Austrian Treaty Signed; Renner's Name First

He Bows And Smiles As He Affixes Signature—All Over In An Hour—Principal Stipulations Are Reviewed

St. Germain, Sept. 10.—(By the Associated Press)—Dr. Karl Renner, head of the Austrian delegation to the peace conference, signed the treaty of peace between the Allies and associated powers and the Austrian republic at 10.15 o'clock this morning.

When all the delegates present had seated themselves at the round table, Dr. Renner was introduced with the same formality that was observed when the Germans entered the Hall of Mirrors at Versailles on June 23. Georges Clemenceau, president of the peace conference, then rose and opened the session, asking Dr. Renner to affix his signature to the treaty and announcing that the delegates would then be called in the order in which they were named in the preamble on the document.

RENNER ACTS WELL

There was no hesitation on the part of Dr. Renner in signing the treaty. He rose from his seat on the left wing of the table, after M. Clemenceau's opening address had been translated into German, and immediately walked to the signing table and signed the document.

Dr. Renner bowed and smiled graciously as he approached the table, and bowed and smiled again to the delegates after signing as he turned to go to his seat.

The signing of the treaty by the representatives of the other powers was finished at 11.15 o'clock. M. Clemenceau then made a brief announcement that the session was closed.

Neither Premier Lloyd George of Great Britain nor Col. E. M. House of the United States delegation was present. The British delegation was made up of A. J. Balfour, Viscount Milner, George Nicoll Barnes and General Seely.

TWO DID NOT SIGN

The delegates of Rumania and Jugo-Slavia did not sign the Austrian treaty because they are awaiting instructions from their governments, says the Havas Agency. The supreme council, it adds, has given them until Saturday to make known their definite intentions.

St. Germain, Sept. 10.—Dr. Renner will leave tonight for Vienna with the treaty, and it is expected that the signing of the pact will bolster up the wavering government and make for a resumption of normal commercial and economic conditions.

THE SPEECHES IN COMMONS ARISING FROM PEACE TREATY

Hope That Debate Will Be Ended This Afternoon

LUCIEN CANNON AND W. F. MACLEAN

Some Discussions on Canada as a Nation—Questions to be Asked—New Brunswick Member Wants To Know About Exchange Between Canada and United States

(Special to Times.)

Ottawa, Sept. 10.—It is hoped that the debate on the peace treaty will have blown itself out by this afternoon. There probably never was so much discussion of time before, or so much discussion of a fait accompli. It has been largely a sort of mild recrimination between different members of the two parties.

Yesterday afternoon Ernest LaPointe of Kamouraska gave an interesting technical analysis of the peace treaty from a legal standpoint and was followed by Hon. N. W. Rowell who gave perhaps the most complete analysis of the treaty the house has yet heard. But the real fireworks, properly enough, took place at night, when Lucien Cannon spoke. The Nationalist note was not absent from the speech of LaPointe and Cannon's remarks. He pointed out some of the reasons why Canada was not a member of the government of the United States, and when he was followed by W. F. MacLean (Toronto) from the government benches the same line was taken very strongly.

BASBALL

On the Elm street diamond this evening at 7 o'clock the Wolves of the North End League and the Thistles of St. Peter's League will clash. These teams have been trying hard to meet each other and this is their first opportunity. They will play the best out of three games, the first starting this evening.

OFF TO COLLEGE Several St. John boys who are students at St. Francis Xavier College, Antigonish will leave today to resume their studies there while others will commence their course. Among those who will attend this year from here will be John Fitzpatrick, Norman Dwyer, Gerald Regan, Philip Grattan, Ronald McCreary and John O'Brien of New Brunswick, who passed through the city today on his way to college.

FIFTEEN FOR HERO

The S. S. Adriatic left Liverpool, England, on Sept. 9 and is due in Halifax tomorrow with fifteen men for military district No. 1.

Stores Looted, Specials Attacked, Mobs Fight In Streets As Hiram Sees It

The Settlement, Sept. 10. "Well," said the reporter to Mr. Hiram Hiram, in all best tone of gentle raillery, "I perceive that the highwaymen have at last discovered the real source of sudden wealth. Up in Quebec they looted a farmer on his way home from market."

"Yes," said Hiram, in the same tone, "I see they did. The paper didn't say what they got, but it must have been a haul—yes, sir. I hope that farmer brought his farm before he went to town, so he could get his winter supply for his family of boots at ten dollars, sugar at thirteen to fourteen cents a pound, and other things on the same scale of prices. He wouldn't get a heavy feed."

"Why not?" queried the reporter. "Too much respect," said Hiram, "for the profession."

"Do you mean," asked the reporter, "that the people who sell feed at present prices are also—"

"Mister," interrupted Hiram, "I'll ask you another question. What's the difference between a highwayman and a short weight-man?"

"The highwayman," replied Hiram, "has gone down as fast as heavy feed went up. But then robbers in Quebec wouldn't get a heavy feed."

"Why not?" queried the reporter. "Too much respect," said Hiram, "for the profession."

Baron Fisher Severe In Articles On Navy And War

Says If Battle Cruisers Were Used In Mediterranean There Would Have Been No Gallipoli And Berlin Would Have Been Captured—A Submarine Story

London, Sept. 10.—(Reuter's)—Baron Fisher, in his series of articles in The Times on the development of the navy, in describing the inauguration of his reforms, deplors the fact that the mission of the battle cruiser was totally unappreciated until the invincible sun Von Spee's squadron. The Goeben and the Breslau escaped because the battle cruiser in the Mediterranean were not used.

If they had been used they would have gobbled up the Goeben and the Breslau. There would have been no Gallipoli and the Baltic would have been occupied and Berlin captured by the Russians landing covered by the British fleet. But, the most striking feature of the pre-war period was the ridicule cast on the submarine, declares Lord Fisher.

When a young submarine commander at pre-war manoeuvres twice torpedoed the hostile flagship and claimed it as a prize all the praise he got was the admiral's signals—"You are damned!"

Lord Fisher quotes a memorandum he circulated in January, 1914, in which he said to the submarine was the coming type of warfare for sea fighting. He declared he was literally persecuted for building submarines while first sea lord.

He says when he left the admiralty in January, 1910, there were sixty-one efficient submarines and twelve building, but when he returned in 1914 there were only fifty-one.

In consequence of this Lord Fisher says he summoned Charles Schwab, who delivered a batch of submarines in five months, an unprecedented feat, as fourteen months had previously been the record. These submarines went to the United States and the Dardanelles without convoy and carried out prodigious action.

Lord Fisher declares the British navy is going to make the same damned mess over the internal combustion engine with which every nation except ourselves is pushing ahead.

He says the experimental laboratory for the development of these engines, instituted by the board of inventions, is illipit in size, and miserably in inadequacy. "I really look forward to the day of judgment when all the champion liars now so highly honored will be exposed and flouted."

Lord Fisher concluded by declaring that in the years 1902 to 1910 the admiralty won the war.

Captain MacAuley TESTIFIED TODAY IN THE GUELPH INQUIRY

Ottawa, Sept. 10.—When the inquiry into the Guelph night charges were resumed this morning Captain MacAuley, the officer in charge of the party in search of alleged military defaulters, testified that he was not in Guelph at the time of the alleged military service. He said when he visited the Guelph members there made a protest against the proceedings. Witness did not mention that protest in his report.

"Was that because your report was written in a hurry?" asked Mr. Geoffrey and witness replied that he had supposed it was.

Mr. Le Newcombe asked at some length as to letters and copies of some exchanged between military headquarters at Ottawa and his office in London. Witness said he would swear positively that the letter from Captain Burroughs to the office of Major Hirsch referring to the Guelph incident contained the word "raid." The copy produced in court contained no such word but witness said he was willing to base his memory in regard to that. Pressed to modify his statement in regard to the suggestion from Captain Burroughs that a "raid" might be made on the novitiate as he was so positive about the witness said he did not make a raid. "If I had made a raid I would have placed a guard at every exit from the building. This I did not do. I merely visited the building."

Witness could not tell of anything else he would have done in a "raid" that he did not do in this case.

He did not take the "S. C. M." memorandum or the Burroughs letter to the novitiate.

Witness had been instructed to make investigations at the novitiate. Subsequent to such investigation he arrested three men whom he found to be defaulters. In addition to written instructions authorizing the visit, witness had verbal instructions from Major Hirsch to go in civilian clothes.

STILL IN HOSPITAL. Lieut.-Col. K. S. MacKay, D. S. O., passed through the city today at noon on his way from Toronto to Halifax. He has been receiving treatment in hospital in Toronto for his arm which was badly injured in France by the explosion of a shell, his wounds at that time causing the colonel to be laid up for some time in hospital and finally to be invalided home. He was in command of the 6th Canadian Artillery Brigade for some time after crossing from here with an artillery unit from Fredericton. Colonel MacKay was very popular throughout the Canadian corps.

ENTERED CONVENT. Miss Alice Nugent, daughter of Mrs. M. J. Nugent, Richmond street, last evening entered St. Vincent's Convent to join the Sisterhood. She is a graduate of St. Vincent's High School and has been a member of the alumnae.

A Russian named Alex. Markewitz, who is wanted in Montreal on a charge of having stolen \$400, was arrested in a Halifax bank this morning.

DELONG-FOWLER. This afternoon at 3.30 at the home of Mr. and Mrs. Myles H. Fowler of Hampton, their daughter, Stella Josephine DeLong, was married to Mr. and Mrs. William DeLong son of Mr. and Mrs. John H. DeLong in the presence of immediate friends and relatives. The ceremony was performed by Rev. G. Stanley Helps, pastor of the Methodist church, assisted by Rev. W. H. Johnston, pastor of the Hampton Baptist church, and was solemnized on the lawn in front of the home. The grounds were very prettily decorated with golden glow and an arch artistically arranged. Above the lawn, under which the happy young people were united. The bride, who was given away by her father, was becomingly attired in a travelling suit of dark brown velour cloth with hat of pume velvet to match and carried a bouquet of orange blossoms. The groom wore a suit of blue cloth with hat of pume velvet to match and carried a bouquet of orange blossoms. The ceremony was performed by Rev. G. TYPHOON CAUSES DEATH OF 3000

Tidal Wave Twenty-eight Feet High Reported From Amey

Cyclone Sweeps Gulf and Great Waves Threaten Havana—Fearful Windstorm in Vicinity Of Boston

Amoy, Monday, Sept. 8.—(By the Associated Press)—A great typhoon swept over the southeast coast on Monday last, resulting in the death of three thousand persons, according to reports from Hainan. The typhoon was accompanied by a tidal wave twenty-eight feet high.

Havana, Sept. 8.—(By the Associated Press)—Cyclonic winds are sweeping in waves over the sea and flooding adjoining sections of the city at some places to a distance of six miles. Many families are being obliged to leave their homes with the assistance of women and police. No casualties have been reported.

The material damage thus far is small. The weather bureau predicts gales of increased intensity before midnight. Several of the street car lines are paralyzed and numerous automobiles are stalled in the deep water in the streets.

Hundred Miles An Hour. New York, Sept. 10.—Reports reaching the office of the Western Union Telegraph Company here today said that all wire communications south of Miami, Florida, has ceased as a result of the severe storm raging along the southern coast and the west end of the island.

Damage amounting to hundreds of thousands were wrought last evening by the most severe storm attending a certain places the force of a cyclone, which has swept the section to the northeast and northwest of Boston. Following a day of abnormal heat this morning by lightning was very small compared to that caused by the terrific winds.

BURIED TODAY. The funeral of Edward Ferris, sr., took place this afternoon from his late residence, Milford. The service was conducted by Rev. F. E. O'Neill and interment was made in Cedar Hill.

The body of Miss Florence Davidson, accompanied by her brother, Frank Davidson, was taken to St. Martin's today at noon. Service was held this afternoon in St. Martin's and interment was made in the lot there.

The body of Mrs. Mary Campbell, accompanied by her daughters, Mrs. Frank Spearman and Mrs. Edwin Ackford of Boston, was brought here on the Boston train today. The funeral took place this afternoon at the Church of the Assumption, where service was conducted by Rev. A. J. O'Neill. Interment was made in Holy Cross cemetery.

PRESENTATION TO PRIEST Friends of Rev. F. F. Walker assembled last evening at the home of John McNeill, 28 Cliff street and presented to him articles of value in linen and silver for his new home in Riverside, N. B., where he has been transferred. The presentation was made by J. G. McDermott, who also read an address expressing the goodwill of those present. Rev. Father Walker will leave tomorrow to take up his new duties.

BEING WELCOMED HOME. Friends are extending a hearty welcome to John Sears, son of Postmaster Edward Sears, who has recently returned after lengthy service overseas. He left here with the 6th Mounted Rifles and after some months of service in the line was promoted to a position at headquarters. His health is good and he was for some time in hospital but is now feeling well again. Mr. Sears held sergeant's rank.

FOR BAGGAGE TRANSFER. Efforts are being made to secure for the railway department the office in the Union depot which has for some time been used as a bureau for military information. The suggestion is to have it used as a baggage transfer room such as is in use at many railway stations elsewhere and has proved a distinct convenience.

SEPTEMBER BRIDES

Key-Tennant. What was probably the most fashionable nuptial event of the season took place this afternoon at 3.30 o'clock in Centenary Methodist church when the pastor, Rev. H. A. Goodwin, united in marriage Miss Dorothy Salmon Tennant, daughter of Mr. and Mrs. W. B. Tennant of this city, and Joseph Key of Toronto. The ceremony was witnessed by many friends with whom the young people are particularly popular, the bride being especially well known among the members of the younger set in local social circles. She was given in marriage by her father and entered the church for the first time. The bride wore a gown of white tulle with a simple bodice and a court train trimmed with orange blossoms. She wore a band of pearls across her forehead and carried a stouffer bouquet of sweet peas and snap-dragon, presenting a most charming appearance. Her bridesmaids were Miss Dorothy Tennant of Amherst, N. S., who wore a becoming costume of blue broadcloth, and Miss Helen Schell, Woodstock, Ontario, who wore a gown of silver blue with a red and green plume and carried a sheaf of sweet peas grading from pink to crimson. Byron Cushing supported the groom.

There were four girls usher, all wearing costumes of similar design but differing in color—Miss Helen Tennant of Moncton, in pink satin; Miss Margaret Tennant of Moncton, in blue; Miss Christine Tennant of Fredericton, in mauve, and Miss Greta Metcalfe of Campbellton, in mauve satin. Each dress was an attractive creation tending to quaintness, with mid-fashioned bodices, wreaths of French flowers and tulle trimmings. The bride's hair was crowned with the same material as the dress and had a brim of gold lace, with long velvet streamer to match. Echoes of the ushers carried nosegays of pink and mauve sweet peas, with lily frills and streamers.

The decorations at the church were prettily arranged, mainly sweet peas and hydrangeas, while an appealing color scheme with the same flowers was carried out at the home of the bride's parents, 70 Orange street. Here a reception was held after the ceremony, with only intimate friends and relatives invited. Miss Kathleen March, "O Promise Me," Mr. and Mrs. Key will leave this evening on the Montreal train for the south and will be in the city where they will spend their honeymoon camping. On their return they will reside in Colburg street. The bride's traveling gown is a navy blue tailored costume with geometric fox fur and a small blue hat.

Among the guests at the wedding were several from out of town, including Mr. and Mrs. W. H. Tennant, Amherst; Mr. and Mrs. F. M. Tennant, Moncton; Mr. and Mrs. Richard Hecken, Westville, N. S.; Miss Vivian McLeod, Amherst; Miss Maude Tennant, New York; Miss Isabel McLeod, Amherst; Miss Helen Schell, Woodstock, Ontario; Doctor and Mrs. David Price, Sussex; Mrs. Wm. Langstroth, Hampton; Mrs. D. A. Morrison, Amherst; Mrs. A. L. Price, Sussex; Mrs. C. P. Edler, Amherst; Mr. and Mrs. Garfield White, Sussex; Mr. and Mrs. J. C. Salmon, Moncton; Harold Tennant, Amherst; and Allison Taylor, Fredericton.

DeLong-Fowler. This afternoon at 3.30 at the home of Mr. and Mrs. Myles H. DAMAGE IN FERMOY RIOTS NOW PLACED AT TWENTY THOUSAND POUNDS

Dublin, Sept. 10.—The damage caused by the riots at Fermoy, near Cork, on Sunday night, is now estimated at £20,000 sterling. There were no disorders yesterday. The shops kept their shutters in place during the day. A public meeting was held to call upon military authorities to prevent a repetition of the riots.

Colonel Dobbs, commander of the troops in Fermoy, after hearing a detailed account of the origin of the trouble, promised to confine the soldiers to their barracks last night, and to investigate charges that officers participated in the wrecking of shops. He said he would do all in his power to maintain the amicable relations which have hitherto existed between the troops and the people.

London, Sept. 10.—The Daily News reports that a party of Sinn Feiners rowed on a night, the date of which is not given, to a British monitor lying in Monkstown Bay, Cork, boarded the vessel, overpowered the skeleton crew and seized the ship and escaped with a quantity of rifles, munitions and valuable instruments.

MAY SELL GAME MEAT To correct the impression that game meat cannot be sold this season, the chief game warden of the province issued a statement today drawing attention to the fact that there is now no restriction on such sales. The sale of moose and deer meat was forbidden temporarily as a war measure, because of the danger then existing that the unrestricted sale would encourage poaching and the violation of the game laws. This restriction has been removed and the meat may be sold as formerly. The season will open on September 15.

MISS MORGANA WINS PRONOUNCED OVATION Demonstrates Her High Worth as One of Nation's Great Singers—Miss Morgana Captivating.

(Extract from the Newark Star-Eagle, May 20, 1919.) An artist must be of high worth to keep concert company with the great Caruso, and the other soloist of the evening was of that degree. No woman singer at this festival, or of many of the Newark festivals, has given such delight as Nina Morgana. Gifted with a limpid voice, which she uses with charming art, she shared the honors with the star of the programme. It is not surprising that Miss Morgana has been selected as the chief soprano of the Chicago Opera Company after the limited engagement of Galli-Curci shall end.

The sale of exchange tickets for this opportunity of hearing so delightful an artist are now on sale at the following places: Wm. Hawker & Son, Prince William street; E. G. Nelson & Co., King street; Gray and Ritchie, King street; Hazen Dick, Charlotte street; F. W. Munro, Main street; or telephone A. C. Wilson, M. 2121-21; L. M. Leclacheur, M. 2978; Mr. Kerr, Water Office; Imperial Theatre. Prices, \$2.00, \$1.50, \$1.00. Box seats, \$2.50. Box office opens September 29.

When Money is Tight Practically all classes of investments, bonds, stocks, debentures, real estate, depreciate in value to a ruinous extent. Investors are often forced into bankruptcy at such times through conditions over which they have no control. But an Imperial Life policy never depreciates. On the contrary, it continues to increase in value from the day it is issued until its maturity, no matter what financial conditions may be. And, if necessary, a loan can always be obtained from the Company, upon the sole security of an Imperial policy, any time after it has been three years in force—and that, without publicity and without delay. The annually increasing amounts of loan available and the moderate rate of interest chargeable are definitely stated in the policy. If you would like to know more about the merits of this "panic proof" investment ask for our booklet "A Few Facts." You will find it interesting. THE IMPERIAL LIFE Assurance Company of Canada Head Office, Toronto L. J. Lowe, Provincial Manager, St. John A useful 76 page memorandum book will be sent post free to those who ask for it.

NEWS BITS FROM EUROPE Berlin, Sept. 9.—(By the Associated Press)—German troops have completely evacuated Lithuania, southward of the Kenedel river, according to a telegram received here from Koenigsberg. Berlin, Sept. 9.—(By the Associated Press)—The Prussian government intends to propose home rule for Upper Silesia, according to the Lokal Anzeiger. Berlin, Sept. 9.—(By the Associated Press)—The national conference of independent Socialists opened here today with delegates from all parts of Germany. Secrecy marked the proceedings during the day, this being due according to the Tageblatt, to the fact that "an air clearing thunder storm is likely to break within the party." Berlin, Sept. 9.—The Morgenpost is informed that the initial conference has taken place between representatives of the German and French federations of labor respecting restoration work in northern France. A preliminary inspection of the devastated district is planned for next week. Paris, Sept. 10.—The municipal employees and women in sixty-eight of the Paris suburbs went on strike yesterday for improved conditions. This will suspend the marriage and burial services in the case of people living in the suburbs. Probably the water supply will be cut off, as the employees of the water company are reported to have decided to strike simultaneously with the municipal employees. A Mexican Protest. Mexico City, Sept. 10.—An energetic protest against American army airplanes crossing the frontier into Mexican territory has been addressed to the United States state department by the Mexican government, according to a declaration.

NATIONALIZATION OF THE COAL MINES

Glasgow Trades Union Congress Meeting Decides For It by Overwhelming Vote

Glasgow, Sept. 10.—By an overwhelming vote the Glasgow Trades Union Congress at today's session passed a resolution favoring the nationalization of the coal mines.

This report provides for the state ownership of the mines and for joint control of their operation, in which the miners would have an effective voice.

Glasgow, Sept. 10.—Robert Smillie, president of the Miners' Federation, intends to bring about a definite decision as to direct action at the trades union congress here on Thursday.

In the event of the government still refusing a special congress shall be convened to decide what form of action shall be taken to compel the government to accept.

NOVA SCOTIA MAN GAINS 25 POUNDS

"I Simply Feel Like a New Man," He Says After Taking Tanlac.

"I have often seen the time I would have gladly given everything I possessed for the relief a few bottles of this Tanlac has given me," said Robert McAloney, a well known contractor, living at 38 York street, Halifax, in a statement made recently.

"Four bottles of Tanlac has not only relieved me entirely of a case of stomach trouble that had made life miserable for me for more than two years, but I have actually gained twenty-five pounds in weight besides."

"I had been suffering, as I said, from stomach trouble and a run-down condition for more than five years and until Tanlac came along was never able to do anything but lie in bed."

"After going to bed at night this Tanlac would bother me so I couldn't rest. Many a night I have gotten out of bed and walked the floor never getting a wink of sleep."

"But I feel altogether different since Tanlac has whittened me out and built me up so wonderfully. Before I had finished my first bottle there was a decided improvement in my condition."

"Tanlac is sold in St. John by Ross Drug Company and F. W. Munro, under the personal direction of a special Tanlac representative.—(Adv.)"

MURDER CHARGE WILL HAVE TO BE AMENDED

In Nova Scotia Case Victim Found Alive But Fearfully Beaten

(Special to Times) Truro, N. S., Sept. 10.—Norman Nelson of Waverley, Halifax county, was arrested at Truro, N. S., yesterday afternoon on a charge of murdering Charles Steele of Wallace, Cumberland County.

The trouble occurred about two o'clock yesterday afternoon and Steele came to the shanty where he was put to bed at eight o'clock. Steele is unable to say where he was in the intervening six hours.

Come, See the New Fall Styles

THAT Milady's fancy has swung from the mannish types of seasons past to styles delightfully dainty and feminine is exemplified in the slender lined shoes for Fall.

We have given thoughtful attention to the selection of styles that are graceful, yet practical and chosen those shades which harmonize with the best garment shades of the season.

The care taken in selecting shoes that are just right for your feet, and harmonize with your new Fall costumes, will be more than repaid by comfort and genuine pleasure throughout many months of service.

At this season of the year, Almost every woman is looking to find correct *Blouses, Hosiery, Purses, Etc.*, to harmonize with the Fall Costume, and find it both a pleasure and profitable to do such shopping here.

THE NEWEST Autumn Blouses

Are Most Inviting in Daintiness and Design

Fashioned of Georgette Crepe in many shades and combinations. They are Val. or Filet Lace trimmed, frilled, tucked, beaded and embroidered in distinctive patterns.

Among the best liked neck styles for Fall, the round shaped collar takes first place; yet to those who prefer a different line plenty of tuxedo and sailor shapes are to be found.

Pretty models in White Georgette, piped and embroidered with black, or black trimmed with white, are especially nice for light mourning and are very effective.

RUSSIAN BLOUSES in Crepe-de-Chine, all white or with a touch of colored embroidery are also among the season's novelties.

Favorite colors are navy, African brown, orchid, Burgundy, taupe, maize, flesh, white and saxe.

NO ROOM FOR ST. GEORGE'S BONES IN WESTMINSTER

London, Sept. 10.—It has been suggested in Melbourne that the alleged bones of St. George, England's patron saint, which were unearthed by some Australian engineers beneath the floor of a church in Palestine, should be sent to London so that they might rest in some corner of Westminster Abbey. The suggestion is not being received with delight by the abbey authorities. "I do not care tuppence about his bones," said Canon R. H. Charles of Westminster, who spoke as a member of the chapter. "There is only room for six more famous people in the abbey, and even they must be cremated before they are interred. So what is the good of bringing his bones here to be burned in some crematory."

PROMINENT LUMBERMAN OF OTTAWA IS DEAD

RECENT WEDDINGS

The wedding of Harry J. Crudge of the C. N. E. Moncton, to Miss Georgiana Agnes Lewis of Salisbury, N. B., took place at the latter's home yesterday. Rev. N. A. McNeill officiated.

Fredericton friends are interested in the wedding of Miss Nellie Williamson, formerly of that place, in Vancouver, B. C., to John D. Waterhouse, formerly of Newdolph, England. It took place on Wednesday last. The bride was formerly a school teacher in Fredericton.

At Truro, N. S., yesterday, Miss Irene Bell Archibald was married to Stanley Clifford Steeves of Moncton. Rev. H. J. Fraser officiated.

The wedding of Miss Greta Walters to Perley Farris of St. John was celebrated yesterday at the home of the bride's mother, Mrs. James Walters, Sussex. Rev. G. B. McDonald performed the ceremony. Mr. and Mrs. Farris will live in St. John.

At Portland Methodist parsonage last evening the wedding of Walter W. Foster to Miss Luella Beason, both of this city, was solemnized by Rev. Neil McLaughlin. They will reside at 158 Metcalf street.

RECENT DEATHS

James MacDonald.

Friends of James MacDonald will be grieved to learn of his death which occurred last night at his home, 82 Autumn street, following an illness of more than a year's duration. Though in decline for the past year, his death will nevertheless be a severe shock to his many acquaintances.

Mr. MacDonald was born in Cromarty, Scotland, and came to this country in his early youth. He was for more than fifty years employed at Fleming's foundry, remaining there until a year ago when ill-health forced his retirement. He was a staunch member of Knox church and was a prominent and respected member of Vernon Lodge, L. O. L., No. 1.

He leaves, besides his wife, two sons, James, of Philadelphia, and John K., of this city; also three daughters Mrs. John Kilgour, of Clinton (Mass.), Mrs. Alex. Ellison, of this city, and Miss Florence at home.

The funeral will take place Thursday at 2:30 p.m. The interment will be made at Fernhill cemetery.

John B. Tobin.

Many will hear with deep regret of the death of John Betram Tobin, second son of Mr. and Mrs. William Tobin of St. George street, West St. John, which occurred at his home yesterday after a short illness. John Tobin was sixteen years of age and had been expecting to enter the High School when it opened this month, but was taken ill a few days before the opening. He was a bright and promising boy and the deepest sympathy is extended to his sorrowing parents, brothers and sisters.

His father, William Tobin, a conductor on the C.P.R., is well known in the city and on the railroad. Besides his parents there are left to mourn six sisters, Mrs. Henry MacDonald of this city; Mrs. Philip Perry of Boston and the Misses Mollie, Reine, Edith and Constance at home; and three brothers, William, James and Benjamin at home.

The funeral will be held on Friday morning from his late residence to the Church of the Assumption.

Nicholas Kennedy.

The many friends of Nicholas Kennedy will regret to learn of his death which occurred yesterday afternoon at 9 o'clock. Mr. Kennedy has been in the employ of the T. S. Simms & Co. Ltd. for the past forty years, and on Monday was at his work as usual. At about 8 o'clock yesterday morning he was seized with a hemorrhage of the brain, and although everything possible was done he passed away about twelve hours later. He was a life long resident of the city and was extremely well known. He is survived by his wife, three sons—Leo, Phillip and John; three daughters—Mrs. Arthur Leger, Miss Katherine and Miss Frances, at home; by two brothers, John and Joseph, and by one sister, Miss Katherine O'Leary, all of this city.

The funeral will be held on Thursday morning at 8:45 o'clock, and time from his late residence, 26 Richmond street, to the Cathedral for requiem high mass. Friends invited to attend.

John Mitchell.

New York, Sept. 9.—John Mitchell, former president of the United Mine Workers of America and one of the most widely known labor leaders in the United States, died at 5 o'clock this afternoon at the Post-Graduate Hospital. Mr. Mitchell was only forty-nine years old. He underwent an operation ten days ago for the removal of gall stones from which he failed to rally.

Since 1915 Mr. Mitchell had been

chairman of the New York State Industrial Commission.

Mr. Mitchell was born in Braidwood, Illinois, February 4, 1870, the son of Robert and Martha Mitchell.

During his strenuous life as a labor leader and organizer, Mr. Mitchell found time to write numerous books on the subject nearest his heart. Among his works were "Organized Labor, its Purposes and Ideals," and "The Wage Earner and His Problems."

William C. Murray, son of the late Rev. Dr. Robert Murray, of Halifax, died last Friday. He was manager of the Bank of Nova Scotia at Sydney.

Sebastian S. Mersereau, of Juvenile settlement, died on Sept. 1, aged sixty-eight years.

The death of Moses W. Pond, of Myrtle street, down in the west end of Boston, Mr. and Mrs. Peter Poulos, who came from Greece, and who believe that a hotted owl is the "best thing in the world" to cure the complaint, asked assistance of a lawyer friend, who wrote to Mayor Peters requesting the gift of an owl from the Franklin Park Zoo collection. The lawyer said he learned that another Greek bought an owl at the Zoo and used it effectively.

SENDS CHILD OUT AND DIES.

Malden Mother Commits Suicide by Gas.

Boston, Sept. 10.—After sending her seven-year-old girl to a stove, Mrs. Sarah Cooper, thirty-four years old, wife of Samuel Cooper, an electrician, committed suicide by inhaling gas in her home at 72 Gardner street, Malden. When the husband returned from his work he found the dead body of his wife lying in bed with a gas tube close by.

Mrs. Cooper is said to have been in ill health since last fall, when for weeks she suffered from influenza.

ASKS OWL FROM ZOO AS CURE FOR WHOOPING COUGH

Having at sixteen-months old daughter sick with the whooping cough in Myrtle street, down in the west end of Boston, Mr. and Mrs. Peter Poulos, who come from Greece, and who believe that a hotted owl is the "best thing in the world" to cure the complaint, asked assistance of a lawyer friend, who wrote to Mayor Peters requesting the gift of an owl from the Franklin Park Zoo collection. The lawyer said he learned that another Greek bought an owl at the Zoo and used it effectively.

"Rich, But Not Gaudy"

We feel we are privileged to make the modest assertion that our selection of Coats and Wraps this Season is unexcelled. They are fashioned from soft, velvety materials of beautiful rich color tones.

Luxurious—even sumptuous — many appear, for fur has been lavished upon them, yet art and good taste have not been sacrificed.

Then, too, there are modest models that are unadorned, because the materials of which they are made are sufficient in themselves.

Fabrics such as Silvertone, Boleria, Velour, Hudson Seal Plush and Esquamette; also the practical Cheviot and Tweed Coats are here in great variety

Save Against the "rainy day"

The thought of being dependent some day, when illness or old age takes away one's ability to earn, is rightly distasteful to the Canadian mind.

The simplest, surest way to offset this is to open a Savings Account and add something to it every week. Come in and we will gladly explain.

LEAGUE OF THE CROSS IN SESSION IN SYDNEY

Society For 'The Promotion Of Temperance - Prominent Catholic and Protestant Clergymen Speak

Sydney, N. S., Sept. 10—A two day convention of the League of the Cross was opened here yesterday with the celebration of high mass in the Sacred Heart church. The services were attended by delegates from the various branches of the society in the Diocese of Antigonish as in attendance as well as visiting clergymen interested in the cause of temperance.

A feature was a public meeting at which most prominent speakers gave addresses relative to the temperance question. Rev. A. H. Campbell and M. L. Gregg, two prominent Protestant clergymen of this city were among the speakers. Other speakers were Right Rev. James Morrison, Bishop of Antigonish; Father McAdam, Rev. J. A. M. Gillis of New Aberdeen, Rev. J. M. Kieley of Mulgrave and John A. McDougall of Glace Bay.

HOLD CONSTABLE ON MANSLAUGHTER CHARGE

That Is Verdict Of Coroner's Jury In Case Of Shooting Of Soldier In Montreal

Montreal, Sept. 10—A verdict of manslaughter was returned yesterday by a coroner's jury in the case of John Clarke, a returned soldier, who was shot and killed by Constable Emile Legault opposite the latter's home on last Friday night. The coroner made out a warrant for the arrest of Legault and gave the prisoner in charge of the detectives. He was later allowed out on bail of \$5,000.

Bigamous Marriages Common. London, Sept. 9—In sentencing a woman who had bigamously married an Australian soldier in prison, the London Recorder said that bigamy with overseas soldiers was very common. Similar cases were tried immediately afterwards.

TELLS DYSPYPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bisurated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the "meal" signs, naturally and healthfully without need of peppin pills or artificial digestants.

Get a few ounces of Bisurated Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and the bisurated form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat!"

AUSTRIAN TREATY SIGNED; RENNER'S NAME FIRST

(Continued from page 1.)

HISTORY OF THE NEGOTIATIONS.

Today's ceremony at St. Germain brings to a close three months of negotiation between the Austrian republic and the Allied and associated powers. An incomplete draft of the conditions of peace was handed the Austrian delegates at St. Germain on June 2, the reserved sections relating to the military, financial, reparations and some boundary features of the treaty being presented on July 20. The Austrian government laid its counter-proposal before the peace conference last month and the answer to the Austrian delegation was made on Sept. 2.

China, which did not sign the treaty with Germany because of the inclusion in that convention of the section giving to Japan the German rights and concessions in the province of Shantung, announced last week she would sign the treaty with Austria so that she would be able to join the League of Nations.

On the south, the provinces of Carinthia, Dalmatia, Carniola, Croatia and Slavonia, Bosnia and Herzegovina, as well as parts of Sylvania, and the province of Tyrol are taken over by Italy, the boundaries of which are also extended to the peninsula and a strip along the western frontier of the province of Carinthia.

All, therefore, that remains of the former Austria, including Upper and Lower Austria, and parts of Styria and of Tyrol.

REORGANIZATION OF OUR MILITIA

Important Meeting of Overseas and Home Officers Preliminary Steps Taken at Assemblage in Montreal—The Plan That Probably Will be Adopted

Montreal, Sept. 10—Preliminary steps which are expected to lead to the long-hoped for re-organization of the Canadian active militia, cavalry, artillery and infantry, were taken yesterday at one of the most important meetings of overseas and home officers ever held in Montreal, possibly in Canada. On the results of this meeting it is thought that the whole programme for the re-birth of the Canadian militia, following its disorganization during five years of war, will be built.

The suggestion agreed upon was that the city regiments should be continued as at present, with their names, records, numerals, and other traditions intact. At the same time it was considered best that their daughter battalions, which had served so gloriously overseas, must preserve their identity equally. The suggestion was that these overseas battalions should become absorbed into the strength of the mother regiments, still preserving their overseas identity and numbers, as battalions forming part of the original regiments from which they had been organized. It is probable that this plan will be adopted in other military divisions throughout Canada, and become the basis on which the re-organization of the Canadian active militia, with the absorption of the overseas battalions will be built up.

Major General Sir William Otter presided at the meeting, and there were present about forty-five commanding officers of overseas and home units, representatives of the Montreal and outside units of No. 4 district, together with Brigadier-General Armstrong, acting G. O. C. Lieut.-Col. Louis Leduc and Lieut.-Col. Sullivan, of the headquarters staff.

ST. JOHN VALLEY FAIR AT WOODSTOCK OPENED

Woodstock, N. B., Sept. 9—The opening of the St. John Valley Fair here today was attended with much success. There was a large attendance and the various attractions proved of much interest. The fair was declared open by Hon. W. E. Foster, premier, who adjourned the government meeting in Fredericton to enable himself and his cabinet to attend. He gave Woodstock the assurance that he would support the idea of having the provincial exhibition held there next year, saying that the people deserved great praise for the excellence of their arrangements for the fair and for the splendid site they had chosen for their buildings and grounds. Speeches were made also by other members of the government.

BRITISH POLICY RE AIRSHIPS DICTATED BY DESIRE FOR ECONOMY

London, Sept. 9—The government has decided to retain only two airships of the rigid type and dispose of the others under the terms of a commercial airship service. The decision is based on the necessity of cutting down expenses and in the belief that the best results in the future were likely to be attained by the encouragement of private enterprises.

WILLING TO LEAVE MATTER OF BONUS TO COMMISSION

G. W. V. A. Provincial Secretary Points Out Reasons For Demands on Dominion Government.

The provincial secretary of the G. W. V. A., stated last evening in relation to the decision of Sir Robert Borden, with reference to the granting of a commission to meet with a committee of the Veterans, that it seemed to be the general opinion of the returned men throughout the province that the request submitted to the government was not unreasonable as the men were only asking for a commission to investigate the re-establishment of returned soldiers and were not asking for any bonus or grant unless the existing conditions in relation to the granting of a commission to investigate the re-establishment of returned soldiers and were not asking for any bonus or grant unless the existing conditions in relation to the granting of a commission to investigate the re-establishment of returned soldiers...

He also stated that although these conditions did not exist to any great extent in New Brunswick the returned men of this province were in sympathy with their brothers of the western provinces and wished to place on record their sentiments in regard to the premier's decision.

He said that the members of the association were perfectly willing to leave the matter of further gratuity or a bonus to the commission and would abide by their decision.

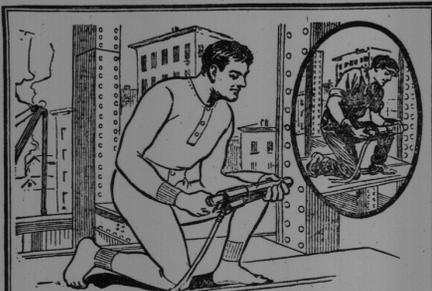

SAYS DISPENSARY COULD ACCOMPLISH A GREATER WORK

The first meeting of the association for the prevention of tuberculosis since June was held yesterday afternoon at the dispensary with the president, J. A. Likely, in the chair. Reports were submitted by the nurse, Miss Brophy, and by Dr. H. I. Farris and Dr. A. E. Logie. Doctor Farris had examined thirteen cases in July and eight in August. He expressed the opinion that the dispensary was not being used as it should be and said that many more patients should be receiving treatment at it. Doctor Logie reported examining twenty-four cases in June, seventeen in July and eight in August. He considered it an encouraging fact that more cases had been dealt with last spring than ever before.

Dr. Mabel Hanington gave an account of her work as medical inspector of the city schools that was very gratifying. She had under supervision approximately 8,000 children. With hearty thanks two gifts of money were acknowledged. The first from an anonymous friend was for the amount of \$25 and was handed in by Dr. A. P. McAvaney. It was added to the milk and egg fund. The second was for the amount of \$50 and was from the St. John Ambulance Brigade.

It was decided on motion to procure as many of the pamphlets, "What You Should Know About Tuberculosis" as possible, and have them distributed in the schools. Doctor Farris was appointed convener of the publicity committee and Mrs. O'Brien was appointed visitor for the month.

TRADES AND LABOR FAIR BIG SUCCESS

Prizes Won by Swimmers in Recent Contest Presented at Closing Night of Fair.

The Trades and Labor Fair, which has been held in St. Andrew's Rink during the past week, was closed last evening. The fair has had an extremely successful run and a considerable sum of money has been realized. The proceeds are for the erection of a labor temple in the city.

More than one thousand people were present at the fair last evening and all the booths did an exceptionally good business. An auction sale was held during the evening and everything in the booths that remained was sold. The door price for the evening was won by ticket 3771. The ladies' bean toss, an electric lamp was won by Mrs. Monahan, and the gentlemen's bean toss, a jar of tobacco was won by Mr. Burns.

The closing ceremony of the local swimming season came off with the presentation at the fair of the medals won in the sports at the North End city swimming scows on Labor Day. The prizes were presented by J. A. Barry.

The medals and winners are as follows:

P. E. I. GOVERNMENT IS SWORN IN

Charlottetown, Sept. 9.—The new Liberal government was sworn in today by the newly appointed lieutenant-governor, Hon. Murdoch McKinnon. The personnel as announced is as follows:

Premier—Hon. J. H. Bell, K.C., Summerside.

Provincial secretary-treasurer and commissioner of agriculture—Hon. Walter M. Lea, Pictou.

Commissioner of public works—Hon. Cyrus Crosby, Bonshaw.

Attorney-general—Hon. J. J. Johnston, K.C., Charlottetown.

Without portfolio—Hon. George E. Hughes, Charlottetown; Ben. J. Gallant, Bloomfield; Robert N. Cox, Miramichi; David McDonald, Glenfinnan, and Frederick J. Nash, Charlottetown.

C. G. Duffy, of Charlottetown, will be the new speaker.

Of the members of the executive, the premier, Messrs. Lea, Johnston, Hughes, Gallant and McDonald were in the house last session. Two others, Crosby and Cox, were previously in the legislature. Mr. Nash who is managing editor of the Charlottetown Patriot was returned at the last Liberal election. This is the first time that the offices of premier and attorney-general have been held separately.

The new premier has been a member of the federal house for Prince county and subsequently of the local legislature. The other members are prominent in agricultural, commercial and professional circles and the cabinet on the whole is a strong one, representative of the various sections and interests of the island.

ERECTION OF NURSES' HOME IS POSTPONED

Supplementary Report Shows Total Cost Of \$161,401 And County Council Balks—County Housing Commission Appointed

The erection of the proposed Nurses' Home will not likely be proceeded with until next year. At a special meeting of the county council yesterday, called for the purpose of considering the Lancaster housing scheme and the Nurses' Home proposition, Councillor Bullock moved that the latter be given a three months' hold. The motion carried with the majority of the city commissioners voting for the resolution. A subsequent amendment by Councillor Hayes that the building be proceeded with following the elimination of certain features which would reduce the cost was defeated. The three months' setback to the proposal came after the hospital commission submitted a report in which it was stated that new tenders had been called for and the total expenditure now amounted to \$161,401, an increase of almost \$10,000 over the amount appropriated at the last meeting a week ago.

Miss E. Agar addressed the council on behalf of the hospital and despite his assurance that the building could be erected for the stated cost of \$151,000, the council turned the proposition down.

Warden Golding presided with the following present: Councillors Hayes, Thornton, Fisher, Bullock, Jones, O'Brien, Bryant, Shillington, Thompson, Boreland, Stegenson, Carson and Howard. By motion the council went into committee to take up the housing problem in Lancaster. Councillor O'Brien submitted a resolution putting into effect a previous one adopted at the July meeting of the council. He moved that the following be appointed members of the housing commission in Lancaster: Alexander Wilson, St. John, Harold Hayes, Lancaster, Daple Murphy, Lancaster, W. Simms, St. John and E. A. Barry, Lancaster. The motion was seconded by Councillor Bryant and Councillor Fisher asked if the proceedings were in order. The county secretary replied in the affirmative, and added that power of attorney would be given each member of the board as it is the only satisfactory way the act could be worked out. The commission will act for the council until a resolution is passed on the certificate of indebtedness to the government.

Asked directly if the houses to be built in Lancaster were to be rented or sold the councillor assured the council that in every instance the act was being adhered to. The financing, particularly, was according to the regulations.

Councillor Bullock went over the workings of the act in St. John. He said the city was now accepting the burden and responsibility for the county that necessarily went with the loan. So far as the city of St. John was concerned it owned lots, but under the act they must confine their activities to the city proper. Legislation might be asked at the next session to have this feature cancelled. Mostly all the applicants had asked for loans to construct houses on their own lots. This could not be done with the exception of two applicants, all were for two flat houses. He believed that nothing had been done to change the original spirit of the housing act.

It was here moved by Councillor Fisher that the council rise from committee and go back into council and take up the matter of appointment of the board. This was done.

Councillor Bullock then moved that the Lancaster Housing Commission submit a written report to the council at each of its quarterly meetings. Councillor Fisher seconded the motion.

Councillor O'Brien took strong objection, claiming that it would place a hardship on the members of the board.

who were working without remuneration. He asked Mr. Bullock to stay the motion until the details had been worked out. The motion carried.

CONNOLLY TO PRESS CHARGE

(Buffalo Commercial.) Capt. Michael Connolly, Montreal millionaire, who was robbed of \$125,000 on a fake race track deal, arrived in Buffalo yesterday from New York and immediately went into conference with Thomas G. O'Grady over the trial of James W. Ryan, alias "The Postal Kid," who is accused of being the brains of the gang that fled him.

It is expected that the trial will be held about Sept. 18th. Detective O'Grady expects that Ryan will have an array of counsel to defend him, including John B. Stanchfield, one of the foremost criminal lawyers in the country. Mr. Stanchfield appeared for Harry Thaw in his fight for freedom from Matteawan.

When asked whether he would drop the charges against the gang that mugged him if they would offer to return the money, Capt. Connolly said: "I want them sent to jail for the benefit of the public."

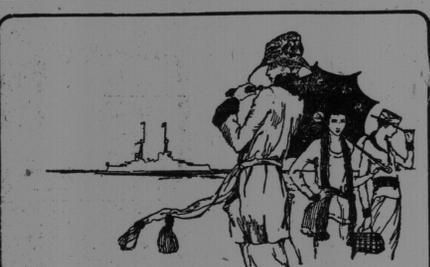

Capt. Connolly denied that he had said that the Buffalo police were a lot of crooks.

Webster on "Morale"

MORALE (Mor-ahl) n. (F. See Moral, in the sense of condition, or the condition in other respects, so far as it is affected by, or dependent upon, moral considerations, such as zeal, spirit, hope and confidence; mental state, as of a body of men, an army, and like.

HAT is Dr. Webster's definition. Many of us know the word only in its war-time application.

Webster dwells firstly on the usage of the word "morale" as applied to the commonplace happenings of every-day life. His allusion to its reference to an army comes later. And Webster is correct—meticulously so.

It was their private-life morale that made such splendid soldiers of our boys when the time came for them to don the khaki. It was that, and that alone, that made them take the first step, and it was that which carried them through to victory. If their every-day morale had been neglected, the Army could have done little with them and success would not have crowned their efforts.

It is the many little incidents of your daily routine that make up your morale—the morning shave, your clean linen, polished shoes, brushed clothes. Webster speaks of zeal, spirit, hope and confidence. It is by attention to the small details of your personal appearance that these may be attained.

The Gillette Safety Razor enters as much into the morale of every-day life as it did into that of the trenches. It helped our soldiers to maintain their confidence and bearing. It will do the same for you. The Gillette Safety Razor makes the daily shave come easy—there is no pulling or scraping—no honing, or stropping—just five minutes of perfect shaving comfort. And, afterwards, a chin that tells of morale and self-respect.

Sold at most stores catering to men's needs.

**J. S. ARMSTRONG WRITES
OF ST. JOHN HARBOR AND
COMMISSION PLAN**

To the Editor of the Times-Star—
Sir:—There are several points of view from which the harbor commission or other control of the port of St. John has or may be looked at.

There is, first of all, the profferer's point of view. This was the point of view that first blocked the project. According to the writer's remembrance there were sundry wharf owners who thought it would interfere with their property or prospective profits, and they opposed it politically and otherwise and it was dead for the time. Again it was the opposition of the contractors and dredging companies.

When George W. Stephens, chairman of "The Montreal Harbor Commission," gave his address in St. John he strongly advised that the port of St. John should be put under a harbor commission like that of Montreal, but as the writer remembers, none of the papers of that day took any notice of that feature of his address and a president of the board of trade at an annual meeting thereafter threw cold water on the proposal to bring in a resolution favoring the idea.

When addressing the public or canvassing for votes in a plebiscite, those working in the interest of the profferer are not likely to bring forward the true reasons they have for objecting to a harbor commission.

They will talk or write volubly as to the small consideration offered, or the dangers of losing control, and damn with faint praise the prospective benefits. As to prospective benefits more of that further on.

In the second place there is the politician's point of view. Everyone who thinks, knows there is more or less of this in all large public questions. The politicians have wanted to keep as much patronage as possible on tap. Fortunately (as far as dominion representation is concerned), St. John has two representatives—good business men—who favor the idea.

Again from the shipping interests point of view it is generally favored. They know what they are talking about and that the commission is the most likely way to give them the facilities they need in the near future.

Then lastly there is the general citizen's point of view or rather there may be several different points of view under his head. The large taxpayer is in a small minority and if not swayed by other interests will wish to get rid of increasing liabilities and probable increased taxes. He will be very glad to see the old harbor sinking funds used for other pressing needs. The less wealthy professional and the well to do artisans will view it from a more or less academic angle, depending a good deal on what they are told by their newspaper. While the man who is taxed little more than the polly hawk will likely view it from a more or less practical angle.

the dominion no one outside a department that had no experience in great port works could get a hearing.

One of the department chief engineers advocated locating a great dry dock in the Carleton (West St. John) mill pond with a single track swinging draw bridge to cross the approach from the existing dock or slip. He had no vision to see that there would be, in Union street, for a multiplicity of tracks, both railway and street car. A swing bridge in such a position would block much further progress in the port to say nothing of the destruction of much needed railway yard room through the location of the dock.

Another chief engineer is responsible for the fiasco of Pier No. — (the last one built); for the necessity or use of steel cables, under salt water, in the endeavor to control the graceful lines of the sides and prevent them toppling in to the slips; also for building it, without having due protection provided, so that it could be used at once for the large vessels for which it was designed.

A chief engineer objected to a scheme of breakwaters in the eastward of Partridge Island, claiming that it would cause a current prohibiting navigation, without apparently considering the details of the scheme or the facts about the current.

To specify only one item even if currents were increased for a short period each tide, the current runs up the river hours after the tide begins to fall, but no such prohibitive currents need be generated.

Let the civil engineers have full details of these works, and the results of the dredging, at their approaching meetings, so that their discussions may touch upon this distinctively local (as well as dominion wide) interest.

Montreal on the other hand has been fortunate in being under a commission which has studied the harbor's needs from the business point of view with far-sighted engineers who saw that the railway needed facilities as well as the ships. The two interests cannot accomplish anything without each other. The railways must have good yard room as the ships have dockage.

The writer has elaborated this as it is largely an engineering question and the time seems opportune for its discussion.

A good many of the other advantages of harbor commission have been so well set out by Messrs. Elkin, Wignow-Schofield and others that they do not need lengthy repetition. Mr. Schofield duly emphasized the advantage of having commissioners who would devote their attention to this special work; that the dominion government were not likely, in

fact could not, discriminate against St. John to the detriment of the whole dominion.

That so-called nationalization is not at present contemplated for St. John is no argument against harbor commission. It is enough for the present discussion that it is not offered.

Its advantages may or may not be doubtful. But St. John must remember that St. John and Halifax are not the only possible Atlantic ports for the dominion. While it squabbles over really trivial details there is danger of its losing a good chance to get ahead in the race.

Turbleton Bay and its adjacent waters can be made a more advantageous port than Halifax, being just as near Montreal and 800 miles nearer Europe. It is more easily approached and is free of ice, while Musquash harbor and the St. Croix waters, if taken in hand before St. John is thoroughly established, may give St. John a devil of a job, if properly handled locally or by competent interests.

In conclusion, the municipality of St. John has not the facilities, means or management adapted to put the harbor in proper shape for rapid advance. It is not its business to provide a winter port for the dominion. It needs all the taxes it has an equitable right to collect for its streets, housing and other utilities. To retain control of the harbor only retards its progress.

No sane business man would try to continue a business which was increasing his liabilities without prospect of gain, especially if he had a chance to sell out—even at a less sum than he put into it. It must be freely admitted that all interests in dredging and other contracts would not willingly sacrifice the public interest greatly at least to their own, but a monetary interest sways the conscience unconsciously in many cases. The city councillors are slow to move, but they probably feel that they must seem extremely cautious to guard against slander.

More than forty years ago, as an employee of the public works department under Henry F. Perley, the writer made the triangulation for, and the greater part of the detailed survey (barring the soundings) of St. John harbor, including Courtenay Bay, Partridge Island the Shag rocks to the westward and has been studying questions connected therewith ever since. The plan was unfortunately lost in the St. John fire.

The older generation may recall the writer's consistent advocacy of a harbor commission and other improvements connected with the harbor.

CENTRAL MISSION BAND.

The annual meeting of the senior mission band of the Central Baptist church was held last evening, Mrs. R. D. Christie, the president, being in the chair. All reports submitted showed that excellent progress had been made during the year and that enthusiasm had been the keynote of the year.

The finance committee reported total receipts of \$120, and the following votes of money were made: For the support of a native preacher in India, \$20; for Grand Linn, \$10; for North West Missions, \$20; for home missions, \$20. Two life-memberships were presented, one to Miss E. M. DeWitt and the other to Miss G. M. Wenn. Both were given as an appreciation of valuable services. The election of officers resulted as follows: President, Mrs. R. D. Christie; vice-president, Miss Mary Bettley; treasurer, Mrs. I. M. Hoar; secretary, Miss Nellie B. Keith. All were re-elections. The following were appointed members of the executive: Miss Eudora Brown, Miss E. M. DeWitt, Miss G. M. Wenn and Mrs. J. E. B. Herd. Look-out committee members chosen were Miss A. Daniels and Miss J. McLean.

COLGATE'S TALC POWDER

If you could see the tiny meshes of the sheer silk through which Colgate's Talc is sifted, you would realize why Colgate's is satin-smooth and fairy-light.

But this thistle-down fineness is only one of the reasons why Colgate's Talc is best for babies. Analysis shows that Colgate's contains 10.54% Boric Acid—just the right amount—and two other healing and soothing ingredients not found in other Talcs examined. Of nine other Talcs analysed, not one contained over 4% Boric Acid.

Mild, efficient, and antiseptic—the Boric Acid in Colgate's is necessary for use on the delicate skin of babies. And it is just as desirable for baby's mother. Remember, no Talc is complete without sufficient Boric Acid.

See that Colgate's—surely Colgate's—is used in your household. Its daily use is as desirable as the daily use of soap and water. Cooling and soothing, it protects the skin, relieves chafing, and gives greater comfort.

Do you Use Talc Often Enough?

After bathing, golfing, and all exercise?
To protect the skin against sunburn?
After shaving? To shake in shoes before a tramp? To prevent chapping?
In the invalid's bed to prevent chafing?
There are a hundred calls for Colgate's!

Dangerous Antiseptics And Germicides Are Unnecessary. A dependable antiseptic has come to be considered a necessity in most homes. Especially is this true since Absorbine, Jr., has had such a wide introduction, because this ointment is not only a powerful antiseptic and germicide but it is absolutely safe to use and to have around the house. It is not poisonous and it cannot do harm even if the children do get hold of it. That is a big point to consider. Absorbine, Jr., is concentrated and is therefore economical. It retains its germicidal properties even diluted one part Absorbine, Jr., to 100 parts water—and its antiseptic properties, one part Absorbine, Jr., to 300 parts of water. The antiseptic and germicidal properties have been repeatedly tested and proven in many prominent chemical laboratories. Detailed laboratory reports mailed upon request. BIDS WELCOME TO ENGINEERS

Annual Session of Institute of Canada Being Held

Welcome by Mayor Hayes and Lieut. Governor Pugsley — Papers of Interest—Vegetation in Maritime Engineering—N. B. Forestry Work

The fifth general professional meeting of the Engineering Institute of Canada opened this morning in the rooms of the board of trade, C. C. Kirby, president of the St. John branch, presiding in place of the president of the Canadian body, who was to arrive at noon. After an address of welcome delivered by Mayor Hayes interesting papers were read and discussed. After luncheon at the Manor House the meeting was addressed by Lieutenant-Governor Pugsley. Mayor Hayes in welcoming the engineers to the city, spoke of the work which the members of the institute had done in Canada. Speaking of engineering matters which had a bearing on the profession in the city he referred to the harbor, second in amount of business in Canada. The president in opening the business of the meeting, announced that on Friday afternoon there would be a meeting of St. John Engineers to take step towards the organization of a committee to bring before the legislature a draft bill relating to the standards of qualifications for engineers.

Papers Read
Alexander Gray read an instructive paper on the usefulness of vegetation in maritime engineering prepared by E. T. P. Shewen, M. E. I. C., consulting engineer, department of public works. The paper referred to the harbor at Port Hood where years ago the haven was protected by an isthmus on which was a heavy growth of grass. Cows were turned loose on the grass with the result that after a short time a breach was made in the isthmus; the fishermen to save a long sail around the isthmus engaged the breach and the tide did the rest—the isthmus was carried away and the harbor destroyed. It was found that the grass at Courtenay Bay was the same as that at Port Hood and roads were transplanted to Negro Point to prevent the washing of sand into St. John harbor and was successful. Other similar instances were cited by Geoffrey Slesard, of the department of public works. Chatham gave instances of farmers allowing cattle to roam on the beach with the result that the beach had started to wash and blow away until the department had to take steps to prevent the damage to the harbor. At Richibucto thirty species of plants were collected which were useful in preserving the beach.

F. G. Goodspeed said that in Quebec the government had been asked to plant grass along the coast of the bay.
C. O. Foss, chairman of the New Brunswick Power Commission said that he thought the government should secure all the land which should be preserved to protect harbors.
Mr. Stead in reply said that on the north shore it would be necessary to secure fifty or sixty miles of beaches.
J. Smeem Armstrong said that on Magdalen and Sable Islands, large sums of money had been spent on marine vegetation in order to keep the islands there.
Mr. Bowman of Halifax, said that the situation of Sable Island was a serious one; storms might carry away portions of the island.

Forestry
H. C. Kinghorn read a paper on forestry in New Brunswick, prepared by G. H. Prince, B. Sc. F., chief forester of New Brunswick. He said that twenty-nine foresters had graduated from the University of New Brunswick since the establishment of the course twelve years ago. A survey was commenced in 1916 of the forest land of New Brunswick with the result that about one-quarter of the land had already been surveyed at a cost of five cents an acre. The paper went on to explain how the survey was carried out. A chart showing the amount of timber-land in the province was displayed, showing that 26.86 per cent of the land was non-productive. The paper spoke of the value of the survey for forest protection from fire, showing the location of slashes, streams and the accumulation of waste along highways, etc. He said that the law of fire protection already passed were showing excellent results.

Government Praised
The provincial government deserved great praise for the impartial manner in which the personnel of the forest service had been appointed, on merit alone. Returned men were being appointed for this work as far as possible. Co-operation between the provincial government and the Canadian National Railways had improved the conditions under which the forestry work had been carried out. All means of propaganda were used to educate the public as to the necessity of fire protection. Of the fires which occurred in 1918, 829 were caused by railways amounting to \$20,000. A total of \$22,000 damage was done by fire in the province in 1918.

Mr. Burpee asked what co-operation there was between operators and railways running through land being operated. Mr. Kinghorn said that it was up to railways to look after the slash and debris within 300 feet of the centre of their railway. The chairman said that in Maine the C. P. R. maintained two tank cars at Brownville filled with powerful pumps and two miles of hose per car.
J. S. Armstrong spoke of barren lands in the vicinity of Minto and the centre of the province and Mr. Kinghorn said the matter of replanting would likely be taken up later.
Mr. Kinghorn, in reply to a question, said that the lamprack in the province was nearly all destroyed by an insect. In reply to G. G. Hare, the speaker said that spruce and fir were now being attacked by spruce bud moth and this was being fought by a special body of men appointed by the dominion government. A paper which was to have been read by B. M. Hill, provincial road engineer,

VISITING POLICEMAN.
George Brennah of the Boston police department is in the city on a vacation visit. He is a native of St. John West and is renewing happy acquaintances of other days and is being heartily greeted.

A CHALLENGE.
The W. H. Thorne & Co., Ltd., team wishes to challenge T. McAvity & Sons, Limited, to a game of baseball to be played on Saturday afternoon on the barrack green. It is hoped, as the season is nearing a close, that this challenge will be accepted.

POLICE COURT
Only two arrests were made by the police last night but the names seven were entered against the two. Three sub-inspectors made the arrest of Frank C. Brown on a charge of having liquor in his possession. He forfeited a fine of \$20 this morning in the police court. The other arrest was that of a man charged with drunkenness in Haymarket square in whose taking in custody four policemen figured. He was remanded this morning.
Magistrate Ritchie held court at 6.30 a. m. as he left for Fredericton on the early train. Mr. Henderson, police court clerk, called the name of the defendant in the liquor case at the regular hour, 10 a. m., but it was unanswered.

Man In The Street

Interpreting the peace terms in poker parlance, one might say that Austria discarded her king and got the deuce.

The consumer would not object to a thirty hour week for the coal miners if he did not have to burn coal for the other 136 hours of the week.

Citizens who have paid their taxes may now begin to save up for the next Victory Loan.

Victory comes high, but we had to have it.

And there's more pleasure in investing in a victory loan than in contributing towards an indemnity.

John Condon and John Sullivan are a long time getting to the mark for that layed factor. They say he refuses to run unless he gets a three yard start. Oh, John!

Will Boston crooks declare a sympathetic strike in support of the policemen who have decided to quit?

The Bolsheviks have proposed peace to the Lithuanians. Do they mean that "peace, perfect peace" of which we sing at funeral services?

Another Armistice.
It has taken the Globe and the Standard considerable time and many columns of space to reach an agreement on the proposition that, since the city's financial needs have not shrunk a reduction in the revenue from certain sources makes it necessary to secure more revenue from other sources.

Having reached this agreement, perhaps they will tell the world what ought to be done about it.

Indian-Summer Wanted.
The Indians can make themselves solid with the people of this province if they will produce some of their particular brand of summer weather.

Row-Wow.
It was in a street car. Two ladies were seated and one had on her lap a tiny dog. Enter the conductor. "You'll have to put the dog off the car, Madam," said he.
"I'll do nothing of the kind," she replied. "This is not a common floor dog; it's a dog in arms."
"Perfectly absurd," agreed her companion. And the dog stayed. In the words of the poet, "Can you beat it?"

Positively The Latest.
Here is a new one which has already made excellent headway in the city. A man who was reputed to be mentally deficient left the local institution for such cases and borrowed without permission, a motor car which was standing in the street. Proceeding along Douglas avenue he encountered two Chinese to whom he extended an invitation to ride to the city and they agreed. With his two passengers in the back seat, the driver "opened up" coming along the avenue at a break-neck speed; as he approached Main street he did not cut down the pace of the car, but rather increased it, crossing into Main street a fifty-mile clip the car failed to negotiate the turn and crashed into a telegraph pole. Passers by rushed to scene and found that the car was a total wreck. All that was left of the whole expedition was a "nut" and a couple of "washers."

on New Brunswick highways was postponed on account of the fact that Mr. Hill is at present indisposed but it was hoped to have his paper later in the meeting.

An invitation to visit the following plants was extended by the chairman to the members: Canadian government elevator, Atlantic sugar refinery, T. S. Simms & Co. Ltd., Nashwaak Pulp & Paper Co., N. B. Power Co., Maritime Nail Co., N. B. Telephone Co.

The chairman also announced that on the return trip from Hampton on Friday the members were invited to a dance at Gondola Point.

Those Attending.
The register shows the following names: R. W. Leonard, St. Cartherines; Ont.; C. C. Kirby, St. John; Fraser S. Keith, Montreal; A. Gray, G. G. Hare, St. John; F. A. Bowman, J. R. Freeman, J. G. Isn't it Worth \$2.95 to Have Baby Learn to Walk Properly?
THE BABY WALKER is just the thing to teach baby how to walk properly and protects the young limbs from curving under the strain. Strongly, yet lightly made, easily moved at slightest touch; seat is adjustable so as to keep step with baby's growth.
Baby will fit snugly in seat and can run about to his heart's content, and without strain or danger of falling or bumping into sharp corners.
Price \$2.95
