VOL. 12,

# VICTORIA, B. C., TUESDAY, OCTOBER 1, 1895.

Captain Folger Says British Boats Openly Violate the Sealing Regulations.

He is Making Affidavits Which are to be Used in the Marvin

San Francisco, Sept. 27.-If the stories of the American captains are to be believed, Canadian schooners are violating every clause of the regulations. It is said he attorney-general will take steps to obtain evidence to lay before the Britsh officials.

The latest story is told by Captain Folger, of the schooner Edward D. Webster, now here. He said he visited many British vessels in Behring Sea, and saw on every one arms and ammunition unsealed and ready for use. He reports that the English sealers said they would use fire arms without fear of consequen-Captain Folger makes affidavits stating the facts, and his charges will e specified against the Canadian vessels B. Marvin, Carlotta G. Cox and the Annie E. Paint.

W. S. Appleman, ex-striker, who was tried for the murder of Engineer Clark, of the famous train wreck near Sacranento, where four soldiers were also killed, was arrested and expelled from Presidio reservation by order of General G. E. Crandall, another exstriker, was treated in the same sumfashion. The two men visited Presidio to view the famous monument rected to the memory of the murdered soldiers. General Graham had caused to be carved on the monument the inscription "Murdered by strikers." The A. R. I. men have been trying to have this obnoxious sentence removed, and have appealed to the war department. Af-

inspecting the monument, Appleman and Crandall walked about the grounds; they were seized by soldiers and taken pefore General Graham. They protested that they were American citizens who had a right to be on the grounds, but the general ordered them out, and they were escorted to the gate by a guard of oldiers. General Graham says the men visited the monument and asked such uestions of the guard as led him to beieve they contemplated mischief. The nonument is gnarded night and day in order to prevent its destruction by ex-

for Detroit last night. A well dressed man entered the Pullman stopping at the first occupied berth, slipped in and choked into silence Mrs. George Mach, the occupant. After securing a well-filled pocketbook, jewelry and clothes of the terrified woman, whose husband sat in the smoking compartment only a few feet away, the robber tried to leave. Mrs. Mack clung to him, however, and he only escaped after knocking her senseless. He jumped from the moving train apparently uninjured and escaped in the darkness.

DURRANT IN A TIGHTER PLACE. His Alibi, the Chief Point in the Defence, Fails,

San Francisco, Sept. 26.-The alibi

which the defence in the Durrant case have been depending upon so much, has proved to be a soap bubble. Dr. Cheney, lecturer at the college where Durrant prevails. Many Armenians have been was a student, has said that he cannot swear that the prisoner was present at the lecture on the afternoon of April 3. In an interview on the question he says: "I have been interviewed and rant, and on these occasions I have defendant in the case now on trial was in my class room or not on the afternoon of April 3, 1895. I supposed that this was well understood, and I was Deuprey's announcement of what I was to swear to. Mr. Dickinson called on given the substance of what I am now gate the case and see the prisoner. saying. At no time did I state that I could or would swear that Durrant atthe classbook for April 3, but whether he was there in person to answer to his name, or whether some one of his felnotes of Durrant are concerned, I could is 44,000,000 francs. tell but very little. The class averages pose that any two make notes the same way. The fact that Durrant's notes any way."

This witness, therefore, gave disappointing testimany to-day. Instead of ertestifying that Durrant was present at the lecture, as Attorney Deuprey said Dr. Cheney would do, the doctor sand he had no recollection of seeing the

Lome, has appeared of late, concerning the Cuban insurrection. In these statements he arraigned the press for partiality toward the insurgents, and, speaking of the latter, said that if the Cubans gained their independence, they would reduce Cuba to an inferior place among the nations of the world; analagous, he said, to the low position of Hayti, San Domingo or Guatemala. The statement reached Senor Lazo Arriaga in due time, through the medium of a 'Clippings bureau." He resented Guatemala being set down as a type of inferiority. He thereupon addressed a letter to Senor de Lome, which although couched in smooth phrases of diplomacy, left no doubt of Senor Arriaga's indignation. What reply, if any, Senor de Lome made is not known, but the two ministers happened to come together today while seeking Secretary Olney, at the state department. The ministers showed all deference to each other, but Senor Lazo Arriaga did not hesitate to express deep disapproval of the Spansh minister's course. It is understood

HOPELESSLY IN THE DARK.

Durrant's Attorney's Extravagant Promises Fall to the Ground.

that Senor Dupuy de Lome gave assur-

ances that a correction, or retraction,

would be made public through the press.

San Francisco, Sept. 28.-Another person who claims to have assisted in the murder of Blanche Lamont has been heard from. His story was contained in the following anonymous letter received at the mayor's office, handed later to the chief of police:

"Orange, N. J., Sept. 17.-To the Mayor of San Francisco: You are trying the rong man for murder. Durrant is an Inocent man. I with One other did the dead and I could come and pick the man Out I did not do the murdering but I helped cary the body I will say no more I am well known Out thare I say Once more Durrant is an inocent man. This is looked upon as either a "fake,"

or the outcome of some disordered mind. if not a weird attempt at a joke. If Theodore Durrant has anything tangible on which to base his denial of the charge that he murdered Blanche Lamont and Minnie Williams, his attorneys have so far failed to give satisfactory evidence of the fact. After two days devoted to the testimony of the defense, the trial was adjourned at noon to-day until Tuesay. In the meantime, however, the defense had disclosed enough to satisfy the prosecution that Durrant's attorneys are groping in the dark in the hope that something may develop within the next few days to save the prisoner's life. The weakness of the defense is made more apparent at this time on account of the extravagant assertions that

Durrant's attorneys have uniformly made since the trial begun. In view sidewalks covered an inch deep. Bugs even clogged the type-setting machines in the newspaper offices, and drove the bugs were of several kinds. This morn operators from the first machines but one point, the adoption of the set of the Rothschild banking house, where he was arrested while trying to ignite the compound, was to-day sentenced to find the point of the Rothschild banking house, where he was arrested while trying to ignite the compound, was to-day sentenced to find the point of the point of the point of the Rothschild banking house, where he was arrested while trying to ignite the compound, was to-day sentenced to find the point of the point of the Rothschild banking house, where he was arrested while trying to ignite the compound, was to-day sentenced to find the point of the Rothschild banking house, where he was arrested while trying to ignite the compound, was to-day sentenced to find the point of the Rothschild banking house, where he was arrested while trying to ignite the compound, was to-day sentenced to find the point of the Rothschild banking house, where he was arrested while trying to ignite the compound, was to-day sentenced to find the point of the Rothschild banking house, where he was arrested while trying to ignite the compound, was to-day sentenced to find the point of the Rothschild banking house, where he was arrested while trying to ignite the compound. The compound is the content of the Rothschild banking house, where he was arrested while trying to ignite the compound. The compound is the content of the Rothschild banking house, where he was arrested while trying to ignite the compound is the content of the Rothschild banking house, where he was arrested while trying to ignite the compound in the content of the Rothschild banking house, where he was arrested while trying to ignite the compound in the content of the Rothschild banking house, where he was arrested while trying to ignite the compound in the content of the Rothschild banking house, where he was arrested while trying of these startling statements it was first would put to a severe test the case of the prosecution. In one day, however, the case of the defense crumbled and fell of its own weight, and to-day Durrant's alibi has not a leg on which to stand.

> however, produces no change in the demeanor of Durrant. Day after day he sits in the court room beside his father and mother, and listens to the evidence against him without sign of emotion. The stoicism of the prisoner is only surpassed by that of his mother. Mrs. Durrant seems to have no conception of the gravity of her son's position. Attired in waving plumes and a tailor made gown. such as a lady might wear at a matinee, she laughs and chats with friends while the evidence that the prosecution believes will hang her son is being put in against him. To the frequenters of the court room Mrs. Durrant's conduct is almost as unfathomable as that of her son. Durrant's father, however, looks careworn, and gives every evidence of a great strain on his mind.

CASHIER PALMER CAUGHT.

With Some of the Booty-Whiteway

Party Split Up. Hamilton, Sept. 28,-W. B. Palmer, French accounts of their victory over the defaulting teller of the Hamilton the Hovas at Majunga have been re- branch of the Bank of Commerce, was arrested this afternoon in a country French people. Col. Shervinton said hotel near Jordan, thirty miles east of further that is was ridiculous to suppose. this city. When arrested he had about as was stated in the official dispatch \$2,000 in \$50 bills and gold, supposed to desk before leaving the city. St. John, N. B., Sept. 28.-Fine wea-

ther greeted the international exhibition says, would never expose the capital by to-day, the total attendance running a little over 17,000. The general election this time will be fought out on straight party lines. Halifax, N. S., Sept. 28.-Mrs. Peary;

wife of the Arctic explorer, arrived here to-night to meet her husband, who is expected with his companions and the auxiliary Arctic expedition on the Red Cross liner Silvia, from St. Johns. Nfd. The steamer was due at six o'clock this evening but she may have been delayed by yesterday's storm.

St. Johns, Nfd., Sept. 28.-The White-

way party is almost certain to split into two factions. One wants to shelve Sir William Whiteway until the Chief justiceship becomes vacant, and then to elevate him to the bench. The other suggests the reconstruction of the party. All of the board of revenue, recognizing the futility of hoping that the government would undertake public prosecutions, have begun an investigation of all the smuggling cases themselves. At a Korea at the beginning of the troubles night a stormy time is expected over

the attitude of the Telegram, the news-

towards the government. This question

is exciting widespread comment. -Ayer's Sarsaparilla is not a secret preparation. Any physician may have the formula on application. The secret of its success as a medicine lies in its statements in which Senor Dupuy de deep-seated cases of blood-disease.

# THE LORDS TO BE REFORMED

Even the Tories Have Concluded That the Upper House Needs Cleaning.

Australia's Antarctic Search-Ships Over-due-French and German Espionage.

London, Sept. 28.—An editorial in the Graphic this morning on the reform of the House of Lords, says: "It is essential that the number of hereditary peers now sitting in the Lords should be reduced by applying the elective principle employed in the cases of the Scotch and Irish peers. The Earl of Dunraven and other independent Unionists are known to favor this. Its application would purge the Lords of a few of the black sheep who give occasion to the enemy to scoff, and would at the same time allow the peers who are inactive in the work of parliament to be replaced by representatives of great municipal, cammercial and learned institutions, and possibly would allow the introduction into the sovereign parliament of the empire of representatives from great communities across the sea who bear allegiance to the queen, but who have no voice in the control of the government. Responding to a toast to the House of Lords, at a banquet given at Ripon tonight, the Marquis of Londonderry said that he thought the House of Lords could be improved in many ways, and he hoped that the Unionists would grapple with the question. The House of Lords might hereafter have to oppose the House of Commons in measures not so unpopular as the home rule measure. Therefore, he wished it to be so strong that no stone could be cast at its ac-

A dispatch from Shanghai, which the Times published to-day, says that the British cruiser Aeolus is en route to Wu-chang, in the province of Hoo Po, with more war supplies, and will enter the Yang Tse Kiang to-morrow.

A correspondent of the Whitehall Review asserts that he saw William Henry Hulburt at Nice last week. A dispatch to the Times published on the 7th, said William H. Hulburt had died at Cadnabbia Italy. His obituary was published in the principal journals in the world, printed in the English language. The Times publishes a dispatch from Melbourne, which says that Hon. Geo. Houston Reid, premier of the colony of New South Wales, is securing the cooperation of the other colonies in the raising of funds for an Antarctic expe-

of ore for South Chicago. Lima, Peru., Sept. 28.-After an important debate in the Senate to-day the Hualgayoc concession was sent back to the committee of public works, in order to amend it with a provision for pro-

tection of the national and the concessionaire's interests. Hazelton, Pa., Sept. 27.-A water famine prevails here. It reached a climax last night when the trolley cars were compelled to stop running owing to there not being enough water obtainable to run the dynamos. Over 10,000 men are idle, on acount of the shutting down of various industries.

MURDER AT TRAIL CREEK.

Morris O'Connor, A Prospector, Kilis

B. Cook, a Mining Expert. Denver, Sept. 28 .- A special to the News from Spokane says: Passengers down from Trail Creek report a horrible crime at that mining camp. Morris O'Connor, a prospector, owning several claims, took a mining expert named B. Cook to look at them. He and Cook camped out on a mountain, and during the night O'Connor, who had been drinkinng heavily, arose and, taking a pick drave it clean through Cook's brain, pinning his head down to the ground. He then grasped an axe and finished his bloody deed by hacking his victim in a horrible manner. The mutilated body was found next morning by some miners, who organized a posse and soon captired O'Connor. It is thought he committed the deed while crazy from drink. Cock represented a rich syndicate purchasing mines.

SUGAR TAKES ANOTHER JUMP. Libel Case Against Toronto Telegram-Big Lumber Deal.

Montreal, Sept. 28.-Local refiners have again advanced the price of refined sugar, this time 1-16c.; granulated sugar is now quoted at 41-16c., and yellows 3 1-16c. to 3 3-4c., according to quality. Quebec, Sept. 28.—Lieut.-Col. Wilson, R. C. A., has instituted an action for \$10,000 damages against the Toronto Telegram, for alleged libelious statements published in that journal anent the colonel's recent visit to England.

The Allan liner Austrian passed Father Point inward at midnight with most of the crew of the stranded Dominion liner Mariposa on board. The saloon passengers were taken off by the Allan liner Sardinian, outward bound. The Mariposa is in a bad position and is full of water. Pirates had made their appearance and were commencing to loot the steamer's cargo, when H. M. S. Buzzard appeared and drove them off. This is the third ship lost on the St. Law-

rence route this season. Klock Bros., lumber merchants, of Mattawa, have completed arrangements

NOT A PARALLEL.

This rather puzzling statement ap pears in the News-Advertiser: "We have been examining every issue of the Victoria Times for the past ten days to see what evplanation it gave of the unseating of Hon. Mr. Harty, one of Sir Oliver Mowat's colleagues, for corrupt practices in the last election for Kingston" It was unnecessary to keep so close a watch on the columns of the Times, when the general press dispatch-Mr. Harty's agents violated the election law and thus caused the election to be further explanation in the well known for he has had experience, his knowledge fact that Kingston electors were freely of English is above the average and it debauched in the interest of the late Sir John A. Macdonald, which carries with it the probability that they expect to be bought up at every election. There is no defence or excuse for the corrupt acts of Mr. Harty's agents, but if the ruption caried on by and for the Dom- to buy new sets of books for their childinion government it must needs be disappointed. Nobody but a purblind partizan would think of comparing the "milking" of public contracts and almost | needlessly irritated them. open theft of public money for the purnese of debauching whole counties in the Conservative interest. Neither the Dominion nor the Ontario Liberal party can boast of a Caron or a McGreevy.

### AFRAID OF THE ELECTORS.

The Deminion franchise act is not an admirable piece of legislation, but its special system of vote registration little sooner, and it is opened Northwest Territories. Recently the the teacher can 'make it' 8:45, as easily cussion on this system, when its injustice and crudeness were denounced in no measured terms. The following sum- 12, and immediately thereafter the notes the difficulties as to low fast mary of the Northwest act, given by teacher kneels and he and the pupils join Joseph Martin, M. P. for Winnipeg, in the Lord's Prayer. He then invokes shows its character clearly: "Under the law as it stands an enumerator is appointed for each polling division. He they disperse to their homes. The clos- a letter from Traffic Agent Kerr showcommences to work as soon as the pro- ing in the afternoon is fixed by the trus- ing that the conditions on the C. P. R. clamation for the election is issued and completes the list eight or ten days before election day. He then posts up two lessons at home, are drilled in those of by other B. C. fruit shippers. Sifted written copies and within the next five branches of sacred learning. This way down, the trouble so far seems to be condays aplications to get on the list may of doing things is declared to be satisfined to two points: the shippers picked be made to him. He may put them on or refuse to put them on just as he sees fit There is no appeal whatever from him. There is no printed list distributed. and in polling divisions, some of which are as large as counties in Ontario and Quebec, only two written copies are posted up. The enumerator has no of- at any rate in all those which admit fice and the electors have no means of Protestant scholars. The Sisters are experienced American growers, they will finding out where he is. In other words if the enumerators desire they may disfranchise every opponent of the govern- Academy in Winnipeg, taught by the ment in their polling division and there Sisters of Jesus and Mary, I found that is no posibility of more than a very after 3:30 p.m. was the time for relismall percentage of them getting their names on, and then those who apply may find on election day that their in French. names have not been put on." There can be no doubt that Mr. Martin was right when he said this scheme of registration was devised for the purpose of enabling the government to manipulate the voters' lists to their own advantage. In previous elections the voting in the territories has been open; a circumstance which gave the government the advantage of using its great powers of intimidation and bribery. Then when " was decided to grant the people of the territories the right to use the ballot, like all other voters in the country, the government determined to retain an unfair advantage by giving themselves the power to "cook" the voters' lists. The scheme is set forth by Mr. Martin as

"The resolution passed by the assembly puts the matter in a very clear light. It is a deliberate attempt on the part of the Dominion government to steal all the seats in the Territories. They are well aware that public opinion there is dead against them, and they have taken this method of holding their own. Under the old law any man who was enthe voters' list on election day by taking broods over every report of the condition the proper oath. This was allowed because there was no proper voters' list made. In 1894 Mr. Daly changed the law by repealing the clause which al- districts he does not discover the uni-

follows :-

provision for having a proper voters' list made. When he introduced his act giving the ballot to the territories the question of voters' lists was discussed in the House of Commons, and if was agreed on all hands to leave the law When the bill got into the senate, Mr. Daly had the changes made there, and then sneaked them through the House of Commons without any explanation whatever, and no one in the Heuse of Commons knew anything about the change except the government members from the territories. Last sesmade as it was before, both in the House of Commons and in the Senate, but the government positively refused to change it.'

A government that refuses to permit fair system of vote registration shows plainly that it is afraid of an unhampered expression of opinion from the electors. The present Dominion government has good reason to entertain such fears.

#### COMPROMISE IN MANITOBA.

At the end of his last letter to the Globe on the Manitoba school question Rev. Principal Grant makes this declaration: "Enough has been said to show that if this vexed question were only detached from politics it would be settled with comparatice ease." We have no doubt Dr. Grant is in the right here, but detachment from politics will prove a hard matter. The Rev. Principal gives an illustration of the readiness with be reached if the parties approached the let alone by outsiders. He thus writes of a school which he visited:

"Returning to the school which I was on three points. First, the teacher has their position by "increased energy and es furnished the explanation that Hon. only a third class St. Bonitace certificate resource?" We expect nothing less than fret work by Frank McLay, a lad of 14, and that is not accepted by the depart- to see our big namesake utterly anni- is worthy of the highest commendation. ment of education. Even if the hour should be 9 legislature of the Northwest had a dis- as the captain of a ship can make it 8 bells, or as the house of commons can St. Joseph three times, and the pupils at lines which a Winnipeg paper pointed each invocation crying reverently 'priez out as essential to success in establishpour nous" (pray for us), after which ing a trade. In connection with this is tees at 3:30, and at that hour estechism and sacred history are taken up, and the are just as favorable as on the Americhildren having perhaps learned their can lines and are being taken advantage was the rider would rise when he factory to all parties. The school is public, yet denominational teaching and religious exercises are given regularly. The teacher makes his affidavit and gets across the line.' No one enjoys the trac-self in "Old England," once again. The his money; the government cannot go ing back of a cause of grievance to its behind that, and the inspector sees that the letter of the law is kept. The method of giving religious instruction is precisely that which is adopted in convents. too good teachers not to have each hour or half hour set apart for its own branch of instruction. On visiting St. Mary's gious instruction, and that during the next half hour the Protestant girls, who attended, practised conversation lessons

"Now, this would seem to suggest an easy method of solving the Manitoba school problem, but I am puzzled on the one hand by the language of Archbishon Langevin with reference to a proposal based upon it, and on the other hand by the attitude of the government of Mani toba with regard to overtures made to them by representatives of the Roman Catholic schools in Winnipeg."

Of course if the minority and the church will accept nothing less than the restoration of the old system, and the government will not allow the extension of the system of compromise which touches this one school, then an agree ment is out of the question. It is much to be feared that the "remedial order" is far from bettering the situation.

### THE BRITISH FARMER.

In an article dealing with the revival of trade the London Times said in a late issue: "British agriculture in the meantime holds on the melancholy, though far from noiseless, tenor of its way. Boom after boom enlivens Capelcourt, one industry after another actitled to vote could get his name put on knowledges revival, but a settled gloom of the British farmer. . . Yet in the townsman's excursions to agricultural lowed this to be done, but he made no versal ruin and decay he has been led

evidences of comfort, ease, and even luxury in the homes of these lugubrious agriculturists. He finds, too, a sturdy contempt for the troublesome new-fangled ways by which foreigners have built up great agricultural industries which undersell our farmers to the tune of millions a year in their own markets. Observing these things, he may be pardoned if he comes back to town with a feeling that bad seasons, falling rents, sion the matter was brought up, and a and derelict farms are evils which might determined effort made to have the law be greatly mitigated if farmers were stimulated by their misfortunes to bring increased energy and resource to bear upon the business of production." In our columns some time ago the opinion was mildly expressed that in considering the position of the British farmer two circumstances must be taken into account. "One is the excessive rental which the farmers in the larger portion of the country must pay. The other is the social position of the average English farmer, whose business is farmer would feel outraged if he were required to work in the field as nearly all Canadian and American farmers do; he looks upon himself as a capitalist deal of this fruit will again he seen at who should be able to pay others for New Westminster, where it is pretty the work necessary on his farm." These sure to obtain honors for its growers. the troublesome fact is that the question s ntences evoked a wrathful splutter of has now got into such a position that its condemnation from the Colonist, which seems to think itself in duty bound to the exhibits were small in number and take the British farmer under its wing. of fair quality. It is a surprise that this We are waiting, then, with somewhat which a satisfactory compromise might anxious curiosity the Colonist's opinion on the quotation we have made from the business in the proper spirit and were the London Times. What does it think but the judges were allowed to sample the business in the proper spirit and were of the "evidences of comfort, ease, and deeply into that article, A remark overeven luxury," of the "sturdy contempt heard from one of the judges may not for new-fangled ways," and the sugges- be out of place-"That some of the samdescribing a little inquiry satisfied me tion that British farmers might better

The truth of the statement that Liberals are dissatisfied with Mr. Laurier's leadership is easy to test. Let the Colproduces at least one substantial witness the impression that the Liberals of Ontario and the Maritime previnces are diseastern gale." Seeing that the "impres. and then at the butter in the building, sion" is to be found nowhere outside of one is struck with the fact that there the Colonist office the source of that gale is easily identified. Unfortunately for our neighbor, its fondness for "wind. der the old denominational system. This mere wind," is well known to the mulis managed by means of the rule quoted titude. "All Liberals are not blind parsaid with equal truth that very few Lib-

In re the fruit question the Winnipeg Free Press delivers the following judg- ichan district is well supplied with both. ment:-"Commenting upon the late ship. The exhibit of horses useful to a farmer make 5:30 into 6 o'clock when it is de- ments of British Columbia fruits' to was good. A Percheron stallion shown sirable to do so. The school closes at Winnipeg, a New Westminster paper freights similar to those on American their fruit when too ripe and were less careful in packing than their neighbors own door; but if the British Columbia fruit growers will take the lesson to heart and make their fruit shipments under the same conditions as the more to which was quite "en regle," find a steady and profitable market in Winnipeg and Manitoba towns."

> Some Tory journals having referred in the customary laudatory and sycophantic way to Premier Bowell's long drive over the prairie, the Winnipeg Free Press is moved to comment as follows: "It is just a quarter of a century

> since this country was taken over by the Dominion. During that time the politicians at Ottawa, recognizing its wonderful resources, capable of sustaining a large population., have been engaged in an effort to people it. It will scarcely be said that they are entitled to the credit of success when it is known that the premier has just dirven 460 miles through a portion of it whose fertility has excited his admiration, without seeing a sign of human habitation other than the trail itself. Such a spectacle should have suggested very different reflections from those with which the premier has since been entertaining his friends, and should teach the country that our immigration methods are sadly lacking in efficiency.'

Charles D. Rose, the new challenger for the America's cup, is a Canadian, a native of Montreal. His father, the late Sir John Rose, is well remembered as minister of finance in the first government after confederation and a prominent figure in the politics of young Canada. If the good wishes of his fellow countrymen can do anything for Me Rose's success his yacht will surely score a victory.

ROYAL Baking Powder. Highest of all in leavening strength.-U. S. Government Report.

## SUCCESSFUL FAIR

The Cowiehan and Salt Spring Exhibition Held at Duncan's on Saturday.

Fine Displays in Several of the Departments-The Winners of Prizes.

A perfect day, an excellent and admirably conducted exhibition, will always be remembered with pleasure by those who visited the fair at Duncan's on Saturday. On entering the main building the large exhibit of fruit impressed the visitor with the fact that he was in a district where excellent fruit is produced, the quantity and quality speaking volumes for the capabilities of the district. The rosy apples attested the number of sunny days with which the region is favored. The healthy appearance conducted on entirely different lines from of the fruit and the freedom from fungus that of the agriculturist on this side of diseases and fruit pests attracted the

the Atlantic. The average English attention of the connoisseur. A display such as was presented on Saturday should encourage those engaged in this pursuit, and stimulate the planting of n w orchards in this district. A great The vegetable classes were well contested and left nothing to be desired as to quality, size and varieties. In grains department did not receive more attention from farmers, as the prizes were well worth competing for . As no one but the judges were allowed to sample ples were very good." To which must be added that some of the samples were It is a model of a locomotive, and the work shows patience and skill. The ladies' work was neatly arranged, and the fact that this department attracted the attention of a large number of fair admirers during the day, is conclusive proof of its excellence. The bread looked fresh and enticing, but as in the case bread and butter." The flowers shown were well grown, tastily arranged and very pleasing to the eve

In the cattle yard the exhibits were emarkable statement: "It may be that a dry summer notwithstanding. The dairy breeds predominated, and the Jerseys, both in the pure bred and graded. were well worth seeing. Comparisons is something lacking, and that is creameries. The word is given in the plural. as the district should be able to supply more than one creamery.

The sheep were particularly good. 'The expense of this portion of the prize list is assumed by the Vancouver Island Flockmasters' Association, and great benefits are accruing to the district from than teaching outside the regular hours. makes more noticeable the unanimity tions for kindred purposes were organized in other agricultural communities in the province, the importation of food products from other countries to the province would soon cease.

If good roads mean good horses, Cowis a magnificent animal, such as Rosa Bonheur would have loved to paint. The young animals shown prove this horse to be a grand sire. The saddle horse class was well contested, and gave the judges a hard half hour's work. Mrs. Skinner's horse capturing first honors. The hurdle-jumping afforded the spectators a great deal of amusement Some times it was the horse that would not rise when he should, and sometimes it

shouldn't. Prof. Finn's band was in attendance; the pieces played were tastefully select-

ed and were appreciated. About six hundred visited the exhibition, and one might almost imagine onesturdy Briton, his hearty greeting and his charming peculiarities, surrounded one on all sides.

The riding outfits were so varied and numerous it left one quite undecided as To the president of the society, Major

Mutter, M. P. P., to the secretary, Mr. G. H. Hadwen, and to the directors the visitors owe a vote of thanks for the courtesies extended and the pleasant day, which was thoroughly enjoyed by all who visited Duncan's on Saturday. Following is the prize list:-HORSES.

Corfield; 2nd, W. Robinson. THE PREMIER AND HIS PROM.

"Sir Mackenzie Bowell," says the To onto Mail and Empire, "is berated the Liberal press because, when by the business men of Winning vide for the improvement of tion of the Red river, he dee a definite promise. The premie ly did refrain from giving a pr listened to the representa after some banter, pledged look carefully into them. porary then goes on to contra gentleman's caution and vig public interest with Mr. I great readiness to promise will secure votes. That is the party organs to fight about it may be remarked that who Laurier was here a year ago, it observed, that he was particular in promises. However it is premier and his attitude with the improvement of the St. rapids that we have to do just are afraid the ministerial Toronto was not as careful as reading the report of his speech occasion referred to, or in studying dissatisfaction that was caused The whole tone of his remarks hostile. By implication, at least, i directly, he reproached the deputa for putting him to the trouble to li to their representations, and very n intimated that they were no than those begging Indians whom had met, who began with a request ended with a demand. He even so far as to flatly dispute certain lations that had been made, showing advantages that were to be expected

result from the work in question,

though at the same time confessing the

he had no personal knowledge of the

circumstances. This was not encouraging, and our Toronto contemporary must not be sur prised that it was not even considered courteous. He did not say that matter had been brought to the atte tion of the several governments which he had been a member during t past fifteen years; that all the facts the case had been fully presented, a the importance of the work clear demonstrated, and that promises had been made as long as ten and twelve years ago to carefully look into th question, and to give it every consider ation it deserved. He expressed no regret that these promises had not bee carried out; he had no excuse to offer for the rather contemptuous neglect er hibited by his colleagues during all that long period, and there was no assurance that he would do any better. He was pleased to intimate, indeed, that 'would not lose sight of the matter, and at the close of the interview he was gracious enough to promise that would "endeavor" to see that a survey and estimate were made. Long years ago other ministers said, not that they should he continue in office the prese premier will not be suffered to lose sight of it if he would. From wh Mail and Empire will see that there was very little for which the deputation had to return thanks. Sir Mackenzie Bowell prides himself

on not making promises that he cannot, or does not intend to carry out. He pasts of this in his speech to the dep utation, and his Toronto organ refers to it with the most evident satisfaction We regret we can see little in the boast to excite admiration. It is precisely what an honest man would do, and what not desired to make an insincere prom ise, and there was therefore no temptation to transgress. It would have been more becoming his position and the circumstances he was asked to consider he had boasted less of his honesty, and promised that the long neglect with which this district has been treated would be corrected at the earliest pos should know what to expect. At present we are no wiser than we were. With his love of pottering, he visite the rapids the following day, whether in perseverance of his promised "e deavor" we do not know; he was careful after his return, however, to express the improvement of navigation at S Andrew's rapids, and the Dominio premier did not think it worth his while in answer to the representations of the ousiness men of this city, to say whether that development was deserving of the serious consideration of his government Mr. Laurier would be a paws-stick, in deed, if he could not improve on this. Winnipeg Free Press.

-Yesterday the harvest thanksgiving services at St. Barnabas church were a specially festal nature. The Rev. B. Haslem officiated at all the services, and the congregations throughout the day were far above the average. A evensong the church was full and the services were very interesting. processional hymn was "Songs of Praise the Angels Sang." The service was fully choral, and the "Magnificat" and "Nunc Dimittis" were to settings by Kimmins in E flat. The anthem chos en for the occasion was the Rev. E. V Hall's "Praise, O Praise Our God and King," and included a solo for tener (Mr. Godson), solo for bass (Mr. Allnut) and a quartette sung by Master C. Loat (treble), Miss Whittaker (alto), Mr. Wieler (tenor) and Mr. Elkington (bass). The sermon by the rector was an ele quent exposition of the teaching of the church. The special music was rendered and great credit is due to Mr Raynes, the choirmaster and organist The recessional hymn was "Brigth! Gleams Our Banner," and was heartily sung by both choir and congregation. A together the festival has been a grea success. The children's harvest thanks at 3 p.m., when it is expected that the Bishop of the diocese will deliver an a dress. The decorations will remain do ing the week and be renewed for n Sunday's services.

THE MISSIONARY MASSACRES

China, Frightened by British Gun Boats, Has Accepted Salisbury's Ultimatum.

Whittington's Successor-Legation Attaches Don't Patronise Home Industry.

London, Sept. 30.—The Westminster min interview with Rev. Mr. Milbuch. he blind chaplain of the United States enate, who is drawing large crowds to he various chapels in London where has ben requested to preach.

It is announced that China has acepted the British ultimatum, and the aceroy of Szechuan, who is held to been responsible directly or infirectly, for the massacre of missionaries in the territory under his jurisdicn, has been degraded.

This has been confirmed by officials of the foreign office who stated that a deee has already been published in the Peking Official Gazette ordering the icercy of Szechuan to be stripped of his rank for failing to protect the misgeneries in his district, as a warning o It is further directed that he shall not again be permitted to take The decree also denounces offendsubordinates for failing to take the er action in such an emergency. The News to-night expresses itself ditorially as being indignant at the fact that Mr. Hugh Paget, attache of the British legation at Washington, has ortered a two and a half rater, 27 feet ong, having a fin of bronze, from the Herreschoffs. Commenting on the subet, the Evening News also remarks: The corps of attaches is abundant, we night find better than this Yankeemirched one.

London, Sept. 29.-Lt. Col. Sir Wiliam Wilkin, Kt., has been elected Lord Mayor of London, to succeed the Right Hon. Sir Joseph Ranals.

FIFTY-TWO CHOLERA DEATHS. But the Disease is at Last under Con-

trol in Honolulu. Honolulu, Sept. 11 .- (Per barkentine G. Wilder to San Francisco).—Seventy-two people have been attacked by holera since the plague broke out, and of that number 52 died. But two white people were among the victims. During he last 48 hours but one new case has leveloped. It is believed that the disase is now in check, and that it is only matter of a few weeks when it will be totally eradicated. A citizens' sanitary novement has been started, and already shows good results. A house to house anspection is made twice a day, and all spicious cases are sent to the hospital. It has been demonstrated that the natives will not report cases of sickness; they appear to be afraid of white doctors, who they claim will kill them. They are a very unsatisfactory race to BRITISH ULTIMATUM TO CHINA. do anything for; they do not seem to ion of business many Hawaiians are out of work, and there appears to be real distress among them. A relief station has been opened, at which all natives may secure supplies of food and raimant. The business men have supplied a large amount of money.

There is still doubt as to the real nature of the scourge. The majority of the medical men agree that it is Asiatic cholera. but there are some who maintain that it is a purely local disease. Many of the cases have been traced, and without exception the practice of eating raw fish has been responsible for the sickness. The fish in the harbor are believed to be poisoned, and the sale of them is

prohibited. The quarantine by the other islands still maintained against Honolulu. Three steamers will be sent to-day with freight and passengers, but it is not beieved that they will be allowed to land. Provisions are growing short outside of this city, and it is believed that steamers will be chartered at San Francisco to load for Hilo, on Hawaii, and Kahului, on Maui.

A DETERMINED GOVERNOR.

Is Mr. Culberson, of Texas-American Cricketers Victorious.

Austin, Tex., Sept. 30 .- Very few legislators have shown up and a full quorum has hardly been on hand to-day. The sentiment of members heard from continue favorable to the plan of immediately passing a law making prize fighting a felony; all indicate a desire to prevent the Dallas fight. Governor Culberson in his message will recommend a most rigid law, and will urge its imnediate passage with an emergency clause. It is intimated that he may recommend a law making gambling also a felony. He will lay other matters as well before the legislature, which, will probably be in session about 30 days.

Chicago, Sept. 30.—Yesterday's storm on the lake was one of the most violent and destructive in recent years. No less than eighteen vessels have been reported stranded at various points, and reports continue to be received of others flying signals of distress. At Milwaukee, the schooner Condor is long overdue and grave fears are felt for her safety. Thirteen persons narrowly esaped drowning when the steam barge Kershaw went on the reef at Choclay beach, breaking completely in two. five steamers are aground near Detroit, and the barge R. J. Henry went to pieces on the docks near Sault Ste. Marie. Several vessels lost their deck cargoes and were stripped of canvas,

teering gear, etc. Denver, Sept. 30 .- A genuine Mexical mil fight was announced to take place at the Denver Wheel Club park on Satnmediately put under arrest by the poc. and the audience dismissed without | years are allowed." wing seen anything resembling a bull

On the occasion of the opening of the congress, pontifical high mass will be celebrated, of which Mgr. Satolli, the papal ablegate, will

be celebrant. Cricket Grounds, Haverford Pa., Sept. 30.—The concluding day's play in the third international cricket match between the Gentlemen of Philadelphia London, Sept. 50. The Westman and the representatives of Cambridge Gazette this afternoon publishes a coland Oxford, began at 11 o'clock to-day. When stumps were drawn on Saturday the Americans led the Englishmen by 157 runs. The latter scored 198 in the first innings and 49 in the second for the loss of two wickets. The Americans put together the remarkable score of 404 runs in their first innings, so that it was hardly probable that the Englishmen could make enough runs to compel the Americans to go in a second time. This proved to be the fact, the home team winning by an innings and 30 runs. Washington, D. C., Sept. 30.-President Cleveland's order retiring Lieut .-

> INDIGNANT AT SPAIN'S ACTION In Landing Searching Parties on United States Territory.

General Scholefield was issued to-day.

Key West, Fla., Sept. 30.-Great excitement and indignation have been oc casioned here by the report that a body of marines from the Spanish cruiser Conde de Venidito have been landed on the United States, as the Keys belong to Florida, and if Spain has the right to land searching parties on the Keys. she has also the right to land marines on the mainland. The insult is considered to be outrageous, as the Conde de be openly insulted.

DEAT HOF PASTEUR.

The Eminent Bacteriologist Succumbs to Paralysis on Saturday.

Paris, Sept. 30.—Prof. Louis Pasteur, the eminent bacteriologist, died Saturday evening at 5 o'clock at Garchea, near St. Cloud, in the environs of this city. Prof. Louis Pasteur has suffered from paralysis for a considerable period of time. About eight days ago he sustained a violent paralytic stroke and yesterday suffered still another stroke. He cuniarily. It was alleged at the time grew rapidly worse and remained in a comatose condition during his last hours, arily of an official nature, was also per-It is believed that the funeral of M. AMERICAN WORKMEN SUPERIOR To Any in the World-Are Better Paid and Quicker Workers.

New York, Sept. 30 .- Sam Gompers ex-president and P. M. McGuire, vicepresident of the American Federation of Labor, who left here on August 14 to attend the Trades Union Congress at Cardiff and to make an especial study of labor questions in European cities, are home again. They came over on the New York of the American line, and

this afternoon at the Broadway Centra: Hotel related their experiences while abread. Mr. Gompers said: "I was surprised at the great growth of trade unionism in Britain. The workers over there are coming together more and more every year; and their interests are advancing correspondingly." . "Yes," said Mr. Gompers, in reply to a question, "There is no workman in the world equal in energy and in the possession of the conforts of life, of the American workmen and German workman. He has longer hours generally, but he is almost invariably better paid, and spends more in living than the average European laborer political differences have impeded the ere limited to four machines, an operaglected the opportunity of getting the enjoy the sport. A JEALOUS WOMAN'S CRIME. A Slighted Wife Visits Fearful Punish ment on Her Rival.

Albany, Ore., Sept. 30.-Mrs. Lottie Hiatte is shot and fatally injured at her years old, mother of a family, donned masculine garb and false whiskers, enfered the house of Mrs. Hiatte and shot her twice. The motive for the deed is attributed to jealousy, as she believed Mrs. Hiatte estranged the affections of her husband. The Hiatte family, together with Mrs. Elizabeth Holman, Mrs. Lottie Hiatte's mother, lived about a quarter of a mile north of Scio. On Thursday evening last their home was approached by a supposed man, who entered, drew a pistol, told the inmates throw up their hands and say where He is superior to the English, French, they kept their money. Mrs. Holman. aged 82, resented the intrusion, promptly seizing a billet of wood gave the intruder a rap on the face, but was instantly knocked down for her temerity. does. On the continent factional and Having disposed of the aged woman the supposed man began firing at Mrs. progress of the laborer. In France, Ger- Hiatte, striking the unfortunate woman many and Belgium the workmen had in the head twice. The robber to make the right of coalition, but lost it by co- sure, bent over the prostrate woman, quetting with politicians. French labor shook her violently to ascertain whether is behind the age in many things. I went she was dead or not. A Tall Story About Gold and Insects in South America.

Gold in plenty may be found in the sands of the Volador river, a stream of land region and river bed where the precious metal abounds in fabulous quantities are easily accessible, the mosquitos and talked." are so thick and terrible that all attempts to rifle the sands of their gold have so far failed.

Elisee Reclus, the celebrated French geographer, was the first to explore the plain about the Volador's mouth. thought of establishing an agricultural colony in the fertile lowlands, but found the plague of insects so unbearable that he was forced to beat a retreat and abandon his project.

He was the discoverer of this wonderful stream, whose waters sweep over sands which are literally golden. He told the news to the French vice-consul at Rio Hacha, and this official obtained out an ingeniously constructed tent of large dimensions.

For two days he tried to live under however, both employer and employes give up the struggle and retreated.

The next to try to wring fortune from these auriferous sands was an Italiau, who obtained permission from the viceconsul. The Italian laughed at the idea mosquitos driving any one away from a place where gold could be picked up almost by the handful. He started out with a party of six who shared with him his belief, and so they took along no special protection against the insects. They endured for less than half an hour awful torture, and then left. They found their way back to Rio Hacha with difficulty, for the eyes of five were so badly swollen that they were blind.

Yet there are human beings who can venture with impunity into this gold mine whose guardian demons are mosquitos, and these are some of the savage natives of the mountains from whose .rocky steps the river falls.

These savages, who are mosquito

Strange to say, the mosquites prosy. Strange to say, the mosquites wil not touch them. But neither gold nor the fascination of civilization will

tempt them to labor. It is an old and true saying that one might as well try to get along without furs in the Arctic regions as without mosquito nets in the tropics. Mosquito nets seem to have been of little avail, however, in the instances related. The insects are said to have been unusually venomous and they come in such myriads that they have the appearance of a mist hanging over the wters of the river. The intense pain and action of the poison on the system speedily drive the strongest mad. --Pearson's Weekly.

HIS SECLUSIVENESS.

How Tennyson, Though Unseen, Kept in Touch with the World.

"What gives Lord Tennyson's writings an especial hold on the public regard." says a writer in McClure's Magazine, is their sensitiveness, their responsiveness, to the spirit and movement of the times. direction of Tennyson's career was still a little open to question, Edward Fitzgerald wrote to a friend who was disposness:'-'When he has felt life you will see him acquire all that at present you

HIGH EXPLOSIVES.

Rapid Combustion of Powerful Modern Destroying Elements.

In a recent action in England brought name, against the manufacture of cordnamed Augusta Dentrot, who was form- ite, which has been adopted for the English army, for infringement of patent, now in use and their method of action. He pointed out that when carbon united with oxygen its volume was multiplied Lord Rosebery on October 16th, will something like 3,000 times, and it would times, so the sudden result of gas which, at atmospheric pressure, would occupy about 120,000 times its space. This was

Explosion, therefore, was nothing more than rapid combustion. Gunpowder has been in use many years, but other explosives of different types have been invented and the word "rapid" in connection with the combustion of the ingredients ceased to be a sufficient word. Explosives were devided into two great classes. One class developed the whole of its combustion with the greatest rapidity, setting free the gases instantaneously, raising the pressure on the walls of its confining chamber to the fullest extent and thus making available the whole of its rending power. This applied more particularly to blasting for engineering purposes, but for propulsion different action was required. In proplosion to impart velocity to the shot. Here what was wanted was as low marked broadly by the rapidity of com-The water shot through these open- bustion, intensity of pressure, and the erseded nitro-glycerine, but owing to the dangerous nature was almost discarded until Sir Frederick Abel discovered that could be used wet without apparent lifference to its detonating power, and blasting purposes as a fairly safe ex plosive

It was suitable for use as a propellor or projector. It is this patent that is said to have been infringed by the manufacture of cordite.

SORROWS OF THE STUPID. Though Not Generally Realized They

are Very Real. We have been hearing lately of the 'curse of intellect," but we might with equal truth enlarge on the curse of stupidity-or, not to use so strong a word, we will say the miseries of stupidity. In this age of philanthropy we are for ever being exhorted about the lights of the wronged. Let us now be wail the sorrow of the stupid! There is no doubt that, though not generally recognized, they are very real. Stupid people are a trouble to themselves and others. They can no more help being dull in mind than ar invalid can help being weak in body. But whereas the sick man is generally deluged with sympathy in his woes, and very often ends by growing proud of his maladies,

THE FOUNTAIN AT GENEVA. Remarkable Piece of Work in the Swiss City.

The municipality of Geneva has recently established a fountain at the entrance of the port of that city, at the extremity of the south jetty. This is certainly the largest fountain that exists upon the surface of the globe, since it is no less than three hundred feet in height. It may be seen from a great distance in clear weather, detaching it self like a great white sail flapping

through the effect of the wind, The city of Geneva possesses a mos complete distribution of water under pressure, the motive power for which is obtained from an artificial fall establish ed upon the Rhone at the point of the lake. The water for domestic purpose and for the running of certain motors is raised to a height of 215 feet above the level of the lake. For the distribu tion of motive force it is raised to height of 460 feet. The reservoir is ? open air one, and is situated on the to of Besinges, at a distance of three mile from the turbine building, A very in genious regulator, invented by Mr. Tur retini, assures the uniformity of press

ure in the piping. The length of the first pipe line forty miles, and that of the second about sixty. It is with this latter that the fourtain conduit is connected. The lat ter is set to play only on Sundays. is sometimes set in operation also week days, in the evening. Instead a single jet of great height, several are then utilized that do not rise so high nowerful electric light projectors, placed in a structure near by, brilliantly illum inate them with their rays of varied colors, which transform them into a lumin ous fountain of the most beautiful as pect,-Scientific American.

The Irishmen Would Settle Cuba's Little Account at the Same Time.

hicago, Ill., Sept. 26.-To-day's seson of the Irish "New Movement" convention was generally regarded as the nost important of all. The principal business on the programme was the sideration of the platform, submitby the committee on resolutions, and

report of the committee on ways and ans, for national organization. O'Neill Ryan, of St. Louis, chairman of the committee on resolutions, read the datform proposed for the consideration the convention, as follows: "The peoof Ireland are a sovereign people, reland is by nature separate from every other country, and liberty is the birthright of her people. Ireland was known broughout Europe as a nation long before the dawn of Christianity, and was the home of civilization, while England was still barbarous. England's claim to uthority in Ireland originated in force has been maintained by corruption coercion, they have never ripened a right rule; the title by conquest constitutional agitation, or revolutionary movements, resisted England's power and endeavored to destroy her unlawful supremacy. Ireland is deprived of almost every civil right which the American people most dearly cherish. Unexampled cruelty and brutal vindictiveness, have been the distinguishing fea tures of her rule in Ireland. England destreyed Ireland's industries and

love of Ireland. Every measure for the their demands. last century looking towards legislative acter is now upon her statute books.

that Ireland has the right to make to use all possible means to create that sent to the Chicago convention.

difficulty. In view of this fact, the members of this convention appeal, with izens and all lovers of liberty to conited States, distinct from the "Decaration of principles." The chairman also submitted, on be-

half of the resolutions committee, three separate resolutions, as follow: Resolved-That we earnestly protest against the continual incarceration in English prisons of Irish patriots: that we consider it inhuman and against the policy of civilized nations to keep in prison men who have acted only in the interest of their country and human liberty: that the release of these men is imperatively demanded, not only by the Irish people, but by civilization.

Resolved-That this convention express the hope that the people of Cuba who are struggling for political independence and the establishment of a republic, will be successful, and more, we extend to them our heartfelt sympa-

Chairman Finnerty's speech was He said: "American papers question the prudence of holding this convention, dictating to us a policy and oping we will do nothing to offend English sentiment. What do we care English sentiment? (Laughter.) We don't want to offend American sentiment, nor French sentiment, nor Russian sentiment, but we want to offend pendence of the land that gave us and our fathers life. Our friends, the edi of prudence. We will follow their ad will remind my American editorial

# BRITISH COLUMBIA.

Nanaimo, Sept. 27.-Notices have been posted in various parts of the city during the week, conveying the intelligence that 50 men were wanted to work on the Victoria waterworks at \$2.25 per

It is stated that the New V. C. Co. have secured a contract to supply the British fleet in these waters with fuel, and trat 7000 tons will be required per month. News of this kind is generally

A public meeting was held in the city hall last evening for the purpose of hearing the ratepayers' views on the proposed purchase of the Nanaimo waterworks by the city. Only three alder-men spoke, and they expressed themselves in favor of the project. It is reported the New V. C. Co. intend to sink a shaft on "Jack's" point at an early date, to connect with the

Protection island shaft. Three bears were sent to the city early this morning from the camp of W. Vanhouten and party, who have been out at Cameron lake for the past few

The juveniles have been destroying the windows of private residences of late in a wholesale manner, and no effort has been made by the police to put

Ald. Cocking's by-law, which is to be introduced Monday night, to govern the sale of milk, provides for a tax being paid by the vendors to the city, and further that adulteration of the milk will be subject to a fine.

Free Press. The stage brought in last night among other passengers Mr. C. Dempsey, who is employed on the Simpson claims. Mr. Dempsey expects to remain in town a week, after which he will return to Alberni. Bainbridge's hydraulic claims, he stated, are making a good showing. A dam has been completed across China creek and in about a month the claims will be ready for sluicing and work will be continued all winter. Both on the above and on the claims of the Hydraulic Mining Company quite a gang of men is employed. Six or seven men are working on the Constance claims and a prospecting shaft is being sunk. Captain Wolley and Hon. D. W. Higgins are still at the mines. Both are interested in claims on Granite creek.

Mr. J. Hepburn, who also came in on the Albeni stage, was very uncommunicative, but it is, nevertheless, understood that he has had some claims staked on Mineral creek, a fact which seems to P. R., Sicamous, and Miss Ella, third argue that his opinion of the country is not altogether unfavorable.

Generally speaking, Mr. Dempsey substantiated what has already been said with respect to the absence of active development work. This is attributable in a very great measure to the condition of a majority of the prospectors, who are nearly always poor men, comparatively speaking, and therefore, unable to do much more than "scratch the ground." A change, however, is expected in the near future, influential men of capital are beginning to take a real interest in the country, and with their advent an era of profitable activity in all directions is almost a foregone

Mr. F T. Child, foreman on the Hydraulic Mining Co.'s Alberni claims. came in on the stage last night and returned to Victoria this morning. Prospecting work on the company's claims, he stated, is being actively carried on and the construction of a dam has been begun on the lower one. Mr.

Child had a fine sample of gold dust with him, which certainly looked encouraging. Nanaimo, Sept. 30.—The defeat of Ald Davidson's by-law on Saturday to purchase the present water works, was a surprise to a great many. There was a comparatively small vote polled, only a total of 280. Out of this number 160 voted aye, 116 no and four spoiled ballots. As the vote called for a threefifths majority the measure was defeat-

ed through the want of eight more votes. It is now generally believed that Nanaimo has seen the worst of the busines depression, and that with the beginning of October a change for the better will take place.

A party consisting of several local men, who are interested in Texada, and William Woodruff, of Chicago, left on Saturday night for that island.

About the time the Vancouver Beavers should have arrived here on Saturday, Secretary Norris received a wire saying they had decided not to come. The home team are incensed at the action on the Beavers' part, especially as the former have been put to quite a lot of expense in expectation of the match taking place on Saturday.

A large number from this city will take in the agricultural show at Comox on October 3rd. It is understood the Joan will take an excursion party up.

At a meeting of the shareholders at Armstrong it was deplace of business of the company; that the company should be limited liability, accompanied by a petition, be sent to His Honor the Lieutenant-Governor, with a capital of \$60,000, divided into 600 shares of \$100 each, operated on the said petition to pray for a suspension of co-operative system; and that the mill the Land Act Amendment Act, 1895, as | should have a capacity of 100 barrels contained in Mr. Gore's notice, until per diem. The provisional directors were then nominated and Messrs. Mark Hill, D. Rabbitt, D. Matheson, D. O'Keefe and D. Graham were elected unanimously. The directors were requested to immediately proceed with the erection and construction of the mili buildings, etc. A call of \$5 per share was made due and payable on October 1st next, and as quite a number wished to pay at once, Mr. Donald Graham was appointed treasurer pro tem.

ROSSLAND.

Rossland Miner A third interest in the Highland was sold for cash this week to a San Francisco man. The owners will proceed at

once to development work. A new opening was made on the big ledge of the Indiana Consolidated 20 feet north of the old opening and a good body of ore found very near the surface. Solid pieces of galena are found which run high in silver, with some gold. A great strike is reported from the Violet, a claim lying south of the Crown Point. An open crosscut revealed 20

Jules H. Sussman, now in the employ of the C. P. R. company, has been in distinctly traced on the claims recorded. a report to his company on the outlook for ore tonnage.

The showing in the new opening the Homestake is magnificent. There Mr. Bosshart has abandoned the is a body of solid ore over four feet in width in sight that carries over 1000 ounces in silver and about 12 in gold. This makes its total value not less than

Work on the Trail smelter is now well Some inconvenience has been occasioned by delay in getting sufficient tools from Spokane but there will be no furthertrouble on that account. Grading is being done for the foundations; and the hills are covered with wood choppers cutting cordwood. A big question to be quired shall be obtained. The equipment of the smelter is to be very complete, and of the most improved kind. There are to be two O'Hara furnaces, two reverbatory furnaces, one circular furnace designed expressly for these works, and one water jacket stack. The tons or ore per day. Mr. Heinze has a contract with the Le Roi for 75,000 This will be delivered to him day; or 36,500 tons a year.

copper being of an especially encouraging feature. It is safe to say the mines of this camp never looked so well as they do to-day. The improvement has been remarkable during the past three weeks. Every ore wagon is now employed and there is a steady increase in the demand for miners. Several important sales have been made during the past week and on one property where a bond had been thrown up a very fine body of high grade copper ore has been found.

The Le Roi is now raising about nine ty tons of ore per day, and shipping seventy to seventy-five tons. A reserve of about 125 tons is now held in the bins. The wagons do not take all the ore raised because the Northport road is so bad they can not carry it.

What are known as the Burke mines are to be developed with vigor this winter. These are the West Le Roi, and the Maid of Erin.

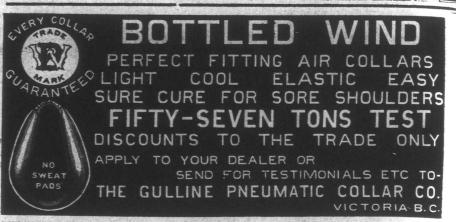

W. H. Mead has bonded the Crown Point Fraction, which is the northeast extension of the Crown Point. It consists of about 400 feet of ground, having been the excess to that extent of the Crown Point when the survey was made. It is believed to carry the Crown Point ledge, which makes it a property of much prospective value. Mr. Mead has also bonded the Hattie Brown, a claim lying 1500 feet south of the Homestake, and carrying a good percentage of silver.

Considerable shipments are now being made from the War Eagle, although the new air compressor is not in place, and will not be for some time to come. The Northport, the bad state of the wagon the camp, much of it running up to \$200 keys which were found on him. a ton in gold. D. R. KER'S TRIP

His Company Erecting a Cereal Food Mill at Edmonton.

D. R. Ker, president of the British Columbia Board of Trade, returned last evening from Edmonton, where the Brackman & Ker Milling ('0., erecting a cereal food mill, similar to the one owned by the company in Victoria The mill is of the same capacity as the Victoria mill, and will be ready for operation in about six weeks, in time to handle this year's crop. The object of the company, which besides the mill in Victoria, has one in New Westminster and branch stores in the Mainland cities, in erecting the new name at Edmonton is to enable them to control the cereal food trade of the whole of British Columbia and most of the Northwest Territories. They found that with the Victoria mill alone they could not successfully com-Inland Sentinel.

Snow fell last week in some parts of millers of Spokane. With the Victoria Nicola, doing damage to crops not yet mill in the far west and the Edmonton mill east of the Rockies, the company on the continent. Eight car loads were Court was held a few weeks ago in brought to Victoria last year and tried which are croppings of good soft coal, which can be placed in front of the boilers for 50 cents a ton. Mr. Ker believes that by sinking their well, under the mill, thirty feet deeper the company would strike a good ledge of coal. The company have, however, still another advantage, and it is far from being an unimportant one. They have been successful in making satisfactory arrangements with the C. P. R., whereby they will be enabled to place their goods in the supply. M. Stevenson's claim at Gran- stores of the Kootenay merchants just as cheaply, if not more so, than the Spo-

> way possible. Mr. Ker, who started from Victoria with the Board of Trade excursionists, is greatly pleased with his trip and thinks that what the excursionists report will do much to stir Victoria merchants to make a strenuous bid for the Kootenay business.

A SUSPICIOUS CASE. Sick Man on the Straits of Sunda Thought

There was quite a little stir in nealth official circles this morning over a suppose case of cholera on board the big British ship arrived here last night, 21 days from Hakodate, Japan, and at midnight Dr. Geo. H. Duncan, medical health officer, aboard to inspect her. Capt. John Dewan reported all of his crew to be well, but when the doctor came to examine them h found a man who was quite ill. His pulse was 110, his temperature 102, and he complained of cramps and pains in the back. Such he said had been his condition for 24 hours. The Sunda was at the time lying off the outer wharf and Dr. Duncan order ed her to William Head, repeating an or der that had been previously given by Macnaughton Jones but disregarded Macnaughton Jones but disregarded as there were no passengers aboard. At William Head this forenoon Dr. Jones examined the man and prohounced his illness of trivial nature. He inspected the ship and permitted her to depart after a very short delay. The Sunda ran to Esquimalt and docked at once. It was for the purpose of

Africa that she came here. It is under stood that her officers say the man is feign ing illness to get ashore.

Dr. Duncan said that the case excited his suspicion, and he believed that the man should have been landed where the case could be watched for a few days and the ship fumigated. It was the doubtful care the sure ones, that caused trou. Then the vessel was in ballast and had passengers, and a little delay would had one no harm. He conferred with Dr. nigated. It was the doubtful cases avie, chairman of the Provincial Board of fealth, who commended his action. The dock was pumped out at noon and the ship will be speedily cleaned and painted

-The Hudson's Bay Company yester day morning shipped 28 casks of seal skins to London. William Munsie shipped 11 casks.

g Powder rded highest world's fair SATURDAY'S CRICKET MATCH

Victoria Cricketers Defeated by All-Oregon at Portland on saturday.

Opening of the Season for Hunting Grouse and Pheasants-Sporting News.

The All Oregon eleven defeated Vicjoria at the Multnomah Amateur Athletic ground, Portland, on Saturday last w five wickets, after one of the most exciting finishes ever seen on a cricket The Multnomah ground is composed of beaten clay and the wicket plays very fast but perfectly true, and Cartain Pooley after winning the toss Victoria decided to bat first. The result was not encouraging as Victoria empiled but sixty runs. Drake, who nade 14 in very good style, and A. T. inward (not out), were the only two who batted with their usual confidence. Morley and B. Goward also got double figures, but the former excellent batsman was by no means at his best, and as his reputation had preceded him, great disappointment was expressed in grand stand when he was bowled out Lawrence. The latter is a slow bowlwith a great command of the ball, reaking both ways, and he shows exellent judgment in varying his pace. Wilkinson, of the United States Navy. is also a very useful left-handed howler. rather fast, and keeps a good length. All Oregon did not stand well, but Lawrence and Wilkinson made a stubborn stand, taking the score to 46 before they were separated. Goward finally bowled out Lawrence, who had made 22 in excellent cricket. Bell also proved trouble. some and the score was taken to 98 who made 41 runs in 22 minutes, were the only ones who hit straight, 63 runs being the result of 55 minutes batting. Wanting but 26 runs to win, the Oregon men had an easy task, and when the score was 20 for no wickets it looked like 10 wickets defeat for Victoria. But a change came o'er the spirit of the dream. Goward and Perry bowling with great determination sent man after man to the pavilion and 5 wickets were down for 21 runs, and the captain of the Oregonians looked anxious. With only five minutes to play the spectators greeted every run with a sigh of relief,

It requires a twothirds vote to give immediate effect. member of the house, to-day said that the legislature would undoubtedly pass

> CORBETT WILL FIGHT. New York. Sept. 28.-Wm. A. Brady to-day issued a manifesto to the effect that Champion J. J. Corbett would not make any further objection to any arlangements made for his meeting at Dallas with Fitzsimmons, but would go to Texas directly after his exhibition next Monday and prepare for the fight. Mr. Brady said that Corbett would surely fight and would allow nothing upon his part to prevent the meeting. He is absolutely confident of Fitzsimmons' defeat, and gave it out unofficially that Corbett was in splendid condition, and would show up at the ringside as good as he has ever been under similar cir-

FOOTBALL. VICTORIA COLLEGE v. GUN ROOM OF ROYAL ARTHUR.

The Rugby season was opened on Satwhich ended without a score for either side. In the second spell the Navy backs being thus enabled to make some good but the kick at goal was a failure. Shortly after this the College worked up to the Navy twenty-five, and Wilson by a good pass from Holmes, got over the. line near the corner flag, but failed to convert the try. The Navy then rushed the ball up the field and Geo. Ward scored by a clever run, the kick at goal again being a failure. The College backs now made strenuous efforts to score, Green and Gamble each making a good run down the field, but both were well stopped by Gossett, and time was called shortly after.

YACHTING.

AUSTRALIA IN IT. London, Sept. 27 .- Mr. Herbert Moir, a well know colonial yachtsman, has written an open letter to the Yachting World in which he says: "I know I am expressing the feeling of many thouabroad, when I say the America's cup should be brought across to the Old Country. I am prepared to form a syndicate to build a yacht to be called the West Australia, to bring the cup back to Old England, and I will subscribe £500." Since the letter appeared Mr. Moir has been fairly inundated with offers to subscibe sums ranging from £500 to £1,000, until at the present time he is promised over £30,000 for the purpose of challenging for the cup. Mr. Moir is the head of a large Western Australian corporation with headquarters in London. In an interview this afternoon Mr. Moir said: "I have long wished to build a yacht to compete for the America's cup. I first started yachting in Sydney harbor. Like all good yachtsmen and Australians I do not see why the cup should remain in America ers and designers outside of that counsuccesses, West Australia."

A SNUB FOR ROSE. London, Sept. 28.-The Field this morning says: Despite the expressed satisfaction of the New York Yacht Club with the challenge for the America's cup by Mr. Charles Rose, it cannot be regarded as representing British yachting. The name "Distant Shore" s quite Indian in its suggestiveness, and might very well mean "Distant Yacht"

or "Forlorn Hope." ## WEEK'S TRADE REVIEWED.

The Markets Have Been Busy, With a Fair Prospect of Continued Firmness.

Bradstreet's and Dun's Review of foreign. the Six Day's Dealings-Bank Clearances.

New York, Sept. 27.—The Evening Post's special London cablegram says: "The conclusion of the stock exchange settlement to-day caused a good demand for money, owing to the heavy settlement in mines. The markets were good, especially mines and Americans. In the latter there is a large investment business here. Reading fives are in favor cotton together with advance in quotaof the reorganization rumors. Prices closed at near the best. The general outlook for speculation is still good, though the mines market is certainly too trade irregular, but reports from those wild and suggests trouble, though prob-

ably not at present." There was a further contraction of the fessional character of the home market was as clearly marked as heretofore. Apprehension of further large gold exports in the near future was the chief influence in the trading and had an unsettling effect on the speculative mind. Money is relatively higher in Germany than in London or New York, and a large debit to Great Britain on various ports the wholesale grocery business accounts enables London to transfer the heavier than that of 1894, with the Alburden of gold shipments to Germany to aska trade improving. General business this country. This demand for currency at United States interior points reflects a freer movement of grain and cotton and this condition is expected to be soon more distinctly evidenced in the exchange market. The principal topic of tine may or may not be the beginning of interest to-day on the part of the trad- an upward movement, but accepted staers was the improving tendency of the anthracite coal trade. Rumors of the near impending publication of the Read- near future, may compel wheat prices ing reorganization plan were current, but lacked official confirmation. Railroad reports for August, including that of Reading, were uniform in showing increases in gross and net earnings. The market opened generally active and firm and soon developed a drooping tend-

Bradstreet's report the week's total bank clearings in the Dominion as fol-Montreal, \$10,778,314; decrease, 10.8. Toronto, \$5,537,222; increase, 11.9. Halifax, \$1,258,770; increase, 6.8. Winnipeg, \$1,208,639; dccrease, 10.6. Hamilton, \$661,079; increase, 21, Totals, \$19.263,524; decrease, 5.5.

R. C. Dun's review says: The full statement of about 2800 commercial failures for the third quarter of 1895 will be published next week, and will show liabilities of about \$30,000,000, of which about \$11,000,000 have been of manufacturing and \$17,600,000 of trading concerns. The speculation in cotton has lifted the price % during the past week and quotations here are so much higher than at Liverpool, that free exports cannot be expected. It seems no longer possible to hope for a good crop, and Neill Bros. have issued a circular predicting a yield of only seven million they may be somewhat exaggerated, the for the extraordinary supplies carried over from last year, the manufacturer here and abroad would be in trouble But prices of goods rise each week, adding to the profits of the mills, which on both sides of the ocean can use for some time to come old cotton bought at low It is not clear how far the consumption will support the manufacturer at the present rate, and at present prices for goods, though the demand from dealers is naturally urgent, while the market for the raw material is constantly rising. There is still some chance of a strike in Fall River mills, though the rise in price will make it easier for the mills to grant some advance in wages. The wheat market has been excited without much discoverable reason, and the price has advanced over 5 cents for spot and two cents for December de-

It may be said that crop prospects abroad are not quite as favorable as they were a month ago and with a short supply, at best in this country, the market is liable to be unusually sensitive. ern receipts for the week have been 5, bushels, against 5,432,254 last year, and for the month 22,393,228 bushels against 21.923.383 last vear. The exports from Atlantic ports, flour includ-ed, have been 1,887,501 bushels for the week against 2,420,580 last year, and for the past four weeks 524,621, against 8,772,318 bushels last year. Holders of corn have judiciously delined to sympathise with wheat to a great extent and the price is practically unchanged. Pork and hog products are all somewhat low-Nothing is clear about the iron and steel manufacture, but some of the largest Pittsburg concerns, professing co have orders for many months ahead, are bidding for small contracts in eastern markets at \$1 and \$1.50 per ton less

than the quoted rate. Some say that it is done to depress the market, and again it is thought that the object may be to buy material, but contracts have been made at the east for 250,000 tons of foreign ore to be used in Bessemer iron making at eastern furnaces, and the termination of the Marquette strike sets free about half a million tons more of Bessemer ore within the period of lake navigation.

There is also a halt in the advance of

Awarded Mighest Honors-World's Pair. DR

MOST PERFECT MADE. A pure Grape Cream of Tartar Powder. Free Ammonia. Alum or any other adulterant. 40 YEARS THE STANDARD

teather, no higher prices having becu recorded this week, though indes are on the whole a shade stronger. The advance in wool at the London sales stimmated the speculation here, but prices are on the whole unchanged, and saies nave been for the month ++,019,510 pounds, or which 10,000,010 were for eign, against 31,021,000 for the same Week or 1892, or which 9,023,000 were

while the demand for dress goods continues fair, there is no discoverable improvement in men's woollens, and the importations continue very heavy. Failures for the week have been 216 for the United States against 235 last year, and

50 in Canada against bo last year. Bradstreet's says: The striking features of the week are the increased demand for money east and west, the maintenance of a widespread and active demand for iron and steel, a further upward movement of the price of raw tions for wheat, flour and wool. Sudden changes in the weather, affecting a wide expanse of territory, made general sections unfavorably affected are in part offset by the stimulation of the demand for certain staples in other portions of volume of speculation to-day, but the prosouth has shown an improvement at Memphis, Nashville, Atlanta and Birmingham; the demand for funds there is improving and all that appears needed is a freer movement of cotton. On the Pacific coast Seattle continues to ship general merchandise to Central America and to Alaska freely, and Tacoma reat San Francisco is comparatively quiet. The canned fruit output of California will be about equal to that of last year. The advance in the price of wheat on reported damage to the crop in Argentistics concerning supplies of wheat in this country, if not discredited in the to follow in the footsteps of these for iron. Telegrams for Bradstreet's from widely different points seem to indicate a general intention on the part of the grain producers to hold their wheat for higher prices. This refers to spring wheat territory tributary to Minneapolis and to the wheat country in Oregon. Wheat exports from both coasts of the.

United States and Montreal this week (wheat flour as wheat) are the largest since March, 3,151,000 bushels, against 2,538,000 bushels last week, 2,562,000 bushels in the week one year ago, and as compared with 3,189,000 bushels two years ago, and with 4,617,000 bushels three years ago. In the province of Quebec general rade shows improvement since August. The demand is active for sugar, teas and canned goods, and with settled weather

it is believed orders for dry goods will be improved. At Toronto wholesale business is comparatively quiet, but the prospects are for an active business. Advices from St. John, N. B., are that wholesale trade is quite satisfactory. The Nova Scotia apple crop will not be

Bank clearings at Winnipeg, Hamilton, Toronto, Montreal and Halifax agutlook is decidedly unfavorable. But and 2 per cent. as compared with the mercantile failures reported from the pany. Canadian Dominion during the past 9 months, 86 fewer than in the like period of last year. The reduction in the total volume of liabilities of failing traders in the Dominion is even more marked, 37 per cent., and is well distributed throughout the more thickly settled provinces.

OVER THIRTY KNOTS.

Torpedo Boat Destroyer Built for the Russian Government.

The new torpedo-boat destroyer Sokol was launched recently from the works of Messrs. Yarrow & Company, of Poplar. This vessel has been built for the Russian imperial government. She is 190 feet long by 18 feet 6 inches beam, and is the first torpedo-boat destroyer in which nickel steel has been adopted as the material of construction. This class of steel has a strength exceeding that of ordinary mild steel to the extent of 30 per cent. She is fitted with twin scew triple expansion engines, of 4,000 horsepower, and the speed guaranteed on a three hours' trial is twenty-nine knots. The steam is supplied by eight of Yarrow's patent water-tube boilers with straight tubes. The armament of the Sokol is practically the same as that fitted in similar vessels in the British navy. As is customary at Messrs. Yarrow's works, there was no ceremony at the time of launching the vessel. The S kot was launched with all machinery on board, and the fires alight and steam up in four boilers. On the following day the first preliminary trial took place, and the results obtained are of more than ordinary interest on acount of the remarkable speed secured. The following details will be read with interest: Steam pressure, 164; vacuum, supply gave out. The tanks were tam-22; revolutions per minute, 410; time, 2 min. 6 sec.; speed, knots, 28.57; steam the crew believe it was the cook, who pressure, 165; vacuum, 22; revolutions per minute, 426; time, 1 minute 52 1-2 sec.; speed, knots, 32; mean speed in knots per hour, 30.285. The trial took place at the mouth of the Thames.

-The handsome residence of Archer Martin on Regent's Park heights has been completed and occupied. It is a creditable addition to the handsome resdences of the city. The site, commanding, as it does the best view in the city. was an admirable one, and for it Architect A. C. Ewart designed a structure which is greatly admired. The house was so placed primarily as to take advantage of the view from the principal apartments. The rooms are large, well lighted and well aired, there has been no waste of space, and every convenience known to modern building has been put in. The building has been completed in good season and Mr. Martin has been more than pleased with the work done

Rev. W. A. Brewer, who is at the head of the military college at San Mateo, Cal., left for San Francisco last night accompan-ied by his wife. They have been at Banf.

He fell sleep this morning, however, and it is believed he is now on the highway to recovery.

> -John Herburn returned to-day from Alberni. He is an experienced man, and is quite favorably impressed with the mining prospects there. He says, how ever, that not enough development work has been done to form definite conclusions. He was quite well pleased also with some of the hydraulic claims. He believes that a small stamp mill would do well in the district. It is understood that district.

> -Much interest was taken in working of the travelling dairy both at Colouitz hall and Saanichton. "The attendance was very large at both places" said Mr. Ruddick, who is in charge, but that did not please me so much as the great interest that was taken the farmers." The farmers seem to pleased with what they see, and are undoubtedly receiving much valuable information. To-morrow Messrs. Ruddick and Marker will take the dairy to Metchosin, and next week Duncan's and Nanaimo will be visited.

-The sealer Arietas arrived home this afternoon, 31 days from the Copper Islands. She has a catch of 1106 and would have had more but for a peculiar accident. Early in the season, when the schooner was right among the seals and leading with over 600 the water pered with in some mysterious way, and was tired of the cruise and wanted to get ashore. The vessel ran to Yokohama and got more water and a new cook. She ran back to the same grounds, the seals were gone. The Arietas reports the Mermaid with 1728.

-On Thursday evening next a meeting will be held in Colquitz hall to dis-

-A reward of \$100 ha been offered for information as to the whereabouts of Samuel Ricketts, of Prospect Lake road, who has been missing for some time

-Manager Virtue of the Mount Baker Hotel has decided to keep the bar and billiard room open all winter. The hotel will be closed for guests about the end of October.

-H. M. S. Royal Arthur will not leave on her cruise to Vancouver and Comox until Monday, October 7th. The other ships will leave for New Westminster about the 5th.

tonement, and the most solemn of the Jewish year. It is the closing day of the penitential period which began ten days

ing and concludes at 6 o'clock this evening. It is being observed with due so-lemnity by the faithful in Victoria.

-Steamer Barbara Boscowitz arrived early this morning from the north vis Vancouver and the Fraser river. Princess Louise arrived in the Fraser yesterday from the north.

-The prizes won by the pupils of the North Ward school at the fair were presented yesterday by Trustee Glover. Seven diplomas and two money prizes were won by the pupils of the school.

-Lieut. Hornby and 22 men from H. M. S. Royal Arthur leave to-night for England. They go from here to Montreal over the C. P. R. and sail from there on the Parisian on October 5th.

-It is understood that Messrs. Joseph Hunter and Chas. A. Vernon, have acquired the business of the B. C. Pottery and Terra Cotta Company. They were both heavily interested in the original company.

-A sealer named Olsen is being treated at St. Joseph's hospital for an in- noon. The skins were ordered sold, but jured shoulder. He was full and fell off the sidewalk on Store street. Olsen claimed that he had been robbed of \$80, but the police after an investigation say that he did not have that amount, or any sum, to be robbed of.

-W. E. Holmes grand master of the I. O. O. F., will leave on Monday, October 7th, to institute a new Rebekah Lodge at Kamloops, and also to pay official visits to the following lodges: North Bend: Ashcroft, Kamloops, Vernon, Revelstoke, and Donald. At Donald a joint meeting will be held, the Golden cial to be given in the public hall there brethren coming to meet the Grand on Friday evening, Oct, 4th. The har-

> -H. M. S. Nymphe came out of the drydock this morning, and the steamship Straits of Dover is on her way from Tacoma to take her place. The latter is to be cleaned and painted. The bark Enoch Talbot has been launched from the Esquimalt Marine Railway and replaced by the bark Ladas. Alto gether the drydock and the marine railway have been pretty well engaged of

-Miss Claude Hurst was arrested last night on complaint of Mrs. Thain, of Kane street, on a charge of having stolen a gold watch from her. It developed before court was held this morning that the Thain woman was playing baseball with the watch and Claude had taken it from her for safe keeping. Magistrate Macrae declined to permit Mrs. Thain to swear to the information, and gave her a severe lecture on her practice of trying to use the court for trivial troubles.

-John Ross, Fred Wilson and Harry Mileson were arrested at 2 o'clock this morning by Detective Perdue, who intended to book all three for vagrancy. A revolver was found on Ross, however, and a charge to fit the case was made in his case. In police court this morning Ross got a month, while the other two cases went over until Monday. The arresting officer, Sergeant Walker and Constable Palmer have been watching the trio since their arrival here from Vancouver three days ago. They believe they are suspicious characters. Ross is tin, the California penitentiary .

-Three more sealers, the Katherine, Capt. Gould, Ocean Belle, Capt, Martin, and Mermaid, Capt. Whitely, with catches of 700, 1618 and 1852, tively, arrived home to-day. The Katherine was reported from the west coast son. several days ago, and has no news of a special nature. The Belle and Mer- weeks, but the prospect is that during maid also left Copper islands before some of the schooners already home a few days, notably the Umbrina and Geneva. They were each 24 days in coming down. Capt. Whitely reports the Sadie Turpel with 1270 skins. The Mermaid and Belle came up the straits to- stances and a team of horses. They are of the powers of the local board which gether, and were towed in by the Carter.

The president of the Victoria Wheelmen's Club, noted as an enthuslastic bicyclist, discoverer and advocate of new ideas in the wheeling line, had better look after his laurels. For some time, there has been numbered among he endeavored to bond some claims in | Victoria's wheelmen, two Chinamen, but it was never thought that to one of them would fall the nonor of introducing something new, all novelties having previously been claimed by the beforementioned president. This morning one of the Chinese wheelmen passed proudly through Government street with a small baby cart attached to his wheel. Hereafter, John and his family will take their airing together, that is if the load. ed wagon does not prove too heavy for

> -About forty milkmen gathered at Temperance hall last evening to discuss the proposed by-law now before the city council. J. B. Chandler was made chairman, and Charles King secretary. There was a general discussion by Messrs. Mc-Rae, Gibbs, Chandler, Clark and Holmes, and there was the strongest government, and has been for some opposition to the scheme to tax outside dairymen. No exception was taken in particular to the inspection proposed. Ald. Cameron and Macmillan, who were present, were opposed to the tax, but believed very strongly in the milk inspection. Ald. Bragg was also opposed to the tax, and Ald. Partridge promised voted on it. Messrs. King, McRae and to interview the council and Ald. Williams, father of the by-law.

RELEASED BY BOND. Skins of the E. B. Marvin in the Owner's Hands-Shipments of Skins.

E. B. Marvin & Co. have bonded the skins of the seized sealer E. B. Marvin under seizure, out of the custody of Collector Milne. The necessary papers have been drawn up, signed and deliver ed, and the skins, 367 in number, will be landed from the schooner this afterit is generally conceded that the owner is entitled to some consideration and that he is in reality receiving very little when the lump sum of the bond equals | The story for the prosecution was told the present market price of sealskins. The sealing men still hold to the opinion | Mr. Church's office Wednesday after that the bond will be terminated by an | noon for a statement of a collection order from the admiralty court releasing schooner and skins after the case is

The sealskins with the other skins from the firm's schooner will be packed in preparation for shipment. The same is also being done by other houses, and already a large amount of skins are ready for shipment. When the first will go forward has not yet been determined. No information has been received yet as to the autumn sales in London. It is barely possible they will be held at the usual time in October, as there are a lot of skins taken early in the year, in the London warehouses, and that another sale will be held later on.

WORK AT BEAVER LAKE.

Substantial Progress Made with the New Filter Beds.

The contractors for the city water works are making progress with the preparations for the foundations and walls of the reservoir and filters. They have erected two sheds, where the Portland cement which has arrived, is protected from wet weather. A large staff of men is at work digging and wheeling out the accumulation of boggy and peaty material which has lodged in what is now go off. intended to be the basin of the reservoir. This work is heavy, but the men are working away bravely, and so far have succeeded in levelling the greater portion of the space between the lower wall of the basin and the caretakers residence, with rich mold, which can easily be converted into a beautiful gar-

den and flower plots. The Victoria & Sidney railway company have extended the spur from the main line to the line of the wall on the southeast side of the water works, for convenience in dumping a quantity of broken rock, which is to be brought by the contractors from the provincial jail. The trestle work of this spur will be removed as the work board of health to consist of five memprogresses. Other temporary tramways bers, one of whom shall be secretary. have been erected by the contractors on They are to be appointed by the governthe northwestern side of the works and connecting along the walls of the filters, ation as shall be fixed by the Lieut.-Govto fill up those walls with rubble work. Mr. Brown, clerk of works, has been at his post for some time in the interest of the city council, under Engineer Jorgen-There has been a scarcity of suitable workmen for the past couple of the next two weeks there will be a full supply obtainable. A staff of men engaged by the city council to clear off fallen trees and rubbish around the margin of the lake, have in use a stump machine, which is assisted by explosive subdoing good work.

TWO OF A NAME.

An Eastern Reviewer Who Mixed up the Two Alexander Beggs.

The literary reviewer of the Montrea Star says in the issue of that paper of Sept. 14: The two following letters were lately handed to me in the Star office:-

To the Editor of the Star: Dear Sir:-Your appreciative notice of the "History of British Columbia," in your issue of the 10th instant, does not give credit to whom credit is due. There are two historians of the name of Alexander Begg. Alexander Begg who writes on "The Creation of Manitoba." etc., is a distinct person from the Alexander Begg who is the author of the "History

of British Columbia.' This latter is a resident of this town, and a near neighbor of mine. He is now engaged on a "School History of British Columbia, and he has heen for years connected, more or less, directly with the press of Canada.

He was for several years an emigration agent in Scotland for the Ontario time engaged in promoting the of Crofter immigration to British Co lumbia. Yours truly, JOHN GRAY.

Tannachy Cottage, Orillia. To the Editor of the Star: Dear Sir:-The reviewer of Begg's "British Columbia," in the Star of Auto fully investigate the matter before he gust 10, page 4, makes the mistake of considering Alexander Begg, of British Donnegan were appointed a committee Columbia (Crofter's commissioner), as the same Alexander Begg who wrote the Manitoba and Northwest books. They are two different men. Yours,

held by the many Victorians who knew once asked Dr. Johnson how he came to him. Many of those present were young define pastern as the knee of a horse. Innen, whose companion he had been in stead of making an elaborate defense, as boyhood. The flowers sent by the spin- she expected, he at once answered, 'Ig-

Such also is my only plea, as the wreaths and crosses. The funeral took viewer (in the Star of August 10) of Mr place at 2:30 from the residence of the Alexander Begg's "History of British parents, Vancouver street, and shortly Columbia." With almost pardonable inafterwards from the Reformed Episcopal advertence, I rolled two single gentlemen church. Rt. Rev. Bishop Cridge con- into one, and confounded the above ducted the funeral services at the church named historian with another Mr. Alexand there was also a choral service by ander Begg, who is the author of the the choir. The members of the local "Creation of Manitoba," "The Great lodges A. F. & A. M., attended in a Canadian Northwest," and also "The body. The pallbearers were: H. Ella, J., History of the Northwest." I now apol-E. Wilson, C. E. Jones, F. Bennett, E. ogize to both these gentlemen for my involuntary error, and am not ashamed to acknowledge, like the brave and honest doctor, that it was "ignorance, pure ig--All kinds of paint and paint brushes. I norance," on my part. . I could scarcely be expected to guess that there were

two "Richmonds in the field" of north. western historical research.

THE CHURCH CASE

Hearing Has Been in Progress All Day at Police Court.

The hearing of the J. E. Church

manager of the B. C. Mercantile Agen-

cy, charged under section 109 of code, with pointing a revolver at Jesse Cowper, has been on all day at city polic e court before Magistrate Macrae, Thornton Fell appeared for the prosecution and A. L. Belyea for the defense by the Cowper brothers. They called at against Jesse Cowper, which was refused them, Mr. Church saying the matter was in the hands of C. Dubois Mason. A dispute arose, followed by hard language, and both the Cowpers swore Church drew a revolver from his drawer and pointed it directly at Jesse. The latter said he was not afraid, regarding it merely as a bluff, but his brother in his evidence swore that he was afraid Church was going to use the revolver The gun was then placed on the desk, and when Church picked it up again Jesse Cowper took it away from him. The brother admitted that Jesse had used abusive language, but denied that he had made any threats. They admitted being ordered out sever. al times and that Church had twice tel-

ephoned for the police. Mr. Church in his own defence swore that the Cowper brothers came in and Jesse used violent language of an abusive and threatening nature, and that he feared bodily harm. He ordered the men out and telephoned for the police. but they would not go. He said he merely drew the gun as a matter of protection. He did not point it and the second time he picked it up he was going to put it in the drawer. He gave it up in the struggle for fear it would

The evidence of Officer Walker having been taken, counsel on both sides made short addresses, after which the magistrate dismissed the information, the plaintiff to pay the costs.

PROVINCIAL HEALTH ACT.

Board of Health to be Established for the Whole Province

The Health Act passed by the provincial legislature in 1893 comes into effect to-day, the proclamation of the Lieut. Governor having appeared in last evening's Gazette. The act provides for a ernor-in-Council. The chairman of the board is to be appointed by the Lieut. Governor-in-Council, and he will be the chief health officer of the province. His salary is not to exceed \$3000 a year and the secretary's not more than \$2500. The municipal boards of health are placed under the provincial board, and if they do not carry out the orders of the provincial board the latter may practically take charge of the health and sanitary affairs of the city and exercise and enforce at the expense of the city, any

they think necessary. The board is empowered to make such regulations as they think necessary, subject to the approval of the government, and require the city board to carry them cut. Sanitary police may be appointed in municipalities, to be paid by the municipalities. If municipal by-laws shall conflict with the regulations of the board, it is provided that the by-laws shall be suspended. The board may also issue regulations for taking charge of any lands or buildings in any municipality, compensation, if any, is to be paid

the owner by the municipality. No city or company is allowed to establish a public water supply or system of sewerage without first submitting the plans for the approval of the board of health. No sewer, or appliance for the ventilation of the same, shall be constructed in violation of any of the principles laid down by the provincial board health, subject to appeal to the Lieut.-Governor-in-Council.

The board may order any municipality to appoint a registered medical practitioner as health officer, and if the re quest is not granted within five days the Lieut.-Governor may appoint one, upo the recommendation of the board. The second part of the act applies to local boards, how they shall be organ

ized, their duties and the regulations which they shall impose. When before the legislature the bill was strenuously opposed by the city members.

The men appointed to form the provincial board are Dr. John C. Davie of Victoria, Dr. J. M. Lefevre of Vancouver, Dr. Richard E. Walker of New Westminster, Dr. Louis F. Davis o Nanaimo, and Dr. Alfred T. Watt Dr. Davie is made chairma Victoria. and Dr. Watt secretary.

-With little care and no trouble, the beard and mustache can be kept a uniform brown or black color by using Buckingham's Dye for the Whiskers.

-Fresh supply of garden hose cheape than ever. 57 Johnson street. Shore's Hardware.

The steamer. City of Kingston car ried away 2500 cases of salmon night for shipment east over the Northern Pacific. Part of it goes to Eastern Canada and part to London, England.

T. M. Henderson leaves for Seattle this evening to meet his wife and his brother, who are returning from the east.
