

UNIVERSITY OF NEW BRUNSWICK. Senate and Alumni Held Meetings Wednesday. Students Object to Appointment of Prof. Riley to Dr. Davidson's Position.

FRIDERICHTON, June 1.—Senate university met at the education office this morning, Dr. Inch presiding. Among those present were Chancellor Harrison, Premier Justice McLeod, J. D. Hazen, W. A. Park, Inspector Bridges, Wm. Brodie, Hon. G. F. Hill and J. H. Barry, K. C. The report of degree examiners was received, but as a number of the graduating class had not paid fees, it was decided not to make public the names of those graduating until tomorrow morning and until all obligations to the institution had been settled in full.

The appointment of a successor to Dr. Davidson was considered, but no action taken. It is understood that there are a number of applicants, among them being Prof. Riley, who has supplied the position for the last two years. A strong recommendation has been made to the senate and alumni societies by the graduating class, objecting to Prof. Riley's appointment. The senate at its meeting this morning resolved upon leaving the matter of recommendation respecting the appointment to a meeting of the alumni, if deemed advisable, otherwise no appointment will be made at present.

A delegation of students respecting the site of the new gymnasium was heard and referred to a sub-committee with power to act. Announcement has been made that the Ketchum gold medal for proficiency in engineering has been awarded to George Howie of this city. The Montague Campbell prize for proficiency in classics has been won by Miss Ruth Davis. The graduating class this year number 30, being one of the largest in the history of the institution. The graduation honor list and class discussion list are not yet announced. Candidates for the degree of Bachelor of Arts have passed their examinations. They are Milton G. St. John, A. E. G. McKenzie, Frank N. Patterson, Chipman, Charles A. ad eundem with distinction on H. G. Perry, E. A. Walsh, and Rev. W. J. Armitage, recipient of St. Paul's church, Halifax. The honorary degree of doctor of laws will be conferred on Lieut. Governor Stewart, Premier Tweedie, and Prof. J. W. Robertson, Ottawa, as already announced.

The annual meeting of the associated alumni of U. N. B. was held in the college building this evening and was largely attended. Report of the secretary treasurer showed receipts for the year amounting to \$359, and expenditures of \$175.17. Officers for the ensuing year were elected as follows: President, Dr. Murray MacLaren; vice president, A. B. Magge, E. C. Foster, Dr. W. C. Crockett; secretary treasurer, H. V. B. Bridges; committee: Dr. H. S. Bridges, Dr. Thos. Walker, J. D. Phinney, Arch Deacon Neales, Dr. Atherton, S. McFarland and E. M. McKenzie; representatives to the senate: H. V. B. Bridges and Judge Barker.

The society's gold medal for the best Latin essay was awarded to Robert G. Colwell of this city, and Alice Sterling also of this city was awarded the Brydson-Jack memorial scholarship for proficiency in physics.

Following were elected to membership: N. W. Brown, Southampton; A. H. G. McKenzie, Newcastle; G. W. Taylor, Antigonish; M. D. Coll St. John; W. L. Dray, Springfield; Miss E. E. Hugo, Fredericton; M. H. Goodspeed, Ottawa.

Resolutions with regard to pronunciation of Latin deferred from the January meeting brought an animated discussion and a motion to refer it to the senate was lost. A petition from students in regard

to filling the vacancy caused by the resignation of Dr. Davidson was referred to the society's representatives to the senate.

MOUNT ALLISON Musical Department is Deserving of Much Praise.

SACKVILLE, N. B., June 1.—This morning at 10 the annual meeting of the board of regents took place in the university library. So far there has not been space to refer sufficiently to the splendid musical work done at Mt. Allison as evidenced by the closing exercises. Under Prof. Wilson, the director, who is progressive and energetic, the standard maintained is high. The piano work has been excellent and thorough. Mr. Spindler, who took a teacher's diploma, expects to return for the artist's course. Miss Whitman has the smallest collection of what is not as strongly evidenced as it should be. The cantata given Monday evening was a very fine effort. No one who has not taught a school class can have the smallest conception of what it means to give a musical composition of such length with the smoothness, finish and harmony with which the fish City was rendered. All the vocal music was most pleasing on the different occasions.

Too much praise can hardly be given to the violin department. When Dr. Archibald took it four years ago there were but eight pupils and none of them advanced. He now has the largest class on record, with an orchestra that can play with splendid effect more difficult and elaborate violin music than was ever given in Sackville before. One secret of the noticeable smoothness and finish with which the play is that he has taught his orchestra to watch closely the baton, Miss Ogden is the first graduate for several years in this department, but a number are progressing fit that direction and there are also several promising soloists.

At the meeting of the alumnae Tuesday the secretary was advised to send Dr. Archibald a letter of thanks for the valuable work he is doing in the Alumnae Record of Old Students. By long hours of patient research he has collected the names and old addresses of all the students who have attended the Ladies' College, with ten exceptions of the years '61-'63, when no catalogues were printed. In many cases he has also obtained their present name and addresses. There are now registered papers which each student is required to fill out, giving name, address, parents' names, etc., and students taken. In the last issue of Allisonia there is most interesting information about some of the old students and in previous issues the names of all the teachers in all branches who taught in the Ladies' College from its first to the present day.

A very pleasant tea was given by Mrs. (Drs) Allison Tuesday afternoon, enabling a number to meet Rev. Mr. Mark Guy Pearce. Dr. Pearce has his five rules for right living lately printed in red on cardboard and presented one to each of the graduates. H. S. F. Pailley, who graduated Tuesday, takes honours in English, will occupy the editor's chair during the absence of C. C. Ayard of the Tribune. On the finish of these duties he will go to St. John, where a place is awaiting him on the Globe.

PRIZES FOR CHILDREN. The Exhibition Association are offering \$175 in prizes to the school children of the province in the best specimens of weeds gathered in the province, to be shown at the exhibition. The prizes will consist of three for each county, and a grand sweepstake for the entire province are being supplied with an entry form giving full particulars, also with blotter's advertising the same.

CLEVELAND, O., June 2.—The str. State of New York, with forty passengers on board, went ashore late last night, drifting a dense fog on the south shore of Middle Bass Island. The steamer was en route from Toledo to Cleveland. The passengers were taken off by steamer Arrow, which conveyed them to Sandusky, whence they came to Cleveland by rail. The State of New York is thought can be floated.

RUSSIAN FLEET CAN SAIL OUT AT ANY TIME.

The Channel Is Clear and Ships Are Ready to Run Away from Danger.

Alexieff Versus Kuropatkin.

ST. PETERSBURG, June 2.—The following telegram from Gen. Kuropatkin to the emperor, dated June 1, has been received: "Quiet prevails in the direction of Feng Wang Cheng. The town of Saimatza which was evacuated by the Japanese May 31, has been recaptured by our troops.

"Our patrols May 31 had a skirmish in the direction of the town of Saimatza which was evacuated by the Japanese May 31, has been recaptured by our troops. The town of Saimatza which was evacuated by the Japanese May 31, has been recaptured by our troops. The town of Saimatza which was evacuated by the Japanese May 31, has been recaptured by our troops.

ST. PETERSBURG, June 2, 7 p. m.—It can safely be predicted that the Russian squadron at Port Arthur will not wait until the last moment before going out. The admiral seems to entertain no fear. If the situation there becomes desperate, that the squadron will be caught like a rat in a trap. Rear Admiral Witkoet's despatch given out yesterday gave assurances on this point, a portion of which was not made public, said that every ship except the Pobieda was now ready to sea at a moment's notice and that the channel was clear. He confirmed the belief which existed here that the Japanese continue their efforts to block the channel before the decisive moment to storm the fortress on the land arrives and has made plans accordingly. A large proportion of those competent military critics, the land fortifications must be breached before a general assault can be risked and this is not considered possible in less than three weeks.

LONDON, June 3.—The Daily Mail's Newchwang correspondent, cabling under date of June 2, says: "The Russian fleet of 14,000 Russians, made up of artillery, cavalry and infantry, has marched south of Liao Yang in the direction of Wangtung. Large forces of Chinese bandits are collecting in the hills northeast of the Liao river, and are preparing to cut the railway north of Mukden. The correspondent of the Daily Express at Nagasaki cables that transports loaded with troops continue to leave Japanese ports daily for the theatre of war. A large number of reinforcements for the Japanese army which is attacking Port Arthur, have been landed northeast of Tullien Wan. Their number is unknown.

LONDON, June 3.—The Times steamer Haimun returned to Che Foo June 2 from a cruise in Kinohay Bay. The correspondent aboard learned from the crew that the Japanese army and civilian population only get such food as arrives by junks from Chinese ports, or that they have themselves been garrisoned ashore. Reinforcements for the Japanese army which is attacking Port Arthur, have been landed northeast of Tullien Wan. Their number is unknown.

VIADIVOSTOK, June 2.—Letters from the seat of war report that Russian raiders have succeeded in penetrating as far as Gensen, and also south of Anju. They have destroyed depots of Japanese supplies and captured a large number of their prisoners fleeing into Manchuria to escape the hardships of war. "Chinese are moving from Kwan Tung into northern Manchuria in order to avoid living in territory under Japanese control.

ADRIAT ALL WINTER. Bucksport Schooner Has Just Got Clear of the Ice.

ST. JOHN'S, Nfld., June 1.—Mrs. American herring catcher A. M. Nicholson, of Bucksport, Me., adrift in an ice floe all winter, sailed safely to Bonne Bay yesterday.

The Nicholson's crew abandoned her January 23 and made their way over ice for a couple of months. The ice broke up and the vessel was driven into port. The fifth having grown weary of the close confinement, left the vessel May 20th and walked across the ice toward Portland Creek. He has not been heard from since.

The fishermen had very little to eat. They lived most of the time on bread and water and flour boiled in a ventilator cover, the only thing left on board that could be utilized for cooking. They arrived in Bonne Bay weak and exhausted.

Hopewell Hill. HOPWELL HILL, June 1.—Mrs. McFarlane, an aged lady, died at the home of her daughter, Mrs. John Gales.

Thos. W. Peck, merchant of Albert, who has been in British Columbia for a couple of months, returned to his home last week. If successful in disposing of his property at Albert, Mr. Peck intends removing to Vancouver, where he has purchased two lots and a residence.

Miss Mary E. Bray, who has been visiting in Sussex for the benefit of her health, returned to her home last week. She was accompanied by her mother, Mrs. W. H. Bray, who is a teacher at the school in Sussex.

Blomquist and all addresses depend on the weather. The lumber and mason's in town.

PRESBYTERIAN ASSEMBLY

The thirty-fourth meeting of the Presbyterian General Assembly was formally opened in St. Andrew's Church Wednesday, being the third to be held in this city. The four hundred delegates arrived during the day and more are expected this morning.

The assembly promises to be one of the largest ever held and much interest is anticipated over the question of church union, which will probably come in for considerable discussion. Yesterday afternoon a committee met for the business which will come before the assembly.

Rev. Dr. Fletcher read the 14th chapter of the first epistle to the Corinthians and preached from Phil. 3: 13 and 14. The address was an able one and intensely interesting.

Dr. Fletcher in referring to his retirement from the position of moderator said that he has felt it a special honor in being elected as moderator at the first general assembly which met on the Pacific coast. He could not recall the first speech spoken during the meeting of the assembly at Vancouver. He believed that the church had greatly prospered during the last year.

Dr. Fletcher is a most eloquent preacher; a great leader in church affairs, and has been one of the strongest members of the assembly. After he had declared a meeting open for nominations Principal Gordon of Queen's University, Toronto, submitted the name of Rev. Dr. George M. Milligan of Ottawa, Ontario, to the church, Toronto, and paid a high tribute to his scholarship.

Dr. Sedgewick seconded the motion. Dr. Smeaton of Ottawa moved, seconded by Rev. Dr. Ramsay of Ottawa, that Rev. Dr. Armstrong of Ottawa be appointed.

Dr. Smeaton's motion was put first. Dr. Smeaton's motion was put first. Dr. Smeaton's motion was put first. Dr. Smeaton's motion was put first.

PROMINENT MAN SUICIDES. Manager of Armour Concern Shot Himself.

OMAHA, Neb., June 2.—C. L. Saylor, office manager for the Armour Packing Co. at South Omaha, committed suicide today by shooting himself through the head. The act was committed an hour before the time set for Mr. Saylor's departure for an Ohio sanitarium, where he was going for treatment of his nervous system.

He had been a sufferer from nervous prostration for nearly a year, said to have been the result of overwork. During the afternoon prior to his death he had made preparations for his eastern trip and started for a stroll in the park before starting to the train. Half an hour later he was discovered lying on the ground in a pool of blood.

Saylor was prominent in business circles and had been connected with the construction of several years ago. He was 45 years of age, and leaves a widow and several children.

B. C. GOLD MINES. Amalgamation of Three Big Ones With Capital of Over Ten Million.

VANCOUVER, B. C., June 2.—It was announced today that negotiations are in progress for the amalgamation of the Le Roi, Centre Star and War Eagle mines of Rossland. Their combined capitalization is over \$10,000,000.

The merger is being promoted in London, Eng., where it is located the head office of the Le Roi. The other mines are owned by Toronto stockholders. The Le Roi, Centre Star and War Eagle mines of Rossland, British Columbia, were sold for \$500,000 by the Spokane owners to Whitehead Wright, who recently committed suicide. It was for a while a delicate negotiation that rife that he was condemned to imprisonment.

James T. White of White's Point and Miss Sarah Fullerton of Chipman will be united in marriage at the bride's home on Wednesday evening next.

CRACK OF DOOM

HAD BETTER HURRY

When it Comes the Sydney Laborers Will Go Back To Work.

The Strike So Far is Quiet and Well Conducted—Contradictory Assertions by Opposing Parties.

HALIFAX, June 1.—The first day of the strike at the steel company's plant at Sydney passed off quietly. It was also quiet all over the city, though crowds of orderly strikers filled the streets. At the works there was a death-like quietness, scarcely a wheel turning, and the mighty engines all stood still. There were about 200 men on the works. Of these 38 were laborers and mechanics, the rest comprising the clerical staff and foremen. This morning only eleven laborers went to work on the main part of the plant and there were about 15 at the coke ovens plant. At noon there was not enough steam in the boilers to blow the 13 o'clock whistle. The tie up is complete. The Donaldson line steamer Tritonia, which began loading steel billets for Glasgow a day or two ago, was being loaded today by her own crew, there not being employes enough to do the work on this pier. Such is the substance of statements given out tonight by the P. W. A.

J. Dix Fraser, acting manager, says that the company will hire men as fast as they can and will pay them the scale of wages from which the men have just appealed. Quite a few of the men who went out today, he believed, would return to work in the course of a day or two.

John Moffatt, grand secretary of the P. W. A., had little to say. He was satisfied with the results of the first day and was pleased that the employes had conducted themselves in such an orderly manner. There would be no interference with men wishing to go to work, but the employment of such labor would be resented and resisted. He could not say whether P. W. A. men in the colliery districts would be asked to strike, but he believed that the company's attitude would depend entirely upon the attitude of the company with respect to scab labor.

A meeting of the clergy of Sydney today adopted the following resolution: "That in view of the large number of men who have been laid off, and the fact that the government has paid by the Dominion Iron and Steel Company, in view of the strike at their works at Sydney, had unanimously decided to close down for the present. Discussing the matter, the government has requested the company to show the condition of its affairs to such persons as the government may see fit to appoint with a view to either (a) convincing the employes that the company is not yet in a position to accede to their demands for higher wages or (b) to bring such pressure to bear upon the company as will lead to an immediate settlement of the existing difficulties.

MONTREAL, June 1.—It was stated today that directors of the Dominion Iron and Steel Company, in view of the strike at their works at Sydney, had unanimously decided to close down for the present. Discussing the matter, the government has requested the company to show the condition of its affairs to such persons as the government may see fit to appoint with a view to either (a) convincing the employes that the company is not yet in a position to accede to their demands for higher wages or (b) to bring such pressure to bear upon the company as will lead to an immediate settlement of the existing difficulties.

BOSTON, June 1.—Dominion coal declined on the Boston stock market today to 55, a drop of ten points since yesterday. The weakness was due to the steel strike at Sydney. The steel strike at Sydney is the best possible thing for the company. We have been running along, not making a dollar, the plant being operated chiefly in the interests of the government with the hope that the dominion government would see fit to give us the benefit of a protective tariff. As it now stands we will simply close down our manufacturing plant indefinitely and proceed with the work of building up the different mills new under construction.

HALIFAX, N. S., June 2.—We are perfectly satisfied with the way things are going, declared acting manager Fraser of steel works, at a meeting tonight by your correspondent for a statement respecting the situation at the company's Sydney works. "Today we are considerably more men employed on the plant than yesterday. There were at least 50 or 60 laborers working. The men are gradually coming back. We expect more tomorrow. From our standpoint the outlook is most hopeful."

On the other hand the statement furnished from the headquarters of the P. W. A. was: "We have the plant completely tied up. Fewer were working today than yesterday. There could not be more than thirty laborers working today altogether. The men are fatter today than ever, and we are having large accessions to our ranks. Those who did not belong to the association now recognize the justice of our cause and are going back and joining us in our efforts to secure for working men at Sydney fair wages. We are best convinced and best disciplined than ever seen."

Your correspondent was informed by a man belonging to the association and who had been through several strikes in the United States, that this was the best conducted and best disciplined he had ever seen.

Mr. and Mrs. C. H. Woodhall of Fredericton are at the hotel.

ARRESTED FOR MURDER.

Chas. E. Brigham Charged With Killing New Hampshire Woman.

LEWISTON, Me., June 2.—This afternoon at 4:30 Charles E. Brigham was arrested in this city by Detective Beaulieu on the charge of murdering Mrs. Celia P. (Marshall) Smith of Londonderry, Rockingham Co., New Hampshire, on the evening of Monday, Feb. 29. Brigham was found at Hannaford and Kimball's store on Main street, where he has been employed about ten days.

He was easily identified by the officers here from the description of him furnished out by the New Hampshire officers at the time of the murder. When first arrested he gave the name of Charles Edwards and denied that he had ever lived in Londonderry, N. H. He claimed that his home was in Vermont.

Brigham was later taken into the marshal's private office and after being questioned for two or three hours admitted that his name was Brigham and that he was in Londonderry the week of the murder, but firmly asserts his innocence, the crime for which he is now held.

Mrs. Smith, who was murdered, lived with her brother, John Marshall, the morning of March 1 Mrs. Brigham was found dead in her room, her head terribly crushed and bruised. The room had been ransacked during the night. Robbery was the motive for the crime.

PORTSMOUTH, N. H., June 2.—The news of the arrest of Charles E. Brigham in Lewiston, Me., was received by County Solicitor John W. Kelly, here tonight, the solicitor being notified by the Lewiston officers. Mr. Kelly, who is now in Portsmouth, N. H., is of Rockingham county, and the sheriff started for Lewiston late tonight on the Bar Harbor express.

Sheriff Collins is expected to return to his duty with his prisoner tomorrow night. County Solicitor Kelly stated to a representative of the Associated Press that Brigham had made a confession of his guilt to the Lewiston police, but the county solicitor would not make public at this time any of the details of Brigham's admission.

The arrest of Brigham was not a surprise to the county officials, although they were greatly elated over the capture of the suspect. For the past three days they have been working on a clue in Maine and it was expected that Brigham's arrest would be a matter of a few days only.

A CANADIAN SOLDIER. Captain Arthur J. B. Mellish, a barrister at Charlottetown, P. E. I., resigned his commission in the Canadian militia and enlisted as a private in the first contingent, served all through the war service at Belmont, Gens Hans and Paardeberg. Some time afterwards Mr. Mellish was taken down with enteric fever and was sent to the hospital at Walsburg, near Cape Town, and it was here where he met his future bride, Miss Evangeline Hutton, who left Cape town some time ago, and met Capt. Mellish in England, where they were married May 17th at Shirley, Southampton.

Mr. and Mrs. Mellish passed their honeymoon in the Isle of Wight. They are now travelling through England visiting relatives of Mrs. Mellish. Mr. and Mrs. Mellish are expected home in Charlottetown about the middle of June. The Sun tenders congratulations.

SUSSEX MILITARY CAMP. The following is the provisional staff of camps of exercise at Sussex, N. B.: commanding officer, Capt. R. White, D. O. C.; assistant adjutant general to be detailed. Deputy assistant adjutant general, Capt. W. R. Marshall, D. O. C.; 13th regiment, deputy assistant quartermaster general, Lt. Col. D. McL. Vase, R. O.; supply officer, Capt. A. E. Massey, 71st regiment; musketry instructor, Capt. S. B. Anderson, 74th regiment; assistant musketry instructor, Lieut. E. E. Wood, 74th regiment; principal medical officer, Major J. W. Bridges, A. M. S.; district intelligence officer, Lieut. E. T. Shewen, corps of guides; signaling officers (to be detailed); paymaster, Major A. Armstrong, O. C. R.; orderly officer, Capt. B. R. Armstrong, 3rd Regt. C. A.

COMFORT FOR OLD PEOPLE. Much of the suffering of the aged is due to the kidney derangements which lead to headache, rheumatism, lumbago and body pains. Dr. Chase's Kidney-Liver Pills bring comfort to the old folks by keeping the kidneys healthy and active, and so eliminating from the body the poisonous waste matter which causes pains, aches and fatal diseases.

Isaac Pitman's Shorthand. The Best and Fastest in Existence. Exclusive use of the two best and most up-to-date systems of business practice. Everything else used up to the same standard of accuracy.

W. H. Thorne & Co., Ltd. Market Square, St. John.

Children. You Have Bought. In Use Over Years. York's Water. FOREMEN ARE ESCAPED. Heights, West St. Rev. I. E. Bill, D. aged 51 years and 23rd, 1904, Helen, Elizabeth A. and the 21 years. public hospital in 1st, Frank E. leaving a mother, brother to mourn May 27th, Harry T. and Keria Kert. the 27th inst, at Andrew, eldest son Isabella McGuire, in age, leaving a wife, and four brothers at 145 Duke street, rt Marshall. Mrs. M. Roberts, in on May 28th, Duval 23 years, son of the late, Kings Co. brother and sister to Queens Co., on May 28th, leaving a husband and three daughters.

OTTAWA LETTER.

OTTAWA, May 28.—The government in the closing days of the Grand Trunk Pacific debate appeared to greater advantage, it is possible, than in the earlier stages of the discussion. Hon. Mr. Fielding's argument was a weak one for him, while Hon. Mr. Emmerson's explanation of his long silence was no explanation at all. What he said did not deceive the house for a moment, and his remarks drew but faint applause from the occupants of the government back benches, who have acquired the habit of banging their desks whenever a minister makes a stentorian utterance and of yelling "No" in thunder tones against every opposition amendment, irrespective of its pertinence and value to the country. The finance minister, like Hon. John Haggart, talks to the party behind him and does not always face the Speaker's chair. It rather pleases the rank and file to be personally addressed, and Fielding knows how to do it. The thing may be a trick of oratory, but it has its effect on the galleries, where very little of what is said on the floor of the house can be heard, as the occupants carry away the impression that volumes of applause only follow the making of good proposals.

It is freely admitted by supporters of the government, particularly from Ontario, that the opposition's platform of state ownership of railways is a strong one. If the country is to pay 50 per cent. of the cost of the construction and maintenance of the proposed transcontinental line, why not put up the other ten per cent. and run the road, instead of handing it over to a private corporation? So strong an impression has this proposition made, that the air is full of rumors of another session of the house before dissolution, but these rumors may have been purposely set afloat to lull the opposition into apathy and to then spring the campaign at short notice. The conservatives will not be caught napping. Japan in time of peace prepared for war, so far with a very creditable measure of success.

There was an incident on May 26 that deserves wide publicity, as showing the Ministers trifle with the house and bamboozle the country. It was precipitated by the leader of the opposition, who showed in a most unbecoming manner on five occasions during the present session members asked the government for copies of all correspondence and documents relating to the Grand Trunk Pacific. Job, and that as late as April 20 Sir Wilfrid Laurier had replied to his (Borden's) question everything has been brought up again. This answer was in line with previous assurances this session and last session, yet that very day (May 26) the minister of finance produced a document in which he stated that the Grand Trunk had demanded a land grant as well as other aid from the government. One member of the opposition, Mr. Fielding, had announced that the Grand Trunk had demanded a land grant as well as other aid from the government. Mr. Fielding had not the wit to refer to the document at the earlier stage, but waited till the closing hours of the debate "by permission of the Grand Trunk." Had it not been that the government thought it would be to their interest to produce the document after assuring the house that no such document existed, parliament would have gone on believing that Sir Wilfrid had lied. The Grand Trunk had demanded a land grant, and that the Grand Trunk had not applied for a land grant. Mr. Borden's remarks, delivered with more than usual vigor, created a profound sensation.

The premier was rattled and made for him a rather lame and nasty reply. He did not propose to be lectured by Mr. Borden. He was the custodian of his own honor and when he received a letter marked "private and confidential" he did not think he was authorized in bringing it down to parliament. "Everyone has a right to be looked at these things," said Sir Wilfrid amid roars of ironical laughter. The point that tickled the opposition was the public reading of the document by Mr. Fielding, that the premier said he had protected on his honor until he obtained the permission of Mr. Hays, the master of the administration, to make public.

Dr. Sproule of East Grey is an authority on parliamentary usage and procedure. He pointed out that no document, although addressed to the premier, which applied to the country for cash, credit for lands, could possibly be considered confidential. "The first minister had made no reference in his answers to any confidential document which was an absolute infringement of the courtesy due to parliament," said Dr. Sproule. "When it answered the purpose of the government to give this confidential Grand Trunk proposition to the house it was given, but not till then."

Mr. Bell of Pictou, in implementing Dr. Sproule's remarks, declared that the course the prime minister had decided upon involved him in giving incorrect information to the house. The government was asked whether the company had applied for land grants and the reply was that it had not. Whereas the fact had just been brought out by the finance minister that they had applied for 5,000 acres per mile. There was no authority for treating such applications as confidential. They came to the government as a committee of parliament, and to treat them as confidential was giving the authors an advantage they should not possess.

Mr. Barker of Hamilton made it absolutely clear that the premier did not say he had produced everything except

papers that were confidential, but had made the house sitting without equivocation that he produced everything that bearing on the subject. Now it was discovered that a most important document had been concealed from the representatives of the people in parliament. Mr. Clancy of Bothwell remarked that the finance minister, who is very fond of chess, had not acted in a closed conspiracy against the rights of the people of Canada. He knew of no more serious crime than that of the government, though deliberators in special documents that belong to the public. Mr. Speaker rising from his seat notified Mr. Clancy that he did not think it parliamentary to say there was a deliberate concealment. Mr. Clancy suggested the words "deliberately withheld," but Mr. Speaker could not see that these words were better. Mr. Clancy promptly withdrew his remarks and then added: "I will say that the prime minister unconsciously allowed the house to act on his own will or motion, but was acting on the advice of the Grand Trunk Railway Company." No objection being raised as to the propriety of putting the case, Mr. Clancy's remarks will grace the pages of Hansard.

Sir William Mulock, who was kept in the house by Mr. Pringle of Cornwall and Stormont, and others for his publication of private and confidential correspondence left in the post office by the publisher of the *Northwestern*, made the excuse that he did not know the contents of these letters until after they had been printed, and the publication of the work of one of the officers of his department, of course with his permission. It was the old, old story, "The office boy did it."

OTTAWA, May 28.—Brief reference was made in the despatches to Dr. Daniel's effective exposure of Hon. Mr. Fielding's misrepresentation of the attitude of St. John towards the question of government ownership of railways. A fuller report contains much of interest to the people down here. Instead of handing it over to a private corporation? So strong an impression has this proposition made, that the air is full of rumors of another session of the house before dissolution, but these rumors may have been purposely set afloat to lull the opposition into apathy and to then spring the campaign at short notice. The conservatives will not be caught napping. Japan in time of peace prepared for war, so far with a very creditable measure of success.

There was an incident on May 26 that deserves wide publicity, as showing the Ministers trifle with the house and bamboozle the country. He was the custodian of his own honor and when he received a letter marked "private and confidential" he did not think he was authorized in bringing it down to parliament. "Everyone has a right to be looked at these things," said Sir Wilfrid amid roars of ironical laughter. The point that tickled the opposition was the public reading of the document by Mr. Fielding, that the premier said he had protected on his honor until he obtained the permission of Mr. Hays, the master of the administration, to make public.

Dr. Sproule of East Grey is an authority on parliamentary usage and procedure. He pointed out that no document, although addressed to the premier, which applied to the country for cash, credit for lands, could possibly be considered confidential. "The first minister had made no reference in his answers to any confidential document which was an absolute infringement of the courtesy due to parliament," said Dr. Sproule. "When it answered the purpose of the government to give this confidential Grand Trunk proposition to the house it was given, but not till then."

Mr. Bell of Pictou, in implementing Dr. Sproule's remarks, declared that the course the prime minister had decided upon involved him in giving incorrect information to the house. The government was asked whether the company had applied for land grants and the reply was that it had not. Whereas the fact had just been brought out by the finance minister that they had applied for 5,000 acres per mile. There was no authority for treating such applications as confidential. They came to the government as a committee of parliament, and to treat them as confidential was giving the authors an advantage they should not possess.

Kumfort
HEADACHE POWDER
CURE IN TEN MINUTES.
Absolutely safe, pleasant to take, and does not hurt the stomach. It is a great relief in all cases of headache, neuralgia, and other nervous affections. It is a most valuable remedy for all who suffer from these ailments. It is a most valuable remedy for all who suffer from these ailments. It is a most valuable remedy for all who suffer from these ailments.

railway or its branches, and carried by the railway for export, shall be shipped via Canadian ports.

The resolution that a subsidy of this resolution be sent to the senators and members of the house of commons for the province of New Brunswick which would be obtained from the gentlemen's attention to the fact that the liberal party in this country opposed the building of the Intercolonial railway, which was published in the St. John board of trade thought that it was a good measure for putting the case, Mr. Clancy's remarks will grace the pages of Hansard.

In view of the present proposition for a Grand Trunk transcontinental railway, and believing that the best interests of Canada would be conserved by the building of a government owned and managed transcontinental line; and also believing that a subsidy of cash and land grants to a corporation may result in the land passing into foreign control; and further believing it best for the government of Canada to take the land in fee simple at a fair valuation; the St. John board of trade places itself on record as favoring extension of the Intercolonial railway from the coast to the interior continent through Canadian territory, and the improvement of harbor facilities, particularly on the Gulf of St. Lawrence, and on the maritime province coast.

This is the position which the St. John board of trade took at that time and which it has not since altered. It is a position which should find no difficulty in supporting the amendment offered by my hon. leader, a resolution which is entirely in conformity with the attitude of the constituency I have the honor to represent.

On the question of government ownership, the minister of railways and telegraphs (Mr. Emmerson) has here a moment ago, has he gone again? This is the first time I have had the honor of a seat in this house and I therefore do not wish to be a member of the house on the basis of my own experience, but I have understood that the present minister of railways and telegraphs (Mr. Emmerson) has here a moment ago, has he gone again? This is the first time I have had the honor of a seat in this house and I therefore do not wish to be a member of the house on the basis of my own experience, but I have understood that the present minister of railways and telegraphs (Mr. Emmerson) has here a moment ago, has he gone again?

The Awful Distress of Irritable Nerves.

CAN BE OVERCOME BY ENRICHING AND NOURISHING THE BLOOD, THEREBY REBUILDING THE NERVE CELLS.

Any failure of the nervous system to do its work properly inevitably causes other troubles. Weakened nerves are a source of grief, gloom and depression. Life loses its attractiveness, worry and care quickly frown the brow of the sufferer who keeps on trying to get on as usual. Nervous wrecks are very sad, pitiful indeed, when a certain cure like Ferrerozine is almost sure to be brought to the sufferer's aid. The success of this great nerve restorer has been demonstrated in many cases where other treatments completely failed, so sufferers can have unbounded confidence rely on a lasting recovery if Ferrerozine is used.

Heads of well known people have found health through Ferrerozine. Among these might be mentioned Mrs. E. D. Emmerson of Centreville, who says: "I am glad to think that there is at least one remedy for nervous people. No one can imagine what I suffered with my nerves, and I sometimes wonder at the number of useless prescriptions and medicines I took. But Ferrerozine acted differently from all the rest. It built up my system and gradually the irritability left my nerves and I got well. Ferrerozine cured me by removing the cause of my trouble, and by giving me enough additional strength to overthrow the attack of nervousness. I can recommend the use of Ferrerozine to all who are afflicted with nervousness. No expectations are too high to be fulfilled if Ferrerozine is used. Many others have been cured of troubles of the nervous system by the use of Ferrerozine. It completely rebuilds the nervous system and establishes a healthy condition throughout the entire body. Do not be deceived by cheap imitations. Buy only the genuine Ferrerozine. It alone can cure permanently. Insist on having nothing but Ferrerozine. Price 25c. per box, or by mail for \$2.50, at all druggists, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

be elected to these seats in a bold and fashion and not necessarily because they represent different parts of the country. But the very fact that we are elected to represent different parts of the country, goes to show that each one should represent the particular constituency to which he was elected. Therefore I think no representative is called upon to apologize for representing the constituency which elected him, and the charge of selfishness hardly lies against those who are endeavoring to save the country a less expenditure. In order to make this line as short as possible and with easy grades, the only way is to bring it down the valley of the St. John river to the city of St. John. In that way you would get the shortest possible line. The minister of finance gave as one of the reasons why this line should be built that it would be very far from the border and consequently more valuable from a military point of view.

The following have been elected new members of the St. John church, gentlemen's attention to the fact that the liberal party in this country opposed the building of the Intercolonial railway, which was published in the St. John board of trade thought that it was a good measure for putting the case, Mr. Clancy's remarks will grace the pages of Hansard.

ROBBED WHILE PRAYING.

Sisters of Charity Lose \$3,000 in Pittsburg.

PITTSBURG, June 1.—The little sisters of the poor were robbed today of \$3,000 by a man who represented himself as a plumber. The man went to the institution on Penn avenue where an addition to the home for the aged is being erected by the sisters and represented himself as the sub-contractor for the plumbing work in the building. When the inmates of the home had left gone to the chapel for prayer the fellow made his way to the office and carried away the \$3,000 which represented the collections made by the sisters to pay for the new building.

RURAL DEANERY.

The clergy of the Fredericton Diocese held their regular tri-monthly meeting in the parish of Prince William on Thursday last. Rev. Horace E. Dibbles, M. A., rector of Benton, was elected a rural dean for representation to the bishop at the annual visitation to be held in July next. After discussing the question of the deanery magazine it was decided to continue the issue of *Church Work*. In the evening after an address by Rev. A. S. Murray, a lantern lecture was delivered by Rev. J. C. Robinson of Nagoya, with Rev. H. E. Dibbles, rector of Prince William, as interpreter. The next meeting will be held at Doaktown in August, when Dean Partridge will preach.

SUN PRINTING COMPANY, ALFRED MARKHAM, Manager.

THE SEMI-WEEKLY SUN, ST. JOHN, N. B., JUNE 4, 1904.

COMPANY OWNERSHIP IN ENGLAND.

A recent copy of the Ironmonger contains a digest of a paper by John Scurr, who as a result of long study of transportation matters and careful comparison of the workings of state-owned and company-owned railways, gives it as his opinion that the latter by no means perform their duties as helpers of trade, but are on the contrary a danger and a menace in many ways.

Mr. Scurr's examples are drawn almost entirely from the United Kingdom, where railroad transportation is divided among fifty-one companies. Many of the lines so controlled are unnecessary and nearly all are duplicated. Theoretically this should produce a competition highly favorable to the general public, but the facts show that practically all the companies are in a combine which is so effectual that traffic rates in Great Britain are excessive to such an extent as to place British traders at a grave disadvantage beside those of neighboring countries.

Another complaint is that the combine which prevents the cutting of rates on domestic trade does not apply to foreign imports. This system places in many instances, a heavy preference on foreign goods as compared with domestic. As one of many instances which could be quoted, it is pointed out that the rate for eggs from Galway to London is 94 shillings per ton, while from Denmark it is only 24 shillings.

And there is no remedy except a complete change in the system. The railway commission panacea has been tried without result. In cases where rates were cut the railways more than got even by withdrawing facilities, and in the end, always won. The British trader must continue to suffer or the British government must take over and control the railways. The initial expense of this would be enormous, but it would undoubtedly pay in the long run. Sir Bernard Samuelson, who has made an exhaustive inquiry into the German system, summarizes his report as follows: "The transfer of the railways from private management to that of the state, administered as above described, was intended to produce, and has produced, decided economy in the cost of working the traffic, greater uniformity in rates, and increased accommodation to the public."

Canada today is at the parting of the ways. She has the opportunity to ex-press approval of a perpetuation of the system which every nation which has persisted in it has found an intolerable burden, a system which exists for the enrichment of a few at the expense of the public, or she can choose the system which ensures that the people's money shall be spent by and for the people, which guarantees that her railroads, which were in their original public highways, shall be built and operated solely in the interest of the people through whose territory they run. The way in either direction is clear and plain. There is no chance for any

mistake. The liberal government is definitely committed to a scheme which hands over a transcontinental road costing \$150,000,000 or more to a foreign and unfriendly company; the conservatives are as definitely committed to a policy which provides that the road, in addition to being built by the people, shall be owned and operated by them in their own interests.

AFRAID TO MEET THE ISSUE.

It is significant of the panic into which Mr. Borden's government ownership bombshell has thrown the liberal ranks that not one liberal newspaper of note in all Canada has yet dared to face the issue he has raised. Sneers, expressions of disbelief, misrepresentation abound, but not one square face to face contradiction of his declaration that the people of Canada, who are to provide the money for the new transcontinental railway, shall keep and operate that railway in their own interests instead of giving it away for the enrichment of a foreign company.

The Toronto Globe, the leading government organ in Eastern Canada, attempts to change the direction of the rushing tide of public favor by declaring that the liberal policy also involves the principle of government ownership. It says: "Mr. Borden is not very accurate in his use of terms if he deems that the government project for the building of a transcontinental railway is hostile to the principle of public ownership. The government's scheme is eminently a public ownership scheme. The public will own the line from Winnipeg to Moncton as absolutely as a man owns the house which he builds with his own money. That is surely public ownership."

That the Globe has been inspired to make a statement of this nature is strong evidence of the fear with which the liberal leaders are watching the growth of the public ownership sentiment and its swift crystallization around Mr. Borden's policy. But the people have learned too much of the ruinous nature of the G. T. P. scheme during the long discussion in parliament to be deceived by any such stuff as this hypocritical declaration of the Globe. They know that the government scheme has not only no connection with public ownership, but is calculated to postpone indefinitely, if not infinitely, the day when the people shall own and control the property which their money pays for. They know, it is true, that the bill just passed through parliament compels them to build a road, but they also know that it compels them to hand it over, when built, to the control of a foreign company which will run the road for its own profit for fifty years and then, if it chooses, may keep it for another fifty. Where, they ask, does public ownership come in in that scheme?

The Globe shows one characteristic liberal attitude just now. The other is illustrated by the Winnipeg Free Press, Mr. Sifton's organ, and the mouthpiece of the government in the west. That journal also admits the popularity of the conservative policy by venturing no criticism of the principle of public ownership, no argument that a railway owned government is better for the country than a government-owned railway. It devotes its whole strength toward discrediting Mr. Borden's sincerity and attempting to make the western people believe that his now famous amendment to the G. T. P. bill is a mere jumble of words signifying nothing, committing the party to nothing. It says: "We shall have this amendment—the last of an interminable series—represented in the west, no doubt, as an out-and-out declaration in favor of government ownership. In point of fact it is nothing more than the expression of a pious opinion that as between the building of the G. T. P. upon the government plan and the extension of the Intercolonial to the Pacific coast the latter is to be preferred."

The best answer to criticism of this kind is found in the following excerpt from the amendment referred to: "That the house is of opinion that instead of ratifying the proposed agreements, it would be more in the public interest that the Dominion should assume the whole obligation necessary for extending across the continent the present government system of railways, thereby completing a transcontinental railway from the Atlantic to the Pacific, owned by and under the control of the people of Canada."

Further answer, if any is needed, is found in the following quotation from the conservative leader's speech in support of that amendment: "If it is the will of the people of Canada, as declared by their voice at the next election, that another railway from ocean to ocean shall be built, owned and controlled by the people of Canada, and not by the Grand Trunk and the other companies, if it is the will of the people that we shall assume not only nine-tenths, but ten-tenths of the obligations necessary to construct another transcontinental railway, then that means to own and control a national railway highway from the Atlantic to the Pacific, the conservative party, if returned to power, is prepared, in accordance with the will of the people so expressed, to place on the statute book of Canada such legislation as will enable that result to be accomplished with the least possible delay."

THE GENERAL ASSEMBLY.

The Sun extends warm welcome to the hundreds of Presbyterians from all over Canada who are in attendance here at what promises to be one of

THE MOST IMPORTANT GENERAL ASSEMBLIES OF RECENT YEARS.

Of all the vast amount of business to come before this representative body nothing will be followed with more interest than the discussion on church union. It is impossible to overestimate the importance of the result of that discussion upon ecclesiastical development in Canada, and it is greatly to be hoped that the spirit of broad Christian tolerance which has led the fathers of the Presbyterian church in this country to look with favor upon the suggested amalgamation will prevail in the coming session to a degree that will inspire the many subsequent deliberations that must be necessary to bring the proposed union to realization. To the extent of its facilities the Sun will endeavor to report the proceedings of this notable assembly in a manner interesting to the commissioners and the public generally.

We hope that the demands of the meetings and of St. John hospitality will not prove so pressing that the visitors, especially those from middle and western Canada, will not be able to thoroughly inspect the attractions and facilities of a city and a port which they are to hear a great deal in the future.

THE NEW CERTAINTY.

Attorney General Pugsley has informed the Sun that he is now sure of obtaining New Brunswick's share of the fishery award. There is no contradicting this statement. Dr. Pugsley's state of mind is not known to others so well as he knows it himself. It is only fair to take his statement as true, and admit that he is no less sure of this thing than he has been sure of many other things that were not so. For instance he was so dead sure that arrangements would be completed for the appeal to the privy council that he said they were already completed. That was certainly without certitude, for he now tells us that the parties cannot agree upon a privy council case. Today the attorney general is positive that the case will be submitted to arbitration. Next week we shall probably be told that the parties cannot agree upon the terms of arbitration, but that there is no doubt in the world that the affair will be decided by drawing cuts.

THE SYDNEY STRIKE.

The strike at Sydney has not yet produced the least disorder, and that is a matter for congratulation. But if the men do not go to work there or elsewhere, some of them will become disorderly by and by. Perhaps the great majority of them are the hard test of continued idleness, but among these hundreds of men, some of them belonging to passionate and unreflexing races from southern and southern Europe, there will be many who will not be able to endure the strain with patience and composure. One of the most disheartening features of the trouble as reported is the apparent willingness of the company that operations should cease. It is known that the bill which Dr. MacLean is now championing, and which he has introduced in the House of Commons, is a bill to give the government control over the railways. The bill would apply to trunk lines, but it would not apply to branch lines. He supported MacLean's position respecting telephone and express companies being put under the jurisdiction of the government, but did not agree to do so in full with his two cent rate as applied to railways.

DR. EMMERSON.

The Sun offers congratulations to Hon. H. R. Emmerson, minister of railways, who has received from Acadia University the degree of doctor of laws. Dr. Emmerson has been a provincial minister, premier of New Brunswick, and moderator of the Baptist convention, and is now a Canadian privy councillor. It is natural that the university which Dr. Emmerson is associated should desire to add an academic distinction to the other honors which he has obtained.

Mr. Fielding is making a record. He is likely to deliver the latest budget speech that has been.

NO APPOINTMENT YET.

U. N. B. Senate Still Looking Forward to Dr. Davidson's Return.

FREDERICTON, June 2.—At the adjourned meeting of the university senate this afternoon it was not decided to make an appointment to the vacant chair of philosophy at the university at present. Instead the senate will make inquiries regarding Dr. Davidson's health with a view to ascertaining if he could resume his duties within a reasonable time.

HOW THE LUNGS BECOME SORE

It's the Hawking and Coughing that Destroys the Tissues of the Lungs, Makes Them Weak and Nervous.

What you want is something to stop the hawking and take the soreness out of the throat. Nothing compares with Catarrhona, soothes the inflamed membranes, drives out the catarrh, makes you well quickly.

For weak lungs, throat trouble and catarrh there is no remedy half so efficient as Catarrhona. Relief comes instantly and permanent cure invariably follows. Very pleasant to use and above all guaranteed to cure or money back. Price \$1.00 at all druggists, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A. E. S. Secord of Bath was in the city yesterday, returning from a visit to Penobscot.

PARLIAMENT.

OTTAWA, May 30.—This was private members' day, the government having taken over every other day for the balance of the session. Fielding announced that the budget would not be brought down till Tuesday, June 7th, and not on Thursday of this week as originally anticipated. The postponement is probably due to the demand of government supporters to attend a big three ringed Yankee circus which appears in Ottawa. Thursday afternoon and night they want to see the wild animals as well as the acrobats. Fielding submitted an estimate of \$10,000 for reconstruction of the Ottawa post office damaged by fire last January, said estimate to be charged to income account of public works department.

House passed a resolution of McLaren, grip member for Huntingdon that it is expedient to bring a bill to prohibit the importation, manufacture and sale of cigarettes in Canada. The house treated the resolution as a joke and McLaren refused to explain his motion. The time for introducing private bills has been extended to June third.

Replying to Bourassa, Laurier said while the government respected Lord Dufferin's assumed no responsibility for his utterances and no reason to believe that the high commissioner or Mr. Preston ever claimed such authority. Answering Henderson of Halifax, and Col. Sam Hughes, the minister of militia read the text of his resolution for increased pay of militia at camps this year, remarking that an extra militia grant would have to be passed this session to cover the item.

The bulk of the afternoon was devoted to consideration of the bill of Hon. Mr. Fitzpatrick that the bill to amend the railway act with respect to cattle guards, etc., be referred to the house committee on railways and canals. Bill was under discussion at six o'clock.

After dinner the Lancaster railway bill was referred to the railway committee. There was some discussion over another bill by Lancaster to amend the Criminal Code with respect to trials of juvenile offenders. Finally a compromise sub-section, moved by the minister of justice, was adopted, the bill being to protect such offenders from the matter of legal control by speedy or regular judicial process. At request of the minister of marine, Lancaster's bill to amend the act respecting shipping masters and mates of ships was laid over for a few days, the minister suggesting that the subject would be covered at an early date by the government measure consolidating these cases. At nine o'clock MacLean of East York, began an explanation of his bill to bring over the jurisdiction of the railway commission, said to express companies being only junkie engines to the great trunk lines of railroads, being in a position to discriminate against the smaller lines. He said against any firms or corporations they desire. MacLean said his motion was supported by most boards of trade throughout Canada. He wanted the power of the commission so changed that Blair as chairman, shall no longer have the right to over-ride his associates in the government.

MacLean spoke till 9:45, promising at the same time to apply for the two cent per mile rate to railways when the bill came up section by section. The bill was referred to the committee.

Mr. Sproule objected to applying the bill to Canada, but the minister of justice said he would apply it to trunk lines. He supported MacLean's position respecting telephone and express companies being put under the jurisdiction of the government, but did not agree to do so in full with his two cent rate as applied to railways.

The debate was continued by Holmes of Ontario, and by the Hon. Mr. Sam Hughes, Jabel Robinson, Puttee of Winnipeg, Monk, Borden of Halifax, and others, in which government members of proper pretensions against pauper labor from Europe was made so clear that even Sifton had to assume an apologetic tone and promise to amend the bill.

The house adjourned at 11:05 p. m. Mr. Sifton moved a second reading of his bill in favor of registration of union labels, on the same lines as in 31 states of the American Union. The bill was the same as that in England under the Trade Act.

Speaker Belcourt ruled the bill out of order, as it interfered with trade and could not be introduced by a private member except by resolution. Smith at once gave notice of the necessary resolution.

The house adjourned at 12:25 a. m., all the night being taken up with private bills of little or no interest to the maritime provinces.

OTTAWA, May 31.—The commonsense did not make much business progress this afternoon, but there was much talking over the question raised by Clark of Toronto, who enquired why

TO THE WOMEN OF THE UNITED STATES.

Successful Home Treatment. Dr. Hartman's Cure for Female Diseases—A Generous Offer to Women.

Invalid Women are Applying by Thousands for Dr. Hartman's Free Home Treatment by Letter.

MRS. J. P. COADY, Treasurer of the Ivy Leaf Club, 1703 6th Avenue, Council Bluffs, Iowa, writes: "Peruna is no experimental medicine. I have used it off and on now for several years. It has cured me of irregular and painful menstruation. Since that time I have taken it for indigestion or whenever I feel nervous, or when I have a cold, and I have always found that it was of great benefit to me. I am therefore pleased and happy to say a word in its praise to my friends."—Mrs. J. P. Coady.

Miss Hattie Grace, 254 West 46th St., New York, writes: "Peruna has changed me from a frail, feeble, nervous woman into a healthy and a happy one. Nothing seems to worry and to fret me any more. Since early womanhood I suffered with irregular and nervousness. I was thin and worried, but Peruna restored me. Those who are suffering from nervousness, or who are unable to get on their feet, should try Peruna. It is a blessing to all who are suffering from nervousness."—Miss Hattie Grace.

"I am pleased to tell what a blessing Peruna has been to me. Several years ago my constitution seemed broken down. I was a little weaker than I am now. I had taken so much medicine that the sight of a bottle made me sick. I had read about Peruna curing women, and I thought perhaps it would help me. I bought a bottle and before it was finished I felt better. I kept on taking it, and after three months I was able to do the work and undergo the strain of younger days."—Elizabeth Ferguson.

In view of the great multitude of women suffering from some form of female disease and yet unable to find any cure, Dr. Hartman, the renowned gynecologist, has adopted a policy to import into Ohio for a public building at the capital of Canada.

Hyman said the whole cost will be over \$100,000. Work was not being done by contract, but by day labor. Some militia items were next passed.

OTTAWA, June 1.—This was the last Wednesday of session on which private members can bring up business, as henceforth the government will take possession of all days except Mondays to the exclusion of general business. Much private work was advanced a stage or two. The sensation of the afternoon was the speech of Borden, of Halifax, on Barker's motion for copies of all documents in the government's possession regarding the G. T. P. not yet brought down to the house.

T. application for a land grant was read by Fielding the other night after Laurier had repeatedly assured the opposition that every paper had been submitted.

Borden turning back to the pages of last year's Hansard showed that John Charlton had been put in full possession of the contents of this document or else had made a strikingly shrewd guess at its contents, and challenged the premier or minister of railways to show cause why this thing took place.

To conceal documents from the house on the plea that they are private and confidential, to advise confidential supporters of their contents, and to use the text thereof some months later from the mouth of the finance minister, is Laurier's method, but it is not treating the country with decency.

This face of the situation was put forward with much force, showing that in some way Charlton must have had access to Blair's private and confidential memorandum or else he could not have made the statements he did last session. Unfortunately for himself, but fortunately for the government at this juncture Charlton is a very sick man and unable to attend parliament.

The member for North Norfolk in self-defence might be impelled to protect his own reputation and disclose the source of his information.

Laurier's reply to Borden was as feeble as it was evasive. He did not get a hand of applause when he rose or when he sat down, although he assured the house that these private documents received in November, 1902, had not been shown by him to anybody. The keynote to the discussion was the premier's repeated replies to opposition inquiries, that he had tabled all correspondence relating to the G. T. P. deal and that there had been no application for a land grant, while it is now a matter of record that Hays et al asked for a big land grant in addition to cash and credit assistance. It was a very bad afternoon for the administration.

dropy of the abdomen, should apply at once and become registered as regular patients. All correspondence will be held strictly confidential.

As is well known, Dr. Hartman is the president of the Hiram's Sanitarium, an institution which has a department devoted exclusively to the treatment of female diseases. He is thus brought to see thousands of such cases every year, the most of whom return to their homes to be treated by correspondence. The principal remedy he relies upon in such cases is Peruna, which every woman should have who has any affection of this kind. Those wishing to become patients should address Dr. S. B. Hartman, Columbus, Ohio.

It was that strangled immigrants by the streets of Montreal, penniless and helpless. Rosamond of North Lanark backed up Clarke's enquiry, stating that this week a steamer had carried Austrian immigrants reached his riding.

Montk held the government responsible for permitting the importation of an undesirable class from the European ports by irresponsible agencies, while the United States carefully guarded its interests by having a special system of inspection at all trans-Atlantic ports.

Sifton contended that the Canadian government had done all possible to still immigration through respectable channels, but that Lord Strathcona to take the most vigorous steps to expose the swindle. The trouble in the present case was that the stranding of the steamer was not far from else they could be given work in Ontario and the great west.

The debate was continued by Holmes of Ontario, and by the Hon. Mr. Sam Hughes, Jabel Robinson, Puttee of Winnipeg, Monk, Borden of Halifax, and others, in which government members of proper pretensions against pauper labor from Europe was made so clear that even Sifton had to assume an apologetic tone and promise to amend the bill.

The house adjourned at 11:05 p. m. Mr. Sifton moved a second reading of his bill in favor of registration of union labels, on the same lines as in 31 states of the American Union. The bill was the same as that in England under the Trade Act.

Speaker Belcourt ruled the bill out of order, as it interfered with trade and could not be introduced by a private member except by resolution. Smith at once gave notice of the necessary resolution.

The house adjourned at 12:25 a. m., all the night being taken up with private bills of little or no interest to the maritime provinces.

PROVINCIAL NEWS.

ST. ANDREWS, May 30.—Charles W. Wallace of Providence, R. I., arrived in town on Saturday last. He is staying with Mrs. Maria Bradley. Capt. George Lowery arrived from New York via steamer last Saturday. John Kelly, dominion inspector of lighthouses, arrived from St. John by steamer. While here he will look over the work so far done towards the erection of the lighthouse on the eastern end of New Island.

MILLTOWN, May 30.—The funeral of Mrs. Patrick Tyrrell, who died on Monday last after a long illness, took place Wednesday. Rev. E. Doyle officiated at a high mass of requiem at St. Stephen's Catholic church. Interment was made at the Catholic cemetery.

Mr. Cleland of Barter Settlement died at his home Friday, after being in delicate health for some time. Mr. Cleland was an aged and highly respected man and made friends with all who met him.

PARRISBOHO, N. S., May 30.—Capt. Salter of the dismasted schooner Keswidge got tired of waiting for a tug and brought his vessel up the bay yesterday morning under way sail. The flood tide, however, carried her past this port, so the tug Parrisho was sent to her assistance and succeeded in docking her safely in the river. The hull of the schooner is unharmed and is perfectly tight.

Arrangements are being made to have a spelling bee at an early date in aid of the funds of St. James' Presbyterian Church. It is understood that the married ladies taking part in the contest will compete with the single men, while the unmarried ladies will try to cast their spurs over the benedict.

A marble quarry which is believed to have good potentialities has been discovered about three miles north of the town, among the foothills of the Cobequid mountains. There are good grounds for believing that the quarry is a large one; the quality of the marble is said to be excellent, and the veins of the specimens that have been taken from the outcrop and polished are very handsome.

A W. C. Coffey, who, with the family, spent the winter in Pensacola, arrived here last week. His family are at present visiting relatives in New Brunswick, but expect to resume their residence here next week.

The sail-loft belonging to the estate of the late Clarence J. Drillo is being purchased by R. Thompson Smith. The steamer business will commence the Minas Basin service on June first.

Dr. F. A. Corbett is going to Montreal to take a post-graduate course at McGill University. The owners of the steamer Kippick have secured the contract of supplying coal to the fog alarms of the Bay of Fundy.

MCCADAM, May 30.—A very successful picnic was held on the shore of the Waukegan Lake at McCadam on Saturday, May 28th. The picnic was organized by the Rev. J. M. Glendon, assisted by Mrs. Weeks, Mrs. Wise, Miss M. Wise and other members of the English church, its object being the reduction of a small debt which still remains on the church building. The usually quiet shores of the lake had quite a festive appearance, and many of the young people were seen in the mirth-loving children, whilst gaily decorated booths, swings and shooting ranges made both money and amusement. A yachting race took place at 5 p. m., and resulted in favor of L. C. Orr, and pleasure boats were playing to and fro all day. About 150 people partook of an excellent supper which was served in the club boat-house from 6 to 7 p. m., and at 8 p. m. the party broke up, hearty thanks being given to Mr. G. F. Morton, Miss M. Wise and general Ned Leflamme, who had presided over the refreshment booths all day. A little over \$100 was realized during the day.

Baby's Own Soap. Pure, Fragrant, Cleansing. The best for delicate skins. Albert Toilet Soap Co., Ltd. MONTREAL.

infant child of Lawrence Sears was buried. On Monday afternoon, after the arrival of the train from Petto-diac, the funeral of the late James Thorne took place. Rev. Mr. Hutchison of Moncton, conducted the service at the grave.

The last concert in aid of the Bell fund for the Baptist church took place on the 24th. The ladies interested have now enough money to procure a good bell and are negotiating for the purchase of one.

This afternoon horses owned by Samuel Perry ran away and injured themselves badly. They were attached to a roller and were driven by a young lad named Martin Keith. A bolt came out of the roller and the horses took fright. Young Keith was badly injured, but will recover.

HAMPTON, N. B., June 1.—With a full cast of ladies and gentlemen the Hampton Amateur Dramatic Club presented to a large and delighted audience in Agricultural hall the very humorous and interesting comedy of "Joshua's Courtship," in four acts.

The funds realized were for the benefit of the Hampton Cornet Band, who played a number of pieces before the curtain went up and between the acts.

Mr. and Mrs. Hammond J. Evans of Chatham are visiting at the home of the Rev. Dr. and Mrs. Evans on Exchange Street.

ST. ANDREWS, May 31.—T. R. Wheelock of Boston, Mass., arrived here by C. P. R. yesterday to look over his summer residence. He will return to Boston and with Mrs. Wheelock and family will come back about the 29th.

W. M. Law, C. P. R. station agent, got his foot jammed while assisting to unload four barrels from a freight car.

take the place of the operator here. His stay was brief, as Robert Fisher, the St. Andrew's operator, returned by steamer this afternoon.

A club of young men of this town, with whom some Eastport, Me., young men are associated, are building on a piece of ground near the outlet of Chamcook Lake leased from D. Rankine a cottage for a summer work.

Mrs. H. F. MacNicol, with her son and daughter, Calais, Me., Mrs. Chandler, Miss Julia Chandler, St. John, are registered at Kennedy's.

HOPEWELL HILL, May 31.—H. H. Stuart, who has been principal of the superior school here for the past three years and two half, has accepted the principalship of Harcourt, Kent Co., superior school, and has tendered his resignation here to take effect at the close of the present term. Mr. Stuart is a man of superior attainments and a good citizen in every way, and his departure will be a distinct loss to the community.

Stephen Beechin, jr., who has been undergoing examination before Justice Jones at Hopewell Cape, was today acquitted of charges of theft, adultery and rape. Clerk of the Peace Dixon conducted the prosecution, A. W. Bray appearing for the defence.

W. J. Carraway's steam mill has been moved to this place to saw a cut of about 1000 ft. long.

HARTLAND, May 31.—George Stickey died at his daughter's residence, Lower Brighton, on the 28th inst. The deceased was in his 84th year and was a native of New Brunswick. He was married to Mrs. M. A. Stickey, nee Jones, who died in 1880. He was a member of the Baptist church, and was a very good man.

W. W. Shaw's mill was burned to the ground yesterday. It is supposed that the fire caught from a hot box. Sawn lumber to the value of \$400 was also burned. The mill was insured for \$1200. Mr. Shaw will rebuild it once, as he has over a million of lumber to saw.

BLOOMFIELD STATION, May 31.—At last week's meeting of Happy Home lodge the following delegates were elected to attend the temperance convention in St. John next month: R. A. Brown, P. A. Gerow, O. A. Wetmore. There were about 3,000,000 feet in the boom above the bridge, reaching about a mile up the river. As the water has fallen these have been cut up into 1000 ft. logs. The presence of so much lumber has interfered with shad fishing, though one of them, O'Meara, has been seen in the river, and has been taken upwards of 70 each night for two nights in succession.

W. W. Shaw's mill was burned to the ground yesterday. It is supposed that the fire caught from a hot box. Sawn lumber to the value of \$400 was also burned. The mill was insured for \$1200. Mr. Shaw will rebuild it once, as he has over a million of lumber to saw.

SUNLIGHT SOAP. It is made of pure fats and oils and contains no dangerous ingredients. It is pure soap that gives absolute satisfaction.

The Rectory, WINDSOR, May 28th, 1904. To the Editor of the Sun: Sir—During my recent visit to your city I have learned that very many members of the Church of England have a feeling that King's College, Windsor, N. S., is an institution for which they have no sort of responsibility, from which they derive no sort of benefit, and in the management of which they have no share.

Will you kindly allow me space in your journal to set this matter straight? The college was established for the Church of England of New Brunswick just as much as Nova Scotia—at that time, and the members of the college are now in the same position. The Bishop of Fredericton is now the Bishop of the Maritime Provinces just as much as the Bishop of Nova Scotia was at that time. The Board of Fredericton is now the Board of the Maritime Provinces just as much as the Board of Nova Scotia was at that time.

After careful thought over these points it is most admitted that the Diocese of Fredericton has quite twice as much power in the control of the college as the clergy have; and that the Diocese of Fredericton, in proportion to its church membership, has fully as much control over it as has the Diocese of Nova Scotia.

The location of the college in Nova Scotia and New Brunswick is a matter of preference for one province over another. The college could not be located in two places at the same time. It is a matter of preference for one province over another. The college could not be located in two places at the same time. It is a matter of preference for one province over another.

I think that when the foregoing facts are fully considered and grasped by the church people of New Brunswick, they will be willing to assist the present movement in aid of the college by their funds when called on for that purpose, and by sending their young men as students to their own time-honored institution, which has sent out in the past so many of our best men into all the walks of life.

It is my hope that very shortly these and other facts will be more fully explained to the church people of New Brunswick by our new president, Ian Campbell Hannah, M. A.

Yours truly, S. WEBSTON-JONES, Agent of King's College.

27th May, 1904. To the Editor of the Sun: Sir—It is always disagreeable to be directed by an outsider to a very apparent imperfection in something one has done, but I am sure that the error of exaggeration. And this is the reply I received: "If you doubt me, then go and see for yourself."

Never in my varied experience of markets throughout this dominion and in other countries have I seen such a great amount of such unreasonably fifty-looking tables and shelves. That our butchers have so little conception of the fitness of things is deplorable. But that the local authorities should permit such utter disregard of more rudimentary cleanliness is still more disgraceful.

LETTERS FROM THE PEOPLE. To the Editor of the Sun: Sir—The paper only. Send your name, not necessarily for publication, with your communications, and we undertake to return rejected manuscripts. All unsigned communications are promptly consigned to the waste basket.

Will you kindly allow me space in your journal to set this matter straight? The college was established for the Church of England of New Brunswick just as much as Nova Scotia—at that time, and the members of the college are now in the same position.

After careful thought over these points it is most admitted that the Diocese of Fredericton has quite twice as much power in the control of the college as the clergy have; and that the Diocese of Fredericton, in proportion to its church membership, has fully as much control over it as has the Diocese of Nova Scotia.

I think that when the foregoing facts are fully considered and grasped by the church people of New Brunswick, they will be willing to assist the present movement in aid of the college by their funds when called on for that purpose, and by sending their young men as students to their own time-honored institution, which has sent out in the past so many of our best men into all the walks of life.
