

MEIGHEN HITS KING'S CRY OF GOVT FRIENDS

Big Interests Essential to Growth of Canadian Trade Declares Premier.

LIBERAL LEADER SLOW GRAPPLER

Men With Biggest Incomes Pay Seven-Tenths of it to Federal Gov't in Taxes.

Chilliwack, B. C., Nov. 1.—A great crowd turned out this afternoon to hear Premier Meighen discuss public questions. Mr. Meighen spoke of taxation, the railway problem and the tariff.

The National Liberal and Conservative party, said Mr. Meighen, had been drawn from the old historic parties and people, members of neither, who wished to abandon the prejudices of the past. The Government had been the butt of a very general and exceedingly loose criticism.

Must Have Big Business

Referring to the charge that the Government favored the big interests, the Premier stated that as long as there were demagogues the accusation always would be flung at the Government no matter what it did. Unless Canada had big business it could not very well compete with the United States and other countries. Big business was being encouraged in Great Britain.

Twenty-two thousand miles of railway had been nationalized, although appeals were made for the Government to stay its hand. It was not the Government who were favoring the big interests, then, but their opponents, who objected merely for the sake of opposing.

Very Slow "Grapple"

Mr. Mackenzie King, declared the Premier, said he was grappling with the profiteering question. Why had he made no move during the last four years for a higher or lower tariff? The Government had exhausted every resource possible without stifling business. Men with the biggest incomes paid seven-tenths of their whole income to the Federal Government in tax, and this course was adopted irrespective of the lower rate in the country to the south. The opposition platform declared for elimination of the tariff on the principal articles of food. Was not fruit one of these? King stated the Premier did not talk of fruit when in the Yale constituency, but devoted himself to sugar.

After a complimentary banquet tendered by friends the party left this evening for Greenwood, B. C.

Bolsheviki Claim Anti-Red Force Has Been Struck a Terrific Blow.

The Red wave is flooding the Taurida region. Wrangel is making a gallant defence. He is prepared to withdraw from the Crimea across the Sivash Sea.

The Reds already claim the capture of Perokoh.

Former Horse Car Conductor Wins The Nobel Prize

Lost His Position on the Line for Neglecting Fares to Read Books.

Chicago, Nov. 1.—Knut Hammen, Norwegian author and formerly a conductor on the Old Haled street car line, back in the early eighties, has won the 1920 Nobel prize for literature, friends learned here today.

Hammen came here from North Dakota, where he had worked on a farm and after being discharged from the horse car line because he read books instead of collecting fares and ringing bells, he went West and obtained a berth on a Newfoundland steamer fishing boat. He returned to Norway in the early sixties and in 1893 brought out his first volume—a collection of "Pam" poems.

Blondin, Postmaster-General, who has returned to Canada from Madrid, where he attended the International Postal Union Convention, was pleased with the reception the delegates received in the Spanish capital. Asked if he had witnessed any bull fights, said that he had seen one and it was "a most disgusting sight."

Mr. Blondin stated that the railway and steamship companies will get increased rates for the carrying of the mails as a consequence of the deliberations at Madrid.

So far as Canada was concerned, the only subjects of interest discussed were the payments for carriage of mails and the basis of reimbursements.

TORONTO'S INTEREST IN CONSUMER NOT DEEP SAYS FOSTER

Toronto, Nov. 1.—Sir George E. Foster, replying to a letter from Mayor T. L. Church, of this city, urging the Federal Government to take steps "to relieve the burden on the consumer," points out that the Board of Commerce has been "practically dismantled," and holding out little hope of the Government doing anything in the matter, as its legal powers are "very limited."

However, Sir George intimates that as the city has not taken advantage of its powers to "undertake and carry out investigations," it is evident that the municipal authorities are not very deeply interested in the matter or refuse to assume responsibility.

ST. JOHN'S TO HAVE 200-ROOM HOTEL

Toronto, Nov. 1.—St. John's, Newfoundland, is to have a 200-room hotel, to cost \$1,000,000, to be operated by the United Hotels Company, the capital to be invested in it to be local capital. Arrangements for the undertaking were made at a conference here today, when Hon. Sidney D. Blatchford, high sheriff of Newfoundland; B. R. Stafford, wholesale druggist, St. John's, and George H. O'Neill, general manager of the King Edward Hotel, Toronto, discussed the plans for the new hotel.

BETTING NINE TO ONE THAT HARDING WINS

Several Wagers of \$8,000 to \$1,000 Reported on Wall Street by Politicians.

LONGEST "SHOT" EVER IN AMERICAN FIGHT

Little Money in Sight Anywhere to Support Governor Cox as a Winner.

New York, Oct. 1.—"Election bets the night before" make Senator Warren G. Harding a strong favorite. Odds quoted for the fight ran from 7 to 1 to 9 to 1 for Harding, with it reported, few takers.

Even money was the price in Wall Street today that Harding will have more than 225 votes in the electoral college. Several bets of \$8,000 to \$1,000 against Governor Cox were reported during the day by one Broad street broker. No candidate for President has ever had such a long shot on the street as was today.

Much of today's betting on Cox, it was said, was in the nature of hedging by those who had put up money on Harding in the early part of the campaign at odds of 2 to 1 and 2 to 1 to 1.

Betting on the state gubernatorial contest was lively today, the odds on Nathan Miller, Republican candidate, being about 3 to 1.

TWO FEET OF SNOW IN WESTERN STATES WITH WIRES DOWN

Hon. Mr. King Maintains Real Fight is Between "Hidden Interests" and People.

The heaviest fall was in Fremont County, Wyoming, where 25 inches of snow covered the ground. In Nebraska and South Dakota a heavy snow was reported in a number of counties, while Minnesota reported snow in some districts and rain in others. In parts of Nebraska and South Dakota, wire communications has been interrupted.

MUST HAVE FULL OUTFIT TO START SEARCH FOR OILS

Gov't Will Not Permit Half-Equipped Prospectors to Go Into Fort Norman District.

Ottawa, Nov. 1.—The federal authorities are opposing a proposal that an ordinance has been passed by the governor of the North West Territories to turn back all persons who cannot show that they have sufficient provisions.

This is an order similar to that which was in effect during the rush to the Yukon in 1897, when the Mounted Police turned back every prospector who did not have with him at least sufficient provisions to carry him a year. Intending prospectors who have not the requisite supplies with them will be turned back by the mounted police at Edmonton or Peace River Crossing, or whichever post they are required to report before beginning their long trek northward.

CREW FOUGHT OFFICERS SEEKING HIDDEN LIQUOR

Boston, Nov. 1.—Customs officers who made a raid on the White Star lined Croick, at Commonwealth Pier today for contraband liquor, were set upon by members of the crew and beaten back with crowbars and other weapons. Police boats and a detail of patrolmen responded on a riot call.

With the aid of a detail of sailors from the coast guard cutter Andros-coggin armed with bayoneted rifles, the customs officials and police overpowered the crew, some of whom attempted to resist with knives. The raid was then completed, 400 bottles of cognac being found under the floor of the engine room, where 600 bottles were removed yesterday. A quantity of drugs sequestered in garret also was found.

The posters were signed by the United Communist party but the men arrested on charge of disorderly conduct denied being communists and said they were promised \$20 a day for distributing the placards.

Fake to Fool You. "The whole election business is a fake to fool you," read the placards, beneath a large caption, "Overthrow the capitalist government, establish a Soviet government," they suggested, adding that the communists had no candidate in this election "because of government persecution." The police are searching for an automobile which is believed to have been used by the Communists for distributing the posters all over the city.

LLOYD GEORGE URGED TO HOLD ELECTION NOW

Talk is Revived by Editorial in Sunday Observer Advising Such a Policy.

CLAIMS PREMIER IS TORY AGENT

Friend of Gov't Thinks General Election Essential to Clear Political Atmosphere.

London, Nov. 1.—The principal editorials of the leading newspapers discuss the possibility of a general election.

When the coal strike was first looming up, the common speculation was that Premier Lloyd George would make a dramatic appeal to the country, asking renewal of office on whether the parliament trades unions should hold the reins of government. This talk died down with the possibility of a settlement of the dispute.

The present newspaper discussion started yesterday in the Sunday Observer, which is by no means unfriendly to the government, and now urges the Premier to call a general election in the spring.

Defending its Position

The Times editorial on the subject is mainly devoted to declaring its own impartiality of public matters which even if it gave a conditional majority, would also give a larger preponderance to the Unionist section of the coalition than they now hold, and Premier Lloyd George would have to appear openly as what he is now secretly, namely, the agent of the Tory party.

Rowell, former president of the privy council, who will be the third delegate to the league.

B. N. A. Act Amendments

The amendment to the British North America Act concerning the question of giving to Dominion legislation the same force of extra-territoriality as now the case with legislation passed by the parliament of the United Kingdom. The amendment sought does not simply that the Dominion Parliament be empowered to pass laws which would have force outside the boundaries of Canada. It implies that Canadian committing offences against Canadian law, while they are outside Canada, may be punished on their return. Airmen and seamen are cases in point.

Boundary in Labrador

The question of the Canadian-Newfoundland boundary in Labrador arises over a disputed stretch of territory and affects Quebec more particularly. The Dominion Government and the Provincial Government of Quebec have, it is understood, reached an agreement on points at issue. Naturalization is to be discussed also with the British authorities. Efforts have been made in recent years to secure uniformity in naturalization laws passed by the Imperial Parliament and by the parliament of the self-governing dominions. In debates both at Westminster and at Ottawa, however, there have been numerous amendments suggested, and these will be taken up in the London discussions. The status of the Canadian woman married to an alien and therefore becoming by marriage the subject of an alien state, is one important point. Some provision has already been made to enable such a woman to resume her British nationality under certain circumstances, but further action in the matter is to be considered.

Nineteen pens of ten hens each are entered from various parts of the province while two pens of birds are entered from the Experimental Farm. The birds entered are splendid specimens of the barred Plymouth Rock variety and are the best class of birds in the province. The contest will carry on for one year and will finish up on November 1st of next year. In the contest which recently closed at Napan, Nova Scotia, in which a number of pens of New Brunswick birds were entered, the New Brunswick hens carried off the first five and the seventh places, showing the result of Mr. McCulloch's work in the province.

New York, Nov. 1.—The recent law passed to safeguard the interests of the tenants at the recent session of the New York State Legislature were declared unconstitutional in a decision handed down late today by Supreme Court Justice Harry T. The judge, in rendering his decision said the law was unconstitutional because "it deprives landlords of all remedy for re-possession of their property," and "it is discriminatory between owners of old and new buildings and those who seek to regain possession for other purposes, to wit, to deny the equal protection of the law."

NEED WIRELESS AND AIRDROMES FOR LONG FLIGHTS

Commander Tylee Tells of Air Flight Across the Continent Recently.

MOUNTAIN SECTION WILD AND DANGEROUS

Weather Was the Worst in Thirty Years, Old Timers Declared.

Ottawa, Nov. 1.—With airdromes marked out every fifty miles and wireless control of the planes, there would be nothing to prevent a regular forty-hour air service between Halifax and Vancouver, according to General A. K. Tylee, air commodore, who reached Ottawa this morning on his return from the trans-Canada flight. General Tylee flew from Winnipeg to Vancouver as a passenger during the recent flight, and returned to Ottawa impressed with the possibilities of developing a commercial cross-Canada service.

Season Was Bad. The flight from Calgary to Vancouver in the trans-Canada journey was made in the worst season of the year, and, according to old residents of the mountain section, in the worst weather for thirty years. The fact that the D.H.9 was able to get through at all was looked upon as marvellous by people who had spent their last twenty or thirty years in the mountain country. For hours on their trip the aviators flew by compass, being unable to see the ground because of oceans of clouds, and at other parts of their journey they encountered strong winds which whirled through the mountain passes and threatened to dash the plane and aviators against the tops of the mountains on either side of them.

Need Wireless Control. "With wireless control and airdromes cut out every fifty miles, there is nothing to prevent the trip being made from Calgary to Vancouver every day in about six hours. Had we had wireless in the plane and wireless stations on the ground to guide us, we could have gone right through, but without wireless we did not know where we were at times." Everywhere they landed the aviators were welcomed with enthusiasm, and in some of the smaller towns the landing of the trans-Canada plane was the signal for a half-holiday. At Minoru Park, Vancouver, the landing was made in six inches of water. Much of the flying was done at an altitude of about 15,000 feet, and General Tylee stated on his return that the flight has been of great value to the Air Board in getting actual information as to flying conditions and the need of organization for commercial flying.

POLLING VOTE IN SELECTION OF PRESIDENT

Seven Presidential Candidates in U. S. Contest Have Sent the Cases to People.

MANY STATES ARE PICKING GOVERNORS

Senators, Representatives, Governors and State Legislators to be Elected.

(Continued from page 1.)
 Seasoned campaigners reckoned that at this stage, stakes played nearly as heavy a part as money, whose period of service had ended. For the stakes alone would determine the turn-out of voters, particularly in isolated sections of the country where heavy rains would upset the best laid plans for transporting voters to the polls.

Roads Bad in Places
 There are districts with streams which are flooded and cannot be crossed even on mule-back and certain states where the contest is close every ballot plays its part. In general, that is what the weather man had to say of a western disturbance which appeared today over Iowa and of the prospects tomorrow all over the country.

With the addition of women to those who choose the electoral college, party leaders, of course, expect a vote greatly swollen over that of 1916. Should the skies open the downpour could hardly discourage enough voters to hold that total below that of four years ago. And the ballot counters are not expecting a smaller, but much larger task—no large, indeed that the count may be known much later than in other presidential years.

Harding Stays Home
 Senator Harding, of Ohio, standard bearer of the Republican party, today retired to his home in Marion to await the decision of his countrymen. To his party managers he left detailed forecast of the vote and from Chairman Hays, of the Republican National Committee there was forthcoming tonight reiteration of confidence in a Republican victory. Mr. Hays, however, issuing no formal statement, announcing he chooses to remain "mute" until the ballots had been counted.

Cox Ends Campaign
 Governor Cox, Ohio's native son, selected by the Democratic party as its choice for the White House tonight delivered his final campaign address in Toledo and returned to his

BEDSTEAD AND MATTRESS TAKEN IN \$250 ROBBERY

\$250 Worth of Bedding Stolen from D. S. C. R. Hospital on Saturday Night.

Special to The Standard
 Fredericton, N. B., Nov. 1.—A complete bed, a number of mattresses, some pillows and upwards of 100 sheets were stolen from the D. S. C. R. Hospital on Saturday night.

The missing property is valued at more than \$250 and was taken from the lower wing of the hospital during the night, but by what means the staff was removed is not entirely settled.

COMMISSIONERS NOT READY TO SPEAK

Several members of the Board of Hospital Commissioners were questioned by The Standard last evening as to whether they had any statement to give regarding the criticism of the hospital appearing in the morning papers of Monday, or the charges said to have been made by the Board that there was fault to be found with the staff. The Commissioners interviewed replied that they had nothing to say at present, but that doubtless the whole matter would be taken up at the regular meeting of the Board on Wednesday next.

Montreal, Nov. 1.—Last week Joseph Daoust, president of Daoust, Laonde & Company, shoe manufacturers of this city, met his workmen and members of the Boot and Shoe Workers' Union and discussed the general situation as regards the trade, and later met the union at their headquarters. The proposal was that, owing to slackness in trade, he should close his company's plant entirely or that the men accept a reduction of five per cent. in wages and the plant to operate for thirty hours weekly.

ELEVEN NEGROES IN JAIL FOR BURNING MANY COTTON GINS

Montgomery, Ala., Nov. 1.—Eleven negroes were in jail here today in connection with the burning of cotton gins, dwelling houses and churches by unidentified persons, supposedly night raiders. Officials, however, expressed the belief that the destruction had been directed by white men.

WHY HAVE CATARRH

So Disagreeable to Yourself and All About You.

Catarrh is generally conceded to be a constitutional disease. Therefore it requires a constitutional remedy like Hood's Sarsaparilla which reaches every part of the system by thoroughly purifying and enriching the blood. This medicine removes the cause of the trouble, which if not checked may lead to more serious disease.

In 48 years of use and test Hood's Sarsaparilla has relieved many cases as told by voluntary letters of commendation. Why not get a bottle to-day and give it a trial? It combines economy and efficiency. Keep Hood's Pills on hand as a family cathartic.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

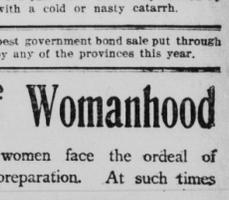

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more yawning, snuffing, blowing, headache, dizziness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

MYSTERY OF ROYAL DEATH IS EXPLAINED

Story of Prince Rudolph's Passing Unfolded for First Time.

CROWN PRINCE WAS MURDERED

Hit With Champagne Bottle and Skull Crushed—Had Row With Two Greeks.

Paris, Nov. 1.—The "Mystery of Mayerling," as the mysterious death of Crown Prince Rudolph, of Austria, is known, which there have been built many legends has been lifted by a member of the Hapsburgs for the first time.

Archduke Leopold Ferdinand, in an article in the Berlin Voessische Zeitung, sets what he declared is the true version of Rudolph's death. Ferdinand, in all claim to the throne, taking the name of Leopold Voessling, and marrying the girl of his choice.

The Archduke says that the real story of the death of Crown Prince Rudolph was told to him by his father, who was the most intimate friend of the old Emperor Franz Joseph and the Crown Prince. Ferdinand himself was also a close friend of Rudolph, knowing him intimately for a number of years. In his story the Voessische Zeitung he describes the unhappy marriage of Rudolph to Princess Stieglitz, of Belgium, the match having been arranged by the respective royal houses without consulting the young couple. He tells of her violent jealousies and how the stormy home life of the royal couple finally threw Prince Rudolph into the arms of the beautiful Baroness Vetsera.

After some difficulty Emperor Franz Joseph finally secured the word of honor of Crown Prince Rudolph that he would break with the Baroness.

"But," says Ferdinand, "Rudolph gave his word with the mental reservation that he would see his love once more and drain to its dregs the painfully sweet cup of farewell."

"On that last evening there were numerous guests at the hunting lodge of Mayerling, including Hektor Hektor, famous racing man, and his brother, Aristide, both Greeks. Hektor was generally reported to be the fiance of the pretty Baroness, of whom the Crown Prince was enamoured."

"During a part of the evening the gentlemen were all in one of the small parlors of the lodge. The Baroness was elsewhere at the time, and there was the customary heavy drinking by the men. Rudolph could never stand much drink, and after a few glasses of ten became very violent."

"A discussion which arose became very heated, and Rudolph soon counted on the hot-blooded temperament of the two Greeks."

"It will probably never be known just how the trouble started, but soon there were threats of the use of daggers and swords, and as these threats were made, everybody jumped suddenly to their feet."

"Struck by Bottle.
"At this moment, without any warning, a full champagne bottle was hurled with tremendous force across the table. Rudolph dropped as if struck by lightning."

"A few moments later the Baroness Vetsera entered the doorway, where she was seen to stand as if petrified at the figure of her lover stretched on the floor. Suddenly there was a shot, and the Baroness Vetsera fell dead not far from the spot where Rudolph had fallen."

"The body of the Crown Prince was taken to the palace in Vienna with the glass splinters from the champagne bottle still sticking in the wounds in his smashed skull."

BE SUSPICIOUS OF TENDER GUMS

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhoea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

Gradually the gums become spongy. They inflame, then shrink, thus exposing the unarmoured tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system. Medical science has traced many ills to these infecting germs in the gums weakened by Pyorrhoea.

They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.

So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhoea (Riggs' Disease) if used in time and used consistently.

And in preventing Pyorrhoea—it guards against other ills.

Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment.

SILENT APPEAL OF HER MOTHER SAVES DAUGHTER

Girl Faced Sentence for Attempted Murder But Mother's Plea Saved Her.

By HENRY W. FRANCIS. (Copyright, 1920, by Cross-Atlantic.)

Paris, Nov. 1.—The silent appeal of her mother to the court, saved Helene Jarry, an Orleans weaver, from a sentence for attempted murder of the girl's mother. The girl had cut her mother's throat last June following a scolding. Only marvelous surgery saved her mother's life, but she was left dumb for life. At the daughter's trial, the mother appeared at the court and through an interpreter begged to be allowed to take the girl home, pledging the would see that the girl had the best corrective influences. The daughter, who is eighteen years old, knelt in court and joined her prayers with her mother's, and the jury was swayed by the mother's mute eloquence.

GREAT RAT SLAUGHTER.

Corpus Christie, Tex., Nov. 1.—More than 6,000 rats have been killed here to date at an average cost of 5 cents per rat, according to Boy Scouts headquarters conducting a campaign. Examination of the rats failed to show a single symptom of bubonic plague, it was said.

HER CASE SEEMED HOPELESS

But "Fruit-a-tives" Brought Health and Strength.

29 St. Rose St., Montreal.

"I am writing you to tell you that I owe my life to 'Fruit-a-tives.' This medicine relieved me when I had given up hope of ever being well. I was a terrible sufferer from Dyspepsia—had suffered for years and nothing I took did me any good. I read about 'Fruit-a-tives' and tried them. After taking a few boxes of this wonderful medicine made from fruit juices, I am now entirely well."

FOUND GIANT SKELTON.

Pittsburg, Nov. 1.—Excavation of a mound near Greensburg by Dr. W. J. Holland, curator of the Carnegie Museum in this city, has disclosed the skeleton of a man who in life was almost nine feet in height. The mummified torso, according to Dr. Holland, was buried more than four hundred years ago and was, he believed, that of a member of a prehistoric race inhabiting North America before the Indian.

THEY ARE ALL DOING IT NOW

Following Prince of Wales Example Sir James McKechnie Buys Canadian Ranch.

(By FRANK TEWSON) (Copyright 1920 by Cross-Atlantic.)

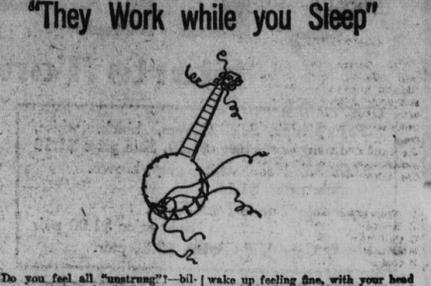

London, Nov. 1.—Sir James McKechnie, chairman of Vickers, Ltd., is planning the purchase of a ranch in Western Canada, but he informs me that the details are not fixed yet. "It is a private venture," he said, "and is not connected with the firm. I will probably choose a location in Alberta, as I believe the Prince of Wales was well advised from an agricultural viewpoint to select that province on his ranching venture. I hope to re-visit Canada early in 1921, starting my ranch operations then. Emigration to Canada as the 'coming country' is almost a platitude, she has already arrived. Natural resources and waterpower guarantee her prosperity and with full development there is no competitor on earth that Canada need fear."

DELAWANA FOUGHT EVERY INCH OF COURSE

Capt. Tommy Himmelman, as he appeared at the wheel of the Lunenburg schooner yesterday, when he put up a brand of seamanship that made them all sit up and take notice.

SECOND OF INTERNATIONAL RACES PROVED THRILLER

Esperanto, American Boat, Wins Out by Narrow Margin After a Race Calling Forth Great Seamanship and Battle of Wits—Remarkable Contest from Start to Finish—Delawana Led Up to Last Leg.

Halifax, N. S., Nov. 1.—Taking the lead after Captain Himmelman, master of the Lunenburg schooner Delawana, had shown him the way for twenty five miles of the forty mile course, Captain Marty Welch, Blue-nose skipper of the Gloucester schooner Esperanto, yesterday won his second and final race of the 1930 international series off Halifax harbor. The Delawana's lead was not unbroken, but she was the North Atlantic fishing fleet, and the big end of the prize money—\$4,000 to be exact. Along with her, she carried a cup donated by Gloucester to the winner. Delawana, ten sail fishing down-downer, gets \$1,000 for second place and the credit for having very ably defended Canada's honor and put up a wonderful race against as fleet a fishing craft as has sailed in these parts for many a day.

Remarkable Contest

It was a remarkable contest and until the last buoy was reached the result was always in doubt. When Esperanto hauled on the wind, 22 seconds ahead, however, for the final three miles against the "dirty" easterner, six miles to the finish line, Lunenburg's hopes went glimmering. In the stiffened wind, Marty's fine lined schooner, deeper and sharper, ate into the wind like an American's Cup racer. Tommy's boat, flatter and with less grip on the wind, pointed almost as high with sheets very close-hauled, but sagged to seaward all the time. Bar accidents to the leading vessel, the Himmelman ship was a "goner." These were no unknown developments and the American schooner, having gained steadily on every tack, crossed the finish line for first prize, the winner by 7 minutes and 15 seconds. She had covered the course in 7 hours, 34 minutes and 30 seconds.

Game of Wits

It was a race between skippers today almost as much as between boats, though the American captain obviously had the faster craft. Marty played a canny game. Seasoned old salt that he is, he had plenty of tricks up his sleeve, though before the race was over, the Himmelman's had forced him to put about all his cards on the table. Tommy and Albert had their wits about them and met the Nova Scotia-Gloucester man at his own game. "They made one costly error, however, that lost them a good bit of time, though it would not be fair to say that it lost them the race. On the long tack out to Shut-In Island bell, the third leg of the course, the Canadian boat oversteered the mark and gave the American a net gain of several minutes. Captain Tommy himself admits that this mistake was made, though his admirers—and they are legion—say that his estimate of "a mile wasted" exceeds the actual loss, which they place at more like half a mile. However, that may be, this was Captain Tommy's only stumble and he more than made up for it by his masterly judgment at every other stage of the race.

Running in Shoal Water

It was a real treat to see the fight he put up to keep Marty under his lee on the reach back to Inshore automatic. The American had more speed at the time and so lost the advantage, but Himmelman kept him back a long time when Marty wanted for the weather berth. There was one very exciting moment on this leg. The

Delawana was extended by Senator Harding, Republican candidate for President, in a telegram received by the boat's owners here tonight.

"Have just learned of the victory of your schooner Esperanto," the telegram said, "and wish to extend my warm congratulations. Such competition can only have the effect of stimulating interest in the great work of re-establishing and maintaining our merchant marine and redirecting the interest of our people toward the sea. That is a task worthy the best efforts of all of us."

The victory of the Esperanto was the signal for a general celebration here today, and plans are being made for a suitable reception upon the return of the crew to their homes here.

Some youngsters from the light station at the island scampered about on the shore shouting like mad. They were the only ones, outside of the crews of the two ships, to have a close view of the action. The committee boats were two miles to sea on a direct course for the inner Blower.

There was another nice little joust at the buoy and Tommy had the better of it. Esperanto, which had finally succeeded in passing to weather of Delawana, rounded the mark for the heat home 22 seconds ahead. Captain Himmelman's schooner in between Marty and his buoy almost scraping the rust of the blower. His stunt had brought him to weather of the American, but it was his last card. Thereafter it was between the boats, not the skippers, and the windward thrash home gave Esperanto the race.

Wind did it. Marty Welch, when interviewed, said that it was the wind that did it. "In the light wind the Delawana had us, but in heavier wind as we approached the harbor we walloped ahead. But she is a game, a very fine vessel and a splendid crew."

Just then a member of the Esperanto's crew came down the companionway calling out "Captain we gave the Delawana a cheer." That's just what you ought to do, they are a fine bunch and deserve it," called up Marty Welch.

Captain Himmelman was taking the defeat as every true Blue Nose would have him take it, gamely and honestly. When asked for the reason of his losing the race he said "Oh, I over-shot the mark, when I oversteered a mile further than I ought to have in passing Shut-In Island bell buoy."

LIBERAL LEADER AT WINNIPEG REPEATS 'BIG INTERESTS' CRY

Wyoming Has Great Snowfall While Nebraska and South Dakota Are Buried.

Winnipeg, Nov. 1.—Hon. W. L. Mackenzie King, Liberal leader, addressed two big meetings here tonight, one in St. Boniface, and one in the Board of Trade building. The latter was probably one of the best meetings of his tour from the Liberal leader's point of view. In the city he dealt lengthily with the platform of the Liberal party and the errors of the present government as he saw them. Hon. Dr. Beaudry also spoke in support of the party.

Dr. Beaudry, M.P. for Bonaventure, attacked the present government on the grounds that it did not represent the will of the people as expressed in 1917, and in support outlined the present composition of the cabinet. The party name was decided upon as a deliberate attempt to mislead the public.

Spends Too Much

From a fiscal standpoint, Dr. Beaudry declared that while Premier Meighen is going about saying "all is well," the government is using the war as an excuse to cover many blunders and much extravagance. August expenditure by the government was \$38,000,000 for ordinary purposes, he said, an increase of \$9,000,000 in one month. The government system of taxation, he held as burdensome to all.

MR. KING'S ROUND-UP.

Mr. Mackenzie King is getting deeper. He long ago realized that the party of which he is leader is utterly incapable of securing the confidence of the people, so he has sent out a sort of Macedonian cry to all and sundry who are opposed to the Meighen Government to rally under his banner, and make a combined effort to upset the present regime. He is willing to enroll any body so long as they are opposed to the Government party, and no questions will be asked the new comers. The gathering is to meet today in Winnipeg. What amount of success will attend his efforts remains to be seen; but if he can put up no better arguments today than he has hitherto been able to put up for the deposition of the Meighen Government, the latter has no cause for alarm. As a long distance fighter Mr. King excels; but as a statesman worthy to become Prime Minister of Canada he leaves much to be desired.

The United Farmers are specially invited by Mr. King to attend his meeting. He will probably tell them the same story that he told the farmers at Prince Albert the other day, when he said that the latest revenue figures show that out of a total of \$220,000,000 only \$200,000 had been spent in agriculture. If Mr. King had not misquoted, he has made a statement which he as a member of Parliament must know is false. He sat in the House last session when the estimates were passed and the agricultural vote was some four millions. In addition to this vote there is a statutory estimate of over a million a year divided among the provinces for agricultural education, as a result of legislation passed by the Borden Government. Altogether five times as much is spent today on agriculture as when Mr. King's party went out of power in 1911. More money could be well spent in agriculture, but Mr. King's attempt to represent that the farming industry is being sacrificed for the development of other and less necessary matters is a cheap political ploy and as easily exposed as his other charges against the Government are.

When Mr. King can present a programme of sound and progressive policies to the people of Canada he may be able to get some of them to listen to him, but until then they will continue to put their faith in a man of proven worth and integrity, the Rt. Hon. Arthur Meighen, to wit, a leader who not only talks, but does things.

FRANCE AND GERMANY.

The French people cannot well be blamed if they look with some degree of alarm upon the attitude of Britain in regard to Germany's obligations under the treaty of peace. There seems to be a decided inclination on the part of British statesmen to treat the Germans with considerable leniency. The former have decided now not to confiscate German property in Britain if Germany defaults in her obligations. This is in addition to other concessions previously made to their late foe. There appears to be altogether too much philoquy in British methods to suit France.

Another matter upon which France is somewhat sore is in regard to the British attitude with respect to the remnant of Austria uniting with Germany, which is specifically forbidden by the Treaty of Versailles. France has to dwell alongside of her late enemy, which Britain has not, and it is not natural that she should be more distrustful of Germany, whose chief victim she was, than her late ally, but Britain, and also Italy, are not inclined to forbid the confederation, and France dare scarcely act alone. Hence her displeasure at once. Germany still is a nation of more than 60,000,000 even after Alsace-Lorraine, Posen and East Prussia have been taken from her. The Austrian Germans, who are all the Americans who have not been absorbed in some other nation, number 6,000,000. They are the kith of the South Germans; economically they say they cannot continue unless they are permitted to join the latter. France, however, says that her own population numbers only 40,000,000, and she naturally fears any such increase in the German strength as the union with Austria would give her. It would be a menace to France. Seeing that Germany no longer has a navy or merchant marine, Britain is not menaced, and Britain can afford to be philosophical about the peril which is such a reality to France.

Italy is rather inclined to permit Austria and Germany to unite, for it was not Germany that Italy feared in the past but Austria. Her menace came from Vienna and not from Berlin, and she believes that the proposed union would put an end to any possibility of the fragments of the old Hapsburg empire reuniting. Britain's foreign policy at present seems to be directed to the end of getting Europe

back to work and prosperity. France believes that her own security against further attack comes first. Her position has been weakened, she believes, by the failure of the United States to join the League of Nations, and by the failure of President Wilson to present to Congress the defensive treaty between France and the United States, to which he agreed when in Paris. France may be needlessly mistrustful, but the French character is extremely practical. France knows that she could hardly survive another war in a generation, whether she was victor or vanquished, and is not to be blamed for taking any steps which she may consider necessary to avert one.

CONSUMMATE IMPUDENCE.

We wonder what would be said and thought in the United States if a self-appointed commission of five Englishmen, with the sincere desire to improve the relations between Great Britain, the United States and the Philippines, were to undertake the consideration of conditions in the latter islands, and to find ways and means of improving them? That such a thing should happen is of course unthinkable, because Englishmen know enough to mind their own business; but if by any chance or other it could happen, Englishmen would be justly and more likely very impudently told to leave matters that do not concern them alone.

Yet we find from despatches from Washington that a commission of five persons has been formed in the United States to take up the Irish question, because "it is becoming a domestic political issue in the Republic" and that several Irish bishops, Irish mayors and other Irish witnesses will be called before the commission to give testimony. As a piece of consummate impudence, such a course can hardly be surpassed. What is happening in Ireland has no more to do with the citizens of the United States than what is happening in Russia has. It has not very much to do with citizens of Canada, but they at least have some interest in affairs in the Emerald Isle if only on the ground that both belong to the British Empire. If the Irish revolutionaries did not have the backing and encouragement of the United States that they do have there would be a much better chance of a settlement of Ireland's troubles being come to.

A despatch from Havana says: "The Cuban presidential elections were held today with comparative quiet. No serious clashes were reported. Four persons were killed last night, and two today in minor affrays, and some were wounded." In order the better to look after Cuba's affairs, the United States went to war with Spain, and since then Cuba has been an American protectorate. If American citizens are so short of something to do that they must appoint commissions to inquire into conditions in countries outside their own, they might look into matters in Cuba, with which they are connected, before bothering with Ireland, with which they are not. Premises killings seem to be common in both of these islands.

Referring to the matter of teachers' salaries, the Bangor Commercial says that many teachers have sought other positions in the last few years and the reasons for the change have been similar to that which caused a Chicago college professor of fourteen years' standing to decide to enter a commercial line. The professor took action when he discovered that the man delivering goods to him from a bakery team was receiving three times the wage paid to him.

When King's College was destroyed some few months ago, someone suggested that it be removed to St. John, and the U. N. B. amalgamated with it. Judging by the escapades of U. N. B. undergraduates, the farther away from St. John they are kept the better for the city. Never a year passes without Halloween being marked by some idiotic act of vandalism perpetrated by some of their number, and on Encomia night no unoccupied building in the neighborhood of the university is safe.

Sylvia Pankhurst appears to find it difficult to keep out of trouble. For years she annoyed the Government and the public as well in her militant campaign for female suffrage, but now has received a jail sentence on the charge of sedition. It being claimed that she is representing the third international and is in correspondence with the Russian leaders. Unless release comes the query, "Where is Sylvia?" can be answered for the next six months, as that is the length of her sentence.

The Montreal Gazette rhapsodizes over Halloween, and says it is of great value to find our young people entering into the spirit of it, "with the

porting effects." The effect of Halloween on the state of our post at any rate did not add to its value; and just where "the sense of beauty and poetry in the human spirit" that prompted such a foolish frolic is not very apparent.

WHAT OTHERS SAY

A Seditious Suggestion. (Gulf Herald.)
 With fruit rotting on the ground in many orchards throughout Ontario, it would appear to be a pity that growers do not let it be known in the towns and cities that the fruit may be had for the picking. With so many autos around the offer would eagerly be taken advantage of.

Lessons of the Leaves. (Kingston Standard.)
 We should draw a lesson from the leaves, which put on their gayest. They make the landscape one gorgeous mass of color; there is no sadness in them. As soon as the trades unions begin to help in beautifying and enriching the earth in some other form; and so with us there is the knowledge that when our autumn has passed we shall in some form serve the purpose of a wise Creator.

O. B. U. Dying. (Halifax Chronicle.)
 From all appearance, says a Canadian Western paper, it is quite feasible to believe that the One Big Union is on its last legs. For some time now failure has dogged all its efforts. This has been occasioned by the activities of organized labor against its operations. As soon as the trades unions began to realize that this organization was threatening their existence they commenced their efforts to stultify the work of this outfit, and to regain the position they had at one time held in the ranks of labor. That they are being very successful is shown by the large decrease which has recently taken place in the membership of the O. B. U.

A BIT OF VERSE

THREE NAMES.
 When Governor Simcoe ruled this land—
 Oh, York it was muddy and dank—
 He built him a house, and after his wife,
 He christened it Castle Frank.
 One day he came home late for his tea,
 And his loving dame lived up to her name,
 And was as frank as Frank could be.
 "Why now," cried she do you this up-
 set
 "Your invited guests and me?"
 "Because," said Council could find no
 names,
 He said "for new townships three."
 "You men are dense," said the witty
 wife,
 As she gave her head a toss,
 "Go name them after my lapdogs
 here,
 "Tidy and Tay and Floe."

So the thing was done, and those frisking
 dogs
 Will live in this land for aye.
 You will find their names on the latest
 maps,
 Tidy and Floe and Tay.

THE LAUGH LINE

A Bargain.
 Artist—This is a fine picture, the best in my exhibition, but you can have it for half the catalogue price.
 Friend—What does the catalogue cost?
 Artist—Some relief.
 First Listener—"Isn't Miss Squawble's top note soothing?"
 Second Listener—"Oh, isn't it? When you hear that you feel you have passed the worst."

Not a Gift.
 Dyspepsia Specialist (irritably): "But, madam, you must chew your food. What were your teeth given you for?"
 Female Patient (calmly): "They weren't given to me—I bought 'em."

Ready for a German Holiday.
 "Have you anything here? What is in the small box?"
 "The wardrobe."
 "And in the large one?"
 "Our paper money!"—Lustige Blatter (Berlin.)

None the Less Tough.
 "We won't discharge you, Mr. Perkins," said the manager. "We will allow you to tender your resignation."
 "Tendering it won't make it any the less tough," gloomily returned Perkins.

Very True.
 Mrs. Figgers (in newspaper)—"Do you know, Henry, that every time you draw your breath someone dies?"
 Mr. Figgers—"Well, I'm sorry; but can't help it. If I quit drawing my breath I'll die, too."—Classmate.

Would Need Explanation.
 "Have you some very fine hydrangeas?"
 "No, sir. We have some very fine hydrangeas." "Nothing doing! It'd be a nice thing to have my wife come home and find the geraniums she left in my care turned into hydrangeas, now wouldn't it?"—Boston Transcript.

Vanished Joy.
 He who would taste life's happiness
 Must sip the cup when it is passed.
 He must not wait some future date.
 The present sweetness cannot last.

Age unto youth cannot return.
 The tides of pleasure cannot wait,
 Be glad today, if now you may,
 Tomorrow it may be too late.

Not Likely.
 A bishop was travelling in a mining country and encountered an old Irishman turning a windlass which hauled up dirt out of a well that was being dug. His hat was off, and the sun was pouring on his unprotected head.
 "Don't you know the sun will injure your brain if you expose it like that?" said the bishop.
 The Irishman wiped the sweat off his forehead and looked at the clergyman.
 "Do you think I'd be doing this all day if I had any brains?" he said.

IN THE EDITOR'S MAIL

To the Editor of The Standard.
Dear Sir:—The result of the recent referendum in Alberta, Saskatchewan, Manitoba and Nova Scotia is a magnificent victory for prohibition. The people voted a Dominion-wide prohibition law. This is the first time in the history of this country that a Dominion-wide prohibition law has been passed.

The assistance of large quantities of intoxicating liquor, the manufacture and importation of it elsewhere in Canada will continue to be a menace to these "dry" provinces.
The clarification of the prohibition forces of Canada must now be "National Prohibition." Let the temperance people hold this ideal before them stronger than ever before and let them speak in one united voice. Let the women of Canada, who are the backbone of the prohibition movement, recognize that they have in their hands at this moment the power which will finally deal the death blow to this traffic in Canada.

MAY SHOW MOVIES IN ST. PAUL'S, LONDON

London, Nov. 1.—Church of England officials are seriously discussing the propriety of allowing St. Paul's Cathedral, next to Westminster Abbey, the most famous church in the British Empire, to be used as a motion picture theatre.

The more advanced church officials preferred the suggestion, "The Life of St. Agnes" was suggested as the first film.

So far no decision has been reached but it is not thought that the cathedral will be used as a picture theatre without a spirited fight between the dignitaries of the church.

Water Question Under Discussion

Bond Issue Would be Required to Give Visart Street Water and Sewer.

The matter of water service for the residents of Visart street was before the Common Council yesterday in committee but action deferred until Commissioner Thornton returns, as a bond issue would be required for the work. Commissioner Jones reported that it would cost \$4,500 for water main, and \$2,200 for sewerage to serve seven families.

The motion of Commissioner Jones that he be given authority to purchase a 36-inch Venturi meter and two water recording devices was laid over. Permission was granted to A. W. Powell to install a gasoline tank at 69 Cliff street.

Renewal of the following leases for seven years from May 1, 1920, was authorized:
Lot 281 and part of lot 280, Prince ward, to G. A. Knodell, \$14.63 a year each; Lot 3, Lancaster, G. A. Tippetts, \$25 a year; Lot 6, Lancaster, No. 10, Brookside, Samuel Miller, \$23.62 a year; Lot 2, Lancaster, O. D. Hanson, \$35 a year; half lot 1055, Wellington ward, T. A. Lockhart, \$15.60 a year; P. 101, Brooks ward, Alfred Burley, \$10 a year; Lot 855, Dukes ward, S. J. Gillies, \$50 a year.

FAILURE TO SUICIDE BRINGS NOMINAL FINE

Philadelphia, Pa., Nov. 1.—Unsuccessful attempts at suicide in Philadelphia cost ten dollars.

Magistrate McCleary asked the girl why she jumped in front of the automobile. "I don't remember," she said. The magistrate then fined her ten dollars and costs.

Found Cart Load Of Stolen Goods

Express Company's Teamster Had Stock Sufficient to Start Corner Store.

A theft of goods, totalling in value \$600, was preferred against Harry Dryden in the police court yesterday. The goods were stolen from three transportation companies, those from the C. P. R. were to the value of \$300, from the C. N. R. \$250, and from the Eastern Steamship Co. \$50. The accused pleaded guilty and consented to the jurisdiction of the court. He was remanded for sentence.

The arrest of the accused followed a close following of thefts which have engaged the attention of the authorities for some time. According to their story, thefts amounting to several thousand dollars' worth of goods have been traced to Dryden, who was in the employ of the White Express Company as a teamster. On Saturday they went to the room of the accused at 137 Metcalf street, where they found a quantity of the missing goods concealed under a bed. A search of a stable in the rear of the premises revealed a still larger amount.

Large Stock

The detective department recovered two cases of lobsters, from the Eastern Steamship Company; one case of fancy umbrellas, from the C. P. R., and consigned to Vassie & Co. of this city; one case of electric irons, from the C. P. R. and consigned to the Eastern Electric Company; two boys' olefin coats and several pairs of men's and boys' boots, from the C. P. R. sheds; 5 quarts of fruit syrups and a quantity of cigarettes from the C. P. R. sheds; several tire pumps, tire chains, spark plugs and insulators, patches, locks, and other automobile accessories from the C. N. R. sheds; four dozen pairs of cotton gloves, part of a parcel of gloves from the C. P. R. sheds and billed to Halifax.

The police patrol was utilized to transport the goods recovered. The accused was employed as an express teamster and in that capacity had access to the sheds.

Adelaide Strange was remanded on a charge of being and harboring. Three drunks were also sent below after pleading guilty. One man out on deposit did not appear.

UNLISTED STOCKS LISTLESS ON THE MONTREAL MARKET

Prices Lower Than Last Week — Bonds in Considerable Demand.

Special to The Standard. Montreal, Nov. 21.—There has again been a dull and listless market for unlisted securities during the past week—the petal trend in most cases being irregular and reactionary, says the four, White and Co.

This paper stocks were again amongst the most active with prices lower than last week. Dryden opened the week at 44 1/2, selling down to 31 on Friday morning—the last sale being at 24 1/2. Rioron Common sold at 40 1/2 at the beginning of the week, but broke to 40 on Thursday, being now quoted 45 1/2 to 46. The preference is 70 1/2, closing at this price. North American Pulp has been fairly steady at around 54 to 6. Whelan Pulp and Paper has again been very inactive, the common selling at 54.

Team Power sold at 13 to 15 1/2, the closing quotation being 15 1/2 to 13. The Lower Ontario Common now being quoted at 10 to 11 1/2. Montreal Oil remains unchanged offered at 150. Maroon of Canada again sold at 2 1/2, being now quoted 3 to 3 1/2. Belding Cortland Common is slightly easier being offered at 60 with no bid, and the preferred at 81 with no bid. Laurentide Power sold at 59 1/2. The last sale being at 58. Cabot Canadian Sugar has again been weaker, the preferred being offered at 92, and the common at 30 with no bid. Brand-Tap-Henderson Common, after being in strong demand for some considerable time, is now offered at 65 with no bid. Canadian Woollens Common sold at 50 on Wednesday and is now quoted 45 to 50.

Bank Stocks Inactive. The unlisted bank stocks have been inactive. Montreal City and District Bank being offered down to 147 1/2 with no bid. Home Bank remains unchanged at 98 to 100 1/2. Sterling Bank being stronger at 109 bid. Provincial Bank sold at 124 1/2, fractionally lower than the last sale, closing at 124 1/2 bid.

In contradiction to the unlisted stock market, unlisted bonds have been in considerable demand, and prices in general might be said to have been marked up from one-half to two points. Unquestionably, this is due to a large extent to purchasers from the United States, which is a very satisfactory situation both for the bond holders and for the country as a whole. It is usually the case when the stock market is dull and heavy that bonds become more popular, and have a rising tendency. There have been no particular outstanding issues that might be commented upon, but the bonds mostly in demand as has been the case for some time, have been the 4 1/2 per cent. municipals with principal and interest payable in New York.

With a continued tightness of money, and the lower prices of the listed stocks, we do not look for any marked change in the near future.

The price paid for the property is said to be around \$7,000,000. The plant thus acquired has a capacity of 4000 horse power daily.

WHEAT MARKET AT CHICAGO GAINS

Chicago, Nov. 21.—Buying by houses with seaboard connections led to an uptick in wheat values today after the market had been depressed most of the session. Prices closed firm at the same as Saturday's finish to 1 1/2 cents higher.

Corn closed, 5 1/2 cent net lower to 1 1/2 cent advance and oats varied from 1 1/2 cent decline to 3 1/2 to 7 1/2 gain. In the provisions, the outcome was a rise of 17 to 35.

CANADA SENT GREAT WHEAT AND FLOUR STOCKS OVER BORDER

Washington, Nov. 21.—Imports of Canadian wheat and flour during the first fifteen days of October were greater than in any corresponding period in the past seven years, the Federal Trade Commission says in a report today to President Wilson. The report was based on an investigation ordered by President Wilson after he had been asked by the Chicago Board of Trade to place an embargo on wheat imports from Canada.

The commission found that 4,490,000 bushels of Canadian wheat and 65,946 barrels of Canadian flour were shipped into the United States during the first fifteen days of last month. This was more than three times as large as the shipment in any October past, according to the report.

This Little Fellow's BURNS

WONDERFULLY HEALED by Zam-Buk—Best Advised "Skin-Drafting" Operation.

As an example of genuine gratitude, the letter of Mrs. Currie, of 184, Waterloo Ave., Guelph, Ont., is notable. She writes: "One day baby fell out of his high chair on to the stove and got severe burns under the chin. The child suffered terribly and though I called in the doctor his treatment brought the child no relief. I consulted another doctor, but was told that it would have to be grafted.

"Then I sent for a box of Zam-Buk. After using this soothing balm, the burn was noticeable. In less than three weeks, the child's burn, although no severe, healed perfectly without leaving any trace of a scar.

Keep Zam-Buk always at hand for cuts, scratches, burns and other skin ills. Also for dealing with eczema, ringworm, itchy skin, scalded heads, sunburn, hemorrhoids, boils, piles, etc. 50c box, 2 for \$1.25. All druggists or Zam-Buk Co., Toronto.

Zam-Buk INLAND REVENUE INCREASE.

Montreal, Nov. 21.—Inland revenue figures for the month of October for this year showed an increase of \$1,271,990, the receipts being \$4,160,256, against \$2,888,266 for October, 1919. Customs revenue showed a slight drop being \$4,428,826, against \$4,439,040.

Catechism For Canada's Citizens

Interest is Challenged by a Question—Daily Problems for Standard Readers.

Answers to Monday's Questions.

1. It is the duty of the Vice-President of a society to take the chair in case of the absence of the president, or when the president leaves the chair for the purpose of participating in the proceedings.

2. The principal duties of a recording secretary are the taking of notes of all the proceedings of a meeting, and in making true entries in his journal of all the things done and passed, but he is not, in general, required to take minutes of speeches or to make entries of things merely proposed or moved without coming to a vote. However some societies think that his record shall be both a journal and in some sort a report of the proceedings.

3. The term "amendment" is in strictness applicable only to those changes of a proposition, by which it is improved; that is, made more effectual for the purpose which it has in view, or made to express more clearly and definitely the sense which it is intended to express. Hence it seems proper that those only should undertake to amend a proposition, who are friendly to it—but this is by no means the rule. For when a proposition is regularly moved and seconded it becomes the possession of the members of the meeting and cannot be withdrawn except by the consent of the meeting. It thus becomes the basis of the future proceedings, and may be put into any shape and turned to any purpose, that the meeting may think proper.

4. Yes, for it is consequently allowable to amend a proposition in such a manner as entirely to alter its nature, and to make it bear a sense quite different from which it was originally intended to do, so that its friends, which as it was first introduced, may themselves be forced to vote against it in its amended form. To prevent all this some societies have a special rule which reads that no motion, relative to a different subject from the one under discussion, shall be admitted under color of an amendment.

5. Some questions are called privileged questions because they are entitled to precedence over other questions though they are of different degrees among themselves. Questions of this kind are three in number; namely, first, motions to adjourn; second, questions relating to the rights and privileges of the meeting, or of its members individually; thirdly, motions for the order of the day.

NO TUESDAY BRIDES.

For many years there have been no Tuesday brides in Madrid, as the Spaniards consider Tuesday an unlucky day for marriages.

Loyalist Chapter Votes Large Sum

To Aid in Furnishing Room in Nurses' Home, and Y. W. C. A.

Several large sums of money were voted by the Loyalist Chapter I. O. D. E. at their meeting held last evening at the residence of Mrs. William A. Lockhart, Orange street. Other hostesses were the Misses Blizard, Mrs. H. Vroom, Miss Jean White, Mrs. George McAvity Blizard.

Mrs. Vroom, regent, presided, and reports of the Municipal Chapter and Quarterly Provincial Chapter meetings were given. Mrs. Walter White, convenor of the Women's Hospital Aid Ways and Means Committee, and Mrs. Stewart Skinner were present at the meeting to make an appeal for the furnishing of the new Nurses' Home. On motion it was decided to furnish one bedroom at a cost of \$175. The sum of \$200 was voted to the Y. W. C. A.

The resignation of two members was most regretfully accepted, Miss Lydia Kimball and Mrs. Campbell of Weymouth, formerly Miss Starr. Two new members were elected, Mrs. R. G. Schottel and Mrs. J. F. H. Teed.

The matter of I. O. D. E. members refusing to buy Hearst papers was brought up and members were reminded of their obligation to encourage Canadian periodicals, particularly the official organ of the order, "Echoes."

The sale, which is to be held early in December, was discussed and various committees reported progress in their departments.

BRUNSWICK CHAPTER DOING GOOD WORK

A letter of thanks was received by the Brunswick Chapter, I. O. D. E., and read at their regular meeting held yesterday afternoon from Mrs. Ambrose John gratefully acknowledging the money sent to her from St. John.

Mrs. Calma DeMonts street, was hostess yesterday. Mrs. Heberington, Second Vice Regent, presided. The sum of \$50 was voted to the Navy League and \$50 from the "Lest We Forget Fund" towards educational purposes. It was decided to continue the support given a Victorian Nurse for another year. A pantry sale will be held this month by the chapter and plans were made for further activities.

Wash It Yourself—the Easy LUX Way

Do not trust your sweater to the family wash-tub. After all the work you put into making it, why run the risk of shrinking or stiffening the soft fluffiness of the wool?

Just dip in the rich creamy lather that the wonderful LUX flakes make. Do not rub or twist. LUX will do all the cleansing.

Now rinse three times in water of the same temperature—squeeze the water out and dry in the sun. It's as easy as washing your hands.

Your sweater will look like new, and will have that soft, "comfy," fluffy feeling it had when you first made it. So, take no chances—use LUX.

Reflections of A Bachelor Girl

By HELEN ROWLAND

(Copyright, 1920, by The Wheeler Syndicate, Inc.)

In the School of Experience, most of us seem to be doing brilliantly, until we discover that we have flunked the exam.

The honeymoon is not positively over, until the first time a man tries to squeeze himself with his wife by offering her a check instead of a kiss—and succeeds.

If spirits COULD come back, after a thousand years, a woman's first question would be, "What are they wearing now?" a man's, "What are they drinking now?"

It makes a man almost as resentful not to be allowed to break his promises, engagements, and wedding vows as it makes a small boy not to be allowed to break his own toy.

Funny how two people on the higher intellectual plane always seem to meet on the low plane of a divorce in a dim corner of the conservatory. Just like anybody else!

A girl's mind is so complicated and incomprehensible that she can prove to a man that she feels nothing but platonic friendship for him, at the same time that she is thinking how nice it would be to run her fingers through his hair, and what a kissable mouth he has.

A girl can keep cheerful for years, on a memory of the man she might have married and just escaped, and just escaped.

Next to the thrill of remembering his pleasures perhaps a man enjoys most the luxury of "confessing" his sins.

"Personality" is the color of the soul; and people who are famed for "personality" are those whose souls are such a beautiful color that they are not afraid to SHOW them.

Pleasing Affair Held Last Night

Ladies' Aid of Portland Methodist Church Give Entertainment.

"A Social Ten" was the name given an entertainment held last evening under the auspices of the Ladies' Aid of Portland street Methodist church. The adjective describes the character of the gathering, while the numeral denotes the trifling sum demanded as an entrance fee. There were about one hundred and fifty persons present and the programme furnished afforded great pleasure.

Mrs. E. M. Rowley, president, was in the chair. A feature of the evening was a dialogue entitled, "Packing the Missionary Bag," in which the following ladies took part: Mrs. Munroe, Mrs. Fausley, Mrs. A. J. Myers, Mrs. Chat, McConnell, Mrs. Cowan, Mrs. Kirkpatrick, Mrs. McGinnis, Mrs. A. Lingley, Miss Lillian Maxwell. Other numbers were solos by Miss Alice Scott, Miss Mabel Rowley, Mrs. William Brown, a reading by Miss Verta Roberts and a piano solo by Mrs. Bromfield.

During the evening boxes, which had been distributed among the members some time ago, were opened and were found to contain the sum of \$300.

Further Review of Commodity Prices

No Prospect of Any Immediate Drop in the Flour Market.

It is evident from further enquiries made from Retail Merchants in this city, who are conversant with the situation, that there is no possibility of a sudden slump in prices, but the tenor of their remarks is that whenever a reduction does occur the consumer will get the benefit of it. There are a number of dominant factors which tend to keep prices up, such as the cost of labor, increased freight rates and lack of raw material. F. P. Starr, of R. F. & W. F. Starr, coal merchants, made the following statement when approached in the matter yesterday:

"We do not see any sign of a drop in the price of coal, and there is a great scarcity of both bituminous and anthracite coal. As a rule, coal always is somewhat slow in advancing following other commodities, and when there is any recession in prices it declines accordingly. The question now is not what it costs, but rather can we get the article. The cost of labor and increased freight rates tends to keep prices up. In the case of soft coal, and the same thing applies to hard coal, there is considerable less production now, due to the dry weather and shorter hours of labor. The present rate of exchange makes it more expensive to get hard coal from the United States, and in fact has a great bearing on the price at all times, as it means anywhere from \$1.25 to \$2 per ton more, depending on the cost of the coal. We do not see any sign whatever of a reduction, although there is a rumor that there might be an increase."

Flour Price

H. G. Weeks, of the Lake of the Woods Milling Co., made the following comments regarding the probable price of flour: "There has been no change in the price of flour or feed during the last ten days or two weeks, and it is hard to say whether or not there will be any shortly. Saturday's reports from Chicago showed that the wheat market was holding firm, and this tends to support the view that there will not be a recession. Flour advanced fifty cents per barrel about two weeks ago, when many people were expecting a decline. There is also a scarcity of cars just now, and deliveries have only been made in accordance with our requirements, consequently there has been no possible chance to have any surplus. The fact that prices will hold steady this month. Reports emanating from the United States are to the effect that farmers there have organized and have decided not to accept less than \$3 per bushel for wheat. If they succeed, it will naturally mean an increase. The cost of bags, barrels and labor, as we are all aware, has advanced considerably, and these things tend to prevent any recession."

Horse Race Film Drew Forth Cheers!

"Man o' War" vs. "Sir Barton" Event Wonderful Picture at Imperial—Irene Castle Too.

Irene Castle is the star of the super Paramount-Artcraft special picture, "The Fring Line," which is the Imperial's big picture this change. She has a war record as entertainer and nurse. She spent many months on the firing line in France and as a nurse in British and American hospitals in England.

Probably no sporting motion picture ever brought to St. John has created so much surprise and enthusiasm as the horse race between "Man o' War" and "Sir Barton," shown at the Imperial yesterday, and which will be concluded today. Most people know that this race took place over two weeks ago in Windsor, Ont., on the famous track of the Kenilworth Club, and that the purse for this top-notch event was \$75,000 and a gold cup costing \$5,000. The event was a classic of its kind—record-breaking in speed, and the picture of the struggle itself is a triumph in movies—every foot of the terrific pace being shown much better than a person could see it with the naked eye on the spot, as the telephoto lens of the camera were swivelled round and round after the horses before and after the race, and the picture of the struggle itself is a triumph in movies—every foot of the terrific pace being shown much better than a person could see it with the naked eye on the spot, as the telephoto lens of the camera were swivelled round and round after the horses. The photography was faultless, the details absolutely complete. It was a picture no lover of clean sport and especially of the horse-flesh should miss.

THE GARDEN

In some old garden thou and I have wrought,
And made fresh flowers spring up
From hoar and mouldy seed,
And fragrance of old days and deeds
Have brought
Back to folk weary; all was not for naught.

EXPOSURE ACHES—RHEUMATIC PAINS

Sloans' Liniment, kept handy, takes the fight out of them.

SLASHING around in the wet and then—the dreaded rheumatic twinge! But not for long when Sloans' Liniment is put on the job! It rains, strains, sprains—how soon this old family friend penetrates with-out rubbing and helps drive 'em away! And how cleanly, too—no muss, no bother, no stained skin or clogged pores. THE GREATEST HORSE RACE OF THE AGE

'Man O' War' —VERSUS— 'Sir Barton'

AT WINDSOR, ONT.

About a fortnight ago the sporting world was thrilled with the wonderful speed test between the greatest running horses of the decade, if not of the century, "Man O' War," an American-owned animal and "Sir Barton" the property of Commodore J. L. K. Ross, Montreal. The event was for a \$75,000 purse and a \$5,000 gold cup. Tens of thousands saw the race and D. W. Griffiths, picture impresario, secured the exclusive rights to film the classic at a \$10,000 price. So today we are going to show this marvelous sporting picture in two thrilling reels. Every detail, every side-light, every prior and ensuing team of interest. The horses in training, close-ups and slow-motion analysis of the animals; the crowds, the actual race taken by a swivel telescopic camera throughout the whole course.

THIS IS NOT A WAR PICTURE.

OUR PATRONS ARE VERY FOND of this type of photography. The atmosphere of the drawing room, the gown and exclusive surroundings invariably hold especial interest for those who enjoy the fashionable, the smart and up-to-date things of life. Contrary to the title of the picture it is not a warlike picture, rather it is removed from any social conditions though punctuated with surprising climaxes and tense situations.

Mrs. Annie M. Sloan, of Buffalo, declares she would not take all the money in the world for good tan. Did Her.

"I will just say frankly I think I am perfectly wonderful, and wouldn't take all the money in the world for the good it has done," said Mrs. Annie M. Sloan, recently sitting at 275 Huntington Avenue, Buffalo, N. Y.

Mrs. Sloan has resided in Buffalo for over forty years, and is very prominent in club circles, being an active member of the Buffalo City Club, Lincoln Republican Club, and the Women's League.

She represented the women of the city in their appeal to the United States Senate at Washington when Suffrage Bill was first introduced, was honored with a membership in the Washington Suffrage Club. Mrs. Sloan is also deeply interested in church and charity work. Her interest regarding the benefit she derived from "Tan" will be of widespread interest. She said:

"I have only been taking Tan for about four weeks, but I am feeling better than I have felt in years. Why, it just seems as though I have been awarded a new lease of life, and I would be doing an injustice to others who are trying to find a way out of their skin troubles if I did not tell what this grand medicine has done for me.

"Some time ago I was compelled to undergo an operation for gleet, after which I got along very well about a year and a half ago, when I had a very severe bilious attack. These attacks became frequent

Peking, Nov. 1.—The Japanese later yesterday conferred with the new foreign office regarding the disposition of Chinese gunboats in the sea at Nikolaievsk, Siberia, early in the year. He based the case on findings of the joint Sino-Japanese investigation commission, which advised to China, allowing that gunboats sheltered protection to Japanese while abetting the Russians, since lent guns to the Russian revolutionists in Nikolaievsk, which finally resulted in the massacre of the Japanese. Japanese envoy presented strong demands, including a Chinese apology.

The Chinese Government has refused permission to Yantai, chief of the delegation of the far easterner rifle in Siberia to hire a permanent residence in Peking, but has permitted mission to continue his stay at hotel.

The American legation states China and America are agreeable to the proposed temporary increase in customs duty of 18 per cent to famine relief purposes. The British foreign office, while sympathetic, referred the matter to its Board of Trade. The Japanese Government made no reply in the matter.

Relatives Fail To Claim The Body

No Relatives to Bury Man—Coroner's Inquest on.

An inquest into the death of Frederick Fisher, the Halifax man who was killed by a freight train while walking along the C. N. R. near Lawlor's Lake, Friday night, was begun before Coroner H. A. Porter in the Court Chambers, Gormana street, last evening. Owing to the absence of two witnesses the hearing could not be concluded, and was adjourned until Thursday evening at 7.30 o'clock.

Deny Relationship.

It transpired during the hearing that the railway authorities had communicated with the people residing at the address given by Bower as the address of deceased's wife, her father and mother, but they denied all knowledge of the dead man. The witness insisted that 48 Rhode Island avenue, Halifax, was the correct address, and had been the home of both himself and his brother-in-law when living in Halifax.

James A. Bower was the first witness called. He stated that he was the brother-in-law of the deceased Frederick Fisher. The deceased was married to his sister, Margaret, and they all lived together in Halifax. The deceased, he said, had been in business for himself as a coal hawker in Halifax, previous to that he had been in the C. A. S. C., and before the war had been employed with the C. N. R. dining car service.

Story of Accident.

Shortly before seven in the evening they reached Lawlor's Lake, a train of cars was on the main line and witness noticed an engine shunting a car some distance ahead on a siding. After passing along the side of the train of cars and when the deceased was some fifteen feet in front of the witness, he noticed him step in front of the engine, which was backing down toward the train.

Witnesses Did Not Hear the Deceased Cry Out.

Witnesses did not hear the deceased cry out when struck nor say anything. The scene of the accident was in a cutting which was dark at the time. He supposed his brother-in-law had started to cross from the main line to the siding.

In answer to Coroner Porter Bower stated that Fisher had been married to his sister in December, 1917; that they had two children—a girl and a boy—but that he had been separated from his wife.

Terminal agent Ross gave evidence as to the location of the accident. He stated that it was at a private siding on the right of way of the C. N. R. Owing to its location the train was not obliged to ring the bell or take such precautions as would be the case if on a public crossing. The tragedy was an accident, pure and simple, and for which the railway could in no way be held responsible.

Brakemen Appear.

Following Mr. Ross' evidence it was found that the two brakemen summoned to appear had not arrived. On calling the witness it was learned that their train had just arrived in from Moncton. The jury who had been about to disperse decided to await their coming. After over a half hour it was decided that the inquest should be adjourned until Thursday, and the jury again proceeded to attend their way homeward. Just then the two brakemen arrived in the court room and the committee was sent to call back the jury. On the jury being again re-assembled it was found that the stenographer had departed by another exit, whereupon the inquest was adjourned to Thursday night.

HEAR STORY OF MISSIONARY WORK.

An inspiring account of the General Meeting of the Methodist Mission Board, held at Toronto, was given yesterday to members of the Cotnam's Church Women's Missionary Society by their President, Mrs. C. P. Sanford. Mrs. Sanford, who has been away from the city for some months, was heartily welcomed back to the meetings and by her description of the successful year which all organizations have just passed made her hearers feel that they too must strive for greater things this coming season.

As yesterday was "Dues Day" the regular routine was interrupted to allow of a social half hour at which a

Harbor Development Given Consideration

Board of Trade Hears of Progress Being Made at Courtenay Bay—Elect Officers.

Nominations of the officers and members of the council for the coming year and addresses by W. F. Burditt on harbor developments at Toronto, and A. R. Dufresne and Mayor Schofield on St. John developments, and a distribution of the fruit of the St. John River orchards, were the features of the monthly meeting of the Board of Trade held last evening.

Loss Heavy.

The building, which was of brick construction, consisted of four stories, the basement of which was used for cattle, carriages and farm implements. The first floor was partly used as an up-to-date industrial school; and on the second floor a box factory and on the third and fourth floors a large third story was vacant, but it was contemplated to install machinery there. Despite the fact that very careful attention had been made, the cause of the conflagration has not yet been ascertained. It was suggested, however, that it might have been due to the wiring, or spontaneous combustion, but that so far there has been nothing to show that the fire was of incendiary origin.

Automobile Case Before the Court.

A by-law case against J. M. Queen, charging that the speed limit in Main street, Brockington street, and in Main street, 382 Main street, as he was about to board a car, on October 25, was resumed in the police court yesterday morning. Mr. Queen, Rev. Miles Traflet and Kenneth Burton, who were in the car at the time, gave evidence. They said Mr. Queen made every effort to bring the car to a stop by applying the brakes; that the car was not going at a high rate of speed. L. W. Nicker also gave evidence, stating that the automobile must have been going at a low rate of speed in order to stop so quickly on such a sticky street. The case was postponed until next Monday afternoon at two o'clock. W. B. Wallace, K.C., was the counsel in the case.

City Alive to Duty.

The chairman then called on Mayor Schofield. His Worship said some reference had been made to co-operation between the Board of Trade and the City Council, and he could assure them the door was always open. He strongly endorsed the plan of Mr. Dufresne, and assured the members of the Board that the City Council had not been idle in the matter of looking after the needs of the port. He thought it might do some good if the Board were to try and bring about the co-operation of the other Boards of Trade in the province and of the Federal representatives, so that, when the matter came before parliament, it would have the unanimous support of the province behind it.

It was decided to defer the reading of the secretary's report on the Empire Chambers of Commerce meeting until the next monthly session.

Important Ticket Notice.

Persons having tickets on reserve at Imperial box office and not yet paid for will kindly take delivery before 6 p.m. today, as there is a continued demand for seats which cannot be filled except in the balconies. It is important that every available chair be afforded the waiting list. Good balcony seats remain. Matinee seats (unreserved all over house) are now on sale.

Last Day for Great Horse Race.

The wonderful horse race between "Man of War" and "Sir Barton," which closed yesterday's great Imperial Theatre, will be shown four times today and then taken off. Nobody should miss this absolutely thrilling sporting feature.
