The commander of the Italian second class cruiser Fieramosca telegraphs from Taku, according to the representative of the Daily Mail, that very urgent requests were coming from Pekin on Saturday for the imnediate despatch of further troops, and that an answer to these 400 Italian marines were sent off post haste.

The Japanese minister in London, Kato Takaaki, is said to have received a telegram last evening announcing that subsequent to the entry into Pekin a Japanese detachment went to the imperial palace to afford whatever protection was necessary. The enemy were in strength, and fighting was still proceeding when the message was sent to Tokio. The main body of the Japanese was then at An Ting Men gate, the Tartar city, with headquarters at the Japanese legation.

Reports of the presence of the empress dowager are still contradictory, but Gen. Lang Yu, on the authority of the Shanghai correspondent of the Standard, is definitely announced to be a prisoner by the orders of the empress in the imperial palace.

Further Yokohama advices to the same paper declare that Germany and Russia are objects of distrust to the Japanese press, which urges that Japan having borne the chief burden of the operations, must see to it that the future of China is not determined merely by the pleasure of the western powers.

"It is felt," says the correspondent "that determined action on the part of Great Britain, the United States and Japan will avert any danger arising from the ambition of continental Europe."

The semi-official Japanese organs say that if occasion arises Japan can send 50,000 troops on short notice, and that if the powers are inclined to play a selfish game special measures will be necessary.

Sir Chih Chen Lofeng Luh, interviewed by the Daily Chronicle, is represented as having said:

LI HUNG WANTS PEACE.

WASHINGTON, Aug. 20 .- The American reply to China's latest appeal for a cessation of hostilities, received today from Li Hung Chang, has not yet been made known. There is rea son to believe that the overtures will, in effect, be rejected, on the ground that the conditions laid down in the American note of Aug. 12 have not been complied with, and until complied with the government must proceed without reference to China's appeal for a halt 'n the proceedings.

China's latest application for peace negotiations was received early today at the Chinese legation, and was tain the following story regarding the transmitted by Mr. Wu to the state department. Earl Li's request is that the United States shall name Minister Conger or some other official to act as peace envoy for the cessation of hostilities. The Chinese envoy proposed no terms as to the withdrawal of troops and made no other suggestion as to what was to come before the commission, his sole anxiety being to secure the cessation of hostilities. The Election Act Defective in More Ways Than One.

Militia to Wear Mourning Until Middle September-Ministers Assembling.

OTTAWA, Aug. 17 .-- The explana tion now given officially of the reported discovery by the justice department of the discrepancy in the election act, which will require legislative amendment, is that when the discovery of the flaw was reported to the minister he decided that it could be remedied by the executive or departmental action. There is no doubt whatever that in more than one respect the act will be found unworkable if strictly adhered to by the election officers.

Hon. Dr. Borden returned to the city today. The secretary of state is again at his desk. Law Strictly Enforced Under the Present Inspector - Mr. Vincent Testifies on His Own Behalf.

The investigation into the charges made against Geo. R. Vincent, license inspector of St. John county, by the citzens of Lancaster and St. Martins, accusing him of dereliction of duty and of knowingly permitting open violation of the act, was opened by Hon. L. J. Tweedie in the local government office, Imperial building, at 10 o'clock Wednesday morning. W. H. Trueman appearing for the petitioners and C. N. Skinner, Q. C., for the defendant. The first witness, Counciller A. L.

Fownes, being sworn, stated that he had conversations with Mr. Vincent concerning the enforcement of the act as far back as a year and a half ago. He then drew his attention to the prevailing dissipation at St. Martins mentioned special cases of drunkenness to him, and offered witnesses to prove his assertions, but nothing had resulted. Intoxication in St. Martins was now much more prevalent than under the last sub-inspector, Lewis, who had been dismissed by Mr. Vincent. It was particularly noticeable among the young, especially of the laboring class. Witness had complained to present Sub-Inspector Mosher that he was not doing his duty, told him of places where liquor was Kennedy's hotel. Mosher told him Kennedy had promised to stop selling. He was a member of the plebiscite committee which had waited upon Mr. Mosher and discussed the question of the illicit sale of liquor in St. Martins. Mr. Fownes, also on the committee at this time, told the subinspector he could produce witnesses that liquor was sold at Kennedy's. The matter of sending the memorial to the government was discussed and Mr. Mosher made no objection, but stated he was willing to enforce the act if he could procure convicting evidence. enforced in the parish, nor had it been for a year or so. called David Burgess of Fairville their first witness. He testified that he was sub-inspector for that district for two years, up to end of 1895, under Mr. Vincent, who had always directed him to see strictly to the enforcement of the act in all its particulars. When he was appointed there were thirteen unlicensed saloons, and when he left there were only three, the proprietors of which had often been fined but still persisted in the business. In all of his instructions from the inpector no reserve was made for any case. Had often received information from the inspector himself. After his resignation as sub-inspector he performed some of the duties while acting as constable, and during this time acted under the instruction of Mr. Vincent. Thought the inspector was too strict, if anything, in enforcing the law. Before Mr. Vincent's appointment Fairville was in such a state that life and property were not changed under his administration. Cross-examined-Said he ceased to ector four years ago

called and sworn, said he was sub-inspector for St. Martins. Was appointed in May, 1899. At the time of his of intemperance and rowdyism preappointment he received a letter from Mr. Vincent directing him to firmly carry out the law. The letter was produced, together with another from the inspector to the witness reprimanding him for negligence in the discharge of his duty. He had twice searched Kennedy's premises and looked for evidence as to his violation of the law with no avail. His official report to Mr. Vincent for 1899 was produced and read, stating that there was comparatively little drunkenness in St. Martins at that time, and in the few cases where suspicion pointed to violation of the law he had been unable to obtain any evidence sufficient to convict. As far as he could ascertain most of the intoxication noticed was due to liquor procured at the drug store and brought in by vessels. The report he sent was written, but it was returned to him by the inspector in typewritten form for signing. Afterwards he said he could not swear that the report had been sent m its original form to Mr. Vincent, as it was written at his dictation and mailed by another party. Had tried to do his duty and investigated cases reported to him. Concerning the committee that waited on him he said that Coun. Fownes has declared that he could oring proof against Kennedy. He had previous conversation with Mr. Fownes on the street to the same effect, when a man was mentioned as a probable witness. He saw this man, who said he could not swear to any violation. Another man whom Mr. Fownes had mentioned was ten miles out of the village at the time, and he did not see him. A short time ago Mr. Vincent had asked him to return all the letters he had written to him, and he had done so.

Some of these letters from Mr. Vincent to the witness were produced and read, strongly urging hm to stamp out the nuisance by every legitimate means. Had never received any instructions of a contrary nature from

Mr. Vincent. Cross-examined-Said he lived out of the town about one and a half miles. If anyone sold liquor in St. Martins he would think it was Kennedy. He never was given the name of a person as a witness except in the once case mentioned above. Had occasionally seen persons the worse of liquor and had tried to find out where it had been procured, but could not obtain convicting proof. Had after watched outside Kennedy's at had asked some of those whom he saw intoxicated where they got their liquor, but never got any satisfactory information against anyone. Capt. R. Rawlings, the first witness called, said he was special police at the Bay shore from 1894 to 1898 inclusive. Had searched places in collusion with Mr. Vincent, and in some cases had found liquor and secured convictions. He was appointed shortly after Mr. Vincent, and then liquor selling along the Bay shore was very common. The inspector always instructed him to vigorously carry out the law. He had done so to the best of his ability, and as a result had known of no selling there since 1898. Had been sent by Mr. Vincent on several special expeditions.

Dr. J. H. Grey of Fairville, called and sworn, testified to the condition vailing there when Mr. Vincent was first appointed and to the change evident now. Had no personal knowledge of recent violations and had heard no great dissatisfaction expressed concerning Mr. Vincent.

Cross-examined-Had heard occasional rumors of liquor selling in Fairville. Re-examined-Had never given Mr. Vincent any information that would

lead him to discover who the violators were. Joseph Lee, councillor for Simonds, was the next witness. Had no complaint, nor had he heard of any in his parish concerning the enforcement of the act by Mr. Vincent. Was a decided temperance man, and thought the law was well administered. Knew

of no one selling without license. Cross-examined-Knew nothing of

the condition of St. Martins or Lancaster. Wm. Skillen, J. P., of St. Martins, being examined, said he had extensive knowledge of the whole parish. People frequently brought liquor in for private use by the stage, etc. St. Martins was substantially a sober town. Had seen nothing during the past year which could warrant an inspector laying a complaint.

Cross - examined : - Sub-Inspector Lewis had ofter lodged information in cases where he had no evidence, but had sometimes obtained convictions. Had often seen packages of liquor on the stage, but never saw a whole case. Had only seen two men intoxicated in St. Martins in the past year or two, but had seen these men drunk several times. Thought that those who signed the memorial stating that the law was not enforced were either mistaken or had not read the memorial. Considerable liquor was procured at the drug store.

Re-examined:-Had no knowledge of any liquor sold in St. Martins. A number of the names on the memorial were employes of Coun. Fownes. One man told him he had never read memorial before he signed it.

Cross-examined again:-Could say that more than four or five on the ist were employes of Coun. Fownes. The report of Mr. Mosher, spoken of yesterday, he had taken at Mr. Mosher's dictation, and had it typewritten and sent it to Mr. Vincent. AFTERNOON SESSION.

The first witness after recess was Joshua Knight of Musquash. He said he had been a member of the license board for four years. There had been a great improvement in his parish since the appointment of Mr. Vincent. Only liquor now used there was brought in from outside. Had heard no complaint against Mr. Vincent in his district. Thought he had performed his duties thoroughly outside of the Morris case, of which he had no personal knowledge.

Cross-examined:-There was no subinspector in Musquash. Mr. Vincent had not been in Musquash for a year. Thought inspector should visit outlying districts in the discharge of his

Alexander Johnson of Simonds, called and sworn, said he was sub-inspector under Mr. Vincent's predecessor. Affairs were then in a very bad state and during that time there was only one conviction made. He continued in office two years under Mr. Vincent, and during the present inspector's convictions. The inspector gave him every assistance and always urged him to enforce the law. Knew personally of no illicit selling at present in the parish of Simonds and had only heard of one man being suspected. Thought Mr. Vincent had carried out his duty conscientiously.

At the time of his appointment in 1894 he found a warge amount of illicit sale of liquor in St. Martins, He then told Barnett to wait until he and under his instructions several in-1894. He enumerated the cases. During this year there was considerable complaint in St. Martins, and he had he had handed in before his dismissal, he claimed he had written to him for more information on the subject and received none. These were the only informations ever sent him by Lewis, who never would act under his directions but was insubordinate. Lewis told him once after his dismissal he thought Kennedy was selling liquor, but offered no satisfactory evidence. Immediately after this witness had written to Sub-Inspector Mosher to thoroughly investigate the matter. He constantly enquired of persons from that district concerning conditions there. Coun. Fownes never mentioned the matter of enforcement to him except on being questioned. Once in response to a request Mr. Fownes said he suspected Kennedy and offered a man named McLeod, whom he stated might be got to give evidence, as he used to work there, and had told him of handling liquor cases. Mr. Fownes did not say that McLeod could prove the sale of liquor. To illustrate to Mr. Fownes the difficulty of obtaining convictions he mentioned to him a case which was brought before him before Justice Allingham when the witness he had relied on had decamped and others he had summoned would swear to nothing of a convicting nature, so he was unable to prove his case, and in spite of protest Allingham had given judgment against him with costs. He was now defending a case brought by the defendant in this case against him for malicious prosecution. In view of this, he told Mr. Fownes that he would prosecute if he could get reliable information, but would not do so on rumor, as prosecutions in St. Martins were very expensive and he must be reasonably sure of his case. In another conversation Mr. Fownes had mentioned that there was strong suspicion against Kennedy, but offered no witnesses.

Witness had often received anonymous letters from all over the country, but the case mentioned in evidence yesterday was the only one he had taken any notice of.

strictly enforce the act. With reference to Mary Morris, he said she had a license when he was appointed. In 1898 the board refused to grant her a license but gave her an extension for three months. She had asked for another, but he would not grant it, and threatened her with prosecution if she did not stop selling. She said she was poor and could not live without the business. Still he told her he would have to prosecute her if she did

not stop. She promised to do so. In November of the same year he received information that she still continued. He visited her and told her he was going to make an information and that she must stop. He made out the information, and before he handed it in she came to him and paid the fifty dollars fine and begged not to be taken into court. Upon Mr. Allingham's recommendation he appointed Albert Taylor sub-inspector. He gave him a list of liquor and beer licenses, and gave him strict instructions to prosecute all violators, and made no exception. The assertion that he excepted Mary Morris was absolutely untrue. He told Taylor he wanted to stop her selling, but would rather do it without putting her in jail. Taylor never reported Mary Morris during his term of office. About a week ago, in consequence of a rumor, he called on Mary Morris and asked her if she had ever paid Taylor any hush money. She said she did. Had paid him \$19 altogether. said: He was inspector for St. John During 1899 he heard no complaint against her till fall, when Officer Barnett expressed a suspicion that she was selling, but could offer no proof. himself could see Miss Morris and formations were laid, and convictions, talk with her. Had told him nothing secured in three of the cases during more concerning her. A couple of days after he went again to Mary Morris and accused her of selling. She denied the allegation at first, but spent much time there and done all finally admitted it. He then made out that lay in his power to put down the an information against her and got traffic. He had continued to do the summonses ready, when she came over same ever since. With reference to next day weeping bitterly and pleadthe three informations Mr. Lewis said ing not to be dragged into court. She then paid him a fine of \$60. In November next he went over again and saw liquor and proceeded to make out information, but this time again she pleaded with him so pitifully that he had not the heart to bring her before the court, so he fined her \$60 again, \$30 of which she paid a few days later, the balance being still owing. All these fines had been deposited to the credit of the government. During September last Barnett produced a bill for services in the case mentioned above, which had-been dismissed by Allingham. He asked him to return it to the magistrate to be certified, but Barnett refused, and also refused to have anything more to do with the enforcement of the act. Witness pointed out to him his duty to do so, but he said he would not, as his salary as inspector had not been paid. Afterwards the bills were paid by witness without certificates. The next winter Hennessy was appointed policeman for Fairville when Barnett was ill, and witness instructed him to report to him every violation of the act, especially mentioning Miss Mor-Hennessy never reported any violations. Later, about last April, witness personally searched Mary Morris' place, but found no intoxicating liquor. Afterwards Hennessy searched the place, and witness did so again, all with no avail. He had

tried to bring outside influence to bear upon her to stop. His instructions to the Bay shore police officers were also very strict. When he was away Mr. Currey acted for him with the sanction of the council. In taking fines from Mary Morris there was no understanding that these fines sufficed for a license. Mr. Skillen was here recalled and said some of those who had signed the petition had asked him if it was contrary to law for the mail driver to carry liquor, and he had replied in the negative, which decision was confirmed by the post office inspector. The mail driver was Jas. Kennedy of Kennedy's hotel.

## LORD'S DAY ACT.

Decision of the Supreme Court In Re Greene,

Sustaining the Conviction for Selling Cigars in St. John on a Sunday — A Test

The Text of the Judgment of the Chief Justice, in Which the Other Judges Unanimously Concurred.

In re Greene-The appellant Greene was convicted before the police magistrate of Saint John for selling cigars on a Sunday and fined \$20. The conviction was made under the provisions of sec. 1 of 62 Vic., cap. 117 passed in April, 1899, by the provincial legislature, and the sole question involved in this application is whether that act, or at all events that section of it, is ultra vires of the local legislature. The act in question is entitled "An Act to Prevent the Profanation of the Lord's Day." Another section under which Greene was convicted is as follows: "No person shall on the Lord's Day, commonly called Sunday, sell, or publicly shew forth, or expose, or offer for sale, or shall purchase any goods, chattels or other personal property or any real estate whatsoever or do or exercise any worldly labor, business or work of his ordinary calling (conveying travellers, or her majesty's mails by land or water, selling drugs or medicines and other works of necessity and charity excepted)." The act contains several other provisions to which it is unnecessary now to refer. The scope and object of the act are (1) to prohibit personal, or real estate, from being sold or publicly offered, or exposed for sale on Sunday; (2) to prohibit such worldly labor, business or work from being done on Sunday as is not specially excepted from the operation of the act, and (3) to prohibit certain kinds of turbed or hindered. That is a right amusement or recreation on Sundays. The main ground upon which the validity of this conviction is questioned is that, not only the section in | ion and largely of sentiment-dependquestion, but the whole act, is ultra vires, because it relates and deals with the criminal law in the sense in No. 27, of the British North American Act, and which gives the exclusive to the federal parliament. For many one which did not concern the general Revised Statutes, intituled "Offences moulded so as to suit the requirements Against Religion," consisting of two and meet the conditions of different sections. The first of these sections has been superseded by dominion legislation; (R. S. C., chap. 156, Cr. Code secs. 171, 172 and 173) and by the law as it now stands, the unlawful obstruction of a clergyman in celebrating divine service, and violence to him while officiating in such service are indictable offences and punishable by two years' imprisonment, while the disturbance of public worship is an offence punishdominion in the matter covered by that section, nor, as I believe, by the wider area covered by the act under which the present conviction took place. The act as originally passed in profanation of the Lord's Day, compression of immorality." changes were made in it in 1831 by 1. Wm. IV., cap. 38, and by the act 12 Vic., cap. 29, passed in 1849, which consolidated the criminal law of that day. These two sections were included, one under the heading "of disturbing religious assemblies," and the other under the heading "of profanform, and so they stood at the time of confederation.

The principal argument addressed to

provincial legislation on the subject

would, I think, be very unsafe to conclude that because for the sake of convenience or ready reference, or any other reason, the revisors of our statutes in 1854 had gathered into one group the existing Acts relating to orfences and called it the Oriminal Law, it therefore followed that the domin-ion legislature had the exclusive right of legislation as to all matters therein dealt with. If this argument could prevail it would confer upon the federal parliament the exclusive right of legislating upon the subject of drunkenness as a part of the criminal law, because chap. 145 of the Criminal Law of New Brunswick, as it stood at the time of confederation, made drunkenness an offence punishable with about the same severity as Sunday profanation was. In addition to this, to the extent that the criminal laws of the various provinces differed-and it is well known that they did differthe argument would not apply uniformly to each province. Obviously there is a large class of cases in reference to which the provincial legislators have ample power to legislate, and which do not become a part of the criminal law simply because a breach of the law is punishable by fine, penalty or imprisonment. And the question here is whether the present case comes within that class. I do not think that any weight should be attached to the other branch of Mr. Pugsley's argument on this point. If I were driven to draw any inference from the fact that all legislation as to

Sunday profanation had been omitted from the Criminal Code, I should think it a much more reasonable inference that in legislating the whole Criminal Luw of Canada into a code. parliament had dealt with all criminal matters in regard to which it had an exclusive right of legislation. Historically it is known (Burbidge's C. Law, No. 160, note) that the omission was by design. There are wide differences in character between the offence of disturbing religious assemblies for worship or interfering with clergymen in the discharge of their official duties and the offence of buying a cigar, or going to a picnic on a Sunday. Every person has an undoubted right to engage in the public worship of God according to his own particular method, without being discommon to all and in all places. But what may be done on a Sunday without profaning it is a matter of opinent upon a variety of circumstances and conditions—and one upon which well-disposed people hold widely difwhich that term is used in section 91, ferent views. And I am disposed to think that the dominion parliament, in designedly refraining from legislating right of legislation in reference to it on this subject, did so Vecause it was years prior to confederation and up public or affect them all to the same to the enactment of the statutes re- extent or apply to them all in the same lating to the criminal law by the do- degree, but was rather to be regarded minion parliament there was, as a and dealt with as a police regulation, part of the so-called criminal law in local in its character and in its appliforce in this province, cap. 144 of the cation, and which required to be

It vince, which include the whole province, have power to make by-laws cases is the same, the reason for it "for preventing vice, immorality and is the same, and in my opinion the indecency in the streets, highways and power to enact it is the same. other public places and for preventing the profanation of the Sabbath." It is clear, therefore, whether it adds weight to the argument or not, that the legislature of this province, both before confederation and since, has repeatedly recognized Sunday profanation as a matter to be dealt with and controlled by the several municipalities-each in the way which seemed most suitable to its conditions and requirements—and that by-laws made for the purpose were regarded in no other light than mere police or municipal regulations.

> It is true that the act in question relates alike to the whole province, but it is not to my mind less local in its character than by-laws embodying similar provisions would be when enacted by the several municipalities in the province, and in that way including the whole province. This, however, is not a case of a by-law, and is therefore free from many of the questions involved in the case of the City of Toronto v. Virgo (1896) Appeal Cases, 22 S. C. R., 447. In that case the by-law in question prohibited hawkers from carrying on their trade in certain streets in the city of Toronto. It was enacted in pursuance of a provision of the municipal act of Ontario (cap. 184 R. S. of O., 1887), which authorized the city council to pass by-laws "for licensing, regulating and governing hawkers," etc. And it was finally determined that upon a fair construction of the statute such a power did not authorize a by-law prohibitive in its character such as the one in question. The argument was used in all the courts that the by-law was ultra vires, as being in restraint of trade and an interference with trade and commerce. The general power to regulate the trade was not disputed, and various other sections in the statute expressly authorizing prohibitive by-laws were not claimed to be outside of the legislative authority of be prepared against outside attack, the province. Lord Davey says: "No but must be placed in a position to atof restrictions in its exercise both as to the long land frontier and furnish adetime and to a certain extent as to place when such restrictions are in the opinion of the public authority necessary to prevent a nuisance or for the maintenance of order." And in Slattery v. Naylor, 13 apr. 446, Lord Hobhouse says: "It is difficult to see how the council can make efficient by-laws for such objects as preventing fires, preventing and regulating places of amusement, regulating the killing of cattle and sale of butcher's meat, preventing bathing, providing for the general health, not to mention others, unless they have substantial powers of restraining people, both in their freedom of action and in their enjoyment of property."

lation prohibiting the playing of billiards in taverns on Sunday, made under a provincial license act, which, like the one now in force in this provnce, prohibited the sale of liquors on Sunday, Sir Barnes Peacock says: "These seem to be all matters of a merely local nature in the province, and to be similar to, though not identical in all respects with, the powers then belonging to municipal institutions under the previously existing laws passed by the local parliaments. WAR PLANS FOR CANADA.

Imperial Government Fixing Schemes of Attack and Defence - Canal Route for Sending Warships Into the Great Lakes.

(New York Sun Cable.) LONDON, Aug. 12.-By an order of the cabinet issued on the recommendation of the junta, known as the cabinet committee on national defence, the intellmence department of the war office has been engaged for several months investigating the preparedness for war of Canada and the Australasian colonies. The investigation is understood to have been completed so far as the latter are concerned, and a scheme of defence is being prepared which will form the basis upon which the government of the federated colonies will work. The dominant idea of this scheme is the constitution from various military odds and ends in the present colonies of one homogeneous colonial army, recruited voluntarily, but with power reserved of enforcing a modified form of conscription known as the militia ballot. Concurrently Australia will be raised to the rank of a second-class naval station. The Canadian scheme is not as far forward as the Australasian, for the reason that it is much more complex, and because Canada not only has to doubt the regulation and governance tack. Anxious consideration has been of a trade may involve the imposition given the question how best to defend quate protection to the ports. In this matter the war office intelligence department has been co-operating with a small committee of naval experts appointed by the lords of the admiralty. The integral part of the Canadian scheme is the obtaining of safe and easy access for ships of war to the great lakes. Some such route is said to have been found, and the house of commons will be asked at the next session to vote money toward the cost of the works. Their magnitude is so great that Canada could not well be asked to undertake them from her own resources, particularly as the ultimate object is part of the general scheme of Imperial defence and offence. The Canadian scheme further pro-

vides for an increase in the garrisons at Halifax and Esquimalt, the raising of a considerable force of Canadian regular troops if the dominion government's consent can be obtained, of which there is said to be some doubt, and the raising of the North American naval station to first rank, with an effort to tap for the royal navy an unlimited supply of recruits afforded by the fishing population of the dominion and Newfoundland.

MEMRAMCOOK

Educational Institutions Connected With St. Joseph's University.

The Convent of Our Lady of the Sacred Heart - A Staff of Nine Members of the Sacred Heart Sisterhood

MONCTON, Aug. 16.—The traveller along the I. C. R. cannot fail to be favorably impressed with the Memramcook valley, one of the most fertile districts in the province. A great improvement is noticeable from year to in this valley, and progress is undoubtedly being made, but the people have as yet merely entered upon the vast possibilities before them. As a dairying district, Memramcook from its fertile marshes and excellent pasturage should rank among the first in the country, but this industry is as yet in its infancy. The McLaughlan butter and cheese factory, established some years ago, has of late confined its output entirely to butter, for which a ready market is found in Halifax. The work of prospecting for coal at | The manager, Mr. Michaud, says the Central Norton in the ravine back of output is increasing, being larger this Henry Baxter's place, which was be- year than last. In July he sold butter gun about two years ago and discon- to the value of upwards of \$1,000. Another important industry is conducted mer with favorable indications. An by S. L. If such enterprises were backed by the whole people this valley would speedily become one of the richest, as it is now application has been made for the one of the most fertile in all Canada. Memramcook is, however, best known for its educational institutions, which, established in a small way, have grown to large dimensions and are doing an immense amount of good.

The chief of these is of course St.

Joseph's college, with its 200 students

drawn from all parts of Canada, with not a few from the United States. The main college building is of stone, four storeys high. A few years ago, in order to accommodate the growing classes, a large wooden ell was erected. This, beside to a certain extent marring the beauty of the building, has been found to be insufficient for the ever-increasing list of students, 20 and when the classes were dismissed THE BAPTIST SCHOOLS AT WOLFin June work was at once commenced replacing the wooden ell with a stone wing of larger size. The walls of this wing, which is four storeys in height, at Welfville are making preparations 50 the same as the rest of the college, are already up and roofed in, and the interior is well advanced. The front of cerning which announcement is given this wing extends out from the rest of in another part of this paper. the building several feet, the ambition of the college authorities being to larging and strengthening its staff, erect a similar wing at the other end and the number of students last year when it is required, which it is was the largest in the history of the thought will be before many years, a balcony to extend along the front of the old building from wing to wing, thus adding to its architectural appearance, which is already quite imposing even as it may be viewed in the distance from a railway car window. The new wing will give additional class and sleeping rooms, besides affording much more room for the faculty and enlarged dining room. The new wing will be reated by hot water, a separate furnace being supplied by the Robb Engineering comtrain, has been able to be removed to pany of Amherst for this purpose, New hardwood floors are being laid in the dining room and elsewhere throughout the building, and when the college classes resume in September it will be with much better facilities than ever for carrying on their work. The college infirmary is being enlarged by the addition of fifteen rooms, and the whole building is being covered with a slate roof. In con-

of boats for the use of students and faculty. A few hundred yards from the col-

lege, occupying a pleasing location at the foot of the western slope of the Memramcook Valley, is the Convent of Our Lady of the Sacred Heart. This institution is of more recent origin and, like the college, commenced in a small way, in an ordinary dwelling house. It has been enlarged from time to time and is now quite a commanding structure, and the entire staff consists of nine members of the Sacred Heart Sisterhood. Last year the attendance at the convent was very satisfactory and an enlargement seemed to be absolutely necessary. This was avoided, however, by the erection of a district school house, which relieved the convent of the day school and gives more room for its regular work. Last year about 40 boarders were in attendance; now there will be room for 60 or more. The convent is under the management of year in the character of the buildings Sister Mary Ann, a weman of great kindness of heart, but withal firm to control and of marked business tact and untiring energy. Since her election in August, 1893, to the important post which she now holds, the institution has made marked progress and its friends look forward to still greater achievements in the future. Previously, for a number of years, she had taught the first French class, and still continues to do so in addition to her other duties, the beautiful language of Racine, Fenelon and Bossnet having no difficulties for her. Her principal assistants have been Sister Eduard, teacher of 2nd French class; Sister Leo, who has a splendid voice in addition to being skilful in instrumental music, and Sister Eulalia. painting and fancy work, whose work in statuary, etc., is the admiration of

all visitors. This year the staff will be increased by another first class teacher. Sister Redemptor of St. John, latterly of Fredericton, but for six years principal of St. Peter's school in St. John. Sister Redemptor will have the assistance of Sister Bernadine in English literature, in which she excels, and this department of the work is expected to receive a great impetus, typewriting and shorthand being added to the special studies. The convent buildings have been brightened on the exterior by a new coat of paint, while hardwood floors have been laid in many of the interior rooms and other improvements effected, including the repainting and renovating throughout, while the arrangements in the grounds for comfort and recreation are being materially increased.

## THE SEMI-WEEKLY SUN

ST. JOHN, N. B., AUGUST 22, 1900.

TAXATION NO CONSEQUENCE.

The valued Telegraph is replete with misinformation on the subject of federal taxation. This is not surprising, because the organ holds that the matter is not of the slightest consequence. Hear what it says:

At the present time it is futile for the Sun to be figuring up percentages of taxation when the people are prosperous and trade is flourishing. No one in Canada feels the rate of taxation to be oppressive. No one in Canada cares a straw whether the figure of tax ation is \$5.40 a head or \$5.30 a head. The matter is too small to attract any interest.

Unfortunately this is not a question of comparing \$5.30 with \$5.40 per head, The taxation per head in 1895-96 was \$5.48 per head. The taxation per head in 1899-1900 was \$7.26 per head. The increase is \$1.78 per head, or \$8.90 for trifle to Mr. Blair or Mr. Greenshields, but it is a matter of consequence to the average working man. We are told over and over again that the people are prosperous and do not care a straw about taxation. All the same it is possible to find a few families who are doing without some things which they would like to buy and would purchase if the price were lower. There are probably several families in New Brunswick who could use eight or ten dollars more in a year if they had it. Though the Laurier policy of not finding a single new market for Canadian produce is supposed to have made us all rich, there are still men in Canada who have to do business with them all. Under work for their living and to whom the late government the Interyear means the saving from many days of hard labor and frugal-

It is the interest of \$300 in the savings bank. It is money enough to rrovide a winter outfit of boots for the young people in the family. It will buy a shelf full of good books, or give the family a good daily paper, a good and county. The chief argument of the weekly and two or three magazines. A tired member of the household could pay for a pleasant holiday excursion with \$8.90, or that sum might further a charitab' design that is dear to some heart

It will not do for our rulers to run away with the idea that t'e people of Canada are so rich that it makes no difference to them whether they pay five dollars or even dollars per head in taxes. The people of Canada are not all selling railways at a million dollar a profit.

SI' WILFRID'S MUSKET.

A correspondent asks this question: Having heard it stated that Hon. Wilfrid Laurier said on a certain occasion that had he been on the banks of the Saskatchewan at the time of the rebellion in the North-west, he would have shoulders his musket and fought for the rebels I would ask if the premier made that statement or any statement like it. I. so, what were his words and where were they spoken?

The words are quoted from a friendly report of a speech of Sir Wilfrid Laurier at a great mass meeting in Montreal. This meeting was one of several held shortly after the execution of Riel, and was connected with the organization of the National, or Rielite party. The present prime minister was one of the organizers of this party under the late Mr. Mercier.

When parliament met, a few months later, a motion was proposed condemning the government for allowing the execution of Riel. On that occasion Sir Adolphe Caron and other members quoted these words used by Sir Wilfrid at the Champ de Mars meet-

That Louis Riel be placed among the political martyrs of the French Canadian nation-

The organization of this so called National party was a creat political success. It made Mr. Mercler premier of Quebec province. Followed as it was by the alliance of the Rielites with the liberal party in the dominion, it greatly strengthened that party in Quebec and ultimately placed the federal leadership in the hands of Sir Wilfrid Laurier. To that agitation we owe the Quebec conference, the premiership of Sir Wilfrid Laurier, and

the domination of Mr. Tarte. The opportunity which Sir Wilfrid grasped had been rejected by Sir Adolphe Chapleau. He refused to lead an agitation in honor of rebellion. or to make a martyr of a double traitor who was also a cold-blooded murderer, But there was no hesitation on the part of Sir Wilfrid. The statesman who had many misgivings about going to the help of Britain in Africa had each family of five. This may be a none at all about plunging into the Riel agitation.

The St. John Clobe finds great comfort in the statement of the Toronto Globe that the Intercolonial should not be run as an ally to the Grand Trunk. Mr. Ellis would apparently like to be further reassured on that point. No one can fail to see that from the time of the deal with the Grand Trunk and Drummond railways the Intercolonial has simply been an castward extension of the Trunk. General Manager Grand Hays has controlled the traffic arrangements of the government railway for the benefit of his own line.

Verdict 'n the Notorious Kentucky Murder Trial.

Robody Believed the Jury Would Agree in Finding Powers Guilty.

GEORGETOWN, Kentucky, Aug. 8.-"We, the jury, find the defendant guilty, and fix his punishment at confinement in the penitentiary for the

rest of his natural life." This was the wording of the verdict rendered today in the case of ex-Secretary of State Caleb Powers, charged with being an accessory before the fact to the murder of William Goebel. The jury retired at 1.32 p. m., and returned its verdict at 2.25, having been out only 53 minutes. The vote in favor of a life sentence was unanimous. When the jury retired the belief was general that its members would fail to agree, and in this opinion the defendant himself was firmly convinced. When the verdict was returned Pow ers, for the first time during the weary six weeks of the trial, betrayed his feelings. Under all of the trying incidents of the trial he had maintained a changeless expression. The verdict

of guilty, however, apparently staggered him. Powers remained in the court room for some time after the verdict was rendered in conference with his attorneys, who will at once move for a new trial, and, failing in that, will make an appeal.

LEXINGTON, Ky., Aug. 18.-Senator Blackburn stopped here on his way home between trains when he heard of the Powers verdict. On being told of the sentence he exclaimed: Thank God for that. I had expected a hung jury. I believed three men on that jury at least would hang it."

THEY SAW & BALLOON.

Still Another Andree Story Reaches Vancouver from the Far North.

Indians Claim They Saw the Strange Visitant on Mackenzie River.

(Vancouver Colonist, Aug. 11th). The steamer Tees, which arrived resterday morning, brought a belated report of the sighting of a balloonpresumably that of the missing Andree and his companions-near the mouth of the Mackenzie river in the winter of 1898.

The news is given in a letter writen by a miner at Fort Yukon to a friend at Selkirk. The letter was shown to Fred. Harrison of Montreal, who copied it and forwarded its contents to Victoria. The letter said: "I think you were right in what you said about Andree. A short time ago some Indians arrived here from the Mackenzie, and I learned from them that balloon was seen to land near the mouth of that river during the winter before last. Some men landed from it and made a camp. They remained a short time and then got into the car They then threw something out, the natives said, on to the ice, and the palloon rose into the air. It was soon out of sight. The natives were afraid and did not visit the camp. The natives who came here (Fort Yukon) did not see the balloon themselves but were told of its coming by people living to the northward of them. could not find out anything about the men at all."

Mr. Harrison, who is bound truth of the story of the Indians, and f possible learn more. It is considered not at all improb-

able that the Indians may have given out this report in the hope of getting reward, for some months ago notices were sent to all the northern ag posts and freely circulated in the Northwest, from Lynn Canal to the Arctic, in which a reward was offered by the candinavian government for any information of the lost exploring party. In these notices, which will have reached the northern settlements months ago, the balloon is described and pictured, and the offer of money for information made, so that the Indians may be spreading the story of the balloon having been seep

to get the proffered "chicamen," However, whatever there may be in the story received by the Tees, the date of the reported sighting of the expedition-if such it was-is not so recent as the report some time ago sent out by Mr. Alston, son of the late Commander Alston, R. N., who is in charge of the Hudson's Bay post at Fort Churchill, where he has lived for five years and speaks the Eskimo language. He wrote to his uncle, Rear Admiral Campion, who gave the letto the London Times, under date of August 1, 1899, which is six months 'ater than when the balloon is reported to have been seen in the advices just received:

"You will, however, no doubt be greatly surprised to learn the loss of the Andree expedition up north. In the early part of this spring an Eskimo named Old Donald's Son, with some more Eskimos, were trading in the shop. After they had finished they all went out but Old Donald's Son, who wanted to know if the balloon had started, as two white men had been killed up north last summer, and it was supposed they had come from the

balloon "I did not take much heed to the story, but as a matter of duty reported it to Dr. Milne of Fort York. Later on, however, two more Eskimos, Stockby and his brother, came in, and they brought news which leaves very little doubt that the expedition

has come to grief up north. "Stockby's brother, whilst hunting musk oxen last summer, came across a party of four white men shooting at deer. A party of Eskimos who were approaching at the time did not see the deer, and thought the white men were shooting at them. They thereupon drew their bows and arrows and shot two of the whites, killing them on the spot. The other two ran away, pursued by the Eskimos, and it is not known if they escaped or not. Stockby's brother saw the poor fellows lying dead, with arrows through them. One was a middle-aged man, short, broad and stout; the other was a young The elder had on a knickerbocker suit, with striped stockings; the younger had on a cloth suit, and they both had on cheese-cutter or badge caps. The Eskimos wanted Stockby's brother to go back with them, as there was a big round thing up north full of tobacco, clothes, ammunition, etc., but he did not go. He, however, brought in two wolf-skin carpets and a part of the dress worn by Eskimos in the Far North, just to prove that he had been as far as he said. I have reported this to the com-

missioner." This letter was printed last winter in ondon. Then, too, there was a more recent

report from the same locality, telling of a tragedy in which the expedition ended. The details were published about a month ago in these columns. A party, it was said, had been sent to verify that report, and this party has not reported up to date.

SIXTEEN TO ONE. (Manitoba Free Press.) The following explanation of the meaning

(Manitoda Free Frees.)

The following explanation of the meaning of 16 to 1 is given in view of the re-affirming of the heresy by the Democratic National Convention at Kansas: A gold dollar weighs 25.8 grains, of which 23.22 grains are pure gold, the remainder being alloy. A silver dollar weighs 412.5 grains, of which 9-10, or 571.25 grains are pure silver, the remainder being alloy. Thus the pure silver in a silver dollar weighs about sixteen times as much as the pure gold in a gold dollar, and this is the meaning of "16 to 1." The proposal to adopt the free coinage of silver at a ratio of 16 to 1 is a proposal that any owner of silver buillion shall be authorized by law to take it to a United States mint and have coined and returned to him one dollar for each 371.25 grains of silver, this dollar being the legal tender for payment of all debts, public or private. The silver in such a dollar (and the dollar itself under free coinage) would be worth, at the present price of silver, not far from fifty cents in gold.

All wires being closed, it is not possible to learn anything of the intensity of the disturbance, only the erratic behaviour of the instruments indicate the presence of heavy lightning.

IMPROVED P. E. I. HOGS.

(Charlottetown Guardian.) That the farmer's of Prince Edward sland are beginning to realize the importance of having an improved breed of hog is fully exemplified by extracts taken from a letter written by J. W. Callbeck of the Brookside farm. He says that his farm has had a most successful season's trade. In fact he could not supply the demand for stock hogs. Every pig shipped reached its destination in safety and in a condition that has given good satisfaction to the purchaser. Orders have been received in the United States as far as Suffolk, Virginia. The consignment sent there has given good satisfaction. The purchaser twenty hogs ne lost all with cholera except the two Yorkshires received from P. E. Island. Another consignment will be sent to the same gentleman as soon as the weather gets a little cooler.

ANOTHER ST. JOHN HERO RE-TURNS.

Ambrose Pelkey of G Co., first Canadian contingent, arrived in the city yesterday by the Quebec express, and was warmly greeted by his old friends, particularly so by his comrades of the St. John Fusiliers. He was wounded in the right arm at Cronje's Laagar, February 27th, and two of his fingers are still useless, as a result of the shot. Otherwise Pelkey is in good condition. He says he was well treated in hospital. Pelkey was one of the first of the Canadians to volunteer for active service.

INHERITING MONEY.

The best thing that can happen to a young man is for him to realize, at the very outset of his career, that whatever real success he is to achieve must come from his own exertions. Whenever a young man begins life by depending on the favor or indulgence of friends, or upon an inheritance of money that some one else has earned he might as well make up his mind that failure is to be graven upon the headstone that marks his life career. We do not believe any young man can do a more prudent or sensible thing than to get a business and shorthand education. The work done at the Currie Business University of this city comprises the very cream of practical and useful education, such an education as every youth should have who expects to become a useful and industrious citizen.

THE DEANERY OF KINGSTON.

The quarterly meeting of this deanery was held at Springfield on Wednesday and Thursday, August 8th and 9th. Eight clergy (including the Rev. T. R. DeW. Cowie), were present

throughout the entire session. On the matters of business that came before the meeting, two, at least, were of general interest. The programme for the annual meeting of the Kingston Deanery Sunday Teachers' Union (to be held at Sussex on Thursday, August 23rd), was laid on the table. It includes papers or addresses by Very Rev. Dean Partridge; Rev. J. A. Richardson, rector

T. R. DeW. Cowie, the newly appointed organizing secretary for D. M. F. The next annual meeting of Kingston Deanery Choral Union was also appointed to be held at Rothesay on

of Trinity church, St. John, and Rev.

Wednesday, Jan. 30th, 1901. When the business had been cluded, the Rev. T. R. DeW. Cowie spoke at some length concerning his work as organizing secretary of the diocese. After consideration a committee of the deanery was appointed to arrang, for a visitation of each parish in the deanery by the secretary. At each centre it is proposed to organize a meeting, when the secretary will have an opportunity of speaking to the people of the state of the work

in the diocese. The remainder of the session was spent in the reading of papers and discussions thereon. The rural dean and Rev. C. D. Schofield read papers on "Eternal Punishment." The chapter addressed itself to the subject with the seriousness the topic demanded, and a lengthy discussion ensued, in which everyone took part. It was felt that the subject should re-

ceive more notice from the pulpit than is customary in these days. The Rev. A. T. Cresswell read a paper dealing with the matters treated of in the second portion of "Pastor Pastorum." The members of the deanery still continue their interest in

reading this work in common. Public services were held in Trinity church, Springfield, on Wednesday evening, when Rev. H. I. Lynds was the preacher; and on Thursday morning, when the rural dean was celebrant at the service of the Holy Com-

# HALIFAX, N. S., Aug. 16.— The Allan steamer Carthagiaian collided with the steamer Grecian of the same line tonight in the outer harbor. The Carthaginian was bound inward from Liverpool, and the Grecian was outward bound for Philadelphia. The latter cleared several days ago for that port, but was delayed sailing. Her stay in Halifax is still further prolonged by tonight's accident, as the captain concluded to wait till morning for a diver's investigation. The Grecian is anchored in the stream. Her injuries, it is feated, are serious, although both ships were moving slowly when they struck. The Carthaginian proceeded to her dock after the collision, uninjured. The accident was due to thick weather.

CORNWALLIS, N. S., Aug. 17.-Rev. William Bogg,s president of the Theological seminary, Ramapatam, India, has purchased the residence of Fred Woodworth at Wolfville.

resident of Berwick, died on Sunday. A few days previous to her death her infant son also died.

DIGBY, Aug. 17.-A gentleman by the name of Johnson, from Williamattick, Mass., who was going through yesterday with a party of friends, was taken suddenly ill. He was taken to the Dufferin and two doctors at once called. They pronounced his malady apoplexy, and grave fears are entertained for his life. He is a manufacturer of thread in Massachusetts. His wife, daughter and some friends are with him here.

A strange vessel was reported to be purse seining for fish in St. Mary's bay. Information as to her movements has been sent to Halifax. There is a suspicion that it is an American vessel, but her name has not yet been found out.

SYDNEY, N. S., Aug. 17 .- A large assemblage gathered tonight to welcome Premier Laurier to the Pittsburg of Nova Scotia. The building was decorated with bunting and mottoes were placed in conspicuous positions. As Sir Wilfrid entered the building the crowd cheered. Mayor Crowe presented the premier to the audience and read an address in which pleasure was expressed at the premier's visit, and recalling a similar pleasure many years ago when Sir John Macdonald visited Sydney. Reference was made to the changed concitions of Sydney since the inauguration of the Dominion Iron and Steel works. In his reply, the premier thanked the citizens for their welcome, on behalf of himself and Lady

and said that the fact of which he mend removed to St. John and lived was most proud was that he was first, here ever since. He served a regular last, and always a Canadian. He indentured apprenticeship to the eulogized the position of Sydney as a site for manufacturing, and expected in business for himself. WOLFVILLE, N. S., Aug. 18.-A pretty wedding took place in the Presbyterian church at Hantsport on Thursday, when Miss Jessie Chisholm, daughter of Donald Chisholm, a leading citizen of Hansport, was united in marriage to Murray McNealy, principal of Springhill High School, by the Rev. W. A. Mason. At the close of the ceremony the Rev. Mr. Mason presented Mr. and Mrs. McNealy with a handsome Bible in token of the fact that they were the first to be mar-

ried in the new church. Rev. Alfred Halkner, D. D., prolessor of historical theology at Drew Theological College, Newark, N. J., is visiting his old home at Grand Pre. Mrs. Thompson, wife of John Thompson of the People's Bank, has gone to England to visit her sister. Chipman, Acadia, '92, of New York, is visiting his home at Wolfville. Mrs. H. B. Flemming of Moncton, who has been visiting her father, Frederick Johnson, has returned to her home. Mrs. Pineo, wife of Prof. A. J. Pineo, principal of the high school, Victoria, B. C., and president of the new Pacific Baptist College, is visiting old friends in Kings Co.

The 14th annual Maritime Railroad Young Men's Christian Association convention will be held at Kentville on August 30th.

The big ship of J. D. Everett, Capt. Crossley, arrived in Minas Basin this week from Liverpool. She will load deals for England at Horton Bluff. T. D. Chambers, one of Wolfville's prominent business men, who has been ill for some time with rheumatism, has gone for a trip to Pictou and P. E. Island in hopes that the change may be of benefit.

Fred W. Kinsman, youngest son of Lee Kinsman of Cornwallis, died suddenly recently at Buffalo, New York. Mrs. Chipman Parker, wife of the secretary of the Fruit Growers' Association, died suddenly at her home in Berwick on Wednesday. She was a Miss Illsley of Berwick.

HALIFAX, N. S., Aug. 19.-Sir Wilfrid and Lady Laurier arrived from Sydney shortly after one o'clock Sunday morning. A delegation consisting of Mayor Hamilton, Chairman Rogers, Secretary Pickering and Alderman Macilreith, representing the gardens' commission, were there with carriages to escort the premier and party to the hotel. Sir Wilfrid and Lady Laurier attended mass in St. Mary's Cathedral at 11 o'clock. They were entertained at dinner at the residence of B. Russell, M. P. Sir Wilfrid will address a gathering at the public gardens on Monday night, and afterwards will

hold a reception there. James Carr, an ex-soldier, 65 years ency following excessive drinking, attempted suicide today. He fired three shots into his head through his mouth. He may recover, though the bullets passed clear through his head, coming out at the back, below the brain. WOLFVILLE, N. S., Aug. 20.-Miss

A memorial service for the late Mrs. Tufts was held by the Wolfville W. C. T. U. on Sunday afternoon. Appropriate papers were read on Her Educational and Intellectual Life by Mrs (Dr.) Trotter; on Her Home Life by Mrs. A. E. Coldwell, and on Her Work in Connection with the Union by Mrs. R. V. Jones. Mrs. Joseph Kempton spoke of the loss the union had sustained during the year by the death of Mrs. James Morse, Mrs. J. E. Forsyth and Mrs. D. O. Parker, Mrs. J. B. Hemeon closed by a few earnest words on the passing away of Mrs. Tufts.

#### RECENT DEATHS.

The death of Mrs. John Fennell of

Boston was heard with surprise and

regret. Although Mrs. Fennell had

not been in good health for some months, serious consequences were not apprehended. A few days ago, however, while on a visit to St. John, congestion of the brain set in, and death followed on Thursday afternoon. Mrs. Fennell was a daughter of the late P. D. Quinn, a prominent St. John business man in his day. Her husband and one sister survive her. Charles Edward Raymond, whos death took place on Thursday, was the son of a Loyalist who settled in Laurier. He remarked the absence of Kings county, and the son was born party spirit shown in his reception, December 29, 1807. In 1834, Mr. Raytrade of carpenter, and soon started The premier made an appro- ected by him under faithfully carried From 1864 to 1867 he sat at the civic board as councillor for Dukes ward. He was a very active fireman in the days of the volunteer department, and for a long time was captain of the hook and ladder company. For some years he was a Trinity church vestryman. He was also an active member of the Masonic fraternity, in which he was initiated in September, 1838, until declining years compelled his retirement. He had presided over his lodge, over the old Carleton Mark lodge, now extinct, over Carleton Royal Arch Chapter, was a charter member of Corinthian R. A. Charter, established at Hampton in 1859, and a charter member and first Mareschal of the Encampment of St. John, K. T. Mr. Raymond was an enterprising and an honorable citizen. The deceased, who was a most popular lady, was formerly a Miss Bethuson of Carleton. An infant child survives.

William Roxborough of the customs parcel post system died very suddenly Monday morning at his home in Carleton. On Sunday evening Mr. Roxborough attended divine service, and when he retired was in his usual good health. About 1 o'clock he aroused his wife and complained of feeling unwell. Restoratives were applied, and for a time he seemed better, but in an hour or so had another ill turn and died before medical help arrived. Mr. Roxborough was born on Aug. 1, 1842, and was therefore just a little over 58 years of age. He resided for some years at South Bay and was the storekeeper at the Sutton mills. In 1890 Mr. Roxborough was appointed a tide waiter in the customs and shortly after moved into Carleton, purchasing a house on Guilford street, in which he resided. His wife, who with two sons and two daughters survive, was a sister of Mrs. Edward Sutton of South Bay, and of Mrs. Jas. G. Ellis of Brockville, Ont. formerly of Fairville. His eldest daughter is the wife of W. O. Dunham of Carleton. Mr. Roxborough was a prominof age, while in a state of despondorder. He was also for some years identified with the artillery, and was a second lieutenant in old No. 9, afterwards No. 5 battery, at Fairville. His death caused deep sorrow among hundreds of friends who found in him the sterling qualities which make a good

BIRTHDAY PARTY AT SHEDIAC.

A Shediac correspondent sends the Sackvill Post the following: The other evening the guests at the Welden house got up a party in honor of Miss Lulu Weldon, whose birthday falls upon that date. The hotel par lors were tastefully decorated for the occasion with ferns, flowers, etc. Early in the evening Miss Weldon, who had been kept in profound ignorance of what was going on, was called in, when Dr. Jas. White, on behalf of the guests of the house, presented her with a beautiful silver hand mirror, accompanied by a box of hancker chiefs. Dr. White made the presen tation in a very neat and well worded

The guests then settled down to progressive whist. The gentleman's first prize was captured by V. Fieux of New York, while Mrs. P. S. MAUGERVILLE, Sunbury Co., Aug. 15.—Herbert, third son of George Ladds, aged 16 years, has been missing since Sunday, which is causing much anxiety to his friends. He left home about 10 o'clock, and nothing definite has been ascertained of him since. It is supposed by some that he went to the river, which is about 100 rods from the house, and while attempting to walk on the logs in the boom fell off and was drowned.

Notwithstanding the unfavorable veather on Tuesday night, the temperance hall was well filled to hear A. W. Baird's address on How to Spend Our Leisure Hours. Miss Mamie Harrison presided at the organ and Miss Gertie Stephenson, who is visiting friends here, assisted in the choruses. A very enjoyable evening was spent, and \$16 was realized in aid of the Baptist church funds.

The 11th inst. was the warmest day for five or six years. The island has had the most protracted drought for a number of years. It led up to many forest fires in different parts of the island, one in particular threatening the village of Grand Harbour. Probably thousands of cords of wood and much valuable timber have been destroyed. A fire on White Head Island threatened to destroy all the wooded land on that island. (Julius LeGendre Inches was born in Dunkild, Perthshire, Scotland, in 1824, Records which have unfortunately been lost contained the family genealogy for 250 years, and revealed the fact that the Inches are a branch of the Robertson family of Scotland. The origin of the family name Inches is omewhat in doubt, but it is generally believed by its members that, as their ancestors lived upon the river Tay and inhabited the intervals in narrow stretches of alluvial soil along its banks, called in Scotland "inches," the name was derived from that peculiar local idiom. On his mother's side Mr. Inches was a descendant of the Smalls, who were large landed proprietors. He derived his middle name from A. LeGendre, an officer of Napoleon's army who, while a prisoner in Scotland, fell in love with his paternal aunt and married her. Mr. Inches' father was a business man of Perthshire, who emigrated with his family in 1834 and settled in St. John. He engaged in commerce, but died soon after his arrival, a comparatively young man. Julius L. Inches came to New Brans

wick with his parents at the age of 10 years, and when old enough he sucseeded to the business established by his eldest brother, and conducted it until the loss of a leg and failing health compelled him to retire. After relinquishing commerce he curned his attention to agriculture, which was always an attractive employment to nim. Subsequently, being tendered the office of secretary of agriculture, then newly established, Mr. Inches accepted it and filled the position with marked ability until October, 1, 1890. when he retired. His name will be indisolubly connected with a long series of provincial exhibitions. success of which was almost wholly due to his master-mind. The deceased married a daughter of Thomas C. Everett of St. John, and last December Mr. and Mrs. Inches celebrated their golden wedding. One brother, Andrew Small Inches, for twenty years provincial secretary of crown lands, died at Fredericton 1st March, 1897. His only surviving brother is P. R. Inches, M. D., of St. John. Deceased was many years a member and chairman of the Fredericton board of school trustees, and was the first secretary of the board under the public school act, also for years American consular agent at that port, and for 35 years an active member of St. Andrews Society, of which he was president for years. The Result of the Annual Rifle Matches.

WOODSTOCK, N. B., Aug. 16 .- The annual rifle matches took place at the range here on Tuesday and yesterday. The weather was most unfavorable, rain and wind interfering with good scoring, but the attendance was unusually good considering the weather. In the association match the Irvine cup was won by Charles Peabody of Woodstock. He and Capt. Pullen of Centreville were ties (90). They fired three shots each at 600 yards and still were tie. Each fired one more shot. and Peabody won. The scores in the competitions were as follows:

THE BRAVEST OF THE BRAVE. By Joaquin Miller.

"Europe was never so entirely and terribly armed. Woe to him who sets fire to Europe row."—Moltke. And who the bravest of the brave

Twas he who dared a felon's grave,
Who dared to bear the scorn of scorn.
Nay, more than this: when sword was draw.
And vengeance waited but His word, He looked with pitying eyes upon
The scene and said ''Put up thy sword
Could but one king be found today
As brave to do, as brave to say?

Ye Christian kings, in Christ's dear name I charge you live no more this life; Put up thy sword." The time they came To bind and lead Him forth to die ehold this was His last command ! Yet ye dare cry to Christ in prayer With red and reeking sword in hand Ye dare do this as devils dare Ye liars, liars, great and small Ye cowards, cowards, cowards all

God, but for one gallant czar, One valiant king, one fearless queen Yes, there would be an end of war If but one could be heard or seen
To follow Christ; to bravely cry,
"Put up thy sword; put up thy sword,
And let us dare to live and die As did command our valiant Lord: With sword commanded to its sheath, 'he blessed olive boughs beneath.'

Extract from a private letter: thought I saw brought out in an English paper recently impressed me very much. It was this: that war was largely responsib for the more menial position of women in European countries than that which they enjoy in our own land. The terrible stand-ing armies frain the country so of stalwart nanhood, labor is deprived of just so much physical force, and the loss has to be made up largely by the performance of hard manual labor by women. The boast of America has always been the immunity of its women from the hardships of the old world. If increasing the army means placing greater burdens on womanhood, it be-hooves our women to look to it that their influence makes for peace."

Suggested programme upon peace and suggested programme upon peace and arbitration: Singing, The Angel of Peace, from White Ribbon Hymnal; Bible reading on Peace; recitation, The Bravest of the Brave, Joaquin Millar; prepared paper upon The Principals of Peace and Arbitration; reading from Peace and Arbitration; reading from Peace literature; recitation, Disarmament, or Put up Thy Sword, J. C. Whittler; short address by a Peace lover, or extracts from sermon or writings; poem, The Message of Peace, by Julia Ward Howe; singing, God Save the Queen.

Many years ago the late Rev. Thos. Beecher published this article on the absent wife, which has recently appeared in the Boston Transcript and may be read with interest by some who never fail to peruse the temperance column in the Daily Sun:

"SHE." A man works all day, and draws pay

for his day's work. This pay allures him, as oats a horse homeward bound. Thus men work by terms and jobsand, although the work is endless as to quantity, yet when cut up thus into terms and jobs, we men go heartily on our journey and count the milestones. "She" washes for the family, and the family makes haste to send back the same garments to be washed again. "She" puts the room in order, and we get it ready to be "rid up" again. The same socks, the same washing, the same room every time. She has no successive jobs, no terms, no pay day, no tallystick of life. She washes the same dish three hundred and sixty-fiveyes, three times three hundred and sixty-five times every year. No wonder she breaks it and is glad of it! What a relief to say, "I've done that

Says War is Over Save in Remote Corners.

His Latest Work - Brought About the Surrender of 300 Men.

How It was Managed - Has Now Asked Leave to be Allowed to Come Home — Has No Enemies in Africa

The most recent letter received in Lindsay, Ont., from Col. Sam Hughes was addressed to Capt. Williamson of that town. It reads as follows:

Well, the show is over! With Capt. Mackie and seventeen men I have just concluded the surrender of Gen. de Villiers and all his corps of about 300 men and fifteen great ten-team oxwagons, nine carts, tons of ammunition and thousands of animals. The terms are signed. Thus the war is over, except in remote corners of the Transvaal and Orange River Colony. After our advance from Griquatown to Reitfontein and Papkine, the work has been sharp. At Griquatown I arranged that the wives, daughters and sweethearts of leaders and others of the enemy should write them urging peace and giving facts re Pretoria, etc. At Papkine Gen. Sir C. Warren sent me on free-handed to Daniels' Kine. Well, in three and a half hours my force-Warren's Scouts and Intelligence Corps-with Capt. Mackie of Pembroke, covered the distance, 22 miles, and had the wire in operation an hour later. Thence I got instructions to proceed onward on a reconnaissance, again free-handed. That is how I like to go. Then a fellow is on his own responsibility, and feels it so: accordingly he takes far more precautions than if tied up by orders and cau-

At Daniels' Kine the enemy got out so hurriedly that they left their Union Republican flag flying. I now have it, as well as the Transvaal one I captured at Griquatown. I wired for seventeen days' rations in addition to four I already had, and on Saturday morning, in a terrible storm of rain, sleet and hail, began my march of my were supposed to be. I had neither blanket nor overcoat-only my light cape, my boots. These soon filling and the water getting warm, I was quite com-

SAM PRAISES MACKIE. Capt. Mackie stood it like a hero.

You may not remember him-as the ong, slim 6 feet 4 in. adjutant of the There is no better fellow than Mackie. I have had him under me, and with me, day and night, for six has been right up with me, and as he says himself feels all right so long as am around. The feeling he says is that if I am on deck the Boers and not we must do the dodging. Well, through the rain, sleet and hail for 40 niles like heroes. It was a better test of manly qualities than a battle. At he home of a lovalist. Mr. Roux, at Mount Carmel, whose wife was formerly a Miss Fraser, a Scotch lassie, we were treated as not one of us will ever forget. That family did all they ould to make our rest pleasant and cheering. Often afterwards would the ninds of the whole party revert to Mrs. Roux and her family, and many blessing has rested on their home

om the hearts of the boys. I induced Mr. Roux, a British field cornet, to accompany us with his cart. My plan was for him to go on Kuruman and get Rev. Tom Brown, another splendid fellow, an Anglican clergyman there, to go with him o the Boer camp and assist in geting them to surrender. These two gentlemen are deserving of special hanks for their valuable services, for though I had all arranged before they got to the Boers yet they helped materially to keep all smooth on the four days' trip back.

I last night met three of the Boer leaders, having sent on a native with a summons for their surrender. The terms are all signed and sealedeverything to be surrendered unconditionally; citizens of the former Orange Free State. now Orange River Colony, or of the Transvaal, are to proceed to their homes, provided the district whence each comes is free of the enemy and is occupied by British troops. I also made special mention of a couple of rellows who claim to be merely trekking and not fighters, but they must be meantime treated as prisoners and prove their case at their district towns. I have not heard Kine, and I am now 75 miles north of

LIKE VOTERS IN NORTH VIC-TORIA.

BLIKFONTEIN, June-It would have done your heart good to have been with Mackie and me for the last three or four days. The Boers came in two and two to surrender. Well, just put 240 men on horseback, many leading spare horses, and behind strung out fifteen covered wagons, each drawn by from 14 to 20 oxen, besides nine carts, nearly all four or six in hands, with thousands of sheep, cattle, etc., bringing up the rear, and you have a view of our procession. I had hoped the main column would have caught up to us in time for the old veteran, Gen. Warren, to be present at the surrender, but we had moved too rapidly for any column to keep pace with us. I had twice daily sent back reports to the general, and wondered why none came in reply. The first night I had those prisoners, the 20th, a runner reached their camp with the yarn re the capture of our fellows below Kroonstad, in the Orange River Colony, and with the further yarn that Lord Roberts was cut off, etc. My spies among them soon let me know what was going on, so I prepared for the emergency I saw approaching. The chief landrost came to me and suggested backing out of the agreement. I at once agreed, said our column would never forgive me for taking their surrender, suggested that their force retire to the position occupied by them the previous day, while we would advance to where we had also been, and two days later we would make their wives widows.

I also circulated a counter yarn as if I had got it from the general, admitting the Boer success between Bloemfontein and Pretoria, but that the following day our main force had captured the whole Boer outfit, upon hearing of which Kruger had asked to surrender, etc. I had not heard a word, but I was not going to be caught by them at their own game, and you see how near I was to telling a straight story. Was it mind-reading? At all events I last night landed my column of nearly three hundred here. Besides Mackie and myself we had only seventeen men. I did not let the Boers know it until our arrival here, but assured them I was not going to humiliate them by bringing the whole force up to march them back, that I would treat them on their

with the rifles piled on, etc. Really, Jack, they are a rather fine lot, and in our four days' march back I learned to like many of them. Of course. I never allowed anything to stand in the way of duty, but while I in his hand as I would a dog, yet once in my power as prisoners, I John Dolby, St. Andrews. would, and did, use them like gentlemen. He said he was moving from Daniel's Kine to Blikfontein. Thus I had been 75 miles in advance. I at once sent Capt. Mackie on towards Koening with the Boers, while I crossed counpoor Mackie and all the rest came try southeasterly to this place. That night I rode to Koening, covering 57 miles in the saddle. Turpin was with

ASKED TO BE RELIEVED.

Yesterday we came from Koening here, and I can assure you the camp opened their eyes. The Canadian Artillery boys are all delighted at my success, and, indeed, I do not think I have an enemy or jealous officer, baring one or two, in the entire force. I have officially asked the general

to relieve me from duty, for the show is over and I want to get back to Canada. I hope to leave here in a day or two. Phillips and Turpin have been at my back through everything. They are fine fighters and good boys. There is a rumor here that all the regiment is in Cape Town and will sail in a few days. That makes the two lads wild to get back, and now that there is not one soldier in arms in the west or northwest of the Transvaal, Orange River Colony or northwest provinces, my mind reverts also Canada-wards. I forgot to say Gen. de Villiers at the last moment backed out from surrendering and escaped At Koening that night we all slept in after the agreement was signed from

## BIG STORM IN MANITOBA.

WINNIPEG. Aug. 18.—One of the worst hail storms ever experienced in Manitoba swept over Rosser municipality today. The storm was accompanied by blinding flashes of lightning, and the wind blew at a terrific rate, unroofing buildings, tearing up trees and destroying hundreds of acres of ripe wheat. The hall stores were as large as birds' eggs, and all glass on sides of buildings exposed to the storm were demolished.

SECOND ACCIDENT

In Connection With Exposition Casts Gloom Over Paris

Thirty Persons Precipitated from a Bridge-Most of the Victims Were Women

PARIS, Aug. 19.-A second serious accident has happened at the exposi- thronged the wharf and its approaches tion. It occurred, unlike the first, and all the streets through which the when many were killed or injured, men were marched on their way up through the falling of a foot bridge near the celestial globe, amidst a scene of rejoicing. The first was on an ordinary Sunday afternoon. The latest was upon the occasion of the most successful fete given, casting a deep gloom over the city. It had been decided to give a night fete befitting the day when the prizes were distributed, and consequently all the buildings were brilliantly illuminated by electricity, the luminous fountains were playing, and the Seine was alive with hundreds of boats lit by Chinese lanterns. All the Paris exposition, therefore, was crowded, including the bridges joining one part with the other, and it was on one of the wooden constructions, that joining the Invalides to the Italian pavilion, that the accident happened. It was rumored at first that the bridge had fallen, but it was found that this was not absolutely correct, as only the handrail on one side had given way under the following circumstances:

Just before 11 o'clock, some one passing over from the direction of the Champ de Mars, shouted "It cracks," and although there was no justification for the cry, it was repeated by the crowd, causing a terrible crush and panic. At a certain point on the Invalides site the bridge curves around somewhat, and it was hear that the ten to fifteen yards. Through the pressure of the crowd thirty persons were precipitated from the bridge to the roadway, three yards below. Two of these are not expected to live. One of those believed to be mortally hurt was injured internally and the other sustained a fracture of the skull. The injuries of the others consists of wounds upon the head and face, broken arms and ribs and internal lesions. Most of the victims were women. The minister of commerce, M. Millerant, visited the scene and President Loubet sent Gen. Grubois to represent him. Another version is that the shout which started the panic was uttered by a small boy.

LATER-The two persons reported to be fatally injured have since died.

LIEUT. KAYE ON DUTY AGAIN. In a letter dated Bloemfontein, Orange River Colony, July 7, Frederick W. Hamilton, special correspondent of the Toronto Globe, writes

Lieut. Mason and Lieut. Kaye, having escaped from hospital at the Cape, passed through Bloemfontein today en route for the front. Lieut. Kaye, who was severely tried by the strain of the hard work around Thaba N'Chu, 's now fit again. Lieut. Mason, who has suffered much from the wound he got at Paardeberg, has had a very slow recovery, but is much better now. His lung was pierced by the bullet, and, while he has done a great deal of work in an administrative post at Cape Town, he has had a great deal of trouble.

An armed mob, numbering 50 men, forcibly entered the jail at Doe Run Friday night, and taking out Bill Cater, a negro, who had confessed to criminally assaulting a white woman, riddled him with bullets.

HEROES RETURN.

Canadian Soldiers Welcomed Home from South Africa.

Most of Them Are from the West-Enthusiastic Greetings at Quebec and Ottawa.

QUEREC, Aug. 18.—Several Canadians from South Africa arrived on the steamer Parisian this morning. Most of the returned men are from the west. They include Lieut. Col-Cartwright, who came out among the cabin passengers, and the following men, who travelled intermediate: Private S. Ward, C company, R. C. R., formerly of Q. O. R., Toronto; Private McLaughlin, C company; Private Finch, B company, London; Private Pelkey, G company, St. John, formerly of the 62nd Fusiliers; Private John McConnell, D company, Ottawa, formerly of G. G. F. G.; Private Corby, B company, London; Private Clarke, D company, Otta va; Private Macaulev. Ottawa, formerly of the 43rd Battalion; Trooper Watson of Kitchener's Horse, who had been from Maple Creek, Assinib ia, and went out and enlisted on his own hook; Trooper Mc-Lean of the British South African police squadron, who was with Col. Plumer's column, and who also hails from Assiniboia.

Immediately upon the arrival of the Parisian the ten invalided soldiers were transferred to the steamer Polaris and conveyed to the wharf on the Quebec side. Thousands of peop town. In the absence of Mayor Parent, Pro-Mayor Tanguay headed the citizens' committee that presented the formal welcome, and read a brief address of congratulation amid the plaudits of the crowd. There was a generous display of bunting, and the R. C. A. from the citadel, with the state band, and the R. C. R. I. stationed here, were both present to escort the heroes to their temporary quarters. There was plenty of enthusiasm and many flags displayed on the line of march to the barracks of the R. C. R. I. at the head of the esplanade, for the men were saved the tedious march to the citadel by being housed at these barracks for breakfast, where they were paid off this morning, after which they were at lib-

erty to return to their homes. OTTAWA, Aug. 19.-Three Ottawa members of the first contingent, invalided home from South Africa, arrived this afternoon, and were given a cordial reception. Among the prominent officers at the station was General O'Grady-Haley. The men are Privates Clarke and Macaulay, 43rd Rifles, and Private McConnell, Governor General's Foot Guards. All were at Paardeburg. Clarke was wounded four times, being shot through both knees and the left thigh, and receiving a scalp wound while raising himhandrail gave way for a distance of self to warn injured comrades to lie low till help came.

FORSHAY-CHAPMAN.

A quiet event took place Thursday evening at the residence of John Colwell, 106 Victoria street, north end, when Miss Alma G. Chapman, daughter of Charles Chapman of Chipman, Queens Co., and J. Wilbert Forshay were united in marriage by Rev. David Long. The bride was becomingly attired in a travelling suit of blue, with steel trimmings. The ceremony was performed in the presence only of intimate friends of the contracting parties. Mr. and Mrs. Forshay will make their future home

TOWN. The Sun's St. Stephen correspondent writes: While driving at Militown on the 16th, Miss Mary McCaw, Mrs. Finkill and Miss Bessie McCullough were thrown from their warriage by the horse becoming frightened by a car. Miss McCullough had an arm broken in two places, and Miss Mc-Caw was cut and bruised quite badly. Mrs. Finkill escaped serious injury.

## SIR CHARLES TUPPER

Returns to Canada in Splendid Health and Fighting Trim.

Believes the Government Intends to Have the Elections in October—The Opposition Leader's Movements.

MONTREAL, Aug. 19.-Sir Charles Tupper arrived here this morning on the Parisian. The conservative leader will remain in Montreal until Tuesday, when he will leave for Amherst, N. S., to attend a convention on the 24th, which will choose a candidate for Cumberland. He will deliver a patriotic address at Halifax on the 28th in aid of a memorial to the Nova Scotians who have fallen in the South African war. He will then proceed to Sydney, C. B., and after visiting his own constituency, will proceed to Westville, Pictou Co., N. S., where he will deliver an address with Mr. Foster, on Sep-

tember 3rd. Sir Charles may also pay a visit to New Brunswick before returning east. Towards the middle of September he will commence a political tour in Ontario in company with Hugh John

Macdonald. Sir Charles is convinced that the government intends to have the elections in October. The conservative party, he says, is quite prepared and will sweep the country. Sir Charles returns in splendid health

and eager for the political struggle. ENTHUSIASTICALLY ENDORSED.

Very Uncertain — Finally Sent to the Collieries at Springs -After Rolling Stock.

Contradictory Orders - A Day of Rest-The Great Change Wrought

THE SPRINGS COLLIERIES, Transvaal, June 15 .- (In Camp with the Royal Canadian Regiment.)-A green young plantation on a bit of rising ground to the west, three or four very black coal dumps to the east, a scattering village between the two, and a remarkably fine railway station, terminating a spur line to Johannesburg; there you have The Springs, an important source of the coal supply of Johannesburg, and the present station of the Royal Canadian Regiment.

this is a larger, prettier, more important station, and a smaller, more seasoned, infinitely more contented regiment. At Belmont all was unrest and anxiety, a feverish longing to see something of the campaign, hot rebellion at the fate which left us in the dismal triangle of which the points were the station house, Scott's Ridge and the Kaffir kops. Here the regi-ment, with a sigh of contentment, nestles down upon its bivouac between station house and plantation, thinks of its 700 mile march, and devoutly hopes that it will move no more until the order comes to entrain for Cape Town. By long odds this is the best of our camps. The ground is good fuel lies in black heaps at our elbows, water is good if you go to the right well, and comfortable quarters can be got by those who may leave the A commando of Boers, Dirksen's famous Boksburg men, lies a few miles away; it is of conjectural strength, for it is disintegrating daily. and is supplied with artillery of entirely conjectural force, but we are supremely indifferent. We are pastmasters now in letting the morrow care for the things of the morrow For today we have a good camp and

comparative rest. BEAUTIFUL UNCERTAINTY. Beautiful uncertainty reigned over our advent here. At 2 p. m. on Tuesday, June 12, Col. Otter marched off his little column, five companies of the Royal Canadians, A, B, C, F, and G, with the two Maxims About the fighting strength. Half a dozen miles in a drizzling rain brought us to Boksburg, a biggish suburb of Johannesburg. Gold mines are here, and also collieries; the place marks the point where the precious metal ends and the useful mineral begins. The rain cleared away as camp was pitched close to where a coal mine has been burning inextinguishably for several

Twelve miles of a march faced the regiment on Wednesday morning. The force was now augmented by some 50 or 60 mounted infantry, chiefly of Lord Loch's Horse. The column moved with due precaution, the mounted men being thrown out well in advance, for nothing precise was known as to what the Boksburg commando might be doing or intending to do. This is a rather well known organization, and Commandant Dirksen is rated by the Boers as a good man. The commando played its part in Natal and came back to Transvaal soil quite recently. It shared in the pattle at Six Mile Spruit, outside Pretoria, and the story runs that Dirksen was so disgusted with the spiritless defence there made that he seceded from the main force, with what object does not as yet appear. Perhaps his example was contagious, for some of his men, learning that the British were in occupation of

MAIN OBJECT OF EXPEDITION. The main object of this expedition had been to seize certain rolling stock known to be at The Springs and badly wanted by Col. Girouard. A good haul was made. Capt. Rogers, who is acting paymaster, and who accompanied the expedition, was sent on from Boksburg on a trolley with a couple of soldiers and a pair of negroes to push. Col. Otter called this the armored train, and Capt. Rogers laid instant claim to the title of railway staff officer. This armored train met with no disaster, and the railway staff officer effected a peaceful entry into The Springs in advance of the regiment. He detected an engine in the coal mine yard at Brakpan, and here found three engines, one yard eng.ne and about 35 coaches and trucks. The engines had been temporarily disabled by the removal of some parts of the driving machinery. This mattered very little, for as soon as our success was known a staff officer, Major Murray, came up from Elandsfontein with an engine and hauled the engines and a portion of the cars down to Elandsfontein, where

It is Belmont days back again, with difference. The difference is that

their homes, announced their intention of giving up. Dirksen threatened to shoot any who left him, whereupon the malcontents, some fifty in all, seized their rifles, said they would shoot back, mounted and rode out of camp defiantly, to surrender their arms and take out passes. Since then Dirksen's men have been dropping away from him in ones and twos. Brakpan, six miles from Boksburg, vas our first place of call; there a crowd of natives, resplendent in blankets of many colors, watched the regiment go by from the gateway of a coal mine compound. Then the final six miles. Careful precautions, and no enemy; we marched quietly into The Springs at noon, without hearing a shot or seeing a Boer.

damages could be quickly repaired.

Wednesday evening furnished a de-

#### lightful example of contradictory orders. After nightfall word suddenly went around to move out with all secreey and despatch. The idea at first

entertained, it seems, was that the object of the expedition had been attained when the rolling stock was captured. Moreover, some movements behind us seemed to render a retirement advisable. With all speed the train was loaded; the infantry was to

go by train, the transport to go by road under escort of Loch's Horse. A wild story came into camp by a Kaffir who had just escaped from the Boer taager, eight miles away, that the Boer force was 2,000 men, with 20 guns and 14 Maxims. Then, just as this alarming tale was going the rounds, just as the train was loaded and the men were about to tumble aboard, just at this moment came the word to unload; orders were changed. we were to hold the town and the rest of the regiment was to be brought up. Disgusted at the changes of official dom, all complied, and we slept

peacefully enough that night, despite

the Kaffir's tale of eightfold forces of

Boers so near us. Thursday was a day of rest. The camp was changed to an excellent place, close to the station and in front of a very pretty row of cottages built for railway employes. One of these was converted into a mess room for the officers, and hospital, staff officers, quartermaster's stores and all found comfortable quarters. Late in the afternoon E and H companies came up by train. Then, about 9.39 p. m., a second train brought two guns of the 74th battery, R. F. A., with D Co. as escorts. Thus Colonel Otter now commands a little force of all arms, the Royal Canadians, some 440 seasoned soldiers, some 60 mounted infantry and a couple of guns. We hope to stay here, but would not be surprised in the slightest to be moved at an hour's notice.

THE CHANGE IN OFFICERS. As the campaign draws to an end a list of the officers at this moment with the battalion may be of interest. It vividly illustrates the changes wrought by a campaign. Only three companies are commanded by the captains who brought them out. Only twelve lieutenants are left of the original 26; only 17 company officers out of the 36 who have been sent out. Staff - Lieut. Col. Otter, in command, Lieut. Col. Buchan, Major Pelletier, Lieutenant Ogilvy, Adjuttant; Lieutenant Lafferty, quartermaster; Surgeon Major Wilson, Surgeon-captain Fisit; Capt. Weeks, sig-nalling officer; Rev. Mr. Almond, Rev. Mr. Fullerton.

BOSTON, Aug. 20.—There was every incentive for good racing at the opening of the grand circuit meeting at Readville track this afternoon, for the weather was suburb, the going was very ast and a big field in all four races made the heats very lively. The large crowd, therefore, thoroughly enjoyed the sport, although two of the favorites lost, but the winning of the big stake, the Blue Hill, by Annie Burns, and the fast pace by Gyp Walnut, evened up matters and the day ended satisfactorily.

Neither Burns nor Walnut Fad an easy thing in their respective events, for it took five heats to decide the blue Hill, and four the pace. With these two our of the way the talent looked about for more good things, but were considerably disappointed. The 2.17 pace went to Gentry's Treasure, in straight heats, although Fred S. Wedgewood was looked upon as having the race well in hand, while in the three-year-old trot, T. W. Lawson's Dreamer, the hottest favorite, was distanced in the very first leat. The interest of the day naturally centred in the big stake race, the Blue Hill, in its fifth renewal and horses faced the starter. All eyes, however, were on Annie Burns, the

All eyes, however, were on Annie Burns, the little gray mare from Rushville, Ind., and she fulfilled expectations immediately by winning the first two heats, although pressed bard in the first by Middlemay.

With two heats to her credit, there was a long groan, when in the third, just after the start, the mare went into the air and it became a race between the favorite and the distance fiag. The horses were held back a bit in the last half so that Burns just managed to escape the flag. The sprint, however, told soverely on her so that Dillonite had little difficulty in winning the fourth heat, practically jogging under the wire, with Burns in third place. The fifth heat settled matters, for while Dillonite took the lead at the start and held it to the three-quarters, Annie Burns was right at his wheel and easily massed him at that point, winning the heat passed him at that point, winning the heat and race. After winning the first heat in the 2.12 pace, Gyp Walnut fell to the rear in the second by a bad break and finished in last place. He had little difficulty, however, in the past two heats and the event. The surprises of the day came in the 2.17 race and the trot for three-year-olds. In the former, Gentry's Treasure, a worthy of a great sire who had been almost over-lcoked, won in straight heats and in the very next event the talent was badly up-set over the distancing of Dreamer. THE RING Will Fight on Saturday Night. NEW YORK, Aug. 17.—It was announced tenight that the big battle between Bob Fitz-sinmons and Sharkey, at Coney Island, will be decided on Staurday night, Aug. 25, instead of Friday, August 24, as was originally intended. THE LEWIN ESTATE.

Amount Involved is Over Three Hundred Thousand Dollars.

From Monday's Daily Sun.

A matter is to come before the probate court today, the proceedings in which will be watched with interest by the whole community. Proof will be made in solemn form of the will of the late Senator Lewin. The children of Mr. Lewin who would be heirs at law were:

Percival L. Lewin of Schenectady, N. Y., who has two daughters, Mrs. Montgomery and Mrs. Fisher. Mrs. Elizabeth Cook, who has and son, Chas, Cook, Richard S. Lewin of London, Eng.

land, the husband of Mrs. Margaret Lewin and father of Pollard and the Misses Sarah Elizabeth and Mary Louise Lewin. James D. Lewin of Toronto. The late Dr. Samuel Lewin of Chat-

ham, who left two daughters, Mrs. Paterson of Moncton and Mrs. Hammond of Minneapolis. The late F. L. Lewin, who left a widow and son, Dr. Arthur Lewin of

Bellisle. The amount of money involved is \$321,000, of which \$6,500 is real and \$314.500 personal property. Of this \$314.500, \$105,000 is disposed of by specific provisions in the will. This leaves \$209,500 as the residue, which is divided into three parts of, say, \$70,000 each, disposition of which is made as follows under the will:

Pollard Lewin gets all the plate, pictures, watches and rings, and all the real estate after his mother's death, say......\$ 8,000 On his mother's death...... 7.000 On reaching 21 years..... 12,000 On the death of his aunt, Mrs. Cook, he gets one half of her third (\$70,000) ...... 35,000 On reaching 25 years, one half

of the third left in trust to his

mother for him (\$70,000)..... 35,000 \$97,000 Pollard Lewin's sister, Sarah Elizabeth Lewin, gets on reaching 25 years Again on reaching 25 years she gets a quarter of the third left to her mother in trust for her, and Pollard and her sister .... 17,000 On the death of her mother, one quarter of \$14,000 ..... 3,500

Pollard Lewin's sister, Mary Louise Clark Lewin, gets on reaching 25 years ............\$ 8,000 On reaching 25 years she gets a quarter of the third left to her mother in trust for the children ..... 17,500 On the death of her mother, one

quarter of \$14,000 ............ 3,500 Percival L. Lewin gets a specific legacy of ......\$12,000 One third of residue ...... 70,000

\$82,000 Percival Lewin's daughters, Mrs. Montgomery and Mrs. Fisher, each get \$8,000.....\$16,000 Dr. Arthur Allan Lewin, son of th late Frank Lewin, receives a legacy \$5,000, and on the death of his mothe \$6,000 more. The will originally provided that he was to receive an equal share with Pollard Lewin in Mrs. Cook's \$70,000, that is \$35,000, but by a codicil this provision in his regard was revoked and Mrs. Cook's son divides with Pollard Lewin.

Mrs. Elizabeth Cook, Senator Lew in's daughter, receives an annuity \$700 and the income of \$70,000 during her life time. On her death he son. Charles Lewin, receives \$14,000, also one half of \$70,000, \$35,000-\$49,000. Mrs. Magaret Lewin gets the house in Lancaster during her life time and the household furniture and effects horses, carriages, cattle and effect

absolutely. Also an annuity of \$700 for herse and \$5,000. Of all the rest she is but trustee for her children. Senator Lewin's sons Richard Sam uel Lewin (husband of Mrs. Margaret

Lewin) of London, England, and Jas-D. Lewin of Toronto, and his granddaughters, Mrs. Paterson of Moncton and Mrs. Hammond of Minneapolis children of the late Dr. Samuel Lewin of Chatham, are utterly disinherite In the original will Richard Lewis was left a legacy of \$6,000, but by codicil made about three months fore Senator Lewin's death this was revoked.

The will will be contested by Rich ard Lewin, J. D. Lewin Mrs. Paterson and Mrs. Hammond, who have e gaged as counsel R. F. Quigley, Q. A. A. Stockton, Q. C., and C. N. Skin ner, Q. C. B. S. Smith and William Pugsley, Q. C., will support the will. Richard Lewin is expected to arriv from England at once. With reference to the real estate. s understood an action for ejectmen

will be commenced at once to secur possession of it. Mrs. Margaret Lewin has been pointed guardian of her son, Polla Lewin, and her daughter, Mary Louis Lewin. Pollard Lewin is in his two ty-first year and is a student at University of New Brunswick. Mary Louise Lewin is in her nine teenth year, and Miss Sarah Elizabeth Lewin is in her twenty-third year.
