## WORDS OF PRAISE FOR MR. LEMIEUX

Is Most Enthusiastically Received by His Constituents.

### VISITS CAMPBELLTON

Postmaster General Pays a High Tribute to Mr. Graham

"The I. C. R. will be managed very ably by the Hon. Mr. Graham. He is young, energetic and progressive. The Maritime Provinces will have no cause to regret Mr. Graham's management of their road."

Such was the observation made to "Events" yesterday, by the Hon. Rodolphe Lemieux, postmaster general and representative of the County of Gaspé in the House of Commons.

Mr. Lemieux accompanied by his private secretary, Hector B. Verrett and Charles LeBel of New Carlisle reached Campbellton yesterday afternoon in the Dominion Fishery cruiser "Princess". Mr. Lemieux paid a visit to the post-office and afterwards called on "Events."

Mr. Lemieux said that he knew for a certainty that Mr. Graham considered the Intercolonial as one of Canada's best assets. The postmaster general himself stated in emphatic terms that with sound business methods this I. C. R. would be made to pay and to affect the freight rates on competing lines.

Mr. Lemieux has just returned from a trip along the coast. He delivered an address at Percé, Monday evening and another at Grand River, Tuesday evening. At both places he was most enthusiastically received. At each place he was presented with an address. The people of Percé and Grand River thanked him for the deep interest he had taken in the new railway and congratulated him on the progress it had made. Mr. Lemieux confirmed his remarks at both places to the railway development of Gaspé.

While at Gaspé this week Mr. Lemieux saw the first part of the section of the new road between Gaspé and Percé begun.

The completion of the first twenty miles of the road to Port Daniel has made a gain of six hours in the delivery of the mails at all points along the coast. It is the intention of the company to tunnel one thousand feet at Hell's Gate, this winter.

Mr. Lemieux was pleased with the progress that Campbellton was making. He observed that he only hoped it had about eight thousand more people, making twelve thousand in all, so that he could give its people the benefit of free delivery.

The Postmaster General remained here until an early hour this morning when he left for Ottawa.

The Dominion W. C. T. U. convention opened at Winnipeg Friday, being attended by a large number of delegates. A discussion of the department of scientific temperance instruction showed that New Brunswick has a law providing for oral instruction along W. C. T. U. lines, while Nova Scotia has also examinations along the same lines. The department of exhibitions and fairs showed good work done by the Union, Brome county, Quebec, holding the banner for the latter, having distributed half a million pamphlets. Every province reported churches agreeing to use fermented wine at communion, especially the Anglican churches.

## FATHER'S CHASE FOR CHILD 'ACROSS CONTINENT COMES TO AN END AT DALHOUSIE

But Custodians Refuse to Give Up Stewart's Child and Sensational Case Will Follow

### PARTED, BOTH MR. AND MRS. STEWART WANT CHILD

In a case which promises to be one of the most sensational ever heard in a Restigouche court, the marital troubles of W. R. Stewart, an American journalist and his wife, will in all probability be revived at Dalhousie in the near future.

The case is one in which Mr. Stewart seeks to have returned to his custody his pretty fourteen year old daughter, Winnie, now in the care of Rev. Mr. Bates rector of the Episcopal church at Dalhousie.

Mr. and Mrs. Stewart who were married about fifteen years ago in Ontario lived rather happily together during the greater part of their union. But a little over two years ago disagreements sprang up between them. They were then residing in New York where Mr. Stewart was engaged in journalistic work. Finding at length they could not agree Mr. Stewart sought a separation in the courts and obtained it.

He was given the custody of their two children, both of whom were girls, Florence and Winifred, then aged ten and twelve respectively. Shortly after the separation Mr. Stewart removed to Los Angeles, Cal., where he continued his editorial and magazine work. Mrs. Stewart remained in New York.

Mr. Stewart had been in California about a year when one day Mrs. Stewart appeared on the scene, and while her husband was at his office entered his home and kidnapped the two children. She successfully eluded Mr. Stewart in Los Angeles and got out of town. Shortly afterwards she took the children to the home of her mother in Toronto. The husband learning the whereabouts of the children went to Toronto. He had been in Toronto only a day or two when he met the younger of the two children on the street and promptly took possession of it. He learned from the child that her sister had been previously sent to its mother's sister, Mrs. Bates who resided at Dalhousie.

Broken in health and spirit as the result of his prolonged domestic troubles, Mr. Stewart reached Dalhousie on the Ocean Limited on August 31st. last. He had been in the town only two hours when he saw his child playing near the residence of Mr. Bates. Leaving the younger child, Flossie, who was with him he ran after the elder girl. She saw him and ran into Mr. Bates' house. Mr. Stewart followed her and encountered Mr. and Mrs. Bates. The rector and his wife refused to give up the child and, it is said, a somewhat lively scene ensued, the result of which was, Mr. Stewart was committed to jail.

## QUEBEC'S OBNOXIOUS LAW UNIVERSALLY CONDEMNED

American Sportsmen Sympathize With Local Riparian Owners in Fight Against Law

### CAMP HARMONY CLUBMEN LEAVE TAX UNPAID

The citizens of Campbellton who are charged by the Quebec government with illegal fishing in that province are up in arms. They will fight tooth and nail to render null and void the unjust and arbitrary law enacted by Quebec to compel them to pay a license fee of \$35. for fishing on their own property in that province.

They are now endeavoring to obtain the consent of the Quebec government to make a test case in the matter in the Superior Court instead of trying the cases one by one in a lower court. They will likely succeed in this.

It is said that not only are the New Brunswickers up in arms against Quebec's fishing law, but that the American clubmen are just as strongly opposed to it. It is stated that the fifteen members of Camp Harmony are so strenuously opposed to it that they refused this season to pay it and went off without doing so.

One of the prominent Campbellton men served with writ in the matter gave out the following statements to "Events" yesterday:—"The extract from the Quebec Telegraph in your last issue relative to the fishing cases was a gross misrepresentation of facts and adds in suit to injury to the people of Campbellton concerned. The editor must have been densely ignorant of his subject or else tried to make a feeble attempt to patch up a bad case. The Telegraph

said in one place:—"The statute is one passed many years ago, and has been applied in a very general way. In several provinces of the Dominion there are enactments of the same nature and also in a large number of the states in the union." This paragraph is absolutely false and misleading. The statute is not an old one having been born and brought into life only two years ago. The first year the citizens of Campbellton were asked to pay \$35. for the privilege of fishing on their own private riparian property, one day for salmon and trout, was 1906. Now is this not confiscation of riparian rights, pure and simple, and an attempt to take away from

## MAKES PLEA FOR UNION WITH GOD

Rev. P. J. Stackhouse Preaches able Sermon Here Sunday Evening

### HOPES FOR CHURCH UNION

Sermon is Result of Paper He Read Recently At Wolfville.

On Sunday morning, Rev. P. J. Stackhouse, in the Baptist Church, read an interesting paper on "What is Christianity." This paper was read by him a few weeks ago at the Baptist Institute at Wolfville, N. S., and caused widespread discussion. At the evening service he preached upon the same subject.

In the sermon he said in part:—"Christianity finds its historical beginning in Jesus Christ. The supreme place that Jesus occupies in history is largely due to the fact that He is the one who brings men into communion with God. This new life which has Christ as its author has come down through the centuries repeating and multiplying itself. I hold therefore that this life of union with God is the essence of the Christian religion." He next went on to show at length how Christianity had expressed itself in a literature that we call the New Testament, in church organizations, in codes of ethics, creeds and doctrinal statements and pointed out that there had been a constant tendency to identify Christianity with these expressions. This tendency had caused many men to make shipwrecks of their faith. He next pointed out the advantages of emphasizing Christianity as a religious life. "It gives a man a sure foundation on which to build his faith. The man, who through faith in Jesus Christ enters into communion with God is not disturbed by any investigation. He can say God speed to the great scholars at our colleges and Universities who patiently and reverently are interpreting the Scriptures. He is not afraid of the Higher Criticism. He can hold out the hand of fraternity to the scientists who are making plain the natural laws operating in the universe for he knows that all truth is God's truth and that a lie is a lie even though it be consecrated by a church and attired in ecclesiastical garments."

"Such a view of Christianity commend itself to the common man of the street who is neither a scholar nor a theologian. He is not interested in new theories nor old theories. If he thinks at all he thinks the words of a poet.

So many Gods, so many creeds, So many paths that twist and wind, When just the art of being kind Is all the old world needs."

"But when he meets a man who is filled with the spirit of Jesus that life finds him, as all the creeds

English Salvation Army men and women bade farewell, Friday, to General Booth, who left London for Liverpool, where he embarked on the Virginian for Quebec.

The London County elections have resulted in the election of fifty-five Ministerialists, twenty-nine Laborites and six Independents. The Laborites have gained three seats.

Moncton is to have a new playhouse and this fact may be said to be due to the success of the ten-cent moving picture shows that have been running there the past few months.

Count Leo Tolstoi was 79 years old on Friday and messages of congratulation from the entire world were received by the literary giant at his estate, Yasnaya Poliana, where he is spending his declining years.

The first candidate for the Montreal Mayoralty is now in the field. Ald. Louis Payette, Chairman of the Finance Committee and leader of a majority of the City Council, will stand for the office of Chief Magistrate.

Richard Yeo, charged with felonious assault on little Bessie Block, and tried before Judge McLeod on Thursday, at Newcastle was found guilty after the jury had been out three hours. The prisoner was recommended to mercy.

Sir Charles and Lady Tupper arrived at Montreal from England Friday, going up from Quebec on the Empress of Britain special. He was met at the steamer's side by Sir Charles Hibbert Tupper, who came east to meet his venerable father.

Michael Hackett of Pennsylvania aged 45 years dropped dead Friday night at the Bowser House, Chatham, while at supper. Deceased had come to Chatham a month ago with two daughters and niece, and was being treated by Fr. Morrissey.

Stephane Ledue, the eminent professor of the school of medicine at Nantes, has discovered a method of causing electric sleep which it is declared will replace chloroform and other anaesthetics in all surgical operations.

A railway workman at Koenigshutte, Silesia, is dead under circumstances which lead the authorities to suspect that he succumbed to cholera. The official reports showing the progress made by cholera in Russia are disquieting.

Practical agreement on the main points and general good will marked the preliminary meeting Friday in Washington of the representatives of the five Central American republics to carry out the suggestion of the United States and Mexico for permanent peace.

For the first time in its history the Baltimore post office Sunday ran out of stamps of the popular denominations. By oversight no provision was made for the extra demand due to the sending of Jewish New Year cards, of which an immense number were offered for mailing.

Mary Anderson has given a sum of money to a convent in the Connemara district, Ireland, to erect a building which will be used as a school. The pupils will be young girls desirous of learning the rudiments of housework as an equipment, should they be obliged to leave home and seek a livelihood in foreign countries.

A total grain crop of 100,000,000 bushels, including wheat 80,000,000 to 85,000,000 bushels, oats 87,500,000, barley 18,500,000, and flax 1,300,000, is the estimate the retiring president of the Winnipeg Grain Exchange, W. J. Bettingen,

gave for the west at the annual meeting of the exchange, Friday afternoon.

According to a special despatch received from Copenhagen the marriage of Prince Wilhelm, of Sweden, second son of Crown Prince Gustave, who visited the United States in August, to Grand Duchess Marie Pavlovna, daughter of Grand Duke Paul Alexandrovitch, of Russia, will take place next month, shortly after the return of the prince from the United States.

The shipbuilding firm of Harland & Wolff admit officially that they are at work upon plans for a White Star Line steamer that is to be bigger than the Lusitania. The keel of this vessel is to be laid in a few months, and she will be fitted with reciprocating engines and turbines. According to information received from another source the new vessel is to be of 40,000 ton register.

Serious demonstrations of seditionists have occurred at Calcutta. They followed the sentencing to prison of a nationalist leader who refused to testify in a case in which sedition was charged. The excitement lasted many hours, great crowds appearing near the courts and attacking the police, including some European sergeants. Other attacks on Europeans are reported, especially in Eastern Bengal, where racial feeling is steadily growing.

A new steamship record between a European port and New York was made by the Cunard liner Lusitania, which arrived at New York Friday. The Lusitania left Queenstown at 12.10 p. m. Sunday and arrived off the Sandy Hook Lightship at 8.43 a. m. (estimated) today, making the time for the trip 5 days, 1 hour and 33 minutes. This is 5 hours and 50 minutes better than the previous Queenstown-New York record of 5 days, 7 hours and 23 minutes held by the Lucania of the same line.

Further arrests have been made in connection with the extensive betrayal of military secrets previously referred to in Prussian despatches. There are now fourteen persons in custody, of whom twelve, including four civilians, one of whom, it is said, belongs to the nobility, will be charged with high treason. In the meantime all the prisoners are kept in closest confinement. The two who will not be arraigned on the charge of high treason will appear as witnesses for the state, but they will not be released before the trial, which in all probability will be held in secret.

Alfred Bowen, of Wheatley River, P. E. I., came in on the Boston express from New Hampshire, says a St. John despatch. At Vaneboro he was held up by a plain clothes man, who examined his luggage, and finding a box of cigars, demanded two dollars duty, which Bowen refused to pay. Then he was taken to a building in which another alleged official decided that a dollar and seventy-five cents would be enough. Bowen again refused to pay and they threatened to seize his baggage. He threatened legal action and the officials then gave up his suit case, but kept the cigars. Bowen is wondering whether it was a bunco game.

Pretending that they came on an errand of mercy, three men gained entrance to the home of Warren Munday in the outskirts of Lincoln, Ill. between 10 o'clock Saturday night and 2 o'clock next morning, and after binding and torturing Munday and his wife secured all the money and silverware in the house and made their escape. While standing in the dark on the porch one of the men told Munday, who had responded to the door bell, that his daughter was ill at her home and that he had been sent to bring the father and mother. When the man was invited into the house two others

followed all wearing masks. Munday was at once overpowered and bound, as also was his wife, who hastened in to learn the cause of the commotion. Lighted matches were held to the feet of the two victims. Threats also were made by the robbers that they would burn the house with the couple in it and the barns. The robbers secured several hundred dollars.

The New York World Saturday said: Swenson and Swenson, real estate dealers, at Flushing, gave out yesterday a letter to have been written by their brother Carl Swenson, a boss employed on the Quebec bridge which fell on August 20. Swenson's letter is dated the day before the disaster. He was killed. The letter reads:—"I doubt very much whether the bridge will ever be finished, since the first and second panels of the bottom chord of the cantilever, Quebec side, are buckling. I want to be in New York when she falls. If the bridge goes it will be the worst wreck that ever occurred. Don't show this to anyone. This part is no foolcatcher's story."

## Notice

At a meeting of the Council of the Municipality of New Richmond, held on the sixteenth day of August, in the year 1907, there being present John Fallow, Esq., Mayor, Messrs. Alphonse Basinault, Edmund Gilker, Angus Campbell, and Thomas Fair-service, Councillors, under the presidency of the Mayor, it was resolved as follows:—  
WHEREAS it is in the interest of this Municipality that certain encumbrances should be offered to the Cascapedia Manufacturing and Trading Company, a body corporate and politic, having its principal office and place of business at New Richmond, in the County of Bonaventure, in the District of Gaspe, in order to have the said Cascapedia Manufacturing and Trading Company build, erect, maintain and operate its mills within the limits of this Municipality, it was resolved by a majority of the Council, on the motion of Mr. Angus Campbell, seconded by Mr. Alphonse Basinault, that this Corporation by and in virtue of the powers conferred by Article 480 of the Municipal Code of the Province of Quebec, do hereby order that the said Manufacturing and Trading Company, aforesaid, the sum of \$5000.00 in order to purchase and buy in the Taylor and LeBlanc properties, the said properties to be used by the said Company for a mill site.

That this law will have force and effect only if it is approved by the electors being proprietors of practical real estate within the limits of this Municipality as the whole is by law provided; That in order to provide for the said sum of \$5000.00 the said Municipality do hereby authorize the Mayor and Councillors by this by-law be authorized to issue, sell and negotiate in the name of this Municipality debentures for a sum not exceeding \$5000.00. That the said debentures will bear interest at the rate of five per cent per annum. That the said debentures thus issued will be signed by the Mayor of this Municipality and countersigned by the Secretary Treasurer of the said Municipality and sealed with the seal of this Municipality, and the said debentures will be payable to the bearers thereof in ten, fifteen, twenty and twenty-five years from date of their issue at the office of the Bank of Nova Scotia at New Richmond; That each debenture will be for the sum of one hundred dollars;

That there will be attached to each debenture coupons for the amount of the yearly interest, which said coupons will be signed by the Mayor and countersigned by the Secretary Treasurer of this Municipality; and the said coupons will be payable to the bearer thereof when the interest will become due each year, and on payment of the said interest the said coupons will be handed over to the said Secretary Treasurer.

That each year a sum of \$4500.00 will be raised by direct taxation on the holders of real estate in this Municipality, which said sum will be to pay the interest on the said debentures each year as they become due and the revenues of this Municipality are by these presents effected and made liable to the said sum;

That there will also be established by this law for the buying back of the said debentures, a sinking fund, said sinking fund to be for the sum of three hundred dollars, and shall be collected yearly from the holders of real estate in this Municipality by direct taxation, which said sum will be yearly paid to the Secretary Treasurer of this Municipality.

That the issue of the said debentures, principal and interest fixed upon or by these presents, be also guaranteed and secured on the general funds of this Municipality;

That the said Company will build, establish, erect, maintain and operate yearly in this Municipality their plant consisting of a pulp mill, shingle mill and long lumber mill with an annual capacity of twenty-five million feet, the whole to cost about one million dollars; said 25 million feet to be cut yearly, and operate every year;

That the said Company will have force and effect after having been sanctioned as provided by Article 481 and others of the Municipal Code of the Province of Quebec; Given under the seal of this Municipality on the 17th day of the month of August, in the year and on the day first above written.  
John Fallow, Mayor.  
Jas. Campbell, Secretary Treasurer.

## WOMAN'S WORLD

### NO STOUT WOMEN NOW

Curves will be unfashionable and hips impossible in winter styles for women, according to Miss Elizabeth A. C. White, President of the Dressmaker's Association of America, who is demonstrating new gowns at the annual meeting in Masonic Temple, New York City. "The stylish figure," Miss White declared, "will be one without hips, a straight line figure. It is all in the corset."

Nor will there be any fleshy women, at least none that are well-

dressed. Miss White declares that there is no need of any woman appearing fat unless she is lazy and wants to appear so. Miss White told a man who sought authoritative information, that well-dressed women on winter afternoons this coming season will wear demit-tailored skirts of grey, lavender, red-dish-purple and light blue; black coats; waists of net embroidered in the color of the skirt; and partly mushroom hats trimmed with orchids, morning glories and roses.

## A WOMAN'S UNDYING LOVE

A strange spectacle and one which treated a great deal of interest and pity, was seen at the City Hall shortly after three o'clock yesterday afternoon, says the Montreal Witness of recent date. A cab was seen approaching the entrance which leads to the Recorder's Court. At first sight one would have declared that the vehicle contained nothing but a bundle of clothes. A closer scrutiny, however, revealed the fact that this bundle of clothes contained a human body. A woman in distress was wrapped in many garments. The face was hidden by a veil; and, as if this were not sufficient to conceal the identity of the sufferer, the veil was overhung with the tassels of a large white shawl. Around her body was wrapped a Highland plaid.

The cabman sprang off his seat and hastened inside to return a moment later with three burly constables, who carried the woman from the vehicle into the Recorder's Court, where she was placed on three chairs. At her feet was a fine looking man, who had been there when she was carried in. Directly he saw the injured form being carried in the tears began to pour down his cheeks.

After being placed in an easy position the woman lifted the shawl off her head, and removed the veil, disclosing a face drawn with suffering. Her first glance was directed towards the man who sat in

the chair at her feet. She seemed quite overcome with emotion.

Her maiden name was May Cliff. But two months ago she married the man who was then sitting beside her. His name is Stanley Farrell, and they resided at 44 Belmont street.

Three weeks ago Farrell returned home one night intoxicated, and in his fury he struck and kicked his wife. One of her legs was broken. The noise alarmed the neighbors; the police were called and the suffering woman was conveyed to the General Hospital, where her injuries received every attention. In the meantime the husband was arrested.

While under medical treatment Mrs Farrell lodged the charge of assault against her husband and stated that he had knocked her down, beaten her with his fists, kicked her and broken one of her legs. Later, however, she repented having taken an action against the man she loved, and this resulted in her appearance in court yesterday. Despite her suffering she had determined to appear and plead for clemency for her husband.

In the few minutes' wait previous to the appearance of Mr Recorder Dupuis, the husband said, "Dear May, I never meant to strike you, will you forgive me?" Mrs Farrell replied, "Yes Stan, I am sorry I ever said anything to the police about it. I am here to ask them to let you come home, I am so lonely."

Just then the Recorder took his seat. The clerk of the Court approached the recumbent woman and asked her to take the oath. Mr Recorder Dupuis then asked the accused if he pleaded guilty, and he replied in the affirmative.

Mrs Farrell was then asked to give her evidence and she proceeded to do so in a very weak voice, so feeble that the Recorder failed to hear what she was saying and stepped down to hear her. The woman's first words were: "Oh, sir, I want you to let my husband off he didn't mean to hurt me; he was drunk and didn't know what he was doing, he was always very kind to me and I want him back again."

The appeal was so pathetic that it affected everyone who heard it.

The Recorder, however, was not softened; for he said, "You made a charge against your husband of as-

## Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED

Health Fully Restored and the Joy of Life Regained.

When a cheerful, brave, light-hearted woman is suddenly plunged into that perfection of misery, the BLUES, it is a sad picture. It is usually this way: "She has been feeling 'out of sorts' for some time; head has ached and back aches; has slept poorly, been quite nervous and nearly fainted once or twice; head dizzy, and heart-beats very fast; then that bearing-down feeling, and during her periods she is exceedingly despondent. Nothing pleases her. Her doctor says: 'Cheer up, you have dyspepsia; you will be all right soon.'"

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, ever-lasting BLUES. Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound. See what it did for Madame Josephine Rivinville, Mastat, Que. She writes:

Dear Mrs. Pinkham:— "I suffered for four years with female troubles—inflammation of the stomach and such caused me violent pain and often torture, so much so that I could not walk at times and attend to my daily duties. Life was misery to me. I was so blue and despondent I did not know which way to turn for relief. I had tried the doctors but they did not help me. I was advised to try Lydia E. Pinkham's Vegetable Compound, so I bought a bottle. I am glad that I did so, for I am well and strong to-day and the world looks bright, for I have perfect health, thanks to your medicine."

If you have some derangement of the female organism write Mrs. Pinkham, Lynn, Mass., for advice.

sault and now you want to get him off. I don't like that sort of thing."

Then a number of questions were put to Mrs Farrell as to the details of the assault, but she would only say that her husband struck her a blow on the shoulder which had knocked her down, and that, in felling her leg doubled underneath her and broken.

Mr Recorder Dupuis repeated himself and, looking sternly at the accused, asked:

"Have you any children?"

"No, Your Honor; we have only been married two months."

"Ah, this is a nice beginning! Do you know that your wife has come here today to ask the Court to excuse you for your conduct? I cannot do that; as a matter of fact you might have killed her. Of course I shall take into consideration what your wife has said. She is pleading also on her behalf, be-

cause she wants you to go home to support her, but justice must be satisfied, and I sentence you to three months' imprisonment."

The prisoner exclaimed, in a dazed way, "Thank you sir," and, turning round he raised his wife's head and kissed her. Then he walked out between two officers and was taken to the cells.

The New York Herald received the following despatch from San Francisco the other day:—In a lecture before the San Francisco Sociological Society last evening Professor Edgar Larkin, an astronomer, said:—"Marriage for life is the greatest crime that can be committed in the world, from either a physiological, psychological or anthropological point of view, and the third party who joins a man and a woman in a marriage for life, whether he acts in civil or religious procedure or as a witness to the contract, is the greatest criminal in the world." Professor Larkin said his views were the result of twenty years' close study of anthropology and of human nature. Continuing he said:—"Ninety five per cent of the crimes in the world are due to marriage for life, a contract that must be abolished in time. If it continues the Anglo Saxon race will be wiped out. I know what I am talking about, for aside from my study of these matters it has been proven to me that I am right. I have asked and received letters from 1,800 women in the United States—women who are talented, intellectual and college-bred—and they tell me I am right."

## THE HOME

In the eyes of young men and women Home should be the most attractive spot on this earth. For the parent it is usually so. But how frequently is it far from being for the son and daughter! What percentage of the young men and women of today make a practice of spending their evenings at home? The percentage, we fear, is not a large one. For many, if not for the majority, the attractions of this world lie on the outside of the front gate. It is there they seek the pleasures of life. It is there their hearts are weaned from family companionship. It is there they learn to regard Home as one of the dull places in which to pass the evening hours. How often do we hear young men, but more particularly, young women lament the inclement state of the weather because it hinders them from going here or going there! Many look upon a quiet evening at home as nothing short of a hardship. The prospect of such an evening fills them with dread. They are unconscious or forgetful of the fact that they, too, will likely be fathers and mothers some day, and that the habits to which they are yielding themselves, are tending to unfit them for the responsibilities and duties which will be theirs. But should we blame the son and daughter when the atmosphere of the home is uncongenial and even oppressive to them? Can we justly in most cases, set it down to an inherent desire to be on the go? We scarcely think so. The inability of the son and daughter to appreciate Home is often, far too often, the fault of the parents. While each and every inmate of a home should contribute toward making it cheerful and comfortable, the responsibility for making it so rests with mother and father. Parents do not ignore your children in the social conduct of your home. Consult their wishes, adopt their ideas and strive to please them in every manner possible. You do not do this in too many cases. You allow your children to shift for themselves and conduct your home according to your own ideas. You do not take your children into your confidence. You do not try to persuade your children that they are a power in the conduct of your home. In many cases you do not place yourselves on terms of familiarity with them. As a consequence the son and daughter go into the outer world and mingle with those with whom intimacy is an easy matter. Remember that the future of your child is shaped at the old fireside. It is there that the character of your child is moulded and whatever of good or of evil it may do in this world it owes to a large extent to those with whom it first comes in contact—the father and the mother. Do not humor every little whim or caprice of your child. That is a mistake. You can make the home-life of your children attractive without doing that. And you owe it to yourselves, fathers and mothers, and to your children and to the world to make it so. Do not turn out young men and young women who will become burdens to society. Instill this into your minds, that nine times out of ten the child who is a force in the home becomes upon maturity a force in the world. Permit, nay encourage your children to indulge in any innocent pastime at home they may desire. Remember that in many cases the pleasures which are denied them at home they seek elsewhere, and when they find them, they often, only too often pursue them in an iniquitous way. Extreme restraint breeds extreme relaxation. We sometimes profess to be greatly shocked when we read in the

newspapers lurid accounts of the immoral conduct of men and women, yet we know all of us, that immorality is by no means uncommon, even in this puritanical Canada of ours, and that no home, no family is immune from it. It is here, and it is here to stay, so long as young men and young women shun the sacred precincts of the home and begin their evenings by pursuing pleasure elsewhere. What care, what devotion is lavished upon the child of tender years! We take the greatest pains to protect it from all danger. But let it be said, fathers and mothers, that there is no danger menacing the little child, half so great as that menacing the son and daughter, budding into manhood and womanhood. If you bestow care upon the infant, bestow double the care upon the youth, both male and female. Take your boy and your girl into your confidence. Have no secrets from your child and your child will have none from you. But ignore, neglect your child and your child will ignore, neglect you. Do not make hard and fast rules for your children to be governed by. Give them lots of scope. Discipline is a very good thing, but confidence is a much better thing. Confidence establishes discipline and creates cheerfulness, and cheerfulness is the thing to be desired. Remember this.

## NOTE AND COMMENT.

We are confident that the New Brunswick government would be glad to render every assistance in its power to the citizens of Campbellton who have been made victims of Quebec's unjust and arbitrary fishing law, depriving riparian owners of their rights, but just what the government could do in the matter is not at all clear to us. It seems to us that the only thing for the people of Campbellton to do is to fight. We believe that the higher courts would sustain them. An effort is now being made to induce the Quebec government to consent to a test case being made in the Superior Court of that province. Possibly the New Brunswick government would use its influence in this direction.

Is the Campbellton Board of Trade willing to go to work now or would it prefer to loaf a while longer? We do not care to disturb its sweet repose, but if it does feel like becoming active once again we would suggest that it move in the matter obtaining lower telephone tolls on messages from Campbellton to outside points, particularly to Dalhousie. As we stated before, twenty-five cents for a message between these two neighboring towns is excessive. We doubt if such a rate has a parallel anywhere. We are endeavoring to obtain some statistics on the subject, and when we receive them we will place them at the disposal of the Board of Trade in the hope that that body will demand a more reasonable rate.

"Such a view of Christianity will, I believe, put an end to the divisions of Christianity. I may be a visionary, but I believe the good time is coming when the prayer of Jesus will be answered, 'That they may be one.' God bless the noble effort that is being put forth by the Presbyterian Congregationalists and Methodists of Canada in sinking their theological differences and coming together on a common platform. When it is generally recognized that the one thing we have in common with all

This is the case which arose from the fatal shooting at Lily Lake on Sunday Sept. 1st. They had six bottles of gin with them on the trip to the lake.

A prominent legislator in speaking to a reporter for "Events" a day or two ago on the question of prohibiting the exportation of pulpwood gave it as his opinion that the question was one that should be dealt with by the Federal authorities. He added:—"It is possible of course that the province might control the export of pulpwood cut on the Crown Lands but they would be perfectly powerless to deal with export of pulpwood cut from granted lands and the great portion of pulpwood exported from the province comes from that source. I appreciate that the subject is one of far reaching importance and must be dealt with by our legislatures in the very near future."

The fear of a prolonged strike at Springhill is causing some uneasiness to the Intercolonial management which gets a larger portion of its coal supply from these mines. It has usually purchased about one hundred thousand tons annually at Springhill. Recently it has been able to secure a quantity of coal from Cape Breton collieries, but there is some uncertainty about procuring a full winter supply from that source. Coal is at present being transported from Cape Breton to Lewis by steamer, and hauled by rail as far as Campbellton. While there is no actual present shortage, there is less stored than usual, and it is feared that unless the main source of fuel supply is in operation before winter sets in, great difficulty may be experienced.

The many friends in this part of the country of T. K. Coughlan will be pleased to learn that he has been very successful out west. The Mankato, Minn., Daily Free Press in speaking of Mr. Coughlan's enterprise says:—"Quarrying is one of the most important industries we boast of and among the several concerns engaged therein, we desire to call attention to that representative concern known as the T. R. Coughlan Co. For the past quarter of a century they have been operating in Mankato and have always occupied a position of prominence. At the present time their facilities and activities require the service of from 50 to 100 men and they are contractors of all sorts of stone work. They deal in all manner of sawed, cut, crushed and dimension stone. They have a most up-to-date equipment including a powerful stone crusher and are prepared to fill orders of any magnitude." Mr. Coughlan is a native of Waterford, Gloucester county. His wife's maiden name was Winifred Chesser of Matapedia. Mr. Coughlan left home over thirty years ago. He was then only a poor boy.

The marriage took place at 8.30 o'clock Monday morning at Bathurst of Miss Mary McEwen, eldest daughter of Mr. James Gallant, of that place to Mr. J. Donat Desnoyer, of Toronto. The ceremony took place, where the ceremony took place, and many friends of the young couple were present to witness the ceremony. The happy couple left on the local express on their wedding trip the bride travelling in a dark green checked costume with buff trimmings. After visiting points of interest they will make Toronto their future home.

Wm. D. Duncan of this town received a telegram on Tuesday evening last announcing the death of his brother, Fred at Cleveland Ohio, a few hours previously from typhoid fever. Frederick B. Duncan was a son of the late David Duncan of Glencoe. He was an electrical engineer by profession and has lived in the United States for several years, where through natural ability, combined with energy and attention to business, he attained a high position in his profession and achieved considerable financial success. At the time of his death he held the position of manager of one of the largest concerns in Cleveland. He was 39 years of age and leaves a wife and four children as well as a large circle of friends both in this country and in the west, by whom the news of his untimely death will be received with profound regret.

Premier Robinson is very favorably impressed with the prospects for successful development of the iron ore deposits on the Nepisiquit river, Gloucester county. Accompanied by Hon. Mr. Sweeney and L. M. Burns, P. P. he recently inspected the deposits. They are situated about twenty-five miles from the Grand Falls. They found that the borings made by the government drill had located large quantities of the ore in one place 400 feet thick. The class of iron, the premier said, was in great demand for smelting purposes, and J. J. Demmond, of the Londonderry works, Nova Scotia, had taken the matter up and proposed to make practical tests of the deposit. An analytical test had already been made by the government analyst with satisfactory results. The mine would not be more than ten miles from the I. C. R.

A quiet though pretty wedding took place at an early hour, yesterday morning, in the church of Our Lady of the Snows when Miss Janet Verner, daughter of the late Dr. V. J. A. Verner of this town was united in marriage to Joseph Belleisle, a prominent druggist of Rochester, N.Y. The ceremony, which was performed by Rev. Father Wallace, was witnessed by a large number of invited guests. The bride looked charming in a travelling gown of gray with hat to match. She was attended by her sister, Miss Georgina Verner, while the groom was ably supported by John Pinault. At the close of the ceremony a wedding breakfast was served at the residence of the bride's mother after which the happy couple left on the Maritime express for Rochester where they will reside. Miss Verner was one of Campbellton's most popular young ladies and she carries to her new home the best wishes of hosts of friends for a long and happy married life. Mr. Belleisle is not unknown here either, having served his apprenticeship in the drug business with A. McG. McDonald a number of years ago, and while here was highly esteemed.

## LUMBER

### EVILS OF CONSIGNMENT

Amid the mass of unusual features which, during the present season, have developed in the lumber industry in Canada, none has given cause for more anxiety, particularly in the Maritime Provinces, than has the growing practice of "consigning" lumber to commission brokers at British or Eastern States ports, says a recent issue of the Canadian Lumberman. At present the consignee "evil"—no milder term will suffice—bids fair to seriously impair the well-being of the lumber industry in Nova Scotia and New Brunswick. If the home market were in a less healthy condition, some excuse might be found for the anxiety displayed by manufacturers in Eastern Canada to rashly consign their product to foreign commission brokers at the risk of

pecuniary loss and the possibility of doing grave injury to the lumber industry, but when it is considered that there is not the slightest reason for fearing a material decline in the demand for Eastern spruce, pine and hemlock, it is rather difficult to realize why sane men will persist in deliberately sacrificing their own best interests and jeopardizing what would otherwise be a healthy industry.

At the present time the British markets are flooded with spruce deals from New Brunswick and Nova Scotia, and prices, which a short time ago were satisfactory, are today unreasonably low. The combined holdings of Liverpool and Manchester at the beginning of July were nearly double what they were at the same date last year, Manchester having 19,260 standards as compared with 7,080 twelve months before, while 152,000 standards are said to be still due to arrive. The actual decline in the prices of spruce deals is from 10 to 15 shillings a standard. One exporter of this material states that, whereas last winter he was getting 48.7s. for spruce, he is now able to obtain only from 27.5s. to 27.15s. In spite of this extremely unsatisfactory condition, spruce deals continue to be shipped from all the regular ports in New Brunswick and Nova Scotia, on a scale which the "Timber Trades Journal" declares is much greater than the demands of the country warrant. There is a lack of confidence that even the present unsatisfactory position will be maintained at its present standard.

In the face of such a statement the only rational course of procedure should be an immediate cessation of exports on the part of the Canadian shippers. If such were the case, the English brokers might reasonably be expected to refrain from pressing on unwilling customers a commodity which the latter may very well presume will drop to even lower figures. In fact, if spruce continues much longer to flood the English market as it has recently been doing, buyers on the other

side may be forgiven if they assume that a little later on they will be able to buy landed stock more cheaply than if they paid c. i. f. rates. In London landing charges alone amount to from \$5 to \$6, and, with a few months' rent and interest, the total charges soon reach the \$10 mark, and naturally it suits buyers to simply pick up stocks as they require them and let the broker or shipper pay all the charges which they themselves would otherwise have to incur.

Moreover, it is not only in Britain that the consignee evil has had its effects. In New York and other Eastern States ports there are Canadian firms manufacturing in Eastern Canada and having selling offices across the line, and these firms have recently been confronted with a situation that bids fair to rival the present condition of affairs in Britain. Consignments of Canadian lumber, marked "cargoes," are shipped down to commission brokers and are almost invariably received with indifference. Buyers do not care to make an offer for such, whether they need the lumber or not. In the former case they may state that they do not want to buy at any price. The broker is offering it to everyone by circular letters or through solicitors and if no offers are received he eventually becomes desperate and begs customers to make some kind of offer, and then has no other option than to take the best price available, regardless of the shipper's interest, he being always protected on his commission. Cases are cited where Nova Scotia cargo shipments have been sold on the New York markets at an actual loss to the consigner.

The milliner must readily see such a condition of things can have but one remedy. If they would withhold their stocks it would not be long before buyers would be compelled to change their tactics and search for lumber of a better quality than that dumped down before them at practically their own prices.

\$200.00 Invested in Crow's Nest Pass Coal Co., of B. C. in 1896 is now worth 570,000.00 or \$285.00 per share.  
Stock of the Home Mining Co. advanced from 25 cents a share to \$25.00 a share in seven months.  
Granite Mountain Stock advanced from 10 cents a share to \$75.00 in two years, and paid \$14,000,000.00 in dividends.  
These are only a few examples; there are thousands of others.  
While success cannot rightfully be judged by money standards, the fact remains that in the eyes of the world the extent of a man's success is the extent of his capital.  
The worth has no use for a poor man or a loser.  
The person who has reached middle age, wholly dependent upon

his individual efforts for his livelihood, is accounted a failure. He no longer commands the respect of the multitude but receives instead their scorn or pity.  
Have you ever thought of these things?  
What are you doing to make yourself independent?  
Your hand or brain devoted to another man's cause can never make you wealthy.  
Nor can your dollars.  
The man who only saves is at best a plodder.  
He should invest his dollars.  
Look about you.  
There are successful people on every side.  
Have you ever wondered how they made money while others have not?  
Excluding those rich by inheritance, and those rich by fraud, there remains countless thousands of men and women who, starting practically without a dollar, have built up for themselves wealth or a handsome competence, and are no longer dependent on their hands for support.  
These people have made money first by working for and earning dollars, and then by putting their dollars to work.  
You are cheating yourself and your family when you do not save from your earnings and put your earnings to work.  
Suppose you put your savings in a bank. The bank pays 3 per cent. How can it? Because it invests your money so that it will bring much more than 3 per cent—

enough more so that most bankers become very wealthy on the difference between your interest and theirs.  
And what if they invest unwisely and lose all, as they sometimes do? Why, it's your money and your loss—not theirs.  
You have not the control of your own capital—do not even know they are doing with your money.  
You are making your dollars work for others. Why don't you make them work for you?  
The banker invests your dollars; pockets their earning power, and gives you 3 per cent.  
Why don't you do your own investing and make the profit for yourself?  
But you have.  
Opportunities are at every hand. No man or woman exists that has not had some opportunity for financial advancement.  
The trouble is: most opportunities wear rubber shoes, and the public sleepily refuse to hear them.  
One of the world's most successful financiers, when asked how he made money so fast, replied:  
"I have an agent at the elbow of every opportunity and never let one pass without paying me tribute."  
Don't you realize that every great fortune had its humble beginning. That just a few dollars have grown to millions?  
Look at Andrew Carnegie. He saved up \$500.00 and made his

first investment in Adams Express Company stock. It paid him big interest almost from the start. You know what it and he are worth today.  
There are hundreds of similar examples.  
"No one ever succeeds except by doing things,"—John D. Rockefeller.  
To become wealthy—successful—you must save and invest your savings.  
Where were you in the year 1896, and what were you doing? Could't you have saved \$100.00 without inconveniencing yourself? Suppose you did save \$100.00 and invested it in CROW'S NEST PASS COAL MINE STOCK. This stock was sold in 1896 to small investors at 10 cents a share—six years thereafter it was worth \$100.00 a share, and to day is selling for \$285.00 a share, or your \$100.00 invested then would pay you a dividend of over \$10,000.00 a year and be worth \$285,000.00. Opportunity is always knocking at the door.  
Jay Gould once said to a friend, "When you invest in the stock of a company, don't look for the 'best,' for you will never find it. Look for a good one; then invest, and do it quickly. Don't wait to see if it pans out all right, for that is where you lose your opportunity. When you have waited to see if it pans out, you will have to pay a premium on the stock, and you will have lost the biggest advance in value. You must make

money on your judgment and foresight, and not on demonstrated facts."  
Pittsburg, Pennsylvania, has over 400 millionaires who have made their fortunes out of coal and oil. Coal is the basis of all industrial and commercial wealth. Coal mining in British Columbia has always been a success. It is like diamond mining in South Africa—a bonanza of the first magnitude.  
Dunsmuir made millions and millions in coal mining in British Columbia, and died the richest man in Canada.  
The BRITISH COLUMBIA AMALGAMATED COAL COMPANY of Portland, Oregon, controls 17,500 acres of coal land near Vancouver, B. C., estimated by coal experts to be underlaid with 1,400,000,000 tons of the best quality of steam, domestic, and cooking coal in America.  
Our mine is better than the Crow's Nest, the quality of our coal is pronounced by coal experts to be as good, if not better, we are 500 miles nearer tide water, and 300 miles nearer the big smelters in the boundary district, where coke is used.  
We are offering a limited amount of the treasury stock for sale at 25c a share, par value \$1.00, full paid and non-assessable.  
The officers of this company are men of high standing, back commercial reference will be given. Call or write for prosperous or information.

**Chamberlain's Cough Remedy**  
one of the Best on the Mar-  
ket  
For many years Chamberlain's  
Cough Remedy has constantly gained  
in popularity until it is now one of  
the most staple medicines in use and  
has an enormous sale. It is intended  
especially for acute throat and lung  
diseases, such as cough, colds and  
croup, and can always be depended  
on. It is pleasant and safe to take and  
is undoubtedly the best in the market  
for the purposes for which it is intend-  
ed. Sold by all druggists.

It is told of Mark Twain that during  
a conversation with a young lady of  
his acquaintance he had occasion to  
mention the word drydock.  
"What is a drydock, Mr. Clemens?"  
she asked.  
"A thirsty physician," replied the  
humorist.—Carolina Journal.

**A Question Often Asked.**  
"Why so many people feel worse af-  
ter taking pills than before? Trouble  
is that drastic pills are used. No re-  
medial action is obtained, the bowels  
are irritated and dreadful constipation  
follows. In using Dr. Hamilton's  
Pills you are scarcely conscious of  
having taken medicine. Although  
very mild, Dr. Hamilton's Pills do re-  
gulate the bowels, stimulate normal ac-  
tion of the glands, and create neither  
nausea, gripping or violent action.  
Positively guaranteed for biliousness,  
indigestion, stomach, liver and kidney  
ills. For a safe family pill rely on Dr.  
Hamilton's, 25c per box at all dealers.

**Ever Have Cramps?**  
Kind of fierce to be tied up in a knot  
at midnight with cramps. Keep Ner-  
viline handy. Ten drops quiet cramps  
instantly. Used occasionally Nerviline  
prevents this trouble entirely. From  
Stratford, Ont. Wm. Dee writes:  
"Nothing I know of will give such  
quick relief to cramps, colic or pain in  
the stomach as Nerviline. If you feel  
squeamish or sick just ten drops of Ner-  
viline in water and you're well next

**Lame Back.**  
This is an ailment for which Cham-

cially valuable. In almost every in-  
stance it affords prompt and perma-  
nent relief. Mr. Luke LaGrange of  
Orange, Michigan, says of it: "After  
using a plaster and other remedies for  
three weeks for a bad lame back, I  
purchased a bottle of Chamberlain's

**Prominent Manufacturer Speaks.**  
In Vanleek, Hill, Ont., no one is  
better known than Geo. S. Watson.  
When he says "Catarhoxone is a real  
cure," depend on it being so. "My  
wife" he writes "was subject to bad  
attacks of throat irritation and bronchit-  
is. Many remedies were tried but few  
proved at all helpful. Catarhoxone  
was different. It seemed to get right  
at the sore spots and brought relief  
quickly. We have found Catarhoxone  
an absolute cure for bronchitis and ca-  
tarrh." Nothing cures more quickly  
so get it today, two sizes, 25c and \$1.00

**Skin Disease**  
**is Blood Disease**  
"Fruit-a-lives" clean the blood of all  
Impurities and clear the complexion.  
Pimples and blotches—  
Redness—Boils—Eczema and  
other inflammations of the  
skin—mean Impure Blood.  
A person with a bad com-  
plexion always  
suffers from poor  
digestion—non-  
action of the bowels  
(or Constipation)  
and often the  
kidneys are weak.  
These unhealthy  
organs cannot rid  
the system of the  
waste matter. It  
is this waste—taken  
up by the blood and carried to  
the skin—that ruins the  
complexion.  
"Fruit-a-lives" cure all skin  
troubles because they cure the  
kidneys and bowels.  
"Fruit-a-lives" cause the  
eliminating organs to do their  
proper share of the  
work of ridding the  
system of waste.  
This purifies the  
blood—and in-  
stantly the pimples  
and blotches  
disappear, and the  
complexion clears.  
"Fruit-a-lives"  
cure skin troubles  
when everything  
else fails.  
"Fruit-a-lives"  
are fruit juices,  
intensified, and  
combined with  
valuable tonics and antiseptics.  
They are without doubt the greatest

**Resign from the Worry Club.**  
Life is a rush, but we can't all get  
there together. In consequence, we  
worry—Can't help it because nerves  
are weak, vitality is burnt up and  
there's no staying power left. Cut out  
the worry part, and BUILD UP. Let  
Ferrozone help you. It's a most  
strengthening nutritive tonic. Fills  
the blood and iron, supplies building  
material for worn out organs, generates  
the sort of vitality that makes you  
want to do things. No medicine more  
helpful for men, women and children  
who need strength and staying power.  
Try Ferrozone, 50c per box at all dea-  
lers.

**Grand Anse**  
John O'Neil late of the Tracadie

Hotel here a few days last week.  
Daniel O'Neil who had been with  
his son John in Bonaventure county  
for some time returned to his home in  
Waterloo recently.

Fishermen also had much extra work  
in drying and curing their fish, and a  
good part of the output is inferior,  
bringing poor prices in the market.

B number of lumber woods foremen  
were here recently hiring men for dif-  
ferent lumber companies in Campbell-  
ton and Bathurst. All complain of men  
being hard to secure.

After considerable difficulty the dif-  
ferent schools are now supplied with  
teachers, Miss Nellie Meahan of Bath-

## TOWN TOPICS

A new flooring is being laid on the Mill Creek bridge.

Wm Storey has been appointed janitor of the post office.

Heine L. O. L. No. 64 meets to-night (Thursday). All members are requested to attend.

Royal Scarlet Chapter of Restigouche meets in Campbellton on Saturday evening at 8 o'clock. Sept. 21. A large attendance is requested.

Yesterday morning about forty Italians and Englishmen arrived here from Boston to work on the International railway. The latter part of last week sixty-two arrived here for Mr. Malcolm. The construction work on the International is progressing satisfactorily.

A writ is to be served this week against the town in behalf of C. S. O. Crockett, publisher. The plaintiff alleges that the town shut off the supply of water for his motor without having a right to do so. O. S. Crockett, M. P. is acting in behalf of his brother.

Archibald Alfred and Daniel McDougall of Tide Head are separately working up quite a business in the export of pulpwood at that place. Mr. Alfred is contracting for the Eastern Townships Lumber Company. Both are putting in barking machines and intend carrying on the business extensively during the coming winter.

A delegation composed of Wm. Currie, M. P., P. A. Joudry, Ed. Alexander and James Reid Jr. appeared before the provincial government on Tuesday in behalf of the riparian owners in Campbellton who have been sued by the Quebec government. The delegation wanted the government to take the matter up with the Quebec government. Consideration was promised.

About two weeks ago Mrs. C. H. Manaton of Harcourt went to Montreal to bring home her daughter, who was an inmate in the Royal Victoria Hospital, suffering from an internal trouble. On the train Miss Manaton became very much worse and when Campbellton was reached it was deemed advisable to take her from the train and consult a doctor. Mrs. Manaton took her daughter to the Royal Hotel where the latter was placed under the care of a local physician. She remained under his care until yesterday when she had so far recovered as to be able to proceed home.

A drunken man attempted to force an entrance into the residence of John M. McLean, Chapel Hill, late Monday evening. Mr. McLean was out of town at the time and there was no one in the house but womenfolk. They were somewhat frightened, but succeeded in getting the police by phone. A policeman hastened to the house, but when he arrived the drunken man, supposed to be the one who tried to get into the McLean house was run in, and on the following day allowed to go with a warning.

Campbellton Division will meet next Monday evening.

It is expected that the winter time table will come into effect about the same time, as last year Oct. 15th. Not many changes are anticipated.

J. A. Stevens, chief clerk in Sup't. Price's office hopes to be able to move into his residence on Ramsay street, which he has been having remodelled, shortly.

A despatch to "Events", yesterday from Gaspe stated that Calhoun's mills at Barachois were totally destroyed by fire, Tuesday evening. No further particulars were given.

Work on the new wing of the hospital is progressing very satisfactorily. Two stories are now up and boarded in, and next week work on the mansard roof will be commenced.

As previously intimated in these columns, it is the intention of the School Board to have music taught in the schools. The Board has \$250 for this purpose in its estimates. It is altogether likely the teaching of music will be started next month.

A second ash pit is being put in at the Campbellton round house to facilitate the moving of engines to and from the engine house. It is much larger than the old one and will admirably suit the larger sized engines. It is now nearing completion.

The rooms formerly occupied by the late stationmaster, O. A. Barberie, over the I. C. R. station have been vacated and the place is now to be remodelled so as to give the Superintendent of the office accommodation, to provide rest rooms for trainmen and office for policeman.

A prominent liberal in the town suggests to "Events" the advisability of commencing at once, in this county, to organize thoroughly. The suggestion is a good one. Other counties are organizing and preparing for both the Provincial and Dominion frays. Why not Restigouche? It is always well to be prepared.

A. McG. McDonald received a telegram, Tuesday evening, announcing the death of Robt. Watt at Dominion No. 1, Cape Breton on that day. Mr. Watt who had been in ill health for some time, formerly conducted a general mercantile business in the town now occupied by Geo. G. McKenzie & Co. He left here about eighteen years ago. Interment is to take place at Bridgeport, C. B.

The shooting for the Shives cup took place on the range, Tuesday afternoon. John T. Mowat won the cup with a score of 79. It will be seen, therefore, that the scores were not high, but this was due to a high wind and a variable light. The following were the scores:—John T. Mowat 79, Thos. Carter 76, Capt. J. White 74, W. I. Cates 73, Arthur O'Keefe, 70, J. R. McKenzie, 69, H. Prichard, 69, A. D. McKendrick 68, Arthur McIntyre 68, Geo Sargent, 68, L. G. Pinault, 67, Arthur T. LeBlanc, 66. The Provincial Rifle Association's medal will be competed for on Tuesday afternoon, commencing at 1 o'clock.

A number of the members of Campbellton Division went down to Dalhousie, Monday evening and met with Dalhousie Division in their hall. Notwithstanding the fact that owing to some misunderstanding the visitors were not expected that evening, the Dalhousie folks right royally entertained their friends from Campbellton. A good programme, consisting of dialogues, a short drama, and solos, was well carried out and ice cream and other refreshments served. A most pleasant time was spent in games and other amusements until the departure of the branch train to connect with the Maritime, on which the Campbellton folks returned home, loud in their praises of the way in which they were received and entertained by Dalhousie division.

## TALES OF THE TOWN

A certain Restigouche County doctor is not a man given to ostentatious terms—his opinions are usually expressed in simple phrases, easy of comprehension by even the simplest person. Recently, however, he indulged in a "big" word, and it is not likely that he will do it again.

Among the doctor's patients are an elderly couple residing on the outskirts of the town. Recently he was called to attend the wife, and when he arrived found her in bed, but with nothing definite the matter with her—one of those cases where a simple remedy is all that is required. The simple remedy was prescribed and the Doctor started to leave. On his way out he was stopped by the husband.

"What's the matter with the Missus, Doctor?" he anxiously inquired.

"Oh, just a little idiosyncrasy," replied the doctor, interested in getting to his next patient.

After he had left the house he was hailed from the doorway, and the husband looking more worried than before, hurried after him.

"Doctor," he said in pleading tones, "tell me the truth, I can stand it. I want the truth. How long will she live with that?"

A new siding to hold fifty cars has been completed at the west end of the Campbellton yard.

## FIFTEEN YEAR OLD GIRL DROWNED AT NEW MILLS

Josephine Mahoney Was Returning to Her Father's Vessel in Small Boat When She Was Drawn Overboard

BOATSWAIN'S HEROIC EFFORT TO SAVE HER

A particularly sad drowning accident occurred, last evening, at New Mills, when Josephine, the bright fifteen-year-old daughter of Captain D. W. Mahoney of Parreboro, N. S., lost her life.

Capt. Mahoney's vessel, the barkentine Ladysmith, is loading lumber at New Mills for the Prescott Lumber Company. She is lying about a mile off shore. Last evening the captain, accompanied by his daughter, went ashore in a small boat, for his mail. They started to return to the vessel about 9.30. There was a heavy sea and the boat rolled and pitched considerably, but the vessel's side was reached in safety. In going alongside the boat fouled with the vessel in some manner. The Captain started to fender the sail and his daughter

took the tiller. As she did so, she grabbed the ship's ladder with the other hand. The boat had a good deal of headway, however, and the girl, not letting go, was pulled out of the boat. The boatswain, who was standing on the deck, witnessed the accident and at once jumped overboard, but the girl sank before he reached her.

Captain Mahoney and his elder daughter, who is also on board the Ladysmith, are nearly beside themselves with grief. Josephine was a particularly bright, vivacious girl and beloved by all who knew her.

Men are grappling for the body to-day. The affair has cast a decided gloom over the little village of New Mills.

## GASPE GOSSIP

On Tuesday night a dance was held in the Ladies' Hall. The affair was carried on till the early hours of the morning.

The weather here has taken a decided change for the better and we hope to have a few days sunshine.

A very sad accident occurred here this evening owing to the thoughtlessness of a cyclist. A young lady well known here was waiting in a rig on the road when a cyclist went past at full speed. The horse took fright and bolted. Dr. McCarthey and Mr. Williamson of Sandy Beach saw the rig approaching and the latter attempted to stop the horse, but was unsuccessful. The lady then jumped and in

falling broke her leg, but luckily the doctor was on the scene.

the people of New Brunswick that which the courts have handed down to the provincial governments and individuals alike?

"Riparian fishing rights are most jealously protected and guarded by the courts and tribunals of all countries.

"I take issue with the Telegraph that there are similar enactments to Quebec's in several provinces and challenge the Telegraph to name one province outside of Quebec where any such arbitrary act or regulation has been adopted or put in force.

"It seems to me, the Dominion government should render such an act null and void and relieve property holders of again having to fight and kill it through the courts for themselves.

"The rivers and lakes of Nova Scotia are practically free. There is a license tax of \$10. on all foreigners for fishing, British subjects being exempt. There is no tax in Prince Edward Island and no license for fishing in New Brunswick.

"Citizens of the province of Quebec are to be seen most any day fishing trout and smelts off our wharves and along our shores. Have they ever been asked to pay \$10. for the privilege or threatened with a writ? And I believe I am correct in stating that the small fishermen in the province of Quebec come over in winter to our waters to fish. At any rate they find a ready market for their fish and all other kinds of products from the people of the province of New Brunswick. We do not object to this. We do ask for a little fair play.

"The Telegraph again complains and says—Great difficulty was experienced in the way of enforcing the new law by reason of the Campbellton poachers making brief excursions into the province of Quebec. The Telegraph must here be referring to the annual canoeing excursion held by a number of Campbellton ladies down the Matapedia river. As there are boys under age sued for trout fishing on private property in tidal waters it is just possible that some

pelled to go away without his daughter.

Accompanied by little Flossie, Mr. Stewart hastened to the law office of James H. Harquail and engaged him to bring action for the recovery of his child. The distracted husband left town two hours later and his present whereabouts are not divulged. Later Mr. Harquail engaged W. A. Mott, of Campbellton, as associate counsel, and the case, which will come up shortly, promises, as has been stated, to be sensational.

Following the scene in the house of the Rev Mr. Bate, that gentleman felt that he had a case of trespass against Mr. Stewart and sought the advice of W. A. Trueman, barrister Campbellton, but as Mr. Stewart had gone away nothing was done.

Mr. Bate also telegraphed to Mrs. Stewart in New York to come on, but so far she has not done so. The child is believed to be still in the care of Mr. and Mrs. Bate.

Mr. Stewart is about forty-five. His wife is younger. Both are natives of Ontario. Before going to New York, Mr. Stewart was on the staff of the Montreal Star.

of the fair ladies of the town may receive a surprise in the the shape of a writ.

As to the brief excursions of the poachers into the province of Quebec, I understand Mr. A. E. Alexander has spent several months of his time each season, for the last two years residing at his home at Millstream, where he fished on his own property. When notified by Mr. Baker, superintendent of the Restigouche Salmon Club, to pay his license he told Mr. Baker and the Department also that he would not and that they could find him at any time at his home in Millstream. He is probably one of the brief excursionists they speak about.
