Marquis of Northampton—Gets
Quarter Million and He Also
Has to Pay Big Costs

(Canadian-Press)

London, July 2.—Two hundred and fifty thousand dollars and all the costs of the suit is the price the Marquis of Northampton has agreed to pay to settle the suit for breach of promise brought against him by a well known actress, Miss Daisy Markham, whose real name is Miss Violet Moss.

The settlement was announced when the case was called in the high court of justice this morning in a court room crowded with fashionable women and actresses who had come in anticipation of listening to some interesting evidence.

Sir Edward Carson, a former solicitor-general, and Edward G. Hemmerde, recorder of Liverpool, and member of parliament, with two junior barristers, appeared on behalf of Miss Markham. On the other side were Henry E. Duke, a Unionist member of parliament; Frederick E. Smith, one of the Unionist leaders, and Raymond Asquith, a son of the premier.

Northampton's Letter
Sir Edward Carson, in court today, said the girl had met the marquis last year, when he made a promise of marriage to her, which was not denied. Subsequently the terms of the promise were broken and the marquis broke off the engagement.

Miss Markham's lawyer, Mr. Hemmerde, said that the marquis had taken a sense of duty and was willing to pay the costs of the suit. He also said that the marquis had agreed to pay the costs of the suit.

LARGEST ACCIDENT AWARD

Mine Given \$37,500 by Jury for Loss of Both Eyes, Right Arm and Part of His Left Hand

New York, July 2.—What is said to be the largest verdict ever awarded in a personal injury case in the United States Circuit Court was returned before Judge Chatfield in Brooklyn when Stanislaus Yensavage, a minor, was awarded \$37,500 for injuries sustained while in the employ of the Lehigh Valley Coal Company at Shenandoah, Penn.

On June 10, 1911, Yensavage was working as a helper in the company mine. While carrying percussion caps his oil lamp ignited one. An explosion followed, causing the loss of both eyes, right arm and all but the first finger and thumb of his left hand. He was in the hospital for five months. He sued for \$50,000. The jury was out three minutes.

WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, B. F. S. Part, director of meteorological service.

Synopsis—Intense heat prevailed over Ontario and Western Quebec yesterday, with temperatures in excess of 90 in most localities. The weather is generally fair this morning throughout Canada, but scattered showers are occurring in British Columbia, Alberta and Ontario.

Three Canadians in Team
Philadelphia, July 2.—Three Canadians, one New Yorker and six Philadelphians, were selected yesterday by the Associated Cricket Club to oppose the Australian cricketers in a match to begin here on Friday next. One other Philadelphian will be chosen later.

Maritime—Moderate southerly westerly winds, fair and warmer; Thursday, Moderate southwesterly winds, fair.

London, July 2.—Lloyd George's fighting Marconi speech at the National Liberal Club luncheon has been enthusiastically received by the fighting ranks of the Liberal party. His friends begged him not to hit back, even the chairman of the luncheon attempting to restrain him, but Lloyd George rejected all moderate counsel and lashed out furiously.

NINE DROWNED NEAR
TORONTO IN FEW DAYS

Toronto, July 2.—Once more Toronto laid heavy to the oppressive weather when two boys lost their lives through drowning yesterday, bringing the total of drownings during the last few days up to nine. The victims were Edward Harry Carter, aged 15, drowned in Hamber brook, and Clarence Clarke, aged 12, drowned in the Rouge River, a short distance east of Toronto.

THE ISAACS CASE

The latest report regarding R. D. Isaacs, who is held in Boston on several charges and who is wanted here on charges laid by the Alberta government, is that he will not be brought to St. John for trial. Negotiations have been in progress in Boston for the settlement of some civil cases in which Isaacs was involved and it is understood that he should settle these before he would be turned over to the Canadian authorities. It is also understood that the time came to settle the other matters it was discovered that Isaacs did not possess the heretofore and the arrangement fell through.

GUARD MENLEY COURSE
AGAINST SUFFRAGETTES

London, July 2.—The banks of the Thames, where the orators for the Henley regatta are encamped for the races during the next five days, are the scenes of extensive precautions to prevent any disturbance of the race by suffragettes. The police are on duty to guard the race course and to prevent any attempt to be made to interfere with some of the important events of the Henley. There is a fear that an attempt may be made to destroy or injure some of the boats and that they might be stretched across the course in front of the racing crews.

DOMINION DAY DINNER
His Grace of Connaught Chief
Guest With Lord Strathcona
Presiding — Dominion Looks
Forward to Steady Advance

(Canadian Press)

London, July 1.—Lord Strathcona presided at the Dominion Day dinner held here last night. The chief guest of the evening was the Duke of Connaught. Among other guests were the Japanese ambassador, the Rt. Hon. Lewis Harcourt (colonial secretary of state), Earl Grey, Earl Aberdeen, Rt. Hon. Colonel Seely, Hon. A. L. Sifton, and nearly every high commissioner and prominent Canadian now in London.

In proposing the toast of the Dominion, Lord Strathcona alluded, among other things, to the pride and gratification with which Canadians had received the news of the Duke of Connaught's extension of time in the office of the governor-generalship. The Duke of Connaught had a magnificent reception in rising to respond in thanking the chairman for his remarks in reference to the Duchess, he said:

"I am very much pleased to say she is making a splendid recovery, and looks forward to accompanying me back to Canada in the autumn. I feel most flattered at having been asked to accept an extension of my term for another year. I think all of you will be aware that such an offer made me by the king, through the secretary of state, was most highly appreciated by me.

"You must all feel the greatest confidence in the future and prosperity of the Dominion. During the time I have held office, Canada's advance has been most remarkable. There may be for the moment depression passing over Canada, those are things which happen to every country; but I am certain this is merely temporary, and Canada is on a sound basis and has every reason to look forward to a steady advance in prosperity and population.

"I am afraid in England they are beginning to get a little nervous over the immense number of immigrants going to Canada, but they must remember this, although they may be leaving these shores they are not leaving the British Empire, and I hope will be as great an asset to the empire in Canada as in the United Kingdom. Canada has no wish, no intention of breaking away from the grand old flag floating over us. I am sure she will always prove true to the great spirit she holds in the British Empire.

"I little thought when I was at the Canada Club dinner two months ago I would be still in England now, but my enforced absence, I hope, will not lose me the sympathy and affection of Canadians. I look forward, on my return, to the same support and the same sympathy I have met with during the last two years."

Colonial Secretary Harcourt read the following telegram received from the acting governor-general of Canada: "The prime minister desires me to say that the government and the people of Canada have learned with the greatest pleasure that Field Marshal H. R. H. the Duke of Connaught has consented to accept for a one year extension his term of office as governor-general, which has been already fruitful of the best results to Canada, and all rejoice to hear that Her Royal Highness may also be seen with him in full enjoyment of her health."

Mr. Harcourt, referring to Lord Strathcona, said the laudis, or should he say, the maple leaves of usefulness in industry life made the crown of pride and honored age. (Cheers.)

His friends begged him not to hit back, even the chairman of the luncheon attempting to restrain him, but Lloyd George rejected all moderate counsel and lashed out furiously.

The liberal members of parliament declare the speech has pulled the party together and cheered everybody up. Liberals here are very tired of the apologetic defensive attitude of the last few weeks and welcome the opportunity to carry the war into the enemy's country. As the minister were leaving the luncheon Rt. Hon. Mr. Churchill called the officers in the back, remarking "You're the man for us."

THE DAILY NEWS SAYS: "It was as though some hero of old had come back to his clan. Those who had doubted it were possible for the chancellor to lead on again in the heat of the fray with all his old courage and heart of heart, above all to lead on, sprang to their feet to wave handkerchiefs, while the hall shook with cheers."

Washing, July 2.—The Michigan Lake Superior Power Company has filed with the international joint commission a proposed lease with the United States for the diversion of water and the construction of a dam on the St. Mary's river at Sault Ste. Marie, Mich. As these are boundary waters the approval of the commission must be obtained.

The terms of the lease provide for a continuous flow of 25,000 feet by water a second, with a possible increase of 5,000. The company will pay the government a yearly toll of \$220,000 for a second and \$1 a cubic foot, 25,000 cubic feet.

Under the new conservation policy of the United States the government proposes to use the water of the United States for the development of works constructed by the company.

French Golf Players Win
Labouette, France, July 2.—France yesterday won the international golf match between teams of professionals representing the United States and France. The Frenchmen beat the American players in all the four single matches and with two previous wins for ball strokes, scored six out of the possible six points.

Armand Massey beat Tom McNamara by 2 up and 1 to play. Louis Teller beat Alex Smith by 6 up and 4 to play; Jean Gosselin beat Michel P. Brey by 2 up and 3 to play; and Pierre Lafontaine beat John J. McDermitt, U. S. National champion, by 3 up and 2 to play.

McKAY-SULLIVAN
At 8 o'clock on Monday evening, at the residence of her brother-in-law, J. S. Cosman, 157 Barker avenue, Miss Margaret Julia Sullivan was married to Robert H. McKay by Rev. Doreis Cosman, pastor of the Tabernacle Baptist church. The bride was dressed in white marquisette over a blue dress. She wore a flower girl, looking very pretty in a dress of blue silk. The wedding march was played by Mrs. Doreis Cosman, the groom's present to the bride was a gold watch and seal, and to the flower girl a gold watch.

Numerous presents of silver, cut glass and linen gave evidence of the high esteem in which they were held. After a honeymoon trip to Fredericton and other New Brunswick towns Mr. and Mrs. McKay will reside at 16 Meadow street.

SITUATION OBSCURE

(Canadian Press)

London, July 2.—A telegram to the Exchange Telegraph Company reports that the Servian troops are pursuing the fleeing Bulgarians along the whole line in Macedonia.

London, July 2.—At the moment of writing, the situation in the Balkans is most obscure. Concurrently with Tuesday's news that the Servian skupstina had endorsed the decision of Premier Pasitch to submit the dispute with Bulgaria to the arbitration of Russia, came a statement that fighting had ceased and it looked as if the "unofficial war" would not develop any further. Early this morning, however, telegrams from Belgrade gave a different complexion to the situation. M. Petrich, the minister of the interior, had stated in the skupstina late last night:

"We are at war with Bulgaria and directions have been given to the Servian commander-in-chief to be ready to defend our whole line, as Bulgaria has attacked us all along the frontier."

New agency telegrams from Belgrade after midnight, asserted that the fighting was renewed with great vigor on Tuesday along the whole front, and that bloody battles had been fought. None of these despatches can be confirmed. No further fighting between the Greeks and Bulgarians is yet reported, but the latest despatches tend to confirm the report that Greece regards war as having begun.

It is reported, but without confirmation, that Russia has sharply called on the allies to stop their fighting.

Brindisi, Italy, July 2.—Essad Pasha, the former commandant of the Fashat of Scutari, accompanied by Albanian notables, arrived here today. SPEEDY TRAVEL IN OLD DAYS AND NOW:

Twenty Miles an Hour Was Limit Fixed by Dr. Johnson—Now Two Miles a Minute Has Nearly Been Attained

(Times' Special Correspondence)

London, June 18.—Dr. Johnson, in one of his magnificent law-giving moods, uttered the pronouncement that man would never be able to travel at twenty miles an hour, for he would not be able to breathe and withstand the wind resistance. That is a classic example of the fact that, no matter how learned one may be in his generation, his ideas concerning the possibilities of what has not been tested are not worth a fig.

Motor Car is fastest

Meanwhile the motor-car is the fastest vehicle on the land. It is some seasons since Nazzaro, the famous Italian driver, came over to Brooklands on a Fiat car, and, in the course of a twenty-eight miles' match against a British-built Napier, did no fewer than two and a half laps round the two and a half mile track at a rate of two miles a minute. In point of fact the speed was over 120 miles an hour. Subsequently an American driver on a big Benz car was certified to have sprouted for a fraction of a second at a speed of 140 miles an hour.

But it was not until a couple of months ago, on a British-built machine, providing an absolute contract for the foregoing, in that it was a small, standard design, four-cylinder, 28 h. p. Talbot car, that anybody had succeeded in traveling a hundred miles within the period of an hour. That achievement had been a dream of motor engineers for many years. It is extraordinary that a British constructor with a small machine, for scarcely had that performance been conceived than a foreigner, in the guise of the Peugeot firm, sent across a car of a much larger size, which succeeded also in an hour.

So that, as often happens, not one maker, but many, are able to attain a given stage of advancement more or less in synchronism, for there are several makes of cars that could do this now, types permitting.

The next big speed achievement for the motor engineer to aim at is to be the first to produce a car to travel at two miles a minute for an hour at a spell. This may be done, types permitting, in a matter of weeks, as instance the building of the 12-cylinder Sunbeam engine. In the meantime, and despite the fact that no aeroplane has yet been proved to have achieved in a sprint, independent of wind, a speed surpassing the fastest done by a car over a short distance, in April a French aviator Guillaux flew a distance of 119 miles in an hour, so that it is already a mere question of luck as to when any aeroplane may add the one mile to that accomplishment and travel at two miles a minute for an hour on end.

It is therefore most probable that the flying machine will be the first vehicle to convey a man that distance in that time. One hopes it will be soon, since the moment it does so the general public will begin to realize a fresh use for flying at least in its bearings on national defence, namely, that not only will the aeroplane be the speediest vehicle in the world, but also one that shares with the dirigible in speed as well as in quickness of rising. But at present aeroplanes are made on such a limited scale that it is not possible to compare their load-carrying powers in any way with those of dirigible balloons. In a few years, however, there is no reason why we should not begin to count the useful load carried by the aeroplane in terms of tons.

It thus becomes abundantly plain that at the beginning of the Twentieth Century we must recast our ideas of speed, just as it was necessary more than a hundred years ago for Dr. Johnson and his generation to remodel their notions concerning possible rates of travel in face of developments that came very

rapidly after his historic pronouncement. In reading news of fresh speed triumphs for aeroplanes, of course, one must be careful always to observe whether or not the achievement was made with the aid of the wind or without it. Thus it is easy to run before the wind on a point-to-point journey. It will be realized that if the favoring wind is only traveling at the rate of thirty miles an hour, that, added to the speed of a fast aeroplane, represents something very appreciable. On the other hand, if a wind is out and return it can, on the average, be assumed that the wind speed has been practically eliminated. In like fashion in the case of Guillaux traveling 119 miles in an hour, that was done in a circular course, therefore he had the wind sometimes against him and sometimes with him; it can therefore be practically regarded as having been neutralized.

In considering this achievement, which for all practical purposes is traveling 120 miles in an hour, we must take note of the duration of flight of a modern aeroplane. Thus a month ago another French aviator, Gilbert, flew on a Moreau monoplane from Paris to Vittoria, in Spain, a distance of 284 miles as the crow flies, but his average speed worked out at only 62 miles an hour. There is, however, no railway train service in the world which provides such an average for such a long distance, for there are bound to be stops on the way, altogether apart from the fact that the route cannot be absolutely direct, as is the course which an experienced aviator can take. Moreover, Gilbert was carrying fuel supplies sufficient for a twelve-hour flight, whereas by the time he came down at Vittoria he had only been flying eight hours and twenty-three minutes.

The value of these cross-country performances is that it brings up the long-est record to within 62 miles of the longest flight previously made round an aerodrome. Inasmuch as the main use

Call for easily digested cereals, fruits, etc., and less of the heavy, hard-to-digest kind.

Probably the most nourishing, most easily digested cereal food known is

Grape-Nuts

Made from prime wheat and malted barley, it is ready to eat direct from the package; digests generally in about one hour and contains the true brain and muscle building materials placed in the field grains of Nature for man's use.

Grape-Nuts food has delicious taste; and is pure, wholesome and a "builder" in the true sense of the word—an ideal summer dish that does not overheat the body.

Beatrice, Neb.—"Just after my marriage my left side began to pain me and the pain got so severe at times that I suffered terribly with it. I visited three doctors and each one wanted to operate on me but I would not consent to an operation.

I heard of the good Lydia E. Pinkham's Vegetable Compound and I bought a bottle and I used several bottles of it with the result that I haven't been bothered with my side since then. I am in good health and I feel like a new woman."

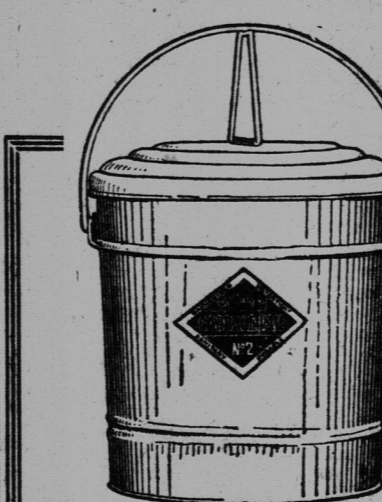

The Other Case. Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and I was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation, but my husband thought I had better write to you and I did so, stating my symptoms. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your Vegetable Compound."—Mrs. R. B. CHASE, Beatrice, Neb.

TO THE PUBLIC: About one year ago we opened a Branch of the "Neal" Institute at 46 Crown Street, St. John, N. RECENT DEATHS

George E. Fairweather
After an illness of about three years' duration, George Edwin Fairweather died at 1 o'clock yesterday afternoon at his home, 214 King street east. His immediate death had only been expected during the last week.

Up till a few years ago, Mr. Fairweather was actively associated with his son in the insurance business, which he founded, and was regarded as one of the city's most desirable citizens. Kindly and courteous in manner, he made friends everywhere and will be sincerely mourned. He took a keen interest in matters pertaining to the public welfare and in political affairs during his long and useful life.

The late Mr. Fairweather was a well known barrister-at-law and insurance and real estate agent. He was born in 1838, the son of Joseph and Jane (Whiteaker) Fairweather. His great-grandfather, Thomas Fairweather, came to settle in New Brunswick in 1783 with other loyalists from Long Island (N. Y.). Joseph Fairweather, father of the late George E., was brought up on the farm, but came to St. John on attaining his majority. He was engaged in the lumber and west India trade and served

Watch for July bargains. The annual summer sale begins on Friday next, July 4th, at F. W. Daniel Company, corner King street. We can sell fresher and more up-to-date goods than any other store, and sell them lower, because we were able to re-stock after our fire at great advantage. Many specials are here that were in this week picked up by us late in the season, and that could not be offered by stores having heavy stocks on hand. Remember this "summer sale" begins Friday morning.

SYNOD COMMITTEES
The committee meetings in connection with the Diocesan Synod are being held in the Church of England Institute rooms. There will be a meeting of the committees on Church Literature and Education this afternoon. The Sunday school standing committee will meet at 8 p. m. EARLY JULY BARGAINS IN SUMMER HATS AND FRENCH FLOWERS

Extra Special Offerings by The Model Millinery Company

The balance of this week will be marked by sweeping price reductions in untrimmed and trimmed hats also in white and colored flowers, at the Model Millinery Company's show-rooms, 29 Canterbury street.

The offerings include a wide range of dainty French flowers, in white only, at 25 cents a spray; a mere fraction of their real value. There is also a limited quantity of colored flowers, all the most favored shades—at 15 cents or two for 25 cents. These are exceptional bargains in trimmed hats.

Especially attractive are the offerings in hats, all of which are bright, fresh and up-to-date, and one has only to see them to realize that at the prices they are values away out of the ordinary sale bargains. Tans and turbans, for instance, in tuscany and burnt mohair, worth \$2.75, are placed on sale at 75c.

There were many other difficult acts, among them one in which Ajax held in the air by his teeth a chair on which was seated Madame Carroll, his assistant. Great muscular strength was demonstrated in the juggling of huge dumb-bells.

The programme also contained a sensational picture entitled "The Slave's Devotion," shown in 800 seats. The power and influence of liquid air as demonstrated in motion pictures also proved very interesting.

The programme will be repeated this afternoon and evening.

AXIA, MAN OF GREAT STRENGTH, ASTOUNDS ALL AT OPERA HOUSE

Capacity houses greeted each performance at the Opera House yesterday and witnessed an excellent bill which was greatly appreciated by the large audiences which were not sparing in their applause.

The feature of the performance was Ajax, a wonderful strong man, who demonstrated his extraordinary muscular development. "The Demon of Strength" as he has been called, is an apt name for Ajax, as the manner in which he carried through his performance yesterday on the Opera House stage was a triumph and all were held spellbound while he carried out many daring feats. One of the most difficult of his acts was the allowing of a piano weighing more than 900 pounds, to be rolled over his body and rested there while he bore the weight of it. Seven men were selected to lift the piano and place it on the strong man's body.

There were many other difficult acts, among them one in which Ajax held in the air by his teeth a chair on which was seated Madame Carroll, his assistant. Great muscular strength was demonstrated in the juggling of huge dumb-bells.

The programme also contained a sensational picture entitled "The Slave's Devotion," shown in 800 seats. The power and influence of liquid air as demonstrated in motion pictures also proved very interesting.

The Big Sale of Boots and Shoes at Our Union and Mill Street Stores

Is the talk of the City. The way we have slaughtered prices is a surprise to everybody. Thousands have taken advantage of the chance to supply themselves and families ahead. At first some people thought it a clean-up sale of old shop worn stuff, but they were soon convinced that never before was there such a stock of really good goods at such ridiculous prices. If as yet you have not availed yourself of the opportunity of providing for present and future uses come this week. This immense stock of thousands of pairs we bought at a wonderfully low price and we are giving the people of St. John and vicinity a chance to get the biggest bargains of their lifetime.

CORRUPTION LAID BARE

Lobbyist Tells Story of Whistle-blowing

AT WASHINGTON

Gives Names of Those Who Were Bought and of Others Who Could be Influenced Otherwise—Puts Taft Among the Latter

New York, June 30.—Col. Martin M. Mulhall, a Republican politician of Baltimore, has made a statement, attested to before a notary public, that for ten years, while he was chief lobbyist and under-ground corruptor for the National Association of Manufacturers, that body restrained the labor unions and moulded business legislation by bribing, intimidating or influencing representatives in Congress, United States senators and the chief officers of government.

Mulhall has been subpoenaed to appear on July 7 to repeat his charges before the senate's lobby investigating committee. He names ex-President William H. Taft as one of the men whom the lobbyists for the National Association of Manufacturers had no difficulty in reaching and influencing for business, political or sympathetic reasons during recent years.

He does not charge that Mr. Taft got money. He puts the ex-President in the "business, political and sympathetic" category along with the late Vice-President James S. Sherman, Senator Lodge of Massachusetts, ex-Senator Foraker of Ohio, Hemenway of Indiana, Aldrich of Rhode Island, Scott of West Virginia; Senators Nelson of Minnesota, Stephenson of Wisconsin, Townsend of Michigan and Gallager of New Hampshire; ex-Speaker Joseph G. Cannon, Representative Barthold of Missouri, Fairchild of New York and Burke of Pennsylvania; ex-Representative William S. Bennett, ex-Representative Vreeland, Southwick and M. E. Driscoll of New York; Representative Calder of New York; ex-Representative Adam of Minnesota, Overstreet of Indiana, Fowler of New Jersey; Curtis Guild of Massachusetts; ex-Ambassador to Russia; Myron T. Herrick of Ohio, the present Ambassador to France, and some other of the names.

Mulhall charged directly that among the representatives (most of whom are now out of office) who took money from the National Association of Manufacturers for controlling the House Labor and Judiciary Committees or for other subserviences were James E. Watson of Indiana, an influential Republican Congressman for years and the floor leader for the Taft forces at the Republican national convention in 1912; Charles E. Littlefield of Maine, who has had an extensive law practice in this city for several years; J. J. Gardner of New Jersey, who was chairman of the House Committee on Labor from 1908 to 1911; Kittredge Hawkins of Vermont, Ralph B. Cope of Ohio, Henry M. Country of Missouri, who came to this city after being indicted and sentenced for passing bad checks and fraudulent use of the mails; John J. Jenkins of Wisconsin, who was chairman of the House Judiciary Committee from 1904 to 1908; Harry M. Bannan of Ohio and James T. McDermott of Chicago. McDermott is the only one mentioned who is now in office.

The statement, an astounding pattern of bribery and deception, of hypocrisy and betrayal, of spying and lying, was prompted, Mulhall maintains, by a desire to serve the public and to compel reform through legislation. On the other hand Richard Barry, a widely known playwright, author and newspaper correspondent, said that Col. Mulhall sold the statement to the New York World for cash—\$10,000—and then broke an agreement to give Barry half the amount for making the deal. Barry has sued Mulhall in the Supreme court of this State, and last Wednesday Supreme Court Justice Gleicher issued an attachment for \$5,000 against any property of Mulhall's that could be found here.

Lord Roberts says the Territorial forces in England as at present constituted can never be efficient.

HOW TO GET RID OF DYSPEPSIA

Don't Rely on Medicines! Don't Go on Frenzied Diet; Common Sense and an Acid Usually All That Are Needed

Physician Gives Good Advice

"If you have dyspepsia, indigestion, sour stomach, belching, distress after eating, heartburn or any other stomach trouble due to hyperacidity (the usual cause of stomach troubles) you should take no medicine to act upon the stomach itself. That is positively not the way to cure the trouble. Again, you should not half starve yourself by going with out the nutritious food you need to rebuild waste tissues. Some foods are not good for people even when in good health—very rich, sweet, highly seasoned dishes. Avoid these, but eat fairly substantial meals of plain foods. Eat slowly. Even if you drink nothing but water, you should not drink with meals. Drink before and after eating. Do not take pepin or other artificial digestants. If you follow the foregoing simple instructions, it is probable that you will not need any medicine at all, except, if you want to call it a medicine, a little antacid after meals. The best antacid is ordinary Bisurated Magnesia, which can be purchased at any drug store. This is an acid to act upon the stomach, but to act upon the contents of the stomach. The antacid as you can learn by consulting your dictionary or encyclopedia, is merely to neutralize or counteract the excess acid so the stomach can digest the food normally. Take a teaspoonful of Bisurated Magnesia in a little cold or hot water after each meal. You should get immediate relief even if your case is severe. Careful, moderate, eating and the use of Bisurated Magnesia should put your stomach in normal condition in a short time, if you have not allowed dyspepsia to advance to the extreme stage of developing stomach ulcers or cancer.

A Fur Announcement

of Exceptional Interest to Prospective Buyers

We have just received a selection of Persian Lamb and South Sea Seal Skins from which we are prepared to take orders for coats. Now is the time to prepare for winter, as the choice of skins is complete. By choosing now the garments can be made and ready for early fall delivery which will avoid the hurry and worry that orders taken during the rush season will bring.

Our Persian Lamb Skins are genuine Leipzig dyed, being the best obtainable.

The South Sea Seal Skins are of special quality and are much lower in price than the Alaska Seal, but in appearance and quality are practically the same.

Workmanship, fit and finish of these garments will be guaranteed to give satisfaction. We invite inspection when prices will be quoted on application.

The prices we are able to quote on these garments—the work and finish—should interest every American tourist.

A Test of Hunger; Man Against Wolf; Man Wins

"All night he sat there, in the light of his campfire, motionless. Sometimes he could hear a snarl back in the den, but no howls showed. It grew bitter cold in spite of the fire."

(Times' Special Correspondence) Sparta, Wis., June 28 - Owen Hughes, a veteran hunter of Monroe county, has rounded out half a century of hunting and trapping with a feat that has won the admiration of the whole La Crosse valley. He "starved out" a den of twelve wolves in a night lasting four days and four nights, and killed them when hunger finally drove them from their cave.

THOUGHT IT WAS CANCER OF STOMACH

Tortures of Chronic Dyspepsia Cured By "Fruit-a-tives"

Sydney Mines, N. S., Jan. 20th, 1910. For many years I suffered torture from Indigestion and Dyspepsia. Two years ago I was so bad that I vomited food constantly and lost 25 pounds in weight. I was afraid the disease was Cancer.

I read about "Fruit-a-tives" and the wonderful cures this fruit medicine was making, and I decided to try it. After taking three boxes, I found a great change for the better and now I can say "Fruit-a-tives" has cured me when every other treatment failed, and I reverently say thank God for Fruit-a-tives.

WOMAN'S HAIR REACHES TO KNEES

A Year Ago Was threatened with Baldness. Tells How She Made Her Hair Grow

Mrs. Esther Emery, now visiting friends in the city, is the fortunate possessor of marvellously beautiful hair, which, when loosened from its coils, falls to her knees. Moreover it is of soft, silky texture and in color, a glorious glossy gold. Yet just one year ago she was threatened with baldness.

APPROACHING BALDNESS May Be Checked by Using Herpicide.

The above expression is one which is used frequently in connection with hair preparation. It is in each instance a question. Baldness is not a disease, and hence, does not permit a cure. It is a condition of the hair follicles, and if the condition has become chronic, that is, if there is complete atrophy of the hair follicles, a "cure" is absolutely impossible.

Approaching baldness, seen in falling hair, is always checked and if the hair follicles are not atrophied the hair may be induced again to grow.

Soft, glossy, fluffy hair cannot grow on a scalp infested with dandruff any more than a delicate plant can grow on an ash heap. The scalp must be kept clean and free from dandruff. The best remedy for doing this is Newbro's Herpicide, which receives the highest endorsement from professional men.

Newbro's Herpicide in 50c. and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

Applications obtained at all first-class barber shops and hair dressing parlors. Address: The Herpicide Co., Dept. R, Detroit, Mich., enclosing 10c. in postage or silver or stamp and booklet E. Clinton Brown, special agent.

NEARLY \$100,000 WORTH OF GEMS WERE STOLEN

New York, July 2.—More than \$88,000 worth of jewelry stolen from the Fifth Ave. firm of Udell & Ballou were found today in the Pennsylvania railroad station in a valise. William Beck, a young repair clerk in the store, when taken to police headquarters for questioning jumped from a window of the building and fled.

On a trip from a town in Southern Vermont to his home in North Adams, A. E. Spencer had to use five different forms of transportation. The first part of the trip was made in an ox team. Mr. Spencer was then brought by stage to a narrow gauge station, from which he was carried to the Hoosac Tunnel station in one of the dinky trains. From Hoosac Tunnel to North Adams he was on a standard gauge train which was propelled by electricity, and upon reaching North Adams he went to his destination in an automobile.

Town Clerk Roscoe C. Butler, of Sanford, Me., who has begun to typewrite the town records from the first town meeting to date, gives the following as a fair sample of the spelling found in the records of an early date:

HOW CHIEF MYERS BROKE INTO GAME

Of all the players on a baseball team there is none who holds a more important position than the catcher. A good backstop is almost 50 per cent of the defensive strength of a club.

His baseball career has not been so varied as most others are, but it is an interesting story nevertheless. Appendix is his narrative of how he became a baseball player, as told in the New York Evening Telegram.

"Baseball and myself became associated more as a matter of course than through any premeditated arrangement. It was not an accident, either. It just happened that's all."

"I was born in Riverside, Cal. several years ago. I am not going to say just when, because my birthday is a mystery like old maids when it comes to telling our ages. You become old in baseball when you are not so old in years."

"I was while attending high school in Riverside that I became obsessed with the idea of going to college, and I forthwith concentrated all of my energies in an endeavor to realize that ambition."

"While in high school I was a combination of a pitcher and catcher. Sometimes I pitched and sometimes I caught, but I always preferred catching. Shortly after my graduation I was offered an opportunity to catch for the El Paso (Texas) club and I accepted. I saw money in it, and that was what I was after, for with money I knew that I could attend college."

"That was in 1909, and I stayed there all that season. The next year I played with the Clifton (Arizona) team, and by the end of 1910 I had accumulated enough money to enter college. I matriculated at Dartmouth and stayed there for one year, playing on the football and baseball teams."

"The following summer I was shy of money again. I decided to replete my diminished funds by playing baseball during my vacation and signed to play with the Harrisburg Tri-State League club."

"Towards the close of the season I was notified that my mother was very ill at Riverside, and I returned to California at that time. I had every intention of returning to Dartmouth, but my mother did not survive, and I would have been so far behind in my work that I deemed it useless to return."

"It was up to me then to find something to do. Baseball was the thing to do. I was to turn to, and when a chance to play with the Butte (Mont.) team of that season, still intending to return to Dartmouth the following year."

"Late in the season, however, St. Paul bought me, and the contract I had made was so attractive that the following year found me playing with St. Paul instead of at Butte. And that is the way I was sold to the Giants, joining the club the succeeding spring at the training camp at Marlinton, Texas."

"Likes Game for Itself I have always regretted, however, that I did not finish my college course. I have always been to study and I feel as if I have missed something by not continuing at Dartmouth."

"In saying this I do not mean to cast any reflection upon baseball as a profession. There are a great many players in the game who are as fine a lot of men as one could meet in any walk of life. It is a sport which witnesses the acquisition of more and more college and university graduates."

"It has longer what it formerly was considered by so many—a game played by 'rough necks.' It is a good, clean profession, a healthy and munificent method of earning money, and I suppose that if I was not playing it as a business proposition I would see it as a business proposition whenever I could."

ONLY HALF A HOLIDAY

Many of the proposed holiday events were spoiled by the weather yesterday and some were postponed. Those who did venture forth notwithstanding the unpromising appearance of the sky were rewarded in the afternoon by the best of climatic conditions.

The St. John Power Boat Club postponed their meet until a later date. About fifty boats went up river in the afternoon when the weather turned fine.

The Borden Club picnic at Belyle's point, attracted but a small crowd in the morning, a larger number went up by the May Queen on her afternoon trip arriving about 4.30.

The programme of sports was held at Belyle's point, and was very successful. A dance was held at the pavilion in the evening, at which many people from the city and members of the N. S. Y. C. who were on a trip to Long Island, attended.

The day was observed officially by a salute of twenty-one guns fired by a detachment from the 3rd Regiment Canadian Artillery in command of Major J. T. McGowan.

THE COMMON COUNCIL

At the meeting of the common council on Monday afternoon, Commissioner Schofield reported a large increase in the ferry business and a credit balance of \$1,000 at the end of the month.

The commissioners decided to pay for the purchase of a lot in Queen's ward, of 100 feet wide, and 100 feet long, for the purpose of widening a street, out of the revenue of the land department.

Mayor Frink was given authority to raise a fund of \$100 for the purpose of transportation charges in connection with the entertainment of the members of the Dominion Day committee.

Commissioner Schofield was authorized to purchase 100 feet of the Canadian golf course in 1897, with one exception, he has been a champion for more than 100 years.

A resolution to give the I. C. R. permission to lay a spur on Charlotte street extension was laid on the table until the railway committee what is willing to make.

A committee was appointed to investigate the merits of a fuel saving device on the ferry boats.

The resolution authorizing steps to remove unlicensed vessels from the harbor was laid over for further discussion.

Kinnon, of Boston, clerk. On the peti-
tion of those children resident within
the province, Raymond McKinnon was
appointed administrator. There is no
real estate; personal estate \$850. Barn-
hill, Ewing & Sanford are proctors.

**GOLD HEADED CANE IS
GIFT TO A. K. MUNDEE**

Resigns as Manager at Ungar's
and all John in Address of Good
Will and Presentation

On Saturday last at noon A. K. Mun-
dee, manager of Ungar's Laundry, was
burlily summoned from his office to
the workroom. Upon reaching there he
found the entire staff had assembled and
the accountant, Mr. Mullin, proceeded to
read an address of regret at Mr. Mun-
dee's retirement from Ungar's, at the
same time expressing the good wishes of
the entire staff for his future success.
Accompanying the address was a hand-
some gold headed cane suitably in-
scribed.

Though taken completely by surprise,
and visibly affected, Mr. Munde-
e managed to convey a few words of thanks
for the handsome gift, and the good
wishes that accompanied it.

Mr. Munde-
e, who has been manager
of Ungar's for the last three years, re-
signed his position early in June, and
will retire at the end of this week.

P. E. I. NEGOTIATIONS FOR NEW INDUSTRY

Rolled Oats and Corn Meal Mill
Would Employ 75 Hands

(Special to Times)

Charlottetown, P. E. I., July 2.—One
of the most recent propositions brought
before the people of P. E. Island is that
of the Colonial Corporation to invest
\$1,000,000 in the erection of a mill to
roll oats and corn meal. There has been a
marked advance in the quality of island
oats and investigation has shown that
they are richer in meal than any other
oats grown in Canada. The crop last
year, was seven millions of bushels,
whilst that of Nova Scotia was only two
millions and New Brunswick one mil-
lion. This company has been consider-
ing the advisability of locating in this
province to be near the source of supply
and to put up a plant with a 300
barrel a day capacity for rolling rolled
oats and corn-meal. They expect to
employ seventy-five hands, all local
labor with the exception of the head
miller and the chief engineer. They ask
the city to provide a free site, free water
and exemption from taxation for a term
of years.

Some weeks ago representatives of the
company came over and examined sev-
eral sites. They found that the best
would require expensive foundations not
foreseen in their first estimate and at a
meeting of the city council and members
of the board of trade, they added to their
former request, a request for a lump
sum to help them in the extra expense
in preparing a concrete foundation. The
city was disposed to grant free water,
free site and exemption from taxation for
five or ten years, but nothing further.

It was suggested that the provincial
and federal governments be appealed to
and a meeting was arranged for Wed-
nesday to discuss the matter. Next
week, Mr. Brew, of Ireland, an expert
who will be the superintendent of the
new company will come to the island
with one of the directors. The repre-
sentatives at present here are L. H.
Wheaton of Halifax, who is accompan-
ied by Mr. Tromanhaus, representing
the firm of contractors and Mr. Daglish
representing Goldie & McCullough, the
firm who propose to supply the ma-
chinery.

FIVE DEER NOW IN PARK

Yesterday there arrived by express
from Minto, Queens county, a beautiful
young native male deer, spotted red and
white, about 5 weeks old, the gift of W.
Benton Evans of that place. It was im-
mediately taken out to Rockwood, where
it plainly showed that it had been made
much of since its captivity, drinking
milk and eating bread and cow cabbage
from the hand of the attendants and
following them about. It appeared
much relieved when freed from its
crate, and soon gambolled about as
though wishing to show its appreciation
of its new surroundings.

Previously there were but two deer
in the park, but the association having
recently received several gifts, the pair
of deer there, not to be outdone, have
joined in the good work by presenting
to the management two little ones which,
with the mother's fostering care, are
doing well. The enclosure therefor
now contains five of these gentle and
graceful animals.

AMALGAMATION NOT PRACTICAL JUST NOW, REPORTS COMMITTEE

Calvin and St. John Church Matter
Before Presbytery

RESTORE REV. MR. MULLAN

New Pastor For Hampton and Also
One For Fort Kent and St. Francis
—Rev. Mr. Thorpe and Rev. Mr.
Mahoa Resign

The quarterly meeting of the St. John
Presbytery was held yesterday morning
in St. Andrew's church. Several impor-
tant reports and resignations were con-
sidered. Those present were—Rev.
Messrs James S. Mollan, moderator, J. G.
F. Baird, J. J. McCaskill, J. McPherson,
J. A. MacKellan, Dr. J. A. Morton, W.
M. Townshend, Gordon Dickie, C. G.
Townshend, W. W. Malcolm, L. J.
King, Dr. W. H. Smith, Edwin Smith,
E. Thorpe, J. H. A. Anderson, ministers
and T. Chisholm and A. A. Brittain el-
ders.

Rev. J. A. MacKellan, on behalf of a
committee appointed to strengthen the
work of the church in St. John city, re-
ported that they had acted on the sug-
gestion of the presbytery that they enter
into negotiations with the Calvin church
and St. John's church with a view to
restoring the amalgamation and that they
found that such amalgamation was im-
practical at present. The report was re-
ceived with approval.

Rev. Mr. MacKellan presented a call
from the congregations of Hampton and
Ratheny addressed to John C. Mortimer,
who was licensed according to the
action of the general assembly. The call
was supported by Messrs. A. A. Brittain,
H. P. Dickson and T. Chisholm, and
was sustained by the presbytery and ac-
cepted by Mr. Mortimer. Ordination and
induction were set for July 15 at Ham-
pton. Rev. J. A. MacKellan was appointed
to preside, W. M. Townshend to ad-
dress the minister and T. A. Mitchell
the congregation.

Dr. Smith and Rev. F. Baird reported
on behalf of the commission to the
recent grand assembly. Papers were read to the effect that
the general assembly had granted per-
mission to the presbytery at St. John
to restore James S. Mollan of Stanley to
the office of ministry and a resolution
effecting the same was passed accord-
ingly. A committee consisting of Dr. Smith,
M. J. McPherson and J. H. A. Anderson
was appointed to carry out the wishes
of the presbytery at a public meeting
of the congregation at Stanley.

A call presented from the congrega-
tion of Fort Kent and St. Francis in
charge of Rev. C. G. Townshend, was
sustained by the Presbytery and ac-
cepted by Mr. Townshend. Induction was
appointed for Thursday July 10 at 7:30
p. m. Rev. R. Davidson is to preside,
James Callahan to address the minister
and Rev. J. J. McCaskill the congrega-
tion.

The resignation of Rev. E. Thorpe of
St. George and Boabec was received.
Letters were read from the members of
the congregation testifying to the good
work he had done in his five years of
ministry and expressing the loyalty and
good will of his people. Mr. Thorpe ad-
dressed the congregation and asked to
be relieved of his charge after July 6.
The request was granted, and Rev. Dr.
Anderson was appointed interim
moderator of session.

Rev. A. W. Mahon tendered his resig-
nation of the Greenock church to
Andrews where he has been for eigh-
teen years. Testimony was made of his
excellence in the discharge of his
duties and of the devotion of his
people. Mr. Mahon has felt it his
duty to resign on account of ill health.
The resignation was accepted to take
effect after August 31. Rev. Dr. Smith
was appointed moderator of the session.
George Scott of St. John offered his
services for work in the mission field
and was duly certified by the Presby-
tery to the Home Mission Committee for
work.

Arrangements were made for the in-
duction of Rev. F. C. McIntosh into the
pastoral charge of Sackville and Dor-
chester.

This call was dealt with some months
previous but settlement was delayed on
account of Mr. McIntosh's ill health.
The induction was appointed for July
16 at Sackville. Rev. Gordon Dickie
will preside, T. A. Mitchell will address
the minister and L. T. King the congre-
gation.
