THE HARVEY STORES THE PLACE TO BUY A NEW SUIT

If there is any doubt in your mind as to where is the best place to buy men's and boys' clothing, just compare our stock. The style and make of the garments, the quality of cloth, the linings and the prices, with those being sold elsewhere, and if you are a judge it will not take you long to decide that this is the place to buy. Its this fact that has increased our sales so much this spring.

MOUNT A'S CAPTAIN UNABLE TO COMPETE

Clay is Laid Up With a Sore Leg

Fat Cattle From Nappan for St. John—Cioral Union at Dorchester—Race on Dominion Day.

SACKVILLE, N. B., May 27.—Early in June fifty two and three year old steers bought last fall from leading farmers in Westmorland and Cumberland Counties and since then kept on the experimental farm at Nappan, will be shipped by the farm authorities at a meeting called here last night. The average weight will probably be about thirteen hundred and fifty pounds.

Mount Allison's track team has met with a piece of bad luck right on the eve of the intercollegiate meet in Moncton. E. H. Clay, Pareboro, captain of the team, has been in bed since Monday suffering from trouble with one of his legs. Yesterday the leg had to be lanced. Under the circumstances, he will not be in shape for the meet. It is felt that the team will be materially weakened by Clay's misfortune.

If present plans are carried out, Otty Wallace, Sackville, and H. Paul, Springhill, will meet in a three mile running race here on Dominion Day. This is the outcome of Victoria Day sports in Parrabro when Paul defeated Wallace in the three mile. Subsequently the respective matters of the runners was the subject of some discussion, and eventually it was agreed that the runners should meet again here.

HEAVY RAINS CAUSE MUGH DAMAGE IN THE SOUTH

Rivers, Overflowing Their Banks, are Destroying Crops—Tornado Wrecks Houses.

NEW ORLEANS, La., May 27.—Train services on many roads in Louisiana, Mississippi and Alabama, was badly crippled last night as the result of torrential rains which were experienced throughout those states. Many streams are out and several towns have been cut off from the shipping of the railroad. The crop damage is large. No extensive property damage and no loss of life are reported.

MOBILE, Ala., May 27.—Flooded every river and creek in lower Alabama and Mississippi are at flood stage. Reports indicate that the rains were followed by hailstorms raising the growing crops and even damaging buildings. The Mobile and Ohio R. R. has suffered a serious interruption of traffic. It has been necessary to operate trains of this road of Mobile over the Louisville and Nashville owing to washouts on the Mobile and Ohio in Clark and Wayne counties, Miss.

MEMPHIS, Tenn., May 27.—Reports from the surrounding country bring advice of considerable devastation by recent rain and wind storms. Mississippi and Arkansas seem to have suffered most. The Arkansas River is out of bank and flood warnings have been sent out that other rivers will rise above the danger point. In both states the crops are said to have been almost totally destroyed while numbers of towns are under water and families have been driven to the roofs of their homes and the only means of transit is by boat. A tornado yesterday passed over the northern portion of Mississippi wrecking many houses.

ON THE RIVER

The water in the river has been steadily receding during the past week and most of the wharves are now in sight above water. It is expected that the steamers will be able to tie up at the wharves by the first of the week instead of landing and receiving the passengers in small boats as they have had to do at most of the stops so far. The different steamers report a fair amount of business for this time of the year and the agents are looking for an unusually good summer.

HERE'S A NEW ONE IN APARTMENT HOUSES.

CINCINNATI, Ohio, May 26.—With new and stringent laws against gambling and bookmaking, the sport of kings—as the sporting writers call horse racing, is no longer a profitable business in many places. It remained for Cincinnati, however, to turn a grand stand into an apartment house and a race track into picnic grounds. Oakley Park track—famous old Oakley Park, where the fastest race horses

in the world thundered into the stretch, smashing world's records to the wild applause of thousands of spectators—is to become a housing place for babies and canaries and janitors and phonographs.

The grand stand, with the seats torn out, and walls and stairways and partitions put in, will become one of the largest apartment houses in the country. It is 320 feet long by 60 feet deep,

and will contain 125 rooms. It will be finished after the Spanish style of architecture. The three-acre grounds will be parked off.

Nothing in the general structure of the building will be changed. The towers and judges' stand and the cupolas will all remain. Even the steps which led into the stand will become marble stairs leading to Sultes 1, 2, 3, 4, 5, 6 and the janitor.

PICTURE HOUSES IN CHARLOTTETOWN

People Who Don't Attend Talk Against Them

Meeting Last Night Decided Not to Close the Show Houses, But to Urge Some Form of Censorship

CHARLOTTETOWN, P. E. I., May 27.—All religious denominations, various professional educational institutions, and business interests, were represented at a meeting called here last evening by Mayor Frowde to discuss the advisability of closing down the picture houses were part of our modern life and should not be closed, but that a strict censorship should be kept over them.

The Rev. H. E. Thomas, of the First Methodist Church, said that moving picture houses were part of our modern life and should not be closed, but that a strict censorship should be kept over them.

Rev. Canon Simpson said that there was too much amusement. While parents were amusing themselves with bridge, children were allowed to tramp the streets.

A majority of the speakers favored carrying on the shows under censorship.

The principal of one of the city schools said these shows unfitted children for school work.

With few exceptions the speakers spoke from hearsay evidence as they had not attended the shows.

TURKISH CHAMBER THOUGHT A FARGE

Deputies Applaud Senate Opposition to Budget Without Discussing Reason.

CONSTANTINOPLE, May 26.—The Chamber, on being informed today of the Senate's refusal to adopt the provisions of the budget for April and May, energetically applauded the report of the budget without deigning to discuss the Senate's reasons, which were, however, perfectly legal. The Chamber by this action desired to impose its will, but has cast ridicule upon parliamentarism.

The reporter of the budget having spoken of the State Council as a composition of incompetencies, thirteen Councilors out of thirty-seven, three of them being Christians and the remainder Mussulmans, made a violent protest to Parliament against the proceeding. It must be remarked that of thirty bills prepared by the Council of State the Chamber examined only three, thus demonstrating its incapacity. Among the protesting Councilors is Mehmed Sherif Pacha, cousin of the Sultan.

The inhabitants, exclusively Mussulman, of the village of Merdevenky, situated on the Asiatic side of the Bosphorus, having refused to obey the order of a court martial to deliver up their arms, two companies of infantry this morning surrounded the village, and after a slight fusillade, in which no blood was shed, disarmed the inhabitants, many of whom were arrested.

HAMBURG, May 27.—The Cincinnati, the new steamer of the Hamburg-American Line, left here today on her maiden voyage to New York with a full passenger list.

BOTH GERMANY AND FRANCE ARE SORRY

Express Regret Over the Casablanca Incident

Jap Trade Experts to Visit U. S.—Marine Strike in France Causing Much Congestion of Traffic.

PARIS, May 27.—The cabinet today approved a formula of reciprocal regret regarding the Casablanca incident and this dispute between France and Germany is now closed.

French officials at Casablanca seized certain deserters from the foreign legion of the French army while the men, who were Germans, were under the protection of the German consul. The matter was taken to the Hague court of arbitration and a decision handed down a few days ago.

SEATTLE, Wash., May 27.—Thirty leading business men and trade experts of Japan with their wives and families will arrive here from Yokohama on September 2 and as guests of the Associated Chamber of Commerce of the Pacific Coast, they will visit the principal coast cities. Extensive preparations are being made for their entertainment. The delegation will also tour the eastern states visiting every important manufacturing centre east of the Rocky Mountains.

President Taft and Secretary of State Knox are taking a personal interest in the visit of these Japanese business men as likely to promote a better understanding between the nations. Secretary of Commerce and Labor, Nagle, will assign five experts in different commercial lines to accompany the party on its tour.

ATLANTA, Ga., May 27.—It was readily reported this morning that the post office department will today make a definite move to start train service on the Georgia Railroad. It is proposed to start on a train carrying nothing but mail. The striking firemen have declared their willingness to run such a train.

PARIS, May 27.—The strike of the sailors, stokers and stewards of the merchant marine is extending. The men demand a weekly day of rest and equalization of pay on passenger and freight boats. The tie-up is complete at Marseilles, where fifty vessels are unable to move, and it is partial at Havre, Dunkirk, St. Nazaire, Toulon, and Bordeaux. Passengers at all ports are delayed. Torpedo boats are being employed for the conveyance of the mails to Algeria and Corsica. The companies concerned have asked the government to lend them crews from warships to insure the movement of the mails.

MRS. JULIA WARD HOWE HAS HER 90TH BIRTHDAY

Many Messages of Congratiation, and Gifts of Flowers, for the Aged Authoress.

BOSTON, May 27.—Surrounded by her children and grand children, Mrs. Julia Ward Howe, quietly celebrated her 90th birthday in her Beacon street home today. Despite her advanced age the famous writer is in full possession of her faculties and mental keenness and still manifests great interest in all the great public questions of the day. The festivities were however compelled her to forego a public observance of her anniversary. During the day letters and congratulatory telegrams poured into Mrs. Howe's Beacon street home, while immense quantities of flowers were sent by Mrs. Howe's admirers in all parts of the country.

SIXTY FARMERS JOIN IN A MAD DOG CHASE

Rabid Creature is Overtaken and Shot in a Dooryard.

OXFORD, Pa., May 26.—Mounted on their swiftest horses, sixty farmers of Colerain township, Chester County, had an exciting cross-country run after a mad dog on Sunday morning.

The rabid animal was first noticed by Charles Anderson, of Mount Vernon. It ran through his dooryard, and bit several of his dogs, and then started across country, snapping at every animal it met. Anderson at once jumped on a horse and started in pursuit. He gave the alarm as he passed by farmhouses, and sixty men were soon following the quarry over fields and fences.

The mad dog was overtaken on the farm of P. M. Stevenson. There several children were in the yard playing. Warned by the shouts of the hursened, they ran indoors just in time to escape being bitten. As soon as the children were out of the way a shot killed the mad dog. Before it was slain the rabid animal had bit thirty other dogs, and nearly all of them have been killed.

HELIE NOT ALLOWED TO SEE HIS WIFE'S CHILDREN

Ad Court Boni is Given Authority to Direct Their Education.

PARIS, May 27.—The decision of the Superior Court of Count Boni De Castellane's appeal of the case brought by him for the custody of his children was handed down today, and is a partial victory for the Count. It confirmed the decision of the lower court giving the mother the custody of the children but it set forth that the father alone had the right to choose their instructor and designate the college in which they are to be educated. Furthermore, Prince Heile De Sagan is specifically excluded from the list of persons authorized to visit the children and the Count's contention that the influence of the Prince is pernicious is thus in effect sustained. The costs of the appeal are divided.

MRS. C. W. MANZER IS DEAD AT WOODSTOCK

WOODSTOCK, N. B., May 27.—Mrs. C. W. Manzer, who has been a great sufferer from cancer, which rendered it necessary for the doctors in Montreal last fall to remove the tongue, died at her home in Woodstock last night. She has one brother, James Clayton, of Nashuaak Village, B. S. Clayton agent of the C. P. R. at Woodstock, and two sons, aged 14 and 18 years. The funeral will take place on Saturday afternoon in Woodstock. Rev. H. C. Kennedy will conduct the religious services and Rev. Calvin Currie will preach at the funeral sermon.

KILLED HIS WIFE IN MISTAKE FOR A BURGLAR

Woman Was Up Late Sewing, and When She Entered the Bedroom Her Husband Shot Her

INDIANAPOLIS, Ind., May 27.—Mistaking her for a burglar, Geo. W. Thompson last night shot and killed his wife in his home. Thompson went to bed early leaving his wife down stairs sewing. Later she entered the room carrying a lighted match. Thompson said he awoke, thought the light was from a burglar's lantern, took a revolver from under his pillow and fired twice at the form which followed the light. He is held at the police station for fear he will harm himself.

COMPLIMENTARY BANQUET TO BE GIVEN ROOSEVELT

By the People of Nairobi—Hunting Expedition Has Been Very Successful.

NAIROBI, British East Africa, May 27.—Theodore Roosevelt, who is at present the guest of Governor Jackson of Nairobi, has accepted an invitation to a public banquet to be given in his honor on August 2.

Mr. Roosevelt has secured 86 specimens of game of 22 different varieties; with the exception of six specimens they are all for the National Museum at Washington. The naturalists of the party have obtained about 1,000 specimens of birds, mammals and snakes.

GORBETT NOT LIKELY TO MEET JOHNSON

Will Let Jeffries Deal With the Negro

CHICAGO, May 27.—Jas. J. Corbett has given the following answer to Jack Johnson, who has announced his desire to box six rounds with Corbett in Philadelphia: "I have no desire or intention to fight Johnson. He is in better hands now than that Jeffries has undertaken to restore the honor to the white race. When I announced that I was willing to fight Johnson it was far from my desire to get back into the fighting game. I felt merely that some one had to challenge the black man who had a chance to defeat him. That Jeffries has agreed to meet him there is no occasion for me to give any attention to Johnson."

SAN FRANCISCO, May 27.—It was learned yesterday that Champion Jack Johnson has declared his willingness to meet Al Kaufman in this city in July or August for \$10,000 win, lose or draw. Two local fight promoters, Leclair and Coffroth, have been in communication with Johnson and to both he made the same reply. They are endeavoring to bring Kaufman to terms, and his manager, Billy Delaney, has promised an answer soon.

It is expected that the match will be arranged within a few days. Leclair wished to pull off the bout July 5 as a part of a big out-of-door sporting carnival. Coffroth wants the August date and the sporting fraternity is inclined to think he will get the match.

EXPECT ACADIA TO WIN AS THE OTHERS ARE WEAK

SAKVILLE, N. B., May 26.—The prevailing opinion among Mount Allison University students is that Acadia will again be victorious when the intercollegiate track and field meet is held at Moncton on Friday. They take this view not because they regard the Acadia team as strong but because they believe the others will prove weak. In all probability several of the events will be up to that of some other year. This, at least, is the view of a number of the local collegians.

Several of the Garnet and Gold boys had a pretty good workout at Amherst on Victoria Day when they succeeded in annexing nine cups as well as two medals. They realize, however, that the competition there was not that of strong men as they are apt to face in Moncton.

An yet the announcement of the personnel of the Mt. A. team for the meet has not been made. Probably the following list will be found pretty accurate: 100 yards dash and 200 yards dash, Clay, Ryan, Hooper; 440 yards dash, Cochrane, C. Patterson and Clay; mile run, Bartlett, Leach, Battelle (St. John); 120 yards hurdles, Pickus, Parker, Doehot; 220 yards hurdles, Cochrane and Thompson; 440 yards hurdles, hammer throw, Dibbles, Cochrane and Thompson; high jump, Bér; broad jump, Doehot; pole vault, Doehot, R. Patterson.

Mt. A. should make a better showing this year in the sprints than was made by the Garnet and Gold team last spring and in the mile, it is thought here, Bartlett, Lord and Battelle ought all to be in the running for places. Doehot should be nearly up man in the pole vault as he has a mark pretty close to the ten foot point. In the shot put Dibbles has been doing well of late but none of the hammer throwing has been at all starting. Bér ought to be a place in the broad. Certainly, however, it would be a surprise to the students here, so far as one can gather from chance conversations with them, were either of these men to win out in the respective events.

The hurdle race is probably the most problematical, as for the result of all the events. This is due to the fact that improper hurdles are always used in the meets and of late it has become the fashion more to run through them than to really hurdle the bars. A fast runner who perhaps cannot hurdle in anything like good form will merely speed through the course knocking the bars here and there while a much better man at the event who really 'takes' the hurdles completes the race in poorer time only to be beaten by the other.

Probably Pickus has a good a hurdling style as any man now at the three competing colleges but he is not a likely winner under the circumstances because the irregular method of running the hurdle event is sanctioned.

Dr. J. W. Daniel, M. P., local vice-president of the New Brunswick Society for the Prevention of Tuberculosis, has called a meeting in the Board of Trade rooms next Monday afternoon at 3 o'clock, for the purpose of organizing the St. John branch of this society.

DR. J. W. DANIEL WILL HAND IN HIS RESIGNATION NEXT WEEK

FREDERICTON, N. B., May 26.—It is the best of authority that Dr. James R. Inch, superintendent of education, and president of the Board of Education, will hand in his resignation to Dr. Crockett. This position has filled ever since to the satisfaction of all.

Shortly after being appointed superintendent he was elected president of the university. He has throughout his whole life been an active worker in the Methodist church and one of the province's strongest advocates of temperance. He is president of Fredericton Bible Society and holds other important offices. From his alma mater he received degrees of M. A. and D. C. L. The government of Dr. Inch's successor.

In connection with this office many prominent names are mentioned, but it is quite certain that selection will be made from the following: Dr. H. S. Bridges, superintendent of schools; Mr. John; Berton; C. Foster, M. A., principal of Fredericton High School; Inspector W. S. Carter, M. A., of St. John; Inspector Geo. M. Mesereau of Northumberland; and David W. Hamilton of Provincial Normal School.

Dr. Inch is a native of Queens county, being born at Jerusalem. After graduating from the Glasgow and Gagetown schools he taught school for some time at Kewick Ridge, this county. He afterwards removed to Sackville, N. B., where he was principal of the Ladies' College, a position which he held for many years, retiring from it in 1890.

THE NEW JUDGES

The elevation of Mr. H. A. McKeown and Mr. J. H. Barry to the Supreme Court bench of New Brunswick will give general satisfaction throughout the province. These gentlemen are well qualified to maintain that high standard which characterizes the Canadian judiciary.

Mr. Barry during his lengthy career at the bar has won the respect of all with whom he has been associated, and as a man has been deserving only of the highest opinion. He is well versed in law, particularly in procedure, and matters relating to real estate, and in fact in all those branches generally made familiar in an inland province. He is courteous in manner, moderate and dispassionate in his judgment and possessed of calmness and dignity of disposition. Mr. Barry is kind-hearted, generous and genial, one who loves his home and who is at all times ready and willing to share with those less fortunate than himself, all that he enjoys. He was born in New Brunswick in May 1833, a son of Irish parents, and was called to the bar in 1853; five years later he became associated with the late Mr. Blair, then continuing until 1894 when Mr. Blair became Minister of Railways. Mr. Barry has been clerk of the York County Court since 1885; he was appointed judge of probate for York in 1889, succeeding the late Judge Stralson, and has held that office up to the present time. Aside from his professional Mr. Barry has always displayed a lively interest in the affairs of his town and has for some years been a member of the council of the board of trade of Fredericton, and a trustee of the Victoria Hospital. His time has been devoted to his profession, his home and his city and although on several occasions opportunity has offered for his entry into politics, he has refrained from taking any active part in public affairs.

Mr. McKeown, who is advanced to the bench at the age of forty-six, is the youngest man ever appointed to this honorable office. Unlike his colleague, he has been actively engaged in politics for some eighteen or twenty years, having been first elected to the provincial legislature in 1887. Mr. McKeown has since that time served a number of terms as a member of the local house and has held the offices of Solicitor General and Attorney General. He has had a sound grounding in law, graduating from Mount Allison in 1881 he entered the office of Stockton and White, and was admitted to the bar in 1884. In the following year he received the degree of LL. B. from Toronto University. He has been one of the most eloquent members of the bar, a ready and brilliant speaker, able in debate and eloquent in his presentation of cases. Mr. McKeown in religion is a Methodist. Mr. Barry is a member of the Roman Catholic Church.

GEORGIA RAILROAD STRIKE

The tie-up on the Georgia Railway is one of the most puzzling problems with which the South has been called upon to deal. As stated in Associated Press dispatches, it is not so much a strike as a movement on the part of a number of white firemen, backed by residents of the districts through which the line passes, against what they claim is partially toward negro employment. It would be a comparatively new matter for the railroad to comply with the demands of the one hundred odd strikers, by dismissing the negroes now in the service, but such an action would, it is recognized, lead to a far more serious situation than at present exists. It has been the custom in the South, since the abolition of slavery, to throw open to the colored residents those occupations which they are qualified to fill. They have not been compelled to devote their energies solely to unskilled labor, but within reasonable limitations have been recognized as competitors with the whites in various branches of employment. Numbers of them have been engaged on the railroads and as noted in press matter relating to the Georgia strike, a considerable proportion of negroes held jobs as firemen on the railway. In the ordinary course of events these men, or some of them, deserved promotion; also in the ordinary course, some white firemen, have been dismissed for cause. It has not been the custom of the railway to make a distinction between the two races and deserving negro firemen have been promoted to the positions made vacant by this policy. The inference has been drawn that the negroes are being given a preference and that white residents, some of whom have been for years in the employ of the railroad, and who have established homes of

NOBLEMAN FEARS FALL OF ENGLAND

Germany Will Suddenly Invade and Devastate Mother Country, Says Earl of Clanwilliam.

WINNIPEG, May 26.—"War without a moment's notice will be the fate of England," was the startling statement made here this afternoon by the Earl of Clanwilliam, who arrived here today from England, where he has closely studied the situation. "Germany will be the invading force," he continued, "and that nation will sweep down upon the mother country some Sunday morning and devastate and capture everything. There is nothing to prevent this. For several years past Germany has been increasing her army and navy to an alarming extent, and she has organized a territorial army, doing away with the volunteers, materially decreasing the strength of the British army, which was shown at its best during the Boer war."

GERMAN ATTITUDE BLOW TO TRADERS

Merchants in China Suffer From Their Government's Mode of Procedure.

YOKOHAMA, May 26.—Dr. Morrison, in an interview today, declared that Germany's attitude towards China, is embarrassing her merchants, who are suffering severe economic losses, and whose position is threatened with being undermined. The victory in the railway loan question, he said, more apparent than real, has been a blow to the Japanese. Prince Fushimi's visit to Pekin, Dr. Morrison considers as a great Japanese diplomatic triumph. He advised the South Manchurian Railway.

FOUND OUT

A Trained Nurse Discovered Its Effect

No one is in better position to know the value of food and drink than a trained nurse. Speaking of coffee, a nurse of Wilkes-Barre, Pa., writes: "I used to drink strong coffee myself, and suffered greatly from headaches and indigestion. "While on a visit to my mother I had a good chance to try Postum, for they drank it altogether in place of ordinary coffee. After using Postum two weeks I found I was much benefited and finally my headaches disappeared and also the indigestion. "Naturally I have since used Postum among my patients, and have noted marked benefit where coffee has been left off and Postum used. "I observe a curious fact about Postum used among mothers. It greatly helps the flow of milk in cases where coffee is inclined to dry it up, and where tea causes nervousness. "I find trouble in getting servants to make Postum properly. They most always serve it before it has been boiled long enough. It should be boiled 15 or 20 minutes after boiling begins and served with cream, then it is certainly a delicious beverage. "Read 'The Road to Wellville,' in p. 16. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

FIND MRS. MARTIN VIOLATED VOWS

Jurors in Trial of Divorcee Case Adjudge Choir Singer to be Guilty.

Father of the Woman, the Rev. Jay Benson Hamilton, Ready to Testify Against Daughter.

NEW YORK, May 26.—Mrs. Etta H. Martin, of Brooklyn, a choir singer, was adjudge guilty yesterday of absolute infidelity in an action for absolute divorce instituted by Edwin E. Martin, a commission merchant, before Judge Appal in the supreme court, Brooklyn. Mrs. Martin, who ten years has been prominent in social, musical and religious circles, received no opportunity to interpose a defence, as her lawyer, J. Arthur Hilton, withdrew from the case after exhausting every possible effort to obtain an adjournment. Counsel for Mrs. Martin, prepared to defend the action without affidavits from persons in Massachusetts, and he walked out of court rather than be forced to an immediate trial. Only four witnesses were examined for the plaintiff, and not a question was asked the Rev. Mr. Hamilton, who was in court ready to testify against his daughter, Stephen C. Baldwin, of the proceedings. These men were not deemed necessary, as the Rev. Mr. Hamilton's willingness to go on the witness stand, but asserted that as a close study of the conditions in England, he says, forces him to make the statement he does, with a view more to warning England than deprecating its power.

Waterways Treaty

The question of approving the waterways treaty with the United States as amended by the American senate, was discussed at length by the cabinet today, but no decision was reached. The government is loath to lose the benefits of the whole treaty by refusing to assent to the rider attached by the United States senate with respect to the division of the water on the Saint Mary's river, but at the same time Sir Frederick Borden and Hon. L. P. Brodeur this morning by a deputation from the Royal Canadian Yacht Club of Toronto. The matter was talked over in a general way, the club expressing its willingness to co-operate in any way it could. Sir Wilfrid Laurier expressed his appreciation of the offer and stated in reply that two of his Ministers would go to London in July to discuss with the admiralty the whole question of naval defense. Should any scheme of naval militia be formulated the club's offer would be borne in mind.

QUEBEC LABORERS BEAT NON-UNION WORKMEN QUEBEC, May 27.—There were many black eyes, many broken teeth and bleeding lips yesterday on the Quebec and Lake St. John wharf, when some seventy members of the Longshoremen's Union, came to a clash with about twenty non-union men that were employed there by Messrs. Auger and Sons to load pulpwood on the canal boats for the upper lakes. It appears that the men at work on the wharf are paid twenty cents per hour, while the laborers belonging to the Longshoremen's Union are paid thirty cents per hour for their work and, pretending the Auger firm's laborers were cutting prices, the union men attacked them. Three of the non-union men—Lacombe, Godeau, and another—were severely beaten, one of them being forced to have his wounds dressed at the Hotel Dieu Hospital.

**TWO SEEK DEATH; ONE FINDS IT**  
Man Leaps From Viaduct 100 Feet to Street—Girl Caught in Act.

NEW YORK, May 26—At the same moment that a young man hurled himself from the Riverside viaduct over the intersection of 17th and Manhattan streets before daylight Wednesday, a young woman attempted to leap from the recreation pier, a block away from the viaduct, into the North river. The man, whose identity has not been established, was instantly killed by the plunge of more than 100 feet to the street pavement. The young woman, who was caught before she could leap and who described herself as Grace Anthony, 22 years old, of Brooklyn, insisted that she did not know the suicide and that his act had no connection with her.

**THE PEACE OF 100 YEARS BETWEEN GREAT BRITAIN AND THE UNITED STATES**

It will soon be one hundred years since the treaty of Ghent brought to a close the last war—and the last for all time, let it be hoped—between Great Britain and the United States. Never since that time has the patriotism of the Canadian people been roused and their resources been drawn upon by the defence of their soil against invaders. True, the peace of the country was disturbed from within during the uprisings of 1837-38, and the frontier was to some extent harassed during the Fenian raids of 1866 and 1870; but these occurrences were not of sufficient magnitude to deserve the name of war, which in its true and awful sense the people of this country have not known for almost a century. And yet that century did not pass without its dangers of conflict. On several occasions they loomed dark and threatening upon the horizon, and were dispelled only because a wise and humane diplomacy proved stronger than the spirit of strife—strong enough to hold the dogs of war in leash and adjust the international differences without an appeal to the stern and logical arbitration of force.

On four occasions in particular did the spirit of strife—strong enough to darken the horizon of the Canadian people during the past one hundred years. The first occurred in 1857, and it grew out of the destruction of the steamer "Caroline," the vessel, it will be remembered, employed by the so-called "patriots" who, in fact, were renegade Canadians and filibustering Americans in possession of Navy Island in the Niagara river, and from which the motley crew with William Lyon Mackenzie among them, threatened the peace of the Canadian frontier. Col. MacNab, known a little later as Sir Allan, sent a small force across the river, and after a short but sharp fight captured the steamer, cut her out from her moorings on the North York shore, towed her out into the swift current, set her on fire and left her to be swept to destruction over the Falls. Among the five or six killed in the attack was Amos Durfee, whose body was found on American territory, and a British subject named Alexander McLeod, who was arrested on the charge of murder. By avowing the destruction of the "Caroline," the British Government assumed international responsibility for all that had been done, claiming that Great Britain and not the men engaged in the act was answerable. Britain, therefore, demanded the release of McLeod. The demand was refused, and while the long drawn-out negotiations were being carried on McLeod, in October, 1841, was put on trial at Utica, N. Y., and acquitted. It was pretty clearly established that McLeod was a party to the cutting out of the "Caroline," and the verdict was therefore contrary to the evidence, but it was a fortunate one for the peace of the continent. It cut the Gordian knot of international complication, and probably prevented a war between Great Britain and the United States.

THE NEW BRUNSWICK FRONTIER PROBLEM.

While the delicate international complications created by the "Caroline" affair were unrolled, and the McLeod case pending, the New Brunswick frontier became the scene of a number of hostile acts so serious and threatening as to acquire throughout the Maritime Provinces the name of the "Aroostook war." The boundary between Maine and New Brunswick claimed a big and exceedingly valuable slice of the western forest area of her Canadian neighbor, or, more correctly, her British neighbor, for that was long before Confederation, and New Brunswick was a separate colony. While the ruffians who followed in the wake of Mackenzie's uprising were threatening the frontier of Upper Canada from Ogdensburg, Buffalo and Detroit, a gang of timber thieves, in defiance of the laws of both Maine and New Brunswick, invaded the disputed territory and cut much valuable lumber. The Governor of Maine sent a sheriff and posse to drive them off and seize their logs; and at the same time a band of New Brunswick lumbermen gathered to repel the men from Maine. A fight took place in the forest in winter, when one of the Maine leaders, a land agent named McIntyre, was made prisoner and carried to the town of Grand Falls, N. B., and carried him captive to Augustus. Then came on quickly the danger of war. Maine sent eighteen hundred militiamen into the Aroostook district and Sir John Harvey, the Governor of New Brunswick, sent up two regiments of the line with artillery and some volunteers from the St. John district. Upper and Lower Canada sent to the sister colony sympathy and offers of aid, and Nova Scotia voted all her militia and £100,000 to aid New Brunswick in her quarrel. Strange to relate, the London Times advocated not only the according to the Americans' claim, but that they be given all of New Brunswick west of the St. John river. About all the hot-heads in the United States clamored for war, but amid the uproar President Van Buren was calm and reasonable. He sent General Winfield Scott to the scene. Scott and Sir John Harvey had opposed each other at Lumley's Lane and Stony Creek in the War of 1812-14, and each respected the other. They soon came to an agreement under which a temporary joint occupation of the disputed territory was arranged, and the "Aroostook war" came to a close. Bargain (retroverts Lord Ashburton), and Daniel Webster, settled the boundary dispute. Of the twelve thousand square miles of territory claimed by Maine and New Brunswick the former got seven and the latter five thousand. It was a bitter pill for New Brunswick to swallow. When the Ashburton treaty went before the United States Senate for ratification, it is stated that opposition to the treaty was not allayed until behind closed doors Webster produced a map which he had by him all through the conference, but which he had kept carefully from the eyes of the British Commissioner, showing the boundary to be exactly that claimed by New Brunswick. If that is correct Webster's trickery and Ashburton's stupidity enabled Maine to rob New Brunswick territory, and in square miles of timber lands. At any rate, the United States Senate hastily accepted the bargain, and ratified the treaty.

The story of the secret map has recently been denied. Whatever may be the truth of the matter one thing is certain—those forests along the Aroostook nearly caused war between Great Britain and the United States, just seventy years ago.

GERMAN EMPEROR FAVORED STATES.

Just twenty years later another dispute relating to the boundary of Canada threatened war with our southern neighbors. On this occasion the disputed territory lay in the Parry, between what was then the territory of Washington and the colony of British Columbia, for this was eighty years before Confederation. Oregon had its hands full without a quarrel with Great Britain. But it was not until 1873 that the matter was finally settled by the German emperor, William I, who, acting as arbitrator, decided that the north channel was the boundary, and so the island fell to the United States.

THE LAST TIME RELATIONS WERE STRAINED.

The last time that Britain's relations with the United States were strained almost to the breaking point was in 1861—the first year of the American Civil War—when the commissioners of the Confederacy, Mason and Sillidell, while on their way to Europe, were taken by the United States man-of-war "San Jacinto," from the British steamship "Trent," on the high seas, and carried prisoners to the North American States. Great Britain was indignant, and she demanded that the captives be immediately given up. Preparations for war were made, and troops were hurried to Canada. Happily war was averted. The wisdom of President Lincoln prevailed; his government admitted that they were in the wrong; and Mason and Sillidell were quietly given up. They went on to England, where they were practically ignored. It was not for the safety of these Southern Commissioners, or the success of their mission, that Britain was prepared to fight, but it was the right of her merchant marine to sail the high seas free from molestation from a nation which she was at peace that Britain was prepared to vindicate.

**GIRLS STONED BY RIOTING HATTERS**

Many Injured When Women Make Attack on Strike Breakers in Streets.

ORANGE, N. J., May 25—One of the fiercest outbreaks in the Orange Valley hat strike, which has been in progress for five months, occurred in the streets last night when non-union employees started from the shop of E. V. Connett and Co., in South Jefferson street, to the Highland Avenue depot. A thousand people were massed about the factory and railroad depot, and when the women and men started to leave the crowds closed on them, hooting and jeering and throwing stones. One woman strike breaker had her clothing badly torn, several others were roughly handled and many were hurt with stones. Five arrests were made by the police, who used their clubs in clearing the "crowd."

Shrieking women, wives of workmen who had been out of employment and are suffering with their children from hunger, made desperate efforts to get at the women employees. The liveliest fight started at five o'clock, when forty women who had been taken into the Connett shop yesterday, left the factory, guarded by a heavy detachment of detectives and police.

Eugene R. Connett and Ernest Connett, of the firm, accompanied the women to the depot, and screaming Italian women, yelling that the girls were depriving them and their children of bread, gathered closely behind them and finally closed in on the strike breakers.

The police started to separate the women and the Roundman, Frederick Steinhart was hit on the head with a brick and stunned. The frenzied women in the attacking party pulled the hair of girls vigorously and several men broke into the group and aided in the scrimmage. Chief George P. Weather, with a detachment of twenty policemen, arrived just as the women got on a train, where several of the women faltered.

Another crowd hooted and yelled when the men started to leave the factory for the 4:15 o'clock train, and the police had to keep them moving to prevent trouble. Many men in the crowd grew abusive and refused to move when ordered, and stones were thrown. Half a brick was thrown at an automobile in which Charles Berg, hat manufacturer, was seated. The brick fell harmlessly behind the car. Orrin L. Yeomans, superintendent of Connett shop, was hit while riding in an automobile, but not badly hurt. A big window in the store of A. M. Matthews and Co., in Freeman st., was smashed when stones were thrown at the women.

Following disturbances at homes of former union employees who returned to work, police guarded the homes all night. Big crowds gathered in the streets until late, and the police kept a watchful eye on them.

**SIX KILLED IN BOILER EXPLOSION**

Another Move Ordered for Abdul Hamid.

Britain Gets a Big Rake-off in Succession Tax—Railway Men Burned at Somerville—Cheating Cab-Drivers.

DOWAGIAC, Mich., May 26—Of eight men who were in the Geesey hoop mill here this afternoon when the boiler exploded, five were instantly killed, one died tonight, one was severely hurt and one miraculously escaped without injury though the entire building tumbled about him. One of the dead men is DeForest Geesey, owner of the mill.

BOSTON, Mass., May 26—Five railroad men were burned and the passengers badly frightened when the controller of an inward-bound Lowell car short-circuited on Broadway in Somerville tonight, filling the front vestibule with a sheet of blue flame. None of the injured was seriously hurt.

CONSTANTINOPLE, May 26—The military authorities are considering the removal of the place of residence of the former Sultan Abdul Hamid from Saloniki to one of the islands of the archipelago in the Mediterranean, probably Rhodes Island, which lies off the southwest coast of Asia Minor.

LONDON, May 26—Chas. Morrison, a comparatively unknown millionaire, whose estate, it is estimated, is worth between \$50,000,000 and \$75,000,000, died today near Reading. He was 82 years old. With a maximum death duty of 15 per cent, and a succession duty of five per cent, as provided by the new budget, the government will receive from the estate more than \$10,000,000.

SOUTH MANCHESTER, Conn., May 26—Col. Frank W. Cheney, secretary and treasurer of Cheney Brothers, silk manufacturers, died suddenly in his home here today from heart disease.

LONDON, May 26—The House of Commons tonight concluded the general debate on the budget resolutions, which were adopted after an unusually prolonged and heated discussion. David Lloyd-George, chancellor of the exchequer, thereupon introduced the Finance Bill, dealing with his financial proposals.

BOSTON, Mass., May 26—Police inspectors in plain clothes have unearthed, it is claimed, a scheme to defraud by means of which the taxi company has lost nearly \$20,000 since the case was first reported in this city several months ago.

Four men were arrested tonight as a result of the investigation and charges of larceny preferred against them. All are taxicab drivers and gave their names as Cornelius P. Ryan, of 204 Northampton street; James T. McKensie, of 30 Claremont Park; Benjamin F. Young, of 12 Blackwood street; and Telesphore A. Perron, of 37 Elm street, Dorchester. The company claims the chauffeurs have tampered with the registers on the taxicabs.

**TWO DROWNED NEAR ARGYLE**

HALIFAX, N. S., May 25—Captains Harvey Hines, John Vennberg and a boy named Shaw, thirteen years old, started from Argyle for Yarmouth in a large sail boat, towing a dingy. A gale coming on, they anchored in the lee of Murder Island. At dusk the gale increased, and they attempted to put out another anchor with a small boat, when the latter upset, and both men were drowned. Shaw alone in the large boat, could do nothing. The bodies were recovered and taken to Argyle.

**BUSIEST SPOT ON EARTH**

Extraordinary facts and figures on the traffic of the City of London were brought before Section 13 of the Local Legislation Committee of the House of Commons, which had the City of London Street Traffic Bill under consideration.

"Probably the most congested places in the world," was Mr. Forbes Lamb, chairman's description of the area outside the Mansion House. Captain Northcote added that between 8 a. m. and 8 p. m. on one day 25,620 vehicles passed, an average of thirty-seven a minute.

The committee agreed to give the power sought with reference to costermongers, loading and unloading goods and cattle driving. On the question of obstruction, caused by shop window displays, however, they deferred their decision.

SIX

THERE'S MUCH BEHIND THE NAME

DUNLOP AUTOMOBILE TIRES

FIVE DAYS AND NIGHTS AT SEA IN SMALL BOAT

HALIFAX, May 26.—Two castaway French fishermen, Robert Louis and Guillaume Troquer, have arrived at North Sydney.

While hauling trawls in North Bay heavy fog settled all around them.

On the evening of the fifth day, when giving up the struggle, they discerned light and rowing, they made landfall at Cape Dauphin, North Breston shores.

DR. WILLIAM GREGG HAS PASSED AWAY

TORONTO, Ont., May 26.—A grand old man of Presbyterianism passed away on Washington avenue this morning.

SIR JOHN FISHER TO RETIRE

LONDON, May 26.—It is reported that Admiral Sir John Fisher, senior naval lord of the admiralty, will retire in October.

Had Heart Trouble and Shortness of Breath For Six Years.

Was Weak and Thin—Only Weighed Seventy-three Pounds. Now Weighs One Hundred and Thirteen.

When you find your heart the least bit out of rhythm, your nerves unbalanced, your breath short, don't wait until you are prostrated on a bed of sickness.

ORANGEMEN ASKED TO PETITION KING

Grand Orange Lodge at Peterboro Hears Dr. Sproule

Attempt to Change the Phraseology of the Coronation Oath Was Discussed.

Roundly Denounced

An attempt to change phraseology of coronation oath was roundly denounced at the proposals to change the oath.

Dr. Sproule says: "The last notable instance of the desire to discredit the public school system was in the amendment to land laws of Manitoba, Saskatchewan and Alberta, whereby the proceeds of sale of school lands, which heretofore were required to be used for maintenance and support of public schools."

William Lee, Toronto, grand secretary, reported the opening of sixty-five primary lodges during the year, namely: Newfoundland, 3; Nova Scotia, 4; New Brunswick, 5; Ontario East, 7; Ontario West, 20; Manitoba, 5; Saskatchewan, 11; Alberta, 4; and British Columbia, 8.

EMPIRE MUST UNITE TO RETAIN SEA SUPREMACY

WELLINGTON, N. Z., May 26.—Today Sir Joseph Ward, the premier, telegraphed all members of the houses of parliament, asking them to meet at the parliament buildings on June 7 to discuss the question of attending the Imperial Defence Conference.

Speaks at Banquet

Speaking at a banquet, Sir Joseph Ward in referring to the great importance of the Imperial Defence Conference, said: "We could not do other than recognize the efforts that are being made by other powerful countries, and one in particular, and though one could not take any exception to such a nation trying to rise in the world, and protect its interests, yet we must join hands with our own people in the conviction that we ought not to be caught napping or allow any nation to get alongside of them."

EDUCATION.

A Summa Cum Laude chap he was, and the things that he knew were many.

SPOKANE, Wash., May 26.—Five years in the state penitentiary for stealing 70 cents is the fine drawn by John Carney, who cut the pocket from the coat of William Hayes, January 29. He was convicted on a charge of larceny from the person.

What Did This Man Think and Feel as He Fell 400 Feet to His Death? Scientist Tells

How does it feel to fall 400 feet through space to death?

Warren's tragic death has furnished food for scientific thought. In the days that have elapsed since Warren was killed, psychologists have been endeavoring to determine his emotions.

One of these is Dr. C. H. Clark, former clinical director of the government hospital for the insane at Washington.

VIEW TAKEN BY STAFF PHOTOGRAPHER DONOFRONT ON SPOT FROM WHICH WARREN FELL

(By Dr. C. H. Clark.) In this effort of mine to determine what Warren's mental sensations were, I am attempting to make feeble guesses.

He recovered himself to some extent in the latter half of that first second. He very likely grabbed instinctively for something that would save him, for some support.

I have in my mind's eye a photograph of his brain for those five or six seconds. I think I can see the thoughts and sensations that were recorded there.

He was plunging down into 24th St. to him now that narrow canyon rift to which he had fallen.

His first and his last second were the worst. I think I can see the degree to the fate that awaited him.

Warren didn't do much thinking in the fifth full second. He had lost his footing, he knew; he was falling. He was terribly frightened.

THE EXECUTION OF REBELS IN STAMBOUL

CONSTANTINOPLE, May 24.—The execution of the prisoners condemned to death by the court martial began today.

It was still night when, from the gates of the Seraskier's camp, a column of soldiers, who escorted the doomed mutineers and captives containing the gibbets.

They were all looking at something terrible, and they kept gasping in terror.

Behind the black profile of the Sultan Selim Mosque the moon, almost full, was setting, gigantic and blood-red.

They were all looking at something terrible, and they kept gasping in terror.

The white-robed suspended figures, which now had nothing human about them, still swung round and round like a play to every side the fulfillment of the inexorable sentences.

They were all looking at something terrible, and they kept gasping in terror.

The white-robed suspended figures, which now had nothing human about them, still swung round and round like a play to every side the fulfillment of the inexorable sentences.

**LOCAL NEWS**

Canton La Tour will meet at eight o'clock tomorrow evening in the West Side Oldfellows Hall.

The Carleton Cornet Band will meet at the band room at seven o'clock this evening.

There were four drinks on the police court bench this morning and they were all dealt with in the usual manner.

Sergeant Campbell reports that there is a flow of water on the corner of Pitt and Sheffield streets, caused by a broken pipe.

Policemen Rankine and Corbett were summoned to the Long Wharf last night to eject Stanley Brown from the tug Lord Kitchener.

A key found on Main street by the police last night, was had by the owner applying at the North End police station.

"Pigeons Special: Look for that stamp when you buy your next pair of shoes. Don't forget 'Pigeons' Special,' the mark of the highest shoe quality at the lowest price.

About 12:30 o'clock last night the plate glass window in the Two Barkers grocery store on Main street was broken. It is thought that some person has accidentally fallen through it.

The steamer Manchester Merchant, of the Manchester line, arrived in port this morning from Manchester with a general cargo. The ship had a fine passage.

A number of friends of Miss Katie Keenan surprised her with a novelty shower last evening in honor of a coming event in June. Miss Kate Kennedy, of Daughas avenue, was hostess, and a pleasant evening of music and games was passed.

The Star Line Steamship Company is planning to inaugurate a system of season tickets somewhat similar to that used by the railway for summer suburban traffic. The tickets will be available only for summer residents. It will result in a considerable reduction of fares.

The West End Every Day Club and the La Tour Section of the Temple of Honor are circulating petitions asking that water gates be placed in the Carleton mill pond, so as to provide a body of water that would always be available for aquatic sports. As a number of sewers empty into the pond the promoters suggest that the gates could be opened frequently to change the water.

The New Brunswick Tourist Association is about to revise its lists of boarding and lodging houses in the city and throughout the provinces, and in order that these lists may be as full and complete as possible, all in the city and throughout the province who are prepared to give accommodation to summer visitors are requested to make known the fact to the secretary, 85 Prince William street, St. John, N. B. Registration forms have been prepared, and a request personally or by mail will bring one of these, which when filled out will put the association in possession of information that may prove valuable and profitable to boarding house keepers in both city and country. It is desirable that those who should give information about drives, boating, bathing, fishing and other attractions in the vicinity. An early answer to this appeal will be appreciated.

**ALDERMEN OFF TO INSPECT PAVEMENTS**

The Haslam Company Will Pay the Bills.

Alderman Says St. John Men Can Lay Pavements Cheaper Than Any Foreign Concern.

A joint delegation of the civic representatives of St. John and Fredericton leaves tonight on a trip to Boston, Lowell and other New England towns as the guests of the Haslam Paving Company, of Worcester, Mass.

The object of the trip is to give the aldermen a chance to inspect the pavements laid by the company and see how they work in actual use. They will also be given opportunity to see them in the course of construction.

The company makes several kinds of pavements and in view of the proposed extension of permanent pavings in both cities are paying the aldermen's expenses on this trip in order that they may thoroughly investigate the merits of their products. Fredericton has already decided to have permanent paving on some of the principal streets, and such a movement is also on foot in St. John.

Residents of Gormain street have petitioned for pavements there, offering to pay one-half of the cost. There has always been dissatisfaction with both the wooden blocks and the Macadam system used in St. John, and a change might also be made in some of the streets which have the heaviest traffic.

The delegation from Fredericton will consist of the mayor, a couple of the aldermen and the city engineer.

St. John will be represented by Ald. McGoldrick, Ald. Eakin, Ald. Vanwart, and Engineer Murdoch. They leave by the Boston express this evening and will join the other contingent at Fredericton Junction.

While they are away the aldermen will also have their eyes open for other matters of interest which touch their various departments. Ald. McGoldrick, who still believes in wood block pavements, will investigate the system as used in other cities with a view to finding what preservatives are used to make the wood last longer.

Ald. Vanwart has heard of a new tire hose nozzle which can be controlled under a heavy pressure of water by one man instead of two and three, and he will look into its merits. Although they are expected to bring back quite a large bunch of assorted information.

One of the aldermen who is not so long characterized the trip as a "junket," and said that it would amount to a heavy pressure of water, but he is in position to know that a company could be formed in St. John which could lay the same pavement at a lower price than any foreign company could do it.

Owing to the absence of the aldermen some of the regular board meetings will have to be postponed. The water and sewerage board will be held as usual on Wednesday, but the board will have been postponed until Friday and the safety board will probably meet on Monday of the following week to accommodate the others it is possible that the treasury board will be held over until the following Tuesday, and the council meeting until Wednesday, June 8th.

**MONCTON TEAM TO PLAY HERE SATURDAY**

The Moncton baseball team and the Marathons will meet on Saturday afternoon and evening on the Victoria grounds for two games of ball.

This is a good attraction for the baseball fans and doubtless a large crowd will witness the contests.

Both teams are in good shape and are always desirous of downing a St. John team. Their hitting is a feature, they are well worth watching, and is a big factor in helping them win their games. Their pitchers are speedy and the team as a whole are good batters. The local boys also are a hard hitting team, in fact, the Marathons are battling this season harder than ever.

For those who go to the games on Saturday a fast exhibition of the good old game may be expected.

**U. N. B. ATHLETES ON THEIR WAY TO THE MEET**

The track team of the University of New Brunswick passed through the city at noon today on their way to Moncton, where the intercollegiate athletic meet will be held tomorrow.

The members of the team and the events for which they are entered are as follows: A. J. Brookes, captain, high and broad jumps; Jas. H. Dever, acting manager; J. McNair, sprinter; R. J. Armstrong, hurdles; Ken Johnston, Walter Willis, quarter mile; I. C. Spicery, high jump and pole vault; J. Constance, mile run; H. G. Deedes, Clarence Lenk, shot put; and C. Robinson high and broad jumps.

The Acadia team will arrive on the Digby boat this evening. Mount Allison is the third university participating.
