritime provinces. Canadians do not yet realize their heritage, but we are coming to be united Canada, a national spirit is arising and I am convinced the future holds in store more than our most ardent hopes.

The Conservative party stands, at the present time, in opposition. It went into opposition in 1896, after being eighteen years in power, and as my friend Bergeron would tell you during all that time little was brought out in the way of maladministration and what was brought out was punished.

Since his speech in Halifax setting forth his policy, Mr. Borden continued, the Liberal organs had expressed some doubt whether he had any policy or whether his policy was a new one or if it was the first that he had ever announced. If the Liberal press said that he had withdrawn anything from his Halifax policy it was untrue. It was impossible to go over all the points at each meeting but he stood by every word of the programme then outlined and would do so as long as he remained in public life. (Cheers.)

Mr. Borden then turned to the discussion of several of the leading features of his policy. He touched on the question of public franchises, civil service reforms, better business management of the I. C. R. and reform in elections.

PEOPLE OF NOTE

Nicholas I of Montenegro

Nicholas I, the reigning prince of Montenegro, was born on October 7th, 1841. He was educated at Trieste and attended the University of Paris. On August 14th, 1860, he succeeded his uncle, Danilo I, as Prince of Montenegro. He was married on November 23rd, 1860, to Milica Petrovna Vukobratovic, a Russian lady of high rank and great wealth. The heir to the principality is Prince Danilo Alexander, who was born on June 29th, 1871. His yearly income is about \$20,000, to which Russia adds \$100,000 annually and Austria \$50,000 a year under an old diplomatic agreement. The Prince is a member of the Greek church and is strongly Russian in his tendencies.

The sobriety said: "What did you talk to that old coat for?" Burns replied:

"I was talking to the Man." "He kept his honesty and truth, his independent tongue and pen, And moved in manhood as in youth, Pride of his fellow men."

I said: "Hannah, you are wandering in your mind." She said: "I know it, most people wander and don't know it."

She opened Whitman and read, his grand, comprehensive poem: "The Open Road." God's Great Highway of Life. All on the one-way-beggar and king, The happy and sorrowful. The differences were superficial. God dispensed His true riches to all. Only weak minds abused the privileges allowed by destiny. The rich could be blessed by the poor; the poor by the rich. Hannah closed the book and quoted from Bunyan:

"I will not shut me from my kind, And let I stiffen into stone, I will not eat my heart alone, Or feed with sighs the passing wind."

Hannah is still trying to come to an explanation of civil administration. It will be a great benefit to have the water soaking through the country. In old times when people depended on wells, a circus paraded the town, a thirty elephant put his trunk over a garden fence and drank a well dry, causing a water famine in the locality. Hannah says before the irrigation plant is turned into a water system the people's pockets will be so empty they won't afford butter-milk at one cent a barrel.

I said: "What about the Ludlow?" She said: "You mean the Harbor Nickel, aren't you?" Hannah said: "Any way, I'm told they have the tub on wheels. Earl Grey and party went to the Close School Farm in it, thinking they were in a motor car. Coming back, the Superintendent of Terminals sat on the bow in great anxiety, fearing the Ludlow from habit would make for Navy Island bar and give the visitors an adverse impression. Egyp's Sphinx was only thirty feet high, but it was a real riddle in St. John. I've tried to solve them with algebra-taking X as the unknown. The only result I can get is X X X."

Hannah faintly answered, Yours, BUCKWHEAT.

THE HARVESTERS

WINNIPEG, Aug. 28--After travelling continuously for over five weeks, the contingent of harvesters from the Maritime Provinces, who left St. John, N. B., on Monday night, pulled into Winnipeg on the first of three sections of the excursion from the far east on Saturday. As the train drew into the station the men, about 1,500 in all, fatigued from their long journey across the continent cheered lustily.

LONDON, Aug. 27--The Earl of Dunmore, Charles Adolphus Murray, the most prominent Christian Scientist in England, who last December visited Mrs. Mary Baker G. Eddy, at Concord, N. H., died last night at Trimbley Manor, Canterbury. He had not complained of being ill, but was suddenly attacked by illness and died before a doctor could be summoned.

Miss Annie Gosnell has returned after spending two months visiting relatives in Boston and vicinity.

HANNAH MIXES POETRY AND PROSE

Editor Times: Sir--I told you in my last epistle that the Mayor's kind visit started Hannah's thinking plant in full operation. She told me to bring her a quin of foolscap paper and pencil. I noted Queen Elizabeth--"Life is a bog, trip over it lightly; if you stop to think you will sink." She replied "Pascal solved problems unsolved for centuries." She'd use all her learning and catch spiders in their own web. As I hunted for the writing material, Hannah laughed like a school girl. I said "Tell us the joke." She said she was thinking of a coincidence her mother told her.

"Jack Lovet was a colored gentleman, place of residence, east end Duke street, some fifty years ago, occupation, any old job. Like Shakespeare he cultivated the Muse. He wrote verse with facility. One day he met Captain Hancock, another prominent citizen. Hancock made his living fishing in the harbor. Hancock said to Moody: 'I'll bet you a barrel of fish you cannot make a poem.' Moody's ready response was:

"My name is Moody Lovet To take a barrel of stinking fish I think myself above it."

Hancock died, "Unwept, unhonored and unused."

Moody's wife was St. John's social event of the last century. The elite of the city were there, our forefathers all. Many afterward were leaders of city life, editors, judges, doctors, etc. There were things to eat and much to drink. If an American ambassador was present he partook of the spirit of the occasion, which was cosmopolitan. There was no color line. No division between life and death. All felt so sorry for Moody, they put a pipe in his mouth, and he seemed the most alive at a lively wake:

"How many a father have I seen Who's youth was full of foolish noise, Who wears his manhood hale and green A sober man among his boys."

Hannah said the old stock of men and women were big-hearted and broad-minded. Now a few dollars or a smattering of school books made people forget that one ocean of blood fills all veins. Hannah quoted from Cowper:

"Knowledge is proud that he has learned so much; Wisdom is humble that he knows no more."

Hannah asked me to hand her down a volume of Walt Whitman. She said Beecher once remarked--"The lowest cabin with Shakespeare appreciated is a better evidence of true culture, than a millionaire mansion, with its vulgar display of wealth and vacant minds." "He is never alone who is accompanied by noble thoughts."

Hannah said Robert Burns was with a nobleman one day, when he saw a poor man across the street. He asked to be excused, and went over and greeted the poor fellow heartily. When he came back

DR. BAND AND BURLINE ON TOP

Former Carries Off 2.16 and Latter 2.19 Events at Chatham.

Chatham, N. B., Aug. 27 (Special).--The race held at the M. A. B. A. speedway today were attended by about 1,200 people and although the weather for a time looked threatening the afternoon turned out fine.

The first event put on was the 230 class and out of the eight entries two were special. Cecil Mack and Max Mack, both Fredericton horses, having failed to get into the first heat, Belmont led for a short distance but broke and was passed by Desmeto, the best going to Domestic with Belmont second and Belladonna third. In the second heat Domestic again got first place and Belmont and Belladonna had a hard fight for second. Domestic finished about half length ahead. The third heat was most exciting, Belmont surprising the crowd by finishing first place from Domestic in pretty style. Belmont drove a better race than Belmont, finishing third place in this heat. The fourth and last heat was heavily contested, with Little Don second and Belladonna third. Best time, 2:24.

Four horses started in the 219 class--Burline, Krennle, Miss Kadmee and Parker. Burline, the best, won in 2:16. Burline, in three straight heats, Krennle second and Miss Kadmee third. It was a good race and Burline made a splendid showing. The best time was 2:16.

The 118 class had three starters. Dr. Band, Will Be-Sure and Will Be-Sure, and they decided in three heats, although Will Be-Sure broke in the second heat. This was a good race, not one of the horses breaking in any heat. Dr. Band, in three heats, finished first, second and third. Will Be-Sure, in three heats, finished second, third and fourth. Best time, 2:19.

The officials were: Starter, C. S. Dorrithy, Waterville (Me.); Judge, S. D. Heckler, W. S. Hooper, Fredericton; J. C. Peirce, Charlottetown; R. A. Lawlor, Chas. L. Dewitt, Bridgetown (N.S.); and Edgar Aye, Sackville.

Tomorrow afternoon the 221 class and the free-for-all will be run off. The management of the track is offering a prize of \$100 to the horse lowering the track record, which is now 2:09.

HORSES AT CHATHAM FOR MEET

A big string of horses are now stabled at the race track. Among the arrivals of the last day or two are--Leon O'Leary, Band, Domestic and Ruth Wilkes; Thoa, Holmes Terrace Queen, Miss Leiba, Burline and Little Don; Chas. Henry's Will Be-Sure, Dr. Farron and Belmont; H. A. Gibson's Meadowvale; F. Boothillier's Major Wilkes, Krennle and Sammie; Dr. McAllister's Belladonna; Fred. Dunne's Laura Merrie, and M. Berry's Parker. The track record will be lowered (if possible), at least the horse men are talking that way. The record is now 2:10 3/4--Chatham World.

VALUABLE MARE CHANGES HANDS. Mr. Ford, Ryan has sold his handsome and stylish road mare, Gerrie Parkside, by Parkside, to Mr. C. O. Black, a prominent lumber merchant of Nova Scotia. The mare is private, but it is understood that the price was among the highest ever paid for a road horse in Sackville--Sackville Tribune.

CROKER MAY NOW TRAIN AT NEWMARKET.

LONDON, Aug. 26--The stewards of the Jockey Club have revoked their decision forbidding Richard Croker to train his horses at Newmarket, and Mr. MacCabe, Mr. Croker's manager, has now applied for and received a license to train Mr. Croker's horses there.

MacCabe will bring over a small string from Ireland for a month toward the end of the season, but his residence at the Nichols, Philadelphia, will be only temporary.

Lajoie, Cleveland, .291. Spencer, St. Louis, .291. National. Wagner, Pittsburgh, .341. Doyle, New York, .304. Clarke, Pittsburgh, .298. Hofman, Chicago, .297. Beaumont, Boston, .285. Magee, Philadelphia, .285.

THE HARBOR CHAMPIONSHIP

When is it to be Rowed?--Is Belyea to be Re-Instated.

As the time cannot be far off for the harbor championship, it might not be amiss to again enquire as to what has been done with reference to having Hilton Belyea's suspension removed. It now appears that Belyea is a member of the Marathon Athletic Club, and should that be so, would it not be the duty of that club to take up his case. The M. P. A. A. are not likely to be in any hurry to reinstate Belyea, and if the clubs here do not take any interest in the matter, why should the Maritime body take an action. The Marathon Club have done a lot for sport in this city and have given support to many good local men, would it not be fitting for the organization, if at all possible, to get Hilton Belyea back into the rowing game here, so that by his entry for the harbor championships, rowing may be boomed.

FOOTBALL Trainer John Mack of Yale will go to New Haven within a week or ten days to prepare for the football season.

Yale expects to have a great team this year with all of last year's freshman material to draw from, and Mack wants to meet the boys as soon as they return from the preliminary practice.

Tea will be served this afternoon on the grounds of the St. John Tennis Club. The Fredericton Tennis Club have accepted the invitation of the local club for a tournament in this city on Labor Day.

DEATH SUDDEN IN TWO CASES

William P. Rourke, an aged carpenter, residing at 323 Princess street, and widely known as an anti-tobaccoist, passed away at 11 o'clock last night, having been stricken with paralysis at 4.30 o'clock in the afternoon, while engaged at work in the residence of Mrs. E. G. Skinner, 223 King street.

Mr. Rourke was born in Dublin and came to this country when a young man. He had been a member of the Orange Order and was much respected. He will be best remembered, however, by his crusade against the use of tobacco. Years ago he organized the Anti-Tobacco Society, and its membership being made up mostly of boys, the work done by Mr. Rourke proved lasting. He was also the author of several articles denouncing the habit, and his style was very vigorous.

Mr. Rourke leaves his wife, three sons and two daughters. The sons are: George, William and Thomas, all in the Western States. Miss Elizabeth Rourke and Mrs. Peter Stirling are the daughters. The funeral will be held on Thursday at 2.30 o'clock from the late residence of deceased.

High Bell, aged about 68 years, a tailor in the employ of J. N. Harvey, died suddenly while at work yesterday afternoon. Mr. Bell was apparently as well usual yesterday morning, but about 2.30 p. m. complained of pain in his chest, but on a drink of water being brought him he became better.

A little later he went to the water tap and there was found ten minutes later, lying on the floor dead. Dr. W. A. Christie was quickly called by Mr. Harvey, but he could do nothing as death had been practically instantaneous. Heart trouble was the cause. Coroner Berryman was notified and gave permission for removal of the body and Undertaker Chamberlain removed it to his rooms. The other events consisted of a shock to Mr. Harvey and all in the establishment.

"Ned" Hanlan gave an exhibition of the expert handling of his shell, his performance being one of the features of the day's sport.

ARE STILL CANADIANS Canadian visitors to Dublin may expect to receive a warm welcome from the present Irish Visery and Lady Aberdeen. But let them watch their words. One such visitor the other day let slip some slighting remarks about "you English people." "Please don't forget," interrupted Lady Aberdeen, "we are Canadians." And she added, "You see my husband is allowed no privilege over here. In Canada he has a vote, being a Canadian farmer (by virtue of his Ontario fruit farm); in England he is classed with miners, women, and paupers, and he doesn't like it. So we're still Canadians, wherever we live in Canada or not."

The Fairville fire department acknowledge with thanks receipt of \$25 from Geo. S. Cushing as a testimony of appreciation of services rendered at the recent mill fire.

"I suppose you'll be an agriculturist when you grow up?" "No'm, I'm 'goin' to work on this farm, that's all."

"Any luck, my boy?" "Purty good luck! Dere's only been two old inquisitive guys along sakin' me these days."

"What are you goin' to give at the preacher's donation party, Mandy?" "Lands sake! Nuthin' Why, I give the preacher a real store nizzle that cost 10 cents at his donation party only three years ago!"

DO NOT BE HUMBUGGED.

More than ever, [dishonorable and disreputable pharmaceutical concerns are flooding the market with cheap and worthless preparations designed to be imitations of Dr. Fowler's Extract of Wild Strawberry.

Some of these are even labelled "Extract of Wild Strawberry," "Wild Strawberry Compound," etc., in the hope that the public may be deceived and led to purchase them, thinking they are getting the genuine Dr. Fowler's.

Are you willing to risk your health--perhaps your life, to those no name, no reputation, likely dangerous, so called Strawberry Extracts.

For sixty-two years Dr. Fowler's Extract of Wild Strawberry has been used in thousands of families for Diarrhoea, Dysentery, Colic, Cramps, Summer Complaint, Cholera Morbus, Cholera Infantum and all Bowel Complaints.

Do not let the dishonest or unscrupulous dealer humbug you into accepting one of these cheap substitutes, to the detriment of your health and gain to his pocket.

Ask for Dr. Fowler's and insist on being supplied with it. See that the name The T. Millum Co., Limited, Toronto, Ont., is on the wrapper. Price 35 cents.

BEANSEY IN A BAD MIX-UP

Gets Stabbed in a Knife Fight in Montreal Saloon.

A fierce fight occurred on Saturday night in the saloon at 9 West Dorchester street, Montreal, between two men well known in pugilistic circles. As a result "Beansey" Lefebvre, the local heavyweight was taken to the general hospital in a police patrol wagon, bleeding profusely from five wounds in his back, which had been caused by a knife. Lefebvre accuses James Queenan of having done the stabbing. Queenan arrived in this city from Australia about a year ago, and in the short period at his disposal has created quite a reputation for himself.

What Hundreds do Do You Do?

What do hundreds do? Hundreds eat Scotch Zest Bread every day!

And why? Because, once upon-a-time they were eating some ordinary kind of bread, and when they found the real merits of Scotch Zest Bread nothing else would satisfy them.

You found a good solid loaf that don't crumble when cut; they know it's pure, sweet and clean, and keeps moist three days.

When you know Scotch Zest Bread as hundreds do perhaps you'll do as they do--eat it.

STRIKE AVERTED BY COMPROMISE. FALL RIVER, Mass., Aug. 27--At a conference of the committee representing the Fall River cotton manufacturers and the weavers' union today, an agreement regarding the standard length of a cut of cloth was reached and a strike affecting 25,000 operatives was averted. The committee declines to state the nature of the agreement before tomorrow, but it is understood that the standard length of a cut will be 27 1/2 yards hereafter. AN UGLY BLAZE LAST EVENING

Considerable Damage Was Done and Two Firemen Were Somewhat Injured.

As a result of a fire which broke out last night at about 9 o'clock in Rowley's carriage factory and blacksmith shop, that place and a small coal shed in the rear were badly gutted. A barn owned by W. H. Charlton in the rear was totally destroyed, and Michael T. Cavanaugh's shoe store adjoining Rowley's on the south was greatly damaged.

The alarm was rung in by Mr. Cavanaugh, who, standing in the doorway of his house, saw smoke coming from the Rowley shop. The firemen were quickly on hand but as it was seen that the fire was a bad one, a second alarm was rung in. It was three hours before the blaze was under control.

Two firemen were slightly injured. John J. McAndrews, of the west end hook and ladder, fell about sixteen feet into a blind alleyway between the Nugent and Cavanaugh houses and had to be driven home, and John Hamilton, of No. 1 Hook and Ladder had his arm burned.

Wm. P. McLaughlin, foreman of the street department, who lived in the second story of the Cavanaugh house, lost everything, having no insurance. Mr. Cavanaugh had \$400 on the building, with White & Calkin.

Edward McDonald is the owner of the property, included in which was the fire shop and Davis' coal shed. He had \$500 in the Western. Mr. Davis had no insurance, and estimates his loss at \$1100. A horse belonging to Colin Chisholm in the Charlton barn was rescued.

Mr. Rowley is the heaviest loser. He had considerable stock which, with his tools, will be a total loss, having no insurance. Also in his shop was a coach belonging to David Watson, which was being repaired. This was also burned. The Salvage Corps covered Cavanaugh's stock with their covers.

First Arrival of Fall Waistings

CHARMINGLY EMBROIDERED FLANNELS, NOVELTIES IN ALBATROSS AND SOME RADICAL AND FETCHING DEPARTURES IN FLANNELETTES.

The Ways of the Weaver Are Devious, likewise the arts of the dyer, and the first of this fall's waistings to reach us introduce a wealth of novelty schemes that will captivate prospective wearers. Each season suggests some new idea to the manufacturer apparently, and his motto seems to be "Elaboration, Perfection." General style tendencies of the approaching season are indicated in the way these new goods are patterned and colored. All warm in weight, and warm in tints and tones.

Embroidered Flannels and Albatross. Even at this early stage we are enabled to present a choice assortment in design and colors, for instance: white grounds with sky blue, Nile green, red, pink, old rose, navy blue, and green and black embroidered figuring. These come at 46c., 48c. and 55c. per yard, width 27 and 28 inches.

Silk Striped Cashmere, a strikingly pretty goods for waists suited to the season now almost upon us. In such genial colors as navy blue, garnet, sky blue, rich reds. Also in a delicate cream ground with small printed designs. Of all the pretty waistings booked for the autumn this line is sure to be one of the favorites.

Fancy Striped Albatross--The development of the striping idea is cleverly exemplified in new patterns to be found in albatross of this quality. A long time ago it might have been thought designers had used up all possible schemes in the way of stripes, but this season's supply demonstrates otherwise. In red, green, sky grey and champagne. 48c., 52c., 60c. yard.

Flannelette Waistings, large and almost completely new line of these materials both woven and printed. In black, navy, red, green and sky. Spots, stripes and figures. Prices range from 75c. to 50c. per yard. While our Special Cashmere Finish Flannelette in all colors and neat designs for waists and children's dresses sells at 16c. only.
