Baird, Fredericton Grammar school.

The three highest in the above list are: Mildred O'Brien, St. John; Alice These Card, Dorchester; Lloyd Groaty, St. George.

(Special) Fredericton, Aug. 10.—Miss Kathleen P. Baird, winner of the Lieutenant Governor's medal for York County in the high school entrance examination is the fourth member of one family to lead the county entering high school. She attended Charlotte street school in the department of the principal, Miss Sarah L. Thompson. Her brother, Percy, won the medal last year and previous to that it was won by her sisters Annie and Margaret.

LIQUOR PEOPLE GET INJUNCTION

Federal Officials Had Seized Liquor in Bond from Canada to U. S.—A Further Study of Law Planned.

Detroit, Aug. 10.—A temporary injunction restraining federal officers from interfering with shipments of bonded liquor in transit from Canada through the U. S. was issued by Judge Arthur T. Tuttle, in U. S. district court here yesterday. The injunction was issued on petition of Hiram Walker & Sons, Ltd. of Walkerville, Ont., who claimed that John A. Grogan, internal revenue collector, and Richard I. Lawson, revenue inspector of customs, had seized shipments of liquor in violation of the trade treaty of 1911 between the United States and Great Britain.

The bill of complaint cited several instances of alleged interference by the two officials and charged that twenty-five cases consigned to Mexico City were seized on Feb. 15 last after being delivered to Collector Lawson for shipment through the U. S.

The court announced that the injunction would stand until further study of the law had been made.

Syracuse, N. Y., Aug. 10.—John Jarmin, 44, of Idaho Falls, was found dying beside the railroad tracks near Orem, Idaho, shortly after six o'clock this morning. Nineteen cuts about his head, indicated an attempted murder, state troopers here. It is thought by the authorities that he was thrown from an auto. His wounds had been partly dressed.

POLICE COURT

Evidence Given in Case of Alleged Receiving of Stolen Goods.

The case against Robert J. Ritchie, charged with being the receiver of stolen goods knowing them to be such came on today. Albert Cammack said that he is a witness he would tell the truth. The witness then said that when he went to the Red Head road and handed a radiator, two wheels and some smaller parts to the Great Eastern Garage, Charlotte street.

Cammack said that Mr. Ritchie came to see him about the parts and he told Mr. Ritchie that if he called to collect the witness he would tell the truth. The witness then said that when he went to the burnt automobile at Red Head on the night of June 15 two men whom Mr. Ritchie said would be there were not at hand. He found them, however, at a store on Red Head road and they went with him to the burned car, where the men loaded the parts on their truck. The witness said that he did not know either of the men at the car at the time but recognized Fawcett as one of them.

TWO LONGER GAMES ONLY

St. Louis-Washington Game Yesterday Almost a Record.

Red Sox Take Tenth Straight Victory—A Few More Home Runs—Late Sport Items.

New York, Aug. 10.—The nineteen inning game won by the St. Louis Americans over Washington yesterday had been surpassed in length only twice in the American League. Philadelphia and Boston were tied in 1906, and the same teams went twenty innings in 1905.

The major league record is twenty-six, held by the Brooklyn and Boston Nationals, in a one to one tie last year.

In yesterday's game, Davis, of St. Louis, pitched the entire distance and did not allow a hit in the last nine innings.

The Boston Americans won their tenth straight victory over Detroit by taking two games from the Tigers.

Musel of the New York Yankees knocked a home run in the eighth and tied the score with Chicago, but the latter won on a triple and five dourer.

The batting of Welch and Walker enabled the Philadelphia Americans to beat the Indians.

Three New York National home runs were not enough to offset the heavy batting of the Chicago team, consisting of a triple and five dourer.

The Cubs won in the tenth.

Pittsburg, Pa., Aug. 10.—Babe Adams, veteran Pirate pitcher, in winning from the Brooklyn Dodgers yesterday, achieved his ninth straight victory for the season, and set a major league record so far this season.

Grimes have won eight in a row in the National League, while Harris, of the Athletics has done as well in the American League.

Cleveland, Aug. 10.—Four races are on today's card, the third day of the Grand Circuit meet at North Hills.

Two of the races are features. The Stallion stake, with a value of \$2,000 is the second race, it is for three year old trotters and has nine entries.

The second feature is the Press stake, worth \$5,000. It follows the champions' stallion stake for 2:16 trotters and has 12 entries.

The two events are the 2:06 pace, purse \$1,200, ten entries, and a 2:12 class pace, purse \$1,200, with ten entries.

Richard Renews Lease. Jersey City, N. J., Aug. 10.—Promoter Tex Rickard has renewed for one year his lease on the arena at Boyle's Thirty Acres, where he staged the Dempsey-Carpenter battle.

The promoter stated he intended to arrange a four hour fight between Dempsey and the most logical opponent. He is negotiating for another contest between Dempsey and Willard, but has stated he first must be assured that Willard can get into condition for such a contest.

RAILWAYMEN TO REFUSE AWARD OF LABOR BOARD

Toronto, Aug. 10.—An indication that railwaymen generally are disposed to take a firm stand against proposed wage reductions was given yesterday at the convention in Massey Hall of the Brotherhood of Railway Carmen during the address of Grand Chief Warren Stone of the Brotherhood of Locomotive Engineers.

Mr. Stone stated amidst the applause of the assembly that his organization was determined, according to the terms of the contract, to refuse the recent award which the U. S. railway labor board had given which would reduce wages by ten cents per hour decrease in wages.

A BIG FIRE IN THE BATUM OIL AREA

London, Aug. 10.—Fire is raging in eight oil wells in the suburbs of Batum, the great oil centre in Asiatic Russia, according to advices received here today from Baku, Esthonia, by the Central News Agency.

NO NEW FIRES ARE REPORTED TODAY

Fredericton, N. B., Aug. 10.—(Special) No new fires have been reported to the department of lands and mines since the heavy rain of Monday.

At Deer Island, Charlotte county, trouble still is being caused by the fire which broke out some days ago. The residents of the place are fighting it. Other Charlotte county fires are not out although big crews are patrolling and fighting the fires. One hundred are on one fire there, Westfield and Charlotte county are now the only two serious fire districts in the province.

WESTFIELD FIRE SITUATION MORE REASSURING TODAY

(Continued from page 1) able to maintain toll service with a break of about one hour only.

Gaffan Operators. Great credit is due the operating staff, particularly Miss Myrtle Porter, chief operator, and Miss Vera Watters, operator. These two young ladies remained at their post all through the raging fire. It might be mentioned that Miss Watters received word that her home was in great danger, but Miss Watters insisted on "doing her bit" at the switchboard. Incidentally her home, which is situated on the west side of the street, as well as every bit of clothing she possessed other than that she was wearing at the time, was completely destroyed. The service was disconnected, these two young ladies worked like Trojan heroes until relief came from the city.

Officials of the company early on hand were O. J. Fraser, general superintendent; W. R. Pearce, chief engineer; S. B. Ebbett, superintendent of traffic, and F. J. Night, exchange manager. The company lost about thirty poles, six miles of copper wire, 1,500 feet of cable, 25 crossarms and fittings, and about thirty telephones, amounting in all to about \$5,000. Work of installing local service was completed last night, and permanent work will be finished the latter part of the week. The company did all in its power to assist Chief Fire Warden G. H. Prince in his duties of directing the fire fighters.

Thrilling Time. A report that the Peters' cottage at Lingley was burned on Saturday is incorrect. The fire scorched the grove, burned some of the back fences, and the grass on three sides, but neither the cottage nor its contents were injured, nor the garden. Even a robin's nest in the trees was not destroyed. The Misses Peters, however, had a thrilling experience. With no knowledge of the actual conditions they were leaving their home to come to the city when Mr. Perkins called to them to ask if they were not going to seek refuge beyond the Nepesic stream. When they reached the road they saw neighboring houses in flames. They were taken across the stream, where they were met by the fire engine and taken to the city.

One of the outstanding features of the fire is the accomplishment of the N. B. Telephone Co. in maintaining communication and replacing poles and wires. When the fire on Saturday took on a serious aspect, the Westfield operator notified F. J. Nisbet, Exchange Manager, at his home at Renfrew. Mr. Nisbet immediately got in touch with J. E. Marshall, superintendent of construction, and he with members of his staff rushed to the scene to size the situation up. Mr. Marshall ordered out all available construction men to the number of 25 or 30, who by their promptness in responding succeeded in saving the telephone exchange, enabling the company to maintain an almost continuous service so necessary at such a critical time. The company assigned a special operator at main exchange whose duty was to handle emergency calls to and from the Westfield district. The entire staff of the Stores Department worked without let-up all through Saturday night and Sunday, forwarding material and supplies.

LOCAL BOYS TO RACE AT CAPITAL

Grenville McCAVOUR, Donald McCAVOUR, Raymond McIntyre and William Logan left this morning on the steamer D. J. Purdy for Fredericton, where they will compete tomorrow in single scull races, held under the auspices of the Fredericton Boating Association. Grenville McCAVOUR, champion juvenile oarsman in the Maritime Provinces, will meet McIntyre, while Donald McCAVOUR and Logan will race. The object in having these boys race there is to endeavor to revive interest in this line of aquatic sports, as it is thirty years since a sculling race was held at the capital. McIntyre and Logan will wear the R. K. Y. C. colors, and the McCAVOUR brothers the St. John Amateur Rowing Association colors. Tomorrow a number of local citizens are expected to leave to be present at the race.

INFANTILE PARALYSIS REPORTED IN FREDERICTON

Fredericton, Aug. 10.—(Special) Three cases of suspected cases of infantile paralysis have been reported to the sub-district boards of health of Fredericton and York county. One case is in this city and two are in the town of Devon.

Dr. D. W. Ross is attending one of the Devon cases and the others are attended by Dr. H. H. McNally. The little son of Mr. and Mrs. J. H. Ramsay, of this city, has had the disease for several days. The little daughter of Mr. and Mrs. Joseph Lewis of Nell street, Devon, was reported with the disease Tuesday, and this morning another case in the family of Mr. and Mrs. Joseph Lewis was reported.

Harvest Excursions via "Canadian National"

30,000 Urgently Needed To Garner In The Bumper Wheat Crop of Canada.

To garner in Canada's bumper crop of golden grain, 30,000 harvesters are needed from Eastern Canada.

From all parts of New Brunswick there will be special fares by special trains on August 4th and August 10th via Canadian National Railways. The fare from St. John to Winnipeg by these trains will be \$20.00.

There will be proportionately low fares from Winnipeg for those returning. The fare to points beyond Winnipeg is one half cent per mile.

Special accommodation will be furnished on these excursion trains. Lunch Counter Cars will be carried, serving meals, and the best type of Convertible (berth) colonist cars will form the equipment.

There is a fine opportunity for those who wish to visit the west and participate in the harvesting. The rates are extremely moderate, and the accommodation most comfortable.

Particulars regarding these excursions can be secured from the City Ticket Agents of the Canadian National Railways, 40 King street or by writing F. W. Robertson, General Passenger Agent, Moncton, N. B. 8-15.

It is reported that Stines plans to invest a large amount of capital in industrial enterprises in this country, and he is said to control one of the most important German importing and exporting houses here. This concern is understood to have purchased large tracts of land in his behalf, and that this territory will be used for industrial purposes. It is also known that Stines has invested in valuable oil lands which are being developed near government oil fields, and that he expects to employ his steamship lines as adjuncts in the building up of these enterprises.

BROUGHT UP ANCHOR.

Relic Had Date 1839 and "V-1-16" on It.

St. Catharines, Ont., Aug. 10.—While engaged in getting sand out of Lake Ontario near the Belle Hury at Niagara-on-the-Lake, the crew of the sand sucker Baxter Dick brought up a large anchor which is a relic.

It weighs at least half a ton, with a length of about six feet and flukes two feet long. On it is inscribed the date "1839," the number "3387," and also the following: "V-1-16." About 100 feet of heavy steel chain is attached to the anchor. That it has been in the water a long time is proven by the fact that stones and sand fill the crevices of the chain and of the anchor itself as solidly as if cemented in.

THE DANGEROUS CIGARETTE.

Ottawa Journal.—The man who drops a lighted cigarette or cigar end without stopping to extinguish the fire any place where there is a possibility of its doing damage is guilty of deliberate lawlessness. It is believed that the dropping of a cigarette butt on a rug caused the fire which has done damage to the great steamship Mauretania. If such was the cause, the person who dropped the cigarette was not ignorant of the

MORE Nutrition at LESS Cost

STEW DAYS come oftener in these times of strict economy. But stew days become gratefully welcome when FIVE ROSES dumplings add their rare deliciousness to the savory mess.

Light and porous as the crumb of well-risen bread, airy fairy bits of toothsome nutrition.

Did you know that, weight for weight dumplings are over five times as nutritious as beef? The g uten in the flour is "the lean of the wheat." In easily digested form your stew dumplings made from

FIVE ROSES FLOUR FOR BREADS, CAKES, PUDDINGS, PASTRIES

contain the muscle-building, blood-forming elements so plentifully stored up in the best Manitoba wheat. A little left-over beef or meat scraps will go a long way when you pop FIVE ROSES dumplings into the stew, besides jumping up its sustenance value enormously.

Thus are you able to secure more nutrition at less cost.

All about Dumplings for Stews

Send to-day for the famous FIVE ROSES Cook Book and learn to bake with that waste. In its 144 pages you will find over 200 tested cake recipes, hundreds of d restions for pies, biscuits, pastries and 50 infallible rules for bread-making, already in use by over 300,000 ambitious housewives. Mailed for 10c, stamps or silver. Dept. "D" LAKE OF THE WOODS MILLING CO., LIMITED, Montreal and Winnipeg.

A DREADFUL CRIME

Never have the citizens of St. John been shocked by a more brutal crime than the murder of the little girl Sadie McAnley. It seems incredible that even the worst of degenerates would commit such a deed, and the more so that the victim was a crippled child. A crime so revolting to every human instinct cannot fitly be characterized in mere words. This girl went with a little friend to a place that was lonely, though close to the homes of the people, with no thought of danger, and never dreaming that any human being could have evil designs upon her. Advantage was taken of her lurch today an individual upon whose soul lies the double crime of outrage and murder. There are no extenuating circumstances. The worst passions to which the worst of men could give rein have made a crippled little girl their victim. One cannot but believe that this was the work of a degenerate who should not have been permitted to go at large. Persons of normal mentality do not commit such crimes. There is apparently a partial description of the murderer, and this clue should be followed up with diligence. Whoever remembers seeing such a man as the other little girls describe should make it known to the order that the crime may be completely brought speedily home to its author. It is a horrible thought that a mere girl may not be safe within the limits of this city from deadly assault, and that there is at large a creature so inhuman as the murderer of Sadie McAnley.

THE CHIEF RABBI

St. John has extended a hearty welcome to Very Rev. Dr. Hertz, Chief Rabbi of the British Empire, who is completing an Empire tour in the interest of the Jewish communities. Old men can remember when there were only two or at most three Jewish families in St. John. Today there are Jewish merchants in the city, besides skilled artisans, and the Chief Rabbi was able last evening to address more than four hundred of his own people, to whom must be added other hundreds, and great numbers of children. Jews have come here from many parts of Europe as well as the United States, and it is to their credit that however poor they may be, they soon become self-supporting, if not owners of property. Their children attend the schools and the people of Jewish faith are law-abiding. Only a few weeks ago the first Jew from St. John set forth for Palestine, which under British control offers more inducements to the descendants of the ancient Hebrews than any period since the scattering of the people to the ends of the earth. The outlook for the race has been improved beyond reckoning by the great war, and the days of bitter persecution draw to a close in these portions of Europe which were stained with crimes against this people. It is therefore under most happy auspices the Chief Rabbi tours the Empire, which has ever afforded a refuge to his people, and even raised them to the highest places in the realm of politics as well as enabling them to become leaders in the business world.

AFFAIRS IN CHINA

The following interesting summary of present day conditions in China appear in the New York Evening Post:
"The present situation in China is like the ferment of elements in a test tube during a chemical experiment, before the reaction is completed and the precipitate formed. The rivalry between the northern coalition at Peking and the southern coalition at Canton continues, both groups claiming to be the rightful government of all China. The northern administration of President Hsu Shih Chang is supported by the powerful northern military governors and has the advantage of diplomatic recognition and relations with other governments. The southern administration of President Sun Yat Sen includes various political groups formerly represented in the first republican parliament and basing their contentions on the provisions of the constitution adopted after the revolution of 1911. The southern government is at war with the military governors of surrounding provinces hostile to its democratic influence; and meanwhile, in the north there is strife between the military leaders who nominally support the Peking authorities, but are actually independent. The next few weeks promise significant developments in China, as the contending factions strive for decisive control before the international conference in the fall."
A stable government for all China does not appear to be among the early possibilities. For a long time that great country with its teeming millions will be chiefly concerned with internal affairs. If the time ever arrives when the call of patriotism will come to every citizen, and a China united looks out upon the world, conscious of its own strength, there will be a different story to tell about international relations.

BRITISH RAILWAY BILL PASSES ITS THIRD READING

Provides for the Payment of £60,000,000 Compensation on Withdrawal of Government Control.

London, Aug. 10.—The House of Commons last night, by a vote of 287 to 62 passed the third reading of the railway bill, which provides for the payment of £60,000,000 as compensation to the railways on the withdrawal of government control this month and also for a new grouping of the railways, for economic working and various other forms, including a settlement of the freight rate question and wages.

HOPE FOR END OF LABOR BATTLE

Difference Between Canadian and International Railway Brotherhoods May Be Adjusted by New Constitution.

Toronto, Aug. 10.—When the Trades and Labor Congress of Canada meets in Winnipeg this month, delegates from affiliated organizations will be asked to draft a new constitution which is being drafted by George Kelly, barrister, Ottawa, on instructions from President Tom Moore of the executive council of the congress. The new constitution will be urged as a result of a decision of the congress that the congress had no power to revoke the charter of the Canadian Brotherhood of Railway Employees. The Canadian Brotherhood is marshalling its forces under President Mosher to give it a commanding position in the congress and there are indications of a keen fight between Presidents Moore and Mosher, with prospect of a termination of the battle between the Canadian and International Brotherhoods which has dragged through several conventions.

CARUSO'S WILL READ IN COURT

Does Not Provide for Wife and Child, But They Will Get Bulk of Estate.

Naples, Aug. 10.—The will of the late Enrico Caruso was read in court yesterday before Mrs. Caruso, Giovanni Caruso, his brother, and one of the singer's sons. It was an instrument written in 1918, and although it was his last will, it did not mention Caruso's wife and daughter. According to Italian law they must receive the greater part of the estate. Only the remainder, after they have been provided for would be at the disposal of the testator. Attorneys are now proceeding to make an inventory of the estate.

BIG REDUCTIONS IN TAXES AND EXPENDITURES

Washington, Aug. 10.—Reductions of approximately \$600,000,000 in taxes and \$250,000,000 in government expenditures this fiscal year were agreed upon late yesterday at a conference between President Harding, Secretary Mellon and Republican leaders of the House of Representatives, including members of the ways and means committee.

The gold medal which Frank Garnett, 122 Brunels street, received for capturing the provincial skating championship at Moncton last winter was lost somewhere in the uptown district last evening. Mr. Garnett had the medal attached to his watch fob. As he values the medal very highly he is hoping it will be returned.

From the local branch of the Labrador Mission another large case of warm clothing is to be sent off to St. John's this week. The first consignment was sent about one month ago and it is now as late in the season as supplies can be shipped. It is principally men's heavy clothing which is being sent, as this is what is most urgently needed.

Following closely upon the announcement on Monday night by P. W. Thomson, manager of the New Brunswick Power Company, that it was the company's intention to sell twenty tickets for a dollar came the notice last evening from F. A. Campbell, president and manager of the Union Bus Company, that starting this morning his company would also sell twenty tickets for a dollar.

Hon. F. B. Carvell, chairman of the board of railway commissioners, arrived in the city yesterday morning and left again last evening for Ottawa. Mr. Carvell said that he was in the city on purely private business. When asked if there were any further developments in regard to the lowering of freight rates, he replied that he had nothing to say at this time other than that he thought the rates would soon be lowered.

For the relief of fire sufferers the provincial branch of the Red Cross society has answered several calls. Yesterday three large boxes of clothing for men, women and children were sent out to those who lost everything in the Westfield fire. The supplies will care for the immediate needs of the families which have received them. One kind friend sent money to the society to use for relief work, and this is being expended where the need is greatest.

ESSAD'S BODY LIES IN PARIS MORGUE

Has Awaited Burial Since His Murder Fourteen Months Ago.

Paris, Aug. 10.—Fourteen months ago Essad Pasha was murdered in a Paris street. Today his body is still lying in the municipal mortuary, awaiting burial.

In his life Essad counted for something. He had more enemies than any other Balkanic potentate in a country of Albania he was the first, or at least the most spectacular figure that has appeared for centuries.

In Paris he lived in royal splendor, cutting a figure that many kings cannot afford in these lean days. When he derived the money to pay for the style he maintained was ever a mystery, but nearly all Eastern European fortune hunters are mysterious.

The man who shot him was an Albanian student. As his crime was political he, happier than Essad, is still alive. And Essad, the powerful saviour of his country, the friend of presidents and kings, the favorite or plague of ministers, according to their policy, popular, hated, a splendid figure in the society of half a dozen European capitals, lies in his lead and ebony coffin among the poor-wretches unknowns of the municipal mortuary, with none to give him burial.

To attendants and administrators of the stuffy, lugubrious hall he is known as "No. 17."

MRS. E. B. EDDY PASSES AWAY

Ottawa, Aug. 9.—Mrs. E. B. Eddy, widow of the former president of the E. B. Eddy Limited, Hull, and a widely known philanthropist worker died this morning at her home, "Dunars," on the Ojibway Road.

The late Mrs. Eddy was born fifty-two years ago at Chatham (N. B.). In 1894 she married E. B. Eddy, in Halifax (N. S.) and a few years later took up her residence in Hull. She took a whole-hearted interest in her husband's large mills in the Hull district, and on his death she became a director of the concern. Mrs. Eddy is survived by one son, Mrs. H. J. Richardson, of Sunbury (Cal.) and one daughter, J. T. Eddy, a director of the E. B. Eddy company. Interment will be made at Chatham (N. B.), although definite funeral arrangements have not been completed.

House Mourns Halifax, N. S., Aug. 10.—"Everyone associated with Dalhousie University will have heard with deep sorrow of the death of Mrs. E. B. Eddy, of Ottawa. It is not merely because she was one of the outstanding benefactors of the University, but because she endeared herself by her personality to every Dalhousian with whom she came in contact," says a statement issued by President Stanley McKenzie, of Dalhousie.

DIVORCED TWO AND CHOOSES A MINISTER Prospective Bridegroom Has Been Rector of Church of the Ascension, N. Y., for 28 Years.

Mrs. Rita Lydig of New York, former wife of Major Philip Lydig, and prominent in society, has announced her engagement to the Rev. Dr. Percy Grant, rector of the Church of the Ascension, Fifth Avenue and Tenth street.

Mrs. Lydig took a prominent part in the suffrage movement and during the war served as chairman of the Social Welfare Committee of the Mayor's Women's Committee on National Defence.

In 1895, when only sixteen years old, she married W. E. D. Stokes, whom she divorced. She married Major Lydig in 1912 and obtained a final decree of divorce from him in Paris in 1918, on grounds of incompatibility. She has been a communicant at the Church of the Ascension and actively identified with the various relief and charitable projects of the parish.

Dr. Grant has been pastor of the Church of the Ascension for twenty-eight years. During this period he has been a leader in the liberal movement within the Protestant Episcopal Church. Dr. Grant is sixty-one years old, and his prospective bride is forty-two.

One night last May a baby girl, ten days old, was left at Dr. Grant's door. He took the wail in and installed her in a nursery on the third floor of the rectory. It is said that his coming marriage will not affect his intention of keeping the baby.

RECENT WEDDINGS Cummings-McLeod. A wedding of interest to a wide circle of friends was solemnized in Knox church at nine o'clock this morning when Lillian Isabel, daughter of Mrs. Christina McLeod, and Roy Ernest Cummings, son of Mrs. Edith Cummings, were united in marriage. The ceremony was performed by the Rev. J. H. A. Anderson. The bride, who was given away by her brother, Robert F. McLeod of Montreal, wore a navy blue suit with hat to match and seal fur, and carried a bouquet of Ophelia roses. Immediately after the ceremony, Mr. and Mrs. Cummings left for a yachting trip on the St. John river. On their return they will reside at 139 Orange street. They were the recipients of many fine presents, including silver service set from the employees of the A. R. Williams Machinery Co., where the bride was formerly employed, and a handsome mantel clock from the groom's fellow employees in M. R. A's.

Stores Open 8.30 a.m.; Close 5.55 p.m.; Friday 9.55 p.m.; Saturday 12.55 p.m., until the end of September.

WIDOWS BLESS ALLOWANCE ACT

Mrs. Shortt Tells of Workings of the Scheme—Two Thousand on Roll.

(Toronto Globe.)

Mrs. Adam Shortt, who has just returned to Ottawa after attending sessions of the Commission on the Mothers' Allowance Act, has given an interview, in which she says that in the two weeks she was here one hundred and fifty cases were re-considered and 647 new cases attended to, besides all the administrative work there is in connection with the carrying out of the act.

Every day five or six new cases are investigated and added to the payroll, which now has the names of more than two thousand mothers with upwards of \$8,400 a month being paid out. Just a year ago the commission was appointed, although the act only came into effect in October and the first allowance paid out in November.

Mrs. Shortt stated that the only delays now in the carrying out of the work are found in local boards, especially where the investigators have a large area to cover, and never in the delay due to the commission. Many complications have arisen over the moving of families from one municipality to another. These complications are also found when families come in from other provinces, except in the case of families from Saskatchewan, where the Mothers' Allowance Act at once admits all those coming under the act from other provinces, and where this is done the province of Ontario reciprocates.

Grown Children Help.

"There is no fault found by the counties as to the amount of the allowance and there seems to be a growing knowledge and appreciation of the fact that the allowance when given is reduced by five per cent. of the equity and property and a proportion of the income of wages from wage-earning children," said Mrs. Shortt.

The act, which came into effect the first of July, which compels children to support their dependent parents or grandparents, will also affect the allowance, for with wage-earning children in the family the five per cent is deducted. The Adolescent School Act will also affect the allowance, as real judgments will have to be made where the children who are wage earners will then be sent to school. The commission has been busy clearing up all other work in order to be ready to take up the influx of work which is sure to follow when the Adolescent School Act goes into force.

The commission has received a large number of letters of appreciation from mothers, some of whom had put their children in institutions and were scarcely able to support themselves, as the following extract from one will show: "I thank you sincerely for the kind and prompt attention which you gave me. I assure you I am very grateful for the assistance given me. An most anxious to take up my home duties again."

Check Brings Joy. Another reads: "I received my check and I am very glad. The allowance sends happiness into the hearts of poor little fatherless children. I can only offer my gratitude and thanks, and they are

able of doing his work," said Mrs. Shortt. "Much trouble has come through the feeble-minded mother with illegitimate children, which shows the great necessity of an institution where these feeble-minded women may be properly trained."

In conclusion, Mrs. Shortt said: "Ottawa, in proportion to its population, has a larger number of beneficiaries on its payroll than any other place in Ontario."

No Effort Will be Spared To Find Inhuman Murderer

City Offers Reward for Location of Man Who Caused Death of Sadie McAuley; Inquest is Opened

Many rumors were afloat last evening that the murderer of little Sadie McAuley had been apprehended, but all proved groundless.

The arrow indicates the spot on the steep slope leading from the rear of the Hilyard property in Douglas avenue where the body of little Sadie McAuley was found.

Finally, she said, she got frightened and started over the hill towards Douglas avenue, accompanied by the other two children.

Phyllis Wilson was able to give a clear and concise description of the man, which is verified by the older two children.

Stella Wilson and Edna Walsh were also near the scene when this man was talking to this group of three children.

At the regular meeting of the city council, yesterday afternoon, Mr. Thornton mentioned the finding of the body of the little McAuley girl and said it appeared that a brutal murder had been committed.

Mr. Jones thought that a reward of \$500 should be offered at once. Mr. Prink said that a reward was desirable, but Mr. Thornton should have a free hand to engage experts to locate the person or persons who committed the crime.

At a recent session of the game reservation board here delegates from island game associations testified domestic cats were killing off so many birds that a substantial bounty should be offered for their hides.

The game associations do not worry about the depredations of wolves, which were so troublesome a few years ago on epidemic of influenza among the pecks in 1918 having practically exterminated them.

15TH OF SERIES OF ITALIAN MURDERS

Another Killing in Vendetta Planned in Inner Cabal of "Whiskey Curb Market"

New York, Aug. 10.—Working on the theory that the murder had been ordered by some inner cabal in an Italian "whiskey curb market" in Cherry street, detectives are attempting to reconstruct the details of the shooting of an Italian on Saturday night on the links of the Jackson Heights Golf Club.

The police count this as the fifteenth of a series of murders attributed to an Italian feud or vendetta that had its origin in bootlegging activities. Although the police as yet have no definite evidence to support their theory, they point out that it is certain that some strong force led La Monica to a spot so remote that it is certain that some strong force led La Monica to a spot so remote that it is certain that some strong force led La Monica to a spot so remote.

NICARAGUANS INTERESTED IN WESTERN WHEAT

Proposal to Produce on Extensive Scale—Will Probably Aggregate 80,000 Acres

Saskatoon, Sask., August 10.—Paul D. Sheridan O'Leary, of San Sebastian, Nicaragua, who passed through here recently, said he had been commissioned by South American capitalists to inquire into and report fully upon a proposal to produce wheat on an extensive scale in western Canada, areas that will probably aggregate 80,000 acres or more.

Mr. Sheridan said that his principal had come to the conclusion that raising the staple product of wheat is worth trying. "But they first want certain data," he said. "You see these people, practically all of us in South America, and the adjoining portions of South America are in coffee and sugar extensively. The bottom has suddenly dropped out of the sugar and coffee. They have been so greatly impressed by Canada that they mean to have a try at it. They propose to work upon organized lines a very considerable wheat growing project, buying the land, certainly, but organizing the development upon an extensive scale that perhaps is more frequently observed in South America than in western Canada."

Champlain Honored In A Tardy Tercentenary

Penetanguishene, the Little Harbor Where He Landed in 1615, Celebrates the Leader of the Hurons and Algonquians.

Robert A. Curly in New York Evening Post.

Penetanguishene is the tenebrous name applied by the Algonquians of Georgian Bay in Canada to the "rolling sands" along whose shores the canoe bearing Samuel Champlain first grounded on the hundred and six years ago, when that voyager went to sharpen the tomahawks of Huron and Algonquin against the arrows of the Iroquois. The Historical Society of the town issued a call to all true lovers of history to join in the celebration of Champlain's landing on August 6. The chronological tardiness is explained as due to the war of 1812. Since the present European settlers introduced the ancestors of the present European settlers to the "shining white sands" of Penetanguishene in 1798, but little was done in the way of establishing a post there until the year of 1812-3. Towards the close of that struggle a naval establishment was proposed and partly erected on the point. In 1815 an army depot was moved there, which was increased ten years later to such proportions as to attract many of the Riverfront traders. A glance at the list of the present inhabitants reveals the fact that they are predominantly of French origin, forming almost a "Quebec-of-the-Woods." By act of the Ontario Legislature on March 10, 1882, the town became incorporated.

Any story which centres about this settlement of the Northern Lights is irreversibly bound up with the tale of Samuel Champlain. He was born in the seaport town of Brouage, in western France, which was the shifting scene of war and peace—with the Huguenots and peace under a flourishing silk industry. His knowledge of practical navigation stood him in good stead. "This is the art," he said, "which in my earlier years won my love and has induced me to expose myself almost all my life to the impetuous waves of the ocean." At the age of twenty-two he was placed in command of a French ship and sailed to the West Indies, where he visited Cuba, Panama, and, finally, "the beautiful city of Mexico." He returned to France in 1601, but in 1603 again voyaged across the Atlantic, this time visiting the shores of Newfoundland and the lower reaches of the St. Lawrence. He became governor of Quebec five years later "after long and painful expectations in the waters and among the In-

SAW BRITISH COLUMBIA GROW

Premier Oliver Arrived Six Years After Its Union With Dominion—Fiftieth Anniversary.

Victoria, B. C., August 10—On July 20 British Columbia celebrated her fiftieth anniversary as a part of the Dominion of Canada. The intervening years have witnessed the rule of twelve lieutenant-governors and nineteen premiers, running from J. F. McCreight, Q. C., to John Oliver.

At the time of the confederation of British Columbia the present premier was living with his parents in Grey County, Ontario, but six years later he came west to homestead in British Columbia, so that his residence here has been almost contemporaneous with the history of the province since confederation.

"When I came to the province in the spring of 1871," said Premier John Oliver, "Victoria was a small town, as was also New Westminster, which was familiarly referred to as 'Stumpdown,' while Vancouver was a non-existent town. Steam communication between Victoria and the mainland at New Westminster was semi-weekly when the Fraser River was open. Mails were carried from Westminster to Moddyville by stage and ferry. Communication with the interior was by stage or pack train. There was a steamer between Victoria and San Francisco tri-monthly and a kile of standard gauge railway in the province.

"Compared with present day conditions the changes which have taken place are marvellous, and no doubt the progress of the past is only an earnest of the which is to come. With their limitless resources the united provinces of Canada will no doubt attain a greatness which would without union have been an impossibility."

CAN CARRY IT ON THE HIP IN B. C.

Victoria, B. C., August 10—It is not unlawful for a man buying liquor from the government under the new Moderation Act, to put a portion of it in a small container for the sake of convenience if he should wish to take a little refreshment on an outing, according to a ruling in local police court.

The decision is considered of great interest to many persons who have wondered what status a man with a "leak" on his hip would have under the new act, which stipulates that liquor must have the government's official seal, and the decision opens up a wide range of possibilities as to the government's ability to trace liquor that was originally sold under the act properly sealed and transferred to smaller containers for the owner's convenience.

In his ruling, the magistrate remarked that if a man bought a demijohn full of liquor from the government it could hardly be expected that he would pack the container wherever the owner wished to take some liquor.

AMBITIOUS CRIMINAL

Robert Holland, sentenced in New Orleans to serve from eight to twelve years for the robbery of a branch of the Bank of Montreal, in a statement said he was glad to be sent to the penitentiary so he could fulfill his boyhood ambition to become a writer.

"I am going to read and study for the first four or five years," he said, "and then I'm going to try to write. I've always had a hankering to write. Just watch my smoke when I get started."

More miles—less money—

USE the correct grade of Imperial Polarine Motor Oils and maximum mileage from your lubrication money is assured. You cannot buy more real lubrication for your dollar than that which you get when you specify Imperial Polarine.

Imperial Polarine Motor Oils coat every moving part with an oil film which cuts down friction drag and reduces wear. They slow up carbon troubles. You get more real motoring satisfaction, as well as more miles, for less money if you use, exclusively, the correct grade of Imperial Polarine Motor Oils.

Our Chart of Recommendations shows the grade especially suited to your type of car. Standardize on this grade. Consult our Chart at your dealer's. Our new booklet, "Automotive Lubrication" also contains the complete Chart, besides other interesting and valuable information. Write to 56 Church Street, Toronto, for your copy.

IMPERIAL OIL LIMITED

FOR A CLEAN EFFICIENT MOTOR

Your crank-case should be drained and cleaned at least every thousand miles. You will get more pleasure out of your car and will materially reduce operating costs if you employ crank-case cleaning service regularly. Dealers displaying this sign give all crank-case cleaning jobs prompt and expert attention. Such dealers use Imperial Flushing Oil. It takes out all grit and dirt and does not impair the fresh supply of oil as would be the case if kerosene (coal oil) were used.

WHY McClary's Sunshine Furnace

Pipe or One Register (PIPELESS) Is The Best For You

DURING seventy years' experience in furnace and stove building, McClary's have discovered many valuable improvements and embodied them in their furnaces.

McClary's have been pioneers in every kind of warm air heating plant used in the homes of Canada.

Both types of McClary's Sunshine Furnace, Pipe and One-Register (Pipeless) are built on the most practical lines.

Before deciding upon a pipeless or one-register furnace, it is desirable to have the opinion of an expert to advise you whether you should use a pipe or one-register furnace.

McClary's stand at the back of their Sunshine furnaces, not only on the construction of the furnace, but on its performance. They guarantee that the furnace is well built, and, when correctly installed, that it will do its work with whatever kind of fuel you burn.

McClary's can guarantee the proper installation of their furnaces, because they have chosen only qualified men in each city and town in Canada to sell Sunshine Furnaces.

These men not only know how to properly install a furnace, but they can advise you intelligently whether a pipe or one-register furnace is best for your need.

Back of their opinion and service is the largest furnace and stove making institution in the British Empire.

The McClary's Sunshine Furnace would be a good one for your home. Why not investigate it?

Write for a booklet about Sunshine Furnaces and how they are installed and guaranteed.

Sunshine Feed Door
 Large and convenient. Plenty of room to swing a shovel of coal into it without knocking on the sides and scattering the coal.

Sunshine Water Pan
 The Sunshine water pan is constructed and placed in the furnace so that the heat passing over it gathers the correct amount of moisture to give your home a balmy, humid warmth—a June day in January.

The pan is easy to fill, placed where you can't forget it.

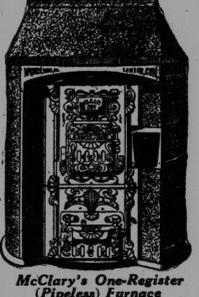

Sunshine Dust Flue
 Leading from the ash chamber upwards to the fire chamber direct to the smoke flue, all dust is intercepted on its way out, caught and carried up the flue. It cannot escape into the rooms. That is why the Sunshine Furnace is clean—why the furniture of the home is free from furnace dust.

Write for descriptive booklet to any branch.

McClary's—Makers of those "good stoves and cooking utensils".

McClary's One-Register (Pipeless) Furnace
Sunshine Grates

The furnace grate, to give greatest satisfaction, must have three qualities: Durability—ease of operation—ease of removal for renewal.

The Sunshine Furnace grates have three lives—that is, they have three different surfaces to be exposed to the heat and wear. The surfaces are alternated at will, with little effort, so that there is three times as much wear in Sunshine Grates as there is in the ordinary one-surface grate.

You don't "shake" the Sunshine Furnace, just gently rock the long handle without stooping. The geared grates turn easily, dropping the ashes and crushing the clinkers into the ash pan below.

Sunshine Automatic Gas Damper

With some kinds of coal in ordinary furnaces, the gas will accumulate and pass up the warm air pipes into the rooms above—there is also the likelihood of it forcing open the feed door.

In the Sunshine Furnace this nuisance is eliminated. When the gas rises to a certain pressure, the automatic gas damper opens of itself and releases the gas up the chimney.

The Sunshine Furnace is constructed throughout with gas-tight joints, so that no gas can escape into the basement or rooms above. It must go up the chimney with the smoke and soot.

BUSINESS AND FINANCIAL REVIEW OF THE WEEK

(Toronto Globe, Saturday.)
Autumn is being looked forward to by both bankers and business men with considerable eagerness in the hope that it will bring the long-looked-for relief in trade. This is the paramount question at the present time, and, generally speaking, everybody's opinion centres on September as the month that will be the turning point. Some little anxiety, however, tempers the hopeful expectations, and the resultant question is whether the awaited improvement will mean the beginning of the end of the depression which has so long prevailed. Here again there are apparent signs of improving conditions, but these are not yet sufficient to dispel the caution which has been apparent for so long. As is usual in this kind of year, price advances are being based on acreage reports of the crops, and all expectations now are to the effect that there will be an export than average crop, and that the ex-

Inspiring Message to His People

A large throng of Jewish people gathered at the Union depot last evening and welcomed Very Rev. Dr. Joseph H. Hertz, LL.D., Ph.D., Chief Rabbi of the British Empire, who arrived on the 6.25 train from Halifax. Mayor Schofield, Commissioners Frink, Thornton and Jones, Hon. Dr. W. F. Roberts and R. T. Hayes, M.P., were present to greet the distinguished visitor. The mayor read an address of welcome, to which the Chief Rabbi graciously replied. He was then escorted to the Royal hotel, where he will make his headquarters while in the city.

At 8.30 o'clock last evening, Dr. Hertz addressed the Jewish congregation in the synagogue. His address was listened to with the greatest interest by an audience of more than four hundred. He will speak at the Canadian Club luncheon at noon today. This evening, he will address a mass meeting of all denominations, his subject being "The Bible as a Book." His honor the Lieutenant-Governor of the province will preside at the meeting.

The subject of Dr. Hertz's address last night, delivered in the Carlton street synagogue, was: "Let us be strong and strengthen one another." More than 400 of his people gathered to hear him and they listened with avid inspiration.

No Decision Regarding New Wharf

The question of dismantling the water plant at Silver Falls was referred back to the committee of the whole at the regular weekly meeting of the city council held yesterday afternoon. The appropriation proceedings in regard to Thorpe's wharf, also will be further considered in committee, it was decided. Other matters of a routine nature were considered. The mayor presided and all commissioners were present.

The commissioner of finance and public affairs reported the payment of the following departmental accounts for July: Treasury, \$347,671; public safety, \$4,082.52; public works, \$6,644.86; water and sewerage, \$10,896.74; harbors and ferries, \$7,612.22. Other payments amounting to \$232,408.64, were also made during July. The report was adopted.

A communication from No. 2 Salvage Corps notified the council that A. M. Ellis had been elected a member. It was ordered filed.

The mayor asked Mr. Bullock how the sufferers were making out in the Westfield area. Mr. Bullock replied that they were very grateful for the prompt action of the mayor and commissioners in sending out tents and food. The tents had been placed in immediate use and the food was being distributed. There were a few who needed financial aid, but he had not been able to make any definite inquiry as yet but would do so.

Mr. Jones moved that the report of the commissioner of water and sewerage, in regard to the Silver Falls plant, be approved and filed and the various recommendations of the engineer carried out. This would mean the dismantling of the property. Mr. Frink thought that this matter and that of the Spruce Lake system being linked up with the city, should be taken up in special committee meeting. It was decided to do this and Mr. Jones withdrew his motion.

SCHOOL REPORT FOR SEVEN YEARS

The board of school trustees of St. John, have just published in neat and attractive form the school reports for the years from 1913 to 1920. During the war the publication of the annual report was omitted as an avoidable expense and a short while ago the board decided to have the records made complete by the publication of the reports of all the intervening years in one book. Interesting comparison can be made of the progress of the schools of the city and the effect of war time upon school expenditure and attendance.

The report of the superintendent Dr. H. S. Bridges, printed among the least items of the book has presented these comparisons in a striking manner. Dr. Bridges draws attention to the fact that between 1913 and 1920 there was an increase of 748 pupils and fourteen departments were added. During that time one new school, the King George in Bentley street, was opened and relieved the congestion previously existing in Dufferin, Alexandra and Newman street buildings. The relief was temporary only. The report says that the congestion is again bad in the North End, but worse in the Albert school, West St. John.

Guard Your Baby Against Summer's Danger

We have no desire to magnify the dangers of hot weather, but past summers have proved, only too sadly, that they do exist.

Every summer Glaxo safeguards the health, nay, the lives of an ever-increasing multitude of babies, for Glaxo, the Super-Milk, germ-free, uncontaminated, unaffected by hot or thundery weather, protected against flies and dust, is Baby's best insurance against "summer complaint."

For example, in the last great epidemic of summer diarrhoea in England, a doctor, recounting his experiences with Glaxo, tells in "The Practitioner" how the Park Hospital for Children at Lewisham escaped the plague. He writes:—"With regard to how the 800 odd children under their care fared during the epidemic, 450 children under five years of age were put upon this food (Glaxo). By this means they succeeded to a great extent in dodging the epidemic which was surging around them."

Be warned and see that your child gets Glaxo—the milk that is safe, so safe that one doctor wrote in a report to the British Local Government Board, "We have never seen a case of severe diarrhoea in a Glaxo-fed baby. Insure your baby against summer diarrhoea by feeding him at the breast or upon

FIGHTING THE GASSHOPPERS

Regina, Sask., August 10.—The campaign against grasshopper conducted in the province for the third successive year by the Field Crops Branch of the Saskatchewan Department of Agriculture, is now over, as such a large percentage of the hoppers is now on the wing and scattered through the growing crops that it makes it impossible to continue poisoning with any degree of success. Comparatively little damage to the crops was caused this year except in some of the northern areas affected, although grasshoppers were more numerous than

ever. The multitude of adult hoppers in evidence in all areas where the pest gave trouble this year and over a wide stretch of country adjoining all such areas, would seem to threaten another battle next year over a still wider area as the parasitic enemies of the hopper do not seem to be multiplying rapidly enough to afford much hope of relief from this source.

The total quantity of material used in the province this year in manufacturing poison bait was very large, the total by the department of agriculture being as follows: Bran 3,024 tons; sawdust, 100 carloads; arsenic, 361, 333 pounds; paris green, 10,100 pounds; molasses, 52,360 gallons; salt, 983 barrels and anhydrous acetate, 998 gallons.

GIRL SWIMS RIVER

Quebec, Aug. 9.—Miss Francis C. Cateley, swimming instructor of the Y. W. C. A., successfully accomplished the feat of swimming across the St. Lawrence river to-day, between Lewis and Quebec before thousands of people who looked on from the cliffs of the St. Lawrence. The young lady has the honor of being the first to attempt the cross river swim, about one mile, but which had to be fought all the way owing to a very powerful current.

The distance was crossed in 38 1-2 minutes, Miss Cateley finishing almost as fresh as when started. She used the breast stroke the entire distance.

HARVEST PAY IN MANITOBA WILL BE \$4 PER DAY

Winnipeg, Aug. 10.—Commencing today, the wage for harvest labor in Manitoba will be \$4 per day, it is announced by J. A. Bowman, provincial superintendent of employment. This is an increase of fifty cents per day over the rate which has prevailed. It is stated that an agreement has been reached by the United Farmer organizations of the three prairie provinces that not more than \$4 shall be paid for farm labor this year.

The Friend of Business

Seventy-nine per cent. of all business failures in Canada last year were due to personal causes. Life insurance would have saved many of these businesses from failure and the hardships thus imposed, for—

- Life insurance establishes credit.
- Indemnifies capital for the loss of practical men.
- Furnishes ready cash to pay off indebtedness.
- Safeguards the deceased partner's share.
- Creates an asset of fixed value which cannot shrink.
- Insures the most valuable asset of any business—human life—brains, foresight, energy, personality, power to plan, build and execute.

Life insurance is safeguarding hundreds of businesses today, and the representative of any company will be glad to show you how it will benefit you.

All the chartered banks of Canada, and credit agencies, have strongly endorsed life insurance for commercial purposes. It is the friend of business.

BASEBALL

Pirates Take Closing Game.

The City League rounded out a successful season last evening on the East End grounds when the Pirates handed the Commercial 4 to 3 beating in a 12-inning game. Though the pirates made but one hit of Beauty's delivery, while the Commercial were picking off seven hits from Hannah, the winners bunched their hits at an opportune time in the fourth inning, Marshall's two-base play being the deciding factor. The Commercial made strenuous efforts to tie the game in the remaining two innings, but their best was one short of that object when time was called. The box score follows:

CHARLIE RAY AT THE PALACE

IN SOL SMITH RUSSELL'S GREAT STAGE SUCCESS

"Peaceful Valley"

RUBE STUFF—You bet it's Rube stuff! The scheming city guy who gets his claws onto the farm; the blue-eyed country girl who elopes with him to the city; the rube brother who hiked out after her; and all the quaint old folks of Peaceful Valley. They're all in it. But isn't that the sort of story in which you like Charlie Ray best, with the hick-humor, the sob and hefty wallop, isn't it?

A FIRST NATIONAL ATTRACTION

COMEDY REGULAR PRICES

THE WEST SIDE RECEIVES HILTON

West St. John was not backward in showing its regard for Champion Hilton Belyea, for the ferry boats, Union street and Middle street were a mass of flags and bunting, Wednesday. In front of the champion's home an arch of spruce and cedar was erected and electrically illuminated. Those responsible for the decorations worked all through the rain on Monday and deserve much credit. Species were made in front of the house and more rousing cheers were given for Hilton. After the excitement was over, the champion discussed the race. He was critical of the course which was laid out. The course had been chosen so the champion could be viewed from the grandstand.

Asked about Walter Hoover, the

Danish carman, Belyea said that he rowed a wonderful race. He is a powerfully built man and has been in training for this event since August, 1920. When the Canadian champion arrived in Buffalo he was told that he need have no fear about Hoover. "We beat him two years ago," said the Buffalo sharp. But, after sliding Hoover up, Belyea said he realized that there was the man he had to beat if he hoped for victory in the finals. Hoover is married. Belyea is now awaiting word, which is expected on Friday, whether Hoover will make the trip to St. John or not. The officials told the Canadian carman that he was slower than Hoover, but Belyea thinks that on a better course he can disprove this assertion.

Last evening the celebration near

Belyea's residence was concluded with short addresses by Mayor Schofield, Hon. R. J. Ritchie, J. C. Chesley, Commissioner Thornton and W. E. Scully, M.P.P. Hilton Belyea responded in a noble manner. The houses in the vicinity were elaborately decorated for the occasion during the evening the Marine band rendered a choice selection of music. Refreshments were served by Mrs. Belyea to these taking a prominent part in the reception: A monster bonfire was built on the shore in honor of the champion's homecoming and when the last ember had died out it marked the finish of a memorable day for St. John and Hilton Belyea.

H. M. S. CAMBRIAN AT ST. ANDREWS.

H. M. S. Cambrian, commander J. D. D. Stewart, carrying 390 men arrived at St. Andrews at 1:30 yesterday from Bar Harbor, Me. After her arrival the City Cornet band went on board and welcomed the officers and men on behalf of the townspeople.

Y. M. C. I. PLANNING FOR COMING SEASON

The several committees of the Y. M. C. I. met Monday in the board room of the Institute and did some preliminary planning for the season's activities. Conveners of the several committees were named who are to carry out the programmes for their respective departments. These tentative plans will be submitted later to the central committee for approval. The conveners of the several committees named were: E. O'Toole, educational committee; Jas. E. Quinn, membership committee; John Stanton, religious committee; Alfred Marley, boys' committee; W. E. Scully, financial committee; B. McIntyre, social committee. C. A. Owens is vice president of the Y. M. C. I. W. F. Kenna was secretary. Arrangements for the sports to be held next week were also made.

A NEW MANAGER FOR AUBURN MEN

The Auburn baseball team of Cambridge (Mass.), which came to the maritime provinces under the management of E. C. Carr will finish out the tour with Ray Rogers, of New Glasgow, at their head. Rogers says that the Auburns had a dispute with Carr. Rogers was approached and will handle the tourists in their games against Stellarton. Springhill will be the stopping place Thursday and Amherst will be encountered Friday. The Auburns made such a hit in St. John that they have been booked for two games Saturday. The Annapolis Valley will be visited next week. The game scheduled for Stellarton yesterday was postponed owing to the heavy rain.

IS IMPROVING. Word was received today by Rev. A. J. McDougall that Rev. Dr. W. Meshan, who was operated on in Boston a week ago yesterday, was improving.

BY LAW CASE. Frank Collins appeared this morning to answer the charge of having repairs made on the building to the firm of T. Collins & Company without a permit. He pleaded not guilty and the case was postponed until Friday.

LOCAL BASEBALL. Portland added another to its string of victories last night on the Queen square diamond, when they defeated the Carleton team 4-1 in six innings of good play. Portland won the game in the last inning by scoring three runs. The second inning Mottew potted out a long hit on which he made the circuit scoring Carleton's only run of the game. Cummings and Gallagher for Portland and Perry and Mitchell for Carleton did the battery work. Tomorrow night St. Rose's and St. George's hook up in the final game of the league series. St. Rose's must win to clinch the series. If they lose they will be tied with Portland with seven wins and two defeats.

Tells Interesting Story of Sinking of the German Fleet

Gordon B. Jackson dominion secretary of the Navy League and Commodore Lewin, maritime representative of the same body, who are in the city on official business have had wide and varied experience and have very interesting stories to tell. Commodore Lewin saw service in the navy and was at the battle of Heligoland. After that engagement he was appointed assistant King's harbormaster at Scapa Flow, and later was given the appointment of King's harbormaster. He held that position at the time the German fleet was scuttled.

His description of the scene is as follows: "Just at the hour of noon the fleet was observed to be in an unusually tight cluster. The German war-ensign was run to the masthead of all the vessels and a great deal of activity was noticed. Preparations for an emergency had been made and the British sailors went to their allotted stations. Immediately the German ships began to take on an unusual appearance. Some began to sink by the bow and some by the stern, others listed to starboard and some listed to port. The destroyers were in pairs and headed toward one another in curious formation. The most majestic sight of all was the battle cruiser Hindenburg, which did not list but sank slowly to the bottom in an upright position. The forward firing tower could be seen above the water. Badly, the latest German was vessel, refused to sink, owing to the perfect construction of the water tight compartments. By the time Scapa Flow presented a most unusual appearance, with ships going down everywhere, and beached by the British boats. About twenty-five vessels were saved in this way, the others met a well deserved fate and were all adrift on rafts and they were brought ashore and lined up in rows. Many humorous incidents occurred, among them being the case of a sailor who was all alone on a raft hanging tightly to a bundle of clothes. He was frantically waving a white flag, while a number of British stokers bombarded him with lumps of coal." They appeared to have a highly organized and up to date fleet. The quarters of the officers were elaborate, but the crew's quarters were cramped. The guns and engines were of the best. A curious thing was that of a good many cat-o-nine tails were found on board. Some of them appeared to have been used a good deal. There was no shortage of provisions. The captured officers, including Admiral Von Reuter, and the crews, were turned over to the soldiers for safe keeping. Commodore Lewin had full charge of the salvaging operations afterwards. Some of the largest moorings in the world were used in bringing the vessels to the surface.

Mr. Jackson has traveled all over Canada. He is a graduate of McGill in law, but at the opening of hostilities he joined the navy as an ordinary seaman and served on a mine-sweeper. He afterwards obtained a commission and finally was appointed commander of the Royal Naval Barracks, having charge of all Canadians in the navy. He has travelled all over Canada in the interest of the navy league, and has addressed more than 100 Rotary clubs. He addressed the morning congregation at Salt Lake on Easter Sunday in their tabernacle. Mr. Jackson and Commodore Lewin have expressed their appreciation to Thomas Nagle, of Nagle & Wigmore, for a trip around the harbor yesterday afternoon.

General Trevino is at present under arrest in connection with the tragedy.

POLLUTION OF CITY'S WATER

Only One Case of Disregard of City's Action Reported—Board of Health to Take Matter Up.

Commissioner Jones has had notices posted up around the shores of Spruce and Lodge Lakes on the western side of the harbor and around the catchment area of Loch Lomond and Lake Latimer forbidding fishing, boating and any other form of encroachment upon the frontage of these lakes. The commissioner is pleased to report that his efforts to prevent pollution of the city's water supply have been generally approved and with only one exception has there been any disposition shown to disregard his instructions. The exceptional case is that of a west side citizen, who not only took the liberty of venturing upon Spruce Lake in a boat to fish, but afterwards, when remonstrated with for doing so, defied the order of David McDermott, the caretaker. The matter has been reported to the board of health, and until the return of Chairman Kelly, who will meet of the city until the last of the present week, the question of what further action may be taken remains in abeyance.

ASK INCREASE IN CAPITAL STOCK

Hearing of N. B. Telephone Company Application Before Public Utilities—No Decision Yet.

At a special meeting of the Public Utilities Commission this morning hearing was given the application of the New Brunswick Telephone Co. for permission to increase its capital stock by \$886,000. Dr. J. B. M. Baxter, K. C. appeared for the company, produced an affidavit of publication and called on O. J. Fraser, general superintendent of the company to show why the increase in stock was necessary. Mr. Fraser said that of a depreciation fund of \$638,664.40 only \$112,200 was on hand. The deficit was \$526,464.40 and this was depleted by \$172,599.52. It was necessary, he said, to have \$170,000 capital to carry customers for two months due to the measured service order which made it impossible to collect rentals and tolls in advance as formerly. Mr. Fraser was closely questioned by the chairman and other commissioners and after further argument by Mr. Baxter the chairman announced that the decision would be considered and a decision rendered later. All the commissioners were present. Senators W. Daniel and S. R. Midram also were in attendance.

BIG INCREASE IN CAPITAL STOCK

That of Nashwaak Co. Raised from \$75,000 to \$825,000—New St. Stephen Company.

(Special to The Times). Fredericton, N. B., August 10.—The capital stock of the Nashwaak Pulp and Paper Co. Limited, has been increased from \$75,000 to \$825,000 by supplementary letters patent. The increase is made by the addition of 150,000 shares to be sold at \$5 a share and to be classed as preference shares. Dresser, Bowels Company, Limited, is incorporated with head office at Saint Stephen and a capital stock of \$8,000. Those incorporated are Willis R. Dresser, George I. Bowels and Harold H. Marwick all of Calais, Maine. The company is authorized to carry on general business. Rev. E. Val Tilton, Methodist of Moncton has been registered under provincial statute to solemnize marriages. The provincial department of Public Works is to build new permanent bridges in the Parish of Havlock, Kings County. They are two in number, the Ridge Brook Bridge and the Thorne "Mont" Bridge. The first is to be a thirty-foot reinforced concrete slab on concrete abutments and the other a fourteen-foot reinforced concrete slab on concrete abutments. Tenders are to close on the 17th.

GEORGE FAWCETT SENT UP FOR TRIAL

Decision of Magistrate in the Case of Alleged Theft from an Automobile—Another Stealing Case.

The case of George Fawcett, charged with stealing a storage battery and a tire from the car of Daniel Condon on the Red Head road, was before the court this morning. K. A. Wilson appeared for the defendant. The magistrate refused Mr. Wilson's request to dismiss the case and sent the prisoner up for trial. The case of Joseph Coyte, arrested on a warrant for stealing candy from the store of William Pye, a short time ago, was postponed until Friday. Daniel Mullin, N. C., appeared for Coyte.
